

388th Knowledge Seekers Workshop

Key Words

July 8, 2021

Note: Summary has not been checked by KF. Please listen to original recording and read English Transcription after the post. (Summary by KF Brazil)

Vienna Talks Final Push for World Peace
Will Enforce Peace if Needed - can shut down communications
Advanced Nuclear Plasma technology different than Nuclear
Purified Plutonium needed for Space travel Iran is key
Our souls connected to the brain of Unicose
Physical emotions go back to Soul of Unicose
Our actions dictate our future
When you kill soul starts process of balancing
Kingship forbidden STM must be independent
Some fields always get reflected back
Star light is 2 dimensional we see each other
Travel on the feedback light fields
Systems will be introduced to show new dimension
Soul of Universe has brain structure and created emotions
Interaction between nerves and blood give feedback - balancing
"Pins and Needles" are a feedback loop
Body works as One Entity
Killing has to stop or re-infects whole entity
Man is responsible to elevate all souls on planet
Collective purity
Create systems to connect STP and STM ; man jump to higher level
We'll have option to be in physical or soul dimension
Time of Mitra has come
We are all equal and part of a structure
Races that don't live in physical dimension evolve quickly
Why we have a brain - transfer fields to rest of Unicose
Vienna Talks Knowledge in exchange for peace
Americans want access to Iran's nuclear T
Need high level purity Plutonium for deep space travel
We'll enforce peace
Purpose to put clergy on top - STM and STP as One
Final push for peace
rapid evolution in Science through common media
I have accepted the responsibility - immediate release of T
Release knowledge in one go
It has been preplanned
Mankind under microscope

No race will very be allowed to kill like man again
Creator learned from His mistake
We learn by feeling the pain of man
Clergy Showed themselves to be as bad as those Attached to Physicality
Accept our Conditions for Peace or we teach so rapidly 92% enrichment
Total Disarmament even guns to stop killing
We don't see much life left in Vatican
You Decide what race you want to be - and change to
World leaders will meet very soon in Tehran
We Plan Centuries in Advance - Vienna Talks will be remembered
The time of what we call, "milk and honey" has come
Nothing Matters Except Elevation of STM in both Dimensions
We Asked Iranian and American Leaders to listen today
If you don't - We'll Force the Knowledge Across the Planet
Better if Man changes himself - forever - Otherwise Police Force
Chinese Russians Understand Beauty of New Knowledge
Have to Tame the Untamed Child
Cleanup Mess Trump made of Vienna Talks
Waiting for new Iranian government to start Vienna Talks
400 Billion Contract between China and Iran
Germans Violating Nuclear Agreements through Brussels
Israel afraid of Iran's nuclear advancement
Extend 5 Plus 1 to include Japan and India
Make it Scientific Organization to include 90% World Population
Need Plutonium Radiation for Space Travel
Iran's Nuclear for Space Travel and Not Weapons - as Americans trying to say
We can paralyze every Navel Warship to its Base
We'll lead from the front
Do not expect to see the KF in front line in conferences. We never took the front line,
unless we are asked to do so
KF Does not borrow money from outside - Keeps independent
Future heads of KF - Stay Independent let no organization dictate
Palestine will Include Israel as a state within - not 2 separate states
Problem sits with Israeli government not Jewish people
Use to Teach KS but they left and thought they cheated KF
Teaches World Leaders to use technology for peace
Bitcoin Miners Abusing poor countries for cheap Electricity
Trump Blocked Markray - sorting out
Germany is Biggest Block to Markray - resolve in Conferences
Listing on the Frankfurt and Chinese stock exchange
Pedophile Groups after KF because of 6 years ago mass arrest
Austria was one of the main centers of trafficking from the Eastern Bloc
When you Detach = You Love Everything
When you become detached everything is loveable
Arrogance of Knowledge
Mr. Keshe Personally make Pain Pen Products Gans Mixtures

Knowledge Released when Clarity and Detachment
Mr. Keshe Teaching never Stops - after death a physical condition

ENGLISH TRANSCRIPTION

(:10).

K- .. It's becoming very interesting how Knowledge Seekers (KS) refer to each session Such and such a public ... (:12). We have established a ground for referring back to and expanding the knowledge. This is part of our work to bring knowledge, freely accessible to everyone, that in time of need one can decide how they can use the knowledge to their benefit. be it on the health, .. space, producing conditions for them to have a better life, or creating a better life for the others.

KF Knowledge Seekers (KS) have become the cornerstone of knowledge many, many organizations, they learn from it, they add their knowledge to it, and they expand it in new dimensions and directions. We see a lot of usages of KF T by different organizations and applications and we have started asking them to join us, to show how they use it, how they benefit by it, and how we can use this knowledge collectively to make a better life.

In past nearly 2 years we have targeted on the development understanding of the inner system working of the man himself. As man is too physical he was interested in the MaGravs, in Cups of Life and everything else.

Teaching Starts

Physicality is controlled by STM which is controlled by Creator

But in essence we try to bring a new dimension (D), a new understanding, a new way of thinking about yourself, more than the physical D, and understanding that the **physical D is controlled by a central station, is called the STM, which again itself, is controlled by central station, what we call the Creator.**

Through Emotions and Brain we connect to Soul

In a physical D we connect ourselves through our emotion and our brain to what we call our soul. And the same goes with our soul in position and D connects itself, (:14). to a higher D. More inner sanctums of life.

STP and STM give Reaction Gap to Its Environment - Brain

In a way, if you look at it, we use the .. physical soul and the cells of the physical brain .. to, in a way, **create a condition of interaction between the energies of the STM and the STP, to give the physicality of the man a reaction gap, that how it will react to its environment.**

Same Thing Occurs between STM and Soul of the Creator

But at the same time, the **same thing exists between the STM and the Soul of the Creator (STC) in that gap, what we call the brain**, or the process of the conversion of the fields and emotions, both the Creator and the man receive the same emotions.

We Connect to other Souls - to the Brain of the Unicose

So in a way, we **upgrade, we transform energy one level higher**. In a way, what we see is we use the brain .. in a much more condensive way to create a fast interaction between the energies of the STM and the STP .. and in that interaction we create emotions, or reactions. But the same thing exists, the STM, what **it receives from interaction of the emotion of the physicality, it receives and it transfers that, in its position and condition, in respect to the other souls**. In a way, they are what I call, the **brain of the Unicose**, the brain of the Universe. And in that process it interacts with what we call, the soul of the existence of the U, the totality of the dimensions.

Our Physical Emotion go back to Soul of the Unicose - Creator

In a way, **our physical emotion creates a physical reaction in our physical body, but at the same time as it transfers energy back to the STM, (:16). that energy, that emotion, it creates a secondary emotion and reaction between the STM and the soul of others, and the totality of the Unicose soul, the Soul of the Creator.**

Our Actions Dictate our Future

In a way, now for the first time we understand. **Every action has a reaction**, and that reaction it places us and positions us in the Universal Community. We decide how we interact and than we decide to what extent that interaction, **without us knowing will dictate our future.**

When you Kill - Soul starts process to bring Balance

When a man kills a man then he thinks that's it, I am a soldier I am being told to shot, I kill. But the soul has seen the other soul, which is killing, then **that soul sets everything up for the STM you have taken the life of, to balance with your soul. In the future, out of nowhere you loose your child**, gets shot, out of nowhere you find a loss, and then you say, "oh, this accident happened." There was no accident, **there was no coincidence**. The balance of the souls, the emotion of understanding. **The emotion of the presence, brings that condition of what I call, balancing of the souls in respect to the STP and the emotion, which has created that condition.**

Kingship Forbidden - No Right - STM has to be Independent

This is why we forbid kingship, because in that process one decides on other peoples life which has no right to. A STM has to be independent. The STM has to be the king

of itself, physicality, in line and direction of emotion, with emotion of his creator. The bigger structure.

Nobody Works Alone - All are part of a bigger picture

In so many ways, mankind comes to understand there is a **bigger picture. I work, (:18). as a self-employed businessman, but I am actually a member of a big company. My wages are paid by their action**, and not just me thinking, I run a ?? plug and job and I get paid. The whole structure is how we plug our system to each other. **How we allow the flow of the fields** of what we call, the water, to go through the physicality of the man, through the blood .. , through the emotion of the man, and then in **its interaction of what it receives to the soul of the Creator.**

Fields that radiate to earth get reflected back to sun - space gap is Brain

In so many ways, mankind **has always looked at his end, has never looked at the other end. When the rays of the sun radiate on earth, some of it, for what is created radiates back on the sun too.** Then that creates the interaction between the earth and the sun. And how things will take place, and the human being always looked at our own end, the interaction of the fields of the sun and the earth, creates light on earth, but that itself, **those fields are not in one-way direction** and D, some of those **fields get attracted back by fields of what we call the sun. And then the space gap between the sun and the earth becomes our brain cell. What emotion we create.**

Our Light also shines back on other side - 2 dimensional - same information

Many times in the D of the physical cosmology and what I call, science of the cosmos. Many scientists have never considered this. **We always look at the light, what we see from our end. If that light is created it is 2 dimensional. The others on the other side see the light too. and so that same information, that's the emotion, that our light has created and gives back, (:20). to them.** If you understand this then you understand **STM shines in front of his Creator.** You are not the only one who sees the beauty of the Creator, but the emotion of our interaction with our Creator shines on Him too.

Travel on the Feedback of Light to Creator

This is what mankind and in the future in the space T will understand. This is where if **you understand it in a bigger D, and you can create that interaction, you travel on the feedback of that light to the Creator, to the point of destination you want to go to.**

Travel on the Feedback Light of the Star to any dimension

When a star shines on you, it's not that you only see the shining of the star. **You shine in front of the star too. So you can use that feedback for travel back to the position and the D** and the direction. This becomes as part of the understanding collective and total

understanding of the transportation and transmutation and connection between D of the STM, the physicality of the man. Man transporting himself through the D of the U without burning any fuel, because what we say is, **what we see, is being seen too, by the other side we have looked at. The same strength as we have taken from the D we can use to travel back to the D we want to be.**

In a way, mankind will learn new ways of traveling. New ways to connect the physicality and the STM and understanding of the creation in the D of the physicality and the Soul of the Creator (STC) together.

All the Teachings will Come together in one go - Many will understand

This part of the teaching is what will come to many of you, where we start bringing the D of the physicality, the D of the STM, (:22). the understanding of the knowledge of the creation and the Creator, transportation and transmutation all together in one go. It's time for mankind to elevate not only his knowledge, not only his soul, but to **understand how to interact, how to bring the 2 together to enjoy a new D in life.** In a new D in the world of the creation.

We'll Introduce Systems to Show this new Dimension

In so many ways, **gradually we'll introduce systems that allows you to see**, to understand this transportation, to understand this new D.

Soul of Universe has Brain Structure - creates emotions

That's why you have a brain interacting with the STP and STM. The STM creates interaction with the soul of the Universe, and it has a brain structure, and that **interaction creates emotions. It creates motions and directions, and if one doesn't work, the other one works for it.**

Interaction between the Blood circulation and Nerves - give feedback - balancing

In so many ways, if you look at the physical D of the man, **we have the same process. We have a feedback, we have a condition that if one dis-balances, one gets alarmed, one gets ?? to talk. In the body of the man you have the blood circulation which carries the emotions, and then you have the nerves system which defines interaction of physical D, of the transmutation of the emotion to physicality.**

Pins & Needle Feeling is a Feedback system G and M

In so many ways, what you see is the same, **one is G and one is M, and when the two dis-balances**, we see, we feel and we understand the dis-balance. When for example, when you put your arm under your body and you block the blood vessels, we call it, **"pins and needles."** But where does it come from? The reality of it is that we disturb the balance flow of one in respect to the other. (:24).

Blood and Nerves send Electric Shocks when there's an Imbalance

The **neural system receives its information that the blood system does not carry any information** which it usually does, so gives, ?? seems to be dead. So **the difference between these two creates the electric shocks, what we call, pins and needles.** Now we understand this process, so we can understand further **we can call one G and one M and they both have to be consistent**, they both have to be in position and **possession of each others information to be able to function correctly.**

We can create system to show this feedback interaction

This is where **mankind will come to learn he needs bigger D of understanding** of even his own existence. Understanding the totality, understanding that the life of the man is replicated in every D and in every condition, and every structure of the life. We can create conditions to show where it is, how it is. **We can create systems, we can develop facilities for you to be able to understand it, and see it.**

EU where Physicality Meets STM - Intelligent interaction between 2 systems

This is why for example in the **Enhancement Units (EU)** we say, **this is where the physicality of the man meets the STM**, because we create a communication not only with the STM and the STP we facilitate the new D of existence, that it can bring, what we call, what is shortfall. **What is short in understanding of the totality of the connection between the two systems.** In so many ways, the new space systems, the new understanding of the T is very simple. It's us who has made it difficult for ourselves.

How the Body Works as One Entity

In so many ways, **the whole body of the man has to function correctly that all the information transferred, translated and acted upon becomes one.** That the body of the man works as one entity.

Killing has to stop or it Re-infects whole Entity

This is part of what in many teachings we say, that mankind **needs to walk away from the behavior of killing**, because if one cell carries that process, the rest can get infected, the rest will receive the information and energy and they convert.

Soul of Creation is One Brain One Structure - mankind is a part of

This is why we have strived to create a peaceful man out of the man as totality, **because the soul of the creation is one brain, one structure.** We have to make sure the whole structure carries the message. This is one of the reasons in the upcoming positions and conditions which is created with the KF, we start creating condition, that **not only the ordinary man, but the world leaders understand, that there is a need for a total**

condition of peace, peaceful understanding and behavior of the life that humanity as a whole can go to the next step.

Man responsible to Bring Totality of Beings on Planet to Peace

The **responsibility of the future leaders of man is to create that condition**, that condition that **the whole what we call the brain of the humanity, which is the totality of all these beings on this planet, because man with his intelligence, which is responsible for the totality, works in the same way, in a peaceful way**, that allows the peaceful interaction of the soul of the planet with the soul of the U.

Man as King of Animals responsible

Now is not if we come to understand and **become part of the UC as human race, but we as a planet, we as an ant, we as a lion, we as a bird**. Then we become responsible for this understanding. (:28). It's the burden which we accepted, **we called ourselves "the king of animals," and a king at this level needs justice, correct behavior, needs to be equal to all**. Don't do what you don't want to be done to.

This is Part of Process of Elevation of STM - human race

This is part of the process of elevation of the STM. This is part of the elevation of the soul of the human race. And this as a whole is the part of the elevation of the totality of the planet, what we call soul, **in respect to the soul of the U**.

It's no use treating the cancer in the liver when the cancer is already exists in the brain and the stomach. The cancer of killing, .. destruction, .. destroying whatever is in the man's possession, that it will destroy and kill to get more. **To steal from another essence of being, because the man is that liver, what about the stomach, which is the plants and the rest. What about the birds which are the heart and the rest of us**.

We are responsible to bring collective purity

Now we understand how **collectively and individually every soul is responsible to do good, to act good, and to think good, and in that way it brings the promise of purity in collectively behaving the same**.

Create Systems to connect STP to STM

In the coming time we'll **introduce the systems as we are developing more and more of, to facilitate for more people to be able to create that connection between the STP and the STM and then the soul of the human race, then the soul of the community of the planet earth, and the STC**. (:30).

Create Systems to help Man jump to higher Levels

Jumping from 1 to 2 to 3 levels higher is not easy, unless you are elevated and understood how to reach to the inner sanctums of the energy of the PI of the STM. In a way, **from now on we start introducing 2 new systems** one in the physical and one in the D of the soul, **that gradually mankind will jump that barrier**, .. becomes aware of the essence of his creation. His responsibility for his claim to be the best, to be the top of what we call, the structure. Getting to the top a lot of responsibilities. Being the king of animals has more responsibilities to be correct, to be just, and to be able to keep that there is no kingship.

Reached Pivotal Point - You are Responsible for Every Step

In so many ways, **we reach the pivotal point of connecting the physical D of the man to the STM.** In a way, step by step, very tender positions and movement bring you and the human race into the D of understanding to be, to touch, not only your soul, but the soul of the planet. To become to understand that **you are responsible for every step you take.**

We'll have Option to do Both Physicality or Soul

In so many ways, mankind from now on, from the teachings we will have, will have the option of the both. In a way, **he has to make an option of both. You have no choice, because the knowledge is rapidly dispersing, and the knowledge rapidly is given to man in different shape and form for him to reach the pivotal point of bringing the STP, STM, and the soul of the planet, and the soul of the U, and the STC all to work at the same time.** (:32). Now we are aware of it. We are responsible for it, **it's no use brushing it under the carpet.** This carpet does not exist. The carpet of, "I do what I like," and the carpet of, "I create and do everything for the others to pay for my misconduct," is over.

Time of Mitra has come - True Meaning

In so many ways, in truth **the time of Mitra has come. In the future you will understand and we'll explain to you what the true Mitra means.** The true essence of the creation, to be created as part of the Creator.

We are part of Structure - We are all equal

In so many ways, **we hear the instructions and now we have the manual, and we found out we are part of that manual. We are part of that structure.** In so many ways, we cannot deny it, there is no room for me as human being, and animals, that we are all animals, there is no need, there is no room for me being better than others as we are all the same, and the same process down the line. **We have never seen the Creator say, I am the Creator and you are the servants and do what I say.** We serve to be close to, not him, for us to be told what to do.

Pivotal Point - Connection to Universal Community

In so many ways, mankind has reached the pivotal point, the **ultimate goal of understanding his physical existence and the D of his soul's. The connection to the UC**, which he always have been part of, but he has always denied. In so many ways, mankind has become a kind of man that he has to decide what kind he wants to be. (:34). and then we choose our position, the place, and D. We stay in the rat race of striving to survive everyday on this planet, from pole to pole .. one day after another, or we decide to become part of a bigger community, that we can travel the span of the U. We have no need to worry for what it call **meager 1,500 calories, that 1,500 trillion calories in small part of the U is waiting for us**. It's us who has chosen the crumb, when the cake has always been on the table. It's us who has decided to live this life, as **we unite the rest of creation and the Creator**.

Races that Don't Live in Physical Dimension - Evolve Quickly

This is the point where we see some races in the U evolve very rapidly in the D of understanding the totality, as they don't take the direction of the physical life, but they take and understand the fields of the U, which has created them. They never take to the D of the physical existence, but they **with their intelligence become part of the fields of the U to exist. They are not citizens of a planet or a solar system**, or a galaxy or a U. They are part of the existence of the totality of the Unicose.

Mankind will Meet these races as Lights - Knowledge Beauty

In the **future mankind will come across many of these, where we see them as lights, .. in a condition of interaction with our soul as feelings, emotions, knowledge, beauty**, and in that process mankind will **strive to understand** that process.

Why we have a Brain - Transfer fields to rest of Unicose

In so many ways, you will appreciate **why the human being has a brain, why, what is the purpose of the brain of the man, (:36). and how it can be used for the further understanding of totality**. You do not create another brain in the D of interaction between your soul and the soul of your friends, or the U. **The STM in the inner sanctum of his energy, because he is within the M field of the blood .. which is in a plasma condition already exists, already interacts**, but we chose the physical interaction of it, as the body of the man, instead of choosing the soul and energy side of it, as what we call, the soul of the U and Unicose and Existence. Now mankind become, to become **aware of both dimensions**, .. responsible for both, because the interaction and reaction of one is responsible for the fields, which is **transferred to the other, that interacts with the rest of the Unicose**, the rest of the UC.

Travel in Every Dimension through the Fields of Universe

In so many ways, **you can take the high road** and get yourself on it with a donkey or a car, or you can go on the highway **of the soul and the fields of the U and travel in**

every D and direction. Mankind in the coming time will become very wise to understand both, and this has been part of our teaching in past times.

Start Process of Universal Peace - No Nation will be Superior

In the **next few weeks we will start the process of universal peace.** In the next few weeks we will lay down the condition for world peace and we interact with it. We have opportunity, we use that opportunity as we are given and we take this to bring, **what we call the leading nation of world to be equal to the others.** We bring to the world leaders the understanding of a simple fact, (:38). that there is **no superiority in power with guns and arms, but there is a superiority to understand the evolution, and understanding of the life of the man in the space.** In the space of his own soul and D of understanding of his own soul.

Vienna Talks - Knowledge Exchange for Peace - Iran Leads Way

In the **upcoming talks with the Americans, Russians and the Chinese. The Iranian leadership will set the new world peace pattern. This is the way we said, knowledge in exchange for peace in Vienna talks,** and we take the lead on this. In that process we change the direction of the humanity.

Americans Want Access to Iran's Nuclear Technology - Peace on Planet

It's very simple, **Americans want access to the nuclear T of Iran, which is based in the space T, we ask for peace on this planet.** Knowledge in exchange for peace. The advancement in nuclear T has been a tool for us to create the condition of peace.

Plutonium for Deep Space Travel - We'll Enforce the Peace

Many of you looked at the pitfalls and everything else in past years, but we looked at it as a position to achieve peace through the condition of understanding of totality. We lead from the front, the knowledge and T of the nuclear space T **using Plutonium and Uranium for depth of the U travel, understanding the work of the STM in exchange for the totality of disarmament of mankind on this planet. We will achieve it and we'll enforce it.**

We had purpose to put Clergy on Top - Show STM and STP as One

In that process the use of clergy, the Popes, the Vatican and the rest has been a way for man to understand that we bring the STM, and the physicality of the man and the world leaders together as one. We had a purpose to put to clergy at the top. We had a purpose to show that the STM and the STP is one, and we bring that position.

It's the Final Push for Peace

As we say, they have served a purpose. (:40). **It's now time for us to bring the final push. To bring the understanding of the knowledge of the man in respect to the religion and the STM together in one**, that we push for the final frontier of peace. We have worked for this for a long time and now we will achieve it. **There is no choice.** It's just that the whole thing had to be put to the position, that everything we wanted is ready for the final frontier push to reach and achieve peace.

When you can deliver thousands of people in the borders in the nations and the capitals of the other, by teaching the totality to the human race to do, mankind will rapidly find a solution for peace. **Mankind will understand there is an end to the frontiers, and the only frontier for the man has to be between himself, his soul, and soul of his Creator.** In that process within the coming time the whole of the human race will evolve into the new understanding of grasping, holding, and ?? the world peace. **What it means, peace within the STM and peace within this planet.**

Rapid Evolution in Science and Technology through common Media

We see the evolution in science and T will be so rapid, that the comprehension of the new understanding becomes easy. We will help and we work with different governments of present times to push every nation on this planet through the common media and through the STM to reach a new D.

I have Accepted the Responsibility - Deliver T for immediate use

I have accepted this responsibility and at the same time we'll deliver in Vienna talks space technologies, which the Americans could not even dream, on the table, immediate usage. The same goes for the Chinese leadership, and the same for the others. In this way, (:42). we destroy the barriers of what we call frontiers of nations, and with it **we enforce peace through understanding and sharing of the T.**

Release Knowledge in One Go - No One Superior

We open the knowledge of the nuclear atomic physics of Iran in the space of the D of the what we call, agriculture, health, energy and the rest in one go. Which we do not allow nations to have time to take advantage of the others to be superior to the others.

It Has All Been Preplanned - Nuclear T Billion Years Old

For years as a nuclear **physicist I did not become just one, it was a preplan**, exactly where we can, deliver the knowledge where we want it. To you nuclear physics has been something new, but **to us it's a billion year old knowledge and T.** We knew and the way we did to bring collectively the human race to the position of understanding of his own soul, and **with it to set the example for the rest of the creation and Creator in the U.**

Mankind is Under Microscope - Ancestors made the killing machines

In so many ways, **mankind is under microscope, the behavior of, the understanding of, the way you talk about the history of our ancestors** and other things, in the U we **speak about mankind and his behavior, and the ancestors we used to have who made the killing machines** and now we have change.

No race will Ever be allowed to Kill like Man

In so many ways, **it will become ingrained in the totality of the life of the U, that no race will be ever free, developed, created and nourished to become a killing machine as the man has become.**

Creator Learned from His Mistake - Man is last race to Kill another soul

In that **process the Creator has learned himself of the mistakes of His own actions in believing that everything will be perfect. Where in the process of interaction of the fields some things went out of control, and it took its own shape. But He watched, (:44). and He controls, to understand it, that it will not happen (again). The race of the man will be the last race in the U, which shall ever commit to destroy another soul or another life.**

We have to Learn by Feeling the Pain of the Man

In that process **we have to learn. We have to feel the pain of the man,** as much as we have to learn about the man himself, how the fields of the emotions in the structure of the brain of the man, creates such a condition, that it cannot be done again.

We End Leadership by Fear and Killing

In so many ways, **all the teachings, all the knowledge of the man over thousands of years has brought us to this point. We are moving to the final frontier of peace through bringing all the world leaders, all the nations to become one, and we end the kingship. We end the leadership by what I call, fear, killing , and the rest.**

Clergy Showed themselves to be as bad as those Attached to Physicality

And we couldn't do it any better, by **allowing the clergy to be head of nations, to show they are as good, and as bad as those we are attached to the physicality.**

In so many ways, the **time has come to say good-bye to both dimensions both those who abuse the physicality of the man through leadership and those who abuse the STM. Abused it for their own benefit.** In so many ways, we set our scene to a brighter future in the coming time. We will lead through the Vienna talks directly to one point, T in exchange for peace with all the nations at one point, one time. **We teach the T in a rapid way to all the nations,** that it becomes impossible for one nation to take advantage

of the other, and this is the reason we opened our patent, that no patent exists. The knowledge has to be free to every man according to his ?? , according to his intelligence. (:46).

Accept our Conditions for Peace or we teach so rapidly 92% enrichment

In so many ways, I have one clear message as we told Americans to listen to today's teaching, we come to Vienna for world peace, and we enforce peace through our knowledge. It's the responsibility of **American administration and the Chinese to accept our conditions, or we teach so rapidly the knowledge of the nuclear industry, Uranium and Plutonium enrichment to 92% that allows the future of the space T to be guaranteed.** Knowledge and T in exchange for peace, through collective development, not isolated and insulated.

Total Disarmament even guns to stop killing

I have made this **very clear to Iranian government and the new government to come into position**, that our talks are very straight forward. Iran nuclear proliferation of the advanced nuclear T for the space, **in exchange for the total disarmament by all the nations, from nuclear to side arms to every other things which can kill another man.**

If Not - We Deliver it Ourselves

We have **assurances from the Iranian new administration, will be part of it. If not we take position and we deliver ourselves.** But we don't see that challenge. We see it as a point that the new upcoming conference in Vienna, the back of the 6 level talks will lead to the world peace, and we use this position and condition for equal knowledge for all nations.

In so many ways, my message to the White House and to Beijing, is very simple, the same goes to the Moscow, attend the Vienna conference after the new Iranian government takes over. We have a new message of peace. We will deliver to you, (:48). in the conference. **We do not want the conference to last more than 2 weeks. And we do not care about your sanctions, as you sanction yourself from the knowledge of the creation and the Creator.** The choice is yours. The message from Tehran is very clear, we become the messengers of peace and knowledge and from August on we take the responsibility fully to deliver this T.

In so many ways, **now we have seen the end of one cycle of injustice, with the justice.** It will be the **responsibility of the KS and the rest of humanity to understand this and not to abuse it.** Do not see the opening of the frontiers as another way to invade another part of the world to bring in balance the injustices of the past. It will be done, but everything has to be in the orderly manner, and in the way that we decide, that we all benefit by it.

We'll deliver technologies that have not been seen. We'll deliver knowledge that is unknown to man today, and with it we take all of us across the same barrier, and the same point.

In so many ways, **we bring the STP of the man, the physicality of the man, the STM, the religion, and the leadership of the man, all to one point**, to one common denominator to serve each other, and not to be separated from each other. It doesn't matter what color you put on the physicality and what name you put on the soul leadership, the Churches or the Mosques in the name of Islam, Christianity, Judaism and the rest. As they **all are in one line, believe in the line of the Creator and equality of the man**.

In so many ways, I warned the Iranian officials, (:50). 2 weeks ago that this is the step we take, and we shall take in Vienna. On the other hand, it has to be understood that this comes out of the strength of understanding the T and not the abusing the T.

We have not entered into the politic we have entered into the way of life of what we call existence in the U. You change it to any politic you like, but there is tick to it, and no poly in it, we work very direct and we deliver very direct in the upcoming meetings in Vienna. As the West, as the East, as the Russians, and Chinese, will be respected the same as with the Americans.

But one point is very clear, the way we see it. Is the Islamic world the path in the belief of Mohammad against the others, Iran has set ?? an example of. **Now Iran shows the beauty of Zoroaster in bringing peace and equality, in balancing the rest of the paths of the belief and religions to be one.**

In so many ways, **we don't see much life left in Vatican, .. in Jerusalem and the same in Mecca**, because they **all become one in the banner of belief in what we call, the Creator**. They all gave the same message, but the abuse by the others to the benefit themselves.

In so many ways, **we see the same in the world leadership for their own pocket, for their own corner of the planet. Now it becomes collective**, the knowledge will force us, and the knowledge will bring us to the point that we all value each other equal, irrespective of color race, religion and nationality.

With Knowledge - You Decide what race you want to be - and change to

In so many ways, we go back to what we set up, (:52). One Nation, One Planet, One Race, **it's you who has to decide with the knowledge you have, you want to black today and Chinese tomorrow**. You want to be in China or you want to live in Washington, this is the beauty of the new knowledge. **You decide your race, you decide your nationality or position to live, as you live under One Nation**. And when we have One Nation, there is no need for arms, .. for war, .. for understanding of this new mayhem, which man has created for himself is past centuries through the exploitation and

what we call exclusion of knowledge for the benefit of a few. In so many ways, we all become professors in the science of the Universe, and not from fake university of the man.

In so many ways, we have opened the door of the knowledge and today's message was very clear. We could not make it much more clear. The Vienna talks in the cycle of the August will become for all of you to watch, to support, as a human race to make sure your nations take that advantage of the new T and science in their own hand for all of the humanity.

As we have planned, the world leaders will meet very soon in Tehran. This is an invitation we make to all the world leaders. We appoint the time and the destination. The scientists and the leaders of the 5 plus 1, will be shown the advancement in T of Iran in Austria. You do not have to come to Iran to see, but we invite you to see exactly, directly what you are going to miss and what you need to do to be part of, there is a reason we always choose a place and a time and the situation. (:54).

We Plan Centuries in Advance - Vienna Talks will be remembered

We plan things centuries ahead, not the last minute. Everything for us is according to the plan, the place, and the space we've decided. The Vienna talks will be ever remembered in history as where the man changed from the D of physicality to understand the totality. It's not coincidental, it had to be, and we needed the last part which came for us with the implication and understanding of the man's knowledge with Corona, because he had to understand there is more into it in the new D of space T has moved into the understanding of the human race.

In so many ways, we are not walking away from the responsibility, but we are taking our responsibility directly to the world leaders, to accept the responsibility, that they are responsible for peace, they are responsible for providing in the true way, but not by creating more harm and suffering to the others.

The time of what we call, "milk and honey" has come, but depends who is milking the cow, and who is looking after the bees. In so many ways, we are responsible for both and it's the responsibility of our soul and physicality to make sure the both the honey and the milk are abundant to all of us, irrespective of our position, being a plant, a bird, a man, or an entity from deep space.

Nothing Matters Except Elevation of STM in both Dimensions

In so many ways, **we are reaching to the point that nothing in the D of physicality matters, except the elevation of the STM in both dimensions the physical and in the STM.** And I hope that today's teaching I've made it very clear where the KF sits, (:56). and that's why we stand here so solid and resolute to deliver the final stage of what we see as the beginning of the next steps of the evolution of science of man, which is the

science of the creation and the Creator, not the science of material state as the man has become ?? in the past thousands of years.

We Asked Iranian and American Leaders to listen today

In so many ways, my message to those who are listening, especially as **we asked the American leadership from the White House, and the Iranian leadership, the new leadership to listen at the same time.** Work together to bring world peace in sharing knowledge and influence around the world, that the knowledge becomes the king, and not the crown or the religion.

If you don't - We'll Force the Knowledge Across the Planet

In so many ways, I have made my point clear with both directions, and I have made it very clear. **Do not do what we wish to create condition of world peace, we will create it for you with forcing the knowledge across this planet. We have rooted deep enough to be able to do that, and we do not need no leaders, no religion to take it to the next step.**

Better if Man changes himself - forever - Otherwise Police Force

But if the man does it himself, man will change forever. If we enforce it, we have to keep a police force on him that he carries it on. We prefer the former than the later.

In so many ways, our warning goes to the WH, talk peace on the basis of knowledge with Iran, or the knowledge of Iran, which is the knowledge of the Creator, will bring you to be subordinate to the knowledge of the Creator.

Chinese Russians Understand Beauty of New Knowledge

We have no problem with the Chinese or the Russians, they have understood the beauty of the new knowledge and they work with it.

Have to Tame the Untamed Child

We have to bring this untamed child, (:58). to be tamed, and the rest of the human race with the knowledge and the beauty of the existence, that we all work in a rapid way to conquer the space. The space in the physical D, or through the STM.

I thank the Iranian leadership, especially the Ayatollah K of Iran and the new Iranian leader, which will take the steps towards peace in direction of the knowledge and T, and not with weapon. **We will show you why we enhance, and we have used the nuclear T as is needed for the development of the man's science in the space, and not for weapons. Weapons are for those who are weak, we do not have such a weakness. Not in the form of the Creator and not in the form of the man when we appear.**

Thank you very much for today's, and I made it very clear, to the American administration, and we asked you to be present in the teaching of today, and to the Iranian leadership, start the talk, we'll be part of it, **and we deliver the T to both sides, that all will be equal**, does not matter what race, color, or religion, you ?? cover the ?? table with, being a communist, being a Moslem, Christina, **or hidden in the name of the Judaism with a German flag, or American flag.**

We work all as one to make sure this process goes through in a very rapid way. It's time for the human race to move on to the next level, knowledge of the U and not alloys and a little push of the water to create electricity.

Thank you very much for today. If you like Rick you can go on the break ... (1:00).

(proofed to here >>)

>> BREAK >>> (1:05). 388 KSW

K- (1:06). The KF permanent Exhibition Center is completed .. by First week in August. **.. First conference of the space Development will be held at Linz in the first week of September 2021.** This will be 2 days .. start teaching you the advancement in space T. There the world KS can come in, learn and take back to teach. we work with World Leaders at the same time . We let the KS start setting up the first systems for deep space travel if they choose so. We provide
.. We teach you the basic understanding and T, and we will

We start making the first phase of One Nation One Planet. The first space workshop .
(1:08). . 4 and 5th of September ... in

(1:10).

(1:14).

Q: Salomeea, I start to teach
very long monolog

(1:18).

Did you hear me?

K- Yes, loud and clear.

For the KS who want to go for the space conference in Linz

(1:20).

Q: Gautua, ..

(1:22).

For the new Era of the KF .. like everyday we learn something new .. Perhaps you could explain what changes in Vienna when you from KF participants ... ?

Cleanup Mess Trump made of Vienna Talks

K- The **Vienna conference is the 6th round of works which they are trying to actually cleanup the mess which Trump created.** We were on course, a lot of things were perfectly on course, what was going on. But president **Trump decided through his son-in-law who is a Jewish, to give a favor to the Israelis. He one-sidedly went for his son-in-law to keep his daughter married as we call it.** He went for Iran and the process of peace with Iran. There was no reason for it, we could have done a lot of things in a different way.

Waiting for new Iranian government to start Vienna Talks

But in a way, it was the will of God, it had to be done that way that we get to the position we are in. **The Vienna talks at the moment are at a total halt,** because the present in Iran is in transition to the new one, and cannot make negotiate, and secondly it does not receive the backing of the Iranian leadership, (1:24). **as the corruption and fraud within the structure of negotiation is so huge that we do not, could not control it anymore.**

Every person **knowing the last phase of their talks in administration, they tried to milk the Americans for everything they could,** as they will get this and that done. ..

400 Billion Contract between China and Iran

Iran sits on one of the biggest contractual sign every known, in a way, **400 billion contractual agreement with China, which brings a new phase in Iran,** what we call economical position, and the Americans are not happy with this. But that brings a huge financial burden on Iran and the next generation, which has to be renegotiated with the Chinese. So the conference in Vienna is not just one-sided.

Germans Violating Nuclear Agreements through Brussels

Secondly we have received **a massive influence of the Germans in the nuclear industry, which should not be done according to the Second WW agreements, because it brings back to Germany, by proxy, enrichment nuclear T through Brussels.** Because they now have found a way to finance through SEK, which is the nuclear arm of the Belgium's into nuclear industry, **which is completely illegal, which is against the work of the UN.**

But the way we see, and the way we operate within the conference in the background, as you see us, we operate in the 5 plus 1 in the background, ?? up . It will be that the nuclear T will be shared amongst all the nations. We don't give advantage to no one. We are **not going to spring a surprise on the Americans,** and say we are going to do it. We

announce it, as we asked the White House and our people inside it, Oval Office connections, to ask the WH to listen clearly to the message today. **The peace talks with Iran stays visible and permanent. And we stay correct with, (1:26). but as long as ?? it is official to everyone at the same time.** You cannot stop the progress in science and T. Iran's nuclear T is far ahead of the Americans.

Israel afraid of Iran's nuclear advancement

In so many ways, **in being ahead has created a fear within the state of Israel, that they might be under the next strike. Iran has no animosity with the nation of Israel.** ... destruction method used for the others using, the way of thinking.

Extend 5 Plus 1 to include Japan and India

In so many ways, The knowledge of the KF in these cycle of peace talks will be knowledge and T in exchange for peace, but **we deliver the knowledge on and through the Iranian scientists.** We do not want to see the end of the discussions with .. the group of 7, which is 5 plus 1 plus Iran. And **we want to extend this to include Japan, .. India into the same.**

Make it Scientific Organization to include 90% World Population

We want to make a bigger group than 5 plus 1, but **make it a scientific organization that represents at least 90% of the worlds population.** For this reason 5 plus 1 has to be additional forces as a scientific organization to become very much the way we had economical interests set with G20. We become G9, G20 of scientific organization. This is the aim of the KF ?? .. government, and we'll lead this way. What we call G7 ... We want to create something like a G10, G20 of the scientific world organization that they see the knowledge spread and shared and balanced amongst all nations. (1:28).

This is the outcome of the 5 plus 1, the way we look at in Iran. It will happen only if one gives up first all its rights, but in the fairness that everybody else has it. We have volunteered to do this, **we have volunteered to share the knowledge fo the nuclear atomic energy of Iran with an open door policy with the rest of the world. Which means we want to show why we are purifying nuclear materials to such a high level.** Many of you will understand and understood in the teachings.

We need a process to be able to travel the depth of the U in a different way than today. At the same time we need to understand the process of maintaining and creating life in that process. **One comes from high level nuclear radiation purification that we need to do.** If you remember the first Iran space reactor developed in Tehran .. University used nuclear based T.

Need Plutonium Radiation for Space Travel

There are different ways, in the body of man we use B12 or B6 to create ?? to sustain life. **We cannot use Plutonium and Uranium. But B6 and B12 radiation is not strong enough for the space travel, to create and maintain long endurance creation of life plasma.** We need atomic nuclear Plutonium plus for maintaining the long strong fields for deep space travel. This is in the hand and reach of the Iranian physicist.

Iran's Nuclear for Space Travel and Not Weapons - as Americans trying to say

We will push with this. So **our preparation of the nuclear material has a space development T, not the weapons**, which the Americans with the Israelis have done and created to do. (1:30). But with this we'll create a new D.

We can paralyze every Navel Warship to its Base

In a way, we create systems that cannot be seen by the present radar. In a way, **we create systems that literally homebound every naval ship in their base.** As I said to a Chinese once, **I prefer to see all the American naval warships to become holiday camps, to become pulled ashore**, and travel people around the world to show, then to go around to kill man. And this we'll ?? in the coming months. I assure you, we paralyze every naval base in the world **if they are used for killing and terrorizing** and everything else. An army has to serve its nation and One Nation armies of the world forces have to support other nations. **They should travel without arms ..**

We take a different course, the Vienna talks are a turning point. **If we do not come to an agreement with elected officers of Iran, KF will take its own course to deliver through other channels.** our understanding in time with the Iranian officials is that we will go that way, and we will present. We'll show the technologies and we bring people for them to see that the T is not only in the hand of the government. This is why the workshops. I think when you attend the **first workshop in September you'll see a massive change in knowledge.** We open new dimensions, and new understandings with it we invite officials to come in to see. ..

In so many ways, we can accommodate up to 200 people in . but with the Corona present it is better for us to do it so. We try to keep a space gap ?? 30 which we have created now in Linz. (1:32). As a every week news center for world scientists to get together. ..

We'll lead from the front ..

Do not expect to see the KF in front line in conferences. We never took the front line, unless we are asked to do so. In the 5 plus 1, I always took a back seat, and had a full understanding and support to give when it was needed. So what we see in Vienna and ... Iran it will be

(1:34).

(1:36).

Q: Will there be live access or video access to conferences and workshops ?

K- No , not at the moment ... We keep these conferences sometimes totally under wrap because sometimes we'll teach things which we do not want it to be .. accessible to certain, especially to the scientists and the politicians. We

(1:38).

Q: Guatua, also include some African countries.

K- We will give opportunity to all the continents and nations. It is the same, both Africans, South Americans... This time we won't leave anybody behind.

Q: About KF Store can people pay with other forms ..

K-

(1:40)

(1:42).

KF does not borrow money from outside .

(1:46).

KF most prestigious centers and Manufacturing

Now we not only deliver the T but we manufacture it. We are making the most advanced centers and most prestigious centers around the world, and this all comes from the KF head office.

KF Does not borrow money from outside - Keeps independent

We do not borrow money. We have no facilities to borrow and we never look at borrowing facilities, as the KF gradually builds up its own structure. It takes a little bit longer but guarantees independence. for the knowledge to **stay independent and no government can force us to do anything**, but we dictate all our conditions.

Future heads of KF - Stay Independent let no organization dictate

This is important to KS, those who are in heads and running the different part of the KF, and for **the future heads of the KF, to make sure we never fall in the hand of no organization that they can dictate the freedom of the knowledge and T. My life has a limited time. But my advice to all of you is, never let no bank and no organization,** (1:48). ever, ever to have access to running of the KF, except the U Council, and the Universal what we call EC and the administration part of the KF. This is the key to our success and it has to be kept that way. It's important for us to be able to do this. We do not allow no government, and no nation to dictate to us. The future of us, and the future of humanity. In so many ways, what will be as part of our structure.

I share with you some pictures of KF China offices.

(1:50).

Any other question?

Palestine will Include Israel as a state within - not 2 separate states

Q; .. as a half Jew will you be able to interfere in the constant conflict between Israel and Palestine?

K- **We don't need to interfere, the T will bring the state of Israel to obedience.** When you live by the tune of fear you will do anything. The thing is **we believe in the state of Palestine, and .. includes state of Israel, not the state of Israel and Palestine.** I have explained this very clearly to my cousins and those in influential groups of the Jewish .. structure.

Problem sits with Israeli government not Jewish people

At the same time **we have to put a lot of animosities away, as Ayatollah K said .. we have no problem with the nation of Israel, the problem in the Arab world sits with the government, (1:52). with the way the structure to separate and .. create division.**

The state of Palestine has to be the center of all the religions, not the state of Israel over Jerusalem. It doesn't matter if you are a Jew, Christian, Moslem, or whatever. Palestine came thousands of years ago, and the Jews came after Palestine so it cannot be any separation, but we don't see what you say, an end to the state fo Israel, it can be there. The state of Arizona is there, as much as the state of Texas, but within the structure of the US. Within the structure of the state of Palestine, we see a state fo Israel can survive, but as part of a nation. The bigger nation .. part of the One nation One Planet.

(1:54).

Use to Teach KS but they left and thought they cheated KF

Q: Did Mr. Keshe say he will be teaching the next teachers ?

K- **We always taught KS and those who choose to become teachers stood out. And those who claimed to be teachers and then they walked away and they thought, that's it, I cheated the KF.** They balance the books at the end of it themselves. I used to teach a lot of KS individually in progressive development. When they learned something they walked away, they thought that's it, I don't need the teaching any more. I learned something I benefit myself.

We have seen this, especially the medical section. .. but the game is very short time. .. We always teach, we never taught Alex privately or Jalal, or other KS who are coming up. If you reach a level where you think you can teach, volunteer for the education side, but don't have much time. (1:56).

Teaches World Leaders to use technology for peace

At the moment **I spend a lot time teaching in the background the present and future world leaders of ?? peace ?? use the T for peace. I am spending a lot of time on the political and diplomatic front to make sure we achieve what we are set for.** The knowledge now is in the hand of KS, what do you want to develop, we have the research centers . Now we have expanded

(1:58). development in China. It's a collective work. we see Mexico going into operation middle of this month.

Bitcoin Miners Abusing poor countries for cheap Electricity

Any other question. It's very strange but a lot of you don't realize , but it is putting pressure on other nations .. in **Iran there is a crisis with electricity**, .. shortage .. Iran can supply 56,000 Megawatts per day. ..

But you people outside of Iran are into computer mining, **Bitcoin and the others. Because of the cheapness of electricity in Iran a lot of mining organizations have setup shop in Iran and are using 10% of the nations consumption**, and they brought crisis to Iran. Why should you lot make money on the back of mining, what you call Bitcoins where the Iranian nation suffers short of electricity. (2:00). As we know through our power generations systems and MaGrav which are tested around the world, we can introduce up to 30% of the supply. This is how we .. so we support the nation, we go in and deliver T which support the electricity ..

I said to the officials, we have the T to locate them and give them a good supply of plasma energy and see if their computers works again. (2:02).

Any other question?

Trump Blocked Markray - sorting out

Q: The blocking of Markray by the Trump Administration, has that been sorted now with the new administration?

K- We are talking. We don't disclose anymore. We are in the same position. We have to see now what Biden decides to do. But the whole sanction, is what we come to agreement with the Germans. The Germans have to stop supporting the state . which is responsible for many of the problems in Europe. Germany cannot run two horses, (2:04). they have to decide. This is part of the negotiations with the German government in the 5 plus 1. The problem in 5 plus 1, is not one nation with Iran, its against industrial world, seeing Iran as industrial power they are trying to block. The beauty of it is we have the educated people, we have the finances through oil and the others, and we have the facilities to go. And they are trying to stop the nation to grow because they know they are going to fall behind. But this time it is different

Germany is Biggest Block to Markray - resolve in Conferences

The biggest problem with the Markray is Germany, at the moment, the way we see it. And we'll resolve it in the coming of conferences. Our problem with Markray in America is part of, but the major part of it sits with Germany. Which we'll explain to them, and they'll understand, it's resolvable.

Q: What about the **listing on the Frankfurt and Chinese stock exchange** take place?

K- **We are working on it. We don't disclose because we saw what they did with Markray. We work in a totally different way this time.** As I said, we were open, even when we announced the opening of the city fo Linz, these hooligans tried to stop .. what the guy told them, the courts of Belgium are as good as the Hitler's courts and Saddam Hussein, kangaroo courts by them. (2:06). It's no difference, and they threw it to the wall.

Pedophile Groups after KF because of 6 years ago mass arrest

The investment and energy put into Austria shows how correct the KF is, and just a few phone call, .. When we track these people they all go back to the pedophile groups, which we damaged 6 years ago. They lost their income, the guy in Linz who called, he is the biggest pedophile in the area of Linz. **We'll publish his picture, his name and his face very soon. We let the people know. We isolate these groups the way we did ?/ and Alan Sterling.** Then we'll see how they react.

There are 2 or 3 people, there is one in Germany and 2 other places. We even seen those who are connected to us, are connected to pedophiles. **We open these files very soon. We kept away from this because we are working underneath to bring . massive damage to the pedophile groups, the way we got Alan Sterling with it, 7,000 people got arrested,** and one of the largest circles of the pedophiles in the, into the guy in America who they found, is connected to the Alan Sterling. The guy who is connected to all the rich guys. They are part of the same, And this is the same thing. No one does anything but support .

One of the main head of (2:08). pedophile organizers in Linz has left the KF, and that's why we see peace. We do not disclose to public, but this is part of what we've seen. People told us why they target KF. Because the biggest link to KF, is not there anymore. .. one of the oldest pedophile groups in Europe was connected without our knowledge into the back of the KF ?? the supply chain was there. And now we stopped it. ...

Austria was one of the main centers of trafficking from the Eastern Bloc, border of many of them .. and the guy who lost his position and money come to Linz, and the children he used to get. We'll release the pictures and ?? on ?? own. (2:10). In his community. This is the job of the KF to develop and spread the T, these parasites always ..
Any other question?

Q: Mehrañez, .. (2:12). is there a prerequisite for your conferences?

K- There is no prerequisite. The only thing is if you come to be a KS to gain knowledge. Not from the teachers in the conferences, but from each other. The duty of these conferences, is many KS learn from each other very quick. But we are aware of others who come in to infiltrate KF in different way. We saw it in the Rome conference and Dubai. We still do a security check ...

When you Detach = You Love Everything

Q: .. about detachment ... you said, .. is there a side effect of detachment for elevation of the soul?

K- Love

Q: nothing ..

K- **Love. It's falling in love. When you become detached everything is loveable.**

Q: with detachment?

K- Yes.

Arrogance of Knowledge

Q: Okay. (2:14). About this arrogance of KS, not the attitude .. not to take it down to the arrogance of knowledge?

K- **It's understanding that what you know is nothing compared to the totality.** This is what allows you not to be arrogant. This is part of being a true KS, it doesn't matter what you know, when you are there you do everything that needs to be done to be able to bring the next step. We see this with the KS who recently now started joining the KF in different ways. They don't expect me to do things in the office, or Klaus to do things just because we are there as heads and whatever. We sweep the floor, we unpack the boxes, we take the post, we do everything and it's not I am sitting there, I am the boss, I know much, you have to do. I go to the lab, what it is, do things, and be there. the same with other people, but some people say, oh, it's not just the suit, what you see outside. We are very humble, we are very down to earth. We still do things.

Mr. Keshe Personally make Pain Pen Products Gans Mixtures

I still, some to the (Pain) Pens you get, (2:16). from PP you receive 100% up to now, most of the mixture has been made by me. I go in the lab and I just mix it, because I do it with love and care. And because I know what is needed by humanity. Most of the, some to the equipment you receive, I do personally all the mixtures, even though the recipe's are given, they can do. There shouldn't be arrogance just because you have the knowledge, or you have a position . This comes out of understanding, that what you have is nothing in compared to totality.

Q: .. can we have the products in France. I have some problem for some years. Does it mean there is no delivery?

K- No we had, we have no problem delivering to France. We have structure after structure things which are put the wrong way ...

.. When I went to the post, they said we have instruction not to deliver anything which is the KF. We send the books out, they were keeping it in the post office, to give the bad reputation that we don't deliver. **We have the same thing with DHL. They blocked huge amount of goods out of Italy, and when we took them to Court,** (2:18).

Giovanni told me, .. they tell us we have instruction not to deliver but we have to pay the ?? because we gave them the goods. The goods are sitting, going nowhere. The damages to KF is not just from one side. Now we have resolved this problem, hopefully in a different way. There is no where in the world we cannot deliver, from China to Russia....

Now within 24 hours they go ..

(2:20). There are a number of books which are ordered but never, the old structure with Italy never dispatched them, or couldn't dispatch them. All has been done ..

Pedophiles are very strong around the world, they give different favors and they get what they want. I had this question in depth with Giovanni ..

they said if you don't do we'll give to the Italian Mafia. I said, just pay, close the account.

Q: .. sometimes I can't even get to the final payment ..

K- Go to Paypal ... (2:22). a lot of little problems are getting solved.

Any other question?

Q: .. Brazil .. so in previous classes going back to book .. it's real ..

1- Is the emotion of knowledge the true knowledge of U and the Creator?

K- What?

Q: repeats ...

K- It's the same. If you understand the true knowledge of U, you have understood the Creator. As simple as that. ..

What's the next question? (2:24).

Q: Is the spectrum of man's emotion the interaction between AH (STM) and the AF (STP) in the earth's fields, also in the universal systems?

Knowledge Released when Clarity and Detachment

Q3- What dictates the release of knowledge?

K- **Clarity of conscious and detachment.** The biggest problem with the knowledge, especially with the human being, is the ones getting it, they think it is ours and we protect it, and we get worse with it. If you add one word to it, it becomes worse, it becomes part of us, then we don't let it go because it is us, and we become more narrow-minded.

Actually when you learn more knowledge you have to become more free to learn more, because now you understood, you didn't know and you don't understand all of it. This is

where it comes, the arrogance, and attachment to a few of what we call M field, we call knowledge. Which you might have got it the right way. But when you are detached it comes to you because you see the side of it. When you are attached to your PhD you won't listen to nobody else because that's it, those 3 words are you life. But if you understand there are other PhDs you can learn from, (2:26).

(2:28).

K- Can I ask you a question. Those of you who want like in the Conference in Linz ..

(2:30).

Any other question?

Q; .. from the books about principle M field.... Does it contain the strengths of the Principle fields plus the M fields after they have interacted with their own fields. In other words, is the Principle, Principle plus the interaction of the fields or only the P Fields ...

K- yes, of the highest order strength, Yes.

R: When do they become lower order strength, when they interact with other .. ?

K- .. when ??? they become matter state.

.. When they become a transition or they become matter state, we call it a past the Principle, because don't forget when you are Principle, which is the highest order and they interact with each other within a PI. The expansion and reduction in strength, makes them to travel or to be attracted to another field in another D, (2:32). or position within the same environment. So then when they reach to that new environment, then they become themselves in the matter state, but now at the same time, during what we call, for example, nuclear decay or interaction of the fields of matter state in that position, with the other fields, they now become the Principle of themselves of the next cycle, because now become the source of the next cycle, while themselves came from another position.

It's very much in nuclear industry, we call it nuclear decay. We come from let's say Uranium decay to 2 new materials. So now these 2 new materials becomes a new source of energy, that they have to decay to another lower level. But in essence the Uranium was the mother, it's the source, it's the Principle. But you come into a new material in that time, interacting with that environment, now they behave as a new Principle for the next stage.

R: Does the Principle only exist in PI condition or is it in rays or fields or all?

K- .. we call it as a PI, and in a way, as a PI of the fields. The rays hardly ever break up, but as a PI they interact.

R: Are the rays the transition then from PI to something else?

K- Could be .. it could be part of the essence of the PI itself, or part of transition. You see in English we have a very good saying for this. We have a Gamma and Alpha rays for example, we call the Alpha rays which come from particles, but Gamma rays are another field themselves. (2:34). They have no entity. In a way, what we call the Alpha rays, the Gamma rays is what they call in the strength of the light, we call it, is the light particle a ray. It depends on which strength it's emitting what fields of light it is emitting. Not all

the lights are of the same strength. Depends what you can absorb from it. It depends how sensitive you are, or what you allow to be handled by the next step.

I was explaining this .. during the development of the Iran space reactors I have no problem, to me, radiation is just like another piece, I am physically handling with radiation sources. Even on the Gamma rays, Alpha rays that to me is no difference, because the rays don't interact with me. This was a big puzzle to the Iranian scientists, how freely I handle nuclear material without any fear of radiation or whatever. I have done that from young age. Somehow my body is in tune with nuclear radiation. This was even a puzzle to my .. peers in Queen Mary College. I could walk around the nuclear reactor openly and handle things, where they couldn't detect anything attached to my body, or getting effected by it. The first couple of time was a big fear I was contaminated by it, but they found out I don't get effected by radiation. It doesn't matter if it is in a particle or in a ray field. (2:36).

But the new science we have, when you go to the world of the PI and face level radiation, we have the same kind of radiations, which are not known at the moment to man. I have explained this before in the teaching, that the fields, what you call cosmic rays, they are rays in the cosmic rays man has not even understood, but strange enough in what we call transition they become part of the energy, become part of our body cell, our body absorbs them.

Some of the universal, we call cosmic rays are source of energy and food to us as human being, which we never considered, we just think about the food we eat. But cosmic rays, what we call solar rays, are part of our lives. We cannot be kept away from them, because the 2,000 calories we use a day, we receive another god knows thousands of calories from the rays of the sun, and from the cosmic rays. When they speak about neutrinos, .. some of them slow down within the body .. and transfer their energy as energy sources.

The way we go to .. spas or warm waters to get different kind of minerals, as we travel through the solar system on a regular basis on different part of the SS we absorb cosmic rays as part of our food, we need it, otherwise our structure cannot live. And in certain positions we absorb radiations, (2:38). which are part of the cosmic rays, we need it to live, and our body attracts it to its G field forces, but our knowledge is not that far, we just look at the apple and the orange we eat and whatever else we do.

And this process is part of if we could understand it, part of the aging of the man, it's not just by itself, it's partly because of the interaction with the cosmic rays. If you change it you can change a lot of things.

If you walk in the night, or if you worked in the KF labs, we see the direct effect night and day on our equipment, even on the lifts and everything else. You look at it as what we call the water level in the oceans and how they rise. But if you worked in the KF labs we see the MG fields create a specific, especially on the weight and the fields during the day and night. We all see the same thing, the system goes up or comes down, during the day and night, even they are in a closed space, there is no day and night outside the field

G field of the earth, with the cosmos and everything else, we see directly on our system, change of weight, change of position, and sometimes even change of rotation and sometimes position. Then you realize there is more than what you see in, what we call the tides of the water.

If you work with the .. dynamic and gravitational systems, (2:40). in the lab, because we work with PI we see it directly. Most of the mechanical engineers won't see it, because it is there and it doesn't move, but when you run dynamic PI systems you see it, your reactor moves to different position, or the rotation changes, or the field of the rotation changes. If you go back into some of the teachings in the Insano when we hung the Star Formation which was on the wood in the lab, this was made by Armand, you could see, we put dust on the floor, we could see how the dust was changing and how the distance was changing, and it repeated itself systematically every day. We could more or less clock walk it, this is the time when it goes higher or becomes lower. Because we deal with the PI we see the interaction.

So it must have the same thing, our body is made of Gans, we have the same effects on our body. But we never considered because we only measured how much apple and orange or what water you drank or how much energy you took. We take vast amount of energy during the cycle of day, the season, the year of the position of our solar system that we are in. Gradually we learn, gradually we understand, because we are a Gans. Up to now we never considered it, now we see it, we consider it, and we can adopt it and calculate it.

Any other question (2:42).

R: Marius confirms Day 1 of conference.

Mr. Keshe Teaching never Stops - after death a physical condition

Q: Will humans be able to learn more of your knowledge after death, if you are the only one teaching this in the U?

K- Death is a physical condition and my teaching never stops.

Any other question?

(2:44). K- It's nearly 12 o'clock... it's not the value it's the strength of the knowledge which counts. you can teach 5 minutes and be, take you 5,000 years to explain it. It's the quality, not the quantity.

Q: The difference between CNOH and CO₂ is 1 H, is it Deuterium?

K- No, it's the combination of MG field of the elements. If you get the right field and right CO₂ and AA you might get Deuterium out of it, but again it depends what are you going to put in it, and how you are going to put it..

We done that in China, .. we made the .. ?? like 4 pod structure by 4 pod structure (2:46). and it was done in a large scale. 30 to 40 .. maybe more 60 cm gaps. What we did .. a very big structure it literally sits on the floor .. we put Gans's in we left some spaces empty ..

We analyzed the Gans' in the space gaps.
(2:48).

Thank you very much . Hopefully see in the conference. ..

(2:50).

R: 388 KSW

(2:52).

K- .. there are some scientists that would like to come to these conferences. You can sponsor a scientist to attend a conference, which means a community to pay for them to come ..

(2:54).

388 ksw
