

394th Knowledge Seekers Workshop; August 19, 2021

June 6, 2022 (6 6 6)

Iran & China collaborate on moon flight

Afghanistan change over

Instructions to Universal Council (UC)

Tuesday is for nations to ask for help from UC

UC start to rule nations through soul

Recognize you have the power within you to change things

We all are UC members

UC members will be given a comfortable life

The souls of world and religious leaders have been changed for peaceful ones

They Chipped you without you knowing (3:13)

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

Cycle of creation video.

K- (:30).

Last week we had a beautiful session when you listen to it there is a lot of ... technical hidden knowledge for those of you who tried to step a little bit further out. As we try to expand the knowledge, there was some questions asked ...

.. we are getting more and more involved in different aspects of the T development and commercialization. Later on today the KF will launch the sales of the .. N-95 masks and disposable mask is to be manufactured by the KF, China. .. it's offered at 1 Euro per mask ..

(:32).

June 6, 2022 - 6 6 6 - End of a cycle - Beginning of a new cycle

Question risen by KS, is why we have chosen the start .. flight space program with Iran and most probably China the same day launch, one after the other. Why have we chosen the given date of .. to be 6th of June, 2022 .. 6 6 6. We all know what that means the beginning and start of what we call, 18 and 9. End of a cycle, beginning of a new cycle for the humanity. Now you understand we don't usually explain things in detail, but 6th of June 2022 is the, what we call the threshold of the change. It has been chosen

specifically for certain reasons and in that process, mankind will come to mature. Mankind will be ready to join the human race to the U Community. In so many ways, the end of one and the beginning of the other. In understanding the science of space we expect the humanity to reach the maturity of understanding the world peace by that date.

The KF in cooperation and collaboration, (:34). with the Iranian new administration, will feed this rapidly across the planet to different governments and different directions. IN the communication fo 2 presidents of Iran his Excellency president Raisi and president Xi, yesterday. It is reiterated that we'll endeavor to increase the work for peace and in taking ... bilateral actions to make sure the mayhem created by what we call, superpowers of the past will not be repeated. We respect and honor the bold action fo the 2 presidents in their talks, but they need a T to support it. In the next few days we'll announce in very close collaborations how we start the international teaching of the KF through Iranian universities across the planet. We are working on and we have put when we start the process of the teaching of the T in advanced level from Tehran NDU at the beginning of this year. As we said, we teach internationally and at the same time we make sure all that the teaching comes from a structure that has the T and can deliver T to governments across the planet. As I said to the Iranian new administration, we will give as a gift, as a souvenir every Iranian advanced centrifuge as a gift to one nation. Which means we do not need the present centrifuge T which has been the mayhem behind many accusations ?? We dismantle our ?? systems and gift it to every nation, (:36). that understands the process, .. the structure and the process of the structure in how to create peace by knowing the advanced nuclear T of today which has been used as a tool of fear for war, becomes a tool of peace.

As I said, we have heart warmly welcomes the new Iranian administration, the same as we did with the American administration at the beginning of this year. And the doors of talk and negotiation both in Vienna and Tehran is open. KF has got involved in the process of peace and diplomacy is part of the work which the KF known for years. It's the not the first time .. with the diplomacy we can create conditions that nations can live together.

As I said, in a very recent talk, what we see the US will become 50 independent states and nations of their own in the coming time. We know there are a number of states in America who would like to separate and become independent. This will be facilitated by the national structure of the US as a nation to 50 different states in the coming years. Which means as the KF One Nation policy takes hold we do need nationhood's, or one nation. IN a way we give regional and what we call, local people the say in their life as the signs of the cities to states is the natural progress of the development. (:38). As we made the villages and then towns, and then we built the cities. Now it's a natural process to become states within the one nation of what we call, One Planet, One Nation, One Race. These will come to forth of our work in the coming years.

On June the 6th 2022, we move in the direction of One Nation, as one nation, One Planet to endeavor to travel the depth of the space. As I explained in a writing in past few days to the heads of state, that on the 6th of June 2022 with the collaboration of the Iranian

space agency, and the Chinese S A we launch a day return trip to moon. Which means we can go and come back. In a way, we do it with passengers or without passengers, it's not that important. Being able to make the trip in one day will break a lot of taboos about the world of S&T and the advancement of the human race to a new level for the .. technological achievement. From then on it is the responsibility of the nations to educate their citizens. Each state has the responsibility to teach the fast track, everything needed to become part of One Nation and part of One Planet One Nation. We do not foresee any problems as I gave assurances to the Iranian government. We work only in the direction of peace, we do not receive orders, and at the same time we bear the flag of peace by all nations (:40). and not single nations.

It will be interesting to see how the development of the space program between Iran and China will take shape. We work through the new Iranian in collaboration with China to be able to deliver national security T. The reason for this is very simple, we explain it in public, that the government are listening they understand. If Iran develops the space T and tests, this gives a tool for those who are evil minded within the American administration and European governments to create the next mayhem. Iran in support and collaboration and joins space development with China, will give the strength to the T to take hold rapidly, and bring the pressures back on the European nations and Americans, in a way to step and join in, then creating more problems as they are falling behind in T development. WE have no problem in sharing knowledge with the Americans, once the American administration through senate signs the world peace treaty, that takes this nation out of the animal behavior we have seen in the past years which has been part of the structure of the work of this nation. Now you understand our work is very detailed. We have calculated everything in how to work and how to collaborate.

In yesterday's talk between the Iranian president and the Chinese presidents online, we have seen the first signs for the close collaborations in every aspects ?? nations and KF as now, (:42). we have both centers in Tehran and Beijing, we work with both nations to change the source, to bring the T. To be taught directly from Tehran universities. In a way, we are endeavoring to change the KFSSI autumn sessions and if we cannot do, by the January sessions to be taught directly from Tehran national universities. In a way, when you become the students of the KF hopefully you become part of the INDU students, and this allows us to bring the research and development forward. We always endeavored for past 2 years to bring, and make Tehran the center of the teachings of the new space T.

...

We became part of the structure of ND University (NDU) when we released the Corona report last year. If you read the report in front page about the Iranian flag, you'll see the NDU.. We are here to bring the knowledge and T and make Tehran the center of the new science in space and peace. We work on the principle of Zoroaster, as we talk good, do good, and we think good. We think it is good to share, we talk the way we think and we act to share the knowledge.

In understanding the new concept of space T, (:44). we need to understand more in, which way it will be beneficial to all of us, the present problems and the future problem

to come. In so many ways, opening of the space is the beginning of a bigger adventure for man.

makes one man from the whole knowledge of the U. In so many ways, we start the teaching of what we call the space T in a different way, different understanding, and in understanding the totality of the work. .. in the coming time, especially when we start the teaching from Tehran NDU the process of teaching the scientists in a very rapid way. In a way, that when all scientists when they gather together on the platforms for the INDU of KFSSI. We all gather to learn and to add to the knowledge of all of us. This way we make the patents obsolete, because the new knowledge of the space has no patent. Teaching it in such a makes sure, (:46). that no one can patent anything as the knowledge has a basic common denominator of sharing for all of us. As you see we have planned everything to get rid of all the problems that the children of man have created for themselves by gaining knowledge and wealth which has no value in the depth of the space. You cannot go to the man from planet Zeus and say you cannot do this, I have a patent on it on earth. Hello, good morning, wake up .. we gave you the knowledge. You cannot patent what we have given you. In so many ways, mankind will move in a new direction. WE learn to share, the way the KS from past years have learned to share. We go to different classes from Spanish to Brazilians to teachings of Rick on Wednesdays and others and we see how KS without any fear share the edge of science T which to them is natural with each other that if we bring the professors from MIT and London University they ask for 20 PhDs and professorship for that. That the laymen on the streets understands more than they do. This is the beauty of the new way of teaching. This is the beauty of demolishing the work man has made to make himself superior to the other. No patent rights. No what we call being proud of knowing a knowledge which is shared by the others and claiming to be yours. In the coming time we will open a lot of new sciences and T. The KF from Linz exhibition center release new T on a rapid way, (:48). that it can be seen. WE are planning to open the Linz EC on first of October to public. You are all welcome to be there . . . it will be a historical position and time. We will not explain who shall be there .. we know the Russians endeavor to be there, Bulgarians this is a permanent position.

(:50). On Saturday October 2 we are opening your center .. 2 new space systems which have been developed.

Transmutation of elements that you will see. We will show these for the first time in exhibition. .. first transmutation and transportation systems for human race into space. This means the first time a system can transmute man without any connection to position to space and time, to another position in space and time. What we call the new Transportation system for transmutation of energies ..

the confirmation of it will happen on 6th of June next year, where we use the systems ...

(:52) that will make the defense T of the present time obsolete and forces nations to understand what we call, air superiority to be air zero superiority, which means no nation will be able to bombard any other nation and use the air space to enforce conditions. We have to respect the needs of the nations, and at the same time deliver what nations need

irrespective of race, color or religion. We have to respect our local understanding .. governing has to be on the just state.

Afghanistan

We have been asked to make a comment on the present situation in Afghanistan. KF stays on the side line. We wait to see, after 45 years of struggle with the Russians, then the Americans and the British, in Afghanistan, that the state of Afghanistan goes back to its own nation to run. We have seen from the beginning of the excuse when the Russians moved into Afghanistan, all what they wanted ..

Now the Taliban's gave a good kick to the back side for the Americans to leave. Every nation has to be left to decide by its own ...

We see troubles coming up in Afghanistan, but these troubles were fed and bred ... every way trying to pressurize the Iranian government to change, and now they could not do as they lost in Iraq in January of last year. (:54). And now move out of Afghanistan. We will see regional stability in a different way. For the first time the Middle east is becoming washed of the hands of the Americans, .. as they had a good what I call ear whacking last year by the Iranian forces in Iraq.

In so many ways, we do not make comment as we are watching a change in the D of the peace policy by the American withdrawal from the Middle east. We respect all the states and governments, but the problems we see today in A was bright in 1970s by the Russians going in first, and then by the Americans, and then by the rest, and now everybody had enough of playing games in other peoples land, loosing so many soldiers, and so many people made so much profit out of it, out of the drugs, and now we are back to normality of 50 years ago, but with a government which now has all the weaponry which the Americans left behind in the agreement made by Trump, that they modernize them with their weapons and they just took the soldiers out.

In so many ways, we have to watch, and we hope and pray, and this is the responsibility of the UC to reach the soul of the leaders of Afghanistan to bring peace through them to their nation. We will see some mayhem as we saw last time. but in charge should be the members of the UC through the strength and the power they have through the operations, to change the process of the leadership in Afghanistan. It's not diplomacy policy, it's the soul policy, and it has more power than the diplomacy. (:56).

This is why we established the U Council for this purpose, reach the leaders that it becomes a just correct leaders for their nations. They listen to you, they respect you, not through the words and writings, but through the reach of the collective members of the souls of UC.

In so many ways, gradually what we set up in past years, taking shape. It's our members of Knowledge Seekers (KS) who have to learn how to use what they have been taught, and how to facilitate, in what has been facilitated for them, for the others to coexist. You changed wars, you wished for peace and you brought the peace, in every ?? and directions in past few years. Now you understand your work is sacrosanct.

The members of UC asked for direction from us, what will happen in Afghanistan?
There is no need for such a question. You have the power within you to reach the soul of the leaders, and create through them the just means to cover it Then you understand as you wished for peace, and you achieve peace, in every direction you have tried, now you have to work on the collective soul of the Taliban's.

In a way, they want a new way to run, that is pure in the structure of Islamic law.
Understand the law in true essence and guide them through their souls. This is your job.
Understand every nations what we call culture, and then through it bring justice.

This is the teaching of today. We do not need to go to the UC to teach that, many of you, and many of your, what I call, offspring's in the future, (:58). will become members of the Council. So we teach to save it in the soul, that in time to come your offspring's take the knowledge from your soul how to conduct, once they become members of the UC.

In so many ways, understanding the STM, understanding the operation of the STM, and teaching the souls the way they have to operate now falls on the shoulders of the UC, and not on governments. You have to teach, .. yourselves, and your future generations who might become the members of the Council will serve in different capacities with and within the Council that there is no time for the pen, and .. computers messages. Try to work through the pen of the STM and it will reach the man in any corner of the U. There is no postman to deliver the letter to the soul on the planet Zeus or from earth. This is the next step for the elevation of the members to the UC, to the higher level for them to understand the position. You have to remember, the members of UC, you live 2 lives, one the life of the soul, and one the life of the man. This is your responsibility to separate and to not let the glory of the achievement of the soul to become the shame to the dimension (D) of physicality of the life of the man. Understand both and live within the structure of the 2. Never be proud of what you achieve through the UC, that never effect your life in the D of physical D. UC members, (1:00). have to learn to operate in the levels that their souls takes them, to be guidelines and to create the support of the other souls, of not only the man, but the others across the U.

In so many ways, today's teaching mainly lies with the structure of the work of the UC, with the structure of the work of man in respect to UC, and in how their wishes are leading to the world peace. We provide the facility and .. technical knowledge in the background to keep the children of the man busy, both in the physical D, and in case they decide in the D of the energy and .. STM. Today's a glorious day for those of you who are the members of the UC and start understanding the purpose of your creation and the purpose that you are here to serve. Be proud that you can serve. And not that you are a member of the Council.

In so many ways, we have a number of UC members that their work is nonstop during the day and night, during the sleep and awake. Gradually they are realizing responsibilities and what it needs to be, and to be correct. They will make mistakes but from their mistakes the other souls learn. WE see more and more members of UC spending their

time to understand themselves, understand the power they carry to be humble and to serve the others that the servitude becomes a way of living, and not a way of Tuesday afternoon sessions for some people, (1:02). to come and learn something and go.

In a way, my advice to UC is to open your Tuesday sessions to answer and questions. Let the people bring the problems of their nations and cultures to you and collectively find a solution through your soul and guide them. This is how your Tuesday afternoon sessions have to be. Not just to introduce to carry on with what you do, what you want to do. Allow the Tuesday sessions to become a platform for justice, where people can come for support. Where people can come to you as a collective soul to bring the problems of their nations, .. of their culture for you to hear, and through your souls to find a solution. And through your souls to change the position. This is what you were setup for. We allowed 3 years of development and for you to adjust. Now it's time for you to take positions, as people go to their kings and to their leaders to ask for a solution for the nations problems. The members of UC become that council, where the world citizens from the king to the peasants, will come to find council and peace, and guidance. Open the doors that they can come to you through your Tuesday teachings, for relevant questions, for guidance, for help for you to hear their problems.

The UC has taken a new shape, and in a way we do not give you the weapons which the UN had to create war. (1:04). And in effectiveness as we have seen, in past 2 years, now that it cannot bring people together to shame them, or walk away from them, or praise them. You do that, you take a new shape in the UC on Tuesday, to listen to the world's citizens their problems, and guide them through your souls. Not necessarily by discussion and words. In a way, as people bring their problems through the physicality, by and through the strength of the soul of the Council, you change the souls that the physicality finds its own remedy, be it by man, the nation, or the whole of the planet.

Remember the story of the donkey, the king and the bell. Even the donkey can ring the bell to explain there is a problem. It's the job of the king to find the solution, why the donkey is in pain and suffering. This time the donkey is the physicality of the man, and the king is the soul of the UC but this time without meeting the farmer, but in the direct way of solving the problem through the soul of the farmer and donkey.

In so many ways, the donkey is the physicality of the man and the farmer is the physical life of the living of the man. You have to understand the STM the soul of the beast, and the soul of the fish, and the same as the tree. In so many ways, gradually as the role of the UC increases through the soul D the devotion of life to serve mankind in all D and directions on this planet and all its citizens be it of here or not, it becomes the pleasure part of the life to serve unconditionally, (1:06). and to serve with the most beautiful way by supporting the STM that the physicality can live. Learn the way I have lived and form it learn how to work. Share knowledge of the soul unconditionally and change it with a peace Talk. Bring it to be the source of life, through the D of the STM.

In so many ways, we learn from the masters of the U how to become masters in life of physical D or the STM or ?? outside. In so many ways, every single one of us becomes

what we call, a member of the UC, as we travel the depth of the U on our own or with others, we become the ambassadors of our planet. We become representatives of UC of our planet, as you know when you have an ambassador in the nation it means the representation of the presence of the king and the queen of that location. So when you become the traveler of the space as a man from earth you become a representation of the UC soul and membership. You become the connection because you are representing the race in the depth of the U. In that process every single man on this planet has to live the life of the UC member that when you represent the human race in different positions and locations in the U, (1:08). you represent the UC. In a way, the talk and life of Zoroaster becomes the talk of Ahura Mazda. in a way, our conduct in every point in the U becomes representation of the man on earth. How would you like the others to see us in the depth of U. Serene, intelligence, understanding the work of the soul, or as our American friends, gun on the hip, they shoot and kill, and the gun policy of destruction. I prefer one to the other, which is the former than the later.

In so many ways, all of us with understanding the new T and the way we start teaching from Tehran NDU we see that we start in a new structure of life. National defense, we are one nation, and we defend the integrity of the soul and the physicality of the man. Now you understand why we even chose the national defense university for a nation, then any other university, which means we learn to defend the STM across the planet. We respect and honor the position of HE A K of Iran and Iran religious leaders in creating such a university in the structure of the military of Iran that today can be used to expand it not only to Iranian national defense but the planet, and beyond to the STM. (1:10).

Now you understand even your religious leaders have been working for us to create the ground for mankind to move to the next step, for mankind to ready for becoming part of .. U Community. We use the tool of the STM to bring it to the position of physicality that for what we plan to deliver to become part of our work, be it religious leaders, political leaders or what we call diplomatic structure.

In so many ways, we start a new cycle, we are from now till June in preparation of the totality of human race for the next steps for breaking through, for being able to travel the depths of this U with a 1 day trip. This will be a giant leap for every man, for every soul on this planet. We do not except political position, but in the diplomacy we bring the diplomacy of the U to fit into the structure of the diplomacy of the man. Political positions have no meaning, as diplomatic life has a better position to change many, to bring many understanding. At the moment we have diplomacy between nations.

We have to learn diplomacy between cultures of the U, except them with open arms, and greet them to be part of us and teach them the culture and the way we live, (1:12). through their souls and not their physicality. Understanding of the responsibility of a man and their children, becomes part of the work of the U, to become one of them, to understand their beauty, that Mitra manifests itself on planet earth, because of its beauty and the whole U has been waiting for the birth of Mitra, in the physical D that we can start the process. She is amongst us, she has become part of us, and in the coming time she will reveal herself to all of us. We respect you, we love you, and we salute you. All

the religions of today are based on her generosity and correct conduct. In understanding the life of Mitra you will understand the creation of the Creator and the life in the U.

In so many past times many people tired to guess and make imagination. Very soon you will hear and understand her words, her work, and what she plans for the whole of the U, through the structure fo the STM. It's a gift which mankind carries. But In so many ways, mankind had to taste everything in past thousands of years for him to understand, what can go wrong, and how can go wrong, and how he can change and prevent it. You cannot be a specialist if you have not worked the field to be specialized. The STM, (1:14). has learned about the demise and pain, and now through the elevation and presentation of the soul of Mitra, in becoming the traveler of the U, we shall make sure that no creation, no existence in the U will ever suffer in the physical D or in the D of the soul. Now we understand why we took this position, and why we have taken this position. The understanding of the structure of the .. STM becomes part of the life of the man. Now you understand in truth you are all members of the UC, because from next year you become man of space. Every single one of you, from a man, to a cat, to a fish, to a tree in traveling the depth of the U will represent the soul of this planet. You do not need the language and words, but you'll understand the totality of the knowledge. My .. biggest wish is that human race in coming months, will race to understand fast, and learn as much as possible. We support for the nations that used to be in the making of the tools of war, to convert their technologies to new T. We support them in the transition with new technical developments, with the new scientific developments of the space. (1:16).

We expect to see the total disarmament by June 6th, 2022. It means that the world leaders to come to agree a peace process. The world leaders come to understand that the humanity has reached the maturity of peace. As I said we invite the world leaders to the land of Mitra, to Tehran to sign the world peace treaty. to commit their nations to peace. In so many ways, it will be watched by the religious leaders as much as other world leaders in presence to complete. In so many ways, mankind has chosen to destroy itself, to destroy its brothers and sisters over centuries. Now we see mankind to a new position to create and elevate the soul of the others, before his own soul. Understanding of the totality is understanding the work of the man.

In the past weeks we kept away from pushing or trying to push for the members of the UC to take position, to understand their work. We allowed them to go through a new fresh transition point. From now on it's their responsibility to take their positions and start practicing what they have been chosen by their souls to do. (1:18). We will facilitate the comfort of the physical life of the members of the UC in the coming time, that they don't become arrogant, that because they are member of UC, that they become active in serving humanity to be able to change all dimensions.

We don't create new creatures, but we allow the STM to serve, that in serving they find peace and tranquility amongst the children of the man. Today's teaching is totally and ultimately about UC, that they understand what is to come, they understood their position, and in a way we all understood.

We all have become the members, the representative of the UC as we take wings across this U, and we all live by the ethos of Zoroaster. And that is all we need to do, and that's all will come to us to take position and time.

We put world leaders in position, we put religious leaders in position for the time which is now to bring that change. Now we replace the present world leaderships with the UC. And those who serve within the council which is the whole of humanity. In time we will understand. It's the end of separate religions and path of belief to same Creator. Now we all believe in the same Creator and the same path. We see the end of Christianity, .. Islam, .. Judaism and Buddhism, (1:20). because we bring an end in our own souls, but not by going to the mosques and temples. We understand the true essence of creation and the devotion to serve. In so many ways, we don't finish with the religions, we finish with the separation of names, and we make all one. This is the beauty of the teachings. This is where we give to man everything he needs and he has time to contemplate and devote and serve. In so many past times, one had to demise and demolish one to be better. Now we make one out of all of them, within our soul, that we pray the same in the mosque, .. in the church, temples and synagogues the same word the same but different places of confirming His beauty, .. existence and through it elevation of our souls to understand more about Him. This is why these places are made, to understand more about our soul and not about news of our physicality in the name of the churches, mosques and the rest.

We will see the world leaders will come together, the same as the religious leaders to accept the new world peace order, .. the D and direction which will be put forward by the UC, that becomes a guideline for all world leaders to follow. You will see the end of religions, and the religions become one, and we see the beginning of a new cycle of man in the space. (1:22). In the next 8-10 months it is our responsibility to see we mature that fast. ..

The Iranian platform is a peace platform, and guided by the KF. We work through the soul of the leaders, and not by the word of the leaders. Understanding the new T, (1:24). you will see and hear the work of us through the mouth of the presidents and the way we wish. In that way, once we made the child ready it's for the UC to look after it to grow perfect, and this is the job of you members of UC, many you present now. You have to understand the responsibility of your souls and do not let your physical life ever to effect it. We have made the children of peace within soul of the present world leaders, it's for you to nourish. We have changed the souls of the religious leaders to be ready for such a change. It's for you to nourish and support them and their nation, and their problems to follow the path of peace. In a way we have sown the path of peace it is for you to water it, .. to culture, and .. to let loose in the D of U Community. The UC has to understand it has one responsibility and that is to serve and it's not answerable to no one on this planet, except to the soul of the mankind and inhabitants of this planet. You are responsible for every step, this village of earth's citizens live in joy and travel beyond the village, in the way you prepared the souls of the inhabitants of this planet to become the children of the U. (1:26). You become the guardians, .. the principle structure for the transition of the man from the village to the U Community. The village of earth. Those of you who serve in sincerity will find your path in a much easier way. Those of you who came with tainted wishes to do other things have already left. The new members of the UC joining are very,

very few, because the key members have already taken their positions and are serving to the best of their ability. Do not be afraid to take the position to become a UC member, because it brings you knowledge, beyond understanding the course of the man. It is the responsibility of the UC to change the time and position for humanity. We have a few more months of preparation, and through Iran NDU we'll change the course of the physicality, through the soul of the U Councils we request for your support to bring the elevation to the STM. UC and its members are servants to human race across the U, and not leaders or new race of betterment. Understanding when you serve as member of UC you serve Mitra, and Mitra is within the structure of soul of the Creator. (1:28). Every step you take has to be correct as it fits as you are the ambassadors of the Creator. There are very few who are lucky enough to take to that position. And there are many who can serve in that position. Prepare the Council for the upcoming world peace, and prepare the Council to be present in all peace negotiations as they have to learn to replace the UN with the UC. Where there will never be plans of war, never be another atrocities from the UN, from what I call, the building which is "red from top to bottom." In so many ways, you have to show the beauty of the STM without representation of any structure, that collectively as members of UC when you attend these peace talks they see one soul talking in different bodies. And you'll understand very soon what we mean. In the peace talks of Iran the residents of the nations will attend UC members will be present. Which means the present Iranian, what we call the Farsi UC m will be present in all meetings of the world leaders to bring the position of understanding and through the position of understanding of the peace through the UC m the nations you will establish world peace, even though, (1:30), you will not be physically present in every single one of them. We brought this to start the new cycle. The teaching is not every time to make Gans's and new systems. Now we teach the STM the new system it needs to operate under. Being a member of UC is serving humanity to its outer limits. In so many ways, you will understand a member could be on earth, on planet Zeus, or as the knowledge of the man expands in the D of physicality, in other universe within the Unicose. No position on this planet is far from your representative in every D of the world, be it ours, or others, or in the Unicose. The reason we chose the UC this way is because the man will travel in both D physical and D of the soul. With this way of setting up the UC, the Council is reachable on both D physical and through the soul across the Unicose, and now you understand why we structured the UC this way, as we done before on other planets and positions in the U, and it always has worked. The UC in time will join the true Universal Council, what we call the Unicose Council. that they understand the work of others across the U and they are not independent, on their own. (1:32). In a way, when the earth UC chose the Unicose Council we understand all the cultures of the created by the Creator, it does not matter where and in which position. As they are not present in D of physicality, but they are present in the D of their souls.

I would like to thank you for accepting and becoming members of the UC. But now you understand your work has just started and be ready for the biggest change for human race and opening of doors of U Community to human race. Our rendezvous is 6th of June 2022. Hopefully, we hope by that time we enough world leaders matured through their physicality and understanding that we launch in the sequence from the flight to moon in a

number of nations. Those who sign themselves to peace treaty and those who make the nations to be a peaceful nation.

Thank you for today's teaching and we go for a break.
(1:34).

>> BREAK >>> (1:42). 394 KSW

Q: how to modulate the expenditures from the military to the peaceful structure of society as a whole?

K- We don't need to modulate, it's for governments to find a way to redirect the school of thoughts of the man. The rest is, the scientific world will find its own way. Up to now we have encouraged our scientists to think of the most destructive ways for us to control populations, or whatever, leaderships, and it's for the new generation, (1:44). of scientists to be able to be financed or facilitated by the world leaders, to create conditions that bring comfort, a new cycle of life.

De Vinci created an Arms Race in to make huge profits

We've seen this in the life of De Vinci, .. became such a genius developing and doing things, because he went from one regional leader to the next one where he got paid a little bit more, to create a more destructive tool that it is better than the last one, that the new leader power of Italy could rule the others near him. When you didn't get enough from one, he came up with a new way, and went to the next leader and sold another latest weapon. that he could design, that they could use to become the new leaders. We don't need anymore De Vinci's or we need De Vinci's of the peace. If you read the life of De Vinci, you understand all his mentions that they are so proud of, was in fact, to get money from the regional or whatever they're called, to make a system the others ?/ process of imagining new weapons to be created to give superiority, he came up with random designs, now we see, and say De Vinci taught of this or what he taught of the helicopters and the rest. His mind was one track minded, to generate money to live a life he wanted, and the prestige ?? the leaders of the region. This is what we have to change in the man. What I call, the soul of De Vinci, not the physical De Vinci. (1:46). But in the soul of peace and understanding how to create things. We have to guide through the soul of the U Council, .. the world leaders to, without in a way, by reaching their soul, to guide their nations .. to peace. That's all that needs to be done. I do the same work with Iranian leadership, with the political, or religious, be it with the Vatican, be it with the Jewish leaders the same. We do not reach to talk, we solve the problem at the soul level, and it's their job to get their .. flock, their followers to that point. The point of meeting and talk policy in the physical D is over. In the coming time you'll see how things change.

In the very recent past, through the soul of the Pope we unraveled one of the biggest plan to create the next cycle of mayhem in Middle east. You saw the result. those who came to create mayhem they came to represent this, ..their demise. The opening of .. their hand. Look at the Iranian inauguration of the new president. Right in the front row. (1:48). One fo the very first times in the recent history, we see a direct representative of the Pope in the Iranian parliament, sitting in the front row. We know what to do, and we know exactly how to do it. The plan to create a new mayhem by the Vatican, the way they gave 9 million land mines was unfolded very rapidly through the souls to the others. We saw what we call, the beginning of the demise of the Vatican, and the emergence of the religions to be one. In the talk of president, we hear the thanks to the shame of the Vatican, that they have sent a representative, as their hand of demise was opened. You see pictures, we know what we arranged that those pictures were created. We sit within the soul of the religious leaders, not within their walk and talk. They use our name, we use their physicality to protect our name ?? Just watch, go back 2 weeks ago, exactly today. (1:50). when the Iranian president was inaugurated in the Iranian parliament listen to the speech and watch the pictures. Submission of Vatican to the new world order of peace. You never understood how it came about.

Any other question.

Q: .. How to create new superpowers that are based on peace creation, as a variable instead of the military? Is that possible?

K- That's the human word of superpower. We all have equal power, and it has to be superior in a way, we are responsible for the action of the others. If you understand it. It's our job to make it peaceful. It's us who creates that environment of peace or mayhem. We saw mayhem in KF last 10 - 15 years. We saw mayhem in other things and in the past year the KF has become peaceful, because the people who are the cause of the mayhem are gone, and now we see the same people creating mayhem outside. So it ?? was in the KF. (1:52). The structure has to be understood that we need to find peace and we need to be those ambassadors of peace to ourselves and the others. Then from the past 10 - 15 years.. .the KF has become settled down, peaceful the way it was meant to do. But we were going from one mayhem to another, because they were creating mayhem, both in ?? paid to create mayhem. Now we see the same mayhem is created outside for the others, outside the KF but not inside anymore. Look at the achievements of the KF in the past 12 months. I have found peace ..

This is our job to find peace within ourselves and then we bring peace to the society. Now we see outside others like us are under the same destructive attacks. You've seen it, learn from it. ...

Because the soul was not the STM , it was a destructive soul. (1:54). You work with the intention of the peace and you will find peace, and your thoughts will bring the peaceful people around you. As I said, many times .. I have found peace ... in past 12 months, because those who were destructive souls were not there ..

The life of the KF is the best example of the future of humanity to understand, the threshold since last July, how it has changed, how ?? the KF has find new D in U Community and in others with the world leaders and the rest, and all of you. You have to

find the peaceful operations in the soul, and then the environment will be created for it. We don't need to change. We have to give guarantees to the souls of the world leaders that through the new way, through the understanding, peaceful development will create a condition for the others to be peaceful. We have to have an answer in the next few months, (1:56). how the European nations, and the Americans find jobs for millions of people. Not only jobs, peace of soul, or they keep on printing money till they find the new T and science. When we ?? the American president, and put the American president in the position to become where it is, we put science as part of his work.

We speak our wishes, our thoughts, in the physical D. Now we have to deliver those T. A president which is elected on the basis of new S&T where is he going to pull the new science up his sleeve, unless we have made all the arrangements for it. the new administration in US has to ?? over 50 million new jobs, which is nothing to do with weapons T to be able to justify all these buildings and offices. What to do with them, change them to peaceful application. We have been through this, we went through this in 1990s. I explained that many times before. By end of the cold war we have a peace dividends called GPS

Nobody knew
(1:58).

We've done this, we have been through this. Now KF have to create a change in direction for world leaders to submit to their nationals in new jobs, a new way. That's your job, the job of the UC to enlighten the souls of the leaders, and KF and KS and the others will support with the new T to feed, to keep busy. People are working from home still making weapons, because they are getting paid. But there is no one in the factories to make them, because they can't get together ?? now we have no soldiers on the ground to fight it. Why are we making these tools for? Everything is ready we have put the soldiers back into the barracks. And we have put the gun manufactures back in their homes. Now we have to teach them another way. I was talking to my son ... we are just soldiers on a computer, we cannot meet. We cannot bring the British army together .. scared of Corona. ..

But now we have to change these computer games to peaceful games. (2:00). It's a collective job. with our understanding we work on the leaders, with the support of the UC. The KS have to develop the T that nations can run with, that they can create, bring changes. the beauty of it is in the past few weeks we've seen it, governments coming back to KF saying your KS have developed this, tell us. they have to come through you and the rest fo it. We've seen it in 3 - 4 countries in past few weeks ...

(2:02).

(2:04).

Any other question.

.. KF has launched the new masks

N-95 which is 2 Euros per piece packs of 20, then standard disposable 1 Euros ..

(2:06).

(2:08).

The T-shirts are now available

(2:10).

One Nation One Planet OR written on back

When you attend the EU you'll be asked to wear these. There are structures hidden in the paints in .. Gans to create that balance, even the writing on the back. Now we can change the clothing into application for the body enhancement. Go to top and press on logo . go down the product .. (2:12). the masks are there. the products have a C certification.

for prevention of the viruses in the lung. for prevention

In Iran they counted the viruses before and after breathing, and there is a huge reduction in them. (2:14). In Oxygen supply system .. the health authorities have seen a discharge of patient very rapidly ..

Carry the logo of the KF. ..

(2:16).

This at least gives us a better chance to use a system we already know and we trust in the system and know how.

R: has both Gans formula .. activated Carbon filter ...

Q: (2:18). Can you expand on Visual EU would it be suitable for someone diagnosed with dementia. ?

K- The new EU which will be shown in Linz, will have these capabilities for dementia.

You have to understand dementia is psychosomatic and the new glasses .. for a different purpose, you might see some results but it's not what it is set for. We are getting a lot of feedback because anybody who bought these glasses they received report card, that you report back. Trials by KS, and what we read is amazing , what people are reporting about their emotion, how they feel, what they have seen ...

We have to wait for a 3 to 6 months difference . (2:20).

It's the first time a psychosomatic system has been built in a very simple way. We want interested in psychological side ..

dreams are different. This give access to the soul in expanding the soul beyond physicality. The approach to introduce man to the expansion of the STM more then the change in physicality. In that position it might enlighten a man through his soul that he might change his psychological point of dementia. Dementia comes from when we don't want to, it's so bad that we don't want to remember. Or it has taken part of our life we don't have no connection with, we don't see any need for it. You remember names and places. .. it's something we don't want to do ..

then how you compensate for it, but this time we (2:22).

When I read the feedbacks, it's doing exactly what we wanted to do ..

Q: .. could this VEU repair (2:24). actual physical damage to the optic nerve?

K- Yes, let me show you something we all know these pictures. .. We all know this picture very well. ... when you speak about the power of KF T. We all been through it. Many of us failed to understand how it happened. (Photo of brain parts missing) We all know this, we see damage to the brain and parts of brain missing. Exactly in the back of the eye position. Blind and part of the brain missing. This is after an accident. This was an attempt on my life which Fabio and Naomi got involved in. this is the brain of Naomi. CT scan after the accident. Part of the brain was on the street, one eye blind, and this is Naomi. (photo of Naomi looking with both eyes perfect). (2:26). And doctors cannot even find where the piece is missing. (shows brain again totally healed). When you understand the power of the T, we don't need to talk. When you look at the videos you cannot even find what's missing in the brain. Never been done before. We grew the brain, we gave the whole neural system which was damaged and partially the brain, out of the brain back into it. And this is the girl. We don't talk to you. And this we done 3 years ago. This is the girl part of the brain missing. In the present world of science cannot be done, it's impossibility. The EU even allows this. People with a stroke paralysis can be reversed. the new brain, vision EU will go into the market in the next few weeks. We are working on it. One of KF groups have tested how fast we can change, even for migraine. We don't talk that it can be done. This is the girl we all love and she was part of us. According to present knowledge she should be blind and dead. She is with us, sees with both eyes. I was with her 4 -5 weeks ago. When I was in Italy I went to see her .. (2:28). This is how she is

We have the knowledge, we have the T, and with it we have to create the condition of peace. Be it Alzheimer's, be it Parkinson's, be it national way of thinking to be animal behavior, and killing to be the right thing to do, gun policy which is the state of mind of a nation we change to a peace policy. Here we handled a brain, it's simple. In American condition we have to change the mentality of a whole nation that killing and gun policy ??? and we have started with the president. And very soon .. when the new American president takes her, the office, we'll go even further .. Because she has the same mentality as the Chinese and us, and we are on the peaceful path. the new American president, she will bring a new D of solidity, and new mentality to the world, to the ?? with her understanding. She will come into power when Mitra is physically amongst us, and through it we'll see the change of the course, through a peaceful nation through peaceful mothers. We'll see that, it will come. (2:30). Just hold your guns till I tell you, then you'll understand. We do not go in the background to work. Kamala Harris as the new American president in a very short time will bring that change in policy, power with peace.

If you remember last year, in August, before anybody knew, we announced that she will be the next vice president and the first woman color of skin, president of US. We are reaching that point, about the right time. As her policy is on the basis of T and Science and through it and through her husband, a Jewish path of belief will bring the all 3 main religions together to one, Buddhism, Christianity, Judaism, and Islam. We have done all our works, we know exactly where we sit.

Any other question.

Q: (2:32). .. I just received the household reactors. I had ordered 4 they are all the same and I have filled the balls with CO₂, and ZNO with AA from these bottle which are unwashed. to stand them or put them around the bed. Does it need height... should some of them on the floor and 1 higher up .. how to place these 5 to create the flow, (2:34). and at which speed should they turn.

K- Yes, those you can put any position and condition you like. fill them up. .. These you can load them up the way you feel. If you want to bring enhancement in emotions, disinfecting ...

These are extremely flexible,

(2:36). Gans household reactors

A house with emotional problems, load them with 10 -20 % Mg.

Q: What I have the 5 which came.

K- These are more advanced ones.

Q: Right, now do I put them in places of my house. or just around my bed?

K- you can do what you like.

Q: .. (2:38).

Q: little balls inside ..

(2:40).

(2:46).

(2:48).

Now the machine the T belongs to the KF. This is what I told you, you get the system, because it is KS who are putting it back into the KF. We have seen more and more of this. This systems are coming in from major industrialists who use the T, they do it at home and they put it back with the KF. We have a number fo these coming in the next few months we taught freely, and they kept the honor and brought it back. Their factory gets orders we get the knowledge spread across and we see the result.

Q: About this Corona question. What is happening that everywhere they are pushing this sort of jab, because you can't call it a vaccination, because it has no vaccine in it.

K- I do not like to go into this, because it's very highly, (2:50). political and we shown our solution to the governments, and sooner or later we cannot go from one jab to another disease, another jab, and what is going to happen with a mixture of these things in our body. We have to find a fundamental solution for viruses which serves us not only on this planet, but now that we open the space T. The KF has the answer, it's for the new ways to think, and not to make money. We some of these injections are charged 100 -150 Euro per piece, and your governments have to come up with it. They are emptying your national reserves. It used to be an oil business, now it is an injection business. And all of it made we know Mr. Softy, we know it.

Q:

K- the new products, new developments ... The launch of the new EU for viruses which will be shown in Linz, (2:52). we expect you to go inside. It's very much a time machine, this is very much what you dreamt you will see in the future. We have built it. It is very much like a time machine. ... we expect a change of viruses in the space. WE are not building it for this virus or that virus. We developed this as part of the new space development When it comes June of next year, we need such a thing, can we go ..

K- We are opening 1st October. ..

(2:54). You go into the machine, I went in it. It's gorgeous, you feel at home ..

We will launch a new non-network communications, which means you don't need any telephone lines, you don't need any email system. You don't link up to any network. This will be launched by .. early next year.

You don't need satellite system. (2:56).

Any other question

Q: Ginger, .. Why is Iran allowing destructive use of weapons, this terrible loss of life in Kabul .. interview with James G. at ECETI you said Iran has the T to disarm although peace?

K- I don't understand.

R: .. repeats

K- Yes, but we didn't have the government which was peaceful. We had the most corrupt presidential setting up to 2 weeks ago.

Q: .. In listening again with (2:58). and you had alluded to I believe it was Iran disarming an American .. spy plane.

K- I don't need to ?? When we announced it 12 years ago, was nothing. Iran military, on the 10th of February has confirmed it. The T used. First time after 12 years. It was their communications. published both in Farsi and in English. The you have a different understanding of what we call disarming, especially like in Kabul. In Kabul you will see mayhem. This should not have been done if the Americans do not happen of stealing and drug trafficking, which they brought in with the British. Now the government, which was stopping everything else and wants to bring back what they were trying to bring a stable nation, according to their culture understanding after 50 years. You can't just pick and say, Kabul is happening you can't bring peace. Russians should have never gone into Afghanistan, they went for reasons, because the Americans were arming the Afghans to what we saw in the breakup of the Russia, they went there to protect their territory.

Then the Americans went

One lead to another. You put a bunch of American bandits, (3:00). literally drug trafficking soldiers into Afghanistan. What do you expect. You gave drugs to the Taliban. You supplied them with the weapons. What have you done now, you took soldiers and left the weapons for them. This is the .. gun policy. Bunch of crook, presidents you had in America who lined their pockets with the contracts, who supplied these into the private bank accounts. Every single gun transfer to Kabul under protection of the protection, your president took a percentage in his private bank account. Doesn't matter which president. Do not blame.. I am very clear. We have the policy to change. If you look the

present situation even the Taliban coming into position .. as peaceful as can be done, it was negotiated with the Iranian government. You abandoned people. you did the same thing you did in Vietnam, you never learn, the same in Iraq, you just take your soldiers and run like cats in the mouse hole. And then you expect the change. It won't come. The gun policy of America, you did, if you look at it we see in a shameful way, you done in Vietnam. You moved out and Taliban moved in the same night. You done the same thing in Iraq, you robbed the nations, you made the nation the center of drugs, and then you say why you use again. we done a lot. The Iranian leadership under ... Ayatollah K ... has done a lot to bring control to Taliban's. You do not know what would have happened if it was not the pressure of Iran. (3:02). Look at the past 2 conferences in past 2 months which Iran has been involved with Taliban. You created animals and then you want the T to tame it. It doesn't work.. .

Q: I am in agreement with you about the American government and their policy

K- You are talking about the Prime Minister of a long time ago who was trying to. You see the KF we are looking to change the mind set. To change the mindset especially the way we see it

(3:04).

Vatican involved

(3:06).

(3:08).

Q: why are you so involved with China when it's a communist country, (3:10). what .

K- Yes, it is a communist country but it is a safe country. Communist is not the communist you talk in 40s - 50s, in Lenin's time. the new communist structure of China is a correct, fair, seeing equal for everyone. You have a wrong image of communism.

Q: .. just for clarity, the face recognition and the credit card ...

K- .. you see there are 2 different policies. You use CNN to control your peoples mindset, or you use policies which are good for a nation the way President Xi does. Face recognition you already have.

Q: and the credit system, not being able to get on a plane, ..

K- Yes, when you are a criminal. You see there is a big difference, between the American .. I don't support either, but I look at the facts. In America you sell guns to anybody, mental cases, or people who are hooligans, then they kill and then you put in prison. Then you say you say you have a security policy. In China it's reverse. The structure of the Chinese communist regime you call it, is they facilitate, they reduce every possibility for you to do a crime. Then they don't need to make the prisons, then they don't need to attack. In China, you get drunk and attack people on the train they take your face, you cannot get on the train anymore to attack others. In America, you kill one, you go to Brazil you come out a bigger mass murders. (3:12). The Chinese policy of, it's not a control, of bringing a security that people can live a peaceful life. Not in America you can't even lock your doors, not in Italy you have to live behind 3 barriers. I walked in

Tiananmen square .. a young girl I've said this before, with backpack open and laptop in it, I .. there is something wrong here her bag is open they take her bag. She said to me, my country is safe, nobody will touch my backpack.

You are getting micro-chipped without you knowing it, that people don't do wrong. I lived in China for 2 years. You can walk 2 AM

because they create a condition of safety. In a America you create a condition of mayhem, terrorism, a killing, (3:14). and then you are superior. Communist is not the word.. nobody lives on what government gives. Every farmer is free. President Xi is programmed in to bring the ?? to bring the farmers up to live the correct life, a wealthy life. If you understand the new way of communism, which is different than 1970s and 80s you want to be a communist, you want to live in a clean nation, you walk anywhere

a freedom to be safe, a place to be clean, a place where government works for the nation and not controlling the nation. We have a different understanding of the present communism, and your next president, in the next few months will take you that way.

Q: First of all you are assuming that I am in America, I am not, I am in a country that allows no foreign military

K- It doesn't matter, you sound American, but I talk to the

Q: I did want to correct you on that

K- No problem, what is your background, where do you come from?

Q: I was born in America but I have chosen a country that allows no foreign military facilities. never been to war.

K- This is what we all want to do. Let me clarify for you. I am not against Americans, (3:16). and I am not against the communists. I have traveled about 80 nations around the world in past years. You understand what is to be and how to be. We have different impressions of the places ...

Iran advance technology research centers

If I show you one of the industrial zones built in Tehran, now it is much more advanced than even Silicon Valley. (3:18). You have an impression that Iran,.. this is why Iran is so advanced. The country leaders under instruction and protection of A K of Iran have built scientific zones, just research, kilometers of it. The most modern buildings you have ever seen .. why we changed our 90% oil export in 1970s to 30 -40% in the rest is there. The Iran research centers the villages they have built up, is the dream of the Americans. You cannot even dream. And the Chinese are even worst than the Iranians in building much bigger structures. You have a, not you, public, we have a different image because they want to show us. ?/ industrial restricted only for research and development, which billions of dollars have been invested. We are proud of it. But they don't tell you, because than they can't .. Iran suddenly annihilate the American base out of just a whistle. There are structures built, when you see the videos of the research zones, you cannot

manufacture in these areas. There are kilometers and kilometers of the most advanced modern buildings and factories built by the people who are doing the research, not built by the country to be there. In china they do that. You see Iran is years ahead of any other European nation in research and development. If I release the video, (3:20). it will shock you how a nation leadership has changed the country

Then you will say why does the government tell us the truth.

(3:22).

video about Nano science in Iran huge buildings ...

(3:30).

Any other question (3:40).

Q: Dean we have a position of number 3, 530 votes .. How does this become part of what you just showed .. how would this tie in with the Iranian research centers. you just showed.

K- The EU will put by Rick in the competition belongs to all of us. it is not Iranian. This is representation of our knowledge put together. This competition .. is not to show Iranians T, it's to show One Nation .. (3:42).

We should not enter these kind of competitions but it gives us exposure. We are not there to win or change. Rick has decided a way to do .. he is a member of the core team. This is not our competition ..

(3:44).

K- I have been asked can you promote this. No, we don't need to it's there . It's KS it there .. (3:46).

R: number of views #2 in views. .

(3:48). K- You see we don't ask, we don't encourage people to vote. You voted if you want to ..

We expect at least 2 world leaders to visit in next 2 weeks on their way through Austria...

(3:50).

(3:52).

Q:

K- It is theirs, we don't dictate. how they decide ..

(3:54).

(3:58).

(4:00).

(4:06).

Any other question

Q: when we will see a currency to benefit all the nations ..

K- We have started with one Coin (4:08).

(4:16).

I hope I opened your eyes to the true meaning, (4:18). of the S&T what I call the environment of Iran. Now you see why your nations are putting so much boycott on the most advanced nation. Now for you to see the truth. It's the same with China. These are not the only 2 countries, there are other countries advancing very rapidly, and they are threatening the bad ways of the past which they are used to.

Thank you

394 KSW

END
