

415th Knowledge Seekers Workshop; January 13, 2022

(Key phrases part 1 done; Transcription & proofing done ; Need to do ; Key Phrase part 2 , Key Words, Quick index. -excerpt summary :48 to :57 only "Birth of new human")

Quick index:

New FEU video flying; Soul will be free within system; Body doesn't move but your soul travels; Physicality surrounded by your soul; 3 points in creation of Star Formation (SF) - AZ - Tehran- Austria - soul of Mitra manifest itself as knowledge - not physicality; heads of NASA invited to join; UC & KS decide where to send the FEU; FEU and Knowledge has to be sheared only by nations - not behind closed doors; Churches & scientific organizations no longer exclusivity with Knowledge of Creation; Vision EU put on head to control FEU; Emotion of man become controller of FEU; Same system used for health etc even elevate STM; We'll make a scientist out of every man; request KS to help financial support of FEU; As Messenger I have delivered my message; KS responsible to get nation to except gift of FEU; Given the shell of FEU nations to work together - I give you the knowledge; (Man has been exported to different parts of Unicose) No more religions; KS follow own path - serving others ;

Soul teaching: (how the new human will be born)

UC has been created as the central soul of the STM, like sperm and egg essences gather from all humanity; UC as new soul responsible to setup new structure for the planet, Embodiment of all beings on planet - man animals Vertical and stones; February 22, 2022 (222) falls on Tuesday UC meeting ; Maybe Methi declares himself on this day; KS be ready for the change; Lion lie down with lamb killing comes to end;

End of Part 1 :

KEY-PHRASES:

Start editing

Shows a new video of flight EU - journey to moon 6th June 2022

The video you see is parallel to what we are aiming to achieve this year.

The body of the crafts will be shipped to Arizona (AZ), Tehran soon

After installing the flight systems within the units - hope to test in March

You have to understand, the new T is very much different than we use now (:24)

It allows us - without moving - to travel with our soul

This is one of the beauties with this system, you expect to fly in a physical craft.

At the same time we can allow your soul to be free within the system

But at the same time of being in the same position, we can allow you, through the development of the T, and understanding the work of the U, your physical dimension (D), to allow your soul, free within the system.

I mentioned before, that you might see a light within the system

This light is interaction of the energy of the STM - with the fields within the system

As we heard in the introduction video - we open the cage

You trust your soul to be with you in D of physicality - while engaged within EU

We allow, you trusting your soul to be with you in the D of physicality, within the engagement of the enhancement unit (EU).

This is for you to get to know yourself & your creator better (your soul)

Then in the next test, and next time, maybe you will like to take it for a ride

The new systems are a combination of different systems developed by KF

We allow your soul - emotion to take hold in D where you want to be

In that process we allow your soul, .. emotion to take hold dimension and direction (D&D), where to be, what you want to be.

Many of you will be surprised to see you physicality surrounded by your own soul

It will not be easy for many of you, and many will be in a way, surprised to see in the D of physicality, that now for the first time they are surrounded with their own soul.

Up to now we engaged the soul - (but this way) you'll (also) see physicality of craft

Where up to now they engaged the soul, but they can see the D of the physicality of the craft, which they chose to be in. (:26).

You'll be within the space of your own soul - while being within space of EU

The whole structure is being within the space of your own soul, but within the space of the system.

Your soul becomes like the sun - physicality like earth - (but can see itself) its beauty

Your soul becomes the sun, and then your D of physicality as earth, watches its back , watches its beauty.

It won't be a dream anymore - you don't need to think if the soul is there or not

You don't need to dream anymore. You don't need to be there to think, I don't know if it is there or not.

This will become important for many of the scientists who work with these things

It will become important for many of the scientists who work in this matter, in the coming weeks and months,

KS will teach them how to see light of knowledge - and enlighten the others

As many of our KS teaches them to understand more, for them to see the light of the knowledge, .. understand the ways to enlighten the others.

We chose 3 initial points for creation of SF - so the soul of Mitra can manifest itself

In choosing the 3 points initial, between Tehran, Austria and AZ, we allow the creation of the Star Formation (SF) for the soul of Mitra to manifest itself,

Manifest Soul of Mitra in D of essence of knowledge - not in D of physicality

By her presence and us understanding, that we are part of Mitra, -

We become knowledgeable to the knowledge of the Universe (KOU),

We become the mirrors of the knowledge

We reflect that understanding to our souls in the D of our physicality

By this reflection of KOU - we understand the totality.

Very soon as we produce 15 to 20 units every month - We send a unit to each nation

KF covers the costs - and with it allows nation by nation, to be part of the space T

It's the responsibility of UC to decide which nation will be on the list to receive EU

(You have to) prepare the community and society for it to receive the flight EU

When the initial 3 units are delivered - then we start the second lot,

We'll prepare 2 (EU) for each section, for each city, then we launch in

It's the responsibility of KS to decide which nation will receive the next unit,

To also get the scientists involved in understanding the development of this T

We'll put our request & invitation for the heads of every section in NASA to join us

At the same time we'll endeavor to do so with many nations

Then we make space and spaceship T - as the knowledge of One Nation

By mid-June we expect to see at least 30 to 50 nations having an EU - as part of

The nations will be sharing the knowledge openly on the channels of the KF

We break the barriers of science - of patents and technology restrictions

UC and KS responsible to prepare nation to receive EU

It is the responsibility of UC and every member of KS, if you consider yourself as KS, to prepare your nation to receive the next system.

Competition for KS to see how fast they can get nation to accept first flight EU

The competition now for you as KS, (:30). to see how fast you can accommodate, get your nations to accept the first flight units.

Your nation's scientists will add own flavor to the knowledge of creation

Then your nation, and your scientists add their own flavor, by adding the knowledge of the creation, .. to understand more of the knowledge of the creation. ..

We make One Nation out of this planet - as we are the organizers, see it through

We see every nation receiving a EU by the end of 2022 - become part of One Nation

The end of this year 2022, we see that every nation on this planet, will receive at least one unit, to become part of, to understand the T, and at the same time to become part of .. One Nation OPOR.

Will not be exclusivity of superpowers - but every power and man on this planet

It will not be the exclusivity of what they call themselves, superpowers, but will be the exclusivity of every power, every man on this planet. By the end of this year as we develop these new systems and we deliver.

We have responsibility to share knowledge openly - not behind closed doors

We have the responsibility to bring scientists to add their own flavor and their own knowledge to it, but openly, not behind closed doors. There is no exclusivity. This is what we see, and how we see it.

It should be a celebration for each nation to receive a unit - and teach others

It has to become a celebration of each nation receiving its unit, that it can join, be part of, and teach the others to become.

Have broken taboo of exclusivity of creation knowledge -to churches & organization

In so many ways, we have broken the taboo of exclusivity of knowledge of creation, to churches, to temples, and scientific organizations.

Becomes the right of every man - the soul of every man to have knowledge

It becomes the right of every man, the soul of every man to have the knowledge, in how we participate and how we do it.

Through outside consultants we'll bring space scientists to KF

We have setup new organizations in KF, as consultants will come in, (:32). and through them, we bring in the space scientists, step by step.

We try to have same number of systems on every continent at the same time

We try to see in the KF, as we are the financiers in the background, that every continent receives the same number of systems at the same time.

Don't give priority - all treated same from Africa to Americas -centers of excellence

We don't give priority, and we don't give a step upper hand, to the .. Africa will receive the same numbers as S America, as N. America, Europe and Asia, but with one difference, that all centers, the 3 centers, will become the centers of excellence.

We share & together understand the new space systems - they're on production line

Have already produced a large number of Vision EU - in the final stages of assembly

We will allow each system to carry 1 Vision EU,

Which allows the emotion of the man to become the controller of man

We shall not see control panels as such, for the flight

Use Vision EU to control flight - man will see vision of U

But sitting the man within the enhancement Vision unit, man will see the vision of the U. "I want to be in NY," the system will take you to NY. I want to be in Tehran in such a street. It will take you to that position.

**I want to be on Mars, on such a mountain- it will take you to that position.
Emotion of the man will become controller - but this time the emotion of the STM
Emotion of STM - more than the emotion of the physicality of the man
The 2 will work together and we'll understand more
Same system will be integrated and developed for Health & Materials production
The same system for enhancement of the STM - and traveling in physical D of man**

**Thanks to all the work done with Klaus - making sure everything is perfect
We chose the right nation to produce the systems - the nation of perfection,
German mentality - everything has to be precise and perfect
We see it coming up the production lines and the units to be shared
This process brings a lot of pressure on you KS - not us
The members of UC (need) to be fair and correct - by language & nation
If you are Italian speaking it does not mean Italy has to receive the first unit
There are other Italians in other parts of world with same beauty & position
Italians in Australia and the America's - it puts a lot of pressure to understand
This is why we put the members of UC per language and area which you speak
The Portuguese UC member or Brazil has the same right as UC from Portugal
This is the way we operate and we'll see how it goes**

Because with the delivery of flight EU - UC members likely to increase
because and through the application and delivery of the EU for flight, numbers of the members of the UC, (:36). people who would like to be there to serve will increase, and we have prepared ourselves for such a move.

**We will see the change, and the change is in your hand.
These units are physically built and will be in the hand of each nation - UC decides
You have to prepare the nations of your language to be ready to receive the FEU
The (time of) sitting back is over (for Council members)
You have to communicate organize with the Earth Council (EC) for you section
Making sure the units are received and to organize their facilities
From now on the members of EC may be called in to serve
Those who are not to serve will be replaced**

It's the responsibility of every man- not every scientist - to understand flight EU
Understanding the whole structure of the new flight enhancement unit (FEU) is the responsibility of every man, not every scientist,

**We'll make a scientist out of every man,
Through the simple way of understanding the structure of life
We will come to understand how we are created
And how, through emotion we have additional tools to understand more,
To be more humble, and at the same time to serve,
And become detached from the D of physicality.**

**When you can travel the D of this planet through the rays of the fields of your soul,
Would you like to get on a jumbo jet?
We have seen many of them grounded for past 2 years - because of the virus
I am sure - we will not see many of them flying again,
Once the EU flight system is in the position of the governments one by one (:38).
Many of your governments will be surprised receiving such a gift
But this is the problem of your nation - not the KF
We need to bring the scientists together to understand,
That the game of unification of man as One Nation OROP, one religion has started,
The One Religion - is believing in Creator and nothing else
Many countries will try to stop (the process), or will try to find a barrier,
Until they find a solution on how they can do it their own way
We see the City of Vatican to be the receiver of one FEU
We have many Knowledge Seekers within the 4 walls of Vatican
They understood the ethos & the knowledge - now they have to bring the 2 together
We'll deliver one unit directly to Tehran and the other to residence of the Ayatollah
For him to understand, the term of the science and the religion has come together,
We'll do the same with the others - to Jerusalem, and China.**

To make sure they understand - separation on the path to the Creator is over
To make sure that, first of all, they understand, the term of what we call, separation, to be on the path to the Creator, is over, has come to an end.

It's the responsibility of KS to make sure these FEU become part of your nation
This is the responsibility of the KS to make sure these units, as we release one by one, become part of your nation, part of the language, .. nation of the barriers and borders.

**For this unit to fly - there is a lot of work going on in the background
The flight means that man has freed himself from the shackles of the physicality
As a Messenger, I have delivered my message.
As a man of science (and a) Messenger - I delivered the science
It's for man to use it, to bring peace to humanity and the rest.**

The time of Methi has come - every one of us is a Methi for our own physicality
The time of Methi has come, and every one of us is a Methi for our own D of physicality, and totality of the freedom of man, through knowledge, understanding, and understanding the process of the creation and the Creator.

**The time does not come by books or by the histories -
Or by the rhetoric's put on, for us to be diverted from this plan of totality**

When you nations receive their unit they have to understand what to do with it
In the coming weeks and months, as one by one, your nations receives one unit, they have to understand what are we going to do with it.

When Italians received the USB stick, they went to parliament for them to accept

As we saw with the Italian community, when we released the patent on the USB stick, they went to their parliament and they asked their government to accept the key.

We saw the rest of it. (it spread to the other nations)

You're responsibility to take this to your nation and have them accept & work on it

It's the responsibility to take this to your nations, to accept the unit, and appoint scientists to understand, to work with the KF through headquarters,

It's for your nation to develop, add, become part of the T - not just to replicate it

To develop the T for them to become part of the space T, not to replicate, but to understand, and to add to, to become part of.

We're completing- knowledge of physicality & knowledge of understanding the T

It's the responsibility of KS - UC to deliver this to your governments

It is the responsibility of you KS, UC, and the support of UC, to take this to your governments, and deliver to governments.

Accept the date of delivery, and negotiate with the KF, (:42). for the delivery

Each unit has been valued at 10 million Euro, and we support it, and we'll deliver it

Every nation is responsible to guard the unit and teach it publicly

At the same time, it has to be understood that every nation is responsible to guard it, and to teach it publicly, once you receive these units,

You do not put these units behind locked doors for scientists to work.

You make sure, you arrange with the governments, and your public media,

Every development shown on a specific media channel and released to public

The people become part of watching it - they see how & way it is done

Then the knowledge becomes part of the nations, and One Nation cooperation.

The Chinese can watch the Italians - what each are achieving in their unit.

The same with the Americans, and the Africans

This is my goal, and this is what I came here for, to make man to work together,

To make man forgets about war - keep him busy with the new tools of the creation,

So that he forgets about competition -for one to be better than the other,

And the man strives to share the knowledge equally

KF preordered 100 units, 6 goes to AZ, Austria & Tehran, 94 are for your nations

Start dialog with your governments and we'll deliver.

Start dialog with the universities to accept units to test flight, and we'll deliver

It has to be understood - the knowledge has to be on open basis - not behind locks

It has to be understood that you make arrangements with your universities, and your government, that the knowledge has to be on an open basis, and not behind closed doors.

We learned a trick from IAEA, to put a camera on top of every unit (:44)

Would you like to be spied on like this, to find out which scientist is doing better

And then try to grab, steal, or kill.

This is why we bring the knowledge out in an open way, (to prevent this behavior)

It's the responsibility of you & your scientists to be open, the way we see KS today

It's the responsibility of you as the KS,

To encourage your government to join the new space T and accept the gift.

John and I have discussed this in a very detailed way

The knowledge has to be open to everyone and every scientist on this planet

When a gift is given we see no resistance, unless there is a predestined reason for it

We do not want to see the flood of scientists from one nation to another

We do not want to see the flood of scientists from one nation to another to be able to access the T.

Where they have it, they develop it, and they become part of

National governments have to agree on new structure for governing through UC

It will become the problem of national governments to agree on the new structure of governing through the UC, and not through borders.

Taxation is to be understood, that it is not necessary

Whole planet will bear the costs - making sure lifestyle same across the planet

where it becomes the expenditure of the totality, to make sure, (:46). that lifestyle becomes the same across this planet.

I am not a dreamer - I am delivering the T - which delivers the dream.

It's your responsibility as KS to see this dream to come reality,

As we have given you the physical units to achieve it

T and know-how - will be transferred nation by nation, scientist by scientist.

By year's end - at least 100 nations should have access to be part of space T of today.

Not (like) the rocket and propulsion technology of today,

And be accused of every other things, except what the reality is.

This is my gift to you as Knowledge Seekers.

You waited for years to receive the gift - now it is on the table.

When I gave you the MaGrav system you cajoled with the wires,

But you didn't understand the principle and ethos of the fields.

This time I gave you the shell, and I'll give you the knowledge that goes in the shell

This time - it's for you to understand the work of the fields.

I see some people in the KF to take heed and lead this project very fast.

Jalal, Alex in Canada, Alex in Nigeria, I see a number of other KS, especially in Vietnam to understand the T and transfer it to their people.

It's not anymore who, it's how.

We transfer the knowledge collectively to all of us

Once the units arrives in AZ, Tehran and Austria -
We'll put cameras and we'll show live to every nation - how to work with it
We'll invite the leading world scientists to join us and with it- we'll deliver the T
How this simple system - can be used - from transportation to material production,
This simple system can even be used to elevate the STM.
I hope I gave you a very beautiful gift - what for years you've been wishing to do
It's not my job anymore, it's your job to make sure every nation receives its gift
Make sure every scientist in each nation has the right to input their system
The systems will be delivered one by one - till we achieve understanding the totality
Funding these projects is heavily burdened on the KF
We call on KS to support this project,
Because there is a limitation in what I have managed to support financially,
Now it depends on you and how you manage to do it in your areas.
How you raise the consciousness of a nation to finance this project
The nation to become part of and to be there to see it happen
Gradually we increase the numbers of EU so KS can show evolution in science & T
KS can show the evolution in the world of medicine,
In agriculture they can grow plants within the systems,
And show that the energy from one plant can feed the nation
In this process we'll teach you more, and than we'll teach you how to elevate the soul
We'll teach you how to transport the man to different positions in the U,
And bring back souvenirs to show the beauty of the Creator,
These souvenirs are from us in other parts of the U

Chinese buy a souvenir in London - but when turn it over - it says, made in China
As I said to Chinese friend, Chinese travel to London, they buy a souvenir, Tower of
London ... but when you turn it upside down, it says made in China.

We make it & send it, and then we buy it ourselves,
We bring it back to show how far we have sent our knowledge,
To show how far we have been able to export our beauty and bring it back home
This is the process and it relies on KS and especially the UC -
They have to understand how to accommodate this transition
The transition is in a way to take the responsibility
for the knowledge and ethos of the creation.
The KS become the followers of the knowledge of the Creator,
KS don't follow any religion - there is no path - but their own.
They decide the way they'll serve - and how they'll see the beauty in serving
We are not replacing one religion with another.
There shall be no more religion, but there will be a guiding line through the STM

(Every cell in the body has a soul)

We also have a soul in the body which centralizes the soul of every cell
As we have a soul in the body of the man, to centralize the soul of every cell of the body
of the man,

**This soul makes sure - that all the other souls work together in the body
We have created the UC to be the central soul of every STM on this planet**

(This will happen) once UC, Humanity and the creation understand this
Once the UC, and the humanity in the creation on this planet understand this.

**We have created a new body (on the earth)
It's an embodiment of the earth with all its citizens**

Embodiment includes all irrespective of shape - be it man, animal Vertical or stone
In respect of the shape, color, path of belief, position, or what we call, the way to live, to be a man, to be an animal, to be a Vertical or a stone,

(Man) has to be able to understand and guide.

UC created for the purpose of creating this cell - soul for totality of human being
The purpose of the creation of the UC months and years ago, was to create that cell, that soul for the whole of the totality of the human being.

**We bring an egg and a sperm together,
And by its division and expansion we create the STM,
That the STM creates the physicality of the man.
We did the same, we brought (people) from every part of the humanity,
To create the sperm and egg, to create that soul, and that soul is the UC.
Now it's the job of the UC to give shape to the structure of the planet,
And with it to bring mankind to become part of the bigger structure of the Creator
Mankind is a cell in the body of the embodiment of the Creator, as a U and Unicose
Now we understand the process of the completion.
This EU brings you to the point - 94 units made available to 94 nations - and more.
It's your responsibility to make sure this is done.
It's the responsibility of the KS to bring the change.
There is this one coincidence - it is not accidental - but intentional
The 22nd of February, 2022 falls on a specific day.
If you check you'll understand exactly what this date means to many of you.
22nd of February, 222, falls on a Tuesday - the day the UC meets
This is the day of the change - of the man to understand his position and time
As was said, maybe, maybe Methi will declare himself on that day.
It's the responsibility of the man to be ready for the change,
For man to prepare the mankind and the world leaders for that change
That the change will come through science and T and ethos,
It has been delivered in both dimensions - the physical D
And the D of the structure that the soul of the system will create.
The new enhancement flight systems are not just for the flight,
The FEU are for the flight of the freedom of the STM.
It's the responsibility of the UC and KS, to make sure every citizen of this planet,**

**And every created things on this planet,
Has equal opportunity to raise its soul to the level of understanding
It was said, that the lion will live in the same den with the lamb
The den is the den of knowledge,
The soul of the lion, the lamb, and the man - will understand the same
They will become of the same essence of the source of the knowledge of the Creator
Then with this understanding would you eat your brother, or kill your own child,
(When man knows this) - the killing will come to an end.**

**In time, man will mature to move on to become part of the Universal Community,
He will use the fields of the U to survive, and not kill to become part of.
When you look at this FEU video again,
You'll see a ray of light shine on the unit -
This shows how man came out of the darkness of ignorance
How man can become part of the Universal Community
By flying into what is called, "the womb of the Creator and the creation"
I could not give you a better gift and knowledge, as what I have done today**

Key Phrases continued

Questions:

K- Strange enough the 414 was last time when we closed, and the 415 today which is 1, is the beginning of a new cycle. It's just about the right thing, but unfortunately it's on the 13th of a month, which could be a bad/good for some and a bad for the others. But it's a good mixture.

R: At least it's not Friday the 13th ... We've had a broadcast on Friday the 13th before.

K- We've done that as well many times. ..

Q: ... Based on the US analysis of the Dead Sea Scrolls, Jewish scholar, Dr. Paula highlighted 3 points. 1) at a certain time God will build a new temple. 2) Sons of God, Sons of Light, and Sons of Darkness, found there in Old testament manuscripts, (1:06). which did not exist before, but which nevertheless had been used to write the New Testament. He found this very surprising. 3) two Messiahs and a prophet will appear. One of the Messiahs will arise from the royal lineage, and the other will be a priestly Messiah, arising among common people, they speak of the salvation they will accomplish.

Questions:

1- Has this temple ever been built?

2- How to herd these children of darkness into the light?

3- Have this prophet and these Messiahs, and the Anti-Christ ever come? And what family is this royal bloodline?

R: It's a pretty big question .. maybe I need to ..

K- It's very simple. The temple is the STM, the temple of the man himself. Not the physical temple. And bloodline lineage, the king, or what we call, comes from the Creator - not from the man. There is nothing Anti-Christ about it. It's everything which brings an end, to not understanding the Creator. If you believe that the Christ was the son of the Creator, then, there is no need for anything more, then to understand the teachings, not the man. I think I answered you in totality with all your questions.

The temple you are looking for, is the temple of the STM, (1:08). which actually is the physicality of the man himself. You build a temple to keep a relic, or statue, or a belief in it. That temple is the body of the man. And the relic, or statue, or what you want to pray and believe in to, is the STM. This is what you never understood. Those who did not understand it, but saw a weakness in the man, abused the man, both on the physical and emotional side. The rest, I think you can still understand the rest of it yourself. The kingdom is his and nobody else's. So you find a lineage, or line, or whatever you like to believe. We are not making another temple, and we are not making another religion and a ?? fake. We are enlightening the man for him to find his temple. When you can reach every knowledge of the U through your soul, do you need a temple, except a belief, the understanding of the Creator, and his knowledge.
Any other question.

Q; ... Is there any relation between the sleep of the physical body and transmutation? (1:10). How can we understand the state of sleep of the physical body, which is a moment when the soul moves away from the physical body, and when moving away from the P body, the soul manifests itself anywhere? And why don't we have control of our sleep?
K- You'll find out in the space we will not sleep, that's for sure. We rest to recuperate from the transition of the fields within the body of the man. We have tuned it to the time of the darkness, or night time, most of us.

In that process, when we are in they space there is no day and night it is continuous line of life. The process of the regeneration and absorption of the fields from the environment will not allow man to, not allow, .. man does not need to rest to recuperate. In that process the STM and STP, are always co-working, they are together. Now when we say the STM is freer, it's not let free. It's freer to travel the span of the what we call, creation when the physicality is recuperating and is the weakest, is what we see, what we observe.

What does it mean the STM escapes from the body of the man. It is still, it expands beyond it, but the physicality becomes part of it. This is what, and this is one of the reasons we remember part of our what I call dream. Where our soul interacts with the other souls, and communication, (1:12). between the boundary and its center, our body is in the middle of it. It doesn't escape. There is no escapism in this process. It's becoming, encircling it.

When we are awake we encapsulate the soul. When we go to sleep, or weaken, what we call, the strength of the fields of the physicality, then the STM increases its dominion, and now, if you look at it, here the physicality was (on outer boundary). Now the physicality comes within (the soul). As the interaction of the STM with the other souls, takes place,

because it's a field interaction. It creates an emotion between the boundaries, like when you touch a fire, you feel it. It sends the emotion to the center.

The STP of the man, is in-between. So this interaction between this and this, what we call the boundary, the interaction with the interface of the STM, when the body of the man, weaker, with its center to communicate, man picks up some of the signals, we call it a dream. Now we are encircled. Where in the time of what we call, awake-ness, or being there. This still functions (body with STM in center) this still has an aura of it, but not so much, as it is, at the time of the sleep.

So in a way, we don't let loose anything, we just understand it. (1:14). Part of our teaching is for you, this position (STM expanded beyond the physicality). This cycle. Man up to now has lived in this cycle. (STM encapsulated by physicality). But now we can control it. Then you can communicate with the soul, with all the souls around you, where you don't need physicality. Physicality has a D, vision, what we call, maybe sound, but with the soul, you don't have that, you go beyond, and through the fields you interact and ?? communicate. And these are the same with the others.

That's the difference, now this is what we understand. We don't need to encage, this is especially, .. what we'll see with this, will be, when you go into the EU. This is what you will see. This is what will baffle you, as light. And one thing for sure not all lights in the D, inside the EU, will be the same color. Because this in a way, you will show part of your emotion.

This is how we interact with the others in the U, from the interaction of the fields, we gather their emotions, what they think, what they want. What is the reaction. That's how we see the dream ?? ourselves.

So in this process we'll see different colors, we know the true intention of the man inside. (1:16). When you ask, are you in love with the Creator. and what is your intention with your work? I am a Ayatollah or a Pope, my intention to rob, and deceive the humanity, will show a different color, then the one who says, "I am here to serve humanity," and we know each color what it means. There will be no one lying into the machine of their own soul. Then you ask the WL to enter these systems, and then you see the true intention of the president or the king, rabbis, the Ayatollahs, and the Popes and the priests.

It's not a lie detector, it's the true intention of life, explanation. I wonder if once the units arrive in Tehran and we ask the Ayatollahs to walk in, how many of them walk in, or they'll call it a "Satan" system, because it unravels their intention. The same in Vatican, same in Jerusalem, and in China. Then people understand, the man who has nothing to hide will walk in.

Any other question.

Q: .. many loved ones are asleep to the truths, (1:18). that you bring. Are there people who will not change D with the return of the Master, and Messiah. Loved ones of ours may be removed from us in different D?

K- Nothing needs to be removed. The enlightenment will hit everybody. The beauty of the whole process is that, the line of communication is taken out of the hand of, what I call, Media. With the presence of the Internet, and the way knowledge is shared across people, what they control as what we call, television and media, is out. You got to understand, many of those who are the decision makers in these fields, in what I call, Internet media, or the televisions, and radios, they themselves become subject to judge their own conduct, and then they have to change.

We learned something very special in how monarchies will bend, and how monarchies will change to stay a monarch. It's the same with the WL, how they will change to stay in power, but they'll find out they don't have much. We saw it on a couple of occasions, when populations turned against the regime, the kings and queens, and how to survive, they had like chameleons, to change. We saw that with Tony Blair and the Queen of England, during the death of Dianne. If Tony Blair would not have interfered in a deeper way, that he went, there would have been no monarchy within days, (1:20). in UK. Monarch had to change, and monarch had to come out to say a lot of things, to stick to the power, with it they showed a weakness, and with it, they lost the power to Vatican.

We have seen this, because they want to stay in power they change in any shape or form. But population will change it. The force of the knowledge in the hand of people, is the biggest tool the man is given with this T. You can do in your living room. As I said, we don't need to imprison, or assassinate any WL or scientists, we just elevate their soul, they imprison themselves for their conduct.

You will see the change. The change is on its way, there is no way to stop. We are not negotiating with governments to accept the new flight systems. We are telling them, it's coming, do you want to be part of it, or they pass you. What do you think their answer is. It's the same with the Americans, Russians, Chinese, and the African nations. You can not ?? ban your nation, to become a developing nation openly. Then we are on the way to deliver T, that brings the change to the STM and with it to the D of physicality. Any other question (1:22).

Q: .. If you detach from the physicality to travel by the soul, do you get to keep the RNA and DNA? I want to stay a product of my beautiful parents, or does your physical body become transparent within the soul?

K- More or less, yes. You don't disappear in the D of physicality. The physicality gets encircled by the soul. Why, what are you afraid of? You have embedded and you encircle the soul, and you say you know better, and do everything. Now that the soul has the knowledge, and not the freedom, but the knowledge of super-passing you, and you become within it, you are afraid you cannot do what you have done up to now. Or you might be afraid of what you have done, that the soul might aspire to show.

I encourage and I invite the world religious leaders to walk into these systems, and to elevate their souls. These systems are not a judgment system, these systems are there to bring man, to a new level of understanding the knowledge of the Creator, and the creation. (1:24). And that's the only difference.

We have nothing to fear, if we live one life. I have nothing to fear, I live very openly. With it I have no fear. I ask and whatever I am given, I take. When it's taken from me, I let it go, because it was taken from me, without me being asked for it. This is the difference that man will learn. The next cycle has started. You got to realize, when we announced, and what is going to be delivered from today, 1 unit on a regular basis, 3 units to round about a unit a day, to go to one nation. Nations cannot stop the development. You worked to make the MaGrav units at home, you worked to make the enhancement, the different structures we showed you, in the garages and kitchens and your offices. As one ambassador said, my ambassador office has become the research lab and I sleep in the .. launch.

This is what it will become. We are not forcing nations, we are gifting nations. It's a big difference. It's the responsibility of the KS in that nation, to encourage the scientists to explore more, but don't hide. To intentionally open up the challenges, (1:26). of the knowledge that, how much we understood, what can you add to our knowledge.

Superiority in the nation will come from its knowledge, not from its weapon and power anymore. How much they will share that knowledge, not by hiding it. In one of my latest communications to NASA chief flight officers, has been very simple, join us, bring your teams, and we work together with the Chinese, Iranians, and the rest of the world, to develop this T beyond the present understanding of the present time. Because they know they are working for 2030 launch to Mars, and half of the things they are doing, they don't even know what they are doing it. They are hoping by 2030, a solution will be found that they might get there in 6 months, where they can get there within hours. The bait is too sweet for the NASA scientists not to walk away from NASA. And at the same time not to bring NASA to be part of it. Bringing world space agencies to work together and then the scientists, is not a big challenge. The challenge is man, that trust his own soul to become part of it.

We today in negotiations between NATO and Russia, "do not come further into my territory, and I keep myself a good boy." With our T we invite you, come into our territory, because I can show you how better our scientists can serve the others. (1:28). The game changed, it's not a competition, it's a challenge to share. Then you understand how simple we get rid of patent. Because the old T, has no value, their patents anymore, and the new is not patented. So it becomes common knowledge and change in direction and D.

Any other question

Q: Guatua ...

K- I promise you he wants a unit for Kenya, He always battles with us that Kenya becomes equal to the others. talk to the UC if the UC agrees you'll receive one.

Q: ... thank you for delivering your promises ...

Given that the centers for excellence will be built in specific way ... (1:30). .. How do we approach governments. do you have documents we can deliver to governments

K- These documents have already been drawn up

(1:32).

We have to know where it goes that we don't give it out in public. The same with the CO2 business plan ...

(1:34). kept and a business plan was drawn out of it. If we see another need for it we'll come to it ...

.. You don't get a copy till we have a communication with your government, that's very clear. We've seen it to be released and it damages our work in the long run through the other people who try to stop it. When we negotiate with the governments it is for them to see what comes. We clearly do not release these documents to KS, or people who negotiate with governments. When KF through you, speaks to the government we'll release it to the minister, to the officials that official steps can be taken, (1:36). in respect to it.

Q: ... Is there an update on the Vienna talks?

K- The update is Ayatollah K of Iran on Friday approved, that the talks can start with the Americans. That was a big step, and we were expecting this. We announced some time ago, we expect .. You have to understand how the talks are measured in Iran. How the talks goes effects the exchange rate between the dollar and Euro in Tehran. There are certain things short and long term that we look into. ..

Long term, around September, the whole thing started last year. In pressurizing ... the Iranian government to issue an execution for me, by the people who we kicked out a year and a half ago. They delivered 2 TB of information to the Iranian securities, that I am a spy for the Israelis and the rest.

The process of integration of the KF into the Iranian T started by the Iranian G about a year and half ago. In that process we saw about the 10th of February releasing the T to be part of the KF in Iran. We responded by opening the KF factories, negotiating to start the other offices in Tehran. At the same time we keep a very close integrated program and connection with the American, IAEA, and in the back ground with the Chinese. (1:38). We cannot succeed in negotiation, if you do not keep a brace of everything. In the past year and a half, by a person who has been appointed by office of AK, to the KF, we transferred all our views, and the way the negotiations has to be handled. In writing to his eminence AK, voice messages directly to his office to A K to him personally, we gave the way the negotiations have to be done. ...

(1:40).

.. We should have entered at a point of power, not a point of weakness. But at the same time the way Iran went into negotiations, at a point of weakness, they saw a benefit for it, be it personal to some Ayatollahs, be it collective ...

.. We saw Americans misuse this position, we entered on 15th December directly with IAEA, bypassing American government to give the message to the Israelis, British and Americans, we know you lied. As our people said, immediately, within hours, Israelis

changed their position, because we opened their hand, how they lied to the Americans, and IAEA, Iran possesses and is headed for nuclear weapon T, when Iran is heading for space T in the most advanced way.

This changed the position and we saw last Friday, the Ayatollah announced that Iran can negotiate with America. (1:42). We'll see the negotiation will take a new shape in the next few days, and we'll reach an agreement. The agreement will be reached before 22nd of February in the background. If you go back to the words of AK in September, he expected to see a complete conclusion to the position of negotiations before 21st of March, which is the Iranian New year, that he delivers a complete .. program change of Iran, back into line with .. the nations, and we expect at the moment the dollar is around about 30,000 Reals to months to the dollar. We expect it to drop below 12 to 13,000. It's the forecast of the government the same. We see a massive devaluation of the currency, and then we bring it back into it.

But understanding we've done our job now we move back into share the T rapidly, that we give an intensive, a pressure on the governments to start working together, to overcome the sanctions and the rest. More or less we hear the same thing from Mr. Barberry, don't forget being the son-in-law of AK he directly communicates every move with his father-in-law. It's the same with the minister of Iran. Don't forget ?? the Iran PM is a gentlemen, who if you look at the report of the Corona in 2020, he said, in cooperation with Iran National Defense University .. (1:44).

KF cannot takes side, but has to be correct on either side. So we see, for the first I clearly explain everything, so you understand. We received a lot of pressure, a lot of lies, 2 TB was delivered to, through Dr. Assardy, who is the biggest spy, we actually know he works for the Mossad, the Israel intelligence, deeply. He the same as miss, what you call it, communication, created that façade. But the Iranians saw through it. Now we are going through a lot of things delivered by a guy in Germany, Iranian, working again for Mossad in the background, catching up, and linking up with the pathetic people we kicked out a year and a half ago, trying to get the Iran national .. intelligence in the Parliament, against the KF, but does not work. We've seen it. We'll give more of this to you. And we see how these people actually work in the background to the benefit of the KF. The peace will take a new shape ... it will come to a conclusion, because now through his son-in-laws AK has taken full charge, (1:46). of the negotiations. ...

The peace process is complete, this is why we asked the UC to support the soul of the negotiators, because through it .. especially the Iranian team, (1:48). we support AK soul to bring that delivery of the T & science together and religious understanding of the peaceful nation of Iran. The negotiations are complete as far as we understand, and now

we've done our work, we sat at the team of advisors. We advised the team 1.5 years before the negotiations started ...

We are very confident . but maybe the west will benefit more from it, as more advanced T from Iran will be delivered into the west, that will bring everything forward. What we call the EU in AZ is part of the peace dividend. I would not have delivered the EU flight system to AZ and the VEU to AZ , if we were not sure, 100% the negotiations have taken shape the way we wanted it. This is the peace dividend. The negotiations are complete, we took a step back, as we are preparing the next step that Iran can catch up after the agreements have been reached.

You got to understand we are there to support, as we done, we started with KS some 9 years ago, when Obama reached for the T, and we started the 5+1 negotiations. Now we done our job, and now we pay off people who worked to bring the peace, and the pay off is the transfer of T to US, and all the nations the same.

We achieved what we came here for, and we'll see in small ways, (1:50). because the politicians have to do their work, the benefit of the new negotiations and the teams. We saw the Koreans to be in Tehran because Korea wants to transfer a lot of T, and needs a lot of Iran's gas reserves, and they want to be part of it. So they came to Vienna to pressurize the Americans and Chinese to release the 7 billion funds of Iran kept in reserve, but already most of it has been used in supporting Iran in different ways by South Koreans. You got to remember we were in S. Korea over 10 years ago, and there is a lot of work in the background, which takes shape and does work, and S Koreans understand the benefit of new transfer of T.

Negotiations are in a good way, and more or less as far as we're concerned they are completed. We don't need to be there, we've done our work. I send private messages both, as was requested, in writing and in voice messages to AK the way we want it to be done, and we advise the government, and it's been kept in the future the office of ... AK will release these voice recordings, and what we wrote, advising them, many of it , has been listened to.

Q: ...

K- A lot of good things, a lot has come, very soon. As is said, we already have transferred part of the KF space T into US. We are not waiting to happen. And Americans know we have done that. They understand that was part of the key part of the negotiations. (1:52). Transfer of T not by word, but by hard, what we call, by hard materials. That was a very big step for us to make that decision. In Austria we decided with John, it was the time to move, and we moved, and with the knowledge of the Americans, we transferred, we shipped the materials, which is on the edge of science and T to the US, in the, after signing of what we call, the peace negotiations are on the right track. It's not waiting to happen, we have already started it to happen, because the T is already in US.

Q: Thank you... we now welcome the new enlightenment very soon.

Any other question

Q: .. What is it like flying a spacecraft with your mind using the consciousness assisted T? Will there be a plasma communication device to go with the ship?

K- Everything is there. Of course, you have to communicate you're arriving, and .. when you leave. It will be the same, yes. (1:54).

There are a lot of T which are transferred and is getting produced in our labs, which even our lab people do not know, they are just following what is being setup. In time they'll be integrated into what it is supposed to be. It's just like a piece of jigsaw, it's all been made, it's just putting together. At the same time in AZ, Tehran, and Austria. together at the same time. Then you'll see it when it is delivered as a whole.

The T development by the KF is not what you see in the teachings, does not exist. We never allowed it to be coming out. we never, it was a decision made by us in the KF, what we call, production and management to keep it. We understand why we are keeping it. We keep a very close .. open talks with John, Yosef, and Klaus and that we all understand the reason ... and way we are doing it, and we keep a brace with WL in China for the Chinese officials, and we allow for the KF as the Head of the KF. The top management of KF and what we expect the outcome to be. In a way, everything is getting done, and all the top people involved and concerned are kept a brace of what is and the way it is setup. (1:56).

Any other question

Q: Salmea ... I would like to send a small message ... because Methi will come .. (1:58). I am free from my work .

K- thank you .. indeed

Are there any other questions

Q: How far are we with time formation, (2:00). for going forward and backward in time. I am looking for others to develop such a device, if it is not already developed?

K- Time backwards, this is what I don't understand. You cannot go backwards or forwards in time. The only backwards time man can go, is through what he has embedded in his memory. But there is no machine to go backwards. If you understand the true science of what we call matter physics, or plasma physics. I explained this in very detailed way in one of the teaching some time ago. If you are looking at physical backwards time to see the past, unless you go through the memory of the man, it is impossibility. Tell you the reason why. This was brought up in a different way to the professors of Jeddah university.

If you have a man standing on planet earth, and this planet is moving 1,600. Then the solar system inside, is moving at say around about 10,000 per hour. If you throw a stone up, and you watch the stone going up, the stone doesn't land here, it lands here (different place) or be by the time to land, at this point. Then you understand this vision has scattered around (because of the rotations).

So for you to be able to see this 1000 light years away, as man says, is impossibility, because it will be scattered in 2 dimensions, and galaxy dimension. So we cannot see the past. It's impossible for us to ever see the past, (2:02). except in the memory of the man, if you can visualize your memory. So going back to the future with a system to go out and watch it, is literally impossible. But you can put a STM who has been witness to a composition, to an event, that through the STM, through D of transmutation of the RNA of the soul, and RNA of the physical D of DNA, then you might be able to see the visualization of exactly what the man has seen.

So if we look enough down the line to find people who were witness to crucifixion of Christ, they can tell us exactly how it happened, and we will see it, in a vision of the memory. Don't forget, when you have a blue eyes, brown hair, white skin, and then you give the same to your son, to your daughter whatever, you transfer that to DNA, but DNA carries the RNA with the information. What did this blue eyes (of the father) see? And how did the hair felt, how the physicality was conditioned in that time and position, is written, memorized in the fields of the RNA. So if we go down the line enough, or at the present time in the knowledge, find people, especially who never left Palestine. It's very crucial, the race, which never left Palestine, and were witnessed to the ancestors through RNA and the DNA, the crucifixion of Christ, we will see the actual image, the actual physical D, (2:04). of what they saw in their eyes of crucifixion. Then we know if it was true, or were they just people standing on a path as Christ went, seeing, carrying the cross. Did it actually happen, are there other witnesses to it.

Many of the historical things, which man claims through time of history, through RNA, with the new T, will be unraveled. I said that years ago, every action of the man is recorded. And in time the man of space, we couldn't say the man himself, will show it. Now you understand how it's done, because we have the T, it can be delivered. Sight of vision and sounds, through RNA and DNA, is never erased from the STM. Because this is how you see a man, and you recognize this is your father, or your grandfather, that passed away decades ago. So the same thing goes further down the line. Thousand years is nothing in what I call the cartridge of memory, of the man's memory disk. In our RNA and DNA we remember part of the creation of the U, if man knows how to do it.

As I said, yesterday in Rick's teaching, that the new T brings us new D. If you understand it, we can create what has been up to now, .. (2:06). One of the problems we have had .. Up to now if you go back a few years ago, we asked the KS, I remember even John was working to find the strength of the field of the STM. They went to different materials and different things, this material, or this field strength, will be of the STM, and the rest of it. I tried to give some hints to it.

You got to understand, the strength field of the STM, in interaction with the strength field of the environment, leads to the what we call, the creation of the physical man. The STM field strength has to be high enough, that not only the interaction with the soul, what we call field do the earth, leads to creation of the man, to other souls, to other ?? souls of the higher order, even the stars, you can manifest yourself in the center of a star, if you understand it.

Then the STM has a strength beyond the material state, which you have and you produce Gans's of. This is where most of you as KS have missed the knowledge. You tried to put some Gans's and with interaction you tried to create, (2:08). or to produce condition of man. In the EU this knowledge is hidden and will be revealed.

Then in this new EU you don't create the Cu and silver, you create the strength of the soul of the Cu and silver. The plasma of it. In the condition of any of the atmospheric condition, be it earth, the sun, another galaxy or another U, in interaction, the Cu will manifest itself, its Inertia of the field strength coming, matches that environment.

It might be in the liquid form on earth, but the other state of matters, which man has never seen, that it will manifest itself. On earth you are used to solids, in the shape of liquid, gas, solid, or whatever plasma ?? you have, the other state of matter, which man is not used to it. But the field strength of the Cu, in that, it might show itself in a totally new condition, and new manifestation.

These are all part of the teachings and understanding to come. So in the present new EU, we have the capability to create fields, if man understands enough, at the strength of the field of the soul of the Creator. That with it, man becomes knowledgeable of the knowledge of the U. Not with the strength of the STM, which in interaction with the strength of the field is created to be the physicality of the man. (2:10). The sperm and the egg are created on the condition of atmospheric condition, of the field strength of the planet. So there is a limitation on the strength of the STM on this planet. But when you open it up, it carries within it, within the strength of it, the soul of the strength of the Creator. And it is still to come.

These are the teachings when, if I do anything, then I become a magician. But if you understand it, you understand the magic of the science of the Creator. That's the difference between our change, and what you had as prophets and other scientists. You are responsible, and according to your intelligence, you understand the knowledge of the creation. But in essence, if you understand it, then you understand how we developed and progress the knowledge over time.

But don't forget the collective fields within the sperm and egg, lead to creation of the strength of the soul. Then what is the mystery within that egg, or that sperm, that can replicate the field strength of the U and the Creator within it? I made man in the image of Myself. So within the sperm and an egg, carries the essence of the knowledge of the creation. We are not aware of, we just pass it on, because we haven't become knowledgeable to understand. It's time to understand, and it's not the exclusivity of the humanity, as the other races in the U have already progressed, to pass that point. This is the beauty of the teaching. (2:12).

This is the beauty of understanding the knowledge. Then if as I said, in the teaching yesterday, if we can create, that process through our systems, within the EU, then you

understand, the unit has a soul. By the interaction of and egg, (and) 2 sperm, created in manipulation, the STM. Now we have many reactors, what soul shall our system have.

Would the soul of the system accept your soul. When you're so far, as I said, people will walk away from the EU, does not matter, many of the WL and RL, when you see them walking out and not be able to manifest themselves as a soul, you know they are criminals. Crime against their own soul, not against anything else. In a way, they become the judge of their own conduct. Then you'll see they'll put down their turbans, head bounds, and they leave the church and the mosque, and we never hear from them (again).

Because the conduct of the process, has to be according to the understanding of the soul. I always said, when you ask and you are given, there is no punishment, because you have delivered according to what you have been given. Did anybody, did any of the religious leaders ask the others, can I abuse your soul, can I lie to you in the name of the creator or whatever. Then it comes to it.

Any other question (2:14).

The strangest thing is, that you thought you were just going to get a flight EU and that's it. But you are going to get a seat for the flight of the soul and the physicality, and many of you are going to be shocked of it. Once that process takes place, you understand it, you don't need the knowledge of whatever is called the man, to kill and destroy, as you have access to more, why do you need to kill and destroy.

Any other question.

Q: Azar ...

K- First are you in US or somewhere else across the world?

Q: In US in NY. .. When you talk about mirage .. (2:16). If I am the miniature of Creator, and I am a magician ... it means I play with the fields. .. I am on stage making magic, ... through 1 field I create a dog ... you watch a mirage, but I am holding the fields. .. Creator holding the fields, all comes from Him, He created everything.

Actuality of it is everything is a mirage. .. back to essence . If I sit in a room and suddenly I see no walls, floor, ceiling, does it mean they were a mirage I created, I see through my eyes. When my soul comes out nothing exists except me sitting there. but nothing is happening ?

K- You see when you get to these points, many of KS will come to this point, is that when you. First of all when you say, God made you in the image of Himself, (2:18). it's in the D of the soul, not physicality. A step down of it, becomes physicality, if you look at it that way.

But when you sit on couch and you don't see the walls and the books and chairs, means you are looking at a higher order strength. That as I said, it's like you got the sugar in hand, and then suddenly you put it in hot water and it dissolves. The sugar and the water are still there, now you can't see it, because you increased the heat.

With the soul you increase the higher strength. So the physicality is still there, if you go in the lower strength. But now it is not visible to the man, but this time, if you reach that point, you still, it's what I said, being between the soul, and its boundary in the physicality, and its principle source, you are now in-between, you don't see with the eye of the man, you see with the vision of the soul, but in that communication, between back and forth, you translate it to the vision of no floor.

Because this is your soul and this is the extension of the soul. Before the soul was in center and you were in charge. Now if you look at it, if this is you here, and the soul in the middle, now the game has changed. You become in the center, and the soul has taken. But in communication the soul doesn't go from the center of your physical what we call, soul, out, it still has its center in the middle.

So what happens in communicating, being extended, it sees nothing, because in another strength, (2:20). you will see different dimensions, but you don't see the wall and the floor, because now you are engaged in it, and you're seeing what it is communicating to its center, that it can extend, or communicate with the rest of it. So the wall and the floor are still there, but now when you see it, through the higher strength of the soul, soul has no eyes, but still communicates with the center. Your physicality is sitting here, so you translate the knowledge, that you don't see any walls. It's understanding, not just, then you don't become a magician, you cannot create any magic's. ?? you are magic's to yourself in a way.

Q: If I get up at that point, and I don't see anything, and go through the wall, can I go through the wall, or I am going to get ??

K- You can do. .. but you do it through the D of the soul. This is how some people you see, and we show, they can go, if you create the higher D, you can go through the wall. You can walk through it, because now it's the soul, which carries you, and not the physicality. Now the physicality is engaged. You understand?

So now it's the knowledge of the man. It's just training to be. Going through an EU and understanding, taking that fear out of you. It's very much like when you have never driven and you get in the car. To change the gear, and get ready and pull the car for the first time into the road with the other cars coming, is frightening, but once you get into it, you know how to do it, you jump out. Have you see how compared to the first day, when you sat in the car? You just get in the car and you drive. Oh, the other cars, beep, . I know I am going to be safe, he's not going to hit me, I carry on.

We learn and part of the teaching and the T we deliver, (2:22). is to teach man how to trust and to be able to go through that point. We take you with the D of physicality into the EU, and many of you will walk out of it as a soul. Many of you will claim, your family friends claim, "oh, he disappeared, our family bla, bla " But you are sitting there watching them, you decide to be enlighten through the soul, "I am with you." "I am sitting in the house. Do you want me to show you I am here?" You move a table, or chair, then you become a magician. But then they understand there are levels to the soul. So they go into the machine to be at your level. Magic's become understandable, because

you go a higher level. Then you find out, if you can go even stronger than that, a higher strength of the STM, with a deeper strength, then you can reach even galaxies. instantaneous communication and T&T, and you do it through your soul. If there are people who cannot do it, we still give you the spaceship.

The space is create by the EU, the ship is the STM. You have to sail it where you want to. That is the whole purpose of the teaching. You're the captain, .. sailor, then you have to decide. We just provide for you to understand the D beyond the physicality.

Q: .. you were discussing Friday the section of the brain, that has to do with emotion ..

K- All of your brain is connected with emotion.

K- You said there is a section of the brain that is a horseshoe shaped, (2:24). that when you go to space you have to protect that part because any interaction of the field with any layer of that section can also bring you to demise. So you might feel something .

K- yes

Q: You might jump into something but you dissolve yourself, you'll die. The question is what is the anatomy of ..

K- No, no, no That's . When we speak in that level, we are speaking about the D of the field strength. That part of the brain is million of kilometers distance between the earth and the sun. Through putting a thicker filter we condense it for the energy to transfer. To reduce to become at the strength of the field of the matter state, to understanding of the emotion, through the Gans of the structure of the body of the brain of the man.

You got to understand the correct way. In the past we talked very simple because, even could it not be understood, Now you understand, you understand the reason. If I put a thicker shield, I reduce more fields. You're a doctor, what do you do when you take an X-ray in your dental surgery? You put a big thick shield on your staff, that they don't get x-ray radiation from the machine. If you do it thinner, they absorb more.

The structure of this part of the body of the man, is for a specific reason, because you have to see where it is, how it is shaped, and then what part of the responsibility of the operation of the man sticks beyond that boundary. It's not a shell, it's not spherical. When you look at this, (2:26). especially in the world of .., let's look at it this way, if you get the shoe shape, and you have a soul here, you don't have it spherical all the way. Then you have to see, this is 3 dimensional, yeah. You look at it, what sits beyond this D in the brain. What responsibility sits here, or we haven't understood the work of this part of the brain yet. On the other side you can transfer vertically, to any strength.

When we look at the structure of the brain, it's very simple. You have the soul, and the layers, which you have created reduces the strength of the field of the soul, as it goes further. Here you have the earth, you have a heavier material, heavier understanding. Here you have just a physical mirage, Saturn and Jupiter, you have the physicality of the man here. Here you feel the emotion of sadness. here .. happiness. Or in another part of the body, because you don't, because you are not aware of the strength of the other fields. Here you feel .. joy. But it's slightly. .. it's still on the same ring, but the density of the

material in the brain, takes part of the strength, so here you might, let's say you get 10 Tesla, here on the same ring, because it's slightly weaker, you get 12 Tesla.

But this is what I call ... you are a doctor, you've been to the medical school. Get a brain and a very sharp knife, and just let it sink in, and feel the emotion of the sinking, different strength fields. All that, changing the texture, is another process of the reduction, and increase of the fields. It's not the same with everywhere (in the brain). (2:28). If you put a knife and come up, 1 cm down, you feel here a click, (where) here you drop in. Because it is responsible for different emotion field strength. It's the same when you come to the process of the STM, which comes in your dream time. It still goes through the same process, and still feels this time, the field that way. You see the mother, because the soul of the mother is talking to your soul, because your soul can get the message to your physicality. Now you understand the process.

Now in the EU, the way we structure it, even our team are not aware of it, we're creating those layers, when you sit in (the unit). Not 2 men will feel the same, sitting in the same position. It's according to the emotion, field of the soul, and the strength of their soul.

As universal Messengers and Methi, when we deliver a knowledge, we deliver in completion. It's for man to decipher it, and for man to understand the totality. It's how you understand it, you comprehend it, and you deliver it to your soul, which allows the elevation of it, allows the expansion of it, through different D of the creation.

We come from the Source and we teach from the Source to eternity. It's for man to ?? depend (decide), which part of it he wants to accept, to understand. (2:30). If you are wise enough you can understand all of it with a flick of a finger, but limitation and prejudices has created in the STM from the time of its creation, through its ancestors, has created more and more fogs, for man to see the totality.

Q: ... What is the difference between the emotion of a woman and of a man. Because to me the reason we have different emotions, is because of the filtration, of the anatomy, but in actuality we are created equal?

K- can you repeat .. the emotion between a man and a woman ..

Q: Is it different?

K- No, it's just that the response is different. It's the Man who decides the physical response. This is why we see some men becoming very feminine, because they decide to respond in a feminine strength. And some women behave like, more than a man. As we say in Farsi. You know what we say. It depends who is wearing the trousers in the family.

Q: Yes ... actually I think that, because when you look at the body, the right part of the body is masculine, the left is feminine.

K- No, you can have the right body as feminine as possible, and as masculine as possible.

Q: But then how do you balance it out. For example when I look at my husband he is more feminine, I am more masculine.

K- Oh, it depends what's your intention. This is how. By man being emotional does not make him feminine. It means he is more in touch, in tune with the true emotion. This is a misunderstanding and misrepresentation.

Q: So how does, (2:32). someone become more feminine than ..

K- It's you. Have you ever seen two lesbians? When you see two lesbians, especially in Europe, especially Dutch lesbians, you know which one is the man, and which one is the female in their relationship. The male part always creates a very short haircut, like a man, that physically they are man. The female always has a long hair and behaves gentler. They are two women, they behave gentle, but she behaves more gentle than the other one, that I am female. We lived in western Europe and I have seen many of these, and you see it.

The same with a man, there are 2 men, and 1 man, the 2 man walks, you see it. A lot of Germans go to Thailand and bring Thai partners, men. The .. female part of the relationship behaves exactly like a woman, the way they handle their fingers and the ?? fidget. And the man behaves, "I am a macho." Why can't he do that with a full female?

But this is how we decide how we want our emotion to be presented. In Holland we see a lot of it. In Belgium we see a lot of this behavior. The ?? and they try to hide it ??, and some are very open. You see it. Who says, if you give the right opportunity and the emotion to the one who behaves very much like a female side. Put in another relationship, she'll behave like a male part, and the other one will be the female.

It's you who decides the emotion. This is very hard to understand for people from the east, but living in the west, we've seen so much of it, and I analyzed so much of their behaviors, because they are everywhere. (2:34). You walk into most of the restaurants in Brussels, you see German men with Thai partners, male, and the male is worse than the female-female, behavior wise, talking wise, and treating like. But doesn't mean they are not 2 men. They do this. And we seen this with the women too.

It's you who decides to what extent, and when you say your partner is more female, than you have to see how you behave trying to be a man in the relationship. Then you have to answer to that, are you looking in another D and direction in emotion. And feminism, or men-ism doesn't bring, it shows the beauty of the connection, and with one's soul. The rest is how we want to categorize it for us to be. That's why you have to have respect for every emotion for whatever you call it, the gays, the lesbians, the homosexuals, the straight, or whatever you call it. We have to have respect for a man in any, what we call, state of emotion, because the beauty is in the soul, not in the D of physicality.

Q: why God decided to create female and male, He could have created one.

K- God hasn't created male and female. God has created the D of interaction, that leads to creation of new D. You call it, male and female. You have parts, that it gives, and you have parts that it takes.

If everything was equal in the strength, there would have been no creation. There would have been just a field. (2:36). The difference in different amounts or strengths, creates a condition of interaction, and that interaction you call it. It is a man's vision. We have creatures who carry both, and they can replicate themselves. This is what, is something

for man to understand deeper about himself. So there is no division, we look at it this way. You call it Adam and Eve. Is Eve any less than Adam? Or Adam has some facets that Eve doesn't have, and Eve has some facets that Adam doesn't have, and their interaction, if you stand in the middle you call it love. That leads to interaction of the 2 fields, to something, we call it a creation. The apple, the human, the understanding of it is important, not to go into the rhetoric, and all the fantasy things that has been put on.

If you look at an electron and proton, the proton is the Adam, and electron is Eve. Is Eve the proton, in another D of it? Because there has to be a balance, that they can interact. More or less the interaction of the fields of the electron and the proton, creates a lot of materials, which then gets absorbed within the proton, and you call it, any other name you like it. If you look at it. In process of creation there cannot be any difference. It's man who has made this. (2:38). When you have a proton and an electron, they have to have something in common in interaction, that it leads to the, what I call, interaction of the fields.

One way or the other, it doesn't matter how you look at it. And these fields interaction leads to creation of something, leads to creation of something for man to see. On earth we call it electron, we call it Cu and Zn ?? These interactions creates fields, plasma fields. Some will be absorbed by this, and some by this. In the solar system we call it, when you have it, the earth and the sun, the interaction of the fields, creates materials, plasmatic conditions, that some of it gets absorbed back to the sun instantaneously, and some of it with the Inertia of the earth, becomes material on earth.

There is no difference between electron and proton. We get continuous production of plasmas from the interaction of the electron and proton, which gets absorbed within it, and then you call it in the present science, up quark, down quark. This is the same thing we call it, Cu and Zn. There is no difference. Then change this to Adam and Eve. The interaction of the fields of them, leads to creation of what you call, love, creation of the man, creation of the life within the life. I made man in the image of Myself, because part of Me is, within the man. (2:40).

Would we, when we become knowledgeable enough, go into the RNA side of the plasma, through it we'll see the true creator. The answer is yes. Look into it and you shall see. I will be there to greet you. But it needs the knowledge. It needs the clarity of understanding. As long as you look in the D of physicality, you see the electron jumping everywhere and nothing. If you scale it up, you will see the same, but you will see what comes in earth, gold and the rest, but you don't see the plasma you feed back to the sun. All these interactions. It's the same with the Adam and Eve, the creator and the created, and then what, how much of these fields are fed back to the Creator to learn from the love of what he has created. If that love was man, how much of that love, becomes part of the Creator, that created the man.

Now we understand the true essence of creation, we don't need any religion. Because nobody can lie to us, covering it under the coloring of Adam and Eve, and everything else which has been set for man to understand. We do experiments in the lab to replicate, the

replication is the structure of the earth, the atom, and Adam and the Eve. It's all the same, no difference.

How many scientists have told you, when you look at the atomic structure, how much of electron and proton they rotated around each other. (2:42). But this rotation has a field interaction. What love has been created between the two, and how much of it goes to the proton, and how much of it goes to the electron, that they keep that love relationship. And is it true that for the first time when Eve found the condition of manifestation of the physicality and the beauty of it, chose earth to be the birth place of ?? Mitra manifestation. Man needs a lot to understand.
Any other questions or call it a day

Q: Can the mind reading T that use to fly the ship, be used to read another persons mind from a distance?

K- We don't read minds. That's your understanding, so that would be it. We interact with the fields of the U, and then how you interact with another soul, and what you gather from it, is your problem, it's your understanding. (2:44). The reading of the mind, is the state of those who want to read to abuse.

Interaction of the fields of the souls, is what both understand at the same time of interaction. Then nobody can abuse. it's a big difference. We have not given a system to governments to control mind. We have the systems delivered that the governments understand that you can never control the STM. The mind is a lower level. Then this gives for man to understand he is equal in all levels.
Any other question

Q: Dean, .. with what you just spoken about, which is explained a lot in totality. ... In the new video we produced and showed today. Shows an environment where the spacecraft actually takes off and leaves physically. Would you need that environment for let's say a WL to receive that unit, to be able to step into it, to experience the elevation of the soul?

K- Not really, John's point of view is the back of his house is the best place because it goes in AZ desert. (2:46). It doesn't need a place for it. It's where they decide to enter it, that counts. When I was talking to John ...

It's where the Iranians tested, the Iranian space T, in central deserts in Iran. Nobody could see or detect. This was one of the ways the American drone was captured. In the desert there is not much to see, and you can do a lot of things. It's the same, unfortunately in Austria we don't have a desert, it's all green. We have to find another way to manifest and show, different thing.

Let me explain, we talked yesterday If you go to Rick's teaching you'll hear more or less, the same thing. If you notice, many of you, you look at this EU, in ... KF center, we've shown the videos of it before ... If you remember originally ... (2:48). or pictures .. it was very clear ... This is the new pictures of KF Linz EC.

The systems were brought down to the ground floor. It's nothing but solid flooring. ... one of the reasons we moved these from above, as you've seen in this picture, to below, is because the systems are active. The systems are not there on its own. When we started them off in the design center in Linz. The process has started, the systems is live. We see things in the KF research, we know things which are happening there, but ordinary people don't understand.

But there is a reason why we moved them from above to below. That's above ... they have been moved to solid ground. When we setup systems, and once we trigger the egg and sperm, you cannot stop the lifecycle. These systems are active. We know within the research center how active they are. (2:50). We've taken action and the steps, partially to overcome the next steps could happen. They are not dangerous, they are normal fields within the structure of the matter state, but they work within themselves, they don't effect outside, and we are monitoring what is happening inside.

These are the fields of the plasmatic fields. They are part of the process of, "I take what I need, I don't take what I don't need." This process now, is interesting for us to see in a year time. We have sown a seed, and we are watching. This is part of the knowledge, .. T development. When you look at, as I said before, at the EC you see all the equipments, which are in the latest T and knowledge of the man. What I call the mother, sits in this picture, this is the first child of the first mother of the development of the space T in Iran.

Even the Iranian scientists have not understood the power of what they developed and built in Tehran, over 10 years ago. But it sits within the structure of the T. Remember I told you with 1 drop of water, I can create a fish, I can even create a man. Within these systems, if you understood, I don't need to create the physicality of the man. (2:52). I need to create, the creation, which carries the soul and information of the STM, and man will manifest himself in any D as souls. I don't work with cells and protons, I work with the soul of the creation and the Creator. Then you understand. That creation might look ?? to your eyes. and to an Africa the same creation will be black and brown eyes. Chinese will see their own version. It's manifestation of vision according to the emotion.

It will be the same when Methi comes, every religion will see in their D of fulfillment, not to bring all together. That's the problem that many of the WL and RL, have to handle in the coming time. To interpret, for them to understand what is in front of them. This is the knowledge of the creation in a physical level, that the man can understand. But within all the systems there is a soul. There is further more to it, than present you can understand. The soul of the Creator has never harmed no one, as He is the Creator.

Q: ..?? in emotion, are we creating a soul, or many souls ?? ..

K- We are not creating souls, I am not getting into that. It's the system, (2:54). has its structure, we set it to be a structure to be equal to all. This is the essence of the creation.

Q: We have a Star Formation?

K- We have every formation, depends what suits, and what one can understand. The beauty of it is, when you are looking at, what I call, the depth of these pictures, when you

look up into it, in the horizon of it, you see the beauty of the .. knowledge. How it is shaped. When we share the knowledge, we do it in a beautiful way, that, as you've been there, you've seen it, it's beautiful to see how the T has developed. How we covered on the banner of all, what awe call, One Nation OP, and on the banner of the KF. We've seen it It's for the WL to understand how to start working around it.

Q: ... (2:56). you said you positioned it, you are not asking anymore, you're telling, you're are showing, ..

K- We are delivering. They have to follow. We have and are delivering the knowledge, the know-how, the understanding is for the WL, depending on what flag they serve, to understand, what they want to do. We don't carry a flag. The flag of the KF is very clear. Unmistakable. It's for them to decide, which side they want to take, and how they consider, they want to share. We share equal. Hopefully they will see the same, sooner or later.

Q: ... I think they will see this position

K- It's just through the work of the UC. Their soul is responsible, and it's there, we setup the direction. The way it has to be. We will see this in a much deeper way in the coming time. Where the flag of the KF stands on its own merit, without the .. frontiers. This is part of what we are responsible for as KS, knowledge and the love of God without borders. (2:58).

When you understand this, it becomes very easy to work. If you understand the process of the creation, and understands the structure the creation works under, then there are no flags, except the flag of humanity for us to carry, It has been put on in a beautiful way in the past, and we'll go by it, to bring it in the future, when we'll see how KF works and especially what time place and position. It brings a true reality to all of us, irrespective of what we do, where we are, and how we see it. It's the beauty of the knowledge, that we can share it so freely, we are not afraid of who listens, and who copies, and who shares this knowledge. As I said, .. we are responsible to teach, and they are responsible to use what they have been taught, the best way to serve humanity. We are not preachers, we delivering the knowledge. They have to decide how this knowledge is used for the betterment of the human race. (3:00).

In a way, I can sum it up in a beautiful way. Does not matter what flag you put on the One Nation, KF serves humanity, as we are all made of the same blood, from interaction of the fields of the U. If I can create blood within a container, I can create any creation. But we all serve on the flag of the nation of KF as One Nation, irrespective of what other flag sits with us. Because in essence we are all created from the same blood, in a physical D of the man. It's us who puts a difference, with different colors and piece of clothe, depends what nation we call it. This is over .. in totality because we have brought this to one thing, one stand on the left of this picture, and that is KF as One Nation. The flag on the other side literally becomes .. different areas and districts of this planet, we would like to call ourselves to be part of.

If you and I can make blood we can create life, do we need to destroy that life. There is much to live to the life of the man. Ask yourself a simple question, (3:02). if it took a simple box to create the blood, to create man. What kind of life is created in the box of U

from interaction of the fields of the Creator? What would man see in the depth of the space, on the interaction of the fields, which create the bloodline of the creation and the Creator, and the U and the Unicose. then you understand you can create life anywhere, and you can feed it with its own flow of its own fields.

Thank you

END

SUMMARY:

Summary:

(Excerpt summary from :48 to :57 only)

It's not anymore who is going to bring the technology (T) out, but how. The knowledge will be collectively transferred to all of us. Once the units arrive in Arizona (AZ), Tehran and Austria we'll show everything live through cameras to every nation. We'll show how they are doing it. We'll invite leading world scientists to join us and together we'll deliver the T. We'll show how this simple system can be changed to do whatever we need, from transportation to material production, and even elevation of the STM.

I hope I gave you a very beautiful gift, what you have been wishing for all these years to do. It's not my job anymore, it's your job to make sure every nation receives its gift, and every scientist from each nation has the right to be able to input into their system. We will deliver these systems one by one until we achieve the process of understanding the totality.

Funding these projects is heavily burdened on the KF, but there is a limitation to what I have managed to support financially. Therefore, we call on all the Knowledge Seekers (KS) to support this project. Now it depends on you and how you will achieve it in your areas. It's up to you to raise the consciousness of your nation to finance the project, to be there to see it happen and to become part of it.

We'll gradually increase the numbers of EU, so that KS can use them to show evolution in their areas of science and T. They can show advancement in the world of medicine. Or for example agriculture, by growing plants within the system, and showing that there is enough energy in one plant to feed the nation.

In this process we'll teach you more, and then we'll teach you how to elevate the soul. We'll also teach you how to transport the man to different positions in the U, and to bring back, what we call, "souvenirs of the beauty of the Creator," to show here on earth. (These souvenirs) are from us in other parts of the U. It's like what I said to a Chinese friend of mine, you travel to London and buy a souvenir, but when you turn it upside down, it says, "made in China." In a way, we make it, we send it, we buy it ourselves, and then we bring it back home, to show how far we have sent our knowledge. To show how far we have been able to export our beauty and then bring it back home.

This is the process, but it relies on the KS, especially the Universal Council (UC), to understand how to accommodate this transition. The transition is, in a way, to take responsibility for (sharing) the knowledge and ethos of the creation. There is no religion and no path, except your own. The KS become the followers of the knowledge of the Creator. You decide, by the way you serve, and the beauty you see in serving.

As I said, we are not replacing one religion with another. There shall be no more religions, but there will be a guiding line through the STM. (Earlier we taught that every cell in the body of the man has a soul.) And the body itself also has a soul, that centralizes the soul of every cell, so that they all work (harmoniously) together.

We have created the UC to be that central soul, of every STM on this planet. Once the UC, humanity and all the creation on this planet understand this, then we have created a new body. It's an embodiment of the (entire) earth, with all its citizens, irrespective of their shape, color, path of belief, position, the way they live, be it a man, animal, Vertical (people or vegetation), or a stone. (The man has to be able) to understand and guide.

The purpose of the creation of the UC years ago, was to create that cell, that soul, for the whole of the totality of the human being. We bring an egg and a sperm together, and by its division and expansion we create the STM, and that STM creates the physicality of the man. We did the same, we brought (people) from every part of the (humanity), to create that "sperm and egg," to create that soul, and that soul is the Universal Council. Now it's the job of the UC to give shape to the (new) structure of this planet, and with it to bring mankind to become part of the bigger structure, as a cell in the body, of the embodiment of the Creator, as a Universe and Unicose.

Now we understand the process of the completion. The (Flight) Enhancement Unit brings you to this point (of completion). And 94 flight units will be made available to 94 nations, and more. It's your responsibility to make sure that this gets done. It's the responsibility of the KS to bring the change.

As I said before, there is this one coincidence, it was not accidental, but intentional. The 22nd of February, 2022 falls on a specific day. If you check your calendars, you'll come to understand exactly what date that is, and what it means to many of you. The 22nd of February (222), falls on a Tuesday, which is the day the UC meets. It is the day of the change - of the man to understand the position and the time.

As was said, maybe, maybe the Methi will declare himself on that day. It's the responsibility of the man to be ready for the change. It's the responsibility of the man to prepare the mankind, and the world leaders for that change. And it's the responsibility of the man, that the change through science and technology, and ethos, will be delivered in both dimensions, the physical and the structure, that the soul of the (flight) system will create.

The new flight enhancement units are not just for flight, they're for the flight of the freedom of the STM. It's the responsibility of the UC and KS, to make sure every citizen of this planet, every created things on this planet, has equal opportunity to raise his soul to the level of understanding.

Where it was said, "the lion will live in the same den as the lamb," in a way, it's the den of knowledge, the soul of the lion and the lamb, and the man will understand the same. They all will become of the same essence of the source, of the knowledge of the Creator.

Then we understand. As I said, would you eat your brother, or would you kill your own child. By this understanding the killing will come to an end. In time, man will mature to move on, to become part of the Universal Community, and use the fields of the Universe to survive, and not to kill to become part of.

When you look at the flight EU video again, first see the ray of light, shining on the unit. With this ray of light, man comes out of the darkness of ignorance and becomes part of the Universal Community by flying into what I call, the womb of the Creator and the creation.

Thank you for today, and I could not have given you a better gift of knowledge, as what I have done today.
(excerpt summary only from :48 to :57)

ENGLISH TRANSCRIPTION

(:21). R shows a new video flight EU moon 6th June 2022.... (:22).

K- ... We welcome you back for another session of learning more and sharing more .. The video you see is parallel to what we are aiming to achieve this year. The body of the crafts are more or less ready, and will be shipped to Arizona (AZ), Tehran, and in next few days, hopefully. Then the technicians and the people who work in the background, will endeavor to install all the flight systems within them, and hopefully by March to start the test flights. You have to understand, the new T is very much different than before.
(:24).

As ?? to travel, allows us without moving from the position, for our soul to travel. This is one of the beauties with this system, you expect to fly in a physical craft. But at the same time of being in the same position, we can allow you, through the development of the T, and understanding the work of the U, your physical dimension (D), to allow your soul,

free within the system. I mentioned this before in touching the subject, that you might see a light within the system. That light is the interaction of the energy of the Soul of the Man (STM) with the fields within the system.

In a way, as we heard in the intro, we open a cage. We allow, you trusting your soul to be with you in the D of physicality, within the engagement of the enhancement unit (EU). It's for you to get to know yourself better, to get to know your creator better. Then in the next test, and next time, maybe you will like to take it for a ride. In a way, in the new systems you'll see a combination of the new systems, which have been developed by the KF. In that process we allow your soul, .. emotion to take hold dimension and direction (D&D), where to be, what you want to be.

It will not be easy for many of you, and many will be in a way, surprised to see in the D of physicality, that now for the first time they are surrounded with their own soul. Where up to now they engaged the soul, but they can see the D of the physicality of the craft, which they chose to be in. (:26).

The whole structure is being within the space of your own soul, but within the space of the system. In so many ways, your soul becomes the sun, and then your D of physicality as earth, watches its back, watches its beauty. You don't need to dream anymore. You don't need to be there to think, I don't know if it is there or not. It will become important for many of the scientists who work in this matter, in the coming weeks and months, as many of our KS teaches them to understand more, for them to see the light of the knowledge, .. understand the ways to enlighten the others.

In choosing the 3 points initial, between Tehran, Austria and AZ, we allow the creation of the Star Formation for the soul of Mitra to manifest itself, in the D of the essence of the knowledge, not in the D of physicality. By her presence, and us understanding, that we are part of Mitra, we become knowledgeable to the knowledge of the Universe (KOU), in a way we become the mirrors of the knowledge. We reflect the understanding of that, to our souls in the D of our physicality to understand the totality.

In the coming time, very short, as we produce every week, and every month, around about 15 to 20 of these units. We send a unit to each nation. KF covers the costs, (:28). and with it we allow nation by nation, to become part of the space T, through the science and T. With it we take this to the next step. As I said before, it's the responsibility of the Universal Council (UC) to decide, which nation will be on the list, and the next one. Prepare the community and society for it to receive the .. the units. Initial 3 units once they become in the hand of the 3 nations, and then the second lot, as we prepare 2 for each section, for each city, then we launch in. Every week it is the responsibility of KS to decide, which nation will receive the next unit, with it get the scientists involved, and involved in an understanding of the process of the development of this T.

We have put our request and invitation to the NASA head of every section to join us. At the same time, we endeavor to do so with many nations. Then we make space T and spaceship T as the knowledge of One Nation. So by mid-June we expect to see at least 30

to 50 nations having a unit, to be able to be part of, .. share knowledge and do it openly on the channels of the KF. In a way, we break barrier of science, .. of patents and technology restrictions. It is the responsibility of UC and every member of KS, if you consider yourself as KS, to prepare your nation to receive the next system.

The competition now for you as KS, (:30). to see how fast you can accommodate, get your nations to accept the first flight units. Then your nation, and your scientists add their own flavor, by adding the knowledge of the creation, .. to understand more of the knowledge of the creation. .. we make One Nation out of this planet. As we are the organizers, and what we see through. The end of this year 2022, we see that every nation on this planet, will receive at least one unit, to become part of, to understand the T, and at the same time to become part of .. One Nation OPOR. It will not be the exclusivity of what they call themselves, superpowers, but will be the exclusivity of every power, every man on this planet. By the end of this year as we develop these new systems and we deliver. We have the responsibility to bring scientists to add their own flavor and their own knowledge to it, but openly, not behind closed doors. There is no exclusivity. This is what we see, and how we see it. And it has to become a celebration of each nation receiving its unit, that it can join, be part of, and teach the others to become.

In so many ways, we have broken the taboo of exclusivity of knowledge of creation, to churches, to temples, and scientific organizations. It becomes the right of every man, the soul of every man to have the knowledge, in how we participate and how we do it. As I said, we have setup new organizations in KF, as consultants will come in, (:32). and through them, we bring in the space scientists, step by step. We try to see in the KF, as we are the financiers in the background, that every continent receives the same number of systems at the same time. In a way, we don't give priority, and we don't give a step upper hand, to the .. Africa will receive the same numbers as S America, as N. America, Europe and Asia, but with one difference, that all centers, the 3 centers, will become the centers of excellence. In a way, we share, ... we together understand the T. The new space system, now that they are on the production line.

Then at the same time, as we already have produced a large number of the Vision units going through the final stages of assembly. We will allow each system to carry 1 EU, which, that allows the emotion of the man to become the controller of ?? man. We shall not see control panels as such, for the flight, but sitting the man within the enhancement Vision unit, man will see the vision of the U. "I want to be in NY," the system will take you to NY. I want to be in Tehran in such a street. It will take you to that position. I want to be on Mars, on such a mountain. It will take you to that position. So the emotion of the man will become the controller, but this time it is the emotion of the STM, more than the emotion of the physicality of the man. The 2 will work together and we'll understand more.

As I said to our team in Austria, as they are putting the systems together, it will be a wonderful time to see how integration of what system, (:34). is being developed, will come to be used, the same system, for health. The same system for production of materials. The same system for enhancement of the STM, and .. for traveling the physical

D of the man. Thanks to all the work, which is getting done, especially in Austria, and especially the work with Klaus is doing in the background, to make sure that everything is perfect. We chose the right nation to produce the systems. The nation of perfection, German mentality. Everything has to be precise and perfect. We see it coming up the lines, we see the production units coming in, and units to be shared.

This process brings a lot of pressure on you KS, not us. How to be far, and how to be correct, as members of UC per language and per nation to be correct. You are Italian speaking, does not mean Italy has to receive the first unit. What is other Italians, in other parts of the world, who have the same beauty and same position. In Australia, in America, S America, where this puts a lot of pressure and understanding, and why we put the members of Universal Council (UC) per language, and per area which you'll talk. You speak Portuguese, but you are in Brazil, the member of UC for Brazil, has the same right as UC member from Portugal.

This is the way we run, we'll see run, because and through the application and delivery of the EU for flight, numbers of the members of the UC, (:36). people who would like to be there to serve will increase, and we have prepared ourselves for such a move. We will see the change, and the change is in your hand. These units are physically ?? built, and physically part and will be in the hand of each nation, as members of UC decide.

You have to prepare your nations of the language, ready to receive it. The responsibility of sitting back is over. You have to communicate with the members of the Earth Council (EC), for your section, and make sure that it is received, and they organize their facilities. From now on the members of EC may be called in to serve. Those who are not to serve, will be replaced.

Understanding the whole structure of the new flight system is the responsibility of every man, not every scientist, and we make a scientist out of every man, through simple way of understanding the structure of life. Understanding how we are created and how, through emotion we have additional what we call, tool, to understand more, to be more humble, and at the same time to serve, and become detached from the D of physicality. When we can travel the D of this planet through the ?? rays of the fields of your soul, would you like to get on a jumbo jet. We have seen many of them grounded for past 2 years because of the virus. And I am sure we will not see many of them flying again, once the EU flight system is in the position of the governments one by one. (:38). Many of your governments will be surprised receiving such a gift. But this is the problem of your nation, not the KF.

We need to bring the scientists together to understand, that the game of unification of man as One Nation, One Race, OP, One religion has started, and that religion is believing in Creator and nothing else. As I said, many .. countries will try to stop, will try to find a barrier, till they find a solution to their own way of doing it. We see the City of Vatican to be the receiver of one. We have many Knowledge Seekers (KS) within the 4 walls of Vatican. They understood the ethos, and they understood the knowledge, and now they have to bring the 2 together.

We'll deliver one directly to Tehran, and the other to residence of Ayatollah K of Iran, for him to understand, the term of the science and the religion has come together, and we so the same with the others, to Jerusalem, and to China. To make sure that, first of all, they understand, the term of what we call, separation, to be on the path to the Creator, is over, has come to an end.

This is the responsibility of the KS to make sure these units, as we release one by one, become part of your nation, part of the language, .. nation of the barriers and borders. There is a lot of work going on in the background, and for this unit to fly, it means for man to free himself from the shackles of the physicality. As a Messenger, I have delivered my message. As a man of science Messenger, (:40). I delivered the science. It's for man to use it, to bring peace to humanity and the rest.

In so many ways, the time of Methi has come, and every one of us is a Methi for our own D of physicality, and totality of the freedom of man, through knowledge, understanding, and understanding the process of the creation and the Creator. Not by the books, and by the histories, and by the rhetoric's that have been put on, for us to be diverted from this plan of totality.

In the coming weeks and months, as one by one, your nations receives one unit, they have to understand what are we going to do with it. As we saw with the Italian community, when we released the patent on the USB stick, they went to their parliament and they asked their government to accept the key. And we saw the rest of it. It's the responsibility to take this to your nations, to accept the unit, and appoint scientists to understand, to work with the KF through headquarters, to develop the T for them to become part of the space T, not to replicate, but to understand, and to add to, to become part of.

In so many ways, we're completing the knowledge of physicality, and knowledge of understanding the T. It is the responsibility of you KS, UC, and the support of UC, to take this to your governments, and deliver to governments. Accept the date of delivery, and negotiate with the KF, (:42). for the delivery. Each unit has been valued at 10 million Euro, and we support it, and nation by nation we deliver it. At the same time, it has to understood that every nation is responsible to guard it, and to teach it publicly, once you receive these units, you don't put them behind locked doors for scientists to work. You make sure, you arrange with the governments, and your .. public media, every development on a specific channel, of what we call, release to public.

People become part of watching it, how it is done. The way it is done, and then the knowledge becomes part of the nations, and One Nation cooperation. The Chinese can watch the Italians, what they are achieving in their unit. The same with the Americans, and the Africans. This is my goal, and this is what I came here for, to make man to work together, to forget about war, and keep him busy with the new tools of the creation, that he forgets about competition, for one to be better than the other, but to share equal. KF

has preordered 100 units, 6 goes to AZ, Austria, and Tehran, the other 94 are for your nations.

Start dialog with your governments and we deliver. Start dialog with the universities to accept units to test flight, and we deliver. It has to be understood that you make arrangements with your universities, and your government, that the knowledge has to be on an open basis, and not behind closed doors. We learned a trick, (:44). from IAEA, we put a camera on top of every unit. Would you liked to be spied on like this, and find out which scientist is doing better, and the try to grab, steal, or kill. This is the reason we bring this out this way. It's your responsibility and the responsibility of your scientists to be open, the way KS are today. 94 units are there on the table for every KS UC member for the nation. Is the responsibility of you as the KS, to encourage your government to join the new space T and the gift. John and I we have discussed this, in a very detail. We understand that this knowledge has to be for everyone, and open to everyone, and every scientist on this planet. We will see no resistance when a gift is given, unless there is a what we call, a predestined reason for it. We do not want to see the flood of scientists from one nation to another to be able to access the T. Where they have it, they develop it, and they become part of.

It will become the problem of national governments to agree on the new structure of governing through the UC, and not through borders. Taxation to be understood, not to be necessary, where it becomes the expenditure of the totality, to make sure, (:46). that lifestyle becomes the same across this planet. I am not a dreamer, I deliver the T which delivers the dream. It's your responsibility as KS to see this dream to come reality, as we give you the physical units to achieve it. The T and the know-how will be lined up to be transferred nation by nation, scientist by scientist. By the end of this year, at least 100 nations should have access to be able, to be part of space T of today. Not the rocket and propulsion and be accused, of every other things except what the reality is.

This is my gift to you as KS. You waited for years to receive the gift, now it is on the table. When I gave you the MaGrav system you cajoled with the wires, you didn't understand the principle and ethos of the fields. This time I gave you the shell, and I give you the knowledge that goes in the shell. It's for you to understand this time the work of the fields. I see some people in the KF to take heed and lead this project very fast. Jalal, Alex in Canada, Alex in Nigeria, I see a number of other KS, especially in Vietnam to understand the T and transfer it to their people.

It's not anymore who, it's how. We transfer the knowledge collectively, all of us. Once the units arrives in AZ, Tehran and Austria we'll put cameras and we'll show live to every nation. (:48). how to, and how it will be. We'll invite the world leading scientists to join us, and with it, we deliver the T, that how this simple system can change to transportation, to material production, or to elevation of the STM. I hope I gave you a very beautiful gift, for what you wished for years to do. It's not my job anymore, it's your job to make sure every nation receives its gift, and make sure every scientist in each nation has the right to be able to input their system. As we go along the following

systems will be delivered one by one, till we achieve a process of understanding the totality.

Funding these projects is heavily burdened on the KF. We call on KS to support this project, because there is a limitation in what I have managed to support financially, and now it depends on you, how you do it in your areas. How you raise the consciousness of a nation to finance the projects, to become part of. And to be there to see.

We'll gradually increase the numbers, that it can be used for EU that the KS in their .. position they can show the evolution in science and T in the world of medicine, in agriculture, in growing plants within the systems, that one plant, the energy from it can feed the nation. In this process we'll teach you more, and then we'll teach you how to elevate the soul. We'll teach you, (:50). how to transport the man to different positions in the U, and bring back to show, what we call souvenirs of the beauty of the Creator, from us in other part of the U. As I said to Chinese friend, Chinese travel to London, they buy a souvenir, Tower of London ... but when you turn it upside down, it says made in China. In a way, we make it, we send it, we buy it ourselves, we bring it back to show how far we have sent our knowledge, how far we have been able to export our beauty and bring it back home.

This is the process and it lies and relies on KS and especially the UC, .. has to understand how to accommodate this transition. Transition in a way to take the responsibility of the knowledge and ethos of the creation. The KS become the followers of the knowledge of the Creator, and no religion and no path, but their own. They decide, the way they serve, and the way they see the beauty in serving.

As I said, we are not replacing one with another. There shall be no more religion, but there will be a guiding line through the STM, as we have a soul in the body of the man, to centralize the soul of every cell of the body of the man, that they all work together in the body of the man.

We have created the UC to be the central soul of every STM on this planet. Once the UC, and the humanity in the creation on this planet understand this. We have created a new body, an embodiment of the earth, (:52). with all its citizens, in respect of the shape, color, path of belief, position, or what we call, the way to live, to be a man, to be an animal, to be a Vertical or a stone, has to be able for the man to understand and to guide.

The purpose of the creation of the UC months and years ago, was to create that cell, that soul for the whole of the totality of the human being. We bring an egg and a sperm together, and by its division and expansion we create the STM, that the STM creates the physicality of the man. We did the same, we brought from every part of the man, to create the sperm and egg, to create that soul, and that soul is the UC. Now it's the job of the UC to give shape to the structure of the planet, and with it to bring mankind to become part of the bigger structure, in the cell of the body, of the embodiment of the Creator, as a U and Unicose. Now we understand the process of the completion. This EU

brings you to the point. 94 units available to 94 nations and more. It's your responsibility to make sure this is done. It's the responsibility of the KS to bring the change.

There is this one coincidence as I said before, not accidentally, but intentionally, 22nd of February, 2022 (:54). falls on a specific day. If any of you checks, and you go on your calendars, you'll come to understand exactly what date is, and what that date means to many of you. 22nd of February, 222, falls on Tuesday, on the day of the meeting of the UC, and the day of the change. Of the man to understand the position and the time.

As was said, maybe, maybe Methi will declare himself on that day. It's the responsibility of the man to be ready for the change, it's the responsibility of the man to prepare the mankind and the WL for that change; and it's the responsibility of the man, that the change through science and T and ethos, has been delivered in both D the physical and the structure that the soul of the system will create.

The new enhancement flight systems is not just for the flight, it's for the flight of the freedom of the STM. It's the responsibility of the UC and KS, to make sure every citizen of this planet, every created things on this planet, has equal opportunity to raise his soul in the level of understanding. Where it was said, the lion will live in the same den, in a way, it's the den of knowledge, the soul of the lion and the lamb, and the man will understand the same, and become of the same essence of the source of the knowledge of the Creator. (:56).

Then we understand. As I said, would you eat your brother, or would you kill your own child, and that the killing will come to an end. In time, man will mature to move on to become part of the Universal Community, and use the fields of the U to survive, and not to kill to become part of. When you look at this video again, I hope Rick can play again. You'll see the way man from the darkness, a ray of light, and to show you how, with that ray of light, man can become part of the Universal Community by flying into what it call, the womb of the Creator and the creation. Thank you .. and I could not give you a better gift and knowledge, as what I have done today. We go to a break .. try to answer question what ?? have..

Proofed to here >> continues

>>> BREAK <<< 415 KSW Jan 13, 2022 video new flight (1:04)

K- Strange enough the 414 was last time when we closed, and the 415 today which is 1, is the beginning of a new cycle. It's just about the right thing, but unfortunately it's on the 13th of a month, which could be a bad/good for some and a bad for the others. But it's a good mixture.

R: At least it's not Friday the 13th ... We've had a broadcast on Friday the 13th before.

K- We've done that as well many times. ..

Q: ... Based on the US analysis of the Dead Sea Scrolls, Jewish scholar, Dr. Paula highlighted 3 points. 1) at a certain time God will build a new temple. 2) Sons of God, Sons of Light, and Sons of Darkness, found there in Old testament manuscripts, (1:06). which did not exist before, but which nevertheless had been used to write the New Testament. He found this very surprising. 3) two Messiahs and a prophet will appear. One of the Messiahs will arise from the royal lineage, and the other will be a priestly Messiah, arising among common people, they speak of the salvation they will accomplish.

Questions:

1- Has this temple ever been built?

2- How to herd these children of darkness into the light?

3- Have this prophet and these Messiahs, and the Anti-Christ ever come? And what family is this royal bloodline?

R: It's a pretty big question .. maybe I need to ..

K- It's very simple. The temple is the STM, the temple of the man himself. Not the physical temple. And bloodline lineage, the king, or what we call, comes from the Creator - not from the man. There is nothing Anti-Christ about it. It's everything which brings an end, to not understanding the Creator. If you believe that the Christ was the son of the Creator, then, there is no need for anything more, then to understand the teachings, not the man. I think I answered you in totality with all your questions.

The temple you are looking for, is the temple of the STM, (1:08). which actually is the physicality of the man himself. You build a temple to keep a relic, or statue, or a belief in it. That temple is the body of the man. And the relic, or statue, or what you want to pray and believe in to, is the STM. This is what you never understood. Those who did not understand it, but saw a weakness in the man, abused the man, both on the physical and emotional side. The rest, I think you can still understand the rest of it yourself. The kingdom is his and nobody else's. So you find a lineage, or line, or whatever you like to believe. We are not making another temple, and we are not making another religion and a ?? fake. We are enlightening the man for him to find his temple. When you can reach every knowledge of the U through your soul, do you need a temple, except a belief, the understanding of the Creator, and his knowledge.

Any other question.

Q; ... Is there any relation between the sleep of the physical body and transmutation? (1:10). How can we understand the state of sleep of the physical body, which is a moment when the soul moves away from the physical body, and when moving away from the P body, the soul manifests itself anywhere? And why don't we have control of our sleep?

K- You'll find out in the space we will not sleep, that's for sure. We rest to recuperate from the transition of the fields within the body of the man. We have tuned it to the time of the darkness, or night time, most of us.

In that process, when we are in they space there is no day and night it is continuous line of life. The process of the regeneration and absorption of the fields from the environment will not allow man to, not allow, .. man does not need to rest to recuperate. In that process the STM and STP, are always co-working, they are together. Now when we say the STM is freer, it's not let free. It's freer to travel the span of the what we call, creation when the physicality is recuperating and is the weakest, is what we see, what we observe.

What does it mean the STM escapes from the body of the man. It is still, it expands beyond it, but the physicality becomes part of it. This is what, and this is one of the reasons we remember part of our what I call dream. Where our soul interacts with the other souls, and communication, (1:12). between the boundary and its center, our body is in the middle of it. It doesn't escape. There is no escapism in this process. It's becoming, encircling it.

When we are awake we encapsulate the soul. When we go to sleep, or weaken, what we call, the strength of the fields of the physicality, then the STM increases its dominion, and now, if you look at it, here the physicality was (on outer boundary). Now the physicality comes within (the soul). As the interaction of the STM with the other souls, takes place, because it's a field interaction. It creates an emotion between the boundaries, like when you touch a fire, you feel it. It sends the emotion to the center.

The STP of the man, is in-between. So this interaction between this and this, what we call the boundary, the interaction with the interface of the STM, when the body of the man, weaker, with its center to communicate, man picks up some of the signals, we call it a dream. Now we are encircled. Where in the time of what we call, awake-ness, or being there. This still functions (body with STM in center) this still has an aura of it, but not so much, as it is, at the time of the sleep.

So in a way, we don't let loose anything, we just understand it. (1:14). Part of our teaching is for you, this position (STM expanded beyond the physicality). This cycle. Man up to now has lived in this cycle. (STM encapsulated by physicality). But now we can control it. Then you can communicate with the soul, with all the souls around you, where you don't need physicality. Physicality has a D, vision, what we call, maybe sound, but with the soul, you don't have that, you go beyond, and through the fields you interact and ?? communicate. And these are the same with the others.

That's the difference, now this is what we understand. We don't need to encage, this is especially, .. what we'll see with this, will be, when you go into the EU. This is what you will see. This is what will baffle you, as light. And one thing for sure not all lights in the D, inside the EU, will be the same color. Because this in a way, you will show part of your emotion.

This is how we interact with the others in the U, from the interaction of the fields, we gather their emotions, what they think, what they want. What is the reaction. That's how we see the dream ?? ourselves.

So in this process we'll see different colors, we know the true intention of the man inside. (1:16). When you ask, are you in love with the Creator. and what is your intention with your work? I am a Ayatollah or a Pope, my intention to rob, and deceive the humanity, will show a different color, then the one who says, "I am here to serve humanity," and we know each color what it means. There will be no one lying into the machine of their own soul. Then you ask the WL to enter these systems, and then you see the true intention of the president or the king, rabbis, the Ayatollahs, and the Popes and the priests.

It's not a lie detector, it's the true intention of life, explanation. I wonder if once the units arrive in Tehran and we ask the Ayatollahs to walk in, how many of them walk in, or they'll call it a "Satan" system, because it unravels their intention. The same in Vatican, same in Jerusalem, and in China. Then people understand, the man who has nothing to hide will walk in.

Any other question.

Q: .. many loved ones are asleep to the truths, (1:18). that you bring. Are there people who will not change D with the return of the Master, and Messiah. Loved ones of ours may be removed from us in different D?

K- Nothing needs to be removed. The enlightenment will hit everybody. The beauty of the whole process is that, the line of communication is taken out of the hand of, what I call, Media. With the presence of the Internet, and the way knowledge is shared across people, what they control as what we call, television and media, is out. You got to understand, many of those who are the decision makers in these fields, in what I call, Internet media, or the televisions, and radios, they themselves become subject to judge their own conduct, and then they have to change.

We learned something very special in how monarchies will bend, and how monarchies will change to stay a monarch. It's the same with the WL, how they will change to stay in power, but they'll find out they don't have much. We saw it on a couple of occasions, when populations turned against the regime, the kings and queens, and how to survive, they had like chameleons, to change. We saw that with Tony Blair and the Queen of England, during the death of Dianne. If Tony Blair would not have interfered in a deeper way, that he went, there would have been no monarchy within days, (1:20). in UK. Monarch had to change, and monarch had to come out to say a lot of things, to stick to the power, with it they showed a weakness, and with it, they lost the power to Vatican.

We have seen this, because they want to stay in power they change in any shape or form. But population will change it. The force of the knowledge in the hand of people, is the biggest tool the man is given with this T. You can do in your living room. As I said, we don't need to imprison, or assassinate any WL or scientists, we just elevate their soul, they imprison themselves for their conduct.

You will see the change. The change is on its way, there is no way to stop. We are not negotiating with governments to accept the new flight systems. We are telling them, it's coming, do you want to be part of it, or they pass you. What do you think their answer is. It's the same with the Americans, Russians, Chinese, and the African nations. You can not ?? ban your nation, to become a developing nation openly. Then we are on the way to deliver T, that brings the change to the STM and with it to the D of physicality. Any other question (1:22).

Q: .. If you detach from the physicality to travel by the soul, do you get to keep the RNA and DNA? I want to stay a product of my beautiful parents, or does your physical body become transparent within the soul?

K- More or less, yes. You don't disappear in the D of physicality. The physicality gets encircled by the soul. Why, what are you afraid of? You have embedded and you encircle the soul, and you say you know better, and do everything. Now that the soul has the knowledge, and not the freedom, but the knowledge of super-passing you, and you become within it, you are afraid you cannot do what you have done up to now. Or you might be afraid of what you have done, that the soul might aspire to show.

I encourage and I invite the world religious leaders to walk into these systems, and to elevate their souls. These systems are not a judgment system, these systems are there to bring man, to a new level of understanding the knowledge of the Creator, and the creation. (1:24). And that's the only difference.

We have nothing to fear, if we live one life. I have nothing to fear, I live very openly. With it I have no fear. I ask and whatever I am given, I take. When it's taken from me, I let it go, because it was taken from me, without me being asked for it. This is the difference that man will learn. The next cycle has started. You got to realize, when we announced, and what is going to be delivered from today, 1 unit on a regular basis, 3 units to round about a unit a day, to go to one nation. Nations cannot stop the development. You worked to make the MaGrav units at home, you worked to make the enhancement, the different structures we showed you, in the garages and kitchens and your offices. As one ambassador said, my ambassador office has become the research lab and I sleep in the .. launch.

This is what it will become. We are not forcing nations, we are gifting nations. It's a big difference. It's the responsibility of the KS in that nation, to encourage the scientists to explore more, but don't hide. To intentionally open up the challenges, (1:26). of the knowledge that, how much we understood, what can you add to our knowledge.

Superiority in the nation will come from its knowledge, not from its weapon and power anymore. How much they will share that knowledge, not by hiding it. In one of my latest communications to NASA chief flight officers, has been very simple, join us, bring your teams, and we work together with the Chinese, Iranians, and the rest of the world, to develop this T beyond the present understanding of the present time. Because they know they are working for 2030 launch to Mars, and half of the things they are doing, they don't even know what they are doing it. They are hoping by 2030, a solution will be

found that they might get there in 6 months, where they can get there within hours. The bait is too sweet for the NASA scientists not to walk away from NASA. And at the same time not to bring NASA to be part of it. Bringing world space agencies to work together and then the scientists, is not a big challenge. The challenge is man, that trust his own soul to become part of it.

We today in negotiations between NATO and Russia, "do not come further into my territory, and I keep myself a good boy." With our T we invite you, come into our territory, because I can show you how better our scientists can serve the others. (1:28). The game changed, it's not a competition, it's a challenge to share. Then you understand how simple we get rid of patent. Because the old T, has no value, their patents anymore, and the new is not patented. So it becomes common knowledge and change in direction and D.

Any other question

Q: Guatua ...

K- I promise you he wants a unit for Kenya, He always battles with us that Kenya becomes equal to the others. talk to the UC if the UC agrees you'll receive one.

Q: ... thank you for delivering your promises ...

Given that the centers for excellence will be built in specific way ... (1:30). .. How do we approach governments. do you have documents we can deliver to governments

K- These documents have already been drawn up

(1:32).

We have to know where it goes that we don't give it out in public. The same with the CO2 business plan ...

(1:34). kept and a business plan was drawn out of it. If we see another need for it we'll come to it ...

.. You don't get a copy till we have a communication with your government, that's very clear. We've seen it to be released and it damages our work in the long run through the other people who try to stop it. When we negotiate with the governments it is for them to see what comes. We clearly do not release these documents to KS, or people who negotiate with governments. When KF through you, speaks to the government we'll release it to the minister, to the officials that official steps can be taken, (1:36). in respect to it.

Q: ... Is there an update on the Vienna talks?

K- The update is Ayatollah K of Iran on Friday approved, that the talks can start with the Americans. That was a big step, and we were expecting this. We announced some time ago, we expect .. You have to understand how the talks are measured in Iran. How the talks goes effects the exchange rate between the dollar and Euro in Tehran. There are certain things short and long term that we look into. ..

Long term, around September, the whole thing started last year. In pressurizing ... the Iranian government to issue an execution for me, by the people who we kicked out a year

and a half ago. They delivered 2 TB of information to the Iranian securities, that I am a spy for the Israelis and the rest.

The process of integration of the KF into the Iranian T started by the Iranian G about a year and half ago. In that process we saw about the 10th of February releasing the T to be part of the KF in Iran. We responded by opening the KF factories, negotiating to start the other offices in Tehran. At the same time we keep a very close integrated program and connection with the American, IAEA, and in the back ground with the Chinese. (1:38). We cannot succeed in negotiation, if you do not keep a brace of everything. In the past year and a half, by a person who has been appointed by office of AK, to the KF, we transferred all our views, and the way the negotiations has to be handled. In writing to his eminence AK, voice messages directly to his office to A K to him personally, we gave the way the negotiations have to be done. ...

(1:40).

.. We should have entered at a point of power, not a point of weakness. But at the same time the way Iran went into negotiations, at a point of weakness, they saw a benefit for it, be it personal to some Ayatollahs, be it collective ...

.. We saw Americans misuse this position, we entered on 15th December directly with IAEA, bypassing American government to give the message to the Israelis, British and Americans, we know you lied. As our people said, immediately, within hours, Israelis changed their position, because we opened their hand, how they lied to the Americans, and IAEA, Iran possesses and is headed for nuclear weapon T, when Iran is heading for space T in the most advanced way.

This changed the position and we saw last Friday, the Ayatollah announced that Iran can negotiate with America. (1:42). We'll see the negotiation will take a new shape in the next few days, and we'll reach an agreement. The agreement will be reached before 22nd of February in the background. If you go back to the words of AK in September, he expected to see a complete conclusion to the position of negotiations before 21st of March, which is the Iranian New year, that he delivers a complete .. program change of Iran, back into line with .. the nations, and we expect at the moment the dollar is around about 30,000 Reals to months to the dollar. We expect it to drop below 12 to 13,000. It's the forecast of the government the same. We see a massive devaluation of the currency, and then we bring it back into it.

But understanding we've done our job now we move back into share the T rapidly, that we give an intensive, a pressure on the governments to start working together, to overcome the sanctions and the rest. More or less we hear the same thing from Mr. Barberry, don't forget being the son-in-law of AK he directly communicates every move with his father-in-law. It's the same with the minister of Iran. Don't forget ?? the Iran PM is a gentlemen, who if you look at the report of the Corona in 2020, he said, in cooperation with Iran National Defense University ..

(1:44).

KF cannot take side, but has to be correct on either side. So we see, for the first I clearly explain everything, so you understand. We received a lot of pressure, a lot of lies, 2 TB was delivered to, through Dr. Assady, who is the biggest spy, we actually know he works for the Mossad, the Israel intelligence, deeply. He the same as miss, what you call it, communication, created that façade. But the Iranians saw through it. Now we are going through a lot of things delivered by a guy in Germany, Iranian, working again for Mossad in the background, catching up, and linking up with the pathetic people we kicked out a year and a half ago, trying to get the Iran national .. intelligence in the Parliament, against the KF, but does not work. We've seen it. We'll give more of this to you. And we see how these people actually work in the background to the benefit of the KF. The peace will take a new shape ... it will come to a conclusion, because now through his son-in-laws AK has taken full charge, (1:46). of the negotiations. ...

The peace process is complete, this is why we asked the UC to support the soul of the negotiators, because through it .. especially the Iranian team, (1:48). we support AK soul to bring that delivery of the T & science together and religious understanding of the peaceful nation of Iran. The negotiations are complete as far as we understand, and now we've done our work, we sat at the team of advisors. We advised the team 1.5 years before the negotiations started ...

We are very confident . but maybe the west will benefit more from it, as more advanced T from Iran will be delivered into the west, that will bring everything forward. What we call the EU in AZ is part of the peace dividend. I would not have delivered the EU flight system to AZ and the VEU to AZ , if we were not sure, 100% the negotiations have taken shape the way we wanted it. This is the peace dividend. The negotiations are complete, we took a step back, as we are preparing the next step that Iran can catch up after the agreements have been reached.

You got to understand we are there to support, as we done, we started with KS some 9 years ago, when Obama reached for the T, and we started the 5+1 negotiations. Now we done our job, and now we pay off people who worked to bring the peace, and the pay off is the transfer of T to US, and all the nations the same.

We achieved what we came here for, and we'll see in small ways, (1:50). because the politicians have to do their work, the benefit of the new negotiations and the teams. We saw the Koreans to be in Tehran because Korea wants to transfer a lot of T, and needs a lot of Iran's gas reserves, and they want to be part of it. So they came to Vienna to pressurize the Americans and Chinese to release the 7 billion funds of Iran kept in reserve, but already most of it has been used in supporting Iran in different ways by South Koreans. You got to remember we were in S. Korea over 10 years ago, and there is

a lot of work in the background, which takes shape and does work, and S Koreans understand the benefit of new transfer of T.

Negotiations are in a good way, and more or less as far as we're concerned they are completed. We don't need to be there, we've done our work. I send private messages both, as was requested, in writing and in voice messages to AK the way we want it to be done, and we advise the government, and it's been kept in the future the office of ... AK will release these voice recordings, and what we wrote, advising them, many of it, has been listened to.

Q: ...

K- A lot of good things, a lot has come, very soon. As is said, we already have transferred part of the KF space T into US. We are not waiting to happen. And Americans know we have done that. They understand that was part of the key part of the negotiations. (1:52). Transfer of T not by word, but by hard, what we call, by hard materials. That was a very big step for us to make that decision. In Austria we decided with John, it was the time to move, and we moved, and with the knowledge of the Americans, we transferred, we shipped the materials, which is on the edge of science and T to the US, in the, after signing of what we call, the peace negotiations are on the right track. It's not waiting to happen, we have already started it to happen, because the T is already in US.

Q: Thank you... we now welcome the new enlightenment very soon.

Any other question

Q: .. What is it like flying a spacecraft with your mind using the consciousness assisted T? Will there be a plasma communication device to go with the ship?

K- Everything is there. Of course, you have to communicate you're arriving, and .. when you leave. It will be the same, yes. (1:54).

There are a lot of T which are transferred and is getting produced in our labs, which even our lab people do not know, they are just following what is being setup. In time they'll be integrated into what it is supposed to be. It's just like a piece of jigsaw, it's all been made, it's just putting together. At the same time in AZ, Tehran, and Austria. together at the same time. Then you'll see it when it is delivered as a whole.

The T development by the KF is not what you see in the teachings, does not exist. We never allowed it to be coming out. we never, it was a decision made by us in the KF, what we call, production and management to keep it. We understand why we are keeping it. We keep a very close .. open talks with John, Yosef, and Klaus and that we all understand the reason ... and way we are doing it, and we keep a brace with WL in China for the Chinese officials, and we allow for the KF as the Head of the KF. The top management of KF and what we expect the outcome to be. In a way, everything is getting done, and all the top people involved and concerned are kept a brace of what is and the way it is setup. (1:56).

Any other question

Q: Salmea ... I would like to send a small message ... because Methi will come .. (1:58). I am free from my work .

K- thank you .. indeed

Are there any other questions

Q: How far are we with time formation, (2:00). for going forward and backward in time. I am looking for others to develop such a device, if it is not already developed?

K- Time backwards, this is what I don't understand. You cannot go backwards or forwards in time. The only backwards time man can go, is through what he has embedded in his memory. But there is no machine to go backwards. If you understand the true science of what we call matter physics, or plasma physics. I explained this in very detailed way in one of the teaching some time ago. If you are looking at physical backwards time to see the past, unless you go through the memory of the man, it is impossibility. Tell you the reason why. This was brought up in a different way to the professors of Jeddah university.

If you have a man standing on planet earth, and this planet is moving 1,600. Then the solar system inside, is moving at say around about 10,000 per hour. If you throw a stone up, and you watch the stone going up, the stone doesn't land here, it lands here (different place) or be by the time to land, at this point. Then you understand this vision has scattered around (because of the rotations).

So for you to be able to see this 1000 light years away, as man says, is impossibility, because it will be scattered in 2 dimensions, and galaxy dimension. So we cannot see the past. It's impossible for us to ever see the past, (2:02). except in the memory of the man, if you can visualize your memory. So going back to the future with a system to go out and watch it, is literally impossible. But you can put a STM who has been witness to a composition, to an event, that through the STM, through D of transmutation of the RNA of the soul, and RNA of the physical D of DNA, then you might be able to see the visualization of exactly what the man has seen.

So if we look enough down the line to find people who were witness to crucifixion of Christ, they can tell us exactly how it happened, and we will see it, in a vision of the memory. Don't forget, when you have a blue eyes, brown hair, white skin, and then you give the same to your son, to your daughter whatever, you transfer that to DNA, but DNA carries the RNA with the information. What did this blue eyes (of the father) see? And how did the hair felt, how the physicality was conditioned in that time and position, is written, memorized in the fields of the RNA. So if we go down the line enough, or at the present time in the knowledge, find people, especially who never left Palestine. It's very crucial, the race, which never left Palestine, and were witnessed to the ancestors through RNA and the DNA, the crucifixion of Christ, we will see the actual image, the actual physical D, (2:04). of what they saw in their eyes of crucifixion. Then we know if it was true, or were they just people standing on a path as Christ went, seeing, carrying the cross. Did it actually happen, are there other witnesses to it.

Many of the historical things, which man claims through time of history, through RNA, with the new T, will be unraveled. I said that years ago, every action of the man is recorded. And in time the man of space, we couldn't say the man himself, will show it. Now you understand how it's done, because we have the T, it can be delivered. Sight of vision and sounds, through RNA and DNA, is never erased from the STM. Because this is how you see a man, and you recognize this is your father, or your grandfather, that passed away decades ago. So the same thing goes further down the line. Thousand years is nothing in what I call the cartridge of memory, of the man's memory disk. In our RNA and DNA we remember part of the creation of the U, if man knows how to do it.

As I said, yesterday in Rick's teaching, that the new T brings us new D. If you understand it, we can create what has been up to now, .. (2:06). One of the problems we have had .. Up to now if you go back a few years ago, we asked the KS, I remember even John was working to find the strength of the field of the STM. They went to different materials and different things, this material, or this field strength, will be of the STM, and the rest of it. I tried to give some hints to it.

You got to understand, the strength field of the STM, in interaction with the strength field of the environment, leads to the what we call, the creation of the physical man. The STM field strength has to be high enough, that not only the interaction with the soul, what we call field do the earth, leads to creation of the man, to other souls, to other ?? souls of the higher order, even the stars, you can manifest yourself in the center of a star, if you understand it.

Then the STM has a strength beyond the material state, which you have and you produce Gans's of. This is where most of you as KS have missed the knowledge. You tried to put some Gans's and with interaction you tried to create, (2:08). or to produce condition of man. In the EU this knowledge is hidden and will be revealed.

Then in this new EU you don't create the Cu and silver, you create the strength of the soul of the Cu and silver. The plasma of it. In the condition of any of the atmospheric condition, be it earth, the sun, another galaxy or another U, in interaction, the Cu will manifest itself, its Inertia of the field strength coming, matches that environment.

It might be in the liquid form on earth, but the other state of matters, which man has never seen, that it will manifest itself. On earth you are used to solids, in the shape of liquid, gas, solid, or whatever plasma ?? you have, the other state of matter, which man is not used to it. But the field strength of the Cu, in that, it might show itself in a totally new condition, and new manifestation.

These are all part of the teachings and understanding to come. So in the present new EU, we have the capability to create fields, if man understands enough, at the strength of the field of the soul of the Creator. That with it, man becomes knowledgeable of the knowledge of the U. Not with the strength of the STM, which in interaction with the strength of the field is created to be the physicality of the man. (2:10). The sperm and the egg are created on the condition of atmospheric condition, of the field strength of the

planet. So there is a limitation on the strength of the STM on this planet. But when you open it up, it carries within it, within the strength of it, the soul of the strength of the Creator. And it is still to come.

These are the teachings when, if I do anything, then I become a magician. But if you understand it, you understand the magic of the science of the Creator. That's the difference between our change, and what you had as prophets and other scientists. You are responsible, and according to your intelligence, you understand the knowledge of the creation. But in essence, if you understand it, then you understand how we developed and progress the knowledge over time.

But don't forget the collective fields within the sperm and egg, lead to creation of the strength of the soul. Then what is the mystery within that egg, or that sperm, that can replicate the field strength of the U and the Creator within it? I made man in the image of Myself. So within the sperm and an egg, carries the essence of the knowledge of the creation. We are not aware of, we just pass it on, because we haven't become knowledgeable to understand. It's time to understand, and it's not the exclusivity of the humanity, as the other races in the U have already progressed, to pass that point. This is the beauty of the teaching. (2:12).

This is the beauty of understanding the knowledge. Then if as I said, in the teaching yesterday, if we can create, that process through our systems, within the EU, then you understand, the unit has a soul. By the interaction of and egg, (and) 2 sperm, created in manipulation, the STM. Now we have many reactors, what soul shall our system have.

Would the soul of the system accept your soul. When you're so far, as I said, people will walk away from the EU, does not matter, many of the WL and RL, when you see them walking out and not be able to manifest themselves as a soul, you know they are criminals. Crime against their own soul, not against anything else. In a way, they become the judge of their own conduct. Then you'll see they'll put down their turbans, head bounds, and they leave the church and the mosque, and we never hear from them (again).

Because the conduct of the process, has to be according to the understanding of the soul. I always said, when you ask and you are given, there is no punishment, because you have delivered according to what you have been given. Did anybody, did any of the religious leaders ask the others, can I abuse your soul, can I lie to you in the name of the creator or whatever. Then it comes to it.

Any other question (2:14).

The strangest thing is, that you thought you were just going to get a flight EU and that's it. But you are going to get a seat for the flight of the soul and the physicality, and many of you are going to be shocked of it. Once that process takes place, you understand it, you don't need the knowledge of whatever is called the man, to kill and destroy, as you have access to more, why do you need to kill and destroy.

Any other question.

Q: Azar ...

K- First are you in US or somewhere else across the world?

Q: In US in NY. .. When you talk about mirage .. (2:16). If I am the miniature of Creator, and I am a magician ... it means I play with the fields. .. I am on stage making magic, ... through 1 field I create a dog ... you watch a mirage, but I am holding the fields. .. Creator holding the fields, all comes from Him, He created everything. Actuality of it is everything is a mirage. .. back to essence . If I sit in a room and suddenly I see no walls, floor, ceiling, does it means they were a mirage I created, I see through my eyes. When my soul comes out nothing exists except me sitting there. but nothing is happening ?

K- You see when you get to these points, many of KS will come to this point, is that when you. First of all when you say, God made you in the image of Himself, (2:18). it's in the D of the soul, not physicality. A step down of it, becomes physicality, if you look at it that way.

But when you sit on couch and you don't see the walls and the books and chairs, means you are looking at a higher order strength. That as I said, it's like you got the sugar in hand, and then suddenly you put it in hot water and it dissolves. The sugar and the water are still there, now you can't see it, because you increased the heat.

With the soul you increase the higher strength. So the physicality is still there, if you go in the lower strength. But now it is not visible to the man, but this time, if you reach that point, you still, it's what I said, being between the soul, and its boundary in the physicality, and its principle source, you are now in-between, you don't see with the eye of the man, you see with the vision of the soul, but in that communication, between back and forth, you translate it to the vision of no floor.

Because this is your soul and this is the extension of the soul. Before the soul was in center and you were in charge. Now if you look at it, if this is you here, and the soul in the middle, now the game has changed. You become in the center, and the soul has taken. But in communication the soul doesn't go from the center of your physical what we call, soul, out, it still has its center in the middle.

So what happens in communicating, being extended, it sees nothing, because in another strength, (2:20). you will see different dimensions, but you don't see the wall and the floor, because now you are engaged in it, and you're seeing what it is communicating to its center, that it can extend, or communicate with the rest of it. So the wall and the floor are still there, but now when you see it, through the higher strength of the soul, soul has no eyes, but still communicates with the center. Your physicality is sitting here, so you translate the knowledge, that you don't see any walls. It's understanding, not just, then you don't become a magician, you cannot create any magic's. ?? you are magic's to yourself in a way.

Q: If I get up at that point, and I don't see anything, and go through the wall, can I go through the wall, or I am going to get ??

K- You can do. .. but you do it through the D of the soul. This is how some people you see, and we show, they can go, if you create the higher D, you can go through the wall. You can walk through it, because now it's the soul, which carries you, and not the physicality. Now the physicality is engaged. You understand?

So now it's the knowledge of the man. It's just training to be. Going through an EU and understanding, taking that fear out of you. It's very much like when you have never driven and you get in the car. To change the gear, and get ready and pull the car for the first time into the road with the other cars coming, is frightening, but once you get into it, you know how to do it, you jump out. Have you see how compared to the first day, when you sat in the car? You just get in the car and you drive. Oh, the other cars, beep, . I know I am going to be safe, he's not going to hit me, I carry on.

We learn and part of the teaching and the T we deliver, (2:22). is to teach man how to trust and to be able to go through that point. We take you with the D of physicality into the EU, and many of you will walk out of it as a soul. Many of you will claim, your family friends claim, "oh, he disappeared, our family bla, bla " But you are sitting there watching them, you decide to be enlighten through the soul, "I am with you." "I am sitting in the house. Do you want me to show you I am here?" You move a table, or chair, then you become a magician. But then they understand there are levels to the soul. So they go into the machine to be at your level. Magic's become understandable, because you go a higher level. Then you find out, if you can go even stronger than that, a higher strength of the STM, with a deeper strength, then you can reach even galaxies. instantaneous communication and T&T, and you do it through your soul. If there are people who cannot do it, we still give you the spaceship.

The space is create by the EU, the ship is the STM. You have to sail it where you want to. That is the whole purpose of the teaching. You're the captain, .. sailor, then you have to decide. We just provide for you to understand the D beyond the physicality.

Q: .. you were discussing Friday the section of the brain, that has to do with emotion ..

K- All of your brain is connected with emotion.

K- You said there is a section of the brain that is a horseshoe shaped, (2:24). that when you go to space you have to protect that part because any interaction of the field with any layer of that section can also bring you to demise. So you might feel something .

K- yes

Q: You might jump into something but you dissolve yourself, you'll die. The question is what is the anatomy of ..

K- No, no, no That's . When we speak in that level, we are speaking about the D of the field strength. That part of the brain is million of kilometers distance between the earth and the sun. Through putting a thicker filter we condense it for the energy to transfer. To reduce to become at the strength of the field of the matter state, to understanding of the emotion, through the Gans of the structure of the body of the brain of the man.

You got to understand the correct way. In the past we talked very simple because, even could it not be understood, Now you understand, you understand the reason. If I put a thicker shield, I reduce more fields. You're a doctor, what do you do when you take an X-ray in your dental surgery? You put a big thick shield on your staff, that they don't get x-ray radiation from the machine. If you do it thinner, they absorb more.

The structure of this part of the body of the man, is for a specific reason, because you have to see where it is, how it is shaped, and then what part of the responsibility of the operation of the man sticks beyond that boundary. It's not a shell, it's not spherical. When you look at this, (2:26). especially in the world of .., let's look at it this way, if you get the shoe shape, and you have a soul here, you don't have it spherical all the way. Then you have to see, this is 3 dimensional, yeah. You look at it, what sits beyond this D in the brain. What responsibility sits here, or we haven't understood the work of this part of the brain yet. On the other side you can transfer vertically, to any strength.

When we look at the structure of the brain, it's very simple. You have the soul, and the layers, which you have created reduces the strength of the field of the soul, as it goes further. Here you have the earth, you have a heavier material, heavier understanding. Here you have just a physical mirage, Saturn and Jupiter, you have the physicality of the man here. Here you feel the emotion of sadness. here .. happiness. Or in another part of the body, because you don't, because you are not aware of the strength of the other fields. Here you feel .. joy. But it's slightly. .. it's still on the same ring, but the density of the material in the brain, takes part of the strength, so here you might, let's say you get 10 Tesla, here on the same ring, because it's slightly weaker, you get 12 Tesla.

But this is what I call ... you are a doctor, you've been to the medical school. Get a brain and a very sharp knife, and just let it sink in, and feel the emotion of the sinking, different strength fields. All that, changing the texture, is another process of the reduction, and increase of the fields. It's not the same with everywhere (in the brain). (2:28). If you put a knife and come up, 1 cm down, you feel here a click, (where) here you drop in. Because it is responsible for different emotion field strength. It's the same when you come to the process of the STM, which comes in your dream time. It still goes through the same process, and still feels this time, the field that way. You see the mother, because the soul of the mother is talking to your soul, because your soul can get the message to your physicality. Now you understand the process.

Now in the EU, the way we structure it, even our team are not aware of it, we're creating those layers, when you sit in (the unit). Not 2 men will feel the same, sitting in the same position. It's according to the emotion, field of the soul, and the strength of their soul.

As universal Messengers and Methi, when we deliver a knowledge, we deliver in completion. It's for man to decipher it, and for man to understand the totality. It's how you understand it, you comprehend it, and you deliver it to your soul, which allows the elevation of it, allows the expansion of it, through different D of the creation.

We come from the Source and we teach from the Source to eternity. It's for man to ?? depend (decide), which part of it he wants to accept, to understand. (2:30). If you are wise enough you can understand all of it with a flick of a finger, but limitation and prejudices has created in the STM from the time of its creation, through its ancestors, has created more and more fogs, for man to see the totality.

Q: ...What is the difference between the emotion of a woman and of a man. Because to me the reason we have different emotions, is because of the filtration, of the anatomy, but in actuality we are created equal?

K- can you repeat .. the emotion between a man and a woman ..

Q: Is it different?

K- No, it's just that the response is different. It's the Man who decides the physical response. This is why we see some men becoming very feminine, because they decide to respond in a feminine strength. And some women behave like, more than a man. As we say in Farsi. You know what we say. It depends who is wearing the trousers in the family.

Q: Yes ... actually I think that, because when you look at the body, the right part of the body is masculine, the left is feminine.

K- No, you can have the right body as feminine as possible, and as masculine as possible.

Q: But then how do you balance it out. For example when I look at my husband he is more feminine, I am more masculine.

K-Oh, it depends what's your intention. This is how. By man being emotional does not make him feminine. It means he is more in touch, in tune with the true emotion. This is a misunderstanding and misrepresentation.

Q: So how does, (2:32). someone become more feminine than ..

K- It's you. Have you ever seen two lesbians? When you see two lesbians, especially in Europe, especially Dutch lesbians, you know which one is the man, and which one is the female in their relationship. The male part always creates a very short haircut, like a man, that physically they are man. The female always has a long hair and behaves gentler. They are two women, they behave gentle, but she behaves more gentle than the other one, that I am female. We lived in western Europe and I have seen many of these, and you see it.

The same with a man, there are 2 men, and 1 man, the 2 man walks, you see it. A lot of Germans go to Thailand and bring Thai partners, men. The .. female part of the relationship behaves exactly like a woman, the way they handle their fingers and the ?? fidget. And the man behaves, "I am a macho." Why can't he do that with a full female?

But this is how we decide how we want our emotion to be presented. In Holland we see a lot of it. In Belgium we see a lot of this behavior. The ?? and they try to hide it ??, and some are very open. You see it. Who says, if you give the right opportunity and the emotion to the one who behaves very much like a female side. Put in another relationship, she'll behave like a male part, and the other one will be the female.

It's you who decides the emotion. This is very hard to understand for people from the east, but living in the west, we've seen so much of it, and I analyzed so much of their

behaviors, because they are everywhere. (2:34). You walk into most of the restaurants in Brussels, you see German men with Thai partners, male, and the male is worse than the female-female, behavior wise, talking wise, and treating like. But doesn't mean they are not 2 men. They do this. And we seen this with the women too.

It's you who decides to what extent, and when you say your partner is more female, than you have to see how you behave trying to be a man in the relationship. Then you have to answer to that, are you looking in another D and direction in emotion. And feminism, or men-ism doesn't bring, it shows the beauty of the connection, and with one's soul. The rest is how we want to categorize it for us to be. That's why you have to have respect for every emotion for whatever you call it, the gays, the lesbians, the homosexuals, the straight, or whatever you call it. We have to have respect for a man in any, what we call, state of emotion, because the beauty is in the soul, not in the D of physicality.

Q: why God decided to create female and male, He could have created one.

K- God hasn't created male and female. God has created the D of interaction, that leads to creation of new D. You call it, male and female. You have parts, that it gives, and you have parts that it takes.

If everything was equal in the strength, there would have been no creation. There would have been just a field. (2:36). The difference in different amounts or strengths, creates a condition of interaction, and that interaction you call it. It is a man's vision. We have creatures who carry both, and they can replicate themselves. This is what, is something for man to understand deeper about himself. So there is no division, we look at it this way. You call it Adam and Eve. Is Eve any less than Adam? Or Adam has some facets that Eve doesn't have, and Eve has some facets that Adam doesn't have, and their interaction, if you stand in the middle you call it love. That leads to interaction of the 2 fields, to something, we call it a creation. The apple, the human, the understanding of it is important, not to go into the rhetoric, and all the fantasy things that has been put on.

If you look at an electron and proton, the proton is the Adam, and electron is Eve. Is Eve the proton, in another D of it? Because there has to be a balance, that they can interact. More or less the interaction of the fields of the electron and the proton, creates a lot of materials, which then gets absorbed within the proton, and you call it, any other name you like it. If you look at it. In process of creation there cannot be any difference. It's man who has made this. (2:38). When you have a proton and an electron, they have to have something in common in interaction, that it leads to the, what I call, interaction of the fields.

One way or the other, it doesn't matter how you look at it. And these fields interaction leads to creation of something, leads to creation of something for man to see. On earth we call it electron, we call it Cu and Zn ?? These interactions creates fields, plasma fields. Some will be absorbed by this, and some by this. In the solar system we call it, when you have it, the earth and the sun, the interaction of the fields, creates materials, plasmatic conditions, that some of it gets absorbed back to the sun instantaneously, and some of it with the Inertia of the earth, becomes material on earth.

There is no difference between electron and proton. We get continuous production of plasmas from the interaction of the electron and proton, which gets absorbed within it, and then you call it in the present science, up quark, down quark. This is the same thing we call it, Cu and Zn. There is no difference. Then change this to Adam and Eve. The interaction of the fields of them, leads to creation of what you call, love, creation of the man, creation of the life within the life. I made man in the image of Myself, because part of Me is, within the man. (2:40).

Would we, when we become knowledgeable enough, go into the RNA side of the plasma, through it we'll see the true creator. The answer is yes. Look into it and you shall see. I will be there to greet you. But it needs the knowledge. It needs the clarity of understanding. As long as you look in the D of physicality, you see the electron jumping everywhere and nothing. If you scale it up, you will see the same, but you will see what comes in earth, gold and the rest, but you don't see the plasma you feed back to the sun. All these interactions. It's the same with the Adam and Eve, the creator and the created, and then what, how much of these fields are fed back to the Creator to learn from the love of what he has created. If that love was man, how much of that love, becomes part of the Creator, that created the man.

Now we understand the true essence of creation, we don't need any religion. Because nobody can lie to us, covering it under the coloring of Adam and Eve, and everything else which has been set for man to understand. We do experiments in the lab to replicate, the replication is the structure of the earth, the atom, and Adam and the Eve. It's all the same, no difference.

How many scientists have told you, when you look at the atomic structure, how much of electron and proton they rotated around each other. (2:42). But this rotation has a field interaction. What love has been created between the two, and how much of it goes to the proton, and how much of it goes to the electron, that they keep that love relationship. And is it true that for the first time when Eve found the condition of manifestation of the physicality and the beauty of it, chose earth to be the birth place of ?? Mitra manifestation. Man needs a lot to understand. Any other questions or call it a day

Q: Can the mind reading T that use to fly the ship, be used to read another persons mind from a distance?

K- We don't read minds. That's your understanding, so that would be it. We interact with the fields of the U, and then how you interact with another soul, and what you gather from it, is your problem, it's your understanding. (2:44). The reading of the mind, is the state of those who want to read to abuse.

Interaction of the fields of the souls, is what both understand at the same time of interaction. Then nobody can abuse. it's a big difference. We have not given a system to governments to control mind. We have the systems delivered that the governments

understand that you can never control the STM. The mind is a lower level. Then this gives for man to understand he is equal in all levels.
Any other question

Q: Dean, .. with what you just spoken about, which is explained a lot in totality. ... In the new video we produced and showed today. Shows an environment where the spacecraft actually takes off and leaves physically. Would you need that environment for let's say a WL to receive that unit, to be able to step into it, to experience the elevation of the soul?

K- Not really, John's point of view is the back of his house is the best place because it goes in AZ desert. (2:46). It doesn't need a place for it. It's where they decide to enter it, that counts. When I was talking to John ...

It's where the Iranians tested, the Iranian space T, in central deserts in Iran. Nobody could see or detect. This was one of the ways the American drone was captured. In the desert there is not much to see, and you can do a lot of things. It's the same, unfortunately in Austria we don't have a desert, it's all green. We have to find another way to manifest and show, different thing.

Let me explain, we talked yesterday If you go to Rick's teaching you'll hear more or less, the same thing. If you notice, many of you, you look at this EU, in ... KF center, we've shown the videos of it before ... If you remember originally ... (2:48). or pictures .. it was very clear ... This is the new pictures of KF Linz EC.

The systems were brought down to the ground floor. It's nothing but solid flooring. ... one of the reasons we moved these from above, as you've seen in this picture, to below, is because the systems are active. The systems are not there on its own. When we started them off in the design center in Linz. The process has started, the systems is live. We see things in the KF research, we know things which are happening there, but ordinary people don't understand.

But there is a reason why we moved them from above to below. That's above ... they have been moved to solid ground. When we setup systems, and once we trigger the egg and sperm, you cannot stop the lifecycle. These systems are active. We know within the research center how active they are. (2:50). We've taken action and the steps, partially to overcome the next steps could happen. They are not dangerous, they are normal fields within the structure of the matter state, but they work within themselves, they don't effect outside, and we are monitoring what is happening inside.

These are the fields of the plasmatic fields. They are part of the process of, "I take what I need, I don't take what I don't need." This process now, is interesting for us to see in a year time. We have sown a seed, and we are watching. This is part of the knowledge, .. T development. When you look at, as I said before, at the EC you see all the equipments, which are in the latest T and knowledge of the man. What I call the mother, sits in this picture, this is the first child of the first mother of the development of the space T in Iran.

Even the Iranian scientists have not understood the power of what they developed and built in Tehran, over 10 years ago. But it sits within the structure of the T. Remember I told you with 1 drop of water, I can create a fish, I can even create a man. Within these systems, if you understood, I don't need to create the physicality of the man. (2:52). I need to create, the creation, which carries the soul and information of the STM, and man will manifest himself in any D as souls. I don't work with cells and protons, I work with the soul of the creation and the Creator. Then you understand. That creation might look ?? to your eyes. and to an Africa the same creation will be black and brown eyes. Chinese will see their own version. It's manifestation of vision according to the emotion.

It will be the same when Methi comes, every religion will see in their D of fulfillment, not to bring all together. That's the problem that many of the WL and RL, have to handle in the coming time. To interpret, for them to understand what is in front of them. This is the knowledge of the creation in a physical level, that the man can understand. But within all the systems there is a soul. There is further more to it, than present you can understand. The soul of the Creator has never harmed no one, as He is the Creator.

Q: ..?? in emotion, are we creating a soul, or many souls ?? ..

K- We are not creating souls, I am not getting into that. It's the system, (2:54). has its structure, we set it to be a structure to be equal to all. This is the essence of the creation.

Q: We have a Star Formation?

K- We have every formation, depends what suits, and what one can understand. The beauty of it is, when you are looking at, what I call, the depth of these pictures, when you look up into it, in the horizon of it, you see the beauty of the .. knowledge. How it is shaped. When we share the knowledge, we do it in a beautiful way, that, as you've been there, you've seen it, it's beautiful to see how the T has developed. How we covered on the banner of all, what awe call, One Nation OP, and on the banner of the KF. We've seen it It's for the WL to understand how to start working around it.

Q: ... (2:56). you said you positioned it, you are not asking anymore, you're telling, you're are showing, ..

K- We are delivering. They have to follow. We have and are delivering the knowledge, the know-how, the understanding is for the WL, depending on what flag they serve, to understand, what they want to do. We don't carry a flag. The flag of the KF is very clear. Unmistakable. It's for them to decide, which side they want to take, and how they consider, they want to share. We share equal. Hopefully they will see the same, sooner or later.

Q: ... I think they will see this position

K- It's just through the work of the UC. Their soul is responsible, and it's there, we setup the direction. The way it has to be. We will see this in a much deeper way in the coming time. Where the flag of the KF stands on its own merit, without the .. frontiers. This is part of what we are responsible for as KS, knowledge and the love of God without borders. (2:58).

When you understand this, it becomes very easy to work. If you understand the process of the creation, and understands the structure the creation works under, then there are no

flags, except the flag of humanity for us to carry, It has been put on in a beautiful way in the past, and we'll go by it, to bring it in the future, when we'll see how KF works and especially what time place and position. It brings a true reality to all of us, irrespective of what we do, where we are, and how we see it. It's the beauty of the knowledge, that we can share it so freely, we are not afraid of who listens, and who copies, and who shares this knowledge. As I said, .. we are responsible to teach, and they are responsible to use what they have been taught, the best way to serve humanity. We are not preachers, we delivering the knowledge. They have to decide how this knowledge is used for the betterment of the human race. (3:00).

In a way, I can sum it up in a beautiful way. Does not matter what flag you put on the One Nation, KF serves humanity, as we are all made of the same blood, from interaction of the fields of the U. If I can create blood within a container, I can create any creation. But we all serve on the flag of the nation of KF as One Nation, irrespective of what other flag sits with us. Because in essence we are all created from the same blood, in a physical D of the man. It's us who puts a difference, with different colors and piece of clothe, depends what nation we call it. This is over .. in totality because we have brought this to one thing, one stand on the left of this picture, and that is KF as One Nation. The flag on the other side literally becomes .. different areas and districts of this planet, we would like to call ourselves to be part of.

If you and I can make blood we can create life, do we need to destroy that life. There is much to live to the life of the man. Ask yourself a simple question, (3:02). if it took a simple box to create the blood, to create man. What kind of life is created in the box of U from interaction of the fields of the Creator? What would man see in the depth of the space, on the interaction of the fields, which create the bloodline of the creation and the Creator, and the U and the Unicose. then you understand you can create life anywhere, and you can feed it with its own flow of its own fields.

Thank you
