

427th Knowledge Seekers Workshop; 7 de Abril, 2022

(Índice rápido 6 p - feito; Transcrição comprovada parte 1 , Revisão parte 2 quase feita; Frases Chave; Palavras;) Trecho de sangue parte 2 - EQM;

Índice de tópicos:

Como somos criados, não diretamente da Fonte, mas por divisões - trilhões de anos; Tudo começou a partir de desvios do Aminoácido com diferentes materiais adicionados; RNA contém todas as informações de toda a criação; A visão do homem vê apenas 2% - Universo é preenchido com campos; Sementes da Alma do Criador senta-se com a Alma do Homem; 4 lugares na Unidade de Voo - visitantes voltarão para casa; Mude CONH e torna-se verde; Significado de cabelo grisalho - Fonte da Juventude - nível de alma; Absorvendo energia do Universo - parar com crimes e de matar; Unidade de Aprimoramento está lá para ensinar o homem a absorver energia - mais tarde não será necessário; Alma é a linha de comunicação no Universo; Conselho Universal é para alimentar as almas para elevar; Sentir o cheiro do Universo; Professores não mensageiros; Copos, interação de Gans, cores que não são da terra; O que é diabetes; Não precisa mais de profetas; Espelhos de Plasma técnica especial; Tiróide - energia entre Alma da Fisicalidade e Alma do Homem - importante; Mudança de espaço nas lacunas das nano camadas - diferentes forças de campo; Experiência de Quase Morte (EQM) - científico; Líderes ucranianos muito corruptos Família Biden ganhando dinheiro com laboratórios de guerra bioquímica na Ucrânia: Copos esterilizantes; Usar bomba para circular sangue em vez de coração reviver, mais rápido; Vídeos antigos sobre reatores nucleares iranianos originais;

Índice Rápido

Descrição detalhada de como a criação ocorreu e levou à criação do Universo, galáxias e nosso sistema solar, e finalmente como fomos criados, e a criação continua; Não somos uma linha direta da Fonte - mas saímos de divisão após divisão por trilhões de anos; Tudo começou com o aminoácido com desvios de diferentes materiais levando a uma variedade de vidas neste planeta; Ciclos de vida se movimentam de diferentes maneiras; A criação é totalmente uma série de coincidências; O homem se torna uma semente para novas criações; O RNA contém todas as informações de nossos parentes de trás para frente até o Criador; Podemos encontrar outras pessoas das quais saímos; A Unidade de Aprimoramento teria força suficiente para sobreviver nessas outras dimensões e ser vista; A humanidade precisa aumentar o poder de seu intelecto para ser capaz de interagir com essas outras dimensões; O Universo está cheio de campos diferentes, mas vemos apenas 2% do que a visão do estado da matéria do homem pode ver - de modo que parece vazio para nós - mas na verdade está cheio de multidões de outras dimensões em diferentes forças de campo;

Dentro da Alma do Homem está a semente da Alma do Criador - Eu fiz o homem à imagem de Mim Mesmo; Quando a visão do homem se abre para uma ordem superior,

ele não verá galáxias e estrelas, mas "campos na dimensão do movimento total"; Este é o início do ensino da FK;

Somos apenas uma transformação de energia; Se acrescentarmos força suficiente à nossa alma, podemos saltar para o centro da Totalidade - não indo pelo longo caminho; A humanidade não está sozinha no Universo; Mas ela não pode entrar no Universo até desistir de matar e destruir; Para o homem sobreviver no Universo, ele tem que aprender a absorver as energias do Universo; Precisa de tempo para amadurecer e ser capaz de absorver as energias; Os pais começarão a alimentar a criança desde o primeiro dia - as energias do Universo; a Unidade de Aprimoramento ajudará neste processo;

Razões específicas para 4 assentos na Unidade de Aprimoramento; Exemplo de um humano em uma das cadeiras, mas sua alma não é da Terra - através da Unidade de Aprimoramento ele será capaz de ir para casa - a cadeira ficará vazia durante o voo; Nossa alma se elevará dependendo do que fizemos em nosso ciclo de vida para ir em frente - ou para trás; A Mãe ou o Sol está continuamente nos alimentando não apenas com a luz do dia, mas também com campos para absorvermos e convertermos o que precisamos; Não fomos projetados para ser um humano ou um animal; Não somos nada além da presença da interação dos campos junto com o campo Gravitacional da Terra que cria nossa existência; Se o núcleo central do planeta tivesse uma força de campo ligeiramente diferente, nosso Aminoácido teria sido diferente do que CONH - se fosse COKH seríamos de cor verde; Para energizar o trabalho da Alma do Homem para aumentar as energias de campo do Aminoácido; Óvulo e espermatozoides levam à criação da Alma do Homem; A alma permanece a mesma, mas a manifestação depende dos campos do ambiente;

Nós mesmos decidimos sobre a presença de nossa alma em qualquer dimensão - mas temos que aprender a explorar as fontes de energia; Quando a Alma do Homem retira energia da fisicalidade você se encontra com cabelos grisalhos e pele enrugada; A mudança na força da alma muda a aparência da manifestação; Você passou por uma experiência e a alma ganhou força e se elevou - e você fica com cabelos grisalhos e brancos;

Fonte da Juventude é entender a força da Alma do Homem e não estender a fisicalidade; Cria barreira para que a fisicalidade não interaja e seja alimentada dentro - você não envelhece; Parar de cometer os crimes de tirar vidas para ter força suficiente para criar um novo ciclo; O homem é criador de seu próprio destino na força da alma; Você decide quanto tempo quer existir neste Universo;

Não precisamos de armas para mostrar nosso poder - precisamos de generosidade, amor e doação para poder liberar a mesma energia; Eu fiz o Homem na Imagem de Mim Mesmo pelo dar - não matando; Temos que continuar aprendendo até entender o processo da Alma do Homem - a Unidade de Aprimoramento é nossa caixa de areia para experimentar com nossa alma; A criança não mata a mãe para tomar as energias para crescer; Ela prepara e dá o leite com amor e cuidado; no Universo não é como será seu gosto se eu te comer - é o que você tem que me dar, que eu sinto seu amor por mim, o que significa elevar-me para entender minha alma; A universidade no Universo é sobre entender como usar os campos sem destruir; Na Terra damos os melhores produtos

químicos para engordar os animais para que possamos abatê-los e obter o que queremos; A Unidade de Aprimoramento não é para você se livrar de seu câncer - mas para dar o próximo passo no desenvolvimento da Alma do Homem para se tornar uma criança do Universo - não uma criança deste planeta; O homem deve ser como um bebê no Universo e tornar-se uma fonte de alegria e elevação por fazer parte da Comunidade Universal; o homem está confinado a este planeta até encontrar uma solução para parar de matar e destruir; Mas uma exceção é para aquelas almas com boa conduta podem deixar este planeta; A alma enclausurada na fisicalidade permanecerá aqui até que aprenda a não matar;

Os Centros de Aprimoramento iniciarão a nova linha de comunicação entre o homem e os campos de energia do Universo - você aprenderá a se conectar com sua alma e com a compreensão criará uma linha de comunicação com o Criador; Unidades de Aprimoramento construídas na forma do Universo; Unidade de Aprimoramento está preparada para combinar com a Alma do Homem, e a Alma da Criação; O homem foi bloqueado na compreensão do movimento dos campos Magnéticos, criação e interação dos campos Magnéticos; Linha central na Unidade de Aprimoramento como um ímã sólido; A estrutura dos campos da Unidade de Aprimoramento interage com a alma ; alimenta a alma - entende a emoção - e vai levá-lo para onde você quiser ir no Universo; É você quem decide se quer ir na direção do Universo (viver a vida que você acha que quer), ou na direção do Criador (voltar para a Fonte); Você dá e recebe - então a vida se torna com tempo, lugar e posição;

Na Unidade de Material aprendemos a transformar campos de ordem superior em estados de ordem inferior; Trabalhamos com os campos internos do sistema - mas os campos que criamos dentro do sistema determina quais campos o sistema dá ou tira do ambiente para a satisfação da Alma do Homem; Se você quer um quilo de ouro - você cria ouro; Se você está com sede o ouro se torna água; Se você está com fome - essa energia se torna pão;

Mas esta satisfação da Alma do Homem tem de ser acordada e equilibrada com todas as outras almas, para que você não mude a posição das outras almas - a menos que elas queiram;

Quando a mãe lhe dá leite você devolve a energia pelo seu sorriso, beijo e carinho; Um cordeiro, que vem a você para ser alimentado, você abate. Não há diferença entre o cordeiro e a mãe, é você que decidiu usar a mesma mão, que acaricia a mãe, para matar o animal;

A Alma do Homem tem que entender os novos ensinamentos, para que a mão se torne a fonte do retorno do amor e do cuidado, e não para destruir outra vida. Este processo não pode mudar até que o homem compreenda e amadureça; No Universo nossa alma se torna consciente das emoções; É para lá que os ensinamentos estão indo;

Nós nos posicionamos criando uma linha de comunicação com outros pontos no Universo, ou neste planeta - fundamentalmente fazemos isso no cérebro por nossas emoções, porque essas emoções liberam os campos para o corpo decidir sua posição -

porque a Alma do Homem está dentro do cérebro e é a replicação da Fonte do campo (a Fonte do campo é o Criador);

O Conselho Universal foi estabelecido para um trabalho fundamental - estar lá como uma essência para alimentar - para que a alma da totalidade compreenda a totalidade da criação.

Os reatores nas paredes da Unidade de Aprimoramento - são as almas dentro do reator espacial deste planeta. Estão ali para dar, para receber, para elevar a alma da totalidade das (coisas) criadas (deste planeta). Neste processo o homem alcança o conhecimento final. Isso nunca mudará até que o homem se torne maduro para compreender a totalidade.

Substituímos os reatores dentro da Unidade de Aprimoramento, com as almas dos membros do Conselho Universal. Eles são as fontes para elevar a alma da totalidade, que um dia a humanidade não vai precisar da Unidade de Aprimoramento, mas sobrevive na estrutura do Universo, como em seu próprio campo de existência.

A diferença é que a Unidade de Aprimoramento que construímos está na dimensão e força física, mas em certas posições no Universo, essa força não pode se manifestar e se mostrar. Considerando que a alma dos membros do Conselho Universal são (plasmas) dinâmicos, e, em essência, elas podem caber qualquer alma (no Universo). No entanto, temos de encaixar a Unidade de Aprimoramento com uma combinação de diferentes campos, para ser capaz de trabalhar com a maioria das diferentes forças de alma criadas neste planeta.

A Unidade de Voo tem 4 assentos, digamos que 3 lugares são tomados pela raça humana, e um lugar é tomado por alguém de outra dimensão no Universo, que entrou no corpo do homem. Durante o voo, porque eles têm uma força de alma e expectativa diferente, eles podem criar uma semente, ou condição através de sua compreensão do RNA e as energias do Universo, onde eles vão voltar para casa para a sua parte do Universo, subitamente esse assento ficará vazio durante o voo; Escolhemos propositadamente 4 lugares - seguindo o princípio da Formação Estelar;

Vamos nos tornar parte da Comunidade Universal e ver o Universo nos olhos da alma, e entender através da alma. (Nós ainda teríamos) o sabor, o toque e a visão do homem. Como seria o cheiro de uma galáxia ou um planeta? Quando você se torna uma alma, você a cheira, você sente o cheiro do planeta. Assim será na dimensão do Universo. É por isso que ensinamos em paralelo ambos, a dimensão da fisicalidade e a dimensão da Alma do Homem.

Estamos aqui apenas como professores e não como Mensageiros. A mensagem pode ser mal interpretada, mas o ensinamento é direto e claro. O professor tem que entender a totalidade, para que ele possa ensinar cada aluno de acordo com a sua capacidade para compreender e entender, passo a passo; Nas aldeias, um professor, ensina todos os níveis.

Ensinamos com amor e cuidado à criança do homem. A aldeia, é a aldeia da Terra, e a sala de aula é aqui.

Ensinamos todos na mesma classe, mas cada estudante tem uma compreensão diferente das mesmas palavras, e com isto sua alma amadurece;

O tempo dos Mensageiros ou o que quer que você os chame, acabou. Como vimos, a mensagem pode ser mal interpretada, mas o ensino não pode, porque o professor leva tempo para explicar tudo claramente a cada criança, até que essa criança entenda. Quando se atinge a idade adulta, eles saberão como misturar as cores para obter a nova emoção que eles querem disto.

Nós ensinamos bem. É a Humanidade que tem que entender, e decifrar, e decidir por si mesmo onde ela se senta nesta escola de conhecimento. Você tira de meus ensinamentos de acordo com seu intelecto e compreensão. O intelecto não significa ler livros, significa compreender o trabalho de sua alma, a criação interior e a compreensão da Totalidade.

Nós ainda os mantemos ocupados com a abertura de fábricas, e a obtenção de Copos feitos, e tentando obter o Sistema de Voo para satisfazer diferentes posições e condições, e trazer todos vocês para o mesmo ponto de compreensão.

Na China fazemos milhares de Copos, mas eles não saem exatamente iguais. Alguns Copos têm uma coisa diferente aqui, ou algo mais lá, mas, em essência, todos eles receberam os Gans, (e eles funcionam). O problema é que você ainda olha para a fisicalidade do Copo. Mas olhamos para a alma do Copo, que se encaixa com certos Gans, em certas posições, e cada um vai encontrar (o seu caminho para a pessoa certa que precisa dele). Você decide o que tirar dele de acordo com a força do Copo. Um encontra o amor bebendo do Copo, e outro encontra a erradicação de seu diabetes, e ainda outro encontra uma nova compreensão sobre si mesmo. Porque você tira daquele Copo de acordo com o que você pediu, e o que você precisa para a elevação de sua alma. Quando você elevar essa posição, você vai descobrir, "oh, eu não tenho mais diabetes."

Por que você tem diabetes? O que significa o nível de açúcar? O que você está dando inesperadamente, ou você não está recebendo o que você quer - é isso que você chama de diabetes?

A diabetes tornou-se um novo problema para a humanidade, porque o seu corpo está respondendo às transferências de energia, que criamos para nós próprios na dimensão da alma e da fisicalidade. Manifesta-se de maneiras diferentes? Com as novas tecnologias compreendemos isso, e sem vocês saberem, nós os alimentamos para que gradualmente vocês venham a entender a totalidade. Mas é você quem decide onde e como você vai entender.

Precisamos mais de profetas? Precisamos mais de cristianismo, judaísmo, islamismo e o resto? Ou vemos tudo como um só, o caminho para a compreensão da Totalidade da Criação. Não no mundo da fisicalidade, mas da compreensão da elevação da Alma do

Homem. Entendemos a essência da Mensagem, que não são as palavras do livro, porque as palavras podem ser (alteradas) em qualquer cor, forma, tamanho ou escrita.

Desta vez ensinamos você a ler e compreender a mensagem por vocês mesmos, para que não precisem dos intermediários dos profetas, dos mulás, dos aiatolás e dos sacerdotes. Você é o seu próprio padre, você é o seu próprio decifrador do conhecimento, e você decide onde você quer estar. Mas enquanto isso, nós nos mantemos ocupados construindo as Unidades de Aprimoramento e outras partes, que você entende, que há em algum lugar chamado, a Fundação Keshe, onde eu sei que posso obter o conhecimento do Universo por conta própria sem intermediários. Eu posso traduzi-lo para o que eu entendo, e o que vai me ajudar a criar as mudanças que eu preciso.

Estas são as novas formas de comunicação que estamos estabelecendo como parte do ensino. É para você aprender a construir sistemas que você possa se comunicar com você mesmo, sua alma, a Comunidade Universal, e além.

Se você elevar o suficiente e ir mais fundo dentro da força interior de sua alma, talvez você vá encontrar a comunicação final para o seu Criador. Então se você encontrar esse ponto, você se torna Ele, se torna parte Dele, e se torna parte da Totalidade.

Antes havia uma distância entre você e os campos de força do Criador, mas agora você faz parte da Totalidade. Eu fiz o homem à imagem de Mim mesmo, mas o homem é Eu dentro da imagem. É disso que tratam os ensinamentos.

Enquanto isso nos mantemo ocupados, para trazer vocês, para trazer os filhos do homem desde a infância para aquilo a que chamo de maturidade, na mesma sala de aula da Terra.

Sobre espelhos de plasma - difícil de fazer muitas camadas Nano; Tem razões para nunca termos explicado - diferentes níveis de conhecimento; Mantemos muito longe do público; Eles são como o buraco negro - fonte de energia; Por discos voadores parecem ter cor de prata; A máfia está a mudar de vírus para a criação de fome - nas ferrovias disseram para não entregar rações para o gado, para que os agricultores tenham que matar o gado, criando fome;

A família Biden está profundamente envolvida em laboratórios bioquímicos em todo o mundo, eles ganham dinheiro com isso. Como pode um pai dizer: Eu não sei o que meu filho está fazendo;

Agricultura é parte da FK - mudar a essência da criação através de alimentos - enraizar Gans nos genes - para melhorar a sua alma para o homem se tornar pacífico; Fim dos herbicidas e pesticidas; Através da presença de Mitra futura geração do homem não vai matar;

Ensino da glândula tireóide - Gans para mudar a emoção e a força do corpo; Também para Pituitária; .. Ela está próximo da caixa de voz.

A voz é parte da emoção do homem. A tireóide situa-se entre a posição da alma e do coração, dita o comportamento da pessoa. Quando é uma glândula, é uma energia central, por isso tem uma força de campo de controle. É um sistema de controle entre a Alma da Fisicalidade e Alma do Homem; controla o sono;

O MaGrav na Unidade Vertical tem muitas funções, não é apenas para uma coisa;

Mudando a diferença de espaço entre as camadas Nano, Na ou K. Os Gans podem ser os mesmos, mas agora tem força de campo e propriedades diferentes adicionadas a ele.

Tecnologia da FK e Ucrânia - A AIEA sabe que a FK tem materiais para conter acidentes nucleares ou bioquímicos; liderança ucraniana muito corrupta - é um grito de lobo;

Em viagens espaciais sua fisicalidade está dentro da Alma do Homem (através da Alma da Fisicalidade).

Experiência de Quase Morte (EQM) - ver trecho deste workshop; Devido às condições de campo Magnético do sangue

As cores que as pessoas vêem são cores plasmáticas como os Copos feitos na China, através dos Gans embutidos na cerâmica criam novas interações de campo e cores normalmente não vistas na terra, é o mesmo processo com a EQM;

Copos esterilizantes feitos pela FK, irão mudar a forma como as cirurgias são feitas,

É melhor circular sangue para reanimar a pessoa com o coração parado do que bombeamento e choque elétrico. Ao fazer circular o sangue mantém a alma no corpo; o sangue é a prisão da alma;

O RNA transporta as experiências de nossos antepassados - podemos acessá-las.

As pessoas que têm EQM ruins, isto é a interação dos campos, com o que elas estão conectados. Isto é o que está com elas;

Produção de Gans em copos usados - esses campos são adicionados a eles; Aminoácidos presos na camada do recipiente

Vídeos antigos sobre os reatores nucleares iranianos originais conta um pouco da história...

(:12)

K- .. (:14). ... One of the most important parts of understanding of the creation is, how does everything create, how everything was created? We know from the understanding of the new T that, in a way, human race is not the only race. But to understand it completely, that allows us to bring us to the next step, that allows next step of .. comprehension of totality.

In the world of creation, in the science up to now, we walked, we talked about the Adam and Eve, we talked about the man being created or the essence of the creation of the man from central East Africa and then we spread and the rest of it. But where did this come, to lead to the creation of man? Is life of man an accident of time and position in the space? Or for us to put aside our prejudices, man becomes to understand the total knowledge of how it is. In a way, man always thought up to now, that from Creator, comes the man, in one position, in central Africa and the rest of it. In the teachings in the past, we have explained a lot in these processes. (:16).

In a way, we are not a direct line connection. We are a connection of, of a connection, of a connection, and these connections have been going on for trillions of years of man's cycle. Each one being another galaxy, another U, another dimension (D) in different shapes or forms, releasing energies, that the end product of the energies, in combination of what we have become, the center of the earth. Even a cycle has created what we call, life of the man in one position.

But again, when we study and start understanding of it, even in the historical data, we understand, that man was not created in one position alone. There is a possibility that simultaneously a number of races of man, number of races of beings were created at the same time across this planet. Because we know, we have understood, and we have gathered enough information to understand, that the cat, the dog, the dinosaurs and the rest, all plus the man, plus the trees, all started from the amino acid (AA), and a deviation and diversion from one to the other, with the presence of different materials, lead to the creation of a varieties of lives on this planet.

Then the question arises for all of us is, (:18). what happens in this cycle (from Source to Earth), or what happened in many cycles that emanated from the Source. would some of these in the long run became in meeting this (line from Source to earth), lead to the creation of (a creation on the earth line). Or did some of this (another line from the Source) came back and it met in a point, that it lead to creation of (Joins to earth line).

In a sense, once we found a combination of the energy source, communication source, holding energy pattern and line of gravity, you can replace this (elements in AA) with any element, depending on the time place and position (on earth line or any other line from the Source). So in fact, life is not exclusivity of this planet. Never been, and in a

way, shall never be, because ongoing process is still, is carrying on, with other cycles (from earth outwards) from the same Source. Where could be that these sources (creations) which lead on, could be collective, the soul of the planet, and the man, which is created out of it, as a seed.

But we understand now the totality, and if understand the totality, we understand the reality and the fact, that we are totally, utterly creation of coincidences, and if these coincidences lead to creation of life on earth, so life has existed, and exists in all D across the U. (:20).

The only thing, which now is happening with the human race and hopefully, once the human race understands it, will come to all the rest of the creatures on this planet, and the rest, which will come from them, is that now we understand we are member of the a very big family (Universal Community), which all creates from the D of the creation. This family is not exclusivity, and it's not going to end, because this cycle (STM) has already started into the next generation. The cycle of the Soul of the Man (STM), that it leads to creation of next cycles.

So what is important to us, if we are going to make this trip backwards and meet with our other fellow, and other people, which we are created out of, then very much as I said, in your AA, in your RNA, and in your DNA, this information exists (of the whole creation). The way, in your DNA, the information about the man and how to be a blue eyed, .. to behave exists, because this (Man's RNA) is collective of this (whole creation). But as we have not understood the rest of the structure of the energy fields of DNA and RNA in totality, we do not see, that we are connected to this, and to this, and the rest of it.

In a way, we have to understand in the development of the new spaceships, (:22). and space development, how would this soul from this planet. How would this system what we call, enhancement unit (EU) will perform in this (on another planet) would it survive?

Would it become the whole understanding of us, how to tune our systems, flight systems (FS), that we do not go to D, that we are so weak, that in essence we are not heard, .we are not seen, we are not existing in the D of the physicality (P) of the time, place, and position.

Does the STM, does the P of the man needs elevation of the strength in his own circle, as we know the plasma (Pl) goes this way, does it need elevation in cycle of inner strength, to be able to manifest itself in a higher order. Just because you cannot be seen, does not mean you don't exist.

But once you understand the strength of the emotion, and understanding, would this lead to a new generation of more intellectual, intellect-ed being, as we start traveling back and forth in different D. Does the STM, has reached the point of understanding, that it does not need crafts, but it needs to understand how to go within its soul's inner sanctums, and be able to revert back. So man, (:24). can be manifested at any position and any time. It's him who decides, not the machines.

The machines will help is, maybe within the Solar system, maybe within our galaxy, but if you are to go in a deeper essence of understanding. We understand more. The reality is, what we see as a human race, in one corner of this U, what is matter state (S) to the human strength vision point of view, which is something like less than 2% of what it is. So we have to gather strength to see the different strengths, that we can understand, and we can manifest ourselves in these different strengths, because the green cannot see the black, and the black cannot see the red.

This is why our spaces are empty from the vision of the man point of view. Where in fact the universe is a multitude, a solid dense, what we call, interaction and existence of the fields, which one is centralized, but at the same time this universe itself, is on the what we call, another spiral of energies, which will lead in one way or another, to what we call, the Source.

The first energies, the first origin started, (:26). where in this point, we'll come across different, what we call, galaxies, and universes and depending how far we can go, in the terms of the energy, but in essence, we all carry the essence of the Creation, the Source, the level of where the life will start.

The question for Man will be, that in a circle of his essence of Creation, in manifestation, which it gives to be seen, would that, within the inner strength exist, a strength, which is at the strength of the Creator, that finds the line of communication, finds a common source, finds the seed of.

If you understand this, and what we explained, then within the center of the Soul of the Man, within the seed of the Soul of the Man, sits Seed of the Creator. I made Man in the Image of Myself, because I am Myself within the Image.

And this brings a lot of complication for a lot of people, in the coming time. As we develop this space technology, not into the dimension of physicality, but in the dimension of what we call, field strength of understanding of the Creation.

If you are sitting here with the Soul of the Man, then you want to connect with the soul of the others, which you see through the dimension of physicality. When man opens his eyes and sees the totality of the vision of the universe, (:28). at a higher order, will see nothing but, transparency of the fields, emotions.

Which means you will not see the galaxies anymore, you will not see the stars anymore, but you see fields in the dimension of total motion. And in fact, this is the beginning of what we call, the teaching of the Keshe Foundation.

Because we started as matter state existence, we started what we saw as elements, we became atomic, we became nuclear, now we become plasma. In the world of the plasma, once we start looking, that we have opened with a knowledge of Keshe Foundation, we see the essence, replication of what it saw in the universe, and then what it'll be, in the

Creator, and us in understanding of totality, sitting somewhere in a weaker position here (outer ring of plasma spiral), most probably but, in the process will carry on.

In a way, we are just an energy transformation. And if we can add enough strength to our soul, in the next cycle of the creation, we might jump here (closer to the center). But if we can gather enough to understand the totality of, to be able to lock into the energy fields of the cosmos of the higher order. One day man can be here (center of PI), without needing to travel the whole length and capuddle of the creation. (:30).

So what it comes to, is the fact, that Mankind is not alone. Mankind is not there to carry on with abuses, what is done on this planet. Once he goes into space, we cannot start in a way, as I've said many times, eating whatever comes across us. Destroying whatever comes across us, unless we understand that we are part of the process. And in that process, the survival, the integration and the keeping everything together of the Soul of the Man at the point of establishment, is the ultimate goal.

Which means the habit of the man, to destroy, to absorb the energies of the field of the what we call, Earth to elevate extension of the strength of the Soul, can not be repeated in the universe, unless you learn to live within, absorbing with the structure of the soul of the universe, and the Soul of the Creator, which is in essence lower version, absorption of the fields that we, according to the strength of our soul, can absorb. We cannot give a banana to a one day, born (old) child, because it's not ready, it cannot digest cannot - the body the understanding of the life within it, is not there, at that strength. It needs time to mature, (:32). that one day down the line, he can be given the first non, what we call, liquid, the solid to enter the next phase of the life, that he can live on the process of the other entities in his life.

What happens when now, that man gains the knowledge, feeds the child from the day of the birth, gradually from the essence of the soul, the matters of the planet. It is the responsibility of the parents to learn the process, and gradually phase out the killing, phase out the destruction, phase out the absorption of the others collectively. Where it's available, you take, at what strength you take.

The knowledge given to Knowledge Seekers, is there in a way, that the child of the man, the essence of the Soul of the Man gets fed from the essence of the energies of the universe, not from matter states of the universe. Where the energies are, and can be converted through , to sooth the energy fields of the need of the man, at the point of need.

If you understand this process, then you understand why, especially in the Enhancement Units which are developed, you don't see any restaurants, or cafes, or toilets. Rick, can you go through the promotion video with your of the Flight Enhancement Unit (FEU), where you see the three units next to each other and put it on the screen please.

This means, that when you look at the new Enhancement Units, which are flight units, according to the man, when you are on a flight you need to have everything for the man. When you get on a plane to fly, you see the seats, you see the toilets, you see the kitchen,

that they can serve you. If you look at the structure of these flight system, there's no kitchen, there's no toilet, there's no control room, there's no control panel.

Now you understand with the simple animations, we have introduced the next cycle of the space travel in a very soft way. In a way that, you see this is a craft built for the space, that can travel any depth of the universe, as it will not consume another being. In the present situation, If it's four of you, and you get stuck, you look at, which of the other three passengers am I going to eat.

(Talking to Rick Crammond): Can you go back to the four - three crafts please. Can you stop it there please.

In so many ways, if you understood this, you will understand that we have already introduced to you, (:36). what was in the past few minutes explained to you. We have made, we are making Man ready for that final flight, where man dictates, travels with his Soul. Understands, even the system, understands the communication of the Soul, that he can fit to satisfy.

In the Flight Enhancement Units, which you will see coming up, only one seat has control system built in it, that in the Soul of the Man, with the Soul of the Man, it communicates with the System Control, and within the structure, communicates with the Soul of the system. Where this as intermediary, understands, and it's by proximity, what it needs to be done by the total craft. What energy level to adjust to, that in the process, you come closer or further a field?

Do I give more, because I came from Earth and I'm traveling that way, away from the energy source. Do I give more, to move away, in the strength point of view, not in a matter state of view, or I gain from the environment, that I can come closer to the seat, to the essence of the origin of the Creation. (:38).

This is where the new development, the new teaching, the new structure is taking us. It's where we will go through, with understanding the totality. Where we come to be part of the essence of the creation. We have been part of the essence of creation, and we shall be part of essence of the creation in a different dimensions and strength, from the beginning of the time. The reality for us, is to understand the process.

In the present system of what we are used to we call it a Solar System. We always look at one point. We have the Sun, and we have the Earth, and we are its citizens. We free ourselves from its energies, and elevate our souls to become passenger, depending on what we have done in our cycle of life, to be closer to the higher strength to move forward, or due to the crimes we've done, to go backwards.

In a way, not backwards, but be part of the next generation of the developments of the next cycle. Maybe our soul in the coming time, (:40). in a process will interact with another soul, and that soul will interact with another soul, which leads to the next

generation of souls, from interaction of the fields, which came originally from the Earth, through the soul of the man, or through the Soul of the animal.

But what we have not considered, and we always look at it so, what I call dismissively, is that, day and night this planet Earth is getting fed by the Mother (Sun). It's not just the daylight, is a continuous feeding to be able to control the D. As we said before, the Sun itself is getting fed, by the resources, not only in galaxy, but in the universe, and the Unicoise, depending on the field strength of where they come in. As we are fed the same way. We are not just fed by what we eat from the ground, but from what rays of the universe has come through, that has ended up with us, as a body, as absorbing and converting it to what we need.

These teachings, even though simple, are essential for the humanity to know what is to come, or where it wants to be. How, it wants to be. (:42). The way it wants to be. And clearly explains, from what we said this morning, and many times, we are not designed to be human. We are not designed to be a cat. We are nothing but the presence of interaction of the fields, which has given time and space, has led to collection of the fields, which on the gravitational (G) field strength of the Earth, creates motion, emotion, and with it, existence.

If this planet would have had slightly different composition of the field strength from the center of its core, your amino acid (AA) would have not been what we see today (CONH). A slight deviation, as I've said many times before, would have put you here with a different element (for example CPH), and then, how would you look? What happened if this process of the elements of this, what we call, structure, was slightly different than what you thought it will be (COKH)?

You would have been green for sure, and you could have been a slightly, combination of the two possibility, would have become maybe, a dark green color. (:44). As long as, we can make a line of connection with the environment, and as long as we can hold on to the energy gravitational field, and as long as we can release field energy, the storage decides the manifestation of life.

And then at the present life, we look at nitrogen. We make all our fertilizers connected to the nitrogen. And if the science of the knowledge of today, could be understood in a deeper way, by the color of the leaf of a plant, we can decide the strength of the nitrogen we need, to keep this composition. Then, mankind does not need the plant, but it needs to understand the calling of the field of strength.

Those of you who work to the dimension of energizing the Soul of the Man, you should have guessed the whole thing, what and how you need to target, to work, to increase the field energies, that you elevate the soul in the dimension of the amino acid interaction.

It's the collection of the egg and the sperm, which led to the creation of the Soul of the Man. The combination of the field strength, the two share in the what we call, dimension of the creation of life, dictates, in so many ways, and the point of the collection and

completion as one, the color of the eye, the shape of the face. (:46). So what would be, if you change the environment of the Earth with the man, to another dimension, or to another position in the universe. But in fact, the essence of the soul stays the same. The essence of the source does not change. It's the interaction of the fields of the source, which creates the shape, the color, the position, where the soul can interact and survive.

If you understood this, then you understand, how we as a human race come to understand, we are the makers of the decisions, and we are the decision makers of the presence of our soul in any dimension. Now we have to learn how to tap into these energy sources. What do we need to change, that we change accordingly.

Gray Hair - change in strength of STM

We know this process through our own existence, but we have dismissed it. We have not looked at it in depth. We looked at it everywhere, but except the dimension of the field interaction of the soul. When the Soul of the Man is ready, and is grown enough in the strength, within the physicality of the man, then it takes energies from the dimension of the physicality of the man, and in the dimension of physicality, you will find yourself with a gray hair, with shriveled skin and the rest of it. (:48). Where in fact, the energy is strength of the soul has changed, and the interaction of the change of the field, has changed the manifestation of the presentation.

When you look at a gray hair, when you got the white hair, it tells you that the soul has elevated, the soul has gathered enough strength, and it lays out why. Why do we get the gray hair, or a white hair, because you went through an experience, you've added to the energy of the soul. Soul now has a different strength. He used to be here in the center, now is become in fact here, in understanding of the totality.

Do you will need to get old, that create the atmospheric condition, or interaction of field condition, that it affects your physicality. Or you learn how to interact to expand the totality of the fields, that physicality never changes. The "Fountain of Youth." The Fountain of Youth is understanding the strength of the field of the Soul of the Man, and not understanding the way the physicality can extend its existence on this planet, or beyond. When you create this barrier, the dimension of physicality doesn't interact and is fed within, so you stay constantly the same.

Then if you understood that, you decide yourself on your own, in which dimension of physicality, with a new dimension of the field strength, you manifest yourself. (:50). Or if you carry on with committing the what I call, crimes with taking lives. Then which direction does mankind want to go?

You have nothing to give to create the dimension. Go back to one of the intros (videos), "you care about your children, you care about how physically you look, how smart you are, what suit goes with the other," but you have never thought what you're going to do with this one, which is your soul and its interaction, will create your dimension of physicality.

If you understood these part of the teachings then, you understand, simply man is the creator of his own destiny in the strength of the soul. Then you decide you'll stay for one year, one decade, one century, and one life of the universe. It's all within us. It's all within the structure of us. It's just trying to understand the next step. We don't need guns and bullets to show our power. (:52). We need generosity, love and giving to be able to release the same energy. I made Man in the Image of Myself by giving, not by killing.

Then it comes to understanding of the totality. In so many ways, it comes to understand, to what extent we can help this process to be. When the child does not understand, you explain it, you send him to school to comprehend the next step of knowledge, to gather more. In this process, the teaching, the school of the Soul of the Man, at this moment of time, till the man learns and become graduate, it has been chosen to be, the Enhancement Units (EU). The sandbox of your soul. The sandbox or understanding the use of the fields of the universe, not the use of the fields of the life, created in the universe. There's is a big difference in killing, and in the what we call, giving.

If we are given, it's the essence of life. If we take it by killing it, we have diminished the life. The child does not kill the mother, to take the energies to grow. The child takes from the mother, what the mother prepares, and she makes it really as a milk for him to suckle on. (:54) Man has to be that child, to take the fields for what the universe has prepared for it, and not to kill to take, that there is no feed, to create another life with it, to support another life with it. This is where this planet has stuck with, is what we call, evolution of the completion of its totality.

Man will learn that milk of life comes from the essence of the fields of the universe, and not by destroying the life in the universe to get what he wants. How do you taste, if I eat you? Should be, what do you have for me to feel the love of you for me, that allows me to elevate myself, my understanding of my Soul.

The University of the Universe is understanding, which fields in which way to use, without destroying. That the University of the man, he gives you the best chemicals to give, to give the maximum survival time, that when you kill the animals, you get what you want.

The Enhancement Unit is not there for you to walk away from the cancer. It's not there for you to walk away from what we call Alzheimer's, or whatever. It's there for you to learn the next step in the development of the STM, that the man becomes child of U, and not the child of this planet. In a way, he does not kill the mother to get, it gives love and laughter in a smile to the mother, that the mother can give.

A man should be that baby in the U. Become the source of elevation, joy, of being part of the Universal Community. (:56). That going out to killing and more destruction. This is why the man has been contained and confined to this planet, till he solves this thing out, to understand. We allow the STM of good conduct to leave the planet. But the physicality

(P) is the soul, which is encaged in the P of the man, will remain till he learns, "I have the P, but I have learned not to kill," not to destroy, not to enforce by the forces.

The process of the creation in understanding the new Enhancement Centers, is to start the new line of communication between the man and the energy fields of the U, that one of these might lead, by understanding it, to the essence of the Source, which is the Creator.

It's not that all the fields from the Source have to go through divisions and breaking, to become the STM the soul, the generosity of the Creator's field of creation, still exists, it's you who has to understand how, and the way to the strength, that you can tap in your soul to it, and with it, with that understanding, create a line of communication between the man and the Creator.

If you understood this, then you come to understand the work, (:58). of what we call, the EU. The EU are built in the shape of the U, and nothing else, when you look at it, as I said before. The energy field in the center of the system, is set to match, to be able to match the STM, and the soul of the creation, both, in both D of the field strength.

How we turn up to be, how we allow this process to be followed, to be part of, to be in conjunction, and in process of understanding This is the purpose of the EU, This is why we built the EU, for replication of the man. When you get into it, and you understand the feature of it. Which part of the U you want to be in? The position and the destination is decided by the STM within the system, and as you approach this understanding, it's where in the Unicoe you will land.

The whole process of the understanding for the man has been the block, for man's understanding has been, the motion of the M fields. (1:00). Creation of M fields, collective interaction of the M fields. Then maybe in a simple way, man can see something in his existence and within the EU. In fact the central line is the same as the magnet you created as a solid. What we setup in the structure of the fields of the system, which will feed, interaction of the STM, understanding of the emotion, decides which one will be more interactive, and where you will land. Or you decide that I want to be elevated in a way, that I become in this process, part of the fields of the U. Then with what you interacted, and with what you give as a part of the totality, will land you in that position in the U. This the same, could be the soul of wanting to see the mother, or wanting to see the child. There is no difference. It's you who decides if it is the mother position on the U, or in direction of the Soul of the Creator.

Then life becomes without time, place and position. It's you who receives and .. gives. (1:02). The Flight EU by the inherited design are both ways, they are givers and takers. Where the .. EU for performance, body EU are mainly in that direction. With the Material EU we haven't done much difference, but we have learned is how to change the energies of higher order to lower order to the matter state (S), but in fact we still work within D of internal fields of the system. Then what fields we create within this, decides what fields we give or take from the system into the environment to the satisfaction of the STM. You

want a kilo of gold, we shall create you a kilo of gold. If you are thirsty, that gold becomes water. You are hungry, that energy becomes bread.

It's you, through the D of the soul, which satisfies. But this satisfaction of the soul has to be agreed to be balanced with the other fields, that you do not change the position in space of the others unless they want to. The mother gives you milk for you to smile, to kiss, to cuddle, you return back the energy. A lamb, which comes to you to be fed, you slaughter. There is no difference between the lamb and the mother, (1:04). it's you who has decided, the hand, which caresses the mother, becomes the hand to kill the animal.

This is where the STM has turned into its D of the work, and understanding of the new teachings. It's you who has to understand this, and that hand has to become the source of returning the love and care, not the hand to destroy another life. This process cannot change till the man matures to that point of understanding. I would like to see how you taste, but I have to bring you close enough to catch, to get. In the D of U, the soul of existence of what is, is aware of the emotion.

Now we understand the process of the whole understanding of what the teachings are getting into. We try now to create the D of the communication and the position with the other places and points in the U, on this planet, or more essentially, fundamentally, within the brain of the man, within its own emotions, because it is these emotions which .. allows the release of the fields, that the body of the man decides its position. (1:06). As the STM is within the brain of the man, and is in a way, the replication of the field source, then the decision on how the STM will take its time, place, and position.

We are not teaching anything new, but we are opening the book of the knowledge of the creation, that man can go the next step, that we can establish the thing. Establish one point, one piece, one way to change. This is how the establishment of the U Council has become, the establishment of the U Council has one fundamental work to do, is be there as an essence to feed, that the soul of the totality, understands the totality of the creation.

There are these units on the walls of the space reactor. These are the souls within the space reactor of this planet, to receive, to give, to elevate the soul of the totality of the created, that, in that process, man reaches the ultimate knowledge, which has been, and shall be, and will never change, till man becomes mature to the understanding of totality.

In a way, .. we have replaced the reactors within the EU, with the soul of the members of the U Council. They are those sources to bring, to allow, to elevate the soul of the totality, that one day, mankind does not need the EU, but survives in the structure of the U, as on its own field of existence. Because the reactors we built, (1:08). are physical D and strength, and in a certain point in the U, that strength cannot manifest and show itself. But the soul of the universal members of the group of man (UC), is a dynamic, and in essence can fit any soul. We fit in the EU through the combination of different fields, to work with the majority of the souls strength, created on this planet.

As I said recently to one of the KS, and this will happen to many of you, this is not something that will be very, what you call, abnormal in the coming time. You have 4 seats in the EU, and 3 of you are from the race of the man, but those who are here from other dimensions of the fields of the U, they are after the elevation of the soul to the new D. They enter in the body of the man, but what happens when the system runs, and through different strength of the soul they have, and the expectation of this, they might create a seed, (1:10). a condition through understanding of the RNA and the energies of the U, will return home where they came from. Where the man is happy to go to New York or London.

It's not that suddenly one of the passengers disappears, he actually goes where he came from. You all went to the same restaurant, but for different foods, for different satisfactions, for different elevation of sense of the creation within you. One has a Chinese, the other one has what we call, a curry, and the one with Fish & Chips. Not this chap, knowing, understanding through the essence of T, and being manifested as one of us, wants to go home.

Many of you in the coming time, in the EU, will understand this very rapidly. There is a reason we chose 4 seats. You remember the Star Formation (SF)? We still follow the same principle, we still follow the same understanding, and no difference. In essence, in understanding the totality, mankind will become very wise to the whole structure of the creation. (1:12)

In still a way, we become part of the U Community , we become to see the U with a different eye, through the eye, through understanding of the STM, then through the taste, the vision and the touch of the man. How would be the smell of such a galaxy or such a planet? When you become a soul, you smell it, you feel the smell of the planet. So shall be in the D of U.

Now we understand more, why we teach in parallel, both in the D of P, which is now the EU, the work of the EU, and what to come in the D of the STM in conjunction with what man creates in the physical man, in the physical D, in totality of understanding the essence of the creation.

We are here just as teachers and not Messengers. The message can be misread, teaching has to be direct and clear. In so many ways, a teacher has to be knowledgeable enough to see the totality, that he can teach in the steps to each student as they come, they are, and according to their comprehension and understanding. When you go to a village, there is one class, and one teacher. (1:14). The infants have a chair, the child who is 7 years old has a chair, the 12 years old has a chair, and the one who is 18 and going to university has a chair, and the same teacher, in that village teaches the infant to the teenager, to the one who is going to university.

According to the understanding, and she speaks to the infant with the love and care, as an infant, and to the teenager, and what I call, the one to go to university, as a man, that he understands, the understanding of the work of the what we call, outside world. And the

teaching has been in the same way. We teach with love and care to the infant of the man. The village, is the village of Earth, and the classroom is here.

It depends where you see yourself, not in the dimension of the physicality, and the knowledge, but in the strength of the field of the Soul of the Man. Then how we can nourish this, from infant to maturity. But we speak the same language, and at the same time, the infant of the man, the village of Earth, is within the Universal Community, when we teach those who are teenagers of the what we call, the universe, and those who have matured to go to university, all sit in the same class, but they take different understanding from the same words and to the maturity of their own Soul.

The time of Messengers, and whatever, is over because message can be misread, but the teaching can be explained and become direct - teacher takes his time till the child, (1:16). the infant understand, what is the bottle, and which color is which. Where the one in the adult, who knows which color to mix, to get what new emotion from it, and directions of understanding.

We taught well. It's Mankind who has to understand, and decipher, and decide by himself where he sits in this school of knowledge. I said from the beginning, you take from my teaching according to your intellect, according to your understanding, not intellect by reading books, but intellect in understanding the work of your Soul. The understanding of the inner creation, the understanding of totality.

We still keep busy with opening factories, and getting Cups made, and trying to get the Flight System (FS) to satisfy different position and condition, to bring all to the same point. As I explained to the head of the Keshe Foundation in China very recently, when they sent us a cup of, which is getting produced in China. I explained to the Knowledge Seekers, same, about the same cup. We make thousands of cups, and they don't come out perfect. This is the problem in China. The cups have a boil here, or something else, but in essence, they all have received the Gans's, or what it is.

But the strangest point is, you still look at the physicality of the cup. But we look at different. The cup which is fit with certain Gans's. in certain positions, will find itself, when we sell it, from China to Katmandu, or to Brazil. The Cup which fits the man's needs in Brazil will arrive to him, because the soul of the cup, (1:18). is made for that, come home, this is where you're needed.

It's not anymore what I put there, it'll go, and it has to go, and it's for you. The essence of the understanding is, that the cups are made, as a Cup of the Universe, as a Cup of Life. Then you decide what you take from it, according to the strength of the cup. One finds love drinking from a cup, and one finds eradication of the diabetic, and one finds new understanding, because you take from that cup according to what you asked, what was delivered, what you need for the elevation of your soul. When you elevate that position, when you reach that position, you'll find out, "oh, I don't have diabetic anymore." You look at the physicality, we look at what, how we elevated to satisfy.

Why do you get diabetic. What does it mean the sugar level? What is you're giving unexpectedly, or you're not receiving what you want - you call it a diabetic? Isn't your body responding to, has the diabetic, has become a point of the new problem for the mankind, due to the energy transfers, that we have created for ourselves in the dimension of the Soul, and physicality, and it manifests itself in different way? This is what the new technologies are. As you don't understand, we feed you in a way that unknowingly, gradually you come to understand the totality.

Be it by water, be it by Cup of Life, be it by the teaching, be it by understanding the Totality of the Message. (1:20). But it's you who decides where and how, we come to that point, where and how we come to understand. That, what we understand from the creation.

Do we need any more prophets? Do we need any more Christianity, Judaism, Muslims and the rest of it? Or we see it all as one, the path to understanding the Totality of the Creation, not in the world of physicality, but in the world of understanding for elevation of the Soul of the Man. In understanding the Essence of the Message, not the book of the message, because it can be made in any color, shape, and size, and writing.

This time we teach you how to read and understand the message by yourself, that you don't need intermediaries of the prophets, the mullahs, ayatollahs and the priests. You are your own priest, you are your own decipherer of the knowledge, and where you want to be. And meanwhile, we keep ourselves busy building the Enhancement Units and other bits, that you understand, that there is somewhere called, the Keshe Foundation, that I can get the knowledge on my own without intermediary, and I can translate it to what I understand, and what will help me to create that position and change.

I hope now you understand when we say new ways of communication is set up, this is part of the teaching. Is for you how to communicate, how to build systems, that you can communicate with yourself, with your soul, with the Universal Community, and beyond.

Even if you elevate enough to go within deeper inner strength of the man's Soul, maybe you'll find, the final communication to your Creator. (1:22). And then if you found that point, you become Him, become part of Him, and become part of the Totality. Because now the strength of the fields of the Creator, in a way as it was before, between you in a distance, now you become part of Totality, as you become part of it. I made Man in the Image of Myself, but the man is Me within the Image.

This is what the teachings is about. Meanwhile we keep ourselves busy, to bring you, to bring the children of the man from that infancy to what I call maturity, in the same classroom of the Earth.

Thank you very much for today. We go through a break and come back to answer any of your questions. (1:23).

Proofed to here >> continue on

>> **BREAK** << 427 KSW April 7, 2022 (1:28).

K- In the next few weeks we'll have a presentation by one of the Knowledge Seekers (KS), they are putting a video of teaching, sharing knowledge what they have done ..

(1:30). The hooligans of what we call, other people attacking them. We bring it back slowly, at the same time we .. enhance the knowledge. .. Linz EC is reaching new number of people coming to see ..

look at what it does in elevation of my soul, my understanding of the creation, that's what the soul is. The true creation, not by feeding and eating vitamins and the rest. Are there any questions. (1:32).

Q: ... Could you expand on the Plasma Mirrors developed by the Austrian team and if they can be shared with loved ones?

K- We put these mirrors out, very limited numbers, they are very hard to make. ... There was a reason when it was done, we allowed it to go out. It has a reason we never explained, and there are reason we put it out for people, the way it was explained originally by ... Klaus. You go to understand there are different levels of knowledge within all structures of the KF teachings, equipments, and the systems. These mirrors, now that we have more knowledge have a different use, or can be used in different way by the KS. We keep a lot of this away from public. It's a fire we don't want you to burn yourself , if you don't know how to handle the fire. The mirrors have a specific use ... we stopped selling them, because they are too hard to make ... is Dr. Klaus on the line. ... (1:34). This unit due to their inherent blackness have inherent characteristic of absorbing fields, and then how these field reflect back ... creation of black holes. They are like black holes. but it has a very interesting characteristics it needs to be understood. very thin disks, and they have a Nano layer on them. . you receive energy from both directions. when it crosses the Cu, what happens collectively within this structure. What is the properties of those lights which are not absorbed. Due to the curvature it creates on its own, more or less, you absorb the lights form this side, is not the same as this side. look at the disks the tow of them, because they are made of the same , reflects from one to the other, it's you who are in the middle. Goes back to a lot of teaching ... are there applications in the work of the KF. (1:36). What fields are reflected at this point, and what fields are absorbed at this point and refelcted back . or the same in this position.

As we know black holes are not what Stephen Hawkins said, they absorb everything. Now we know they are sources of energy, but what sources, they release, this is the key to the operation and understanding of this ??

Any other question.

R: reminds me of the original lasers that had two mirrors ...

So could 2 of these plates be put in parallel and a reactor of some sort in-between as focusing point for the plates?

K- You can do a lot of things with it. ... but this is just a .. small understanding of it. People will try ..

R: 40 layers to make ..

K- we stopped producing them .. (1:38).

R: looks like a flying saucer in your diagram there.

K- Ask yourself why the flying saucers look silver-ish grey to the eye of the man. When at the point of death you look in the eye of man, it's got silver-ish bluish color, for an instant or for some time.

(1:40).

Q: .. mistake

Q: Thomas .. I have .. come across over the last few days our beloved Caesarean Mafia let us know that their goal was actually as they stated, already years ago, is that reduction of the world population. Now since they didn't have their success they wanted with their virus, they are now joining or trying to apply another thing which is, to create hunger and people dying from hunger. The last days sort of decided in this direction, for instance in America, the railway which has two separate transportation, one for high value goods, and one for lower value goods, they sort of told the railways not to deliver low value goods which are for instance, the feeding for cattle, (1:42). which means if the cattle doesn't get the food within a certain number of days they have to be slaughtered, which will create hunger. ..

BIG GAP >>>

(1:50).

(2:00).

(2:04).

we saw Trump family going into that way. Biden family is deeply involved biochemical laboratories around the world, they make money out of it. How can a father say, I don't know what my son is doing. Didn't the same father cry for the son he lost, why is he allowing the son's of others to be taken life of? This is what we have to teach our world leaders (WL) not become the peacemakers and bring the new world order for peace by talk, but by action too. We have to change the mentality of the mankind from this war position. Then we don't need EU.

In the future, . agricultural part of the KF we will show how we go back changing the essence of creation. What was short in the visible D of the STM, not only feeling it through the systems, but ingrain it through the genes of the man. We'll introduce, (2:06). .. it has been done, but you are not aware of it, to enhance the STM by the food man eats. We have already started this in the production in the KF agricultural systems with Wang L you feed the grain to enhance your P, but the structure of the system is set to enhance your soul. To make you a peaceful man, give to the soul, that the soul does not allow you to take more grain. It's, the reactors on the bench getting ready to be built. This year we might be able to get into the market but next year, probably we will.

Changing it is important, at the source, and where the man gets his food. With the new agricultural T we develop, is gradually feeding the man is not only body enrichment, but the soul enrichment as well. You have the systems, we taught you how to make the systems, but you're so physical you don't see the ?? Then your systems, allows life to coexist, to destroy one to get the other one to be better for us. It's the end of herbicides, .. pesticides .

We destroy everything, this causes a lot of problems. (2:08). A lot of agriculture people with the KF, ?? because you got pesticides of .. herbs that they can damage the growth. because we always looked at take the energy from the earth. Now the new T takes the energy from the space. You see when your products ?/ with the more herbs, and sometimes the pests are actually the supporter of the cycle, if you get the cycle right. if it doesn't suit the cycle, then it moves somewhere else.

We have to, not by producing EU, but by producing, creating conditions and materials and food and it enhances the STM and it takes time. We saw it in a very simple way, as you see on the video by the agriculture crops in Australia with Jim and Lisa. They said ... people come asking for the product , because it's not just the .. deliciousness of it, but it elevates the soul, it brings peace to them. to get that peace. This is what many KS never understood. Why you harvest is not doubled. Oh, we used it, and it doesn't work, and the other one used. What have you missed, have we just eating there, or to physically

increase , or we went there to satisfy the need of the plant, that it can give you more. and allow with it to create new ?? It takes time.

We need from now on, with what we have with the presence of Mitra, (2:10). and condition of existence of the life through it, to create new children of man. That in the next generation, they shall not kill, .. not even think of war. We have created animals and we have allowed them to become our leaders. That you can see where we as a race, have gone wrong, that's how we bring the changes.

Any other question.

Q: .. is there a Gans application that enhances Thyroid gland and bring balance and restore function?

K- Yes, we have successfully seen the effect of it. It's a specific way you got to be done, and it actually changes the emotion and the strength of the body as well. Yes, there is. We developed this one 2007 or 06. You don't need chemicals, (2:12). if you understand the work of it, what it does, it's position, where its position.

R: That's normally a treatment. I had a friend who had her pituitary gland removed because it had a tumor. So she has to use synthetic hormones as replacement. Is there a therapy that would be similar to the Thyroid gland, for that incidence as well?

K- Yes, there is, there is a solution to it. There is a way, we've seen it, it has been tested. Thyroid gland, where are they positioned . put it on the screen Wiki .. Then you have parathyroid which is as small as a dot. ... (2:14).

Forget about all the literature which is written about this. Just look at the position. Now that you have an understanding of the energies and fields in the body .. It's sitting around the voice box. Voice is part of the emotion of the man. Sits between more or less equal distance, the position of this gland in the position of the soul, .. of the heart, even dictates the behavior of the person. When it's a gland, it's a central energy, so it has a field strength of control. How does the communication of the field of the STM, and the body .. controlled in interacting with the STP and the P of the man. It sits right under what we call the highway. It controls your sleep. In some cases when they remove Thyroid gland, you have to take tablets to awake. It controls, what is a sleep. It controls the emotion, (2:16). it controls the freedom of the soul.

This gland is not just a gland, it's a control system between STP and STM , in D of the both. If you look at it ... you have to see where the STM sits, the heart sits, look at the two main arteries which pass both sides. Look at where the energy comes to go through. Where you take two types of energy, one to the other. It sits in a position in the background of it, .. the neural system, which is a control of the system in the back. Then when you want to deal with it, you have to deal with this chap (STM) first. It's this what decides which energies of the blood which come into the brain.

The energies of the food which are passed on to the body, taken and control. Then you have to understand how deviation of the field flow, (2:18). of the within the arteries on

the side of the body .. controls it. It's more or less, the most important gland between the STM or the brain .. and the physical part of the body .. It's not just what goes, .. in it, it is so powerful, we have to, we have no choice, but to look at what fields it creates, in this region. We need to understand this. Because we only look at the physical side, we don't look at the energy, position of this (between heart and STM). Don't forget ... glands are part of the brain which are put in position to do the job, because there is too much information in coming and going. they do the local job. It's too much goes in breathing, eating, emotions, everything which goes from physical life into the D of the STM and emotion.

We've seen this more or less, 100% ?? operate and are not allowed to speak, if they put a hand on there mouth, the attack has been in the position of .. violence, that they could not speak. Majority of them end up with a cancer in this gland. (2:20). 99%, if you see a Thyroid gland especially, when he can not speak a word, when he get the emotion of cannot speak, cannot be explained to the D of P, where the soul is aware of it. you have sometimes due to physical damages , but essentially Thyroid gland is a condition of the speech, .. the communication word of the man to hear himself. When you get an interruption of it, you get cancers of it, and other deviations and problems.

If you can sort it out, they grow back. We had a case of girl of .. 23 who was raped on the campus, overnight, walking and within 2 years she ended up with a Thyroid cancer and remove one of it, and the rest of it. It took only a few weeks, to understanding this, to elevate and bring back, and live a normal life. You have to understand why the glands are. Why do you take glands and you have to take them out. Glands should not be taken out, it should be understood the work of, and then allowed to.

Any other question. (2:22).

Q: .. The MaGrav in Vertical EU has been placed on the floor. Why was it placed on the floor, is there any specific relationship to the energy fields of the feet of the people ?

K- No, that MaGrav has a lot of functions, it's not just there for one thing. Has a lot of multiple applications and functions. It's part of understanding, it's not on its own. It's part of a system. This is the problem with the KS, they just see something, it's not, it's part of an integrated system. it has many functions.

Any other question

Q: .. Will we experience living longer than normal in this same physical body, how to keep the cage from rotting?

K- Find out how you can feed the soul, then you don't need a cage to feed itself.

Get another question from outside, I think 2 is enough, I have seen this coming up, otherwise it goes. (2:24).

Q: .. my doctor says that I have heart disease, cardiomyopathy because of psychological stress, and after many medical controls he says, that my heart is on a size limit, yet my

pain and fear are about the last 20 years world situation , what kind of plasma water could help ...

K- We don't go into that Rick. we don't go into medical under no circumstance. Should we call it a day, as you have no more questions, our KS are becoming better and better.

R: questions .about Pl mirror and Gans

Changing Space Gap in Nano layers by Na or K Hydroxides

Q: .. Can you add Gans particles themselves to a NaOH, and KOH Nano coating, does it have to be only the Gans water? (2:26). What happens when you add Gans particles themselves to NaOH and KOH, N coating?

K- Try it, it gives a new D, it doesn't change much. But what it does, it allows a spectrum of N layers to be made. You change the field energy inside. Why you change N to K, because it's a different field effect. So when you add the Cu into it, you create a different isotope energy of the Cu. When you change the Gans of Zn to it, or CO2 to it, you create, new, Gans new .. N materials, space gap energy.

I think KS have a good understanding of this by now, but just to recap. When you N coat and you create the layers, this layer space gap, is partially dictated by the amount, the energy you created with NaOH. If you change the composition of the energy of the NaOH by adding another Gans, or composition of Gans's, now the what we call, the space gap changes to a new space gap. It's the same element, (2:28). but you brought different energy into game, into play. It's the same, but different D of energy of the Nano material will manifest itself.

When you go to make a Gans's, the space gap of the energy in flow is different than the space gap energy of the original one. If you understand this, this is one of the reasons we tell you, you cannot make lead or aluminum Gans's effective on the body of the man.

Any other question .

Q; .. is there any possibility of KF T with involvement in Ukraine to bring peace.

K- We have already offered the T if biochemical, or nuclear material are used in .. Ukraine to IAEA. In the .. communication to IAEA .. about a month ago, (2:30). we offered it to Mr. Glossi, IAEA, they are aware of it. the materials have been moved to Austria to support the initial strike if it happens. Email dated 4th of March at 11:48 to IAEA very clear, if the situation in Ukraine, nuclear power station goes to critical or leakage we are ready to assist IAEA, to hold and absorb radiation within the parameters of the site. We have given them the report for it. We have factory in Austria and can back up immediately with the materials needed. ?/ materials to control the ?/ leakage, and this goes on the same with submitting documents, with other bits with TEPCO, and cleaning up materials with a couple of governments which is confidential reports they have with, and plus other materials.

The situation with Ukraine is very clear. We hope it will not go to that position but we have enough materials to control and then support. We communicate directly to these offices, and WL and they know what is available when it comes to it and is there to be done. We are in position ... (2:32). We are trying to do something with the Ukrainian leadership, but the more we go into it ?? we find out the guy is much more deeply involved in corruption, then all these nasty things done, than what it looks on the surface. It's become a cry of wolf, more or less, what we see. But we are there if anything goes wrong.

We announced yesterday on the Russian channel that we might be ?? people to be in Ukraine, or to trying to travel to get into Ukraine, to create that condition. We are still working on it. That KF T is part of the peace process, but we'll see. The people who have been in touch with us, we work through, if the position is very clear with the next 48 hours.

Any other question.

Q: .. if I travel to planet Zeus where will my physical body be, while my soul travels?

K- Inside your soul. Where does your body goes when you soup is in the restaurant. The soup doesn't go on its own, the body is inside it. Have you ever ?? sent your body for a .. food to a restaurant. or you send you food without a body. It's the same. (2:34).

Q: So do the units carry souls physicality's, that is manifestations of the STP?

K- Depending on their setting ?? for. In a Vertical or teleportation system we carry the soul, ?? not the P it's too difficult. In the deep space it's easier to go for the soul.

Any question.

Near Death Experience (NDE) (time : 2:35:15 to 2:53:22)

Q: Mehranez, ... I have a question about the life for the phenomena of (NDE) for people who go to the other world and come back (Near Death Experience), ?? medically. They ... talk about the wonderful colors, that there is no such thing on earth, they can never make it, and wonderful scenery, and they go around, (2:36). and they meet people all in telepathic communication. The question is, is it creation of their consciousness, these colors and the things ..

K- .. can you repeat.

Q: Is it the creation of their own consciousness, that creates these colors, ?? movement and going around, or is that by the D they are in, when they are taken in, has another kind of plasmatic creation, or composition, than our earth?

K- I am looking for something to share with you, you have to bear with me, then I explain this. I have to get to it if I can find it, take a screen shot and come back to you. We know the interaction of fields create what we call, new D, and new positions, and in the strength, we .. produce these interactions. When the, they call it near death experience (NDE), or some people who, due to other conditions of the blood, (2:38). they what we call, have changed the strength of their field. It's like when you go to the dreams, or when you go to sleep, their field strength changes. That change of field

strength, allows the STM to go beyond the boundary of the body of the man. In that process we dream, we connect to other things.

But in general speaking about interaction, and seeing other colors, we know if you are in the position of consciousness, or blood flow reduction, or at the point of no blood flow reduction, but still M fields of the brain are working. You can go through what we call, a condition where .. when the heart stops, the M field of the brain doesn't stop immediately, because it's still, even there, it still holds what we call, field strength. So you could be called, "physically dead," but in fact, the soul is still contained by the fields of the body. (2:40). This containment holds on.

So now you are in a state of .. half dream and half asleep, soul still has confinement with the strength of the fields of the blood, which is within the skull of the man. So in a way, if I revive you in that position, you are not asleep, your blood circulation comes back and holds strength, but your emotion, and the part of the brain, which keeps the emotion is still working, is still registering, till the point where the STM departs the P, man records everything, fields interactions, every other interactions, memories, images.

Now you don't have the restriction you had before when you were awake, or you were asleep, and this allows you to what we call, we dream of something, or we had a dream. You are still alive. Till the point when the strength field of the blood, drops below the strength field of containment of the energies of the soul, you are still active, you still dreaming, you are still there, but now a different field strength, you are still communicating connected to the outside world.

So in that process of the transition, you see different strength of the soul interacting, still with the body of the man's fields (2:42). within the brain. So the vision is still part of it, so you have a different field strength, interacting with the same brain, but now in a different strength of the soul, and different M fields of the blood.

So you see new colors, because now it is purely M fields. There is no motion of the blood. You observe new colors, you come to see new interactions of the plasmatic colors, not matter state colors.

It's very much we've seen this one in China when we produced the first cup for sterilizing, they saw new colors we never knew before, in paintings, in what you can bring out. Because now it's both the matter S and the Gans S interacting with each other in the M field level so you create new colors, new D. But as the brain is active, and it's, what you call the soul, is still active, and the only M field of the blood are holding on to the containment. Then you see 2 plasmatic fields interacting, and you see new colors, which we haven't seen, but in the space T you've seen this. The Gans's have colors you don't usually see in the normal life condition.

When we produced .. the sterilizing Cups, which we've shown before, we created this in China and they could see new colors. (2:44). The Cup has a pinkish color that we never seen before. What we call, this, opens a lot of things, and the book where we show the

Gans's for the first time, we explain this, that you see colors, which are not matter state colors.

So yes, they see new colors they never seen before, because now it is the plasma of the soul interacting with the pure PI of the blood, in a way, and the brain, which is what is left. They see new colors, without a shadow of a doubt.

But if I jump in, and pump your blood, circulation, if it is not solidified in your .. blood vessels, then I get going, create a new M field containment, you come back to life, but your memory, your interactions, is real because you went through it. You went from the physical containment, to the plasmatic containment alone, without the circulation of the blood to carry the information and emotion.

So you are frozen picture, in a way, if you look at it, in a position where the fields of the blood, interacts with the fields of the .. brain, or the soul, and the memories of the brain are still working and holds onto the memories and understanding.

Maybe you see a mother, or an uncle, you were waiting to see for 100 years, or 50 years, and she is there, because now the field strength is different. This we understand fully.

If you look at the some of the cups we sell, you see odd colors in these Cups. They are not normal colors, when you look at it deep, it's the same way. You have a PI of a Gans, (2:46). which is within the pot, within the clay and interacts with the matter S of the clay, so it creates new colors. Just look at the, just go on the KF website on the Sales, and into the Cups and see the colors you see there. It's very normal, now we understand the principle, the reason behind it, and how it takes shape.

So people who say they have been dead, you haven't been, because if your soul has left the body it's very, very, especially if the physicality has created to keep, what we call, the roof, the what we call, the spirit, has collapsed, then the soul is released, and you see people spend 10 - 20- minutes, reviving somebody and they come back, because with that push of the heart, pushing and pumping, you create that cage, you create that M field, which can literally stop the soul to be loose, to leak out, to what I call, take the flight of fancy, because there is nothing to hold it. You cannot hold it anymore, because the M field is not there.

Q: Thanks ... most of them have a consciousness, that at the same time can see what the neighbor on the second floor does, what his father in the village does, they can think of something and they see that.

K- Because you don't have that boundary anymore as such, you understand, your soul travels deeper, further, (2:48). because the limitation which was put by the blood. **Our prison of our soul is our blood flow.** If once mankind understands this, you can do a lot.

This is part of the what I call, the EU. Not to interfere with the blood flow, but work within the structure of the STM, and the energies, are over the strength of the what we

call, the blood. If you can do that, you can create all sorts of conditions, all sorts. I can take you to a dream land that you can see your grandfather and grandmother, and have a food with them, and come back and say, I have been there, they are they. In fact, it's not a dream. We change the D of the strength of the soul, but in the strength of the grandmother or grandfather, and you connect to it, and you enhance it.

These are become reality, as we understand more and more. Because we will create machines for it, people will endeavor to do it, and we have all these magicians, who say, you know, I can connect you to your father and to the mother, and oh, they are talking to me. But in reality if you understand the knowledge, if you give it the destination, it will land in that destination.

Q: Last question, most of them, I think this is partly physical condition, but most of them see their whole life like a video, (2:50). going through them, and there are active of that video, from years (of age) 1, 2, 3 and at the same time, they are able to see the results to what they have done to somebody in later hours, like they have kicked somebody, and they feel what they have done to that person hours later, when he is in pain.

K- That's the connection of the fields, nothing you can do about it, it's the same process. It's a process, nothing you can do, because now you see the whole thing. It goes back to the point if you remember, I said, if we find people who have been in Jerusalem, at the time of Christ. If you put them in a position you talk about, they'll tell us exactly how Christ carried the Cross, and how he behaved on the cross, because they were there.

And I am sure in the future, not very far, many of the technologies developed, will bring that. We'll go into, you know now, you need the spies to tell you what happened, whose computers was stolen, what information was on it, we are going to release. You will go into the D of the STM, the RNA of the soul, and we'll hear what presidents plan, and to create what war, and how, and what was the outcome of it. It will be very, and I said, now we understand more about the T, you understand how realistic it is to create that position. We come to the point when we put the world leaders who claim, (2:52). like we had nothing to do with, we never created the biological labs, into the machine, and see the truth, their souls cannot lie, through the RNA of the soul. Then you understand a lot of things will change with this T. A lot of things will change.

Q: Most of them when they come back, they change their lives, they go the serving of people. They watched their actions, their thoughts very carefully, and they change to the ethics you are telling us, ethos of be careful not to harm, and do the serving of unconditional love, and they brought that result to change their life, after death.

K- Sometimes we learn from it. Sometimes we carry on with it. It's the condition of life we carry. (2:53:22)

Q: Thank you.

K- Trying to find a picture for you to show you new colors, when it comes, but if you, Rick goes on the KF Shop website with the Cup of .. Pressure, or the Sweet Cup, you the

colors, you see are not normal colors in the Cups. They are interaction of the fields of the Cup with the Gans matter state. But in the state of the body .. , (2:54). in that position is not a matter state, it's the fields of the Gans of the plasma of the blood. So colors are different, interactions are different. Read the book, it's already been explained, this, that the colors we see.

You see these Cups, the colors are not normal colors, and each one is different. We cannot replicate Cup colors, impossible. That's what I said to our Chinese team. The Cups you have dossiers, they want to create homogenous Cups. I said, it's impossible, because you cannot do this, because the fields interact and they change. There is no way we can give you matching 6 Cups in the KF. Everyone has slightly different colors, different shades and how the material have been .. used and .. positioned in it. You can try, but it is impossible. .. I will show you this picture.

This picture is taken of a Cup which is specially made, for a specific purpose to be used. (2:56). ... This Cup is made in China, with a specific Gans combination. We've shown this before ... If you see it's the same composition ... but these colors you cannot find naturally, because it's an interaction of fields. These Cups have been made for specific .. sterilization. As we explained this before, is that .. you can go to a river fill it up, wait a few minutes or seconds, let the water settle, the half a cup, the top water you can drink it. It's more pure than any purification system we know. These Cups will be released .. in the future. It's tested ...

The doctors can use this next to it, on the operating room, used the tools next to it, instead of being taken away, and sterilized and brought back. Drop it in, in 10 seconds you pick it up. This changes the whole health organizations in Africa, in 3rd world nations. The death rate because of infection, will ?? die. The doctor can take a cup and wash the wound, (2:58). with it, when he has done his operation. Then you don't get infections and death after it and all the complications.

This was done in one of the masters in potteries office ..
This is what the future is.

Near Death Experience - extra (2:58:48 to 3:00:50)

Now when you are in near death you see these colors, colors you've never seen. But comes from interaction of the fields of the blood, which is not circulating, but is still M, but the soul is still active, and the brain is still in-between and still recording. If I can bring you back by circulating your blood, you'll remember, because the blood was there, and the brain was there, and it's done.

One of the easiest way, which I always said, which is never done, when you have somebody, and you know you get the ambulance drivers coming and pumping. Just connect the blood pump to the circulation of the blood, and pump it. You'll bring him

back, faster then pumping, and all this electric shocks, and the rest of it. If you can create that circulation, you'll contain the soul.

Any other question.

Q: .. (3:00). Some people who did not have a good action, but nobody knew about it, they go there, they see these scenes ,which is not like that, the beautiful things. Instead they see things like what we know about hell, like the misery, very cold there, hot, people are crying, like that..?

K- That's the emotion of. That's the interaction of the fields, which with what they are connected to. This is what is with them. How they connect, and why is the soul connecting to that position in time and space. What they had to do with it. Or why the soul has taken that position to see such a condition. (3:00:50)

Can we have another question.

Q: ... I bought the CO2 Gans kit ... if I placed the plates horizontally. would it create something different ..?

K- It can do, yes. different isotopes.

R: ..

Producing Gans in used Cup adds those fields to it

Q: . .If I try to produce Gans in a previously used box to produce other Gans's, (3:02). will that give the new production a new field strength, which could exhibit different characteristics?

K- Yes.

R: ..

K- Because you have created a new D. There is something which KS been there a long time doing things, you see, when you use the Gans Boxes. You use the same box for a new production. you want to clean, it never cleans. The Gans's embed themselves in the structure, it's like a Nano layer, especially you see it in CH₃ and CuO. You cannot clean the Box. So if you cannot clean it, means the residue of the fields are still there.

Sometimes you don't see it, but because it was there. Mainly what is interesting .. . This is the wall of the container. This is the Gans's which physically we see attach themselves to it. But what happens when you wash these cups, or when you sterilize it clean it. ..

you can see it very clearly, AA entrapped in-between. The AA creates the contact, (3:04). between the C-H bonds, and the C-H bonds of the AA. You get that oily texture feeling on this surface. But it is not anymore Gans of Cu, you have AA Gans of Cu. So now if I produce again, let's say, CH₃ in this box. My CH₃ carries the AA of the muscle tissue because it was ?? CuO in its strength. It's still CH₃, but of a different strength. If I make it in a plain, virgin Box with nothing in it I have ?? but now this is what our purpose, the energy is of a different strength, even though is it still CH₃. A different spectrum of the field strength is used.

Any other question.

Q: about making the Plasma mirrors, do you add Gans particles to the Nano coating.
(3:06). and repeat up to 30 times?

K- no I cannot ..

R: trade secret ...

Q: After an accident at work I kept my eyes bandaged for a few days. Then my eyesight and colors were different than normal, why?

K- There are different reasons for it ... The position of the eyelid or corona can change, and that can allow you to see different colors. and D. This is why we see different colors as we get older.

vision angle changes so we see different lights.

Any other question. (3:08).

Q: ... about nuclear reactors, man's body creates pressures, spitting of fields in the Ca to K to B12 which can follow would it be H ...

K- repeat

Q: repeats ..

K- I am not sure what not so good Google translation of it.

K- Shall we call it as day

R: I would like to show a video ..

(3:10). Shows video of Iranian nuclear reactors...

R: .. for the IAEA people to have a good look at these reactors that they also threatened about.

(3:14).

K- I see Armand there

(3:16).

K- This reactor wasn't shown in public worldwide, But initially this reactor was shown for the first time on the 3rd of December 2011 in a public meeting in Ghents Belgium. This is where we announced to show the flying (car) machine, which they confiscated the nuclear material. We showed this ... that was the time we asked everybody to put their cameras away, that nobody photograph it. It was not seen in public domain, but was shown in that closed conference. This is where .. (3:18). we said we'll show the power of this T very soon for what they did with us, the Saturday before, with not trying to show the flying . With in less than 24 hours of showing this the American Drone was captured on the 4th of December. to show the power of the T.

We speak with the power of peace, .. and commitment to peace. this T is there for it to be done. It's an amazing system. When we talk about nuclear reactor based, it's never been done before ...

I have an ability through the structure of my body, I never used these remote control, fixing things (robots used to handle nuclear materials). Every nuclear materials in both reactors, that's about 400 sources are hand delivered. I don't get contaminated.

Contamination with radiation in my body is nonexistence. This has ability to .. share and deliver what it's set to do ... (3:20).

radioactive ignition material. This has a dome ... Armand has worked with this .. this carries 250 radiation sources. By controlling the radiation sources we can control which direction we want to go.

(3:22).

We can enforce which way to go, and if we design it .. in a specific way, arrangement .. to fly in this position ..

This knowledge now is used in the EU for flight, ..

This reactor is what Netanyahu used to sell that Iran has a nuclear weapon T, a nuclear space T. and now we don't even need nuclear sources, we can create cosmic radiation through at will. Again it is never taught outside. In a way, if you go to it, it doesn't exist. But if you go to initiate it at the time of operation, it is created. .. being born to a father near x-ray machines .. all that knowledge has been added up, how we can direct, .. strengthen, (3:24). different kind of x-ray machines to produce pass the tissues and the bones. That knowledge is embedded in, we don't think about it, we use it, knowingly and that field is created you use it to go from bone to tissue, I use it to create direction and motion the way I want.

(3:26). in a PI T. It brought back a lot of memories. you see Yoko from Japan, Fukushima, she went to do the first trials .. She flew back to Japan and tested in government labs proved the T ...

(3:28). tests started and we went to 129 Tesla combination. These reactors were used to create a field flow in plasmatic condition ..

(3:30).

When you create PI and the PI is so much, that the fields are still there the charge is still there, or you see the .. light show ..

R: is there any sense to return back to that process ... is it obsolete.

K- For us it is not obsolete, We learned ,, huge from

(3:32).

(3:34).

at some point it disengages from physical rotation ..

R; scintillating He.

(3:36).

(3:40).

(3:42).

(3:44).

Shall we call it a day.

(3:48).
