Introduction to Quick Index of 438 KSW:

What are the main points to ponder about from the 438 KSW? The first thing that comes to mind is now, that more than 60 human have flown through the dimension of the soul throughout the U, we have automatically entered the Universal Community (UC). It has happened as was promised on the 6th of June, 2022. The understanding is that the people who have gone through the system slowly go through the process of elevation of their Soul, they become connected to it, and as the soul has learned how to be free, and to engage the physicality, the physicality will become perfect. The whole being will be perfected. They will become as reactors or MaGravs themselves, which will spread the fields across the planet, and the whole planet will be elevated to live the ethos of Mitra. This is in fact, what was promised in all the holy books across the world.

But still we have to become part of it. We have to accept it and live it. Otherwise, as we were taught about heaven and hell, living in the dimension of physicality is the hell, and we are experiencing it everyday, many of us not aware, that we are choosing it.

Mr. Keshe stressed the point that we don't fly, actually we appear in another place by our wish, and we know everything we need to know, to fit into that place, including the language and how to behave. For those of you who might think this is a little far fetched, you just have to listen and feel the emotion of the testimonials to understand that it is real, and the change is actually happening.

Some people go into the system and they don't want to fly, they have their own personal ideas of what they want to do. The reason it is important to fly through the spans of the Universe, is that it seems that when you do, you gather knowledge, fields, and elevation of the soul, and then you bring it back to earth so the whole planet can benefit.

When you go into the system you have access to energies and fields that we don't even know about, and these powers can be used to help all of creation, through our wishes and intentions. It's not just to elevate my own nation, but the Universe and whole of creation. He said, it takes more maturity for man to realize this. Members of the Universal Council (UC) especially, have access to special powers to elevate others. It's not their physicality, but the Soul of the UC, which their Soul is connected to. If Knowledge Seekers (KS) become aware of this when they go into the flight system, their intentions can speed up the process of change.

The next step is the transmutation of souls and matter states from one place to another. The systems have not yet been setup for that, but they will be very shortly. The M fields are building up in the machines, and when they reach a certain point, the systems will be set for transmutation. It sounds like they will start by having KS transmute from one system in the Flight Room to the other, and to also test it with matter objects. Once you achieve that ability you will be able to do it at will. KS have already reported that when they stand in the center between the 2 systems and hold hands they can see a vortex of fields going upwards.

There was a special topic hidden inside the teachings. Those of us who have done a lot of spiritual inner work, have become aware of just how difficult it is to overcome what is known as, "the childhood wounds." The traumatic experiences that occurred in the unconscious state of childhood, and got lodged in our subconscious, and no matter how many therapy sessions you go to, it never goes away. You just create another concept around it to deny it.

Recently Mr. Keshe taught, that what we call subconscious, is really the soul experiencing something. So in a way, there is no subconscious, it's a term that was made up to describe something that was not fully understood. What I think it means is that, the Soul of the Physicality (STP) has experienced something that was too painful to accept, and has kept the memory of it, which it continues to repeat. The habit gets so strong that it becomes part of the personality, and people generally accept it as part of themselves, and as something normal. The STM also tries to communicate to the STP by creating physical conditions we call, illnesses. The strange part is that all this happens mostly unknown to the person.

Now Mr. Keshe has given us a great hope through the Flight system. He said the following:

Many of you will take the flight simulation to change the processes within yourself, to fulfill the things (in your life) that went wrong, and to put it right. The psychosomatic

conditions you created for physicality will not be there, when the physicality is embedded within the soul.

The second time I heard this, suddenly it struck deep in my soul. "Oh, I have created a process out of that trauma, that I keep repeating over and over again without knowing it. Something went wrong and I didn't know how to handle it. I handled it the wrong way. Instead of facing it straight on, I created a mental and emotional escape from it, and I have been paying heavily for it since. Now he says, you can put it right. You can correct it and stop creating limitations in your physical condition, in your health."

When the STM encapsulates the physicality, these processes will have to be corrected, because the STM makes everything perfect in the physicality. And then we truly will live by the ethos of Mitra.

This is the start of a revolution and evolution. Many of you will enjoy it, (once it takes hold, and we get it in a complete condition.) There'll be no more suffering from hunger or illnesses. There will be no more persecutions, nor the religions to tear each other apart. There'll be no more war, because now you live through the ethos of the most beautiful creature in the universe called, Mitra.

When you hold Mitra in your arms the way I do, then you understand the beauty of the creation. You understand what the man has to give, to bring, to be able to change what's within. Be prepared for what is to come, because it's you who makes the destiny, not us

Thank you for listening.

Quick index: 438 KSW

You don't fly anymore in the dimension (D) of physicality, When you decide to go somewhere you go in the D of the Soul; You appear in that place; This is the purpose of the universal language; We have brought Man directly into the Universal Community (UC); When you go to a place and you see creatures, you have met with the UC; We brought you exactly where we wanted you to come into;

People say they never swam before in their life, (their wish was to go into the ocean) they went in and automatically they could swim without learning; They fly without learning - (the soul knows how to fly.) ; They are traveling across the U in the D of the Soul of the Man (STM); It's so joyful to hear what the participants are going through; We learned exactly what it means when the STM carries the physicality (P) of the man;

Inside the system the P has no working connection to the soul, it cannot tell it, that it needs to go to the toilet. But as soon as they come out of the system, and the P has come back, the first thing they need to do is rush to the toilet. (This shows again, that the STM has no control, the P is back in charge.)

This confirms that the totality of the system is built and works perfectly. What is interesting is the way the Knowledge Seekers (KS) see the light;

We are fine tuning the system. We know exactly how and where you feel, in what chair. Now we can transmute you in the D of the liquid, solid, protein or whatever.

We had a very good test with the 6 Italians as a group. We could take understanding, control of the community. (We could see how they'll react and interact with each other's souls.) We see how some people decide to switch between the P and the STM. We started to see from the beginning, physical changes in those who go through the expansion of the soul.

Stephania had spots on her arms since the time she caught Covid, and was on the verge of death, when the KF responded and she was brought back to life. (Yesterday after being in the system those spots and the itching that came with it have all gone. People with other problems, whether psychological, emotional, or physical go through the same process.

This is a universal flight system (FS) to be able to go to places, you need to use the soul. If you want to move the body use the international airports. If you want to travel in the D of the energy fields of the universe, which you call the soul, join the Keshe Foundation. The travel is instantaneous. You don't have to learn a new language to communicate with the UC, you interact with the soul, (but you remember it in your own language.)

(When you visit the UC your soul automatically knows the language and culture of the place, you know how to behave in their D. 60 to 70 people have already been through the systems and have done it.) They all understand the language of each other, through the common denominator of the Soul of the Creator. This is the language of the U, and we all know it within our soul.

(When you appear for example in China, the people you interact with will hear you in Chinese, but to you, it will be your own language. When you come back you won't remember Chinese.)

(We see an evolution in science and in the STM. We are perfecting the art through these systems, that will given man the individuality of his wish.)

In the next week or two we will upgrade the systems to be able to transmute from one system to another. (A person will sit in one system and be transported to the other, through transmutation.) Once we reach the threshold barrier, we can go from physicality to the energy level very easily.

If you remember, the 129 Tesla we did in the Inzano in Italy. We started with just a few mille Tesla's and built it up over weeks. We broke the record the Americans were holding at 105 Tesla. They spent millions and billions, we spent only a few thousand dollars. They used massive power stations to feed the system and they could hold it only for a

few seconds. We used a few volts from batteries, because we know the knowledge of the science of the universe.

Today, our systems are showing the same pattern. We started at lower level detector at 0.04 mille Tesla, and 0.23 mille Tesla on the higher level detector. In the past two or three days, even with so many people going in and out of the system, we have reached 0.06 mille Tesla. That's an increase of 50%. If this trend continues, we should reach about 5 to 20 Tesla in plasmatic fields in the coming weeks.

Then it takes over. Then it allows us to do transmutation and transportation in the mixture of the fields within the unit. We do not switch the systems off anymore. If we do, the systems are in the plasmatic condition and continue to work and interact. This is what we were looking for in our systems.

Mr. Keshe drew how the flight systems (FS) are positioned along with the field detectors and the Chairs were people go through the system.

People come in around the center area between the 2 systems and have a common denominator connection. When we ask them to hold hands together, some of them say they can see a vortex of fields going up. They can see the fields, because they're in the D of the Soul and the fields, not in the dimension of the physicality.

When people move from Chair 2 to Chair 3, they go through the process of conversion. When we give them instructions, they say, they only hear it as a noise, but they carry out the instruction. And when they come out, they remember the instruction, and then they "do the fuzziness and everything else with it." (Perhaps that means their memory about the instruction becomes fuzzy.)

It is important for us to remember, that while in the FR we are dealing with both dimensions (the P and the fields of the soul). There is nothing but the fields in this room. In that process, we are part of the fields. When I watch the people I can see, that they know (they are in) the dimension of physicality, because they have to get in and out of the system, to choose a Chair, or to stand around in the center of the 2 systems. However, at the same time, then they go back into the field dimension, then they interact in the fields of the soul.

In the FS we see with the eye of the Soul, and in that process the eye of the Man will change too. We are following 2 KS, one of them on a permanent basis, in how their (physical) vision has changed. It has happened that the soul, (or) the energy inside, has started wanting them to see.

We have been following one of the KS who has now gone through 4 or 5 flight sessions. He was blind in one eye for six years due to a stroke. (The nerves in the eye have exploded, and the blood is starting to flow in the eyeball.) After the first flight, he started feeling tears for the first time in 6 years, and the shape of his eye is changing. Yesterday,

he started feeling connections and pains, indicating that his eye is starting to interact. He is also reporting that (when he moves his eye around it feels like sand or salt in it.)

(To explain the feeling of sand in the eye, when you lose your eyesight, or the use of your eye, but the eye is still open, then the body has to do something to protect the eye from contact with the air and the environment. To save energy the body blocks the channels for the liquid to keep the eye moist, and instead builds layers over the eye to protect it from the wind and the cold. The sandy feeling in the eye, are these layers being rubbed up against and dispersed, because they are not needed anymore.)

Over the next few weeks every time he visits, he goes into the Vision enhancement units, and then into the flight simulation. The point will come when, through the wishes of the STM he will start to see. I expect him to have both visions within next 3 to 6 months, maybe earlier.

I did what the Christ did, giving sight back to the blind. It's not the first time. But this time, we don't do it as the mystery and magic of a religion, we do it as the understanding of the science of the creation.

Many of you will take the flight simulation to change the processes within yourself, to fulfill the things (in your life) that went wrong, and to put it right. The psychosomatic conditions you created for physicality will not be there, when the physicality is embedded within the soul.

The KS have not understood, that the STM is a perfectionist. The STM will not allow anything to go wrong. The Soul of the Man lives by the ethos of Mitra. When the STM takes over the physicality to be within itself, it cannot allow any faults to be there. If there is something wrong within it, it will effect its own operation. It has to correct itself.

This is why you see changes. This is why you see the change in everything in the physical dimension. Up to now the soul was entrapped inside the body of the man. Now the soul has entrapped the body inside itself, so the body has to be perfect.

We are offering a flight system (FS), not a health system. (You fly the span of the universe and bring back the knowledge of the universe, to correct the dismal physical life of the man, in a physical dimension.)

In the next few weeks we'll have a Zoom session with all those who went through the FS. (Actually, the process begins when you exit the FS. It doesn't end, it just begins.) It's like what I said before, about the D of the physical life. The real life starts when the physicality finishes, what we call, death. That's when the life of the soul starts.

You expected, that when you go out of the systems, the soul is again trapped. My dear friends, you have let the cat loose, and now it knows it can come and go.

A couple days or a weeks after leaving the system, the KS tell us that they still have a connection to the system. The only way you can have a connection to the system is through the STM to the soul of the system. We have given you that freedom. In this way, we have taken the man into the Universal Community without him knowing.

It will be interesting to hear how the KS who went through the system have changed. We'll bring them together so they can tell us what has happened to them since they left the system, what has changed in their physicality and emotion. What has been the interaction with their family and friends, and what have they fixed in their social life.

(It's not that I got something,) or I've won the lottery. Now it's, I want to live the life of the Universal Community. I want to live by the ethos of Mitra. We see many KS change as they go through this process. It's not that you suddenly become something else. The change is that you gradually become citizens of the universe. You live by the behavior of Universal Community, and not by the physicality of the Universal Community. The changes are profound. You will understand all this in a very clear way.

We are photographing the gentleman with the blind eye every day that he comes in. We want to observe how the eye is changing. Yesterday, after he took a long session of flight, we photographed his eye. He wanted to look at it, and for the first time he noticed that the eye which is blind, has changed. (It became smaller). Now, all the veins are full of blood. The body's returning back to normal, because the STM sees the physicality, and it has to match the perfection of the soul.

When I released the Vision Enhancement Units, you all thought that it was for getting a perfect physical eye. But actually, it was to open the eye of the STM, not the eye of the physicality of the man. (But the beauty of it is,) when you open the eye of the STM, the physicality has to match its perfection too. We are not physicians, we are the Knowledge Seekers, we are the scientists of the universe.

I explained these things to you as KS step by step, so you understand it, and you know what has come to mankind. It has come exactly the way we told you it would come. And the things we say, to expect to see in the coming time, will also come.

It's not any more making MaGravs or Gans's. You have joined the Universal Community, and you have to understand the implication and application of becoming part of a new society. How to be, how to behave, and how to react.

It was interesting yesterday when one of the Austrians came out of the flight room (FR) with an explosion of joy in (her). It was joy of becoming part of the Universal Community as a frog, (or what looks like a frog from an animals point of view.) It is amazing to see how things work. How we didn't have the knowledge of being aware of the fields around us. Then if you want you can change the fields into a D of reality.

As I said, from the beginning of the time when we started these works, the physicality of the man is a leech on the STM. Now you understand what it means, because now you can feel it.

It's for you to be ready for the evolution of the man in the world of the Science of the Universe, not the science of microchips and the other things. Those of you who went through the full transmutation of the fields of the STM, you'll find out that if you've gone through the process in the correct way, when you traveled China, they will hear you in Chinese, but to you, you speak English. You speak the emotion of the language. You don't need translators anymore. You don't need to sit and wait until you find the right word to express your emotion. (You will transfer the soul of the meaning of the word.)

By September, we try to add two more units into the environment of the FR. We will move the two systems further apart, to the extremes of science, and then we add two more units into the system. We'll add the number of the chairs around the room to 12. In the new systems you'll see lights, and not reactors. They'll be like stars. Gradually we'll get rid of the physical systems. Then we'll have what we call, "the containment of conditions of the Universal Community." It's a lot of work, but maybe we can finish it by November. Anyone who enters the room, instantly will join the Universal Community.

You decide whether you want to go to New York, Mars, or another galaxy. If you're very, very clear in (your) view of the life of the man, you'll come across one of the most beautiful things. You will come to feel the essence of the presence of the Creator.

Some people wanted to meet the Christ, or feel his presence, and they did it. Others wanted to in a specific way, raise the soul of the Germans, or the Italians, and the rest. But they have not yet matured, (to understand) that they are there to raise the soul of the humanity, the earth, and the U. It needs time to mature. (Even in the KF we're still under the banner of nationalistic feelings. This has to die.) It has to be understood, that a nation is a small part of the totality of the soul. I am nationalistic when it comes to Iran, and the land of Iran. (But that's as far as it goes, because I'm committed to the Universal Community.)

(A lot of you will experience, that by changing chairs to different parts of this structure in the FR, you will fly to different positions in the universe. If you want to go to this galaxy, you chose this. If you want to go to Earth, if Mars you use another position. Then you can also choose different combinations 1, 2, and 3, to learn how to go to different positions in the universe.)

When you come out of the system I listen to you patiently. I don't ridicule you or ask you, "is it really true what you say?" Because you tell what the soul has seen, and we believe it's the truth. Sometimes I wish I was there, to see the joy you took in.

We're building these systems, in the Exhibition Center (EC) in Linz, so that from kilometers away, you will see lights coming from the EC, and know this is the site.

We have built it in the inner sanctum of a building, to show you that we do not need to be in the space, because that inner sanctum itself is part of the universal space. But to man it's underground, where to the universe, it's an open span of its energies.

We bring you a dimension, that you could not imagine (possible). (But now, just by you thinking, it becomes a reality. You go to places and you meet people you like to be with. Yesterday, a lady wanted to meet Jesus, and she did. She said, "I felt his field, but I didn't see the man." So in that field, you feel the essence of the soul of the Christ.)

We had only 2 Muslims up to now. We're not aware of any Jews coming through the system. I wonder if the Iranians who booked to come in, will bring the soul of Mohammad to enlighten the Muslims of today, and stop the whole mayhem of present time.

As I said yesterday, we'll invite the world ambassadors into the FR. Let's see how many of them will reject it, and how many of them walk in as a man, and then walk out as the ambassadors of the nation, through the soul of the nation. Those of you who came through the system have already become the ambassador's of the system.

If I get enough of you around the world to come through these doors, (then the boundary of the flight room (FR) changes. The whole Earth becomes the FR.) This is the beauty of what is to come, and what we are here to deliver. Whatever we said up to now, (we have delivered it.)

In essence, the seed for the unification of the STM with the Universal Community has truly started in Linz. (I hope to see .. how many of you who have come into the system, now go out and bring everything back together. I want to see how you will allow us to become part of the Universal Community.)

Many of you will come to have new abilities, which you could never imagine even existed. Because as you travel through the span of the universe, you learn the new knowledge, and then you'll be able to apply it in a physical dimension of the man. (Maybe this is why when you go to the system, it's important to actually fly, even if that is not the reason you came. Because you are bringing back knowledge and elevation to humanity from the Universal Community.)

(Many of those who travel with UFOs would like to get into the atmosphere of the Earth, to learn what has been gifted to Man, and how he is now able to pass the span of the universe and not spend thousands of years traveling. Now when you travel you change to the dimension of physicality of and at the position you arrive to.)

This is the start of a revolution and evolution. Many of you will enjoy it, (once it takes hold, and we get it in a complete condition.) There'll be no more suffering from hunger or illnesses. There will be no more persecutions, nor the religions to tear each other apart.

There'll be no more war, because now you live through the ethos of the most beautiful creature in the universe called, Mitra.

When you hold Mitra in your arms the way I do, then you understand the beauty of the creation. You understand what the man has to give, to bring, to be able to change what's within. Be prepared for what is to come, because it's you who makes the destiny, not us. It's you who makes the destiny for yourself, and not us (doing it for you.)

Understand the totality of the knowledge and be prepared for a change. This change will come in a very drastic way. In the Keshe Foundation organization, we sit in the background for it to take full shape. In the coming days, we'll announce radical changes and position with the Keshe Foundation. Those who betrayed us will be ashamed of what they've done. Those who support us will be joyful to see the changes that are coming.

Understand what is to come, and be prepared to accept what is to come. The promise was given, that when the Messiah comes, it'll be the land of milk and honey. The milk and the honey have arrived, and the Messiah is you with your soul. It's you who has to decide how much milk, and how much honey you want to take from the beauty of the creation of the U. It was promised that the peace will come. It's you who has to make peace with yourself. It's you who has to be in peace with everything and every structure around you.

Everything which was promised in all your holy books, from the Koran to the Torah, and all the others will come through, but for your soul, if you understand the truth about the Creation. Otherwise, what they say about the hell and heaven. You still live in the hell, which is the physicality of the man, you suffer everyday in it. Heaven is for those who understand the evolution of the soul.

(You want an explanation of where it all comes from and where it will end. But all this time, it was only you who actually lived in the hell, and now you want to get to heaven. Well, you know the path to heaven, it's the path of understanding the of essence of the creation for yourself.) You don't need Messengers or Prophets. The Prophet is understanding the emotion of the man.

Let me explain the process of the system in a very simple way. Some of you when you enter the FR get touched by the environment. This is very true, because the systems have already been running and people have been going through it. So you enter into a pre-existing field.

There are 3 different chairs you will pass through. Chair 1 is for balancing the physicality. Even in this Chair you are still tapping into the fields within the building and the structure.

(Chair 2 is for the STP. Many people say they can feel something in their legs, a pain and also in the back. But what they feel in their head is something different. We open the STP

and it starts working. But the physicality is still attached by the legs to the ground, and that's why you have this dilemma (of feeling the pain in the legs).

When you enter Chair 3 the game changes, and the STM takes over the physicality. Some of you say, I feel no difference from Chair 2 to 3, this because in that process, you have already brought the STM into play.

In the area of space between the 2 reactors you can walk or sit. Now we put some chairs there. This area is the environment of the Soul of the Universe, not the earth, even though we talk, walk, drink, and do everything else. In the FR you are in the fields of the U.

When you leave the FR, you go back through Chairs 3, 2, 1 and then you can leave the FR. People tell us, that when they start going back through Chair 3, they know the journey of the soul is finished and they are ready to accept the condition of physicality. By the time they reach Chair 1, they say they have landed back on earth. The journey of the soul is finished. They feel the weight of the P comes back again. This means that, when the soul takes over, weight doesn't matter in the D of the soul.

The next stage of our work is transmutation. How many of you will be able to transmute yourself to any position in the FR. Don't forget, when you sit in Chair 1, the P we got you by the leg. (You can't get lost in space. If you go to planet Zeus, we can still bring you back. Because we tell you to come back.)

When you're in the D of the soul, you may hear our instructions as noises. (But still you carry them out.) Most of you get instruction from your own physical dimension. Many women especially say, they know the physicality is coming to do something, it says, "no, no, no, I don't want, I just want to carry on with what I'm doing."

Once we complete our structure, and are happy with it, we'll askl you to call your ambassadors to come to Linz. This is where Hitler ended many lives. Now from the ashes of the Phoenix, we start the new life in the space and in the dimension of existence. A new life in understanding, that there is a bigger purpose than just the dimension of physicality, of eating and sleeping.

It'll be very interesting when the first children of the man in the D of the souls are created within this room. Then the new race will start. The Soul of Mitra in the physicality is amongst us, and the gift is given to man.

We had the most beautiful experience with couples, and how they come together and see each other in the dimension of the Soul, after they've been through the system. They actually physically touch each others soul, as a soul mate. And I encourage more couples, more people who are in love with each other to come into these systems. We had the pleasure for the first time, of two ladies who are in love with each other coming to the system. It was beautiful to see how the souls interacted.

We had the privilege of seeing brothers and sisters, sisters and sisters, and of lovers going into the systems. It's amazing to see how they come out, and how they connect afterwards, and how life will take shape. It's a privilege to be in this position, to see and be part of the birth of the new race. (It's been initiated, to be there to fulfill the wishes of the Creator.)

It's like being a gynecologist, you look after the baby while it's in the womb of the mother, and then you go to the delivery room waiting for that child to be born. When I stand outside the system, it gives me that feeling. I see new children of man coming out. They go in as a man, and come out understanding, that now there is another life and way of existence. Their life now will have a different meaning. It's not confined to the womb of the mother. But now it's confined to the life of the living in the D of the Creator.

But this gynecologist has been waiting for thousands of years. And this child in the womb of the mother of the Earth has gone through many turmoil's. But now we see the breath of it, and it's a pleasure to be there. Whatever kicking and shouting he did in the womb of the mother is over. Now you have to enjoy the pleasures of the life in the Universal Community. That was the wish of the Creator, and I have delivered it. Let's see what mankind does with the gift he's been given.

End of Part 1 438 KSW Quick Index

People who travel through the D of the soul, are free, they decide if and where they go; Sometimes they are overwhelmed by the experience, then they receive some guidance; Flying with your soul is like - when you have waited a long time to meet your lover; Try to take your time when you go through the Chairs 1 to 3 before entering the system;

Some people get into a tangle of fields and energies when their soul takes new dimension. They all talk about the expansion of the fields. They don't want to call it, a soul, because then what's going to happen now, the soul is out; Isn't that why you've come here, to see the expansion of your soul?

We have built two (special units) into the systems, so we can tell when the people go into the position we want them to. You hear a noise going "buzz" , because we concentrate the fields into the center of the system, which means the energies stay in. We don't let you expand it.

At this point, we ask you to take a flight, because you forgot, that you came here to take a flight. Some of them tell us straight away, I haven't come here to fly. I have come here to do something else. No problem. But I'll tell you something, I want you to fly, you fly. And most of them go the way they want, because the soul decides, and we just remind them you came here to fly. Would you like to be the captain? Would you like to have others with you. They remember who they've taken as passengers.

We had a couple, the husband was behind the wife. We interviewed them separately, and then we brought them together. She said she felt a warmth on her back, as her husband

was behind her. And the husband said he could see a glow, and "I was there like to protect." It shows how close they really are in life, at the soul level. I call it, "the twin love." They could feel each other inside, they had a connection. We had another case of two ladies, who were loving each other as a couple. And the same feeling came out. It's beautiful to see, that love has no gender.

We have a system built in where we can actually see if they are interfering. If they're taking from the system, or giving. We hear it when the systems come into balance. We don't tell you what to do. But we inform the physicality, you brought the soul here, and we would like the soul to do this, then we see how they do it.

It gives you a pleasure to see, that all the hard work and persecution has paid off. It's different in the lab now, before it was working with gases and reactors, now it's with souls, and observing how they change.

It is an amazing feeling to see the birth of a new technology, the birth of new science, and the birth of every man's wish. Whatever has been promised in Torah, Bible, Koran, and all the holy books, is delivered. It's for man to understand it.

The only sorrow or shame is that, we had to go through all (these troubles), to get to where we are today, when we could have been there ages ago.

I was saying to myself during the past few weeks, I call the FR, the room of Fabio.

Unless we see a need for it, we'll try to finish everything by September, because we need to bring new systems in.

Q: Is transmutation a bit like "Beam me up Scotty?" And once we have entered the universal flight unit, will this be a normal ability for us to travel at will?

K- Yes. You will be able to do it. Once you learn to walk? Do you need somebody to hold your hand. Once you make a link it's there. Once you establish the whole thing, it'll be very easy for you to do (it on your own.)

Q: I would like to know or understand how to create the Star Formation between humans with family members?

K- Very easy, first of all come in peace with all the humans, that you establish the connection. This is the secret behind it. (If your family members ask to do it of their own will, then you will feel it.)

(We nearly completed this a few years ago in Canada with Ali. But it fell apart, because different views came into it.)

(This is just the start of the change, Man needs to learn a lot of things.)

Now you will even have to learn how to make love in the dimension of the Soul. That will be fantastic to see you lot learning it. It will be so amazing when you start creating

children of the man in the dimension of the Soul. It'll be amazing to see how you fall in love in the dimension of the soul with the citizens of the Universe.

The girl yesterday we so overwhelmed with this frog shaped being she had with her. That's what happens when you feel in the dimension of giving to one, what you call, "falling in love." Would you bring your frog home to your mom and say, I'm in love with this one. Would it have the shape of a frog when it lands here, or you're falling in love with the Soul, the Physicality here might be Black, White, Yellow, you don't care, because it's your soul. There is a lot to come yet and a lot to learn.

We are building a very delicate transmutation system. It should be ready in the next few weeks. Transmutation is not difficult, but it's a very precise job. We'll start with stones, hard things, and then other matters.

Q: You have asked for the soul of Tesla to come to the system in Linz. I wish to bring my experience with Tesla's soul a number of years ago. Do you expect many people to carry aspects of Nikola Tesla to the unit? Or is this one soul?

K- Was Tesla a hermit and locked himself up in a room from the birth, and saw no one? So you cannot be the only one. Secondly, once you are in that state, you belong the whole of the universe, it's not exclusivity. It's not anymore, "me and mine."

We had 2 Italians visit the Pope, with their soul. We had a person visit Putin, but Putin was only interested to speak about his family and nothing else. We're waiting to see how things will develop. Because once you establish these lines, they are established. You will see what you can do with it, how you can turn it. (See how you can use it to achieve world peace.)

I have invited Ayatollah K of Iran to Linz. He has never traveled beyond the borders of Iran, since he's taken position. Then if he doesn't come with physicality, we'll bring the soul. It's very easy. You will understand how easy it is. Then when we send it back, I wonder how he will feel, and what will be the changes he brings to the Islamic world.

What will happen with the Pope, and with President Biden? It's your job, take their hand and drag them in. Let them face the facts and the reality of the universal existence.

When you go into the system it touches you, you can't escape it. You confirm your own existence. (People will start coming to Linz from all over the world. But don't make it a temple. Make it a temple of knowledge where you come and you take the knowledge back to your people.)

(Linz EC gives tours of the building simultaneously with the flight simulations, but you cannot enter that part of the building. I want to call it, "a to do zone," because you don't take a fight. You "do", you go to where you want. It'll be nice if we can call it a "Fabio to do center," and you get things done. You go to places.)

Don't forget, we need people to come in from all the nationalities. We haven't had a single African, Chinese, from India, Central Asia, Australia and Philippines yet. We need to fill up the encyclopedia of man.

(As we fine tune the systems, some of you will come back to have further experiences, and different experiences as we update the systems, and build new structures.)

Let's see where we take humanity.

ENGLISH TRANSCRIPTION

(:12). K- ..

Good morning with that, as usual, when everyone wherever you listen to this is of Knowledge Seekers, Keshe Foundation Spaceship Institute. We're here to share and share more, and see the beauties of the sharing the knowledge. The screen shot you see, is from the testimony of the six Italians, which they joined us this week, to go to where they want to.

You don't fly anymore - You decide to go somewhere and you appear

As I explained to Knowledge Seekers, you don't fly anymore. Fly is the dimension (D) of physicality (P), going to, is the D of the Soul. You don't need to fly to go somewhere, you decide to go, and you go to. We've shown this with Knowledge Seekers, Italians, Germans and others, that they instantaneously don't sit to fly, and fly like a bird to enter somewhere. They decide to be on the Moon, they are in the Moon. They decide to see the soul of their loved ones, they arrive.

So now we understand the purpose of the universal language, which means we go to places instantaneously. As I said in the session of last night, which we made it live, for the testimonials, for what the Italians did the day before.

We have brought you into the Universal Community

We have brought man directly into Universal Community. When you go to a place and you see creatures, you have met with the Universal Community. This is how easy we have brought you to understand, and to taste, and to feel.

The beauty of it is, man will always like to play games. And we played your game, we brought you exactly, directly where we wanted you to come into. None of the participants tell you they flew, they landed, (:14). they went through customs. They saw the, god knows planet and so on so, what we call, customs services and immigration. These things are finished with the new technology. You tell them, they say, oh, they just walked into the ocean. They knew how to swim. Some of them never swam in their life. They knew how to fly. They never knew how to fly, but they never been taught how to fly. But they fly with the souls around the place, to see.

Some of them we hear the travels of the universe (U). They don't want to be anywhere. But they just want to go as fast as they can, see how fast they can see, what they can see. In a way, we have brought you the truth, the dimension of the travel of the Soul of the Man (STM). It's been a privilege to be in the enhancement center and see how people walk out of there. What they go through, what they will see.

You will see one of the most interesting disclosures, when most probably Saturday or Sunday, we'll send out, we'll open up a testimonial, it's by Austrians only. We had the Germans, we had the Italians. And yesterday we had the privilege to have Austrians with us. It was one of the most thrilling things to listen. The joyful things to hear what they went through. How they tested their limitation of the joy. It became very, very interesting.

We've seen this in past three weeks. But yesterday and with what we call, Italians, on Tuesday, we learned exactly what it means, (:16). when the Soul of the Man carries the physicality of the man.

They stay in the system. We give them now plenty of time, Italians took four or five hours more or less to be in there. And the Swiss came in, and we had the pleasure of having two Mozhans, at the same time with us. The original Mozhans who joined us in Ghana and in China. And it was a privilege to see them again. When they put the Austrians in yesterday, it was a mayhem. The mayhem with Austrians was very interesting, because we saw it, in the past with the others in past few days.

In a dimension or physicality, we live, we go through the cycle, that we have to go to toilet, or whatever when we feel like it. When you're in the D of the Soul, the Physicality even working has no connection to the soul, to tell the soul, "I want to go to toilet." But the minute they have no impression, they have no feeling, when they're in the D of the system, that they have such an urge. The minute they sit on the last seat when they transfer to the D of physicality, they run like a bullet to be out, because now the dimension of the Soul of the Man has no more control. Physicality is taking over. And you see them just coming out and asking for the first, where is the toilet. But doesn't matter how long they spend in the system, there is no such a feeling.

Which means it's showing us the totality of the system built works perfectly, or surely for what it has been built. (:18). And we are learning more about these things. But what is interesting is that, the way Knowledge Seekers see the light. We had it from the first

person going in more or less. The lady explained to us, and now we are seeing it with everybody else.

We are fine tuning the system. We know exactly how you feel, where you feel, in what chair. And now we can transmute you in the dimension of the liquid, solid, protein or whatever. We had a very good test with the Italians, because there were six of them. We could take understanding, control of the community. How they'll react, how they'll be, how they'll interact with each other's soul.

We see in some of the test, how people decide in between to switch between physicality and the Soul of the Man. These things will become very, very, very much apparent and we'll see things. We start seeing, what we said from the beginning, physical changes in those who go through the expansion of the soul. Stephania yesterday explained to us. She had spots on her arms since she caught Covid, as you know she was on the verge of death. We responded, the Keshe Foundation Knowledge Seekers in UK. We managed to help her. She came from the borderline, back to life. And she explains, as she came in the next day, that all the spots she had since the time of Corona, they're all gone. The itches are gone. Listen to the testimonial.

Then we see people who had other problems, (:20). psychological, emotional, physical, go through the same process. And this is what we said from the beginning. This is a universal flight system (FS). To fly and be able to go to places, you need to use the soul. You want to move the body, international airports are down the road, go down, get a flight and fly to anywhere, you're done. You want to travel in the dimension of the energy fields of the universe, which you call the soul. Join the Keshe Foundation.

At the moment is the excitement of doing it. Once this excitement, and this process finishes, and systems come to you, soon developed and deliver it. You go to the system, you connect to the system, and you decide where to go with the system.

In a way, you have an option to live the physical life. And now you have bought a ticket to Universal Community to go to. When you're on Earth, you fly to a place, you drive to a place, when you are in the universal condition of interactions, you go to places. Because it's instantaneous. And everybody tells you the same. But the interesting point of this development the past few weeks for us has been, that nobody is learning a new language, in interacting with a Universal Community.

You know what they want, you know what you want to give them. As the lady said yesterday, she dressed them in gold, she covered them in gold. (:22). There is no need to learn a new language. You'll hear from our Austrian team, even as a frog, they knew what to do. Even they become fish, they know what to do. We understand the language of the soul of the animals. There is no need to learn a language, we have had up to about 60 - 70 people in the system. And none of them said, he could not communicate, or she could not understand.

They took them to the parks, they took them to the waters, they swam with them, they flew with them, they became butterfly they could see them. But there was no need for learning a language. There are no deaf and dumb sides in the universe, because nobody's deaf or dumb. They all understand the language of each other, through the soul of the common denominator of the soul of the Creator. This is the language of the U, and we all know it within our soul.

This is what will happen to many of you, as I explained yesterday to our friends in the test area, that you will appear in China and you'll speak Chinese. You'll appear in India and you'll speak Indian. And when you come back, you remember everything you said, and did, but you won't remember, that use the Indian language or the Chinese language. This is, will become more and more apparent, as we develop this technology and we come to a new phase.

We see the evolution of the science, (:24). we see the evolution of the change in the dimension of the what we call, evolution of the Soul of the Man. When I stand outside, and one by one the Knowledge Seekers come out, and we hear the story of their travel. We hear more and more how perfect we have made the systems to work. How we can allow people to take directly to where they want to go, and we are perfecting that art, that gives the man the individuality of the wish.

Will try transmutation next week

In the next week or two, those of you who come to Linz, you will see a different kind of structure, but very similar. It's the same structures as we have, but upgraded, that we are hoping from next week to transmute. To be able, we have to set our systems to transfer from one system to another.

If you remember, a few months ago, I told you the two Vertical units are going to be on to one side of the bridge, to transmute from one place to another. Now, in the structure of the new system, we see, we can do in a much easier. We have brought all our new systems, and whatever we have to assess the position, the field interaction, and everything else in the system.

There is a threshold barrier. Once we reached that threshold barrier, we can go from physicality, to the energy level very easily. (:26). If you remember, we brought the sensors we built in Switzerland some 10 - 12 years ago, into the Inzano and we recorded the 129 Tesla. Now we have brought these systems back into operation, as we see the fields. If you go back, if you were with a foundation at that time, we started with a very few mille Tesla's. And then they start building up over weeks, we went to 129, we broke the level of the present science, where Americans were holding at 105. They spent millions and billions, we spent a few thousand.

Building up M field for transmutation

They use a massive power stations to feed the system and they could hold it for a few seconds. We used a few volt batteries, because we know the knowledge of the science of the universe. Now, our systems set in, show us the same pattern. We started at 0.04 mille Tesla, and we started at 0.23 mille Tesla, on the higher level detector. In past two or three days, even we have so many people going in and out, we have reached 0.06 mille Tesla. We have increased by 50%. And if we see this trend, we should reach about 5 to 20 Tesla plasmatic fields in the coming weeks.

And then it takes over. Then allows us the transmutation and transportation in the mixture of the fields within the unit. (:28). We are not switching off the systems anymore. Or if we do, we know that the systems in the plasmatic condition, have interacted and are working. So what we see is what we were looking for in the system. That we came across a very simple position in our structure.

As many of you know by now, if this is the test center, this is your entrance, you have the three chairs on either side. And you will have 2 flight simulations, each one having two chairs. Now we have mounted detectors, 2 detectors one looking in this way, and one looking in that way. We have brought plasma detectors looking to it with oscilloscope. Where the plasma detectors will tell us in our systems, how things are taking shape. In the fields strengths, we look at the amplitude. And we see how things have moved, or are moving.

In this process. What we have seen is that people who come around the center area have a common denominator connection, when we ask them to hold hands together. They think, and some of them tell us, in that point they see a vortex of fields going up. It has, they can see the fields, because they're in the dimension of the Soul, they're in the dimension of the fields, (:30). not in the dimension of the physicality.

Something very, very interesting, which has come up. And I'm sure the researchers in the future will confirm it in a more, much detail is that, every one who crosses Seat number two to three, who has been through the process, and gone through the conversion, will tell you something very interesting. They listen to us, with an instruction. But they hear it as a noise, but they carry the instruction out. When they come out, they remember the instruction, and then they do the fuzziness and everything else with it.

It is important for us to remember, that now we deal with both dimensions. In this room, there is nothing but the fields. So, in that process, we are part of ?? (fields). What is interesting for me when I stand in this room watching them, they know the dimension of physicality, when they have to get in and out of the system, or choose a chair, or the stand around. But at the same time, when they go back in the field dimension, they interact in the field of the soul. (:32). They start from one system, they go to another system, and then it's a different position, different strength, different what we call, interactions.

We see in that process, as we can see with the eye of the Soul, the eye of the Man will change too. We are following 2 Knowledge Seekers (KS), one of them on a permanent

basis, in how their vision has changed, and is taking place that the soul, the energy inside, has started wanting them to see.

We are following the one Knowledge Seekers, which now has attended four or five sessions of flight. We have made it free for him. Because it's the process for us to understand. He came in with one eye blind for six years due to a stroke. The nerves in the eye have exploded, and the ball, eyeball is blood flow, ?? ?? . The shape of the eye has changed, but he, in the first instance when he came to explain, he felt the tears, for the first time in his eyes. After the first flight after six years.

We had the same with an Italian lady, who has a problem with the eye and no tears for years. And she started, she told you yesterday, tears coming from the eye. But what is interesting with the person who's going through simulation flight testing is, that now he tells us yesterday, (:34). that he started feeling connections and pains, that as the eye is interacting. At the same time for the first time on his eye, he feels like a sand, salt on his eye coming down.

In a way, when you lose your eyesight, or you lose the use of your eye, but the eye is still open, you still come across the interaction of the air, and whatever condition of the environment. But as the eye channels for the liquids are blocked, because the body doesn't see any need for it, it's a waste of energy. The eye itself starts building layers over the what we call, the physical part, that the wind, the cold, whatever does not touch it. You don't need to create tears to keep it wet and moist. And now what we see, is that these layers are rubbing up, it (feels) like sand.

In the next few weeks every time he goes into the vision enhancement units, and then into the flight simulation, we see the point that, the eye will start, in a way through the wishes of the Soul of the Man, to see. I expect him to have both visions within next three to six months, maybe earlier.

I did what the Christ did, giving sight back to the blind. It's not the first time. But this time, we don't do it as a mystery and magic of a religion, we do it as the understanding of the science of the creation. (:36).

We will see many of you taking a flight simulation to, in a way change the processes within yourself, to fulfill where the things went wrong to put it right, that psychosomatic conditions you created for physicality, when it is embedded within the soul, will not be there.

STM corrects any imperfections in the physicality

This is the one thing, which Knowledge Seekers have not understood. The Soul of the Man is perfectionist. The Soul of the Man will not allow anything to go wrong. The Soul of the Man lives by the ethos of the Mitra. So it cannot, when it takes over the physicality to be within it, allow any faults. It has to correct itself, because then if it's wrong within it, it will effect operation of itself.

This is why you see changes. This is why you see the change in everything, in the physical D. Because up to now you had the body of the man, and you entrapped the soul in it. Now the soul has you entrapped in it, and now everything in this (the body), has to be perfect. We are not here, we don't offer a health system. We offer you a flight system to fly the span of the universe and bring the knowledge of the universe, to correct the dismal physical life of the man, in a physical D. (:38).

The process (of change) starts when you exit the system

The interesting thing is, in the next few weeks will bring, we'll have a Zoom session with all those who went through the system. Because the process does not finish when you exit. The process just starts when you exit.

As I said in the dimension of the physical life, the real life starts when the physicality finishes, we call it death, and the life of the soul starts. You expected when you go through the systems, and come out, and the soul is left behind, back entrapped again. My dear friends, you have let the cat loose. Now it knows it can come and go.

Connection to system is - soul of system to STM

Many of the Knowledge Seekers who we speak to, or they talk two days later, or a week later with us, tell us they have a connection with a system. The only way you can have a connection to the system is to the soul of the system and the STM. And so we have given you that freedom.

We have taken man into the Universal Community

In this way, we have taken the man into the Universal Community without the man ?? knowing. It will be interesting when we bring in Knowledge Seekers together who went through the system, what they tell us, has changed in them, since they've been in. What physicality has changed, what has changed in their emotion, what have they fixed in the social life? What have they changed in interaction with the friends and families?

Man will change and live by - Ethos of Mitra

Because it's not that I experienced, or I've won the lottery. (:40). Now it's, I want to live the life of the Universal Community. I live by the ethos of Mitra. We see many Knowledge Seekers change as they go through this process. Change is not, that suddenly you will become something. Change becomes, as you gradually become citizens of the universe. You live by the behavior of Universal Community, and not by the physicality of the U Community. The changes are profound.

As I said, we'll see it as it comes. As I said, you will understand this in a very clear way. With the gentleman with the eye, we are photographing his eye, every day he comes in now. To watch how the eye has changed. It was interesting standing in front of him yesterday after he came out of the system. After he had a long session of flight. He took a

few seconds for him, to allow us to take pictures of his eye. And he wanted to look at it. He said for the first time, he noticed that his eye which is blind, is different. He never considered where one eye is this size, the other eye has changed to smaller, because to him it's just an eye. What we see interesting is the eyeball, now when he came to us, it's just like, creamish, yellowish color. Now, all the veins are full of blood. The body's returning back, (:42). because the STM sees the physicality has to match the soul, to see the perfection of.

When I released the Eye Enhancement Units (EU), you all thought it was going to be, my eye is perfect if I have this and that. It was to open the eye of the STM, not the eye of the physicality of the man. But when you open the eye of the STM, it has to be perfect with its P too. We are not physicians, we are the Knowledge Seekers, we are the scientists of the universe.

I explained these things step by step, that you as Knowledge Seekers understand it, that you know what has come, what we told you will come, is exactly what we said. And what we say to expect in the coming time, is to come.

It's not any more making MaGrav system, it's not anymore making Gans's. You have joined the Universal Community, and you have to understand the implication and application of becoming part of a new society. How to react, how to be. Yesterday when we saw the Austrians coming out of the room, it was interesting, and it got more interesting, and then it became an explosion in one of them. The joy of becoming part of Universal Community as a frog, was so looking from animals, was so joyful. You'll hear it on Sunday, when it comes out. I hope, in the recording she could communicate to tell us, or they're sending it back to us a report, and we'll record it for them. (:44).

It is amazing to see how things work. What the knowledge we didn't have. The knowledge of being aware of fields around us. And then, if you wanted, you change the fields into reality of dimension. One minute, the brother, the face, the look, and then the next second, the energy of the presence of the brother. You have to learn, as I always say, you have no choice. But the time for encapsulating, imprisoning, keeping to hostage. As I said, from the beginning of the time when we started these works, the physicality of the man is a leech on the STM. Now you understand what it means, because now you have it you can ?? (feel it).

It's for you to be ready for the evolution of the man in the world of the science of the universe, not science of microchips and the others. Those of you who went through the full transmutation of the fields of the STM, you'll find out, some of you, if you've gone through the process the correct way, traveled to China. To you, you speak English. To the Chinese hearers, you speak in the Chinese language, the emotion of the language. You don't need to say ?? ?? Because it doesn't exist anymore. (:46). You don't need to sit and wait, I have to find a word for it, to explain maybe the emotion. Because in the exchange of the understanding of the language, the soul of the meaning of the word has already changed.

In the next few weeks testing, we bring a new dimension into the work. By September, we try to add two more units into this what we call, environment. What is interesting for us is that, we will move the two systems further apart to the extremes of science. With it we'll bring two more units into the system.

New systems - lights instead of physical reactors - 12 chairs around

Still, each two passengers, and we add to the number of the seats around the room to make it to 12. In the process of these new systems, what some of you will see, is not anymore as reactors, but you should see, start seeing lights, like the stars. In this process, we gradually will get rid of what we call, the physical systems. And what you will have, (:48). is the containment of conditions of what we call, Universal Community. I expect this maybe, if we get it all right by November. It's a lot of work. And then what we shall see, is anyone entering this room in a way of instantaneous operation, will join the Universal Community

You decide, New York, Mars, or another galaxy, and if you're very, very clear in the ?? view of the life of the man, you'll come across one of the most beautiful things, and that is, you will meet, you will come to feel the essence of the presence of the Creator.

We had people going through the system and wanting to meet the Christ, or feel his presence, and they have done it. We have Knowledge Seekers who go in, in a specific way to raise the soul of the Germans, the Italians, and the rest. And they have not matured, that they are there to raise the soul of the humanity, the earth, and the U. It needs time to mature. We're still under the banner of the Keshe Foundation, are nationalistic, where this has to die. (:50). Where this has to be understood, a nation is a small part of the totality of the soul. I am nationalistic when it comes to Iran, and the land of Iran. But that is the limitation of it. Because I'm committed to Universal Community.

It'll come to a lot of you, that by changing seats in different parts of this structure, you will fly to different positions in the universe. You want to go to galaxies, you chose this, you want to go to Earth you use that, you want to go to Mars you use that. And then you choose combination of these, 1, 2, and 3 to sit and learn in different positions in the universe.

And as you have seen, those of you who have been through the system and come out, I listen to you patiently. I don't ridicule ?? you, are you sure what you've seen, because what you tell us is the truth, that the soul has seen. And sometimes I wish I was there, to see the joy you took.

We're building these systems, that in the coming time, when you come near, Umo, what we call, The Exhibition Center (EC) (in Linz), you see the light from kilometers (away), that you know this is the site.

We build it in the inner sanctum of a building, to show that we do not need to be in a space, because that inner sanctum itself is part of the universal space. (:52). To man it's underground, to universe it's an open span of ?? its energies.

We bring you a dimension that as I said, you could not imagine. But now you can think and it becomes reality. You go to places and you meet with people you like. Yesterday, I listened to a lady who wanted to meet Jesus. That was her wish. Then she tells us, I felt that field, I didn't even see the man. So in that field, you feel the essence of the soul of the Christ, bless his name.

Interesting is, that we had 2 Muslims up to now, through the system. We're not aware of any Jews coming through. I wonder what the Iranians who booked into come in, will become and bring the soul of, bless his name, Mohammad, to play, to enlighten the Muslims of today, to stop the whole mayhem of present time.

As I said, yesterday, we'll invite the world ambassadors into the room. And let's see how many of them reject, and how many of them walk in as a man, and then they become the ambassadors of the nations through the soul of the nation. This is not anymore, one or two. We are facilitating, and in the time to come, those of you who came and walked out of this door, you already have become the ambassador's of the system. (:54).

As more people use system - Earth becomes the Flight Room - then change

If I get enough of you through these doors around the world, then the extent of this room changes, and Earth becomes the testing ?? room (or Flight Room). This is the beauty of what is to come, and what we are there to deliver. Whatever we said up to now, we deliver it. We still make the MaGravs, you still want to see a Pain Pad, and a Pain Pen, we still keep on, because we got nothing else to do. We have to keep going.

But in essence, the seed for unification of the STM with the Universal Community has truly started in Linz. I hope to see many of you when you left, how you bring everything back together. How you will allow us to become part of the Universal Community. If you thought man has achieved major breakthroughs with Nano technology and the rocket Space Technology, as the old saying says, you've seen nothing yet, when it comes to the world of the plasma.

People using system will develop new abilities

Many of you will come to have new abilities, which you could never imagine even existed. Because as you travel through the span of the universe, you learn the new knowledge, and then you'll be able to apply it in a physical D of the man.

UFO travelers would love to get here to learn what have been gifted to Man

Many of those who travel with UFO would like to get into the atmosphere of the Earth, (:56). to learn what's been gifted to man, to be able to pass the span of the universe and not spend thousands of years traveling from one to be, just to be somewhere, as the

physicality wanted. Now you travel to the position and you change to the D of physicality. Who doesn't need UFOs, rocket propulsion, or airplane.

Once it takes hold in complete condition - no more suffering hunger

This is the start of a revolution and evolution and many of you will enjoy it, once it gets hold, in complete condition. There'll be no more hunger and suffering, there'll be no more illnesses, there will be no more what I call, persecutions and the religions to tear each other apart. There'll be no more war, because now you live through the ethos of the most beautiful creature in the universe called, Mitra.

Then you understand, when you hold Mitra in your arms the way I do, you understand the beauty of the creation. You understand what the man has to give, to bring, to be able to change what's within. Be prepared for what is to come, because it's you who makes the destiny, not us. It's you who make the destiny for yourself and not for us.

Understand the totality of the knowledge. Be prepared for a change, (:58). and this change will come in a very drastic way. In the Keshe Foundation organization we sit in the background for it to take full shape. In the coming days, we'll announce a radical changes, and position with the Keshe Foundation. Those who betrayed us will be ashamed of what they've done. Those who support us will be joyful to see the change ?? and what is coming.

Understand what is to come, and understand and be prepared to accept what is to come. It's been promised, when the Messiah comes, it'll be the land of milk and honey. The milk and honey have arrived, and the Messiah is you with your soul. It's you who has to decide how much milk, and how much honey you want to take from the beauty of the creation of the U. Promised that the peace will come. It's you who has to make peace with yourself. It's you have to be in peace with everything, structure around you.

Everything which has been promised in all your holy books, doesn't matter which book you open from Koran to Torah, and the rest of it, will come through, but for your soul, if you understand the truth about the Creation. Otherwise, what they say, the hell and heaven. You still live in the hell, which is the physicality of the man, you suffer everyday in it. (1:00).

Heaven is for those who understand the evolution of the soul, and with it, we'll ?? bring ?? of Mitra. And with it, end up everything which is for the physical D, ?? the way ??

Now, you want the explanation of where it comes, where it ends. It's you who actually lived in the hell for all this time, and now you want to get to heaven. And you know the path to heaven, you know the path to understand the of essence of the creation for yourself.

The Prophet is understanding the emotion of the man

You don't need no messengers, and you don't need no prophet, because the prophet is understanding the emotion of the man. In the process of the system, in a very simple way, as I keep on explaining, for those who come to go through the process, in the room.

When you enter the room, some of you get touched by the environment. It's very correct, it's very true, because the systems have been running and people have been going through it. So as you enter there is already a pre-existence field. As you go from Seat 1, to Seat 2, and to Seat 3. In Seat 1, a balancing physicality, takes shape. But don't forget, you still have tapped into the fields within the building within the structure.

When you go to Seat 2, you see, as many of you tell me. (1:02). Many people go through the system, first thing they tell us most of the time, they feel the legs are there, but they don't know, they feel the legs. But here (in the head) is something different, but they are all concerned about their legs, pain in the back, and the leg. So here (Seat 1) we open the STP, so the STP start working, but the physicality is still attached by the leg to the ground. That's why you have this dilemma.

When you enter Seat #3 then the game changes and the STM takes over the physicality. Some of you say, I feel no difference from Chair 2 to 3, because in that process you have already brought in, the STM into play.

And then wherever, whatever you do in this block (space between the reactors), walking, sitting. There are chairs for you here now. You are in the environment of the Soul of the Universe, not the earth, even though we talk, you walk, you drink, everything else.

By the way, I have a news for you. We had the first drunken soul by the Italians in their team, when they came, because they brought their own bottle, and we gave it to them. And one of them got drunk because of it. But it was beautiful to see a drunken soul.

It comes to the point, that in this room, you are in the fields of the universe. You choose. And interesting enough, all those who been through this, when they go back through, (chairs), 3 , 2, 1 and they go out. They tell you, as this is Seat 3, (1:04). they know the journey of the soul is finished, and they are ready to accept the condition of physicality. By the time they reach Seat #1, most of them, or all of them tell you, they knew, as what they said, they landed, they have landed back on earth. The journey of the soul is finished. They all tell you, they feel that physicality, the weight back again. Which means what we said from the beginning is, when the soul takes over, weight and the dimension does not matter.

What will be interesting for us next few days, and next few weeks of testing, will be, how many of you in the position of the structure of the work, will transmute to any position in the room. Don't forget, we got you when you sat in Chair #1, by the leg, you're not going anywhere. Go to planet Zeus, we still got you, you come back to us, because we tell you to come back. Even though you're in D of the soul, many of you tells us that, they hear noises, but the only noise they hear is the instruction, which goes what and where. Most of you get instruction from your own physical dimension, as many of women especially

say, they know the physicality is coming to do something, it says no, no, no, I don't want, I just want to carry on with what I'm doing.

And we start seeing a pattern of work, which shows you, we make you ready to become a passenger of the universe. (1:06). And then we make you ready to become the passengers of physicality. You tell us what you've been through and we listen. We have had beautiful conditions, beautiful understanding, and in a way, it's the most beautiful condition place to be, to see how the souls work.

As I said, in the coming weeks, once we complete our structure, we are happy with it. We'll call you, to call your ambassadors to come to Linz. Where Hitler ended many lives, from the ashes of the Phoenix, we start with the new life, new life in the space, new life in the dimension of existence. A new life in understanding, that there is a purpose bigger than D of physicality of eating and sleeping.

It'll be very interesting when the first children of the man in the D of the souls are created within this room. Then the new race ?? started. As we said, the Soul of the Mitra in the P is amongst us, and the gift is given to man.

We had the most beautiful experience yesterday and in the past weeks, in how the couples come together. And how they see each other in the dimension of the Soul, (1:08). after they've been through the system. They actually physically touch each other souls, as a soul mate. And I encourage more couples, more people who are in love with each other to come into these system. We had the pleasure of the, for the first time, two ladies who are in love with each other, yesterday. And it was beautiful to see how the soul interacted.

And we had the privilege of seeing brothers and sisters. We had the privilege of seeing sisters and sisters. We had the privilege of the lovers to go in. And it's amazing to see how they come out, and how they connect afterwards. And how life will take shape. It's a privilege to be in this position, to see the birth of the new race. To be part of it, that it's initiated, and to be there to fulfill the wishes of the Creator. It's like a gynecologist, you looked after the baby in the womb of the mother, and then you go to the delivery room waiting for that child to be born.

When I stand outside, it gives you that feeling. You see new children of man coming out. Going in as a man, and coming in to understand now there is another life the way existence, (1:10). now will have a different meaning. It's not confined to the womb of the mother. But now it's confined to the life of the living in the D of the Creator.

But this gynecologist has been waiting for thousands of years. And this child in the womb of the mother of the Earth has gone through many turmoil's. But now we see the breath of it, and it's a pleasure to be there. Whatever kicking and shouting he did in the womb of the mother is over. Now you have to enjoy the pleasures of the life in the U Community. That was the wish of the Creator, and I have delivered it. Let's see what mankind does

with the gift he's been given. We go through a break, come back, and today we have to finish at 11:15. If there any questions would you like to take us for the break please.

>>> **BREAK** <<, 438 KSW June 23, 2022 (1:18).

K- Yes, ready to go.

Q: At the moment the person is there in space on the Moon? Do they have conscious and free thought of their own volition? Or is it being guided all the time? How is the thinking in this case?

K - Can you repeat that?

Q: repeats (1:20).

K- I don't understand, you're free, you're the same as everything else. We don't. They tell us what they do. We hear. The only thing I do with them, because you got to understand why when we go in, in these cases and tell them. Because they get so involved in the process, they are. A lot of people when they walk into the flight zone, it's overwhelming. It's very simple.

But you know, you waited a long time to meet your lover. The excitement of the time to meet overwhelms. The mother waits for years for the child to come back, and then knowing the day he is going to come back. It's just gets so much crazy cleaning everything, doing everything else. A lot of people I see going into this zone, are going through that position. Or when they get in, they get numb. They don't know what they want to do. They don't know where they're going to go.

We see them. We have people yesterday, they sit on the chair 1, 2, 3, within five minutes. I tell them, all a bunch of you know. I talk about taking your time. These guys within five minutes are sitting in the unit. Excuse me? Do you go to the party, (1:22). the same, you are ready in five minutes and go in. I've never seen a woman having makeup, and everything, ready, well done, in five minutes. How come you ladies are in the machine before, when I go out and come back in, within five minutes, you're on the chair. You say, oh, we have limited time. I say, the only time is you, when you are ready.

They get overwhelmed, and they get into a tangle of fields and energy, the way the soul takes new dimension. They all talk about the expansion of the field. They don't want to call it, a soul, because then Christ knows what's going to happen now, the soul is out. And they all talk about the expansion of the fields.

I say, isn't that why you're come here, to see the expansion of your soul? Yes, but it's the field, I feel like inside it, it has taken over me. And then they get so entangled with this, that we have two systems built on each one, one system, where we can tell when the people will go into the position we want to. And you hear a noise going "buzz" , because we concentrate the fields into the center of the system, which means the energies stay in. We don't let you expand it.

And in that point, we ask you to take a flight, because you forget you came here to take a flight, and some of them tell us straight away, I haven't come here to fly, I have come here to do something else. No problem. But I'll tell you something, I want you to fly, you fly. And most of them go the way they want, because the soul decides, and we just remind them you come here to fly. Would you like to be a captain? Would you like to have others with you. They remember who they've taken, as I said, before, and sometimes the passengers join them.

Very interesting situation happened yesterday. We had a couple of Austrians. You will see them they'll bring it out, they'll tell you. It was a pleasure to have the all Austrian team in there. It was, (1:24). it was it's a different mentality. Because we had the Italians with the Italian behaviors. You've seen Stefania and you know the Italians.

We had with the Germans always. This group of Austrians was gorgeous to be with them. We had a couple, we allowed, we left it to them to do whatever they like, because the room was free for them to do what they like. The husband was behind the wife. We interviewed them separately, and then we bring them together. She said she felt the warmth on her back, as her husband was there. And the husband when he came on said, I could see a glow, I was there to like protect, and how the two joined up. It shows how close they are really in life, in the soul level.

We get couples coming, because we tried this, we don't, we don't say anything. But it was nice to see the first, what I call, "the twin love." It wasn't just outside the physicality, inside they had that feeling, the connection, they could feel each other.

We had another case of two ladies, who were loving each other as a couple. And the same feeling came out. It's beautiful to see, love has no gender. It's beautiful to see, that we are witnessing a change. (1:26). So we interfere sometimes, tell them, You came here to take your flight, who you don't want to handle the ones, they say, "I haven't come here to fly, I have other things to do." We had that with Stephanie, she said, I didn't come here to fly, I came here to bring peace, and I'm going to do whatever.

We have a system built in. We see if they're actually interfering. If they're taking from the system, or they are giving, and we bring the two system into balance. We hear it when

they come into balance. We don't tell you what to do. But we inform the physicality, you brought the soul here, and we would like the soul to do this, then we see how they do it. Especially when we take you, you are the captain. It's a beautiful experiences. It's a pleasure to be there.

Yesterday or the day before I had a beautiful feeling, being in the Umo Center, and that was, those of you who have been close to me, to work I've done in developing the technology over the years, to make it possible for you to understand. I was gifted with a beautiful pleasure by the Iranian government officials some years ago, with special tables, stainless steel, that does not take any magnet. Many nights, many times I used to run the reactor, but I was working so much, nighttime, whatever, I used to fall asleep on the tables in the lab. There was nobody else just me. You wake up and you see the system is doing what you set it up for. And it's a pleasure to see you know, it was nice nap, maybe half an hour, 10 minutes, whatever. (1:28). And many times I woke up feeling of just falling off the bench, off the table, because you get so exhausted, that you don't feel anymore.

And it gives you a pleasure to see what you work for, and what you fell asleep on the table, and all that, was worth doing. And I got that feeling in the lab, in the Umo center. So much hard work, so much persecution has paid off. When, it's like a lab, people come in, but this time, you don't change a gas, you don't change a rotation, it's the souls which change and come out. It's the physicality which confirms you've done correct. And it needs to be done, this or that.

As I said, when I went to Iran by the ?? Ayatollah K of Iran or ?? Armani Ashad, I was given a hidden team in the background, which was everything done and brought in when we needed it. But there was no line of communication to expand and do things. In Umo center, now we have a different structure. As I said, I see what it is, changes needs to be done. We have a beautiful team with Klaus, sitting and immediately implementing changes to be done. And we have a team back in the factory, that are devoted to see this thing done. And it gets done and it comes back in, within a few days.

It took Iranians seven days to give me a reactor. It takes Keshe Foundation team three days to deliver a reactor, we become that better than Iranians. And we'll see the change. Today as we speak. I'm sure the team is in the Umo center, implementing the new changes we've seen, we want for next week to be ?? partitions. (1:30).

It is an amazing feeling to see the birth of a new technology, the birth of new science, and a birth of every man's wish. Whatever has been promised in Torah, in Bible, in Koran, and all the holy books, is delivered. It's for man to understand it. There is a team there who just makes it possible. Everyday in, and everyday out, has been there to make it possible.

The only sorrow, or a shame is that, we had to go through all this, to get to where we are, when we could have been there ages ago.

I called to myself, in the past few weeks, I call this room, the room of Fabio.

Any other questions?

Q: .. You have already said that if it happens that the person strays into space beyond the limit, you bring that person back. (1:32). What could happen if the person wants to stay there? Is he in danger of losing his physicality? What problems might we face in this case?

K- I'll let you know when it happens. Just wait for it, and if it happens.

Q: .. When purchasing the technology for the phone, how long do I have access?

K- You mean the mobile system? Once.

R: I think that's what they mean.

K- One plane to Linz from Brazil costs you \$3,000, yeah, costs you \$3,000. We had the first Brazilian yesterday actually in the, coming in. She came in, she went into the system. I offered her for a second time, she didn't want to go in. She had how much the Austrians had, ?? to go back in.

But it's one structure. We'll tell you when we start this process in November and December. We're hoping to be ready by that time. The exhibition center is closed from 1st of August to the 15th of August for annual holidays of the Keshe Foundation. Our team has done a lot of work, we need to step down.

If you're planning to come, buy tickets, whatever. (1:34). Do not do for the period of the 1st to the 15th of August. There'll be nobody there if you come, behind the closed doors. The factory is closed, the Research Center is all closed, because our team needs a rest. They work beyond the limits. August is the usual annual holiday time in Western Europe. So the first two weeks of August ... 1st to the 15th of August, KF doors are closed. If you are booked.

We know we have one case now with a Brazilian couple, paid by the Brazilian community to come in. They arrive on the second of August. Please make sure (you don't book your flight). We had to make a special arrangement for these 2 to come in. But please do not book for the August.

We try to finish everything by September, because we need to bring new systems in, unless we see an extension needed. We will close. We're getting more or less, fully booked for all the days we have. Because it's not just, who you come in, we asked for a number of people to come in for a repetition of what I call, EC. Especially medical people. We request some of them to come in, because they have to understand to be able to take the situation further.

Any other question?

Q: .. Is transmutation a bit like "Beam me up Scotty?" And once we have entered the universal flight unit, will this be a normal ability for us to travel at will?

K- Yes. (1:36). You will be able to do the. Once you learn to walk? Do you need somebody to hold your hand. I think I can answer you that way. It's the best way I can answer. Once you make a link it's there. Once you establish the whole thing, it'll be very easy for you to do.

Any other question?

Creating SF with Humans together - be at peace with whole of humanity

Q: .. I would like to know or understand how to create the Star Formation (SF) between humans, with family members?

K- Can you repeat that question?

Q: She says I would like to know or understand how to create the star formation between humans with family members.

K- Very easy, first of all come in peace with all the humans, that you establish the connection. This is the secret behind it. You can't drag your son, stand there because I need your soul, or your wife, stand there because I need your soul, (1:38). to make something. Let them ask, if they want to be part of the Star Formation, and then you'll see it. You feel it.

We went through this very nearly with Ali in Canada years ago. And it fell apart, because different views came into it

Man learning how to make love in dimension of the soul - make children of soul

Man needs to learn a lot of things. This is just opening of it. I was talking to one of the Knowledge Seekers. You will now even have to learn how to make love in the dimension of the Soul. That will be fantastic to see you lot learning it. It'll be the most amazing way where you start creating children of the man in the dimension of the Soul. It'll be amazing to see how you fall in love in a dimension of the Soul with the citizens of the universe.

As I said yesterday as the girl was talking. She was so overwhelmed with this frog shaped things, with the whatever she had with her. That what happens if we feel in the D of giving to one, what we call, falling in love. Would you bring your frog home to your mom and say, I'm in love with this one. Would it have the shape of a frog when it lands here, or you're falling in love with the Soul, the Physicality here might be Black, White, Yellow, you don't care, (1:40). because it's your soul. There is a lot to come yet. You got a lot to learn.

I tell you something before you go. Yesterday when the girl was telling us about the frog, I said, did you kiss it? She said, yes. I said, did it become a prince. It was interesting the response. But yes you will fall in love with frogs. But you're totally in love with the frog ?? You will hear in the Testimonials most probably.

Next question.

R: Did you check the attendee list and see if she brought her an extra passenger back.

K- We are building the system. I think it'd be ready by the next few weeks, because it's very delicate how to build it. That we can convert to complete the transmutation. Transmutation, it's not difficult, but it's very precise job. We would like to start with the stones and hardware things, and then come down to .. other matters.
Any other question

Q: .. (1:42). You have asked for the soul of Tesla to come to the system in Linz. I wish to bring my experience with Tesla and the experience I had with his soul a number of years ago. Do you expect many people to carry aspects of Nikola Tesla to the unit? Or is this one soul?

K- Was Tesla a hermit and locked himself up in a room from the birth, and saw no one? So you cannot be the only one. And secondly, once you are in that state you belong the whole of the universe, it's not exclusivity. It's not anymore, "mine, mine."

We had Italians, 2 of them with the Pope. You heard yesterday, maybe. We had a person with Putin. Putin was only interested to speak about his family and nothing else.

We're waiting to see how things comes. Because once you establish these lines, they are established. You will see what you can do with it, how you can turn it.

I have invited Ayatollah K of Iran to Linz. He has never traveled beyond the borders of Iran, since he's taken position. Then if he doesn't come with physicality, we bring the soul. (1:44). It's very easy. You will understand how easy it is. Then when we send it back, I wonder how he will feel, and what will be the changes he brings to the Islamic world.

What will happen with the Pope? And what will happen with president Biden? It's your job, take their hand and drag them in. Let them face the facts and reality of the universal existence.

Any other question.

R: All the questions answered.

K- .. . So I think people now see the fact, the reality, they see what is on the table. It's not anymore, does it work, is it there, and it's not one or two. they are coming in 10 a day sometimes 12 or 15 a day. It is very interesting how each one comes with their own what you call, individual wishes. The German sitting right at the front, he is a scientist. At the beginning he was in what I call, in the room for about four or five hours. He changed when he came out, and the way he was talking, and the way he seen the changes, (1:46). as a scientist.

It touches you, because we cannot escape it. It's not any more goggle on the eye, or you hold something. It's you who interact, you confirm, confirmation of your own existence with ?? others, ?? It's a pleasure to see it. And I'm sure the hotels of Linz are doing a beautiful job with the number of Knowledge Seekers coming in. These guys are not coming overnight, they are staying 3 - 4 days, and go back. And they come back the next day, and the day after, just to be around the center.

We saw this with "Nino", people used to come and stand outside, we know from Korea and China, and from all over the world. Or they just. We are in the session with other people, they just come and sit for hours on end. "We came all the way to be here." We start seeing that with Linz. Don't make it a temple. Make it a temple of knowledge where you come and you take the knowledge back to your citizens and ?? people.

Any other questions. If we don't have. I think the whole of the Keshe Foundation now is facing the reality of facts, that they have to handle it ?? . Make your way in from all over the world. We need it, to complete it.

Q: ... Mark from Sunday teaching. (1:48).

K- Mark does all the Sunday American teachings. He's the man behind it. Thank you very much for all your work Mark.

Q: .. Thank you for sharing all the knowledge of the universe. I wish I could absorb more and it looks like going through Linz we can start to absorb more. My question is, is the center still open for tours to the general public?

K- Yes. Yes, we do the tours simultaneously. People are not allowed to come down where the EU are. But generally upstairs. Yes.

Q: Well, that was the part of my next question, which you said people used to come to Italy just to be there and to observe. Would you consider creating an observation deck almost like when you go to an amusement park.

K- We have observation deck when you come in? You are on a big deck, and you look down. The construction is that way. The only thing you don't see, you can't see inside the Flight Zone.

I want to call it, "a to do zone," because you don't take a fight. If you want, you ?? to do it. It'll be nice. I call it a "Fabio to do center," and you get things done. You go to places.

It's used to be a shopping center. You have a big entrance and when you come in, you have two escalators, which go down, and you have like a public gallery on the top to see down. The exhibition is set on the top and the test center everything is below. We have moved, as you see this sofa is part of the Studio. (1:50). It has been brought up, because now the studio has become a flight center. Or a "to do" center, I should call it. There's no way we can allow people to come down anymore.

But from the top, you can see the two Enhancement Unit in the back, the vertical unit, the horizontal units, they're all there to see but we don't allow any more people to come down. On the top deck, we have everything to do with it. And it takes place sometimes when we are running these tests, where the sessions are going on. .. up with Maria upstairs from next couple of weeks, Herbert will join us to extend the exhibition. We don't allow no one downstairs anymore doesn't matter you're calm we are there or not no one allowed and then when you come to is not your time to go into the session. Everybody's kept upstairs. And so, we was very, very set up because when you come out, if you want to give an interview, we record it how you felt and then you have to fill in the whole experience in your own language.

And these details will be later on added to the multiple to the back of the data as we need to know where and how they get there to run parallel together but only up to this for instruction and you can see through the I think must be 20 to 30 meter gap square on the top, that you look down as it was great as for you can see everything something you can see that Knowledge Seekers going through the interview and everything else.

Q: Okay ...

K- The workshops are done, (1:52). in behind the. We had the workshop with the production of Gans's , it was a whole one probably wanted 10 people there I think that 14 And in some behind one of the walls, the center is set up between them by day, what a call the head of the Keshe Foundation amazing in that a lot of you don't know, again, the Keshe Foundation Center, the whole structure is rather the woman. And she's very good at it. And she set up a beautiful what were called workshop structure. And people queue they join it. We announced the next workshop to come up next few days, or it is. Join them the people enjoy to be attended the workshop with Herbert producing Gans's will enjoy. K- Oh, that's good. My wish was to leave early today, (1:54). because I have to go somewhere, and it's 11 o'clock. Let's see what comes up. Let's see. I think the silence says, itself, the Knowledge Seekers after years of whatever patience, or ridicule by their family, or whatever. Now they see the reality and they're satisfied with what is coming.

It fulfills what we promised, and it fulfills what they were waiting for. This is just the beginning, and let's see what happens, when we start trying to transmute in next couple of weeks. I'm not worried if you don't succeed. It means we haven't got it the right way.

We have to get it the right way. We understand it. We already done it.

Let's see where we can take the human race. Let's see what is there for us in the future.

Thank you very much Rick, call it a day and the whole KF, and especially the teams in the labs, and in the .. Umo center, they are hard at it to make it easy for everyone to enjoy it. Thank you very much.

Don't forget, come in from all the nationalities, we are ??? We haven't had a single African yet. We haven't had a single Chinese yet. We haven't had anyone from India, or Central Asia. We need people from Australia and the Philippines, and that part of the world. South Americans ??? making their way. Americans are in droves coming in. And we have seen the Iranians are already lined up to come. (1:56).

We need to fill up the encyclopedia man. Some of you will come with a better experiences, others, we fine tune the systems. And maybe you want to come back to see the next experiments. Our next, how it will be with a new structure.

Thank you very much for today ... being there to support us to be able to deliver after so many years in the correct way.
