

Resurrection Part 1: Easter - Christ -Transmutation

Excerpt 428 KSW:

Times: 36:26 to 50:26 (14 minute) Easter Christ transmutes body

Times: 25:57 to 30:00 (4 minute) Perfects leaving body Detachment

Times: 1:42:37 to 1:46:54 (4 minutes) Taught transmutation Last Supper

Total time : 22 minutes

Note: Summary has not been checked by KF. Please listen to original recording and read English Transcription after the post. (Interpretation by KF Brazil)

INTRODUCTION:

The resurrection of Christ has baffled humanity for 2,000 years. Those of us who were raised in the path of Christ, were taught a kind of mysticism about the resurrection, it was all kept a mystery without any scientific explanation. That is, until now, with the teachings of Mr. Keshe and the KF plasma science. In fact, what Christ did on the cross is in Book one, two and three of the KF.

So what did he do? He transmuted his physicality into energy, merged it in the STM, and then manifested a new physicality, according to the conditions of the environment of the manifestation. It's written right there in the Gospel, the man near the tomb, who asked Mary Magdalene, "why are you looking for the living, among the dead." Of course, she did not recognize him because his body was different.

This is also what we do when we travel with the STM to anywhere in the Universe. We transmute the physicality the same way, and manifest it again somewhere. We actually already do this when we dream. And in our dream he says, that we actually manifest a physicality in that dream dimension. But we have denied that we are capable of doing this.

It's always nice when Mr. Keshe shares about his personal life. He talks about at the age of 10 when he started learning how to detach and leave his physicality and travel the Universe. He did many experiments and studies of the creation, and that his teachings are not theoretical.

The big thing to learn here, is that detachment is the basis to do these things. Through detachment you come to understand the work of your soul.

Finally, he gives more details about the crucifixion and Last Supper. "I went up the cross with the Christ." He also gave some hints about Jesus the man, that might be a little hard for some people to accept. The main point of this teaching is that, the resurrection of the Christ is really a process of transmutation, that he was taught only shortly before the crucifixion. We hope that we will mature enough soon, that we can be taught the same thing.

Thank you for listening.

Summary:

This is Easter weekend, when we remember the crucifixion of Christ in the Catholic Church, and the following week in the Orthodox Church. What is the meaning of this process? Most people just look at it as a time to buy some eggs and hide them in the garden for the children to find. In other places they have the Easter Tree, and in Orthodox Christianity, they boil some eggs, then meet each other, and see whose head they can crack the egg on, to win the game.

But what is the real truth, which has gotten lost in this process of Christianity, about the story of the crucifixion of (a) man. The crucifixion is the conversion of the physicality (P) to the dimension (D) of the Soul, and then the return of the Soul back to physicality. Christ as a man went on the cross, then on the cross he separated the D of P, (and brought it) into dimension of the Soul. In effect, he went from Book One to Book Three, using the transformation of the life of the man, and then he transformed himself back to a man. He came off the cross and walked away with a new physicality.

Man has taken the crucifixion literally, word by word, but in fact, it's a teaching. (The crucifixion is scientifically laid out), in the Book one, two and three, of the KF plasma science. Which way do you want to go?

Christ completed the cycle in one day, and then he wasn't there. He saw through. Why wasn't he there? Because the Soul of Man (STM) took the dimension of P and became a (new or different) man, and then he traveled across to North Africa, Northern Spain and France.

Up to now you learned about the crucifixion, only through mysticism. (The priest's could not explain the crucifixion, they only gave you something to believe in). But now you can understand it through the science and technology, so that you can become like the Christ.

You can become the man who can move his P into the state of the soul, and then re-manifest a new physicality.

This is what we meant when we say, with the knowledge we have given the man, he has reached the status of the prophets of the past. You can do scientifically, what the Christ did as a magician, and became a magic. Now the people celebrate it, and we do everything else around it. Tomorrow is Good Friday, and what happens by Sunday?

Or have our priests and Pope's lied to us, because they never understood. They never understood the point of transmutation, the crucifixion of Christ. The resurrection is exactly what you have in Book one, two and three. Now you have the capability to do it scientifically. The Enhancement Units (EU) are being built, and you have the teachings of how to use the MaGrav energy plasma direction. Everything has been given to the man.

If any of you Knowledge Seekers (KS) understood the teachings from 270 KSW till now, you could have done what Christ did. He understood how to go within the inner self, that the energy of the inner, which is the STM, is more powerful. The STM can take the physicality of the man within itself, become the light, and then return back and become another man.

At the moment, the way the man goes from Earth to the Moon, he has to wear the "monkey suit," (like NASA to survive). Now with the KF knowledge, you can go to the Moon, and walk on the Moon the way the people of the Moon do. You manifest in the D of the P life of the Moon. This is exactly what Christ did. (Christ manifested a new physicality in the D of the environment of where he was. That's why he created a new human body. If he would have manifested on another planet, then he would have taken the body and shape of the D of that planet.)

In a way, KF teachings are the teachings of what you as Christians call, "the resurrection." In the world of Islam, they call it, "the return of Methi," which means the return of the soul of Mohammad. We gave you the teachings of the physicality, and of the soul. Now, "the Promised One" is a collection of the return of the Soul of Mohammad, bless his name. Not something else will come. The teaching of him, will be for you as Man to understand the transmutation.

In the teachings (of one prophet), it says, that man will have a complete understanding of everything, when you understand the transmutation of elements. But we have said many times, that in the new understanding and completion of the knowledge of the man, is when the man understands the transmutation of fields, M fields, that in their motion, they become energy, and from energy, they can become anything. If we take a Cu, then from the fields of it, we can create Zn and gold.

In a way, we do what happened to Christ, we take nothing, we give the Soul of the Creator (STC), and we make a gold out of it, which is the soul of the Christ. The same with Mohammad, and the same with the soul of Moses, but not the man as Moses.

Then we come to understand, that the totality of the teaching comes to one point. We all come from the same Sun, we (all are like reflections in a mirror). We are reflecting beauty of that Sun, but we do not become the Sun, because we are made from it. We are part of it, but we never become the totality of it.

As it is Easter weekend, the teaching of today, is to understand the truth about the resurrection, and to finish with the dogmas of lighting a candle in the church at a certain time, in Jerusalem, or whatever else.

We are not looking to be magicians. We are looking to understand the process of the creation. That we become citizens of the U. You transmute your physicality into the strength of the STM, travel across the U, and on planet Zeus, Mars, or wherever, you return back to the D of the physicality, (according to the environment of the place you go to). You resurrect yourself at that place, so to speak.

We are already familiar with this process, but we have denied it, because we couldn't understand it. We call it a dream. In a dream, you are in presence of your Mother, friend, or somebody else whom you've never met before, or you see accidents, or gatherings of people. But how does this happens? You allow the Soul, which is in the dimension of the STM to travel, and then it goes to parties, or gets into accidents, or sees what's happening around. Then you manifest yourself there, in a dimension of physicality (in that place). (Is he saying, that while we are dreaming we actually, physically manifest ourselves in that dream dimension? Is this why some dreams feel so real to us, like we were actually there. Maybe we need to redefine what a dream is.)

How come you call it a dream, when it's a reality of life. We understand the process, and we do the transmutation, but we have never accepted, that we are capable to do it. (We need to do the training of the "marathon runner," to be a marathon runner).

For example, I want to see my brother in Washington, but I am in Tehran. I want to make the trip through the process of transmutation. Because the desire to see my brother is so strong, I make the connection, and I open the cage of my Soul. I go to my brother, sit down and have a coffee and a chat with him. Then I call him the next day and ask if he had the feeling, that I was with him? Because we interacted in the D of the soul, he says, "yes, I felt something," and then he might say, no. But you know the first yes was correct, and you have learned something.

If you desire to be rich, then you work at it, making money. But if you desire to understand the work of your soul, then you also work at it, but don't lie to each other, or to your soul.

It's not making a map. It's understanding the elevation of the soul, and how to bring the energies, and the fields of the universe to become connected to the STM. This is what we do in the flight EU. In some cases, many of you will go into the FEU, and you will travel to where you want to go, but the EU never moves from the ground. Nevertheless, you

made the trip, because you allowed the elevation (of the soul) and the transmutation. It's a reduction in the fields of what we call, the spirit, or STP, that the STM is free to take flight to that dimension.

We explained this a few weeks ago, that when you come to the Linz Exhibition Center (EC), we'll send one of you, or an object from this side of the bridge, to the other side. We're not magicians, we are teaching the science of it. It's the time in our evolution, for us to understand, but some of us cannot understand it yet.

We become the tool for the others to achieve, what we have not yet managed to understand, so that one day, from their experience, we will receive the elevation to understand. We're here to serve, and not to be served.

If you have understood, then this Easter weekend, in the name of Christ, you have reached understanding of the knowledge of the Creator, call it resurrection, or transmutation. In theology, they call it resurrection. In science we call it transmutation. But there is no difference. Man has chosen many names for the same process.

The way you transmute yourself to see your mother or father, who passed years ago, in what you call, a dream. In the same way, you can reach the dimension of understanding how to do the process of transmutation.

You can meet with the Christ, bless his name, by targeting the strength of his devotion. Because now, the cage (of his physicality) is not buried somewhere. The soul is free to be in touch with, and to be part of the universal life.

Mr. Keshe able to leave body age 12 travel U

Understanding the work of the STM doesn't come just by teaching, you have to understand how to do it, the way it needs to be done. Then you need to be humble enough, even when you have made the achievement. By teaching the others, you perfect the process yourself.

I asked myself, how I can go out of the dimension of my physicality, where I can still see it? Where I'm aware of it, but at the same time I am free of it? I could start doing this at the age of 10 and by the age of 12 or 13, I perfected the art. At that point I knew I could leave the physicality. Because I could see the physicality lying on the bed, or sitting on the chair. There it was. Then I decided to go for trips, but I would come back to it.

I explored the depths of the Universe trying to understand the position of the galaxies, and the movement of the M fields. I (wanted) to see the hidden parts, that were not visual. This became an occupation, and part of the life to understand the process.

What I teach you is not theoretical, it's what I have been through, personally. I know a number of Knowledge Seekers (KS) who have achieved this, but they cannot take it further.

When you become detached, then you sit above and you see your physicality. You can do this day in, and day out, in the daytime, or at night. I just wanted to see, to experiment, to perfect the (procedure). Anything could happen, and one day, I nearly fell down, but I ended up back into the physicality. That's not where I wanted to go, because I wanted to go somewhere else.

The teachings I give are not theoretical. They are understanding that there's another tool to use.

When I would wake up in the morning, my father used to say, "you got to go to school." I thought to myself, how can I tell my father, why am I going to school, when I already know. But still I would get into the car, and he would drop me off at school.

I learned the knowledge of the man. But through the dimension of the souls, I knew at the age of 12 or 13 what was to be, and what I needed to do, and what knowledge was brought to me for understanding the energy fields, and nuclear (science). If you meet anybody who knew me at that age, I always said, "I wanted to become a nuclear physicist," because I knew that, this is the way to break through, (and bring the new knowledge to man).

People used to laugh at the young boy (and his big ideas). But now I did it, I completed my study of nuclear physics, I completed it, and I became what I set out to become. It was because my soul set me up that way. When I look at how I progressed through the years, it's clear, the decision was made by the souls, I just followed along. I just read the script.

We all have the same capability (to do what I have done in my life). (But the basis is detachment), understanding the true meaning of detachment.

Detachment is not saying, that I have to live like a hermit to be detached. No, that is not it. We always understood it that way, and that's the way they did it before. Back then detachment meant going into exile, and living on a stone for weeks at a time. The time of having to go through hunger is over. But that was the way people could understand, at that time.

You can live the most luxurious life, be the most educated man, or be a professor, but you can also be a doorman. It doesn't matter what your job description is. Understanding the work of the soul does not carry human paper certificates. It's you who has to educate (yourself).

(Detachment is so important because it seems to be the basis, by which we open ourselves to receive the knowledge. Unfortunately, today many so called, "spiritual" people use the word detachment, but you don't see it reflected in their life. Some people go through a very deep process of honestly facing themselves. And some of them come out with a spontaneous feeling of knowing that they have everything they need inside

themselves. There is no thought to do anything about it. A natural sense of giving arises out of them, and the first impulse is, "what would be best to help the others.")

Resurrection Continued how Christ did it

You have to learn, and it's the process we all will learn slowly. Slowly we'll come to understand it and trust the soul.

"Sometimes the STP, because it knows physical D and sometimes the STM ?? and the position of the totality of the physicality, ?? structure of the bigger structure."

The STP protects you in the physical dimension.
And the STM protects you in a dimension of the Universe.

The sooner we understand this, the sooner mankind will be free, and he will know how to position one, in respect to the other, in terms of what condition, position, and time. Then man will become mature in the process of transmutation, or what you call resurrection.

Christ could have walked away from the cross, but he knew that he had the power (to resurrect), so he let them do what they wanted. He knew what he was going to do. I went up the cross with the Christ, I know exactly what happened there. I know how the transmutation took place, and how and where, how the things ?? touched. The body of Christ never went missing. Christ went through the D of the STP and the STM, because he was taught how to do it.

He was taught that knowledge just prior to what you call, the Last Supper. The knowledge was not given to him, until more or less the last minute. That was because he was a very joyful chap, and he always thought he would get away with it. But when it came to the point of the resurrection, the knowledge was given to him, and he was told, that he can use it.

The real meaning of the Last Supper, was that, it was the last time he ate as a prophet. It's not what people think, that it was the last time he ate with his people. People always define things in terms of something else, rather than the true meaning of the thing itself. Because then it has a meaning for them.

The Last Supper was the last meal he ate as a "man," as a prophet. (Because when he resurrected, the former body was transformed into energy). When he came down from the cross, he (manifested a new body), became a man and went on his way. (Basically, he was a new man and he could do whatever he wanted).

Now maybe for the first time you understand what the Last Supper really means in the dimension of Christianity. Nothing more, and nothing less. The rest of it, all the stories, are what you like to talk about. But it was the last time he ate as a prophet of God. He

walked into the crucifixion fully aware of what he was doing. In fact, he bargained for it, because he loved two women. It was given to him, for the love he had.

Maybe now you understand all the hullabaloo about the Last Supper. He accepted it, because he knew the dimension of what he'd done, and that it was beyond the dimension of acceptance, by his soul.

He didn't go the path, which Moses took by starting all sorts of wars and killing. He decided he'd done enough. He brought the change he wanted, and now it was time to live. He transmuted from (the body of Jesus to another body, another man with another life). He listened to his Soul, and the STP, and he took that transmutation, the resurrection.

End

English Transcription:

Easter - Crucifixion Christ (36:26 to 50:26)

This weekend, we remember the crucifixion of Christ and Easter in the Catholic Church, and the following week in Orthodox Church. What is the meaning of this process, that you just look at it, buy an egg, pull a tree, and some chickens and chicks under the tree, and put some eggs in the garden for children to find, or in Orthodox Christianity, boil some eggs and meet each other, and see which one cracks another head, on another egg to win.

But what is the real truth, which is lost in this process of Christianity, the story of the crucifixion of man. The conversion of the physical to the dimension of the Soul, and return of the soul back to physicality. Christ as a man went on the cross. He separated in that D on the cross, to the dimension of the Soul. He went from Book One to Book Three, using the transformation of the life of the man. And then he transformed back to a man, coming off the cross and walked away.

Man has taken it literally by word, but in fact, it's a teaching, what you have in book one, two and three, which way do you want to go? He completed the cycle in one day, (:38). and then he wasn't there. Then he saw through. Why wasn't he there? Because the Soul of Man took the dimension of P and became a man, and traveled across to North Africa into northern France and Spain. Sorry Northern Spain and France.

So, up to now, you learned it through mysticism. Now you learn it through the science and understanding and technology, that you can become that Christ. You can become the man, who can move to the state of the soul, to go from dimension of state of P, and from D of the soul, come to physicality.

This is what we say, the man with the knowledge we have given, has reached the status of the prophets of the past, because you can do scientifically, what was done as a

magician, and became a magic, and now we celebrate it, and we do everything else. Tomorrow is Good Friday, and what happens by Monday, or by Sunday?

Or where have our priests, Pope's have lied to us, because they never understood. They never understood the point of transmutation. The crucifixion of Christ, the resurrection is exactly what you have in book one, two and three. Now you have the capability to do it scientific. You will have the Enhancement Units (EU) is being built. You have the teaching of the use of the MaGrav energy plasma direction. Everything has been given to the man. (:40).

So, in a way, if any of you Knowledge Seekers (KS) understood that teaching from 270, Knowledge Seekers program till now, which is 447 - 48, you could have done what Christ did. He understood how to go within the inner self, that the energy of the inner, which is the Soul of the Man is more powerful. The ?? (STM) can take the physicality of the man within it, and then become the light, and then return it back into it, and then become another man.

The man, the way you go from Earth, from now to moon, in a monkey suit, and then you still have to be in the monkey suit. Or you learn to go from Earth to the Moon, and walk the way, in the real physical life will be on moon, with the dimension of restriction of it, and live a life as a man of the moon, as a person who lives in the dimension of it. This is exactly what Christ did.

In a way, Keshe Foundation teachings is the teaching of what you like, as Christian to call, resurrection. In the world of Islam, you call it the return of Methi, which is a return of the soul of Mohammad. We had this teaching in physicality, we had the soul. And now, the Promised One is a collection of the return the Soul of Mohammad, BHN.

Not something else will come. The teaching of him will be, for you as man to understand the transmutation. (:42). In the teachings says, that man will have a complete understanding of everything, when you understand the transmutation of elements, as we said many times, but in new understanding and completion of knowledge of the man. Is when the man understands the transmutation of fields, magnetic fields, that in their motion, they become energy, and from energy they can become anything. We get a copper, we create Zn and gold from it. In a way, we do what happened to Christ, we take nothing, we give the Soul of the Creator (STC), and we make a gold out of it, which is the soul of the Christ. The same with Mohammad, and the same with the soul of Moses, but not the man as Moses

Then we come to understand, that the totality of the teaching comes to one point. We all come from the same sun, we reflects like a mirror, the beauty of that sun, but we do not become the sun, because we are made up of it, we are part of it, but we never become of it, become totality of it.

The teaching of today as it's Easter, what we call, weekend, is to understand the truth about the resurrection. And to finish with the dogma of lighting a candle in the church at a certain time, in Jerusalem, (:44). or somewhere, or as something else, or whatever.

We are not looking to be magicians. We are looking to understand the process of the creation. That we become citizens of the U. You transmute your physicality into the strength of the Soul of the Man, travel across the U, and on planet Zeus, on Mars, or wherever, you return back to D of physicality, at the point and place. You resurrect yourself.

In a way, we are familiar with this, but we have denied it, because we couldn't understand it. You call it a dream. In dream you are in presence of your Mother, presence of your friend, presence of somebody else who never met, you see accidents, you see gatherings, but how come? You allow the soul, which is in the dimension of the Soul of the Man to travel, and then get into parties, or get into accidents, or see what's happening. Then you manifest yourself there in a dimension of physicality.

How come you call it a dream, when it's a reality of life. We do the transmutation, we understand the process, but we never accepted it, that we have the capability of it. We need to be the marathon runner to be. What can I do? I want to see my brother in Washington, where I am in Tehran. (:46).

I want that, what I call, transmutation. I make that trip, because I want to, the desire to see my brother is so strong. I made that connection. I open the cage. I go to my brother, I sit down and have a coffee with him. Have a chat with him. Call him the next day. Did you have a feeling I was with you? Because, we interacted in the D of the soul. He says yes, I felt something, or no. Then you know the first yes, you have learned something. You desire to be rich, you work at it. You desire to understand the work of your soul, you work at it, but don't lie to each other, or to your soul.

It's not making a map. It's understanding the elevation of the soul, how to bring the energies, the fields of the universe to become connected to the STM. This is what we do in flight Enhancement Units (FEU). In some cases, many of you will go into the Enhancement Unit, your travel where you want to be, but the Enhancement Unit never moves from the ground, but you do the trip, because we allow, that elevation, that what I call, transmutation, reduction in the fields, of the what we call, the spirit, or Soul of Physicality (STP), that the STM is free to take this dimension. (:48).

In a way, if you look at the, what I call, the teachings of a few weeks ago, when I explained to you in the Linz Exhibition Center (EC), we'll send one of you, one person from this side, an object from this side of the bridge, to the other side. We're not ?? magicians, but what we are teaching. It's the evolution of the time for us, as some of us would like to be, but we cannot understand it.

But we become the tool for the others to achieve, what we have not managed to understand, that one day, from one time, from their experience, we receive the elevation to understand. We're here to serve, not to be served.

In a way, this weekend, or next weekend, if you understood, you have reached the station of understanding of the knowledge of the Creator, in the name of Christ, resurrection, the evolution, the transmutation. You call it in the name of theology - resurrection. We call it in the name of science - transmutation. No difference. Man has chosen many names for the same process, and this is another one of them.

If you can reach in the dimension of understanding, The way you transmute and you reach the process of seeing your mother, seeing your father, (:50). who passed years ago. You can target the strength, the devotion of the Christ, bless his name, and meet with him. Because now, the cage of physicality is not buried somewhere. The freedom of the soul, is free to be in touch with, and to be part of, as part of the universal life. (50:26)

Mr. Keshe able to leave body age 12 travel U (25:57 to 30:00)

The understanding of the work of the Soul of the Man (STM) is the same. (:26). It doesn't come just by teaching, you have to understand how to, the way it needs to be done, the way you have the understanding of doing it. Then be able to be humble enough, when you understood, is the achievement you made. Then you teach others and you perfect the process yourself.

How I can go out of my dimension (D) of the physicality, where I still can see the physicality. I'm aware of it, but I am free. I could do this at the age of 10, 11, 12 years old. By age of 12 or 13, I perfected the art, I can leave. I could see the physicality on the bed, I could see my physicality sitting on the chair. But it was there, I'm going for a trip, I'm going to come back. Exploring the depth of the Universe (U), trying to understand the position of the galaxies, trying to understand the movement of the fields, trying to see the hidden part which is not visual. This became an occupation, this became part of the life to understand the process.

What I teach you is not theoretical, is what I have been through. And I know a number of Knowledge Seekers (KS) who have achieved it, but they cannot take it further. When you are detached, when you sit above and you see your physicality. And you can do it day in day out. You can do it daytime, and you can do at nighttime. Just to see, to perfect, whatever happened this time. "Oh, one day, I nearly fell down through the, back into the physicality," where I didn't want to go, (:28). because I wanted to go somewhere else.

This is not theoretical teaching. This is understanding there's another tool. I used to wake up in the morning, and my father says, you got to go to school. How can I tell my father that, I already know, why am I going to school for. I got into the car and I went to the school. He dropped me off. I learned the knowledge of the man. Through the dimension

of the souls, and what to be, I knew at the age of 12 or 13, I need to do, to be, what I was brought to me, for the knowledge of energy fields, nuclear. And if you meet anybody who knew me at that age, I always said, I want to become a nuclear physicist, because I knew, that's the way to break through.

They used to laugh, at the young boy, now it's finished, and I made it, I became, because my soul set me up that way, and when I look at the progress. The decision was made by the souls, I just followed, I just read the script.

We all have that capability. It's just understanding the detachment. Understanding, I, detachment is not, that I'm going to live like a hermit to be detached. No, detachment, the way it's done before, you go into exile, living on a stone for weeks, and going through hunger is over. That was the way people could understand. You can live the most luxurious life, you can be the most educated man, you can be the professor's, you can be the doorman. Understanding the work of the soul does not carry human paper certificate, and job description. It's you who has to educate. (:30).

Resurrection Continued how Christ did it (1:42:37 to 1:46:54)

You have to learn, it's the process we all learn slowly, slowly and become to understand it, and you trust the soul. Sometimes the STP, because it knows physical D and sometimes the STM ?? and the position of the totality of the physicality, ?? structure of the bigger structure.

This is what we have not understood. The Soul of Physicality is to protect you in the physical dimension. The Soul of Man is to protect you in a dimension of the universe. The sooner we understand this, the sooner mankind, will be free and understand how to position one in respective to the other, in what position, and what condition, and when, then we will become mature, in the process of what we call, transmutation, or what you call, resurrection.

Christ could have walked away from the cross, but he knew he had the power, so let them do what they like, because I know what I am going to do. I went up the cross with the Christ, I know exactly what happened. I know how the transmutation took place, and how and where, how the things ?? touched. (:1:44). The body never went missing. Christ went through the D of the STP and the STM. Because he knew, he was taught.

He became of that knowledge just prior, what you call, the last supper. The knowledge was not given to him, till the last minute, more or less, because he was a very joyful chap, and he always thought he would get away with it. But when it came to the point of what we call, the resurrection, or the call it a transition. The knowledge was given to him and was told he can use it ?? balls.

The last time, the last Supper, if you understand it, is the last time he ate as a prophet. That's what the Last Supper is, not the last time he ate with his people. You always put it

to a definition of something else, because then it has a meaning. Because it was a time when he left the body of the man, the last meal as a man, as a prophet. And when he came down, he became a man, and he took his ?? path.

Now maybe for the first time you understand what the Last Supper means in the D of Christianity. Nothing more, nothing less. The rest of it is, what you like to talk about? It was the last time he ate as a prophet of God, and that was it, it was the last supper he had, and he walked into it, and he was fully aware. He bargained for it, because he loved two women. (1:46). It was given for the love he had.

Maybe now you understand all these hullabaloo about the last Supper. He accepted it, because he knew the dimension of what he'd done, was beyond the dimension of acceptance, by his soul. He didn't go through the path, which Moses went, and start all sorts of wars and killing. He decided he'd done enough, he brought the change he wanted, and it's time to live, and transmute from one to the other. He listened to his soul, and the Soul of Physicality, and he took that transmutation. What do you call, whatever in any language. (1:46:54)
