For Friday night Teaching Brazil

Update on Vienna Peace Talks; 5+1 & IAEA

Mr. Keshe gave us an update yesterday saying that, "we have reached a point of breakthrough. But it will take time, it takes time to understand, it takes time to bring maturity to all sides." So it would seem that good things are about to happen, but have not yet happened - we have to keep up our full hearted efforts to bring peace.

It seems by the talk that the Iranian leadership was not yet ready to freely share the technology, and so KF has made a move towards IAEA. IAEA is the international organization that regulates nuclear energy worldwide.

"Officially we have entered negotiations with the IEA (IAEA), ... , but collectively to find a solution for all the nations, progressively to move in the direction of the enriched, what we call, radioactive material, purity as much as possible to 100%, to 99.999, that allows all the nations, together move in dimensions of the space technology."

The way we understand it, is that 5plus1 is still on, and we need to elevate their souls, but now we have been asked to add into our intention, the members of IAEA, that we elevate their souls to bring the technology forward.

So we'll share again what we did before but add to our wish elevation of the members of IAEA.

>>

Mr. Keshe made a special request to the Universal Council (UC) to use their connection to the "Soul of the Universal Council," to elevate the souls of the negotiators in the 5plus1 Vienna talks going on right now.

"It's perfect for what is to come. But you have to understand, that you meet as the heads of the humanity. You come to what you call, your meeting with an emotion and with an understanding that in your meeting, it will bring the change in, and for sure the soul of Mitra will be with you. As your decisions will bring changes for the humanity. I hope the mankind will come to understand this."

In brief summary, mankind himself, has to make a move to achieve peace on the planet, and bring out the technology. As the UC members are from this planet, are citizens of Earth, are linked to the entire planet, they can bring in the change through their plasmatic fields. In addition, they have a direct connection to the "Soul of the Universal Council." Therefore, as Mr. Keshe said. "your decisions will bring changes for humanity." And it only takes one human being to start the change for all of us.

The request was for, not only peace on the planet but also an end to child and drug trafficking. If these kind of abuses are going on, how can we achieve peace? So remember to have these conditions as part of your thought - intentions - wishes.

It appears as though we have really come to the point we have all been waiting for. 5plus1 is the vehicle - ready and waiting for the change to be delivered. We don't want to have to wait for another chance. This is it - here and now. We can all be part of this. We all have a STM inside of us, which is connected to the Creator, and therefore to the "Soul of the Universal Council." Just like all the countless lines in the block of ice, we were shown some weeks ago. We are connected. The power is within us. We have only to believe in it. To think it - to speak it - to act on it.

Let's take a few moments of silence and go inside, and release the love and longing we have for peace and deliver of the technology to all beings on planet earth.

Together let us feel our connection to each other to the "Soul of the UC" - to Mother Mitra - to Mr. Keshe - and give all our hearts to complete this work.

After SILENCE >>>>

You see ... it's so simple .. the whole thing is so simple ..

It's all in what we believe about ourselves ...

Somehow we got to thinking that we were powerless .. a victim of circumstances ..

And we kept repeating it to ourselves and each other ..

and it became true ..

Now it's not true anymore ..

WE HAVE CHANGED ...

We don't have to go on the streets and protest .. or be heard on CNN ..

We do it through the soul.

this is what it means

"Teach through the Soul"

We as Souls .. gather .. communicate .. INTERACT ...

What we decide as Souls ..

The negotiators in Vienna .. 5plus1 .. and now the souls involved in the IAEA ... will have to carry out ... they have to - no choice

It doesn't matter what their governments, or those in the shadows say.

WE AS SOULS DECIDE

(thank you for listening)
