

2022 05 12 If Intention is for the Totality - it is answered

432 KSW Quote Time 2:57

Summary of Quote:

The following is another example of how we can deepen our intention for world peace.

The reason behind your wish is very important. If the reason is correct, and it's not just for yourself, but for the benefit of others, or another person, than you can always reach it very quickly. Sincere wishes pass through the Soul even before the physicality is aware of it. We do not abuse this process, we use it when there is a need.

It doesn't matter if we think it is too late to do anything. If the desire is sincere, and it's for elevation of another soul, or a Totality of something, it always works out. Physicality is just a servant of the Soul.

Let us feel the pain that all of us are suffering in the world, and our first thought is to bring relief to the others.

Summary of Transcription:

(When you want something), it depends on for what reason you want it. If the reason is correct, and it's not (just for) you, but for the benefit of others, or another person other than yourself, you can always reach it very quickly.

I experienced this with the KF in past couple of days. The Foundation needed massive support, so I reached through my soul, and the other person felt it. Later, when I called the person they said, they already had that feeling (that their help was needed). This happens because it was the desire for the elevation of the soul of the Foundation, and not for me. (The request was sincere enough, that it passed through the Soul, before the physicality knew of it).

We do not abuse our knowledge, but when there is a need, we convey the knowledge. Then they say, "oh, I felt something." It's because the soul has already been reached. The need was there, and it was sincere, and it's for the betterment, elevation of the whole Foundation. It's not for a person. We learn to start communicating at the soul level. We start to understand that it is my soul who has received it, and the physicality is just a servant.

(It doesn't matter if we think it is too late to do anything.) If the desire is sincere, and it's for elevation of another soul, or a Totality (of something), it always works out. Physicality is just a servant. (In the KF,) we see this on a regular basis. I reach Knowledge Seekers (KS) through the wish of the what I call, enlargement, elevation of

the soul of the Foundation and humanity. And it is always answered. Later, we settle the things in physicality and what's going to be done.

KS will gradually come to understand this. (When you start working through the Soul, you think differently about things, but your soul works to bring the same result. There is a very big difference between working through the Soul and working through physicality, (or working through your thoughts and ideas).

You say, "I was just thinking about it, or I just felt it." It's not that. (Some unknown force is at work. The souls work in the same way as the physicality, the same understanding, and for the same purpose. It doesn't matter what is happening around it. (Keep faith with your soul and your intention to help the others and it works out).

I always said, I know the way to reach the STM, and then it's the STM who brings in the dimension of physicality. I came in (to this world) with nothing, and I will go with nothing. The whole purpose is to bring the change and elevation, that in the future no man will kill. And no animal on this planet as well, will commit a crime by taking from another soul. This is the entire understanding of the process of the teaching.

END

English Transcription:

Our intention is fulfilled - when it's for the totality - for others

K- Yeah, but it depends how you are, and what is the reason. If the reason is correct, and it's for not you, but let's say the benefit of the others, or benefit of another person than you, you always can reach it out very quickly. I had this experience in past couple of days, the foundation needed have massive support. And I reached through my soul and the person felt there is something. When I call on the phone, the person said, I already had a feeling, because the desire is for the elevation of the soul of the foundation. It's not for me. (2;58). And that response was sincere enough to be passed through the Soul, before the physicality could feel it.

We do not abuse our knowledge. But when there is a need, we convey the knowledge. We say, "oh, I felt something." It's not, because the soul has already been reached. The need was there, and it's sincere, and it's for the betterment, elevation of the whole foundation. It's not for a person. We learn this, we start communicating at the soul level. We start to understanding it's my soul who has received it, so physicality is just a servant.

It does not matter what stage it is, what we consider it to be. If the desire is sincere, and it's for elevation of another soul, or a totality, it always works out. Physicality is just a servant. We see this on a regular basis. I reach Knowledge Seekers through the wish of the what I call, enlargement, elevation of the soul of the foundation and humanity. And it

is always answered. Then we go to terms of physicality, we talk about how it's going to be done.

This is something that Knowledge Seekers gradually will understand. You don't anymore think the same, your soul works to bring the same. It's a very big difference. You say, "I was just thinking about it, or I just felt it." It's not that. It's just that the souls work on the same process, the same understanding, and for the same purpose. It doesn't matter what happens around it. (3:00).

I always said, I know the way to reach the Soul of the Man, and then it's the STM who brings in the dimension of physicality. I came in (to the world) with nothing, and I go with nothing. The whole purpose is to bring that change, to bring that elevation that in the future no man kills. No animal on this planet commits a crime, being, taking from another soul. But this is the whole entirely, understanding of the process of the teaching.

Any other question.
