

In the 424 KSW, while talking about the coming success of the 5plus1 negotiations. Mr. Keshe said, a very short sentence. "It's by the wish ..." Immediately following he said, I hear that the Brazilians meet every night, with their intention for the elevation of the soul of the world leaders and 5plus1. He said it with admiration and strength in his voice.

Then he gave us a direction, if we understand it. What happens once we receive the elevation, meaning the signing of the 5plus1 treaty? Are we going to stop? Or do we continue to go to the next step, which is the elevation the soul of the world leaders to the next understanding, to world peace, and to sharing of the knowledge and technology. Would it lead to the opening up of humanity, to a new dimension.

It's up to us to decide. Do we have enough love in us, to continue this joyful task of meeting together every night, and sharing the field strength of our souls. Not only do we help elevate the world leaders, but we also elevate our own souls.

First of all we would like to thank all of you who join this intention for world peace. It is beautiful to see how it is growing, and that there is a large core group who continues to participate day after day. In a way, through the dedication and love, we have created a soul, or a plasma as our group. The G fields are what pulls us together to continually show up, and we are gaining "weight" like the EU in Austria, and the M fields are our intention to achieve world peace and release of the technology, by elevating the souls of the 5plus1 negotiators, world decision makers, religious leaders, scientists, and ourselves - the inhabitants of planet earth.

From December 21st 2021 until 22022022 we prepared and fulfilled the prophecies for the coming of Methi and the birth of Mitra, and this is the year for the release of the technology. All this means, that man has matured to be able to understand the Knowledge of Creation, and we all become the Methi, when we open to it, share and understand it. This is exactly what we are doing in this group, we are sharing the love and knowledge of Methi, through our souls. It appears as though everything is falling into its correct place, bringing peace and harmony.

SPECIAL INTENTIONS:

Our special intention tonight is for us as KS around the world. As our souls are connected by language, we wish for the different language groups to elevate their souls to receive one of the flight EU, that will soon be released. It's not that we are wishing to have our own unit, rather we are wishing that the other groups will elevate their souls before we do, and we will enjoy to see their happiness, and to watch the changes they go through. This is what Mr. Keshe meant by saying, all the Brazilians should not vote for Brazil to receive a unit, but another country. Let us experiment with this level of giving.

Let us continue focusing on Kenya, on the Soul of Kenya through Dr. Gatua and his people that their Souls elevate and open to receive the Flight Enhancement Unit.

>>

If one of you KS would enter the Flight Enhancement Unit, and if you have a truly deep wish from your soul to elevate the world leaders, then they all will be elevated, and in the coming years you'll see the change. We are not talking about doing something fashionable - "oh, I want world peace." But a wish so true that it reaches the goal.

You can also do it collectively. Maybe one of you can reach 1 leader, and another 10, so that collectively you can reach all of the world leaders to walk away from war. Because you are sincere, you bring the other souls to your level. This is the way the EU works, your energy is lower, and the EU is higher, so it gives to the cancer cells to elevate them. The souls of the world leaders are like the cancer cells, we elevate them. This is the beauty of the new world and science we are bringing.

The Soul of our Intention Group is like the EU - so let us wish together.

We can take great encouragement, that our wishes and intentions are being heard, and are growing in strength. The more we give, the more we receive, to give more, and our intention becomes even stronger. Let us remember that, by accepting the field strength of change into our own life, we become like the orange in the center of all the Cups, and our fields radiate out to all the Cups. The Cups are humanity whose bodies are made of saltwater. Humanity will taste the sweetness of the peace in our heart, and the delicious flavor of the changes the new technology will bring.

Let's take a period of SILENCE now and continue to concentrate on elevating the souls of the 5plus1 negotiators, world religious leaders, scientists and the decision makers who sit in the shadows. "Take from our souls what you need," and find the peace within and allow the new technology to come out.

We feel with all of our emotion, that I am changing, and the change is taking place throughout the planet. More and more souls are joining us. The Universal Community can begin to see the light of the plasma glowing on planet earth.

Together let us feel our connection to each other and to the "Soul of the UC" - to Mother Mitra - to Mr. Keshe - and give all our hearts to complete this work. Through our soul let us all be the Methi.
