

Cosmic Rays Perpetual Source of Energy

Introduction to 459 KSW

Note: Not checked by KF interpretation by KS of KF Brazil

In today's workshop of November 17, 2022 Mr. Keshe said, that he opened the eyes of Mankind to a new cycle of knowledge, technology and life. He further explained that all the teachings have been leading up to the Cosmic Rays and declared that the technology is complete. To understand this better let's look at the history of the teachings. The progression of teachings went from talking about UFOs, to Nano materials, to Gans's, to MaGravs, and then fields of the MaGravs, then started teaching about the Soul, Enhancement Units (EU), Travel with the Soul, and now the Cosmic Rays (CR) - which are the beginning and the end.

To be able to travel the Universe (U) as a free plasma we needed to have a perpetual self-sustaining source of energy, which up to now we never had. The MaGravs had to be plugged into a power source to trigger the plasma. Now with the Cosmic Ray units their M fields will interact with itself and the environment to create its own energy. We never knew that the stars and planets generate their own power by interaction with their own and the environment's M fields. The Earth is itself totally self-sufficient in its own energy but we didn't have the knowledge to tap into it. Instead we created our own dynamos by physically rubbing M fields together, and destroying our planet and ourselves in the process. It's absolutely amazing that we always had everything we needed with us all the time, but we didn't have the knowledge to access it. Being in the fields of the created CR can also bring us knowledge and enlightenment.

So where does that leave us after all these years? We are entering the completion stage of the technology. But still, to access the CR we have to want to. But that's easy, because who wouldn't want to share in the beauties, joys and love of creation and the Creator, once we get educated to it. This leads into the next topic of where we are heading.

For the past 12 months Mr. Keshe and the KF have been struggling with how to get this knowledge out to everybody on the planet. And now it happened that the organization that millions were given to do this have cheated us. Most likely there is a background link to those in the present power structure, that don't want to see this change at all costs. The threat to label KF as a terrorist organization and have us removed permanently from the Internet is back on again. They are planning to make their move within a couple of weeks. How dear and precious is this knowledge to us? Now we have a chance to test our true intention. Again it's a very simple thing, all we have to do is to turn within and generate that emotion of love and give for the elevation of the Soul of the Planet. We can have this feeling constantly flowing in our Soul. This is what they are afraid of, that the knowledge is too readily available and humanity might actually wake up. Of course we can. So with no fear we move ahead just like the example provided by Mr. Keshe.

Nevertheless, all this has actually helped us. Because while they thought they were fooling Mr. Keshe, he was actually bringing the technology to completion by advancing to the Cosmic Rays for this very purpose. Had we gone with that organization, most likely they would have tried to keep the knowledge at the level of physicality, and downplay the importance of the Soul. Which in fact is the technology. Without the Soul, we just have an empty idea spinning on its own, thinking it is a separate entity.

He explained it so clearly, but said, most won't understand it. The completed knowledge with the perpetual source of energy, known as CR, is our assets, not the bank account. The knowledge will give us the power to free ourselves and at the same time generate whatever wealth we need to spread this everywhere. So everything is coming together beautifully, but we need to join in, to be a part of it. And we still have almost 6 weeks left of 2022, the year of the release of the technology. Don't underestimate the power of the Creator and Mitra.

There is something to understand about why the CR brings everything to completion, even the perfection of our bodies. It was explained in this workshop that the cause of all our health problems is a lack of energy. Remember that a scientist uses more calories thinking all day, than a miner doing manually labor all day. It may be hard for us to believe this, but this is what the research shows. So when the brain doesn't have enough power to do all the things it needs to do, it starts to malfunction. The same that would happen in a computer, if there isn't a steady supply of electricity. And since we don't know about our Soul, it's like not being able to use the power of the Sun. This is why we have to kill and steal energy from others to meet our energy demands.

We saw this clearly in the EU, which is a higher source of energy, and when people went inside they reported that their physical problems got better or disappeared. The CR will feed the Soul, which in turn will feed the physicality. All the malfunctioning in the brain will stop, and the diseases will disappear. This is very hard for us to understand, since our science has created thousands of different chemicals to try and cure diseases. And now you are saying, all you need to do is to power the source of life with enough energy. Yes, it is that simple.

Then what will happen is we will create, what they call "farms," which is just a term meaning a place where huge numbers of these Cosmic Rays Units will be placed around the planet, and then we can connect via the phone lines to receive the energy we need. Even for emotionally caused illnesses due to a lack of love, we can connect to a farm and receive the "love energy." That way we prevent an illness farther down the road.

We are coming into such an unimaginable beautiful future, but we have to stay alert and participate in it, that way the transition will be much smoother. One of the biggest things we can do is to have that internal wish to really make the change and then to share the knowledge with everyone. There's a lot more in this workshop.

Thank you for listening
