Introduction to 463 KSW - December 16 Promised Day - The New Cycle Begins

December 16, 2022 will be remembered as the turning point in the development of Man in the process of discovering and living in his own Soul. The Christ attempted to teach this 2,000 years ago, but at that time Man was not ready for it, and afterwards the religions formed, but the leaders didn't understand the essence of the message and started creating dogmas of confusion. They have encased themselves in concepts that can never be fulfilled. Therefore they will not be a part of tomorrows celebration of the Promised

Day, the day we all, as well as them, have been waiting for. Nevertheless, we shall carry their Souls along, so that the return of Methi is truly fulfilled.

Just like at the birth of Christ when the pure and innocent Souls found their way to celebrate the event, so too tomorrow, only the layman of the Earth along with visitors of the Universe will together create the "Dome of the STM" and begin the interaction with the Universal Community. Even in physicality all the signs and symbols are there to show that this truly is the start of the change. The feeling for many of us is, that something profound has indeed changed, but we are still trying to understand exactly what. The spark has been lit and it is up to us to fan the flames, that the fire spreads and burns up our ignorance.

Tomorrow manmade Cosmic Rays will be used in the systems, as well as fields from the Cosmos that are not part of this planet. Another beautiful gift to mankind is that the Soul of the Creator, Mitra and the child of Mitra will all be present in the session. And members of the Universal Community have taken birth on Earth as ambassadors, just to participate in this event. That our friends from outside Earth will be watching and waiting to see the new light of the STM shining in the U. The change that will effect the whole Universe will begin tomorrow on Earth. When humanity flips direction to accept the new Knowledge, then the others will start flipping also. To be a part of this Cosmic event is truly beyond our imagination and how fortunate are those Souls who took part in it.

These sessions will continue to happen monthly until the change is complete. In this way the "fire" will spread across the planet. The call is for all of us to join in and be part of it. No religious leader, nor president, nor nation can stop the process that has been started. Even if they were to shut off the Internet our Souls are already connected and will continue the process. So when somebody asked if this will bring the world peace, the answer was wait and watch what happens tomorrow and there after. How can we have world peace if the hidden cause of the wars does not change? Therefore it was stated the Vatican will come to an end and world peace will begin. Another beautiful symbol was shown through the Italians. First they came in a flood to Linz, but that was to say good-bye, and now they don't come anymore. The Romans continued to rule this cycle through their Church, and now that the cycle has come to an end, so does their abuses. The man now will gain the knowledge of his own Soul and become free. The power released through the system and the Soul of the Creator will cut through the ignorance and many will get enlightened, if not tomorrow in the coming time as they mature. The counter balance to the ignorance of physicality is the love of the Creator. All that was promised is coming to fulfillment, but you need to look through your Soul and then it will be clear.

A little hint was given by Mr. Keshe in this workshop. He said, that for the first time he saw the mist forming around the top of the systems in the Linz flight room. What I understand is that the plasma has been formed. All the Knowledge Seekers who came to Linz to be part of the tests and even those who joined remotely through the mobile system have added part of their plasma to the system. Now the proof is here. In a way, isn't that the way we first see the Gans's forming in our Cup, it starts out like clouds.

Have we created the "Gans of Planet Earth" in that system? The conditions are all here, nothing can fail.

Another Christmas gift was given to humanity by Mr. Keshe. He will release another paper on what he calls, "psycho genetic." You can read the summary, but this is so important that it will again change the world of science. In brief, psycho genetic has to do with the emotions of the ancestors modifying their genes and then that gets passed down to the offspring's. The implications go way beyond that. This is the crossing point where our emotions have the power to effect and create the physical manifestation of who we want to appear as. Now we have the scientific proof of it. But it also means if you want to change your eye color, then you do it through your emotion and not by chemically manipulating the genes. One of the next steps in our education most likely will be how to understand, create, and control our emotions. What is interesting is that in these sessions you sit and listen to the silence of your Soul. Maybe the deeper we go into the Silence, the more we come to understand ourselves without the denials of the physicality, and then we'll discover about our true emotions.

There are more beautiful things to study in this workshop. The Christ brought the essence of the knowledge, but we show it in physicality. Now not only are we ready, but we have the capability to understand it, and the satellite structure to spread it across the whole planet. What happens tomorrow is what is meant by, "we all become the Messiah of our own Soul and nobody else". Now the knowledge, power and technology is here to do it - without fail.

Thank you for listening

Quick Index

It will be interesting to see how the next steps in development of the technology will come about. (As we saw 50 years ago, mobile phones were something of a dream back then, and we saw them on the "black and white" films). But today, every person carries one, even in the jungles of Africa, or in the backwaters of Brazil.

Today we are building a new structure and new science with this technology. But we are building it on the knowledge of the past, so that man can use it, understand and gradually change. If we didn't have the (network of satellites and mobile systems we wouldn't have been able to share all the knowledge we do in today's teaching. Most probably people from every nation on this planet are online listening. In the next seven days, or 12 months, people of every nation, culture and creed, will listen to this teaching and all the other teachings as well).

If we would have brought this knowledge to a tribe, like the way it was given to the Egyptians, it would only stay in one place, and would not grow. (It needed to have the communications we have today, to make it grow the way it has. (The last time we gave the knowledge was to the Egyptians, they built the pyramids, but the knowledge

remained local. Now with the knowledge man has built up over the past thousands of years, he has create a global structure for humanity to receive the knowledge).

How many more "pyramids" (is humanity going to build? Now that we have been taught what the true pyramid is, we can we make them from the Star Formations, and everything else we learned. What got lost in the culture (of Egypt), now it has become the culture of everyone. We had to go through the development of computers, satellites, and mass communication, to the point that it became normal and everybody understands and has gained trust in it. Now we can bring in the next step).

(If mankind thought the microchips and everything else was something you found by accident and then achieved, you have a long way to go to understand. We had to develop these technologies, so that the Totality of the man could understand and change. The new communication systems allows us to do this. We can reach all of you in one instance in every language on this planet. In one way or another, you'll come to understand the essence of the knowledge).

You don't need to read books, or to understand how to make Gans's. Many people in Amazon and in Africa have never read any books, but they know how to make Gans's. They understand the knowledge, that is not written, but is created by the Creator. This was the whole essence and purpose of the teaching. The whole purpose of the teaching was to hand it down to those who are here to serve and teach the others. In this process, we'll bring every man online.

(When we put out announcements for different events, then we see how many nationalities and cultures come to join in. Tomorrow's celebration of Christmas by Keshe Foundation will be a magic time. All of you are coming with different expectations and reasons. But I'm sure by the end of the session, you will understand, that you were brought here by your Soul to experience something unique. To experience what mankind has dreamt of from time of Christ. It's not a teaching, nor processing, nor there for you to reach your dreams of flight).

Tomorrow's experience (will show you the true essence of the understanding of Christmas, not by eyes, but through the Soul. (You will feel where the Christ was born, and the time he lived his life. Tomorrow's teaching is not a teaching. It's a teaching of the Soul. It's a teaching, that you will understand the essence of the Creation. Many of you are coming with a lot of hopes, like "I have cancer, I want to go to the Moon, or I want this and that.") But I'm sure you'll be surprised how your physicality (P) has brought your Soul here for the purpose of delivering the knowledge and understanding the elevation of the Soul of humanity).

Christmas is a time of giving gifts, of giving the gift of life. Tomorrow mankind will receive a gift, that he could not even imagine exists. But this gift can not be (given to only one person, it has to be shared and understood by all. The world will experience an evolution and revolution in science and technology, that none of you have ever seen before. Some of you will come out of the session and not even understand what has

happened to you. We will educate the Soul of the Man (STM), and deliver the knowledge of the Creation, then we'll see the change).

(Mankind learned how to write and make speeches, and everything else to connect to all the people But this time, the Soul of the Man will be given the freedom of passage, (to reach) all the nations, nationalities and every corner of this planet. You were only looking for the "dome of peace." Tomorrow we'll create the dome of the STM on earth. Some of you might not understand the experience you will go through tomorrow, or you might understand it in the future when you mature. And some might understand during the process of the celebration).

Do not come with expectation, because you might get disappointed, or you might receive more than you bargained for. But understand that those who are joining the celebration tomorrow, will understand the "new understanding" in the time to come. Some might get enlightened, or the enlightenment will come later as their Soul and understanding matures. Then they will understand what they received by the dimension (D) of the Soul.

Expectation is the job of the man's physicality. Sharing unconditionally is the job of the STM. And it's time to bring that in. It's time to bring what was the gift to mankind. And then we'll see where the mankind will take it. It won't happen overnight. He needs time to understand the soul of the totality of all the beings on this planet, and (each has to come to their own balance in respect to the other).

Tomorrow is the Day of Promise, where the "lamb and the lion will sleep in the same den." You will understand when you go through the process. We have closed the registration and those Souls who are to be there, will be there. We expected and targeted less than 100, but received much more, and for that reason we are allowing everyone to participate.

There is no other way to change the course of humanity, (except for when the soul of humanity is ready, to bring that change to the P. We could not do one by one. Now it's to be done in mass. In a way, tomorrow's session will be the start the process of connecting the totality of the soul's (on this planet). It's what I call, a trigger point, for the soul of the Earth and all his creatures on this planet, including man, will start the process of "rising from the dead." Where dead in this sense means, not understanding the process of Creation. This process will be valid for every man and every creature on this planet).

Tomorrow we celebrate the beginning of the life of humanity in the dimension of the Soul and not physicality. The birth of Christ was a symbol for this, but man took it the wrong way. Maybe the time has come for man to understand the true essence of the "Son of God." (Maybe the time has come for man to understand what all this was about, and how everything was played for man to become eager and hungry in the dimension of physicality to follow the path of understanding the total knowledge of the Creation. If we do it for you, then you would change it. But if you do it yourself, then it becomes like "psychosomatic," then you keep it, because you created it).

(For the first time in public, I explained last week in the German teaching that the Keshe Foundation will release a very important scientific paper in the coming weeks. I have not written a paper for years. But this paper will bring a new cycle, a new dimension, and a new understanding in the world of (how man is created)).

(Mankind has accepted and gotten used to using term psychosomatic, which means that whatever happens to you psychologically, it will manifest itself in the physicality of the body. (Mankind has learned that every psychosomatic condition goes through a process of emotion. Man looks at the emotion only at the beginning, and only at the end, but does not understand how it came to be)).

The scientific research still going on and the new knowledge will be laid out in a very simple way. (What mankind calls DNA is like a "hard drive" of a computer, and is not the information (itself). They say there are a sequence of proteins, that make up the structure of the physicality. They call these, blocks, and it's like stacking computers on top of each other. The stacking of these computers or memory banks are put in a box called, the human body. (But these memory banks cannot do anything), unless they can communicate with each other. They need to have a software, which is a communication line. In their environment they all need to be able to receive the same energy and same information, so that they all can balance each other and create a structure).

(How do they receive the information carried by emotion? This is what we call, RNA, which is the communication line between the memory banks, (that carries the information that will be stored in the hard drive, or DNA). When we have emotions, they create an (electric) current, which also carried the information, (as) magnetic fields to be released to the DNA, (which then directs) the physicality (how to organize itself)).

(Mankind learned about psychosomatic, but now there is a new word he has to understand, "psycho genetic." This means that psychologically we create a genetic modification in our body. When we say, the child has genetic deformation, how did it start and where did it come from? Where did that information come from? (The information moved from one memory bank on a computer, to another. We call this genetic defect. Or even if it only behaves like the other, then it can also bring a genetic defect).

(Through the new knowledge we call it, "psycho genetic." This means that the essence of emotion can cause a modification in the genes, what we call, genetic defect. (The genetic information, through emotion gets moved to a new location, and that changes the structure).

(Psychosomatic is when we change our body ourselves through our own emotions. But when our forefathers have generated an emotion such that, it can move the genetic sequence, then this gets passed on to their ancestors as a genetic defect. Information created by the essence of an emotion, creates a M field in the plasma of the STM and in the D of the P of the brain, it then moves that information from one memory bank to

another, or it causes one to behave like another, and this changes the (genetic sequence), where it doesn't fit the normal structure anymore, and we call it a genetic defect) .

(The new knowledge of psycho genetic has been given to mankind. The emotion creates a M field in the plasma and interferes or moves the memory banks around, which changes the original structure so the genetic sequence is off. To compensate, the body tries to move the structure so that it can fit the changes in). (Then to us this looks like a defect. It's really the body compensating for the changes caused by the emotions. With the new knowledge we learn how to create a plasmatic field strength, or to give it energy, that the body can change it back to its original position, or at least make it work the way it was supposed to). Then there will be no genetic defect. We don't modify the genes, we correct.

(With what we call, psycho genetic, man will become a perfect man. Wherever you land in space, it will deliver a perfect gene, a perfect combination for the structure of the building. If you have a cancer on Earth and you land on the planet Zeus, you'll still have the cancer, but it won't be able to kill you, because the genes have decided, it's one of us and we'll look after it. It's a new part. It won't create a defect. In Plasma everything is accommodated, so it will arrange for it to be accommodated. Psycho genetic through RNA, will become a new science for man to work with).

(This is not genetic modification where you change something, so that your child will have blue eyes, because you would love to have a blue eyed child. Instead, we transfer the emotion of the pleasure it gives you, through the emotion of the body and STM to the RNA. The modification will be perfect. This is how man will create the next generation, and next cycle of his children through the emotion of the Soul. Most of the (beings) are created this way in the Universe. But Man has been physical in every dimension, even in the regeneration of his own offspring's. The new knowledge and the new paper which will be released, will explain a lot of this for the next and new generation of the science and technology. The man needs to understand this to become a member of the Universal Community).

The Soul of Christ was created out of the energy of the love of the Creator, and not by sexual interaction. It carries the Soul of the Creator.

Mankind has to understand this. The new knowledge and technology will bring this understanding, and more understanding will be brought many KS in the coming months. We don't change genes. We are not in the world of man's fake knowledge of medicine. (We work through understanding of the emotions and field interactions of the plasmas of the STM and STP, and how they work).

(The Soul and the "Spirit" were the two things hidden from man, and those who thought they understood, abused it. (By not understanding the true meaning these words, they could be used to abuse the others). The Soul is like the Sun, and (the Spirit or STP, is like the emotion of the fields of the physicality. Another way to say it, is the Spirit is like the atmosphere of the body of the man. You could compare it to the atmosphere of the planet.

The interaction of the fields (of the atmosphere) decides what the Earth receives. The interaction of the fields of the body of the man, (or the Spirit) with the Soul, decides what that body is going to be made of). The provider and the interaction of the provider's fields with a dimension, position, time, and place.

(When Man becomes aware of the knowledge of Creation, he understands, that time does not exist, until the point it can be detected, and that becomes "zero time." It has made me laugh many, many times when I heard the scientists say, this or that planet is 4 billion years old. Time does not exist in the dimension of the Creation. (You create time and it establish it in your thoughts. You made up the date of December 25th for the birth of Christ. But originally the date was created for the Winter Solstice of December 21st, because it's the shortest day of the year. Where darkness is longest. After the 21st the time of the light gets longer and longer).

(The essence of the meaning of choosing the 21st was symbolic for man to understand that the dark days of his ignorance and lack of understanding of the Creation was over. That Man is progressing in the new knowledge. This was the essence of the meaning of the birth of Christ. And it was the essence of the birth of Mitra on 21st. But man got it all wrong, and then he had to give it the dimension of a "tree and a light," and again got involved in the physicality).

The dark days of man (being ignorant to the process of the Creation of Creator is over. He understands, that knowledge only comes through the STM. As I said, many, many times, man has got to learn how to feed his Soul, so that the Soul feeds the physicality, then the man shall not kill. The knowledge of the Creation and the Creator will come through the STM, when he feeds the dimension of his physicality, and he will understand the process of Creation).

(As we kept on telling you, that 80% of your energy comes from inside, out. It will be the same with the knowledge, from now on, man will receive the knowledge of the Creation at the point of need and understanding through his Soul. If you go to Mars, the knowledge you need to live a comfortable life and existence will come through your Soul. If you go from the United States to China, upon arrival you'll speak Chinese. But you will also understand the essence of the Chinese word, and not just the dictionary meaning). You'll feel the emotion of the language and the culture.

(But this time you didn't take an 18 hour flight in physicality on a plane from one place to another. You instantaneously transmuted your Soul to that place. The Soul educated itself in the dimension of time, place and position).

(When we release this paper a new knowledge and a new level of understanding the Creation and Creator's will occur for man. It will become easier. The essence of the paper is that what creates the psycho side, of the "psycho genetic" was the Soul inside the body of the man. And the STM is connected to the Soul of the Creator. Then you'll understand that the genetic (part) of the Creation of the Creator, is inside the embodiment of the man.

"I made man in the image of Myself." In a way through the plasmatic fields of Me, man has created itself in the dimension of the Soul).

(Then it's you who decides what color you want to be when you are born, brown, black, or yellow, and what color of eyes you want. For example, if I want to look like a beautiful creature on Mars from Earth, how would I do it? (What features would be pleasing to me, to manifest as, in whatever conditions I end up in. Wherever I manifest I will carry the full culture within me). I don't need to go to school on Mars or planet Zeus to understand what I need to live there. I get the knowledge of the Universe through the platform of the knowledge of the Creation, (within me)).

(With the release of the new technology we will abolish prisons and hospitals. When the man understands fully, then there shall be no schools and universities, as the man is a graduate from the knowledge of the Creation at the point of his inception).

(Those of you who carry the signs and placards of being a doctor, PhD, engineer, professor, electrician, and the rest, you had better find a way to keep it, because there won't be many of these produced in the coming time. A graduate from the knowledge of the Universe and the Creator will carry no papers, except what is ingrained in the STM).

(Those of you who are trying to put the fear into the others who want to understand their own Soul. We have seen these devils (doing their work) across the Universe. They want to hold you back, so that they can abuse you. Because when you have the knowledge and understanding of the Creation, then you will have the freedom of the Universe. We don't want your Soul. Our job is to teach you how to understand your own Soul. Those who tell you that we are in the process of capturing your Soul, or whatever, belong to the group of child abusers, the churches, mosques, and the rest of it. They want you to feel guilty, so that they can abuse you, because they have been abused themselves. Those who tell you not to participate and "don't give them your soul," these are the ones who have kept man away from understanding the knowledge of himself and the Creation. Because they have themselves been abused, they now become abusers).

It's for mankind to take the next step and understand the true process of the Creation. The paper to be released will be as beautiful as the Book number 1, 2 and 3. It will be brief, but (deep in understanding the process of the Creation, in the matter state. Then you'll understand easily the process of the Creation in the plasma state).

(It's a new science and step for mankind. Instead of teaching and then waiting for you to understand, (we'll directly let you experience it in tomorrow's session. Then you can decide what you want to go deeper in for Monday's session. Many of you will have some of the most beautiful experiences of your life, that ever occurred many generations before you, or will occur after you. You are the one who decides to be that point of change).

Some of you, or most of you will not see the change or understand it, (but in time you will. As we say, "my grandfather was there when the first light bulbs were lit by Tesla in

Chicago Fair." Your children and your great grandchildren will also say, "my father was there on the 16th of December, 2022 when the first light of the STM was switched on").

(The promise of the change in 2022 was given to man in all the scriptures. Tomorrow we will fulfill that promise. It's the return of Messiah, the manifestation of Methi, and the completion of the cycle of the man. It's not for an individual, but by the "Soul of the Totality." People from every culture, race and creed tomorrow will participate to bring that change. The new birth of the new beginning for man to understand the cycle of his Soul, and not in the dimension of a "candle and a tree." (Meaning all we are left with from the Christ is a ritual of lighting candles on a Christmas tree. The essence of his life has been lost). In the coming time, many of you will celebrate, that you were there with your Soul when the time of Methi came. Which means, I was given the means to have the knowledge to understand myself, and no more).

(This brings the end of the religions, the fake religions, with the fake followers. It brings the beginning of the true understanding of the knowledge of the Creation, by yourself, according to your freedom to understand and accept, and to bring that change, not just for you, but for the Totality).

(We just provide the stacker of computers and the server room, that you all can log into. It's like in today's teaching, you all have come here through different computer servers, different connections, and different operators around the world to be here. Tomorrow, you all will become the servers and operators, and we will be the facilitators, that satellite in the sky, that allows you to work together as one. (From now on the lion will lie down with the lamb and they will eat together. Tomorrow, the Russians and the Ukrainians, the Chinese and the Arabs, the Iranians and the Jews, all will be online together through the dimension of the Soul, then they will find a final solution (to their problems of the physicality) in dimension of the existence of the man).

Now, you understand why we are celebrating tomorrow as the Christmas celebration, as the day of Methi, the Promised One. (But it was never supposed to be for just one person, it was always to bring the understanding to the totality of the whole of human race. We are just the facilitators, like the satellites (that relay the message), and those of you who participate will be the mobile phones in every corner of this planet. (Then we'll make a Satellite out of all of you through your Souls interacting at the same time).

(Tomorrow, those who observe the STM in deep space, during the session they will see a new star, a new light, a new dimension radiating from this planet. (When the Soul expands or moves from inside to outside, it will radiate). This time the STM will shine on the outside. Up to now they only saw the planet, now the Universe will see the STM, and the citizens of this planet).

Tomorrow we will see a massive change, the beginning of the end of wars, and the start of world peace. We'll see the unification of mankind with the Universal Community. It's for mankind to see what knowledge they can gain from the "University" of the Universe, and the Universal Community, (which is) a bank of the knowledge of the Creator.

Then we'll see what would your great grandchildren born from the fields of the STM will tell the others in the Universe. Will they say, "When the change came, my grandfather was there in the dimension of physicality."

(Now, there is no possibility that the Vatican, or Ayatollah Khomeini, or the Islamic world, or whatever and whoever, can (scare the man, so that he doesn't open up to the knowledge). They can live with their own fallacies of, "one day (the Messiah) will come." The truth is, the Methi, the collection of the interaction of the Soul of the Humanity will rise up tomorrow. There are over a hundred of you across this planet. It's impossible to stop you all. (We as Messengers) have achieved what we came here for, which was to bring the day of the manifestation of the Methi, or the Promised One).

The understanding of the Soul of the Collective Soul of the Man, of the process of the Creation and the Creator. The enlightenment of the soul of the Totality of the creatures of this planet. Don't forget what Einstein said, when you flip one (electron), the other ones flip too. When the Soul of Humanity reaches to and understands the Soul of the understanding of the Creation and the Creator, the rest of the citizens of the Universe will also turn and be educated. Maybe now, the whole of humanity becomes aware of what we call, "evolution and developments of understanding the process of the Creation and the Creator."

I'm sorry for those who are hoping to go to planet Zeus and get a PhD and then come back and say, "I have a PhD from the University of Planet Zeus." There are no papers, and no Universities in the U, except in the imagination of the fallacies of the brain of the man.

Tomorrow, silence will speak for itself. Tomorrow, many of you will understand why you joined and why you wanted to become part of this experience. People went to Chicago to see the first light bulbs being lit for the first time. (The whole of the Universe will come to Earth tomorrow to see the enlightenment of the STM, and this will bring the change to the rest of the Universe).

It's your Soul who chose for you to be there, and not you. You're just a tool. It's psychosomatic, but in essence (it's "psycho genetic," because your genes have brought you here to be, to be in this cycle of the change for manifestation of the Methi). (Does this mean that the correct behavior of our ancestors brought us to this point, or that our Soul decided long ago to be apart of this, or both?)

Let the world of religion to wipe itself out, as you carry more knowledge than they do, as you carry the knowledge of the Creation. Then there'll be no theology, as the theory of the logic of the Creation does not exist in the dimension of religions. They never understood the essence of Soul and the Creation of the man.

We will be waiting for those who registered. How the Universe is waiting for the man to change tomorrow. (They are waiting) for the celebration of the elevation of the STM and the citizens of this planet collectively.

(Tomorrow the process will start and we'll connect the whole of the humanity together. Those of you who are pure, (it will come to you during tomorrows session. Those of you who have not understood the Totality, (and are still in the dimension of physicality, it will come to you in time).

(We tested this with you during a couple of sessions in Rick's program). But tomorrow it will be in Totality. The time to test is over. We will have access to the dimension of Cosmic Rays, to the dimension of the STM, and to the dimension of the Soul of the Creation. The Promised Day will be upon you tomorrow. We are just the facilitators. We are the Messengers who were sent to create the time, position, and the place.

(Interestingly, the city of Linz is where Hitler came from, and now from the ashes, rises the new technology like the Phoenix. It's the end of the physicality, and the beginning of a new life for humanity in the dimension of the Soul in the Universe. The "Phoenix" was burned in the gas chambers of Linz, and now the new cycle begins from Linz. I hope humanity understands. And I'm sure a lot of you have understood).

End of Quick Index Part 1

I think you've got the message of today. Humanity has been waiting for this message for centuries, maybe for thousands of years. You were all looking for that Promised Day, that promised day is tomorrow when humanity becomes ..

(Mankind likes to go to conferences. Everyday thousands of people go to conferences or participate on the Internet. Tomorrow is the first time when the Soul of the Man (STM) will go to a concert, and the room will be filled with everything the man needs, from Cosmic Rays (CR), to the soul of the creators, to the STM, and everything else).

It's the first time when the souls meet in one dimension, and with the soul of the Universal Community. Many of you will imagine, and you will see things you have never seen before, and you'll say that you had a dream, that something came, or you envisaged something. But everything you see tomorrow, and everything that comes into your head and registers in your brain and the dimension of physicality (P), is what is in the Universe.

Some of you who are pure in the dimension of the Soul will have the ability to meet with your Creator. (It doesn't matter if you claim you've done nothing wrong in the dimension of physicality, because wrong thoughts are as bad as the physical dimension. You have created that psychosomatic separation of the physical dimension, the dimension of psychosomatic. Mankind will understand soon).

(The members of the Universal Council, Core Team, Earth Council, and the rest, will all be present in tomorrow's celebration. Those of you who will understand will see some of the most beautiful things in the Universe tomorrow, which is nothing but the essence of the love of the Creator. And those of you who are still in the dimension of the physicality, you will see the seas, the beautiful waters, and the Moon. Let's see what you will have to tell to your children and the rest of humanity for tomorrow's celebration).

Q: (Will we finally have peace tomorrow?)

K- Just wait till tomorrow, and watch what comes up after tomorrow.

Our technology is a technology of the Soul, it understands the work of the Universe, not the physicality of the man. The guns, bullets, and tanks, are the job of the man. We'll shoot the bullets of love, and the rockets of unity. Let's see what it brings. Tomorrow the Soul of the Mankind and the Universe will come together. Let's see how you celebrate. Then the peace will come to all. Find peace in yourself, then it will reflect in the rest of the (world) around you.

Romania is sitting on the edge of the war. (The only thing that the Romanians and the rest of the Baltic countries around Ukraine is that, they shot the last bullets in the dimension of the Faith. If you look at what has happened in the past two weeks, you'll understand what I told you months ago. This is a war of religions, and not a war of nations. But you didn't understand).

(For the first time ever in the history of man, we see a nation confiscating the assets of another Church. By the order of the Ukrainian president, all the assets of the Russian Orthodox Church (in Ukraine) have been confiscated. Voilà! Now you see what I told you months ago. (That the Vatican was after the gold in the Russian Orthodox Church). What has a war between nations got to do with the Churches. Now you understand how the Vatican is involved in this. Read the newspapers and see what the President of Ukraine has done).

He is just a tool to bring the end to the religions. As we all know, he was a comedian, a monkey on a string. Now you understand what I told you months ago, that this is a war between the Churches. Now you have the solid proof of it. Now you understand how much we know, and how much sits in the background. (It's very much like if a nation like Israel, where the government orders to confiscate all the Islamic assets and mosques and add it to their own). Would that change the belief of the Muslims in Israel? Or is it just a move, the greed of the structure? In past seven days the Ukrainian president has moved to confiscate a religion's asset. Now you know what is to come.

Q: Can I sit in a stationary car for the flight test on the 16th?

K- You can sit in a UFO, or a stationary car, submarine, a plane, or be a member of the satellite somewhere. Your physicality can be anywhere, it's your Soul which connects.

R: As long it's a quiet environment, basically.

K- If we hear disturbances we'll switch the person off. As somebody said, by the end of the session, there might just be a handful of people left. If you have Mosfeq which always has the traffic beeping in the background, or Stefania, who always jumps in with other things, or others living in noisy places. We have to take you out, because you disturb the peace, as I call it. It's not your fault, but it's a collective open session.

Put all your phones on the "flight mode," which means you cannot receive any telephone calls during the session, but you still will receive the Internet. You have to have the internet connection.

If we get a disturbance, we'll take you out and switch off your line. We won't give any warning, because there's nobody else to warn. If the people in the background see noise coming from the microphone they'll switch you off. It's for you to make sure you stay somewhere safe and quiet.

Do not switch your microphones off, because then it becomes a one way traffic and you won't receive anything. Do not switch your microphones off. The Keshe Foundation systems are all over the place, in an underground bunker, as I call it.

Q: (What will happen if someone does disturb the session and their Soul is already in Linz or somewhere else? Would there be an accident? What would happen to the person?)

K- Switch your mobile phones off and stay away from it. That's all we can tell you.

(We have nearly double the number of people we wanted, so the chances of mishaps are there. We have set up absorption systems in the background (of the main system) to take some of these things out. There will be systems to absorb running in the background). It was built into the systems in Linz from the beginning.

For the first time you will have participation and connections with the Cosmic Rays (CR), which was built by the understanding of the man, and the same outside. (The CR that are part of this system tomorrow, will never reach the Earth. They are not part of the inner structure of this planet. So in a way, we added some "sugar to the pot," to sweeten your experience. They'll bring a totally different dimension, (as they did) in the tests we ran with them).

(These (sessions) cannot be recorded. Do not try to record them, or you will understand. If you break the law, you pay by the law of the Soul. Do not try to be clever and think you can record it).

(Only those who have sent their emails in will be allowed into the session. (For those who think they can try to disturb the session by posting the address all over, nobody will get in without being registered). We control the panel and we have a list of those who have registered, the souls who have volunteered. If you have paid, but haven't received the reply email, look in your junk or spam box. All of you should have received your emails last night. Sometime this afternoon the Zoom number will be sent out. Do not

release it to anybody. Do not give it to your brother or your sister, because nobody else will be able to come in, you're the only one.

To benefit by the session, you need to have your headphones on your head. Do not try to share the headphones, or you will see what I call, "other sides of the job." One headphones per person, and one person, one soul per system. The soul who chose to be part of this experience.

Q: Why to use the wired headphones, and a mobile phone, instead of a regular desktop or laptop?

K- (They each come with their own inherent problems. We get a lot of interference with Air Pods. The desktop computers or laptops create a lot of information, which can interfere with what you receive. Close all the Apps in the background, don't come into the session with Apps open, close everything down. This way you will be in the direct line of the information. Make sure you have enough battery, that can take you through the session (or plug it in).

Some people asked us how many hours it will take. It took billions of years to get man to the point where he is today. We need time to create that "Methi." There are over 80 races, nationalities, religions, and schools of thought, on the panel tomorrow. Each race will leave their imprint on the system. Tomorrow you will all share each other's soul with the Soul of Universe, and with the imprint of the work, to bring that change.

Maybe now you understand what this process tomorrow is. In a way, we are synchronizing the human soul with the Soul of the Universe, and you're all doing it together. Now you understand why your Soul has brought you to this position. You didn't become a Knowledge Seeker (KS) just by accident. You never understood that your Soul brought you here to bring that change, and to become part of the Universal Community. It's not by accident, but by the elevation of the work of the Souls. Remember, you've been promised (through all the scriptures of a) Promised Day. The Promised Day has come.

Q: (You said, do not come with expectation, but on the other hand, come with a lot of wishes. How will this be managed? You know, we all our work with expectations in our life).

K- (People are writing us, "if I have cancer, or I am a drug addict, and if I come will I get healed? This is not a healing process. Your Soul has to bring you in, for you to be part of the elevation process of this planet. (We are doing this to elevate humanity). Not for you to be cured, or whatever else you expect).

Some people will come to the session to join the Universal Community and others for reaching peace. (Tomorrow is very much like going to a Christmas party celebration. (It's already setup), it cannot be changed. (When you go to a diner party there is a starter, then the main course, and dessert. And the drink is what the Christ gave, this is my blood, this is my (body)). You'll understand.

(Tomorrow's session is not for healing anyone, it's for the elevation of the STM, and the "promised goal" of entry into the Universal Community. It's the day promised by many (scriptures) for centuries. You'll understand. It cannot be done by only one man. It has to be the collective essence of the Soul of the Creation on this planet).

(By going through the list I have noticed, that amongst you tomorrow are a number of those who are guests on this planet). They have joined in, in the name of their physicality, but we know them, as they are passengers of the Universe. These are the ones who will bring you that connection with the Universal Community, as they are part of it. None of you will know who they are, but we know them, as we have known them for a long time. They are members of the UC. They are in the shape of the human race, but in truth, inside they're from different parts of the Universe.

It's like when you have a celebration and you invite presidents and ambassadors of different countries. They are the ambassadors of the Universe (to join in tomorrow's celebration. You will understand, it's not expectation, it's a celebration. That's what it says, it's a celebration of Christmas. But not the birth of the Christ, but it's the start of the man to understand his own Soul. In doing so, you join the Universal Community. Don't expect to see lights and parties, that's for the Universal Community, which is already (celebrating)).

If you've been waiting for the Day of Methi, the Day of Judgment, or the Promised Day, that day is upon you tomorrow. The Universe has been waiting for this day for billions of years, in man's time. You are part of it, not us. It's you who do it, we are just messengers. (We are like the cameraman and the guy who records the sound. We bring the computer for you to hear the music. The voice and the emotion are the Soul of the participants, which are from all over the Universe. For sure the Creator will be present. Mitra and the child of Mitra will be amongst us tomorrow. It's for you to be enlightened, not us. We came with the light.

Any microphone with headphones should be okay. You can plug in your battery charger.

(The session will start at 12 o'clock sharp. It finishes when the Soul of Totality reaches a balance. If suddenly the session is finished without notice, understand that it's not our decision. There will be very little spoken tomorrow. It's not a party with music, dancers and singers. It's the "song of the Universe." You have to find out for yourself, the process you will go through. If you bought the black disks or Nano Plasma Mirrors from the Store, try holding one in each hand during the process if you can, then you will understand more, why you bought them).

Q: (I am wondering how to put the headphones on my 11 year old son, as he will take the flight with me tomorrow. Should I just put the earphones on him and say, "listen to your Soul"? Because I will not be able to hear, if any instructions are given in his earphones).

K- That all depends on you. There'll be silence. Amazingly it's a silence that nobody wants to leave.

(We had this experience with some very young children, who refused to put the headphones on. In the first sessions they objected. But after a while in the second session, they themselves wanted the headphones. Listening to nothing in their ear enlightens their Soul. It's amazing how children change. I'm sure it's not something that will be a silent, nothingness. It's a "silence" that has everything in it. It depends on the expectation. (Let him know), that it is a concert of silence. It's a concert of the Souls. You will have to explain this to those who you bring in to participate).

Q: (Will the other 7 billion of humanity be receiving this also at some point? Will this evolutionary step for man be for all?)

K- It is the beginning of an evolution, not (just) for man, but for the whole planet Earth and its citizens, which means the cats, dogs, plants, and the stones. It is the beginning of a hurricane. (It's like when you have an avalanche, it starts with a single snow flake, and then another joins it, and another until it becomes an avalanche. Today's session is that first snow flake, and the avalanche will come).

We'll follow this session up on a monthly basis till it's complete. It's just the beginning. A lot of souls who were in this session will come to the other sessions and then it will build up.

Q: (You said there were souls from the Universe joining us, so there's a cross section of physicality and Souls and the Soul of the Physicality?)

K- (The Soul that are here as ambassadors of the Universe, are manifesting themselves (as humans). They have chosen to be here in physicality, and not to be hidden or invisible. They have come to your party, and have masked themselves in the human body. (Don't expect there to be ?? invisible people here, or those with just the outer appearance of a human body). People of the Universe are waiting for these ambassadors to tell them what happened in that elevation, just as much as the human race wants to know. There are no shortcuts (or special privileges)). (So I guess this means the ambassadors of the U will report back to their races through the level of the Soul).

Q: (Will there be any physical interactions to be seen during this session? Or it's all on the Soul level?)

K- (It's all in the level of the Soul. Mankind has done enough interactions with your cameras, television, and programs like Zoom. You've done all that. This you can't record. You can't record the interactions of the souls. You haven't yet made a camera for that).

Q: So the illumination will be only from the inside?

K- That's all it is.

Q: You said, this is going to be gradual, but then it will be a torrent, an avalanche of people coming forward to experience it?

K- It will be done. That's the only way we (can) do it. If we don't do it this way, then it will again become us doing the magic, and nobody (understanding it for themselves). (When the Christ rose a man from the dead, they only said, "oh, he gave life to the dead." They only saw it as a magic show).

Now KF has scientifically done it, and it's not magic anymore. When we gave life to Naomi, has Giovanni become the Christ? Now it's a knowledge. We taught and showed him what to do, and he followed it step by step. This way it's not us creating a magic.

(In the past few days we were involved in a very specific case of a coma patient outside of Europe. The doctors and the brother were present and monitoring how we worked. We did it by remote elevating of the Soul. Then we saw the changes in the face and the eyes of the coma patient. They all said, it was impossible). (Normally after a long time in bed you have to do physiotherapy to get the body moving again. Not with this T. You just elevate the Soul, and the Soul wakes up the physicality).

(The Christ brought the essence of the knowledge, but now we show the physicality of it. Man has been looking for it. That dead body was the man with his knowledge).

Q: Will the souls of the Vertical friends and others be a part of this change?

K- They are present. In KF we made sure that everybody is present. You look at a cat or a plant to be (physically there. We look at the essence of the creation of that plant and animal).

Q: How is the amino acid structure of this planet going to tie in with the amino acid structure of the Universe?

K- What do you think you are? You are already tied in, they made you (from it). So, it's already there.

Q: (Will the people just listen to "white" noise, or will their senses of physicality experience anything?)

K- You know what the guy said, watch the space.

I'm sure over the next week or in the months, some of you will talk about your experiences of tomorrow, which you couldn't even remember during the time you went through the system. Tomorrow is like a beautiful game, and we'll unite humanity.

(Some of you may remember, that I'm a football (soccer) freak. France will come into the finals of the World Cup. The person who made the most goals on the French team was a

person of color, of a different race, but he is French. We saw some years ago when France won the World Cup. I think Mr. Keshe is trying to say that because of one game, and because now the whites could love a person of color who brought them victory it united the country and had changed the social and economic structure of France, to be what he calls, one nation. And tomorrow's session is like that football match, but on the level of the Soul. But it's not a match, it's a party of the Souls to make One Nation and to bring that change to humanity).

Mr. Keshe compares the football match to tomorrow's session. In tomorrow's session everybody brings their own ball, which is the ball of their Soul, which is a sphere. But this time we all play with each other's Soul on a fair basis, (to be correct and we don't need any referees. This is the beauty of the game, which will start tomorrow. It's not a game. It's the operation of the STM, which is a game changer. We're not chasing to be on one side or the other. In this game, everybody brings their Soul and kicks it in the same direction, and we try to get everybody to play the "beautiful" game. The game of the Souls has no limitation, as the Creator Himself comes with His own ball).

Q: So this ball that's been shared Mr. Keshe, it can be passed around amongst all?

K- It's not shared. You didn't hear me. You don't want to hear. Everybody brings their own ball.

(You don't share a ball. You understand that all the balls are all the same and you can work together to make a bigger ball. It's like if you look at the football, different patches are sewn together to make the ball. Each one of your Souls tomorrow will be a "patch" to make that bigger ball). Tomorrow will be very interesting.

I wonder if any of you will be able to distinguish between your Soul, and the Soul of the Creator and the Soul of Mitra. I made man in the image of Myself. (Tomorrow, we'll see many twins).

Q: This opens up a very big aspect for all the souls present on the planet and obviously for the Souls from the Universe. It's the joining of humanity with the Universal Community. It's a big opening up for humanity.

K- (It depends on you and how correct you want to be with yourself). (Or how honest you want to be with yourself). (Nowadays, if people can't get to us, when they come to the Linz Center, then they go to Dean, and get him to ask Mr. Keshe their questions. If that doesn't work they go to Mario in the upstairs office. They know that these 2 are near to Mr. Keshe a lot. They try to get away with these kind of things. But tomorrow these kind of special privileges won't exist).

Mr. Keshe talks about Dean being in the Center for past four or five months and he has never broken the "law of acceptance of the souls." He never put a foot in the flight room since they opened. (Even though he is there and sees all the change people go through when they come out of that room. Still he never wondered to walk in it. Dean said, not

unless invited Mr. Keshe. That's very British. In British culture if they invite you at 3 PM for tea and biscuits, and remember dinner is at 5 PM. If you stayed a little too long, and it's dinner time, they prepare and have their dinner while you watch them, and keep with your tea and biscuits. They don't invite you. It's very British. Mr. Keshe said, he couldn't believe it the first time it happened to him. But that is the way the culture is, you can't do anything about it). You don't touch when you're not invited.

So, Dean is very British, he's there all the time, but he's never been inside the flight room, because he wasn't invited. He didn't invite himself, he didn't go and register to get in, so he didn't get in. This time he registered, and now he goes in. But that's how it is.

Q: (Mr. Keshe, you've always said that, when it's meant to be, it will be). And you've always been extremely, extremely patient, and given everything to the Knowledge Seekers and humanity, and literally everything to bring this forward.

K- (I mentioned this before that the director of Iranian television said, we'll be present when Methi appears. The saddest thing is, tomorrow when the Methi appears, there will be no television rights, and nobody can record it. And the worst thing is that, some world and religious leaders have in their plans for the coming of the Messiah or when the Methi appears. It's even written in the religious side of the Iranian constitution, and they have made an army to protect the Methi when he appears. Tomorrow, no kings, presidents, or world leaders are invited to the day of the manifestation. It's really amazing that the layman's soul is more important than the kings and the presidents of the world).

This is the day that was promised a long time ago, and it's not coincidental. This day is part of the change, which will bring the bigger change that humanity has been waiting for. But it will be brought in step by step, and from month to month (it will progress as more and more will be added to it).

In the middle to the back end of next year, people will give everything they have to be part of this experience. Kings will give their crowns and kingdoms to be able to be present in that encounter with the Creator. We don't fight, we allow you to destroy yourself. This process starts today. It's like there are a limited seats and a limited number of people who can be part of it. (It will progress like when a new band starts out. First they sing in the pubs, then the nightclubs, on to the theatre, and finally you get to the stadiums and satellite coverage for the whole world to see).

This is the beginning of that process. (Tomorrow is like the private club, in which the souls will start the process, and it will end up in the stadium with whole planet being a part of it). We are just providers of the facilities, nothing else. We promised that we would bring the Creator and Mitra, and Mitra's child. All 3 will be present tomorrow. It's for the man to understand, that a new generation, and a new cycle of life has started, and man is part of it.

Q: I can feel my body shaking a little bit now, just (when you said that).

K- It will be there tomorrow. You all will feel it, and you all will go through it, and then you'll understand it.

Q: You said that some people use the energy from the system, and others use less. You also said, that the UC members used zero energy. Does the system have some way to measure what the people take or maybe give? Or do you feel it on your own?

K- Both. (Sometimes I have shown KS gadgets in the center of the room where we watch the traffic flow.

(Yesterday I was working with one of our KS whom I really enjoy working with. Amazing things happens when he's around. We were testing something together. He's from outside Europe. As I was walking around the units and explaining things to him, my pen fell on the floor. As I bent down to pick it up, and when starting coming up, I noticed a kind of haziness or fog around the systems. I said to him, what's going on, wait something is happening here with the systems. It's like the top sections of the systems were in a mist, which normally is clear. I checked it 10 times to make sure it wasn't an illusion).

(What it is, is that the plasmatic fields in the room are taking over. The room is not clear anymore, it's like there is a mist or a cloud in there. (It's like when the clouds in a city cover the tops of the skyscrapers). This is the part where we hold all the information (and energies of the systems). We will not switch the machines off, but leave everything on as it is).

(This means the plasmatic fields have been established and are here. I saw it for the first time yesterday. It will be amazing when we add the Cosmic Rays to it tomorrow. It will charge it up. (This is confirmation that we have the full plasma in the room)). It's beautiful to see it, and it will bring what I always said, that you will not see the system.

Yesterday I could not clearly see the other system which was only 4 meters away. (Normally when you come into the room, you always see a dark blue environment, and it's full of many floodlights. So the mist is not an illusion). Yesterday for the first time we could see the development and strength of the fields in the room. (When you always look on the same level you don't see it. But when I bent down and came up, then I could see how the plasmatic field were building up on the top levels).

Hopefully, in next few weeks we'll be able to add the Cosmic Rays for the transmutation and transportation. I'm sure the building will start glowing. (Tomorrow when you join the collective work, you'll become part of that structure).

From tomorrow onwards we expect, that the Pope will resign. When the king of Belgium made the threats to me, I said to him and the queen of Belgium, (when I leave, you won't be king much longer. We left on February the 13th, 2013 with three suitcases and one car, to Italy. A few months later he abdicated. When he wasn't the king anymore, he was

taken to court for his misconduct of an adulterous life and his own nation put a penalty on him).

(It's the same scenario tomorrow, only this time it's not a man with three suitcases leaving. This time it's the humanity with the "suitcase" of its conduct over the past millions of years. Now the change will come. No one can stop tomorrow's process, no nation, no king, or no president. Even if they switch off the Internet, the Souls have already connected, and that connection will bring that (change). Many kings (would) give their lives to be present tomorrow. But the only thing is, they'll find out, there are no tickets for (those who abuse other souls)).

Some of the enemies of the KF have enrolled for tomorrow. (We are aware of it. Expect your Soul to change your life. You will understand. All of you who came to the Center, (are part of that mist forming around the systems. Through your participation you left bits of your energy. Now it's all there, purified and beautiful).

(We were missing one part, to be able to balance the equation (for the planet). Two beautiful brothers came yesterday and (brought what was needed to complete the balance). It was beautiful to see how humanity is getting ready for that change).

(It's very interesting and touches deeply, that in the past few weeks we do not see any more Italians. In the beginning, they came in a flood. In a way, their souls are ready for the coming separation of the Vatican and Christianity from Rome. It's as if their souls know. As I say, they brought the guy (from 11.11 Italian Radio) to put them in the position not to be here. Because the Church will break up and there'll be no sign of it left, there could have been no additions from the Italians (??). Their souls know it and that's why they're not here anymore. (It's very much like how the Coliseum was used to build the Vatican). And now their souls know, (their time is over), the change is here and it will be the end of the cycle). (Does this mean Rome continued to rule this cycle through the Catholic Church?).

(The most beautiful thing was that the Italians themselves didn't understand it, so (through the soul) they brought in an element to take care of it for them. (He must be referring to the guy from 11.11 who went to Linz to steal, but couldn't so he destroyed the Italian community with his lies about KF). Since then we haven't seen a single Italian. (They came in the beginning) to say goodbye for all the abuses, which they brought to humanity in the name of the Italian Church. It's amazing how we are able to watch operation of the souls, and how they behave).

Q: Will the elevation of the Souls tomorrow be permanent or only temporary?

K- (Tomorrow is like when you start a fire with kindling. You put little pieces of wood in and blow to get the bigger fire started. Gradually it will come. Then it (will consume the whole of the life of the man. Once the fire gets raging, then you won't see that original spark anymore). You won't be able to find it, because now the totality comes. Tomorrow is that time, the Soul of Methi, The Promised One, the fire, whatever you call it. Is that

one. (This time you cannot crucify, persecute, or banish), because this time it's not one, it's the Soul of Totality. And the worst thing is, that it sits within the structure.

(In the writings of the Messengers it says, we took the love of God from the tribe of Moses for what they did to Christ. This was written in the Koran. Bahá'u'lláh wrote the same thing, ?? in a different way, with the same punishment, and it didn't work. But with different tribes. In the time of Methi we enlighten the souls of the whole planet so that nobody is left behind, and nobody is punished, and they all become equal. That day is tomorrow. (Those of you who are participating tomorrow) come from different tribes, different races, and religions. Each one of you brings a little kindling to start the fire). And this time nobody can stop it. Mankind will understand the significance of tomorrow. Gradually you will understand the Totality.

(Monday's sessions are a confirmation of Friday's work. I hope a lot of you who come tomorrow will also come to the Monday sessions, then you'll find some connections. Monday sessions are very, very, very special. We have chosen 5 different areas for 5 one hour sessions).

Dean said, I did notice that with some people who went into the system, it didn't always occur on the first visit. That sometimes the first visit is for balancing. Then they tend to receive more on the next visits.

K- It works. Monday sessions will be very interesting sessions for us to monitor the developments of what happened since Friday with the souls.

Q: So the physicality will experience something from those two time positions?

K- Psychosomatic.

A KS donated 4 seats for tomorrows flight.

Q: Can the hearing impaired do a session too?

K- I think it's the wrong question to ask. And a totally wrong question to ask. You don't hear the work of the Soul through your ears. So if you're deaf, blind, or whatever, you're working through your Soul. You don't need ears to hear. It will work the same for a layman, a king, or a deaf and blind man. In the work of the Soul there is no impairment. (So there should be no problem ?? if you're deaf or blind).

Q: With the millions of 5G towers around the world, how can the frequencies be changed for a healthier positive outcome?

K- What frequency do you want to change? (The frequency of the 5G is matched to the phones you carry in your hand). You cannot change it, otherwise your phone won't receive it.

(These things are planned many years ahead so that all the systems work together. So right now they are already working on the next level after 5G). So there's not much you can do.

(Tomorrow is a wonderful day, be there and be part of the experience). I'm sure each one of you will take something beautiful from it. See you tomorrow, and Monday, and next week, and the week after, during the Christmas and New Year, we'll be still here.

ENGLISH TRANSCRIPTION

(:20).

K- Yes, good morning, good day to you. As usual, whenever wherever you listen to this series of Knowledge Seekers, Keshe Foundation Spaceship Institute, in sharing knowledge, and trying to understand more about the world of Creation. (:22). It's interesting to see how the next steps in development of the technology will come. The limitation, which are Knowledge Seekers will understand. In a way, the world of science and technology of the man will change. As we said, if you saw 50 years ago, where (they spoke) about the mobile phone what it does, we saw it in the black and white movies. And it was just a dream, that something come like this. Now today, every person carries one, even in the jungles of Africa, or in the backwaters of Brazil.

Now, with this technology, we build a new structure, new science. But again, as I said, we build on the knowledge of the past, that man can use, can understand and gradually change. If we didn't have the mobile system, if we didn't have the satellites, today's teaching, and the knowledge we shared with all of you, you're most probably from every nation on this planet is online, every nation, every culture and creed, will in the next seven days, or in the next 12 months will listen to this teaching and the other teachings.

If we would have brought this knowledge to a tribe, the way it was given to the Egyptians, will stay in one place, and will not grow. It'll be staying there, because there was no communication the way it is today. The last contacts of the man with the building of the pyramids, became localized. With the knowledge that the man has built over the past thousands of years, (:24). Now, the global, the whole structure of the humanity receives the knowledge.

How many more pyramids we're going to make? Or do we make pyramids from the Star Formations and everything else, that now we learn what the true pyramid is. What was lost in the culture, now it has become the culture of everyone. We had to go through what we call, mass communication, development of satellites, computers, and make it so normal that everybody uses it. Everybody understands it, and gains trust in it, and works with it, that now we can bring the next step in.

If mankind thought the microchips and everything else was something found by accident man achieved, you have a long way coming. We had to develop technologies, that the man Totality could understand and change. And with it, now the new communication system allows us to this. Now we can reach you all in one instance, in, in every language on this planet. One way and another, you come to understand the essence after knowledge.

You don't need to read books, to understand how to make Gans's. Many people in Amazon and in Africa, have never made, have never made, read or seen some of the book. Let alone knowing what the side is this, but they make Gans's. They know how to make it. They understand the knowledge, which is not written, but is created by the Creator. And this was the whole essence of the teaching. This what the whole purpose of the teaching was. Handing down to those who are there to serve, to teach, serve and in that process, bring every man online. (:26).

When we put announcements out, we see how many cultures, nations, nationalities, and everywhere else, come into it. Tomorrow's celebration of Christmas by Keshe Foundation, it will be a magic time. You're all coming with expectation and why? And I'm sure by the end of the session, you will understand, you've been brought in by your Soul to experience something unique. To experience what mankind has dreamt from time of Christ. It's not teaching, and it's not processing, and it's not there to overcome your dreams of flight.

Tomorrow's experience, with the Keshe Foundation's celebration of Christmas, is the true essence of understanding Christmas, not by eyes, but through the Soul. Feeling where the Christ was born. Feeling the time of his life. Tomorrow's teaching is not a teaching. It's a teaching of the soul. It's a teaching, that you will understand the essence of the Creation. Many of you coming with a lot of hopes, I have cancer, I want to go to the Moon, I want this and that. But I'm sure you'll be surprised in how your physicality (P) has brought your Soul for the purpose of delivering the knowledge and understanding the elevation of the Soul of humanity.

Time of Christmas, is a time of giving gifts, gift of life. Tomorrow mankind the receive a gift, who could not even imagine exists. (:28). But this gift could not be given to one, it had to be shared and understood by all. The world's experience will be evolution and revolution in science and technology, none of you have ever seen. Some of you will come out and have not even understood what has happened to you. Where we educate the Soul of the Man (STM), where we deliver the knowledge of the Creation, that we'll see that change.

Mankind has been taught how to connect, how to write, how to make speeches, and everything else. This time, the Soul of the Man will be given the freedom of passage, through all nation, nationalities and every corner of this planet. You are alone looking for the dome of peace. Tomorrow we create the dome of the STM on earth. The experience you go through, you might not even understand it, and it might come to you in a future time, when you mature to understand. Or during the process of the celebration you will understand.

Do not come with expectation. You might be disappointed, and you might receive more than you bargained for. But understand those who join the celebration of tomorrow, will understand, new understanding in the time to come. They might, some be enlightened, and some will be enlightened in time to come, as their Soul and understanding matures, to understand what they received by the dimension (D) of the Soul. (:30).

Expectation is the job of the man, physicality. Sharing unconditionally is the job of the STM. And it's time to bring that in. It's time to bring what was the gift to mankind. And then we'll see where the mankind will take it. It won't happen overnight. He needs time to understand the soul of Totality of all beings on this planet, become to balance on their own in respect to each other.

Tomorrow is the day of Promise, which, where the "lamb and the lion will sleep the same den." You will understand when you go through the process. We have closed the registration. Those Souls who are to be here, will be here. We expected and targeted less than 100, but we received much more, and for that reason we allowed everyone to participate.

You've got to understand, that there is no other way to change the course of humanity, unless the soul of humanity is ready to bring that change to physicality (P). And we could not do one by one. Now it's done in a mass. In a way, the Totality of the soul's connection in tomorrow's session will bring the start, the beginning, that what I call, trigger points for the soul of the Earth, the Man and his creatures on this planet, all become to start the what we call, rising from dead. (:32). Dead in the sense of understanding the process of Creation. And that process will be valid for ever man, every creature on this planet.

Tomorrow we celebrate the beginning of the life of humanity in a dimension of the Soul and not physicality. And the birth of Christ was that symbolic. And man took it the wrong way. Maybe the time has come for man to understand the true essence of the "Son of God." Maybe the time has come for man to understand what was all this about, and how everything was played for man eager, and hungry in the dimension of physicality to follow the path of understanding the total knowledge of the Creation. If we do it, you would have changed it. If you do it, like psychosomatic, you keep it, because you created it.

What I explained in the German teaching last week, for the first time in public, the Keshe Foundation in the coming weeks will release a scientific paper. I have not written a paper

for years. But this paper will bring a new cycle, a new dimension, and a new understanding in the world of creation of the man.

As I explained, mankind has been used to, and accepted the term of psychosomatic. Which means whatever happens psychologically to you, (:34). will manifest itself in the physicality of the body. But mankind has now learned one thing, that every psychosomatic has to go through emotion, looks at the beginning, and looks at the end, and does not understand how it came to be.

The new knowledge, which now scientifically through the what we call, research, which is going on, will be laid out in a very simple way. Mankind speaks about DNA. DNA is a "hard disk," is not the information. Made of blocks, as mankind has called it, sequence of proteins making the structure of the physicality. It's like stacking computers on top of each other. These stacking, these memory cards, and memory banks, put in a box called, the human body, cannot do anything, unless they can communicate with each other. They need a software, they need a communication line. They need to be the a environment, that all receive the same energy, and the same information, that they all can balance each other and create a structure.

And then when it comes with that emotion, how do they receive the information? We call it a RNA, what we call the communication line, the bank of the memory's, what's going to go into these hardware. (:36). And then the emotion creates the current, the information, the magnetic fields for the what I call, the information to be released to the physicality of the DNA.

We understood psychosomatic. Now mankind has to understand a new word "psycho genetic." Where, psychologically we create genetic modification. And we said, the gentleman or the child has genetic deformation. How did it come in? How did it start? Where did that information come from? Where did the movement of one of the computer disks from one stacker move to the other. Or it behaves like the other, which brings that genetic defect.

Now with a new knowledge of what we call, "psycho genetic," we understand all the genetic defects, all the genetic information, which we call it, defects, or modification, comes through the essence of the emotion of the Man. What happened to your forefathers, or what happened to you in one point of your life, that you create an information that, that information through the essence of the emotion dimensions of the magnetic field of the plasma of the STM and physicality dimension of the brain, becomes, moving one from, from one bank, into the other. Behaving like the other. And then it doesn't fit in, and we call it, genetic defect.

Now that the mankind has been given this knowledge, what we call, psycho genetic, and psycho, (:38). whatever you call it, shows the dimension of magnetic field, plasma of the magnetic field of the emotion, creating the motion, the movement, the energy for one of these memory banks in the stacker of the box of the memory of the structure of the man, to behave like another one, ?? 10 step up. And it doesn't fit. So it has to move the

structure that it can fit. Telephones have to move we call it, whatever cell has moved, or whatever protein has moved in genome of the man. And then we call it, defect.

Now if we can create that emotion, if we can create that plasmatic field strength, that move the mobile phone, or the memory bank, or to behave, or move to another position, to behave like the others, creates a defect, and we put it back in its original place, or give it the energy, that it works as it was supposed to. Then there'll be no genetic defect. We don't modify. We correct.

With what we call, psycho genetic, man will become a perfect man. And in space wherever you land, delivers a perfect gene, a perfect combination for the structure of the building. If you have a cancer here and you land on the planet Zeus, you'll still have the cancer, but not to kill, because the genes have decided, it's one of us, look after it, it's a new part. But it won't kill you. It won't create a defect. It arranges for it to be accommodated, by the way the plasma ?? does. (:40). The world and the science of what we call, psycho genetic through RNA, it will become a new science for man to work.

We don't do genetic modification by changing something, that your child will have a blue eyes, because you love to have a blue eyed child. We transfer the emotion of the pleasure it gives you, through the emotion of the body of the man, and the STM to the RNA, and the modification will be perfect. I want to be pleased. This is how a man will create the next generation, the next cycle of his children through the emotion of the Soul, and not through the what we call, ?? ??

This is the way in the universe, most of the creations are done. Man has been physical in every dimension, even in regeneration of his own offspring's. The new knowledge and the new paper which will be released will explain a lot of this for the next and new generation of the science and technology, which the man needs to understand to become a member of the Universal Community.

The Soul of Christ was created out of the energy of the love of the Creator, and not by sexual interaction, carries the Soul of the Creator.

This is what mankind has to understand. And this is what the new knowledge and technology will be brings, (:42). and will bring more in the coming months and weeks and days to many of the KS. We don't change genes. We are not in the world of man's fake knowledge of medicine. We work through the process of understanding the ?? motion and the emotions, that the interaction of the fields of the plasma the STM and Soul of the Physicality (STP) of the Man work.

The two things which was hidden from man and was abused by those who thought they understood, but the words could be abused. The Soul and the Spirit. The Sun, and the emotion of the fields of the physicality, we call it, the atmosphere of the planet, we call it the atmosphere of the body of the man, the Spirit. The interaction of the fields decides what Earth receives. The interaction of the fields of the body of the man with the Soul, with the Sun, decides what that body is going to be made of.

The provider and the interaction of the providers fields with a dimension, position, time, and place. Man becomes aware of the knowledge of Creation. And then man understands time does not exist, till the point where you establish the essence of the manifestation of the detection, and that become the "zero time." It has made me laugh many, many times when I hear the scientists say, this planet is 4 billion years old, (:44). or 5 billion years old. And the Solar System (ta da), and god knows the U bla, bla.

Time does not exist in the dimension (D) of the Creation, that is created, that it establishes its time. You call it the birthday, birthday of Christ. You celebrate it on the first of January, or whatever you call it in December the 24th or 25th, and the rest of it. But originally was built to be on the change on a time of what we call, 21st of December. The shortest dark days of the man. Is to start, when at the point of what the call, 21st of December. Is the longest darkest time for man, that he existed.

The essence was to bring, to understand the dark days for man in knowledge and understanding of the Creation is over. Man progresses to the new knowledge. If you understand it, after 21st, the days will start getting longer. The dark time becomes shorter. And that was the essence of the birth of the Christ. That was the essence of the birth of Mitra on 21st. But man got it all way wrong, because he had to give it the dimension of the tree and the light, and again got involved in physicality.

The dark days of the knowledge of the man is over, in understanding the process of the Creation of the Creator. And that knowledge only comes through the STM. (:46). As I said, many, many times, man has got to learn to feed his Soul, that the Soul feeds the physicality, that the man shall not kill. Now, the man has to understand the knowledge of the Creation and the Creator will come through the STM, when he feeds to the dimension of physicality of the man, to understand the process of the Creation.

Up to now the same as your food you took from outside, in. And we keep on telling you 80% comes from inside, out. Now it will be the same with the knowledge. From now on, man will receive the knowledge of the Creation at the point of need and understanding through his Soul. If you are on Mars you understand the knowledge, and what you need, and what is necessary for you to live a comfortable life and existence. And that will come through your Soul. You go from the United States to China, you'll speak Chinese, you'll understand the essence of the Chinese word, and not just the dictionary. You'll feel the emotion of the language and the culture.

Because this time you didn't take a flight to take the physicality 18 hours on a plane from one place to another, you took the instantaneous transportation, of the transportation of your Soul. And that soul educated itself in the dimension of time, place and position.

Once we release this paper, a new knowledge, the new understanding, the new level of the Creation, and the Creator's understanding for man, will become easier. (:48). If you understand the essence of the paper to be released as psycho genetic, then you understand, what created that psycho side, inside this body of the man, was the Soul. And

the STM is connected to the Soul of the Creator. Then you understand the genetic of the Creation of the Creator in the embodiment of the man. I made image of Myself. In a way through the plasmatic fields of Me, man has created itself and the dimension of the Soul.

Then it's you who decides I was born brown and black, and yellow, or blue eyes or brown. And I want to look like the beautiful creature on Mars and this Earth. How would I do it? What will be the pleasure of me to change conditions that I see what I like in other places. And I carry the full culture. I don't need to go to school in Mars, or on planet Zeus to understand what it is. I get the knowledge of the universe through the platform of the knowledge of the Creation.

As with the new technology, we abolished the prisons and the hospitals, with the release of the new understanding and when the man understands fully, there shall be no schools and universities. As the man is a graduate from the knowledge of the Creation at the point of inception.

Those of you who carry the platforms or the placards of the doctors, and PhDs, and engineers, and professors, and an electrician, you had better keep it and make it solid, because there'll be not many of them will be produced in the coming time. (:50). Graduate from the knowledge of the universe and the Creator, has no paper for it to be written, except ingrained in STM.

Those of you who put the fear in you, by understanding your Soul. We have seen these devils across the universe. By holding you back, they can abuse you. Freedom of the knowledge and understanding gives you the freedom of the universe. We don't want your soul, we just teach you how to understand your Soul. Whoever tells you, that we are in the process of getting your soul, or whatever. They belong to the abusers of the children, the churches and the mosques and the rest of it. When they don't let you feel guilty, they can't abuse you. Because they've been abused themselves. Those who tell you don't give your soul and do, these are the ones who have kept man away from understanding the knowledge of himself and its Creation. Because they've been abused and now they become abusers.

It's for mankind to take the next step. It's to understand the true process of the Creation. As I said, with the paper to be release, will be as beautiful as the book number 1, 2 and 3. Brief, but in understanding the process of the Creation in the matter state. Now, you will understand easily the process of the Creation in the plasma state. (:52).

A new science, a new knowledge, a new step for mankind. This time, instead of teaching you, and then you understand, this time, in tomorrow's session we'll take you, for you to decide what you want to understand. Many of you will end up with some of the most beautiful experiences of your life, and many generations before, and after. Because you become, you decide to be that point of change.

Some of you, most of you will not see the change or understand it. But in time, as we say, my grandfather was there when the first lights were on in Chicago Fair, where the man

could see the light bulb. Your children and your great grandchildren will come and say, my father was in the process, when the first light of the STM was switched on. On the 16th of December, 2022.

The promise of the change in 2022 was given to man, and tomorrow we'll fulfill that promise, the return of Messiah, the manifestation of Methi, the completion of the cycle of the man. Not by an individual, but by the Soul of the Totality. From every culture, race and creed tomorrow will participate, to bring that change. The new birth of the new beginning for man to understand the cycle of his Soul, and not the dimension of a "candle and a tree." (:54). In the coming time, many of you, many of your Souls will celebrate, that I was there when the time of Methi came, which was the knowledge of me to understand myself, and no more.

That brings the end of the religions, fake religions, fake followers of the religions, and it brings the beginning of the, what we call, understanding, the true understanding of the knowledge of the Creation, by yourself, according to your freedom to understand and be free to accept and bring that change, not for you, but for Totality.

We just provide that stacker of computers and that server room, that you can all log into, like the program today. Today, you have come to us through different servers, and through different connections, and different operators to be here. Tomorrow, you will become all the servers and the operators, and we become the facilitators, that satellite, which allows you all to work as one. When the lamb and the lion will eat together. When the Russians and the Ukrainians, the Chinese and the Arabs, the Iranians and the Jews, all will be online, through the dimension of the Soul, to find that final solution for the physicality of the man in dimension of existence. (:56).

Now, you understand why we celebrate. Christmas celebration of tomorrow is the day of Methi, the Promised One. Now, you understand, was never one, was never supposed to be one, it was supposed to be, to understand that it will bring the Totality for the whole of human race. We are just the facilitators, we are just satellites. And those of you who will participate are the mobile phones in every corner of this planet, that you make that satellite to all of you, all your Souls at the same time to interact and become.

Those who observe the operation of the STM in the deep space, will see tomorrow during the session a new star, a new light, a new dimension will radiate from this planet. And that light, the same as I said, when the Soul moves from inside, out, as it was in the Intro (video) with the radiation. This time, the STM will shine outside, from inside. Up to now we saw the planet, now the Universe will see the STM, the citizens of this planet, that's all.

We will see tomorrow a massive change, the beginning of the world peace, and the beginning of the end of wars. (:58). We see the unification of mankind with the Universal Community, and it's for mankind to see what knowledge they can gain from the "University" of the Universe, and the Universal Community, the bank of the knowledge of the Creator.

Then we'll see what would your great grandchildren born from the fields of the STM will tell the others in the Universe. "When the change came, my grandfather was there in the dimension of physicality."

Now, there is no possibility that Vatican, or Ayatollah Khomeini, or the Islamic world, or whatever and whoever, can chase, to get that man that he doesn't come out, and they can live with their fallacies of the "one day it will come." The truth is, the Methi, the collection of the interaction of the Soul of the Humanity will rise tomorrow. At the ?? there are over a hundred of you across this planet. ?? impossibilities (to stop). And we have achieved for what we came here for. The day of the manifestation of the Methi, the Promised One.

The understanding of the Soul of the Collective Soul of the Man of the process of the Creation and the Creator. The enlightenment of the soul of the Totality of the creatures of this planet. (1:00). Don't forget what Einstein said, when you turn one, the other one turns too. When the Soul of Humanity reaches, understand the Soul of the understanding of the Creation and the Creator, the rest of the citizens of the Universe will turn too, and be educated. Maybe, maybe now, the whole of humanity becomes aware of what we call, "evolution and developments of understanding the process of the Creation and the Creator."

I'm sorry for those who are hoping to get a PhD in planet Zeus and come back and say, I have a PhD from that University in that part of the world (Universe). There are no papers, and no Universities, except in the imagination of the fallacies of the brain of the man.

Tomorrow, silence will speak for itself. Tomorrow, many of you will understand why you joined, you wanted, and you became part of that experience. People went to Chicago to see the light bulb for the first time. (1:02). Man will come, and the whole of the Universe, comes to Earth tomorrow, to see the enlightenment of the Soul, which brings the change for the rest of the Universe.

You've got to understand, it's your Soul who chose you to be there, and not you. You're just a tool, psychosomatic, but in essence, the psycho genetic as your genes have brought you here to be. To be in that cycle of the change for manifestation of the Methi.

Let the world of religion to wipe itself out, as you carry more knowledge than they do, as you carry the knowledge of the Creation. Then there'll be no theology, as the theory of the logic of the Creation does not exist in the dimension of religions. They never understood the essence of Soul and the Creation of the man.

We'll be waiting you, those who registered, and how the Universe will wait for the man to change tomorrow. The celebration of the, what we call, elevation of the STM and the citizens of this planet collectively.

Those of you who are pure, will come to it during this session. Those of you who have not understood the Totality through the dimension of the physicality, in time will come to it. (1:04). But the process will start. Where we connect the whole of the humanity together.

We tested this with you one day ?? with ?? through a couple of sessions and in Rick's teachings. But tomorrow it will be Totality. The time to test is over. We will have access to dimension of Cosmic Rays. We will have access to the dimension of the STM, we'll have access to the dimension of the Soul of the Creation. And the Promised Day will be upon you tomorrow. We are just the facilitators. We are the Messengers who were sent to create the time, and the position and the place.

The city of Linz, where the Hitler came, rise up new technology from ashes. The Phoenix of the end of the physicality, and the beginning of a life for humanity in the dimension of the Soul in the Universe. The gas chambers of Linz were the time when the Phoenix was burned, and the new cycle from Linz will begin. (1:06). I hope humanity understands. I'm sure a lot of you have understood. Would you like to go for a second part of the break, then we come back.

<< BREAK >>> 463 KSW December 15, 2022 (1:16).

K- Yes. Let's see what our Knowledge Seekers (KS) want to know, what's their questions? I think you've got the message of today. I think humanity was waiting for this message for centuries. Maybe for thousands of years. And you were all looking for that Promised Day, that promised day tomorrow when the humanity becomes.

Mankind gets on conferences, every day, hundreds of thousands of conferences, from a few people to hundreds and thousands. Mankind will go to conferences and to go to shows on the Internet in thousands. Tomorrow is the first time when the Soul of the Man (STM) goes to concert. And the concert room is filled with everything the man needs, from Cosmic Rays (CR), to the soul of the creators, to the STM, and everything else, which is what mankind needs. (1:18).

It's the first time when the souls meet in one dimension, and with the soul of the Universal Community. Many of you will imagine and you will see things you have never seen, and you'll say you had a dream, something came, you envisaged something. But everything you see tomorrow, everything that comes to your head tomorrow, everything

which registers in your dimension of the brain, dimension of the physicality, is what is in the Universe.

Some of you who are pure in dimension of the Soul will have the ability to meet with your Creator, does not matter if you claim you've done nothing wrong in the dimension of physicality, because wrong thoughts is as bad as physical dimension. You have created that psychosomatic separation of the physical dimension, the dimension of psychosomatic. Mankind will understand soon.

From the members of Universal Council, to the members of the Core Team, to those from the Earth Council, and the rest, all be present in being part of this celebration. Those of you who will understand will see some of the most beautiful things in the Universe tomorrow, which is nothing but the essence of the love of the Creator. And those of you who are still in the dimension of the physicality, will see the seas, and the waters, and the Moon. (1:20). Let's see, what you have to tell to your children and the rest of humanity for the celebration of tomorrow.

Any questions?

Q: Salomea .. I'm surprised about all your projects. And I'm wondering, that peace will be possible as soon as (possible) . What we have to do all humanity to bring finally peace, and with the help of this unit of equilibrium, and harmony and all these units of Keshe Technology? Thank you.

K- Just wait till tomorrow, and watch what comes up after tomorrow. Our technology is technology of Soul, understanding work of the Universe, not the physicality of the man. The guns and bullets, and tanks, is the job of the man. We shot bullets of love, and rockets of unity. Let's see what brings. It's the Soul of the Mankind and the Universe tomorrow, when it comes together. And let's see how you celebrate. Then the peace will come to all. (1:22).

Ukraine confiscates Russian Orthodox Churches wealth - Vatican behind

It's find peace in yourself, then it will reflects in the rest of the things around you. In Romania you're sitting on the edge of the war. And the only thing that the Romanians have not understood, and the rest of the countries around Baltic, and around Ukraine is that, they shot the last bullets in the dimension of the faith. If you look at the history of past seven days, past two weeks, you'll understand what I told you months ago. This war was the war of religions. Not war of nations. And you didn't understand.

For the first time ever, in the history of man, a nation has moved to confiscate the assets of another church. By the order of the Ukrainian president, all the assets of the Russian Orthodox Church has been confiscated. Voilà! Now you see what I told you months ago. What a war of nations has got to do with the Church. Now you understand how the Vatican is involved in this. Read the newspapers. See what the President of Ukraine has done.

He is just a tool to bring the end to the religions. He is as we all know, a comedian, the monkey on a string. Now you understand what I've told you months ago, (1:24). this is a war between the churches. Now you have the solid proof of it. Now you understand how much we know, and how much sits in the back. A nation, it's very much like in Israel, the government orders to confiscate all the Islamic mosques and all the Islamic assets to (put it in) theirs. Would that change the belief of the Muslims in Israel? Or is it just a move, the ?? greed of this structure? And now we'll see today. In past seven days the Ukrainian president has moved to confiscate a religion's asset. Now you know what is to come.

Any other question?

Q: .. For the flight test on the 16th, can I sit in a stationary car for the test?

K-Sit in a UFO, sit in a stationary car, go in the submarine, be a member of the satellite somewhere, be on a plane, your physicality can be anywhere, it's your Soul which connects.

R: As long it's a quiet environment, basically. (1:26).

K- If we hear disturbances we'll switch off the person. As somebody said, by the end of the session, there will be just about the handful of people left. If you have Mosfeq which always have, beep, beep, bum, bum, if you have Stefania, which always jumps in with other thing, if we have others who live in the noisy places we have to take you out, because you disturb this peace, as I call it. It's not your fault, but it's a collective open session.

Put all your phones on the "flight mode," which means you receive no telephone calls during the session, you will receive the internet, you will have the internet connection, but switch your mobile phones during the session into the flight mode, then nobody can call you, nobody can disturb. If you have two or three phones put them all on the flight mode. We get a disturbance, we take you out, we switch your line off. We don't give warning, because there's nobody else to warn. The people in the background see where the noise comes on the microphones and they take the person out. Air plane passes, we are in the 4 corners of this planet, and every noise possible. It's for you to make sure you stay somewhere safe and quiet. (1:28).

Leave your phones open, do not switch your microphones off, then it becomes a one way traffic, you don't receive anything. Do not switch your microphones off, leave it on, go on the flight mode and find somewhere very quiet. It doesn't matter where you are, you can go into the depth of the system. The Keshe Foundation systems are all over the place, in an underground bunker, I call it.

Any other question?

Q: .. What will happen if someone does call through a mobile phone or knocks on the room during the experience, while the Soul is already in Linz or elsewhere? In which dimension of the Soul, or emotion or physicality, will there be an accident, or what would happen to the person?

K- Switch your mobile phones off and stay away from it. That's all we can tell you.

You have to understand, we were happy with about 80 - 90 people, 100 was our target if it reaches. We are nearly doubled that. (1:30). So, the chances of mishaps sits there. We have set up absorption systems in the background to take some of these things out. It's not that all will go one way. There will be, we have systems, which can absorb and they will be running in the background. It's actually built in the systems in Linz from the beginning.

You will have for the first time participation and connections with the Cosmic Rays (CR), which is built by the man, by the understanding of the man, and the same outside. The cosmic rays which will be part of the system tomorrow never reaches Earth, it's not part of the inner structure of this planet. So in a way, that's the sugar we added into the pot. So, that will bring a totally different dimension, even in the tests we've done.

These things cannot be recorded. None of you try to record, you will understand. You break the law, you pay by the law of the Soul. Do not try to record and do not try to be clever, you think, I'm recording it.

Only those who have sent their emails and participated will be allowed in. You can give as many numbers to anybody posted on the Internet, wherever you like. We control the panel, we have a list of those who have registered, the souls who have volunteered, (1:32). and it will go the same. It's a controlled public meeting. There are about 14 people who have not answered to the emails, to send in their email connection line. If you have paid and you have not provided, and you say you have not received the email, look in your junk box, it could have gone into your junk box. The email you sent your order, is the same email we have responded back to. Keshe Foundation has never worked so hard to respond back to an event so rapidly. All of you received your emails last night. If you have paid and have not received your email. It means, look in your junk box. There's only one person, Wang Lin, which is going to be added on today, because she has changed her email. The rest of the people who have registered, if you have not received your, what I call, email confirmation, check it and send your email to the same email, that you received the information from. Sometime this afternoon the, what we call, the Zoom number will be sent to all those people who are participating. Do not send it out, do not put it in and do not put it across anywhere. Do not give it to your brother or your sister, because nobody will come in, you're the only one.

And to benefit by it, you need to have the headphones on your head. Do not try to share headphones, you will see what I call, "other sides of the job." (1:34). One headphone per person, and one person, one soul per system. The soul who chose to be part of this experience.

Q: .. Why to use the wired headphones, and why a mobile phone, and not the regular desktop or laptop?

K- Oh, the each has its own. If you use these Air Pods, you get interference and other bits of information which is not needed. They come with their own inherent problem. And desktop, computers or laptops, we advise you not to use because they create a lot of information, which can interfere with what you receive. Try to close all the Apps in the background, don't come into the session with Apps open, close all the pages which you have open, close everything down, that your stand directly in the line of information. Make sure you have enough battery, that can take you through the session.

Some people ask us how many hours, it took billions of years to get man to today, we need time to create that Methi. There are over 80 races, nationalities, religions, school of thoughts, on the panel tomorrow. (1:36). You remember when I told you when you come to Linz, if you're a Chinese, or if you are Indian, you are English, you leave your imprint with the system. Tomorrow you all share each other's soul, with the imprint of the work to bring that change, with the Soul of Universe.

Maybe now you understand what this process is tomorrow. In a way we are synchronizing human soul with the Soul of the Universe, and you're doing it together. Now you understand why your Soul has brought you to this position. You didn't become a Knowledge Seeker (KS) just by accident. You never understood. your Soul brought you to bring that change, and that accident of man, to become part of the Universal Community, not by accident, but by the elevation of the work of the Souls. Remember, you've been promised the Promise Day? The Promised Day has come.

Any other question? (1:38).

Q: Jalal .. Mr. Keshe, you said, do not come with expectation. And in the second hand, you say, come with a lot of wishes. How this will be, how this will be managed? You know, all our life is working with the expectation.

K- We have people who send us email, if I have cancer, I come, would I get healed? If I'm a drug addict, would I be healed? This is not a healing process. This is not somewhere that brings you to that point. Even your addiction, or your sake of illness. Your Soul has to bring you in for it to be part of the elevation, that's the reason. Not for you to be processed, or cured, or whatever you expect.

Some people come to join the Universal Community and some people come to reach peace. When you come tomorrow, it's very much like you go to a party, it's the celebration of Christmas. It's a manual set, it cannot be changed. There is a starter, there is a main course, and there is a dessert, and the drink is what Christ gave, this is my blood, this is my ?? patent. You'll understand. (1:40).

We are not there tomorrow to heal anyone or process anyone. Tomorrow session is for the elevation of the STM and, what I call, the "promised ?? goal" of entry to Universal Community. It's the day of promised, ?? ?? centuries and many books. You'll understand. It cannot be done by one man. It has to be the collective essence of the Soul of the Creation on this planet with the ?? Moon.

Amongst you tomorrow, I have noticed going through the list, there are a number of those who are guests on this planet, they have joined in, in the name of their physicality, but we know them, as they are the passengers of the Universe. Those are the ones who bring you that connection with the Universal Community, as they are part of it. None of you will know who they are, but we know them, as we know them for a long time, they are members. They are in the shape of the human race, but in truth inside, they're from different parts of the Universe.

It's like when you have a celebration, you invite presidents and ambassadors of different countries, they are the ambassadors of Universe in this celebration of the man today. You will understand, it's not expectation, it's a celebration. That's what it says, it's a celebration of Christmas. But not the birth of the Christ, but it's the entry of the man to understand his Soul, (1:42). and in doing so, join in the Universal Community. Don't expect to see lights and parties, that's for the Universal Community which is already having it out.

If you've been waiting for the Day of Methi, the Day of Judgment, the Promised Day, that day is upon you on tomorrow. The Universe has been waiting for this day for billions of years, in man's time. You are part of it, not us. It's you who do it, we are just messengers. We are just that cameraman, that sound recorder and the guy who brings the computer for you to hear the music. The voice and the ?? motion, is the Soul of the participants, which are from all over the Universe, and for sure the Creator will be present. Mitra will be among us tomorrow, and the child of Mitra will be amongst us tomorrow. It's for you to be enlightened, not us. We came with the light.

Any other question? (1:44).

R: Lets' answer a few technical questions here.

Q: .. When I put flight mode on my internet connection stops.

R: I'm not sure if that's true of all cell phones. Maybe there's a, I know there's a "Do Not Disturb" function. Maybe that's what it should be put on rather than...

K- It depends on different phones capability. Put your phone on the mobile and try, what you call it, on the flight mode, and try to get into Internet. Open one of the browsers like Google and see if you get in, so your system works. ..

R: .. Should we use the headphone with the microphone or should we use the microphone of the mobile phone itself?

K- You have to use the headphone ? on the mobile phone. Plug it in and play...

R: He's saying he's more concerned with the microphones, should he use them, the microphone that's built into the headphone or use the microphone that's built into the phone itself?

K- What does that mean?

R: Well, the phone, iPhone has a microphone built into it or you can plug in your headphones and sometimes they have a microphone with them.

K- Plug in your headphone.

R: I think either microphone would be okay, I guess.

K- Any microphone with the headphones should be okay. You got to realize there's a purpose for this and you will see, or you will find out the difference, very soon. (1:46).

Q: Can we leave our battery charger on, if the phone battery is low?

K- Yeah, I think in the session that we'll have that many of you, if you run out of battery, it depends how much the session will take. The session will start and finish according, we just start it at 12 o'clock sharp. It finishes when the Soul of Totality reaches a balance. If you suddenly see the session is finished without a notice, you have to understand it's not our decision. There will be very little spoken tomorrow. It's not a party, and music, and dancers and singers. It's the "song of the Universe." So you have find out the process you go through. Those of you who bought the discs, the black discs from the Foundation (Nano Plasma Mirrors), try to hold one in each hand during the process if you can, then you will understand more why you bought it.

Q: ... (1:48). Thank you for what you have brought. And thanks to everyone to be part in these beautiful days. I have a question and I believe I'm not the only one. My son, my 11 year old son will take the flight tomorrow, or be part. And I'm wondering how. Should I just put the earphones on him and say, listen to your Soul? Or because I cannot hear if something is said inside. Could you expand on that please? Thank you.

K- That all depends on you. There'll be a silent. Amazingly it's a silence that nobody wants to leave.

In one of the experiences or tests we are doing, we had children, very young children, who refused to put headphones. And even in the first sessions they objected. After a while in the second session, they want the headphone. Listening to nothing in their ear enlightens their Soul. And it's amazing how children change. I'm sure it's not something that will be silent, nothing. It's a silent that it's everything in it. It depends how, what is the expectation. If he is coming here to listen to a jazz band or a concert, this concert is a silence concert. It's the concert of the Souls. (1:50). You will have to explain to those who participate, or you bought the flight for.

Q: Dean .. So, this experience, would you. Is the position that humanity and, you know, the 7 billion, 8 billion, whatever it is, will they all be receiving this at some point? Is this a step where the evolution of man will be for all?

K- It is the beginning of evolution, not for man, but for the planet Earth and its citizens, the cat, the dog, the plant, the stone. It is the beginning of a hurricane. You know when you have an avalanche, it takes one snow drop to join the second one, and then the second, third one, and then it becomes an avalanche. Today's session is that first snow drop, and the avalanche will come.

We'll follow it on a monthly basis till it's complete. It's just the beginning. A lot of souls who are in this session will come to the other sessions and then build up.

Q: So there's a, Mr. Keshe, you spoke about, there was souls from the Universe, there are souls from the planet Earth, so there's a cross section of physicality, (1:52). and the Souls, and Soul of the Physicality?.

K- All the souls, what I call, the ambassadors of the Universe, will manifest themselves in, they are members with the physical soul here. They have chosen to be here not to be hidden and be invisible. They are here at your party, they come the, what I call, the bar ?? mask, in a way, you want ?? them to mask themselves in the human body. Don't expect that there's somebody here, that it's not there, or it's just outside. People of the Universe are waiting for these ambassadors to tell them what happened in that elevation, as much as the race of the man. There's no advantages or shortcuts.

Q: And the elevation in the man Mr. Keshe, when this has been the process of this session, this experience, will there be any physical interactions, that can be seen by others? Or is this just a, obviously people are going to be in quiet locations on their own or with their families, will the family members or anybody see any interactions or is that just a physical thing, it's all on the soul aspect?

K- It's all in the Soul. You've done enough mankind interaction, you have enough cameras, television, some programs, and Zooms. You've done all that. And you're a camera man, you record all that. Now you can't record the, what you call it, the interaction of the souls. They haven't made the camera for it yet, for humans.

Q: So that illumination is going to be from the inside?

K- That's all it is.

Q: Yeah, and the souls that are going to be present? As you said, this is going to be the gradually, it will be a torrent, (1:54) an avalanche of people coming forward to experience this?

K- It will be done. That's the only way we do it.

If we don't do it this way, it will become again us doing the magic and nobody sees it. I explained to a Knowledge Seeker, when the Christ, bless his name, arose the dead, and they said, "oh, he gave life to the dead." It was a magic.

Now Keshe Foundation scientifically does it, it's not magic anymore. When we gave life to Naomi, has Giovanni become the Christ? Now it's a knowledge. We taught him, we showed him what he has to do, and he followed it step by step. That it's not us who create the magic.

In past few days we were involved in a very specific case of a member of a family which they have a coma patient, in a destination outside Europe. The brother was present, and the doctors were present monitoring how we worked, remote in elevating the soul, and how we could see the changes in the face and the eyes of the coma patient. They said, this is impossible.

You don't need to do physiotherapy, you don't need to do whatever, (1:56). you just elevate the Soul, the Soul wakes up the physicality. Is the machine now in garages of Tesla become the, what you call, the new revelation in the car industry, electric motors? Or do the systems which we build and goes across this planet become a new crisis? Because these machines in the future will bring people out of coma. He brought the essence of the knowledge, we show the physicality of the knowledge, which the man has been ?? looking for. And that dead body was a man with his knowledge. He didn't rise, is 2,000 years, is back to that dead body. Now we're trying to put the body, ?? call it dead. Put electric shock you put on the body, and the body wakes up, tomorrow it's an electric shock, fibrillators of your souls with each other.

Q: What about the souls Mr. Keshe, of the Vertical friends and others, others present, will they have a position?

K- They are present. In the Keshe Foundation we made sure that everybody is present.

Q: So, the horizontals and all creatures have a presence in this... moment?

K- Yes, you have to understand, you look at a cat or a plant to be there. We look at the essence of the creation of that plant and animal. (1:58).

Q: So, how is the amino acid structure of the planet with the amino acid structure of the Universe going to tie in?

K- What you think you are? (Q: part of it). You are already tied in, they made you. So, it's already there.

Q: Mr. Keshe, I'm not trying to be the mole or whatever. But will the people when they experience it, they're going to be listening to "white" noise, they're going to be listening to nothing, but everything. So, will the senses of the physicality experience anything? Or will it will just be white noise? Or will it be the dance of the soul that will be enlightened with all sorts of, whatever, I don't know, I mean. I'm speaking from the physical point here.

K- You know what the guy said? They said, watch the space.

I'm sure next week or in months to come some of you will talk about your experiences, which you couldn't even remember, you went through in the system at that time. Tomorrow is like a beautiful game, and we unite the humanity.

If you remember, when I heard, as all of you know, I'm a football freak. And when we saw the match yesterday, and the France has become to play in the final. Of course the highest scorer of the French team is, of color, (2:00). what you call it, race, but he is French. We saw the same thing in the last time when the French won the World Cup.

The beautiful game made "one nation" out of France. The economical and social structure of the France changed with one game, when a guy, of what we call, less numbers of French team working with all as one, brought France to win the World Cup. If you study the economical social structure change in the history of France, that one football match changed the history of France internally and economically, it made one out of the nation. The French are looking for that, what I call, "celebration" again on Sunday. As many commentators said, that time the beautiful game, made a beautiful nation. And tomorrow's session is that football match, but on the level of the Soul, and it's not a match, it's a party of the souls to make one and bring that change to humanity. (2:02).

Q: Thank you Mr. Keshe, so when, through your, from my experience has been part of the Foundation, I went from being a very physical, loving the beautiful game (football) and things, and now I don't even watch, I have not even seen any of the games or anything to do with this particular interaction. So, it's the change within myself has taken away that physical side, that you know, you tend to interact on another level giving whatever you believe to be giving, in other ways, and sharing the energies, and coming forward and going out with other expectations of, in a different way. Totally different way.

K- You see, in that football match we have a ball, which 22 people play with, and there is one referee who runs around trying to make sure the ball gets kicked the right way. And tomorrow session and there on, everybody brings their own ball, which is the ball of their Soul, which is a sphere. But this time we all play with each other's Soul on a fair basis, on the correct basis, and there are no referees. This is the beauty of this game which we start tomorrow. It's not a game, but it's the operation of the STM which is that game, that changer. (2:04). We're not chasing to be on one side or the other. In this game, everybody brings their Soul and kicks in the same direction, if you call it. Trying to get everybody to play the "beautiful" game. And the game of the Souls has no limitation, as the Creator Itself comes with His own ball.

Q: So this ball that's been shared Mr. Keshe, it can be passed around amongst all?

K- It's not shared, you didn't hear me, you don't want to hear. Everybody brings their own ball.

Q: Everybody brings their own ball, okay.

K- There's not a ball to share. And all the balls are all the same. Now you understand that can work together, you make a bigger ball. It's like, you know that football ball, has got so many patches, when you sew the patches together it makes the ball. Each one of your Souls tomorrow is that patch to make that bigger ball. It'll be an interesting ?? tomorrow.

I wonder if any of you can distinguish between your Soul and the Soul of the Creator, the Soul of Mitra, tomorrow. I made man in the image of Myself. We'll see many twins.

Q: That opens up a very big aspect Mr. Keshe, (2:06). for all the souls present on the planet and obviously the Souls from the Universe. So that is the joining of humanity with the Universal Community, and that is a big opening up... for humanity.

K- It depends how much you want to keep yourself correct and out of it. I watched that video in the center, you become like a, nowadays anybody they can't get to us, they go to Dean. You're there all the time. Can you do this, can you ask Mr. Keshe to do that. Or I walk to Mario in the office upstairs, "oh, Mr. Keshe, there are questions I want to ask." Knowledge Seekers want, because Mario is there, always near Mr. Keshe, he might ask the question and we get our answers. These things we call it, party ??, because you know somebody, you can get away with. These things (special privileges) won't exist tomorrow.

But, you've being there, for past four or five months we opened the center. You have never broken the law of acceptance of the souls. You never put a foot in the (flight) room since they opened up for the space technology. Even you are there, you see all these switches coming out of that room, with all the souls with experiences, you never wondered to walk in.

Q: Unless invited Mr. Keshe.

K- Very British.

Q: Yeah it's exactly.

K- We invite you for a tea and biscuit, but you stayed a little too long, it's the dinner time, you have your biscuits and tea, we have our dinner, you watch. Very British. (2:08). So that's maybe will change tomorrow. For those of you who don't know and don't understand English mentality. Dean is here, living there for 30 years. If English people invite you for tea and biscuit, and it's three o'clock and dinner time is at five, they won't invite you for a dinner. They'll let you have your tea and biscuit, while they set the table and they have their own dinner. When this happened to me the first time I was shocked. I said, how is this possible? But this is the way it is. You don't touch when you're not invited. And I sat there and had a tea and coffee, and I watched them having their dinner. So, Dean is very British, he's there all the time, but he's never been inside, because he wasn't invited. He didn't invite himself, he didn't go and register to get in, so he didn't get in. This time he registered, he get's in. But that's how it is.

Q: Is that expansion of the Soul Mr. Keshe. It's time, place and position. And you've always said that, when it's meant to be, it will be. And you've always been extremely, extremely patient, and given everything to the Knowledge Seekers and humanity, and literally everything to bring this forward. So, as frustrating as it may have been, it's part of the process, and it's now, as it's set up for tomorrow, this beautiful encounter for all the Knowledge Seekers, and the beautiful Knowledge Seekers, and the souls that are present which are magnificent in their beauty. (2:10). We're all going to be in time, place and position there, and many have already experienced it. So it's when it's supposed to be, and it is, what it is.

K- It is something very interesting. I'm sure I've told you before. And our Iranian friends can tell you. Iran television director has said, we'll be present when Methi appears. And the saddest thing is, tomorrow when the Methi appears, and there is no television rights, nobody can record it.

The worst thing is that the world leaders, and religious leaders all have in the plans, even in the Iran constitutional religious side, they have made the army when the Methi appears, to protect him. No king, and no president, and no world leader is invited to the day of the manifestation. Amazing. Layman's soul it's more important than the kings and presidents of the ?? world.

This day was promised a long time ago, it's not coincidental. This day is part of the change which will bring that change, the bigger change humanity is waiting for. It'll be brought in step by step, because from month to month, as we progress, more and more will be added.

In middle of the year, in the back end of next year, (2:12). people will give everything they have to be part of the experience. Kings will give their crowns and their kingdom to be able to be present in that encounter with the Creator. We don't fight, we allow you to destroy yourself. And the process starts today. It's like, there's limited seats and there's a limited number of people who can be part of it. As the, very much like a, the band you start with singing in the pubs, and the club, and the theatre, and then you get to a football stadium, and then you get satellites for the whole world to see.

This is the beginning of that process. This is a private club which the souls will start the beginning of, and ending up in that stadium, and then the whole lot to be part of. We are just providers of the facilities, nothing else. We promised we'll bring Mitra, and we promised we will bring the Creator, and promised bring the child of Mitra. And all 3 will be present tomorrow. It's for the man to understand. (2:14). A new generation, a new cycle of life has started, and man is part of it.

Q: I can feel my body shaking a little bit now, just with the interaction of what you've just said.

K- It's there tomorrow. You will all feel it, and you will all go through it, and then you understand it.

Any other question?

Q: .. You told that some people use the energy from the system, and some use less. And that the UC members used zero energy. Is there a measurement on the unit, which shows what the people use? Or maybe give energy? Or do you feel it on your own?

K- Both. Those of you who come to the center and you've been in the room, sometimes, to some Knowledge Seekers I show, there are gadgets in the center of the room, we watch the traffic flow. Yesterday I was with one of our Knowledge Seekers, I enjoy working with him, it's a pleasure. It's amazing the things happens when he's around. (2:16). We were testing something together. He's not in Europe, he is outside. I was walking around the units, I was explaining things to him, and his beautiful ?? energy, he is one of the souls I have the pleasure to work. While I was talking to him, ??(my pen) fell. I bent to pick it up. I was on one side of the unit, I could see right through the two units. It was as clear as a day, that was normal. When I stood up, those of you who come to the center, you know what I'm talking about. There are like 4 levels of construction. It's like a tube, between the third and the fourth, which is a gap of about 40 centimeters plus, it was like a hazy, it was like a fog. I said, what's going on. I said to him, just wait, something is happening here. I've bent out. I could see through clearly. I looked up in the middle section, it was a bit hazy, looked on the top section, top between the third and the fourth level. And the other system in the background is in a mist. I moved out totally to look from the front, to see the other system, it's nothing. It's as clear as anything. It's clearer than the bottom, I looked. (2:18). Now, I did this ten times, to make sure it is not an illusion.

The plasmatic fields in the room has taken over, the room is not clear anymore, and it's like a mist, it's like a cloud. If you've been on an airplane in the big cities, sometimes you get the tip of the big buildings coming out of the cloud and the rest is white. It's a beautiful picture you must have seen it somewhere. It's exactly like this, but upside down. The top layer, the first 40 centimeter on the top is misty, you can't see clearly through the room. This is the part where we hold all the information, all the energies, all the systems. The thing is nearly two meters long. It's not one spot. Our team, I'm sure today are there because they're making things ready for tomorrow. Don't switch the machines off, leave everything on as it is, and look into it. Look, they tell you.

So, the plasmatic fields has been established and it's there, and even with me who walks in there more or less every week. For the first time I saw it yesterday, and it is amazing how, tomorrow when we add the Cosmic Rays to it, this thing will charge up. We have the confirmation of the full plasma room. (2:20). It's beautiful to see it, and it brings what I always said, that you will not see the system.

Yesterday I could not see the other system 4 meters away clearly. When you come into the room, most of you, you'll always see a blue dark environment. When I'm in the room is a full, god knows, how many spotlights and floodlights on. There is no illusions. And

yesterday for the first time we could see the development and strength of the fields in the room.

Because we always look at one level, we don't see it, because it's all the same, but bending down and coming up from ground up, now we can see the plasmatic field building up to the top. I'm sure our team out there today, it's good for them and they go in to test it, to see it. If you bend to the ground level and come up gradually to the top, you'll see the mist of the fields of the plasma creating to the top.

We don't switch our systems off, the systems have been going from the beginning, more or less. It'll be amazing when we add the cosmic ray units, which hopefully, will be in next few weeks for the transportation and transmutation, I'm sure the building will glow. (2:22). You're becoming part of that structure, when you become part of the collection of the work tomorrow.

We expect from tomorrow onwards, that the Pope will resign. When I met the king of Belgium, when he made the threats on me, I said to him and the queen of Belgium, I leave, you won't be king long, much longer after I leave. We left on February the 13th, 2013 with three suitcases and one car, to Italy. Few months later he abdicated, and he wasn't the king anymore, and then he was taken to the court for his misconduct of adulterous life. His own nation put a penalty on him.

Tomorrow will be the same. But this time it's not the man with three suitcases. This time it's the humanity with the suitcase of its conducts for the past millions of years, (2:24). and the change will come. No one can stop the process tomorrow. No nation, no king, no president. Even if they switch off the Internet, the Souls have connect, and the connection will bring that ???. Many kings will give their lives to be present tomorrow. But the only thing is, they'll find out, there are no tickets for abuser souls.

Some of the enemies of the Keshe Foundation have enrolled, we know, to be there tomorrow. But, expect your Soul to, in a way, change your life. You will understand. All of you who came to the Center, all have you participated in that bit of cloudiness, which is there, which is part of your energy, you took, some you left, and it's all there purified and beautiful.

We had the last session with two brothers from Taiwan, a couple of days ago. (2:26). It was beautiful to see them. We were missing one part of a balanced equation, which had to be balanced. And yesterday, I mean this week, a couple of days ago, when these 2 brothers came, it just felt beautiful to be and to have both of them. They traveled from UK to be there for just a few minutes to bring that part of what we call, balancing. It's the joy they brought with them, the short time they were in the center and they left. They brought a lot of joy in the whole operation that, it's beautiful to see how humanity is getting ready for that change.

What was very interesting and very, touches deeply. Is how, in the past few weeks, we do not see any more Italians. They came in a flood in the beginning. In a way their soul is

ready for that separation of the Vatican and the Christianity from Rome. It's as if their souls know. As I call, they brought the guy to put them in that position. (2:28). As there could have been no addition from the Italians, as the Church will break up, and there'll be no sign of it left. And they know. The souls know, so they are not there anymore. They brought in, very much like the Coliseum, to build the Vatican. And now they know. The souls knew, the time is there, to not to be there, as the change comes and it'll be the end of the cycle.

But they never understood. But they brought the element to do it for them, that was the most beautiful thing. They brought the guy (from 11.11 Italian radio ??), who I call him, whatever you call him, in English language, to do that job. We haven't seen any more Italians, not a single one. As it was, they came to say goodbye for all the abuses, which they brought to humanity in the name of the Italian Church. It's amazing how we watch operation of the souls, and how they knew, and how they know and what operations they ?? make.

Any other question?

Q: Hello, Professor Keshe and Mr. Rick. Is this effect of elevating the soul in tomorrow's workshop permanent or temporary? One time, forever? (2:30).

K- It's that kindle, you know when you want to start a fire you start a kindle, you just light a little thing and then gradually, if you blows up becomes a full fire. Tomorrow is that kindle, and usually starts and it has to start that way. Then it consumes the whole of the ?? life, when you start a fire with the kindle, the first spark, and the first burn, you won't see that one anymore, when the full fire burns, you can't look for it, because now the totality comes. Tomorrow is that time, the Soul of Methi, The Promised One, the fire, whatever you call it. Is that one.

R: It's like the reactor ignition as well, and could look at it as that.

K- Yeah. Because this time you cannot prosecute, you cannot crucify, you cannot do banish, because this time it's not one, it's the Soul of Totality. And the worst thing is that, it sits within the structure.

I said something very recently, if you understand it, it's in the writings of the Messengers, and it says, we took the love of God from the tribe of Moses, for what they did to Christ. This is in Koran. (2:32). Bahá'u'lláh wrote the same thing in a different way, with the same punishment, and it didn't work. But different tribes. In the time of Methi we enlighten the whole souls, that nobody is left and nobody's punished, but all become equal. That day is tomorrow. Every single one of you come from different tribes, different races, and religions tomorrow. Each one of you brings that kindle to start the light. And this time nobody can stop it. Mankind will understand the significance of tomorrow. Gradually you will understand the Totality.

Any other question?

Q: .. I've just tried to test with my phone in flight mode, and it worked. So, you can still get through, just so everybody can know that you can do this. (2:34).

K- I know that, we tested it.

Q: I'm just confirming it.

R: If you put your flight mode or airplane mode on while you're connected to the Internet, it'll disconnect you. So you have to put on the airplane mode first, and then you can reconnect with your Internet.

K- Most of the Apps ?? and things do it automatically nowadays. You don't need to do it. It's done automatically. It finds the nearest post.

R: Yeah, except that when you put it on airplane mode, it cuts off your Internet. But when you go on Internet, in airplane mode, then you can deliberately select your to turn on your Internet again, so that you can make the call or whatever. I think there's also the "Do Not Disturb" function that can work for that as well.

K- We'll see tomorrow.

Q: Mr. Keshe, the time is definitely 12 CET?

K- We start the session around about 11 o'clock, to get everybody in, for people to fix their phones and get the things right. But if you come in 11:30 just test it, it's there, and go out and come back at 12 o'clock, it's all the same. Because at 12 o'clock nobody else will be added on. Once you're allowed in, you go out you stay on. Depends if you want to come at 11 o'clock it's nothing, but just clicks, or whatever in the background, making sure, because you have to have to come in with your Zoom account, you cannot just come in and switch on, (2:36). because you will need to come with your Zoom account, that it carries your email, that allows us to let you in. When you come in, we keep everything muted in the background, till about 12 o'clock. We'll send a message to unmute or you unmute yourself. Don't expect any ras mataz you could even walk in with total silence the whole four hours, not a word. This is what and how it will be done. Maybe you get an introduction and everything else, but don't expect something you're used to in the human level, and somebody will come and do things. I know Rick has done a lot of these tests and practicing, the reason a lot of you who've been around with Rick, other bits you know, I noticed in the American teaching last weekend, they do the same. So you have started learning to be part of that Soul, that silence of the ear of the man, as I call it. But this time it's working. And there is no machine in the world that can record this, man has not invented soul recorders yet.

Q: Mr. Keshe, I'm sure I heard you say the four hours, so is this where time doesn't exist, a few seconds could be a very long time and vice versa?

K- It all depends, we will monitor and we decide on what to be, and what time, it could be half an hour, it could be three hours. (2:38).

Then the sessions on Monday will follow, I hope a lot of you who have been on the session of the Friday, you will go to Monday session, then you'll find some connections. In so many ways, Monday's sessions is a confirmation of the Friday's work. Then you understand. In so many ways, Monday sessions there are five sessions have been chosen is very, very, very special.

Q: I did notice that Mr. Keshe, with some people who went into the system, it wasn't, didn't always occur on the first instance, that was sort of like a balancing position. Then they tend to receive, or start to be more, you know, be more balanced, so that they could actually receive, or give to the system what they needed.

K- It works. Monday sessions will be very interesting sessions for us to monitor the development of what happened since Friday with the souls.

Q: So the physicality will experience something from those two time positions?

K- Psychosomatic.

Any other question?

R: An easy payment system from Africa, Hassan is asking in the YouTube here. (2:40). And he suggested an app...

K- What payment, you can do it...

R: That's called wave, an app called wave, which works in Senegal and Gambia. I know you've said before that Keshe Foundation can't set up a separate payment systems for every country of the world and so on. Is there any advice you could give someone from Africa?

K- Not really, we sorted the problem with, like with Brazil and Iran. And with China now, we hopefully sort out, that people cannot send money out so much. They pay their fees directly to the Keshe Foundation operation in their countries, and the what you call, the process will come through that way. They just inform us of the emails, and the things to connect, and the team in the background will connect them on time. With Africa, we don't have any operations that you can pay into.

R: Perhaps they could then work through the Brazil team. K- Yeah.

R: Or some other team that they know about.

K- But tomorrow, we think the line should have been closed by now. The, what you call, this process will take time, especially with Africa to join. We have the Russians who wanted to join and there is no banking out of Russia at the moment.

R: Hassan mentions that if the Foundation had a phone number registered to the App, and that's basically all you need in order for the transfer system to work. (2:42). But I don't think you have a phone number that can be registered at...

K- It's a local phone number, not an international number, I presume.

R: I think it can be international.

K- If you send a message to info@kfssi.org, we'll have a look at it. We have to find a solution that everybody can get ??.

R: That's what I suggested. So, let's...

K- They can work something out. We are going through the process, as we understand, number of operations and doctors are operating in different countries, and using the technology, and number of people are benefiting by the new technology through the doctors in different countries.

Yesterday we had the pleasure that one of the Knowledge Seekers who himself is using the technology through the operation, for himself has donated 4 seats or 4 places to the medical system, for Parkinson. He has donated 1 for somebody he knows and 3 were given to the freedom of the Keshe Foundation to allocate for 3 Parkinson cases. We have offered the whole three packages of three people to the Iran national operation of the Keshe Foundation, that the doctors in Iran can assess as a collective. Still having them ?? on different points and random. We target three people with Parkinson in Iran, and the, what you call it, (2:44). the progress will be monitored by the doctors in Iran. That it's not one random happening somewhere else. Then this data will be fed back into the operation of the, what you call it, other doctors around the world in the Keshe Foundation work. We'll keep you posted.

It's the same with the two children, two brothers. The doctors have the knowledge which comes from what they are gaining it's amazing. We already have started seeing, after two or three sessions, the beginning of slight changes, but beautiful changes. We'll it see right across the, what you call it, the work of our doctors. This way is easy for us.

We don't need to transfer anything, if you have a financial problem in sending money out to the Keshe Foundation, it's now resolved. And in your own nations when we work you contributes over the work of the Keshe Foundation in that nation. In a way we do exchange of technology, in exchange for wellness, and allows the operations in each country to run smoothly, because now you're financing your own nation, not the Keshe Foundation as a headquarter ??.

Any other question?

Q: Can the hearing impaired do a session too?

K- I think it's the wrong question to ask. (2:46). And a totally wrong question to ask. If you have such an impairment, you don't hear the work of the Soul through your ears. So if you're deaf, blind, or whatever, you're working through your Soul. You don't need ear to listen to, or hear. It will work the same for a layman, a king, as a deaf man, and a blind man and a vision. In the work of the Soul there is no impairment, so there shouldn't be nobody for you, if you're deaf or blind.

Any other question. I've got to leave by 12 o'clock. I have to travel.

Q: Dean here, may ask another question please, quickly Mr. Keshe?

K- Who asked you to ask the question?

Q: I am (not) allowed to say?

K- Yeah.

Q: We need to rebook for Monday, do we need to go through the booking procedure again, pay everything?

K- Yes, yes.

K- We've seen a rush of people in the past 48 hours, people trying to book. (2:48). I think the booking for the tomorrow session is closed, or will be closed in the next couple of hours, I don't know. But the booking for Monday, will be closed on Saturday or Sunday, because it needs, you have to respond back to an email. Then you have to be registered, and all the work which goes with it in the background to be ready for Monday. Monday sessions are beautiful, but it adds to the work of, what you call it, knowledge on Monday.

Q: .. confusion ... The email from KFM customer received to me at 13/12/2022 and the date of it is 11/12/2022, and both sender and receiver is KFM customer service, is it okay?

K- What?

R: I don't know what he means by all that, so I would send a message of to info@keshe.foundation. I would think to clarify...

K- They'll clarify, if there is such a thing.

Q: .. With the millions of 5G towers around the world, how can the frequencies be changed for a healthier positive outcome?

K- What frequency do you want to change? (2:50). The frequency of the 5G is matched to the system you carry in your hand. You cannot change it, otherwise your phone won't receive it.

These things are planned years and years ahead by those who are planning to do it. So, everything has to match in all the countries, in all the handsets and all the satellites. You cannot change any of it, it's planned years ahead. Three, four years ago, I was in Sunya, I used to live there when I was in China. And one day I noticed a couple of Iranians talking in the breakfast room. I was talking to them, and they said, they were in a conference for the next things after 5G, and it is an international conference from different operators, and satellite people, and governments, that everything gets matched. They meet every month somewhere around the world. So, what we see it come after 5G is already been working on three or four years, I know of, imagine how many years before they started working on. So, sooner or later, there is something after 5G they're going to hit you with. These things has to go, that all the mobile phones can receive it, and all the satellites are

tuned in, and everything else and they train enough people to be able to run it. So, not much you can do.

Any other question? Shall we call it the day? (2:52).

R: Yeah, I think we're getting close to your deadline there. So perhaps we should do that. It might be a couple of straggler questions. But I think you've pretty much covered it here.

K- Okay. So, be there tomorrow and be part of the experience. And we shall see. It's a wonderful day tomorrow. And I'm sure each one of you will take something beautiful from it. See you tomorrow, and Monday, and next week, and the week after, during the Christmas and New Year, we'll be still there. The overtime pay during the holidays is much better than during the year, I think. Rick and I can tell you that.

R: We broadcast I think every national holiday of every country in the world at this point, including Christmas, New Years and all of the rest.

K- And the religious holidays and the religious ?? time. We have no limitation. Thank you very much.

R: Okay, thank you Mr. Keshe, thank you for the opportunities that you're bringing forward here. We look forward to participating in them as much as possible.

K- Tomorrow is a fascinating and beautiful special day. Let's see what we can bring about. Thank you very much. (2:54). And see you next week. Or see you tomorrow.
