

## **Everything came from One Field - Sex & Love**

### **Introduction to 462 KSW**

Note: Not checked by KF interpretation by KS of KF Brazil

A big part of today's teaching was answering age old questions like "who am I" and "how was I created." We are part of the Creator and everything was created out of the same field of the Creator, that's why we are connected to everybody. We have heard that a lot, especially from so called, spiritual people, that we are all one and connected to everything, but they could never explain it scientifically and without dogmas. Now Mr. Keshe has explained it clearly after many years of gradually teaching us about who we are. As always we have to accept it and if we really want to have it answered in ourselves, we have to go within and test it, along with observing it in the outer world of our senses and what we call physicality.

As the teachings progress year after year, knowledge is slowly being added almost without our even knowing it. It's the devotion and emotion of knowledge that seems to grow. When we look back, then we discover how far we have come. We have heard this many times, that all is one, but after today's teaching it has a very deep meaning. Mr. Keshe already taught us that, when the M field splits and divides it carries with all the information, and even the Soul has like a RNA. Like when you watch cells dividing, and suddenly a fish appears. You can't really think about it, but you can feel, "oh, that's the power of emotion, creation appears and we begin to play. We are being prepared for transmutation, because suddenly we are going to appear somewhere where we want to be, just like that fish. This might not make sense to a lot of people, because there are a lot of things going on in the background that we can't see. It's not really magic. But we have to experience it ourselves again .. then we'll remember. That's the importance of the 16th of December when KS are going to experience this directly, if they want to. And with this knowledge there will be no fear, it will be quite natural.

In the West we were taught, "God said let there be light and there was light." This is that emotion of Creation, and we all have it, not just what they taught us as "God." But the part of the knowledge that was missing for most of us, was that creation comes out of the rubbing of 2 fields. And now more importantly, that a field can rub against its own self and create a new plasma. Without this foundational knowledge, what was just talked about will not make any sense. We are trying to keep this as simple and practical as possible, because we have to keep that love for knowledge alive, otherwise it doesn't go into our hearts. By playing with magnets you can begin to get a practical understanding of the rubbing of 2 fields. Then you can use your imagination, that if you stand next to a power generator, inside it iron magnetic fields are rubbing against each other creating what we call, "electricity." Then you look up and see all the lights and machines running from these fields. The knowledge opens, and you realize these are the exact same fields coming from the Creator, only they are farther down in the divisions so they have less strength. That's the only difference. Now every time you see the light bulbs, you'll feel,

"oh, this is the energy that I am connected to, it's part of me. I don't have to be afraid or feel separate." All these efforts brings us closer to accepting the transmutation and change for humanity.

So the essential pattern of Creation is the rubbing of 2 fields. Even the Creator of our Unicoise was created out of the love of 2 Souls. If we understand that in essence a sperm and an egg are just the rubbing of 2 fields, then do we need the physical form of a man and woman to create a new Soul, or we just need to have the interaction of fields. My love can be one field and the Cosmic Rays, or the love of the Creator another. I made man in the image of Myself. That's why he said 2 ladies could create a child in each other. In the future, two Souls totally committed to each other will create a Soul from the fields of their love. They will nourish it with the Soul of the Universe - and a perfect Plasma will be born - a perfect Soul. The beauty being conveyed is beyond whatever we could imagine and it continues to grow each day. But we all need to reeducate ourselves to the truth. There is so much here to ponder about.

How to say? These are not just lofty words. The technology is here to back up the dreams. And many of us have already experienced the Cosmic Ray power, this system is bringing to us. That's why it's important to be a part of the monthly tests. You become a plasma scientist unto your own self and then share what you learn with the rest of us, and it grows to take over the whole planet. This is what the "Comprehensive Universal Plasma Coverage" is about. We all tap into the Cosmic Rays and start receiving the fields for our needs. First the health and then the food, energy and everything else. We are being controlled now by being dependent on rulers to provide all our needs. Now there will be no need for abusive governments or all the other things that make life for Souls on this planet unbearable. The more we participate the smoother and faster the transition will be.

Mr. Keshe clarified how this business of what people call "karma" works. First of all the STM is the Sun, so he is responsible for what the Soul of Physicality (STP) does. "What you sow, you reap." It has to be this way, otherwise, you really could be a victim of outer circumstances. In fact, what we experience in the outer world comes out of what we feel about ourselves inwardly. The STP is the governor of our life on Earth. He is responsible that our behavior should be correct. The problem is when we don't get proper education about this as a child, then we suffer huge consequences for it. But if we learn our lessons, then we can gain the whole U by our earthly experience. The whole trick is to develop love, and unconditional love is even better. At the end of life the books have to be balanced and the STP gives it's fields, or what it has gathered in human experience over to the STM. This becomes part of the field strength of the STM and determines what it can create in its next dimension. It doesn't matter that the STM is trapped inside the brain, it can elevate the STP, but first it has to become aware of itself. So when you do good to somebody else you are really doing good to your own Self. It is not a loss. But when you hurt someone purposely, you create immense misery for yourself without knowing it. The technology will help us understand this, so that we can start to train our children the right way from birth. As he said, the clergy really messed this up and we are suffering heavy for it.

There is a bigger plan for human race then you could ever imagine.

Thank you for listening
