

Meeting the Creator and Proving it

Introduction to 464 KSW

Without any doubt, the "Coming of the Messiah," the Methi, the Promised Day has arrived on December 16, 2022. Today's workshop is a detailed discussion of what happened in the flight process and its meaning for the whole Universe (U), not just mankind. The beautiful thing is that all this coincides with the Birth of Mitra, which is the beginning of the enlightenment of Man, as symbolically the days get longer and longer, more and more light shines on us. It truly is a celebration of the heavens.

So what actually happened that makes this flight different than the others? First of all there were 150 people from 80 different races around the world, animals, and members of the whole planet were represented, as well as ambassadors from the Universal Community. In a way, we can say that it was a collective flight that represented the U and not on the level of the individual. Keep in mind that nobody was told what was going to happen, so that they would not have preconceived ideas. Nobody knew that they were going to meet their Creator.

It started out in the usual way by expanding all the Souls to cover their physicality (P). Oscilloscopes 20 km away were used to measure the physical interactions of the fields, but they had no physical connection to the central system. Baseline graphs were made prior to the session, and you can clearly see the difference in the graph when everybody was asked to expand their Soul. This is an important proof that the STM does indeed exist. Next everybody was asked to join with each other, and then with their Prophet or Messenger, that they believe in. At this point the graphs show that everybody became one soul. Then with the Souls of the Prophets, together they were asked to join with the Soul of the Creator. This is where the amazing thing happened, all the lines of the graph went flat. No one is higher than any other, even the Creator is not higher than anyone. This is the key point of everything, "I made man in the image of Myself." In the reality of the Knowledge of Creation, no one is higher than another, not the Prophets, nor the kings, not even the Creator. This changes everything not only in the life on Earth, but the whole Unicose.

The religious leaders taught us to wait for a savior, a person to come and do the work for us. In this way the "master - slave" relationship would remain as an acceptable norm on the Earth. Thank God the true Day of Judgment has come, and it has shattered the old structures to pieces. Just as the world has no historical record of the Christ coming, so too the world and religious leaders choose not to openly participate in the 16th. But it has shaken all of them, because the attempted attack on the Center of a few weeks ago failed, and they all know their time is over. Now we do not need intermediaries to govern us, nor show us the path to the Creator.

The responsibility of showing the Man his Creator, or even to know such a thing existed fell to the Prophets or Messengers, which then fell to the religions and all the problems created there. Now the man himself can go directly through the systems and Cosmic Rays (CR) to meet his Creator. It appears to be a matter of having enough field strength to reach the Creator. This is basically what Mr. Keshe did with the systems. He added the strength of the CR, some of which were not connected to this planet, the Souls of the Prophets and Universal Community, all this added together was enough to reach. And he said, this was the first time in history of the U, it was done this way. And the UC is waiting to find out how the Man will respond to this trial. He did not say that the Prophets of the past reached the Creator, rather they opened a 'gate' for the Man. That even to do what they did, they needed the added field strength of their followers. It is understood, that the gathering of field strength is related to serving the others, and following the ethos of Mitra - Think - Speak - and Act Good. This is why going forward mankind will turn away from religious dogmas and replace them with the Knowledge of Creation and a true understanding of his own Soul and life.

It has not been said exactly how this transition will go. But with this new knowledge we have the responsibility to mature ourselves to understand the knowledge as quickly as possible. It's not just to use the T to make life easier and to go to places instantly. Some of the leaders of this planet willfully kept mankind ignorant to setup an elite privileged class to rule. This has left huge scars on mankind emotionally and mentally. I believe we can use the system to help heal our internal wounds and mature to the knowledge. This depends on what we want out of life. If we could fall in love with the Creator and the Knowledge of His Creation, then that would lead to an endless adventure of discovering.

If you have done any sincere spiritual searching for truth, then you would understand that it would be almost impossible that Man could have found this knowledge on his own. Therefore, there is an immense gratitude for having been given this knowledge, even the glimpse we got on the 16th. The other races know, because they have been searching for billions of years, how is it Mankind is gifted this knowledge. Out of this love there is a wish that mankind will mature to understand, and then teach the Knowledge throughout the Unicose.

Part of the process of maturing man is that those who participated in the 16th, that they continue to deepen their understanding by joining the upcoming sessions next year. The next session will be the 20th of January and will be even more amazing. This is where we change humanity, by joining and changing ourselves.

A few more highlights were the Universal Council will takeover from the Prophets; First time a physical instrument was used to show the existence of God; Once connected to the Creator it lasts forever; Use an App to connect to receive the CR for whatever you need; Importance of spreading Gans's around planet to increase connection to Creator; Be able to connect without phones; Fundamental Rays use only a part of the CR to create the local conditions; Only the Creator can use all of the CR; Creation is like one womb inside of another, and another and so forth, like the solar system inside the galaxy, inside the U, and so forth. Each womb has its own heartbeat that it determines - but it is influenced by

all the others; Big teaching about what Virgin Birth means and how the Catholic's took birth of Mitra and changed it - virginity is purity of Soul - Mitra - then they changed it to physicality and controlling women - and forcing arranged marriages which created lot of problems; Being equal to Creator brings detachment; Duplicating the Soul; A lot about diamonds; Add Mg to Cup 1 & 2 for new emotional Covid - last long time; Iranians going through adjustments of STP towards maturity; When can't remember dream because STP has to elevate to work together with STM. This workshop needs careful study.

Thanks for listening.
