

465th Knowledge Seekers Workshop December 29th, 2022

(Quick Index 28 pp, Introduction, Topic Index, Transcription, Proofing done; Need to do Key Phrases, Words) (Auto transcription from Elias)

Question & Answer workshop; "Annual Report" of KF; Register for January 20th session - very special; Re-grow organs limbs; Start mass programs; "Plasma" Servers; Keshe Coin exchangeable; Those who have connection to world and religious leaders attend 20th - bring in Souls to elevate - bring change; Soul travel in dream; "Decision dreaming"; Teaching on Reincarnation - emotion transferred through RNA - not reincarnation; CR like highway from capital; Interface with U Community

Topic Index

Time to ask questions for clarity; Opened eyes to STM on December 16th; Ignored inner energies; Collaboration with space agencies - feeding astronauts & wellness program; But we have different way of space travel with STM; Cosmic Ray (CR) system finish end of January - transmute couple physically to Moon; 16th confirmed CR are ready; Start mass programs; need 300 volunteers - 100 each for Alzheimer's - MS - Parkinson's; This knowledge will be needed for space travel - to re-grow limbs and organs; KF has license to test medical technology; If loose leg call number for re-growing leg - faster with CR - how lizards re-grow tail; Human's had knowledge at time of dinosaurs - could sever and re-grow limbs to survive - knowledge still in brain; 2008 KF re-grew amputated toe; Witnessed re-growth of brain of Naomi took 5 months - with CR only 5 weeks; In future go to one organ system for body; To volunteer for testing contact KF; Today's KSW is like "Annual Report" of KF; Next is to bring change to world leaders over handful of years - if becomes "hot potato" only a couple of years; "Friday flight sessions from January 20th and onwards very special - interact with U Community and more; Don't give preconceived expectations come open for what happens; All sessions well planned; By midsummer try to transmute 10,000 souls across planet & beyond; For Moon flight try to make physical picture from images in STM; Satellite Souls giving gift to humanity - need more people; Satellites work different D than U Council; Use Satellite Souls to communicate with U Community; Souls from 16th remain connected; Your Soul brought you in - could have been energy from ancestors who served humanity - you benefited; Rick has been with us for a long, long time; Costs have to be covered - support work of KF; Switch to "Plasma Servers" in 2023 - knowledge becoming mature; When numbers of participants increase - costs come down; Doctors decide on fee - not KF; In time of disaster can feed thousands of people and provide medicine through fields; UN pays inflated prices to American farmers - end with new T; Feed hungry people with set of headphones - "One Phone One Life"; Two mobile phones live forever - provide all needs; First T has to be proven - then collaboration to deliver; Did in China with Swine Flu - now don't hear about pig flu anymore; How will multinational corporations respond to loss of control; Dial a number and be fed - not a dream; Monday's Nourishment Session tested a lot in background - same with cancer; Christmas Gift Flight started fundamental massive change for life process on planet; In future will you need to kill a pig?; Gratitude to governments for setting up satellites - now can use for changing humanity; First trials

will start adding systems to Iranian satellites to feed nation - then rest of world; KF doesn't have specific agricultural program - many KS running trials; With CR walking away from food; Produce field strength of wheat through CR - don't need to grow; KS have to bring to governments - not us; We avoid teaching you how to eat others - can't do in space - won't survive; The "missing piece" was creation of CR and Universal Rays - to feed yourself in U; Those in UFOs still have to feed themselves to exist - they will learn from Man how to use CR and Universal Rays; Agriculture and killing millions of chickens will come to an end; Take energy from plasma - don't need to kill; KS should have already moved in that direction; Will have a Zoom session to analyze data of Mondays sessions in more detail; The Souls came in unison so it didn't matter about the noise; Concern about loss of jobs - man will adapt to something new as he always has done in the past - we've seen it with Covid; Work for "reward & payment" will change; Electronic controlled financing & banking - government's just tops up your account with imaginary numbers - you do the same to someone else to get something from them - there will be no jobs - no borrowing; Our accepted life as a slave will end; Can live anywhere - go to work in 10 seconds; Spend more time outside and enjoying yourself - like when unemployed - or travel the U; Free from taxes - chemicals - feed from pure plasma energy; Not theoretical - tests have been done; Belgians did best thing to keep us out of media - have developed without interference; Now can live life you always wanted to - not have to worry how to survive; CR are free; If you find a way to tap into CR don't need an App; Not enough time to be unemployed - mankind will be employed with the pleasures of the universe - not present slavery;

People experienced different things in flight session according to their emotion and Soul's enjoyment; Friday session joined Souls together as one but didn't do that on Monday - next time will start by joining Souls then proceeding with session; Past teaching of "you will give your Soul to a captain you trust - return Soul at destination" was fulfilled on 16th; Everyone trusted to give there Souls - it formed a "Soul of the Group" which was the Captain and took them to the Creator; Can see how many years took to learn something; Future teach to travel with Soul to planetary systems and in stars - already have connection through light you see; Two questions asked in flight what did you see and feel? - give answer in coming weeks; Have to learn "Knowledge" of Soul & P and how they are separated - then become in charge of interactions; If you do wrong on Soul level or P level get paralyzed; When travel P will change how it looks - get used to it - like waking from coma after 20 years; Vegetarians is one thing - wearing dead animal skins and even cotton - another life killed or hurt; Chemical based clothes will disappear in space because of fields - Soul is naked; Soul tricked you through P to come in on 16th - destined to be part of change; One of sessions after January 20th will bring in world religious leaders Ayatollahs, Pope and rest - elevate their souls - walk away from position - bring change; We call their Souls - have to appear; End of religions; Then bring in world leaders Biden and the rest - like you saw Creator - they are His servants; This will start the Change; We change their Soul and Soul changes D of physicality (P); Saw as child - Mullahs came and got elevated and took off frock; Other civilizations will contact us for meeting - like pen pals; Even without job humans not rest - explore U; Already travel U with Soul in sleep - received invitation and traveled - but still attached to body - leaves memory of M fields as images in brain called dream; You got in-between the

Souls and heard the messages - but not really there; Aliens you saw in dream really exist; Can do "decision dreaming" you decide to go somewhere; Soul travel in dream is instantaneous - then mom wakes up - time to go to school in D of P; Difference between mirage - reflection - and real - the real one has a soul - the others don't; Will setup tests to do with Plasma Mirrors; Teaching on why "reincarnation" the way people believe does not exist - the essence of emotion as energy is passes on through RNA to future generations; You are not the person who had past experiences - you are receiving the fields as memory and you act on it in present situation; STM is new creation from mother and father; How souls add themselves to you we don't know yet; Example of music recorded by grandfather and shared it with others who continue to spread recording - but original recording and recorder get destroyed, only the energy of it remains - you are not your grandfather - have received information through RNA - Reincarnation not possible; Day of Judgment was 16th - fulfilled Holy Books - true meaning is all people come together as one Soul - which happened on 16th for first time; CR and Universal Rays are based on M fields - not the other names given; Detailed teaching about CR the different parts and clusters of plasmas and a lot of things; Analogy of Capitol and roads going away from capital to form cities - towns - villages - homes or farms - how they branch out and create life - CR are that road - the Capital is Soul of Creator; Don't wait till last minute to register for 20th January; Come without desires - be open to what unfolds; Keshe Coin start of One Nation - issue certificates that are tracked by KF and can't be stolen; Banks will exchange Coins and KF will pay employees in Coins; If we are fed by satellite phone system and an accident happens how will we get fed - no problem cannot loose connection - will still get fed energy; Need more Satellite Souls also for U Community not just humans; Make connection with Soul not P; Will start interfacing with U Community in 2023 - bring into EU in Linz; Have videoed different M field environments - CR needed to manifest P; When people from 16th continue to attend 20th and other sessions they develop the Soul (in a deeper way) - this is good then you can teach more in future; If you worked in nuclear power station connected to fields; Future teach how you connect your Soul to Soul of Planet then you create all the power, energy and light you need for your life; Already have system for it; Will be part of space cities; When you look in a direction that area will automatically be lit - no street lights - also light by emotion; Can sense what is behind and know how to react; People who have personally been in presence of any world or religious leader should attend the following sessions for January 20th - Pope - Ayatollah - Rabbis of Jerusalem - and Biden and other leaders - and elite scientists - kings or queens - UN ambassador - We are going to create a connection and elevate the Souls to end kingship and the religions; It's your obligation to be present on January 20th to bring change in 2023; Interface with U Community and beginning of massive change in knowledge & T and friendship; Biggest achievement in 2022 was man as a group recognized his own Soul and as a unified Soul met the Creator - first time in history; Took thousands of years to teach man about his Soul - through this you own - your own life; Protocol for new emotional Covid that causes depression and suicidal thoughts, but only starts with small cold - is Cup 1 and Cup 2 at a equal ratio of 1:1 and Mg Gans to it for the emotions; Equal ratio will bring balance between Soul and emotion; Takes long time to get over; Use Tabletop Gans producer new from Iranian factory; China hit with new Covid restrictions back - but don't know what looking for; First time we understand how viruses effect emotions; 10th year of serving humanity.

Introduction to 465 KSW - Man has discovered his Soul - Cosmic rays - Reincarnation

This is the last workshop of 2022, the year the plasma technology by KF was released. Mr. Keshe called it a kind of "Annual Report of the KF, but also a workshop for KS to get clarification on parts of the teaching they have not understood. The highlight of this year was without a doubt, December 16th when for the first time Man was able to join together his Soul with each other, his Prophets, and members of the Universal Community, and by adding Cosmic Rays (CR) become as a single "Soul" and then without knowing, they were asked to go to the Creator, which they did. It was physically shown on instruments and graphs. The implications are huge, not only on this planet but across the U.

He went on to say, that the hardest thing has been to teach man that he has a Soul. They have been trying for thousands of years, but now man knows and has scientific proof, so the taboo to talk about the Soul will be lifted along with all the false understanding about it. Part of our acceptance of our "slave" mentality and way of life has come through our ignorance of how Creation in the U actually works. Everybody that joined the 16th has made a connection to their Creator that can never be broken. All they have to do is remember it, and they immediately feel that Presence. The religious leaders and world leaders have used this ignorance in a way, to control the man. Therefore, this is the obvious next step, to expand on these sessions and spread them, so the masses can experience it, then their false belief's will vanish.

A time gap was given between the 16th and the next session of January 20th, which will be even more amazing, for people to digest and go deeper into their own experience. Those who choose to continue on with the sessions will go deeper into their Soul. The more knowledge they gain, the more they can teach the others. Now that we have the proof, it is important for all of us to join in and quickly bring the change across the planet.

Everything seems to be about the fields of the plasma, how they interact and connect with each other, that this determines what kind of experience, manifestation, and the kind of world we can create. The call has gone out for those who have a direct connection to any of the world leaders and religious leaders to attend the upcoming sessions starting on January 20th. This means that if you have personally met them, or even just been in their presence, close to them, you have a plasmatic link to them. This link can be used to elevate their Souls in the same way that it was done on the 16th. We do not have to wait for them to decide to change. Because we all know that the physicality (P) has denied the Soul's existence, especially in the leaders. But as they are the servants of the Creator they have to come. Nevertheless, for those leaders who have a sincere desire to serve the Creator, they were invited to be brave and come openly to the session. The Creator is so merciful, that He is giving them this last chance to willingly follow the "words" they themselves tell to others to do, rather than forcing them. How beautiful it would be if the leaders themselves would come forward. Because their own Souls will make them to tell

there masses the truth. Mr. Keshe said, don't be surprised if one day you hear that the Pope walked away from his position, never to be heard from again. Remember, the time for change is now, and KS who have this connection to the leaders have an obligation to come forward and help create the field interaction.

Part of the testing that needs to be completed are the "100 patient" trails each for Alzheimer's, MS, and Parkinson's. So we need 300 volunteers from around the world. By studying these diseases we'll learn how the emotions through the Soul effect the physicality. The Soul can release energies to specific locations in the body, like for instance, Parkinson's targets the hands. It's the same knowledge that will be used in space for re-growing organs and limbs if needed. Though, the man already has this knowledge stored in the brain from the time of the dinosaurs. It's a matter of accessing it.

Another thing needed for these changes to take place, are more Souls to volunteer for being Satellites around the world. It was said, "you don't know what a gift you are giving humanity." Not only mankind but Satellites will also create a connection with the U Community. 2023 will be a big year for interfacing with the U Community, for sharing and receiving knowledge to carry out these changes.

Some of the changes that will come will be that in the future we will not need streetlights anymore. Through where we look and our emotion that area will be lighted up automatically. Without looking we will know what is going on behind us and will know how to react to it. We will be taught how to connect our Soul to the Soul of the Planet and that will provide all the energy we need in our lives, as well as heat our bodies and whatever light we need. This is way beyond anything Tesla was ever involved in, bless his Soul. Actually, this system is already developed.

All of this has come about because of the creation of CR. There is also something called a Universal Ray which has not yet been explained. There is a lot going on inside a CR, like they can contain plasmas and clusters of plasmas and other things. A beautiful analogy was given to describe more about CR. Think of a Capital city and then all the roads that leave from it and go out into the countryside. At first there is open land then you come to towns, villages, and farms and houses. When somebody goes into open land and start to build a house there, and then they make a family and there children start building around them and it becomes a village and maybe later a town. This is how the CR work and how creation spreads throughout the space. But they all are connected to those main roads, which come out from the Capital, which is the Creator. Next time you are driving in the countryside - ponder about how all this development started and spread - then you will understand about CR and how simple life is, and that we are all connected to it. And wherever go there is always a "road."

I think subconsciously a lot of people believe in what has been taught as "reincarnation." We want to think I was such and such a person in the past and that's why I behave the way I do. This will be very hard to let go of, because there is also some ego attached to it. Mr. Keshe made it even more clear that the creation does not work that way. There are Masters in India who totally rejected reincarnation the way the Hindus and Buddhists

have taught it. They didn't care what the scriptures said, they knew scientifically, but they could not explain it. Maybe partly because the people were not ready to hear it. If you challenge the reincarnation theory people get angry. But if you openly listen to what is described in this teaching it will become clear.

If your grandfather recorded and played a beautiful piece of music and then shared it with others who in turn recorded and shared it. The essence of that emotion energy information is a M field, that is now spreading across (like in the bloodline). It doesn't matter that the original recording and recorder have been destroyed and don't exist in P anymore. The energy information of that music has been passed down through the RNA to all the offspring in the bloodline. Then one day you find out that you can play that music. It does not mean that you were your grandfather in a past life. Rather you already have that information in your RNA and you have a matching field strength to it, and that's why you can play it. There are countless tendencies that we can have access to, in our RNA. What causes us to have a matching field strength has not been clarified.

This explains why you feel like you were someone in a past life. But the STM is created for the first time from the fields of its mother and father here on earth. All the memories are carried in the RNA. Just like the P is born after 9 months, so too the STM is born on the "death" of the P. There are a lot of other things we have not yet learned about. For instance, how does it work with another soul joining the STM, like what happens with Prophets. A Soul is a plasma, and just like CR can have other plasmas and clusters of plasmas inside it, why can't the Souls have other souls in them. This understanding will come in the future. But now we have a solid base about reincarnation.

A few other things to remember are "Plasma" servers will come in 2023; with 2 mobile phones can feed forever; A lot of data was collected in Monday's Nourishment session - being fed over phones is very close; Produce fields of wheat through CR farming not needed; Don't need to kill for clothes animal skins or cotton; Soul is naked in U; Keshe Coin will be exchanged in banks - cannot be stolen; Don't worry about what to do without a job - exploring the U; Man will adapt and always find something to do; Our accepted life as a slave will end; If you make wrong action Soul will paralyze P; Decision dreaming; New emotional Covid protocol Cup 1 & 2 at 1:1 ratio with Mg added; New Tabletop Gans making unit and much more.

Thank you for listening

Quick Index

(We are coming to the end of the year in the Christian calendar, and we are entering more or less, into the 10th year of teaching. Every now and then we allow you to ask questions about what you have been learning. We would like to hear what you have learned over the past year, and what you would like to see for next year and the years to come. What should be the pattern of the work for the human race. Because with what we saw on the 16th of December, now every Soul has a place in the structure of the work of this planet).

(We like to get feedback from you, with what I call, real questions, and not irresponsible questions. Through your questions we can clear up any ambiguities in part of the teachings and give more explanations. We can all learn more and participate more in all of the structure).

(Keshe Foundation, which includes KF manufacturing, KF research and development, and other branches of KF all have their own ways (of working) in different parts of the world. For us 2022 was a revolution and evolution in science and technology. We shared a lot and brought a lot of knowledge on the table, and with it we opened the eyes of many of you, to the dimension of (feeling) and understanding the strength of your Soul. And for you to realize that you have ignored your inner energies. Many of you came in touch with (your Soul) and learned a lot from it. And many of you will do the same in the coming time. Waiting for the time of magic goes away, as (the reality of experiencing) it becomes a part of your life).

In 2022, we battled to introduce (you to) the station of the Soul of the Man (STM). (But still many others will be waiting for a change to come, when the change has already come. This will show itself through this work in the coming time).

(The December 16th trials were very successful and many of you joined for different reasons. (We were able to discover many things in the background. And by Monday the 19th our tests were more focused). All this has brought us a lot of positive things, because the 16th was a large trial, and it confirmed a lot of correctness of the technology (T), and we gained a lot of knowledge, and it showed us a lot of things that need to be added).

(Because of the tests on the 16th and 19th, we have started collaboration with major space agencies, in a way. We are putting forward the (possibilities of feeding their astronauts and space passengers). First we'll test it on the ground and then in their space flights. We'll also try to feed the people in the Space Station. We'll extend it from not having to eat for 1 day, then to a week, and so forth. Gradually, we'll introduce the technology in the dimension of the space, and then through the level of the Soul).

(In 2023, Keshe Foundation will seek direct collaboration with the space agencies for wellness and feeding the astronauts. But not in space travel, since they are traveling with their rockets and physicality way. While we do it a different way with the STM. This collaboration will bring further understanding for us and them).

(Also in 2023, we are looking for our technology to expand and be understood by the majority, and (even in the) scientific world. We'll collaborate across nations. Yesterday I said to our leading negotiator, that the target for 2023, is working in Teheran, launching in Tel Aviv, flying from New York, and landing in China. He said, Mehran, you know this is a very big job. He has taken more or less the place of our beloved member of the Universal Council from Israel, who passed away a few weeks ago).

Through our direct channels, we have entered in negotiations, (as we are the Iranians, Israelis, Americans, and Chinese working together in the space development. It does not matter what the leaders of nations decide to do. This seems to be the right way. We'll explore this avenue in a very rapid way in the coming weeks. And we'll establish the testing of flights between Tehran and Tel Aviv. And then we'll expand it further and into other dimensions).

(The next step for us in the coming weeks will be the Moon landing. We already have the volunteers ready to take this excursion. Our systems should be completed by the end of January and then we will start. Completion of the Mobile system that many of you joined should be by the end of February or March. We'll start doing landing tests by bringing people into Linz. We have already done this through the dimension of the Soul. When the new systems get completed we can do it in the dimension of physicality (P). The systems are about 80% completed on the reactor side. Whereas, they are 100% ready on the cosmic side, as what we have shown on the 16th and 19th). After the trial of 16th and 19th, we will start what we call, mass programs

(In 2023, we'll introduce as part of the work with the doctors and the space agencies, 3 different trial with 100 participants each. We are sure we can support them with enough patient volunteers. We'll start analyzing and accepting the cases from around the world in early January. We are looking for the following conditions 100 cases of Alzheimer's, 100 cases of MS, and 100 cases of Parkinson's. These 300 cases should be concluded in 2023. Together all of them will cover psychological, psychosomatic, and somatic psychological conditions. Each one will give us the knowledge to develop and perfect the technologies to be used in space. Through this work of understanding Parkinson's, Alzheimer's, and part of what happens in epileptic attacks, we'll be able to learn how we can re-grow different parts of the body. This knowledge is connected to each other).

(An epileptic attack releases a massive amount of information and energy, which comes as epileptic shocks. In Parkinson's we'll learn how information is directed to a specific location, like the shaking of the hands. In Alzheimer's, this information is locked in our body, and has been locked for thousands of years. And we will open the "Alzheimer's of the knowledge" of the physiology of the brain, to the brain itself. And with MS we'll learn how to bring self-inflicted conditions back into working as one).

(With these three, and with the fourth one hidden behind, we'll have all what we need for our passengers of the Universe. If you decide to travel in the dimension (D) of physicality and you lose an arm, by understanding the knowledge of these 4 systems, we can grow back the arm or leg. It can be grown back anywhere in space by your brain, and not by us. We only deliver the technology). We are not doctors, but we know how to make these systems.

(We have the rights to produce these technologies, because of the license given to us by Naturopathica in Belgium, back in about 2008. We can test them with doctors. We are completely within the legal structure of the development of the technology, as we have the licenses. This allows us to bring in a new understanding).

(For example, if you lose your leg or arm in an accident, or your heart doesn't work and you go to hospital, now the doctors just have to dial a number and connect you to a system set for growing arms or legs. Then it grows back through the structure of your own brain. There is no need for amputation and then (artificial limbs). The doctors will be trained in how to let your arm or leg grow back out). We've done this before.

(But the difference now is, we have found a correct and faster way to do it, by introducing the Cosmic Rays (CR). This allows for a speedy recovery. Now we know how the lizards do it. They don't just create energies or whatever, for the tail to grow back. They create a specific condition within their skin, where they absorb cosmic rays to speed up the growth. Now we have access to the same knowledge. Humanity has learned how the lizard does it, and can also do it).

The beauty of it is, that the human body used to know how to do it. (Back in the time of the dinosaurs when we were living in the holes as little mice and rats, we knew how to replace our organs. We also knew how to sever our arms and legs from the body if we got trapped somewhere running away from the other animals). We just forgot it. We touched the "Alzheimer's of Creation."

(Today we can open up that knowledge again, with what we have gained through "psycho genetics." We can again switch on the genes of the man. Back when you needed it, then you could create it. So the knowledge is already there. It's just to bring it out. Through the technology we developed, we guide your brain to where this knowledge is. We create a condition that your own brain finds where it stored this information, and we unlock it).

(It's like storing it on a computer disk, then you can download it when you want to use it, and when you don't need it put it away somewhere until the time you do need to use it. So the knowledge is there to regenerate the organs, and arms and legs. This can be done and it has been shown. Many of our people talk about it, but they haven't yet understood it).

(Maybe I'll open this Pandora's box, of what you have missed. We told you sometime around 2008, that we grew back an amputated toe. We didn't use any bandages, or whatever. We just placed a specifically designed (Nano) disk in front of the toe, and it grew. At the time, for you this was only something that "Keshe does.")

Nevertheless, all of you witnessed the growth and replacement of the brain of Naomi. (But maybe you just took it as, somebody who was in coma and we brought her out of it. But in fact, it was the biggest development in the science of the man, happening right in front of you), but you missed it. When we say we can grow arms and legs, this is nothing compared to growing, what grows the arm and leg, which is the brain of the man. And you all witnessed it. So now what we said makes sense.

(The technology is here, so that if lose an organ, or a limb, or you need a kidney replacement, or you're born with only one kidney, or you're born with some heart defects,

now we can replace these. We don't touch the defects themselves. Instead, we go to the master, which is in the brain and say, "Sorry sir, at the time of birth, you forgot a kidney. The structure here is two kidneys." But in the coming time with the new race maybe only one kidney will be needed. Maybe we'll go to a "one organ" system in our body).

(We're developing systems that will use Cosmic Rays. Then what took 5 months with Naomi's condition will take only 5 weeks. And the systems are more accurate and perfect). This is what we'll see, in 2023.

Those of you who suffer from any of these conditions, get in touch with the KF doctors. When the hundreds are completed, the doctors will release a report about what they've seen and done. Then hopefully in 2024 - 2025, we'll take this to the next step. The way we see things going, the technologies might develop even faster.

(Today we are giving you what I call, our "Annual Report," as you've been part of it. Then we'll go to the next step, which is how we are going to bring this knowledge to the world leaders and the world community. And how gradually we'll bring the change over the next handful of years. And if it becomes a "hot potato," maybe it will take less than a couple of years).

(Now let's go to the question and hear from you, in how and what you would like to see. If anybody has a credible and knowledgeable question please ask it. Otherwise, if there are none, (we go on with the teaching). Most probably we had one of the best years of the Keshe Foundation, and we'll see what will be in the coming year).

Q: Do you think the new experience of the 20th of January, 2023 will be an interesting complimentary to what we have already done?

K- The January 2023 test flights will be a specific project. As many as you can, try to join us. December 16th was a surprise Christmas gift. But the January, February, and March sessions are what I call, "Friday afternoon sessions," are part of the development of the STM for space travel.

(We are not going to explain it or go into details, because we don't want to give you a preset mind). You all came with the idea that on the 16th, that you would see if your cancer goes away, fly to the Moon, and everything else. But none of you expected to meet your Creator. And yet, all of you met your Creator in the dimension (D) of the Soul. Technological data shows us, that we are correct, and there is no conflict.

The 20th of January flight is something special. The one in February will "knock both your shoes and socks off." March will bring you a shocking realization. (All these sessions are all in the D of science, interaction with the Universal Community, and understanding the work of your own structure, the way we have been doing it.

For many of you who came to the December 16th session, it was important. We'll see a number of you to also come to the 20th of January, as well as February and March, and there after). These Souls are part of the structure of the next generation.

(All these sessions are well planned. We don't just make up things for the next session. We are taking you to the next step, and the next ones thereafter. I think those who will join us for the January test will be amazed in how they will see themselves. (The flight to Mars will follow after the first landing on Moon of the 2 Knowledge Seekers. They have been selected and we are preparing for it. One is from Russia and the other from Germany, they are a husband and wife team, and then we'll go to the next step).

(By mid-July or August, we'll try to make the first multiple (person) flight. It will be very much like what we did with the 160 people in one session on the 16th. And we'll try by mid to the back end of the year, to take between 1,000 to 10,000 souls not only across this planet, but beyond. This is why we are asking you to join the "100 patient" trials for each of the conditions. Because the faster we finished those trials, the more we perfect (our systems and knowledge) by our Knowledge Seekers. Then we'll do the fine tuning).

(The January flight will be an amazing flight. I know exactly what's going to happen, and what I have planned for it. And every flight thereafter is arranged and organized. In a way, it's not the organization, but the understanding. It will be one of the first interactions with the UC. The January flight is a prelude to it). We will bring the STM directly in touch with the Soul of the Universal Community in a very different way.

(Our data shows the exact point that you were in touch with the Soul of your Prophets. Then in the Soul D, you came in touch with the Soul of your Creator. (You have to understand the new dimensions we are bringing you to, so that when you go to space it doesn't become a magic show). As you enjoy the UFOs we'll still work in that physical dimension, and whatever, because we have to keep you busy. But in the future, the norm will be travel by transmutation through the Soul).

A lot of things will change after the January 20th session, and the February and March sessions too. These trials will bring us to the point of being able to do our things in mass numbers. The January session will be a mind blowing experience, and the same with February and March. But the March one, is where we hope to collaborate (with the space agencies ??) after landing the first 2 people on the Moon. We'll let the husband and wife tell us how they see and feel about each other. We'll try to get pictures through the Souls, (for us to see where they are. We can convert these pictures to a physical picture through the STM).

This is where the people who registered to be the Satellite Souls come in. (Those of you who joined for Satellites, we'll communicate through your Souls to the Universal Community, and what we call, the "structure of work." Those who volunteered to be Satellites, you do not know what a gift you have given to humanity. The work you do is separate from that of what the Universal Council does. It's totally different dimension).

We still need more people to be Satellites. This time it's your Soul that you are putting (to be the communication line, and not your physicality. It's not your computer hardware in your house. We need your beautiful Souls to become the line of communication between the Universal Community, and what we call, "man's understanding of the Universal Community.") This process will start early next year. January 20th will give you a beautiful sensation, that you're a human, and how as a human you (have) become part of the U Community. Let's see how the man as a whole will take the next step.

Q: What will happen to all the people who participated on December 16th, when they connected together and with the Prophets and the Creator? Why were they brought together by their Souls?

K- They (remain) connected from the time of the 16th of December. The purpose was for the STM to understand that it has the capacity, strength, beauty, elegance, (and the ability to stay at the table of the Creator).

(Many of you didn't know why you came, or you came for different reasons. But your Soul knew exactly what it was doing. Your Souls were aware that you will receive the gift to sit with the Creator).

(Go back to your past generations and see which part of your bloodline has served the humanity. In some cases it is your own Soul, that is the reason you took part of celebration on the 16th. But for many of you, it was a gift, thanks to (someone in) your past generations for what they've done, for understanding of the Creation and the work of the Creator. It's like if your father discovered something, and years later his son or grandchild picks up the Nobel Prize for it. He may not even have known anything about what his grandfather has done). This is how it was set to be on the 16th.

(For example, Rick was there on the 16th. He has been with us a long, long time, not just on this project (for elevating the Earth). He is one of the guys who came with us. Things are not accidental, nor coincidental. When you say, what was the purpose of being there? Look into your life, and try to find out about your ancestors, and how they served the humanity, so that you were able to pick up the flower. Now, you understand why. (Everyone who came on the 16th did so in the dimension of the Soul, and not to get anything). They came to celebrate what have been achieved, and the ending of an era). Now, maybe you understand.

Q: How do average citizens that might be low on income, but huge on soul and love, gain access to experience the Keshe space programs and technology from somewhere like the middle of Canada, where I live?

K- Wait (for) your time. (Those who are participating are paying for the systems to be developed. Gradually in 2023 we'll switch to a "plasma server" system, as now the knowledge is becoming a little bit more mature. We are (bringing in) more and more people. We already started it (towards the end of this present year and will be rapidly increased)).

(There are expenses incurred on the Foundation to run these technologies, that need to be covered. And the huge loss we had, has set us back by quite a bit, but luckily, it won't take us long to be back on track with what has been set in the background during the past years).

(But remember, if you had Parkinson's, our doctors would have charged you up to \$200,000 (to process). We are discussing now about the "100 cases," of Parkinson's, Alzheimer's, and MS. This will allow us to increase our system use, while reducing our costs. In the coming weeks, we might reduce the cost to around 10,000 Euros for example, for Parkinson's, MS, and the others). (But those of you who already entered the process, the price will stay the same. We cannot change it, because it was already setup).

When we start the trials, (the doctors will have to decide if 10,000 is enough to cover their expenses, including additional expenses they might incur. One patient is different than when you have 30 patients, then you have to bring in other doctors and nurses to monitor, secretaries and add other structures too. Maybe some doctors will increase it to 20 to 25,000. It's not in our hands, they decide. But if we then go into the national and international level where (the numbers will drastically increase), then I think the costs will come down to about five, or maybe the governments will fix it at 10,000).

(It's the same with disasters. Now, there is a disaster in North America and many people have lost their lives, as they are hit with frost, and shortages of water, food, and medicine. It's not just individuals, hospitals and health centers are also hit. How would KF respond? In the coming time we'll come to an agreement with the American government to cover an area of say 10,000 people. Then we would feed them for two weeks until they come to normality. In this same area, we would also cover all the medical needs. If you are diabetic and you can't get insulin, because the system is broken, then you would be covered. These new systems will bring huge changes).

(In Africa, where tens of thousands of people are dying of hunger due to droughts, our systems can be used. Now the United Nations has to get the money from Americans, to buy food at inflated prices from only American farmers. So instead of paying for 100 kilos of rice, and getting 100 kilos, now they only get 1 kilo for the starving people. These prices are paid through the agency's. All this will come to an end).

(Every hungry person would get one set of headphones, and they would be fed. Today, there are more mobile phones on this planet, than the number of humans. So, it's not difficult to (feed everybody). It's what I called in the past teachings, "One Phone One Life." I said, with two mobile phones you'll live forever and they'll provide all your needs. But at that time you couldn't understand it, so we explained it with batteries and whatever).

(When you have 2 mobile phones in your hand, now you understand where the technology was set up. But at that time we couldn't explain it to you. Then you understand the implication of this new knowledge. Then, (instead of \$3,000 a year, it

might be \$20 a year), to feed yourself. It will be part of what we call, the work of "One Nation.")

(First, the technology has to be proven, and then it will need a lot of collaboration. We started with individual cases, then went to multiple cases, and now we go for hundreds, and then thousands (at the same time). We already presented this with the (African Swine Flu) in China. First we proved it on one pig, then 30 pigs, and then 800 pig. Now nobody hears about pig flu in China anymore).

(Maybe it will come in 5 years time. But it depends on how we work with governments, and how the big multinationals will respond, after all they will lose their control over grain and the rest of it. (How will they play the game). All you have to do is dial a number and be fed).

(In the future, like today you have service providers, we'll have providers of the fields of the plasma. You'll be able to ask for Chinese, or Italian food, and the rest of it. The same will be for your medicine and energy needs. Maybe you'll pay 5 cents for pizza, and nothing for McDonald's, since it will be a free service). This is not a dream.

(During Monday's Nourishment or Feeding session, you do not know all the things we tested in the background. You heard from banana to apples, exotic foods, honey, every herb on this planet we could get our hands on, and the rest of it. That's why we want to talk with you over the next couple of weeks and ask you about your experience. This will give us a lot of indications about things. You cannot even imagine what has happened. The purpose wasn't for you to come in and feel good from not wanting to eat for weeks. Our preset structure was served and we would like to talk with you about it. The same with those who came for the cancer session).

(You as Knowledge Seekers who participated in the 16th and 19th entered into a very basic, but a fundamental massive change in the whole process of life on this planet. You did it with your Souls on Friday, and your physicality on Monday. You looked for (help with your) addiction to drugs or alcohol. We looked at the way your Soul reacts to these things, and then we collected the data).

(We showed you the graphs from Friday's session. Surely you don't want to see the graphs on addictions and the other sessions. So, you can't afford the cost today, but in a coming time, would there be any need to kill a pig? Or would we need to grow wheat, and the rest of the crops, and then harvest it every now and then, and then put it back in the system).

We can't take pigs and wheat into deep space, (they won't even be able to manifest their physicality. So, what's the use of growing them? In the coming time, the animals we eat today will only be a picture on the wall. You don't need to be in central Canada, one of the richest nations on this planet, and claim poverty. You'll be the same as the guy in the back villages of Africa, or in the tribes of Brazil. All will have access to the same dimension of the technology and knowledge for food and medicine).

Our Brazilian team told us how during the Corona, people in the jungles of Amazon used the Gans for Covid. We heard the same from the Africans, Chinese, Iranians, and the British. All became equal to each other. The technology for the food and medicine will be the same in next few months and weeks.

(We'll work with the governments, who did a beautiful thing by putting up all the satellites. But now they will become the true satellites for delivering a lot of wonderful things for the man. Otherwise, they'll become obsolete. Keshe Foundation has already become a space organization in Iran. We'll start feeding the Iranian nation directly through the satellites, (systems) that were built by the Iranians for the Iranian nation. In the forthcoming satellites we'll endeavor to place our systems within them, so that we can feed the nation. It will be one of the very first trials of the technology. The satellites will cover a specific area that will then be fed. Then it will be expanded to the other organizations around the world).

Q: How will the Keshe Foundation carry out projects for agriculture in 2023?

K- We'll still carry on with the same things. A lot of people are doing agricultural tests for different things and different reasons. At this moment in time we don't have a specific program for agriculture, nor plans for 2023. Because the way we see it, the way the T is going with the development of Cosmic Rays, we'll be walking away from food altogether. You will understand very soon.

(In the coming time, agriculture doesn't have a place in the new science of man. (Because now we understand about the field strength and CR of wheat, then there is no use in growing it. Nobody is going to eat it. These are realistic things that will hit all of us step by step).

You as Knowledge Seekers will bring this to your governments, not us. There is no room for agriculture, farming, or animal husbandry in the new science of space. What are you going to grow? (We don't want you to look at the man from the Mars as something to eat? We don't want you to look at something that looks like a flower, as something to eat, because it's a intelligent living being. Nevertheless, we can still help you to increase your harvest, or whatever). But Keshe Foundation is a space program.

We can't teach you how to eat others when you go into space. This is what we're trying to avoid, so that you can survive in space. This is something you have to get used to. But on the other hand, if you want to take agriculture in a different direction, then the same thing will be done with agriculture, as with the human feeding. Satellites will be used to create a condition for wheat to grow rapidly. Everything can be done now.

(The most important missing part of the "jigsaw puzzle" for humanity, was the creation of Cosmic Rays and the "Universal Rays," which man will come to understand. You need the Universal Rays to understand the structure of the Cosmic rays, and to be able to feed yourself in the universe. (The different races that travel across the universe also have to

feed themselves to exist. What you call aliens and those in the UFOs have to have something to eat. They need a source of nourishment. Now they will learn from man how to use the cosmic rays and universal rays to feed themselves).

(What you call agriculture, farming, and animal husbandry, and what you call, "killing chickens in millions," will soon come to an end with the understanding of the technology. Now when we only eat one race of beings, then we call it, being a vegetarian. Soon we'll say, "I'm a plasma-sist" I only take the energy from the plasma. I don't kill any beings. These will be the new words coming into the vocabulary of man. We will not be targeting Martians, or those from planet Zeus as food anymore).

(As we become part of the Universal Community, then we'll understand the technology of the life in the universe, where everyone lives from the fields of the plasma. A lot of Knowledge Seekers should have already moved in that direction. But in the mean time we can increase your harvest by 10 times. But there will be no customers, then you can throw it in the sea. But what are the fish in the sea going to do? They don't want it? So you end up polluting somebody else's environment. It's a very tricky business, this Keshe Foundation technology). You become Soul travelers, and not food hunters.

Q: I participated in the last session of Monday the 19th flight. When Mr. Keshe asked everyone to go to the North Pole and try to meet the Santa Claus to touch his deer, I felt even more cold, because I had caught a cold on Sunday. That Covid-19 kind of cold. During the whole session, I felt literally nothing. I felt I lost most of my connections to my Soul after I'd been attacked by the Covid virus.

R: Could getting, or being infected by a virus before you go into the flight system, could that result in a session that was say, less effective, or as he says, literally felt nothing?

K- (We went into these flight tests to understand, and see the effect of the Soul on our systems in the background. In the coming days we'll ask those who joined the different sessions on Monday like Nourishment, and addiction, to meet and tell us what you felt, how and where you connected. It doesn't matter (how much noise is made in the session. When we looked at the data gathered in the background kilometers away, we were able to follow the emotion of the Soul, and it was in unison. So it didn't matter who was making noise and who was quiet).

We'll come back to you to analyze in more detail the things. And the things that you could not even think about (during the session). But it needs a couple of weeks. (But one thing we noticed that, no matter what the people said themselves, when we asked them to tell us their experience, they say they went exactly where they wanted to go)

Q: I wonder what people with jobs in the food industry, or others will adapt to the change? My imagination needs enhancement.

K- You don't need to imagine. Look at what happened in the Industrial Revolution, when machines replaced the man's job? What happened in the computer revolution? Man always finds another thing to do, to keep himself busy.

(Most of this "reward and payment" for work will go out of the equation. It will disappear. Covid in past 2 or 3 years has proven, that you don't need to go the office from 9 to 5, it can be done from home during your leisure time. Offices don't need to exist anymore. What happened to all the office cleaners, the doorman, and the guy who used to deliver things to these offices? Now they're running offices without these people. We adapt to change very rapidly).

(A very good example of have to literally abandon the land was what we saw in Chernobyl. But today people are still living a normal life within the boundaries of the Chernobyl restricted zone. So nothing has happened as such. Life continues and carries on, and we find new hobbies).

(One of the best things which will come to man is this electronic controlled financing, and banking. The government's just top up your account for you to have a good time, and then with the same imaginary number, you top up somebody else's account, because you bought something from them. Because there will be no jobs, no borrowing, as such. All these things we accepted, that were forced on us by those who wanted to feel, that they are in power, will go).

(You won't need to live in an 80 square meter property stacked up like sandwiches in the middle of the city, because you have a job there. You can live anywhere because you can go back and forth to work within 10 seconds).

(The whole concept of our life as being a slave, that we have accepted, is coming to an end. It will go rapidly, because once it takes hold, once the preliminary base is done, then the way we jumped into computers and mobile phones, we'll use the same computers and mobiles to travel with. It's not just using an App to buy a sandwich. You use the App and are fed for the whole day for nothing. And those who like to create chain (stores) will come up with more exotic tastes and flavors).

What do you do? You'll spend more time outside and you enjoy yourself. Because a lot of people say, I want to be free from taxes, the burden of chemical foods, and whatever. We don't have chemicals, because you'll receive pure energies, that are needed by the body. The taste and flavor comes from your emotion.

(This life we are describing is not theoretical, especially now with the tests we've done in the past months, the whole humanity (has) changed. The best thing the Belgians did to us was taking us off the "radar" and from the newspapers and the public. It allowed us to develop in a very solid way, without becoming the magicians, and the magic jobs they wanted to do with us).

(Now you will have time on your hands to live the life you always wanted to live and do what you like to do, not what you have to do to survive. That's how it should have been from the beginning. But now there's more technology and more things. Do you need a car (that you have to pay so much money for gas, just because somebody shot a bullet, and they jacked the price up, which after 6 weeks magically came down again. Who made all those massive amounts of money at \$100 a barrel, which came out of nowhere?)

The Cosmic Rays are free, and your energies are free. (You have to find a way to tap into it, that you don't even need to use an App. Use the Soul's communication line. You can gradually train yourself to receive the CR. Then you'll live a free life. Think about what millions of the unemployed do every day? They go for jogging, walking, sitting and chatting with their friends, or go travel the universe. You won't have enough time to be unemployed. Mankind will be employed with the pleasures of the universe, rather than the present slavery of the life of the man on Earth).

End of Quick Index Part 1 - 465 KSW

A KS reports that he could not stop laughing during the Friday the 16th session. He never laughed so loudly in his whole life and doesn't know why. His experience was so impressive and profound, that he couldn't stop swinging his hands.

K- (Different people took according to their Soul's enjoyment for the different sessions. Those who were in the Cancer session, said they had profound effects in their emotion. And ones from the Food session said they had the best ride).

In the Food session we kept on loading up different things in the background, to see how they would feel. In the background we added and took off things, and then observed the effects. We emptied the place, and then filled it up with different things, while all the time collecting data).

(In the Friday session people joined (their Souls together as one), but they didn't (know to do that also) in the Monday session, from what I see in the graphs. But maybe 2 or 3 knew each other).

(In fact, we should have done it differently on Monday, and first made one soul out of all you, and then bring you back into the system and then do what we wanted to do. We'll do this in the future tests. But we don't explain anything, because first we have to perfect our systems).

(Years ago in the teachings I said that, you will give your Soul to a captain you trust, and when you arrive at the destination (he will release your Soul, detach from it and let you free). Maybe the transcribers can look for that part from 5 to 7 years ago. I said, the time will come when you give your Souls to a captain you trust. That's what you did that on Friday. It took us about 8 years to physically develop the technology for you to do this. The "captain" was the technology and the "Soul" was all of your Souls joined together on

the 16th. When we saw the line on the graph go straight, we understood that together you made "one soul," and that was the captain. You gave everything to it, unconditionally, and none of you fought. We don't see any peak in that period, that even one Soul rebelled. Now you understand. Find those past teachings and listen to them. The 16th was a fulfillment of that promise made years ago. Now you have it).

(New things, new developments will come from all these sessions. I refer to things we taught in the previous teachings, so that you can see and understand how long it took me to prepare you for what we are teaching you today. Friday you gave your Soul to the system and you believed in the oneness of the system and with that structure it delivered you on the Soul level to your Creator. I think it's back in the 100 to 200 series of KSW. But if I would have told you such a thing back then, you would have laughed).

(One hundred and sixty of you all gave your Soul to be that one captain, and you trusted that it will deliver you to the destination. It's because you trusted in yourself, that you wouldn't do anything wrong in the Soul level. Everybody trusted, so you made one out of everybody).

In the future I'll teach you how to travel through your Soul, to planetary systems and in a star. (Remember when I taught you, that (just by seeing) the star, you already have a connection to it. "The light came to you to see, is the light, which takes you back to be." Then you understand how much knowledge is left to (give), and for you to understand and use).

(Those of you who came to Linz, and many of you who were online, we did some tests with you. I frequently asked you two questions, what did you see, and what did you feel. I deliberately asked you these questions), did you see your father, or did you feel your father? Did you feel the animal, or did you see the animal? Why?

(We'll answer this in the coming weeks when you learn about the separation between the physicality and the Soul. And when you learn what is "knowledge of the Soul," and "knowledge of physicality," then gradually you'll learn how to connect, and be in charge of their interactions. Or to be a witness and to guide to. When you learn this, then you will not do anything wrong, nor will you act or even think wrong. Because you will be able to see that when you do something wrong in the Soul level, it will effect the physicality, and you will be paralyzed. And when you do something wrong in the physicality, it will damage the level of your Soul, and you will be paralyzed. Therefore, what stupid man would shoot himself in the foot, and then say he wants to run a marathon. The essence of your own judgment will bring protection to your Soul and (guide your) conduct).

Q: (If we are allowed to manifest the same physicality we have on Earth, also on the Moon and Mars, does this mean that the planetary soul (of the Moon or Mars) has accepted us to make a living environment there?)

K- You cannot have the exact physical features of the man on the Earth in any other position but on Earth. (When you go somewhere, there will (always) be some deviations (because the destination will have a different field strength). Primarily, this is due to the different field strength of the destination but also partly because of your own emotion, which allows for you to accept (the new conditions).

(These criterion are very important to understand, because the physicality (P) cannot do something which the Soul is not happy with. And the Soul cannot do something that the Soul of the Physicality (STP) is not happy with. They will learn to balance and compromise with each other. So, you cannot be physically exactly the same on the Moon, (but you might internally feel that you are, but in reality you are not, so you are just deceiving yourself. But in a way, you get used to it).

(It's like if you've been in a coma condition and you wake up 20 years later. Your body has gone through 20 years of aging, and the science and technology has changed also. When you wakeup from the coma, emotionally you are back 20 years ago, but (?? your face has aged and you have to accept it. When you entered the coma there were no mobile phones, and now the first thing somebody does is to hand you a mobile, and say, when you want me, call me. Then you have to learn all the new things). It's a beautiful learning curve.

(An emotion, which a lot of you may have never considered is that of consuming another life. We spoke about this on the agriculture side sometime in the past, that eating wheat is also killing another life. In the nineties it became a kind of fashion to call yourself a vegetarian and say to others that you don't eat animals, while at the same time you loved wearing Mohair and silk. Or you liked to have a sheepskin in front of the fire, enjoy a fox scarf, or go out with different animal skins made into a fancy coat. Even if you wear a cotton shirt, you're carrying an animal on your back. Another life was sacrificed or hurt for you to have your desire. Would your emotion take you to a point, that you would not wear anything, which is another life?)

Do I need to wear another life? Next time, when you call yourself a vegetarian, look at the clothes you wear. You're wearing an animal, in the name of a plant, 100% cotton. Ignorance does not give the right of passage. And deliberately choosing to be ignorant is worse. So, what is man going to wear in deep space? Man's clothing is made of Carbon and Hydrogen, and a little bit of this and that, as a polyester and the rest.

(Part of the energy system of the universe is made of Carbon 14 and Hydrogen. Would your polyester or the clothes you wear even exist in space? Or will they vanish as part of the energy of the universe? In a simple way, if you are anti-killing of the animals and plants, then what about being naked in the space, the same as your Soul?)

Now you understand how much we have to let go of and to accept with what is to come. (You'll face this, as 160 of you already became "passengers of the Universe" in the last few weeks. It's not going to happen to somebody else. You volunteered and came in, and you brought the Soul with you).

(How you were tricked is your problem. Did you think you were coming in because of cancer, Parkinson's, or because you wanted to travel? How did you cheat your Soul to come in? Or did the Soul bring you by cheating you with the Parkinson, and everything else." Go there and get your cancer taken care of, because I already have a rendezvous, I'm supposed to be there." You carry me, as your Soul, so go there with the excuse of Parkinson, or wanting to space travel).

How did you end up being part of the 160 people on the 16th? Who brought who in? Did the Souls have a rendezvous, and they knew they're going to be a part of the show. To be part of the beginning of the change, it fooled you with your physical desires? Or do you think your physical desires brought the Soul, so he could be where he was supposed to be?

In one of the meetings over the next few months we'll bring the world leaders on the table with you. (We'll do it the way you came in touch with the Soul of your Creator and your Prophet. We are not going to announce which one, but in one of the sessions of 2023 you will sit with the Pope, Ayatollah Khomeini of Iran, the two heads of the Israeli synagogue religious leaders, as they rotate every six months, the head of Islamic world in Saudi Arabia, the top under Christian belief calendars of leadership, those who run the Buddhists monks, and the rest of the religious leaders).

(If you remember in 2016, we took you to join your Prophets. Now, you will join the servants of the Prophets, to show the Prophets real desire. This will be the end of religions for man, because those who you bring on the table, will have to answer to your Souls, and the Souls of those present. In that meeting we'll mature the world religious leaders, and that will bring an end of the religions. As we finish the session, one by one, they'll resign from their positions).

(This time you will decide for them, to attend, by calling their souls. Then we'll see the end of the religions. The religious leaders will carry the message to the rest of those who follow them, and tell them that the "bell has been rung," and it's the end of what we call, "false beliefs.")

(In another session we'll bring you the world leaders. You will sit with President Biden, the Iranian leadership, and you will sit in the Soul level with those of the Kremlin and Beijing. Don't forget, these are not fairy tales, because you have seen it scientifically when you met the Soul of your Creator. These people are all His servants).

Then we'll start bringing in the change. (After we do this, the nations on the human level, will have to accept these changes. Since you will be in unison with all of them, it will become a fashion or a trend, and it will carry itself through. This is part of the Keshe Foundation's program for 2023).

(By taking you to your Creator we already established the connection, so now we can take you to their servants. We don't wait for them to make time for this. We bring in their

Souls, and the physicality will follow the decisions made in that meeting of the Souls. The way we will feed your Soul, so that the Soul feeds your physicality). The same way will be done with the world and religious leaders. We elevate and touch their Souls, and then their physicality will bring the change in that dimension.

Don't be surprised if one day you hear that the Pope walks out of Vatican and is never seen again. And don't be surprised in the coming months, when the Ayatollahs take off their turbans and just walk away and you don't see them again. It will not be done by bullets, but by elevation of the Soul. (If you do it by force, then like what we saw in Iran, you become a revolutionary. But if they do it themselves, then there is no one they can attack and blame for it).

(I told the world politicians before, that revolution by guns and bullets in Iran will not work. It has to come through the Soul, and in the mosques. And that's where we're going to bring the change and revolution. When there are no more Mullahs and Ayatollahs to lie and cheat the others, then the mosques will close on their own, because the people will elevate. The only way you (can change world politics is to end the religions. And that can only be done through their Soul, and not guns, bullets and discrimination).

(If you remember I told you about the dome built over the house and bedroom I grew up in Tehran. When I was about 10 years old, many times Mullahs would come with their families from different cities to take off their robes. They would change their clothes and walk away as an ordinary man. I asked my father, "Papa, what's going on here? Why do we get Mullahs in the house to change their clothes and walk out normal. He said, they have been elevated in their Soul, and they have understood that there is more than Islam. I watched this maybe 10 to 20 times. So, it's not something new, and we'll see these very soon, but in mass numbers. The funniest part for me was, "why do they shave their beard Papa?" And he used to say, they don't need it anymore to hide behind).

Q: How can we interact with souls of other civilizations in other galaxies, who we don't even have a name for, let alone a visual imagination. What is the line of communication?

K- You will learn, that you have access to the whole of the world of Creation. You will find out through the essence of emotion, that creation and created things from different parts of the universe would like to make contact (with you). You will receive it and respond through emotion in the dimension of the Soul. It's like you make "pen pals," or Chat friends. You receive the emotion.

(Even without a job the human race will not have time to rest. You'll be so busy with the excursions and life in the space, that the factories and offices will have no meaning. Just like your beautiful cotton and polyester shirts, and whatever clothing you wear will have no dimension in the universe. In space you will be naked when you appear in your physicality). So, you have to choose.

You will have to learn all these things, but actually, it's not strange to you, because you already do this in your dreams. (During sleep when the M fields of your blood reduces,

your Soul travels to these places where it has been invited. You say, I had a dream last night and I went to such and such a place, and there were people like this and that there. Excuse me, now you know where you went, you received an invitation and you traveled, because they matched the strength of your Soul at that point in time. You were there, but unfortunately, the center of your Soul was still attached to your physical body. The communication between the Soul center and the outside leaves a memory of the images you had at that strength field, and that's what you call a dream).

(The memory, as a dream, comes from your brain, which is like being in-between two people talking to each other. You weren't supposed to be there. So you end up hearing the communications going on between the Souls. But you're not part of it. Because you are not there in the physical dimension, (only in the Soul), and you call it a dream).

(So, you may have already met with other civilizations to try understand each others cultures and ways. Maybe you remember part of it, but you call it a dream. If in your dreams you met aliens with two tentacles coming out of their head and 20 arms, they exist and you've been there. It's just that you don't remember the where and why of it. Because the one who listens to the whispers, is in the middle and doesn't see what going on, on the other side. He doesn't know if they're laughing, crying, cooking, or whatever, because he just hears the voice).

(Your brain heard a voice and created the image of it. But you were there, so it's not something strange. Now you can do what we call, "decision dreaming." You make a decision to go to such a place, because you sent a call out and it was answered. It's different then not knowing the reason you dreamt something. It's like leaving your name and picture in a Chat rooms, and somebody responds. You say, I've seen your picture, and know you like football, well I like football too. Can we go to a match together?)

Q: (When we dream, a lot of the time we don't remember. Is there any way we can increase our memory banks to remember our dreams better?)

K- (The teachings of the past few months should have answered part of this question. And when you come to Linz we don't tell you to fly to. You go to and it's instantaneous. If you go to the Moon, you are just there. The first thing you have to realize, that in the dimension of Soul, or D of fields it's instantaneous. You don't need to wait 18 hours on a flight to go somewhere. This explains why you're suddenly there, because decision was done, and it's there, the fields (immediately) connect).

The rest of it is, what the decision of the emotion was at the point of contact. How you wanted it and how you saw it. It's what you wanted from that interaction. Or what they wanted to show you in that interaction. The rest is, like when you meet a friend, then you decide if you want to have a coffee, cake, or whatever. Now that you're here, would you stay for a dinner. That is what you call, the cycle of life. (You have already experienced this kind of Soul travel when you're asleep).

(You should have understood this by now, that with the transmutation and transportation of the Soul, it's instantaneous. Many times you've been to places, but you didn't know that your Soul was involved).

(Then the minute mom shakes you, "hey, it's time to get up and go to school," you're back in (your body) instantaneously. You tell your friend in space, my mom is waking me up, I have to go to school in the physical dimension. Now maybe you understand a little bit more about the two dimensions of the Soul and physicality).

Q: In the first teaching of 2022 you taught us about transmutation, Inertia, and how we need to train our emotion to identify what is real, or a reflection, or mirage in the plasmas of the universe. How can we tell the difference between these?

K- (You come to understand it by test it. Even in the world of creation in the physical dimension, half of the structures we see as stars and galaxies are really mirages and reflections. It's the same with the dimension of the Soul, it depends on the strength of the fields and (how their interactions create images). And it's how you interpret those images. Or has it partially taken the dimension of physicality, and then you call it whatever you like).

(If you put two mirrors opposite to each other, and you stand in-between, then you'll see hundreds of reflections of yourself down the room. Which one is you, and which is the reflection, or mirage? It's the same thing).

(When you bring interactions of M fields you get residues, and some of these residues create conditions of repetition, and because they are like cells, they connect to each other. But when it's only an energy and doesn't have a soul, then you call it a mirage. Or if it's backed by other fields, then you call it a reflection. It's you who has to understand which one carries the Soul. A picture, or an image without a soul is a mirage, or a reflection).

There was a question about what does it mean when someone says, "you're glowing." Finally, Mr. Keshe said, I don't know what position you're in, or what you have chosen to be in. You add the dimension of physicality to what you have set up in the emotional part. (How do we transfer this information, which is at the level of the strength of the Soul, into the strength of the physicality, or (as) a combination of the two).

(For those of you who bought the Plasma Mirrors we would like to set up a Zoom meeting where we would like to run a number of trials with you using these discs, in our flight system). This will bring us a lot of knowledge for space transmutation.

Q: (A KS was trying to understand what Mr. Keshe meant by saying, that those who came to the 16th, did so because their ancestors served humanity in some way. He was trying to connect it with reincarnation and the work done with hypnotherapy. Or as a result of what they call, "good karma" for what good deeds you did in the past).

(Mr. Keshe answered in a way that clearly states that "reincarnation" the way the people believe about it, does not exist. That just because you may have memories of people from the past, does not mean that you were those people in a past life. Rather, the field strength of your ancestors actions, or the energy information is still being carried through your RNA. These tendencies are manifesting in you, because you have a matching field strength to them. (Human Souls are created for the first time on this planet from the love and interaction of the fields of the Souls of your father and mother. The physicality needs 9 months to mature to take birth. The STM matures during ones life time, and at the point of separation from physicality, in a way, takes birth. The STM is already formed in the person, but it is gathering field strength to mature so that it can exist in the Universe on its own. Enlightenment can occur before the death process of physicality. How another soul attaches itself to the human soul has not be fully clarified. For example, with the Prophets. But reincarnation the way people believe and talk about it, does not exist, according to the Knowledge of the Universe)).

K- (What happened on the 16th has many things involved in. But it is not that you did something good in the past, and now you are the reincarnation of somebody else. You are a collection of the RNA and DNA of the lives, lived in the past, that led to your creation. It's like when you say that you inherited a particular disease genetically through your genes. The genes are included in the RNA, and there is no DNA without RNA. RNA is the M field information, that through the DNA, leads to (the creation of) your physicality).

(So, it's not that you are your ancestors, or they are with you. Rather, you, as the person you are now, carries the reflection of what they have done on the level of energy. It doesn't matter whether it was on the 16th or any other time and place).

(When you experience things from past times, it does not mean that you lived other lives. (All the actions and interactions from your past (through your ancestors) has led to your creation, and you carry them forward with you). They are part of you. (At the time and place you are created they come with you). You are not reincarnated, that does not exist. It cannot exist).

(Let me explain it in an easier way. For example, you record a piece of music on a gramophone and then you play it to 10, 100, or a thousand people. And then those people record and play the same music to another 10, or a hundred people. Now it just happens that by accident the original recording gets destroyed. What was already recorded and given to the others still carries on. Even though the original recording is no longer available the music is heard by many down the line, and for many generations. Then you say, this was the music my grandfather used to listen to, but the original recording doesn't exist anymore. The same way, that the music is carried down through the generations, so it is with the genes).

(When a man does a good deed it is spread out through his bloodline, and not just for him. The children, grandchildren, and the great grandchildren all carry that knowledge.

And maybe one of his descendents down the line finds the original recording, but the original recorder will not be there).

(This is how your Soul works, and how you reflect the work of your ancestors. You do not have the original recording, but you have the essence energy of the original piece of music your great grandfather recorded).

(This is the same with your RNA and DNA. You are a reflection of what he originally recorded, in the strength of his RNA. You have that information, but you don't have the original. You are not the great grandfather (reincarnated). And you are not the recorder).

(This is how the Souls pass down the energy of what they did in their life through the RNA. It goes down through the generations. You were created from your mother and father, that's two recordings. Then maybe they had 4 children whom they passed their fields on to. And the parents were also part of other fields of their parents. At the day of your inception you carry all that information in the memory bank of your genes. You carry whatever each one came in touch with, or had emotions about).

(The STM goes back thousands of generations, and you have all these recordings in your Soul. Maybe 200 generations ago one of your ancestors had to tackle a bear in the North Pole. Let's say he lost an arm, because he did a wrong move. That wrong move got recorded on his emotion, and on his RNA and has been passed down through his offspring's. Now if anybody in his bloodline sees a bear, they run like a rabbit. Whereas, another man from that same generation in the North Pole came across a bear, but instead he fed it, and they became friends. Now when one of his bloodline sees a bear, they have no fear and hug the bear. So it depends on what's been recorded on the recorder, and what was passed down through the RNA and DNA). This is what you have to understand.

(On December 16 we brought Souls on the table from the whole human race. There were over 80 nationalities and paths of beliefs. We had a good sample of connections. There were also others present).

We brought all the races of Man on the table irrespective of color, race and religion. This is what was promised in (all) the Holy Books. That the "Day of Judgment," would be where all men are equal. We brought all the memories of the Man from right across the planet. We brought the Jews, Muslims, Christians, Americans, Iranians, Chinese, and the rest. And all of you listened to the voice of your Messengers, and the voice of your Creator. None of you were higher than any other. None of you wore a crown of kingship or thought you are a better race. You all met on equal footing, and that is what was promised. And for the first time you had the Cosmic Rays of the universe, which brought you to your Creator.

Q: What are Cosmic Rays made from? Wikipedia says that, they are primarily represented by protons or atomic nuclei. Or in another way said that, 90% proton and 10% nucleus of Helium, or 90%, beta positive ray and 10% alpha ray, is this correct?

K- Every ray which exists in the universe is a part of the Cosmic Rays (CR). And every field which exists in part of Cosmic Rays and Universal Rays have a magnetic field base. (What you call the collection of them, is according to your intellect. "Proton collection, more of neutron maybe, more strength field of electron, maybe more powerful, but let's have the small ones." These are all man made names for what are in essence just different M field interactions of the Universe at different strengths).

(One thing which you need to understand is, that while being part of a CR you can still be a cluster, and in that cluster you can still be a plasma. So, the STM as a plasma can live in a cluster of souls, and then with it be part of a CR, which can end up in another CR, or cosmic plasma, or disk of fields, or is originated from a plasma, or a cluster of plasmas. (The initial root of all this comes from the essence of the Creator)).

(An example of this is like when you go to the capital of where you live, and you start driving away from it. As you are driving down the highway for a certain distance there will be nothing around, and then you'll see a town. And around this town, there are villages and around the villages are most probably farmland. (So if you think of how the land is laid out, you have cities, then towns, and then around the town you have clusters of villages, and then around the villages you have individual houses and farms). And this is how Cosmic Rays work. The CR is that road from the capital. (The road never finishes), because there is also somebody else building another little house somewhere that eventually becomes a village and then a town).

You're one of these villages, which a cluster of them makes a town, which is on the road, which is that CR. (It's possible that other little settlements can also start to form that will lead to a village and maybe a town latter on. For example, your girlfriend lives somewhere in the small lanes in the back woods, and therefore you never go near the main highway. Then you and your lover build a house out there and settle down. Later on more people start coming and moving in around you and in the coming century becomes a village and maybe a town).

You still interact with the main roads and with all the clusters of villages, but you live on the side areas and don't need to go on the highway. (You create a new generation there). Then your children and grandchildren start building around you. So, you have started a new cluster.

(This is the same way as the CR works. You have the Soul of the Creator as the capital and there are many, many highways or roads going out in different directions from the capital to different towns and villages, or whatever. All these towns and villages have access to the other Rays, which left the main highway. All these different roads going out, are like the CR which cover the space and become (the creation). The interaction of the CR and the fields are all the little villages and towns you built).

(What you see and what you come in contact with depends on which roads you travel on when you go between your house, village, town, and to the capital. And how you build

your house, that it lasts for the following generations to use and grow. And this depends on the conduct of your physicality). It's as simple as that.

(If the government decides to build a new highway from the capital out to the "middle of nowhere," where there is empty land. Then over time we'll see the same development starting with houses, villages and towns, (which are also connected to the capital). You have built a new road to a new dimension. This is how CR are created and how they interact and lead to creation of a dimension) This is the easiest way I can explain for you to understand.

(But still you may have a cousin who lives in the capital, or one that stays in the town that was created. It's you who moved and built a house out in the middle of nowhere that will eventually another village and maybe a town), or another galaxy, another universe, and another cycle of life.

Please, this time don't leave it to the last minute to register for the 20th of January and February. Because once we (start the January session, we might announce one or two specific sessions for the following Monday. Try to book in and try to bring as many people as you can with. The January session will be very, very interesting in spreading part of the technology for the future programs to expand the knowledge).

(This time try to come with no desires or expectations. Come with open arms to receive a new knowledge and new understanding. Last time you came with a lot of wishes. This time come with the wish to give and satisfy the others wishes, and then we'll see what comes out of it. Hopefully, we'll go further with the future programs as the new systems come into operation).

(This will be the first time ever we have gone public with this, but it's part of the structure of "One Planet, One Nation, One Race and One Organization.". Those of you who purchased the Keshe Coin will receive an electronic certification. (This will be one of the only ways that we will interact with the public in (regards) to financing and the availability of funds for Keshe Foundation's (organization) across the planet).

In 2023, a plan is on the way for the Keshe Coin certificates to be issued through a specific structure of the KF, and then through the banking system. Each certificate will carry a specific code, that it cannot be stolen from you. It doesn't have the (same) characteristics as Bitcoin. The Keshe Coin is interactive inside the KF structure. For example, it can be used to pay the fee for attending these monthly flight sessions. You can also exchange Keshe Coin certificates for (normal) currency.

(This is the beginning of what we call, "one world" currency. It does no matter where you are, its value always stays the same. (You buy the Keshe Coin certificates by donation). For those of you who already bought the Coin, a (?? security code) will be sent to your email. It cannot be stolen, like what happened with the Bitcoin. That cannot be repeated here. Even if they hijack your email, we can recall it through our system).

(Hopefully, we'll be able to structure it, that we become independent of the financial structure and not tied to the banks, but the banks will use it to guarantee their own collateral security in the future. We are talking to a couple of European banks for the Keshe Coins to operate within the banking system. That way you can go to the bank or through your App to buy Keshe Coins. It will be the sign of security, and the value guaranteed that you never lose, and there is no way it can be stolen).

(This is what you've been waiting for, and for the first time we'll release the Keshe Coin certificates. It is exchangeable, and its own history is tracked, in case it gets stolen, we'll have a complete record of it. Then whatever has been sold from that coin will go to zero, which means you stay the owner of the certificate, and it's tracked only through you. You can do whatever you want with it like buying and selling, (exchanging it for currency), and even pass it on to your children. It allows you a lot of flexibility. Sometime in the coming months all employees of the KF will be paid in Keshe Coin, and then they can exchange it anywhere. We'll back and guarantee it through the Keshe Foundation researches).

Q: (If farming is stopped completely and we are totally dependent on the satellite feeding system, what would happen if we had an accident like a solar flare and all the satellite systems went out. Would we still be able to feed ourselves?)

K- (Nothing would happen. Of course, you could still feed yourselves. Wherever there is a CR there is life and you are always connected (to it). There is no possibility of man, or any life ever be stranded in the universe. It's an impossibility. If you can see, if you can visualize it, if you can feel it, you are connected to it. And if you can't see it, then you visualize it. (And if you still can't see it), then you most probably don't exist in this dimension. So you should have no worries).

It is the way it's set up. That's why we asked for so many Satellite Souls. That's why we asked for so many Universal Council supporters.

Q: Do you have enough people now?

K- We don't have enough yet. We still need around about the numbers we mentioned before. The more we have, the more... (There is a big, big, big, big understanding which is missing amongst the Knowledge Seekers. When we speak about the need for Satellites Souls, you're only looking at the human race numbers. (But now we have opened the humanity) to the Universal Community. So we need as many as possible of you to be a connection between the human race), the Earth, Soul, and the Universal Community. It's not only just being a Satellite for the human race. There is much, much, much more involved.

(We have made arrangements, and hopefully we can interface with the Universal Community (UC) in the physical dimension in 2023. Which means that if our knowledge can go deep enough to be able to create an environment that will allow those U Community members amongst us to show themselves. They will show us which part of

the universe they are ambassador of, and who they represent. We might even have some souls come directly in to manifest themselves. Those who are amongst us, know who they are, and they can enter the safe zone that we will create for them in the Enhancement Unit (EU). Then they can change to their original fields, and we'll see their true shape. We have already seen this inside the EU in the Linz Center).

(We have videoed the creation of different magnetic field environments within the systems. We see different field strengths as a clarity, or as a mist. When the new systems come in we'll have control of the CR and thus the manifestation of physicality).

Q: Do you want the same people who came on the 16th to also come on the 20th of January?

K- If you want to, yes. Because you gradually develop the Soul in that direction. It's like gathering, it's just the new school, you gather more, and then in the future, you'll teach more.

Q: (This KS felt a connection with the system before the 16th session started. And he asked if we will need a mobile phone?)

K- In the coming time no, (you won't need a mobile phone. We already pre-arranged. (The reason you felt connected is because you've already been in touch with the system a lot).

It's not that what you felt, was something wrong. You've been through the system many times, so you are already well connected. You didn't need the system, (you're automatically connected to it. Maybe the reason you had a drama was to tell you, you don't need it, you're already connected, why are you trying to do something you already have).

Q: I am retiring from a power plant next year, I hope to work with plasma technology in the future. What can I do to prepare for this?

K- If it is a nuclear power plant you're already in it. If it is a standard power generation systems like coal, gas, or whatever, you know about the power, but you have to change to understand the new structure of the working of the systems.

(In the future, we'll teach you a specific way that you can connect a part of your Soul, to the Soul of the planet. This will create all the energy and power you need (for your life). I have already devised a system for it when I was about 30 years old. It allows you through your own Aura and your Soul to create enough energy, that you won't feel cold, and you don't need light).

(The Systems are already fully developed. At the moment, you need street lights to light everything up. With our light system, you have to understand how it works, and then it lights your vision and your senses, and you don't need streetlights. We already discussed

with those building the new space cities, where there will be no streetlights. You create the lights through the interaction of the fields of the man with his environment, (and when you look in a direction it automatically lights up what you need)).

(I explained this in the talks about the new spaces cities, that they don't have streetlights. You will be taught, and we'll introduce systems, that create light in the dimension of the vision, and interaction with the Aura. It's very much like how daylight is created on Earth through interaction with the fields of the Sun. It's dark on the backside when you don't need it. You create light in the direction of the vision, even in the direction of emotion. If you feel something is happening behind you, then you create a field that understands what it is and what shape it has. (It knows if it) is a car, a man, or whatever, and it also knows how to react). This will be taught slowly in the future.

For the upcoming session of January 20th, we would like those of you who physically, or personally have seen, or been in touch with, or been present with any of the world religious leaders to attend the next 3 monthly sessions starting on January 20th.

If you have met personally, or have been in the presence of Ayatollah Khomeini of Iran; the Pope in Vatican; any of the two Jewish Rabbis leading the state of Israel; any of the religious leaders of the Saudi Arabia heading the Sunni and Shia sects; any of the 72 Ships of the path of belief of Christ; any of those who lead the Buddhist monks; and the rest of the religious leaders, please join us. Make sure you're present in next 3 sessions. It is your responsibility and obligation).

(Then, if you have met with any of the world leaders like President Putin, Biden, President Xi of China, make sure you're in the next three session starting on January 20th. If you have met or been present with the head of United Nations; any ambassadors of your nation to the United Nations; any Kings or Queens. This is the time where we'll bring an end to kingship). If you've been present, seen and been around any of what we call, elite scientists, be present.

The year 2023 is where we'll bring the change. The change has come from the knowledge underneath, (and we'll change the leadership at the level of the Soul. If you're Iranian, and you've seen the Ayatollah Khomeini of Iran, make sure you join the sessions. If you've been to Catholic Church and you've seen the Pope be present). And it goes the same down the road.

We do not change, we elevate (their Soul) for them to walk away from their positions. (If members of National Security's from different countries are here now listening and will report back to your leaders, ask them to openly attend the next 3 sessions. You don't need to hide by coming through "Internet back doors," or sitting in the hidden zones of Zoom or Youtube. Be brave enough to declare yourself in the meeting).

(When we setup the interface with Universal Community in the upcoming sessions, we'll invite all of the members of the Universal Council to be present in the meeting. This will

be the first interface between the Universal Council and (the Universal Community). This will be one of the most beautiful sessions which will be held.

(It will be the beginning of a massive change for humanity in knowledge, technology, and what I call, "hand of friendship." When we announce this to the Universal Council members we expect them to keep this confidential. Please do not go to public with this information. Do not allow anyone to know that you're attending such a session).

Q: Could you summarize how you feel 2022 has elevated the soul of mankind and others?

K- We achieved a lot. (The biggest achievement of the 2022 was that the Man became aware of the power of his Soul, and that it is within his own structure. And slowly the KS are realizing and learning to respect, honor, and trust in the fields which you call, a dream).

That is, you as part of you, is actually the controller of you, the owner of your life in all dimensions. (It has been a difficult time to bring this for man to understand over centuries and thousands of years. Now in 2022, we can openly speak about it, monitor it and show the awareness of the Soul. Existence of the Soul has been the biggest achievement of 2022, and maybe for the human race. We can publicly teach it so that it's not a taboo anymore, but a reality). Then it opens up new doors.

Q: (In the protocol for the new Covid Dr. Bararpour uses for Cup 1 and 2 a ratio of 1:1). Is that okay?

K- Yes, it's perfect, (because you've got to bring a balance between Cup 1 and Cup 2 so that it brings a balance between the physicality and the emotion. By adding Magnesium, you bring part of the emotion. You have to have a balance (between Cup 1 & 2), so that you can bring the emotions into balance).

(China is bringing back restrictions. But they are not declaring what this new Corona does, because they're baffled by its effect on the psychological and emotional level. They have downgraded it from an epidemic to infection. It shows a small cold in the beginning and then has a massive psychological pattern afterwards. This is what is baffling the Chinese at the moment). A number of nations are putting the restriction back on Chinese passengers, but even they don't know what they're looking for. Most of them do not show much sign of Covid, only 1 in 10 does. But the psychological effect of it is devastating.

Next year when we look at the Chinese numbers, we have to look at the number of suicides and homicides. Then for the first time we'll understand the effects viruses have on the emotions.

(You already have everything you need within Cup 1 and 2, but then add Magnesium, this is what is missing. It strengthens the structure of the emotion with this virus). (You don't need very much Gans. So use Cup 2 as the limiting factor, and measure the same

amount of Cup 1 to what you produced in Cup 2. That way you will keep the 1:1 ratio, and then add Mg Gans (at 5%).

(The new Tabletop Units coming out of Iran are an automatic system, they will be good for getting the right ratio of Gans's).

(A report from China has shown that 2% of the population in one district got the new Corona).

(This time the new Corona comes as a small cold, especially if you had the vaccinations, and two days later the depression, suicidal thoughts, and the rest comes in). You need this system to be run more or less 24 hours a day, to support yourself with it. It takes two or three months this time to get rid of the side-effects of the Corona, which is mental depression and whatever else they are reporting.

Most of the European and American tests do not show (the mental part), (they only see a small cold). But this is going to trigger a massive release in the rest of the world by mid-February, or so. A lot of people will become suicidal.

(The Tabletop unit came at just the right time. You need a continuous production of Gans's. Just keep it running and continually use it. Give it to people around you, because if one person gets it in the family, it spread like a wind, and flies through the whole neighborhood. The system allows you to mix it the right way, and then just give it freely to people. They just need to use the pure water settled on top of the Gans).

(We were expecting this increase in the energy of the virus to a higher level. In the beginning it was the physical, we saw it in the lungs. Then it was 100% sure, that the next generation of these strengths sooner or later, will go into the brain. Because the skin and the lung connects to the brain). It was just a matter of time, for it to mature to that point. And now it has reached there.

(What will be the next level it reaches? How will it gather strength to become one. Or would it come in-between, and act as an intermediary between the STM and STP. As emotions are created by interaction of STM and STP, it could create new emotions that we do not know about).

This Tabletop version of the Gans's production by the Iranian team, has just come in the right time, because it needs long term usage of Gans's. This new Covid starts with a small cold or flu, and that's it. Then it shows itself shortly with depression, suicidal thoughts, no energy, or exhaustion. This is all part of this new emotional Covid.

The Tabletop Unit says CO2 on the website but you can add other plates to it.

It takes 3 to 6 months to get rid of it. But on the Chinese side, the people who are infected by it don't have the facility through this structure of the production of the Gans's, and

they suffer mental condition, maybe for life. We have not seen the end of it. This is an option open to the Chinese government, but they have to take it up.

Thank you very much all of you for all the work, hard work, which has gone in the past year and years. And we'll see what comes next year, we are going into our 10th year of serving humanity.

R: Thank you from me as well, Mr. Keshe. It's been a wonderful year. I really think 2023 will be the biggest year yet, for the Keshe Foundation and for all of your teachings.

SUMMARY:

ENGLISH TRANSCRIPTION

(:12).

K- Yes, .. good morning, good day to you. As usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We are coming to an end of the Christian calendar, and another year ends with this week with our teaching. We enter into more or less, sometime in next few weeks into the 10th year of teaching.

What we would like to do sometimes, as we all got used to it. Every now and then we come back to Knowledge Seekers (KS) to see what is your question? What have you learned over the past year? And what would you like to see? Or what do you envisage, that in the year coming, and years to come would be, or should be the pattern of the work of the human race. Because now, every Soul has a place in the structure of the work of this planet, as we saw on the 16th of December.

What will be interesting is to see how we get a feedback from you. What questions, literal, (:14). real questions are, and not what I call, irresponsible questions. That by asking questions, and what maybe is been an ambiguity in part of the teaching, or more explanation. We can all learn more, and we participate more in all the structure.

For us the Keshe Foundation, Keshe Foundation manufacturing, Keshe Foundation research and development, and different branches of Keshe Foundation with their own ways, in different parts of the world. We look at the 2022 as a revolution and evolution in science and technology. We shared a lot we brought a lot on the table of knowledge. And with it we opened the eyes of many of you, to the dimension of standing and understanding the strength of your Soul, strength, your inner energies, where you have ignored. Many of you came in touch with it, many of you will come in touch with it, and

many of you will learn a lot from it. And waiting for that magic time goes away, as it becomes part of your life.

In 2022, we battled to introduce the station of the Soul of the Man (STM) with many of you, many of the others who will be waiting for a change, but the change has come. And this work in the coming time will show itself.

We had a very successful 16th of December trials. Many of you joined in for different reasons, (:16). but we had different ideas and looking at different things in the background and see, and possibilities, and expansion. And by the 19th (of December) trial, we more focused and in general. What we would like to see, what we have seen, what we see from our ends, and what do you feel from your end, being participants, or being in it.

This has brought us a lot of positive things, because since the 16th, in such a large trial, and all being involved, it has confirmed a lot of technology correctness, and a lot of things which needs to be added, and a lot of knowledge to be gained.

We have started collaboration with major is space agencies, in a way, because of the 16th trial and the 19th. Where we are putting forward the condition, that we feed your astronauts. We feed your passengers of space. Leave it to us, we try it on Earth, and then we try feeding your people in the trips. We try to be the people in the Space Station. And we extend this from day to day, from one day to one week, and there on. And gradually introducing the technology in the dimension of the space and then through the Soul.

This will be the job of the Keshe Foundation in 2023, direct collaboration with the space agencies. Not in the space travel, because for us the travel doesn't take shape, the way they want to do it. We take shape the way we want to do it. And we start a procedures with what we call, (:18). the wellness and with feeding. In so many ways, this will bring itself further understanding for us and for them.

In our work, we look at the technology expansion to be understood by a majority, and scientific world in 2023. Our collaboration will run across nations. Yesterday I was talking to one of our leading people in negotiations. I said to him, the target 2023 is working in Teheran, launching in Tel Aviv, flying from New York, landing in China. He said, Mehran you know this is a big tasks. He is our. He has taken more or less the place of what we used to do through our beloved member of Universal Council, who passed away a few weeks ago in Israel.

Through our direct channels, we have entered in negotiation. When, where we the Iranians, and we the Israelis, and we the Americans, and we the Chinese work together in the space development. It does no matter what our nationals leaders decide to do. And it seems to be the right way. And we explore this avenue in a very rapid way in the coming weeks, where we establish the flights, testing flights between Tehran and Tel Aviv. And then we'll see the expansion into other dimensions, and how we will expand this further.

The next step for us in the coming weeks is the landing on the Moon. (:20). We have the volunteers who are ready to take this excursion. Our systems should be completed by the end of the month of January. And we will start, those of you who joined the Mobile, and then completing that, we go to what we call, maybe by end of February - March into landing tests. Bringing people into Linz, we have done through the dimension of the Soul. Now, with the new systems, we go into the dimension of the what we call, physicality (P). Systems are more or less ready to go, as I was talking to our people, we're 80% there on the reactor side, and we have shown on the cosmic side, we are ready 100% with what we saw on the 16th and the 19th.

In 2023, we will introduce as part of the work with the doctors and the space agencies, a hundred trial. From the results we have seen in certain conditions from our doctors, we are sure we can support them with what we call, patient volunteers. Keshe Foundation and in communication with a number of the doctors, and specialists we work with, and you go through it, will take a new dimension in 2023. From individual cases, after the trial of 16th and the 19th, we go into a mass what we call, programs. (:22). Our doctors from first week of January or second week of January, we'll start analyzing and accepting 100 cases around the world. This be it, (from) the following three conditions that we would like to see, as this has a lot of understanding for our space travels.

The doctors would like to see 100 cases of Alzheimer's, 100 cases of MS, and 100 cases of Parkinson's. This 300 cases should conclude in 2023. The reason for it is, it will cover psychological, it covers psychosomatic, and it covers somatic psychological conditions, that we see how each one gives us the knowledge to develop and perfect the technologies for the doctors to be used in the space. Where through the same process of understanding the work of Parkinson's, understanding the work of Alzheimer's, and in part understanding the work of the epileptic attacks, which comes in different shape or form with some of these, how we can grow different parts of the body. This knowledge is connected to each other.

When you get an epileptic attack, you release a massive amount of information, energy which comes as we see epileptic shocks. (:24). In Parkinson with directing information to a specific position like the shaking of the hand. In Alzheimer's, we lock this information in our body, and we have locked it for thousands of years. Where we open the Alzheimer's of the knowledge of the physiology of the brain, to the brain itself. And with MS we bring in self-inflicted conditions, which we have created for ourselves, back into working as one.

So with this three, but one hidden behind, the fourth one, we have all we need for our passengers of the Universe. If you decide to travel in the dimension (D) of physicality, you loose an arm understanding this knowledge of the 4 systems, we can grow an arm, a leg anywhere in the space by your brain, and not by us. We deliver the technology. We are not doctors.

We know how to make the systems. And as I said before, with the rights given to us by Naturopathica of the Belgium in 2,000, early 8 - 9, we have the rights to produce these

technologies, and for doctors to try. We are all within the structure, the legal structure of the development of the technology and the rights we have on the licenses. This allows us to bring a new understanding. (:26).

Where, for example, doctors in the hospital, you come in, due to an accident, you lost your leg, or your arm, or your heart doesn't work, they just dial a number, connect you to a system, which is set for growing arms or legs. And through your own structure of brain instead of the amputation and then seeding. They leave you with connection and knowledge they've been trained, to let your leg grow back out. We've done this before.

Now, we have found the correct way to do it, in a faster way, by introducing the what we call, Cosmic Rays (CR). This allows us a speedy recovery. Now we know how the lizards do it. Lizards don't do it, just by creating energies or whatever, for the tail to grow when it drops off. Through a specific condition they have created within their skin, they absorb cosmic rays, which speeds up the growth. Now we have access to that knowledge. Now humanity has learned how the lizard does it, and do it.

But the beauty of it is, human body used to know how to do it. We were little mouse's and rats in the holes in the time of dinosaurs. We knew how to replace our organs. We knew how to cut off our arms and legs, if we get trapped somewhere running away from the animals. And we forgot. We touched the Alzheimer's of the Creation.

And now we open that back up. And with the knowledge we have gained through what we call, "psycho genetic." We can bring that, and switch it back on in the genes of the man. Where when you need it, you create it, and it's there to do. We just through technology developed, guide your brain where this knowledge is. In a way, we create a condition that your own brain finds where it stored this information, (:28). and now it's locked it away.

It's like a computer disk, you download it, what you wanted it, and then you put it away somewhere. And one day when you say, "Oh, when I want it's there. I forgot about it." So, what we talk about regeneration of the organs, and what we call, arms and legs in different parts of the body of the man has been shown. It can be done. Many of our people talk about it, but you have not understood.

Maybe for the first time, I open this Pandora's box, that how you missed it. We told you in 2,000 and 6, 7, and 8, we grew a toe. And how (it) got cut off. We didn't use any what we call bandages, or whatever. We just placed a specifically designed disk in front of the toe, and it grew. To you this was something, "Keshe does."

But you all witnessed growth and replacement of the brain with Naomi. You just took it as somebody who had a condition, coma, and we brought her out of coma. But in fact, the biggest development in the science of the man was right in front of you, and you missed it. When we say we can grow arms and legs, this is nothing compared to growing, what grows the arm and leg, which is the brain of the man. And you all witnessed it.

So what we say, what you have seen, now makes sense. Now, (:30). if we were in a condition of losing an organ, or an arm, you need a kidney replacement, or you lost the kidney, or you're born with one kidney, or you're born with some heart defects, now the technology is there. We don't touch the defects. We go to the master in the brain. "Sorry sir, at the time of birth, you forgot a kidney. The structure is two kidneys." But is the "one kidney condition" of new coming time? Is one kidney. What we need in the new race, that we don't need 2? Are we going to one organ systems in part of our body. And know we learn more.

But now with understanding of the cosmic rays, now we're developing systems, which we'll use as cosmic rays. What happened with Nomi over, let's say five months, will happen in five weeks. But with more accuracy, with more, what we call, perfection. And so this is what we see, in 2023.

Those of you who suffer from any of these conditions, get in touch with the doctors of the Keshe Foundation. And this time, we'll fix, we come to an arrangement with the doctors in regarding how it will be, and when the 100 is completed, the doctors will release a report in what they've seen, and how they've done. And then we take this to the next step hopefully in 2024 - 2025. We might even be much faster with the way the technologies develop, and the way, we see things going.

This is what I call our annual report to you, as you've been part of it. (:32). And then on we go to the next step. How we'll bring this knowledge to the world leaders. How we'll bring this knowledge to the world community, and how gradually we'll bring the change over the next handful of years. And if it becomes a "hot potato," maybe in less than a couple of years.

I would like to see. And I would like to hear from you, in how you seen, how you like to see, and what we'd like to know about what we've done in the past year. And what will be in the coming years. I open the panel. Rick is in the background, if anybody puts his hand up with a credible, knowledgeable questions and answers. Join us and then we'll see. If you have no participants. We had a beautiful year, most probably one of the best years of the Keshe Foundation. And we'll see what will come in the coming year. Rick, if you have any volunteers let us know.

Q: .. We have done the space travel experiment of last June. Do you think that the new experience of the 20th of January, 2023 would be an interesting complimentary about what we have already done? I think so. But I would like to know what is your opinion. Thank you very much for this beautiful year very important for the KFSSI family. (:34).

K- We'll have the January 2023 as a specific project. Try to join us, as many as we can, because we gave you a surprise as a Christmas gift. But the January, February, and March sessions of these ones, what I call, Friday afternoon sessions, is part of the development of the STM for space travel.

We don't go through explaining what we do, exactly how we explained in, about the 16th of December flight? Because then it sets, a preset mind. You all came in on the 16th to see if your cancer goes, if you can go to the Moon, and everything else. But none of you expected to meet your Creator. And you all met your Creator in the dimension of the Soul. Technological data shows us we are correct, and there is no conflict.

The 20th of January flight is something special. The one in February will "knock your shoes off as they call, and your socks together." March will bring you a shocking realization. These are all in the D of the science, interaction with the Universal Community, understanding the work of your own structure, the way we did. (:36). The 16th session was important for many of you, and we'll see a number of you who were on the 16th will come on the 20th, will appear on February and the March, and there on. These Souls are part of the structure of the next generation.

And this was .. we don't just don't work something, we make up for the next session. It's all well planned, as you've seen with the work, to the next step, to the next step. And I think those who joined the January test will be amazed in how they will see themselves. And Mars session will follow up to the first landing (on Moon) of the 2 Knowledge Seekers which we have already set up for it. We are preparing for it. And one from Russia and one from Germany, husband and wife. And then we go to the next step.

We try to make by mid-July, August, the first multiple flight systems. Very much what we did with you, 160 people in one session. We try by mid, back end of this year, to take between 1,000 to 10,000 souls not only across this planet but beyond. This is why we asked you for the 100K's trial. The faster we finished 100K's trial, (:38). the more perfection, the more called perfect system understood by our Knowledge Seekers, the team, will come into operation, fine tuning.

And this, this January flight will be an amazing flight. I know exactly what's going to happen, and what I have planned for it. And every flight is arranged, organized, in a way not organization, but understood, will be one of the first interactions, which January is prelude to it. Where we bring the STM directly in touch with the Soul of the Universal Community in a very different way.

You met, you came in touch with the Soul of your Prophets. We have a data, it shows when it happened. You came in touch with the Soul of your Creator in the soul D. Now, we bring you to a new dimensions (D). And these needs to be done, that when you go to space it doesn't become a magic. If you understand, we still work on physical dimension flying UFO objects, and whatever. Because this is part of things you enjoy. We have to keep you busy. But the Soul travel, where transmutation will become a norm of the future.

A lot of things will change with, and after January 20th session. (:40). The same with February and March. And we go for mass multiplication of numbers in doing things. And this, these trials will bring us to that point. I discussed this was one of our doctors last night, that we go into multiple systems. And those of you who are with us, and you've

been with us, you will see the changes in every condition you have introduced, or for with the Keshe Foundation.

So, January session will be a blow minding (mind blowing), what you call experience. And the same will go with February and March. But the March one, is where we hope to collaborate. And more or less after the landing of the first 2 people on the Moon, then, let them tell us how they see each other, the husband and wife. How they feel about each other. And then if we can get pictures through the Souls, to the people to see it. And through the STM convert these pictures to a physical picture.

This is where the Satellite people come in. Those of you who registered for Satellites. Communication through the Universal Community, and through what we call, "structure of work," will go through the Satellite Souls. Those of you who volunteered for Satellites, you do not know what a gift you have given to humanity. Because the work you do, is separate that the work the Universal Council does. (:42). It's totally different dimension.

And we still need more Satellite people to be there. This time you are putting your Soul into line of what we call, communication. Then your physicality. We don't need your computer hardware in the house. We need your beautiful Souls to become that line of communication between the Universal Community, and what we call, "man's understanding of the Universal Community." And this process will start early next year.

So 20th of January, we'll give you a beautiful sensation, that you're a human, and how as a human you become part of the U Community. Let's see. We'll see, and how as a whole man will take the next step.

Any other question?

Q: All the people that were there on the 16th of December that connected together and with the Prophets and the Creator, what will happen to them? Why were they brought together by their Souls? Thank you.

K- They will be. They are connected from the time of the 16th of December. The purpose was for the STM to understand, has the capacity, the strength, beauty, the elegance and the understanding to stay at the table of the Creator. (:44).

Many of you came with different reasons. But you didn't know, your Soul knew exactly what it was doing. Your Souls were aware that you will sit with the Creator, that was a gift.

Go back to your past generation. Go back to your ancestors, and see which one of you, which one part of your bloodline has served the humanity. In some cases you are, your Soul is the reason you're here, that you've been there on the 16th. Many of you, your part, has been a gift, and thanks to your past generation for what they've done, for understanding of the Creation and the work of the Creator. It's like, your father has discovered something and now your son and his grandchild pick up the Nobel Prize,

without him even knowing what the grandfather has done. This is how it was set to be on the 16th.

Rick was there. Rick has been with us a long, long time, not just on this system and this project. He is the guy we came with. Things are not accidental and coincidental. (:46). So, when you say what was the purpose, look in your life, try to find out about your ancestors, and see how they served humanity, that you picked up the flower. Now, you understand why. None of the ones on the 16th came in the dimension of the Soul to get anything, they came to celebrate what was achieved, end of an era. Now, maybe you understand.

Any other question?

Q: .. How do average citizens that might be low on income, but huge on soul and love, gain access to experience the Keshe space program and technology from somewhere like the middle of Canada where I live?

K- Wait your time. The ones who have are paying for the system to be developed. We are gradually, in 2023, go in the server system. But plasma server system. (:48). As now the knowledge is becoming a little bit more mature, we are taking more and more people on. We already started it in the back end of this year. But it'll be rapidly increased.

What it is, there are expenses incurred on the Foundation to run these technologies. And with the huge loss we had, it set us back by quite a bit, but luckily enough, it won't take us long to be back on the track with what has been set in the background past years.

But in general, it's like, if you had a Parkinson, our doctors would have charges you 100 - 200,000 Dollars. If you had the cancer, it would have cost you around the fees of paying to do. What we have discussed now with the "100 cases," the centers which will accept the 100 cases of Parkinson's, Alzheimer's, MS, will come up with a given time with a group of people, and this will allow us to increase our systems, but reduce our costs. Something around about 10,000 Euros has been set for Parkinson, and for what we call, MS, and the others, but this will come in effect in the coming weeks.

Those of you who entered with the doctors in the process will stay the same, we will not change it. We cannot change it because it was setup. When we start the trials in months or weeks, (:50). then they have to decide, the doctors, if 10,000 enough to cover the expenses of theirs, and will it cover the additional expenses, which they incur. If you have to look after one patient it's different than when you have 30 patients. You have to bring in other doctors to monitor, you have to bring nurses, or what you call, secretaries and structures to do. So, maybe some doctors increase it to 20 - 25,000. Maybe some doctors. This is not in our hands, they decide. But then now you see it. When we go into the national and international level, where let's say, 10,000 - 20,000, I think the cost will come down to about three to five, or maybe 10,000 fixed by governments.

It's the same with disasters. Now, you have a disaster in North America, many people have lost their lives, you hit the frost, with the water, shortage of food, shortage of medicine. It's just not that the people's hit, on the hospitals, and centers of the health centers are hit. How it's going to happen?

Keshe Foundation in the coming time will come to an agreement with the American government. We cover in this area 10,000 people, we feed for two weeks, till they find normality. In this area, we cover for all medical needs. You are diabetic, you need to get insulin, you can't get, the system is broken down. You have to take certain kinds of medicine, you cannot reach, we deliver through our system. You've got to understand what this change will bring.

You're in Africa, you've got ten of thousands of people in droughts, (:52). dying of hunger. United Nation to get money from Americans inflated for their farmers. And instead of 100 kilo they are getting 1 kilo, but the price paid through agency's. This all will die away.

I explained yesterday in Rick's teaching, and another teaching, you place, you give every hungry person one headphone, then we feed them. There are more mobile phones on this planet today, than the number of humans. So, it's not difficult. What I call, "One Phone One Life," go back to the teachings of years ago. I said, with two mobile phones you'll live forever. These provide all your needs. And because you couldn't understand it, we explained you with batteries, and whatever.

With two mobile phones in your hand, now you understand where the technology was set up. We couldn't explain it to you at that time. Then you understand the implication of this new knowledge. Then, it's not going to cost you two or three thousand dollars a year, it will cost you most probably ten, fifteen or twenty dollars a year, to feed yourself. It will become part of what we call, One Nation's work.

It needs a lot of collaboration and it needs for the technology to be proven. (:54). We went for a single individual cases, and we added to multiple, then now we go for hundreds, and then thousands. This is presented. We did this with the pig flu in China. We proved that with one pig we could save, if you remember. Then with 30 pigs, and then with 800 pigs, and then now nobody hears in China about pig flu.

So, maybe in five years time, depending on how we work with governments and how big multinationals, which are going to lose their control over grain and the rest, play the game. Average cost of having food is dialing a number on your Internet.

There'll be service providers like you have today. You go to one, they deliver you the Chinese (food), and the same delivery service delivers you Italian and the rest of it. There'll be service providers, which they delivery food, deliver your medicine, deliver your energy needs. This is where the future is. Then you pay maybe one cent, and five cents for pizza, and you pay nothing for a McDonald's as a free service. This is not a dream.

Those of you who joined us in the food session, what you call it, the nourishment session of the Monday, you do not know what we did in the background. (:56). You heard from banana to apples. You heard from exotic foods, to honey, and the rest, and every herb on this planet we could get our hands on. That's why we want to talk with you. And the questions we ask you, in the next couple of weeks will give us a lot of indication. You could not even imagine what has happened. The purpose wasn't then to come in, and feel good and not wanting to eat for weeks. The purpose was served, we had a preset structure and we would like to talk with you.

Then you understand, those of you who came for the cancer session, what happened and how things take shape. In the 16th and 19th you as Knowledge Seekers entered in a very basic, but a massive fundamental change in the whole process of life on this planet. With your Souls on Friday, with your physicality's on Monday. You look for addiction in drugs or alcohol. We looked at the way your Soul reacts to these things, and what data we collect.

As I said, you saw the graphs on Friday session. Surely you don't want to see the graphs on addiction and the others, which the team has collected in the background. (:58). So, you can't afford the cost today, but in a coming time, would there be any need to kill a pig? Or would we need to grow wheat, and the rest, and then harvest it every now and then, and then put it back in the system.

We can't take pigs and wheat into deep space, they will not even have the physicality manifestation. So, what's the use of growing them? Animals we eat today will be a picture on the wall in the coming time. You don't need to be in central Canada, one of the richest nations on this planet, and claim poverty. You'll be the same as the guy in the back villages of Africa or in, what I call, tribes in Brazil, will have access to the same dimension of technology and knowledge, and what I call, food and medicine.

We've seen it with Corona, our Brazilian team tell us how the people in what I call, jungles of Amazon used the Gans for Covid. We hear from Africans, and the Chinese, the Iranians, and the British. Became equal to all. The technology for the food and medicine will be the same in next few months and weeks.

Governments have done a beautiful thing in putting satellites. (1:00). Now we work with the governments, with the satellites, to become the true satellites of delivering a lot of things than what it was planned originally, because it will become obsolete. We work in the coming time, as Keshe Foundation has become a space organization in Iran, to work with the Iranian space people, that we start feeding the Iranian nation directly through satellites, built by the Iranians for the Iranian nation. In the forthcoming satellites we try to endeavor to place our systems within it, that we can feed the nation. As one of the very first trials of the technology. You'd like to taste whatever, it'll be part of the satellite which covers the area, will feed the area, then it will be expanded to the other organizations around the world.

Any other question?

Q: .. How will the Keshe Foundation carry out projects for agriculture in 2023? We appreciate the guidance.

K- We still carry on with the same things. And a lot of people are doing a lot of agricultural tests, for different things and different reasons. (1:02). We don't have a specific program for agriculture, at this moment in time, for 2023, because the way we see it with the development of the Cosmic Rays, the structure and technology, we'll be walking away from food. You will understand sooner and sooner.

Agriculture doesn't have a room in a way, we call it, agriculture in the coming time. Farming in the new science of man is a distance thing, it will become. It's no use growing wheat, when with the knowledge we understand about the strength and cosmic rays of the wheat, to grow something which nobody is going to eat. These are realistic things, which will going to hit, but step by step. We develop the space technology, and in the space technology we look what will happen to man in the space, and I'm sure, if you can't afford for paying for the wheat, people who got the stuck with a shortage of wheat, with Ukraine, the government's will see a new way.

You as Knowledge Seekers will bring that to your governments, not us. Agriculture and farming, or animal husbandry in the new science of space has no room. What are you going to grow? (1:04). A man from the Mars next time to eat? Or something to you looks like a flower, but it's a living intelligent being. So, we still help you with your "bits and bobs" of how to increase your harvest, or whatever. But Keshe Foundation is a space program.

We can't teach you how to eat others when you go into space. This is what we're trying to avoid for you to survive the space. This is something you have to get used to. But on the other hand, if you want to take it in a different direction with the agriculture, the same thing will be done with agriculture as with the, what we call, human feeding. Satellites will create a condition for wheat to grow rapidly, everything can be done now.

Because the most important missing part of the jigsaw puzzle for humanity was creation of cosmic rays and the "Universal Rays," which man will come to understand. You need the universal rays to understand it, the structure of the cosmic rays, to be able to feed yourself in the universe. And those who travel across the universe from different races to feed themselves to exist. When you talk about UFOs and aliens, they eat something. They have a nourishment source. They will learn from man the use of cosmic rays to feed themselves. The universal rays to feed themselves. (1:06).

So, what you call agriculture, and farming, and animal husbandry, what you call killing chickens in millions, will come to an end, with the understanding of the technology. We'll all become vegetarians, as you call it. Why now we only eat one race (of beings). I'm a vegan, I'm a vegetarian. I'm a plasma-sist I take energy from the plasma and I kill none. There'll be these new words very soon coming into the vocabulary of man. The way you

became vegetarian. I'm a, what you call it, target shooter. I'm a sharpshooter, I can kill directly only plants. Specified way, I target specific animals.

Now next time I target the Martians, and those from planet Zeus and somewhere else. But becoming part of Universal Community, understanding the technology of the life in the universe, you all live off the fields of the plasma. So, agriculture the way you call it, and a lot of Knowledge Seekers should have moved in that direction, has a limited life. We increase your harvest by 10 times, but there are no customers, throw it in the sea. And what are you going to do with the sea, with all the fishes, they don't want it? You pollute somebody else's environment. It's a very tricky technology, this Keshe Foundation technology (T). (1:08). You become a Soul travelers, not food hunters.

Any other question?

Q: .. I participated in the last session of the Monday flight. When Mr. Keshe asked everyone to go to the North Pole and try to meet the Santa Claus to touch his deer, I felt even more cold, because I had caught a cold on Sunday. That Covid-19 kind of cold. During the whole session, I felt literally nothing. I felt I lost most of my connections to my Soul after I'd been attacked by the Covid virus.

R: So could getting, being infected by a virus before you go into the flight system, could that result in a session that was say, less effective, or as he says, literally felt nothing?

K- We went into these to understand, (1:10). to see the effect of the Soul in our systems in the background. When we asked, like the ones who joined the nourishment, and the ones who joined the addiction, in the coming days to meet with us, then you will see what you felt, really, and how you connected and where you connected. It doesn't matter as we saw with the Friday session, ten people "run a disco" in the session. If you listen to the sounds, which was made during the Friday session, it was like standing in Central Station. So much noise, only by about 10 - 12 people. But when you look at the data in the background, kilometers away, where we follow the emotion of the Soul, it was unison, it doesn't matter who was making noise and who was quiet.

So, we come back to you. That's why we want small groups, to analyze in more detail the things, that you could not even think about. But it needs time, it needs a couple of weeks, of the time, or the thing you anticipation was, it's like the people who come to the center, they want to go somewhere, but they don't go, but when you speak to them, they went exactly where they wanted to go. So, we will listen to a lot of these things in the coming days and weeks, the people who joined on 16th and on the 19th. (1:12).

Any other question?

Q: .. I wonder, how will men that have jobs in the food industry, or others in the future useless jobs, how will they adapt? My imagination needs enhancement.

K- You don't need to imagine. What happened in the industrial revolution, when the new systems came and replaced the man's job? What happened in the computer revolution? Man always finds another thing to do to keep himself busy.

But this reward and payment will go out of the equation. Most of it will disappear. Having a job in an office, going 9 to 5, has proven now with the Covid in past two or three years, it can be done from home. It can be done on your leisure time. It doesn't need you to be in the offices to exist anymore. What happened with all the cleaners? We used to clean these offices, what happened to the doorman, what happened to the guy who delivered things to these offices. Now they're running without anyone. We adapt to them very rapidly. (1:14).

We have a very good example of literally abandoning land, what happens to them? We saw it in Chernobyl. Nothing has happened as such. Life has taken and it will still grow the same way, and the cycle has taken. And there are people still living within the boundaries of the Chernobyl restricted zone, a normal life. But in general life carries on, we find new hobbies.

One of the best things which will come to man to understand is this electronic control financing, banking. The government's just top up your account for you to have a good time, and the same imaginary number, you top up somebody else's account, because you bought something from them, because there are no jobs. There is no borrowing, as such. All these things we accepted, forced on us by those who wanted to feel that are in power, will go.

We saw in the past few months the situation in Iran, people boycotted certain transport companies, people boycotted certain food companies, and how the businesses literally collapse. These people will find another job. You will find new hobbies than jobs. And the government's don't issue any more paperwork, (1:16). they just give you a digital number, you top it up. Central banks move away from that position as a digital requirement.

You don't need to live in an 80 square meter property stacked up like sandwiches in the middle of the city, because you have a job there. You live somewhere in the middle of, god knows where, because fifty dollars a year, at the moment there are buildings in China, the rent is one dollar a month, or one dollar a year, or ten dollars a year for 80 square, 90 square meter apartment, fully built in the cities, which are nobody living in. You live in China, you come to work in New York and go back within 10 seconds.

The whole concept of life the way we have accepted to be a slave, is coming to an end. And it'll be really rapid, because once it gets hold, once it's done, the preliminary base is done, the way we jumped on the computers and mobiles, we use the same computers and mobiles to travel with. It's not just something you take an App and buy a sandwich. You take an App, you're fed for the day for nothing. And the ones who created the chain, come up with more exotic tastes and flavors.

What do you do? You spend more time outside, you enjoy yourself. Because a lot of people say, I want to be free from taxes, and I want to be free from burden of chemical foods, or whatever. We don't have chemical. (1:18). You have received the pure energies, which is needed by the body, and the taste and flavor comes from your emotion.

Life, we are not theoretical, now especially with the tests done in past months, the whole humanity changed. The best thing the Belgians did to us was taking us off the radar in the newspapers and the public. (It) allowed us to develop in a very solid way. Without the magician, and the magic jobs they want to do with us.

You'll have a time on your hand to live the life you like. And that is how it should have been from the beginning. But now there's more technology and more things. Do you need a car to go, to pay two dollars a fuel, just because somebody shot a bullet and then come down to one dollar after six weeks. Who made this massive hundred dollar a, what you call it, barrel out of nowhere? Cosmic Rays are free, your energies are free.

Find a way to tap into it, you don't even need an App. Soul communication line. Those of you gradually get trained by yourself. You'll live a free life. ?? What do millions of unemployed do every day? You used to go for a jogging, go for a walk, go out sitting and chatting with your friends, or travel the universe. You won't have enough time to be unemployed. Mankind will be employed with the pleasures of the universe, than the slavery of the man. (1:20).

<< **BREAK** >> 465 KSW [We make an transcript break here ..)

Q: .. We've got a further report by Achilles. On the Friday night session says, on the session two of the Friday night, I can't stop laughing. I never laughed so loudly in my whole life. I don't know why I laugh. I don't know, if I was in the disco. I felt someone put some food in my mouth, then I start laughing. The experience on Friday is so impressive and profound, such that I can't stop swinging, swinging my hands during the session 3.

R: So he had a fairly profound Friday night session.

K- Yeah, different people took according to their enjoyment, I call it of their Soul. Different things from each session. Those who joined the cancer session, they had some of the profound effects, in their what we call, (1:22). emotion.

We are following one or two of them. The ones who joined the food session, they had the best ride. With the food session, we kept on loading up different things in the background and see how it is, or how it feels. To you, you just sat in the session, in the background we added, we took off things, and we watched the session how it goes, we emptied the place, we filled up the place with different things, and we collect data.

It'll be interesting to see how collectively the people in the Monday session learned from the Friday session to join each other. None of them did. Two or three people who knew each other in some occasions I see it in the graphs.

In fact, what should have happened is, we should have taken you in a different direction, make one soul out of all of your souls in that session, and then bring you back into a system we had and then do what we wanted to do. And this is what's going to happen with the future tests. But we don't explain anything, because we've got to perfect our systems.

Go back to the teaching years ago, if you can't find it. (1:24). I said that, you give your Soul to a captain you trust, and when you arrive at the destination that captain lets your soul to detach, to be free. What we are doing today, I explained this to you maybe five, seven years ago in the teachings, those sitting and transcribing, just look for it. I explained, the time will come when you give your Souls to the captain, a captain you trust.

Now, you did that on Friday. Took us seven, eight years to physically develop that technology, that you could do it. That captain was the technology and the "soul of all of you together" on Friday the 16th. You made one soul, one captain, and then you saw it on the graph the straight line. And you gave everything to it, unconditionally, none of your fought. We don't see any peak in that period, that even one soul rebelled. So, now you understand. Find the teaching and listen to the 16th, or last Thursday teaching where we explained to you, then you understand it was a fulfillment of a promise years ago. Now you have it. (1:26).

The whole session will come following all this developments, new things. I refer, gradually into the back teachings, that you see what, how long it's taken me to prepare you for what is to do, done at this time. You gave your Soul to a system. You believed in one system that with the structure of that system, delivered you to your Creator, in the soul level. If I would have told you such a thing in the teachings. I think it's in the one hundred or two hundreds series (100 KSW to 200 KSW). I explained in one of the teachings this. You would have laughed.

But when we explained, that you give your Soul to one captain, and when it comes to the time, delivers you, and you trust it. You made that one captain out of all of you. The 160

of you in that meeting that day. Because you trusted in yourself, you don't do anything wrong in the Soul level, so did the others, so you made one out of everything.

In the future I'll teach you how to travel in the planetary system, how to travel in a star, through your Soul. But again, go back to the teaching where I said, what you see as a star you already have a connection to it. "The light came to you to see, is the light, which takes you back to be." Then you understand how much knowledge is left to add, and for you to understand and to use. (1:28).

Go back, many of you who came to Linz, and many of you who were online, we've done some tests with you. I frequently asked you two questions, did you see, or did you feel? Most of you who went through the Linz experience were asked this question deliberately, did you see your father, or did you feel your father? Did you feel the animal, or did you see the animal? Why?

All these questions will be answered in the coming weeks. Then you learn the separation between the physicality and the Soul. You learn what is knowledge of the Soul, you learn what's the knowledge of physicality, and gradually you learn how to connect, and be in charge of their interactions, or be a witness and guided to. Then you will not do, no wrong, you will not act wrong, and you will not even think wrong. Because you'll see something you've done wrong in the Soul level will affect the physicality. You will be paralyzed. Something you do in the physicality will damage the level of your Soul, you will be paralyzed. So, which stupid man shoots himself in the foot, as I say, and tries to run a marathon. (1:30). Your essence of your own judgment brings protection to your Soul and conduct.

Any other question?

Q: .. If we are allowed to manifest on the same level of physicality as on Earth, now on the Moon and Mars, does this mean that the planetary soul has accepted us to make a living environment?

K- You cannot have the .. exact physical feature of the man on the Earth in any other position but Earth. There'll be some deviations. That is primarily, because of the field strength of the destination. And primarily, part of your own emotion what allows for you to accept. These are very important criterion, because the physicality cannot do something which the Soul is not happy with. And the Soul cannot do the same with Soul of the Physicality (STP). But compromises will be reached in a way of balancing the two. So, you cannot be exactly the same, maybe even internally as the way you might feel it physically with yourself on the Moon, but in reality you are not, so you deceive yourself. But in a way you get used to it. (1:32).

It's a .. coma condition. You know your face in certain way and your understanding, and then you go to a coma and you wake up 20 years later. The body has gone through aging, and science and technology has changed. So when you come out of coma, your emotion inside belongs to 20 years ago, but the face is today's. You have to accept it. When you

entered to coma there were no mobile phones. Now somebody hands you the first thing, is a mobile, when you want me, call me. What is this? What do I have to do? We learn.

It's a beautiful learning curve. An emotion, which a lot of you have never considered or maybe sometime in your life have thought about it. We spoke about agriculture. We spoke about killing, or consuming another life, we call it, a wheat or we call it, whatever. Now you understand the structure of life. Then comes a cycle, which came to us in a different way, (1:34), around about nineteen nineties, and disappeared. It was just a fashion.

You would not eat an animal, you became vegetarian. But you love Mohair, and silk. You like a sheepskin in front of the fire, and you enjoy fox scarf, and different animals as a fancy coats going out. You wear a cotton shirt. You're carrying an animal on your back, another life was sacrificed. For you to hurt. Would your emotion takes you to that point, that I will not wear anything which is another life?

Do I need to wear another life? Next time, when you call yourself a vegetarian, look at the clothes you wear. You're wearing an animal, in the name of the plant, 100% cotton. Ignorance does not give the right of passage. And deliberately ignorance is worse. (1:36). So, what man's going to wear in the deep space? Where the cloth man makes, made of Carbon and Hydrogen, and maybe a little bit of this and that, as a polyester and the rest.

In the span of universe is part of the energy system of the universe, Carbon 14 and Hydrogen. Would your polyester or whatever cloth you created, will exist or will it be vanished as part of the energy of the universe? In a simple word, if you are anti-killing of the animals and plants, and you go for being organic and chemical based things, I would like to be naked in the space, the same as your Soul.

Now you understand how much we have to let go, and how much we have to accept with what is to come. You'll face this because you became passengers of the universe. It's not somebody else done it. 160 of you became "passengers of the Universe" in the last few weeks. You volunteered, you came in, you brought the Soul. (1:38).

How you tricked is your problem. I'm going in because I've got a cancer, I'm going in because I have Parkinson's, I'm going in because I want to travel. How did you cheat your Soul to come in? How did you bring it in to be as part of 160? Or did the Soul bring you with cheating you with the Parkinson, and everything else. You have that. Go there, because I already have a rendezvous, I'm supposed to be there. You carry me inside, so go with the excuse of Parkinson, or traveling somewhere else.

How did you ended up to be one part of the 160 people last week, two weeks ago? Who brought who in? Did the Souls have a rendezvous, they knew they're going to be as part of the show. The beginning of a change, and fooled you with your physical desires? Or do you think your physical desires brought the Soul that he found where he was supposed to be?

In one of the meetings over the next few months we'll bring you the world leaders on the table. The way you became in touch with the Soul of your Creator and your Prophet. We don't announce when and which one, but in one of the sessions of 2023 you will sit with the Pope, you will sit with Ayatollah Khomeini of Iran, you will sit with the two heads of Israeli synagogue religious leaders, as each six months they change. (1:40). You'll sit with the head of Islamic world in Saudi Arabia. You will sit with the top under Christian belief calendars of leadership, you will see it with those who run Buddhists monks, and the rest of it.

You remember, in 2016, we took you to join your Prophets. Now, you joined the servants of the Prophets, to show the real desire of the Prophets. And that will be the end of religions for man. As those who you bring on the table, they have to answer your Soul, and the Souls of those present. In that meeting we'll mature the world religious leaders, and it will come the end of the religions. As when we finish the session, one by one, they'll resign from their position.

This time you will decide and not them to attend. You call the souls. Then we'll see the end of religions. Then those religious leaders have to carry the message to the rest of those who follow them, that the "bell has been rung," the end of what we call, "false belief." Then we in the other sessions, we'll bring you the world leaders. You will sit with President Biden, and you will sit with the Iranian leadership, you will sit in the soul level with those of Kremlin and Beijing. (1:42). Don't forget, these are not fairy tale, you've seen it scientifically, you met the Soul of your Creator and these are all servants to Him.

Then we start bringing in the change. Then, once we bring these changes, you have to understand, that the nations in the human level have to accept the changes. But as you'll come in unison between all of them, then it'll be a, what we call, a trend, a fashion, and it'll carry itself through. This is part of the 2023 program of the Keshe Foundation.

And we have a track (connection). We took you to your Creator, now we take you to their servants. And instead of going and making a time, that one day if they decide you'll meet them. Now you bring the Souls, and the physicality follows the decision of what was made in the meeting of the Souls. The way we'll feed your Soul, to feed your physicality. The same way will be done with the world leaders and religious leaders. We elevate, we touch their Souls, and then their physicality will bring the change in that dimension.

Don't be surprised that one day, the Pope walks out of Vatican and he will literally will never be seen (again). Don't be surprised in the coming months, when Ayatollahs just take their turbans and, what we call, "abbahs ??" and just walk away and you don't see them again. (1:44). Not by bullets, but by elevation of the Soul. Because this time, if you do it, we saw in Iran, you become revolutionary. But if they do it themselves, it's done by themselves.

I said to the world politicians, revolution in Iran by guns and bullets will not work, it has to come through the Soul in the mosques. And that's where we're going to bring the

change and revolution. When there are no more Mullahs and Ayatollahs to lie and cheat the others, the mosques will close on their own, because the people will elevate. The only way you change world politic in the religions end, is through their Soul, not through guns, and bullets and discrimination.

When I was a child, maybe 7 - 8 - 9 years old, 10 years old. If you go to "Nehferu ??" in Tehran, where the dome is. I told you before, where they built the religious "praying dome" over the house and the bedroom I used to live in as a child. In that house, we had a big living room. Many times, I saw men with women with their children as family, coming to the house with as a turbine, as a Mullah, whatever, from different cities. They changed their clothes and walked away, not being a Mullah, not being a religious man in the path of whatever they believed in.

I asked my father, "Papa, what's going on here? Why do we get Mullahs in the house? (1:46). Then their clothes, they go out normal." He says, they have elevated in their Soul, they understood that there is more than Islam. I watched this maybe 10 - 20 times. Green and black turbines with two or three children, because we used to play with their children while they stayed with us a few days, when they took their clothes and robes off. They became normal men on the street. It's not something that we don't see. I've seen this from childhood, when the man elevates, changes his clothes. So, we'll see these very soon, but in a mass. The funniest part for me was, "why do they shave their beard Papa?" And he used to say, they don't need it anyone to hide behind it.

Any other question?

Q: .. How can we interact with souls of civilizations and collections of souls far away in other galaxies, who we don't even have a name for, let alone a visual imagination, what is the line of communication? (1:48).

K- You will learn, that you have access to the whole of the world of Creation. You will find out through the essence of emotion, that creation and created things from different parts of the universe would like to make contact. And you receive it through emotion in the dimension of the Soul and you responds. It's like you make pet friends, and Chat friends. You receive the emotion.

Human race will not have time to rest, and does not need a job to do. You'll be so busy with the excursions and the life in the space, that the rows, and the factories, and the offices will have no meaning. As your beautiful cotton shirt, and your beautiful PVC, and whatever like clothing has no dimension in the universe. If you appear in your physicality, you will be naked. So, you have to choose.

You will learn these things, it's not a strange thing to you. You do this already in your dreams, you call it. Your Soul in the time of the reduction of the strength of the blood, what we call, magnetic fields, (1:50). travels to these places where they invite you. "I saw a dream, I had a dream last night, I went to a place there were this, and this, and that. There were people like this." Excuse me, now you know where you went, you received

an invitation, and you traveled, because they matched the strength of your soul at that point of time. In being there, and having unfortunately, the center of your Soul is still attached to your physical body, in communication between the center and outside where, what I call, the strength of the field took you, leaves, what we call, image of memory, and you call it a dream.

As I always said, your memory, your brain is like being between two people talking to each other, where you're not supposed to be. Your Soul with the soul of the others communicating, and you're in between, and you hear them, what they say to each other, but you're not part of it. Because in the physical dimension, you are not there, and you call it a dream.

So, when what's going to happen, the civilization you know, you made the contact, or they made the contract, and you meet each other to understand each others culture and ways. And maybe part of it you remember, you've been there, and you've done and you call it a dream. So, it's nothing strange. Now you know what your dreams are, so you've been there, you've met. If you in your dreams, you met aliens with two tentacles on their head and 20 arms, they exist, you've been there. Just you don't remember where and why. (1:52). Because the one who listens to the whisper in the middle doesn't see what happens behind the wall on either side, if they're laughing, crying, cooking, whatever, he just hear the voice.

Your brain has just heard a voice and create the image of it. But you've been there, it's not something strange. Now it becomes decision dreaming, than just not knowing what you dreamt and the reason for it. You make a decision to go to such a place, because I sent the call out and the answer came. You go in these chat rooms, and chat rooms and you leave your picture, your name and whatever. And somebody calls you and say, I've seen your picture, you like football, I like football. Can we go to the match together?

Any other question?

Q: .. Since we were children, we dream and remember a lot of things but specific points of the dream are lost. For example, how we got there in the dream, where we went, how we got to the other side? The contact with someone that we remember, that we had, but we don't remember how that contact was. Is there any way you can direct us to increase what we might call, memory backup, or to remember dreams better?

K- You see, if you listen to the teaching of past few months. (1:54). This should have answered part of this question. And if you've been with us in Linz. We tell you, you go to, you don't fly to, and it's instantaneous. You go to Moon, and it's there. The first thing you have to realize, that in the dimension of Soul, dimension of fields is instantaneous. You don't need to wait 18 hours on the flight to get to somewhere. So, this explains why you're suddenly there, because decision was done, it's there, the fields connect. So, what could not be explained, how it is there, how I got there, ?? mainly was there. You just go to, you connect to the fields and it's instantaneous. So, this part we understand.

The rest of it is, what was the decision of the emotion at the point of contact. How you wanted it and how you saw it. And what do you wanted from that interaction, or what they want to show you in that interaction. The rest is, when you meet a friend, if you decide to have a coffee, a cake, or whatever, it just comes as it goes, would you stay for a dinner, now you're here. That is what you call, cycle of life. But going to it and everything, now you tested it yourself. A lot of time you say, "oh, I went to." Did you fly to go to see the Martian, or whatever you saw in space? Or it was there, and you arrived? Now you understand how correct the technology is. You're there instantly.

And you have experience of this in the Soul travel, when you're asleep. As just was said in the writing of this question. (1:56). Now you know how you've got there. Now you know, the system. In our system, if you could be, now I tell you, to go to the Moon, then instantly you are at the Moon. You didn't wait in the flight room for 18 hours, or four days for you to get on the ?? mode of a rocket and fly there. Now you learned the way your Soul travels. And you should have seen that by now. With the transmutation and transportation of soul, it's instantaneous. You go to places, you don't fly to places. Flight is the job of the man, going to places is a dimension of the Soul. Now you're getting used to it and you understand how many times you've been to places, but you didn't know it was your Soul involved, not your physical dimension.

The minute mom shakes you, come on, get up, it's time to go to school, you're back in, instantaneously. You go back, say goodbye to the friend, mom wakes me up, I have to go to school in the physical dimension. Now you understand, maybe a little bit more about the two dimensions of the Soul and physicality.

Q: .. First of all, good morning Mr. Keshe, thank you for your infinite love for humanity. In the first teaching of 2022, you taught us about transmutation, and Inertia, and spoke about how we need to train our emotion to identify what is real, or reflection, or mirage in the plasmas of the universe. Could you tell us more about this subject, and if possible, (1:58). guide us to understand how we can develop the understanding to know what is real, reflection or mirage?

K- This comes by test. Even in the world of creation in the physical dimension, half of the structures we see as stars and galaxies are mirage and reflections. It's the same with the dimension of the Soul, depends on the field and the strength of them, their interaction creates images. It's just how you interpret that image. Or it has taken the dimension of physicality in part, and you call it whatever you choose to.

You put two mirrors again, opposite of each other, you stand in there and you see hundreds of yourself down the room, each one. Which one is a mirage, and which one is reflection, and which one is you. It's the same. When you bring interaction of the magnetic field you get residues, and some of these residuals create conditions of repetition, because it's like cells, they connect to each other. But in the energy dimension without the soul, and then you call it a mirage. Or, in a way, if it's backed by other fields, your call it, what you call it, reflection. It's you who have to understand which one carries

the Soul. Do you see a Soul in them, then you know which one you're dealing with. A picture, an image without the Soul is a mirage, and it's a reflection. (2:00).

Q: .. What does it mean by being told, "you're glowing"? So my line of reasoning here is, if someone is glowing, we know what that's like when someone's glowing, they're emitting, they're giving off the rays, the radiations, they've got the vibes. Is that related to the difference between a reflected image and one that's being broadcast, like direct radiation?

K- What do you mean by that?

R: Well, for example, with somebody is sort of "on top of their game," or "really tuned into their environment." So, they're really paying attention, they seem to take on this glow, they're totally awake and aware in their environment, let's say. So is that glowing part of when we connect with our Soul, we emit rays, rather than just being a reflector of other rays, or instead of transmuting other rays, we are the source of the rays, let's say.

K- I don't know what position you're in, or what you have chosen to be in.

R: Maybe I'm reading too much into the question. Maybe, do you know what I mean by when someone's glowing, when someone is... (2:02).

K- Yes, it's just a...

R: So what does that mean? That'll be a simpler question, what does that mean?

K- Yeah, it's just you add the dimension of physicality to what you set up in, what you call it, in the emotional part.

R: So the glow might be more of the friction of the fields, let's say...

K- Of on the emotion side, ?? It's the information, transformation, how do we transfer this information, in which level in the dimension of the strength of the Soul, in the dimension of the strength of the physicality, or a combination of the two.

Something I wanted to bring up with some of you who totally been part of the work of the Foundation. Some 20 of you, up to now, now have bought and receive these black discs (Plasma Mirrors). There's I think 10 or 20, I think prepared for March or so, which a lot of you are putting orders for them. We would like to build a session, and you will receive a email, those of you who bought these discs, for a meeting on Zoom in connection with the discs you have.

We would like to run a number of trials with these discs with you, and with our flight system. (2:04). The same as the ones who did the Nutrition and couple of other tests on the 19th, we'll contact you for you to do to run some tests with us simultaneously with the use of these discs. This will bring us a lot of knowledge for the space transmutation. This is one of the things I told you before, those of you who have it, keep it handy, very soon the Keshe Foundation will contact you. We have a list of you who bought it. We'll call

you into a session, and a lot of these things that is now discussed somewhere in, after March will be discussed with you, because we will use this for a specific flight systems, and you're part of that system. Those who have acquired the black discs, the two mirror discs, which the Foundation is another 10 or 20 going through the process.

Any other question?

<<< Speaks in Portuguese Language >>> (2:06).

Q: .. So what Cristiano say first, he says, (2:08). thank you very much Mr. Keshe for all the love and knowledge that you give to us all these years. He's connecting his question with something that just said today regarding the people who went through the flight test on the 16th, many of people who were there in the 16th came, because of the of their ancestors who did some serving, and did some good works in the past. So, he was trying to connect this with the hypnotherapy. And in these therapies, in hypnotherapy or something, they say that you lived other lives before. And he's asking, if I understood correctly, if those people, that you were in the past, you are coming back. You did that good deeds in the past, and now you're coming on the 16th through the good deeds that maybe you yourself did, and are coming on the 16th as, let's say, like a reward of something good that you did in the past or something like this. Was that clear Mr. Keshe?

K- The situation with the 16th is part of everything involved in. And it's not the reincarnation of somebody, you did something good in the past. You are a collection of the RNA and DNA of the past lives, which led to your creation. You call it, or they say that you inherited this disease genetically through your genes. So you now understand the genes are included RNA, (2:10). without RNA there is no DNA. And RNA is, what you call it, magnetic field of the information, which leads in dimension of physicality through the DNA.

So, it's not that your ancestors are with you. You carry the reflection of what they've done in the energy level, at the time of the present. It doesn't matter in the 16th or any other position you like. This is what it is.

It's not that you lived other life. No, you brought part of the actions and interactions, which lead to your creation, which is part of you, to be understood at the time, and the place and position. You are not reincarnated, it does not exist, cannot exist.

But the, what you call, the... I explain it in the easiest way. You have a recorder and you record a music. Then you play this music to ten, twenty, hundred, a thousand people. Then they play the same music to another ten, twenty, a hundred people. But the original recorder breaks down, gets destroyed by accident, or whatever. But what was recorded by the others, and given to the others, and given to the others recording, is .. still carries on. (2:12). So the recorder is destroyed, but the music is heard by many down the line, maybe for generations. This is the music my grandfather used to listen to, but the "gramophone" (recorder) doesn't exist anymore. He actually was listening to it.

My father had tape recorders, and my grandfather recorded on that, and then my father had a stereo system, and a CD recorded, and my time it's just on the headset, and I'd give it back to my children, this is the music, that your great grandfather enjoyed. But god knows what they're going to record it on. The physicality of the original recorder is gone. But the music is carried on down the generation. It's the same with the genes.

The man who did a good deed, his good deed has spread through his bloodline, not just one. So, the children, the great grandchildren, and children, and the great grandchildren carry that knowledge. And maybe one of these grandchildren down the line, or great grandchildren comes to find the original recording, but the recorder is not there.

Now you understand how your Soul works, how you reflect the work of your ancestors. You don't have the original recording, you don't. It's not the ancestor to show which button he show, he pressed, where he bought the recorder from, or whatever. It is just a music which is played, it was recorded generations back.

And this is the same with your RNA and DNA. (2:14). What you see, what you say, is a reflection of what they, in their strength of RNA, recorded in the disk. You have that information, but you don't have the original. You are not the great grandfather. You are not the recorder.

This is how the Souls when they present in the recording of the Soul is the RNA recording of the life, and generation and creation. You have to understand, when you were created, you had a mother and a father, that's two recordings. Then they had four or five children, which they've shared that. But your father and mother are children to their .. mother and father, your grandfather and (grand)mother, with many children.

So now you carry the memory bank of the gene of your father through the day of your inception. You have now the recording of the 4 grandfathers and mothers, and then 8 great grandfathers and grandmothers and all the siblings, whatever they're in touch with each other, or had the emotion in respect to each other.

So you see, the STM goes back a thousand generations, two thousand generations, you have all this recordings in your Soul. How two hundred generations before your ancestor had to tackle a bear, in the North Pole. And he lost an arm, because he did the wrong move, (2:16). and that wrong move was recorded on his emotion, on his RNA. And down the line, any of the bloodline sees a bear, runs like a rabbit.

Other man in the North Pole came across a bear, fed it, they became friends, and a thousand generations before, and this bloodline when they sees a bear, they hug them, they have no fear of them. It depends what's recorded on the recorder, and what was passed on the RNA and DNA. This is what you have to understand.

When we bring the Souls on the table, on the, what you call, 16th of December, came from the souls of generations of the whole of human race. Listen, 18 (80 ??) nationalities, path of beliefs, and others were present, over 80. We have a good sample of connections.

Chinese, Iranians, Americans, Mexicans, Australians, Africans, Russians, they were all in that 160. Christians, Muslims, Jews, Catholics, Protestants, Sunnis, Shias, they were all in it.

We brought all the races of man on the table on the 16th. Irrespective of color, race and religion, and that was the promise of the Holy Books. The Day of Judgment, where all men are equal, and with it you became, and you brought all the memories of men right across. (2:18). The Jews, the Muslims, the Christians, the Americans, the Iranians, the Chinese, all listened to the voice of your Messengers, and the voice of your Creator. None of you was higher than the other one, none of you wore a crown of kingship or you're a better race. You all met on equal ?? par, and that was what was promised. And for the first time you had the rays of the universe, Cosmic Rays, which brought you to your Creator.

Q: .. What is cosmic, or what are Cosmic Rays made from? Wikipedia says that, is primarily represented by protons or atomic nuclei. Or in another way said that, 90% proton and 10% nucleus of Helium, or 90%, beta positive ray and 10% alpha ray, is that correct?

K- Every ray which exists in the universe is in part of Cosmic Rays. And every field which exists in the part of cosmic rays, and Universal Rays, is a magnetic field base. (2:20). What collection of them, what you call, is your intellect. "Proton collection, more of neutron maybe, more strength field of electron, maybe more powerful, but let's have the small ones." Man made names for it. But in the essence is, different interactions of different strengths of, what we call, magnetic fields of the universe.

One thing which you've got to understand is, that you are still part of a Cosmic Ray, but in that ray you still can be a cluster, and in that cluster you still can be a plasma. So, the plasma is a STM, can live in the cluster of the souls, and then with it be part of a cosmic ray, which ends up in another what we call, cosmic rays, or cosmic plasma or disk of fields, or is originated from a plasma, or a cluster of plasmas. And then all this, on the initial root goes and becomes the essence of the Creator.

It's just like, you start from your capital and your drive away. You go a certain length (down the road) with nothing (around), and then you see a town. Then around this town, there are villages. ?? around this village is most probably a farm, put something in town, the town people put it back on the road, (2:22). they go to next road, up the road, to another cluster of villages and towns. And that's how cosmic ray... Cosmic ray is that road. And end of that road is not finished, because somebody else is building another little village somewhere down the line, putting the first houses down, that in the future will be a village and a town.

You're one of these villages, which a cluster of them made them a town, which is on that highway, that highway is a cosmic ray. And there's a possibility that from your village, there's a little added roadway into the village into the next cluster, and happen your girlfriend to live in there. You never go down the main road, you go through this back

street to see your lover. And then between you and your lover, you start a little house somewhere out, that in the coming century become a village and maybe a town.

So, you still interact in the line of the main roads with all the clusters. But on the side, you still have little things around and you don't need to go on the highway. You know the back passages, and you create a new generation, and in the future a new town and cities. Because you put your house near a water, it should have no one to go too far, they built another house next to you, your great grandchildren want to be with the grandpa or grandma, they don't want to go back to the village, or the town of the father or the mother. So, you start a new cluster.

And it's same with the cosmic rays. But when you started from the capital, there are many roads that go out to different directions, to different towns and villages. (2:24). All these towns and villages in the back, have access to the other ray, which left as one road ??. This is exactly how that center, that capital is the Soul of the Creator. And different roads going out, are the rays which cover and become, what you call, cosmic rays. And they interact, in the interaction of the fields of the little villages you built.

We all have, if you drive from your village into town, and then from your town to the highway, and to the capital. It depends which route you take. And how, what you build your house that it lasts, that another generation can use and grow it. And that is the conduct of your physicality. It's as simple as that.

If the government tries or decides, we build a new highway out of nowhere from the capital out to reach somewhere else, another city, and then what they build ?? we'll see opportunity, and build over time little houses, and villages, and connect to it, and then you've built a new path to a new dimension. That's how cosmic ?? Rays are created, how they end up, how they interact. That's the easiest way for you to understand.

You still have a cousin of a cousin who still lives in the capital, you have a cousin who stayed in town, which was just created, and then (2:26), it's you who moved and created that village, and then your children will be the one, which will build another village that in the future will become another town, another galaxy, another universe, and another cycle of life.

R: Thank you, Mr. Keshe. We're losing a little bit of bandwidth right now, you're starting to break up a bit.

K- Please, this time, don't leave it to the last minute to register for the 20th of January and February Hello

R: Yes, We can hear you now.

K- ... As I said, try to register for the 20th of January, and don't wait to the last (minute), because once we go through the January session, we see who and how, we announce the February session. Maybe for the January session, we announce one or two specific sessions for the Monday, the following Monday. Try to book in and try to bring as many

people as you can. This session of the January, (2:28). it'll be very, very interesting in spreading the part of the technology and for the future programs, which we set up to expand the knowledge.

Try to understand, this time come with no desires. Try to come with no expectations, and try to come with open arms to receive a new knowledge, new understanding. Last time you came with a lot of wishes. This time come to give wishes, to satisfy others wishes, and then see what comes out. We'll see hopefully, we'll go further with this in the future processes, on future programs, as the new systems come into operation.

If there are no other questions, we'll stop.

Q: .. Just wanted to wish Merry Christmas. Happy New Year to you. And this has been an amazing year of growth and understanding. And it's been a journey and beautiful, beautiful journey. I just wanted to thank you for that personally. Thank you. (2:30).

K- Thank you very much. I hope we'll learn more next year and with our systems come into operation early next year, a lot of things will change, a lot will change.

There is something I would like to share with you before we go. As part of our work, and as part of the work of the Keshe Foundation, as we promised you, we'll bring the new structure, and new order for those who still go on the dimension of physicality. This was created some three, four years ago, and was kept. And now as we go to a structure "One Planet, One Nation, One Race and One Organization." This will be the first time ever we go public with this.

Those of you who purchased the Keshe Coin will receive this certificate, electronic. And this will be one of the only ways, that we will interact with the, what we call, public in a dimension of financing and the structure of the, what we call, liquidity, of availability of funds across Keshe Foundation across the planet. (2:32).

This Keshe Coin certificate will be in 2023 issued through a specific structure of the Keshe Foundation, and then through the banking system. A plan for this is on the way, that you can buy certificates, these are all individually, carry a specific code, that cannot be, doesn't have the characteristics of the Bitcoin, that they can steal it from you. And it is interactive inside the Keshe Foundation structure. So, even for attending the sessions and attending what we call, the future sessions, you exchange Keshe Coin certificates for, what we call, for the currency.

This will bring, and it's the beginning of the, what we call, "one world" currency. It does no matter where you are, keeps his value always the same. We will allow you to, what you call, bring everything back into what we have in plan in the coming time. These will be certificates of the more or less, donation, as the certificate of the Keshe Coins.

Many of you have already purchased coins and you put numbers down. All these will be in the coming time sent back to you with a specific combination, security, and connected

directly to your, what we call, emails, it cannot be stolen. What has happened with the Bitcoin cannot be repeated. They can hijack your email, but through the system we have, it will be recalled back in, (2:34). which means that the moment they steal your wallet in Bitcoin currency, and you lose all your saving, as many of you has faced with it. They steal your wallet even with safe organizations. This cannot happen.

We have a very beautiful Keshe Foundation Knowledge Seeker who is well versed in it, he will come in hopefully and put more structures around this that they become independent, what we call, financial structure without tying to the banks, but the banks use it to guarantee their own collateral security in the future. We are talking to a couple of European banks, that the Keshe Coins operates, and operates within the banking system. You can go to the bank or through the Apps, you can buy Keshe Coin. It's the sign of security and guarantee of the value that you never lose. And there is no way it can be stolen.

So, what you've been waiting for, for the first time we release this, what we call, the Keshe Coin certificates. It is exchangeable and it has a history track, that is yours, if somebody turns up on you, and you come up to the Foundation, says, my certificate was stolen. Whatever has been sold of that coin will go to zero. Which means you stay the owner of the certificate, and it's tracked through you only. You can pass it on to your children or whatever you want to do, in exchange for buying something and selling something. Allows you a lot of flexibility, and sometime in the coming months all the people who work for the Keshe Foundation will be paid through the Keshe Coin, and they can exchange it anywhere. And we guarantee it, back it, for the Keshe Foundation researches. (2:36).

Any other question?

Q: .. With the feeding system, if the farming is stopped completely, and so, we had an accident with a solar flare and the satellite systems went out, what would happen then, if we could not feed ourselves?

K- Nothing, you still feed yourselves. Wherever there is a ray, a cosmic ray is the life and you are always connected. There is no possibility of man ever be stranded. Or any life would be stranded in the universe, impossibility. If you can see, if you can visualize it, if you can feel it, you are connected. And if you can't see it, you visualize it, or see it, you most probably don't exist in this dimension. So should be no worries.

Q: Okay, that's one less worry.

K- It is the way it's set up. That's why we asked for so many Satellites. That's why we asked for so many Universal Council supporters.

Q: Do you have enough people now?

K- We don't have enough. We still need around about the numbers we mentioned before. The more we have, the more... (2:38). You've got to realize there is a big, big, big, big understanding which is missing amongst the Knowledge Seekers. When we speak about need for Satellites (Souls), you're looking at the human race numbers. When now we have opened the Universal Community, you're needed for as many as possible to be in connection between the human race, the Earth, Soul, and the Universal Community. It's not you anymore Satellite just for the human race. You understand? There is much, much, much more involved.

The arrangements we made, hopefully we can keep, depends on how things turn out. We are expecting an interface with the Universal Community in the physical dimension in 2023. Which means the knowledge will go far enough, we create an environment enough, to allow those who are amongst us to show themselves. Who they represent, which part of the universe they are ambassador of. We might have some souls which come in to manifest. But those who are amongst us and they know who they are, and they're amongst us here, they will enter the safe zones created for them within the structure of the Enhancement Unit, that they will change to their original fields, and we see the true shape of them. We have already seen this in the Enhancement Units in the center.

Especially I was talking to our people and we have videoed creation of different magnetic field environments in the systems. Now, we see it as a clarity, you see it as a mist, you see as different field strength, (2:40). and when with the new cosmic rays coming in the system, somewhere in January, February, delivered to the Enhancement Center, then we have control of the cosmic rays, then we have the control of manifestation of the physicality. It's a beautiful thing.

Q: With this people that came on the 16th, do you want the same people to try and come in on the 20th of January?

K- If you want to, yes. Because you gradually develop the Soul in that direction. It's like gathering, it's just the new school, you gather more, and then in the future, you teach more.

Q: The interesting thing for the 16th is that prior to the session, I don't know maybe it was my imagination, but I felt a connection. So, I don't know, maybe a lot of my expectation, or anticipation of the 16th just prior to. And I had trouble joining in, but eventually got in. It's always has to be some drama. But I'm wondering, like you said, we probably won't need a mobile phone.

K- In the coming time no, in the coming time, no. We already pre-arranged. You've been a lot in touch with the system, that's one of the reasons. You've been with us a long time in a lot of trials. So, you didn't need the pre-empting like the others, to start, and that's why you're already ready before the session starts. (2:42).

Q: I understand, yeah. Good. Thank you very much.

K- Thank you very much indeed. It's not that, oh, you felt something wrong. You've been through the system many times, so you are already well connected. You didn't need the system, you're automatically switched, you connected. Maybe the reason you had a drama was to tell you, you don't need it, you're already connected, why are you trying to do. You understand?

Q: Yeah. It was a little bit stressful, because I thought I was getting ready and then it wasn't allowing me to come in.

K- The Soul says, oh, you're already in, what are you trying to do, connect 2 times?

Q: Yeah, that's good.

R: Universe doesn't allow cheating and no duplicate entries.

K- With a lot of Knowledge Seekers in different ways, in the background, so Antonio is one of them. So they know the system, they know a lot of things around it. So, they're home.

Any other question?

Q: .. I am retiring from a power plant next year, I hope to work with plasma technology in the future. What can I do to prepare for this?

K- Oh, god. If it is a nuclear power plant you're already in it. (2:44). If it is a standard power generation systems like coal, or gas, or whatever, you know about the power, but you have to change to understand the new structure of working of the systems.

In a future time we connect part of your Soul through teaching to the Soul of the planet in a specific way, that it will create energy and power for your need. This is a beautiful part of the technology, which I already devised a system for it. I don't know, when I was 30 – 35, maybe earlier, and this allows you through your own Aura and your Soul to create enough energy that you don't need to feel cold, you don't need light.

Systems will be delivered, not to be developed, because they're already fully developed, that creates. At the moment when you have light on a street, everything's lit. You'll have a light system developed, that you will understand how it works, that it lights your vision and your senses, and you don't need a streetlights. This is already been discussed in building new space cities. With the new space cities there is no streetlights. (2:46). Through the interaction of the fields of the man with his environment, you create the lights in the direction and dimension which you need.

Go back into some of the talks I explained new spaces cities have no streetlights. Because you will be taught, systems will be introduced that it creates a light in the dimension of the vision, and interaction with the aura. It's very much like, the light is on Earth during the daytime when you're interacting with the Sun. The back, when it's not needed, it is in the dark. You create a light in the direction of the vision, even in direction of emotion. You feel something happening behind you, you create a field, that understands what it is,

what shape. Is it a car, is it a man, what it is, and how to react. This slowly in the future will be taught.

Any other question?

R: Perhaps you can take another question from Leo. (2:48). (Portuguese translation)

K- Before Rafael comes in, there is something I want to explain about one of the meetings coming up in the near future with the sessions, like the January the 20th. We would like those of you who have physically, or personally have seen, been in touch, or been present with any of the religious world leaders, to be in the following three months meetings. If you have met personally, or you've been in presence of Ayatollah Khomeini of Iran. If you have met or been present, personally, with the Pope in Vatican. If you have been present or met any of the two Jewish Rabbis leading the state of Israel. If you have met with any of the religious leaders of the Saudi Arabia heading the Sunni and Shia sect. If you have met any of the 72 Ships of the path of belief of Christ. If you met any of those who lead the Buddhist monks, and the rest, join us. Make sure you're present in next 3 sessions. (2:50). It is your responsibility and obligation.

If you have met with any of the world leaders like President Putin, like Biden, like President Xi of China, make sure you're in the next three teachings of the 20th of January and the others that will be followed. If you have met or been present with the head of United Nations. If you have met and been present with any ambassadors of your nation at United Nations, be present in the next three sessions of the Keshe Foundation in January, February and March. If you've been present with any Kings or Queens, met or been present with them, make sure you're present in the next three meetings. This is the time where we'll end, the end of the kingship. If you've been present, seen and been around any of what we call, elite scientists, be present.

2023 is where we bring the change, and the change has come from the knowledge underneath, and change of the leadership in the level of the Soul. (2:52). If you're Iranian, and you've been and seen the Ayatollah Khomeini of Iran, been present, make sure you join the session. If you've been to Catholic Church and you've seen the Pope, be present in the meeting, next three meetings. And it goes the same down the road.

We do not change, we elevate for them to walk away from their, what I call, positions. If you're members of the National Security's of different countries, and you are here to report to your leaders, ask your leaders clearly to attend the next 3 sessions. You don't need to come through the back doors, sitting in the hiding zones of the Zoom or YouTube, be brave enough to declare yourself in the meeting. You can translate now.

<<< Portuguese speaking Problems in microphone of a KS >>> (2:54).

K- There's something which I would like to clarify. In the session when we set up the structure of what we call, interface with Universal Community we'll invite the members of Universal Council to be present in the meeting. (2:56). We will ask the members of

Universal Council in full to be present, as this will be the first interface between the Universal Council and what it will be their future in the structure. This will be one of the most beautiful sessions which will be held.

There'll be the beginning of the massive change for humanity in knowledge, technology, and what I call, hand of friendship. We'll announce this to the Universal Council members and we expect them to keep this confidential. Once it's released to you to attend such a meeting, please do not go to public. Do not allow anyone to know that you're attending such a session. Thank you very much.

Can you get this gentleman online? Or shall we call it a day?

<<< Problems in microphone of a KS >>> (2:58).

K- For the Iranian group, or community, you still can register for all these meetings with the Iranian, what do you call it, organization side, with Youssef and Dr. Bararpour. The system is set up for Iranians who cannot pay outside Iran. We have organized the same thing for Brazil, to be able to pay to Brazil, what you call it, office of the Keshe Foundation. Like last time, we organized through Rafael. The same thing will go to the Chinese community. Chinese community, you can pay to the Keshe Foundation organization in China to receive the same connections on the day of meeting. As there's a lot of difficulties for people to transfer money out of China with different limits and number of people, you can go to the Keshe Foundation links in with Wang Lin and the Chinese organization of the Keshe Foundation. And they forward you, and your emails, and the date you want to attend. Those of you Chinese who still want to work with the Keshe Foundation head office, you know the path to do it. But for the Iranian and the Brazilians, transferring funds out of the country is difficult. So, you deal with our offices in Tehran, São Paulo (Brasilia) with Rafael.

Any other question or shall we call the day?

If there is no more questions, we wish you a beautiful Christian New Year on Sunday, and hopefully would be a wonderful year for humanity. We'll see what we can do and what we can achieve together as Knowledge Seekers. (3:00).

Q: .. Mr. Keshe, thank you so much for everything you've done in 2022, and all the intentions and everything you've brought forward for each and every soul, for humanity and all the beings present. Mr. Keshe, very quickly, could you summarize, how do you feel 2022 has elevated the soul of mankind and others? How do you feel that it is gone in this calendar period, I know it's a matter state, but how do you sense we have grown, if at all?

K- We achieved a lot. The growth has become, actually the biggest growth, the biggest achievement of the 2022 is awareness of man's power of Soul, within the structure of the man. The realization slowly, slowly by Knowledge Seekers and in the future by the

others, we will set the scene fully in 2022 is, respect, honor, and trust in the fields which you call it a dream.

That is, you as part of you is actually, the controller of you, the owner of your life in all dimensions. That has been a difficult time to bring, for man to understand over centuries and thousands of years. Then in 2022, we can openly speak about it, monitor it, show it, (3:02). and awareness of the Soul, existence of the Soul has been the biggest achievement of 2022. Maybe the biggest achievement of human race. Then we can publicly teach it, show it, and make it not to be a taboo, but a reality. Then it opens up new doors.

Q: Thank you, Mr. Keshe. So we're looking forward. Well, we look forward to 2023. Thank you so much for everything you do. I'll keep it short. Thank you, Rick. Thank you, Mr. Keshe for everything you've done. Thank you.

Q: Jalal .. In reality, I have two things. One, it's regarding the protocol that Dr. Bararpour brought out. He used the ratio one to one between Cup 1 and Cup 2. And was it okay?

K- Yes, it's very much perfect, because you've got to bring the balance. Cup 1 and Cup 2 brings the balance in physicality, and with adding of the Magnesium, you bring a dimension, part of the dimension of the emotion. You have to have a balance, that you can bring the emotional in balance.

We have seen the, what you call it, the situation which is coming up in China. And now we see restrictions back again in China. But the Chinese are not declaring what this new Corona does, because they're baffled by its effect in the psychological and emotional level. (3:04). They have downgraded it from a disease, or what you call it, a virus and epidemic, to infection. Because it shows a small cold, but has a massive psychological pattern behind it afterwards. This is what is baffled the Chinese at the moment.

As you heard this week, a number of nations are putting the restriction back on the Chinese passengers. But even they don't know what they're looking for. Most of them does not show much sign of Covid, one in ten does. But the psychological effect of it is devastating.

In the next year numbers, we have to look in, number of suicides, number of what we call, homicides in the Chinese data. We will understand for the first time effect of viruses on emotion.

Magnesium is part of it, you cannot bring anything else, because within the Cup 1 and 2 you have everything you need. What is missing is a structure of the strengthening of the emotion with this virus, and you need Magnesium, and Cup 1 and Cup 2 have to be in balance, to bring that condition. (3:06).

Q: It's only the Cup 2, it's very hard really to produce such amount of Gans's.

K- You need very little Gans's.

Q: But the ratio is one to one.

K- One to one, yes. Whatever you produce in Cup 2, produce the same of Cup 1. The new Tabletop Units coming out of Iran, the automatic system. You use those to create the right combination of everything you need. It has the, what you call it, it has a structure to give you the right mixture, it depends how you put in each box. When you look at the, I don't know if Rick can bring it up. The new Tabletop Units, which is launched by Iran, the first batches will be delivered in next couple of weeks to us, for final completion. Rick, can you get it? It is on the website.

If you look at it, you create the right combination strengths, and everything else within the system. You don't need to decide. The beauty with this new system they have put on, is the, if you look at it, you have a number of containers, six of them. You can ratio in each one what you want to produce. You can produce CO₂ in one, Magnesium in the other one, and Cup 2 in the other one. (3:08). If you take the right ratio, you produce the Gans's for the right way, the right amount for what you need.

They are expecting... Yesterday a report from China has shown us, 2% of the population in one district have got the new Corona, it's not huge. The area covers 92 million people, one district, and 2 million plus have been infected in one day. Expected to 90% of the population within certain time will be infected by this. That's 2% of population in one day, have tested positive, considered to be positive, whatever. So, if you take every day, some of these are repetitive, but increases, but within a period of time, the estimate about 90% of the districts will have been affected by Corona. So, 80% of them walk away, 10% which is 10 million, about 9 million people are expected to come with mental diseases, suicidal, and the rest of it, as they are reporting.

This comes in a very, this time this Corona, it comes as a normal cold, absolutely normal cold. Especially if you had the vaccinations, somehow, it feels like you just had a sniff of a cold, and two days later the depression, suicidal thoughts, and the rest comes in. (3:10).

You need this system to be run more or less 24 hours a day, to support yourself with it. It takes two or three months this time to get rid of this, what you call it, side effects of the Corona, which is a mental depression and what they are reporting.

Most of the European and American test does not show this, because it just shows us like influenza, small cold. This is going to trigger a massive release in the rest of the world by mid-February, or so. A lot of people will become suicidal. We saw this first with couple of our Knowledge Seekers last year. So we had a good run with it, we understood it, because we were expecting it. Even with all our expertise, our Knowledge Seekers suffered for a couple of months, two or three months.

It's not that you take Cup 1 and you do it, it needs a production. This, what you call it, Tabletop, if you have it, if you, what you call it, have purchased it, just keep on running it. Don't stop and allow continuous production, and continuous usage. People around, if

one gets in family it's like a wind, it flies through the whole, what you call it, neighborhood, as they call it.

You mix. The system allows you to mix it the right way, and just give it freely to people. They keep it, they use it. They just need to use the water of it. It's what we were expecting, the increase of the energy of the virus to a higher level. (3:12). This goes, at the beginning was the physical. When we saw the Corona, beginning of it, especially if you remember the sessions we ran in Iran, and we saw in China. We saw it effecting the lung. It was 100% sure, the next generation of these strengths sooner or later will come to brain, because the skin of the man, the lung, and all that connects to the brain. It was just a matter of time when it matures to that point. And now it has reached it.

Interesting here for us is, we monitor now how many people had the original Corona, the second time, but soft cold, and the suicidal, and the depression, which now is getting reported connected to this new cycle.

What would be the next level, it'll be very, very interesting. How will it gathers strength to become one. Or would it come between, the intermediary between the STM and STP as an emotion in different dimension, creates new emotions that we do not know.

This Tabletop version of the Gans's production by the Iranian team, has just come in the right time. It's not a short term. You can't get rid of it by 2 or 3. We have one of our Knowledge Seekers, a few, couple of weeks ago. She just got a weak of a cold, and the only question I asked, as I said before is, did you get a cold? She said, yes, I just had a small, just a flu, that's it. That's how it shows itself, and then depression, and, what you call, suicidal thoughts. (3:14). No energy, exhaustion. This is part of this, it's all emotional this Covid.

Yes it says CO₂, because we had to put it that way. If you tap on the side arrow of the structure, it gives you option, you can order different plates. Somebody puts in the chat, It says, the Tabletop says it's just CO₂ production. We released as CO₂ production, but when you go into the shop you press the tab, on the side, I was told everybody knows, maybe you're like me. Then it gives you options on the plates. What do you want to produce. You can buy plates for CO₂, you can buy plates for Zinc production, you can buy plates for CH₃, then there's a Magnesium side, which comes with it. You just add to the structure.

But it says, you won't get rid of it for days. We've seen it three months, six months, till it, actually, gradually you can take it out. But the Chinese side, or people who are infected by it, they don't have the facility through this structure of the production of the Gans's, and they suffer mental condition, maybe for life. We have not seen the end to it. This is an option open to the Chinese government, they have to take it up.

Any other question?

Q: Thank you very much. Sorry, Rick. I just would like to wish all of you and especially your Mr. Keshe, a very beautiful, and healthy and wealthy New Year. Thank you very much.

K- Thank you very much all of you for all the work, hard work, which has gone in the past year and years. And we'll see what comes next year, and how are we going our 10th year of serving humanity. Thank you very much for all your work, and everybody else.

R: Well, thank you for me as well, Mr. Keshe. It's been a wonderful year. I really think 2023 will be the biggest year yet for the Keshe Foundation and for all of your teachings. So, we look forward to it. Thank you.

K- Thank you very much. See you in the New Year. Hopefully, still sober. Thank you very much. See you next time.
