This KSW clearly explains what will happen on 20th Jan. - Interaction of the Souls; Prophets have 2 Souls - Soul of Prophet connected to Knowledge of U - & Soul of the Physicality (STP) of the man who became the Prophet - with all its impurities; Before today man never understood about these 2 Souls; Therefore STP needs to be elevated; History of correction - first we discovered Soul of Planet was weak - then sprayed Gans's every Sunday to elevate it; On 16th when all of you joined Souls together with the Soul of Prophets we saw a deviation in graph and we understood STP of Prophets was weak; Even with Cosmic Rays (CR) we can perfect Soul of Planet and provide 20% energy man needs without killing - but through belief in religions connected to weak STP of the Prophets - man will start killing again through emotion; Collectively we'll join together the same way we did on 16th - but this time through your connection to your Prophets we'll elevate their STP - this will bring STP & STM into balance and Soul of Creation will become perfect and peace amongst all religions and planet; Peace on this planet will also effect the U; This fundamental flaw in structure has to be corrected; Don't be surprised that now the STM through collective awareness is stronger in elevation & has the power to correct the STP of the Prophets you believed in since childhood; The graphs showed the Prophets weakness - now you can be part of remedy & bring the peace; Join as many races religions and paths of belief together on 20th - even Atheist because of ancestors; If you yourself understand - don't need Prophets anymore; If you understand - in future through your Soul and subdivisions of your Soul become Messengers in another part of U; Explain to him at level of Soul where he went wrong; Some might see them in dimension (D) of P; Today STM is more elevated then Prophets of past; Next coming months important in cycle of knowledge - STP & STM have to become equal to transmute; World peace will come when STP & STM become one; The progressive development and elevation of STM - understands that in Soul - he is same as Creator - "I made man in the image of myself" - I've made man out of My own Soul - how can it be any other way; If you have reached elevation of own Soul - you can elevate the STP of Prophet; We enlighten the man - don't hide things in churches to abuse - all understand; Then you don't get fooled by magicians in U; Like if you get PhD and go back to primary school to teach your teachers; This is why whole structure of planet in mayhem today - Commandments were stolen; Explain to your Prophets what needs to be elevated; Maybe by giving from Soul wrongs done by Prophets corrected - peace in 2023; Maybe you found the missing piece to jigsaw puzzle; Only religion is - "Path to Creator" - Truth is

One; So much knowledge coming - get "punch drunk" to understand strength of your own Soul; "I didn't know I could do that"; When we end conflict on Earth - teach to U; Moses behaved exactly opposite to message he brought; "Touch me - I'll take your Soul to be elevated that you'll forget even you can touch"; Mankind is ready for the true peace Jan 20th start; Messengers failed to give true message given to them; Join us - together we become one Soul - bring change; This is fulfillment of what I promised - to bring you to see Soul of Christ; Understand - Soul of the Messenger himself had not been elevated - even though he brought message; Messenger was only a postman carrying a letter - but he opened it & changed it; He put himself in-between the Creator and his created - but true love is unbreakable; Now we have true knowledge to change it; I hope you are strong enough to understand; I hope you understood and received the message from your own Soul;

thing - shows STM has reached more balance than its own Messengers - brings end of religions; Don't become arrogant with what you have achieved - instead become humble in what you have received - elevation of Soul; We know the time gap allowed for transmutation; Energy of Soul in plasma strength over 18 "Hiroshima bombs" multiply by 150 equal 2,700 strength field; "Nothing happened" but 2,700 on move to Creator; How many will come on 20th to see Soul of Christ; Can you see your Soul as bigger to guide him so we can bring peace on planet; Flip one plasma the others flip also; Nobody can give you a "death sentence" for meeting the Soul of your Prophet; To change the Man have to go to root of problem; Flatten palaces so no one thinks to rule others; You will manifest yourself as what you need in the destination; Sickness comes from lack of understanding between STP & STM; True KS may feel they have elevated S of Prophet; Prophets will take from spectrum of group Soul - as they need it; The more you give the more you receive - might end up elevating own Soul; Don't want to substitute a new belief for the old- find your essence - become a Messenger; Scientifically I will see on our systems when STP & Soul of Prophet has matched and is elevated; On 20th how many of you will walk away from religion & believe in your Creator - brings peace to man from next week onwards; Asks about recurring dream "stolen car" - car as carrier of your Soul; Teaching on how we dream and Soul mechanism; We "eaves drop" listen to communication between 2 Souls or STP and STM - can also relate to P in daily life; Brain mass records what goes on between Souls - remember as dream; STP to STM are emotion type dreams - occur all day; psycho genetic goes through RNA; Do we need physical sleep - in fact always awake - see your body resting while your Soul still working - They say but you are snoring - but my Soul is awake working - Soon many KS will be able to do same; Nothing higher than unanimous wishes of Soul of the Universal Council; Further detailed teaching on ":Reincarnation"; At physical death Soul becomes part of Soul of children or another Soul - but only part - you could say part of you reincarnates; The Soul of you - as you - impossible to reincarnate - (the fields of your Soul expands and grows and becomes part of other Souls - like plasmas and clusters of plasmas in CR; Even if you put yourself in another womb - fields of womb will dictate manifestation - never can be the same; Grandchild can have look of you - part of your fields are in him - not you; Exhaust trail of rocket expands dynamically and never returns to rocket; Death of abdicated Pope not significant - Pope himself has to elevate; With new rapid developments of T those who bought EU to setup Wellness centers - KF will hold the new systems deliver over Mobile phone lines - convert to license fees; This way no government can steal new T - dangerous for them to have this T; New MaGravs tested to work before shipped - up to 40% electricity reduction - up to 90%; Use Mg tablets to Gans in Cup 1 & 2 - try not to use Mg Chloride - use other tablets of Mg only like Mg Citrate or others - not mixed with Ca; Do not use Mg metal to make Gans - not recommended; Can use Mg Gans from KF Store - keep in sealed bottle place outside Cup 1; Brazilian KS got better using Mg Gans but took about 2 months; We are Universalist teach knowledge of U - not globalists; Peace has to be sorted emotionally by the Prophets who are the Commanders of the religion - when Master corrects his conduct - then World Peace starts.

## **Introduction to 467 KSW -**

### **Jan 20th Elevate STP of Prophets - World Peace**

January 20th, 2023 will be the turning point for peace on this planet. Some of us always wondered why peace could never come on this planet. In this KSW Mr. Keshe put it in very clear terms. Two years ago we achieved peace and all the wars were ending, but then hidden in the background the Vatican went after the gold in the Russian Orthodox Church and started the war in Ukraine. So the only way to end the wars is to go to the root of the problem, which is the belief in the religions. To elevate the religions you have to elevate the founders of the religions. Because they started, or gave birth to these ideas, and unfortunately the man himself doesn't understand the ideas himself, so he attaches his emotion to the Prophet and not to the Truth. Therefore, the next step is to elevate the Soul of the Physicality (STP) of the Prophets who started the religions. Then the current religious leaders in turn will get elevated and walk away from their position. Then the man will understand that to love his Creator he doesn't need intermediaries. He will receive the love directly from the Creator as Cosmic Rays (CR), and from this he will live a correct life of Thinking, speaking, and Acting Good. The STP and the STM will come into balance with each other. This will end the wars on this planet.

We always trusted the religious and world leaders to find peace for us. But this can never happen, because they are rooted in the problem, and it always seemed too complex to resolve. Now with the true understanding it's very simple, and as we all can understand it, the power comes from within us to make the change. It all depends on what we believe in ourselves and what we can open to. When a KS expressed a doubt, that we can only elevate the Prophets to the level we have understood. He answered, you don't know what you have inside you, what power you have in your Soul. There again we come back to the point, that through ignorance of our own self, it has lead to us accepting a kind of "powerlessness" in our lives. And I am sure if we talk about this with someone, they would say, "who do you think you are, that you are better than a prophet like Christ." It doesn't depend on other people, what they think or say. With the teachings of today a match has been lit in the dark cave of our ignorance, suddenly we see who we are. The 20th of January is our chance to act on it, and not be stopped by confusing thoughts within us. From that point we have to continue elevating their Soul like we do with the spraying of Gans's around the planet. Slowly the fields will build up into the change.

Try to read the Topic Index. For some reason this time it ended up like a very concise summary of the workshop. It's like one gem after another of truth being showered on the reader. My Soul has been dying of thirst for this kind of knowledge since childhood when I knew inside the world was not what it appears to be. But at that time there was no one to share it with. Now we are breaking through in ways we can't even imagine. "Punch Drunk" with knowledge, about how strong our Soul really is. Not just 18 "Hiroshima Bomb" level of energy - but the true love of the Creator. But remember, mostly the love we know always has a hidden condition. Come on the 20th with no conditions, no preconceived ideas about what should or should not happen. Open to give and to receive the Love of Mitra.

It's so hard for us to conceive that the Messengers or Prophets could do something wrong. But the way it was explained, that they have 2 Souls a STP with its faults like ours and a

Soul of the Prophet which is perfect. So it got mixed up and we were not mature enough to sort it out. But in the innocence of our Soul we knew inside something was wrong. We just didn't have enough knowledge or experience to trust our Soul. We left it to the others to decide for us. Today we take our power and love back. If the Messengers changed the message than of course, the religious leaders later on did the same, to create power and wealth for themselves. Mr. Keshe made it clear, that the Messengers are themselves ready for this change, otherwise we wouldn't be here doing this on the 20th.

After this balancing of the STP with the STM we'll be ready for the transmutation. When they tested the transmutation the instruments showed an energy change exactly during those moments. We are on the edge of the first physical transmutation for man. But first we have to clear this up with the STP of the Prophets.

A further powerful clarification about reincarnation was taught here. It seems our Soul also divides like a plasma and part of it can join with other Souls like our children, etc. The field combination of the person we think we are can never as a whole person reincarnate. We are dynamic fields always in motion, like the exhaust that comes out of a jet and spreads into the atmosphere, it can never go back into the jet. Even if you put your plasma in another womb it will never be the same, it can be similar, but it will manifest according to the new conditions. When I heard this the first time something shook me inside, and I sat and thought, "well who am I then?" Just millions of field combinations always interacting and changing and experiencing. Yes, but you are forgetting, the biggest part of the experience is the love you give and receive. What a relief it is not to have to be anybody. And your own happiness is watching the others blossom and knowing you are a part of it.

There's another beautiful teaching about how we dream and there are different types of interactions. One can be with a Soul that passed already. Those field interactions are impressed on the brain mass, we remember as a dream. One that we constantly do is the interaction of STP and STM as an emotion that is impressed on the brain. These experiences can effect the body by mechanism of psycho genetic. One very interesting thing to ponder is that the cholesterol crystals known as brain cells record M fields. Video and audio recording is a copy of the brain. Think about the STP as the skull around the brain interacting with the STM and a M field is being recorded on the brain mass. Suddenly you become part of the whole process of your life. Being aware of what is going on with you and your body.

For the emotional Covid see new Protocols by KF. Just use a Mg supplement tablet, but try not to use Mg- Chloride, any of the others like Mg - Citrate. Do not use Mg Metal to make the Gans. But you can buy the Mg Gans from KF Store and place the bottle outside of Cup 1 and 2 and it will transfer the fields.

Through our Souls all of us should take part on 20th of January to elevate the STP of the Prophets. Now we know the problem in Totality, and we are also part of the solution. Please everybody join together and send that pulse of love to the Prophets - we elevate together and bring equality among all people and everlasting world peace.

Thank you for listening

## Quick Index

Many of you have joined and signed up to be part of (next Friday January 20th session of what we call, interaction of the Souls. And you have been asking questions about what will happen on the 20th, what's the purpose and what are we going to do. In the first session we gave you a Christmas gift, and allowed you as the Man for the first time to connect to your Creator).

(To understand the 20th let's go over what we have been doing all these years leading up to next Fridays' session. For years now, every Sunday and other days as well, you have been spraying Gans's around your cities and putting them in the rivers and wherever. By doing this you've been adding to the energy of the planet. Gans's are literally like a Sun, so you are bringing balance to what this planet has been short of in the field strength of its creation. (The lack of energy from the planet has meant that man, has had to get the missing 20% of energy he needs by consuming packages energy from plants and other animals)).

(Likewise, over the past thousands of years, (man as a whole didn't understand how to get what he wanted and needed to survive on this planet). So man in his weakness, turned to people amongst himself who understood a little bit more, and he allowed these people to guide him. If there was a drought, then these people told him to do a "Rain Dance," or to sacrifice bodies, and then the things changed. This was the time that man started believing in statues. He felt something was there, but he didn't really know what or how, but then he accepted it as something stronger than himself and started creating statues out of stones or wood in different shapes and forms).

(In the developmental process some men started to look for more answers and they searched, and some got enlightened and saw more about life, and these we called, the "Prophets." People then chose one of these Prophets over the others to guide them, because they didn't know that the "Soul of the Prophet" is the same Soul for the different Prophets. They also didn't know that the Prophet has different Souls within him. That he has his own Soul of the Physicality (STP) of the Man. For the most part, the people were only able to understand the physicality part of what they called, the Prophet. But today we are being taught that the part that was the Soul of the Prophet, was also connected to the Knowledge of the Universe and had no fault in it. And that the STP of the man who was the Prophet, still had his own impurities within himself. The STP of the Prophet was separate from the "Soul of the Prophet." Before today, man has never understood that the Prophets had different Souls in them. The STP of the Prophet is the part that needs to be elevated).

(At the same time we are regularly giving Gans's to this planet, to elevate the physical dimension of the Soul of this planet).

On December 16, 2022, we took (160 of) you to join the Soul of (your Prophet, the one you believe as a Messenger of the Creator. As you connected together and collectively became one, then we connected you to the Soul of the Creator).

(As we discovered the faults in the structure of this planet, we started correcting it through our new understanding of the fields of the plasma. We did this by spreading the Gans's around the planet).

(Now on the 20th of January we'll take the next step, and that is to bring correction to the (STP) of those whom we call, the Messengers. (We already joined with them on the 16th by first elevating the STM and joining together as one, and then joining to the Soul of the Prophets. Now we'll complete the next part of elevating the STP of the Prophets)).

(The Prophets have two souls, one is the STM, and the other is Soul of the Prophet as a Messenger of the Creator. (It may be that Mr. Keshe is considering the STP as part of the STM, as the STP is created from the STM. Later it is said clearly, that we have to elevate the STP of the Prophets .. try to feel the essence of the meaning rather than exact detail in the words). (The Soul of the Prophet from the Creator is faultless, whereas the STP has the faults of the physical dimension). Man's responsibility today is to correct and elevate the STP of the Prophets. By doing this their followers will also get elevated, (to stop the killing) and all will become equal).

World peace is not possible by just stopping the guns and bullets, because in another few weeks, months, or years, man will go at it again. We'll find any excuse to start killing again. (With what we learned through the Cosmic Rays (CR) we can perfect the Soul of this Planet to be able to feed its citizens, so that they don't kill anymore). This process has already started.

(Now we have to correct and perfect the (STP) of the Messengers we believe in, and trusted (as our link) to the Soul of the Creator. This is one of the main reasons for the 20th of January session. It's the time for you individually to connect together as a whole, while at the same time getting in touch with the Prophet you believe in. Then together we'll elevate their STP. The Soul of the Prophet itself is perfect, it's the STP that needs to be elevated. The STP is the "Spirit" of the life of man, and it has faults that need to be corrected. When that correction is done, peace will come upon the Earth).

In a way, you become a tool to elevate the weakness, to correct and bring back the Soul of what went wrong, (and then we'll transfer the knowledge to his followers, and this will correct them. We already corrected the message of the "10 Commandments," and completed them. But we did not correct the conduct of the Messenger himself, and the killings he carried out, like beheading people who did not accept his way to the Creator).

The purpose of the 20th is (for those of you who believe in world peace and oneness of the humanity and the Creation, to come together as a Soul and elevate those Prophets whom we believed in, for them to be correct in the dimension (D) of the physicality (P)).

(The answer to your questions is that next Friday you will meet the Soul of the Prophet you believe in and together all of us collectively, from all paths of life, will one by one correct the STP of the Prophets. Last time we allowed you to elevate together and join the Soul (of the Creator). This time we allow you to elevate the STP of the one you believe in, in the D of P. Because that Soul failed to complete the cycle, in the D of P).

(When it completes itself, it will bring a permanent peace on this planet. We have (already) gone through the correction and elevation of the Soul of the planet and its citizens. But the citizens have one fault, they are believers in their Prophets who had faults in bringing the message of the Creator. Once this is corrected, then we shall see the (peace amongst) the followers of each religion. The STP of the structure of this STM, and the Soul of Creation will be perfect. And a perfect Soul will not create war).

(Peace on this planet, and for peace to be kept in the universe cannot come, unless man understands where the weakness is and then we correct it. (You'll still get enough energy) from the Cosmic Rays. (But the problem is, you are still connected through your emotion to the path you believe in and to the man who has done wrong, like executing people in the name of God, and forcing people to believe in their God).

(We stopped the animal behavior by providing the 20% of energy, but now we have to stop the animal behavior through the Soul (in relation to the path of his belief). (Because even if we stop the physicality from killing, the emotion can still force to kill), in the name of God, be it Jewish, Muslim, Christian, Zoroastrians, Buddhists, or any other way the man believes in. It's like if you repair a car, but instead of getting it perfectly fixed, you leave a tire with a hole in it. The car will still have problems).

(In the dimension of physicality you added the Gans's to correct the fields of this planet and yourself. But you only corrected it in the dimension of the Soul, now you have to correct the dimension of the emotion of the Man, where his weakness is. This is why we see animosity between the Jews, Christians, Muslims and everyone else).

(Once you understand where the whole problem is coming from, which is the weakness in the physicality that has caused the emotion of the man to falter, then you can take the next step to correct it. Then we shall see the end of wars. The war between the STM and the STP of the Man, in the dimension of accepting (only one's own Messenger of God, and not seeing the Totality). The message itself was perfect. But the Messenger had a fault in the STP).

How can you say, "I believe in Christ," when he said, "Thy shall not kill." And then you kill in the name of the religion. We told you not to kill. (Now your Soul has to elevate to understand, that the message was given in the wrong way. It was because of the weakness in understanding of the STP of the Messenger. This is what you have to correct (together on the 20th). Then you'll understand and the true peace will come with the STP and the STM in the dimension of fields of the Universe. There is no difference in the fields, and they become one, and then you find the peace).

The man who brought the message of, "thy shall not kill," killed more than any other creature of his time, and during the duration of his existence in D of P on this planet. So what was the message for?

The man who says, peace (only in words, and then goes out and creates war by killing those who refuse to believe in him. (He could not put into practice what he wrote on the paper). Now you understand, that to complete the process of peace, cannot come just by guns, it has to come by the emotion of the Man, in the belief and understanding of where it went wrong, and left the path it started on).

(When you come on Friday January 20th, come fully armed to understand the responsibility you have accepted, and your wish to be part of it. It's a collective (joining of Souls) to elevate the STP of the man you believed in as a Prophet, and his work in showing you the path to the Creator).

(Now you understand what we have explained to you. Don't be surprised that the STM at this moment of time, in a collective awareness has become so much stronger in elevation and in understanding, that now it has the power to correct the STP of the man you believed in from childhood. From the first (days) you believed in his Message).

(Now you understand how perfect the present Soul of those who believe in the truth of understanding has become. And the work has begun. You believe in it, because you actually already did it on the 16th. You all saw that you have the power to become one Soul. When we look at the graphs of when the STM joined with the Soul of the Prophets, we see vibrations, we see inconsistencies. Because if He was one, and if the STP of the Prophets were correct, we should have not seen that on the graph. It would have become a straight line from that point, but it didn't. So it means that the Soul of the Messengers have a fault in the structure of the STP).

(The graphs clearly show that you as Man joined together, and when you joined the Soul of the Prophets, (a fault appeared on the graphs) in the dimension of the STP. Then you met the Creator and line became flat and all became one. Now, do you want to be the ones who are going to be part of remedying the (STP)?)

(We can stop the war started by nations and we did that. But then we see the religions in the background, in the name of the Creator through the faults of the physicality of their Messenger, start creating new wars through religion. For example, we ended the wars two years ago. We saw no more wars, and all wars were coming to an end. But then again, through religion we saw the flaring up of the Ukrainian war. Because the underlying cause was not fixed. At that time, we could not tell you about what we are teaching you today. But we kept on saying, that this Ukrainian war is a war of religions). It's within a religion, it's within the "72 ships of Name of Christ," bless his name. In the Soul of the Creator.

Man will not have peace on this planet until he elevates the physical soul of the Messengers. They brought the message of peace, but then they destroyed it themselves.

Salaam means, "peace on you." But how come the Islamic religion beheads? There is a fault in the Messenger, not the message. Thy shall not kill, and yet we see most of the wars are financed by Vatican.

(Once you elevate the STP of the Messenger, through the belief and connection to his (followers) it corrects the Pope, Ayatollah Khamenei and the rest of them. Then we will see a lasting peace that the man has been praying for).

You cannot stop a fire, (if there is a little fire (smoldering) underneath somewhere in the name of religion. That smoldering fire is the fault that the Messenger had in himself, and in the structure of how he created his message. How can you say salaam, "peace on you," and then behead someone who doesn't believe in you, or because I don't get what I want?)

Now, you have your answer for the 20th. Join as many races, colors, religions and paths of belief together to elevate the STP of the Prophet you believe in. (Even those who say they are Atheist, they still believe, because they came from the bloodline of the people who believed in them).

Now you understand what is about to happen on the 20th. You will meet with the Soul of those who you believe in. (It's for you to elevate them). Give freely to them, that the STP becomes the same as the Soul of the Message, and the Messenger, and the Creator. That we will see lasting peace, not only on this planet. Then the man will not be fooled by any magician across the U.

(If you yourself understand the truth, then you don't need to accept any more Messengers. Those of you who understand, will in the future through your Soul), or subdivisions of your Souls, become the Messengers in another part of the universe. The conduct, the message, the Messenger, and the Soul of Creator shall all be one.

Peace on this planet will not come unless the essence of the foundation of the Soul of the Messengers who brought the message of the Creator is corrected and elevated. (By elevating them, there will no longer be a conflict in the message, between the STP of the Messenger and the Soul of the Creator. Then through the connection of the path of belief, every plasma will be perfected).

Ayatollahs will put their turbans on the floor. Vatican will shut itself, because they got the message through their Soul. We'll see the end of war, we'll see peace amongst the dimensions of physicality, STP, and the STM on this planet and beyond. This is the only way man will find peace with himself, (by correcting the paths of the belief to his Creator).

(Now, how many of you would like to meet with your Messenger and explain to him a higher truth. That he may have brought you to believe in the Creator, but now you are here to elevate (his STP) for him to live a correct life. You have to explain to him where he went wrong. (We do this at the level of the Soul so we don't become another one for him to kill). (We come to elevate the Soul for you to see what you don't want to see)).

The 20th of January, 2023 is the (point where those of you who are chosen by your Soul will come forward in the dimension of the Soul, to see your own Messenger in the dimension of (their) Soul. Some of you might even see them face to face in the D of P, or feel the D of the P).

(I promised you that I would take you to see your Christ. Next Friday you can try. See if the message and the Messenger need elevation. The same for those who believe in the name of Mohammad, Moses, or anybody else).

The level of understanding and elevation of STM of today, has reached above the level of the Soul of the Prophet of the past. Because now you know the truth and there is nothing to be hidden. There are no Messengers in-between. Not even me. We are teachers, not Messengers.

(World peace on this planet, in the world of the man will not be achieved as long as man creates divisions in the paths (to the Creator). We saw this when you all joined your Soul together and became one on 16th of December. It was the first time you all became one. There was no religion, (there were just) your Souls. Even the Souls of your Messengers became part of yours. We didn't see and separate lines for the Soul of Christ, or Mohammad, neither for Rick, or John. It was all one line. The 4 (different) systems told us the same).

Then you understand how important the next coming weeks and months in the cycle of the knowledge will be. When your STP and the STM become one, then you can transmute. That's why I said, the world leaders will walk away, because they cannot bring the STP, which has done so much wrong, to the STM, to be equal to the Soul of Creator. Now you understand.

I have given you the teaching, it's for you to understand the message, and become the Messengers of your own Soul, and nobody else's. Now, it's very clear where we are heading for. World peace will not come through financial stability, nor through just putting the guns down. The world peace will come when the STP and the STM become one.

The STP of those who you believe in has never (been connected to their own Soul, as a Soul of a Messenger. This is the mayhem we have in the name of the religions. One religion closes on Friday, one on Saturday, and another on Sunday ringing the bells. If we get another four or five Messengers, the whole week will be closed). How ridiculous. Now you understand.

(The progressive development and elevation of the STM has led him to understand that in Soul, he is the same as the Creator. As he could not be any different, "I made man in the image of myself." I've made man out of My own Soul. How can it be any other way?)

(Many of you will try to understand what is (happening). Come with me on Friday the 20th of January, 2023, and meet the Soul of your Messenger. See, if you have reached the elevation of your own Soul, that you can elevate the STP of the man you believe in as a Prophet. Then, do you need Messengers, when you can elevate the Soul of your own Messenger?) But he forgot to tell me not to kill. Because this way, he wouldn't have become rich, and he wouldn't have become a king, be it King David, or a king in the false desert of Saudi Arabia.

(Maybe for the first time you can comprehend why we come here as Teachers to enlighten others. We teach the path to enlightenment for every Soul, and we don't hide things so that only a few in the churches, mosques, and temples, can abuse the others). (We share equally across for everyone). Maybe for the first time you understand the purpose of these teachings. We seek the knowledge of peace, love, which is the essence of the Creation and the Creator.

Maybe, now you understand why you are here. For you and the future generations to listen to these teachings and become wise, so you are not fooled by magicians of the universe. No one can pull a rabbit out of the hat, because you will know, that he put it in there before you could notice.

Maybe it's time for the STM to become educated in the Soul of his own existence. (It's like the feeling you get when as a PhD, or engineer, you go back to visit your primary school. Then you sit and teach your own teacher. You explain the extension of the knowledge, that he or she didn't know before, and that elevates his Soul to understand as much as you. This is your job next Friday, to go back to your teachers, to your Messengers, and elevate their STP to understand, so that they can not steal from you).

This is why the whole structure of this planet is in the mayhem it is in today. You cannot do one without the other. We silenced the guns, and all of you brought the peace. (But now the religions have started wars again in the name of Ukrainian Catholic Church and the Orthodox Church of Russia. The Israelis opened an office with the Saudis and with the Emirates. The others do with the others, but the Christians are at each other's throats in the name of Ukrainian war. (Because the Commandments were stolen from the soul in the essence of the Messenger. We have opened the book of wisdom of peace for the man. How much wiser you are to be part of it and bring that change).

(When you sit in front of your elementary school teacher, you say, this is what I was taught here in this school. And now this is what I learned in the university. It's a higher knowledge. Today we, with what we learned in the plasma science we can go to the Soul of the Christ, the Soul of Mohammad, the Soul of Moses, the Soul of Buddha, and whoever you believe in, and we explain to them what needs to be elevated. You become the Messengers of your own Messengers, through the dimension of the Soul, and you teach the STP).

Maybe by giving through your Soul, the wrongs done by them will be corrected and elevated, and man will find the true essence of peace in 2023. Then you become the true Messengers, the true passengers of the universe.

(Maybe through today's teaching, the message is complete. Maybe you understood for the first time why you're here. And that this is another piece of the jigsaw you found, which was missing. Maybe the world religious leaders who believed in their Messengers, but in a false way, will be elevated by the Soul of their own Messenger. Then they will walk away from religion).

The only "religion" is the path to the Creator, and no other. (You make up the different names for it, but the truth is, it's all one. The teaching are becoming very fast, many of you will become "punch drunk" with the understanding of the strength of your own Soul. "I didn't know I could do that?" I can elevate the STP of the Christ, Moses, or Mohammad). No Ayatollah can put a ("?? Farsi word ") on me, as they put it on themselves.

It's the end of the religions, (because you yourself are now able to correct your religion, that the man will become one between the STP, STM and the Creator. The graph from the 16th shows you that when the Souls of 160 of you plus your Prophets came together you made a collective Soul).

Many of you were in that meeting and you participated through your Soul, (because even with all the noise of physicality going on in the background you still became one line. Can any of you show me a dot in the line that is your Soul? No, because you all became one. (We have reached) the end of conflict on this planet and beyond. Now the man has to teach this to the rest of the universe. Through his true understanding he knows what has gone wrong and how to correct it. The first man that goes through the Cosmic Rays will not need to kill anymore). In a very short time we'll teach you how. Some of you have already seen it).

(The other thing is to elevate the STP of your Prophet, which has done so much wrong. (Moses came down from the mountain with a "balance broken" on the way), to benefit himself, instead of bringing what it was, "Thy shall not kill, thy shall not steal." He went to kill and steal from every tribe in Palestine, in the name of whatever. What happens to the message, when the Messenger behaves exactly opposite, to the message he himself brought?

Touch me, and I'll take your Soul to be elevated, that you'll forget even you can touch.

Now you understand, that mankind is ready for the true peace. (When you elevate and take from the rays of the universe, you will not need to kill physically, because you will have the energy you need. But if the ray of the emotion has a conflict, due to the Messenger of the path of your belief, then first you have to correct that), and man will find peace on this planet and beyond. Friday, the 20th of January is the time for that cycle.

Come and meet the Soul of the Christ. (When many of you came to Linz, you touched and felt, and (were) with him. So, you know we are not lying. Come and elevate the STP of those Prophets you believe in. Because they failed to deliver (the true) message of what was given to them, instead in the dimension of physicality they brought benefit only to themselves and forgot the true message which came with it).

(When you make a mistake in school the teachers draw a red line on the page and tell what the mistake is. Today, I have drawn that red line for you, and have shown you what mistakes were made. This is the reason the man will not find peace until it is corrected. Now it is your job to correct it at the source. When you do, the waters down below, will not be poisoned anymore. Now you understand what you have to do).

(Come and join us, that together we become One Soul and bring the change. It will not happen by teaching in the churches, mosques, and synagogues. But only by elevating the STP of those who were the cause of creating these different places of worship, what you call, the "house of God." It does not matter what you called it, it's the path to the Creator).

I hope you understood what the message of today is. And I hope you're strong enough to face your Messengers. This is the fulfillment of what I promised, when I said, I'll bring you to see the Soul of Christ. Next Friday is that time. (But it is for you to be there).

(You have to understand, that the Soul of the Messenger himself had not been elevated, even though he brought the message. (The Messenger was only a postman carrying a letter, but he opened it and changed it). It's like a lover writing to his beloved and putting it in an envelope. But then the postman becomes a criminal, and instead of delivering the "letter of love", he changes it to suit himself and gets what he wants. This is what happened with the Prophets of the past. The message of the love of the Creator for His created has not changed. It was the postman who tampered with the message. Nevertheless, the love between the two is true and unbreakable. It does not matter what criminal carried the envelope and changed the message). (Now we all have the true knowledge and the chance to correct it).

I hope you understand, and I hope you're there to be strong enough to understand what is to be done next week. You wanted to meet the Soul of Christ? Join us next week and see if you have elevated your own Soul, that it can become the elevator of other Souls, and their Souls of Physicality's.

Now we know the truth, "I made man in the image of Myself." It doesn't matter if on the way, (somebody threw a stone and thought they could change the image, the truth is they cannot). I hope you understood, and received the message from your Soul, and not from anybody else).

Q: (About elevating the Soul of the Messengers, I understand like in the case of Moses, the dichotomy between the message he brought and what he did in his life like destroying the Tablets and then his actions that followed. But with the other Messengers, maybe I don't know enough about their lifestyle, or their lives. But I always attributed the actions of enforcing a religion, or following a certain message, to the followers themselves. The leadership came afterwards and took it upon themselves to enforce a certain way). And then the killing followed to enforce a certain path of belief. I kind of didn't and don't understand, that it was the fault of the Messengers, rather than the fault of their followers.

K- The Messengers set the example (and those close to them who followed afterwards, (made up the) path and the rest of the things. Because they did the same (as the Messenger).

Q: So the Messengers themselves had an issue with them being the sole arbitrary of truth?

K- In a way. Let me explain to you in (another) way so you'll understand. The Zoroastrians of today try to live the path of Zoroaster, "Think good, Speak good, and Act good." (They are trying to live that kind of life, but it doesn't mean they're perfect. They still have their own problems, and they need elevation).

When you look at Islam, (you see that Muhammad (spread and) pushed the religion by killing. If you didn't say the one sentence of (allegiance), you were beheaded. But he did tell his uncles and cousin not to touch the Iranian Empire, because they already believe in God. Then the minute he died, they went for Iran. How (come he did not do, but we can do?))

We see the same thing in the Jewish cycle today. And the same thing came through Christ. (The Christians call it the Old and the New Testaments. What would have happened if Christ would not have been killed and would have gone through his natural life cycle of about 60 to 70 years? Would we have seen the end of wars, like what he was promising, or a new cycle of killing and everything else, which his followers did for their own benefit).

(Now, with what we are doing here in the KF, there are no followers. You don't need to follow anybody except yourself. When you understand this, you understand the whole essence of elevation of the Soul).

When I look at it, it's a very strange combination. (Coming from the blood of Persia, and having the belief in Mitra, Zoroaster, and in the "Three Perfections" (Think - Speak - Act Good ??). This is in the blood. Then the mixture of understanding the ethos of the Moses and their flaws, and Muhammad and his flaws. But then you marry into the world of Christianity, and you really stand in the middle of it all). (Mr. Keshe is talking about his own background and having the perceptions of how the situation with the religions really is).

(Ask yourself this, what are all these mayhems amongst the religions about? I carry the true essence within me, which is the "Three Truths" about life in the universe. When you Think - Speak and Act Good, then you have no time to create mayhem. You have no time to contemplate on making wars. The result that comes out of it, is only loving, which is giving).

(When you reach the essence of Creation, then you see the flaws in all the religions. But believing in Zoroaster and Mitra is not a religion, it's the essence (of life), and emotion, and understanding. It's to understand the truth about the Creator, which is to love and give. Now you see how they have used it to create resources for themselves, (to gather wealth and power) to satisfy the physical soul, and that is something different. That's when we all become different (in our separate beliefs)).

(Genetic changes in physicality does not make one superior. It doesn't matter which (mutation, from the) black, to white, yellow, or whatever. But enforcing it, becomes a criminal act, and then it becomes wrong. Then it becomes slavery of the STM. You understand it's wrong to create a separation and division because of the color of the skin. (Then it is also wrong to create separation based on religion)).

(You say, (it's not the Messenger's fault), but the Messenger is the one who tampered with the message. He opened the envelope and took some words out, and he put himself in there. He made himself (to be necessary for the connection) between the two lovers, (the Creator and His creation). (When you want to tell your Creator you love Him, you don't need to first give your love to the postman. (It's like the Messenger said, love me first, and then I will give that love to the Creator). (It seems that Mr. Keshe is showing us, that the STP of the Messenger was lacking love, and he put himself in-between the man and the Creator. Now we are going to elevate the STP of the Messenger, that all the love will go to the Creator and the circulation of the love will not be blocked anymore).

(The STP of the Messengers tampered with the message, and they didn't deliver the balance to the Creator. That's all it. (Now it's for you to open the letter and correct the words, so that (your message of love) goes to your lover, the Creator)).

Q: (I think I understand, and I accept that the followers get their behavior from imitating the Messenger. So next Friday when we elevate the Souls of the Messengers, is it that we can only give, what we ourselves have?)

K- You do not know what you can give. When it comes to the level of the Soul, you do not know what you have till you get there and find out.

Let me tell you one thing very clearly. (Come in the true essence of your Soul and tell your Messenger that you have a message from the Creator. Then you can ask him, why did you steal the (24) Commandments? Why did you tell us not to kill, when you killed more than anybody else?) (We will be able to see this physically on the graphs of our instruments).

(When Mr. Keshe was in England during the 1970's on Christmas day the English had to make the Christmas dinner and everything absolutely ready 2:30 in the afternoon because the Queen spoke at 3 PM to her "subjects." And that is the way she addressed the people, as "my subjects." He used to laugh, and say, "I come from the kingdom of Iran, we have a king or a Shah. I had never heard such a bullshit. I am a subject?" The people accepted that she is somehow perfect. And now we see the mayhem in that kingdom. We accepted the false and that position to become subjects. Where in fact we're as much king or a queen as they are. Maybe you're even better than they are, and you can teach them how to be a human, how to be correct, how to be a lover. There is no fault in you, so how can you be any lower than them? You have understood more about love than the Queen did. How can you be a subject when you know more than your ruler? It's us who accepted that position).

We are no one's subject, and we are all equal. But now we know a little bit more, and we share that knowledge. We can correct this situation by teaching and elevating (the Soul). It has come to the time for elevating the STP. (Do we need to elevate King Charles?)

There is something wrong in man by him accepting that somebody else is higher than him. That brought the kingship and it brings abuse. When Moses came off the mountain he thought he's better than the others, just because he received some messages to give. That's where the problem came in. The same happened with Muhammad, the same happened with Christ in different ways. The same happened with the Buddha, it doesn't matter how the Buddhist (have written it). Look at the details of his life. (Please note, that Buddha's cousin created a schism, because Buddha was himself not following the rules, he made for everybody else).

Q: Is it up to the Soul of the Messenger to accept the elevation?

K- They are ready to accept, otherwise we would not be here. It's not accepting it. (It's elevating to be at that level, to become part of. "Accepting" is the wrong word.

Q: So, they just wish to become part of what we are part of as well?

K- Yes. What was missed (from the message, and what got abused. If you look at it, when Muhammad received the message, they kept on talking about "fire." We know what that "fire" is, because now you can create it through the your interaction of your Souls. As I explained to you many times, (when you bring both your STP and STM through your hands you'll see a light. That's what they saw. But that light of the Soul, was the Soul of the Creator). Then they explained it as a "burning bush." They couldn't say, "I have a light," because there was no explanation for this kind of light at that time. Now scientifically you can understand, because when 2 plasmas interact with each other they create light. This is how daylight is created).

(When they saw the light, that was when the STP, the emotion came and took control and became the hand of killing. That's all it is. So punishing the Soul of Moses for the wrongs he did will not solve the problem. Then we would become another bunch of hypocrites.

Instead, we elevate him to find out what he's done wrong, then he himself puts it right through the fields, which he created, (in the first place). Then his own followers will (also correct it).

(If I start fighting with Vatican, then I become another "antichrist," and the rest of it. When the Pope gets elevated, then he becomes a "true Christian," through the Soul of the Christ, (which you elevated), then he puts his hat down and he walks away. It won't happen in the day after (the elevation). You have to understand, that (you need to keep adding the energy of the elevation). You keep feeding it, the way you have been feeding the Soul of the Planet by spraying Gans's for the past years. Now you will be feeding the Soul of the Messengers, because they're weak (in fields). The STP of the Prophets are so weak, they are even weaker than a small child. That's why they committed the crimes, and broke their own rules, and didn't follow their own messages. You have to keep on strengthening their STP. You have to feed it until it becomes strong enough, to become the STP and STM and ?? ??.)

You will understand what is to come. (In one way or another this had to be sorted out, if you as a human race are looking for everlasting peace. Because the emotional side that comes through the path of belief will not allow man to have peace, if it's not sorted. (Because one wheel of the car is punctured)).

(I said to diplomats very recently, that you will not sort out the situation in Iran by revolutions, or any other things. You have to go into the mosques through the Soul of the religious leaders, that they confess their own wrong doings, and that the people do not need to go to the mosques. Then you have the revolution solved. But the problem is, that this will not only effect the Iranian nation, it will also effect the Vatican, Jerusalem, and even the Buddhist temples. Because they all will become the same). (Because in the background they are all on the same level of understanding).

(In one way or another, all our ancestors (on this planet) believed in different statutes. It doesn't matter where we came from. (First they believed in fire, and then other things, or whatever else. And then they came to believe in religion. But with religion they could meddle with things, (or control things) in a way that nobody could see). (They could control the ideas behind it).

(Now the KS and the people who come to be enlighten with Knowledge of Creation, don't need a statue or the fire. In the same way, now you don't need a religion. Because you have found the elevation of your Soul through the path to the Creator yourself. (But be careful that you do not yourself fall down, and then start calling yourself another Prophet, because you impress the people you will teach). You still have to stay humble. That's why we always call ourselves, Knowledge Seekers, because even if you understood (a few things), you still continue to seek the Knowledge of the Creation), which is never ending.

(When you understand the whole cycle of Creation, then we can play. If you want to travel, going to this or that planet, or whatever else. Has God stop traveling because he is

the Source. He is expanding His universes and Unicoses. Because (life is) there to create more, and enjoy more of living. You don't sit in the corner just because we gave you the food and energy, and say, "I'm not doing anything, because I have everything."

Now the process has started, and there is no way, nor anybody who can stop it).

Don't come with preconceived idea on Friday January 20th. Come with the understanding of the truth about yourself. That's all you need to do.

Q: The topic is, "Background Fear Gone since December 16, 2022." After many years of intense spiritual practice, I came to know that there is a background sense of fear that is already in the environment, and one feels it the first thing when they wake up in the morning. But usually we cover it up with coffee or distraction. Our personal fear and anxiety is something different that comes later. I have confirmed this with other people as well. But the majority of the people are not aware of this. I noticed that since December 16, 2022 that the "background fear" in the environment of the Earth is gone. But I still can have personal anxiety. Can Mr. Keshe share any knowledge about this. Has there been a shift at a planetary level away from fear?

K- .. Once a collective soul comes together, it can bring that change.

(Some groups that were measuring the fields, saw a change on the 16th, but there was no reason for it. Was it because of what the KF was doing on 16th? We can find any excuses to connect one to another. Once a collective soul comes together, it can bring that change).

On Tuesday of this week, we made a second test to transmute one of the KS from one point on the Earth to another. (We wanted to have measurements in our systems, so it's not just a talk. Scientifically we were able to see on our graphs the time when the transmutation started and stopped. Physically we have that data. It's like the same graph as what you see here on the 16th. It shows that from the second, that the decision was made to move the physical body from A to B, we suddenly saw a change in the energy level).

Maybe next Tuesday or Wednesday, we'll do the first transmutation. (In essence, the first transmutation of human being has started).

(Because we see where there are weaknesses. Maybe next week we'll see other bits we need to fulfill. And graphically, the way you saw the graph, and all of you became in line with the Creator on the 16<sup>th</sup>, now we have the same in transmutation. But to be able to transmute we have to reach equality in the strength between the STP and the STM. The changes in the graph only happened exactly during the time of the transmutation test).

(In that 30 seconds or so of transmutation), what happen from one point to the other? Would the STM and STP become one, and perfect with the Soul of the Creator? Would you come out on the other end with defects? (If you went with one leg missing, would it

come to you. Or if you had a cancer, would it be gone? We are not here to test these things). We are here to show man can travel in the dimension of the physical life, in the dimension of the Soul, and in the dimension of Cosmic Rays.

What will be the consequences of the transmutation? Would you come back with more cancer, or two legs missing? (Does it depend on your preconceived ideas before you went in? Maybe you feel inside, "When I manifest in other places I don't want to have two legs." Because then they say, "oh, when I traveled, I lost one on the way." Or you comeback and nobody knows). I'm humble enough to walk away.

(Our volunteer took his passport with him, when we did the first transmutation test this week. When we reach to the point of transmutation we have to ask, could Christ or Muhammad do such a thing? If they could do it, why didn't they show it? Then it shows that the STM has reached more balance, than its own Messengers. This then brings the end of the religions). (Because now we have gone beyond what the religions could teach us).

But don't become arrogant with what you have achieved. Instead, become humble in what you have received, the elevation of the Soul and understanding. It was very interesting to scientifically watch the transmutation.

(The time gap of the transmutation is very clear for us. We know how many seconds we have (for it to occur). You may ask, how do you know this? It's very simple. I'm a nuclear physicist and a scientist in the dimension of the man's understanding).

(At the point of death the body of the man releases an energy equal to 18 plus "Hiroshima bombs." When the body transmutes that plasma energy inside itself has to be contained in the dimension of physicality. The energy of the Soul in a plasma state must be at a strength of over 18 "Hiroshima bombs." )

If one Hiroshima bomb can create so much energy release, then 18 of them in motion has to create an (even greater) effect. Then of course, if you have the right systems you can detect it).

(On December 16th 160 Souls, or let's say 150 Souls, to make it easier to calculate. That would give you 2,700 units of let's call it, "Hiroshima Bomb" energy, which was brought into motion on this planet. (A KS from those organizations that detect these kind of things asked us what happened on the 16th of December?) Nothing happened, but yet they detected something. Yes, 2,700 "Hiroshima Bomb" energies were on the move going to the Creator. Now you understand. KF is a scientific organization. We don't go by mysteries and guesses. We work by scientific data. We create systems to show the science of Creation).

How many of you will turn up on 20th to see the Soul of the Christ, that's your problem, not mine. (It for you to see if you are bigger than him, that you can guide him, so that through him we can bring peace to the planet. It's your responsibility to be there, if your

Soul carries a strength that matches his Soul, then you can elevate him. Through him the Vatican will be able to find an end to itself). Then we'll find peace in Ukraine. Man will find peace when the religions come to one thing - " think good, speak good and act good." It's very simple. Now you understand.

Would you like to be there, (so that if you are carrying part of one of the strength levels that was missing in one of the Prophets you believe in, you can elevate him. If you can match it up with their Soul, and thereby elevate their STP, then through their fields (their religions can be elevated too). Remember what Einstein said, when one atom changes the other ones change too. Through the elevation of Soul of the Christ, you will change the Vatican. Through the elevation of the Soul of Muhammad, you'll end all this rubbish we have in the name of Ayatollahs, Imams, and the rest of it).

Then nobody will be able to give you a "death sentence" for meeting the Soul of your Prophet. You can see him when you are asleep, but if you talk about it (during the waking state) it's a criminal offense. Who says? A criminal, a thieving postman calling himself an Ayatollah.

To change the man you have to go to the root of the essence of (the real) problem, and that's where it sits. Then, do you see anybody higher than yourselves, that you become their "subjects"? Or by your own scrutiny, and they have failed?

(When the man understands that all Souls and men are equal, would there be any kings? Would the man flatten, burn, and destroy anything that is called, a castle, palace and the like? That way nobody in the future might think about becoming or creating another dimension of these kind of rulers. Not even a dog, let alone another man? It's time to understand and move on).

Q: I was present on the 16th of December. Whenever a person moves from one point to another on this planet or in the U through transmutation will their physicality be different at the point of arrival than it was when they departed? Would a person with implants, transplants and other disabilities recreate the lost organs or whatever upon arrival at the destination?

K- Do you need it? (If at the other position in the U you needed 20 legs, but at departure you have 1 leg missing, would you only have 19 legs upon arrival? (It's more about what you need at the destination, rather than what you had when you left).

(Why should a sick man see salvation in transmutation? If you have perfect understanding between the STP and the STM, a man should never get sick. (If he does he can rejuvenate himself through the (fields of) the U available to him). Would you even need a kidney in the U, because you will be releasing the fields you don't need to the U. Isn't that the job of the kidney to get rid of excess energy in the body? Suddenly there has been a lot of interest in "Med Beds" from KF. Sorry, we're not a hotel with beds).

(The sickness in the man comes from him not understanding, that the STP and the STM has to be equal and in harmony. Then, do we need these other things? (As far as manifestation goes, it depends on the conditions of the fields and the Inertia, and emotion as to how you will manifest yourself there).)

(In the tests we did in Linz, when people told us they appeared as a "half fish," we accepted it. But what is interesting is, that they didn't go anywhere until we told them, "okay, now you can travel." It means the Soul goes through the limitation of no limits. I always wanted to be a mermaid, now I see myself as a mermaid. Those of you who were there know exactly how you felt. Maybe later you'll understand what happened to you in the machine. We never laughed at you and we encouraged you to tell us more, because we wanted to see what we missed from your journey. What we haven't understood, and how we could fix it, so that everybody understands. We also wanted to perfect our machines and elevate the science).

(Those of you who are true Knowledge Seekers, when you come here on Friday to gain knowledge for the elevation of your Souls, most probably some of you will even feel that you have elevated the Soul of your Prophets. (It's because they needed it. It's like when you are thirsty, and somebody brings you the water that satisfies your thirst. The STP of that Prophet needs the strength field, or that "cup of the water," which you carry as your Soul, for (their elevation)).

None of you know your position. Some of you who come to elevate the Soul of the Christ, will end up touching Muhammad, because that's what was needed. (In that particular field strength, the Christ was perfect, he had it already. Or maybe somebody else amongst you already gave the strength to the Prophet and he was filled and didn't need it, but one of the other Prophets need it).

You come as a Christian or a Jew (and you end up feeding Muhammad. Or you come as a Muslim and you feed Moses. None of you know (what will happen). This is the beauty of what's going to come up next week. (Because you all will come together as a collective (source of fields) that will satisfy any thirst).

You might in that process find the elevation of your own Soul. Because the more you give, the more you receive. Many of you have been reporting a lot of things happening to you since the 16th, (like physical and emotional things that you didn't realize before). The KF is a delivery service of the STM to the Soul of the Creator, and nothing else. We are just a "DHL" with the knowledge and the machinery. It's you who has the package, and it's you who is going to deliver that package. We just deliver the environment, and the transmutation and the ?? roads.

If anybody claims any more or less, then you can call them another fake Prophet. "I am the Messiah," but the Messiah of my own Soul, to find its path to the Creator. No more and no less. I still live in a physical dimension.

Q: Was the Soul of the Christ who lived with Jesus, was he together with him his entire life, or only during the last days of his life?

K- Ask him when you meet him. (That way there will be no one in-between to play the "Chinese whisperer." But when you get the message, don't mix it with your (own stuff), deliver it exactly as you received it).

(On the 20th you will only get part of (the ?? message), it's not the whole lot of it. The other part will come as surprise, when the time is right for it. That you (yourself) become the Messengers. (We are not going to create something else for you to believe in)). (In other words, we don't want you to substitute what you believe in now, for what you will experience on the 20th. Rather we want you to find the essence within yourself, then you can become a Messenger).

(Scientifically, I will be able to see on our systems when the STP, and the Soul of the Prophet has matched and becomes elevated. We'll monitor everything during that session. (Maybe I will ask you, "can all of you go back to Muhammad, he needs more help." And I wonder how many of you as Christians and Jews will do that. Because then you are not a Jew, nor a Christian, you are another "Soul of the Creator." Then (we don't need) all these fake names. It's just another Soul in need).

It'll be very interesting how many of you walk away on Friday without (a religion), but instead you believe in your Creator, and bring the change which is needed, which brings peace to man from next week onwards.

Q: We asked you a few weeks ago about a recurring dream. Someone stole the family car, you told me to go back to my childhood and find an event that could be related to these dreams. The only thing that occurs to me is the passing of our dear papa so suddenly from a sudden illness. The question is, do our souls not accept his death and not accept the way he died, or was removed from the family nucleus? If any soul interfered in what happened to our dad we ask the Creator of the universe to lead these souls on a path of love and light, so that they understand that the path of light is the way to go. Thank you Mr. Keshe for giving us hope for better days.

K- We don't give you hope. (It's you who says that. You have to give hope to yourself, or rather the truth). About your dream, was it the car or was it the grandpa? What do you see in the car as a carrier of your Soul? What is your interpretation?

(Remember what I said about when you are dreaming. It's actually you listening in-between your Soul and the Soul of another. When you speak to your grandpa who died years ago, you're the one in-between listening to the conversation. But these two "people" are really two Souls talking to each other. Or (a part of your dream can be a part of your physicality, which relates to you in daily life)).

(The reason I haven't touched on this level of teaching, is because it can create more confusion. (I mean) the way you are an intermediary between the Souls ... ) < audio break ... >

(Mr. Keshe draws 2 Souls, the one on the left is the deceased Grandpa, so there is no line around it representing the STP, because he is dead. Where the one on the right side is you, and has a STP drawn around it. And then he draws 2 brain lobes or brain masses, also only on the right side. When you remember a dream about your Grandpa your STM communicates with his Soul and leaves an imprint from the interactions on your brain mass, which is in-between. This is what you remember as a dream). (This means that the brain cells are capable of recording M fields).

(Another type of dream occurs when the STP and the STM interact with each other. This type of dream has emotion. Most of these types of dreams are emotion. It actually happens 24 hours a day, as does this (??). (These emotions) will effect your physicality. (This is what we call, "psycho genetic," and this can also effecting the body. But (in that case it goes through the process of RNA). (Your dream and the STP interactions with the brain emotionally), has an immediate reaction in the physical dimension of the man).

(The way you dream has a very clear position, (between) what you call emotion, and what you call a dream, but a dream sometimes carries the emotion, because it's at that field strength of the STP. When you understand this, then you can clearly decipher it).

(Do you actually need physical sleep, when in fact, you're always awake. You see your body taking a physical rest, while you're still awake sorting out everything between the (Soul and the brain) and between (other Souls if you are in communication with them)).

(This is the kind of life I am living nowadays. I see the physicality asleep, but the brain is working, solving problems and doing things. People tell me, you're snoring, you fell asleep. I say, I know, but I'm awake and I'm working. (Just because the body goes to sleep,) doesn't mean that I go to sleep. Sooner or later many of you Knowledge Seekers will reach this point, where there will be no difference between the STM, and physicality can rest. It's like when you go for a walk with the wife, she says, she is tired and wants to sit down. And then she joins you later on).

(This is part of my life, where the physicality takes a rest and starts snoring. The people think I am sleeping, but I am not, I am still working. (We don't understand when the physicality is resting. So we have to understand more about our own life, our own creation, and our own cycle. It's up to us to understand).

A U Council member said that daily at 21:00 hours the Universal Council unifies their souls to raise the Soul of the prophets, governors, scientists, doctors, military, journalists and Knowledge Seekers. Can we take one minute right now to do this?

K- Is that a personal request, or is it from Universal Council? If it is personal I will say, no. But if it's a request from the Universal Council, we abide by the law. Which one is it?

R: She says, it's Universal Council.

K- So we abide by their decision.

<< One Minute of Silence >>

In the cycle of man on this planet there is nothing higher than the wishes of the unanimous Soul of the Universal Council. If the Soul of the Universal Council in unity wishes for something, then it becomes the command of the Soul of Humanity, and beyond. Sooner or later, mankind comes to understand this.

Q: There was a question about reincarnation in the last teaching of 2022. You explained, that this does not exist in the way we imagine, that the memories we have of the distant past are reflections of the experiences of the ancestors of our lineage. I still have doubts, and if it is possible, I would like you to help us understand.

(You taught us that the STM is created at conception, and (takes birth) or is freed at physical death, and that it cannot return to the womb and be born again as a baby, (as in what we call, reincarnation). When the STM wants to assume new positions after being released from physicality, does it have to use the process of transmutation? And that it manifests itself in other places according to the Inertia of that environment? Is this how a Soul could return to interact with other Souls (on Earth)?

K- (There is a very clear distinction you have to understand (about the Soul). At the point of physical death, part of your Soul becomes part of the Soul of your children, or another Soul. So, part of you is "reincarnated," is reborn, but only a part, not as the totality of you. (It's impossible for you to reincarnate as you in totality)).

(The idea that you as "Mr. John" with blond hair and blue eyes died, and is reincarnated somewhere as the package of "Mr. John" with the memories etc, does not exist. It cannot happen. But, the way you say, "my grandson has my eyes," you passed part of yourself to be reincarnated as part of him). For you to be born in the future as one of your great grandchildren, is impossible. So it all depends on what you call, "reincarnation." We are all reincarnated from part of the fields of our great grandparents, and (all the ancestors). Now we understand how).

Reincarnation the way you talk about it, is impossible. Because even if you position yourself in another womb to be born, the fields of that womb will dictate your manifestation. (Therefore, you cannot be manifested exactly the same, or the same Soul. According to the science of Creation, it's impossible).

(So, whether you believe in reincarnation or not, that's up to you. You can believe in a horse having 20 tails and two heads if you want. But scientifically it's very, very simple and I explained it many times before. The people who say, I was such and such a king, or I am this or that Soul, that's up to them to believe. In reality you are not, and it cannot happen. By understanding the interaction of the fields of the plasma, the rotation of a plasma, the interaction of the plasma with the other plasmas, and the plasma we call, magnetic fields of the universe, it's impossible that you can ever be reincarnated

anywhere in the universe as you. But part of your fields as an information can be carried on through interactions with others. Your grandchild might have the look of your eyes, but they will not (be exactly) your eyes, only the look of your eyes. Because part of the fields of you has interacted and created that position.

(Sometimes we call these genetic defects, when you receive certain effects of your ancestors, but not reincarnation. Reincarnation is impossible by every word and essence, and in every way that you can imagine. For example, if you watch an exhaust trail of a rocket shooting up in the sky, in the beginning, the trail makes a very small line in the sky, and then it begins to open up into a cloud and then disappears. Can you bring that cloud back and make it into the original line, and put it back in the rocket? If you can, then you can reincarnate and become that field. It's impossible, because the fields (dynamically expand and interact with others. They don't stay the same)).

(Let those who believe in reincarnation, believe, you cannot do anything with it, because it means they haven't understood the science of Creation, or the way the creation occurs in the world of the Creation). (Life is not a robot cutting and getting the same shape all the time).

(About the German Pope who abdicated and passed away recently. He was not a shadow, but a man on his own. A KS wanted to know if this a good moment for Francis to lay down his frock).

K- He has to do it on his own, through the elevation of his Soul. It doesn't make much difference who is or (not the Pope). It's a structure of the elevation of the Soul of one man himself, it has nothing to do with the others.

(A KS told about some issues she has and about receiving the Enhancement Units (EU). Because of the rapid development of the T and the tests of the 16th and 20th, they are considering now, that KF will keep the EU in their own secure location and use the Mobile communications, then they don't need to be shipped to the countries, where KS would have to find doctors and places to house them. This will have a lot of advantages for the Foundation, which means the latest technology will not be disclosed, nobody can steal it to create other problems for us. And we can centralize it. We don't want other governments to get hold of, especially the new technology we developed. It's very, very crucial for us. The purchase price will be switched to a license fee.

The "Home Energy Enhancement" (MaGrav) Units coming out of Iran will be "plug and play." We asked for every single one to be tested before it leaves the factory. They need up to 48 hours to run the test. (The test results have been showing about 30 - 40% reduction in electricity, and it builds up to about 80 – 90%).

(There was a detailed question about adding Magnesium (Mg) into the CO2 Gans or the Cup of Life One Gans for the new version of the emotional Covid. Use supplement tablets of Mg on its own, and not the kind that is mixed with Ca or something else. You can just crush a Mg tablet and put it in the Gans. Mg tablets come for example as, Mg

Citrate, or something like that. They do not come as pure Mg, so the ingredients will say Mg Citrate or whatever. These are the ones to use).

However, if possible do not use the ones with Magnesium chloride. Also do not use pure Magnesium metal, because it's highly dangerous, and could kill the patient.

Check KF website for more details.

K- (This question comes out of China where a large number of people have died in the past few months of the new cycle of Covid. The Chinese government has changed it from an epidemic to an infection. People can feel suicidal and depressed and it lasts for weeks).

This is not a cure, nor a medicine. This is understanding the physiology of the energy within the structure of the STM and STP. It's the energy, which you need to transfer. It's the same with what you're going to do with your Prophets next Friday the 20th.

(Rafael explained how a Brazilian KS with the new Covid got better using the Mg added to Cup 1. It started out with a minor cold and the depression came later. In her case she was only adding the Mg to Cup 1, (but you can also add it to Cup 2). It took more than a month but then she finally got better. So be patient and keep to it).

A KS showed his experiment making Mg Gans with a Mg metal plate. Mr. Keshe said, no, it's not advised to use this for the Covid. You can use the Mg Gans from the KF Store, you can leave it in the sealed bottle and put it next to Cup 1 to transfer fields.

I hope I gave you a very clear message about what our purpose is. (Usually we never make it so clear as we did in today's teaching).

(One of our KS wrote and said, she hoped that the globalists will go away very soon. I said, we are not globalists, we are universalists. We have to prepare man for the interaction with the Universal Community. Man has to become a "man of peace" before he can be taken to the "party." Peace comes not only in dimension of "no guns," it comes in the dimension of emotion, by those who incite violence and war through the essence of emotion of the faith in religions. This has to be sorted by the Prophet who started that Faith, and not by his soldiers). The commander has to issue the command.

The command for peace has (to) come through the Soul of Moses, and not through the servants in the shape of Ayatollahs, Popes, or Rabbis. (It has to come from the Master himself. Now it's your job to give the right message to the Master, that he corrects his conduct).

## SUMMARY:

### ENGLISH TRANSCRIPTION

(:18).

K- Well, they too, as usual, wherever whenever you listen to this series of Knowledge Seekers of Keshe Foundation Spaceship Institute, in sharing knowledge and understanding each other more in how we came and where we go. This session for certain reasons had to be changed to later on. We'll go back to normal timing from next Thursday as usual. And we'll see where we get. Next week from the 20th, we have a special session as many of you have joined us, and have signed up to be part of the 20th what we call, interaction of the Souls.

Many of you have written and asking question, what would be on the 20th? What will happen? What's the purpose, what we're going to do? We gave you a Christmas gift. We allowed you to. We created a condition to. We made facilitated a condition for the man for the first time to see how he connects with his Creator.

In time, we have worked. In time, if you go back, by putting the Gans's into the rivers, cities as many of you do every Sunday, and other days, you continuously add energy, Gans's, literally like a Sun. You add to bring the balance to what this planet through its strength of ?? field of creation, did not give to the man, (:20). that the man had to get it by what we call, "the 20% dimension of energies," by consuming energy in packages of this planet.

The same thing has happened in past thousands of years, when man could not get what he wanted, or when he saw other things from this planet. So his weakness, and he got himself to accept other people's, who maybe understood, or maybe did not understand, as people who will guide him to be able to be safe to get what he wants. If it rains, he did the "Dance Rain." They sacrifice bodies, because they said, then the things will change, the drought will die (end) and everything else. Then he saw himself weak in respect to this planet. And he started believing in statues, something that I know is there, but I have no access, but I will make something out of it. And then I accept it to be a stronger than me. So he created the statues, stones, woods, in and shape, or form.

And in that process, man who understood and got elevated by the process of the understanding at the time of its life, they got enlightened, they saw more of. Then we call them the "Prophets." And in that process, many of us, as the human race, chose one to the other, and in a different name, we accepted the same Soul. We accepted understanding of that Soul in the physical dimension. But in a way, the Soul as a soul of, connected to the Knowledge of the Universe was no fault in it. But the Soul in connection to the man has deviation, he had impurities, he had something which would not fit into the other part. (:22). We gave, and we still do give Gans's to this planet, regularly, to change, to bring that change in the physical dimension of the Soul ?? of the planet.

Now man has to understand from what happened on the 16th of last month. On December 16, 2022, we took you to join the Soul of the Prophets, in what you believe as Messengers. And then collectively, you came to understand, to connect to the Soul of the Creator. We saw faults in the structure of this planet, and with Gans's and the new understanding of the fields of the plasma, we started correcting it.

On the 20th, we take the next step, to bring correction to the Soul of those who we call Messengers, which you already have been in touch with. Elevation of the Soul of them, the collective, but perfect collection of the Souls of the Man (STM). We complete the other side of the elevation of the STM.

What does this mean? The Prophets have two souls. One is the STM, and one is the Soul as a Messengers of the Creator. Understanding elevation of the message of the Creation. One is faultless, and the other one has faults. It's the responsibility of man today to correct that part. To elevate the physical Soul, that in that point, we all come to understand, that through their elevation, their followers get elevated, and all become equal. (:24).

World peace is not possible by just stopping the guns and the bullets, because in another few weeks, in another few months, in another few years, man will go to it again. We'll kill again. We'll find an excuse to kill. As we perfect the Soul of this planet to feed its citizens, the way now we have learned through the Cosmic Rays (CR) to feed the citizens of it, that they don't kill anymore. And this process has already started.

Now we have to correct, the perfect the Soul of those who we believe in and trust, with the Soul of the creator. We call them the Messengers. One of the main reasons of the 20th of January is for you to directly to become, individually as a whole, in touch with the Soul of those who you believe in, to elevate them in the Soul of Physicality (STP). Collectively as citizens of this planet, you elevate the STP of anyone you believe in. Because the Soul of the Messenger, as a Soul is perfect. It's the STP, which is in a way, it's the Spirit of the life of man, has faults in it and needs correction. And when that correction is done, peace will come.

In a way you become a tool to elevate the weakness, to correct to, and bring back the Soul of what went wrong, to correct, that in that, we'll transfer of the knowledge to his followers, will correct them. We corrected the 10 Commandments, and completed. But we corrected the message. (:26). But we did not correct the conduct of the Messenger itself, the killing he carried out. We did not correct the ones who beheaded people, as the way to be believe, in the Creator.

The purpose of the 20th is, as Soul of those who we believe in world peace, in oneness of the humanity, in oneness of the Creation, to elevate those who we believed in, to be correct in the dimension (D) of the physicality (P).

So, next Friday, you asked me many questions. The answer is, you will meet the soul of you, those who believe in. For you collectively, from all paths of life, to correct them one

by one. One by one. Last time we allowed you to elevate, to join the Soul. This time we allow you to elevate the Soul, which you in the D of P believe in. But in the D of P that Soul failed to complete the cycle of.

Now you understand. And this when it happens, when it completes itself, brings peace, a permanent peace on this planet. We have gone through the correction, the elevation of the Soul of the planet and its citizens. But the citizens have one fault, they are believers. They have accepted to themselves to believe in the words, in the way of the Creator, but they have seen the faults of the one who brought the message. Once that is corrected, we will see the followers of each religion. (:28). It's like the STP of the structure of this STM, the Soul of Creation will be perfect. And a perfect Soul will not create war.

Peace on this planet, peace to be kept for the universe cannot come, unless man understands where the weakness was, ?? which we correct?? We still get your energies from the Cosmic Rays. But through the path of the emotion, you're connected to the man who has done wrong. Beheading, execution in the name of something wrong, that God and the Creator. Or to believe in one.

We stopped the animal behavior through the dimension of 20%, but we have to stop the animal behavior through the Soul of the interaction of the man in the path of his belief. Otherwise we stopped the physicality, but the emotion will force to kill in the name of God, be it Jewish, be it Muslim, be it Christian, be it Zoroastrians, be it Buddhists, or any other way the man believes in. It's like repairing a car, (but) leaving one tire punctured, and hoping that the car can go perfect.

You in the dimension of physicality, by adding to the Gans's and to the understanding of the correction of the fields of this planet and yourself. You have corrected the dimension of the Soul, but the dimension of the emotion of the Man has a weakness in it. This is why we see animosity between the Jews, Christians, Muslims and everything else.

Because once you understand, the whole thing is from one. But in the weakness in the physicality has caused the emotion of the man to take the next step. (:30). We shall see the end of the wars. The war between the STM and the STP of the Man, in a dimension of accepting the Messengers of the God. The message itself is perfect. It's the Messenger, which has a faulty soul, in a dimension of the STP.

How can you say, "I believe in Christ," and he says, "Thy shall not kill." And then you kill in the name of the religion. We told you not to kill. Unless your Soul has elevated to understand the message was given the wrong way, because of the weakness in understanding of the STP of the Messenger, and it's your time to correct it. Then you understand, the true peace will come with the STP and the STM in the dimension of fields of the Universe (U), have no difference, they become one and then you find the peace.

The man who brought the message of, "thy shall not kill," he killed more than any other creature at his time, and his duration of existence in D of P on this planet. So what was the message for?

The man who says, Peace in the word of it says, at the a beginning of, creates war by killing the man who does not believe in him. The fundamental of the whole understanding of what he brought, only fitted on the paper, not in practicality. (:32). Now, you understand, to complete the process of peace, has not come just by guns, but in the emotion of the Man, in the belief of understanding where it went wrong from the path it started.

Now you understand, then we explain to you what is to happen in the February meeting. When you come on, Friday the 20th, come fully armed to understand the responsibility you accept, to be part of, to be a collective source, to elevate the Soul, the physical soul dimension of the man who you believed in his work, in showing you the path to the Creator.

Now you understand. Now you understand what we told you, don't be surprised, that the STM at this moment of time, in a collective awareness has become so bigger, and much stronger in elevation, in understanding, that now has the power to correct the man who he believed in from childhood, from the first word, in his STP, and in the message of his Message.

Now you understand how perfect the present Soul, of those who believe in the truth of understanding of the work has begun. You believe, you understand, because you did on the 16th. You saw you all have the power to become one. (:34). And when you look at the figures, when you look at the pictures, when the STM joined the Soul of the Prophets, we saw vibrations, we saw inconsistency. Because if He was one, the STP of the Prophets were correct, we should have not seen that. It should have become a straight line from that point. Means the Soul of the Messengers has a fault in the structure of the STP.

As you, as Man, you joined the Soul of the Prophet in the dimension of the STP before you as a lot, you became to come in touch with the Soul of the Creator, and you became one. Now, do you want to be the one who's going to correct, who is going to be part of remedying the STM?

We can stop the war with armies in the National Front in the nationalism. But we see the religions in the back, in the name of the Creator through the faults of the physicality of their Messenger, create a war through religion. We ended the wars two years ago. We saw no more war, all coming to an end. And then we saw the flaring up in the Ukrainian war, again through religion. Because it was not fixed. At that time, we could not tell you, and we kept on telling you this is a war of religions, within the religion, within the "72 ships of Name of Christ," bless his name. In the Soul of the Creator.

Man will not have peace on this planet, till he elevates his physical soul of the Messengers, who brought the message of peace, and they themselves destroyed it. (:36).

"A Salaam ?? " Salaam means, "peace on you." How come the Islamic religion beheads? There is a fault in the Messenger, not the message. Thy shall not kill, and we see most of the wars financed by Vatican.

So once you elevate the STP of the Messenger, he through the belief and connection to what is believed in, corrects the Pope, Ayatollah Khamenei and the rest of it. And we will see the lasting peace the man has been praying for.

You cannot stop a fire, when there's a little fire simmering under, the name of religion. Where the Messenger himself had a fault in the structure, creation of his message. How can you say salaam, "peace on you," when you, I behead you if you don't believe in me, or I don't get what I want? Now, you have your answer for the 20th. Join as many races, colors, religions and path of belief to elevate the Soul of what you believe in. Even your Atheist, you still believe, because you came on the (blood) line of the people who believed in them.

Now you understand what is about to happen on the 20th. You will meet with the Soul of those who believe in, in the message of the Soul. Elevate them. Give them freely, that the STP becomes the same as the Soul of the Message, and the Messenger and the Creator. That we will see the lasting peace, not only on this planet. (:38). Then man will not be fooled by no magician across the U.

You don't need to accept any more Messengers if you understand the truth. If you understand, even those of you in the future through your Soul, or subdivision of your Souls, become the Messengers in another part of the universe. The conduct, the message and the Messenger and the Soul of Creator shall be one.

Peace on this planet will not come unless the essence of the foundation of the Soul of the Messengers who brought the message of the Creator is corrected, elevated. Becomes to understand that by elevation of them, that the conflict between the STP of the Messenger and the Soul of the Creator as a message, become one. Then that as every plasma connected to by the path of belief will be perfected.

Ayatollahs will put their turbans on the floor. Vatican will shut itself, because they get the message through their Soul. We see the end of war, we see peace among the dimension of physicality, and the STP and the STM on this planet and beyond. This is the only way man will find peace with himself, with the paths of the belief, and the path to his Creator.

Now, how many of you would like to meet with your Messenger and tell him, you brought me to believe in the Creator, but I'm here to elevate you, to believe in the path of elevation of your Soul too, in a dimension of life to be correct. Where you went wrong. (:40). We don't touch the face of ?? it, that we become another one to be killed. We come to elevate the Soul of, that you do not want to see the picture of.

The 20th of January, 2023 is phase where a number of you who are chosen to be, and you'll come forward with the dimension of the Soul, will come to see your own Messengers in the dimension of the Soul. Some of you might face to face see the physicality or the dimension or physicality, or feel the dimension of the physicality, or even see their faces.

I gave you one promise, I'll take you to see your Christ. Next Friday, you can try. And see if the message and the Messenger need elevation to become. The same of those who are in the name of Mohammad, or Moses, or anybody else.

The level of understanding, which means the understanding the elevation of STM of today, has reached above the level of the Soul of the Prophet of the past. Because now you know the truth and there is nothing to be hidden, and there's no Messenger in-between. Not even me. We are teachers, not Messengers.

You have to come to a point to understand that the world peace on this planet in the world of the man will not achieve, (:42). as long as the man creates a division in the path of the way, as you all became one, on the 16th of December. For the first time you all became one. There was no religion except your Souls. Even the Soul of your Messengers became part of yours. We don't see different lines, the Soul of Christ, we don't see a line for the Soul of Mohammad, we don't see a line Rick, we don't see a line John. It's one line. And ??in 4 systems, all tells us the same as one.

Then you understand how important the next coming weeks and months in the cycle of the knowledge shall be. When your STP and the STM become one you can transmute. That's why, go back in all my teachings, I said, the world leaders will walk away, because they cannot bring the STP, which did so much wrong, to the STM, to be equal to the Soul of Creator. Now you understand.

I have given you the teaching, it's for you to understand the message, and become the Messengers of your own Soul, and nobody else's except yourself. Now, it's very clear where we are heading for. World peace will not come through the financial stability, world peace will not come through putting the guns down. (:44). The world peace will come when the STP and the STM become one. And the STP of those who you believe in has never came to be connected to their own Soul, as a Soul of the Messengers. That's the mayhem we have in the name of the religions. One on the Friday closing, one on the Saturday shutting, and one on Sunday going ringing the bells. Then, if you get another four or five Messengers, you will be closed the whole week. What's going to do on the Monday, Tuesday, Wednesday and Thursday. So, we need 4 more religions and the paths of belief to complete the week. How ridiculous. Now you understand.

Now you see how the progressive development of understanding of the elevation of the STM has led the man at this point to understand that in Soul he is the same as the Creator. As he could not be any different, "I made man in the image of myself," I've made man out of my own Soul. How can it be any other thing?

Now many of you will try, will see, and you try to understand what is about to come. Come with me on Friday the 20th of January, 2023, to meet the Soul of your Messenger. See, if you have reached that elevation of Soul, that the elevation of your Soul can elevate the Soul, STP of the man you believe in. (:46). Then, you understand, do I need Messengers, when I can elevate the Soul of my own Messenger?

But he forgot to tell me not to kill. Because this way, he wouldn't become rich, he wouldn't become king, be it the King David, or being a king in the false desert of Saudi Arabia.

Now we understand. For the first time maybe you've come to comprehend the reason as Teachers we come. To enlighten, to teach the path to enlightenment of every Soul, and not hidden that will be for a few to be kept in churches, in the mosques, and temples, that then we can abuse the others with what we know.

Maybe, maybe again, for the first time you come to understand the purpose of these teachings. We seek the knowledge of peace, we seek the knowledge of love, which is the essence of the Creation and the Creator.

Maybe, maybe now you understand why you are here, why you and the generations to come will listen to these teachings and become wise not to be fooled by magicians of the universe. No one can pull a rabbit out of the hat, because you know he put the rabbit in there before, you noticed. (:48).

Maybe the time has come for the STM to become educated in the Soul of his own existence. How do you feel when you go as a PhD, as an engineer, back to the primary schools you came from, you sit with the teacher, and then you teach your own teacher? You explain the extension of the knowledge, that he or she didn't know, that elevates his soul to understand as much as you. This is your job next Friday, to go back to your teachers, to Messengers, and elevate their STP to understand that they could not steal from you.

That's why the whole structure of this planet is in this mayhem of today. You cannot do one without the other. We silence the guns, all of you brought the peace. Now we see the religions have started it, in the name of Ukrainian Catholic Church and the Church of Russia. The Israelis opened an office with the Saudis and with the Emirates. The others do with the others, but the Christians are at each other's throats in the name of Ukrainian war. Because the Commandment was a stolen from, in the soul of the essence of the Messenger. Now the book of wisdom of peace for man is open. How much wise and how wiser you are to be part of to bring that change. (:50).

When you sit in front of your teacher, you say, teacher, this is what was taught in the past, I learned this in university. And this is what is the new science. The Soul of the Christ, the Soul of Mohammad, the Soul of Moses, the Soul of Buddha, whatever you believe in, needs that elevation in education to understand what it is, what has been, and

what it has to be. You become the Messengers of your own Messengers through the dimension of the Soul, to teach the STP.

Maybe those wrongs by them, through the giving by your Soul will be corrected, elevated, and man will find peace in 2023, in the true essence of the peace. Then you become the true Messengers, true passengers, and true .. passengers of the universe.

Maybe today's teaching, the message is complete. Maybe you understood for the first time why you're here, there is another piece of the jigsaw which was missing. And today we put it there, there and then. Maybe the world leaders of the religions they call themselves, being elevated by the Soul of their Messengers, that they believe in, in a false way, will elevate them, that they walk away from religion.

The only religion is the path to the Creator, and no other. You make name for it, but in fact the truth is, it's all one. The messages are coming, the teaching are becoming very fast, (:52). many of you will becoming punch drunk with the understanding of your strength of your own Soul. I didn't know I can do that. I can elevate the Soul of the Christ, I can elevate the Soul of the Moses, I can elevate the Soul of the Physicality of Mohammad. No Ayatollah can put a "?? " on me, as they put " ?? " on themselves.

It's the end of the religions, because you come to correct that religion yourself, that the man will become one between the STP itself and the STM himself and the Creator. The system shows you. What you see, a straight line, it's the collective Soul of you 160 people plus your Prophets, we did that shrinkage and jumped before that, and your Creator.

Many of you were in that meeting. You participated through your Soul, even with all the noise of physicality in front, can you show me any of you, which line, which dot is your Soul? Can any of you tell me, which bit is yours, because you're all one? The end of conflict on this planet and beyond, and man to teach this to the rest of the universe is through true understanding of what is, what has gone wrong, and correcting the wrong. First man through the Cosmic Ray does not need to kill.

In a very short time, we'll teach you how. You already have seen, some of you. (:54). And the other is to elevate the STP of your Prophet, which has done so much wrong. He came down the mountain with "balance broken" on the way, to benefit himself, instead of bringing what it was, " They shall not kill, thy shall not steal." He went to kill and steal from every tribe in Palestine, in the name of whatever.

What happened to the message, when the Messenger does exactly opposite to what it was supposed to do? What he brought that message.

Touch me, I take your Soul to be elevated, that you forgot even you can touch.

Now you understand. Now mankind is ready for the true peace. You will have find through the elevation of the rays of the universe, the elevation of your Soul that, "thou

shall not kill" physically, to take from the rays. But the ray of the emotion has a conflict in the way, the path of your believe you came, for those who were the passenger to, and the Messengers from. Correct that, man will find peace on this planet and beyond.

And Friday, the 20th of January is that cycle. Come and meet the Soul of the Christ. Many of you came to Linz and touched, and felt, and became with him. So, we don't lie. (:56). Come and elevate the STP of those who you believe in, which in the dimension of physicality they failed to deliver what the message was, which they bought themselves to benefit themselves only, and have forgot the true message which came with it.

Teachers, when you make a mistake, they put a red line and they say, that's where the mistake is. I draw that red line today, that's the mistake. And that's where man will not find peace. And it's your job to bring that, when you correct the source, the rivers down the line will not have poison in it. Now you understand.

Join each other to bring one, not by going teaching as mosques and synagogues. But elevating those .. the Soul of those who created the basis of these places, that it all has to be called, the "house of God." It does not matter what you called it. The path to the Creator.

I hope you understood what the message is today. And I hope you're strong enough to face your Messengers. This is the fulfillment of what I promised. I promised you I'll bring you to see the .. Soul of Christ. Next Friday is your time. (:58).

But you have to understand the Soul of the Messenger itself has not been elevated. Even though he brought the message. It's like your lover writing to his loved one. Putting in the envelope. And the postman is a criminal, he delivers the letter of love, but changing it to suit himself. And this is what happened with the Prophets of the past. The message of their love from one lover to another has not changed, from the Creator to the Created. It's the postman who has tampered with the message. It's for the lover and one who is to be loved, to understand that the love between the two is true and unbreakable. Does not matter what criminal carries the message and the envelope.

I hope you understand, and I hope you're there to be strong enough to understand what is to be done next week. You wanted to meet the Soul of Christ? Join us next week and see if you have elevated your own Soul, that it can become the elevator of other souls, and the STP of the others. (1:00).

Then you understand, "I made man in the image of myself." And on the way somebody throw the stone to deviate that image, but cannot. Now we know the truth.

Thank you very much for today, and I hope you understood, and you received the message from your Soul, not from any others. We'll go through a small break, come back and we answer any questions you might have.

<< **BREAK** >>> 467 KSW January 12, 2023 (1:06).

Q: .. I have a question about elevating the Soul of the Messengers. I understand like in the case of Moses, the dichotomy between what he was, the message he brought, and or in the ones, that the tablets that were destroyed, and then his actions following. Many of the other Messengers maybe I don't know enough about their lifestyle, or their lives. But I always attributed the actions of enforcing a religion, (1:08). or a follower of a certain message, to the followers themselves, the leadership, people who took it upon themselves, to say, this is the way and this must be followed. And then the killing followed to enforce a certain path of belief. I didn't understand. And I kind of don't understand that it was the fault of the Messenger, rather than the fault of those who followed

K- The Messenger sets the example. And those who were near them, followed them, and then it became the path of the rest, because they did the same.

Q: So the Messengers themselves had an issue with them being the sole arbitrary of truth?

K- In a way... Let me explain to you in some way so you'll understand. Today, what we see with the Zoroastrians, yeah? They're try to live the path of Zoroaster, talk good, do good, and act good. If you are amongst them, you see them living that kind of life. It doesn't mean they're perfect. They still have their own problems, they need elevation.

When you look at Islam, Muhammad pushed the religion by killing, you have to say one sentence, if you didn't say, he beheaded you. And then he told his uncles and his cousins, don't touch the Iranian Empire, because they're already believe in Christ, in God. What did they do? The minute he died, they went for it. How could he do, but we cannot do?

We see the same thing in the Jewish cycle. We see it today. (1:10). The same thing came through Christ. Because he was, you call it the Old Testament and the New Testament. What would happen if Christ would not be killed? And he would have gone through his natural cycle of life, 60 - 70 years. Would we have seen the end of? Or would we have seen another cycle of? The end of wars, the end of what he was promising, or a new cycle of killing and everything else, which his followers through their own benefit did.

Now there is no followers, you don't need to follow no one except yourself. This is the whole essence of elevation to understand. So, that's what it is.

It's a very, very strange combination. When I look at it. I was talking about this in the past few weeks, coming from the blood of Persia, belief in Mitra, belief in Zoroaster, belief in the three perfections, in blood. Coming in a mixture of understanding the ethos of the Moses and their flaws. Coming and understanding the mixture of Muhammad and his flaws. And you stand in the middle, and you marry into the world of Christianity, and you stand in the middle.

Ask yourself one question, (1:12). what are all these mayhems about, when the essence, in true essence, I carry it within me, in what it is the essence of the three truths about the life and the universe. When you say talk good, do good, think good. You have no time to create mayhem, you have no time to contemplate on the wars, except loving. That's the result of it. It's not just the three. When you put talk good, do good and think good, the only good thing that comes out of it is loving, which is giving.

Then it comes to the essence of Creation, and then you see the flaws in all the religions. Because believing in Zoroaster, believing in Mitra it's the essence, it's the emotion, it's understanding, it's not a religion. Understanding the truth about the Creator, and the love and giving. And you see how they have used it to create resources and sources for themselves, to satisfy the physical soul, that is different. And then we all become different.

Genetic changes has no superiority, black, white, yellow, whatever. Enforcing it then becomes a criminal act, then it becomes wrong. Then it becomes slavery of the STM, not the physicality (P) of the man. (1:14). You came to understand it's wrong to have a separation and division because of the color. Now you have to understand for the religions. Then you understand the source of essence of the living.

You say, don't shoot the Messenger, but the Messenger who is the one who has tampered with the message. He opened the envelope and took some words out, and he put himself in there for him to be the connection between the two lovers. You want to tell me, your lover, you love me, tell the postman, he'll come and tell me you love me. That's what happened, and the postman fell in love, so I use it. Yeah, I love you. He might love you too, but I love you more. Do it my way.

That's what the Soul of the Physicality (STP) of the Messengers did, they tempered with the message, they didn't deliver the balance. That's all. It's for you to open the letter and correct the letters in the letter. And then you find it says, "I love you," and your lover reads the same.

Q: Okay, I think I understand Mr. Keshe. I accept that the followers got their way of following by imitating the Messenger. But next Friday, when we are present to elevate the Souls of the Messengers, we can only give what we have, we can give...

K- You do not know what you can give...

Q: We can give .. (1:16).

K- When it comes to the level of the Soul, you do not know what you have till you get there and you find out.

Q: Okay, but where I'm heading is...

K- Let me tell you one thing very clearly. When you're there, in the true essence of dimension of the Soul, then you understand if you look at that graph, which is there physically. You tell your Messenger, I have the message from the Creator, and I know what it is. Would you ask, why did you stole the 14 commandments? Why did you tell that, not to kill, but you killed more than anybody else? Why should it be the kingdom of God, when actually the king is God and so I'm proud of it, there is no kingdom?

Something very interesting for you to understand. The Queen of England has died. She's gone. When I went to England about 1973 and 1975, when it came to Christmas, because we lived in the house with understanding of the English mentality of living. And being in the world of the, what we call, English culture, and English life, not getting involved much with the Iranian community, it was very interesting that English people in nineteen seventies, on the Christmas day, made everything ready for Christmas lunch, the turkey and everything. And it had to be finished by 2 – 2:30, because the Queen spoke at three o'clock to her subjects. (1:18). By 2:30 everything had to be done. Because the woman who was supposed to be the leader of a nation, the Queen, wanted to speak to her subjects, who accepted that position. And in her speech she said, "my subjects." I laughed.

I said, I come from the kingdom of Iran, we have a king, we have Shah. I had never heard such a bullshit. I am a subject? We accepted they are perfect. And now we see the mayhem in that kingdom. We accepted the false, we accepted that position to become subjects. Where in fact we're as much king and a queen as they are. Maybe you're even better than them, and you can teach them how to be human, how to be correct, how to be a lover. So, there is no fault in you, how can you be any lower? You understood more about the love than the Queen did. How can you be a subject when you know more than your principle? We accepted that position.

We are no one's subject, and we are all equal. But we know a little bit more, we share it ?? little more. We can correct this position and this situation, (1:20). by teaching, by elevating, that's what it comes. It's the time to elevate the STP.

Now we see the Queen of England gone. A man who was supposed to be heading so many charities has become a king. Now he cannot be involved with the charities, which he has spent all his life to make them charitable. What happened? Is it the time to go to him since he is still one of us, "you did all sorts, much." Many of the charities Prince Charles has started as a prince, now the king, are in problem. Because they were not the true essence of what he wanted, because without him they don't exist. Do we need to bring him back to be the head of charities, or part of it, for the charities to exist? Do we need to elevate him? Just became, now you become a king you have to bring more charity, you have to bring more in the charity's ?? use of your lifetime, can become more effective.

There is something wrong in man accepting somebody is higher than him. That brought the kingship and that brings abuse. And when Moses came off the mountain, he thought he's better than the others just because he received some messages to give. That's where the problem came. The same happened with Muhammad, the same happened with Christ in different ways, the same happened with Buddha, it doesn't matter how the Buddhist put it. Look in the details of his life. (1:22).

Q: So, is it up to the Soul of the Messenger to accept the elevation?

K- They are ready to accept, otherwise we would not be here. It's not accepting it, it's elevating to become to that level, to become part of. Accepting is the wrong word.

Q: So, they just wish to become part of what we are part of as well?

K- Yeah. What it was missed. What was abused. See, when Muhammad received the message, they keep on talking about fire. We know that, because now you can create the fire, through your interaction of your Soul you can create a fire. How many times I've told you, put your STP through your hand and your Soul to come ?? from and you'll see light in your hand. That's what they saw. And that light of the Soul was the Soul of the Creator.

How they explain it as a bushfire, a tree got on fire, and blah, blah, fire. We couldn't say, "I have a light," because there was no explanation of light at that moment. Now scientifically you understand, two plasmas interact to create light, because that's how daylight is created. Now you understand.

Then that STP when you saw the light, the emotion came and took control and became the hand of killing. That's all it is. Punishing the Soul of Moses for the wrongs he did will not solve the problem. We become another bunch of hypocrisies and ?? Hippocratic action. Elevating, for it to find out what he's done wrong, then he puts it right through the fields, which he created. His own followers will go. (1:24).

If I'm going to fight with Vatican I become another "antichrist," and the rest of it. When he gets elevated, he's the true Christian, through the Soul of the Christ, if you have been the cause of it to elevate. He will put his, "whatever" down and he walks away. It won't happen in the day after, you have to understand, it has to be kept on. The way you have been feeding the Soul of this planet for years. Now you feed the Soul of .. Because they're weak. The STP of the Prophets are so weak, that is even weaker than a little child. That's why they committed the crime. That's why they brought, breaking their own rules, their own messages. You have to keep on strengthening it. You have to feed it till it becomes strong enough to become the STP and STM and ?? ??.

Q: Okay, thank you Mr. Keshe.

K- You're welcome. You will understand what is to come. And in one way or another, this had to be put on the table to be sorted, if you, as you as a human race are looking for everlasting peace. Because the emotional side, which comes through the path of the belief of the emotion, will not allow man to have peace if it's not sorted. One wheel is punctured.

I said to diplomats in very recent past few days, you would not sort out the situation in Iran by revolutions, by others. You have to go into the mosques, you have to go into the Soul of the religious leaders, (1:26). that there they confess to the wrong of their own, through their own action, that the people will not need to go to the mosque. Then you have the revolution ?? solved. But the problem is, this is not, will not be only affecting the Iranian nation, it will affect the Vatican, it will affect the Jerusalem, it will affect the Buddhist temples. Because all becomes the same, all will fall in the same path.

You know, we, all our ancestors, in one way or another, believed in different statutes. It doesn't matter where we came from. Then they believed in fire, or whatever else. Then they believed in religion. They called it, because this way they could meddle with something nobody could see. It wasn't a statue, it wasn't a fire.

Now the knowledge of the Knowledge Seekers (KS), the people who come to be enlighten with Knowledge of Creation, don't need the statue, don't need the fire. The same you don't need a religion. Because you have found the elevation of the Soul to the path to the Creator yourself. But do not fall, that you call, you become another Prophet. Because you did with the people you teach. You still have to stay humble. That's why we always call Knowledge Seekers, because even if you understood that you still have to seek the knowledge of the Creation, which is never ending.

Then you understand the whole cycle of Creation, then we play you want to travel, (1:28). you want to go there, whatever else. Has God stop traveling because he is the Source. He is expanding His universes and Unicose's. Because it's there to create more, to enjoy more of living. Just because we gave you the food and the energy, you don't sit in the corner, I'm not doing anything. I have everything.

Now the process has started, there is no way one can stop it. Don't come with a preconceived idea on Friday the 20th. Come there with the understanding of the truth about yourself. That's all you need to do.

Q: Very well, I will. Thank you.

K- Thank you very much.

Q:.. The topic is, "Background Fear Gone since December 16, 2022." After many years of intense spiritual practice, I came to know that there is a background sense of fear that is already in the environment, and one feels it the first thing when they wake up in the morning. But usually we cover it up with coffee or distraction. Our personal fear and anxiety is something different that comes later. I have confirmed this with other people as well. But the majority of the people are not aware of this. I noticed that since December

16, 2022 that the "background fear" in the environment of the Earth is gone. (1:30). But I still can have personal anxiety. Can Mr. Keshe share any knowledge about this. Has there been a shift at a planetary level away from fear?

K- I was talking to one of the Knowledge Seekers, I'm sure he is here. They sent me a message about the 16th, and then a few days ago and I was talking to them, they said, did you read, did you understand what was the message, what happened? Some groups measuring the fields there on the 16th, they saw a change, and there was no reason for it. Was that because of what happened with 16<sup>th</sup> meeting of the Keshe Foundation? Was that reason? We can find any excuses to connect one to another.

But once a collective soul comes together, it can bring that change.

On Tuesday of this week, we made the second test to transmute one of the Knowledge Seekers from one point of the Earth to another. We connected the systems of the everything we have, that it's not just that we talk. We wanted to see that we can measure, that we can graphically, scientifically see the time when the point of transmutation starts and stops. And now physically we have that data. The same as you saw the graph here. From the second decision was made, that the physical body to move from A to B, we see suddenly the change in the structure of the energy level in receiving. (1:32). But there are other bits. This is part of the test which KF is carrying out.

Maybe next Tuesday, Wednesday, we'll do the first transmutation. Because we see where there are weaknesses. Maybe next week we'll see other bits we need to fulfill. And graphically, the way you saw the graph, and all of you became in line with the Creator on the 16<sup>th</sup>, now we have the same in transmutation. Transmutation of human being and in essence has started.

But there's a very big "butt" in it. That is not the one you sit on it. And that is, to become able to transmute you have to reach the state of the level of the equality in the strength of the STP and the STM.

We see it scientifically, we see data physically, we see it graphed. It doesn't happen a second before we start, the transmutation. It doesn't happen when we stop. It happens during the time when the transmutation takes place. If our team works successfully in the next few days, plus what we are setting on the other side works out perfectly. In next few days or weeks, we will see the first man transmutation. Because now we have scientific equipment, now we developed. Our team are putting the pieces together, that by next week we have a new test ground run. (1:34).

So what would happen in that 15 seconds? What would happen in that 30 seconds? What would happen in that seconds from transmutation starting from one point to another, when the STM and STP of the man become one, perfection, with the Soul of the Creator? Would you come out on the other end with defects? One leg missing you have the leg back, you have a cancer, you don't have a cancer. We are not there to what you call, test

?? that. We are there to show man can travel in the dimension of the physical life, in the dimension of the Soul, in the dimension of Cosmic Rays.

What will be the consequence of it? You come back with more cancer, you come back with two legs missing, is what was your preconceived idea before you go in. "When I manifest in other places I don't want to have two legs." Because then they say, oh, I traveled, I lost one on the way. Or I come back nobody knows, I'm humble enough to walk away.

This week when we tested the first transmutation our volunteer had his passport with him. Then we have to ask the other questions when you reach to that point. Could Christ do this? Did Muhammad do such a thing? Why didn't they show it, if they could do it? (1:36). Then it shows the STM reached more balance than its own Messengers. Then it comes the end of the religions.

But don't become arrogant with what you achieve, become humble in what you receive, the elevation, understanding. It was very interesting to scientifically watch the transmutation.

Now we even know how long we have. The gap of transmutation now it's very clear for us. We have so many seconds. But you asked me, how you can do this? It's very simple. I'm a nuclear physicist, I am a scientist in the dimension of man's understanding.

The body of the man at the point of death releases an energy equal to 18 plus "Hiroshima bombs." So, the body of the man when it transmutes as an energy dimension, inside itself in the dimension of physicality and the plasma of itself, that it has to be contained. So the Soul must be over 18 Hiroshima bomb energy, in a plasma state.

If one Hiroshima created so much energy release and what I call, (1:38). confirmation of its quanta of release in Hiroshima, then 18 of them in motion has to create an effect, and if you have the systems you can detect it. So, the question becomes very easy if you understand it.

You had last week, sorry, on the 16<sup>th</sup> of December, 160 Souls, let's say 150 Souls, make it easier. You have how many? 2,700 energy of Hiroshima, which bigger than that, and motion on this planet. Now the answer to our Knowledge Seeker is, the people and organization detecting whatever says, what happened on the 16th of December? Nothing was happening, but they detected something. Yes, 2,700 Hiroshima energy was on the move to the Creator. Now you understand. KF is a scientific organization. We don't go by mysteries and guesses. We work by scientific data. We create systems to show the science of Creation. Now you understand.

How many of you will turn up on 20<sup>th</sup> to see the Soul of the Christ, that's your problem, not mine. That's your level to see yourself even bigger than him, to guide him, that through him you bring peace. It's your responsibility to be there, if your Soul carries a strength that matches his Soul, (1:40). that you can elevate him to become, that through

him Vatican finds "end - zero" to itself. We find peace in Ukraine. Man finds peace, and the religions comes to one thing - "do good, act good and think good." It's very simple. Now you understand.

Would you like to be there, that you might carry the strength level which was missing, a part of it that was missing, in the strength of the one of the Prophets you believe in? That by elevating the STP, you can match it up with their Soul, that through their fields. Remember what Einstein said, when one atom changes the other one change. Through the elevation of Soul of the Christ, you change the Vatican. Through the elevation of the Soul of Muhammad, you end up with the rubbish we got in the name of Ayatollahs, ?? and the rest of it.

Now, nobody can give you a "death sentence" for meeting the Soul of your Prophet. You go to sleep to see it, but if you talk about it, it's a criminal (offense). Who says? A criminal, a thieving postman calling himself Ayatollah.

To change the man you have to go to the root of the essence of his problem, and that's where it sits. Then, do you see anybody higher then yourselves, that you become their subject? (1:42). Or they're subjected to your scrutiny, and they failed?

I put this question to one of my children some time ago, maybe you all are each other's understanding of the Soul. Would, when the man understands that, all Souls are equal, all men are equal, there are no kings. Would the man flatten, burn, destroy anything which is called a castle, a palace and everything, that nobody in the future might think about becoming or creating another dimension ?? of this, not even a dog, let alone ?? another man? It's time to move. It's time to understand.

Any other question?

Q: .. I was present at the Soul Plasma Flight experience on the 16th of December, held by the Keshe Foundation Spaceship Institute. And I'm very interested in learning more about this technology and how my soul can interact and evolve with its help. My question is, whenever a person moves from one point to another on the planet or in the universe through transmutation, (1:44). will their physicality be different at the point of arrival than it was at the point of departure? Would a person who has implants, transplants, or lacks a body part keep those implants and transplants and these disabilities? Or could they recreate the lost organs through this transmutation process? Thank you very much Mr. Keshe.

K- Do you need it? If you end up on another position in the universe, and you need 20 arms and one leg was missing, would you have .. 19 legs there? Do you need... I will put it to you in a very simple way, because I put it to a bunch of children in the school one day.

If you lose a leg here, and you appear in another dimension, another position in the universe as a jellyfish, as a fish, as just whatever, do you need any legs? Or would part of

your bits will be missing, because you didn't have? Or you appear as it is in that point and position? Would you be missing a kidney in New York and you go through transmutation and you appear in London, would you have your two kidneys?

Why man should get sick, that sees salvation in transmutation? If you've been in perfect condition of understanding between the STP and the STM, man should never get sick. Should be never. Because it can rejuvenate, it can use the resource of the universe to do the job. (1:46). If I have energy I don't need, do I need a kidney at all? Because I release the fields in the universe. I have nothing left to become, to need a kidney.

It's like one of the. We were told in the past few days, suddenly we see a lot of interest in Keshe Foundation, people writing to us about "Med Beds." Sorry, we don't have any bed, the hotel is not opened up, there's no hotel with nobody got beds in it. The only sick child in the man, is that he has not understood, his sickness from not understanding, that the STP and the STM Man has to be equal, to be in harmony. Then, do we need these things?

Would you appear with four legs suddenly? Why do you think you're missing leg, will come out, maybe ten, or four legs, what are you going to do then? We have to accept the point of manifestation, is what is accepted by our Soul in respect to physical condition of the position of manifestation. If he has Inertia in what strength that dictates for manifestation.

In many tests since we started in Linz, people came with "half fish." I always said, do not ??, we accept, because now we understand why. I'm half fish, I was half man, I could swim. And the interesting is, they don't do it until the point we say, "now you can travel." Now go and do this, now you are free. (1:48). Means, the Soul goes through the limitation of no limits. I always wanted to be .. a mermaid, now I see myself, how I look as mermaid.

It's you Knowledge Seekers, you're all here, and some of you have been through the system. You know exactly how you felt, what you saw. Now you see the interaction of your body in a new area, in a new strength field and how it reacted. You found yourself with no wings, you found yourself in no leg, and you could feel everything. It's not a fairy tale. Some of you on this panel now, some of you listening now, have been to Linz and you went through the experience. Did we laugh at you, "ha, ha, you've made a mistake, you came half fish." Because that showed how ?? what ?? took your soul ?? and what you saw yourself as. And you survive in that. Then if by accident, or by purpose, by certainty, in the understanding of this transmutation in the future, oh I've been there, now I understand what happened to me in the machine when I was in Linz. *Dejà vu*.

But in fact, that's what it is. That's why we never laughed at you. We encouraged you to tell us more, because we wanted to see what we missed from your journey. What we haven't understood, that we could fix it, that everybody understands. Did any of you came out of the room, two or three hundred of you, whatever you've been through, and we laughed at you? We were more anxious to know, to understand, perfecting our system. And secondly, it's just like your brother goes to another country. Tell us what did you see,

what did you do? Do ?? come such a thing? No. (1:50). That's how the new understanding, elevation of the science is. And we've got to accept it.

Most of you as true Knowledge Seekers, who came here to gain knowledge for elevation of your Souls, when it comes to Friday you'll find out, most probably some of you even feel, that you have elevated the Soul of the Prophets you came (for). They needed it, that was the reason. You know, you're thirsty, and somebody brings you the water and satisfies that thirst. The STP of that prophet, that Messenger, needs the strength field, the cup of the water which you carry as your Soul, for it to be elevated.

None of you know your position. Some of you come to elevate the Soul of the Christ, but you end up to touch Muhammad, because that's what ?? was needed. The Christ was perfect, he had it. Or somebody amongst you served the water first (to the Prophet), before the other one gets, (so) there is no thirst. But Mohammad is still thirsty? You come as a Christian, you come as a Jew, but you feed Muhammad. You come as a Muslim, you feed Moses. None of you know. This is the beauty of what's going to come up on next week. Because you come as a collective, in total, what I call, unison fields that satisfies any thirst.

You might in that process find the elevation of your own Soul. Because the more you give, the more you receive. In that process ?? . Many of you are reporting a lot of things since the 16th. (1:52). Physical, emotional, the things that you're realizing you didn't know. Keshe Foundation is a service delivery of the STM to the Soul of the Creator, nothing else. We are just a "DHL" with the knowledge and the machinery. It's you who has the package, and it's you who is going to deliver that package. We just deliver the environment, and the transmutation and the ?? roads.

And if anybody claims any more or less, you call them another fake Prophet. I am the Messiah, but the Messiah of my own Soul, to find its path to the Creator. No more, no less. I still live in a physical dimension.

Any other question?

Q: .. Did the Soul of the Christ who lived with Jesus throughout his journey on Earth? Or was he with Jesus only in the last days of his life?

K- Ask him when you meet him. .. Then there is no Messenger to play the Chinese ?? messenger. There is no "Chinese whisperer."

But when you get the message, don't mix it with yours, delivers the message you received exactly as you received it.

But what you will see on the 20<sup>th</sup>, what you go into is part of it, (1:54). it's not the whole lot of it. We'll have the other part of, as a surprise for you when it comes to it. That you become the Messengers. We don't create anything that there'll be another surprise, that you believe in something else.

Scientifically on our system, I can tell you when the STP and the Soul of the Prophet has matched, and has been elevated. We'll monitor everything during that session. And you might hear from me, "can you go all of you back to Muhammad, he needs help." And I wonder how many of you as Christian, and Jews will go and do that. Because then you are not a Jew, you are not a Christian, you are another Soul of the Creator. Then all these fake names, it's just another Soul in need.

It'll be very interesting how many of you walk away without faith, but believe in your Creator, and bring the change which is needed, which brings peace to man from next week onwards.

Any other question?

Q: .. Mr. Keshe, a few weeks ago, we asked you a question about a dream that kept repeating. Someone stole the family car, you told me to go back to my childhood and find an event that could be related to these dreams. (1:56). The only thing that occurs to me is the passing of our dear papa so suddenly in a sudden illness. The question is, do our souls not accept his death and not accept the way he died, or was removed from the family nucleus? If any soul had interference in what happened to our dad we ask the Creator of the universe to lead these souls on a path of love and light, so that they understand that the path of light is the way to go. Thank you Mr. Keshe for giving us hope for better days, and lots of light for everyone.

K- We don't give you hope. You have to give yourself if you call it a hope, or the truth. You have to understand, was it the car or was it the grandpa? What do you see in the car as a carrier of your Soul? What is your interpretation?

Don't forget, I always said, what you dream about, is you listening, between the Soul, your Soul and the soul of another. When you speak to your grandpa, who died years ago, so you're a man in between listening to the conversation. But these two peoples are two Souls. Or you have a part of physicality, which you call it part of your dream, which relates to you in daily life.

We haven't touched on this level, because it creates more confusion. The way you were intermediary between the Soul... < audio ... Just one second... (1:58). >

If you look at it, this is your Soul and this is the Soul of the grandpa. This is your skull, dimension of the STP. This guy here has passed away years ago, and this is your, the mass of your brain. What happens between these two (different Souls) leaves an imprint in here (in your brain), that you remember as a dream. Because in here (in the brain) there's some interactions and you know, this noises is the grandpa, and this one is mine.

But there is another dream which this time happens between the STP and the STM. You remember this dream in a different way, as emotion. There part of it is emotion. But most

of this here is emotion. This happens 24 hours a day, as does this. (2:00). This will effect your physicality.

Now with what we call, psycho genetic, we have seen that you can have this effecting this (body) too. But this time goes through the process of RNA. So, what you dream and how this dream in the STP effects immediate reaction in the physical dimension of the man.

You have to understand the clear position and the way you dream. What you call emotion, and what you call a dream, but that dream sometimes carries emotion, because it's at that strength of the field of the STP. Then, you can clearly (decipher) out where and how it is. Do you need that physical sleep when in fact, you're always awake, but you still see that the body takes a physical rest, but you're still awake sorting out everything between this lot here (Soul and brain) and this lot here (between the 2 Souls).

Nowadays I live this life, I see the physicality asleep, but the brain is working, and solving problems, and doing things. People tell me, you're snoring, you fell asleep. I say, I know, but I'm awake. I'm working. The body goes to sleep doesn't mean I go to sleep. (2:02). Soon or later many of you as Knowledge Seekers will reach this point. When there is no difference between the STM, physicality can rest. It's just like you're going for a walk with the wife, you still going but the wife is tired, I'm going to sit down, I'll take a rest, I'll join later on.

The .. physicality take a rest, yes, you go to .. you're snoring. Yes, but I'm not asleep, I'm still working. Why do you say? I .. live that life quite, not often, it's part of ?? my life. I do not understand when it's a physical rest. Then we have to understand more about our own life, our own creation, our own cycle. What happen into this, and how things will turn up? It is .. part of us that needs for us to understand, and nobody else is there to do.

Any other question?

R: We had a request from Lisbet in the chat here, it says, (2:04). thank you for the beautiful words you give us. Daily at 21:00 hours the Universal Council, we unify our souls to raise the soul of the prophets, governors, scientists, doctors, military, journalists and Knowledge Seekers. Can we take one minute to join today, now?

K- Is that a personal request, or is it from Universal Council? As a personal I will say, no. As if it's a request of the Universal Council, we abide by the law. Which one is it?

R: She says, it's Universal Council.

K- So we abide by that, by their decision.

<< One Minute of Silence >> (2:06).

K- I would like to remind the Knowledge Seekers, something which you will understand in the future, the reason of. In the cycle of man on this planet there is nothing higher than the wishes of the Soul, unanimous Soul of the Universal Council. If the Soul of the

Universal Council in unity wishes, it becomes a command for the Soul of the Humanity, and beyond. Sooner or later, mankind comes to understand.

Any other question?

Q: ... Mr. Keshe, in the last teaching of 2022 a question was asked about reincarnation, and you explained, that this does not exist in the way we imagine, that the memories we have of the distant past are reflections of the experiences of the ancestors of our lineage. I still have doubts, and if it is possible, I would like you to help us understand.

My question is, if the STM is created at conception, and is born, or freed, at physical death, (2:08). it could not return to the womb and be born again as a baby (as in reincarnation). So, for the STM to assume new positions after being released from physicality, the process would be by transmutation, manifesting itself in other places according to the Inertia of that environment? Would this be how a soul could return to interact with other souls?

K- You see, the Soul of ... This is a very clear distinction you have to understand. Part of the Soul of you at the point of physical death has become part of the Soul of your children, or another Soul. So, in part, you are reincarnated, you are reborn, but as part of, but not as totality of. Impossibility.

Reincarnation as you die, as blond, blue eye, "Mr. John" and you come and born again, and "Mr. John" with the whole the memory and the package of it, it's a non-existence. It cannot happen. But, the way you say, my grandson has my eyes, you passed on part of you to be reincarnated as part of him.

But for you to be born in the future, in one of your great grandchildren's offspring as a child, it's impossibility. So it depends what you call reincarnation. (2:10). We are all reincarnated as part of the, part of the, part of the fields of our great grandfather, great grandmother, great, great, great grandfather, and the rest of it. Now we understand how.

But reincarnation the way you talk about it, is impossibility. Because even if you position in another womb to be born, the fields of that womb dictates your manifestation, you cannot be manifested the same, or the same soul. It's impossibility of a science of Creation.

So, you believing in it or not, you can believe a horse having 20 tails and one head, that's your decision. Scientifically it's very, very simple. And I explained this many times before. The people who talk about reincarnation they come back, whatever, you call yourself I'm a king, I'm this and that soul. You believe in it, it's yours, but in reality you're not, it cannot happen. If you understand the interaction of the fields of plasma, the rotation of a plasma, the interaction of the plasma with the other plasmas, and plasma we call, magnetic fields of the universe, it's impossibility, that you will ever be reincarnated anywhere in the universe as you. But part of your fields as an information will be carried on in interaction with the others, create a grandchild who might have your eyes, (2:12).

the look of your eyes, but not necessarily your eyes, the look of your eyes. Because part of the field of you has interacted and created that position.

You call it genetic defects, but not reincarnation. Impossibilities in every word and essence, in every way that you can imagine. If you stand on Earth and watch a rocket moving, you watch the trail it makes. At the beginning it's a very small line, and then it opens to a cloud and then disappears. Can you bring that cloud back and make it the line, and put it back in the jet? Then you can reincarnate and become that field. Impossibilities, because the field expands , interacts.

Those who believe in reincarnation let them believe, you cannot do anything with it, because it means they haven't understood the science of Creation. The way the creation occurs in the world of the Creation. It's not a robot cutting, getting in the same shape and screw all the time.

Any other question? (2:14).

Q: .. Thank you Mr. Keshe for showing ways to elevation. Now the shadow Pope is gone. Is this a good moment for Francis to lay down his frock?

K- What do you mean by shadow Pope?

R: I'm not sure what he means by that.

K- I think he must be talking about the Pope which is supposed not to speak. Has he died? He was critically ill. I don't know if he's referring to that one. The Pope which abdicated was reported to be sick recently. I don't know if he died.

R: Yeah, he passed.

K- Yeah, so must be that one the shadow. I don't know if he was a shadow. If he was chosen by German Chancellor so he wasn't a shadow, he was a man on his own.

Okay, can you repeat that again?

R: Now that the shadow Pope is gone, (2:16). is this a good moment for Francis to lay down his frock?

K- He has to do it on his own, through the elevation of his Soul. It doesn't make much difference who is there and who is not there. It's a structure of the elevation of the soul of one man himself, it has nothing to do with the others.

Any other questions?

Q: .. I have a couple of recurring issues. One of them being money and the other one is interfacing with technology. Those are my daily worries and bangs. Specifically, I don't earn any of my own money, I'm managing money for the family. Therefore I'm always accountable to somebody else. And so I'm always sort of in a conflict about that. So, one of the things I need to know for instance, I need to know how much money I need to save to be able to ship an Enhancement Unit when the time comes. And I need to know if I need to provide accommodation for it.

K- That has to come from the Keshe Foundation, (2:18). this is something which is going through now that this is ?? soon complete. The systems if are shipped out of China directly to you will come at two pieces. If we bring it to Austria we complete it. It will come another. This is something which we'll decide in the next most probably six weeks, because we have to bring the system, ship it from China to Austria, fit them in and then ship it from out of Austria to you or to any destination. Or we send the carcass and then we have to send technicians with the new technology to be added at that time. This cost has not been sorted out yet, because the technology development has been so rapid, that if we would have delivered the Enhancement Unit even six months ago, they'd been obsolete. We would have had to upgrade it. It would have been nothing, to what it is today.

Because part of the technology now, we have developed now, we tested on the 16<sup>th</sup> and the 20<sup>th</sup> is become part of the Enhancement Unit. And at the same time, we are looking at possibilities of centralizing Enhancement Units (EU) in the center and allocating position to those who bought it. It means, this is your system, it's placed in such a place, you can monitor it, but we run everything for you, which means you don't need a Center for it. That's a very highly likely to come out.

Which means... It has a lot of advantages for the Foundation, which means the latest technology will not be disclosed, nobody can steal it to create other problems for us. And we centralize it. It becomes like, you purchase, we do all the other jobs with it, which you have purchased, then that way it has no shipping cost. (2:20). This is something which we'll ?? say in the next four or six weeks, and then we'll announce it to those few people who bought the systems.

If we do it that way, it's safer for us. We don't disclose our technology to no one, we centralize it. It's like the money you paid it's for a unit, but we run everything with it. Even your problem was finding doctors who run it, that becomes part of our running costs, our process. And whatever is used that system for, whatever and who using it, what is created and what comes to you from it.

Q: That sounds ideal.

K- Yes, it is. Because we don't want other governments to get hold up, especially the new technology we developed. It's very, very crucial for us. We have spoken about it in a very different way directly in the past few weeks. That if we ship these units to places where it's supposed to go and the government's get hold of them, or people get hold of them. We've seen, like this craziness, it started with the "Med Beds" and all the other things. This way, we have our own controls, we have our own doctors, people like you, we run everything. Then people can say, I want to buy three machines. This is it, whatever it is. It is logged in. Everything is getting done very softly.

But technology development has forced us to this position, that even we might come back to you, okay, this is the money you paid for purchase of the system, become a license fee.

So this license lasts for 10 years, whatever comes from operating of this unit, you take your license fee from it.

But we don't release systems into open. It's something we'll decide in the next few weeks, it has to be done, because we reached the point of maturity. (2:22). Because we can now convert the Enhancement Unit, which was supposed to come, as a what we call, Wellness Unit, a combination of Wellness Unit and transportation, which you don't have that facility. Now we can use that facility. We can create that condition with the system. And it brings new dimension to our work.

It's technological development. and we have to decide, that we draw a line to it in a very next few weeks, that we draw a line that, this is it, this is the point, and then we start. It saves a lot of people, we have people in Australia who want to get, people we have in other parts of the world they want to get it. But getting certification, all sorts of things, getting import licenses, all this goes through the window.

We open the service centers, what we call, like a service centers, and your system is part of it. With it comes the doctors, the support and everything else. You don't need to run anything, everybody contacts the central point, which we create, and you just timetable to use of the system. And this is your system, it's been used so much today, or this week, or this month, this has been an income from it, this is what comes to you. Then the doctors finding a place, this all goes out the window.

And it keeps the technology within the Foundation. I was with people discussing this today, and one of the reasons we shifted everything is this process of development. But give us about, I think about before March, once we do the physical transmutation, the tests are complete. And our doctors are doing other things in the background, the health side of the system is nothing to do with the Keshe Foundation and we're supporting to complete the system. (2:24). with other doctors, then these what we call, like service centers, will come, it has to come to operation. Because there's a huge need for transmutation and wellness.

Those who came to us and supported us as well, will be looked after completely by us in every aspect. You can still run the business. Tell us, I have these people, those people, can contact you. But again comes to the central point for distribution and allocation. It's something very much, but not really, it's like a timeshare, but you own the apartment, it's all yours. The only thing is you decide who shares which part of it. This is part we have.

We didn't have to sort it. We were forced into that position that we don't get blockage by the government's, stolen technology, everything stays within the Foundation. As I said, today's delay was part of it trying, after the huge damage we suffered a few weeks ago, as all of you know. Now we had to restructure it, that the Foundation stays solid, and such a thing cannot happen and we stay solid. This is what I've been doing in the past couple of days to bring all this in a correct way together, financially, and everything else. It takes a lot.

You don't need to look for a doctor, you don't need to look for a place to put it. We centralize it. At the moment we're running a trial like this with some doctors. Some of the Knowledge Seekers here know who they are. It's not something that we're going to talk about. We are running what you call, trials with it, to see it works, doctors stay in charge. We provide the facility of the technology and they do everything else. It seems to, that the trials has been going on for a few months, and it seems to be the perfect way to do it. You don't need to repair anything, any technological advancement comes immediately, (2:26). it gets implied and applied to the system. And this is the way we see to be done.

Q: Wonderful. Other question is also about those Home Energy Enhancement Unit. I will need to be working with someone?

K- That one, I think it should be shipped sometime this week with. There was a slightly. What we have a delay for a few days is that, we asked our Iranian manufacturing side, we want every single unit to be tested before it leaves Iran, before we complete it here. You understand? It was no use, with sending it and then it will be tested. And that has delayed by one, or two, or three days. The systems are made that are going through, what you call it, a testing phase, and you don't need. It's a "plug and play." Now the way it's done with our Iranian team is literally, when it comes to Austria we complete it, you just need to "plug and play," and it's immediate, you can put it anywhere. But the units were ready to ship last week, but we asked for every single one to be tested before leaves the factory. They need 24 hours or 48 hours duration for each system to go through the test. They have to stand what they say. The test results shows every one of them runs about 30 - 40% reduction plus, and it builds up to about 80 – 90%. Those of you who bought these system you should start seeing them before end of January deliveries, and early February. (2:28). Then those of you who want to get it you can come to Linz, physically purchase and go.

Any other question?

Q: .. Good evening Mr. Keshe, I'm a Knowledge Seeker from the Chinese community. I need to ask a question about adding Magnesium (Mg) into the CO<sub>2</sub> or the Cup One Gans. In a recent test teaching Mr. Keshe mentioned that to process the new version of virus, one needs to add pure Magnesium tablet, or plants which carry a large amounts of Magnesium to the original Cup One Gans.

And Magnesium chloride should not be used.

My understanding from this is that one can use the Magnesium Gans from a plant or add pure Magnesium into his Gans. Dr. Farzam Bararpouor from the Iranian community warned me that pure Magnesium, or say Magnesium metal cannot be used, because it's highly dangerous, could kill a patient.

So, I'm confused, because there's no pure Magnesium tablet available on the market. Even the tablet which Dr. Farzam suggested is made of Magnesium taurine instead of pure Magnesium. And I can only find Magnesium tablet, which is made of Magnesium

oxide or Magnesium salt, like Magnesium glycine, Magnesium lysine, Magnesium citrate, and so on.

So my question is that, is it true that using Magnesium metal is highly dangerous in health application? (2:30). If Magnesium chloride should be avoided, why is the Magnesium salt or of organic acid is okay? (he goes on a bit)

K- Yes, I understand, this is a question which has come out of to China. You have to understand, a large number of people have died in past few months of the new cycle of, what you call it, Covid. Now, the Chinese government has changed it from epidemic to infection. And one of our close collaborators in China, two or three days ago lost his mother to Corona. A large number of old people in China are dying from it. What the Chinese government is saying, it's not a hoax. They are facing with this, and some of our own Knowledge Seekers in China have been affected, they feel suicidal, I can open the Telegram and other messages, because we are on Wechat, on the Chinese side of the operation.

Many of the Knowledge Seekers have been affected by the new Corona. They have suicidal thoughts, they have deprived of energy, they have all sorts of complications now. We keep on telling them, because we've seen them. I had a news from one of our Brazilian people who came with the same thing a few weeks ago. And I told him, you just stick to Magnesium. And I think yesterday, a couple of days ago, I saw a message that it has worked or whatever, and she's better. Rafael sent me a message about it.

It's the only way we can stop that emotion of physicality to do with death and depression, (2:32). with this Magnesium with this case, with thus Corona. We advise you to use Magnesium tablets, you buy from chemists, and make a Gans of it and add 2 to 3% for your wellness into the Cup One, Cup Two. It's just. Don't touch the Gans, it's just the water of it. It takes time, a month, two months, and you just walk away from it gradually.

This is not a cure, this is not medicine. This is understanding the physiology of the energy within the structure of the STM and STP. It's the energy, which you need to transfer .. It's the same with what you're going to do with your Prophets on next Friday (20th). It's that part, which needs to be elevated to move it from energy ?? wise, to another.

And Magnesium as a Gans has part of that energy structure. And it has to be done in very, very small steps. The way we gave it the gift of .. New Year's Eve to the Chinese nation, the "Cup One," exactly 3 years ago now. Chinese New Year is next week on the 20 – 21, now it's another gift for it, not only to Chinese, but around the world.

And Magnesium Gans, we prefer not to use chloride and others, but if you can get a Magnesium tablets, pure Magnesium tablets, usually Magnesium tablets are accompanied by Calcium, your buy as a mixed tablet. We recommended it to be, but Dr. Bararpour, as a clinical doctor decide this. (2:34). We suggest how the material is used and the way it's used, it's down with the consultation with Dr. Bararpour as a leading doctor in the Keshe Foundation, what you call it, the operation of the wellness, we don't touch it, we suggest

what needs to be done as doctors, Dr. Bararpour and other doctors who work on the Foundation, they consult with us and they decide what it is, ?? has to be taken from the doctor point of view. They are doctors, they know what they're talking about.

From scientific point of view as a plasma technology, we see the interaction of the fields, how it is. The Gans is more natural ways, it's already converted, and that can give you a small percentage of it, but it takes a bit longer.

Rafael is on the line. He wrote the message couple of days ago. Rafael, would you like to tell us what you received, or what you wrote to us. People understand it really works. It does what it says. This is an emotional level strength of Covid. And we do not have the solution for such a thing in the world of medicine. In the world of plasma technology, as we suggest, and many of you benefited by it, it can be done with the plasma of Magnesium. How it's done in the physical dimension it's the decision of our doctors.

Yes, Rafael is there. ..

Q: Hello Mr. Keshe. Hello, everybody. So, Mr. Keshe, you want me to say about the lady who got better?

K- Yeah, who got better, from Brazil. (2:36). She brought to us couple of days ago, because we had a discussion with the lady between you as a translator and her. So you've been through the process, how she felt?

Q: Yes, you advised her to use the Cup One with the Magnesium in the meeting. She was using, and she was feeling very bad for, I think four or five months, she was feeling very bad, very depressed with suicidal thoughts. And after that meeting, she started using the Magnesium with the Cup One. And .. after two months using this continuously, according to her everyday, then after one month, she still was not feeling better, she sent me a message saying that she was not feeling good yet. But you advised her to wait a little bit more and continue using it. So after one more month, now in January, beginning of January, two days ago, or three days ago, she sent us a message saying that she was feeling much better. And saying that she was very thankful for you, for your help, and for all that you spoke to her.

K- It just takes time. In the world of... Thank you very much, Rafael. In the world of medicine we don't have anything. Unless they put you on different things. As we know, anything like a suicidal, or depression it's field dependent, we handle it as a plasma, not as a medicine. We handle as a processing of the condition, and it works. We've done with many, many Knowledge Seekers around the world who used it and are seeing the results of it.

The game of the Covid has stepped itself up through regeneration and elevation of its strength, and that comes from the physical condition of the lung and all sorts we saw into emotion. And we know how to handle that part. (2:38). So, instead of going in psychiatric treatments and all that, whatever. It's not our job, but we understand what

emotion is, how it's created. It's just the picture that I drew before, it crosses between the STP and the STM, and we know how to elevate it for this strength of Covid. We give the concept, the understanding, and it's for the doctors and yourself to test them, try it. Keshe Foundation puts all the knowledge through two or three doctors we advise, and then they decide.

Any other questions?

R: One more questions on the Magnesium. We have. Let me show the image here so that you can comment on it. A picture that was placed in one of the Telegram groups by Randy with the...

K- Before I go anywhere, do you see a name... Oh, it disappeared now. It came with somebody writing me an email. I tried to take them out, but they're gone by now, it's ok.

R: Ok, this is an image from Randy, and there's another accompanying image. So this is, he says, it's got a Zinc plate, a Nano Copper plate and a Magnesium plate. (2:40).

K- Not advised.

R: Not advised. Ok. He says the Gans is very light, and fluffy, and looks very nice.

K- Not advised. No, because this creates a total different condition then what we are looking for. This is not advised. Especially you have that Zinc plate, it's not advised at all.

Q: Can we use the Magnesium (Gans) from Keshe Foundation shop, from the Store?

K- Those you can use.

R: You can actually open them and put them in? Because they're designed to be a sealed bottle that can be placed outside the water dispenser.

K- With this you can use, you can still leave it (in the sealed bottle) outside, as .. for outside the dispenser into your Gans's. You don't need to open it to mix it. It will have the same effect. Or if you want to open it, make sure you just only touch the Gans water and not the Gans of it, what you create.

R: Okay, good advice and all that. Thank you for clarifying Mr. Keshe.

K- Shall we call it the day?

R: Sure, if you wish. I think you've covered just about all the questions anyway here.

K- Thank you very much for today. And I hope I gave you a very clear, we never make message so clear as what we done today in the teaching ??, (2:42). about what is our purpose.

As I said to one of our Knowledge Seekers who wrote, she hoped that the globalists will go away very soon. I said, we are not globalists, we are universalists, as I said before. We have to prepare man for the interaction with the Universal Community. Man has to become man of peace before it's taken to the party. And peace comes not only in dimension of guns, comes in dimension of emotion, and those who incite violence or war, through the essence of emotion of the faith. That has to be sorted by the man who brought the faith, not by his soldiers.

The commander has to issue the command, and the command of peace has come through the Soul of Moses, not through the man in the shape of Ayatollahs, or Popes, or Rabbis. They are servants, and it has to come from the Master. And it's your job to give the right message to the Master that the Master correct his conduct.  
Thank you very much for today. See you next week.
