## Topic Index

Two weeks eating with Creator ended - discuss & analyze results meeting - it's for life in Space; All races & cultures have fingerprint in system - have access to their knowledge like cuisine - etc; March 24th Session with World Leaders - bring peace; Chinese government CPC Congress new technology to advance peace - KF responds 100% purified nuclear material for space - satellite system to deliver fields for agriculture - military defense of nation; Upon peace agreements hand over technology; Mr. Keshe to visit China soon; Also hand over unknown technologies paralyze other nations defense T; We are not delivering weapons T - only space T; We will make sure all nations stay safe; Expect couple of leaders to attend 24th Session; April Session will be for ending addictions; Universal Council members obligated to attend 24th - carry connection to next step; Past weeks massive delivery of knowledge beyond man's level; More in-depth on C14 - C12 - exist in Soul and Physicality (P) - dream & waking state; How to become part of something you are not aware of; Teachings always have reason - open more science; Hydrogen (H) as plasma in Cosmic Ray (CR) - C14 rides on top of H - C14 drawn like boxes - connects to everything in U; Without C14 - no connection - nothing happens; C as diamond structure - or amino acid (AA) called "Mr. COHN"; CR with H & C14 essence of Creator Itself; H ray actually becomes fields through interactions - then H interacts with itself and becomes C14 - it's an energy pack on H; (So essence of all Creation is a single ray of H from Creator - becomes C14 and everything else); Biggest mystery of Creation has been solved!; Then how is it that you can become any creature in U? ; It is done through COHN or AA; Need at least 4 elements to become biological entity - Man made of C-O-H-N - C can be C14 (Soul) or C12 (Matter) - but C connects us to both dimensions through AA; Physicality is made through AA; COHN interacts to become any cell in body like muscle tissue - etc; When COHN attaches to Ca - becomes body of man on this planet (through interaction with Inertia & MG fields); When we change to another entity we do it through COHN; H & C stay fixed and don't change - we change the O & N to what is required in environment of new entity; Remember you can stack CR - can also stack COHN - then change layers of O & N to new elements of destination; (Each element in COHN has function C - connection : O - gravity : H - energy : N - storage); Example planet X instead of O uses uranium for gravity - then next higher strength is plutonium to replace N; This is why we need 100% pure uranium & plutonium for space travel; Not entering military game - only for space program; In

Unicose H & C connects to other Universes; When intelligent enough connect to Creator in one instant - whole purpose of teaching; Soul with energy pack of STP can start new cycle of creation in U; If you go to planet where Fe is seed of creation instead of Ca - bone structure made of Fe or whatever kind of structure; When transmute to new planet you have all information emotions intelligence to fit in exactly - nobody knows you are not from that planet; Same as when dream of dead mother - correct field strength is there for recognition; "Children of Mitra" created out of plasma - do not need connection to matter state to convert - why problem to transmute from US to Linz; Your children created out of "love of Mitra" are in D of plasma - no problem to transmute; This is last generation of Man- have trouble to transmute; Change will not happen in one go - thousands years of killing - gradual; Children of Mitra not fight - transmute; Last generation in D of physicality; Have to elevate Soul to go beyond Ca - ties us to matter state; Detachment means from gravity of MG field & Inertia - not from P - needed to manifest somewhere else; When transmute to somewhere only the essence of Soul is the same - you still know you are yourself - but other things change; Taught about schizophrenic - "beautiful people" to prepare for today - Can have 6 Souls living in one skull - don't have own D of physicality - as one bunch - like neutron & proton inside atom of Ca; One of 6 Souls can have physical existence somewhere else; Even if born as single Soul still schizophrenic - because have STM & STP; Use C14 to see mom in dream - C12 to tell brother about it in P; Time to understand we live schizophrenic life of both the Soul and P; With this new understanding don't need Prophets in form of magicians and no protectors of magicians - like Pope - Ayatollah Khomeini of Iran as protector of the faith - Faith of who? Except their own lies & imagination - you are protector of your own Soul; End of religions has come by you becoming aware of truth - not by us becoming a "Methi"; Have access to 2 lives - Soul & P - you call one a dream - other "reality" - but in fact -you ignore reality - stuck with dream of P & all its suffering; Choice to transmute - change COHN to new planet; If mother & father passed away - they could be in different D - one could be in phosphorus and other potassium - but they still can communicate with each other; Near death experience (NDE) is nonsense - cannot comeback - separation has to be completed; Prophets made up lot of lies - only had a few minutes communication through C14 with Knowledge of U - rest made up; Need to understand - not prophecy's; Knowledge of Creation and Creator is a logical physical interaction of fields - understand interaction - see the outcome; Moses mixed up things then abused for own benefit - brought this mess of today - those came later added to the lies like Ayatollahs - same in Ukraine between Pope's Christians & Russian Church - "profit" in their pockets; Mankind can understand his Soul by himself - won't have mess of today;

But cannot reach point of understanding without access to higher order of Energy - then move to next step; Can create life in another D by changing the COHN of U - not of man; Can change yourself into dog to feel what dog feels - or plants etc; All beings of planet have COHN that interacts with Ca - no difference between man and dog - can teach through Soul to become man; One day I might tell how the man got himself into this mess of P; In matter state you can grab someone and forcefully change their position - in plasma you cannot do - M & G field positioning cannot force someone - life in Space is peaceful; Your destiny in your own hands; Search and find connection to C14 in your

body - life will change; C14 comes into skull - change to C12 - rest goes out; Problem is you cannot expand Soul to go out and connect to C14 - then free to do anything; Oceans under surface of Moon; Whole purpose of teaching - you to expand your Soul to get on C14 - Soul's Universal Energy; On line of C14 - no Popes, Ayatollahs - kings - all equal; In 3 months time a world leader will end his life - we saw his Soul has decided - too many crimes; Whatever done in P - Soul has to balance; KS have more knowledge than religious authorities who claim power; New generation has access to information & Internet - don't accept illiterate priest; Start living normal life in both Soul and P - whether asleep or awake irrelevant - STM & STP work 24 hours a day - even when P snoring; Souls and P work in unisons; Do not need Methi - no Day of Judgment - you judge yourself; I am not a Prophet - we are "Teachers of the Universe" - we teach true knowledge - then move from one school to another - today Earth - next where Creator & "Soul of a planet" request; We teach unconditionally; Appear in body of man - because he accepts - otherwise becomes mysticism - "burning bush" - leads to abuse; Only Messiah for you is understanding work of Soul & P - nothing else; Educate women first - they teach children not to be ignorant; Have to comprehend Totality of whole Knowledge at once; How Creation works & we are part of Creation; Man chooses to be ignorant of Creation; Mans responsibility to educate self & change; Understand teachings and become aware of truth about yourself; Prejudice blocks learning; KF in 10th year of teaching; Study teachings from Soul & P 2 dimensions; STM has no field to match gravity of this planet - why cannot be shackled to it - comes & goes on C14; P stuck on conductor of C12; Transmit & receive on C14 with knowledge of C12 - whole U hears; To travel with other Souls they have to agree; No more "deaf and dumb" in D of Soul - speak through emotion - can't lie; Understand knowledge - also apply it- then don't need help; religious people interfere in politics- businessmen - cannot connect to Creator; We are responsible not to allow anything to happen to Soul & P; Doctors found combination solution for cancer need to test; Religious leaders cancer of society; High enriched nuclear material for space technology - already told IAEA (Atomic Agency) - only be used to elevate STM to transport himself across U - not for Ayatollah's to make bomb; Monthly Sessions & last 2 weeks at "table of Creator" is for you to elevate Soul; Accused of "Soul taking" by enemies - we are here to free your Soul - can take Soul of Universe; We give you the U; It's how you perceive yourself - and how they have made you to perceive yourself; No man should be subordinate to any creature in the U - let alone a religion; No man should be shackled in P- with Soul imprisoned within; Can control and replay dream anytime; Man can be blind, legless, or armless, but man cannot be harmless; I am the Messiah, but only of my own Soul - I cannot save your Souls - but I can teach you how to save yourself; Otherwise become a monkey; Man's habit to make machine of what he understands - EU allows Soul to be free - but you have to choose freedom; Referred a lot to Ayatollahs & religions - because today we have finished with them - don't need intermediaries; It's you who decides to expand the Soul; We are here as teachers to teach and claim no more - we are the same in essence as the Creator.
