Schizophrenia

Q: I have a question. On the 16th December, I don't know if it is, or if it's not, but if we have a Schizophrenic inside us, can we meet it at this thing?

K- We .. if you are, he is within the same Soul? within the same Soul .. And you get both. Both get the same.

Q: Okay. Because I'm little bit confused. When I was in Linz I heard two voices speaking in my head. But I know these voices very well, but I don't hear them very much. Or very often.

K- It'll be interesting, if you let us know after the 16th. That will be very interesting. We expect in the research and development, especially with the new, two new systems, which are now getting developed in, in the research lab, to one of the tests we hope to do, is to bring the 2, or person who is what we call, the "beautiful people," assess prior, how many souls are within it, and try to manifest them in the systems.

This is something we can do. (1:20). This is not something that is in the realm of talk. The way the systems are set up, we can accommodate up to 4 souls at the same time. And as we working now in the dimension of Cosmic Rays, we can create the condition of the brain inside our 2 systems, and see how each Soul will manifest itself. We stay very open in respect to them.

So if someone has two souls, or three souls, and one likes to be blonde, and one likes to be black, and one likes to be, what do you call it, Chinese, we have the capability to allow that to manifest. Scientifically we have the system to do. So, if we have a what we call, beautiful people we'll see their beauty and respect their beauty. It's for the others to understand.

And what would happen when we take them out of the system? Can we create to, according to the need, 3 new people, or 4 new people out of the system, come out, and they take their own shape and position.

And the other position is what do we do with the authorities? We have 3 new people born at the same time in the system. How do we give them identity? There's a lot of legal things with these things when we start doing it.
