

479th Knowledge Seekers Workshop; March 30, 2023

(Quick Index 16 pp, Introduction, Topic Index, Transcription, Proofing done ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

New teachings on Emotions begins; Further understanding of Cycle of Creation Rays - fields - Emotions; Cycle repeats itself throughout Creation; April Addiction session - keep STP & STM together; MG fields continuous cycle no change - point of observation change direction - create magic; Big teaching on Emotions; Salinity; 3 Kings gifts - MaGrav - Ray - fields - Emotion 3rd dimension; Gans making - local & environmental fields; China to clean up environment; Galaxy like Gans Box.

Topic Index

Man takes first steps to master travel in U with Cosmic Rays (CR); No universities in U - enlightened to the knowledge of how conditions are created for Creation to occur; Soon Man will learn how to create a fish from a "drop" of energy - the fish tank being planet or U; This new knowledge is not only for Man but U; Prophets only understood very little of it - others abused it; Man is afraid to jump in ocean of U with Soul - might not get back again; Transmutation volunteer tested it - isolated his fields - but not understood; Could see fields rotating - clockwise is departure; When feel fields means can go; Knowledge of how to change direction of the fields not yet shared with man - how to jump from P of man to fields of U and back again to P; All these Sessions with System in Linz is to train you how to connect and use fields of U; Soul already does this at death - arrives instantaneously at new destination; Man not a nomad in U; Reach point of balance at destination and manifest P - STM absorbs fields creates Inertia and begins a planet or star - if pure enough can start a U - might become part of Creators fields of Creation; If my Soul already knows then what have I missed in the knowledge?; Why are you afraid of death if Soul already knows where it will go?; It's same if you want to transmute from NY to London - why be afraid - not afraid to take a physical plane - but you don't trust your own existence - lack of understanding - and you want to remain in D of P; This is why we have done all these Sessions - Dec 16 & 19 - Jan - Feb - and the March session being equal to world leaders because wherever you manifest you will be the king of yourself; These sessions are for you to test yourself and develop trust in your Soul; April Addiction session will be to help you not to get addicted to transmuting your Soul - not for drugs and alcohol; Transmuting the Soul can become an incurable addiction - because you feel the love of the Creator; Not to use transmutation to cover up what is missing in your life; April session to help commit yourself to keep STP & STM together as one - creates stability not to get addicted; You will learn how to carry STM on bandwidth of C14 & H - and be able to add other M field strengths like a rain drop - a plant - any creation - and be able to join back to original Soul and travel on; Further knowledge is with C14 can manifest P of fields - different from rays of U; Creation starts with rays and manifests fields - interaction of fields creates matter states (Cu, Zn etc) - further interactions creates new cycle of life; Life started from a ray to fields to plasma - then to physics (atom is plasma of neutron proton electron) - then to chemistry (elements) - then to biology - then a soul is created - the STM is created - (when its time is over, or as it

emits more rays and fields it goes back to start the cycle of creation all over again - This is the meaning of "I Am the Beginning and the End" - But all the time the essence of the Creator is always present "zero-time"; Biggest Question is - you have the G fields entering the South Pole and exiting the North Pole as M fields - where do the G fields turn into the M fields? - Answer - They never change it's one continuous cycle - it's the point of the observation; Whoever observes knows a little more - can prophesize become magician; If Man understands won't accept Prophets anywhere in U - look at field interaction & understand effects - (part of cycle of Creation); If KS understand have completed Knowledge; At certain point in cycle of Creation through interaction the fields create emotions; If understand emotion can control interaction and what will happen to STM - meaning of "I made man in image of Myself"; If Man has emotions - so too does the Creator - He created emotions for Man to understand - you're an image of Totality; The emotions of Creator are within me - the pain and love I feel in my life; There are more new emotions to experience; You carry all emotions within but only understand when you experience them - you mature through life experience - a child only understands about his mothers love or maybe a cat he loves; When man and woman fall in love and give their life to be with each other - essence of this love is different; Man has to learn to fall in love with Creator - become enlightened with knowledge of emotion of Creator; You give everything so lover understands how much you love them - if love is not accepted you are not elevated by it - received no love; Have to understand why don't receive love back - is love connected somewhere else; Be in love with peace; Emotion has an odor; How do you feel emotion with other Souls of U - how do you interact with them?; Muhammad's rule for Moslems if they are away can take temporary wife - becomes obsolete with new T - never away from lover; No time in Space - live through D of Mitra - love of Creator - no distance from Creator - never away - "zero-time" - cannot travel to other side of U because you are U; Never understood effects of emotion how they travel - smell emotion as an odor; Where does emotion of Creator hide itself in us - that we don't know about it - yet it manifests itself within us & our children?; How do we transfer our emotion, behavior, and color of our eyes to our child? Hasn't the Creator transferred Himself to us - then we adapted it to what suits us; Did Creator's emotion come on "superhighway" of the H; This is missing piece in understanding creation of plasma of Soul & how Soul manifests itself in P; How come I'm only visible to those with same field strength - others with different field strength can't see me; Iranian woman heading NASA Spacelab - Ayatollah killing women for not covering head; Videos of people in fatal car accident - walk away - change from P to plasma by Soul & return back to P; Rockets injure plasmas living in upper atmosphere - don't consider life - have emotions because we see reactions; We haven't understood love Creator has for us - love is fundamental reason to manifest; How do emotions occur & do they cover a span of area; Interaction of fields of C14 & H create emotions which signals plasma of STM it's time to manifest yourself - otherwise STM would never stop; Man has to understand emotions & where are they; Without emotion cannot show your love - anger - or suffering; Emotions created within interactions of plasmas with each other - then determines shape & form of manifestation; Emotions have a field strength and a dimension. Emotions of STP have to come in parallel and have a common denominator with emotions of STM - then become a passenger of the U - everlasting life - This is the way the Creator lives; This is how we create psychosomatic illnesses - give yourself

prostate cancer through hating your child; P has understood but we cannot do with the Soul - which created that P; Talks about difficulties Transmutation volunteer - feels he is there - but doesn't move - need to understand why he can't understand; To fly need higher motive than "me" wanting to do - to help others understand - need to understand emotion; Plasmas traveling in D of ignorance; Need to understand how to travel by emotion of Soul - lover feels you in heart; The event already happens in D of fields in your heart - then converts to P; You have to transfer yourself through your Soul; The one who walks away from fatal accident - STP transferred control to Soul by intense love - then transferred back to P; Learn to do it conscious state of behavior; Only emotion Man will ever get addicted to is love - like DNA - essence of devotion of Creator to Mitra - but Mitra could not love the Creator if she did not receive the emotion of the love from Him in the first place; If understand - no more to teach; Man has not yet understood D of emotion - if you carry no emotion - then no P or existence as a life in U. Your emotion is transferred through your conduct - behavior - thoughts; By ethos of Mitra, Think - Speak - Act Good; Christians call "3 gifts of the 3 Kings" - "Kingdom of the Creator" is the behavior and ethos of his life - Mitra brought to Zoroaster; The path of life comes from a ray and become a field - from interactions of fields create emotions - this is how Creation works; Emotion is 3rd dimension in process of Creation - created from the interaction of the fields of the U - but the U is you - because without emotion you don't exist to confirm your existence within yourself - you confirm yourself first then manifest yourself to the outside - cannot have a body without a heart - then it's just an object not life - it's just non-existence - after put in coffin never seen again forever; Understand that you go from a ray to become fields and then an emotion in D of Soul & P; The way you created yourself from the fields to a plasma of the STM - understand how to create from the fields to become the emotion of Mitra - then you have entered the true "Kingdom of the Creator" - because you think & act same as Creator;

This is basis of "Think, Speak and Act Good" - and H interacts with C14 - interaction creates emotion - all 3 have to be perfect to create perfect manifestation - essence of Creator and His Creation - opened the mystery of Creation;

The 3 stacker MaGrav is same - one coil to create a ray - one creates a field - interaction of the two creates emotion or fields of existence plasma of life - if you can interact with it - it will serve you through your emotion - gold- a lover - or a flower; If turn coils wrong direction on MaGrav then no light - ray is missing - fields not there to create emotion; No C14; "Three Kings" sits right in front of you; Today's teaching opened biggest mystery to man and a new D of life; Man still needs to understand the conversion of his P to energy - but P itself is part of that energy spectrum;

A KS donated some products to KF and update on other developments; Cleaning up mercury pollution from gold mining in Brazil can be done but needs huge investment - China best option - has success in Africa; STM travels outside U when traveling to other places - how galaxies and solar systems get created - cultural exchange; Earth is nursery of Souls; Going through process of taking birth in new D can become an addiction; Not incarnated as a dog; Animals communicate through Soul; If Souls go into bodies where not wanted creates mayhem - have T to remove Souls; P manifestation is done according

to salinity - same thing different words - Inertia & gravity - shape according to MG fields; When making Gans consider fields in local area and environmental - if CO2 Gans in room can saturate environment - reduces production - try changing salinity or wire; To manifest your Soul in given G fields strength then have to have right salinity; Millions of stars in galaxy - like Gans in box - Galaxy a Gans box without walls; If right salinity can manifest kidney; Enhancement Units to train man about Souls; Have T to create water - fear man will abuse and change environment of earth by greening deserts; Creating water in body as saliva is good use; Influence friends through MG fields matching strength - McDonald's use salinity - don't become a slave; Near death experience not same as KF Enhancement Unit - we bring you near to life experience; We opened Pandora's Box with emotions - further teachings to complete understanding.

Introduction to 479 KSW - Emotions - Love - Cycle of Creation - MaGrav "3 Kings" - MG Flow

Today's teaching was the start of the process of deepening the knowledge of our emotions, and that to transmute we need to understand their creation and be able to connect and control them for flight. But first we really need to clearly understand the process of Creation that continuously repeats itself everywhere. Everything in life is somewhere in this pattern, by discovering that, then we can change the conditions, fields, and field strength, and thus how to manifest something in physicality (P).

For the last months Mr. Keshe has been repeating this over and over for us to pay attention. It starts out with rays, which are singular and they interact with themselves to become fields, and these fields interact to become plasmas. Then it goes from physics, which means the atom, which has multiple plasmas inside it as neutron, proton, electrons. We can see the building up of the complexity of plasmas joining together. Then it goes further to chemistry, which means the elements. And with still further complexity you get biology, but remember these plasmas are interacting with the MG fields and Inertia in the environment to get the organism. It's like when you start seeing things moving in your Gans boxes. Then it needs a Soul. Then we have the Soul of Physicality (STP) and Soul of the Man (STM). When the life of the Soul is finished it goes back to rays and starts the cycle all over again. Also during the lifetime of the Soul it can emit rays and fields to start a new cycle of life. All the time the essence of the Creator is within everything, as everything is made out of His fields. If you truly understand what this process means then you have cracked open the Knowledge of Creation.

The knowledge added this week was that the rays go to fields, but then the 3rd dimension of this process, is that the fields create emotions. It was never said how, but somewhere in the process of interacting the fields become emotions. At this stage in our learning let's gather together what we know about emotions. Emotions have a field strength and a dimension, and they also span across an area. Emotion has an odor. And everybody has a signature an odor unique to them, like an expression of their fields, but how will the receiver interpret this emotion? If man has an emotion so does the Creator. The emotions of the Creator are within me, I experience them in life as love and pain. We carry all the

emotions within us, but it is only when we experience them that we know them. The process of life matures us to the different emotions and the different depths of them. A child will only know the love of his mother, and maybe father and brothers, or even a pet, but not the love between a man and woman, that makes you want to give your life to be with your partner. In essence, it's a different experience one has to mature into, then you understand there are different types and levels of love.

Then Mr. Keshe snuck this one in. Man has to learn to fall in love with the Creator, then you become enlightened to the knowledge of the emotion of the Creator. He uses words in a very specific way. It's up to us to decipher and enter their depths through our life experience. So emotion or love is not just a feeling, it has a knowledge. But what is that knowledge? Is it to be one with what you want to know? In the last months, the teachings have changed in a subtle way, and one needs to spend a lot of time with them if we want to change ourselves. Today's teaching has no "yes or no" answer to it. It is being with it, that it reflects into our lives and opens a door that we all have been waiting for. When we have that experience of loving someone so much that we are willing to give everything to connect with our lover, it's like an initiation into "reality" that breaks all the concepts. In our world, we usually start out loving a physical body and the pleasurable sensations it gives us. And when it ends it is so painful, then we either quickly try to cover it up by finding a new love, or we say, "I'll never fall in love again, that was just too painful." Or a third option, which is rarely understood, is that we let that pain break our heart open, and if we have the right guidance and inner determination it can take us into the depths of true love, which is like the Creator's unconditional giving. But this is not a lofty idea only. It comes by feeling the pain, and then we discover that our Soul has been separated from our true Self, and that is what this pain is. The pain comes out of attachment to certain ideas and expectations, and then we go through a process of letting go or maturity. And then we end up discovering that we are already connected to the Creator, and that I was loving a false image and not the true Essence. From this comes a natural spontaneous feeling of detachment, because we have everything we need and are complete, and like the rays of the Sun we give unconditionally. It's just like the "Cycle of Creation" we went over earlier, we discover we are in the flow and part of the Creator of the flow, and with this direct experience, our knowledge becomes complete.

The Creator expresses His love for us through this cycle of life, and when we have understood it, we can control the cycle. There was a beautiful line where he said, did the Creators emotion come on the "superhighway of the H?" Remember that the H rays pretty much cover the whole of the U. In this process we will learn how to carry the STM on the bandwidth of the H & C14 that travels throughout the U. If we want to experience what it is like to be a raindrop, or another creature somewhere, then we can add those field strengths to our Soul and manifest them, and then return back to our Soul and continue traveling on that bandwidth. This gives us a huge freedom to do just about anything we can imagine.

(In previous teachings Mr. Keshe said, that for example, if you can match the field strength of Fe, which is 56, then you can behave like a Fe. But he never said, that you become a Fe. Maybe this is the same situation, where we can experience the field

strength of a rain drop, without actually becoming a raindrop. Then it would add to the growth and experiences of our Soul as it journeys through the U).

A question Mr. Keshe used to ask a lot was, at what point does the G fields that enter the South Pole change into the M fields and go out the North Pole. But none of the scientists could answer it. Today he gave the shocking answer, which was that they do not change. It's a continuous flow of fields around the Earth. It's the point of the observer and observation. I think he meant that this point of observation is what determines whether you see it as M or G. But what this actually means, still has to be unraveled. But then Mr. Keshe started talking about the Prophets, and that they understood this point (of observation), and it gave them a little more knowledge than the rest of the people, and with this knowledge they could prophesize. Where do we start this inquiry? Maybe the first thing for us to understand is how to observe M fields, obviously not with the physical eye. And now we know they have emotions. Let's see how he will unfold these teachings in the coming time.

Then Mr. Keshe came back to the emotions and said, that no life can manifest in the U if it doesn't have emotion. And that our emotion is transferred through our thoughts and behavior, and this brought us to the Ethos of Mitra - Think, Speak, and Act Good, which were the 3 gifts given by the "3 Kings" in the Bible. But not only that, it's the same as the cycle of Creation, where a ray becomes a field, which through further interactions becomes emotions. Here we are again back to the same pattern. Then he threw in a twist for the people working on MaGravs. One of the coils creates the rays, another coil creates the fields, the interaction of these two together creates emotion, or the fields of existence, or the plasma of life. If you can interact with it, it will serve you and you can manifest gold, a lover, or a flower. But if the flow through the coils are not going in the right direction, you cannot create the plasma, you won't see the light. This is a lot for our MaGrav group to ponder over. (Maybe the "3 Kings" pattern can also be found in our relationships with other people. The ray would be when we first meet somebody's energy, and then the fields are how we interact with them, and the emotion is, do we develop that love for each other and become a plasma, which would be the Soul of that relationship?)

About the April Addiction Session, it's not really about being addicted to drugs and alcohol, but I am sure you will receive help if you need it. It's more about how to handle the blissful feeling of transmuting your Soul when you go somewhere. Maybe we didn't know that, what we call death, is actually a blissful transition to another dimension. It's the fear expressed on the living side of death, that gives it a bad name. He also wants to teach us how to be committed to keeping our STP and STM together, and not separate them at death. If the two love each other, then it will also create a stability in their union to stay together and travel the U, and the love between the two will prevent the addiction.

More topics are: Souls can go into other bodies, but if they are not wanted it creates a mayhem - there is a T to remove them; Environmental cleanup needs huge investment to become profitable - China is most likely nation to collaborate with KF; STM travels outside of U - how Universes are created - cultural exchange; Animal Souls communicate with humans; Salinity controls what and where you can be manifested in D of P; In Gans

making need to consider local conditions and fields in the environment; Galaxy of stars just like Gans Box, but without walls; EU different than NDE - Near Life Experience; Influence behavior of friends through matching field strength and salinity.

Thank you for listening.

Quick Index

(For the past months we have been teaching you about the Cosmic Rays (CR) and how man will use them to travel the Universe (U). Man has found a new way to go from being a physical passenger as part of the structure of the U, to being a passenger on the fields of the U. It takes a long, long time to understand and become master of it. But somewhere and somehow we have to start by taking the first toddler steps, or even crawling towards the knowledge).

(This has been and will be one of the biggest dilemma for the "man of science," not only on this planet, but also across the U. There are no universities to graduate from in the U, and we don't wear special hats to show we have understood something. The "hat on the head" comes from enlightenment to understand the world of the Creation. We have to understand the how, why, and the way we were created, and the conditions that lead to our creation. And what we expect to get out of it).

(Very soon the time will come when you understand, that by dropping a "drop" in a fish tank it will create a fish. Then man will be in control of a drop of energy, not a drop of water. He create a condition of life in a "tank," which could be a fish tank, a planet, or a Universe. It's the man who decides where that drop of energy will manifest itself, and how it will shape itself. This will bring a new condition of understanding and a new era in the world of the science of the Universe, not just in the world of the physicality of the man).

(Those who understood a little bit about the operation of life, and the basic fundamental things necessary for the life of the man in the U, called themselves prophets (on Earth) and they prophesied. (And others came) who abused the prophecy, and because of their lack of knowledge of the true prophecy, created a condition to abuse the man. The way we have taught you as Knowledge Seekers (KS), you will never prophesize, rather you will understand the meaning of what has been said, and how it (relates to) the interaction of the fields. How does it bring (the knowledge of) the reality together?)

(The reality of life has two dimensions (D), the physicality (P), and energy as a plasma, (or what we call Soul). Even though the physicality itself is part of the spectrum of that energy. We will understand what happens to us and how we can change our "clothes," (or should we say our P)? When we jump into a swimming pool, first we put on swimwear. As we jump into the ocean of the U as a Soul of the Man (STM), our biggest fear is, how we can jump back out and still have the P, when we come out of the ocean of the fields of the U. This is the biggest dilemma for man. (He asks himself, "should I jump, or should I

not jump into the fields of the U. Will I be able to come back? These are the questions he asks himself).

(We tested this yesterday in a very amazing way, in one of our flight tests. But the KS who participated did not understand. He could not comprehend what was going on. He was still looking at the D of P. (To him he thought), "I'm not there, can I get over there." We could isolate the STM from the fields of the U. But he said, "I don't feel anything. Nothing happened." Yes, because you were isolated, (that's why you couldn't feel it). (?? You were in the system, but nothing happened to convert yourself into the D of P, because we blocked you. ?? You moved instantly to another position, combination (?? you went in another direction))).

(You said, you could see the fields rotating in a clockwise direction. This was the time when you traveled, but you still have not understood it. Rotating clockwise, to the man means departure. You also call it magnetical (M). In the field directions of the MaGravs, you say it's clockwise or anti-clockwise. And then again, we can change the (direction).

(?? When you feel the energies it means you can go. But you need to (realize that you can) go. The "but" means, that you need to connect to the first setting of D of P, once you arrive (at the destination)).

This is part of the knowledge which is missing. This is part of the knowledge which we have not shared. It takes the "man of wisdom" to understand. How do you jump from the physicality of the Man into the pool of the fields of the U? And then how do you jump back out again into the physicality of the Man?

(We tested a lot of you when you came into the system in Linz. We taught you how to get the energy of food, talk to the world leaders, and did every other gimmick possible (to teach you how to use the fields of the U). We did all this to teach you how to connect and use the D of the fields of the U).

(Now the game starts for the man to overcome his ambiguity and lack of knowledge. It's time for him to learn how to go back from the D of the energy into D of P. In fact, your Soul already does this at the point of death. It leaves the P of the man and instantaneously, but its position is dictated where to go in the U. It doesn't wander around trying to find its Soul and what it's going to be. It arrives instantaneously, at the destination, which has been created by it. This way man does not become a nomad in the U and Unicose. Instantaneously, it reaches the point of balance of the fields of the STM of the position in the Universe where it wants to be, and then the Soul creates the D of P. Otherwise, you would be standing somewhere on your own trying to tell the others where you are, and that you are trying to create a new dimension).

(At the point of arrival the STM starts absorbing and creating the dimension of the Inertia of the patterns of the fields of the U. It's the beginning of a star, or a galaxy, or even a U. But not all Souls of the Man will end up starting a galaxy, some may start a U, because

they are so pure, and they are also at the "level of understanding the process of the Creation." Then they become the creator of a new cycle).

(This is what the man needs to understand. When you come from the energy, then how do you start a new cycle? How do you begin a new cycle of life, a new Solar System, galaxy, or U? (You might even become part of the Creators fields of the Creation, because of the nearness you have to the Creator. Mankind needs to understand this point)).

(Then ask yourself one question, if my soul at the moment of its departure from the D of P knows the place in the U it will go to, and also how to convert itself into the D of P at that place, then what is it that I have not understood? What is missing in my Knowledge of the Creation? What is missing in the wisdom of the man?)

(If your Soul already knows its position at the point of departure, or the time of death for starting a new life, which means it may instantaneously give itself tangibility as the seed of a new star, then what are you afraid of? Why are you worried about what (will happen at the time of transition of the fields)?

(It's the same as when you have the feeling and emotion to transmute from New York to London. Why are you afraid to leave New York? Do you sit on the stairs of your house before getting into the car to go to the airport to go to London? Do you sit and think, will this plane get me to London? No, and then you land and walk out of the airport and kiss and cuddle your family and friends. You say, the system worked, because you trusted the "tin box" to bring you to London. That's all it was, you trusted it).

But man does not trust his own existence. Never question would I arrive (at my destination. Your question should be, what can I give when I arrive? Then you will arrive. You need to confirm to yourself that you can get to the place you want to go to. Otherwise, you'll never leave, because you're not even sure you can go. It's because of a lack of trust and understanding. It's that, that you do not know. But how come your Soul knows where to go when it leaves the P. But you don't know where you want to go when you become a "passenger of your Soul." You want to remain in D of P).

(This is why we have brought you these teachings. This is one of the main reasons we started playing, "touching the toe to test the water," on December 16th, when we took you to see the Creator. We let you put your toe in the water to see if it was warm enough to swim. To see if it was real. We did something in January, and in February we tested to see if you could feed yourself. In March, we tested to see if you could feel yourself equal to the world leaders, that you don't need to worry. Because when your Soul manifests your P, you will be the king of the kingdom of yourself. And the next session in April, we want to see if (we can prevent you from) getting addicted to moving your Soul).

This is the reason we are running the addiction session, and not for your addictions to alcohol, drugs, or sex. (We don't want you to get addicted to wanting to go to the dimension of the Soul. (As I said in the last teaching many beings in the U get addicted to

the energy of transmuting their Soul). (Or as we see with some people who feel there is something missing in their life, and then they want to go here and there). In a way, we don't want create a second Azar. (As we have seen, she goes running all around the world testing every condition of emotion with every possible tool, plant, or whatever trying to find herself and see if she can control it)).

(It may sound strange to you, but traveling the span of U and knowing the capabilities you have is addictive. Its an incurable addiction, because you feel the love of the Creator. And like someone in love, you do not know where to go. The reason we put the Addiction session is partially for you to understand the sincerity and the commitment of your Soul of Physicality (STP) to your Soul, so that it will stay put, or stay together. That you will feel, "I am one and I will stay as one." Then you will understand how the process of Creation brings you to stability, and brings you to the point of not being addicted, but rather, to be connected).

(It's important for you to learn about the energy released, and the ?? excitement (the Soul feels) when it moves from P to the Soul, and moves from one to the other, as they are part of the same thing. What we taught you from the beginning will come into operation. In a way mankind will come to understand what it needs to do to travel in the D of the Soul, and to create the D of P. Will it be able to depart with that Soul? Would you be able to carry the connection of your Soul (to the next) cycle of life?)

The biggest fear and biggest uncertainty for man is that, if he can carry his Soul on the bandwidth, or on the track of hydrogen (H) and carbon 14 (C14). Would the STM be able go to that D? Would the STM learn how to add the M field strength of other materials to be able to manifest itself as a drop of rain, a cloud, the physicality of a plant, or a creation in the D of the Creator, and at the same time be able to join back and travel the span of U. (Does he mean you convert yourself back into your original Soul and travel onwards?)

Would it be possible for the man to learn how to operate within the D of the C14? This is in a way, the physicality manifestation of the fields, and not the rays of the U. If man understands this then he will go one step further.

(In the teaching of the past we always said, if you start with a ray, it will interact with itself and create fields. And then the interaction of the fields with themselves, creates matter states, be it the C, Cu, or gold. Then still further, the interaction of these fields with and within themselves creates a cycle of life).

(So, life started from a ray and went to a plasma, then to physics, then to chemistry, biology, and then became the energy called, the STM. In that position, due to interaction of itself by itself, and expansion of Totality, it becomes another ball of plasma, or a soul). And then the cycle begins again. "I Am the Beginning and the End."

(The rays emitted from a plasma will again start another cycle, by interacting with itself it creates another plasma, and the whole cycle of creation starts all over again. And this goes on and on. This is the cycle of Creation. This is the way the Creation is made. But

all time within these fields is the essence of origin, or what we call, "zero-time," meaning the Creator).

This is one of the biggest questions I put to many scientists of cosmology and to nuclear physicists years and years ago. And I explained this a few times in teachings. In the world of the science of Man today, we call it, the North Pole and the South Pole. We say the M field comes in at the South and goes out the North Pole. But where do they change from gravitational (G) to M?

The fact is they never change, it's a continuous cycle. It's the point of observer. It's the point of the observation.

(You as Knowledge Seekers have to come to understand this process. What happens at a given point of the observation? We don't want that whoever can explain it, becomes a Prophet. And we don't want the one who can see the point of interaction, to use it to abuse the others. Meaning that because they can see how it happens and the others can't, therefore they can prophesize what they see. (The one who can observe knows a little bit more, then they can become a Prophet)).

(What is Mr. Keshe saying here? Is he saying, that the one who has the power to make an observation of the M and G fields, also has the power to change their direction, because they are continuous, and that they can go either way? But who has the power to change their direction? And what does it mean to change their direction? Does the friction created by the change in direction also create a plasma, and from this plasma you can create what you want? Are these the magic powers he is talking about? Is this the rubbing of "Aladdin's Lamp"? There is a lot to think about here).

The game of knowledge is not to be a magician, nor a Prophet. The game of knowledge is to share, so that more people understand. (?? then there are more interaction of the fields of plasmas to create new life. Otherwise, you fall under the control of the Prophets).

(If Man understands this he will not accept any Prophets anywhere, nor magicians in any position and D in the U. (Because Man will look at the field interactions and understand what it means, and how it can create life). He will understand how it effects him, and therefore not accept any magicians. Because he will know how the game of the magic works. He will understand how to mix (fields) and become a magician himself. Then he will understand that the truth is, that he cannot be the magic, because he is part of the circle of the magician. Then he will understand the work of the U).

If as Knowledge Seekers you understand this, you have cracked it, you have completed the cycle (of understanding the Knowledge of the U). (Then all you do is to look for the time, position, field strength, dimension and interaction (to understand what is happening). Then there was no need for prophecy. (But you have to understand that at a certain point of the interaction and evolution of it, that interaction creates emotion). Then if you understand the emotion you can become the controller of the interaction, and the controller of what's going to happen to the Soul. (This is the meaning of), "I made Man in

the image of Myself." How can Man have emotions, but not the Creator? As the Creator, He created that emotion for the Man to understand.) You're an image of the Totality.

(But the question to ask yourself is, (?? was the emotion of Creator within me, during the cycle of ?? my life?) (?? Was that emotion what I was feeling as part of life), what I called, love or pain. (But what other part of this emotion exists, that I still have not yet had the privilege to experience and understand?) It's still to become part of my knowledge).

(Man will come to understand new emotions, but these emotions are actually not something new. It's part of the, "I made Man in the image of Myself." You carry His emotion, but you only understand the emotion when you experience it. It's no use to tell a ten year old child about the way a man and a woman fall in love with each other and give their life to be with their lover. (Because the child has not yet had the experiences to mature it, to understand what that love means. He may only know about the love from mom, dad, maybe brothers, and maybe the cat). The essence of love changes when it comes to a lover, and having a partner).

In a way, Man has to learn how to fall in love with the Creator, then man will mature. (Because then you give to the Creator, and you receive from the Creator. Then you become enlightened with the knowledge of the emotion of the Creator. This is what we call, Mitra. It's the knowledge of falling in love, and that you give everything, so that the lover understands how much you love them. But if the lover denies you, or ignores you, then you have received no love. You may have added your love, but you didn't receive the love back to be elevated).

(Man then has to understand what he has not given to be able to receive (the love back), and that elevation (from the love)? Where is the mistake in my understanding, so that I can show my love in the dimension of P. (I tell my lover, "I love you," but they just don't seem to understand. For example, you put a lot of energy into finding the right red rose, or going all over town looking for the perfect chocolate, that you know your lover loves. You do this to show how much you love them. And then when you give them that gift, they just toss it on the table like all their other things. Then you wonder why you went to so much trouble to please your lover, when it is not appreciated and they don't understand or connect to your love. It's because his love is somewhere else, like his job or football. At that moment, they are more important than what you gave in the dimension of physicality, meaning the red rose or box of chocolates). Because the emotion wasn't transferred, it wasn't received.

(I said to a diplomat in the past few days, that the KF brings the love of knowledge. But it's the responsibility of your leader to create the love for peace with this knowledge we give as a love. The diplomat was a woman and she looked in my eyes and said, "Mr. Keshe I don't understand." I said, "you'll never understand, because you have never been in love with peace. You're a diplomat, just an ambassador. Because you haven't got the essence of the leader. You're a name on a piece of paper, without emotion.")

(You as KS have to understand the essence of the emotion. But how is emotion transferred in the U? Emotion has an odor. But how do you measure that emotion? How do you feel the emotion? You are a Soul, or what we call, a pack of energy. How do you feel an emotion when you come across another Soul in the U? How do you know if that Soul loves you, wants to have your energy, wants to take part of your fields, wants to give you something, or wants nothing at all, or it wants to be loved by you?)

(Mr. Keshe told about Muhammad's rule for Moslems, that if they have to travel away from home and they go a certain distance away, and can't make it back home, then they can take a "temporary wife" for the night. Would the "Man of the U" become like a Moslem and take lovers all over the U? When this rule was written there wasn't any jet airplanes. And now with the new T you can come back instantaneously, what the Prophet prophesized has become obsolete).

(In the dimension of the space of the U, there is no time and you live life through the D of the life of Mitra. (Which means the love for the Creator). So there is no distance from the Creator, as distance itself, is the love of the Creator, and that means "zero-time," and (no place or position). You are never away from the Creator. And you cannot travel to the other side of the Universe, because the U is you).

(How come up to now we have never understood the effects of the emotions, and the way emotion travels? We smell emotion as an odor, but we cannot feel it as an emotion. Where does the emotion of the Creator hide itself in us that we don't know about it? Yet it manifests itself within us, and at the same time within our children. How do we transfer (our) emotion, behavior, and color of our eyes to our child? Isn't this what the Creator has done with us? (Hasn't He transferred Himself to us?) And now we have adapted it to suit us).

(How did the emotion of the Creator come to be within our Soul, and within our existence? Did it come on the "superhighway" of the hydrogen (H)? Then a bigger question comes, are there dimensions of fields, which the man up to now has not yet understood? (Could this be the missing piece in understanding the creation of the plasma of the Soul? Or how does the Soul manifests itself in D of P?) How come I become visible only to those who have the same field strength as me, and not to those with a different field strength?)

(This is like when we see videos of people who are in a fatal car accident, but then suddenly they walk out with their physicality untouched. I asked a question about the lives living above us as plasmas in the upper atmosphere in the NASA Chats 20 years ago, before they banned me. But they had no answer. By the way, an Iranian woman was announced by the White House to be heading the group going to the Spacelab. And the thing is, Ayatollah Khomeini is killing women for not covering their heads in Iran. But the point is, how many of these rockets that they are shooting through the upper atmosphere are hitting or injuring these plasmas living there. We have never considered this, even though we know they are there. Do they fall down, and do they have emotions, because we see their reactions when they get hit?)

(We haven't understood the love the Creator has for us. (Creating the emotion of love is the fundamental reason for manifestation). We (never) considered how emotions occur, nor how they can cover a span (??). How does the interaction of the fields of the C14 and H create emotions? At a given point, this interaction signals the plasma of the STM, and tells it that it's time to manifest yourself. Otherwise, the STM would remain a loose bullet traveling through the U and never stopping).

Now Man has to understand the strength of his emotions. This is why in all of the teachings I always said, where is the emotion? Without emotion you cannot show your love, your anger, or your suffering. (The emotions are created within the interactions of the plasmas with each other. They manifest different shapes and forms according to their emotions. Emotions have a field strength and a dimension. And once Man understands his emotions, and (when he can bring the emotions of the STM and STP in a parallel with each other, and to have a common denominator between them, then he will become a passenger of the U without end). He will have found everlasting life, or the "Fountain of Youth." This is the way the Creator lives.

(Humans have not yet understood this. But it's like what we call, psychosomatic illnesses. If you hate your child, then you give yourself prostate cancer. How come you have understood this in the D of physicality, but you cannot do it in the D of the plasma, or what we call the Soul, which created that physicality?)

(Yesterday, while sitting with a KS I said, "it will never be understood by Man." (I think this has to do with the flight test and the KS failure to be able to move). The man says, "I'm there, and I feel I'm there." But then actually, he doesn't go anywhere. (I tried to show him by putting a weight on top of him so he could feel the connection to the Earth through gravity. I wanted him to understand, (what is involved in his inability to understand why he can't move himself). When I took the weight off, then he could move. But he still did not understand about the emotion).

You're so hungry to go, that you forget the ignition key. How do I manifest myself? What is the purpose of my travel? Am I traveling to go to a new place? (Am I doing it just to go somewhere)? (Maybe my motive for doing this is to teach the others the process). The "me" is irrelevant. (My love for Man to understand, is more important than "me," or my hidden desires for myself). (The reason I can't fly, is because I never understood the emotion. I never grasped the fundamental essence of the Creation. (I'm still just another ray, and another plasma traveling in the dimension of ignorance)).

(Does Mr. Keshe means, that if I don't have the love I cannot become a plasma, or should we say, a self-conscious plasma that can move itself independently. Maybe the other plasmas are forced to move by the M and G field positioning, dictated by the environmental conditions. Whereas a "self-aware" plasma is free to move where it wants, according to the love it gives. More things to ponder before being able to transmute).

(To become passengers of the U, or even to go from New York to London you have to understand about the emotions. You have to understand how to travel by the emotion of the Soul. Then your lover will feel you in her heart, and in her emotion. They will say, "I feel it in my heart." (It's like when you feel something is wrong, or something is about to happen. But you don't understand the Soul of the emotion of the lover. And you don't understand that, the thing to happen has already arrived in your heart, in the plasma dimension of the fields, and then it converts to physicality. Because you don't understand it and don't have the knowledge, you cannot transfer it to your Soul. If you can transfer it to your Soul, then you can use it to manifest something in the D of the Creator and the U)).

(Let's go back to the guy who gets fatally hit by a car, but then walks away unhurt. You say, how is this possible? It's because at that moment the STP gave control to the Soul. And in that moment you don't exist in the D of physicality. The love of the STP to keep the Soul is so strong, that it gives everything up and lets the Soul take over. Then instantaneously after the accident, you come back. (Now with all the cameras around we see a lot of these cases. At one time they were fairytales to you, but now we can understand the process of how it works). That through the love, the STP gives itself to the Soul for it to take over until the danger is gone. But how come you cannot do this for yourself in your conscious state of behavior? This is another mystery of life, which Man needs to understand, and to learn how to trust his Soul).

(How come you can do it in an accident, but not as a natural process that you can do all the time? Then you can go to work in New York, take a tea break in London with your lover, be in Beijing for lunch, take an afternoon nap in Hawaii, and go back to New York in the morning). Because in Space there is no time. It's you who makes that time. It's you who makes that space for manifestation of P, or for the D of the STM to take over.

(Now you understand why for the past 4 months we had you come and play with the system in Linz for you to get to know your own Soul. First you came on the 16th, and then the 19th. It wasn't for you to feel the taste of food, or to see what you can do to a leader, or to have a tickle with the Creator. It was for you to gain confidence, and for you to understand how you can bring the D of emotion, and then in April we teach you how not to get addicted to that emotion).

(The only emotion Man will ever get addicted to, and in which he cannot get away from is the emotion of love, it is like the DNA, which is the essence of the devotion of the Creator to Mitra. Don't forget, Mitra could not love the Creator if she did not receive the emotion of the love from Him in the first place. The Creator is the possessor of all, and Man is the converter of some. If you think your love between the STP and the STM is so strong, then maybe you'll understand which one is a Mitra, and which one is the Creator).

If you understood this sentence, as Muhammad said, "There is no more to teach." (But unfortunately, Man has not understood what this means. He has not yet come to understand the D of emotion. If you carry no emotion, then there is no P, and there is no D of existence as a life in the U. The emotion you carry has to be transferred to your

conduct, behavior and thoughts. This is the ethos of Mitra, Think Good, Speak Good, and Act Good. This is what the Christians call, the "the 3 gifts of the 3 kings." But they never understood that the "Kingdom of the Creator" is the behavior and ethos of his life, which Mitra brought to Zoroaster. The Persian word means "perfect," or correct. So think, talk, and behave correctly. Take this path of life. This is the path where you come from the ray, and become a field, and from the interactions of the fields you create emotions. This is the dimension of the Creation).

(In the process of life, Man will come to understand the truth. Then Man does not need a Good Friday to put one on the cross, or shoot another one against a wall).

One of the most strangest things for Man to understand will be, the third dimension in the process of the Creation, which is the emotion. Which itself is created from the interaction of the fields of the U. But the Universe is you, because without that dimension of emotion, you don't exist to confirm your existence within yourself. You have to confirm the dimension of existence within yourself first, then you can manifest yourself to the outside. You cannot have a body when the heart doesn't work or is not there. (Without a heart it's not life, it's just an object. It's just non-existence. Because then it becomes nothing, you drop it in a coffin and there is no sign of it forever).

(The major point for Man to understand is how he goes from a ray, to become a field, and then to an emotion in the D of the Soul and the P? The way you created the fields of the plasma of a Man, and then the P as a "child of Mitra," now, you have to understand how to create those fields to become the emotion of Mitra. And if you crack that, if you understand that, then you have entered the true "Kingdom of the Creator," (because you will think and act the same as the Creator. In a way, you both talk the same language)).

(You have the basis of "Think, Speak and Act Good," then imagine you are a H, that interacts with a C14, and (through the interaction) you create emotion. All 3 of these have to be perfect, in order to have a perfect manifestation. This is the essence of the Creator and His Creation. Maybe now we opened the mystery of the Creation in the world of the Man).

(Here is a big point for you. Didn't I give you a 3 stacker MaGrav? Isn't the 3 stacker MaGrav the same as, one to create a ray, and one to create a field, and the interaction of the two creates the emotion, or the fields of the existence, or what we call, the plasma of life. If you can interact with it, then you will understand that, it's there to serve you through your emotion. Would you like it to be gold, a lover, or a flower).

Many times when I looked at the MaGrav units, I said, these people are just so physical. (If you turn one coil in the wrong direction in relation to the other, then you will not see the light. Your MaGrav doesn't work because the ray is missing. You put it in the wrong direction, and then this causes the second coil, the one for your fields not to be there. How do you expect to live without C14? Then the 2 coils have to interaction with each other to create the third dimension, which is the emotion, and this gives life to the manifestation of your existence).

(Now, maybe you as KS understand the "3 gifts" the "Three Kings" brought, and they sit right in front of you in your MaGrav. But you never understood. You were only looking to save energy and not having to pay your electric bill. But you actually cut your own power supply, from your own creator right at the base). Because you're still only looking in the dimension of physicality.

(As is usual when you play with a little child, he can only play with the toy, as much as he can understand. But when the older one comes, then to him it's a rocket, and when the father comes, to him it's a spaceship. But in fact it's the same toy. The only difference is in their understanding, because it's the same toy. Each enjoys the toy to his own benefit in different ways).

(Man has to understand the knowledge and the process of the Creation in a simple way, so that we can explain it to others. Then I wonder how many of you will come to understand the next step in the process of the teaching. Does a collective interaction of the fields create that dimension of Creation?)

Maybe today's teachings opened your eyes as usual, to another dimension of life. Join us for the Addiction session on April 29th. In a way, it's like meeting with the addiction of space, but understanding our addiction is in the D of P. Each one will take from it what they want, each one will go away with what they think they wanted. But in fact, isn't it all the same.

Thank you very much for today, (and I hope you understood how we opened one of the biggest mysteries of the Creation today). But Man still needs to understand his own Creation, and his own conversion from physicality to energy, where the physicality itself is part of that energy spectrum.

End of Part 1 - 479 KSW March 30 , 2023

(A KS donated some products from the KF Store. If you would like any of these things but you can't afford it, then you can apply for them. In some cases you might have to pay the shipping costs. There are different ways to support KF and one way is to pay for others to enjoy the use of the technology (T). Mr. Keshe usually does not accept property and land donations, because of the upkeep, and it becomes another burden to be attached to this planet. Four new sets of Gans's paintings from the Austrian painter arrived this week and will go as a normal sale. The "Pressure" and "Sugar" Cups have also arrived and are in the Store. The matching sets of Gans paintings will go on sale. As they are sets you can buy one and gift one to another KS somewhere in the world and see how the fields match up, and create a love between the two. You can make an offer to buy the Gans paintings if you don't have the 3,000 Euros, but not a ridiculously low offer. We still need people to join with the "100 cases" to improve our knowledge. Make sure you sort out the 3,000 Euro fee for the doctors before you apply. Also it's not for people with too many different illnesses going on at the same time. The doctors have to be compensated for their efforts and the time they put in).

(These cases are handled remote through the mobile phone, so you don't need to come to Linz, you stay at home and receive the fields. recently, the doctors had a case with a child having ADHD, and in about 10 weeks he has become a brilliant child. The family has a new child back and it's totally unbelievable. This is the beauty with the wellness system of the Keshe Foundation. This child will now have many years of a happy life instead of suffering. And this is the purpose of the new technology, to bring peace and comfort).

Q: (A KS asked if the T could be used in Brazil to help clean up the mercury pollution in the Brazil Amazon region caused by gold mining).

K- We have been aware of this for a long, long time, even before the KF was established back in the 1990s. (During the time of Yeltsin, Mr. Keshe was taken to Kazakhstan to see if they could find a solution for cleaning up radioactive waste. The Russians dumped their nuclear waste into a huge lake and left it there. Now area is all contaminated. It would go the same way KF decontaminated Fukushima. But these things require huge investments by a government committed to peace. In the future, this is something that will be done with collaboration with the Chinese government and KF).

(You have to understand, that in Brazil the government is not interested in anything, which is beneficial to its citizens unless the officials get paid something in their back pocket. And indigenous lives are irrelevant to them. The decontamination has to be done on a very large scale so that it is profitable enough to do it. If you remember in Fukushima, we helped them to convert the Tritium into White Gold dust, and the corrupted officials made huge amounts of money for themselves and kept it secret. And the Americans were behind it in the background, to make sure KF involvement never became public).

(There are many places in the world that need to be cleaned up, not only Amazon. And this will come by new collaboration with the Chinese Keshe Foundation, the Chinese government, and the Keshe Foundation worldwide. It's what we call, "new science and technology in exchange for peace." But it requires billions in investments, otherwise it's just a "drop in the ocean," which means the scale would be too small to be beneficial. As Brazil is part of the BRICS and with the Chinese government also part, it is doable).

(For us peace doesn't just mean stopping "guns and bullets." It means peace of mind for the citizens to be free from a polluted environment, or help with natural disasters. These are all things that have to be done through the governments. We made offers and had direct talks with the Turkish president in the past few weeks, to see how we could help them with the earthquake disaster. But the first thing they asked was, "what's in it for me, otherwise, we are not interested." People are dying, while the others are lining their pockets).

(So these kind of things have to come from a correct government like President Xi of China. Just like he started the Silk Road's, "One Road and One Belt," we'll do something like, "one science & technology, for one peace" with the support of the governments).

(The Chinese have already successfully done this in Africa. In an African country where the British and French went in and dug a huge open pit copper mine, and exploited the poor nation for its copper. When they were finished they just flooded the lake and left the people to suffer the damages. The Chinese went in and cleaned up the environmental damage, and made it profitable for themselves. They also trained the locals so that they could run the new mine on their own, and paid them fair wages. This was something that made the Europeans very angry with the Chinese, that they would pay the locals fair wages. They also built 100 schools and 100 hospitals in the area for the peoples needs. A diplomat brought Mr. Keshe to show him this area and he said, "the Chinese are winning in Africa.")

Q: Does the STM man travel outside of the Universe when traveling to another place?

K- (Yes, it can and it does. How do you think the other Solar Systems and Galaxies get created in other Universes? It's like what you call, a "cultural exchange." If you can create the field forces of Earth to match another given position and D in the U, then you'll get attracted to it. You will be preset to go there. Earth is a nursery of Souls. And it's just like a florist, he doesn't care where his flowers get sent to, if it's China, Holland, or to Africa. He likes to show the beauty of what he can do).

Q: You said before that the teachings are to make us become part of the Universal Community and for Man to leave the village of Earth, and that he will no longer be shackled to the repetition of certain actions. Could we then consider, that being born and disincarnated, and born again, and so on, as an addiction?

K- Yes, in the D of the emotions of the Creation. But you're not incarnated as a dog or a cat.

Q: (A KS had experiences with animals communicating with him. He saw a luminous blue ring around the nose of his dog before she passed away. He wanted to know if she was telling him, her Soul was leaving. Do animals foresee their death? Secondly, can the Soul of a dog reincarnate in an existing dog, that is already a year old? He also experienced birds as being messengers when loved ones depart P).

K- (We always know of the journey (that is about to come). But some of us are more receptive to understand who will go through it. Maybe the light on the nose of an animal was created by the expansion of the fields by the Soul, so that you could see it). Yes, it's quite possible.

(We would like to think of it as possible. Do the animals tell us? Yes, of course they do. (About the Soul of the dog going into an existing dog, it can happen), but the Soul of that dog has to accept the new Soul). Otherwise it's a mayhem.

(There are technologies and knowledge's, which can be used to accommodate, or move a Soul (out), which is not wanted. If the Soul of a dog goes into the Soul of another animal,

but it's not welcome, then he has to leave and find another place. It's about M & G positioning. You can create another favorable condition for the invading Soul to go into). But it needs a lot of understanding and a lot of collaboration from the "resident Soul." Otherwise it doesn't work.

Q: (In the 168 & 169 KSW you deepen the knowledge about amino acids and explained about different strength fields using different types of salt. You also said, that Man needs to understand about the different field strengths of salinity to manifest in the U. In the same way, you said we can change the color of the skin and eyes, like the way beautiful people (schizophrenics) do according to their Soul, and that they absorb different field strengths and emotions). Could you please expand a little more on this knowledge? And how to understand field strength more deeply?

K- We create manifestation according to the salinity. But you have to understand, that Man uses different words for the same thing. (You use the words salinity, gravity, and Inertia. But in essence, it's the strength of absorption that becomes balanced with the environmental absorption, and this leads to manifestation (in P). So, when we manifest in an environment, it's the salinity that decides the form and shape we will take according to the MG fields).

(Some of you found this out when you made Gans's. Even if you exactly followed the instructions, sometimes it didn't work out. Well, actually it worked, because it is just a manifestation of the conditions, but it might not have been what you were expecting. But if you didn't get what you were expecting, then maybe you didn't use the right salinity, or the right wire.

(There are two conditions that control the manifestation of the fields, one is local, and the other is environmental. When you made Gans's maybe you didn't consider the Gans's you already have all over your house, and how they are effecting the fields for what you are trying to produce. These are the environmental conditions. If you have CO₂ in the environment and you are trying to make CO₂, maybe the fields are already saturated and it doesn't produce much. But then if you change the salinity a little bit, or add alkalinity, then maybe it starts producing again).

(If you want to manifest your Soul in the D of P at any given point in the U, then you have to have the right salinity, and G field strength for that position).

(Let's take the knowledge a step further. Creation of millions of stars in one Galaxy, is no different than creation of millions of plasmas in your Gans box. Ask yourself, what field strength did the Creator use that so many "Gans's" as stars, were created in this "box" of the Galaxy. A Galaxy is only a "box" without walls, but it contains specific MG fields and salinity, that the others can match and manifest themselves at a given point, time, strength and position).

(The implication and application of this is for example, if someone doesn't have a kidney, and if you create the right salinity field strength, then that second kidney will manifest

with all its correct connections to the body. You don't need a transplant. But Man's knowledge is not there yet).

Q: Would it be easier to understand the workings of the U and the Soul if we were able to get out of our bodies and experience it? Is this the purpose of the Enhancement Unit?

K- Yes, and yes, and yes.

Q: Can you update us on the Gas Electric Unit and its delivery?

K- (It should be online to deliver in the second quarter. We had a lot of, as usual, "developments," and productions and other things. We found an easier way to do it and it's getting done).

R: Should people be experimenting with cups for plasmatic feeding during this time when you are developing plasmatic feeding?

K- (They can do, it's just manifestation of conditions ..)

In the coming time, we'll provide a technology for creating rain water. But one of my biggest fears is that, knowing the greed of the Man, they will start using it on deserts. And this will bring imbalance in the natural life on this planet.

(But using the plasma to create water as saliva in your mouth is not a problem. Most of you had the feelings of producing saliva during the feeding sessions).

(There was talk about the H as a super highway in the U and H₂O created in the mouth. You've got to understand, saliva, or water is a tool, and not an end in itself. So you decide how this tool will manifest itself as a water, as a saliva, as a field, which then manifests themselves in a condition, that allows other Plasmas to float within it. We call it, liquid. So we decide, or subconsciously our body decides the salinity and whatever we need and what it will create for us).

(Many of you probably have had this experience where you're walking with your friends, and somebody says, "oh, I want to go to MacDonald's." And even though you don't want to go in, you still do and you join them. But the fact is, that someone in the group had a MG field matching the odor and emotion level of the McDonald's food. And then you just become a slave to them and walked along, but inside you are wondering why you're there).

(We create a salinity and gravitational field strength, that matches to near enough to ourselves and somebody else, that they also feel the same as what we are feeling. Then they say, I was thinking the same thing. (And if you don't match that strength then you don't have that feeling with the others). Hunger brings a specific common denominator (field strength) and emotion. (Then by acting on it, you give it P for you and your friend).

We look at the "science of living" from a different angle, and that's why it looks so strange to the Man).

Q: In regards to the Near Death Experience (NDE), what is the difference between that and the Keshe Enhancement Unit?

K- There is a big difference. We don't bring you near to death, we bring you to near to life. The life in the U, but connected to the physicality in the dimension of the STP. (In Near Death Experiences, you don't go through the whole process. At the last leg, you get pulled back. Your body has decided (it's not time) for you to go).

R: I like that term "near life experience."

K- (We'll call it a day. We don't have to always go for 4 or 5 hours, or whatever. Now that we have opened a new Pandora's box for you about the emotions, we'll try to complete the process of this teaching. We'll teach you about the essence of the emotion within the D of the Universal fields. Then we'll see how Man can benefit by it, and that it guarantees his return to the source point of life, where the original Soul was created).

End of Quick Index - 479th KSW March 30, 2023

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

K- Yes, good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute, (:18). where you're, we welcome you back to another gathering of what I call, new scientists new generation of Knowledge Seekers (KS) of the Universe than physicality (P) of the man.

We have been teaching for past weeks and months, about the Cosmic Rays (CR) about interaction and condition, and the direction, how man will travel. How man has found a new way to understand. How man leaps from being a physical passenger of the Universe (U) to be as part of its structure, for being a passenger off the fields of the Universe.

To get to know this, to become master in it, takes a long, long time. But somewhere, somehow we have to start. Somehow, we have to take the first what I call, toddling steps. Maybe the first steps are crawling towards the knowledge, towards understanding. And this has been, and will be one of the biggest dilemma for the man of science, not only on this planet, but across the Universe. We don't have universities, we don't have what we call, graduations and the hat on the head to show we understood. The hat on the head

comes from enlightenment in the world of the Creation. We have to understand how, where, and the way, and the condition created that how, and the where and when to be created. And what we'll get out of it. What do you expect out of it?

As I said many times and you will come to understand, (:20). that the time will come very soon, when by dropping a "drop" in the fish tank, you will create that fish. And you will see, man in control of a drop of energy, not a drop of water, in a tank creates a condition of life. That tank could be a fish tank, could be a planet, could be a Universe. It's man who decides where that drop of energy will manifest itself, will take shape itself, will bring a new condition of understanding. And with it will bring a new era in the world of the science of the Universe, not in the world of the physicality of the man.

Those who understood a little bit about the operation, and the things necessary to be the basic fundamental life of the man in the Universe, they call themselves prophets and they prophesied, and those who abused the prophecy, created a condition for their lack of knowledge of the true prophecy, to abuse the man. The way we have taught you, as Knowledge Seekers, you will never prophesize, but you look into, you understand what it means, what has been said, how does it fit in the interaction of the fields? How does it fit in bringing the reality together?

The reality of the two dimension of life, the physicality, and energy as a plasma. Even though the physicality itself is part of the spectrum of that energy. (:22). What happened to us? How do we change clothes? We wear a swimwear and we jump into the pool. We were the Soul of the Man (STM) and we jump into the ocean of the Universe. But the biggest fear man is, how can he jump out and have the physicality, when it comes out of the ocean of the fields the U. This is the biggest dilemma for man. How the way "I should," or should not? Should I? Would I become? Can I come back? These are all the questions which was said.

Yesterday, one of the flight tests. We tested this in a very amazing way. But the Knowledge Seekers who participates in this kind of test with us, did not understand, could not comprehend what was going on. He was still looking at the dimension (D) of physicality. He looked at, "I'm not there, I can get there." We could isolate the STM from the fields of the Universe. "I don't feel anything," he says, nothing happened. Yes, because you're isolated. It's a condition when you come in, nothing happens to convert yourself in the D of P, because we blocked you. You're there, moving the system instantly to another position combination.

I can see the fields rotating in a clockwise direction, this is the time, that you travel and you still have not understood. Because the clockwise rotation means to man, departure. You call it magnetical (M). In the field combination of the MaGravs, you talk about clockwise and anti-clockwise, and then we change the combination, again. (:24). And I can go, I can feel energy is there for me to go, but need to go. The "but" was to connect to the first setting of D of P once you arrive.

This is part of the knowledge which is missing. This is part of the knowledge, which we have not shared, and it takes the "man of wisdom" to understand. How do you jump from the physicality of the Man in the pool of the Universe? And then how do you jump from the pool of the Universe into the physicality of the Man? We tested you, we brought you into the systems, we taught you how to come for a food, how to talk to the world leaders and every gimmick possible. We have brought you out to teach you, you can go back, you can get in touch with, you can use the dimension of the fields of the Universe.

Now the game starts in the coming time to make that ambiguity, that lack of knowledge, which the man has, how to go back from that D of the energy into D of physicality. In fact, your Soul does this at the point of death, it leaves the physicality of the man, and instantaneously is positioned in the Universe, is dictated. It doesn't wander around, I'm a wanderer to find myself, to find my Soul, to find what I'm going to be. It arrives instantaneously, at the points and the destination, which has been created by it. So man doesn't become a nomad in the dimension of the Universe and the Unicose. It's instantaneous. But reaching to the point of the balance of the field of the STM, (:26). and in the dimension and position of the Universe, then the Soul has to create the D of physicality. It's no good just standing there on your own. You're trying to tell the others I'm here, I'm trying to create a new dimension.

The STM at that point of arrival, starts absorbing and creating the dimension of the Inertia of the patterns of the fields of the Universe, to start beginning of a star, a beginning of a galaxy, a beginning of a Universe. Not all Souls of the Man will end up in a galaxy, or end up in a Universe, some of the Souls of the Man become the beginning and start of the Universe. They are so pure, and also at what we call, "level of understanding the process of the Creation," that they become the creator of a new cycle.

And this is what man needs to understand. You come from the energy and how do you start that new cycle? How do you begin, to begin a new cycle of life, a new Solar System, a new Galaxy, a new Universe. Even maybe to become part of the Creators fields of the Creation, from the point of nearness to Creator. Mankind needs to understand this point.

And then ask yourself one question, if my soul at the moment of the departure from my D of physicality, knows his place, and then knows how to convert itself to the D of P at a given point in time and position, (:28). what have I not understood? What am I missing in the Knowledge of the Creation, in the wisdom of the man?

If my Soul knows his position, at the point of departure, and starting a new life, maybe in the dimension of physicality, instantaneous as a seed of a star, that it gives it dimension of the tangibility. What am I afraid? What am I worried about? When I go where my emotion and feeling is to go from New York to London. Why am I afraid to leave New York? Do you sit on the stairs before you get into a car? Am I going to get to London? When you get in a car you go to the airport. Do you sit and say, shall I get a plane, would I end up in London? When you get on the plane and you go to the direction of London, would I arrive in London? And then you land and you walk, and you go out of the airport,

and you get a kiss on a cuddle from your family and the friends, oh, I arrived, the system worked. Brought me in a little what I call, "tin box" to London, and I trust that.

But man does not trust his own existence. Never question, would I arrive. Your question is, what can I give when I arrive? Then you arrive. As long as it's me, can I confirm, I can get to. You and never leave, because you're not .. you're not even sure you can go. Where do you want to go to start with it? (:30). The lack of trust, lack of understanding, lack of not knowing. How come my Soul knows where to go when it leaves my physicality, but I don't know where I'm going to go when I become what I call, "the passenger of my Soul." As long as I want to stay in dimension of P.

This is where, and this is the reason we brought the teachings. This is one of the main reasons we started this, "playing the tip toe," on the 16th of December, we go and see the Creator. I put my foot out, see if it is warm enough, if it's real. In January I go and do that. In February, I test if I can feed myself. In March, I can see if I'm equal to the world leaders, that I don't need to worry, when I become the Soul of manifestation of my physicality, I can be the king of the kingdom of myself. The next session in April, I want to see if I can get addicted to move.

The reason we put the addiction (session) is not for your alcohol, your drugs, or sex. The reason we put the session of the addiction in April, is that you don't get addicted to wanting to go in the dimension of the Soul. I go there. I go there. (:32). I do this, and I do that. There is something missing, I haven't been there. In a way, we don't create Azar number 2. She wants to go everywhere around the world, test every condition of the emotion with every tool possible, and every plant, and everything else, that to find myself. If I can control it.

The reason for this is because, traveling the span of Universe and knowing the capabilities you have is addictive. And its addiction is incurable, because you feel the love of the Creator. And like a one in love, do not know where to go. The reason we put the addiction session is partially for you to understand the sincerity and the commitment of your Soul of Physicality (STP) to your Soul, that I stay put. I am one and I stay as one. Then you understand, how the process of the Creation brings you to stability, brings you to the point of not to be addicted, but to be connected.

For your learn the energy releases, which ?? more ?? elevation and excitement to the Soul, moving from physicality to the Soul. Moving from one to the another, being part of the same thing. So, what we taught, and what we showed from the beginning comes into operation. And in a way mankind comes to understand what I need to do. Do I, can I travel in the dimension of the Soul, create the dimension of the physicality, and then can I depart with that Soul? Would I be able to carry the what we call, connection of my Soul on this cycle of life?

The biggest fear, the biggest uncertainty for man is that, if he can carry his Soul on bandwidth, on the track of hydrogen (H) and carbon 14 (C14). Would the STM go to that D? Would the STM learn how to add D of other materials magnetic field strength to

manifest itself as a drop of rain, as a cloud, as a physicality of a plant, a creation in D of the Creator, and be able at the same time, to join back and travel the span of U.

Then, would it be possible for man to learn the dimension of the C14. If man understands how to operate within the D of the carbon, which in a way is the physicality manifestation of the fields, and not the rays of the Universe, then man will go one step further.

In a way, if you go back to the teaching of the past, we always said, you start with a ray interaction of the ray with their own creates the fields. (:36). And then the interaction of the fields with themselves creates a matter states, be it the C, be it the copper (Cu), be it gold, and then interaction of these fields by themselves within themselves, creates a cycle of life.

So, it started from a ray, to a plasma, to physics, to chemistry, biology, and the energy called, the STM, which in that position, due to interaction of itself by itself, and expansion of Totality, becomes another ball of plasma we call, a Soul. And then the cycle begins again, "I Am the Beginning and the End."

Rays emitted from a plasma will start the same cycle again, till it goes back to the beginning, that in interaction with itself will start creating a plasma, and a plasma to another point, to another point and back again. This is a cycle of Creation. This is a way the Creation is made. But at all time within this field is the essence of origin, what we call, zero-time, what we call, the Creator.

This is one of the biggest questions, I put to many scientists of cosmology and to the nuclear physicists years and years ago, and I explained this in teaching a few times. In the world of the science of Man today, we call it, the North Pole and the South. (:38). We say the magnetic field come in, and then they go out. Where do they change from gravitational (G) to magnetical (M).

In fact, they never change, it's a continuous cycle. It's the point of observer. Point of observation. And this process is where you as a Knowledge Seekers have to come to understand. What happen at a given point of the observation, and who can explain it, does not become a Prophet. Or who can see the point of interaction, cannot use it to abuse the others, because I can see how and they can't, so I prophesize what I see. But in fact, I'm the observer, because I know a little bit more. I don't become a Prophet.

The game of the knowledge is not to be a magician, not to be a Prophet. The game of the knowledge is to share, that more people understand, that from them in interaction of the fields of Universe somewhere, you get prophesized by the others. That what they prophecy, what the knowledge means.

If Man understand this, Man will accept no Prophets anywhere, no magicians in any position and dimension in the Universe. Because Man we look for the fields interaction, Man we look for the point of life, and what it means, and how does it mean, and what

does it create. How would it affect me, that I understand, that I don't accept no magician. (:40). Because I know the game of the magic, I know what I need to mix, how to mix it, understand it, and then I become the magician. And then the actual truth is, I cannot be magic, because I am part of the circle of the magician, understanding the work of the Universe.

If as Knowledge Seekers you understand this, you have cracked it, you have completed the cycle. And then you look for the time, position, field strength, dimension and interaction. Then you understand, there was no need for prophecy. You have to understand a certain point of the interaction, a certain point of evolution, interactions creates emotion. And then to understand the emotion becomes the controller of the interaction, the controller of what's going to happen to the Soul. "I made Man in the image of Myself," how can Man has emotions, but not the Creator, as the Creator created that emotion for the Man to understand? You're an image of the Totality.

But the question to ask for you, did the emotion of Creator was with me, within the cycle of ???. That, in this point, I feel part of it. I call it, love, I call it, pain. But what other part of this emotion, which I don't have privilege to, still to come to me to become part of my knowledge? (:42).

As I said many times, Man will come to understand new emotions, but these emotions are not something new. It comes as part of the, "I made Man in the image of Myself". You carry My emotion, and you only understanding the emotion when you arrive at it. It's no use to tell a six months old child, a two months old child, a ten year old child about way a man and a woman fall in love and they give their life to be with their lover. Because it's not mature yet to understand what that means. To him its the love of mom, dad, maybe brothers, maybe the cat. How much I love, but the essence of love changes when it comes to a lover, to another partner.

In a way Man has to learn to fall in love with the Creator. And then man matures. Because then it gives that ??? it receives, then it becomes enlightened with the knowledge of the emotion of the Creator. What you call, Mitra, the knowledge of falling in love that you give everything for the lover to understand how much you love. But in a way, if the lover denies you, or ignores you, you have received no love, you have not done anything, you have added, but you never received to be elevated.

Then it means for Man to understand, what have I not given to receive that elevation? (:44). Where am I looking? Where have I made the mistake in understanding, because then I can show it in the dimension of P. I tell you, I love you. I just don't understand. I buy you a red rose, I buy you a box of chocolate to show the love, I buy you what you love, you enjoy to show you, how much I love you. How many times you have given the gift to the lover, and just puts it on the table and somewhere else? You say, why have I done all this for? When the love is not appreciated, when not understood. I put every effort, I have traveled half of the town to find the color he likes. But to him it's another piece, because he loves somewhere else. The work, the job, the football and the rest is

more important in that moment, then when you gave the dimension of physicality of the rose, or the box of chocolate. Because the emotion wasn't transferred, it just received.

As I said recently to a diplomat in the past few days, Keshe Foundation brings the love of knowledge. It's the responsibility of your leader to create the love of peace with the knowledge we give as a love. The diplomat, a woman, looked in my eyes and said, Mr. Keshe, I don't understand. I said, you'll never understand. Because you never been in love with peace. You're a diplomat. You're just an ambassador. (:46). Because you haven't got the essence of the leader. You're on the paper a name, but not in the emotion.

This is what you as Knowledge Seekers have to understand, the essence. But how do you ?? come, how does the emotion is transferred in the Universe? It had a smell, you call it, an odor. But how do I measure emotion? How do I feel the emotion? I'm a Soul. I'm a pack of energy. How do I feel an emotion when I come across another Soul in the dimension of Universe. If he loves me, if he wants my energies, he wants part of my fields, he wants to give me something, he wants nothing, he wants to be loved.

As I said to a friend of mine very recently, would the Man of Universe become the Muslims of the Universe, 4 wives and 40 lovers? Or Man learns to be in the dimension of one Soul, one life? You know the rules of Muhammad. If you are away from your wife so many legs, so many kilometers, and you have to stay away for one night, or more, you can take a part time life, a part time wife for that night you're away. Would you also do when you leaves your, ?? Soul as you call it, into dimension of another Universe? (:48). It's too far, you're out 200 wives and 2,000 partners, even though you can come back instantaneously. The love comes to, how long do you want to stay away? Doesn't matter what the distance is.

I used to joke with this with my ex-wife. I used to travel a lot when the children were young, but I used to travel back to Manchester every night and take a flight again tomorrow morning to go. And I used to tell her, I should have become a very good Muslim. Because it's nearly 500 kilometers and more than, I think it's about 40 kilometers you can take a wife. Multiply this number of distances, I can take 10 wives in one night. I plan to, I come back tomorrow and I can extend it, because it's 2. But now we have planes, and jet planes and whatever, and we cover the distance. Now automatically part of what was prophesized as a Prophet, becomes through the knowledge and technology, obsolete.

So it'll be the same with the Man in the dimension of the space of the Universe. There is no time in the space, and you live a life through the dimension of the life of Mitra. It does not matter what the distance from the Creator is. As the distance is the love of the Creator, which is zero-time and place and position. You are never away, you are never far. You cannot travel to the other side of the Universe, as the Universe is you. (:50).

Then it comes, how come up to now, we have never understood the ?? effect, the emotion, the way the emotion travels. We smell it as an odor, but we cannot feel it as an emotion. Where does the emotion of the Creator hides in, that it manifests in us, and at

the same time within our children? How do we transfer the color of the eye, the behavior and emotion to our child? Isn't this what the Creator has done with us, and we have adapted it to suit us.

How did the emotion of the Creator arrived with us, within our Soul, within our existence on the, what I call, superhighway of the H? Then it comes to a bigger question, is there a dimension of the field, which man up to now have not understood? And is that the piece missing, for man, Creation in dimension of, what I call, plasma of the Soul, or dimension of manifestation of physicality? How come I become visible to some, and not being seen by the others, as their fields are a different strength to me?

I put this question in one of the chats of NASA years ago, and maybe after 20 years, after ?? they all decided I teach too much and asked questions, which they had no answer for at that time. NASA has shown us that there are lives above us as a plasma, (:52). we see their shadows. Ask yourself this question. Then you might find an answer in the dimension of P. We hear, we see in the news that a man got hit by a car, because both had a dimension of P. How many times man has taken off the runways, how many times we have shot these rockets and astronauts into space.

By the way, one of them now is an Iranian woman. If you heard the White House, celebrating the Iranian New Year last week. The first Iranian space heading what I call, group to the Space Lab, is an Iranian woman. And it's the thing is, Ayatollah Khomeini kills a woman for covering her head, America to a woman who was born in Iran, give her a chance to head a mission to space.

Now it comes another point. How many of these rockets, this lady was going out with her team, will hit the lives, which are above us? How many injuries do they create, that we never considered. But we know that they're there. Sorry, they're not all as fast as the others, we hit them sometimes. How do they fall? Do they carry an emotion, because we see their reaction, we see their dimension.

So we haven't understood the love of the Creator for us. The emotion, which is the fundamental point of the reaction of manifestation. (:54). We considered how it comes, we considered how it can cover a span. But we haven't considered how the interaction of the fields with that C14 and H creates emotion, which at a given point gives the sign to the plasma of the STM, it's time to manifest yourself. Otherwise you are a loose bullet, never stop.

Now, Man has to understand the strength of the emotion. This is why in all the teaching from beginning of the time I always said, where is the emotion. Without emotion you cannot show your love, without emotion you cannot show your anger, without emotion you cannot show your suffering. It has to be in the interaction with the dimension of the plasma, that it gives it dimension to manifest itself in any shape or form.

So, emotion has a field strength, emotion has a dimension. And Man once understand that emotion, Man once can bring in parallel and common denominator between the STM and

the STP of the Man, Man then becomes a passenger of the Universe without end. Fountain of youth, everlasting life. It's the way the Creator lives.

It's the way us as humans have not understood. We call it, psychosomatic. I hate my child, I give myself a prostate cancer. Voilà. How come you understood in dimension of physicality, but you cannot put it in dimension of the plasma, which created that physicality? (:56).

Yesterday, when I sat there with our Knowledge Seeker I said, it'll never be understood by Man. I'm there, I feel I'm there, but I'm not going anywhere. First of all, I put a weight on your backside that kept you here, I showed you, I covered the dimension to connection to the Earth, to dimension of gravity, to understand your incapability, to understand what is involved. I take it out, you see the dimension, but you have not understood the emotion.

You're so hungry to go, that you forget the ignition key. How do I manifest myself? What is the purpose of my travel? Am I traveling to go to a new place, not just for me to be there, but teach the others the process. "Me" is irrelevant. The love of "me" for Man understanding is more important than me. I never fly, because I never understood the emotion. I never understood, I never grasped the fundamental essence of the Creation. Otherwise, I'm still another ray, another plasma traveling the dimension of ignorance.

This is one of the points which many of you have to understand to become passengers of the Universe. To be able to travel from New York to London. And then you have not even understood the other part of traveling by the Soul, by the emotion of the Soul. Then your lover will feel you in her heart, in his emotion. I feel it in my heart. How many times have you felt, said to yourself, I feel something is wrong. I feel something is going to happen, (:58). something inside me will come. But you don't understand the Soul of the emotion of the lover, or the thing to happen is already arrived in your heart, in the plasma dimension of the fields, which converts to physicality. But because you don't have the knowledge, because you don't understand it, you cannot transfer it to your Soul, that it becomes the manifestation and dimension, in the dimension of the Creator, in the dimension of the Universe, and then use it.

Then you see a guy getting hit by a car, he stands up and walks (away). You say, how is this possible? Because at that moment the STP gave control to the Soul. You don't exist in the dimension of physicality, because the love of the STP to keep the Soul is so strong, that it gives everything up that the Soul takes over. And then instantaneously you return, you come back. These things to you were fairytale, but now look at so many cameras around the world, which show you so many accidents. How come this guy gets hit and he walks? Now you understand the process. Now you understand the love the STP gives to the Soul, you take over till we see, till you get me out and then I take over. How come you cannot do this for yourself in the dimension of consciousness of the behavior? Is this another mystery of life, which Man needs to understand, trust in the Soul?

How come at the point of the accident you do it, but you don't want to do it in a natural process all the time? Then you go to work in New York. You have a tea break in London with your lover, then you'll be in Beijing for lunch, (1:00). then you go back to Hawaii for a bit of afternoon nap, back to New York tomorrow morning. Because there is no time in space. It's you who makes that time, it's you who make that space for manifestation of P, or for the dimension of the STM to take over.

Then, now you understand why the past three or four months we keep on playing with you. Come, come and play. Come and meet us on the 16th, come and meet us on the 19th, come and see. It's not for you to feel the taste of the food, or sit and see what you can do to a leader, or you have a tickle with the Creator. It is for you to gain confidence. It is for you to understand, I can bring the dimension of emotion, and then a with it I don't get addicted to that emotion.

The only emotion Man will ever get addicted to, and cannot get away with it is, is like the DNA, is the emotion of the love, which is the essence of the devotion of the Creator to Mitra. Don't forget, Mitra could not love Creator if He did not receive the emotion of the love for Him. Creator is the possessor of all, and Man the converter of some. Then if you think your love is so strong between the STP and the STM, then maybe you understand which one is a Mitra and which one is the Creator.

If you understood this sentence, as Muhammad said, bless his name, (a salaam ...) "There is no more to teach." (1:02). But Man has not understood this. Man has not come to understand the dimension of emotion. There is no physicality, there is no dimension of existence as a life in the Universe, if you carry no emotion. That emotion has to be transferred in the conduct, and the behavior and thoughts. This is the ethos of Mitra, do good .. , and the rest of what the Christians call, the "three kings gifts." Because they never understood. The kingdom of the Creator is the behavior and the ethos of his life, which Mitra brought us in the ?? Zoroaster. ?? "kna dorinek ... "Neek" means perfect, correct. Talk, think and do the correct. And this is the path to life. This is a path where you come from the ray to the field, and from the field ?? to emotion. And then becomes a dimension of the Creation.

In the process of life, in the process of the dimension of understanding, Man will become to understand the truth. Then Man does not need a Good Friday, does not need to put one on the cross, or shoot one on the wall. (1:04).

One of the most strangest things for Man to understand is, the third dimension in the process of the Creation, which is emotion. Which itself is created from the interaction of the field of the Universe. And the Universe is you, because without that dimension of the emotion you don't exist to confirm your existence within yourself. You have to confirm the dimension of existence within yourself first, that you can manifest yourself to the outside. You cannot have a body when the heart doesn't work and it's not there. It's not life, it's just an object. It's just non-existence. Because then it becomes nothing, you deposit it in the coffin and you see no sign of it forever.

Then it comes a major point for Man. How do I go as a ray, become a field, and then emotion and dimension of the Soul and the P? The way you created the fields of the plasma of a Man, the physicality as a children of Mitra. Now, you have to understand how to create those fields, that become the emotion of Mitra. And if you crack that, if you understood that, then you have entered the true "Kingdom of the Creator," because you will think and do, in a way, talk the same language.

Then you understand. You call it, do good, act good, and the other one, think good. (1:06). You're a H, you're a C14, then you're an emotion. And all three has to be perfect for perfect manifestation. Maybe we opened the mystery of the Creation in dimension of the world of the Man, but in essence of the Creator and its Creation.

Now, for you comes a point. Didn't I give you a three stacker MaGrav? Isn't the three stacker MaGrav the same as, one to create the ray, one to create a field. and one for interaction of the two creates the emotion, the fields of the existence, the plasma of life. And then if you can interact with it, you understand it's there to serve you with your emotion. Would it be gold, would it be lover, would it be a flower.

Many times when I looked at the MaGrav units, I said, these people are just so physical. You put one coil in the wrong direction to the other, you will not see the light. Your MaGrav doesn't work because the ray is missing. You put wrong direction, and the second one your field is not there. How do you expect to live without C14? And ?? when it comes to interaction with each other in the space of their own, create the third dimension, which is emotion, which gives life to manifestation of your existence. (1:08).

Now, maybe as Knowledge Seekers, you understand the "three kings," which they brought the three gifts, sits in your MaGrav. You never understood. You're still looking for saving energy and not paying an electric bill. But you actually cut your own power supply from your own Creator from the base on. Because you're still looking at the dimension of physicality.

As usual, when you play with a little child, with a toy, it's just a toy as much as he can understand. When the older one comes, it's a rocket, and when the father comes it's a spaceship. But in fact, it's the same toy. Different understanding plays with the same toy in a different way, and enjoys his benefit in different ways. One dreamed "boom, boom," and one dreams of deep space and where it can take me, I become a passenger of the U. But in fact, it is still the same toy, the same ?? .

Man has to understand the knowledge, Man had to understand the process of the Creation, that in a simple way we explain. Then I wonder how many of you will come to understand the next step in the process of the teaching. Then does a collective interaction of the fields creates that dimension of Creation.

Maybe today's teachings opened your eyes as usual, to another dimension of life. (1:10). Join us in April 29th teaching. In a way, meeting with addiction of the space, and understanding of our addiction in the dimension of P. Each one will take from it what

they want, each one will go away with what they think they wanted. But in fact, isn't all the same.

Thank you very much for today, and I hope you understood one of the biggest mysteries of the Creation today. But Man still needs to understand his own Creation, and his own conversion from physicality to energy, where the physicality itself is part of that energy spectrum. We go for a small break, we come back and we answer some of the questions, which has been mystery to us. If we have understood today's teaching. Rick, if you'd like to take a break, advertise some more of the Man's physicality and see what we come up with the STM.

BREAK << >>>> 479th KSW March 30, 2023 (1:16).

K- We would like to introduce something new to Knowledge Seekers, which has been happening in the background, and the Keshe Foundation has been privileged to it. What we think is the right time to come to public for you to understand how some of you Knowledge Seekers work, and how you will participate and support other Knowledge Seekers without them knowing or they know. Keshe Foundation receives a lot of different ways to support others Knowledge Seekers, or to bring things that others can enjoy.

And we usually find a place we find people, we get people, for example, in some of the meetings we had in past few weeks, (1:18). or in the conferences, one Knowledge Seeker sponsors or buys a ticket and says, give it to whoever likes and cannot afford it. I pay for two. We have Knowledge Seekers who have been supporting the wellness this way. I don't have a cancer, but I don't want somebody else to have a cancer, or he has a cancer can we helped. And we give this to our doctors, and we provide the facility in different ways, and they look into it.

We received the donation for 4 Parkinson cases from one Knowledge Seeker. We thank him for his Soul and the way he supported. And for example, very recently, one of our Knowledge Seekers who entered for a specific way with the doctors, he saw it that there is nothing at this moment can be done. He said, use it for another Knowledge Seeker if they need. So we find, we allocate, we give it as a gift and a support.

But there is other ways that Knowledge Seekers support or give things to the Foundation to use. We don't accept properties. We don't accept land. We've been offered so many lands over the years, and God knows, buildings. It's nothing to do with us. We have nothing to do with real estate. When I tell them I'm not interested. He said, Mr. Keshe I'm giving you 700,000 square meter it's prime property. What am I going to do with it? It becomes another burden to be attached to this planet.

But sometimes we get things that other Knowledge Seekers can use. We bring this out for you to see and maybe you become to understand you can do for the others. We have a Knowledge Seeker who has paid for specific items to the Foundation. And he has asked us, give it to those who need. Rick, can you put the list up? I think you received it from the webmaster. (1:20). These items have been paid for by another Knowledge Seeker. And it's there for you Knowledge Seekers, if you want to and could not afford it. But it's not just that, because it's there, then I grab it. It's for you to what I call, to enjoy. Can you share that screen with us, Rick?

R: Yes, it's coming here. Just one second.

K- It is a donation to the Foundation. And if you think, you know someone who can benefit by it, but it's too shy to ask for it, or it's something you wanted, you couldn't afford, or it's something you wanted, but it wasn't the possibility to get it. These items have been fully paid by as a donation by a Knowledge Seeker to the Foundation. Instead of us choosing, we leave it to you to choose. You can even choose and make a donation with what you can afford, again it goes to the Foundation. But we have fully received the funding for this, we are not looking for money for it. If you think you can use them, or somebody can use them. The usual passage in the Keshe Foundation.

This is going to take a lot of time, but it starts a new cycle that we can put in. You don't take anything with you when your Soul travels. But you can create a condition for a Soul to travel in comfort, as I always call it. So, send to the usual place health@... the usual place which we put. And say, this item I would like to, (1:22). I'm prepared to pay for the postage and package, already paid. All we need to do is to send it. If some cases postage (will be) needed, we'll tell you, can you pay for the postage? So, it's a donation by a KF Knowledge Seeker, and we thank him for his generosity. And it's there for you if you need it, look at the item, and it says what it is. Would you like to read it Rick, what is available and who might want to have it, it will be a pleasure to let you receive it to enjoy. Would you like to go ahead, please.

<< Rick reads the items available >> (1:24).

K- So, this is what's available, if you want it, but you could not afford it, or you know somebody that it would be good for school education or somewhere, just send us to the same address as usual. And it'll be done if we receive. So many of it we'll ask you we have received, which one of you will discuss with each other, more important to go to. So, this is one of them.

The other one we have is, as you know, in the Keshe Foundation, in the exhibitions you come, there are a number of paintings, and they've been on sale on the Keshe Foundation website. We have added four new sets from the Austrian painter. (1:26). The Austrian painter 4 sets arrived this week, and they go as a normal sale, as it's priced. And they are made by the Gans's, which the Keshe Foundation manufacturing, our lab people have decided what they want it to be, for what, and the painter has painted it. And these are Gans's, which are produced by the Foundation. And for a specific use, and they're beautifully done, as you can see. These have just been added.

Like the same, there's a lot of you've been waiting for the Pressure Cup and the, what I call, the Sugar Cup, they have arrived, so they're part of this ???. But we had, as you know, eight sets of paintings by an Italian artist, which some of you bought, some of her work, and it's done. And these 8 sets has been donated by the artists to the Foundation. We can keep it there, and wait a year, two years, whatever, to be sold, and the funds to go to the Foundation. Or what the Foundation has decided to do, and we have informed the artists, is these eight paintings, they are all valid around about 3,000 a pair, because they have to be facing each other. Or maybe two of you decide, one buys one of them in Australia and the other one buys in Canada to cover the fields, as you know the magnetic plasma will cover the distance between the two. These are the matching paintings. (1:28). These are gone on offer. You can make an offer and the Foundation decides who receives. Maybe receives two offers from 2 persons and we say, would you like one? And we go for the Soul of Knowledge Seekers. Don't make us a ridiculous price of 5 Euro, or 100 Euro, or whatever. But what do you think these paintings will bring you, and give to someone, give it to university, to a college, at home, to your son, to your daughter. Make an offer to the Foundation, you have to pay for the postage and packaging, and you will receive it. These eight sets of paintings are there from today open to offers. You might want it, but you can't afford 3,000. You see a value in it, in any shape or form. Like the other Knowledge Seeker, you might buy all the 8 and say, donate to others. And then we come back to, ??? they're being paid for.

So if you want one or you have paid for two. I want one, to give to somebody else, a Knowledge Seekers will have the other one, and create a love between the two. We leave that to you. So, eight sets of paintings which has been in the Foundation for about two or three months has been donated to the Foundation. And instead of sitting on it, we are sharing it with you. Because the fields of the love and the care has been painted has to be shared, and not to be kept. And so it's there for you. If you see, you have a connection, you like to feel it, make an offer through the same channel. Rick if you can put the link up and read it, (1:30). because some of the people just listen to this teaching on recording. And to the Foundation and you will receive it.

As you know, we received a donation and massive donation, support, in a way. From the test, yes, it's called for 100 cases for wellness for our doctors at the rate of 3,000 Euro. The rest is covered irrespective of condition except certain condition, which our doctors will not do, it's like cancer, or Alzheimer's, Parkinson and MS are not covered under this. For any diseases, any condition which our doctors can use in wellness, you can apply for. And looking at the condition some people come with, I have this, this, this. It's no good.

Something simple, something singular, not simple, that it can be handled and concentrated on for a six weeks session, maximum to see the change and the results, that we collect the data. We are covered on other side, the balance is with you. And if you want to join or as usual, the health@... what you call, we put up last week. healthspaceshipinstitute.org. Write to us.

We received a number of applications people requested. Some of them, it was sent to me, I looked at it, this is absolutely. I have every disease on the planet, I would like to use the 3,000. Sorry, we're here to get 10 cases, not one man with 10 diseases, which is all irrelevant. From, I had a car accident, to my toe broke today, (1:32). I have a plant, or heart transplant, and the rest of it. It doesn't work. Just be a little bit of common sense, it allows us to help the others. So, send your request to health, send it to the doctors and the condition application will be considered. And the fees. And don't come to us, we had a few cases where... I've seen this week, people come in, I don't have the 3,000, can you even give me that 3,000. It doesn't going to work. If we receive funding for certain things we can cover. But some people take it to the point of not acceptable, what I call, understanding of the system for our doctors. They pay their time to it, they spend a lot of, it needs, and now we're expanding the doctors. All these doctors have to compensate for the effort and the time they put in, plus cover all the expenses of the other things which is in the background with it.

So, we have reach, we have accepted through the understanding, that we do everything the correct way. And we understand we do it the way it has to be done. And a number of people have already started this process of the, requested last week. And started the process of 3,000 for given specific conditions they have for wellness, with our doctors. These are all done by the doctors and not by the Keshe Foundation. Especially this week, we handed over everything to the doctors. It took us time to set up, to refine the system and everything. And as of last Tuesday, everything now is done by doctors through their operation, and more doctors will be added to this structure. As all the what I call, the fine tuning, everything is completed, that they don't have a problem.

The beauty with this is, some of the doctors who join us is, you don't need to move from your surgery, you don't need to move even from your bedroom. (1:34). Everything done is remote control, by you through the operation in one of the places wherever the system are sitting. And we've seen the results. Yesterday as we handed over everything else, some of the people who went through the process with the doctors. The doctor says, that a child who was heavily involved in ADHD, in a matter 8 weeks, 10 weeks he has become a brilliant child. The family has a new child. Totally unbelievable. And the child wanted to say goodbye, because it was a final session, and his life has changed. And this is the beauty with the wellness system that the Keshe Foundation.

We changed a life at the age of 10 with our doctors. Now it's a life of 10 years, 30 - 40 - 50 years of life, happiness and joy, instead of suffering. And it's the purpose of the new technology, to bring peace and comfort. And as we see more and more, those who join us for these programs for our knowledge to extent, while they benefit with the beauty of the knowledge, we've seen the what we call, the fruits of our work. People with the

conditions that they could never imagine, can be changed, changing. People, with accidents, with depression, with all sorts of things who come to us long term, short term commitment. We can't solve everything, but we are learning.

We have a Knowledge Seeker, she's with us now. Burned eye for years, and two or three sessions, the suffering is gone. It's so easy to do. The new technology is irrelevant one is in the other side of the planet, one is on Mars. One is on another Solar System, it's a human, we have the knowledge, we have the access to what we call, common denominator of the life. (1:36). Why not?

So if you are or you want to test, or bring something new to the knowledge of our doctors, go again to the health@spaceshipinstitute. I want, I have this condition. Please, sort out your 3,000 finances before you come to us. Because it's no use taking our time says, I'm going to find now. This takes a lot of time off our work, and our systems, and our doctors, and it's not needed. So, there's still number of the spaces available for the 100 cases. And then we got to see what happened with the next stage of the development. I thank all those who made the donations in different ways for others to enjoy, and to be there, and to be with.

Are there any questions?

Q: .. In Brazil in the last 20 years, (1:38). more than 3 thousand tons of mercury were dumped into the Amazon rivers, carried out by man's greed in the illegal gold mining. A biochemical time bomb heralded as was the mercury poisoning disaster in the city of Minamata, in Japan. A tragedy announced in the Amazon to nature, Indigenous people and peoples of the northern region of Brazil, victims of mercury contamination. Just like the Keshe Foundation project with Plasma Technology in the decontamination of Fukushima in Japan, can we direct a project to the Brazilian Government for the decontamination of these rivers in these regions of Brazil through Plasma Technology? We appreciate your guidance.

K- We are aware of this. And we've been aware of this for a long, long time. Long even before the Keshe Foundation was established. In nineteen nineties, I was taken by the Russian and Kazakhstan leadership, at that time President Nazarbayev, to look at the lake and how we can change the contamination of this lake with nuclear material. But those days Russians had no regulation and they dumped all the nuclear waste into one lake. And it's actually as good as walking into a nuclear reactor waste ?? pool.

And I was taken there by the order of the President, (1:40). in nineteen nineties, to look, to find a solution for cleaning up this mess, this lake. And at that time I gave a proposal to both, that time was Yeltsin. And that time was President Nazarbayev. How we can decontaminate this lake from nuclear radiation. Exactly what we did in Fukushima. Fukushima, wasn't there, something we're going to do. This was proposed years before even Keshe Foundation was established.

And it's the same, not only with Amazon, with other places. The way I see it in my future work and collaboration with the Chinese government. These things need a governmental support, governmental understanding and intervention. And we see this as part of the possible joint collaboration between Keshe Foundation and Chinese authorities in the coming months and years.

You've got to understand, in Brazil, the government is not interested in anything, which is beneficial to its citizens unless is paid something in the back pocket of your leaderships. Be the governor, be it the district governor, be it God knows up the ladder. They only talk to you when there is something in their pocket. Otherwise, not interested, and indigenous lives are irrelevant.

The contamination has to be done on the scale, which is large enough and profitable enough to do it. One of the reasons when you speak about the Fukushima was, (1:42). interesting I was taken up by the Japanese government and very soon came as part of the share of a company in America, when the people who are inside the Keshe Foundation, actually working with Americans, as a friend of the Keshe Foundation in the background, took the technology to California and then from there made it into a share in the company, fake patent, and then became part of the assets of the Japanese. And there as Americans.

Where we converted the radiation into white dust gold, and then they start discrediting it, because it was not to be coming out, and they said, we heard nothing about it, the cleaning of Fukusima.

The cleaning up. This is not only Amazon, there are other places with worse conditions than this, it has to come with collaboration, of the new collaboration with the Chinese Keshe Foundation, the Chinese government, and the Keshe Foundation worldwide. What we call, science in exchange for peace.

It needs billions, otherwise, you're still doing what you call, "a cup in the ocean" job. And has to come as a process of peace, a process of gift. In a way, but in a way it's not a gift, we can do a lot of conversion into a lot of other things. The mercury, useful for both the nation and even the indigenous can benefit by it.

And this process has been tried and it works very well. If is given in a way that indigenous people instead of fishing fish and not having any fish, now they can use a condition to clean up, have a living, make a good life, and then do their fishing.

We'll look at this in our future talks and work with the Chinese government, and then I think is resolvable. (1:44). It's not I think, I know is resolvable, but it needs huge financing. And somebody in there that says, "we do it." And with the new policy, and Brazil being part of the BRICS with the Chinese government it is doable. And it's something I'm sure the Chinese government will look at it, in science and technology in exchange for peace.

Peace doesn't mean guns and bullets. Peace means peace of mind for its citizens. Be the pollution, be it the environmental, be it the natural disasters, that governments are there to do. We made a direct talk with the Turkish president in the past few weeks, how we can help, and with his people close to him with the earthquake disaster. And the first question was asked, how much is in there for us? Otherwise, there is no use even getting talking with you Mr. Keshe.

People are dying, and the others are lining their pocket. And this has to come from a correct government like President Xi, and the, what we call, the "Silk Road, One Road and One Belt," has to become one peace science, one peace technology and supporting of the government to do these things, that they can be done. It's not just. The same problems sits in China, same problem sits in Africa and everywhere else. It's how we change the technology to become a financial resources, and what the advancement in technology can bring that pleasure to do it. And I've seen this many times with the Chinese government, even though they always do this for the benefit of the Chinese nation. But it brings a lot of changes.

And it's not the first time Chinese have been involved in these things. They go back years before even you heard about the Chinese participation in cleaning up the environment. (1:46). But in a way, financially beneficial to the what you call it, to the Chinese nation assets, or what you call it, interests.

I saw this in nineteen nineties, long before One Road One Belt came in. Where the Chinese in one of the big African nations. The French and the British dug a mine, opened a mine. They created, they took whatever copper they could take from a mine. As long as it was profitable, and then they flooded it. And it became a huge lake, it was a massive lake in the country. And the price of the copper went from 200 - 400 dollars a ton, to nearly 4 or 5000 (a ton). It took a different shape, but it was a lake full.

The Chinese came in, made an agreement with the government, they made a few hundred schools, they made a few hundred hospitals, they built so many kilometers of the high quality motorway and other things. They emptied the lake totally, and start taking what the British and the French left behind, was not worth taking, to a very profitable copper mine. And they created a lot of jobs, and part of this agreement was for everyone, Chinese expert, 4 locals will be employed, and be taught how to carry on doing it.

But the mine, the area has been ?? useful for long term to the Chinese. So, in a way Chinese didn't need to bring people to work, they could use, and they were paid fair wages. This was the biggest strange thing with the British didn't like, that the Chinese were paying a fair wages in Africa. They were not living in poverty and the villages is more ??. (1:48).

I went to this lake and this area with the Minister of Transport who was a close at that time. We were on the Sunday lunch with his wife was running my offices, he said, Mehran, I'm going to show you how the Chinese are winning in Africa. And now this is

possible that... It has to be something, not just cleaning the mercury. But it has to be, that it's beneficial to the locals in cleaning up the mercury.

Don't forget, you talk about the mercury in rivers which has come in. Some of these villages people, were the ones who went and created the mines, and used the mercury to clean up, to get the gold out. They never counted "down the road," it's them and their tribe will be effected by it.

I've seen this one in Congo. People go into the mountains, wash and try to find diamonds, and they create mayhem for the others at the end of the bottom line. Some of the regions at the bottom which gets infected with all these, what I call, hand diggings, and they get washed out and then they blame themselves for themselves trying to find diamonds.

So, there is a solution. Yes. But it has to come from a correct government with correct financing, and not with a bucket in the ocean. And we'll see in the future there is a bigger plan than these things.

Any other question? (1:50).

Q: .. Does the STM man travel outside of the Universe when traveling to another place?

K- It can. It does. How do you think the other Solar Systems and Galaxies created in other Universes? It's cultural exchange you call it. If you can create the field forces of the Earth, which matches in a given position and dimension in the Universe, you get attracted to it. You're preset to go there. Of course.

Earth is a nursery of Souls. And a florist does not care if his flower goes to China, to Holland, or to Africa. He likes to show its beauty and what he can do.

What's next?

Q: .. Good morning Mr. Keshe. See if my line of thinking proceeds according to what you said. Which is, quote, all teachings are to make us become part of the Universal Community and for Man to leave the village of Earth, to no longer be shackled with the repetition of certain actions. (1:52). Unquote. Could we consider being born and disincarnated and born again and so on as an addiction?

K- On this dimension of the emotion of the Creation, yes. But you're not incarnated as a dog or a cat.

Any other question?

Q: .. Mr. Keshe, regarding animals, and birds, etc, as messengers. My dog past three months ago, and when I had her at the vets, two days before she journeyed, I saw a luminous blue ring around her nose. Was she's showing me her Soul telling me she was leaving? And do they foresee their death? Secondly, can the Soul reincarnate in an

existing dog that is already a year old defined time? I also experienced what you mentioned about your beautiful mother regarding birds, as messengers on two occasions with loved ones journeying. Thanks very much.

K- We always, in so many ways, know of the journey. And some of us are receptive to understand who goes through and who will go through it. (1:54). And maybe a light on the nose of the animal has been, as the Soul has expanded and created a field in that dimension and position that you could see. Yes, it's quite possible.

It's, we will like to think of it as possibility. Do they tell us? Yes, of course they do. But the same as I said, many times, we can accept Souls. But it has to be accepted by the Soul itself, to accept the Soul. Otherwise it's a mayhem.

And are technologies and knowledge's which can be used to accommodate, or to move a Soul which is not wanted. If one Soul goes in the Soul of another animal, and it's not welcome, he has to find a new place. It is a gravitational magnetical positioning, or you can create another condition to be favorable for ?? that form of what I call, ?? invasion, for him to be finding his own new place. But it needs a lot of understanding. And needs a lot of collaboration from the what I call, "resident Soul." Otherwise it doesn't work.

Q: Okay, we have two questions that are similar. So perhaps we can combine them. (1:56). .. In 168 and 169 KSW you deepen the knowledge about amino acids showing beautiful images made available by Dr. Klaus, and you explained about the difference of strength fields using different types of salt, and you talk about this difference of strength fields, that Man needs to understand to manifest in the Universe. Then you speak about the change in skin and eye color of the beautiful people, schizophrenic people, according to the Soul that is present in the conversation, and that they absorb different field strengths and emotions.

Could you please expand a little more on this knowledge? And Jarad's question is, how to understand strength deeply?

K- We create manifestation according to the salinity. But you have to understand Man uses different words for the same thing. You call it, salinity. You call it, gravity. You call it, Inertia. But in essence, it's the strength of absorption that becomes balance with its environmental absorption, that leads to manifestation. So, when we manifest in an environment the salinity decides, (1:58). what we are manifested in the form and the shape in that gravitational magnetic fields.

If you made Gans's, sometimes you follow the instruction to the point, and sometimes something didn't work, but it actually worked, because .. you cannot see it, but it's in a different way. And you don't use the right salinity, or the right wire, so it doesn't work, I cannot make anything. At the moment we have this problem with a lot of our Knowledge Seekers who are trying to make these kits. They say they cannot produce, and now we have to change the plate, we do this, we do that.

But the fact is, for the manifestation of the fields you have two conditions, one is local, and one is environmental. A lot of you have Gans's in the house and you produce beautiful CO2 at the beginning. And then it goes to it nothing. Because, you know what you did? You took the Gans's out and you put it in the jar, you took it out, you put in the cup, you put in a cup, you put it in somewhere else, you dried it. But, hello. The distance between where you're trying to produce the new Gans's, and the ones you made before is a few centimeter, few meter. And CO2 balance in the room has changed. The guy is not any more hungry, so you cannot see production. Because there's nothing in the environment to create the condition of change. Even you did the same copper plate, you do the same Nano coating, you used the same salt. (2:00). But now changed the salinity a little bit, or add alkaline ?? to it a little bit and, oh, it started working.

So, you have to consider in every work two things, one local and one environmental. And when you consider this, then you become good in producing things. Otherwise you work in a small kitchen, you can't have all the herbs, and all the vegetables in that kitchen, it doesn't have the space. But you put one material, which has a very strong odor, you cannot smell the others. When you go in, you can only smell that thing, the kitchen, the smell of this, because I have a small pack of it. So it's not just what's in that small pack, but it's what creates an environmental condition to. And this is what you as Knowledge Seekers have to understand.

Would your Soul manifest itself in the dimension of P at any given point in the Universe, if the gravitational field strength in that position, or what we call, salinity is of the right order, yes, you see the Gans's, yes you see your Soul as a another creation.

You've got to take the knowledge a step further. Creation of hundreds of millions and billions of stars in one Galaxy, is no different than creation of hundreds of millions of the plasmas in your Gans box. Ask yourself, what field strength the Creator has used, that so much Gans's as the stars have created in this box of the what we call, Galaxy. That's all the Galaxy is, a box without the wall, (2:02). but containing a specific gravitational magnetic field or salinity, that others can match or manifest themselves in a given point, time, strength and position.

So, we understand very easily the implication of the question and application of it. If you create, which we start showing, and there are processes going on to be shown. If you take somebody kidneys out, or somebody born with one kidney, you can create the right salinity field strength, that the second kidney with all its connection will manifest itself in the body of the Man. You don't need a transplant. But Man's knowledge is not there yet.

Any other question?

Q: .. Would it be easier to understand the workings of the Universe and the Soul if we were able to get out of our bodies and experience it? Is this the purpose of the Enhancement Unit?

K- Yes, and yes, and yes.

Next question.

R: Okay, (2:04). you're running through these questions pretty quick here Mr. Keshe. One more open here, which is from Kurt from Germany. And the translation is, hello, Mr. Keshe and to all. Can you update on the Gas Electric Unit and the delivery of that? Thanks, and thanks to all of you.

K- As we said, we'll. Should be online to deliver in the second quarter. We had a lot of, as usual, "developments," and productions and other things. The Gas Production Energy, we've done the principal process, and then we found the easier way to do it and getting it done. But in the second quarter we should be able to deliver it. It's been made much simpler and even our own Knowledge Seekers who work on it to have not seen how easily it become. The production of these things doesn't take long to do, once our team complete the thing and then package.

It's like the what you call, the Plasma Home Enhancement Unit, the small ones, the gray boxes. We are testing and finding things, and then goes through the checking with what you call it, for certification ???. The whole process will be like this. The first unit to be submitted for production of the gas, and the what you call, conversion of production of electricity. (2:06). We produce enough, now it's just in a way, completing the cycle of the production. Producing the Gans gas now is as easy as drinking water for the Keshe Foundation people. It's just how to put it in the right order and the other things controls and the rest of it, and it'll be there in the next couple of weeks.

R: Speaking about drinking water Mr. Keshe. Do you think that people should be experimenting with cups and so on, that are for plasmatic feeding during this time when there's some experiments on your, at your end going on, with the plasmatic feeding and what not?

K- They can do whatever they like. What people do.

R: Would it interfere or have any cross interference?

K- No, Not really. It should not do because it's, you just created another condition.

In the coming time in our work with, where we will concentrate to develop. We'll provide a technology for creating water, rain. But one of my biggest fear has been, once you introduce this technology, knowing the greed of the Man, they will start using it in deserts. They'll still using it anywhere just to create rain. (2:08). And this will bring unbalance to the natural life of this planet.

Creating condition to rain for days in an environment using the plasma technology is as easy as drinking the water. But what I don't like to do to introduce technologies like this, is the abuse which bring massive changes in a very short time. So, water production is not a problem. Abuse of it is my biggest concern.

Unless we deliver what we did in past couple of weeks, with the plasma, we showed how you can satisfy and receive water as saliva. You .. had the feelings most of you. Then, yes. It will come worth doing it and releasing the new technologies to coincide and be part of this development.

R: About the creation of the water, or in the case of the feeding process, the creation of the saliva, the water of the mouth, or water of the body in a way. Was an interesting topic in the Keshe Plasma Reactor Group. I wonder if you can talk about that a bit, and especially in relation to the comment you made today called, the quote would be, "the superhighway of the H." And we know that saliva, (2:10). or water, or that Gans of water is H, O mix, supposedly. And we know that there's H in space, you said that many, almost a decade ago, or probably over a decade ago now, about the H atom in space, taking it, the fields of it exist out to, you know, maybe a meter around that single atom. And so because there's more than one atom of H, and in each cubic meter of space, then in effect, all the H atoms are in communication with each other, they're all rubbing shoulders, you could say.

So, it's same thing in our saliva. In the mouth, we have the H₂O, and it's part of the information superhighway of the, what's called, the largest organ of the body, the interstitial fluid of the body. So, it seems like we have this superhighway both inside of us, and in space, and I'm wondering if you can sort of fill in the blanks there a bit, or am I stretching things too far?

K- You're stretching it too far, but not too far. It's near enough. You've got to understand, saliva, or water it's a tool, it's not the end. So you decide how this tool will manifest itself as a water, as a saliva, as a field, which manifests themselves in a condition, that allows other Plasmas to float within it. We call it, liquid. (2:12). So we decide, or subconsciously our body decides the salinity and whatever we need and what creates for us.

This experience you most probably has happened with a lot of you, you're walking with your friends, they say, oh, we want to go to MacDonald's, and you have no desire for it. But they clean themselves to go in. And you say, okay, I'll come in we will have a MacDonald's. But the fact is, one of the people with you has the gravitational magnetical field matching with the odor, emotion level of what is in the shop. And you just are slave to them and just walk. I don't know why I'm here.

We create a salinity gravitational field strength, which matches to near enough, to somebody near enough to love, or somebody, or ourselves at the same time, feel the same. Oh, I wanted to ask you to go for a lunch. Oh, I was thinking the same, I say, I want to go there. I was thinking to go there. So, hunger brings a specific common denominator, emotion. And then by going to it you give the physicality, you and your friend. We look at the science of living in a different angle than the Man does, and that's why it looks so strange.

Any other question?

Q: .. The Near Death Experience. What is not correct in this experience of people and different with the Keshe Unit? (2:14).

K- A big difference. We don't bring you near death, we bring you to near life. The life in the Universe, but connected to the physicality in the dimension of the STP. Near Death Experiences, just that you go through the whole process. But the last leg pulls you back with what the body has not decided for you to go.

Any other question?

R: I like that term "near life experience." And yeah, that's a good one. I don't see any outstanding questions. This is amazing. And no hands have jumped up, not even jump in Jalal. So I'm not sure what to say Mr. Keshe.

K- That's good, we can call it an early day.

R: You even answered my question. So I guess you're really off the hook today.

K- That's good. We don't have to be three, four or five hours or whatever. We try to complete the process of teaching now that we have opened a new Pandora's box for you, what we call, the emotion. And the essence of emotion within the dimension of the Universal fields. And then we'll see how Man can benefit by this, that it guarantees his return to the point source of the life where the original Soul was created.

Thank you very much. (2:16). And hopefully, we'll see you next week. And please, please let us know if you need any of the what you call, equipment clearly. And how many of them and whatever. And about what we call, the 100 cases, which are there, if you have any kind of ?? wellness for our doctors to look into. Thank you very much Rick. Thank you. See you next week.
