Resurrection = Transmutation; Gans Box taught how to manifest in U; Fear - lack of Trust is blocking transmutation; 25 to train teach 200 Seminars for transmutation with Mr. Keshe - Enlighten to Soul; Thoughts creator of emotions - entities; Knee Gans; Interactions of plasma creates new creations - same with emotions; Colonies on Moon - China; Keep elevating leaders; Easter elevation of Soul of Christ;

Topic Index

The teachings are changing us from inside; In Space our Soul will know how to recognize other Souls - already have knowledge within us; To manifest human body in other place need to create MG fields of Earth; In Space our features will change according to environment; Nomads in Space live in D without P between 2 galaxies; Cannot lie with CR Headsets - sit silently in front of each other communicate with Soul; Easter - Christ gave for others to elevate understand message - were humans "aliens" - ultimate sacrifice; His STP stayed with him - resurrection - transmute in same environment; Resurrection - Transmutation - you have been taught enough to do; Manifest materials in EU - like resurrection; In Health we copy fields brains restructures itself - also resurrection - use different names for same thing; Took matter Cu make Nano coat - create Gans - fields of Gans back to matter state - are you Christ?; Understand science of resurrection; When transmute be careful not to damage other Souls in environment with MG fields; Man understands own reincarnation - manipulate fields; Manipulate plasma fields to create what you want; If resurrect yourself without P - become a ghost until give P; Transmutation volunteers cannot manifest themselves because they lack trust; Some people might change features during transmutation - fulfilling desire; On brink of completion; Gans Box is body - Nano plate STM - Cu plate STP - Containment and Saltwater is body - information & conditions of planet manifest body; Gans Box is training tool - how we will manifest P in new D in Universe - understand interaction of fields - salinity - STM & STP work together; Gain trust - use energy of Gans to transmute; Would you allow your P to open up and start new cycle - unconditional giving; Through knowledge lose fear of transmutation; Could get lost in U for few thousand years - come back - man more civilized - unpredictable; Practice transmuting step by step; Don't come back to Earth after you die anyway - become seed for new star; Light year distances is fallacy - God very patient; Why is Man connected to water?; Next step develop trust; 2 Souls not at same strength; C14 is D of plasma; Will release T to give more confidence in transmutation & transportation (T & T); STP is controller of body; Intensive training to teach KS how to transmute - first 25 selected to be trained personally by Mr. Keshe - be with him 24 hours a day; This 25 will train the next 200 people - then 65 will be selected from the 200 to be taught 2nd stage of T & T; It's a lifetime commitment to train humanity for Space; Seminars to start around August - it's completion of a cycle; What we taught MOJHANS 6 years ago we have taught you;

Your life will change beyond recognition; You've been taught everything you need for transmutation; Establish bases on Moon & Mars with Chinese government - be your practice field - from their go to U; Try to transmute to seminar - don't book hotel; You resurrect on the Moon; Goal is take man to Space 2023 - through STM; Start teaching you about other D; Learn to use fields of U - like Alekz got drunk from fields not from alcohol; Many will be able to transmute on their own;

Thoughts are creator of emotions; Soul thinks like you in D of P; Thoughts are field based generated entities; Head Units work through Soul bring new experiences insights; Learn to distinguish which thoughts come from Soul or P - waking & dreaming - both are real - you decide to accept emotions; When someone touches you - through Soul know real intention - can't hide or lie - life easier more transparent; Knee Gans works - magic liquid - only 7 days - continues to relieve pain on own - but need to know cause - ligaments and cartilage; Structure of brain for physical part is different than emotional part - emotional part has D of Plasma; Gans interacts with self creates a copy - start new creation; Teaching about plasma interactions which are countless - but need to be able to distinguish even though everything is connected to everything else; Physical emotion works in brain by creating a copy of itself and interaction with itself to create more emotions; Begin to learn about the different interactions of plasma fields; Teaching on difference between mass and weight; Mass is amount of matter - weight is pull of gravity; Can never have a single interaction - it always interacts with everything else - but there is a pattern to it and ways to manipulate it; Physical connections in brain create emotions - get physical reaction; There is a lot to study here in this section; When creating plasma fields always have to consider main interactions; In transmutation you have to feel the fields and know if it is good or bad for you - through Soul; Even if it doesn't connect with you - it will still effect your plasmas through field interactions; You get fed by field interactions - receiving what other plasmas don't need - but you also giving what you don't need; Feeding process will be taught in future; Keep with feeling you had in "Dining with World Leaders" continue to elevate - build up strength - position will be forced; KF is taking direct action with w leaders - on course for peace; Delivery of new T makes old science obsolete; T delivery to China - nuclear obsolete - no more superpowers; Superiority only in shared knowledge; Da Vinci created arms race with leaders - destruction; Mr. Keshe creates peace race to share knowledge; We are changing course through Soul of world leaders; Give as much as you can to elevate world leaders - make it a habit; Some of 65 will be part of Chinese Moon colony; The 25 and 65 should be lifetime commitment to serve; 65 chosen because 1 Soul for every year he lived on this planet this time - gift to humanity; Provide T to become Passenger of U; Why take so much suffering to remain in P of Earth live in U; Seminars not an escape route from P; Already know the 25 Souls who will join us; Very tough training; You become a representative of STM; Will learn a lot about yourself and live in D of STM; It's about elevation of the Soul - knowledge is within you; Moon colonies created out of fields not cement; First you can manifest in special areas as a man on Moon - later manifest outside in different P; KF will have permanent representative in Chinese government; You are the Universe - it says what it says; We speak about light of wisdom - not vision - it's enlightenment; How will you face the difficult task of the Seminars - not speak with words but through Soul - should not need translators; Using large numbers so no

celebrities - everybody can transmute; Don't suddenly have 200 Messiahs - collective delivery of knowledge; I fulfilled my promise brought you the Soul of Christ in the EU in Linz; This Easter weekend is a celebration of elevation of Soul of Christ; Large numbers no hypocrisy or prophecy; Soul is always in plasma state; Rick spun Gans in balls - Soul chose to form in center; dense heavy material have smaller combination of Souls in structure - like STM micro millimeters in brain; The 25 will be with him around clock - enlightened in direction of STM; We are here to bring the change; Soul of Mitra will be amongst us - bring massive changes; LED lights are matter state; When change comes no more multinational corporations to control everything - everybody will have what they need; World leaders will be brought to justice - Trump; We have setup structure within KF for change - Comprehensive Policy - annual fee receive everything need - massive problems for governments - can't rob people; 2 boys with genetic defects doing good;

Introduction to 480 KSW - Resurrection = Transmutation Weight & Mass - Train 200 - Interaction of Fields

It seems that the next important step for the technology (T) is the successful completion of the physical transmutation of a Knowledge Seeker (KS), while at that same time pursuing peace. We see both of these things happening, the first part was the promise of so much advanced T being gifted to China, in exchange for peace, and we saw the CPC Committee voted to use advanced technology for peace. It's very important we elevate the Soul of President Xi that he will collaborate with the KF, and he'll even get colonies on Moon and Mars. There will also be a permanent representative of the KF in the Chinese government. So for the second part, the transmutation part, it seems that KS are having trouble completing the transmutation. Mr. Keshe cited 2 reasons, not enough understanding and lack of trust in the physicality (P) to move. Let's talk more about how we are going to deal with these issues.

We already carry the knowledge of transmutation within us. We do it every night when we sleep and travel with the Soul of the Man (STM) in what we call, "dreams," through the teachings we know that we actually are traveling with the Soul. The Christ was taught the transmutation just before the "Last Supper," but how did he do it? He didn't have plasma reactors spinning Gans's to use their fields. All he had was his STM and Soul of the Physicality (STP), and a deep love for the Creator, and he was able to do it, so why can't we? By the way, Mr. Keshe dropped a beautiful little hint when he said, "this Easter weekend is a what I call, a celebration of the elevation of the Soul of the Christ." Does this mean that the Christians will stop killing, because the Soul of their Prophet has been elevated? Maybe some of you also felt a very strong peaceful sensation Easter morning when you woke up?

The Christ's STP stayed with him when he resurrected, he appeared in a physical body in the same environment, but he looked different. Mary did not recognize him at the tomb, when he said to her, "why do you look for the living amongst the dead." So resurrection and transmutation are the same, we just use different words. When we spin Gans's inside

reactors and manifest Cu and Zn dust between them, that's transmutation of the Gans fields into matter state. The first thing we do in the morning when we wake up is transmute the excess fields in our body to urine through the kidneys. We are already doing it, but we don't recognize it. When we use the Gans patches to process an illness, we copy the fields and the "brain restructures the body," or creates what's missing. The lymph is transmuted into what is needed. All these examples are being given so that we get used to reframing our understanding towards the plasma, and that transmutation is something familiar and not to be afraid of it.

To gain even more trust, Mr. Keshe revealed today the secret of the "Gans Box." The Nano plate is the STM, the Cu plate is the STP, the container and saltwater are the body, and the Gans's manifest in the shape of the container. As our body is made of Gans's, then we can use these fields to transmute and manifest whatever we want. When we spread the STM throughout the U, we'll do the same thing we did with the Gans Box to start a new cycle of life. The STP will be carried within the STM and the interaction of the MG fields and environmental conditions of that place, plus the interaction with the other Souls and the Creator will determine what kind of life can be started in that place. And it doesn't have to be on an empty planet, it can be in the middle of the space somewhere, and you don't need to manifest P if you don't want to. The next time we make a Gans, we can have the feeling, that we are watching and creating a new cycle of life. But how does that Gans become a cell and look like what we know as our body? Where does it get that information from? These are questions that will have to be unfolded as we go deeper in the knowledge.

Mr. Keshe has become even more practical, he has decided to personally train 25 KS to be with him 24 hours a day, to reach a level of enlightenment and understanding, and then teach 200 more KS who will be selected for training. And then again out of this group, 65 will be chosen for a second stage of training to master the transmutation and these people will be committed for their lifetime to train humanity. This is different than the MOJHANS, the knowledge that was given to them has already been transferred to the KS. In fact, he said, we have all the knowledge we need to transmute, but we need to gain the confidence. The 65 represent one Soul for every year Mr. Keshe has been on this planet in his present life. These are like the candles of knowledge gifted to humanity. All this will bring an important change and some of these will join with the Chinese colonization program of Moon and Mars. Especially the 65 will be expected to be able to transmute from their home to where the training will be held, which has not yet been decided. When suddenly 200 "Messiahs" start appearing on Earth, this will take the hypocrisy out of creating a new select group, as many people will start being able to transmute together. Hopefully, this will spread like a wildfire across the planet. Don't forget you can also purchase the new Head Units to do this. And if all else fails he will introduce a new T to take the fear out of transmuting. These are indeed exciting times and the trainings should begin in August, as 2023 is the year for getting the technology out.

In the second part of the teaching Mr. Keshe was asked why the brain has the same physical structure for its work with the physical functions of the body and the emotional functions. He replied, that they don't, the emotions work on the plasma field structure and

the physical part works through a Gans structure, which is both matter state and plasma. So it is not at all the same. But the problem is that we only knew about the matter state, so all our analysis is based on a fallacy, so no wonders we cannot understand the things clearly.

The interesting part was, that he started talking about "Mass and Weight" and how they occur and why they are different. Then it seemed he said, that how mass and weight are created is the same way the brain creates emotions. Not only that, but emotions interact to create new dimensions (D) and these interact with what created them to create more new dimensions. I understand new dimensions as new creations. But then his talk turned to plasma and field interactions, that in Creation you cannot have a single interaction, and that interactions are endless. Which to me means, that everything is connected to everything else and effects everything else as it goes through continual interactions, what we call life. And that we need to learn which interactions are more "important" for us to consider, especially now that we will start transmuting our energy around the U. The answer to this question opened up a lot and continually brings us back to the importance of the understanding the "Totality of the Knowledge." For now I would like to focus on the mass and weight part.

The way our science teaches about mass and weight has never made sense to me, and always opened up more questions then could not be answered. Today a few lines of Mr. Keshe's teachings opened up a process of pondering that I cannot close. I would like to share the process with you, as the purpose of these introductions is to simplify the knowledge so that everybody can join in and enjoy the T. What does our science say about mass and weight? Mass is the amount of matter something contains. Let's simplify it by saying the number of atoms or molecules something contains. So if you have a huge rock and a tiny stick, they both contain a certain number of atoms, and that amount of atoms does not change if it is here or on Mars. And weight is the force of the pull of gravity on each of those atoms, and since the number of atoms in each object is different, the weight will also be different, because the gravity on Mars is different than the gravity on Earth. So now we understand why mass and weight are different.

But then they came up with this very strange definition of inertia. They say that all bodies are naturally at rest and not moving, which by the way is an assumption made out of ignorance, and that inertia is the force to get it moving. But where is the connection to the Earth. If you ask a scientist about it, he will start to talk about complicated mathematical formulas. Which in a way, is like when only the Catholic priests could speak Latin. Let's get out of this mess and try free our Souls.

In a simplified version Mr. Keshe said, the M and G fields interact to create mass. In creating that mass they interact with what created them, and in the D of the field strength of the planet you get Inertia, and then you get the weight.

And then, "the pull and push of the gravity creates the mass, and the mass is independent, because when you have two plasmas their mass is always interacting the same way. So, two similar conditions, so it's constant. It doesn't matter if you're on the Moon or on the

Earth. But when you bring in the Inertia, play of the same fields in a different dimension, then you get an interaction with environment fields, then you get the weight. That's why you weigh different."

The problem for us now, is we have to try to decipher what he means. The effort to "dig for the gold" will purify us, and is an act of love for the truth. The way I see it, is that if we don't have understanding of the "energy center" we call the Soul, there is no way we can understand the Knowledge of Creation. This is why our science can never reach to the truth, because it has denied its own foundation.

What does Mr. Keshe mean when he says, M and G fields interact to create mass. Isn't this the same as the video of the 2 rays coming together in space, spinning around each other and becoming a plasma? "Oh, so mass is really a plasma?" Now everything becomes clear. The number of these "energy centers," or souls, stays constant whether we are on Earth or the Moon. This makes perfect sense.

Then where does the weight come from? To understand the weight we first have to understand that in order for a planet to form it needs to have an energy center that pulls everything towards itself. We call that center the "Soul of the Planet," and the force by which it pulls everything together is the gravity. The weight is the strength of the fields by which the "Soul of the Planet" pulls each of the souls of the mass towards itself. Remember that the mass is the number of plasmas it contains. And the weight is the strength of fields pulling on each of those plasmas towards the center of the planet. That's why it changes, because the field strength changes depending on the environment. To make it easier to understand we didn't discuss all the different MG field forces involved, like the Inertia for example.

Why is this important? Because as we start transmuting we have to consider all the different interactions that our own plasmas will come into contact with, and how they will effect others Souls in the U. Mass and weight are simply field interactions of plasmas, and life is one big game of plasmas interacting with other plasmas. And now we get to start over, but this time with a true knowledge of Creation and everything becomes clear and easy.

Quick Index

(What change will all these teachings bring in us. How will we change inside from all the knowledge we gained from these teachings? In the past few weeks we have taught about the Soul, Universal Cosmic Rays, Cosmic Rays (CR), and everything else, (.. Break in Audio) What will happen to us in Space when we come in touch with another Soul. Here on Earth, when we walk down the street and we see another man we look at his features, what color is his skin? Is he is Black, White, Yellow, and the what color are his eyes, blue, and what color his hair, black, or whatever. We categorize him as being an Indian, Chinese, English, Scandinavian and the rest).

(Man in Space won't have eyes, that's for sure. The only way Man can keep his physical features is if he travels in the conditions of Earth's gravitational (G) and magnetical (M) fields. This is how he travels in space now. But once Man moves in the D of the Soul and the D of the M field of the Universe (U) it will be different. How do beings of the U recognize one another? How do we know where such a being is from? Are they from this or that planet? Or are they from a galaxy that has no physicality D? Or do they live like nomads between the space gaps of 2 planets, stars, or whatever?)

(Is the process of recognizing another being of the U, the same as how we recognize someone as being Black, White, Chinese, or whatever? How will we categorize the different Souls and interact with them? Or do we instantaneously know who they are through the Universal Knowledge we are connected through the Soul? (Then we would know about their lives, their dislikes, and what we have to avoid with them, or what we need to do for them).

(When using the Cosmic Ray Headsets you cannot lie. Ordinarily, when you see two people sitting opposite and talking to each other, they speak with words. But with the CR Headsets they'll sit in front of each other in silence, no words will need to be spoken. They are fully aware of each other).

(But when world leaders sit in front of each other they have all sorts of devious intentions. They may speak perfect words to each other, but we can't see their intentions. I wonder how they would react with the CR Headsets on? Because then they connect through the Soul, and then they can't lie or cover things up? There will be no interaction of the STP in the D of the emotion of the man).

(How would you connect yourself with the "Passengers of Universe"? How would you come to understand what is good or not good for you? You cannot look at the others as food anymore. The mentality of the man will change from wanting to eat the other, to seeing the other as a friend. Then you will think of what you can give to him, or to it, so that they can become better than yourself. How can you become a source of being for the others to elevate?)

Easter is again approaching, tomorrow is Good Friday. This is what the Christ did. He gave for the others to elevate and understand the message. (Was it that the human race was "alien" to him, so that he had to do it in a different way? Or was it the way he could bring man to see what the ultimate sacrifice is? Where he gave in the D of physicality, while at the same time knowing in his knowledge, that he was transmuting in the D of the Soul. (Because his Soul of Physicality (STP) stayed with him you call it, "resurrection." In a way, he appeared (again) in the same dimension and same environment)).

(If any of you listening today have understood what we taught, then you can also resurrect. We call it, "transmutation." Whereas in theology, they use the word, "resurrection." We are still testing and trying our system. We have the knowledge and technology (T) to resurrection (the P of the man).

(We do the same with the Material Production (EU) systems. It's just like resurrection, but we manifest matter state. We create the fields for the material to manifest. It's also the same with what we do in the health part, or what we call, "Wellness." We copy the fields that the body needs, (and the brain restructures itself). We have chosen different words for the same process, and used different disguises).

(We taught you to take copper (Cu) and Nano coat it, and then create a Gans of it. And then by using the fields of the Gans, you can again create the matter state of the Cu as a dust. Many of you have done this. By doing this did you become a Christ? Or now you understand the science of it. But in this process of resurrection, would when you manifest yourself, put your Soul or other Souls in the same environment in danger? Because as a plasma of fields, you are creating a MaGrav space gap, in the space of that area where you resurrect yourself).

(Truly man has now come to understand about his own creation, and his own reincarnation. He understands his own truth about the way he is, and the way he can manipulate the field forces of the U to benefit himself. And not what he has been doing up to now on this planet, where he manipulates one thing and turns it into another, like turning dust into bricks to make buildings for himself. Now man has to learn how to manipulate the plasma to create the conditions he wants to fulfill his needs. He can also resurrect himself to a new P. But if he resurrects himself as an entity without a physical D, only as energy, would you call him a "ghost"? He would be a phantom until you give him a (physical) reality).

We're going through transmutation tests, or "resurrection," or whatever you want to call it. (But why can our volunteers not manifest themselves, even though they are present in the room? It's very simple, they lack trust. They don't trust their physicality to manifest itself in a new D).

What will mankind do in the Space? (Here on Earth, we transmute into more or less the same conditions, there may be few bits here and there. But what if your Soul was fed up with black eyes and brown hair? Then if you left Washington, would you appear in London with blue eyes and blonde hair? The energy center or the Soul works with the

information it has for the physical body. (It's a MaGrav). By changing yourself do you attract more attention? Then what would happen if you meet a friend from Washington who knows what you really look like, in London. Would he say, "is that you?" Were you fulfilling a desire of your Soul, that you never satisfied before?).

There are interesting times ahead of us. The conversion of the fields into matter state, and into the (body) of the man will be completed in the next few days. And in the next few weeks we'll start the transmutation. Our scientists have to understand the technology (T) to be able to do it. (We are on the brink of developing the technologies to do it. But the problem for you is, that you want to appear on Moon in the body of the man from Earth, but there is no air or water on the Moon. And the STP wants to appear as a man. The lifespan will be limited. How will the STP react, and what Gans's will it produce (for itself))?

(Today I will unravel something that I have been teaching for 20 years. You make a Gans Box with a Nano coated plate on one side to create the fields, and a matter state Cu plate on the other side. Then you filled up the Box with saltwater. The containment of the Box is the limitation you gave it. The interaction of the fields gave you the Gans's, which took shape of the Box. Now let's say what everything represents. The Nano coating is the Soul of the Man (STM), the Cu plate is the STP, and the containment in the saltwater is the body. The Gans's produced (in the box) will create a man, depending on the conditions and information from the planet that you give it).

(When you travel the span of the U, the STM will carry the STP inside himself. Then at the point of destination, which is the new "Gans Box," or the new environment, it will have its own salinity, and conditions of the interaction of the fields, and it will create new conditions of the fields for life at that given time, space, and position. (The reason we taught you the CO2 Gans Box, or any other Gans Box was for you to learn how to manifest yourself anywhere in the U).

(It's for you to learn and understand about the interaction of the fields, and how the STM and STP work together, and how the Nano material (is connected to the Totality, just like) your Soul. It's the life of the man. Now, you understand that your Gans Box is the man himself. We taught it this way, so that you would gain trust in yourself, and understand how you can use the energy of the fields and Gans's to transmute).

If one understands this process, one understands what has been taught for the past 10 years. Then it comes to one point only. Would you allow your physicality to be opened up to become the Soul of a new life? (And would you be able to accept the conditions unconditionally? (Let's say for example, you arrive at "zero-time" in an environment where nothing existed, you would be the first Soul there. And as you are carrying the STP with you, you could create the conditions to start a new life cycle). (For all these years we taught you how to make Gans and everything else, was so that you would understand how to use the energy to manifest yourself somewhere in the U and start a new life cycle).

(When Man understand this he will have no fear of transmutation. But in the matter state travel, which is so dangerous you should be afraid, because there are so many accidents, whether airplane crashes, getting killed in car accidents, ships getting sunk and everything else. However, when you travel with the Soul, there are no cars to crash, nor tankers to sink under the "oceans of the U." Then you should gain confidence and learn to become part of the Universal Community. In a way, you become part of the structure of this Creation).

(The audio was broken up. But I think he said, that the only part the KS were missing, was the depth of the knowledge, and once you learn it you will do it easily. .. In the D of life suicide is forbidden, because in that process of transformation ... ?? something about C12 & C14 and connecting 2 circles)

(?? With transmutation and transportation, you have no choice but to go with the carbon (?? 14) and the combination of the interaction of the fields in a different dimension. Once you learn this you will appear as a creature you never thought you could have become. You might get lost a few times in the U, by getting dumped somewhere in the ocean of the fields of the U, where you couldn't imagine you could survive. But then after a few thousand years, you would get yourself out of it. (You always get out in the end). And then you can transmute yourself back to Earth, even though you left the planet a thousand years before. The planet will have changed, maybe the Man became more civilized. Anything is possible in this race of the Man, it's unpredictable).

(Man will learn to trust in his ability to transmute from one place to another. Even knowing that wherever he arrives could be a different feeling and appearance at that point in time and space. Then the Man will let go of his fears. But you have to practice, you have to learn step by step to lose your fear. You have to lose the different fears of getting lost, or not being able to return to Earth.

(Anyway, you don't come back to Earth after you die like people think. You still have a connection with it, but you can't come back. Because now you're a seed for a new star trillions of light years away, according to the Man's present knowledge. (The "light years" gap is a darkness in the knowledge of the Man)).

Ignorance has given credibility to stupidity. (Excuse me, can you explain to me how many light years away my Souls is, when it's on the way to get to the point of its manifestation? Would I have enough energy to last 10,000 million light years for my Soul to arrive at its destination? (Man has not understood the science of Creation, but instead has created a fallacy about the science of himself. He has limited his own understanding of the Creator's Creation. Can you imagine God sitting there waiting for your Soul, after it left the Earth 100,000 million light years ago. Then when it arrives at its new station it has to wait millions of years to start a new cycle of life?) No wonder one of His attributes is patience).

(It's for you is to learn to trust in the transmutation and using the fields of the Universe to arrive at your destination in the D of P or the Soul. But I also show it in the D of P so you

understand it, and you're welcome to burn carbon and fly. But in the D of the transmutation you don't need to burn a fuel, instead you travel on the M fields of the U, like a saddle bag. (This is the reason why some of you think transmutation is like a pizza delivery, (you are inside the box and) you don't move, (but then) nothing happens. Yes, the Soul has left, but why are you just sitting there waiting for the physicality to move itself). (Maybe he means the people doing the transmutation have to move their P).

(Now, mankind has no choice but to understand that he is shackled by the D of the Inertia of this planet. Man has to understand the Totality of his existence, and why he is connected to water, and why water is the life of the Man? In a way, mankind has passed the exam by cheating too many times, ?? dying at about 50 - 60 years old. (Then someone came and tried to teach him what is in the Bible ??).

(Audio broke again. .. The next step for Man is to arrive at the point of trust. ... How will he interact with another Soul. .. How much can you take? But the 2 Souls are not of the same strength).

The time, place, and the condition of life becomes independent of physicality. But essentially dependent on the Man's intelligence to understand the condition and the position of where P manifests itself. How can he befit the two? How can he put the brain back? And how fast can we educate the rest of humanity to become part of the knowledge of understanding?

(This is my understanding of this paragraph). (If you mix the C14 & C12 in a certain mixture you can get to your destination very fast, but then it might take more energy to get back to where you started from. Mankind has to learn how to separate the two lines of communication between the Soul & P, which is the condition of C14 & C12. (The C14 exists within you as the D of plasma. Whereas the C12 is in the D of the matter state of the same plasma, which you call the body of the Man. The STP is the controller of the body).

In the coming time, we'll release technologies that will give you more confidence (to transmute).

In the coming weeks, KF will select and invite 200 people to a seminar for 7 to 10 days. (This will be the start of the first process of teaching KS to understand the transmutation and transportation. Not many of will be left out. You will be taught in a proper way, so that in the future you can teach the T in the proper way. For the total amount of the people who apply, we will select 200 to do the seminar. Then from these 200 we will select 65 people to do another session of one week. This group of 65 will be taught the second stage of transmutation and transportation. All this will happen in the next few months. The combination of the two sessions will prepare these people to become the first cycle of full time passengers of planet Earth. They will be taught this process in depth. Don't think you are coming for a holiday, there will be a lot of hard work and sweating).

(We teach excellence and these first 65 students will become the point of reference to teach the others how to lose their fear of transmutation. Many of you will become the teachers of the next cycle. And from this group we'll choose those who will become the space scientists of KF. We are not looking for PhDs, we are looking for hard workers, and those who want to understand the transmutation and transportation of the STM. In Space there are no PhDs unfortunately, and no Universities).

For those of you who want to join, this is an invitation by the Keshe Foundation, and not by the manufacturing or the sales side of the KF. We will bring the 200 together step by step. (But before we bring the 200 together, first we will select and invite 25 people now in the next few weeks to join this program. These 25 will be taught (first by Mr. Keshe) and then they will teach the 200. The first stage is to teach the 25 and we want to do this as rapidly as possible. If you are interested to be part of the first 25 please apply to the KF by sending your name and address. As usual with the KF we decide very rapidly, so we'll close the applications by this Sunday).

We did this some years ago, when we taught the MOJHANS. (At that time about 8 Knowledge Seekers (KS) joined me for a few months. Now that the systems are ready to go we have to sort this out, and get ready to go. We won't wait, we want to be ready when the systems are ready to go. I will handpick the first 25 people myself). (Those of you who were in the MOJHANS know it's not a "holiday camp." It will be a solid hard week of work. When I teach, I do it 9 to 5 continuously. Because by the end, you will (be ready for) the next step of understanding.

Then, when we choose the 200, it will be understood thoroughly. And then from the 200, we'll choose 65 people in a specific way to represent the totality of mankind, by race, religion, creed, color, and everything else that goes with the "separation mentality." We'll close the selection for the first 25 by this Sunday. We would like to start the sessions sometime around August, as it is (the completion of a cycle)).

(Maybe we'll do the cycle of the 200 in September or November and then the 65 before Christmas. By that time, many of you should have been through the transmutation and transportation. And then we'll go to the process of mass teaching in the coming year. We will choose the first 25 very carefully. (It will be closely vetted, so that we know the people coming are committed to the whole process, and not just for a test). They have to bring commitment. As usual with these kinds of things with the KF, you have to cover the costs. We put in the time, systems, and effort, and you pay to become a student. I will close the selection for the 200 by next Thursday. Then around September or October we'll select the 65 from this group. We'll inform you if you are chosen to be one of the 65).

(Through this training your life and understanding will change. And in a way, the next cycle will start. You'll be taught how to live the life in Space. What you have been taught now in the past few weeks about transportation and transmutation, was fundamentally taught to the MOJHANS 5 or 6 years ago. Then gradually we phased it to everybody else. But this time we don't have that kind of time to wait. This time it has to be done very

rapidly, because part of the technology is rapidly coming to completion). Those of you who want to be part of the first 25, you will have to complete everything by Sunday. We have a reason to put such a short notice on it.

(These seminars will not be on the KF website, because the KF Store is not selling a product, rather it's a knowledge of the KF. Therefore, you have to get it through the Foundation, it's not part of the sales structure. We have valued these teachings as totality at 10,000 Euro. (?? You have to pay for it as a donation, there will be no credit and the rest of it. Once you are invited, and if you don't take your place, then what you have already paid will go to another person)).

In a way, I know one of you as part of the 25 will fail to turn up. And so this keeps with what we planned, at 24.

(When you participate in these teachings, your life will change beyond recognition, for you and the way you live. Everything that you have done up to now will have a different meaning. Everything you could imagine, Man will achieve in Space and it will start this (new) cycle. Most of you will become the first transmutation and transportation people, which the KF will take over.

(We are not waiting to go to the next phase, we'll go to the next phase directly from the beginning. Our systems will be ready for the first cycle, and the second cycle, and completed for the 3rd and the 4th cycles. Some of this work will be done in conjunction with one of the world governments, which means a collaboration between a nation and the Keshe Foundation).

Those of you who come to be the first 25 will understand it's not a week of just lectures. It's the week of the change of the STM, its advancement, understanding, progressing, and understanding the totality of the transmutation, and then how to transfer it. (The first 25 people will become the teachers (of the 200) and then in conjunction with them teach to create a bigger cycle. The beauty of it is, that the 65 will be chosen by you from amongst yourselves, and not by us. Collectively as a group of 200 you will decide who you see as serving humanity and you will select them for the time of the transition. This is the way we chose the members of the Universe Council, and it will be the same for the "Passengers of the U.")

(We have reached to that point of completing the process, and we let you start getting "your toes wet." You'll be taught everything you need to complete the transmutation and transportation of your own Soul and P. And you have to be able to ???. The reason we chose bigger numbers is to (keep from making "celebrities," or the idea that only certain people can transmute. Those chosen as the 65, will become life long teachers of the Man to become Man of space).

(Our plan is to establish the first colonies within next two years with the government of China on the Moon and Mars. These two destinations will be your "practice field." In a

way, we are training the new cycle of Man to learn how to transmute himself anywhere in the U. The Moon and Mars are close and a good training ground).

(We will establish bases there, that you can still manifest as a Man until you learn how to manifest in a new dimension. You can live on the colonies of "Planet Moon." And the same with the others planets. Our work with the Chinese government will be thoroughly examined step by step. We will provide all the technological background needed to establish the colonies. And then after you've passed your "driving test," you can open up to the Universe. You will decide where the next step will be, and not us).

(For the upcoming seminars we encourage you not to book a hotel, so that you can practice transmuting back and forth from your home to where the session will be held. It does not matter if your home is in California, Tokyo, Beijing, Tehran, or wherever. No accommodations will be arranged for this cycle of training, especially for the 65 chosen from the 200).

(We have taught you everything you need to transmute, and we are ready to go, and the equipment is ready. Man is ready to become the "Passengers of the U." Let's see how many of you can resurrect, like what the Christ did. (You resurrect on the Moon, but you won't be traveling on the way for 4 days with a rocket, you will be there in 4 seconds by the knowledge of your Soul. As I said, the serious "space play" has started. Because the equipment to allow the STM to expand and manifest itself is completed, and it's near completion in some other angles, that will come in the teaching in the future).

(For those of you who we invite to come to these sessions, understand that you're life experience will change. And I hope, and as we said, we'll take man into Space in 2023, but the "true space," and not with the "monkey clothes," or what you call, space suit, but through the space of the STM).

(Then we'll start teaching you about other dimensions, and the knowledge you need to know for Space, like what to touch, or not to touch, and what to take from, or what not to take from. And remember that these are all fields, and not animals for you to eat. Also remember the experiment Alekz of Nigeria did some years ago, when he wanted the taste of orange juice in the morning, he took the orange juice. And when he wanted to get drunk, he used the same water to get drunk from. But it was the field energy that made him drunk with the knowledge, and not the alcohol).

Understand that we have entered the true time of Space. We commit ourselves to a new space development, a new understanding, and new systems. Many of you will understand how to process this on your own. Then I wonder how many of you will still want to go to the Moon in a UFO. And how many of you will go to the Moon by the knowledge of the Universe.

End of Quick Index Part 1 - 480 KSW April 6, 2023

Q: Can you consider thought a voice? In the science of silence of the thoughts at the time of the intention for the elevation of the Soul of the world leaders, is it important?

K- (You asked if the thought is a voice, but in the D of the communication that's the only thing you hear. Thoughts are creator of the emotions. It's a process of interaction, and the Soul thinks the same way you think in the physical dimension. So, yes, you hear and interact with it in D of the Soul. Thoughts are field based generated entities. (They will be ?? transferred as much as the emotion is transferred)).

The new Enhancement Units, or what we call the Head Units, will bring a lot of diversity (of experiences) and new insights. (It's the same process as what happened when they invented the "night vision" glasses. Before that you couldn't see in the dark, then you discovered all the life happening at night. Now it will be the same with the new plasma tools. Man, will begin to see what he has been blind to in the D of the emotion and thoughts. This will become very clear in the first stages of the transmutation and transportation process).

(You all will have to go through the cycle of learning which D you are in, whether in the P or in the D of the Soul, what we call energy, or plasma. It's like when you wake up from sleep and you think you are still dreaming. You will have to recognize which thoughts belong to the Soul and which to the P. Both are real, but you have to determine where you want to be. The emotions in each D are just as real as the other).

(How would you react in the D of physicality, when in essence you're getting information from the Soul? Nowadays, when we physically touch something we understand the emotion of it. But what happens when you physically touch something and the emotion is different than what you expected? (In the Soul) there will be no mistakes or misunderstanding of the intention of that touch. The thought behind the one who touches will be clear to your Soul, STP, and the P. There will be no room for saying, "I had no intention, it just happened." Because your Soul knows what that intention is, so you cannot lie or be lied to anymore). Life becomes much easier and much more transparent.

Q: (A KS said that after using the "Knee" Gans he's no longer in pain when he does any physical work. Are others having the same results?)

K- This is a magic liquid. (Yes, we're getting the same results from others. But monitor yourself that you don't use it for more than 7 days. However, if you leave the water on your skin (for some time) it will take on the imprint of the Gans and remain there. Then later if you get another pain it just goes away by itself. It's nice to know that you got the results you were looking for, but you have to understand where the cause of the pain is. Is the pain coming from the ligaments and cartilage? This is why we need doctors to monitor its use, that way we can continually improve it).

Q: (?? What makes the different conditions, since the brain has both an emotional and physical part, because the physical structure of the brain on both side are very similar?)

K- (They're not (as similar as they appear). The brain has a huge difference in the structure between the part for the emotions and that for the physicality. This is true even in the D of the fields. It's only because we don't have the knowledge and we analyzed the things in the wrong way. We haven't even seen most of it to be able to analyze it, because we just don't have the knowledge, nor the tools to analyze the essence of the real conditions).

(The emotional part of the brain has a D of plasma, and the P has the D of matter state, but it's in a plasma condition, which is a very different thing. (Remember Gans is a plasma condition and the body is made of Gans's. Each Gans interacts with the one next to it, and to the next cell, (so they are connected to the totality of the body). Therefore, it's a big difference then just thinking of it as a disconnected matter state. Also one is the creator of the other). (It's like the Gans's interacting with themselves and then creating a copy of themselves, which in turn creates a new dimension, (or creates a new entity, or an organ, or a new function)).

(The essence of what I think Mr. Keshe is teaching here is that we were brought up to think in the way of matter state, meaning that we can do something separate, or that we can do what we want without thinking about how it effects the others. In plasma science everything is connected to each other through the fields and there are countless interactions between all the plasmas. But how we effect the others and to what degree is a huge science that we are just beginning to learn about. As our body is made of Gans's, it is connected together as a Totality through the Soul and the MG fields, and gradually we'll learn how all these things interact with each other).

(Also remember that a single H Ray can turn back and interact with itself to create C14 and other plasmas, and these interactions can continue on and eventually create a U, that is if it is strong enough. Don't we do this with our thoughts? When we start ruminating on a single thought, it's like rubbing up against itself, and before you know it, we have created a whole forest of thoughts and stories. It's again the same pattern).

(Mr. Keshe started talking about the weight and mass. (The mass is created from the interaction of the M and G fields. Remember that mass is the same but weight is different. Then he said, that the mass is created through the field strength of the planet, and you get Inertia. I haven't studied this enough to know, but I think that since the weight changes it must be based on the MG fields of the object, which are unique to that object, and how it interacts with the fields of the planet to give it a specific weight. I don't know what he meant by, "then you get the weight interaction and confirmation of one to the other.").

(This is confusing because people generally refer to mass and weight as the same thing. But mass is the total amount of matter in an object, and weight is the force of "gravity." But with our knowledge of plasma where is the matter? Are they referring to the space between the electrons and protons? Is there really something there called "matter"? A speck of something called a proton? Remember also if you drop a small stick and a huge rock together, they both fall to the Earth at the same speed. Therefore, when they are not

touching anything connected to the Earth, they basically are equal in "weight" or pull to the Earth. But the moment you put your hand out and the rock touches it, suddenly it explodes into a heavy weight. I wonder if at that moment there is a flash of light that we can't see, when the two plasmas interact with each other. This is just something to think about and experiment with).

(This is the way the U works, and the sooner mankind understands it, then the sooner he will be free of a lot of misinformation and lack of knowledge).

(In the world of the Creation you can never take a single interaction of something by itself. It always interacts with everything around it. Because the minute you create an interaction, that thing has already interacted with what created it. And this interaction gives you a new dimension, (or the start of a new creation).

(The push and pull of the gravity creates the mass, and the mass is independent, because when you have two plasmas their mass is always interacting the same way. Two similar conditions are a constant. It doesn't matter if you're on the Moon or on the Earth. But when you bring in the Inertia, ?? it's the play of the same fields in a different D, then you get an interaction with the environmental fields, and you get the weight. That's why the weight is different (than the mass)).

(It happens the same way in the brain. The brain has a D of physicality for physical connections and running (the body), but the (physical connections) themselves interact and create emotions. And when (that emotion comes back to it) you get a physical reaction. (?? In addition to that reaction you have created a new dimension)). Mankind has never understood this.

(?? This physical reaction interacts with the STM, ?? and you have an Inertia of the Soul. (The fields manifest themselves in the D of the Soul, and this gives the emotion of the Soul, and it interacts with all other Souls. The Soul, ?? interacts with millions of the Gans's of Cu). If one moves all the others move. If you squeeze one, the others react in the D of the fields. But you might not see anything happening in the physical movement).

(When creating a plasma field you always have to consider all the different interactions. A plasma field interacts not only with the others, but also with its own creator and the plasma it, itself creates. I explained this in Book One, in the D of the weight, mass, and Inertia. Then you understand there is no end to (these interactions). But when you take a plasma out you have to consider which fields it interacts with, and those it doesn't interact with).

This will come to life when you go into the cycle of transportation and transmutation. (When you see or feel a field, you have to consider if it interacts with you, or is it a field that you have no common denominator, or connection with. But still it interacts with the D of the M field of your Soul in a specific way. You will react to it, by giving to it, or

taking from it, and then it takes what it needs from what you are giving. It also reacts if you gave something too strong that it doesn't need.

(The other plasma will react to your action, and that allows it to be fed). This is part of the feeding process which you will be taught in the coming time). Then you'll understand.

(Again, this last part is a little difficult to comprehend, but it's necessary for us to start thinking about how the plasmas of our Souls are going to be interacting with a lot of other plasmas when we start the actual process of transmutation. It seems that we have to really pay attention to balancing fields interactions, and be careful to remain humble, and not to start wanting to force our way on the others through our ignorance. Maybe it's more having the right intention and allowing the Soul to lead the interactions).

Q: What can we do to support the process we started with the "Dining with the World Leaders"?

K- (There is not much you can do, except to keep up with the interaction you felt during the process. Establish a new line with the other world leaders and force that position). (Maybe what this means is, that by building up the field strength it will force the leaders to pay attention and become aware of how they are really acting and how it effects others. He has said before that we can't force them, but we make it so strong that they come in).

The KF has taken a direct action in this matter. And we'll stay on course to see that the world leaders come to the point of agreement for world peace. But we do it through science and technology. (We will deliver the new sciences, which will make the old sciences obsolete and bring Man to work in a new dimension).

You've got to realize that when we deliver a new technology (T) to the government of China which makes nuclear missiles obsolete, (then will there be superpowers anymore? Or will they be a superpower over a "bowl of soup"? Then there will be no superiority. We'll deliver a T that makes the most advanced tanks useless, and they won't be able to fire their bullets at anything. Then the tank drivers will get out and go to the other tank crew and shake hands with them and invite them for dinner. They'll say, let's forget about pretending that we are sitting in such big things.")

Advancing in technology will change the course and make the old systems obsolete. I was explaining this to a very powerful politician in the past few weeks. I said to him, do you know what's the difference between me and Da Vinci? He said, no. I said, one thing for sure is, I'm not a painter. In Italy Da Vinci went from leader to the other to sell them his latest weapon technology, so that they could better kill their neighbors and take their territory.

(On the other hand, I deliver new technologies to world leaders for them to create peace with it. For them to see who's more powerful and can create a more peaceful time together. Then my problem is not mine, it's theirs. Because superiority in knowledge brings wisdom and what we call, humbleness. And this is the difference. We have to

deliver (the knowledge) through our Soul. But you are all involved in it, so it's not just me anymore).

(We are changing the course through the Soul of the world leaders. How many of you put your head down in the past weeks and months and supported the Soul of "such and such" world leader? (Maybe you don't see yourself to be at that place, or maybe the Soul you carry is at a higher strength than them, then it's your duty to give to elevate them)).

(As many of you have seen, the change in course will come. Not only are we changing the Souls of the world leaders, now we are giving a creed and knowledge to it, so that it makes the new advanced weapons technology obsolete. When you do that, then we'll have no more Superpowers. We only have the powers to create superiority in knowledge and peace).

(So don't think, "what can I do?" Know that if a world leader comes to your mind, that you have the power to give to him, to elevate him. Make this your daily habit, because they need it more than anybody else). (Then you'll understand that you always had the power within you, you only let someone else convince you that you were powerless. Test it and find out).

(The fee of 10,000 Euros will cover the expenses of a lot of things and for developing the systems. There are more systems and things to be developed. The KF does not ask for funds from outside, as you Knowledge Seekers (KS) know. Those who are selected as the first 25 to be trained by me personally will go into the second session of the 200 without having to pay additional fees, and the same with the 65 who will be chosen from the 200).

(In 2013 we chose the first 8 KS for MOJHANS and we tried to be correct and select from different races and colors, or whatever. We ended up with a murder attempt on me through poison by a KS we allowed to come in. This time we'll be very vigilant and use national security clearances for those who attend these conferences. And we'll use the T of the KF to understand through the Soul).

(If you want to be part of it, then contact us, it has to be concluded by this week. We have a structure and a reason for it. The fee is as a donation to the KF). We'll try to accommodate most of the students on summer holidays.

Some of the 65 will go on to become residents of the Chinese government's program to colonize Moon and Mars. The KS trained by KF will become equal to the scientists provided by the Chinese authorities. We'll merge the KS with the supporting nations. Most of this will take two years to complete.

So if you come in as one of the 25, you're more or less committed to serve for your lifetime. Do not come in only to be here for a week. We'll gradually train and teach you. It's a lifetime commitment for serving humanity. Then we'll go on to the next step and the rest.

We are not a sect, we are a scientific organization, and the science is being taught by the people who feel and live it, and they can transfer it to others. Most of you should have seen this coming months ago and now we are at the point to act upon it, and our KS are ready to go to the next step.

(The reason why the number 65 was chosen, is because it's one Soul for every year I lived on this planet at the present time. This is a gift to humanity, the "candles" of knowledge. It takes time to mature into it. (It's not for coming, and taking, and then going - it's a commitment to serve). (You can sponsor others, but once you sponsor someone you have to understand, that they have committed themselves to a bigger change).

(We are entering a new phase of development of the technology). You have already tested it with feeding by energy session, and then with changing the world leaders, so you know it works. We provide the T to become "Passengers of the U." There will be more and more people who will see no reason to remain on this planet to suffer so much. Whereas in the U everything is created freely and made available to every Soul, so why should we be suffering for electricity, food on the table, and a place to live?) Our place is in the Universe).

(The (exodus from this planet) after the first successful cycle of transmutation by KS will be horrendous. Many people will not want to be in the D of P of this planet. As a friend said, with every breath we take, we have to pay taxes on it. They say the 3 guaranteed things on this planet are birth, taxes, and death. But from now on birth on this planet will be guaranteed, and taxes does not exist in Space, and if you understand the D of the expansion of the STM, then death is very far away. As we advance and provide the T more and more people will go through it and want to be part of it).

(In regards to participating in these seminars. Many of you will say, I have a cancer and I'm dying, so at least I will try to do this training. It doesn't work that way. This is not an escape route from physicality).

Remember, we already know the Souls which are going to join us. I cannot put it in any better than this. We know those of you who will be part of the 25. And if you feel that you have to be there, you're already chosen to be there.

(Those of you who were part of the MOJHANS training in Italy, you know, that when I teach it's from 9 to 5, straight through with no gaps. It's a download of information, technology, understanding and everything else. There are no space gap, or "I am going outside for something." You come in and we take you right through it. We are not putting you to become MOJHANS, you have already learned everything you need to go to the next step).

You will become representatives of the STM. And in that process, you will learn a lot of things about yourself. You will learn how much you have changed. And you will learn to live in the D of the STM, more than in the D of P. Transmutation and transportation will

become a natural process in the life of all of you. (This is why I said for you not to book a hotel, because you will go home at night and come back the next day. Your home could be in Los Angeles, Beijing, or Tehran, it's irrelevant. Booking hotels is not our job).

We'll go through this process and make you ready for the first cycle of transmutation. Please make sure you understand what is to come. It's elevation of Soul. It's the knowledge which is within your Soul, to become interactive with the work the Foundation has set up to do.

If you still want to be part of the 200, make the commitment straightaway. Because once the first 25 is filled we'll go into the 200 section. (We do not judge a Soul, nor the man. Your Soul will judge itself, by itself. If you have that feeling, then you can commit yourself to it. This is what you've been waiting for, and now it's on the table). The T has matured to the process of the conversion of energy to matter, and the matter back to energy, or the STM to STP and P.

(When we start making colonies on the Moon or anywhere else, we cannot create rooms by continuous rotation at "1G," of the gravity you feel as humans on Earth. Instead, we create a condition through the M field forces, which are like the same "1G" on Earth. But it's a totally different concept). There are no bricks, or centrifuges.

(After you get adapted, then you can go out test how your body will manifest on the Moon. Would you create 10 legs and 20 arms when you go into the space of the Moon or Mars, or another position? These are now all a reality for the Man, as he takes the next steps in space exploration. Up to now, we only explored space with the P of the Man, and we're still "rocketing" it. From now on we'll travel with the D of knowledge and the energy of the STM. We are "Souling" it, and it's you who has to make that step). We're going to finish today's session round about 5:30.

Mr. Keshe said he will answer the fruit fly question in private. And the Chinese asked if they need to go to Austria to be part of the 200 group. Mr. Keshe said, they haven't decided yet where it will be. It could even be in China. There should be no problem, wherever it's going to be.

We are committed to the Chinese government's development of peace, and in due course we will establish a permanent representation in the Chinese government. So, don't think Linz will be the place where you go, it could be anywhere, even in Shanghai.

Q: In the last teaching you said that you cannot travel through the Universe, because you are the Universe. Is it like a mirror, and that we have the same inside as we see on the outside, like the Earth, Moon, and planets? Please, can you explain more about this?

K-There's not much to explain. It says what it says, it does what it says.

When we speak about the light, most of the time it's the light of wisdom, and not light as a vision. It's an enlightenment, and an understanding. All knowledge is inside the Man.

And when you have the knowledge you have already traveled the Universe to gather that knowledge. But in a way, as a STM you are connected to the collective knowledge of the U. It depends on how you call it, to come in.

(It will be very interesting how many of you will face this during these trials, you have no choice, "You are in it, up to your neck," as they say. During the process many of you not need to talk to the others, because you will understand each other (through the Soul). If you do it the right way, you won't need to have translators. If you're here to be part of this group, then you will already live through the D of understanding the knowledge of the U).

(How would you speak with a person from planet Zeus, when they have no alphabet, and there is no voice coming out of their body? There won't be a language, nor a cultural barrier between you, because you will carry everything within you, as you have access to the Totality. What is being opened up is a totally different ball game).

(The reason we're doing it in these large numbers is so that we don't suddenly have 25 Messiah's, or 200 Methi's appearing. This is a collective delivery of the Knowledge of the U. It will be very interesting times ahead).

(If you remember, I said to you years ago, that I'll bring you to see the Soul of the Christ, and meet the man. And many of you who went through the EU met the man and felt his Soul. Some of you touched him, and told us the color of his eyes. I have fulfilled whatever I have said. It's just that you have to be ready to understand it).

(This Easter weekend is a what I call, a celebration of the elevation of the Soul of the Christ. Many of you have wished for this for a long time. There was a couple that came to Linz just to see and feel the Christ, and we did. That was the promise I made, and many of you came and you did it. It's the same with the next stage. (You did what the Prophets did. That doesn't make you a Prophet, but it makes you enlightened to understand the knowledge of the Creation. This is why we do it in large numbers, so that it takes the hypocrisy of the prophecy out of the whole work).

Q: Is the STM in a gas state? As gas and not Gans state.

K- I don't know. Take an MRI scan of your Soul and let's have a look at it. It is always in a state of plasma.

R: Always in a state of plasma. That's interesting.

K- Of course it is always in a plasma state, it can't be in any other state.

You, Mr. Rick Crammond, showed it years ago, but you never understood it. (You filled up your reactor ball with Gans water and spun it, and then a hollow bubble formed in the center of the ball. You created the soul of that entity. You thought it was just a

hollowness there. But I took it as a STM, because it made a decision (to make a place for itself) in that structure). It's not interpretation, it's understanding.

(In most of the cases in the U, the heavier and denser material have a smaller combination of souls in their structure. But it depends on how that material is (put together). The much lighter materials that don't have much density, have a different structure. (This is why the STM needs such a small position in the brain), only some micro millimeters. And you also have to consider the feedback and interaction of the fields, as I just explained about what happens between the mass and weight, and the rest of it).

(About the training, you have to understand, that if you are selected to be part of the first 25, then you will be with me around the clock. And you will be enlightened in the direction of the STM. It will be like those who came to Italy), they were with me 24 hours a day. We're here to bring the change.

The Soul of Mitra will be amongst us. And in that process we will bring in massive changes.

LED lights are in a physical matter state condition.

Q: What will be the role of the Universal Council in creating peace for the creation the democratization of actual geo-governance. The alliance between trans-nationals and big powers?

K- (When the change comes none of them will have any connection to exist. You will understand exactly what it means when it happens. The big powers, are only big powers as long as they can control the food, health, and energy supply, and some of them (have power through nuclear). But when you are provided everything you need through the plasma, there will be no big powers. Superiority will come through elevation, and not weapons technology and how much you can store).

(There are a lot of milestones coming up, even though most of you are observing it, you don't understand it. In the coming time, most powerful world leaders will be brought to judgment. We've seen this with Trump. And we will see it with other world leaders. And then we'll realize how we have allowed ourselves to be run by a bunch of "misconducts," or whatever you want to call these people. (When this comes it will add a lot to how the human society will organize themselves)).

(They say one third of the members of the Indian parliament have criminal records with prison sentences for fraud and the rest of it. But they're still members of parliament, because they have the money. And then on the other side we have a huge percentage of the members of the European Common Market Parliament with their hands "well lubricated," with millions of dollars in cash in their houses, and bank accounts, and everything else).

(In the future nobody will accept these things, and there won't be big powers or big multinational corporations. They're multinationals only as long as they can control. We have put a framework around it, to disguise it. But in the next few months you will understand how I have already set up the new structure, so that what you wrote about big powers will have no meaning. It's already operating within the KF, it's all been set up).

(What we setup will become massive problems for the government's to handle. We setup the Comprehensive Polices were you pay a small annual fee for food, health, energy, and the rest of it. So you won't consume anymore, and you won't rely on energy from your government anymore).

Mr. Keshe said that the 2 boys with genetic defects are doing good, some improving and some set backs, which they need to adjust the systems for. But the new systems coming up will be even more powerful.

Q: Can you explain why when the physicality is inside the Soul it feels like being inside the womb of the mother?

K- (It's because it's the reverse of the process. That's all it is. Because now it's cocooned inside an energy field. The womb of the mother is an energy, it's like a Solar System. But it's in a liquid condition, but it's still another plasma condition. What you feel is the STP inside another sack of energy. You will understand this very rapidly).

Please, those of you who want to be as part of the 200 and 25, do it as fast as you can. Then we will go through this process and many of you will come to understand why we made such a rapid move, and how the change will be.

(Please understand, that those of you who join the group of 200 will have a very, very different kind of life when we finish with you, or when you finish with yourself.

Thank you very much for today. And I hope today we opened a new door for many of you to come in.

SUMMARY:

ENGLISH TRANSCRIPTION

(:10).

K- Good morning and good day to you and as usual, wherever and whenever you listen to this series of Knowledge Seekers on the Keshe Foundation Spaceship Institute, we

welcome you back. And as I always say, we welcome the new knowledge. What it will bring us, what will it change in us, and what it will be changed inside us, by the knowledge we gain from these teachings.

We have taught in past few weeks about the Soul, about the Universal Cosmic Rays and Cosmic Rays (CR) and everything else, but we took it to space .. (Break in Audio

.. what will be interesting for us in this space of time, (:12). is what happen when you come in touch with another Soul. When you walk down the street you see the man, you see his features, he is black, he is white, he is yellow, blue eyes, black hair, whatever. We categorize it, he is Indian, he's Chinese, he's English, he's Scandinavian and the rest. In the space Man doesn't have eyes, that's for sure. Man even travels in the dimension (D) of physicality (P). As long as he keeps himself in a field, gravitational (G) magnetic (M) field of the Earth condition, we'll see, the same as he always does. Once Man moves in the D of the Soul, once man moves in the D of the magnetic field of the Universe (U). In the Universe, how do we recognize another? How do we know, is it from that planet, or from this planet, or is it from a galaxy has no physical home, but lives like a nomad between the space gaps of the 2 planets, or stars, or whatever.

And in that process, the way we recognized the Black, the White, Chinese, and the rest. How do we categorize these people, these Souls? How do we interact with them? (:14). Or would the, by the experience of the connections to universal, what we call, pool of the knowledge, we instantaneously know who they are? What are their lives? What are their dislikes? What do we have to avoid? What we have to do?

I was talking to someone very recently, and I said using the Cosmic Ray Headphones, you cannot lie. When you see two people sitting opposite to each other, they speak the words. Sit them in front of each other with the silence, no word, with the two Cosmic Ray Headphones on their head and see if they both still sit. Am I fully in front of each other.

When a world leader sits in front of another one, and he has all sorts of what I call, devious intentions, in the word of the man he can speak perfect, I have no intention of doing this, and I have no intention of doing that, and we are doing this because of this. What will ?? the world leaders with the Headphones on each other, I wonder how they'll react. I wonder how you will react when you connect to the Soul, when there is no lies, when there is no covering up? No interaction of the Soul of Physicality (STP) in the dimension of the emotion of the man.

What would you do with the "Passenger of Universe?" How do you connect to yourself? (:16). How do you come to understand is this good for me? Is this not good for me? The others are not food anymore. So mentality of the man from eating, if he is a food, or is it a friend, or he wants to kill me, is gone, throw that away. Now it comes, how can I give to him, or to it, to become better than me, that my life, my what I do ?? has need, becomes a source of being for him to elevate.

We're coming to Easter. Tomorrow it's a Good Friday. And this is what the Christ did. He gave for the others to elevate, to understand the message. Were the human race "alien's" to him, that he had to do it in a different way. Or was it the way, that he could bring man to see what is the ultimate sacrifice? Giving the dimension of physicality, but knowing in the knowledge of him, he was transmuting in the dimension of the Soul. Where the STP was ?? with it, and then you call it resurrection. In a way, he appears in the dimension of the same, but in the same environment.

Now any of you today listening, and if you understood, can resurrect. We call it transmutation. In the word of the theology, it's a "resurrection." (:18). We are testing and trying. Now we have a system. We have a technology. We have a knowledge about the resurrection.

In production of material systems, we don't do anything, but to resurrect. We create the field. In the dimension of the "Wellness," we don't do anything but to resurrect. We copy the field that the body needs, by the same brain to restructure itself. We have chosen the same word for different things under different disguises.

You take the copper (Cu), you Nano coat it, you create a Gans of it. And then by the use of the Gans you create Cu again as a dust. Many of you have done this. Have you become Christ? Or now you understand the science. But in that process of resurrection, you have to understand, would I become, when I resurrect, when I manifest myself, do I put my Soul in danger? Do I put the Soul of the others, which are in that environment in danger, as plasma of the fields create space gap, MaGrav space gap, the space and distance.

Now we understand, truly man has to come to understand about this own creation, and his own reincarnation. And his own truth, the way he is. (:20). The way now he can manipulate the field forces of the Universe to the benefit of himself, then what he has done on this planet. Manipulating the dust into bricks and (building) homes. Manipulating one thing to another to have something. Now man has to learn manipulation of plasma, which itself leads the resurrection, of matter the state of the plasma, or the condition that plasma creates.

But what would you resurrect yourself, in front of the entity which has no dimension of physicality except energy? Is the word the "ghost," is a good example of it. A phantom, till we give you the reality. We're going through tests in transmutation, or "resurrection," whatever you want to call it. Why do our passengers cannot manifest themselves, even though they are present in the room? It's very simple, the lack of trust. Trusting in one's physicality to manifest itself in a new D.

What will mankind do in the Space? On Earth, because of the condition we are in, more or less will come out of the same roughly, few bits here and there. You leave Washington as a man, you appear as a man in London. (:22). Maybe do the truth about the way your Soul works, the Energy Center works from the information it has with the physical body, MaGrav. In Washington and you got a black eyes and brown hair, in London you become blue eyes and blonde hair, because the Soul is "fed up," being that there. He wanted to

try, to see how it looks when he is blond and blue eyes. Does he get, attracts attention? You know what happens if you meet a friend, who saw you there (in Washington) and he (sees) you here. And he says, "is that you?" Was that the intention to be, or the desire of the Soul, that you never satisfied?

There are interesting times ahead of us and from what we see in the coming time, conversion of the fields into the matter state, state of the man will be completed in the next few days. And in the next few weeks, we start the transmutation. Our scientists have to understand the technology (T) to be able to do it. We had to develop the technologies to be able to do it, and we are on the brink of that point. But the problem for you is, you appear on Moon in the body of the man there is no air, there is no water, (:24). but the STP of the Man wants to appear a man, as a man. Lifespan will be limited. How does the STP of the Man, is going to react and what Gans's it produces?

You have to remember something very simple. Many of you would understand something very strange today. I described this been teaching for some 20 years, today we unravel it. You put the Nano coating to create the fields, and you put the Cu as ?? Cu. You filled it up with the water of the salt, the containment gave you the limitation. The interaction of the fields gave you the Gans's, which took shape of the container. Call the Nano coating, the Soul of the Man (STM), and call the Cu the STP of the man. Contain it in the salt water of the body of the man, (:26). The Gans's produced will create the man, depending on the condition and the information you give it, of the planet Earth.

When you travel the span of the Universe, the STM will carry the STP of the man (inside himself), what would be the man in the space of the new "box," of new environment, where the salt, or condition of the interaction of the fields, creates the condition of the fields of life, in a given time, and space, and position. In a way, the teaching of the "Creation of the CO₂," or any other Gans box, was to teach you about the creation of man, and the ?? time in space.

Now, it's you who has to learn. Now it's you who has to understand the interaction, and inter work between the two, and see how your Nano material will link in with your Soul, how would it be connected to the Totality, (:28). in reality of what we call, life of the man. Now, you understand your Nano coating Box is the man himself. We taught it this way for you to gain trust, to understand that the fields you can use, as a field, as Gans's, and then use as energy to transmute, to become.

If one understands this process, one understands what has been taught for past 10 years. Then it comes to one point, and one point only. Would I allow, would I allow my physicality (P) to be opened up to become, in a way, the Soul of the new life? And would I accept the condition? And would I be there to accept the condition unconditionally, where I only interact in respect to the environmental condition and at this point of manifestation, time is "zero-time," because it did not exist. You could be the first man in a given position. It's your Soul, which it travels with the STP in it, to create that condition.

So now you understand. (:30). After years and years of teaching, and Gans making, and showing you how you put them in this, and that. And they give energy, and then you use them to make matter state, it has been all about you and your life, your existence, your physicality, understanding of the Totality. And when Man understand this, Man will have no fear of transmutation. You should have the fear of transportation, aircrafts crash, cars kill each other in transportation, ships get sunk and everything else. When you travel with the Soul, there is no ship, there is no cars to crash, there is no tankers to sink under the water under the oceans of the Universe. Then that should give you confidence, to learn to become part of the Universal Community. In a way of becoming the structure of this Creation. The only part of the knowledge for you as Knowledge Seekers (KS) that is missing is in depth, you have no knowledge of it, "Voilà, I go." But in the dimension of life where suicide is forbidden, is because in that process of the transformation ... (draws lines of C12 & C14 connecting 2 circles)

<< Audio Breaks >> (:32).

... transmutation and transportation, which ?? have no choice but ?? with the carbon ??, the combination of the interaction of the field in a different dimension. Once you learn this, once you understand this, then for you to travel the span of the Universe, except a few times you get lost here and there, you appear as creature you never thought you could be, and somewhere they dumped in the ocean of the fields that you couldn't imagine you could survive, but you're still there, and it took you a few thousand years to get yourself out of it. But you get out of it at the end. But then you find out, I can transmute myself back to it. Even though the planet you left a thousand years before has changed. Man maybe have become more civilized. Anything is possible in this race of the Man, it's unpredictable.

So, how much trust do you have in going from one to another? But knowing that it could be a different feeling of understanding of transportation and transmutation, appearance at the point of the time and the space anywhere in the Universe? Then Man will let go. But you have to practice, you have to learn step by step, lose the fear. Lose the fear of getting lost, lose the fear of, "I'm won't (be able to) come back to Earth." You don't come back to Earth when you die, anyway. You have a connection with it, but you can't come back. You're a seed of a star, trillion lights away according to the Man's present knowledge. Light of darkness of the knowledge Man calls it's the light years gap. (:34).

Ignorance has given credibility to stupidity. Excuse me, can you explain to me how many light years my Souls is on the way till it get to the point of its manifestation? Would I have enough energy to last 10,000 million years for my Soul to arrive at the destination? Man has not understood the science of Creation has created a fallacy about the science of himself, and limitation of its own understanding about the Creation of the Creator. Can you imagine God sitting there for your Soul left the Earth 100,000 million light years ago to arrive at its station to create another half a billion years, and millions of years a new cycle of life? No wonder one of His attributes is patience.

Now you understand that for you is to learn, to understand, to trust about this point of transmutation, using the fields of the Universe to arrive in the dimension of physicality, or dimension of the Soul. But I show it, that you understood in the dimension of physicality, you're welcome to burn carbon and fly. In the dimension of the transmutation you're welcome to not burn a fuel, (:36). but travel on the magnetic field of the Universe. You're ?? a saddle bag. This is the reason why some of you see (think), when I go through the transmutation I just become a pizza (delivery), I don't move, I don't shake, nothing happens. Yes, the Soul has left, goodbye. You're just sitting for the physicality to move itself.

Now, mankind has no choice. Now mankind is shackled with the dimension of the Inertia of this planet. And now Man has to come to understand the Totality of his existence. Why he is connected to water, and water is the life of Man? In a way, mankind has passed the exam by cheating too many times, ?? dying at about 50 - 60, until somebody comes and, "oh, would you like to have a Bible to read, to understand?"

We have to come to the point to have trust, because the next step for Man arriving at a point ?? << audio breaks >> interacting with another Soul << audio breaks >>. How much I can take? (:38). And these two are not of the same strength.

The time, the place and the condition of life becomes independent of physicality. But essentially dependent on the Man's intelligence to understand the condition and the position of where P manifests itself. How can he befit the two? How can he put the brain back? And how fast can we educate the rest of the humanity to become part of the knowledge of understanding?

And then how much of the C14 you want to have the mixture with your C12 to get to the point of destination fast, but don't go through it, because then you have to have more energy ?? to get ?? then you're back where you started. Mankind has to learn to separate the two line of communication of P and the Soul, the condition of the C14 and C12. The existence of within, that in combination of only and possessing, one place with the dimension of the plasma. And one the other place in the dimension of the matter state of the same plasma. You call it, the body of the Man. (:40). You call it, the controller, which is STP itself.

In the coming time, we will release technologies, which will give more confidence to people.

In the coming weeks, Keshe Foundation will run a one week, ten days seminar. Selected 200 people will be invited to the seminar for a week, 10 days. For them to start the first process of understanding, transmutation and transportation. In this process, not many of you will be left out. It will be taught in a proper way, that in the future you teach the proper way. The 200 people we choose from those who apply will be limited to another session of one week, with 65 of the 200. To be taught the second stage of transmutation and transportation. All this will happen in the next few months. The combination of the two sessions will prepare this first cycle of people, that are ready to become full time

passengers of the planet Earth within them. (:42). We'll teach you in depth this process. You're not coming for a holiday, there will be a lot of sweating and a lot of work.

In a way we teach excellence, and in a way, those 65 will become the point of reference for teaching the others the dimension, in a way, losing the fear of transmutation. Many of you will come to become the teachers of the next cycle. And then we choose amongst you, those who stay to become the Keshe Foundation Space scientists. We are not looking for PhDs, we are looking for understanding, work, transmutation and transportation of the STM. In the space we have no PhDs unfortunately, and no ??, and no University.

Those of you who want to join, this is an invitation of the Keshe Foundation, and not by manufacturing, or the sales side. We choose step by step, and we will bring the 200 together step by step. The first 20 - 25 will be ?? in time invited in the next few weeks, (:44). to join us in this program. Those will be taught to teach the next cycle what we call, the 200. And amongst those we will chose the 65. If we can achieve this rapidly, we complete. So, in a way, we are looking for the first 25.

Then as usual with the Keshe Foundation, we decide very rapidly. We close the request, the name, the address and whatever, by this Sunday. We did this some years ago, we taught MOJHANS. We did this the years before that. We did, the Knowledge Seekers joined me, 6 of them, 8 of them, for a few months. It's time for Man to learn, it's time for Man to do the next step. And it has to be done, it has to be sorted. In a way that now the systems are getting ready to go, we don't wait, we are ready as the systems are ready. I will choose the first 25 handpicked, on my own.

We have to wait a few seconds, apparently Rick has run into problems, he cannot hear us. (:46). Rick, do you want to restart or do you want me to carry on as the host?

For those of you who will join in the first 25, if you join the Knowledge Seekers teaching in ?? Tranni (Italy), it will be a hard solid week. It's not a holiday camp. It's as you've been when I teach, it's 9 to 5, 9 to 5. By then you will understand the next step of understanding. Then, when we choose the second cycle of 200, it will be split, that it's understood thoroughly. And then the 65 out of the 200 we teach, will be chosen in a specific way, that represent the Totality of mankind. Race, religion, creed, color, and everything else which goes with the separation of mentality. The first 25 we close this Sunday. As we would like to start the sessions around August, (:48). as a cycle of completion.

And maybe in September or November we do the cycle of 200. And then we do before Christmas the 65. By that time, many of you should have been through the transmutation and transportation. And then we go to the process of mass teaching in the coming year. We chose the 25 very carefully. And we in a way, closely get it vetted, that we know people who come are not just there for what I call, testing. They will bring commitment. And as usual with the Keshe Foundation, these kinds of things you have to cover the cost. We put the time, the systems, the effort, and you pay for it to become a student. I close

the 200 by next Thursday. And by... for the 65 we close that in around October, September. You'll be told, you're chosen as one of the 65.

Your life will change, your understanding will change. And in a way the process of the what I call, the next cycle will start. (:50). You'll be taught the works and the life in the space. What you've been taught in past few weeks about transportation and transmutation was fundamentally taught to the what we call, MOJHANS, five or six years ago. And gradually has phased into. This time we don't have that time. And it has to be done very rapid, because part of the technology completion has become very rapid, and we've got to complete. Those of you who want to be part of the first 25, you will have to complete everything by Sunday. We have a reason to put such a short notice on it.

Nothing will be on the Keshe Foundation website on this, because on the Stores and the rest, we are not selling a product, it's a knowledge of the Keshe Foundation. You have to get it through the Foundation, that is not something which the sales what you call, as a part of the structure. We have valued these teachings as totality at 10,000 Euro. You can pay for it. There is nobody not to go with it. There is no credit store and the rest of it. Once you are invited, (if) you don't take your place. What you have paid for goes to another person.

In a way, I know one of you 25 will fail to turn up. (:52). And it keeps to what we planned, at 24.

You've got to understand, your life will change beyond recognition, for you and the way you live. Everything what you have done will have a different meaning. Everything you could imagine, Man will achieve in the space will start this cycle. Most of you will become the first transmutation transportation people, which the Keshe Foundation will take over.

We are not sitting to go to the next phase, we go to the next phase directly from the beginning. Our systems will be ready for the first cycle, and the second cycle, and completed for the 3rd and the 4th. Some of this work will be done in conjunction with one of the governments in the world, which means a collaboration between the Keshe Foundation and a nation. (:54).

Those of you who come to be the first 25, you will understand it's not a week of just lectures. It's the week of the change of the STM advancement, understanding, progress, understanding the totality of the what we call, transmutation. And then how to transfer it. The first 25 people then become the teachers in conjunction, in the way to understand for the other 200, in a way to become the bigger cycle. The beauty of it is that the 65 will be chosen by you amongst you, not by us. You collectively as a 200 group will decide who you see to be serving the humanity for the transition of the ?? time. This is the way we chose the members of Universe Council. And it will be the same for the passengers of the Universe. (:56).

We allow, we have reached to that point of moving on and completing the process, and start getting as we say, "your toes in the water." You'll be taught everything is needed for you to complete the transmutation and transportation of your own Soul and P. And you have to be able to ?? The reason for it, we do it in the numbers and the bigger numbers is that, to take the taboo out of what we call, "celebrities," that (only) certain people can do. And those who getting chosen by 65, you become a life long, life teachers of the Man to become Man of space.

As I said, our plan is to establish the first colonies within next two years with the government of China on the Moon and Mars. These two destinations will be your what I call, "practice field." In a way, we are training the new cycle of Man to learn, to test, and to move. And instead of putting you on the run, on the runway to test the flight, we give you planetary ?? because even the Earth and the Moon will be so short. But at least it gives you a dimension of knowing what to do. (:58).

We will establish bases that you can still manifest as a Man till you learn how in a new dimension, when you move out of the colonies, that you can live a life on "Planet Moon." And the same with the others. Our work with the Chinese government will be thoroughly examined a step by step. And it will be placed on the condition that we provide all the technological background for the need to establish the colonies. And then from then on, you've done your "driving test," you can pass, and you can take the dimension of the course of the Universe. You decide where the next step will be, not us.

It'll be interesting during the time of these sessions, how many of you will choose to be at home at night, and come to the sessions during the day. It does not matter where the home is, California, Tokyo, Beijing, Tehran, or whatever. We encourage you not to book a hotel. As you can go home and come back. There are no accommodations supplied for the cycle of the 200, especially the 65. (1:00).

We are ready to go, and we have taught you everything you need to do, the equipments are ready, and Man will become the "Passengers of the Universe." Then in a way, see how many of you can do what the Christ did, to resurrect. Don't be on the way for 4 days with the rocket, be there in 4 seconds by the knowledge of your Soul. As I said, the serious play has started. Because the equipment to allow the STM to expand and manifest itself is completed, and it's near completion in some other angles, that will come in the teaching in the future time to come.

Understand, those of you who come, we invited to come to these sessions, that you're coming for a life experience change. And I hope, as we said, in 2023 we'll take Man into space, the true space, without the monkey clothes and space suit, but through the space of the STM.

Then we start teaching you other dimensions and other what we call, knowledge that you need to know what to touch, what not to touch, what to take from and what not to take from. (1:02). And these are all fields and not animals for you to eat. Remember the experiment, which was done by Alekz years ago, he wanted the orange juice in the

morning and he took the orange juice. And he wanted to get drunk, with the same water he got drunk. It's the field energy that makes him drunk with the knowledge, and not alcohol.

Understand that we have entered the true time of space. We commit ourselves into a new space development, a new understanding and new systems. And many of you will understand how to process this on your own. I wonder how many of you still want to go to the Moon on a UFO. And how many of you will go to the Moon by the knowledge of the Universe.

I see Rick still has a problem with what we call, recordings or the voice.
(Some problems with showing commercial videos >>>)

Break >>> 480th KSW April 6, 2023 (1:12).

K- I hope you can hear me and we wait till the Rick comes back. If you raise your hands, we can promote you, if you have any questions to ask. Can anyone hear me. Can you type it in if you can hear? Okay, thank you very much. Are there any questions or do you want to wait till Rick appears that we can promote you to ask a question? As we are recording on Zoom channels then nothing will be lost, everything will be kept and recorded on different channels, YouTube and the rest.

In the teaching of today we try to bring a new dimension, we try to bring a new understanding. If you can write it here in the Q&A, on the Live Stream, which I have access too to answer your questions. If you cannot, raise your hand. (1:14).

I have no access to ??. There are two questions.

Q: .. Can you consider thought a voice? In the science of silence of the thoughts at the time of intention for the elevation of the Soul of the world leaders, is it important? We appreciate your guidance.

K- When you say if the thought is a voice, in the dimension of the communication that's the only thing you hear. (1:16). Thoughts are creator of emotions. The same way as you think in the physical dimension, so does the Soul. It's a process of interaction. So, yes, you hear it in dimension of the Soul. You interact with it, with the dimension of the Soul. Thoughts are field based generated entities, and yes, it will be ?? trans ?? as much as the emotion.

The new Enhancement Units, what we call, the Head Units, will bring a lot of diversities, a new insight. What I call, we could not see till we created the night vision glasses, and we see in the night. We will have the same with the new tools. Man, will see what he has been blind to in the dimension of the emotion, in the dimension of thoughts. And this will become very, very clear in the first stages of even during the transition of the transmutation and transportation.

Which one is real? Which one am I? This was the dimension of physicality, now I'm in the dimension of energy, or what we call, plasma. These will be the cycle that you will all go through. (1:18). It's very much when you wake up and say, am I still dreaming? Am I walking? That's a condition which come in it. And then you have to think, these thoughts belong to the dream, these thoughts belongs to ?? And where do they match? Which emotion is the reality in which dimension? Because they're both real.

And how would I react in the dimension of physicality when I in essence get the information from the thoughts and the Soul? Nowadays, physically we touch, and we carry emotion. What happens when you're in a position that physically touch, and the emotion is different than what you think? There will be no mistakes. There will be no misunderstanding, what is the intention of touch? What's the thought behind it, because this both will be clear to the Soul and the STP, and P which carries it out. I had no intention, it just happened. But, excuse me, the Soul at the dimension of the thoughts says, that was the intention. You cannot lie anymore. Life becomes much easier and much more transparent.

Q: .. Mr. Keshe, question on the Knee Gans. I'm no longer in pain when I do any physical work. My question, are other will have the results as well. .. Antonio?

K- This is a magic liquid, (1:20). and we're getting the same answer, yes. Monitor that you don't use it more than 7 days. If you leave the water on the skin, this will take up the imprint, and it's there. If you get a pain just goes away. And then when it comes to repairs, the time of its, what we call, work. It's nice to know that you got the results you were looking for. But you have to understand where the cause of the pain is. Is the pain, is to do with ligament and cartilage? ?? We need doctors to monitor it, that it's changing, it's going to where it should be.

Q: .. Because the brain has an emotional part and a physical part, what makes and condition this, since the two sides have very similar structures, physical aspects?

K- They're not. .. There is a huge difference between the structure of the emotion and the physicality of the body of the man in his brain. Even in dimension of the fields. .. And because we never had the knowledge we analyzed things in the wrong way. And most of it we haven't seen even to analyze, we don't have the knowledge, (1:22). we don't have the tools to analyze the real condition, the real ?? And in that essence it's ??.

The emotional part, and the physical part. Emotion has a dimension of plasma, physicality has the dimension of matter state, but in the plasma condition, which is a very different thing. You still touch the Gans, but these Gans's, everyone has an interaction with the one next door, the next cell, the totality themselves in the system. So there is a big difference, even though one is the Creator of the other.

And it's very much, it's like the interaction of the same, creating the same, and then a new dimension. You have the magnetic field, and you've got gravitation. They interact, this creates a mass. But in creating that mass, they interact with what created them in the dimension of the field strength of the planet, then you get the Inertia. Then you get the weight interaction and confirmation of one to the other.

And so, this is the way the Universe works. And the sooner mankind understands this, then a lot of what I call, misinformation, lack of knowledge, will be sorted. In a way you cannot ever in the world of the Creation take one interaction. Because the minute you create an interaction, (1:24). this interaction itself, interacts with what .. created it. And this gives you a new dimension.

The pull and push of the gravity creates the mass, and the mass is independent, because when you have two plasmas their mass is always interacting the same way. So, two similar conditions, so it's constant. It doesn't matter if you're on the Moon or on the Earth. But when you bring in the Inertia, play of the same fields in a different dimension, then you get an interaction with environment fields, then you get the weight. That's why you weigh different.

It's the same way the brain. Brain has a dimension of physicality for physical connections and running, but they themselves interacting, creates emotion. And then when they interaction of the emotion comes back to it ?? , and you get a physical reaction. But there's still another dimension, now you created a new dimension.

What this Man has not ever understood, which this itself now interacts with the STM. Now, you have an Inertia of the Soul. You have manifestation of the fields in the dimension of Soul, and that it gives the what we call, the emotion of the Soul in interaction with all other Souls. You are as a Soul, that ?? once remove ?? Gans of copper (Cu). And there are millions in there, and you're interacting with all. If I move you the others move. If I squeeze you the others react in the field dimension. But you might not see anything in the physical movement.

So, you always have to learn, one has to always consider, you created a plasma field, but this plasma field now interacts not only with the others, (1:26). interacts with its own creation, or what creator as well. I explained this in book number one, if you understand it in the dimension of the weight and mass and Inertia. Then you understand there is no end to it, it's just what you take out to be. Which field of it interacts, which doesn't.

This will come to life when you go into the cycle of transportation and transmutation. You see a field, you feel a field, does it interact with me? Or is it a field, which I have no

common denominator, connection with, but it interacts with dimension on my magnetic field of my Soul, in a specific way. I react to it, I go less to give you one, or take the other one, then he takes what he needs from what I'm giving, because I was given too strong, and it doesn't need it. So, he reacts, that interacts with my reaction, that it allows him to be fed. This is part of the process of the feeding when you come to it, then you'll understand.

Q: .. Can you give me .. more information on the preceding of Dining with World Leaders? What can we do to support the process?

K- Not much you can do, except to keep on the interaction with what you felt during the process. (1:28). Establish a new line with other world leaders and force that position. And Keshe Foundation has taken a direct action in this matter. And we stay on course to see the world leaders coming to the point of agreement of the world peace. But through science and technology, delivery of the new sciences which makes the old obsolete and it brings new dimensions to Man's work.

You've got to realize when we deliver to the government of China a technology which makes nuclear missiles obsolete, who is the superpower anymore? Superpower over the "bowl of soup"? There is no superiority. When you deliver technology which the tanks, most advanced tanks have no bullets in them, cannot fire anything. Where is the superiority and ?? ? Isn't it that the tank driver gets out and goes to the other one, let's shake hands, we can have dinner, forget about the ??. What's the use of sitting here, and pretending you're sitting in big things.

Advancing in technology will change the course, which makes the old system obsolete. I was explaining this to a very powerful politician in the past few weeks. I said to him, do you know what's the difference between me and Da Vinci? He said, no. I said, I'm not a painter, that's one thing for sure. (1:30). But Da Vinci went from leader to leader in Italy, to sell them the latest weapon technology he could get, and they'd be better to kill. To be better than the neighbor next door, and take their territory.

I deliver new technologies to world leaders to create peace with it. And to see who's more powerful to create a more peaceful time. Then my problem is not mine, it's theirs. Because superiority in knowledge brings wisdom and what we call, humbleness. And this is the difference, where we have to deliver through our Soul. You are all involved in it, not just me anymore.

To change the course, through the Soul of the world leaders, how many of you put your head down in past weeks and months, and you've supported the Soul of "so and so" as a leader? But you don't see yourself to be at that point, maybe your Soul is even higher than them, in the strength that you carry, and it's your job to give.

The change of the course will come as many of you have seen. And we not only change the Soul of the world leaders, now we are giving what we call, ?? creed and knowledge to it, that makes the new what we call, advanced weapon technology obsolete. And when

you do that, we have no more Superpowers. We only have powers to create superiority in knowledge and peace.

So don't think, what can I do. (1:32). If a leader comes to your mind, give to him. Make a habit (of it), that they need it more than anybody.

<< Rick adjust his audio >>

R: Well, I've had some issues after the power suddenly went out and for some reason my powers power supply that normally kicks in for a few minutes just did die as well. And something happened to the sound and all that and altered things. I'm having trouble getting it all to come back. But I think I have it working now. I'm broadcasting to live stream.

K- Okay. You take over.

R: Thank you.

K- .. I have a private message regarding the 25 people and 200 people. (1:34). You still send your confirmation to the usual channel info@keshe.foundation. ... We'll get the information and then any other channel usually correspond and you get a response back from the Foundation, those channels will be opened and be tested. I was asked the fee of 10,000 Euros. This will cover a lot of things because systems have been developed and there are expenses to cover for the systems. There are going to be more systems and more things. And as a Foundation we do not ask for funds from outside. So as Knowledge Seekers you ?? know.

The ones who get chosen for the first 25, will go into the second session of the 200, with no, what we call, the fee to be paid, so it's just carrying on forward. And the ones who gets chosen for the 65, you don't pay any more fees for the final sessions, you'll just get added into the structure.

As you remember when we chose the first eight Knowledge Seekers in 2013, we went through every single one, we try to be correct, that we don't take our prejudices about one nation, or one color or one race or whatever. We ended up with murder attempts on me with poison by the Knowledge Seekers who we allowed to come in. (1:36). This time, we are very vigilant and we'll use national security clearances for those who attend these conferences. And on top of it, we use the technology of the Keshe Foundation to understand through the Soul.

So, if you are and you want to be part of it, especially some of you from the first 25, might end up to go to the end of the 20 what you call, 65 people, it's just that one fee. There is no more. And this has to be concluded by this week, we have a structure, we have a reason for it. You enroll, you send your (request) "I would like to be." We do the rest of it, and you will get a communication from the Foundation, what to go and whatever. Your fee has to be paid directly to the Foundation. There are no ?? fees, it is as a donation to the Foundation, the Foundation providing the services in the background to the whole lot. But this all has to be completed by very, very, very rapidly in the next few

days. Because we by experience, when we leave it, it just drags on and people come up with other things ??.

We try to accommodate most of the students on summer holidays, that you can accommodate to be there. It doesn't take part of your work, that you have time to do it. And some of the work will be falling with you, in back home. And we are on course to do it. And some of the 65 where they all go to become the residence of what we call, the program which is sitting with the Chinese government ?? colonization. So, we train and we carry forward. We train and carry forward. (1:38). And the Knowledge Seekers trained by the KF will become equal to the Knowledge Seekers provided by, what you call, the scientists provided by the Chinese authorities. We merge the Knowledge Seekers with the nations support. And then that's part of our work to do.

A lot of this will take two years to complete and process. So, if you come in at 25, more or less you're committed for life to serve. Do not come in that I become for the week. We gradually train you, we teach you. It'll be commitment for life to serve humanity. This step will go there on to the next step and the rest.

We are not a sect, we are a scientific organization, and the science has been taught by the people who feel it, and live it, and they can transfer it. So, many of you will join at this point into the programs of what we call, Knowledge Seekers. At first to define the Knowledge Seekers to be, and then the 200. Many of you enter a life commitment to serve. It's there to be done. Most of you should have seen this coming months ago, and now we ?? are on it, (1:40). And we act upon it and our what we call, Knowledge Seekers are ready to go to the next step.

If you notice .. why chose 65, it's one Soul for every year I lived on this planet. At the present time, and this is a gift to humanity. ?? Candles of knowledge. It takes time to mature into it, and it's not there, "I come to do - to go."

You can sponsor others, you can sponsor yourself, but once you sponsor you have to understand they have committed themselves to a bigger change. You've got to realize as we're going entering a new phase of development technology, as you tested with the world leaders, as you tested with the food, there'll be more and more people who will see no reason to be on this planet to suffer so much. And as we provide the technology to become passenger of the Universe. In the U everything is created and available, why should be the point of suffering for the electricity, the food on the table, a place to live, where ?? our place is in the Universe. (1:42).

The uptake of transmutation after the first cycle and the ?? of the Knowledge Seekers will be ?? horrendous. Many people will not want to be in the dimension of P of this planet. As a friend of mine said, every breath we take we pay taxes on it. As they say, taxes, birth, and death are the three guaranteed things on this planet.

From now on birth is guaranteed on this planet. Taxes does not exist in the space, and if you understand the dimension of the expansion of the STM, death is a long, long way.

And as we provide and clear this technology for more and more, you will understand more and more, people will go through it, ?? want to be part of it.

Many of you will say, I have a cancer, I'm dying, so at least I'll do this. It doesn't work that way. It's not an escape route.

Any other question?

R: I'm just wondering where we are in the Q&A here. Have you covered the fruit fly question yet?

K- No, we don't want a fruit fly. (1:44). Is that the question by Antonio. .. I saw it.

You can do on the health@spaceshipinstitute.org too, if you want to join in, you can choose everything. .. The channels are at foundation, and health@spaceshipinstitute.org these are all open. We go through it very rapidly over the weekend, and do not wait for response back. Go through the process of everything which you need to be done, and you get informed.

Remember, we already know the Souls which are going to join us. I cannot put it any better than this. We know those of you who will be part of the 25. And if you feel that you have to be there, you're already chosen to be there.

Send your request complete. Don't forget, we need two things from you, your email address and a telephone number. A lot of times when the Keshe Foundation responds, our response goes into your junk, if we don't get a response from you, we can call you. Make sure you include in there, my name is whatever, telephone number, email, I want to be one of the 25, make your payment to the Keshe Foundation Holland only. Not to PayPal, not through other channels, which the Keshe Foundation usually pay. This is a program through the Keshe Foundation International, it has nothing to do with operation. (1:46). These all come in as a donation.

You'll be called to join in and then we start with a consent that it fits all 25 of you to be at a place, and a position. Then, after that week, we go into the 200. The same will be with the 200. Those of you who come for the 200 you have 1/3 chance to become one of the 65. So, understand the commitment to the next session.

Those of you who joined us in the teaching from Trainni and Barletta (Italy), you know, when I teach it's nine to five, it is nine to five, there is no gap. And it's download of information, technology, understanding and everything else. There is no space gap, there is no, "we are going for something." You come in and we take you right through it. We are not putting you to become MOJHANS, you already have learned everything to go to the next step.

You become representatives of the STM. And in that process, you will learn a lot of things about yourself. You will learn how much you have changed. And you will learn

you will live the dimension of the STM, more than the dimension of P. Transportation and transmutation become part of the natural process of life for all of you. (1:48). This is why I told you, don't tell us, where do we book a hotel. You go home, you come back next day. Home could be Los Angeles, home could be Beijing, home could be Tehran, it's irrelevant. There is no booking, hotel booking, is not our job. You have a home. You come to school, and you go back home.

We go through this process and make you ready for the first cycle of transmutation. Please make sure you understand what is to come. It's elevation of Soul, it's the knowledge which is within your Soul to become interactive with the work which the Foundation set up to do.

If you want still to be part of the 200, make the same commitment, do the same straightaway. Because once we take the first 25, you go into the 200. We will not judge a Soul, we will not judge a Man. (1:50). Your Soul will be judged by itself, and if you have that, and you feel that, commit yourself to it. This is what you've been waiting for, is on the table.

Technology has matured to the process of the conversion of energy to matter, and the matter to energy. STM to STP and P. You've got to understand something very interesting, is that when we start making colonies on the Moon or anywhere else, we cannot create rooms by continuous rotation at "1G" that you feel as human ?? on Earth. We create condition through magnetic field forces the same as Earth as "1G", which is a totally different concept.

There are no bricks, and no centrifuge. Then you're allowed to go out to test how your body will change. Would you have 10 legs and 20 arms when you go into the space of the Moon or Mars, or another position. All these now is a reality to the Man to go to the next steps of space exploration. We explored space with the physicality of the Man, and we still "rocketing" it. We travel with the dimension of knowledge and energy of the STM. (1:52). And we are "Souling" it, and it's you who have to ?? and it's you who have to make that step.

Any other question?

We're going to finish this session round about 5:30 I have to be in a meeting. So, if there's any question three is about half an hour.

R: You didn't want to address the fruit fly situation there. Is that true? Or would pass on that question?

K- I know this question. Do you want to read? It says, Mr. Keshe in the area we have a problem with fruit flies which destroy our fruit. You want to read it?

R: Sure. My thought comes for the next season I was going to try Cu Gans with amino acid, but then this may affect the bees which is necessary for pollination. So my question is, is it possible to target one insect and not the other?

K- Yes. I'll write to you separately, how to do it. It can be done, and it is very, very effective. Mr. ?? we'll talk about this separately. (1:54).

Q: Lynn .. We have a question from China, they say, do I need to go to Austria to attending this 25 or 200 cases of this transmutation?

R: I think your microphone is off Mr. Keshe.

K- Yes, you're right. We will not disclose where the 25 will be and the same will be with the 200, the time and the place. It will be somewhere around August, July, August, September and it could even be in Beijing. It could even be in Austria, it could be anywhere. But because there's a process we have to set up. Some of you of the 25 will be taught and brought into the cycle for the last five what you call it, the last session of 25, weeks before, days before.

We will prepare you when you arrive. We don't start from zero. We have the systems and in a way you'll have a preparation prior to wherever we decide. (1:56). There should be no problem if you got to be, wherever you got to be. Just because you're Chinese don't think you have to go somewhere else, it could be in your own nation.

We are committed to the Chinese government development of peace, and in time in due course we will establish a permanent representation in the Chinese government. So, don't think Linz will be the place where you go, it could be anywhere, even be Shanghai.

Next question.

Q: .. How do you explain the formation of light in "eggs" LED from a Plasmatic point of view?

K- I don't know. I don't know what he's talking about. (1:58). ...

Q: .. In the last teaching you said that you cannot travel through the Universe, because you are the Universe. Is this like a mirror, we have the same inside as we see in the outside, Earth, Moon, planets? Or please, can you explain more about this? Thank you very much.

K- Repeat the question (repeats question)

There's not much to explain. It says what it says, it does what it says.

When we speak about the light, most of the time is the light of wisdom, and not the light as a vision. And it's an enlightenment, understanding. And all knowledge is inside the Man. And when you have the knowledge you have already traveled the Universe to

gather that knowledge. But in a way, as a STM you (are) connected to the collective knowledge of the Universe. (2:00). It depends how you call it, to come in.

It's very interesting, many of you in during these trials will face this, you have no choice. "You are in it, as we say, to the neck." When you go through this process, many of you will never talk to each other. Many of you will understand each other. None of you, if you do it the right way, need any translators. If you're here to be part of this group, you already will live through the dimension of the understanding of the knowledge of the Universe.

How do you speak with the person from planet Zeus, they have no alphabet, and there is no voice coming out of their body? So, you don't have that language barrier. You don't have that what I call, cultural barrier, because you carry everything within you, because you have access to Totality. It's a different ball game what's to be opened up.

And the reason we're doing it in these numbers is that we can't have suddenly 25 Methi's, and 200 Methi's appearing. This is a collective delivery of the what I call, knowledge of the Universe. It's an interesting time. Very, very interesting time. (2:02).

Remember years ago I said, I'll bring you to see the Soul of the Christ, I'll bring it to meet the man. And many of you who went through the EU met the man, felt his Soul. Some of you touched him, told us the color of his eyes. Whatever I say, I fulfill. It's just that you have to understand, you've got to be ready to understand.

This weekend is a what I call, the celebration of the elevation of the Soul of the Christ. Many of you wished for a long time. A couple came, they just came to see, to feel the Christ, and we did. And that's the promise I made, and many of you came and you ?? did. And now it's the same, the next stage. Above what was done by the Prophets, which makes, does not make you a Prophet, but makes you enlightened to understand the knowledge of the Creation. We can't, we won't bring six or seven and make them ?? this. The large numbers take the hypocrisy of prophecy out of the whole work.

Any other question?

Q: Is the STM in a gas state? As gas not Gans state.

K- I don't know. Test your, get yours MRI and have a look at it. It is always in a state of plasma. (2:04).

R: Always in a state of plasma. It's interesting. Okay.

K- Of course it is, it can't be in any other state.

You, Mr. Rick Crammond, years ago showed it, but never understood it. You filled up your ball of Gans's of water, and it became hollow in the middle. You created the soul of

that entity. You took it as hollowness. I took it as a STM, because it made the decision ?? place in that structure. It's not interpretation, it's understanding.

In most of the cases with the work of the Universe, the heavier, denser material have a smaller combination of structure of souls. Depending how that material is done. The much lighter and non-denser have a different, what we call, structure. And this is why man needs such a small position, some of it micro millimeters, as position of the Soul. You've got to consider the feedback and interaction of the fields, I just explained between mass and weight and the rest of it. (2:06).

I just received a private message. Please if you have decided to make the payment to the Keshe Foundation in Holland. And it's got to be done, more or less for the next few days. We go by the numbers 1, 2, 3, 4, 5. And in that order completed you will be invited. There is no lottery draw, there is no, oh, I was there, and you were told you are the first 25 or 200. And then it's your responsibility amongst you to choose the 65. Then the rest will follow as ??.

You've got to understand, when you are in the first 25 you will be with me around the clock. And you will be enlightened in direction of the STM. The same as when you came to Tranni, as Knowledge Seekers. You were there 24 hours a day. We're there to bring the change.

And the Soul of Mitra will be amongst us. And in that process we will bring in massive changes.

Any other question? (2:08).

Q: How do you explain the formation of light in an LED from a plasmatic point of view?
K- What?

R: The LED is what we call, a light emitting diode. How do you explain the formation of light in an LED from a plasmatic point of view?

K- It's a physical matter point. LED's are matter state condition.

Q: .. What will be the role of the Universal Council in creating peace for the creation the democratization of actual geo-governance. The alliance between trans-nationals and big powers?

K- None of them will exist to have any connection. You will understand exactly what it means when it happens. (2:10). The big powers, are big powers as long as they control the food, health, the energy supply, and some of them has additive added bits, they call themselves, nuclear. When you provide everything to them, there is no power, there is no big power. Technology will bring that, superiority will be in elevation, not in what we call, weapon technology and how much you can store.

Then there is a lot of milestones which are coming up, that most of you are observing it, but you don't understand. In the coming time, most powerful world leaders will be put to judgment. We've seen that with Trump. We will see that will come with other world leaders. And then we realize how we have allowed ourselves to be run by a bunch of "misconducts," whatever you call it, people. That will come and add a lot into how human society will organize themselves.

As they say, one third of the parliament in India all have been on record, prison sentences for fraud and the rest of it. They're still members of the parliament, because they have the money, they don't pay their staff. (2:12). They have to work for them or whatever they do. And the other half we have in the European community. Huge number, percentage of the members of the European Common Market Parliament they got their hands well what you call, lubricated as we've seen, millions of dollars cash in their houses, and their bank accounts and everything else.

So, nobody will go with these things. And you find out there won't be a big power and there won't be big multinationals. As they're multinationals as long as they can control. We have put a framework around it in a very way to .. it's been disguised. But in the next few months you will understand how I have already set up the structure that, what you wrote has no meaning. And it's already operating within the Keshe Foundation, it's all been set.

It'll become the problem for the government's to handle this, massive problems. Go back into what we put month, annual fee for food, annual fee for health, annual fee for energy, annual fee for blah, blah, and the rest of it. If you are Brazilian and you pay into the structure of what we set up, which is in whatever it could be, you don't consume anymore, you don't rely on energy on your government anymore. (2:14).

<< It seems that the audio of Mr. Keshe breaks here >>

R: Still there Mr. Keshe?

K- ... you have not seen it. ..

Any other question? We are coming nearly 5:30 ??.

Q: .. Can you please tell us about the two children with the genetic defects. How are they?

K- We are still working on them. This is in the hands of the doctors. And we see improvement, we see changes, we see development of other weaknesses. You have to understand, when we see a development of the weaknesses, which wasn't there before, this was planned five or ten years, five years, ten years, even in the womb of the mother, for any genetic changes.

They are doing well, we saw a very good what we call, improvement with. There is not a setback. But these are the things which are set by the brain years ago, it's part of. It's not, you say they are five years or six years. But don't forget, these genetic defects inherited goes back to the father and with the grandfather. (2:16). So we have to do a lot of things in the background, or the body has to do to change those. They're doing well. I heard from the doctor responsible for it that a few weeks ago, the boy, the older boy, had to be pushed up the ramp. Because they built the ramp to go to the front door, he has gained the strength to go up the ramp on his own. But these are small steps.

We see the younger one, new signs of the what they call, the disease showing itself. So we have to monitor, and see and change the system. The systems will change in the next few weeks, and there'll be interaction much more powerful. The doctors will have. I'm not in that circle anymore. I don't, I'm not in the, what you call it, hands on position of the, it's all going to doctors and next cycle of that process.

But next week, the cancer patients of the doctors will receive a new what we call, add on system to work faster, help the doctors with their problems. It's an evolving technology. But these two boys, the mothers are happy, the parents are happy. But we have to see how much we can change, we have to go now into ingrain changes within the grandfather. This is where our problems sits. When I look at it genetically. They're doing well.

We had the first child who was brought to doctors with the ADHD very massive problems. He has finished with the Foundation last week. (2:18). And the schools and the parents understand the change. And he's become a new boy, he started a new life. And I hear, we have another ADHD boy who has joined in on the back of the other one. And the parents have seen the change in their first couple of sessions with the doctors.

These are radical changes, as I said to the people who went through it with us, you would have had a lifetime of misery, pain, conflict and bring disharmony in the family. Now you have a family who lives with lovingly, caring each other. Caring for each other, understanding, and the time which was there for the problem, which was with ADHD and the other things are not there anymore. It's time to love, it's time to enjoy. It's beautiful to see how a boy could have been always in trouble, and ended up most probably something, problem in the society, most probably end up to become a doctor, engineer and professor.

And that's where this technology counts, the future of mankind. Change is slow, slow, on the basis to. As a young boy now he has every opportunity to become the dream of humanity. You've got to understand, with this technology we change the structure of life of people for the better. And that comes for them to do it for themselves, not by us. We just create the ground for it. (2:20).

Q: .. Can you explain why when the physicality is inside the Soul it feels like being inside the womb of the mother?

K- It is the reverse of the process. That's all it is. Because now it's cocooned inside a field energy. The womb of the mother is an energy, it's a Solar System. That's we are in with the liquid, it's just what you call, another plasma condition. Now, the STP is inside another sack of energy. That's why you will be, you will understand this very, very rapidly.

Ask one more question, and we say goodbye for today.

R: I'm trying to find another question here. So just a minute.

K- If there's no more question everybody knew we'd have to go today ??.

R: I think you've cleaned it up. Thank you. (2:22).

K- Please, those of you who want to be as part of the 200 and 25, do it as fast as you can. Then we will go through this process and many of you will come to understand why we made such a rapid move, and how the change will be. Write to info@keshe.foundation or health@spaceshipinstitute.org. All the payments have to be only through Holland, and we only process them (up to) Monday.

Please understand, those of you who come as 200 group, you will have a very, very different kind of life when we finish with you, or when you finish with yourself. Thank you very much for today. And I hope today we opened a new door for many of you to come. Thank you very much.
