

483rd Knowledge Seekers Workshop; April 27, 2023

(Quick Index 24pp, Topic Index, Transcription, Proofing done ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

T about to breakthrough worldwide; Rockets obsolete; Collaboration with Government; Replicate Earth's fields; KF App supply needs; How drone copied; KS elevate leaders; Understand plasma field interactions - not matter state; One plasma contains all elements; Gravity teaching higher order - all elements matching field strength; M field vacuum in body - relative to Inertia - Ocean a vacuum; Waves of field densities; Skin & meridians; Plasma construction by partitions; Learn lesson don't repeat; Change is us.

Topic Index

KSW greatest pleasure; Systems work by elevating & expanding the STM over physicality (P) - thousands been through the system; Knowledge was missing from Man for thousands of years - now here - new direction next 5 years; KF just about to breakthrough worldwide - huge leap forward; Space Technology of America will become obsolete; KF will collaborate with a major government - T waiting to be delivered - government has to announce; From hard work of Knowledge Seekers (KS) and elevating Soul of world leaders; Given 2 options to travel - by P like UFO- or Soul as energy pack create a plasmatic envelop and deliver it to destination and unpack - on Earth be same but in space different manifestation; Not wear spacesuit on Moon; Time of death STM separates from its P - new position decided by strength of STM; Soul of Physicality (STP) can manifest new creature at destination - that will be you; Land first 2 humans on Moon in next 6 months; Collaboration with government for colonies on Moon & Mars - First humans live in domes of Earth's atmosphere - later move outside; When visiting other planets become like the inhabitants - full experience; - don't want to be prisoners of domes of Earth around U; Can replicate any MG field of Earth anywhere in U; Knowledge has to be taught in public domain - bring One Nation - can't stay at level of talk; KF has T to solve Earth's problems - eradicate hunger & poverty; Thanks to many KS on verge of opening doors of knowledge to humanity - take years to accomplish; Have to rewrite books of science to plasma; NASA rockets about to collapse; KF Linz shut down couple weeks - move out of Austria in totality; Addiction session tomorrow - observe changes over few weeks; Man stop killing - become peaceful - all needs met; Knowledge up to now like grain of sand - Man has to recognize there is a desert of sand - becomes aware of own ignorance; Every sand grain has its own knowledge - learn and share with each other; More stars in sky than grains sand in desert; Don't be proud - humble to learn; To get totality of knowledge have to visit every grain in the desert - each one unique created out of own conditions; Man proud of knowledge but nothing compared to desert or knowledge of Creator - accept this can move forward; Soul gains knowledge of every creature on planet - Soul of humanity teaches Soul of U Community what we know of Earth and its creatures; KS and collaborators decide how to share knowledge with everybody - develop T to communicate with soul of plants and animals; Governments have to allow both ways of travel - with Soul - passport problem; Can enter country in shape of apple - can't control birds don't have passports; International taxation

- all countries for collective care of everyone; countries share EU between themselves; KF Apps will provide food - health - energy; App will be free part of One Nation; Biggest Industrial Revolution in next few months - progressive release of T; Not talk One Nation a reality in next 5 to 10 years; Next natural disaster - use KF App to survive; Gradual release of T & a fast track - others can join fast track in 3 years; Countries spending millions on American weapons T but can't afford fuel to train properly - don't need F-16 anymore - put in museum; First time told how Iran captured most advanced American drone in 2011 - copied chip in MRI becomes like new - but original short-circuited - Nano coated; Have T to prevent this in the space; Iranian TV declared Mr. Keshe as developer of knowledge - not secret anymore; Entering new era of understanding emotion - STM - creatures of U - knowledge of U; Will see change in attitude of world leaders in next few months - with presentation of new T - flooding business world - Government will bring T; KS met Soul of world leaders - now flourishing - Let's see how Man decides to bring change.

Products donated to KS have been distributed - only take if need; KF has new accounts for transferring money; KF Linz will be shut down moved to accessible location - systems moved - tell in few months after move & reopens; Didn't plan to come to Austria - betrayal in marriage - brought best KS in; Places for training of 25 full - still room in 200; Select 50 of group for Colonies on Moon; Cooperate with governments - become international organization; If KS want to be part of new KF have to be experts in field; Matter state looks at how big a H or C ray is - this thinking does not work for plasma; Because plasma can be any element depending on field strength - we look at M field environment - interactions it goes through - "sparks" created - field densities - new divisions & subdivisions - end up with a spectrum of fields; Even if you have C - it's a spectrum of C field strengths; Understand work of fields & how they interact - this is the key; 2 equal rays in same environment will come to balance with each other; Ray going through H environment behaves differently; Matter state H hits others absorbs releases energy; Infrared spectroscopy of CO2 Gans shows spectrum of field strengths from H to Plutonium - (plasma can be any element); Don't talk about size because even H can have more interactions than C; Field strength depends on interactions of fields of each other & environment; Pay attention to total interactions - if suddenly lose energy to environment can become weaker; Cannot fit plasma into matter state understanding - discuss plasma on its own; Inside vacuum of body blood is Gans plasma - outside matter state - test for matter state elements Ca Fe; Fe in blood is M field energy; First on Moon live in dome of Earth's atmosphere - reverse of blood inside body; To move forward need to know what field strengths you are in and what GM fields & Inertia are involved in manifesting energy as a Gans; KS don't understand field flows of MaGrav - why they don't work; We now have the T to bring back evidence of Moon; Send couple to Moon - check Apollo landing site see if really there - or Hollywood set; Brazil lost Telegram; Question about Sun having wrong intention when created Earth - try to understand work of plasma & interactions; Teaching on Gravity - highest order absorbs - means spectrum of elements we find on planet like in Periodic Table that can be manifested on planet - absorbs means it has matching field strength & Inertia manifests as matter - not stronger gives to weaker - different concept; If plasmas of a higher strength field above exist on planet then remain in plasma state - no Inertia on this planet to manifest them; If strength field of a planet not

above Cu that planet will not have Zn because it is above Cu; Beings in upper atmosphere cannot manifest P because no Inertia for them to manifest - remain in Gans plasma state - otherwise would be a new creature on Earth; All elements that exist on Earth are in physical body of man; Alzheimer's with hip replacement cannot use T - bones will start growing later once plasma process initiated; Canadian government study - majority of chemo patients over 55 die within 7 years - pharmaceuticals hide this data; KF has to be transparent inform of all possibilities; KF wellness policies use prevention - energy balancing twice a year - disease will be rare; KF Apps are blocked in Belgium; Lot of medicines don't do what supposed - for making money; Chemo used with KF T good results; Naomi stagnated - out of "field" coma but not physical coma - shown how to complete; Maybe abnormal human behavior is Soul behavior - point of view - learning; Sweets before or after meal is cultural decision - give energy while meat digesting; Body is a plasmatic M & G field strength vacuum - not a vacuum extraction of all contents out; Has a different Inertia position - does not allow matter state to manifest; Ocean is M field vacuum in itself - so is rock inside itself; Rock in another place in U become jelly - life moving inside; Dissolve crystal sugar in hot water - waves of field densities - how it will be in Space; Vacuum is relative to Inertia; Making partition creates new environment condition of fields; New plasma construction T - decide on specific field Inertias between walls - can make room isolated to heat - sound - sight; Establishment doesn't want change - leave them to us we're well seasoned how to handle to find a way; You may think you learned life's lessons - but if not Soul makes you repeat it till you do - cannot fool; Tomorrow Addiction session - those who keep repeating same bad relationship - observe results; Our skin dictates field flows through meridians - change recorded on DNA effect future generations; Genetic changes more likely when have children at older age; Hitting head can unlock knowledge of foreign language; Don't need accident do with T - German lady could speak English; Soul can give you language - get emotion and cultural knowledge of language - not just words; Travel space communicate through Soul; When you leave domes on Moon you'll become a creature of Moon - understand culture be one of them. In dome you could not see creatures of Moon different field strength - crossover can see; Have to face change in next 2 years - not wait 10 years - it will be us.
