

494º Knowledge Seekers Workshop 13 de julho 2023

(Índice Rápido 21pgs.; Introdução; Índice de Tópicos; Transcrição em inglês Revisada)
(Transcrição automática por Elias)

Sessão de julho 2 fones de ouvido - livre para experimentar; A chave é a expansão da Alma e das emoções; Detalhes sobre o que acontece nas viagens espaciais; Famílias inteiras transmutam; Formiga em outro planeta - sociedades como a humana; Conhecimento automático através da Alma; Depoimento de Gans de Joelho; Hélice de AA; Foi mostrada ao líder T além da imaginação - armas nucleares obsoletas; Programas de Bem-Estar da FK; Pular o tempo de transição; Fraude do carro elétrico; Governos não permitem a entrada de novas T; Almas conscientes umas das outras; A mesma máquina alimenta todo o planeta; Não há "Massa Crítica" no plasma - equilíbrio de campo; BC se conecta sem fones de ouvido; Depressão; Biden fantoche - elevar as Almas que estão por trás; Governos têm que fazer TV; Apoie-nos através da Alma

Índice de Tópicos

Sessões de julho 3 horas cada 4 - precisa de pelo menos 2 fones de ouvido - você decide no que quer trabalhar; Informe a FK após cada sessão o que esperava e o que conseguiu; Quer ver como a Alma se expande na dimensão (D) da satisfação da emoção e da fisicalidade (F); As sessões são pré-testes para cidades espaciais construídas na Terra - sem doença ou fome; Testando muitas coisas em segundo plano; Sistemas desenvolvidos que sabem como você se sente não precisam de enquete; É melhor participar de todas as sessões como um todo; Convoca BC com experiência para se juntar à FK; Treinamento especial para 25 pessoas em Manchester; Agora, estruturando os Livros 1 a 3 - velocidade e tamanho do U; O que acontecerá com você quando chegar ao destino como plasma humano da Alma - a emoção permitiria que você transmutasse; Integrar a emoção da F à emoção da Alma; Como F se manifestará dependendo do estado do líquido da superfície - gás ou sólido; A Alma obtém conhecimento dos cidadãos desse planeta - por meio da Alma - não das escolas; Dita a manifestação pela interação da ADH - ADF - Alma do Planeta e Inércia; Quais são as consequências se perdermos o controle da transmutação - aprendemos em julho - precisamos ser capazes de reparar se formos danificados ao nos convertermos na F - ou voltamos para a Alma e saímos novamente; É aqui que todos os ensinamentos entram em vigor; Se pousarmos entre determinadas espécies no U - como interagir - não está no corpo do homem AA não pode se manifestar lá; Não somos os únicos cidadãos deste U; E se a população se parecer com formigas - supere o choque - pode ter prédios e sociedades como os humanos - ciência e tecnologia não são exclusividade do homem; Não come outros seres no U - obtenha energia da Alma desse ambiente - não mate - obtenha energia dos campos do U; Temos que aprender a converter da Alma para a F e de volta para Alma - ensinamento no Livro 1, Capítulo 1, totalmente explicado; Você se cria no tempo e no lugar por meio da emoção; Vire a ADH de dentro para fora, onde a ADF agora está dentro - chegue ao destino, inverta o processo, a ADH volta para dentro; A força do campo da Alma interage com o ambiente - não com a pele; Quando a ADF se manifesta no planeta, seria uma formiga ou um dinossauro; Temos que ensinar a vocês todas essas coisas para se prepararem - não

adianta usar sistemas se você não sabe o que significa viajar pelo U - você tem que entender as implicações disso - como aplicar o conhecimento; Homem suga da Alma - mudança de jogo - Alma vai sugar da F - aprenda como mudar; Famílias inteiras podem transmutar - eles se conhecem - mas os outros não sabem que eles são de outro planeta; Não há escola de idiomas - acesse a "Alma do Conhecimento" do planeta - logo nos ensinará; Sessões de julho e conferência de outubro sobre o aprendizado da transmutação - quais efeitos isso terá; Aprenda a mudar a ADH de dentro para fora - viaje até o destino - volte e deixe a ADF e a F saírem - como puxar a pele de dentro para fora - terá um aspecto diferente do da Terra; Os BC replicarão essas condições na Terra em segundos; Aprenda a usar as emoções da F em conjunto com a emoção da ADF e a emoção da ADH - essas interações criam a transmutação; O Livro 1 é F - o 2 é ADF e o 3 é ADH - os 3 livros contêm o conhecimento da transmutação; Chegue e interaja com a "Alma do destino" e a "Alma dos cidadãos" do destino - a partir dessas interações, crie uma nova F - que lhe permita viver, trabalhar e fazer parte daquele tempo e lugar; Como aprender o que significa energia - não a definição do homem - cada campo tem força e emoção diferentes - todos se reúnem nas linhas de campo do U; Aprenda como a ADH se torna mantenedora da F e faz interface com a ADF - em seguida, viaje pela velocidade da luz do U - o homem acha que a luz do U é escura - mas é o conhecimento da iluminação; Deve ser capaz de se manifestar no destino; Quando encontrar sua mãe na D da Alma, que morreu há 20 anos, ela estará diferente - agora na nova D - sua Alma reconhecerá o campo dela, mas não a F - fazemos isso em sonhos - interagimos na D de energia; Ensina em grandes detalhes - sem cálculos - Deus não usa escalas - nós nos tornamos criadores - usa campos de força do U; Tem que aprender a criar campos por meio da emoção; Foi dito nos Ensinos de Saúde que não é fluxo de sangue, mas fluxo de emoções; Vocês olham para a vermelhidão, nós olhamos para a força dos campos; A impressão digital da Raça Humana é o seu campo de energia - não há sangue no Espaço - o campo flui por meio das emoções; Tenho que explicar tudo para vocês - para que entendam - prepará-los para transmutar por si mesmos; Já transmutamos em sonhos quando a F está descansando; Só temos emoções da F - ADF e ADH - isso permite que você manifeste uma nova F; Não há instrumento para medir a emoção no U; É o medo que impede de pular do penhasco - "pular do penhasco" da F para a ADH - a emoção da ADF impede; Durante o sono, esconde-se entre os cobertores e a cama - diz para a ADH para ir viajar pelo U - então chama isso de sonho para negar a capacidade; Coloca a ADH entre a F e a "Alma do Ambiente" - então a ADF cria uma nova F; Tem 3 plasmas da ADH - ADF - Alma do Ambiente - coloca a ADF no meio dos dois e manifestará a F; A primeira vez que criarmos uma nova F entraremos em pânico porque não estamos acostumados com outro corpo - sensação estranha, mas sabemos que somos nós; Permitimos que você vivenciasse essas coisas na UA em Linz - mas não era você - você faz parte da Alma da Raça Humana - conhecimento embutido em cada ser humano - acesse - pronto para a transmutação; Armazenamos todas as emoções dos 500 que vieram para Linz - todas as raças da Terra; Obtém o conhecimento da "Alma dos Cidadãos" ao chegar ao destino - não das escolas; Na Terra, o sistema educacional mente e engana para doutrinar e criar uma estrutura de controle para poucos; Interage com as Almas das pessoas do U - transparente, sem mentiras; De fora, vê a Alma como luz - não como rei ou camponês - não há diferença entre as Almas, todas iguais; Não há hierarquias no U - nada a esconder; Aprende a linguagem dos campos - a emoção da linguagem - tudo o mais - como se você

tivesse nascido naquela sociedade; quando transmuta por meio da Alma na Terra, você saberá a linguagem e a cultura do país em que chegar - chega pelos campos da emoção; testei isso na sessão de Elevação de abusadores - F no gráfico mostrou uma linha reta, enquanto ADF e ADH encontraram equilíbrio - significa que não há abuso - ou Alma elevada de abusadores; É hora de transmutar por meio da Alma - você já entende a transmutação; Os ensinamentos são mais curtos, porém mais intensos; Misture a energia da ADH com a ADF e F e veja o que você obtém; Gradualmente, ao longo dos anos, à medida que você estuda os ensinamentos um a um, vocês transmutarão - vocês aprenderão sozinhos; Quando ensinamos, o U inteiro entra em contato com a Alma do Criador.

Pode usar fones de ouvido off ear ou fones de ouvido que ficam dentro do ouvido; Depoimento sobre Gans de Joelho - as emoções mudaram depois a F mudou; Não estamos no negócio de Saúde - fazemos Bem-Estar - mudamos as condições para que você se sinta melhor - não usamos remédios; Gans é certificado na China - todos os produtos naturais - feitos de maneira específica para criar condições específicas; Convertendo campos em energia e matéria; Vê fisicamente a estrutura em hélice do aminoácido - traz nova D de materiais e produtos; a FK se fundiu com uma das nações mais fortes do planeta como colaboradora - definindo o curso para trazer grandes mudanças "os gigantes do poder e da ciência finalmente se encontraram"; O governo tem que anunciar a colaboração; Ele usou o Gans de Joelho no próprio joelho - sem cirurgia; É assim que compartilho meu conhecimento e T; Teste em grande escala de interações de campo - será lançado em alguns meses; Grande variedade de produtos a serem lançados; Colaborador para alimentar nações inteiras com campos em 2 anos - não agricultura - resolve a fome na África; Fornece cuidados de Bem-Estar; Alimenta por meio de aplicativos da FK; Impulsiona a T porque avanços rápidos; Custo de 3% do PIB para alimentar toda a nação; A colaboração está por escrito; Centros de Bem-Estar no Arizona - Uruguai - Alemanha; Não vendemos nossos sistemas - colaborações; Perdemos muito dinheiro, mas abriu um novo trabalho com os governos - eles vão lidar com as operações e nós focamos nas pesquisas; Cada produto vai levar o nome da FK - não escondem; T da FK avançou muito além dos aplicativos para alimentação etc - custa muito tempo e dinheiro para desenvolver - avançar para T mais avançada; Não é possível usar aplicativos no espaço ou se a bateria morre e não há conexão - nova T através da Alma - acessa a Energia Universal; Se passarmos direto do período de transição para T avançadas, governo economiza muito dinheiro, desenvolvendo - transmite isso na reunião de embaixadores de outubro; Novo truque com carros elétricos - enormes lucros para governos - companhias de petróleo e refinarias - usam petróleo bruto não refinado - 100 vezes pior para o meio ambiente - os governos não se importam; Governos não permitirão T onde não têm que carregar bateria - perdem receitas; Não permitirão que a FK agite o "carrinho de maçãs"; Não é fácil para a FK entrar no mercado; Gans de Joelho - médicos e farmacêuticos perdem dinheiro - bloqueiam; Governos não permitem novas T - isso é o quão avançado está a FK; Se sintoniza sua Alma através de fones de ouvido e nós o alimentarmos - será que precisamos de fones de ouvido? ; Podemos alcançar a sua Alma e alimentá-la; Teste no espaço onde não há comida - em seguida, virar os satélites em 180 graus alimentam a Terra diretamente através da Alma; Temos T & conhecimento; Últimas 2 semanas mostraram para Governo e líderes T que não podem imaginar que

existe - não está nem em filmes de ficção científica; Cientistas e líderes perplexos com o que viram e experimentaram; Eu posso alimentar o homem sem satélites - mas o homem tem que aprender, para que não repita os erros no Espaço; Demonstração mudou estrutura política - financeira - e de poder na Terra - gradualmente muda muito; Os governos têm que encontrar forma de converter T para os cidadãos e para o planeta - mostramos - não é só falação; Citação nos primeiros KSW - "se mover a minha caneta - guerras e mortes param" - movi a minha caneta nos últimos dias - demora algum tempo para chegar a outros líderes e a vilas da África; BC testemunharam de pé ombro a ombro com homens poderosos - a T e sua beleza; Eles têm que implementar isso - esta T é para viagens espaciais; Você permanece conectado à Terra quando está do outro lado do U - pode alimentá-lo através dessas linhas de campo; Conferência de Londres traz mudanças maciças; Vamos saber que é o Sr. Keshe se encontrarmos ele em outra parte do U - vai lembrar; Almas não "esbarram" uma nas outras - elas estão cientes uma das outras; A estrutura da FK permanecerá a mesma - a operação e a entrega da T mudarão drasticamente; Motivo de deixar Áustria - nova posição com colaborador - A força deles abrirá novas portas - a nação se tornará mais poderosa e pacífica; "Política de Armas" dos EUA acabou - armas nucleares dos EUA obsoletas; Irã mostrou poder da T no Iraque em 2020 - parou Trump e genro de Tel Aviv nos planos deles para o Irã - vendas de armas para o Oriente Médio inúteis; Mesma máquina pode alimentar todo o planeta - como "Alma do Criador" alimenta todo o universo; Quando o homem se torna pacífico progride mais rápido no conhecimento; O "paraíso" prometido chegou - só precisamos mostrar o poder da T - sua beleza e pacificidade; Ao mostrar a T armas nucleares tornaram-se obsoletas; Porta-aviões para as crianças brincarem; Humanidade cansada de matar - apenas alguns líderes criam toda essa bagunça; Nós tiramos o poder de suas mãos; Todos se tornam cidadãos iguais e confortáveis; Leva tempo, mas desta vez a T é transferida para cientistas de um governo - não será arquivada; 28 de outubro traz notícias chocantes e T que ninguém imaginava que existia; Entrega T a todos ao mesmo tempo; "Massa Crítica" em nuclear quando a reação quebra fica fora de controle - "Síndrome da China" - não pode acontecer na T do Plasma - encontra equilíbrio; Se os campos não podem se manter juntos, então compartilha ou divide - fissão; Tem "tensão superficial externa de campos" as forças do campo gravitacional interior não podem se manter - separadas de acordo com a força - mas continuam a ter a sua força superficial exterior - significa que os plasmas não podem se penetrar; BC capaz de se conectar a sistemas da FK sem Zoom ou fones de ouvido - contato com filho do Sr. Keshe; Sistema da FK apenas uma ferramenta - caso contrário não precisa; Quando ir mais fundo - o ensino será em silêncio; Parte principal é a expansão da Alma - uma vez que aprende a se conectar não precisa de intermediários; Vai conectar automaticamente; Causas da depressão - não consegue atingir expectativas; Fácil de lidar com a nova T; BC quer borrifar Biden com "Água de Gans da Paz" - não vai ajudar, ele é apenas um fantoche - poder real escondido no fundo - única maneira é elevar a Alma. A televisão não funciona se eles não permitem que você espalhe a T; Em breve a FK vai se tornar moda - todas as estações começarão a falar sobre a T do plasma; Quando a FK ficar popular cuidado para não perder ethos; A maioria não assiste TV mais; Comunicação de massa precisa ser feito pelos governos - eles podem lidar com o abuso das organizações; Como elevar alguém causando problemas, mas não sei quem são - alcance através da Alma daqueles que o conhecem - eles têm número de telefone no nível da Alma; Vocês alcançaram a Alma dos líderes -

funcionou e vocês verão a mudança; Os líderes têm ligação direta com aqueles que os colocam no poder - alcançam a Alma deles dessa forma; A maneira mais fácil de mudar é elevando a Alma; A FK tenta ser aberta e na linha de frente sobre as coisas - permanece assim; Trabalhando em mudanças massivas - não paramos até alcançarmos; Precisamos de vocês para nos apoiar através de sua Alma - estamos muito perto agora - enorme esperança surgiu - torna-se realidade em pouco tempo.

Introdução ao 494 KSW - T Mostrada aos Líderes - Armas Nucleares obsoletas - Emoções são a Chave - ADF Dentro e Fora - Prepare-se para Viajar

A maior e melhor notícia é que o Sr. Keshe "moveu sua caneta". Ele demonstrou a beleza e o poder da tecnologia (T) a um líder mundial de uma das nações mais poderosas da Terra e, entre outras coisas, mostrou que as armas nucleares são obsoletas. Isso mudou o equilíbrio de poder político e financeiro em todo o planeta. Levará tempo para que isso seja filtrado por todas as camadas, mas a implicação geral é que a atual estrutura de poder que está controlando o mundo não poderá usar armas nucleares para impor sua vontade sobre nós. Mas tudo isso terá que ser feito de forma gradual. Agora que os cientistas e líderes desse governo experimentaram em primeira mão o poder da T, não deve restar nenhuma dúvida sobre o que realmente está acontecendo e quem é o Sr. Keshe. Ele usou a palavra "perplexo" ao descrever como eles experimentaram a demonstração. Talvez porque isso os coloque em uma posição difícil, pois agora eles sabem o que o público e os outros governos não sabem. Mas o que é interessante é que os produtos da FK virão a público com o nome da FK, e não serão escondidos. Se você se lembra, há algumas semanas houve dúvidas sobre como isso aconteceria. E ele disse que a FK permanecerá a mesma, livre e independente para fazer suas pesquisas. Mas, mais uma vez, temos que esperar que o governo faça o anúncio de sua colaboração com a FK.

Foi feita uma pergunta sobre como colocar a tecnologia nas televisões. E a resposta foi que não podemos aparecer na televisão a menos que eles permitam que a T seja lançada. Assim que o governo fizer o anúncio, então, consequentemente, a restrição à FK será retirada e, de repente, todas as emissoras começarão a perguntar "quem é essa FK". Ele disse que estamos chegando muito perto desse ponto, e então a FK se tornará moda. Então, teremos um grande problema, porque, assim como a cultura americana comercializou a "Yoga" da Índia e a reduziu a um nível tão baixo de fisicalidade, eles farão o mesmo com a tecnologia do plasma. O desafio e a prática serão para os verdadeiros Buscadores de Conhecimento (BC) manterem seu ethos, à medida que a onda da "cultura pop" atingir todos nós. Teremos que esperar e ver o que acontece. Esperamos que seja tão gradual que mal perceberemos. Porque, a menos que a Alma de todos se eleve, que tipo de plasma seria esse? O tipo que funciona às vezes, porque temos muitas negações escondidas dentro de nós.

Para nós, pode parecer que nada aconteceu. Quando os iranianos mostraram a T em 2020, infelizmente tendo que destruir a base americana mais avançada no Iraque, achamos que o público seria informado da verdade. Mas, em vez disso, o fato foi mentido e negado. No entanto, isso impediu a invasão que Trump e seu genro em Tel Aviv haviam

planejado para o Irã. Portanto, todos os governos já sabem que a T é real e está aqui, mas o público é que é ignorante. É nesse ponto que é importante construirmos nossos próprios campos de plasma e os das pessoas ao nosso redor, e desenvolvermos um amor tão forte pelo plasma, pela paz e pela verdade que começaremos a irradiar campos. Não importa o que os outros estejam fazendo. Essa é a nossa "prática espiritual" para implementar o ethos em nós mesmos e, então, nos tornarmos um MaGrav mais poderoso para a mudança. Então, poderemos participar das Sessões de Voo de julho e da Reunião dos Embaixadores de 28 de outubro em Londres. É mais importante que avancemos com a T do que ouvir uma notícia na CNN. O Sr. Keshe disse que pode alimentar toda a humanidade neste momento, mas então será que o homem aprenderá para não repetir os erros deste planeta no Espaço? Estaremos atentos à conferência do dia 28 de outubro para ver quantos governos e organizações participarão, pois essa é a chance deles de se beneficiarem com a mudança, já que será na condição oficial em nível diplomático. Ele disse que mostrará algumas tecnologias incríveis que vão além da imaginação do homem. Um sistema pode alimentar todo o planeta, assim como o Criador alimenta todo o Universo (U). Todos nós podemos começar a rezar para que haja uma liberação maciça da T e da mudança resultante dessa conferência.

A parte dos ensinamentos desse workshop foi principalmente para nos preparar para a viagem espacial e para o que poderemos encontrar com outras culturas no U. Não se surpreenda se vocês encontrarem raças no U que se pareçam com formigas e tenham estruturas de construção como nós e sociedades organizadas. Por que ele usou o exemplo das formigas? Digo isso porque as formigas cobrem todo o planeta e, quando nosso planeta se aproximar do Sol, na posição de Marte, e toda a vegetação não puder mais sobreviver, será que as formigas permanecerão? Outra coisa interessante é que um dos caras de OVNI's disse que foi a Marte e viu formigas enormes vivendo lá. Como as formigas não têm mãos, mas apenas duas garras na frente, que tipo de construções elas poderiam fazer? Ou elas construiriam através do poder mental e dos campos de plasma?

O Sr. Keshe trouxe à tona muitos desses tipos de coisas para que comecemos a pensar em como será a transmutação em qualquer lugar do U. Ao imaginar o processo, começamos a aprender mais e percebemos que já temos muito conhecimento dentro de nós. Só precisamos começar a usá-lo. A imaginação não é apenas uma brincadeira para crianças. Ela é o poder criativo do U, e tudo o que você precisa fazer é acrescentar emoção a ela. As emoções são como o rei de tudo e, no entanto, parece que somos emocionalmente deficientes. Muitos de nós passamos pela vida praticamente sem ter consciência do que estamos fazendo e de como estamos nos sentindo por dentro. Parte do problema é que viemos de famílias e sociedades disfuncionais que não nos incentivam a ter emoções saudáveis. Em algum momento dessa jornada, precisamos aprender a sentir nosso "verdadeiro" coração e não o falso que a sociedade desenvolveu para nós. Mas não é só eles, nós também aceitamos isso para ter o amor falso. E uma vez que experimentamos nossa Alma, então não precisamos do amor falso. Isso pode ser um pouco difícil para as pessoas ouvirem, mas nesse workshop o Sr. Keshe disse que o nosso sistema educacional neste planeta é "mentiras e trapaças" e doutrinação para alguns poucos controlarem. A verdadeira educação vem através da Alma e, quando chegarmos a outro planeta, nossa Alma absorverá imediatamente os campos dos cidadãos desse planeta e teremos todo o

conhecimento que eles têm, e seremos como um deles. Se chegarmos como um grupo ou uma família, todos nos conheceremos e saberemos que não somos daquele planeta, mas os nativos não saberão. Nós seremos um deles. Portanto, os filmes de ficção científica na verdade não são ficção, porque em algum lugar do universo essas coisas podem existir. É apenas a nossa imaginação que é limitada. Sou muito grato por ter podido assistir, quando criança, à série original de Jornada nas Estrelas, e não às séries posteriores, porque elas nos prepararam, de certa forma, para o que está por vir. Fiquei surpreso quando descobri que o único programa de televisão que Martin Luther King Jr. deixava seus filhos assistirem era a série original de Jornada nas Estrelas. Eles os chamavam de programas de televisão sobre moralidade, porque ensinavam as pessoas a serem morais, a ajudarem os outros e a fazerem o que é certo, mesmo que tivessem que sacrificar a própria vida.

A questão toda é a ADH presa no centro da cabeça pelos campos M do fluxo sanguíneo. Ao diminuir a força do campo do sangue, a ADH é capaz de se expandir sobre a ADF e se libertar, assumindo então o controle do ser. É como virar a pele da ovelha do avesso, e agora temos todos os campos saindo. A ADH se torna como a pele. Agora ela pode viajar pelo U através da transmutação ou o que quiser fazer. Ele nos deu uma grande dica sobre o sangue: no U, não temos fluxo de sangue, mas sim fluxo de campo através das emoções, e que cada campo tem uma força e uma emoção. E que devemos pensar na energia como campos em movimento. Mais tarde, um Buscador de Conhecimento (BC) disse que conseguiu diminuir a força do campo ao redor de sua Alma e expandi-la. Portanto, o conhecimento já está dentro de nós, cabe a nós praticá-lo ou usar o sistema para ajudar a aprender e ganhar confiança e, então, fazer isso por nós mesmos. Se acreditarmos o suficiente em nós mesmos, podemos tentar.

Se você se lembra, em 06/06/2022 havia 3 cadeiras para sentar antes de entrar na Unidade de Aprimoramento. Essas três cadeiras representavam as três partes de nós mesmos, como a F, a ADF e a ADH. Hoje, ele nos ensinou que todas as três têm suas próprias emoções e é com isso que temos que aprender a trabalhar. E, de alguma forma, se colocarmos a ADF entre a ADH e a Alma do Ambiente, então a ADF manifestará a F para aquele ambiente. Nosso trabalho é aprender a interagir com essas três entidades que estão dentro de nós e, então, poderemos entrar e sair da F como quisermos. É a emoção do medo da ADF que nos impede de pular do "penhasco" para a Alma. Embora na primeira vez que transmutarmos possamos entrar em pânico, porque estamos em um corpo que não reconhecemos, mas dentro de nós saberemos que somos nós e nos acostumaremos com isso. No último KSW, parece que o Sr. Keshe deu a entender que o BC americano transmutou. Independentemente disso, quanto mais aprendemos, mais nos aproximamos disso. Ele disse, dessa vez, que, à medida que estudarmos e trabalharmos cada vez mais com o plasma, um a um os BC se transmutarão. Portanto, não temos nada com que nos preocupar, a transmutação ocorrerá de forma fácil e, muito provavelmente, de forma espontânea, quando nossas emoções estiverem adequadas. Como já estamos fazendo agora, durante o sono, quando experimentamos o que chamamos de sonho. A única diferença é que estaremos conscientes disso.

Durante a sessão mensal para elevar a Alma dos abusadores de crianças, o gráfico mostrou uma linha plana da F, enquanto a ADH e a ADF encontraram equilíbrio. Isso

indica que não há abuso. Estou supondo que se a linha da F tivesse subido, isso significaria uma situação de abuso. Isso também implica que a elevação da Alma dos abusadores foi bem-sucedida, o que, com o tempo, se refletirá na F.

Outros tópicos:

As sessões de julho são um pré-teste para a construção das cidades espaciais - sem doenças ou fome;

Teste de alimentação de astronautas no espaço, então gira os satélites 180 graus em direção à Terra e alimenta todo o planeta - podemos fazer isso agora;
Podemos alimentar o mundo inteiro com um reator - assim como o Criador alimenta todo o U;

"Massa crítica" é um termo para um reator nuclear descontrolado ou "Síndrome da China" - não é possível que isso aconteça na tecnologia do plasma - encontra o equilíbrio. (Eles achavam que o reator abriria um buraco na terra e chegaria à China, por isso eles chamaram isso de síndrome da China - esse termo reflete o nível de inteligência deles).

O Gans de Joelho foi desenvolvido quando o Sr. Keshe sofreu um acidente em uma trilha - não havia mais cartilagem - e foi totalmente reparado sem cirurgia;

A FK não está no ramo da medicina - fazemos Bem-Estar, que abrange coisas que nos fazem sentir melhor e trazem conforto à vida;

Não há hierarquias no U - não há nada a esconder.

Obrigado por nos ouvir.

Índice Rápido

Hoje, tentaremos compartilhar conhecimento para entender mais e avançar para novas bases de conhecimento no espaço e em outros assuntos.

(As 4 sessões de julho, de 3 horas cada, estão preparadas para que vocês, como Buscadores de Conhecimento (BC), testem a T de acordo com seu próprio entendimento. Vocês decidem como querem usar os campos que receberão pelas linhas telefônicas através dos vários fones de ouvido. Vamos ver o que vocês podem fazer com isso e como podem expandir o conhecimento. A sessão de amanhã começará às 12 horas (Horário Europeu) e você precisará de, no mínimo, dois fones de ouvido com um divisor que saia de um conector do seu telefone. Você pode ter 3 fones de ouvido ou até 5. Deixamos tudo a seu critério. Mas escreva o motivo pelo qual está participando da pesquisa e qual é a sua expectativa. Vamos preparar em segundo plano o que precisamos fazer para o nosso trabalho. As 4 sessões serão nos dias 14, 21, 28 e 30. A última sessão será no dia 30, onde perguntaremos se você conseguiu o que queria. Talvez em uma sessão você quisesse

fazer algo com sua emoção, em outra com seu joelho, pulmão ou qualquer outra coisa. Deixamos tudo isso por sua conta. Não estamos aqui para interferir ou algo do gênero. Queremos ver o processo de como a Alma se expande na dimensão (D) de satisfação da emoção e da fisicalidade (F).

(Nossos médicos têm tentado de tudo, ao longo de décadas, para ajudar as pessoas no que diz respeito à saúde e ao bem-estar. Agora, o que queremos estabelecer é se, com a nova tecnologia (T), podemos ou não criar as condições (gerais) para o bem-estar na área que estamos habitando. As sessões de julho fazem parte de um pré-teste para as próximas cidades espaciais que estão sendo planejadas e serão estruturadas com a cooperação da FK. Quando vocês vierem com as coisas que querem mudar, nós estaremos monitorando e testando diferentes coisas em segundo plano continuamente. Será como o que fizemos na semana passada, na sessão de junho, para elevar os abusadores de crianças. Não recebemos nenhum depoimento no final para ver o que aconteceu ou como vocês se sentiram, porque pudemos ver tudo através da operação do novo sistema que desenvolvemos).

(Nas próximas quatro semanas, à medida que vocês forem participando das sessões, esperamos um e-mail de todos os que participaram após cada sessão e cada conexão (ou os processos que vocês tentaram alcançar) que fizeram durante as sessões. Envie-nos de volta todas as informações por e-mail para que possamos monitorar a pesquisa. Você pode nos dizer se conseguiu mais felicidade ou se conseguiu o que queria; não queremos lhe dar ideias ou interferir. Você pode dizer qual era sua expectativa e o motivo pelo qual participou da sessão. Vamos ver quais experiências você terá e o que conseguirá após as 4 sessões. E então, um mês após o término das sessões, envie-nos um e-mail complementar sobre seu progresso e o que mudou ao longo do mês).

(Isso faz parte da operação em grande escala da FK. Há muitas coisas acontecendo em segundo plano que não podemos revelar ou que não queremos abrir até chegarmos à fase final. (Eles planejaram causar muitos danos a nós, com o que fizeram conosco financeiramente. Alguns de vocês nos ajudaram com isso e tentamos nos reestruturar, mas agora seguimos um caminho totalmente diferente para atingir o mesmo objetivo, mas através de uma estrutura muito maior)).

(Agora vamos construir uma cidade espacial aqui na Terra. Nessa cidade espacial, ninguém deve ficar doente, passar fome ou sentir frio. E esse teste (?? com a sessão de julho) faz parte da nova estrutura (e da direção que a FK está tomando para trazer a T à tona). Isso faz parte da próxima etapa do processo de alcançar todos no planeta ao mesmo tempo. Aqueles de vocês que se juntam a nós nas sessões fazem parte disso, e também temos várias linhas abertas no plano de fundo durante a sessão. (Elas também fazem parte da pesquisa que ocorre quando você está em silêncio). Continuamos monitorando e fornecendo informações para desenvolver nossas tecnologias no plano de fundo).

(Durante as sessões, adicionamos sistemas e testamos diferentes sistemas no plano de fundo. Talvez perguntemos como você se sentiu durante diferentes partes da sessão, se você se sentiu mais feliz ou qualquer outra coisa. Abordaremos todas essas coisas quando

começarmos as sessões. A sessão de julho será a cooperação da FK com os BC. Queremos saber de vocês o motivo pelo qual vieram, o que receberam e como se sentiram durante a sessão. Por exemplo, se você veio por causa de um vício em chocolate, você comeu mais ou menos chocolate? Você é livre para fazer o que quiser durante as sessões. Não estamos dizendo para você fazer nada em particular. Você pode fazer a mesma coisa em todas as quatro sessões, isso não é problema. Ou você pode vir a uma sessão para fazer uma coisa e, na sessão seguinte, para fazer outra. Então, imediatamente após cada sessão, ou no dia seguinte, nos envie um e-mail para que possamos coletar todos os seus dados. Dessa forma, poderemos entender o que está acontecendo e comparar outras coisas em segundo plano).

(Durante a operação de 3 horas, alteraremos vários parâmetros e, então, veremos qual parâmetro combina com qual. As sessões de julho são agrupadas como um todo. Não é só você que vem para uma sessão. Portanto, não é que você venha para uma sessão e depois diga: "Vim para uma sessão e nada aconteceu". O processo está funcionando em todas as 4 sessões como um todo. Mas se você se sente bem com apenas uma ou duas sessões, a decisão é sua. Temos mais ou menos uma boa ideia de quais serão os resultados em muitos casos. Mas agora (estamos reunindo informações para o desenvolvimento da T para passar para o próximo ciclo)).

(Nos próximos tempos, a FK fará anúncios para convocar muitos BC a se juntarem a nós em pesquisas mais profundas sobre diferentes aspectos da T. Informaremos como e o que será. Ser um bom BC não é apenas fazer um ou dois Gans. Contamos também com sua experiência em outros campos fora da FK, para que possa ser mesclada e amalgamada com o conhecimento da FK. Nós lhe daremos orientações para ver o que podemos desenvolver. Isso é muito importante, pois estamos entrando em uma nova era de desenvolvimento da FK. Talvez você seja um especialista em espaço ou em engenharia elétrica e tenha trabalhado com isso em conjunto com a T da FK. Então, poderemos chamá-lo e organizar as coisas para que você venha e comece (a trabalhar com a FK)).

(Estão sendo tomadas providências para a sessão especial de treinamento com os primeiros 25 BC até o início de agosto. Esperamos poder nos reunir durante uma semana, de segunda a sexta-feira. Há três opções de local, que são Manchester, no Reino Unido, Londres ou Pequim. Temos que decidir qual sessão manter onde. Muito provavelmente, a primeira sessão dos 25 será na cidade de Manchester. Então, a sessão para os 200 será realizada em Londres. Se conseguirmos organizar isso, o destino final será Pequim, na China. Ou pode ser Frankfurt, na Alemanha. Planejamos receber as primeiras 65 pessoas por uma semana em Pequim. Isso seria em novembro ou dezembro. Nós os informaremos no início de agosto sobre o local exato da primeira sessão. Isso será mantido em sigilo.

Voltando aos ensinamentos, tentamos nas últimas semanas introduzir uma nova dimensão (D) nos ensinamentos e uma nova compreensão nas maneiras do espaço, tempo e viagem. (Isso remete aos Livros 1, 2 e 3, mas agora estamos colocando uma estrutura nisso. Isso é o que vem acontecendo nos últimos 3 KSW em relação à velocidade, ao tamanho do universo (U) e à forma como você chega a um destino (no U)).

(Imagine que você é um plasma de um ser humano, como uma Alma, e que você passou pela transmutação e viajou para uma nova posição no U como um campo de energia. O que vai acontecer com você quando você chegar? Como a emoção da Alma lhe informaria se ela quer que você transmute e se torne parte do (novo destino)? Então você se tornaria parte do lugar e sentiria a emoção da fisicalidade (F) do lugar.)

(Então, como você integrará a emoção da F à emoção da Alma? Como você se comunica através da Alma da Fisicalidade (ADF) com a Alma do Homem (ADH), para criar a dimensão da F? (Para mim, como Alma, esse solo parece sólido. Mas se eu me manifestar na forma de um cidadão deste planeta, nesta posição e com o que transmutar para transferir, será que eu me manifestaria afundando, flutuando ou parado na superfície? (Se a superfície for líquida, será que eu criaria o comportamento de um peixe para mim? Ou será que eu gostaria de estar andando como um homem? Ou gostaria de ser como um pássaro, voando pelo espaço do lugar até encontrar um lugar onde me sinta confortável, então posso mudar de um "padrão de voo" para um padrão sólido? Ou você pode se manifestar submerso para sentir a vida de um peixe. Ensinares isso no futuro, para que você possa pousar em uma superfície líquida. ... (o áudio falhou e os ensinamentos foram perdidos)).

(Se você não quiser ficar submerso, pode decidir flutuar na água, em um líquido ou em um gás. Mas como você decide em qual estado de matéria do tempo, lugar e posição você quer se converter? Um pássaro na Terra interage com muitas condições e sabe como voar. Ele sabe como se transferir batendo as asas, se esquivando e mergulhando na chuva, ou qualquer outra coisa. Mas como você é um "recém-chegado" ao planeta, e não há pássaros na superfície para receber conhecimento através da Alma. Então, como você decide ser um pássaro e voar nesse planeta? Como você faz isso? Como voltar para a dimensão da transmutação, mas ainda estar em uma transferência da F? O estado de alerta que você tiver, a interação entre a ADH e a ADF do homem e a "Alma do planeta" e a condição da Inércia ditarão como você se manifestará lá).

(Se você não gostar, o que acontece se você perder o controle e não entender a transmutação? Quais são as consequências disso? (Descobriremos isso através de suas emoções durante as sessões de julho). Essas sessões não são apenas para você entrar e fazer o que quiser. Estamos testando uma série de novas condições. Você nos dirá como você se sente).

(Você precisa passar por isso para poder consertar muitas coisas. Porque você aterrissou na superfície do planeta, como uma dimensão de uma condição física diferente e, por exemplo, pode queimar a asa, a perna ou o ponto de contato (?? com a superfície). Como você se recuperaria ou repararia isso? Ou como você volta para a D da Alma e retorna em uma D diferente da fisicalidade (daquele planeta)? É aqui que muitos dos ensinamentos entrarão em vigor. Como você se sentiria se aterrissasse em uma área povoada de uma determinada espécie, em uma determinada parte do U? Como você interage com eles? Você não teria a forma do corpo do homem (porque o aminoácido (AA) do homem nessa D não pode viver). É uma condição diferente, mas ainda assim você quer se manifestar nessa fisicalidade).

Sabemos que não somos os únicos cidadãos deste U. (Portanto, não devemos nos surpreender se encontrarmos uma população que se pareça com formigas e tenha cidades como as nossas, mas construídas em um formato diferente. A inteligência de construir edifícios não é exclusividade da raça humana. A ciência e a tecnologia também não são exclusividade do homem. Outras raças têm se desenvolvido ao longo de milhões de anos como nós, portanto, elas também desenvolveram ferramentas para viver, criaram sociedades e estabeleceram estruturas para a vida. Mas elas não precisam comer como o homem. Eles não matam, mas vivem entre si (pacificamente) e respeitam o espaço e o tempo uns dos outros. Como humano, se você pousar em algum lugar e algo lhe parecer delicioso, você não o comerá. Você (obtem energia da) Alma do ambiente, e nesse planeta você não precisa matar para comer. Você obtém energia do ponto de saturação dos campos do Universo.)

Como nos veremos no novo ambiente? Como nos transmutamos? (Como você se converte da F para a Alma e da Alma de volta para a F? O ensinamento para isso está no Livro 1, capítulo 1. Se você ler os três primeiros capítulos, toda a compreensão do transporte e da conversão de campos em matéria é totalmente explicada. Mas você precisa entender o que ele diz. Nos três primeiros capítulos do Livro 3, a mesma estrutura está estabelecida. Eu continuo dizendo a vocês, vão para o capítulo no final do Livro 2 e leiam até o início do Livro 3, então vocês entenderão o processo da Criação).

Mas agora você precisa se criar no tempo e na posição. (Você faz isso através de sua emoção, pois você ainda está na F do homem, e a ADF está dentro da ADH. Como você vira isso do avesso e, como se estivesse virando a pele (de carneiro), traz a ADF para fora da Alma, e isso colocará a ADH dentro novamente. Esse conhecimento precisa ser compreendido. (É uma transferência física na dimensão física). Como você transmuta, o que significa trazer essa F para dentro, com a ADF dentro da ADH? Então, será a força do campo da Alma que interage com o ambiente, e não a pele do homem na dimensão da F).

(Então, quando a ADF do homem se manifestar na superfície do planeta, será que ele acabará sendo algo em miniatura, como uma formiga andando, ou será que ele será um gigante, como um dinossauro, em comparação com seu ambiente? Como nos adaptamos para sermos como um daqueles onde aterrissamos e não sermos reconhecidos como sendo de fora? Aos poucos, começaremos a ensiná-los isso, pois precisamos abrir seus olhos para o que está por vir. Não adianta mostrar como usar o sistema quando você não teve tempo de pensar sobre o que significa ir a algum lugar no U. Você precisa de tempo para entender quais são as implicações disso e como aplicar a T e o conhecimento.)

(Estamos ensinando sobre a ADH, a ADF do homem e sobre a F nos últimos 2 ou 3 anos. O homem de hoje é uma sanguessuga da Alma. Mas como o jogo mudará quando a Alma sugar a F do Homem? Como faremos a troca e por qual processo? Como nos tornamos disponíveis para que a mudança ocorra? Precisamos ter plena compreensão do processo da vida e de que forma e em que ponto de necessidade nos convertemos.)

(De que forma e em que ponto de necessidade trazemos mudanças coletivamente? Por exemplo, se viajarmos em família e quisermos que nossos pais e irmãos estejam conosco. Fazemos a conversão de todos nós juntos? Será que é como fazer a transmutação do ponto A para o B, e da F para a ADH? Como fazemos isso como um grupo, para que ninguém saiba que somos de outro planeta? Gostaríamos de nos tornar parte da sociedade do local de destino. Nossa família ainda saberia que estamos juntos como uma família, e que não somos originalmente daquele planeta).

(Como aprenderemos o idioma ou a forma de comunicação deles, já que não há escolas, universidades ou escolas de idiomas estrangeiros? Como podemos acessar a "Alma do conhecimento" desse planeta? Como acessamos a "Alma da vida" desse planeta? (Em breve estaremos ensinando essas coisas, mas também nas sessões e conferências de julho que estão por vir. Explicaremos a vocês como fazer a conversão e a transmutação. E explicaremos o que significa transmutação e quais efeitos ela terá na vida de cada indivíduo nesse processo)).

(É importante que entendamos a totalidade da transmutação e todos os aspectos de seu trabalho. Precisamos saber como mudar da ADH como sendo o contêiner da F enquanto partimos deste planeta, então viajamos pelo espaço do U e, no ponto de chegada, invertemos a posição, onde agora a ADF e a F trocam de posição e se tornam as mantenedoras da Alma. De certa forma, é como colocar sua mão e puxar a pele de dentro para fora. Mas você acaba mudando a força da ... ADF e a interação dos dois lhe dá a manifestação da F naquele tempo, lugar e posição. Você chegará lá na D e na força dos campos da Alma, então você se converterá em uma F adequada àquele lugar. Você verá uma forma diferente de si mesmo, diferente da que você tinha na Terra).

(Podemos reproduzir essas condições aqui na Terra, sem sombra de dúvida. Nos próximos tempos, os Buscadores de Conhecimento criarão meios para que tudo isso seja feito em questão de segundos. Mas, até lá, temos que ensiná-los. Você precisa entender como usar a emoção da fisicalidade em conjunto com a emoção da ADF e a emoção da ADH. Essas interações criam a transmutação).

(De fato, a F do homem é o Livro 1, a ADF é o Livro 2 e a ADH é o Livro 3. Se você entender o conhecimento fornecido nesses três livros, então você já terá entendido como fazer o transporte e a transmutação).

Até que ponto você pode se desviar da linha e experimentar novas dimensões? (Quando você chega ao seu destino como uma Alma, você interage com a "Alma do destino" e com a "Alma dos cidadãos" do destino e, a partir das linhas dessas interações, você cria seu novo ser físico. Isso permite que você viva, trabalhe e faça parte daquele tempo, lugar e posição).

(No Livro 1 você faz a transmutação, mas como você acaba no Livro 3? E como você cria o movimento entre os Livros 1 e 3? Então você descobre que a transmutação não tem tempo, espaço e posição. (Isso significa que a transmutação levará o homem a viajar na dimensão de ?? e ele entenderá a Totalidade). Temos que entender a totalidade (do que

significa energia). Na terminologia da FK, "energia" não é o que o homem mede como energia. A energia é um campo em movimento, e cada campo tem uma força e uma emoção diferente. Cada emoção tem uma força de campo. Tudo isso se junta em qualquer linha do universo em que você se transporte. A transmutação o levará ao ponto em que você poderá promover a mudança.)

(Primeiro temos que ensinar a vocês como fazer a conversão e faremos isso nas próximas semanas e meses. Vocês precisam aprender como a Alma se tornará a mantenedora da F. Quando ela contiver a F, ela também fará a interface com a ADF. Em seguida, temos que levá-los da Terra para a Lua ou da Terra para outra posição no U na velocidade da luz do U. O homem acha que a "luz do U" é escura, mas na verdade não é. A luz do U é a luz do conhecimento e da compreensão, ou o que chamamos de "iluminação". Quando o levarmos ao destino, você terá que ser capaz de se manifestar.)

(Outro problema que você terá é quando você for na ADH para encontrar sua mãe que morreu há 20 anos e descobrir que ela tem uma F diferente daquela que você conhecia quando ela estava na Terra. Ela está agora em uma nova dimensão. Mas a energia da sua Alma, bem como a sua emoção, lhe dizem que essa é a sua mãe. O que você vê é o "campo" da sua mãe, mas não é a mesma F que você conhecia como sua mãe. Sua Alma reconhece que esse campo é a Alma de sua mãe. Você interage com ela exatamente da mesma forma que faz em seus sonhos. Porque na realidade de seus sonhos as Almas interagem na dimensão da energia).

(Ensinaremos tudo isso detalhadamente nos próximos anos. Não há cálculos a fazer. Se você voltar aos meus primeiros ensinamentos de mais de 20 anos atrás, eu sempre dizia: "Deus não tem uma balança ou uma ferramenta para medir, por exemplo, 50 gramas disso ou 200 gramas daquilo. (Este U não foi criado por meio de medições. O Criador não mede a Criação Dele. E agora você é um "criador". Você não pode colocar 20% de sua Alma e 30% de sua F e esperar chegar a algum lugar. Você tem que aprender a usar a dimensão das forças dos campos do universo.)

(Temos que aprender a criar esses campos através da emoção. Desde o início, mesmo nos primeiros ensinamentos sobre saúde, sempre falamos sobre as emoções e por que elas são importantes. Não é o fluxo sanguíneo, é o fluxo de emoções que leva à criação dos (sentidos) da ADH. Você olha para a vermelhidão (do sangue), enquanto eu olho para a força de seus campos. A impressão digital da raça humana está em seu campo de energia. No Espaço, você não tem sangue, mas tem fluxo de campo (através das emoções).

(Há muito o que ensinar e eu passo muito tempo explicando as coisas para abrir seus olhos para novas dimensões. Porque se eu não fizer isso, será muito difícil para vocês entenderem. É como se tivéssemos que levá-los do Nanomaterial para Gans, e o resto. Agora estamos lhe ensinando sobre tecnologia Espacial. Nos últimos 3 dos 10 anos de ensinamento, começamos a ensiná-los sobre a Alma e como lidar com os campos de energia. Estamos preparando vocês para passarem pela transmutação por si mesmos. Você já faz isso em seus sonhos quando a F está descansando, mas você diz que está estacionando a F debaixo do cobertor e chama isso de hora de dormir. Agora não haverá

mais hora de dormir, porque você estacionará (você mesmo) entre a Alma e a ADF, e não haverá fisicalidade. Não haverá nada, exceto a emoção da F, ADF e a emoção da ADH, que permite que você manifeste a F (se você quiser).

Infelizmente, ainda não criamos nenhuma ferramenta de medição para medir a força dos campos da emoção do homem. E não conheço nenhum sistema desse tipo no U. Quando vamos até a beira de um penhasco, é o medo que nos impede de pular, ele nos puxa para trás. A emoção nos puxa para trás. O medo é uma emoção. Com a transmutação, estamos no mesmo ponto. Estamos no "penhasco" de pular da F para a Alma, (é a emoção da ADF que nos impede de fazer algo). Nós escondemos e dizemos que não está lá, mas (então fazemos isso em nossos sonhos enquanto dormimos). Quando vamos dormir, nos escondemos "entre os cobertores e a cama". Então fechamos os olhos, adormecemos e dizemos para nossa Alma: "agora vá para onde quiser, você é livre". Então, chamamos isso de sonho, porque não queremos aceitar que temos essa capacidade, e que é nossa responsabilidade e que, na verdade, faz parte de nós).

(Agora, vocês precisam entender que a Alma não tem cama e cobertor para se esconder, exceto os campos de energia do ambiente em que está e os campos de energia dentro de si mesma, o que chamamos de ADF do homem. Às vezes a ADF está dentro e às vezes está fora. Quando você coloca a ADH, (entre) a F e a "Alma do ambiente", a ADF cria uma estrutura física. Nesse processo, você tem um plasma da ADF, um plasma da ADH e um plasma da "Alma do espaço, tempo e posição". (Quando você arrasta a ADH para o outro lado e puxa a ADF para o meio, então você tem a (criação da) F).

(Como estamos acostumados apenas com a dimensão da F, na primeira vez que interagirmos com nossa nova F na nova D, entraremos em pânico. Talvez tentemos nos esconder o mais rápido possível, dizendo: "Esse não sou eu". Quando olharmos através dos olhos do homem, no espelho da nova posição e tempo, e virmos outro corpo que não é o nosso, será uma sensação estranha. Mas, dentro de nós, sabemos que somos esse homem).

(Vimos isso com os BC quando eles vieram a Linz para testar a UA. Enquanto estavam nos sistemas, eles foram para a Lua, a visão ficou embaçada, eles foram para o mar e se viram como uma sereia, outros viram a Alma de Cristo e tudo o mais. Permitimos que você experimentasse essas coisas, porque não foi você quem as experimentou. Porque, como homem, você faz parte da Alma da raça do homem, e esse conhecimento está embutido na Alma de cada homem vivo neste planeta. Agora, temos que acessar esse conhecimento. Temos que progredir até o nível em que possamos entender a transição).

(Durante o período em que cerca de 500 de vocês vieram a Linz e passaram pelos sistemas, muitos tiveram esses tipos de experiências. Vocês vieram de todas as raças da Terra e nós armazenamos essas experiências em nossos sistemas. Agora vocês entendem que armazenamos suas emoções e tudo o mais que faz parte delas. Vocês vieram para fazer um teste, mas, na verdade, vocês adicionaram ao conhecimento da Totalidade. E é assim que funcionará, e é assim que você será).

(Ao chegar a um novo destino, você receberá o conhecimento de que precisa da "Alma dos cidadãos" daquele tempo, lugar e posição, e não de uma escola ou universidade dos cidadãos daquele planeta. Eles não se tornaram tão avançados a ponto de trazer uma estrutura como a nossa, que ensina a mentir e trapacear como parte da estrutura. Eles não têm um sistema que doutrina você a acreditar no que algumas pessoas chamam de verdade, porque isso se encaixa no que eles querem que você acredite. Ao viajar pelo U, você aprenderá com a "Alma dos cidadãos" do U no tempo e no lugar em que você chegar. Você interagirá com a Alma deles, e não com a fisicalidade deles. Isso ocorre porque você terá entrado nessa dimensão através da Alma e não da F. Não é como quando você sai de um avião e diz: "Ah, esses são chineses e aqueles são negros, e eu sou europeu ou asiático".)

(Eu disse isso em um dos vídeos de introdução, que quando alguém olha para a Terra de fora, ele não vê a Alma de um camponês, de um rei ou de um cachorro, ele só vê o brilho da luz da Alma. E a Alma de um rei se parece exatamente com a Alma de um cachorro. É a mesma coisa, a partir do brilho do homem que observa a Alma. Na D da Alma, não há diferença entre um cachorro e um rei, então por que deveríamos diferenciar na F? É apenas o próprio homem que decide fazer isso. Temos que entender quem é o verdadeiro cachorro e quem é o verdadeiro rei.)

(Não temos hierarquias na D do U. Em suas primeiras viagens ao U, vocês entenderão que também não temos nada a esconder. Algum de vocês já teve um sonho em que, ao conversar com sua mãe, ela dizia: "Você está mentindo para mim". Na D da Alma tudo é transparente, e na "linha dos campos". Você aprenderá a linguagem dos campos e a emoção da linguagem e, com isso, você aprenderá tudo o mais, como o que comer ou não comer, aonde ir ou não ir. Será como se você tivesse nascido naquela sociedade).

(Será a mesma coisa na Terra, quando você viajar da França para a China e chegar pela ADH, e não por avião, você entenderá e falará chinês, mas também saberá a emoção do idioma e tudo sobre a cultura chinesa. Isso se deve ao fato de você ter chegado através da Alma e dos campos da emoção, e não por ter sido deixado por um avião com o combustível pingando na parte de trás.)

(A ciência e a compreensão de como viver mudarão para o homem. E, com isso, toda a estrutura da F do homem mudará. Testamos isso sem que vocês soubessem, na última sessão de voo mensal, quando vocês elevaram a Alma dos abusadores de crianças. Foi muito bonito ver como a ADH assumiu o controle da ADF e da F.

No gráfico, a F não tinha linha, era apenas uma linha reta. A F permaneceu na linha e observou a ADF e a ADH batalhando para encontrar o equilíbrio. (A Alma ?? assumiu a posição oposta, igual à da ADF, para que a linha da F pudesse permanecer plana. Quando isso acontece, não há abuso). Se lhe mostrarmos os gráficos e as informações eletrônicas que coletamos, você ficará perplexo, se entender.)

(Chegou o ponto em que é hora de vocês se transmutarem através da Alma. Vocês fazem isso e depois se manifestam na D da F no final da transmutação. Isso faz parte dos

últimos 2 ou 3 ensinamentos, quando comecei a abrir o conhecimento e a dizer que vocês já entendem a transmutação. E que vocês já aprenderam o suficiente sobre a fisicalidade. Mostramos a vocês tudo sobre a D da Alma, o estado da matéria, os Gans e o restante. Agora, vamos colocar vocês no processo de transmutação. É como ir do Livro 1 para o Livro 3, só que, desta vez, são vocês mesmos que estão fazendo isso, e não um reator ou um sistema. O sistema é você e sua compreensão dele. Eu sempre disse que vocês tirarão desses ensinamentos de acordo com sua inteligência e com o que decidirem que seja a realidade de sua vida. Isso é o que se torna seu entendimento).

(Atualmente, os ensinamentos estão mais curtos, porque é muito intenso se vocês entenderem. Não há mais mistura de coisas, a única coisa que você mistura é a energia de sua Alma, ADF e sua F e vê o que você obtém. O que você experimentará na nova transmutação. Gradualmente, nos próximos meses e anos, à medida que vocês estudarem os ensinamentos, um a um, todos vocês começarão a passar pela transmutação. Vocês aprenderão e entenderão por si mesmos. Não considerem os ensinamentos apenas como uma voz, entendam o que a voz quer dizer, e esses são os ensinamentos. Como eu disse, quando ensinamos, ensinamos para todo o universo, porque o universo acessa a Alma do Criador)

Fim da Parte 1 do Índice Rápido - 494 KSW 13 de julho de 2023

Você pode usar fones de ouvido over-ear ou fones de ouvido on-ear (que entram no ouvido).

Dean fala por algum tempo enquanto o Sr. Keshe atende a uma ligação. Ele dá um depoimento positivo sobre os Gans de Joelho.

(O que foi dito tem a ver com a parte de Bem-estar da FK. Não estamos no ramo da saúde. Bem-estar significa aquelas coisas que trazem conforto para nossas vidas. Todos esses materiais e Gans foram testados e certificados na China. Os Gans são produtos naturais feitos de maneira específica para esse tipo de coisa. Não estamos no ramo da saúde. Fazemos coisas para o bem-estar e para o que faz você se sentir melhor. Como Dean disse, ele sentiu a emoção em seu corpo antes que atingisse a condição física. As pessoas usam essas coisas de várias maneiras diferentes.) (A FK está entrando em um ambiente de trabalho totalmente novo. No passado recente, testamos novas dimensões no processo de conversão de campos em energias e em matérias).

(Nos últimos dias, pudemos ver fisicamente a estrutura em hélice do aminoácido (AA) de uma maneira muito específica. Eu preparei para vê-lo dessa forma. E quando ele apareceu dessa forma, foi incrível. Ele podia ser visto na "estrutura visual". Nos próximos três anos, isso trará novas dimensões, como novos materiais e produtos.)

(Fundimos a FK com uma das nações mais fortes do planeta como um colaborador. Estamos definindo o curso para trazer grandes mudanças. Como alguém disse muito recentemente, "os gigantes do poder e da ciência finalmente se encontraram". E isso trará a mudança. A armadilha montada pelos europeus para manter a FK em silêncio falhou

drasticamente. Agora, uma das nações mais poderosas deste planeta uniu forças com a FK para trazer à tona a tecnologia (T) com seu poder máximo para servir à humanidade. O conhecimento em troca de paz tomou forma. Este frasco de "Gans de Joelho" é um frasco pequeno comparado ao que está por vir. Eles estão profundamente envolvidos, mas deixamos para o governo anunciar a extensão da colaboração entre nossas duas organizações.)

(A mudança será fundamental, pois tecnologias como essa, que são tão simples, podem mudar a vida das pessoas. Como disse Dean, ele não conseguia subir as escadas e, depois de usar o Gans de Joelho, ele consegue. Sua vida mudou. O motivo pelo qual lancei esse produto de bem-estar foi que eu mesmo me machuquei gravemente no ano passado em um acidente em uma trilha. Os médicos me disseram que eu teria que substituir minha rótula. A cartilagem estava totalmente destruída. A ressonância magnética mostrou que a cartilagem de ambos os joelhos havia sido danificada além do reparo e que seria necessário operar. Eu disse aos médicos que sabia como reparar o problema, portanto, não precisaria da cirurgia. Eles me pediram para voltar quando eu tivesse feito isso. Era muito doloroso e eu não conseguia subir as escadas.)

(Mais tarde, depois de processar isso, eu estava em um local onde a energia havia sido cortada e, para sair do prédio, eu teria que descer 8 lances de escada com 15 degraus cada. Fiz isso sem nenhuma dor. Então estamos vendo a mudança. Minha cartilagem não precisou ser substituída, pois foi totalmente restaurada. Usei o que está naquele frasco de "Gans de Joelho". Esse conhecimento precisa ser compartilhado).

(Como tudo o mais, foi assim que compartilhei minha T e meu conhecimento com todos vocês. Muitos de vocês testaram. O conhecimento deve estar ao alcance de todo homem no ponto de demanda. Não é um remédio, ele condiciona o ambiente em um ?? emplastro dos campos. Essa T cria condições. Não é uma cura, nem um remédio).

(Nos últimos dias, testamos de maneira específica certas interações de campo, que fazem parte de um teste em escala muito grande. Isso florescerá nos próximos meses e vocês verão. Haverá outro lançamento de uma série de materiais científicos tecnológicos que podem nos ajudar em nossa vida diária, como a restauração das energias do corpo de uma maneira muito específica. Isso mudará muitas coisas para muitos de nós).

(Prevemos que talvez nos próximos um ou dois anos, através da colaboração com nosso novo parceiro, possamos alimentar nações inteiras e oferecer cuidados de Bem-Estar. Por exemplo, hoje você envia pacotes de alimentos para áreas de desastre e fome. Prevejo que nos próximos 5 anos nosso parceiro comercializará novas tecnologias que poderão alimentar uma nação inteira. Surgirão tecnologias em que nos tornaremos responsáveis por alimentar uma nação. Ela foi testada e a tecnologia está disponível. Essa nova tecnologia não é agrícola. Os problemas das nações do terceiro mundo na África serão resolvidos. A alimentação será fornecida através de condições plasmáticas).

(Haverá uma nova definição no mundo do plasma. Na verdade, não é algo novo, é mais uma questão de como chegaremos a um acordo sobre isso. Promovemos isso no site da

FK há alguns meses, dizendo que você pode participar de um contrato de alimentação em que nós o alimentamos por meio de um aplicativo da FK. Isso custaria um valor por família e por ano. Agora seu Bem-Estar também será coberto por isso. É uma nova estrutura que está chegando à FK e que se tornou possível através da colaboração com os governos com os quais trabalhamos e que se tornará nacional. Essa tecnologia já está disponível. Digamos, por exemplo, que um país como a França queira alimentar uma nação como a Argélia por, digamos, 2.000 euros por habitante durante um ano inteiro, independentemente de onde morem na Argélia, eles podem fazer isso com a nossa T).

(O motivo pelo qual estamos levando isso adiante é que a T está avançando muito rapidamente. Está crescendo tão rapidamente que agora é possível, nos próximos cinco anos, alimentar uma nação inteira com o plasma. Não precisamos exportar arroz e grãos, nem controlar a política alimentar. Chegaremos a um acordo com base em uma porcentagem do PIB que uma nação produz. Talvez o custo para a nação seja de apenas 2% a 3% de seu PIB para alimentar toda a nação. (Isso estará vinculado à nação com a qual nos unimos para que isso funcione).

(Essa estrutura resolverá muitos dos problemas que a pobreza traz, como doenças e desnutrição das crianças. Agora podemos lidar com isso. Começamos a liberar muitos conhecimentos e tecnologias revolucionárias, e continuaremos a liberar mais nos próximos meses e anos com nossos novos colaboradores. Assinamos acordos com essa nação).

(A FK entrou em colaboração total com uma das nações mais poderosas, e isso está por escrito e não é apenas conversa. Estamos no processo de permitir que muitas posições sejam (abertas). Os Centros de Bem-Estar da FK serão espalhados pelo planeta de uma maneira muito específica. O primeiro Centro de Bem-Estar alocou médicos para trabalhar dentro da estrutura, mas não tem nenhuma operação dentro da FK. Em breve, anunciaremos o primeiro Centro de Bem-Estar da FK que será instalado e começará a funcionar. Mas com o sistema remoto móvel, você não precisa ir aos Centros de Bem-Estar, você pode receber o processamento em qualquer lugar do mundo. Estamos prevendo a abertura de mais Centros de Bem-Estar no Arizona e no Uruguai. Isso será feito em colaboração com nosso parceiro. Alemanha, Arizona e Uruguai se tornarão parte de nossa melhor estrutura no mundo até o Natal. O Uruguai atenderá o hemisfério sul do continente americano).

(Precisamos entender que a separação virá de uma forma muito grande. Não venderemos nossos sistemas, mas os instalaremos com seus médicos para operá-los. Como perdemos muito dinheiro, isso nos levou a um entendimento e à decisão de nos abirmos para novas colaborações. Aqueles que investiram conosco, em sua maioria, já receberam parte de seu dinheiro de volta. E outros o receberão de volta no devido tempo, nos próximos meses. (Essa experiência nos levou ao ponto de colaborar com um governo. Agora eu sempre digo, graças a Deus perdemos os fundos, porque agora não precisamos passar por essas outras coisas, podemos deixar que o governo cuide disso e podemos nos dedicar à nossa pesquisa).

(Assinamos acordos com uma das nações mais poderosas e ricas do planeta. A liderança dessa nação entendeu nosso trabalho e nos apoiou. Eles também testaram a nós e a T, e nós os deixaremos anunciar publicamente que a nova ciência emergente de sua nação é proveniente da tecnologia da FK. É triste que tanto trabalho tenha sido feito na Europa (mas eles decidiram não aderir à FK). Mas esse trabalho nos ajudou a chegar onde estamos agora. Entramos em uma nova era, e tecnologias como a nossa estarão disponíveis para todos os homens, mais ou menos, neste planeta).

(Todo produto levará o nome da Fundação Keshe. Não será algo escondido atrás de terceiros. Isso será verdade desde a produção de gás até a produção de petróleo, para as viagens espaciais via satélite, alimentos, agricultura e tudo o que fizemos levará o nome da Fundação Keshe. É assim que esta nação está respeitando a tecnologia. É uma T desenvolvida por nossos Buscadores de Conhecimento e a veremos surgir e ser anunciada na estrutura no devido tempo. Mas a equipe da FK não parou de trabalhar nessa base nos últimos meses).

P: (A BC falou muito sobre algo, você pode ouvir o original. Basicamente, é sobre por que a FK não pode criar o aplicativo para todas essas coisas durante o período de transição).

K- (Há alguns meses, discutimos sobre o lançamento desses aplicativos. Mas para estruturá-los levará mais um ou dois anos. Há outra abordagem além do aplicativo. Não pensamos nas coisas com base apenas no homem deste planeta. Somos uma organização espacial. As novas Unidades de Cabeça Domésticas Combinadas que lançamos não têm um aplicativo para elas. Não há como colocar um aplicativo para ela. A tecnologia se desenvolveu ainda mais. Se você estiver no planeta Zeus, não há aplicativos, televisões ou computadores que permitam que você crie um aplicativo para se alimentar. Mas você já carrega a força de campo da raça humana e do planeta Terra. (?? Ou você pode trocar energia com as criaturas de onde você está)).

(Com a introdução de novas tecnologias, já ultrapassamos esse "negócio de aplicativos". Quando as novas tecnologias forem lançadas, elas terão os trabalhos combinados que você poderá aproveitar. Isso faz parte do ensinamento. Você não precisará de um aplicativo. Assim como você não terá um computador no meio de um deserto ou se tiver perdido seu celular. Então, no estado atual, você morreria. Mas se você aprender a acessar a Energia Universal, você poderá acessar os centros de energia, que serão como Centros de Serviço aos quais você pode se conectar e ser alimentado. Ou, se estiver com dor de cabeça, você poderá receber campos para isso também.) Essas coisas são a realidade.

P: (Esse aplicativo pode ser uma transição para as pessoas que estão precisando agora).

K- (Sim, pode ser uma transição para as pessoas, mas o desenvolvimento já está indo para a próxima etapa. Mostramos e testamos muitas coisas em segundo plano que estão sendo desenvolvidas para serem testadas. Estou tentando não revelar muita coisa, mas, ao

mesmo tempo, tentando explicar muita coisa para vocês. Basicamente, estamos tentando levar a T a um maior desenvolvimento e, quando a lançarmos, ela será mais eficaz.)

(Quando você vier para a sessão de amanhã, você precisará se conectar através do número do Zoom. Mas quando estabelecermos conexão com sua Alma, não precisaremos disso, não enviaremos um número do Zoom. Vamos interagir com você de outra forma. Mas, dessa forma, você receberá muito mais informações, seja para bem-estar, fome ou qualquer outra coisa. Todas elas serão enviadas por meio das novas linhas de comunicação. Se você estiver no deserto e a bateria do seu celular acabar, seu aplicativo não servirá para nada. Mas se você tiver o novo sistema, ele nunca ficará sem bateria e estará conectado a tudo o que você precisa.)

(Tentaremos pular rapidamente por cima do desenvolvimento da T. Nas últimas semanas, vimos os governos se esforçando para entender que a transição custará muito dinheiro e tempo. Mas se ignorarmos completamente essa transição e pularmos para um novo nível, não precisaremos da transição e ganharemos muito. Isso é parte do que teremos que transmitir nos próximos meses e, especialmente, na reunião de outubro com os embaixadores em Londres).

(Não queremos fazer como o que estão fazendo nos Estados Unidos, onde eles retêm o avanço da T para que possam obter seus lucros. Eles usam o sistema mais antigo para a Internet, porque o cabo foi instalado há 30 ou 40 anos e ninguém planejou os avanços da tecnologia. Em comparação com o Quênia e outros países em desenvolvimento, isso faz com que os EUA fiquem para trás em termos de tecnologia, como comunicações, computadores e tudo o mais. Esses países não precisaram gastar com infraestruturas, portanto, foram direto para a tecnologia mais avançada. Nesses países, as pessoas financiam isso para si mesmas e também recebem apoio do governo para levar isso adiante.)

(Estamos tentando explicar isso aos governos, que temos que pular a transição. E já temos sistemas que podem fazer isso, portanto, não custará nada para os governos. E sabemos que os governos não gostam de gastar dinheiro. Em vez disso, eles gostam de ganhar dinheiro com a nova ciência e tecnologia e ter controle sobre isso. E esse novo desenvolvimento dá a eles tudo isso).

(Então, o que devemos fazer? Perdemos tempo para desenvolver os aplicativos e ainda passamos pelo Zoom? Isso custará muito dinheiro para desenvolvê-los. Ou passamos para a próxima geração, que já está desenvolvida e pronta para ser implementada? Caso contrário, teremos que esperar até que a próxima geração da ciência chegue. Isso é muito parecido com a situação do setor de petróleo. Eles vendem o combustível para queimar em seus carros, mas se você não continuar queimando, isso lhes custará muito dinheiro. Agora eles criaram os novos truques dos carros elétricos. Isso é muito vantajoso para as refinarias e empresas de petróleo. É incrivelmente lucrativo em comparação com os carros atuais. Isso se deve ao fato de que elas terão que instalar usinas de energia que usarão petróleo não refinado. Eles usam o pior petróleo bruto que não custa nada para

refinar. É pior para o meio ambiente do que o atual petróleo refinado, que foi limpo. Mas os governos não se importam com isso, porque ganham muito dinheiro com isso).

(Se optarmos por carros elétricos, isso significa que eles terão que ser carregados pela rede elétrica, o que significa mais usinas de energia, e isso gera mais receita para os governos. Há muitos jogos sendo jogados aqui. Se você entender o que significa ter carros elétricos, verá que isso é um presente para as empresas de petróleo e refinarias. Os governos cobrarão pelo petróleo ou pela eletricidade no final. É uma vitória para os governos, as empresas de petróleo e os fabricantes de carros elétricos.)

(Agora, se você tentar trazer novas tecnologias que permitam que você faça 10.000 quilômetros com uma única carga, os governos o impedirão. Ou se você trazer um carro que não precise de recarga, eles realmente o impedirão, pois perderão receita. Esse jogo do carro elétrico é um dos negócios mais lucrativos para os governos. Eles não precisam limpar o escapamento do carro do meio ambiente, pois não há fumaça nos carros elétricos. Todo o pior petróleo bruto será queimado nas usinas de energia para produzir eletricidade, e isso é 100 vezes pior do que a poluição que sai de seus carros atualmente. Por exemplo, observe o setor de transporte marítimo e a quantidade de poluição que ele gera. (Acho que ele quer dizer que os navios no mar não usam petróleo refinado ??) Os governos não se importam e ninguém fala sobre isso).

(Os governos não permitem a entrada de novas tecnologias porque planejaram suas receitas com base na T atual, a menos que encontrem uma maneira de cobrar pelo uso da nova T. Essa é a situação em que nos encontramos com a FK. Não é tão fácil nos permitir entrar no mercado, porque abalamos o "carrinho de maçã").

(Outro exemplo são os Gans de Joelho. Como Dean disse, ele borrifou um pouco de água em seus joelhos e ficou 90% melhor e isso mudou sua vida. Então, o que acontecerá com todas as salas de cirurgia? E você tem todos os médicos treinados para fazer a operação no joelho e toda a renda que vem com isso. Então, há os farmacêuticos e os outros que cuidam dos pacientes. Se borrifarmos nossa água de Gans, então você estará livre disso de uma só vez, e uma vida de dor terá acabado e nenhuma operação terá sido feita.)

(Os governos não permitem a entrada de novas tecnologias. Agora estamos em uma posição em que podemos erradicar muitos problemas no lado do Bem-Estar. Mas isso tem que ser feito da maneira correta. Da mesma forma, podemos alimentar as pessoas, mas, novamente, isso precisa ser feito da maneira correta. Se vocês entenderem o que estou falando, entenderão como estamos avançados.)

(Se por meio de seus fones de ouvido podemos nos sintonizar com sua Alma e alimentá-lo ou mudá-lo, então você não acha que chegamos a um ponto em que não precisamos dos fones de ouvido? Que podemos alcançar sua Alma e alimentá-la. Agora você entende. Mas temos que fazer com que os governos façam isso. E o melhor lugar para testar isso é no espaço, porque não há comida no espaço e temos que alimentar nossos astronautas e pessoas do espaço. Então, tudo o que precisamos fazer é girar os satélites 180 graus e poderemos alimentar o planeta diretamente através da Alma).

(Temos a T e o conhecimento. Na verdade, mostramos isso nas últimas duas semanas a um governo. Mostramos a eles coisas que vocês nem imaginam ser possíveis. Essas coisas não existem nem mesmo nos filmes de ficção científica, nem estão na imaginação do homem de hoje. Tivemos que dar a eles um gostinho disso, para que pudessem tocar e sentir, mesmo que isso esteja lhes causando mais dores de cabeça, porque agora eles têm que decidir o que fazer com isso. Os homens mais poderosos e os principais cientistas das nações estiveram nesse ambiente e tiveram que aceitar que a tecnologia está além do conhecimento do homem. Eles estão perplexos com o que sentiram e como uma tecnologia tão simples pode criar tamanho caos).

(Não preciso de satélites ou de qualquer outra coisa e posso alimentar o homem em pouco tempo. Mas o homem precisa entender isso, para que, quando estiver no espaço, não faça o que fez neste planeta. Os homens mais poderosos da Terra estavam assistindo (à demonstração) e seus olhos mostravam que estavam perplexos com o que estava acontecendo ao seu redor. Isso foi feito nas últimas duas semanas. O que vem a seguir? Temos o conhecimento e a tecnologia. Essa demonstração mudou as arenas políticas e financeiras e mudou o ponto de poder e a forma como ele é exercido neste planeta. Gradualmente, isso mudará muitas coisas).

Mas estamos na tecnologia espacial. São os governos que precisam encontrar uma maneira de torná-la uma tecnologia humana na Terra. Posso me resguardar dizendo que é isso que fazemos no Espaço. (Mas os governos terão que convertê-la para que seus cidadãos e outros governos a aceitem. Nossa tecnologia é tão avançada que está além da imaginação. E não se trata apenas de conversa, nós mostramos isso).

P: (Em um dos primeiros KSW, o senhor disse: "Com o movimento da minha caneta, posso fazer com que tudo sob a superfície ?? fale. Toda a propagação de guerra, toda a matança, ?? tudo.") < interrupção no áudio >

P: Por que estamos tão interessados em nos associar aos governos?

K- (Nos últimos dias, movemos nossa "caneta", liberamos uma "caneta de conhecimento" para os líderes do mundo. Não por meio de conversas, mas entregando a tecnologia e mostrando-a. Levará algum tempo para chegar aos outros líderes mundiais, para que os cidadãos entendam e, então, para que cheguem às vilas da África e aos palácios dos reis. Quando você mencionou "se eu mover minha caneta". Minha caneta se moveu nos últimos dias e os Buscadores de Conhecimento estavam lá para testemunhar isso junto com os líderes mundiais. Os BC ficaram "ombro a ombro" com alguns dos homens mais poderosos do planeta para ver a tecnologia e sua beleza.)

(Agora está nas mãos dos líderes e eles mesmos precisam entender. Então, é preciso tempo para que eles pensem em como implementar isso. Eles precisam entender que a tecnologia não é para o homem na Terra, mas para o homem que viaja no espaço. Mesmo quando o enviamos para outra parte da Terra, você ainda está conectado à Terra através da linha dos campos de seu nascimento. Ainda podemos alimentá-lo através dos campos para que você possa sobreviver no U, mas não com comida, maçãs e laranjas.)

Nos últimos dias, mostramos aos líderes mundiais uma das tecnologias mais poderosas que já existiram. (Eles estão perplexos sobre como essa tecnologia, como a garrafinha que você acabou de ver para o Gans de Joelho, em sua simplicidade, pode mudar o curso da humanidade. Usaremos a conferência de Londres com os embaixadores mundiais para promover mudanças maciças no curso da humanidade. Não se trata apenas de uma simples apresentação).

P: (Digamos, por exemplo, que você tenha deixado este planeta e eu tenha morrido e ido embora, e eu "esbarre" em você em algum lugar do U, eu o reconheço? Eu sei que conheço você?

K- (Como é possível que você me veja em seus sonhos? Como Alma, nós não "esbarramos", estamos conscientes um do outro).

P: Estamos conscientes um do outro, mas eu sei que o conheci neste planeta?

K- Claro. Claro que sim.

(Apenas tome cuidado com onde e com quem você esbarra no nível da Alma. Podem ser campos muito mais fortes, e você pode acabar na outra parte do U).

(A estrutura da FK permanecerá a mesma, mas a operação e o fornecimento da tecnologia mudarão drasticamente nos próximos meses. Um dos motivos pelos quais estamos nos mudando totalmente para fora da Áustria é o fato de termos assumido uma nova posição com nossos colaboradores. Através da força do poder da posição política, financeira, militar e de Defesa e Espaço deles, teremos a oportunidade de abrir novas portas e permitir que essa nação se torne mais poderosa e mais pacífica. A "política de armas" dos Estados Unidos, de vender mais armas e ser mais poderoso em termos de armamentos, mudou. E agora, para ser mais forte, é preciso ser mais avançado em tecnologia e no conhecimento das ciências. Isso tornará as armas dos Estados Unidos obsoletas).

As forças militares iranianas já mostraram o poder dessa tecnologia em Defesa no Iraque, em janeiro de 2020. (Foi uma ação defensiva e não de agressão. Eles estavam se defendendo de uma operação maciça que estava prestes a ser realizada contra o Irã. De certa forma, isso literalmente descentralizou todos os planos que Trump e seu genro em Tel Aviv estavam "preparando" para o Irã. Também mostrou que todas as armas que estavam sendo vendidas ao Oriente Médio por esses países para se defenderem do Irã eram inúteis. Porque os produtores e fabricantes dessas armas não conseguiram se defender).

(Estamos entrando na próxima fase em que, com a nova tecnologia, toda a tecnologia antiga se torna obsoleta, não apenas para a Defesa, mas também para o Espaço, alimentos, transferência de energia, transferência de saúde e outros. Essa mesma máquina também pode alimentar bilhões de homens neste planeta. Uma máquina pode alimentar todo mundo. Ela funciona da mesma forma que a "Alma do Criador", que alimenta todo o universo).

(Temos o conhecimento para cobrir tudo, e contemplamos e chegamos a um acordo com uma das nações mais poderosas deste planeta para trazer o novo ciclo. Mas em um ritmo lento, eles precisam entender por si mesmos o que está chegando. A "Política de Armas" para vender e ser poderoso e criar medo nos outros será substituída por conhecimento e tecnologia, que trarão paz, conforto e igualdade, e não apenas neste planeta. Quando chegarmos a esse ponto, quando tudo estiver em paz, o homem progredirá em conhecimento e tecnologia de forma muito mais rápida. O "paraíso" que foi prometido já chegou. Não precisamos fazer muito, só tivemos que mostrar o poder da tecnologia, em sua beleza e pacificidade. Nós a mostramos e agora ela está sendo lentamente (compreendida) nos próximos meses e anos).

(Precisamos fazer com que o restante dos líderes mundiais "embarquem na mesma nave" e se tornem parte da mesma alma. Porque fabricar mais porta-aviões, armas nucleares e "armas de destruição em massa" tornou-se uma "coisa do passado", em comparação com o conhecimento que temos hoje. As tecnologias de guerra progrediram ao longo do tempo. No início, eles costumavam cavar buracos ao redor dos castelos e enchê-los de água para que ninguém pudesse atravessar. Então, vieram as flechas, os canhões e os aviões, e esses castelos não tinham mais condições de se defender e se tornaram museus. Os atuais sistemas e fomentadores de guerra nuclear se tornaram como esses castelos, obsoletos. (Agora até mesmo as armas nucleares se tornaram obsoletas).

(Com o que mostramos ao mundo nos últimos 10 dias, as armas nucleares se tornaram obsoletas. Agora todos esses porta-aviões serão usados para as crianças brincarem e passarem as férias. Cabe aos governos entender e iniciar esse processo. Temos falado muito abertamente sobre isso, porque agora começamos a fornecer tecnologias a uma nação e a um líder mundial. Eles mesmos podem ver as mudanças que isso pode trazer. A humanidade está farta de todas as mortes e da bagunça que foi criada. De certa forma, são apenas algumas pessoas que gostariam de ser os líderes que criaram toda essa bagunça).

(Ao trazer o novo ciclo, tiraremos esse poder das mãos deles. E, de certa forma, daremos esse poder para a ADH. Como vocês sabem, a maioria dos líderes mundiais sofre de todos os tipos de cânceres e doenças. Eles são como os "atores de Hollywood" de 80 anos, que são "maquiados" para parecerem ter 40, porque há 40 anos eles atuavam em filmes de faroeste, o que era muito popular. Caso contrário, hoje as pessoas não reconhecerão o rosto deles em comparação com o que era há 40 anos. O mesmo acontece com os líderes mundiais. Agora, eles fazem de tudo para permanecer no poder e serem chamados de "qualquer coisa". Com a nova T, esse tipo de coisa não existirá mais. Todos nós nos tornaremos cidadãos iguais e confortáveis.)

(Isso leva tempo. Mas desta vez, como o conhecimento está sendo transferido para os cientistas de uma nação, ele não será "arquivado". Na conferência de paz de 28 de outubro para embaixadores mundiais em Londres, traremos as notícias chocantes e as tecnologias que nenhum de vocês jamais poderia imaginar que existissem. Veremos o que acontece. É hora de entregar as tecnologias, não para alguns, mas para todos, e ao mesmo tempo).

P: O que chamamos de "massa crítica" no campo nuclear existe na tecnologia de plasma?

R: A massa crítica na área nuclear é quando ela atinge o ponto de equilíbrio e a reação fica fora de controle.

K: Não sei nada sobre energia nuclear (em tom de brincadeira).

(Massa crítica é quando a reação nuclear foge, ou o que chamamos de "Síndrome da China" no setor nuclear. Foi também o que aconteceu em Fukushima. Na energia (do plasma), não temos um ponto crítico. Na energia do plasma, tudo encontra seu equilíbrio. Mas se chegar ao ponto de não conseguir manter os campos unidos, então ele compartilha seus campos ou se divide. De certa forma, podemos chamar isso de "fissão").

(A massa crítica, ou a reação que "foge" e cria o caos, não existe no mundo do plasma. Temos algo chamado de "tensão superficial externa dos campos", que talvez eles não consigam manter, com suas forças internas de campo gravitacional. Uma certa quantidade de forças de campo gravitacional se separará de acordo com sua força, mas elas ainda carregarão sua força de superfície externa. Isso significa que elas não podem entrar uma na outra. (Os plasmas não podem penetrar um no outro). (É impossível que a "massa crítica" ocorra na T do plasma. Como não sei nada sobre energia nuclear, então é muito mais fácil entender a energia do plasma).

P: (Um BC conta sobre sua experiência ao se conectar ao sistema durante a sessão de elevação das crianças que sofreram abuso e de seus abusadores. Quando ele se conectou sem nenhum dispositivo, como computadores, e apenas por meio de sua Alma, ele não sentiu nenhuma diferença em relação a quando se conectou com dispositivos. É claro que ele não ouviu as instruções de voz em si, mas sentiu coisas, e algo aconteceu. Ele pediu ao Sr. Keshe que comentasse sobre isso.

K- Diga-me como você se conectou?

P: (Diretamente através da minha Alma. Não, eu não entrei pelo Zoom. Conectei-me apenas através de minha Alma. Basicamente, tentei recriar a sensação do que senti quando me conectei antes. Basicamente, reduzi o campo do fluxo sanguíneo e senti algo diferente quando realmente me conectei ao sistema. E senti algumas outras sensações, e é assim que sei que me conectei. Parece que funcionou. Eu só queria ouvir seu comentário sobre isso).

K- (Se você conseguiu se conectar ao sistema nesse nível, então não precisa de mais nada. Os marcianos e as pessoas do planeta Zeus recebem as informações e o conhecimento da mesma forma que vocês, mas eles não têm seus fones de ouvido e telefones. Não há necessidade de computadores e sistemas de comunicação como os que temos hoje. Se você tiver alcançado a maturidade no nível da Alma, poderá facilmente contornar nossos sistemas e alcançar a Alma dos abusadores. Não há exclusividade).

O BC disse que sentia que estava em comunicação com o sistema. Durante a sessão para elevar as crianças vítimas de abuso, ele disse que conseguiu entrar em contato com uma alma específica, que era o filho do Sr. Keshe.

K- (Como eu estava dizendo antes, o sistema é uma ferramenta para você saber o que fazer, caso contrário, você não precisa dele. À medida que nos aprofundamos cada vez mais nos ensinamentos, muitos dos ensinamentos se tornarão apenas um momento de silêncio. Você não ouvirá a voz. É bem assim que as sessões mensais estão ocorrendo. Durante as sessões, não há conversa, a menos que tenhamos alguma instrução para lhes dar. Você recebe a energia do sistema, que é configurado de uma maneira específica.)

(Permitimos a expansão da Alma, e essa é (a parte principal) disso. Quando você aprende a se conectar, você não precisa dos intermediários. E quanto mais você se conectar e quanto mais você aprender, mais acesso você receberá. Esse é todo o objetivo desses ensinamentos. No futuro, muitos de vocês farão isso automaticamente. Por enquanto, preciso mostrar a vocês como chegar à "casa do tio". Mas quando aprenderem o caminho, não precisarão mais que eu lhes mostre.)

P: Recentemente, uma estrela da música muito famosa cometeu suicídio por causa de sua depressão. A equipe chinesa estava perguntando qual era o motivo, o que causa a depressão e como lidar com ela?

K- (Há muitos motivos para a depressão. Mas 99% dela é causada por nós mesmos. É porque não conseguimos atingir nossas expectativas, que podem ser a comunicação com alguém, coisas materiais ou qualquer coisa que não conseguimos alcançar. Então, nos vemos como um fracasso, e o homem não gosta de fracassos e fica deprimido.)

(Você estava falando de um músico, e vimos um aumento muito grande nos números nos últimos 10 anos, em comparação com o que era antes. Os músicos esperam vender 100 milhões de discos, mas quando vendem apenas 50 milhões, acham que são um fracasso. Eles não consideram o fato de terem alcançado 50 milhões de pessoas. E a verdadeira vida deles não é o que vemos do lado de fora, como a vida social deles).

(A depressão tem muitos motivos, mas é causada principalmente por uma mudança no nível de certos campos, que (?? a pessoa) não consegue alcançar. Nossa equipe de médicos trabalha bastante com isso. Mas as novas tecnologias tornam obsoleto o que estamos fazendo agora. Podemos encontrar a força dos campos da emoção da depressão e senti-la, (?? e fortalecê-la)).

(Geralmente, a depressão vem do fato de não recebermos o que esperávamos e de não alcançarmos o que queríamos, e de nos vermos como fracassados, e então uma coisa leva à outra. Não estar satisfeito com a vida na dimensão da emoção. (Isso é acionado pela fisicalidade). (?? geralmente vem de uma falta ou perda, ou de não ter). << interrupção no áudio >>.

(É muito fácil processar a depressão com a nova tecnologia. Você precisa sentir o que é e como pode alcançar, para que possa fortalecer os campos).

P: Existe um Gans para a paz mundial para que possamos borrifar a água dele no presidente Biden e no Pentágono para obter a paz com a Rússia?

K- (O problema é que Biden é apenas um "fantoche", como chamamos. Você precisa borrifar a água naqueles que são os instigadores da guerra. E essas são as pessoas que ganham dinheiro com isso. (Você pode borrifar Biden o quanto quiser com a água de Gans da paz (interrupção no áudio) ... É impossível. Porque essas pessoas são apenas uma "caixa de voz" (para os que estão por trás), especialmente nos Estados Unidos. As pessoas por trás dos bastidores pagam para que pessoas como Biden estejam lá. Você precisa alcançar a Alma dessas pessoas, não lavá-las com água. Veja que o autor desta pergunta é italiano, então ele ainda pensa em "batizar". Essas pessoas não conseguem... ou será que é a mentalidade cristã? Essas pessoas precisam ser elevadas através da Alma). (Há uma referência indireta ao Vaticano).

P: (A BC não foi clara, mas quer que a FK faça algo na televisão ou em um podcast).

K- (Quanto à televisão e ao resto, não funciona se eles não permitem que você divulgue o conhecimento. O mesmo acontece com os podcasts. Esses problemas precisam ser resolvidos de maneiras diferentes. Acho que nos próximos meses você verá que a FK se tornará moda. Então, todas as estações de televisão começarão a falar sobre a tecnologia de uma forma ou de outra. Estamos chegando a esse ponto. Nosso trabalho científico, nosso trabalho pela paz e nosso trabalho pela Alma se tornarão muito populares. E esse é o momento em que devemos (ter cuidado) para não perdermos nosso rastro (e nosso ethos). Precisamos alcançar as massas e não apenas alguns poucos. Mas atualmente a televisão e os podcasts não têm tanto peso e poucas pessoas passam o tempo assistindo a eles. A maioria das pessoas que assiste à televisão é composta por idosos. A televisão se tornou uma coisa do passado. A geração jovem não tem muito tempo para se sentar em frente à TV, a menos que seja um belo jogo de futebol ou algo do gênero).

(A ciência da comunicação mudou, e precisamos alcançar as pessoas através das novas ciências e das novas formas de comunicação. Isso precisa ser feito pelos governos, pois eles podem suportar os "abusos de poder" das organizações).

P: Como podemos alcançar a Alma de alguém para elevá-la, que está criando uma condição (ruim) que está afetando muitos outros, quando não sabemos quem é a Alma que está fazendo isso? Como poderíamos alcançar essa Alma para trazer paz às suas emoções?

K- (Você alcança a Alma dos (que conhecem ele), porque eles sabem como entrar em contato com ele. Encontre o amigo dele, porque ele terá o número de telefone, mas no nível da Alma).

Muitos de vocês alcançaram a elevação da Alma dos líderes mundiais. Isso funcionou, e vocês verão isso.

P: Mas você acabou de dizer que os líderes mundiais não são os que têm o poder, há outros por trás deles.

K- (Os líderes têm uma conexão direta com a Alma daqueles que os colocaram no poder. (Portanto, indiretamente, ao alcançar a Alma dos líderes mundiais, você também alcança a Alma daqueles que os colocaram no poder).

(Ao elevarmos a Alma dos líderes mundiais, trouxemos as Almas por trás deles ao ponto de estabelecer a paz. Essa é a maneira mais fácil de elevar as Almas).

(Como de costume, na FK tentamos ser muito francos e abertos sobre essas coisas, e queremos continuar assim. Não esperamos, mas estávamos trabalhando em grandes mudanças para a FK. Aqueles que estão próximos a nós e trabalham conosco estão cientes disso, e não vamos parar até que esse ponto seja alcançado. Isso precisa de muito apoio de todos vocês. Vocês nos apoiaram financeiramente e nós trabalhamos muito para realizar as coisas nos últimos 10 a 15 anos. Vocês sempre estiveram ao nosso lado. Agora precisamos do apoio através da Alma, pois assim alcançaremos o objetivo pelo qual viemos aqui, que é trazer a mudança. Nas últimas semanas, vimos surgir uma enorme esperança de que essa mudança ocorra. E esperamos que nossa esperança se torne realidade em um tempo muito curto.

Fim do Índice Rápido - 494 KSW 13 de julho de 2023

ENGLISH TRANSCRIPTION

(:16).

R: Background imagine of Keshe Knee GANS, a special GANS that's used for knee pain. You can participate in the research program.

(:18). ...

K - ... Good morning, good day to you as usual. Wherever, whenever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back as usual, and as usual we try to share knowledge, to understand more, and try to breakthrough new grounds of knowledge in space, and other matters.

As usual, we have a couple of small announcements to make. And one is about the 4 sessions which starts tomorrow, in respect to the, what we call, 3 hour sessions. These sessions are set up directly for what we call, new grounds of understanding and new, what we call, technologies which are developed, that we can see how much in what numbers and how in different applications, we can expand the knowledge of the technology. For example, tomorrow session we start at 12 o'clock, and you need minimum two headphones. (:20). This is a different way that we've done before. You can have three headphones, or maybe you can have access to one mobile phone with five entries. We leave everything to you. You write down what's the reason you took part, and what is your expectation. And we set up in the background to establish our way, our work, in the 4 sessions which come up. One is 14, 21st, 28th and the 30th.

Then, on the 30th, at the end of the session, we ask you what you achieved, what you wanted. And, maybe in one session you wanted to do something with your emotion, in one session you want to do something with your knee, in one session you wanted to do something with your lung, or whatever. We leave all that to you. We are not here to, what we call, interfere or anything. We want to see the process of the expansion of the Soul, in the dimension (D) of satisfaction of the emotion and physicality.

So, usually our medical people, on the health side, on wellness side, over decades have tried everything. Now what we want to establish is that, we want to create a condition as the citizens of one's country, as a citizen of one city. This is a pre-test for upcoming space cities which is going to be structured with Keshe Foundation cooperation. (:22). Which means you can come in one session and see how you feel, what you want to change. And the test we monitor in the background continuously as we .. you saw us last week we didn't take any testimonial or any, what we call, ballots to see what happened, how you felt, because we could see the operation on our system.

So, in next 4 weeks, you come in and tell us, and we expect an email from all of you who participate, after each session, each connection, that you come into the session, on that email return back to us, an information at the end of each session. Which means, you tell us what you came in for, and what you felt after the session, and then you monitor yourself in the next 4 sessions. If you achieved more happiness, more, God knows, whatever, we don't know. We don't want to interfere. This was your expectation, this is what you came in (for). And then, let's see, after 4 sessions what was your experience, what did you achieve. And then, a month later you send us an email, that, in process, in progress, what has changed over the month.

This is part of the large scale, what we call, operation of the Keshe Foundation. There are a lot of things happening in the background in the Keshe Foundation, that we cannot disclose, or we don't want to open till we reach ?? final. A lot of things were supposed to be done, as you know, with the help, with the, what we call, the damage we received financially, (:24). and some of you helped us with it, and we tried to structure a new, but now we've gone a different way to achieve the same, through a much bigger structure.

The whole idea is to build a space city. In that space city, no one should get sick. No one should go ill. No one should go hungry. No one should feel cold. And this is part of that structure. This is part of that understanding of what we call, total process of the next step in reaching everyone at the same time. We have, those of you who join us in the sessions, you've always seen a number of lines open in the background, even when you're silent. We keep monitoring and feeding information or technologies in the background.

So, during the sessions, we add systems in the background, we test different systems. And maybe we ask you how you felt in this part, how you feel in that part, you feel happier, whatever. We'll come to that when we (start the) ?? sessions. So, for the next 4 sessions of the Keshe Foundation, in cooperation with the Knowledge Seekers (KS), in July, we are looking to see what you came in for, and what you received, how well you felt, or you came in for chocolate addiction, and you see, I eat more chocolate or I eat less

chocolate. So, we have given you not one particular thing. (:26). You can come in all 4 sessions for the same thing, it's not a problem. But, you come in one session for this, next session for that, and another session for that, and each session, immediately after the session, or the following day, you send us an email, we collect your data, we understand what it is, and we compare some other things in the background.

Because, during the operation we change a lot of parameters, during the 3 hours. And then we see what parameter goes with what. So, is not excluded to one session, and then you say, "I came one session, nothing happened." It's a completion of the full 4 sessions. But if you feel good, one session, two sessions, that's your decision. We more or less have a good idea of what will be the results in many cases. But now in a way it's a information of the technology and then understanding more for the next cycle of what we call, approach to development.

The other point with the Keshe Foundation is that we will make announcements in a coming time where we call upon many Knowledge Seekers to join us in the research, in the deep research in different aspects. And we'll let you know how, what and it's not just good being a Knowledge Seeker with a Gans. We rely on your expertise outside the Keshe Foundation. That you emerge it, you amalgamate it with the knowledge of Keshe Foundation and we give you the direction to see what we can develop. This is very important for us as Keshe Foundation is going into a new era of its development. And maybe you are a space specialist. (:28). Maybe you are an electrical engineer specialist. And how you have worked with it in conjunction with what we call, Keshe technology. We call upon you and then we'll organize things with you to come in to start.

In respect to the meeting of the 25 Knowledge Seekers who are coming for the special session, by early August, we make announcement for the meeting of the first 25, the place where we expect to be and where we hope to be able to meet the 25 of you during one week, Friday, what you call it, Monday to Friday. The option for us sits on three major cities of Manchester, greater United Kingdom, London, and Beijing. And the three sessions will be kept in one of these three cities. We have to decide which session we keep where. But the first session of 25 will be kept most probably in city of Manchester, United Kingdom. And then the session for the 200 will be held in the city of London. The final destination, if we can organize, will be held in Beijing, in China. Or we hold it in city of Frankfurt in Germany. We have to, primarily to let you know, with all chances, if everything goes okay, we announce the date, and the first session will be kept for one week, in the city of Manchester, United Kingdom, for the first 25. (:30). And if we can secure everything in many aspects, we'll inform you the place, the time, or we move the first session to London, Frankfurt, possibilities. But on target, we aim to have the first 65 people for it throughout the session of one week in Beijing. But that has to be ratified and it needs a lot of work to be done in what we call, November, December. But we'll inform you in early August, the exact position of first position, because many of you have to sort out visas. And we recommend to you the hotels. We will not release the position of the conference. It will be kept confidential, but it will be in the city of Manchester or London. The other point for us is the progress in the teaching will carry on the same. And we will see how we can bring all the matters to one point.

Going back to the teaching, we have tried in the past few weeks to bring a new dimension teaching, a new understanding in the way of space, time and travel. What will be interesting for many of you is that it goes back again to Book 1, Book 2, Book 3, but now we're putting a structure into it more or less what happened in the past .. 2 - 3 sessions in respect to the speed, the size of the universe (U). And in respect to how you arrive at a destination. (:32).

You were a plasma of a human, as a Soul. You have gone through transmutation in the way of traveling to a new position as an energy field. What's going to happen to you when you arrive? How would the emotion of the Soul let you know if it wants you to transmute and become part of the transfer? Which means, I want to see the place, I want to be part of the place, I want to feel the emotion of the physicality (P) of the place.

Then it comes to the point, how do you integrate the emotion of the physicality to the emotion of the Soul? How do you communicate through the Soul of the Physicality (STP) to the Soul of the Man (STM), to create dimension of physicality? To me, as a Soul, this ground feels solid. But if I manifest myself in the shape of a citizen of that planet, that position, with what I transfer, what I transmute to transfer, would I become sinking, or floating, or standing on the surface? Would I like to be a "fish behavior"? Or would I like to be walking as a man? Or would I like to be like a bird, flying the space of the place? Till I find somewhere I feel comfortable, then I change from being a, what we call, "a flying pattern," to a solid pattern. I want to feel a fish life, or what we call, submerged. Even you can, (:34). in the teachings of the future we'll teach you, you can land on the surface of a liquid. (audio drops ...)

R: Bear with us a minute, I think Mr. Keshe needs to mute for a period of time here. Can you hear us Mr. Keshe? Your microphone is muted. Oops! See he's restarting his microphone.

K- Sorry about that. Sorry, it was an emergency call, I had to accept.

K- ... The position is, you want to float on the water, or a liquid .. gas. You don't want to submerge. You have to make that decision. How do you make a decision to what matter state of the time, place, and position to convert into? A bird on Earth interacts with many conditions. And they know how to fly, they know how to transfer themselves with swinging the wings and whatever, (:36). duck and dive the rain, or whatever. You're a "newcomer." On the surface there is no bird, that you can take knowledge from, through the Soul. How do you decide, I came, I know the birds, I want to fly on this planet? How do you do it? How do you go back into the dimension of the transmutation, but still in a transfer of the physicality? Alertness, interaction with the STM and STP of the man and the "Soul of the planet," and the condition of the Inertia will dictate how you manifest yourself.

I don't like this. What happen if you lose control, if you don't understand the transmutation? What are the consequences of it? In part of the process of the next 4 weeks (July Sessions), you will go through this emotion. The part of the next 4 weeks is

not just for you to come in for whatever. We're testing a lot of new conditions. You will tell us how you feel.

In a way, you have to go through that to be able to repair a lot of things. Because you landed on the surface as a dimension of the different physical condition, and you burn your wing. You burn your leg. You burn your point of contact. How do you heal it? How do you repair it? Or how do you go back in the dimension of the Soul and come back at a different dimension of physicality? (:38). A lot of the teachings will come into effect. And how would you feel if you land in a populated area of a given species in a given part of the universe? How do you interact with them? You are not in the shape of the man, the body of the man ?? in the amino acid (AA) in this dimension has no life to live. It is in a way, a different ?? condition, but you want to manifest yourself in physicality.

We know we are not the only citizens of this universe. So we should not be surprised if we come across population like ants, like cities we have, in a different shape of construction, intelligence of the building is not exclusivity of the human race. Science and technology is not exclusive of man. Races who have developed, like us over millions of years, they have developed tools to live. They have created societies. They establish the structure of life. ?? they do not need to eat the man does. They don't kill, but they live amongst each other. They respect each other's space and time. You land in, "ooh, it looks delicious." You don't eat. You pick up the Soul of the environment, that this planet does not need to kill to eat. You take from the point of the saturation of the field of the Universe.

How do we see ourselves in the new environment? How do we transmute? (:40). How do you convert from physicality to the Soul and from the Soul back to physicality? This teaching has been sitting in the Book number one from the first chapter. If you go through the first 3 chapters, the whole understanding of the transportation and conversion to a field, to matter, is fully explained. But you have to understand what it says. If you go in what we call, the first 3 chapters of the Book number 3, the ?? same structure is set. I keep on telling you, go to chapter at the end of the Book number 2, to the beginning of number 3, you'll understand the process of the Creation.

But now you have to create yourself in the time and position. You still have the emotion, physical condition of the man in the physical, what we call, capacity of the STP within the STM. How do you change the skin? By changing the skin, it means, how do you bring the STP out of the Soul, and bring the Soul inside, and the reverse? This knowledge has to be understood. When you run in a physical dimension, that's a physical transfer. How do you transmute, which means bringing this physicality inside, with the STP inside the STM? (:42). Where now, it's the Soul fields strength, which interacts with the environment. Not the skin of the man in the dimension of physicality.

And then, would us, with the STP of the man, on the surface of the planet, end up to be a miniature things like an ant walking, or a giant of a thing like a dinosaur, compared to its environment? How do we adapt ourselves to be one of them, that we are not recognized (as being) from outside? These are the teachings which gradually we'll start teaching you.

This is what... but we have to open your eyes into what is to come. It's no use telling you, this is the system, this is the way you do it, when you haven't had time to think. You haven't had time to understand what are the implication of it, what are the application of it.

We've been teaching for past months, and two or three years about the STM, about the STP of the man, about the physicality (P) of the man, that today's man has leeches upon the Soul. Now, the change of the game is what happen when the Soul leeches upon the P of the Man. How do you switch? What is the process of switching? How do we understand the way we need to switch? (:44). And how do we make ourselves available for this switch? That we are in full understanding of the process of the life. In what shape and to what point of need we convert.

In what shape and point of need we collectively bring changes. We travel as a family and we want the brother, the sister, the mom, the dad and the children to be with us. And we want to convert all of us together. In a way we've done the transmutation from A to B, from P of the man to the STM. Now, how do we do as a whole that no one knows we are from another planet? We become part of the society, even though the family know we are together. We are not the people from what you call, origin race.

And how do we learn the language or the line of communication? There are no schools, no universities, no foreign school languages. How do you tap into the "Soul of the knowledge"? How do you tap into the "Soul of the life of the planet"? These are the teachings which is coming up. These are the teachings, what again, I'll go back. The next 4 week sessions will bring us to the point to do, in how in the coming conferences, (:46). we will explain to you how, and you will learn how to do the conversion. How to do the transmutation, how to understand what transmutation means, and what effects we will have on life of every individual in this process.

It's important for us to understand the totality of the transmutation, and the totality of what we call, understanding of the work in every aspects of the work. How you switch the STM to become the container of the physicality on this planet. How you travel the span of this U, and at the point of arrival, you change, and you reverse the position where the STP and the P of the man manifests itself to become the holder of the Soul. In a way, put your hand in and pull the skin inside out. But this time, what you pull out, what you change, is the Soul strength or the STP. And then, in the interaction of the two, gives you the manifestation of physicality in that time, place, and position. But as you arrive in the dimension of the Soul, (:48). in the strength of field of the Soul, now you convert into the dimension of the fields of the physicality. Then you will see the shape of you.

We can replicate these on Earth without the shadow of a doubt. Knowledge Seekers in the coming time will make facilities for all these to be able to be done in a matter of seconds. But till then, we have to teach you. You have to understand how you use the emotion of physicality, in conjunction with the emotion of the STP, with the emotion of the STM, in the interaction with each other, to create the transmutation.

In fact, if ?? you understand. The physicality of the man is Book one. The STP is Book 2 and the STM is Book 3. If you understood the knowledge given in these 3, you should have already understood the transportation and transmutation.

To what extent you can deviate from the line and experience new dimensions? And then, to what extent you have understood at the point of arrival as a Soul, you interact with the "Soul of the destination," with the "Soul of the citizens of the destination," and in that lines of interaction, you create your new physical being, (:50). which allows you to work, to live, and to be part of the time, place and position.

How do you switch? In Book one, are you transmute? And how you end up in Book three? And how do you create the motion between one and three? Then you find out. Transmutation has no time, space, and position. Which means, the transmutation will bring man to travel in the dimension of ?? .. , will bring in to understand the Totality. We have to, we see, and ... We have to understand the totality of the energy. Energy in the terminology of the Keshe Foundation, not energy in whatever man measures. Energy in understanding of the field in motion. Understanding that each field strength has different emotion, what we call, strength. (:52). And each one has different emotion. So your emotion, field strength of emotion, understanding of the motion of the fields, all come together, in which line of the universe you will transport yourself. You will transmute yourself. You will come to the point that you can bring the change.

So first of all, in the coming months, in coming weeks, we have to teach you how to go through the conversion. From the Soul to become the holder of the physicality. And in that condition, to become the holder, container, what I call, interface with the STP. Then one of our most important points will be how we get you from Earth to Moon, from Earth to another position in the universe, with the dimension of the speed of the light of the universe. Considering the light of universe to man is dark, but in fact it's not. This is the light of the knowledge, the light of understanding, the, what we call, "enlightenment." And then, how to get you to the point, and then manifestation.

Then, you still have a problem, if you understand the whole process. You leave in the Soul of this man, to meet the mother who died 20 years ago. (:54). She has no physicality in the dimension of what you were expecting. She has a new dimension. But the Soul, the energy, tells you, this is the mother. What would you expect to see? What is your understanding of the emotion of the interaction? You see a field. You don't see the mother in physicality the way you knew. But you know this field is a field, which is the Soul of your mother. You interact with it, the way you do exactly in your dreams. Because the dream to you is the reality of the interaction of the Souls in the dimension of energy.

All these in the next few years will be taught, in a very, very detail. There is no calculation. If you go back into my first teachings, first lectures ever, 20 years ago, 15 years ago, I always said, "God does not have a scale, a measuring tool, that I'll put 50 gram of this and 200 gram of that and 10 liters of this." There is no grams and (liars) and mileage in the measurement of the Creation of universe by the Creator. And now you are

the Creator. You can't put, "oh, I put 20% of my Soul and 30% of my physicality, and I'm going to end up there." You have to learn, in the dimension of the strength of the fields of the universe. (:56).

Then we have to understand, how we create these fields through emotion. Then you understand, even the very first teachings in health, we always spoke about the emotion, why it's important. It's not a blood flow, it's an emotion flow, which leads to the creation of the sense of the STM. You look at the redness, I look at the strength of the measurements of the fields. The fingerprint of the human race in the field energy. In the space you have no blood, but you have field flow emotion.

Now you understand, how much more, in the past couple of weeks, and in the next few weeks, I do a lot of talking, a lot of explanation, open your eyes to new dimensions. Because, if I don't do that, it'll be very hard, like many of you before, he went from Nano material to Gans, and now he's come to fields, he's ?? come from ?? radiation. Now we teach you, because now this is the school of the space technology. We taught you ?? for 10 years. Now, that's why we taught for 2 or 3 years about the Soul, in the handling of the field of energy. Now we are moving there. You have to understand, you have to, in a way, be educated to be ready to go through the transmutation, by yourself. You do that in your dream, you do that in the time of, when the physicality is resting, but you've learned to park it between the blanket and the bed, we call it, a sleep time. (:58). Now, there is no sleep time, because now you park it between the Soul and the STP and there is no physicality. Nothing, except the emotion of the physicality, of the STP, and the emotion of the STM, which allows you the point of manifestation of the physicality.

Unfortunately, we have not made any measurement tools to measure the strength of the fields of the emotion of the man, yet. And as I know very little, there is no such a system in the U. You go on the edge of a cliff, the fear stops you jumping over the cliff, it pulls you back. It's the emotion which does that. Fear is an emotion. Now, you are on the same point. You are on the cliff of jumping from the physicality into the Soul, and knowing there is emotion of STP, which has held me (back) ... ?? doing something. I hide, I turn my back, I say, "it's not there, but let it do it," and I call it a dream and a sleep. That's what we do when we go to sleep. We hide under the blanket, we put something on our ?? .. ourselves, we have the physicality that we are asleep, and we turn our back, we close our eyes and we said, "okay, now go." Dream, go, wherever you want to go, you are free, and I call you a dream, because I don't want to accept this is my capability, it's my responsibility and it's actually part of me."

Now, you have to understand this. (1:00). This Soul has no bed and blanket to hide in between. Except the energy fields of the environment it's in, and except the energy fields which is within it, we call it the STP of the man. Sometimes in and sometimes out. When you sandwich the STM, and the physicality of the man, and the Soul and the condition of the environment, you get the STP doing something and create what we call, the physical structure. Now, in this process, you have a plasma of STP, you have a plasma of STM, and then you have a plasma of Soul of the space, time and position. And you're trying to

drag the STM to go in the other side, and pull the STP in the middle. And when you do that, you get the physicality.

Many of you, many of you who are used to dimension of the physicality, when you interface and interact with the first time, your new physicality, in new dimension, you will be panicking, hiding as fast as you can, (saying) "this is not me." Would I see with the eye of the man, in the mirror of the position and time, and see another body, which is not mine, but inside I know .. I am a man.

These things we have seen, we put you through the experience. We put you, we brought you to Linz, we let you go and you said, "I see blurred, I went to the Moon, I went to the sea, I became this, I saw the Soul of Christ and everything else." (1:02). We allowed you to experience. Because it was not you who experienced. Because as a man, you are part of the Soul of the race of the man, that knowledge has been embedded in the Soul of every man alive on this planet. Now, they have to tap into it. They have to progress to the level to be able to understand the transition.

Many experiences we did with you. In the time of the four or five hundred of you came to Linz to go through the system and we told you, come from all races, because we're storing, now you understand what we have stored, your emotion, everything else is part of this. You came in for a test, you actually added to the knowledge of Totality. And this is how it will work, and this is how you will be.

When you arrive in a time and place and position, you'll receive the knowledge from the "Soul of the citizens," and not from the school of the teaching and universities of the citizens. They haven't gone so advanced to bring in a structure of what we call, the lying, cheating structure of the, what I want you to learn, and what I want to indoctrinate you to know is the truth, because it fits me. You learn from the Soul of the citizens of the universe, in time and position and the place and the point of arrival, because you interact with their Soul, and not with their physicality. Because you entered into the dimension, in the dimension of the Soul, not the physicality. You didn't come off the plane, "oh these are Chinese and these are blacks, and I'm a European and I'm an Asian." (1:04).

As I said, listen to one of the Intros. When somebody looks from outside, sees the Soul, the brightness of the light, does not see the Soul of the king, a peasant, or a dog. As the Soul of the king and the dog look exactly the same, from the brightness of the man observing in the Soul. So there is no difference between the dog and the king, in the dimension of the Soul, why should be in physicality? Unless the man decides it. And then, we have to understand, who is the real dog, the king or the dog?

In the dimension of universe, we have no hierarchy. And we have nothing hidden. And this is what many of you will come to understand. In your first trips, you'll come to understand. Have any of you had a dream, talking to your mom, and in the dream, the mom tells you, "you're lying to me." Then, I, in the dimension of the Soul, everything is transparent, everything is dimension of what we call, line of the fields. So, you learn the language of the fields, you learn the language of the emotion of the language, you learn

everything else with it, what to eat, what not to eat, where to go, where not to go, as you are born in that society.

This is what I tell you, in the coming time when you learn this, when you come from France into China, and understand to arrive in the STM, (1:06). not off the plane of the man, you will understand Chinese, you speak the language of Chinese, you'll understand the emotion, and everything about the Chinese culture. Because you arrived through the Soul, you arrived through the fields of emotion, not through the plane with the fuel in the back, dropping your physicality.

The science of the man will change. The understanding of a life of the man will change. And then with it, the whole structure of the physicality of man will change. We tested this, without you knowing, through the process of the last meeting of you Knowledge Seekers, in elevating the Soul of the abusers, some couple of weeks ago. And it was so beautiful to see how the STM has taken over the STP and the physicality.

And the physicality had no line, it was a straight liner, a "flat liner." And how the physicality stayed on the line, and watched the STP and the STM battling it out to find balance, for the Soul to be in the opposite position, equal to the STP, that physicality stays flat liner, and there is no abuse. If we show you the graphs and the electronic information we collected, it just puzzles you, if you understand it.

Now it comes to the point, that how in a coming time, we can transmute you through the Soul. You can transmute yourself through the Soul, and then give yourself dimension of manifestation of physicality, (1:08). at the end of transmutation. This is what is part of the teaching, this is what, if you listen to the past two, three teachings, I start opening, telling you that when we bring you to the point, you already understand. You learned enough about physicality. We had to show you everything about the dimension of the Soul, and then dimension of the matter state, the Gans's, and the rest. Now, we put you through the transmutation. We put you through, going from Book 1 to Book 3. But this time it's you. It's not a reactor, it's not a system. The system is you, understanding of it. And it goes back to what I always said. As Knowledge Seekers, you take from these teachings, according to your intelligence. According to what you decide to be the reality in life, which becomes your understanding.

We go through a break, and we come back, and try to explain. The teachings are surely short, half an hour, 45 minutes nowadays, Because, it's so intense if you understand it. There is no more mixing things, the only thing you mix is your energy of your Soul, energy of your STP, and your physicality and see what you get. And what you experience with the new transmutation. And gradually, as you go through the teachings, in the coming months and years, one by one of you will start going through the transmutation. You learn it, you understand it. Don't take it just a voice, understand what the voice means, which is teaching. And this you understand, when I tell you, when we teach, we teach for the whole of universe. Because universe taps in the Soul of the Creator. We go for a break and we come back, and then we'll see what we can do. And answer any questions. Thank you very much, Rick.

R: Thank you Mr. Keshe, excellent teaching today. Okay, well we'll take a short break here, and be back in a few minutes.

proofed

BREAK >> 494 KSW July 13 2023 (1:16).

K- Okay, carry on. Let's see what are the questions.

Q: Good morning Mr. Keshe, I have two short questions. One, (can) the earphones or only headsets can be used for the July sessions. So, can we use both earphones and headsets, (1:18). or does it have to be only headsets?

K- I don't understand.

R: I believe it's, you know, the earphones are the ones that just go into the ears. And the headsets rest on the ears. So either ones can be used for the July sessions, correct?

K- Either one can be used. Either one can be used. Can you give me five minutes, something urgent has come up, please? I'll come back and just put another ?? .. please. Thank you very much.

R: Well Dean you had a hand up, maybe it's a good time to say something to the public here, perhaps you've been at the center in Linz and directing groups and so on, in the, kind of the end days, you could say, of the center in Linz. How are you feeling about that? How is that going? . Talk a little about that.

Q: .. Yeah, thank you Rick. It's been, it's usual with humanity and with all of us. In Austria, it's become, for many Knowledge Seekers, a center of thought provoking, field strengths of emotions, and then some clarity coming through where you feel emotionally stable. You know, the Center has become a platform, and a position where Knowledge Seekers have come forward, and some have said ?? that they feel extremely comfortable in those positions. (1:20). They feel like they've received energies and when they're in the building itself and in surrounding areas, they feel a comfort. And we know this is directly related to their experiences on a Soul level where the Soul is bringing them

forward, the Soul is present within the Foundation And all the Souls that are present, because it's not just the foundation Knowledge Seekers, there's many, many, many Souls present. And you sense it and feel it.

And I've understood that many Knowledge Seekers have experienced deep, deep self awareness and understanding that they probably didn't even know what it was. And then it just starts to open up like plasma does, you know, you get the first initial seed, you know, the first bit where you walk in through the door, or you experience it on the internet, you meet a Knowledge Seeker, the knowledge is shared, you know, you give them some of the knowledge, and then all of a sudden, it resonates so hard and so profoundly with the very essence of yourself that you just, you just want to know more. And then as soon as you want to know more, it opens up to you, and it becomes something much, much bigger.

So it starts off as it did for me, it started off with a just listening to Mr. Keshe and one of his teachings a long time ago. And the moment that the you know, the universal knowledge is portrayed to you, that field strength, then everything changes. And the knowledge, you know, when you share the knowledge, as Mr. Keshe does, the knowledge seems to talk directly to you. So when you receive the knowledge yourself, and then you share it once more, (1:22). it's the same feeling for the others that are coming forward. It touches them very deeply. When I was in the exhibition just the other day, I was speaking to some people and I just give them a little bit more knowledge of what I've come to understand. And you can see it in their eyes, you can see in their structure, the way that they respond to it. And you can see the, you know, this, the slight elevation, the, you know, the part of the enlightenment happen within the structure of them, you see in their eyes, and you can see when people have emotional imbalances that in the in the physical body, or in the emotional body.

And as soon as they walk, as I said, the walk in the door of the Centers and guided into the centers by their own Soul, they start to receive the balance and you can, it's a beautiful experience to see. And sometimes it's very subtle, very, very subtle. And, but you know, it's present. And other times, it's very, it's like, "bam," it's there. It's sort of like, you see it very physically. And I've experienced it many times where people get very emotional and some people like we all ?? they have different emotions and they will be very quiet and subdued and you wouldn't know but you sense it behind the structure, you sense that there's a big emotional change is happening.

So for me it's a constant evolution of sharing the knowledge and now we're coming to a position that Mr. Keshe has explained this morning, where, you know, it's the next stage. And I'd like to ask Mr. Keshe some questions about how it's really going to feel to transmute to how is man going to go through this emotional understanding to be able to comprehend, suddenly being in a different position with a different set of, even if it's the physical body, (1:24). like Mr. Keshe was speaking about, if you go into another body, how are we going to feel about suddenly not, you know, not having, you know, the body that we're used to, and still feeling it's me, but in another environment, that we don't, we're not, we don't even know. So we don't, you know, we may land on, you know, in

another position, even on planet Earth, we could land in another position that feels totally, for want of a better word, alien to us. However, we have to interact with it and we have to be part of it. And are we going to feel connected enough that we can emotionally be stable enough to interact in that environment and enjoy it, you know, and be enjoying in balance? How will that happen? So that would be one of my questions to Mr. Keshe when he comes back. Is there anything else you think I should explain, Rick? Or was that enough?

R: Well, there's the thing about the background image today, and of course, because we're broadcasting on YouTube, we have to be extremely careful of any testimonials of the medical kind, as you know, but you did give a very good testimonial in the public meeting for testimonials last Monday. And people can go to our Livestream channel, which I've put the, I've put the connection (link), that Livestream channel connection, to our chats here. And if you'd like to refer to a more detailed explanation by Dean, about the "Knee Gans." (1:26). But, perhaps you can, you know, say something about that Dean, that's not going to be impinging on our responsibilities, in terms of the medical, so called, medical misinformation. And just tell people that you had good results from using that product.

Q: Yeah, of course Rick. I will keep it in balance as we know we have to. So for me, I had a condition that I've experienced a long time ago where I used to play the game of soccer, football, as it's called in the UK and most parts of Europe. And it caused me where my knee had a condition where the fluid in the middle of the knee sort of more some part cartilage sort of "popped out" from experiencing this football game. And I never got it, I never got it medically looked at or anything, because I was very young and fit at the time. And I just went back to the, you know, my training schedules and just healed in that way, physically myself by just doing physical hard sports and activities. I went through a phase where as I've got older, it started to get, because I'm not obviously physically strong anymore, it started to cause me problems and started to, the structure of it started to, you know, I had a lot of pain when I was walking up and down stairs and other, you know, up and down mountains, I should say.

And so I mentioned this in the Foundation to Mr. Keshe with all his beauty, I said to him about it and then very shortly afterwards this Knee Gans came out. And I thank Mr. Keshe for that deeply. (1:28). And so I've used this Knee Gans and I used it according to the instructions and so what you see here is the Knee Gans on the right hand side. In the middle is the containment of the Gans itself and I've shaken this jar so you can just see some of the Gans just sort of fluttering down. And then on the left hand side, that brown bottle you see is actually the plasma water itself. And then you see the syringe and the bandage, the knee bandage that I would spray the knee bandage with some of the plasma water. And so I went through the procedure.

The procedure is very simple. you do a test first, where you would put a band, sorry, a "plaster" in the middle of your arm, opposite side to your elbow, the inside part of it. And you would just test it for 24 hours to make sure you don't get any reactions to the plasma. And then if that's okay, then according to the instructions, you mix up the Gans, shake it,

let it settle to the bottom. So all that you see in the middle here would be floated all the way down to the bottom and it would be clear, like you see in the brown bottle. And then this brown bottle, the plasma water, you would then spray some different amounts of spray, creating a flow. So you may have two or three sprays on the front of the knee and one on the back of the knee. So you're creating a gradient. And then basically you keep doing this for seven days. And then after seven days, you assess what's taken place in the structure of your knee. And if you sense and feel that you need it once more, then you can reapply. So you wait seven days with no interactions, you're not using it at all. (1:30). And then you would start to use it again for another seven days, spraying as you, once or twice a day, I would spray the bandage and then reapply it to the knee.

We say Knee Gans, but it's obviously for any joints. So it can be used across the body really. And I experienced many beautiful things. First of all, I experienced a connection, a reconnection of the neurological system. It seemed to me where when I first started using it within the very first couple of sprays, I think I went to bed that night and I felt a connection from my brain down the top of my neck, my back, that I knew was reconnecting the neural pathway from my brain to my knee, reconnecting it. And I think creating that flow again. And because that flow was connected, it meant that the knee then had a position to be able to start to re-grow and reposition itself using the Gans. And Mr. Keshe has made this specifically to help people and to help any, you know, creatures created and human beings to, you know, recondition something that's happened. It actually is there to, I don't want to go into medical terms, but it helps to rebalance the condition that you have and bring the ligaments and the tendons and cartilages back into balance.

And I personally have experienced that it has done this. It has taken a little bit longer than I would have liked, but this is because I had quite a severe thing that I'd left for quite a long time. One thing I did notice when I was using it as well, was I had like a sense of feeling of my knee getting bigger around the front to begin with. (1:32). And then it seemed to move around the knee. And then one time I remember feeling it on the back of my knee and I could feel the, you know the different areas of the knee responding. And it seemed to be readjusting, re-growing and reconditioning itself. And so this is probably two or three months ago now. And now my knee is, I wouldn't say it's 100%, but it's back to sort of 90 - 95%. And it means I can have an active life again and not be in pain when I just do the most simple things like walking up and down stairs, which is a massive thing, because this one technology alone that Mr. Keshe has released, if you multiply this, the amount of times somebody would strain themselves or hurt themselves or be in a position where, you know, they're in discomfort, then this opens up a huge, you know, this one product opens up a huge structure within the totality of positions on planet Earth with our physical bodies.

And so for me, it's a very, very important product that I know many people from the sports arenas, from lots of different positions. I mean, not just sports, I mean, just everyday physical life of many people that work very hard. have a repetitive problem or something they might do, then this would, I would suggest, would be a wonderful way of redressing and bring yourself back to balance. And it is a beautiful gift, a beautiful gift

from Mr. Keshe to humanity. And as I said, this is just one, and it touches the full structure of humanity and all the creatures. (1:34). As I said, there's one product. You can then when we start looking into as Mr. Keshe said, 20 or 30,000 products, can you imagine the full spectrum of energies we're going to receive to bring back the balance of the physicality and emotional state that we all experience as Souls present on planet Earth and elsewhere. Is that good enough?

R: Thanks, Dean. That was more than enough, probably. But I gave a break for Mr. Keshe to do his thing there, too. So, thank you.

K- Yes, I am very busy in the back with a lot of things. Sorting a lot of things out. These kind of things, which we put out, and Dean speaks about, this is a wellness. We are not in a health business. This is what brings comfort. Don't forget these materials have all been, Gans's have been, received a certification. When we produced them, tested them in China, and it has a health certification for it. It's a normal Gans of materials, but in a specific way, which we have developed for these things.

And we are not in the health business. We are in the wellness, in feeling better. And as Dean said, he feels the emotion in his body before reaching the physical condition. There are a lot of people using in different ways. As I said, Keshe Foundation is entering a new, totally new environment of work. And in the recent past, we have tested a new dimension in the process of converting fields into energies, into matters, (1:36). and conversion of the matters in the new dimension work. into the structure of the body of man.

We had the pleasure in the past few days, as part of the same process, to see physically what we call, the helix structure of the amino acid (AA) in a very, very specific way. I set it up to see it. And when it was there, it was amazing. Where you see it in the matter of what we call, "visual structure." And we'll bring in new dimensions, new materials and products in the coming months, in two or three years.

We have merged the Keshe Foundation with one of the strongest nations on this planet as a collaboration with the nation. And we are set on course to bring huge changes. As one said very recently, the giants of power and science have finally met. And that'll bring the change. The trap we were set up by Europeans to keep the Keshe Foundation silent has failed drastically. And one of the most powerful nations on this planet has joined force with the Keshe Foundation to bring the technology, as its utmost to serve humanity. Knowledge in exchange for peace has taken shape. And this bottle is a small bottle. Compared to what is to come. And deeply involved. (1:38). And we have left it to the governments to announce the collaboration and extent of the collaboration between the two organizations.

.. It will be fundamental that technologies like this, so simple, can change people's life. Like Dean said, you cannot go up the stairs. And then you find out life has changed. The reason I released this wellness product was I got injured badly last year in a hiking accident ?? .. work. The doctors told me I need to replace my kneecap. The cartilage has totally gone. And on the MRI showed both legs were kneecaps, cartilages, and part of the

knee itself, through this accident, has been damaged beyond and needs operation. I said to the doctors, I don't need it. I know how to repair it. And he said, when you've done it, come back. I couldn't go upstairs to the surgery to take pictures. I had to take ?? rest. Very painful.

And strange enough, on Sunday I was at the location and I was told that the electricity will be cut at 12 o'clock. And I was on the eighth floor. And I had to be outside. And I climbed the whole staircase, the whole eighth floor, round about 15 steps on each floor in one go, without any pain, without any actually thinking about it. And we see the change. (1:40). For me walking 100 meter was impossibilities for some time. And one of the Knowledge Seekers I said, when one of the teachings said, you, I felt you have a pain, there was a pain, and I said, yes it was. My cartilage doesn't need to be replaced, it's fully restored. And what you see in the bottle is what I used. And I thought the knowledge has to be shared. It's a kneecap operation, joint operation on the knee, because the MRI, we still have the MRI, we kept it for reference, shows totally there is no cartilage. And you cannot go up the stairs, eighth floor, at my age, in less than a minute or two, if you do not, and if you are not fit.

And this is how the knowledge is. I shared my technology (T) with all of you, like everything else. And, this is what it is. Many of you have tested it. There are different ways of doing, testing this, adding it. It's a wellness product. And this is exactly how it should be. Knowledge at the reach of man, at the point of demand. And I, many times, thought, I'll go back to the surgery in Vienna and tell the guy, "how many people would you like me to help?" (1:42). It's not a medicine, it conditions the environment in a ?? plaster of the fields. And I've seen the result. Don't forget, I originally used this in June of 2010 or 2011, when I fell off a horse. I rebuilt the whole structure of broken bones within 7 days. There is a lot of knowledge's which is to be shared, to be understood, to be in a way applied.

This technology creates condition, it's not healing, it's not medicine. And we've seen many people having used this different type of structures for this purpose. We have reached in the level of technology we have come to a point that ... (1:44). ?? today I have ?? very emergency things happening. Just please, one second.

R: Okay, bear with us a minute or two, while Mr. Keshe does his thing and reconnects in a minute.

Q: Rick ... one thing I forgot to mention, is Dean here again, is, what's beautiful about these products, about the... and I'm not, we're not trying to sell products, it's not about this, it's about the, the gift of creating fields, plasmatic fields, that bring, as Mr. Keshe said, wellness back to people. So you have here something that I know in this, in the matter state condition of this containment of this jar, this plastic container, a liquid plasma, you know, and Gans, gas in a Nano solid state. And you have the capability and what is the beauty, the real beauty of the knowledge is that you can share it. So physically, you can split this up and you can give it to other people, other creatures created to bring their structures and their emotions into balance. And for me, that is the

real, the beauty of this knowledge. It is the fact that it can be shared, it's given and it's in the sheer power of this technology is in the fact that, (1:46). in that very small little bottle is a technology that is beyond what we've experienced before and can bring, as I said, a balance back to all sorts of conditions that we have. And the fact that we can share it with our loved ones, our friends and family, communities, nations, is the beauty of this technology. And that is, for me, that is the most incredible thing.

K- Thank you very much. And sorry, I'm back again. In the recent past days, we have tested, in a specific way, the fields interaction. That's part of a very large scale test. And again, this will come into (flourish) in the next few months. You will see it. Where we release another range of technological scientific materials which can help with daily life. Restoration of the energies in the body in a very, very specific way that will change a lot of things for many of us.

What we foresee in the next maybe 12 months, maybe 2 years, in collaboration with our new partners, where we enter feeding nations, (1:48). where we enter a cycle of wellness care for nations. For example, today you send food packages to disaster areas or for famine areas. I foresee next 5 years our partners will market, feeding a whole nation with the new technologies, emerging technologies, where we become responsible for feeding a nation. Technology has been tested, technology is available. But in that way we don't need to farm. In Africa, in third world nation, where food is one of the biggest problems for governments, will be resolved. Where through very much like what you see, we'll put that into reality of the delivering of the food through plasmatic conditions.

New plasma, a new definition in the world of plasma. It's matter of how we come to an agreement and in a way, it's not something new. You as Knowledge Seekers, we promoted a few months ago and it's still on the Keshe Foundation website, that you can join in a food contract where we feed you through the Keshe Foundation Apps for so much per family. Now this, or your wellness covered by this. (1:50). Now this with the new structure which is coming in the Keshe Foundation, makes us possible in collaboration with the governments we work with, to become nationwide. Which means for example, let's say, the nation of France accepts to feed nation citizens of, let's say, Algeria for 2,000 per head for a whole year, irrespective of position in Algeria. This technology now is available.

There is a reason we push this forward. And the reason for that is very simple. Technology is jumping in a very, very rapid way. The development of the Keshe Foundation technology is growing so rapid, that now it's possible, accepting in the next 5 years, for example, to feed a nation. You don't need to export rice and grain and control the policy. You come to an agreement on a percentage of GDP to do this. Which means we take 2%, 3% of the GDP, whatever it is, whatever nation you are, and that becomes a payment for feeding the whole nation. And this ties up with the nation we have joined things to work, that we can do this.

This gives us a spare structure to learn more. Where a lot of problems with poverty brings a lot of diseases, malnourishment of the children, now we can cover. (1:52). And there's

a lot of new breakthrough knowledge's and technologies, which we have started releasing. And we will carry on releasing this in the coming months and years with our new collaborators. We have signed agreements with the nation.

The Keshe Foundation has entered into full collaboration with one of the most powerful nations in writing, not in talk. We are in that process, to allow many, many, many positions to be cleared. The Wellness Center of the Keshe Foundation will be spread across this planet in a very specific way. We have allocated the first Wellness Center to work with the doctors, but has no operation within the Keshe Foundation. In the next couple of weeks, we'll announce the first Keshe Foundation Wellness Center set up and up and running. But you don't need to go to the Wellness Center. You can be anywhere around the world. We see the operation, the opening of the second Wellness Center in Arizona and Uruguay. Most probably in a very, very systematic way, we, in collaboration with our partners, we'll start the Service Centers like this. But Germany, Arizona, and Uruguay will become part of our best structure of the world by Christmas. Where, through Uruguay, we serve the southern hemisphere of the American continent. (1:54).

We need to understand that the separation will come in a very big way. We do not sell our systems, but we install with the doctors to operate for a nation, or for a place. The state of ??, we lost a lot of money. And that brought us to understand and open new collaborations. And those of you who invested with us, you know, most of you have received some of your money back already. And some will receive it back in the coming due course in the next few months. But it brought us what we wanted to do as a Foundation individually, in collaboration with the government. Which I always say, thanks God we lost the funds, because then we had to go through the whole process. Now we are not involved in that process, because we are just research developers. And the nation will do the rest.

And the nation we have signed an agreement and entered into work is one of the most powerful nations and the richest nations on this planet. The leadership of the nation have understood and backed us, tested us, tested the technology, and we keep out till they announce publicly about the Keshe Foundation technology as one of the prime works of the, what we call, the nation, as a new emerging science. It's a sadness to see so much work was done in Europe but in a way it built us up to what it should be and now the Keshe Foundation has entered a new era, that technologies like this will be available to every man, more or less, on this planet, because we don't have to worry about it.

Every product carries the name of the Keshe Foundation on it. It will not be something hidden behind somewhere, (1:56). from the gas production to oil production, comes to satellite space travel, food, agriculture, everything will carry the Keshe Foundation name on it. This is how they respected the technology is. Technology as our Knowledge Seekers develop, ?? we'll see and will come up into the structure to announce it on due course. But we still work and the Keshe Foundation team has not stopped working on this ground for past months.

Any other question?

Q: Good morning Rick, good morning Mr. Keshe, good morning everyone. Mr. Keshe, you, you talked a little bit, but, you know, I had, of course, Hassan said it's fake, but this is what I heard, that Elon Musk was talking about, they created AI that every single person can use that program to get funds everyday so you don't have to have jobs that you don't like, or don't have to be poor or don't have food or shelter. And it's 91% is accurate and you can do it. So my question is this, because I know in the past we always talked about how can we bring the plasma science, this technology to the society that we don't create more chaos and mayhem. (1:58). Say, when we talk about the energy field replacing oil, if we suddenly give everybody a generator or they have everything, we have so many people work in oil business, refineries, and so on and on and on. And then they lose job. So for example, in Middle East, so many people like Saudi Arabia, Kuwait, all those countries, people are going to be, we don't want to make people poor.

But then, with the advancement of plasma technology at the moment, it is 100% we know is possible if we create an App. There's one App for food. For example, when I touch the App, I say I want a banana. I feel the banana and I get the energy of it. And I don't have to eat the banana. Or for example, in terms of shelter, the shelter doesn't have, a home doesn't have to have a wall or a roof. Because we know with the plasma field, I can be on the mountain, someplace in anywhere and don't feel the wind, don't feel the cold or don't feel the heat and because I'm protected I have the shelter, it's a field. Just like the field we create that we can grow tomato or wheat in the middle of winter with the snow because we create like the dome. So we can have App for both. So if we have an App for both and people have it, so everything else is going to be resolved. Because when I have my food and shelter I don't need a job. So all the killing is going to stop and everything is going to be done. So why can't we do that?

K- Do what?

Q: Create this App.

K- We talked about these Apps will come, a few months ago. (2:00). But to structure it has taken a long time, and to structure it, come and take maybe a year or two. But there has to be a new approach, than to the App. We don't think about things on the basis of man on this planet. We are a space structure. So if you go back on the headphones and the new Combination Homes Units which we brought out. There is no App in it, there is no way you can App to it. The technology has developed, has gone further. If you're on planet Zeus, there is no Apps and no televisions and no computers that you can App it to feed yourself. But you carry the strength of the field of the human race or planet Earth. Or you see in the creature which is need of energy, you can transfer that to.

This "App business" we already passed by introduction of new technology. New technologies when will be released, has the combination of work. You can tap into it. This is part of the teaching. You don't need an App. You don't have a computer. You're in the middle of a desert. You lost your mobile phone. Sorry, you die. This is the present state of day today. (2:02). If you learn to tap into universal energy, if you learn to tap

into energy centers, which is set up across we call it, Service Centers, you're fed. You have a headache...

Q: Mr. Keshe, I understand this.

K- These are what is the reality.

Q: Mr. Keshe, I understand this, as a Knowledge Seekers, we understand this. But one thing is, like right now at the present moment, there are people in the planet have been displaced or they have certain needs and stuff like this. So this App, it can be a transition for those people.

K- Yes, it can be a transition for those people, but this is what we said months ago. But the development is going to the next step. We showed and we have tested a lot of things in the background and it's getting developed to be tested. We don't set a system. I'm trying not to give too much, but at the same time trying to explain a lot. Just one second, please.

R: This seems to relate to Mark's question in the chat as well. He had the question, "would this product or technology be transferred into an application in the future?" (2:04). So, we seem to be getting an answer to your question there Mark.

Q: Yeah, you see Rick, because you see we understand, Mr. Keshe talk about we using the, because we start to recognize the field and not only we can use the energy of it as a food or traveling or transmutation or teleportation, but because we're not bound to this planet, we can go anywhere we want. But now, there are people that, you know, they don't have this knowledge. I was at the meeting yesterday, last night, it was a lecture, there were 10 doctors there. There was a lecture about implant and new technology in a implant. And then the doctor was from Italy and then describing how the implant can be done. When I was looking at it, all these doctors are so looking at it as such an advanced technology, when I looking at it, I mean I couldn't explain anything, but for me I was just like, I had, I was shivering my bone because all those metal and frame and everything in the mouth with everything. I mean, I feel I was like 200 years ahead of what they're talking about, but even if I want to explain to them what can happen in the future, what it entails, they wouldn't even understand it. So, there are these people, I mean, we have these people, and we have people who are suffering in terms of food and shelter, we have people who are doing crime because they don't have any means of support emotionally or physically. So, this transition can help them.

K- The transition can help, we can do a lot of things, a lot can be done. But, we can do it the old way or we can do it the newly developed. (2:06). I mean, we are not the end, we are not the answer to everything. We are even ourselves a transition, till, I'm sure, other people will come into it, and they do it bigger than this, better than this. But, the new structure of technology, allows us to upgrade in, we can do it by Apps, which will be done in the coming time. But we've gone a step further than that. And there is two ways

to do it. To stick to what we've done, because it works, or to bring the new technology and add to it.

This is what you do. When you come tomorrow online, you bring us your Zoom number in. And then down, once we establish that, we connect to your Soul. That's all that's going to be done. So in the next sessions of Keshe Foundation development, we don't send you a Zoom number. We interact with you in a different way. But you receive much more, whatever information, be it wellness, be it hunger, or whatever, through the new lines of communication. If you are in the desert, you run out of battery, your App is good for nothing. But if you carry the new system, it never runs out of battery. It is connected to everything you need. (2:08).

We try to jump very fast. And I see this even in the past few weeks. It is a struggle for governments to understand the transition can cost a lot of money, can cost a lot of time. But if we don't pass this transition, if we jump the transition to a new level without the transition, we'll gain a lot. And in the next few months, this is part of what we have to convey and put into, especially in October meeting with the ambassadors in London. To show the transition is the... You see, it's very simple.

In America you use the most ?? , oldest system for your Internet. Because the cable was set 30 - 40 years ago, nobody knew these things (will) come out. But you still have to cover those costs. You're still behind Kenya and Africa in all sorts of things, in communication, computers, and the rest of it. Because they didn't have, they didn't spend on these infrastructures. So people financed it for themselves, and the government supported it through.

And we are trying to explain this to the governments, that we have to jump the transition. We have systems we can show you can jump to transition. And it costs nothing for governments. The beauty with this transition to a new science, governments don't like to spend money. But they like to earn money out of the science and technology, (2:10). but have control over it. And this new development gives them all of it.

So do we go to the Apps? We still go through the Zoom. But are we going to spend a lot of money on it, to develop it? Or we already know the next generation here. Cope with it till the next generation of science comes in, and it kicks in, and it's done. It is very much like the oil industry. We sell you the fuel to burn in your car, because if you don't do, it costs a lot of money to do it. Or we come up with the new tricks of electric cars. It's so advantageous to the refineries and to the oil companies. Unbelievable compared to the present cars. But are we going to the electric? In electric cars, which they need to be charged on the wall, or are we going electric cars, which never need to be charged? There's a lot of games played, even with this.

It's the same way we talk about feeding people. A lot of people, if you understand what electric cars means, if the present pattern is kept, it's a gift to the refineries, gifted to the oil companies. To produce electric power at the power stations we use the most crudest oil, cost nothing to refine. (2:12). We don't need to have petrol stations. We don't need to

pay people to sell it. We don't need to transport it, and all sorts of mess. As a refiner, the biggest gift given to, is these electric cars, because we sell the oil of not clean, not clear to be burned into power stations. Governments are happy instead of paying 10 dollars a liter, of let's say a barrel, a gallon. They pay 1 dollar a gallon, but they charge you electricity at the end. It's a win and win for the government, oil companies, the electric cars.

But if you try now to bring the new technologies, which allows you to do 10,000 kilometers for one charge, governments will stop you. If you bring a car which doesn't need charging, there is no way they allow you to come, because they'll lose revenue. All this game you see with electric cars is one of the most profitable businesses for the governments. There is no environmental cleaning, car exhaust. The burning of the fuel in the power stations to produce your electricity is 100 times worse than your cars. Example, look at the ships and the amount of pollution they create. Governments don't care.

But if, as a scientist, you come up with a car which now, Tesla does 600 - 700 per cycle of charging, kilometers, if you bring this one to 10,000 kilometers, which the technology exists today, (2:14). the governments don't allow it to come in. Because they have not planned for the revenue from it to be less, unless they charge you the revenue, which gives you the 10,000, the same as you charge a 700. We are in the same position. Technologies, sciences, which the Keshe Foundation, I'm sure, many, many other scientific organization done, will not be allowed to come into the market so easily, because we shake the "apple cart."

If you took a bottle of the Knee Gans and you sprayed some water on your knee, as Dean says, it's changed his life 90%, 95%. Then what's going to happen to all the operating room? All the other things which they were supposed to, all the doctors we educated to do the knee operation. And all the incomes which brings with it. What about the pharmaceuticals, and the others who are going to look after you after your knee operation. If you spray our water, (it's) done. A life of pain away, no operation done.

The governments don't allow technology. We are now in a position, that we can eradicate a lot of problems health wise on the wellness. But it has to come in the right way. We can feed people. It has to come the right way. (2:16). And if I can tune, if you understand the gravity of what I'm going to state today, if you understand what I'm going to say, you understand how advanced we are.

If I can tune through the headphone to your Soul, to feed you, to change you, do you think we haven't reached a point of not needing the headphone and reach your Soul and feed it. Now you understand. But we have to get the governments to do it. And the best test of it is, let's do it in the space, because there is no food in space. We have to feed our astronauts, we have to feed our space people. Just flip the satellite 180 degrees, you feed the planet directly through the Soul.

It's not that we don't have the technology, it's not that we don't have the knowledge. It's if we release this technology, not if, it's already been released in past week, we have shown what, in past two weeks, we have shown the government, things that you cannot even imagine possible. It does not exist even in the sci-fi movies and in the imagination of the man today. They had to taste it, they had to touch it, they had to feel it, and even that has caused them more headache than where we are today. The leading scientists of a nation, the most powerful men of the nation, have stood in this environment, (2:18). and had to accept the technology is beyond even the knowledge of the man. They had to feel it. And even feeling it, they are baffled in how such a simple technology can create such a mayhem.

For me to feed the man it takes no time. I don't need no satellites or anything ?? But man has to understand it, that in the space can teach himself not to do what he's done on this planet. Most powerful man on this planet Earth are watching their eyes, the baffleness of what is happening around us, in past two weeks. What is next? We have the knowledge, we have the technology. But as I said, the political arena, the financial arena, the power point of arena of this planet, in past two weeks has changed. And, gradually will change a lot of things.

But we're in the space technology. Governments have to find a way that it becomes a human technology on Earth. I can cover myself with saying this is what we do in the space. But governments have to turn it for nationals and other governments to accept it. (2:20). We're so advanced in technology, it's beyond your imagination. And we don't talk we are, we have shown it.

Q: Mr. Keshe, I am thinking about all this, bring me back to another question I have is. You see, I started to teach the from beginning of the Knowledge Seeker number one. And we are right in the beginning. So when I listen to those, I wasn't a student there at that time. You were saying, "with the movement of my pen, I can make everything under the ?? surface talk. All your war mongering, all the killing, ?? everything."

<< audio breaks >>

K- We can't hear you.

Q: Can you hear me now?

K- Yeah.

Q: Okay, so my question is, why we so keen on attaching ourselves to the government and the government...

K- Let me, let me, let me tell you one thing Azarjan. We have moved our "pen." In past few days, we have released a "pen of knowledge" to the leaders of the world. Not by talk, by delivering of the technology and showing it. And, it takes time to go across to the other world leaders, (2:22). and go across to the understanding of the others, and the nationals, and then to the back of the African villages, and to the palaces of the kings. It's not that we haven't, we, as you say, you said, "I move my pen." My pen has moved in

past few days. And there has been Knowledge Seekers witness to it. And the same with the world leaders. The Knowledge Seekers stood "shoulder to shoulder" with some of the most powerful man on this planet, to see the technology and its beauty.

And now it's in the hand of the leaders to understand it themselves. And then it takes time to think in how to implement it. And how to understand that the technology is not for the man on Earth, but it's for the "man in the space." When even we send you to another part of universe, you're still connected to Earth through the line of the fields of your birth. We still can feed you. Not food, and apple, and orange, but through the fields that you need to survive the span of the universe life.

We have shown one of the most powerful technologies ever existed to the world leaders in past few days. (2:24). And they are puzzled how this technology, like the cap you saw, the bottle you saw in simplicity, can change the course. We will use the London conference with the world ambassadors to bring in a massive change in the course of humanity. It's not just a simple presentation.

Q: Mr. Keshe, I have one last question. Say you left this planet and then, and maybe I die or leave this planet too, and then and if I bump into you, do I know you? Do I know, that I know you?

K- All your dream is how to bump into me somewhere. As a Soul we don't bump, we are aware of each other.

Q: We are aware of each other, but do I know, that I knew you on this planet?

K- Of course. Of course.

Q: Thank you Mr. Keshe.

K- Just be careful where you bump to, and who you bump in the Soul level. It could be much stronger fields and it can, you can end up in the other part of the Universe, ?? you know the bump will be ?? .

Q: Okay, thank you.

K- Thank you very much.

Keshe Foundation in structure will stay the same. But in operation and delivery of the technology, in the coming months will change drastically. (2:26). And one of the reasons we are moving totally out of Austria, is that we have moved into a new position with our collaborators which, through the strength of power, power of the political, and the financial, and military, and defense and the space, gives us the opportunity to open new doors and allows the nations to become more powerful, to be more peaceful. The gun policies of United States to be more, to sell more, to be more powerful in the arms. We have changed it to be much stronger in technology and sciences. That makes the arms of the United States obsolete.

The Iranian military forces have shown the power of this technology in defense, in January of 2020, in Iraq. Not to be aggressive, but to be defensive. To be in a way, to defend what was planned to deliver in a massive way. And it literally decentralized all the plans which Trump and his son-in-law planned in Tel Aviv for Iran. And with it brought to show whatever was sold to Middle East, to the armed ?? militia countries as a defense against Iran, could not even defend the manufacturers and producers of defense, because ?? they couldn't defend themselves ??

Now we are entering the next phase, where with technology, we make everything obsolete of the past, in so many ways. Not only defense, space, not only space, the food, (2:28). the energy transfer, the health transfer. The same machine can feed billions of men on this planet. One machine. The same as the "Soul of the Creator" fed the whole universe.

So we have the knowledge on both sides. And now we have contemplated and we have come to an agreement with one of the most powerful nations on this planet, to bring that cycle in. But they need themselves to understand in a slow pace what is coming in. The "gun policy" to sell, to be, to create fear will be replaced with knowledge and technology, which brings comfort and peace and equality, not only on this planet. Then it goes back to the time when everything's peaceful, man will progress in knowledge and technology in a much, much more rapid way. That "heaven" which was promised has arrived. And we didn't need to do much, we just had to show the power of the technology, in its peacefulness and its beauty. And we have shown. It's now just getting slowly, next few months and years.

The rest of the world leaders on the same ?? ship as we call it, and ?? same soul. Making more aircraft carriers, making more nuclear weapons, making more weapons of mass destruction, has joined the, what I call, the time of the "bows and arrows" of the knowledge of today. (2:30). If you remember, when you go around Europe, and most of the places around the world, they used to dig trenches (and moats) around the castle, that no one can cross the water, and they could protect the castle. Till the first man came, first was the arrows, and then when a cannon came, and then when the planes came, these castles were nothing, became museum. The present nuclear war mongering and the systems, now has become those castles with all the, what we call, waters around them, obsolete, because you could cross it, you could bridge it. Now we can bridge that point.

Nuclear weapons have become obsolete, with what we have shown to the world, it is in past 7-10 days. All these aircraft carriers are good, for children to have holiday on and play with, on it. And it's for governments to start this ?? . And it's for governments to understand it. We've become very, very, what I call, outspoken about this. Because now we have started delivering technologies to a nation, to world leaders. That with it, they can see the changes they can bring in. Humanity is fed up of killing. Humanity is fed up of all this mess we created, as citizens. It is just a few people would like to be the leaders who create all the mess.

And with this new cycle, we take that out of their hand. (2:32). And in a way, we give it to the STM. Most of the world leaders suffer from all sorts of cancers, diseases, and they are like what we call, "Hollywood actors." They're pumped up, they're 80 years old, they make them up when they look 40, because 40 years ago they played in Western movie, which was very popular. People won't recognize their face compared to 40 years ago. It's the same with the world leaders. And now, they do anything to stay more in power, and be called, whatever. And with this technology, it does not exist anymore. We all become equal citizens and comfortable citizens.

But it takes time. And because the knowledge is transferred to scientists of a nation, will not be shelved. And in the peace conference of the world ambassadors in October in London, we will bring the shocking news and technologies, which none of you could imagine existed. We'll see. it's time to deliver the technologies, not to a few, but to all, but at the same time.

Any other question?

Q: Do we have so called, (2:34). "critical mass" in plasma technology like in nuclear field?

K- What do you mean by that?

R: Well I guess he's saying that...

K- We have "critical energy," ?? it's part of the... We have critical energies. But not critical mass.

R: Right. The critical mass in nuclear, as you know as an engineer, is the sort of a break even point where the...

K- I know nothing about it.

R: .. Things run away or whatever. But in plasma technology it's different. So, could you just explain that a little bit more, what you just said about that?

K- Critical mass, or whatever you call it, and when it runs away, we call it, "China Syndrome" in nuclear industry. Literally what we call, Fukushima, it was known as China Syndrome. In the energy, we don't have a critical point. In the energy of the plasma, everything finds balance. And if it reaches a point of not being holding the fields together, we reach a point of sharing and splitting. We call it, in a way, "fission."

So, critical mass to run away and create mayhem, does not exist in the world of plasma. (2:36). What we call, ?? "outer surface tension of the fields," cannot hold on with the inner gravitational field forces. Certain amount of gravitational field forces, take part in separation according to their strength, but they still carry the ?? outer strength level surface with them, which means they cannot enter each other.

In nuclear industry, as we know "China Syndrome," critical mass which, and then you go into overloading the energy, then the mass, going to China Syndrome is, it cannot happen

in a plasma technology, impossibilities. And I know nothing about nuclear to start with, so it's much easy to understand the energy.

Any other question?

Q: .. Okay, hello Mr. Keshe, hello everybody.

K- Long time we haven't heard from you Mr. Mosfeq.

Q: Thank you. You just mentioned in response, what you mentioned in response to Azar's question, it kind of prompted me, I didn't want to ask this, but anyway I'll ask it and you may choose to comment on it. In the last few meetings in elevations of the children and the... those who are, you know, (2:38). abusers of the children. I participated in those meetings intentionally without any devices. I did not feel any difference compared to whether when I connected with the device. Of course, I didn't hear the actual voice instructions, but I felt things, and it was somewhat clear, I may not be perfect in it, but it did, something came through. And, would you like to comment a little bit on it? Perhaps it's my ?? descent enchantment with the...

K- Tell me how you connected?

Q: Directly through my Soul.

K- How did you, how did you connect?

Q: Essentially what I did is...

K- Yeah, but I mean, you didn't come through the Zoom?

Q: No, I didn't come through the Zoom. I just, through my Soul. I essentially tried to recreate, you know, there is a sensation one feels, once the connection happens. This is how I have been doing it. So I essentially lowered the field of the blood flow, and I feel something different when it happens, and then I connected with the system. And I feel certain something some other feelings and this is how I connected. It was very distinct sensation and, anyway so this is how I did it. And in any case um yeah, I'm not you know, I like this because it seemed to work. I mean, maybe it may not have been perfect, but it did. I mean, at least to me. And I just wanted to hear your comment on it. As I said, you know, I have enough of these digital computers. (2:40). But anyway.

K- It's not... If you have managed to link up to that level, you don't need it. The Martians and the people on planet Zeus receive the information and the knowledge the same as you do with the headphones and your telephones. There is no need for what we recently brought up as computers and communication systems we are aware of today.

If you have reached that level of maturity in the level of the Soul, you can quite easily bypass our, or even the systems, and reach the Soul of the abusers. There's no exclusivity.

Q: This is something else, in addition to what I just asked you. And I have tried that as well. And, and there is a feedback I get, when I do it. And this...

K- Can I ask you something? ...

Q: Yes.

K- Did you reach our system or did you reach what was the feeling? You reached our system?

Q: First, I mean I've done two experiments. One is...

K- You felt that you were in communication with the system that...

Q: Yes, that's the first one I did. And then I did the second one, which is whether I can do it directly. And actually I came in contact with a specific Soul. (2:42). When I was doing it for the children, and that's your son. You know what I mean. So it is something definite that comes through for me. I mean, I maybe there might be some errors here and there. And maybe I may get distracted in things at times. But things do come through and that's my feeling of course. It's a feeling and I don't know it beyond that I can .. it's difficult to talk about these things. But I'm just saying what my experience has been.

K- Yeah, but you don't... this is what I was saying earlier on. You do not need the system, but the system is a tool for you to know what to do. And as we go deeper and deeper in teachings, many of the teachings will become a silent time, than the voice time. Very much the way you have it during the sessions. During the sessions there is no talk. I mean if we instruct something we want to do, yes, but in general there is no, nobody talks except you listen, you hear, you receive the energy from a system, which is set in a specific way...

R: Even the talk is very minimal when you do that and most of the verbal that we hear is just the translation of that initial sentence or two that you say, (2:44). and it has to be translated into several languages and that takes time otherwise it's quiet time. And it's very, very bizarre, because you're using Zoom which is known as for social media, for videos, audio, visual and so on. And, we tune in to Zoom with no visual and no audio basically, to be quiet. And, but yet the microphone has to remain on. So, it's a very unique situation and forces everyone to go into a particular position that they don't normally do when we're on social media. Social media is normally about talking and interacting and all of that "busyness," with our busy brain and so many things to think about and do as humans. But then in this, in this program it's a different situation. Everyone is quiet, but yet together. It's very, it's a beautiful approach and I thank you Mr. Keshe for coming up with that. And it's, it's great.

K- It's something which we, in a way, allow the expansion of the Soul. And this is what it is, when you expand your Soul. Once you learn to link, you don't need the intermediaries. And the more you link, the more you learn, the more access you receive. And this is the whole object of these teachings. (2:46). And in the future, many of you will, will do that automatically. It's just I have to show you how to get to the uncle's house. And once you learn the way, you go to the uncle's house, you don't need me to show you.

Any other question?

Q: ... Because recently, a very famous music star had suicide because of her depression. So our Chinese team has somebody asking, what's the reason to cause depression, and how to handle it?

K- Many reasons for depression. Many, many, many, many reasons for depression. And 99% of it, we bring it on ourselves. It's that we cannot achieve. This expectation could be communication, could be material, could be anything that we cannot reach. And we see ourselves as a failure, and man does not like failure. (2:48). And depression ...

When you speak for like a musician, a singer, we've seen this in very big numbers compared to in past 10 years, compared to before. The musicians expect to sell 100 million, but they don't sell, they sell 50 million. They don't look that they reached 50 million. But on the other hand, they see themselves as a failure. But their social life is not what we see outside.

Depression has many reasons, but primarily it's a change in the level of certain fields, which does not reach. Our team of doctors work on this quite a lot in the past recent months. But with the new technologies even what we use now, it's become obsolete. We can find the strength of the fields of the emotion of depression and feel it, that it become the strength.

But generally, depression comes from not receiving what you're expecting and not achieving what you wanted, and seeing yourself as a failure, and then it leads up one to another. Not being satisfied with, with what we call, (2:50). with life in the dimension of emotion. Which triggers by the physicality. It could be a word, which we like. Not having, it usually comes from shortage or loss << audio breaks >>.

It's very easy to process with the new technology. Very easy. And you have to feel what it is and how you can reach to add to the strength of it.

Any other question?

Q: ... Good morning, thank you very much. I would like to make this question to Professor Keshe. How to make a water Gans for world peace? << audio breaks >>. How to make a water Gans for world peace ?? spray to president Biden and Pentagon to gain peace with Russia? (2:52). Thank you.

R: You mean spray, not spry, I think.

Q: Spray, right.

K- Can you repeat Rick?

R: Well he put the question in the chat here, "how to do a water Gans for world peace to spray to president Biden to gain peace?" How do we spray President Biden and for all of the peace on the planet? Maybe, you know...

K- The thing is, he's just a "puppet," as we call it. You have to spray it over those who are the instigator of it. The people who make money out of war. You can wash it with a Gans water of peace ... It's impossibilities, because these people are just a voice box, especially in United States, for the people who pay them to be there. You got to reach the Soul of these people, not the water to wash them. See he's Italian, he still thinks of baptizing. And these people cannot, (2:54). or it is of the Christian mentality, we cannot, these people have to be elevated through the Soul.

Any other question?

K- ... Can we finish in about 15 minutes please?

R: Sure.

Q: Just to give you a proposal, to make a proposal, regarding our television, could be in a pod cast manner? What do you think? Because I am always thinking about our project. And I feel not so well because we didn't achieve yet to do this. And I am just thinking to solutions. Thank you. It's easier way to teach...

K- I don't understand what solution you're trying to find for what?

Q: For television. Television by pod cast.

K- The television .. and the rest of it, it does not work if they don't allow you to spread the knowledge. Or with the pod cast. This is one of the biggest problems which needs to be solved in different ways. I think in next few months you will see Keshe Foundation becomes fashionable. And all televisions and all the stations would like to speak about the technology in one way or another. We are reaching that point. We'll become our scientific work, (2:56). our peace work, our Soul work, will become very fashionable. And that's the time when we should ?? not lose track. And we need to reach masses and not a few. You got to remember, television and pod cast nowadays don't carry that much weight, not many people spend watching. The only majority of the old people watch television, television has become a thing of the past. The young generation does not have much time to sit in front of the TV, unless it's a beautiful football game, or another match or something.

The science of new communication has changed. And we have to reach those through the new sciences, new ways of communication. And it needs to be done by governments, that they have to, they can stand the, what you call, the abuses of the power of organizations.

Any other question?

We'll close in... after this question we can... ??

Q: Mr. Keshe, it's Dean here, may I ask a quick question Mr. Keshe?

K- It's been three hours now. Yes, yes, go ahead.

Q: Thank you Mr. Keshe. So you'd mentioned something very, very important just then. How do we reach the Soul of somebody to elevate them, who is creating a condition that's affecting many others, that we do not know who the Soul is, that's doing this. How would we reach that Soul, to be able to bring peace to their emotions?

K- Reach the Soul of the others, that they know how to reach. Find a friend who's got the telephone number, but in the Soul level. (2:58).

Q: Okay, thank you Mr. Keshe.

K- Many of you, many of you reached the elevation of Soul of the world leaders. And it has worked, you will see it.

Q: You just said that the world leaders are not the ones, it's there's others behind this. So, it's reaching the Soul of the... the seed...

K- You reach them, they got to... listen. If you reach them, if you reach the Soul of the world leaders, they already got to become world leaders by reaching, or being in reach of those Souls who reached them, their abusers, or the power players ?? If you understand what I'm talking about.

Q: I think partly Mr. Keshe, thank you.

K- Through the Soul ,we brought them to that point. It's the easiest way.

Thank you very much for today. I have to leave. It's over 3 hours. And we try to be very, very, what you call, upfront and open about the things. As usual, Keshe Foundation has been and we keep to that manner. But we don't expect, but we were working on a massive changes for the Keshe Foundation. Those who are close to us and work with us are aware of it, and we will not stop till that point reaches. And that needs a lot of support from a lot of you. You supported us financially and we worked very hard to bring things in past 10 years, 15 years, you've been there with us. Now we need the support of the Soul because then we have reached what we came here for, to bring the change. (3:00). And in past couple of weeks we see huge hope for that change to come. And we hope our hope becomes reality in a very short time. Thank you very much for today. Thank you very much Rick.

R: One last question Mr. Keshe. Do the sessions tomorrow start at, there's people are asking, do the sessions tomorrow start at 12 noon like previous?

K- At 12 ...

R: Sorry, you broke up there. Sorry, we can't hear you Mr. Keshe. He's gone totally. I think he was about to say 12 noon. And he's just cut out, I think things are happening there. Okay, I believe that's what it is.

494 KSW July 13, 2023

END

You can use either headphones or ear buds that go in the ear.

Dean talks for some time while Mr. Keshe takes a call. He gives a positive testimonial about the Knee Gans.

(What spoke about has to do with the Wellness part of the KF. We are not in the business of health. Wellness means those things that brings comfort to our lives. All these materials and Gans's have been tested and certified in China. Gans's are natural products made in a specific way for these kind of things. We are not in the health business. We make things for wellness and what makes you feel better. As Dean said, he felt the emotion in his body before it reached the physical condition. People use these things is a lot of different ways). (KF is entering a totally new environment of work. In the recent past we have tested new dimensions in the process of converting fields into energies and into matters).

(In the past few days, we were able to physically see the helix structure of the amino acid (AA) in a very specific way. I set it up to see it that way. And when it appeared that way, it was amazing. It could be seen in the "visual structure." In the next 3 years this will bring in new dimensions as new materials and products).

(We have merged the KF with one of the strongest nations on this planet as a collaborator. We are setting the course to bring huge changes. As one said very recently, "the giants of power and science have finally met." And this will bring the change. The trap setup by the Europeans to keep KF silent has failed drastically. Now one of the most powerful nations on this planet has joined force with KF to bring out the technology (T) with its utmost power to serve humanity. Knowledge in exchange for peace has taken shape. This bottle of "Knee Gans" is a small bottle compared to what is to come. They are deeply involved, but we have left it to the government to announce the extent of the collaboration between our two organizations).

(The change will be fundamental as technologies like this, which are so simple can change people's life. Like what Dean said, he couldn't go up the stairs, and after using the Knee Gans he can. His life has been changed. The reason I released this wellness product was that I myself got injured badly last year in a hiking accident. The doctors told me that I would have to replace my kneecap. The cartilage was totally gone. The MRI showed that the cartilage in both knees had been damaged beyond repair and they would need to operate. I told the doctors I know how to repair it, so I won't be needing the surgery. They asked me to come back when I have done it. It was very painful and I couldn't go up the stairs).

(Then later on after I processed it, I was at a location where the power had been cut and to get out of the building I would have to go down 8 flights of stairs with 15 steps each. I did it without any pain. So we see the change. My cartilage didn't need to be replaced, because it has been fully restored. I used what is in that bottle of "Knee Gans." This knowledge has to be shared).

(Like everything else, this is how I shared my T and knowledge with all of you. Many of you have tested it. Knowledge should be at the reach of every man at the point of demand. It's not a medicine, it conditions the environment in a ?? plaster of the fields. This T creates conditions. It's not healing, nor is it medicine).

(In recent days we have tested in a specific way certain field interactions, that are part of a very large scale test. It will come to flourish in the next few months and you will see it. There will be another release of a range of technological scientific materials which can help us in our daily lives, like restoration of the energies in the body in a very specific way. It will change a lot of things for many of us).

(We foresee maybe in the next 1 to 2 years, through collaboration with our new partner to enter into feeding of whole nations, and providing Wellness care. For example, today you send food packages to disaster and famine areas. I foresee in the next 5 years our partner will market new T that can feed a whole nation. Technologies will emerge where we become responsible for feeding a nation. It has been tested and the T is available. This new T is not farming. The problems of third world nations in Africa will be resolved. The feeding will be delivered through plasmatic conditions).

(There will be a new definition in the world of plasma. Actually, it's not something new, it's more a matter of how we come to an agreement about it. We promoted this on the KF website a few months ago, that you can join into a food contract where we feed you through a KF Apps. It would cost so much per family per year. Now your Wellness will be covered by this too. It's a new structure that's coming into the KF and it's made possible through the collaboration with the governments we work with and it will become nationwide. This technology is available now. Say for example, a country like France wanted to feed nation like Algeria for say 2,000 Euros per head for a whole year, irrespective of where they lived in Algeria, they can do it with our T).

(The reason we are pushing this forward is because the T is jumping ahead in a very rapid way. It's growing so rapidly, that now it's possible in the next 5 years to feed a whole nation through the plasma. We don't need to export rice and grain, nor control the Food Policy. We'll come to an agreement based on a percentage of the GDP a nation produces. Perhaps the cost to the nation will be only 2% to 3% of its GDP to feed the whole nation. (This will be tied up with the nation that we have joined together with to make it work)).

(This structure will solve a lot of problems that poverty brings like diseases and malnourishment of children. Now we can handle them. We have started releasing a lot of new breakthrough knowledge's and technologies, and we'll carry on releasing more over the coming months and years with our new collaborators. We have signed agreements with this nation).

(The KF has entered into full collaboration with one of the most powerful nations, and it's in writing and not just talk. We are in the process of allowing many positions to be (opened up). The KF Wellness Centers will be spread across this planet in a very specific

way. The first Wellness Center has allocated doctors to work within the structure, but it has no operation within the KF. Soon we'll announce the first KF Wellness Center to be setup and to start running. But with the mobile remote system you don't need to go to the Wellness Centers, you can receive processing anywhere in the world. We see more Wellness Centers opening in Arizona and Uruguay. It will be in collaboration with our partner. Germany, Arizona, and Uruguay will become part of our best structure in the world by Christmas. Uruguay will serve the southern hemisphere of the American continent).

(We need to understand that the separation will come in a very big way. We will not sell our systems, but we'll install them with their doctors to operate them. Because we lost a lot of money, it brought us to an understanding, and a decision to open up to new collaborations. Those of you who invested with us, most of you have received some of your money back already. And others will receive it back in the coming due course of the next few months. (This experience brought us to the point of collaborating with a government. Now I always say, thank God we lost the funds, because now we don't have to go through these other things, we can leave it to the government to handle and we can stick to our research).

(We have signed agreements with one of the most powerful and richest nations on this planet. The leadership of this nation has understood our work and they have backed us. They have also tested us and the T, and we'll let them announce publicly about the new emerging science of their nation as being from the KF technology. It's sad that so much work was done in Europe, (but they decided not to go with KF). But this work helped us build up to where we are now. We have entered a new era and technologies like ours will be available to every man, more or less, on this planet).

(Every product will carry the name of Keshe Foundation on it. It will not be something hidden behind somebody else. This will be true from gas to oil production, for the satellite space travel, food, agriculture, and everything we do will carry the Keshe Foundation name on it. This is how this nation is respecting the technology. It's a T developed by our Knowledge Seekers and we'll see it come up and be announced into the structure in due course. But the KF team has not stopped working on this basis for past months).

Q: (A KS talked a lot about something, you can listen to the original. Basically it's about why the KF cannot create the App for all these things during the transition time).

K- (A few months ago we discussed about these Apps coming in. But to structure it to come in will take another a year or two. There is another approach other than the App. We don't think about things on the basis of only for the man on this planet. We are a space organization. The new Combination Homes Head Units which we brought out doesn't have an App for it. There is no way you can put an App for it. The technology has developed further. If you're on planet Zeus, there are no Apps, televisions, or computers that you can bring up an App to feed yourself. But you already carry the strength of the

field of the human race, and the planet Earth. (?? Or you can exchange energy with the creatures from where you are at)).

(With the introduction of new technology we have already went past this "App business." When the new technologies will be released they'll have the combined works that you can tap into. This is part of the teaching. You won't need an App. As you won't have a computer in the middle of a desert, or if you have lost your mobile phone. Then in the present state of today you would die. But if you learn to tap into the Universal Energy, then you can tap into the energy centers, which will be like Service Centers where you can connect to and be fed. Or if you have a headache you can receive fields for that too). These things are the reality.

Q: (This App can be a transition for people who are in need right now).

K- (Yes, it can be a transition for people, but the development is already going to the next step. We showed and have tested a lot of things in the background that are getting developed to be tested. I'm trying not to give away too much, but at the same time trying to explain a lot to you. Basically we are trying to bring the T to a further development and then when we release it, it will be more effective).

(When you come for tomorrow's session you need to connect through the Zoom number. But once we establish connection to your Soul, then we don't need that, we won't send you a Zoom number. We'll interact with you in a different way. But in this way you'll receive much more information, be it wellness, hunger, or whatever. These will all be sent through the new lines of communication. If you are in the desert and your mobile phone battery runs out, then your App will be good for nothing. But if you carry the new system it never runs out of battery and it's connected to everything you need).

(We'll try to jump very fast over the developing T. In the past few weeks we've seen the governments struggling to understand that the transition will cost a lot of money and time. But if we by-pass this transition altogether and jump to a new level, then we don't need the transition and we'll gain a lot. This is part of what we'll have to convey over the next few months and especially in the October meeting with the ambassadors in London).

(We don't want to do like what they are doing in America where they hold back advancement in T so that they can collect their profits. They use the oldest system for your Internet, because the cable was set 30 to 40 years ago and nobody planned for the advances in T. They still have to cover those costs. In comparison with Kenya and other developing countries that makes the US behind in T like communications, computers, and the rest of it. Those countries didn't have to spend on the infrastructures, so they jumped right into the more advanced T. In those countries people finance it for themselves, and also received support from the government to see it through).

(We are trying to explain this to the governments, that we have to jump the transition. And we already have systems that can do that, so it will cost nothing for the governments. And we know the governments don't like to spend money. Instead, they like to earn

money out of the new science and technology, and have control over it. And this new development gives them all of it).

(So what do we do? Do we take the time to develop the Apps and still go through the Zoom? This will cost a lot of money to develop it. Or do we jump ahead to the next generation that is already developed and here to implement. Otherwise, we have to cope with waiting until the next generation of science comes in. This is very much like the situation in the oil industry. They sell you the fuel to burn in your cars, but if you don't keep burning it costs them a lot of money. Now they have come up with the new tricks of the electric cars. This is so advantageous to the refineries and oil companies. It's unbelievably profitable compared to the present cars. It's because they will have to setup power plants, which will use unrefined oil. They use the worst crude oil that costs nothing to refine. It's worse on the environment than the present refined oil which has been cleaned up. But the governments don't care about that, because they get a lot of money from it).

(If we go with electric cars that means they have to be charged from the Grid, and that means more power stations, and that earns more revenue for the governments. There are a lot of games being played here. If you understand what it means to have electric cars, then you see it's a gift to the oil companies and refineries. The governments will charge you either for the oil or the electricity at the end. It's a win and win for the governments, oil companies, and the electric car manufacturers).

(Now if you try now to bring in new technologies where you get 10,000 kilometers on a single charge the governments will stop you. Or if you bring in a car that doesn't need charging, then they will really stop you, because they'll lose revenue. This electric car game is one of the most profitable businesses for the governments. They don't have to clean the car exhaust from the environment, because there are no fumes with electric cars. All the worst crude oil will be burnt at the power stations to produce the electricity, and this is 100 times worse than the pollution coming out of your cars right now. For example, look at the shipping industry and the amount of pollution they create. (I think he means the ships on the sea don't use refined oil ??) Governments don't care and nobody talks about it) .

(Governments won't allow new technologies to come in because they have planned their revenues on the present T. Unless they find a way to charge you for using the new T. This is the situation we are in with the KF. It's not so easy to allow us into the market, because we shake the "apple cart.")

(Another example is the Knee Gans. As Dean said, he sprayed some water on his knees and it was 90% better and it changed his life. Then what's going to happen to all the operating rooms? And you have all the doctors educated to do the knee operation, and all the incomes which comes with it. Then there are pharmaceuticals and the others who look after the patients. If we spray our Gans water, then you are done with it in one go, and a life of pain is gone and no operations were done).

(The governments don't allow new technologies to come in. We are now in a position that we can eradicate a lot of problems in the Wellness side. But it has to come in the right way. In the same way we can feed people, but again it has to come in the right way. If you understand what I have been talking about, then you understand how advanced we are).

(If through your headphones we can tune into your Soul and feed you, or change you, then don't you think we have reached a point of not needing the headphones. That we can reach your Soul and feed it. Now you understand. But we have to get the governments to do it. And the best place to test it is in Space, because there is no food in space and we have to feed our astronauts and space people. Then all we have to do is to just flip the satellites 180 degrees, and we can feed the planet directly through the Soul).

(We have the T and the knowledge. In fact we have shown it in the past two weeks to a government. We showed them things you cannot even imagine possible. These things don't even exist in the sci-fi movies, nor are they in the imagination of the man of today. We had to give them a taste of it, so they could touch and feel it, even though it is causing them more headaches, because now they have to decide what to do with it. The nations most powerful men and leading scientists have stood in this environment, and they have had to accept that the technology is beyond even the knowledge of man. They are baffled by what they felt and how such a simple technology can create such a mayhem).

(I don't need satellites or anything else and I can feed the man in no time at all. But man has to understand it, so that when he is in Space he (will have learned) not to do what he's done on this planet. The most powerful men on Earth were watching (the demonstration) and their eyes showed they were baffled by what was happening around them. This was done in the past two weeks. What's next? We have the knowledge and the technology. This demonstration has changed the political and financial arenas, and it has change the point of power and how it plays out on this planet. Gradually it will change a lot of things).

But we're in space technology. It's the governments that have to find a way for it to become a human technology on Earth. I can cover myself by saying this is what we do in Space. (But governments will have to convert it for their nationals and other governments to accept it. Our technology is so advanced, it's beyond imagination. And it's not just talk, we have shown it).

Q: (In one of the beginning KSW you said, "with the movement of my pen, I can make everything under the ?? surface talk. All your war mongering, all the killing, ?? everything.") < break in audio >

Q: Why are we so keen on attaching ourselves to the governments?

K- (In the past few days we have moved our "pen", we have released a "pen of knowledge" to the leaders of the world. Not by talk, but by delivering of the technology and showing it. It will take time to get across to the other world leaders, and for the nationals to understand, and then to reach back into the villages of Africa, and to the

palaces of the kings. When you mentioned that, "if I move my pen." My pen has moved in the past few days and Knowledge Seekers were there to witness it along with the world leaders. The KS stood "shoulder to shoulder" with some of the most powerful man on this planet to see the technology and its beauty).

(Now it's in the hands of the leaders and they have to understand it themselves. And then it takes time for them to think about how to implement it. They have to understand that the technology is not for the man on Earth, but it's for the man who travels in Space. Even when we send you to another part of the U, you're still connected to Earth through the line of the fields of your birth. We still can feed you through the fields so that you can survive in the U, but not with food, apples and oranges).

We have shown one of the most powerful technologies that ever existed to the world leaders in the past few days. (They are puzzled on how this technology, like the little bottle you just saw for the Knee Gans, in its simplicity, can change the course of humanity. We will use the London conference with the world ambassadors to bring in massive changes in the course of humanity. It's not just a simple presentation).

Q: (Say for example if you left this planet, and then I died and left), and I "bump into you" somewhere in the U, do I know you? Do I know, that I know you?

K- (How is it that you see me in your dreams? As a Soul we don't "bump into," we are aware of each other).

Q: We are aware of each other, but do I know, that I knew you on this planet?

K- Of course. Of course.

(Just be careful where and who you bump into in level of the Soul. It could be of much stronger fields, and you could end up in the other part of the U).

(The KF structure will stay the same, but in operation and delivery of the technology, it will drastically change in the coming months. One of the reasons we are moving totally out of Austria, is because we have moved into a new position with our collaborators. Through the strength of the power of their political, financial, military, and Defense and Space position will give us the opportunity to open new doors, and it will allow that nation to become more powerful, and to be more peaceful. The "Gun Policies" of the United States, to sell more weapons and to be more powerful in arms has changed. And now to be stronger, is to be more advanced in technology and the knowledge of sciences. This will make weapons of the United States obsolete).

The Iranian military forces have already shown the power of this technology in Defense in Iraq, in January of 2020. (It was a defensive action and not one of aggression. They were defending themselves against a massive operation about to be delivered against Iran. In a way, it literally decentralized all the plans Trump and his son-in-law in Tel Aviv were "cooking up" for Iran. It also showed that all the weapons being sold to the Middle East by these countries to defend themselves against Iran were useless. Because the producers and manufacturers of these weapons could not defend themselves).

(We are entering the next phase where with the new technology all the old technology becomes obsolete not only for Defense, but also Space, food, energy transfer, health transfer and the others. This same machine can also feed billions of men on this planet. One machine can feed everybody. It works the same as the "Soul of the Creator," who feeds the whole universe).

(We have the knowledge to cover everything, and have contemplated and come to an agreement with one of the most powerful nations on this planet, to bring the new cycle in. But in a slow pace, they need to understand themselves what is coming in. The "Gun Policy" to sell and be powerful and to create fear in the others, will be replaced with knowledge and technology, which will bring peace, comfort, and equality, and not only on this planet. When we reach that point when everything's peaceful, then man will progress in knowledge and technology in a much more rapid way. The "heaven" which was promised has arrived. We didn't need to do much, we only had to show the power of the technology, in its beauty and peacefulness. We have shown it and now it's getting slowly (understood over) the next few months and years).

(We have to get the rest of the world leaders on "board the same ship," and become part of the same soul. Because making more aircraft carriers, nuclear weapons, and "weapons of mass destruction," has become a "thing of the past," in comparison to the knowledge we have today. The war technologies have progressed over time. In the beginning they used to dig moats around their castles and fill them with water so nobody could cross over. Then the arrows came, and canon, and airplanes, then these castles were no longer able to defend themselves and became museums. The present nuclear war mongering and systems have become like these castles, obsolete. (Now even nuclear weapons have become obsolete)).

(With what we have shown to the world in the past 10 days have made nuclear weapons obsolete. Now all these aircraft carriers will have to be used for children to play on and have holiday's on. It's for governments to understand and start this process rolling. We've been very outspoken about it, because now we have started delivering technologies to a nation and a world leader. They themselves can see the changes it can bring. As humanity is fed up with all the killing and the mess that has been created. In a way, it is just a few people who would like to be the leaders, who have created all this mess).

(By bringing in the new cycle we'll we take this power out of their hands. And in a way, we'll give it to the STM. As you know most of the world leaders suffer from all sorts of cancers and diseases. They are like the 80 year old "Hollywood actors," that they "makeup" so they look 40, because 40 years ago they played in Western movies, which was very popular. Otherwise, today the people won't recognize their face compared to what it was 40 years ago. It's the same with the world leaders. And now they will do anything to stay in power, and be called, "whatever." With the new T these kinds of things won't exist anymore. We will all become equal and comfortable citizens).

(It takes time. But this time because the knowledge is being transferred to the scientists of a nation, it will not be "shelved." In the October 28th peace conference for world

ambassadors in London, we will bring the shocking news and technologies, which none of you could ever have imagined existed. We'll see what happens. It's time to deliver the technologies, not to a few, but to all, and at the same time).

Q: Does what we call "critical mass" in the nuclear field, exist in plasma technology?

R: The critical mass in nuclear is when it breaks even and the reaction runs out of control.

K- I know nothing about nuclear (jokingly).

(Critical mass is when the nuclear reaction runs away, or what we call, "China Syndrome" in the nuclear industry. It's also what happened in Fukushima. In (plasma) energy we don't have a critical point. In the energy of the plasma, everything finds its balance. But if it reaches a point of not being hold the fields together, then it shares its fields or splits. In a way, we can call it "fission.")

(Critical Mass, or for the reaction to "run away" and create mayhem, does not exist in the world of plasma. We have something called, "outer surface tension of the fields," that maybe they cannot hold on to, with their inner gravitational field forces. A certain amount of gravitational field forces will separate according to their strength, but they will still carry their outer surface strength. This means they cannot enter each other. (The plasmas cannot penetrate each other). (It's impossible for "critical mass" to happen in plasma T. As I know nothing about nuclear to start with, so it's much easy to understand the plasma energy).

Q: (A KS tells about his experience to connect to the system during the session of elevating the children who were abused and their abusers. When he connected without any devices like computers, and just through his Soul he didn't feel any difference than when he connected with devices. Of course, he didn't hear the actual voice instructions, but he felt things, and something came through. He asked Mr. Keshe to comment on it.

K- Tell me how you connected?

Q: (Directly through my Soul. No, I didn't come through the Zoom. I came just through my Soul. I essentially tried to recreate the sensation of what I felt when I connected before. I essentially lowered the field of the blood flow, and I felt something different when I actually connect to the system. And I feel certain other feelings and this is how I know I connected. It seemed to work. I just wanted to hear your comment on it).

K- (If you managed to link up to the system on that level, then you don't need anything else. The Martians and the people on planet Zeus receive the information and knowledge the same as you do, but they don't have your headphones and telephones. There is no need for the computers and communication systems we have today. If you have reached maturity at the level of the Soul, then you can quite easily bypass our systems and reach the Soul of the abusers. There's no exclusivity).

The KS said he felt that he was in communication with the system. During the session to elevate abused children he said he was able to contact a specific Soul, and it was Mr. Keshe's son.

K- (As I was saying earlier that the system is a tool for you to know what to do, otherwise you don't need it. As we go deeper and deeper into the teachings, many of the teachings will become only a time for silence. You won't hear the voice. This is very much how the monthly sessions have been going. During the sessions there is no talking unless we have some instruction to give you. You receive the energy from the system, which is set in a specific way).

(We allow for the expansion of the Soul, and this is (the main part) of it. Once you learn to link, you don't need the intermediaries. And the more you link up and the more you learn the more access you'll receive. This is the whole object of these teachings. In the future, many of you will do it automatically. It's just for now I have to show you how to get to the "uncle's house." But once you learn the way, then you don't need me to show you).

Q: Recently a very famous music star committed suicide because of her depression. The Chinese team was asking what the reason was, and what causes depression, and how to handle it?

K- (There are many reasons for depression. But 99% of it, we bring it on ourselves. It's because we cannot achieve our expectations, which could be communication with someone, material things, or anything we cannot reach. Then we see ourselves as a failure, and the man does not like failure, and gets depressed).

(You were talking about a musician, and we've seen a very big rise in numbers in last 10 years, compared to what it was before. The musicians expect to sell 100 million records, but when they sell only 50 million they think they are a failure. They don't look at that they have reached 50 million people. And their true life is not what we see on the outside as their social life).

(Depression has many reasons, but primarily it's caused by a change in the level of certain fields, which (?? the person) cannot reach. Our team of doctors work on this quite a lot. But the new technologies make what we are doing now obsolete. We can find the strength of the fields of the emotion of depression and feel it, (?? and strengthen it)).

(Generally, depression comes from not receiving what you're expecting and not achieving what you wanted, and seeing yourself as a failure, and then one leads up to the other. Not being satisfied with life in the dimension of emotion. (It gets triggered by the physicality). (?? it usually comes from a shortage or loss, or not having). << audio breaks >>.

(It's very easy to process depression with the new technology. You have to feel what it is, and how you can reach it, so that you can strengthen the fields).

Q: Is there a Gans for world peace so that we can spray the water of it on president Biden and the Pentagon to gain peace with Russia?

K- (The thing is, Biden is just a "puppet," as we call it. You have to spray the Water on those who are the instigators of war. And that's the people who make money out of it. (You can spray Biden all you want with the Gans water of peace (audio break) ... It's impossible. Because these people are just a "voice box" (for the ones behind), especially in the United States. The people behind the scenes pay for people like Biden to be there. You have to reach the Soul of these people, not wash them with water. You see the questioner is Italian, so he still thinks of "baptizing." These people cannot .. or is it the Christian mentality? These people have to be elevated through the Soul). (There's an indirect reference to Vatican).

Q: (The KS was not clear, but wants KF to do something on television or a pod cast).

K- (As for television and the rest of it, it does not work if they don't allow you to spread the knowledge. It's the same with the pod cast. These problems need to be solved in different ways. I think in the next few months you will see KF will become fashionable. Then all the television stations will start speaking about the technology in one way or another. We are reaching to that point. Our scientific work, peace work, and our Soul work will become very fashionable. And that's the time when we should (be careful) not to lose our track (and our ethos). We need to reach the masses and not just a few. But today television and pod casts don't carry that much weight, and not many people spend time watching them. The majority of the people who watch television are old people. Television has become a thing of the past. The young generation does not have much time to sit in front of the TV, unless it's a beautiful football game or something like that).

(The science of communication has changed, and we have to reach people through the new sciences and new ways of communication. This needs to be done by governments, because they can stand the "abuses of power" from the organizations).

Q: How do we reach the Soul of somebody to elevate them, who is creating a (bad) condition that's affecting many others, when we don't know who the Soul is that's doing it. How would we reach that Soul, to be able to bring peace to their emotions?

K- (You reach the Soul of the (ones who know him), because they know how to reach him. Find his friend, because he'll have his telephone number, but at the Soul level).

Many of you have reached the elevation of Soul of the world leaders. It has worked, and you will see it.

Q: But you just said that the world leaders are not the ones with the power, there are the others behind them.

K- (The leaders have a direct connection to the Soul of the ones who put them in power. (So indirectly, by reaching the Soul of the world leaders, you also reach the Soul of the ones who put them in power).

(Through elevating the Soul of the world leaders, we brought the Souls behind them to the point of making peace. This is the easiest way, to elevate the Souls).

(As usual, in KF we try to be very upfront and open about these things, and we want to stay that way. We don't expect, but we were working on massive changes for KF. Those who are close to us and work with us are aware of it, and we will not stop until that point is reached. It needs a lot of support from all of you. You supported us financially and we worked very hard to bring things in the past 10 to 15 years. You've always been there with us. Now we need the support through the Soul, because then we have reached what we came here for, and that is to bring the change. In the past couple of weeks we have seen a huge hope arise for that change to come. And we hope our hope will become a reality in a very short time.

End of Quick Index - 494 KSW July 13, 2023

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:16).

R: Background imagine of Keshe Knee GANS, a special GANS that's used for knee pain. You can participate in the research program.

(:18). ...

K - ... Good morning, good day to you as usual. Wherever, whenever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back as usual, and as usual we try to share knowledge, to understand more, and try to breakthrough new grounds of knowledge in space, and other matters.

As usual, we have a couple of small announcements to make. And one is about the 4 sessions which starts tomorrow, in respect to the, what we call, 3 hour sessions. These sessions are set up directly for what we call, new grounds of understanding and new, what we call, technologies which are developed, that we can see how much in what numbers and how in different applications, we can expand the knowledge of the technology. For example, tomorrow session we start at 12 o'clock, and you need minimum two headphones. (:20). This is a different way that we've done before. You can have three headphones, or maybe you can have access to one mobile phone with five entries. We leave everything to you. You write down what's the reason you took part, and what is your expectation. And we set up in the background to establish our way, our work, in the 4 sessions which come up. One is 14, 21st, 28th and the 30th.

Then, on the 30th, at the end of the session, we ask you what you achieved, what you wanted. And, maybe in one session you wanted to do something with your emotion, in one session you want to do something with your knee, in one session you wanted to do something with your lung, or whatever. We leave all that to you. We are not here to, what we call, interfere or anything. We want to see the process of the expansion of the Soul, in the dimension (D) of satisfaction of the emotion and physicality.

So, usually our medical people, on the health side, on wellness side, over decades have tried everything. Now what we want to establish is that, we want to create a condition as the citizens of one's country, as a citizen of one city. This is a pre-test for upcoming space cities which is going to be structured with Keshe Foundation cooperation. (:22). Which means you can come in one session and see how you feel, what you want to change. And the test we monitor in the background continuously as we .. you saw us last week we didn't take any testimonial or any, what we call, ballots to see what happened, how you felt, because we could see the operation on our system.

So, in next 4 weeks, you come in and tell us, and we expect an email from all of you who participate, after each session, each connection, that you come into the session, on that email return back to us, an information at the end of each session. Which means, you tell us what you came in for, and what you felt after the session, and then you monitor yourself in the next 4 sessions. If you achieved more happiness, more, God knows, whatever, we don't know. We don't want to interfere. This was your expectation, this is what you came in (for). And then, let's see, after 4 sessions what was your experience, what did you achieve. And then, a month later you send us an email, that, in process, in progress, what has changed over the month.

This is part of the large scale, what we call, operation of the Keshe Foundation. There are a lot of things happening in the background in the Keshe Foundation, that we cannot disclose, or we don't want to open till we reach ?? final. A lot of things were supposed to be done, as you know, with the help, with the, what we call, the damage we received financially, (:24). and some of you helped us with it, and we tried to structure a new, but now we've gone a different way to achieve the same, through a much bigger structure.

The whole idea is to build a space city. In that space city, no one should get sick. No one should go ill. No one should go hungry. No one should feel cold. And this is part of that structure. This is part of that understanding of what we call, total process of the next step in reaching everyone at the same time. We have, those of you who join us in the sessions, you've always seen a number of lines open in the background, even when you're silent. We keep monitoring and feeding information or technologies in the background.

So, during the sessions, we add systems in the background, we test different systems. And maybe we ask you how you felt in this part, how you feel in that part, you feel happier, whatever. We'll come to that when we (start the) ?? sessions. So, for the next 4 sessions of the Keshe Foundation, in cooperation with the Knowledge Seekers (KS), in July, we are looking to see what you came in for, and what you received, how well you felt, or you came in for chocolate addiction, and you see, I eat more chocolate or I eat less

chocolate. So, we have given you not one particular thing. (:26). You can come in all 4 sessions for the same thing, it's not a problem. But, you come in one session for this, next session for that, and another session for that, and each session, immediately after the session, or the following day, you send us an email, we collect your data, we understand what it is, and we compare some other things in the background.

Because, during the operation we change a lot of parameters, during the 3 hours. And then we see what parameter goes with what. So, is not excluded to one session, and then you say, "I came one session, nothing happened." It's a completion of the full 4 sessions. But if you feel good, one session, two sessions, that's your decision. We more or less have a good idea of what will be the results in many cases. But now in a way it's a information of the technology and then understanding more for the next cycle of what we call, approach to development.

The other point with the Keshe Foundation is that we will make announcements in a coming time where we call upon many Knowledge Seekers to join us in the research, in the deep research in different aspects. And we'll let you know how, what and it's not just good being a Knowledge Seeker with a Gans. We rely on your expertise outside the Keshe Foundation. That you emerge it, you amalgamate it with the knowledge of Keshe Foundation and we give you the direction to see what we can develop. This is very important for us as Keshe Foundation is going into a new era of its development. And maybe you are a space specialist. (:28). Maybe you are an electrical engineer specialist. And how you have worked with it in conjunction with what we call, Keshe technology. We call upon you and then we'll organize things with you to come in to start.

In respect to the meeting of the 25 Knowledge Seekers who are coming for the special session, by early August, we make announcement for the meeting of the first 25, the place where we expect to be and where we hope to be able to meet the 25 of you during one week, Friday, what you call it, Monday to Friday. The option for us sits on three major cities of Manchester, greater United Kingdom, London, and Beijing. And the three sessions will be kept in one of these three cities. We have to decide which session we keep where. But the first session of 25 will be kept most probably in city of Manchester, United Kingdom. And then the session for the 200 will be held in the city of London. The final destination, if we can organize, will be held in Beijing, in China. Or we hold it in city of Frankfurt in Germany. We have to, primarily to let you know, with all chances, if everything goes okay, we announce the date, and the first session will be kept for one week, in the city of Manchester, United Kingdom, for the first 25. (:30). And if we can secure everything in many aspects, we'll inform you the place, the time, or we move the first session to London, Frankfurt, possibilities. But on target, we aim to have the first 65 people for it throughout the session of one week in Beijing. But that has to be ratified and it needs a lot of work to be done in what we call, November, December. But we'll inform you in early August, the exact position of first position, because many of you have to sort out visas. And we recommend to you the hotels. We will not release the position of the conference. It will be kept confidential, but it will be in the city of Manchester or London. The other point for us is the progress in the teaching will carry on the same. And we will see how we can bring all the matters to one point.

Going back to the teaching, we have tried in the past few weeks to bring a new dimension teaching, a new understanding in the way of space, time and travel. What will be interesting for many of you is that it goes back again to Book 1, Book 2, Book 3, but now we're putting a structure into it more or less what happened in the past .. 2 - 3 sessions in respect to the speed, the size of the universe (U). And in respect to how you arrive at a destination. (:32).

You were a plasma of a human, as a Soul. You have gone through transmutation in the way of traveling to a new position as an energy field. What's going to happen to you when you arrive? How would the emotion of the Soul let you know if it wants you to transmute and become part of the transfer? Which means, I want to see the place, I want to be part of the place, I want to feel the emotion of the physicality (P) of the place.

Then it comes to the point, how do you integrate the emotion of the physicality to the emotion of the Soul? How do you communicate through the Soul of the Physicality (STP) to the Soul of the Man (STM), to create dimension of physicality? To me, as a Soul, this ground feels solid. But if I manifest myself in the shape of a citizen of that planet, that position, with what I transfer, what I transmute to transfer, would I become sinking, or floating, or standing on the surface? Would I like to be a "fish behavior"? Or would I like to be walking as a man? Or would I like to be like a bird, flying the space of the place? Till I find somewhere I feel comfortable, then I change from being a, what we call, "a flying pattern," to a solid pattern. I want to feel a fish life, or what we call, submerged. Even you can, (:34). in the teachings of the future we'll teach you, you can land on the surface of a liquid. (audio drops ...)

R: Bear with us a minute, I think Mr. Keshe needs to mute for a period of time here. Can you hear us Mr. Keshe? Your microphone is muted. Oops! See he's restarting his microphone.

K- Sorry about that. Sorry, it was an emergency call, I had to accept.

K- ... The position is, you want to float on the water, or a liquid .. gas. You don't want to submerge. You have to make that decision. How do you make a decision to what matter state of the time, place, and position to convert into? A bird on Earth interacts with many conditions. And they know how to fly, they know how to transfer themselves with swinging the wings and whatever, (:36). duck and dive the rain, or whatever. You're a "newcomer." On the surface there is no bird, that you can take knowledge from, through the Soul. How do you decide, I came, I know the birds, I want to fly on this planet? How do you do it? How do you go back into the dimension of the transmutation, but still in a transfer of the physicality? Alertness, interaction with the STM and STP of the man and the "Soul of the planet," and the condition of the Inertia will dictate how you manifest yourself.

I don't like this. What happen if you lose control, if you don't understand the transmutation? What are the consequences of it? In part of the process of the next 4 weeks (July Sessions), you will go through this emotion. The part of the next 4 weeks is

not just for you to come in for whatever. We're testing a lot of new conditions. You will tell us how you feel.

In a way, you have to go through that to be able to repair a lot of things. Because you landed on the surface as a dimension of the different physical condition, and you burn your wing. You burn your leg. You burn your point of contact. How do you heal it? How do you repair it? Or how do you go back in the dimension of the Soul and come back at a different dimension of physicality? (:38). A lot of the teachings will come into effect. And how would you feel if you land in a populated area of a given species in a given part of the universe? How do you interact with them? You are not in the shape of the man, the body of the man ?? in the amino acid (AA) in this dimension has no life to live. It is in a way, a different ?? condition, but you want to manifest yourself in physicality.

We know we are not the only citizens of this universe. So we should not be surprised if we come across population like ants, like cities we have, in a different shape of construction, intelligence of the building is not exclusivity of the human race. Science and technology is not exclusive of man. Races who have developed, like us over millions of years, they have developed tools to live. They have created societies. They establish the structure of life. ?? they do not need to eat the man does. They don't kill, but they live amongst each other. They respect each other's space and time. You land in, "ooh, it looks delicious." You don't eat. You pick up the Soul of the environment, that this planet does not need to kill to eat. You take from the point of the saturation of the field of the Universe.

How do we see ourselves in the new environment? How do we transmute? (:40). How do you convert from physicality to the Soul and from the Soul back to physicality? This teaching has been sitting in the Book number one from the first chapter. If you go through the first 3 chapters, the whole understanding of the transportation and conversion to a field, to matter, is fully explained. But you have to understand what it says. If you go in what we call, the first 3 chapters of the Book number 3, the ?? same structure is set. I keep on telling you, go to chapter at the end of the Book number 2, to the beginning of number 3, you'll understand the process of the Creation.

But now you have to create yourself in the time and position. You still have the emotion, physical condition of the man in the physical, what we call, capacity of the STP within the STM. How do you change the skin? By changing the skin, it means, how do you bring the STP out of the Soul, and bring the Soul inside, and the reverse? This knowledge has to be understood. When you run in a physical dimension, that's a physical transfer. How do you transmute, which means bringing this physicality inside, with the STP inside the STM? (:42). Where now, it's the Soul fields strength, which interacts with the environment. Not the skin of the man in the dimension of physicality.

And then, would us, with the STP of the man, on the surface of the planet, end up to be a miniature things like an ant walking, or a giant of a thing like a dinosaur, compared to its environment? How do we adapt ourselves to be one of them, that we are not recognized (as being) from outside? These are the teachings which gradually we'll start teaching you.

This is what... but we have to open your eyes into what is to come. It's no use telling you, this is the system, this is the way you do it, when you haven't had time to think. You haven't had time to understand what are the implication of it, what are the application of it.

We've been teaching for past months, and two or three years about the STM, about the STP of the man, about the physicality (P) of the man, that today's man has leeches upon the Soul. Now, the change of the game is what happen when the Soul leeches upon the P of the Man. How do you switch? What is the process of switching? How do we understand the way we need to switch? (:44). And how do we make ourselves available for this switch? That we are in full understanding of the process of the life. In what shape and to what point of need we convert.

In what shape and point of need we collectively bring changes. We travel as a family and we want the brother, the sister, the mom, the dad and the children to be with us. And we want to convert all of us together. In a way we've done the transmutation from A to B, from P of the man to the STM. Now, how do we do as a whole that no one knows we are from another planet? We become part of the society, even though the family know we are together. We are not the people from what you call, origin race.

And how do we learn the language or the line of communication? There are no schools, no universities, no foreign school languages. How do you tap into the "Soul of the knowledge"? How do you tap into the "Soul of the life of the planet"? These are the teachings which is coming up. These are the teachings, what again, I'll go back. The next 4 week sessions will bring us to the point to do, in how in the coming conferences, (:46). we will explain to you how, and you will learn how to do the conversion. How to do the transmutation, how to understand what transmutation means, and what effects we will have on life of every individual in this process.

It's important for us to understand the totality of the transmutation, and the totality of what we call, understanding of the work in every aspects of the work. How you switch the STM to become the container of the physicality on this planet. How you travel the span of this U, and at the point of arrival, you change, and you reverse the position where the STP and the P of the man manifests itself to become the holder of the Soul. In a way, put your hand in and pull the skin inside out. But this time, what you pull out, what you change, is the Soul strength or the STP. And then, in the interaction of the two, gives you the manifestation of physicality in that time, place, and position. But as you arrive in the dimension of the Soul, (:48). in the strength of field of the Soul, now you convert into the dimension of the fields of the physicality. Then you will see the shape of you.

We can replicate these on Earth without the shadow of a doubt. Knowledge Seekers in the coming time will make facilities for all these to be able to be done in a matter of seconds. But till then, we have to teach you. You have to understand how you use the emotion of physicality, in conjunction with the emotion of the STP, with the emotion of the STM, in the interaction with each other, to create the transmutation.

In fact, if ?? you understand. The physicality of the man is Book one. The STP is Book 2 and the STM is Book 3. If you understood the knowledge given in these 3, you should have already understood the transportation and transmutation.

To what extent you can deviate from the line and experience new dimensions? And then, to what extent you have understood at the point of arrival as a Soul, you interact with the "Soul of the destination," with the "Soul of the citizens of the destination," and in that lines of interaction, you create your new physical being, (:50). which allows you to work, to live, and to be part of the time, place and position.

How do you switch? In Book one, are you transmute? And how you end up in Book three? And how do you create the motion between one and three? Then you find out. Transmutation has no time, space, and position. Which means, the transmutation will bring man to travel in the dimension of ?? .. , will bring in to understand the Totality. We have to, we see, and ... We have to understand the totality of the energy. Energy in the terminology of the Keshe Foundation, not energy in whatever man measures. Energy in understanding of the field in motion. Understanding that each field strength has different emotion, what we call, strength. (:52). And each one has different emotion. So your emotion, field strength of emotion, understanding of the motion of the fields, all come together, in which line of the universe you will transport yourself. You will transmute yourself. You will come to the point that you can bring the change.

So first of all, in the coming months, in coming weeks, we have to teach you how to go through the conversion. From the Soul to become the holder of the physicality. And in that condition, to become the holder, container, what I call, interface with the STP. Then one of our most important points will be how we get you from Earth to Moon, from Earth to another position in the universe, with the dimension of the speed of the light of the universe. Considering the light of universe to man is dark, but in fact it's not. This is the light of the knowledge, the light of understanding, the, what we call, "enlightenment." And then, how to get you to the point, and then manifestation.

Then, you still have a problem, if you understand the whole process. You leave in the Soul of this man, to meet the mother who died 20 years ago. (:54). She has no physicality in the dimension of what you were expecting. She has a new dimension. But the Soul, the energy, tells you, this is the mother. What would you expect to see? What is your understanding of the emotion of the interaction? You see a field. You don't see the mother in physicality the way you knew. But you know this field is a field, which is the Soul of your mother. You interact with it, the way you do exactly in your dreams. Because the dream to you is the reality of the interaction of the Souls in the dimension of energy.

All these in the next few years will be taught, in a very, very detail. There is no calculation. If you go back into my first teachings, first lectures ever, 20 years ago, 15 years ago, I always said, "God does not have a scale, a measuring tool, that I'll put 50 gram of this and 200 gram of that and 10 liters of this." There is no grams and (liars) and mileage in the measurement of the Creation of universe by the Creator. And now you are

the Creator. You can't put, "oh, I put 20% of my Soul and 30% of my physicality, and I'm going to end up there." You have to learn, in the dimension of the strength of the fields of the universe. (:56).

Then we have to understand, how we create these fields through emotion. Then you understand, even the very first teachings in health, we always spoke about the emotion, why it's important. It's not a blood flow, it's an emotion flow, which leads to the creation of the sense of the STM. You look at the redness, I look at the strength of the measurements of the fields. The fingerprint of the human race in the field energy. In the space you have no blood, but you have field flow emotion.

Now you understand, how much more, in the past couple of weeks, and in the next few weeks, I do a lot of talking, a lot of explanation, open your eyes to new dimensions. Because, if I don't do that, it'll be very hard, like many of you before, he went from Nano material to Gans, and now he's come to fields, he's ?? come from ?? radiation. Now we teach you, because now this is the school of the space technology. We taught you ?? for 10 years. Now, that's why we taught for 2 or 3 years about the Soul, in the handling of the field of energy. Now we are moving there. You have to understand, you have to, in a way, be educated to be ready to go through the transmutation, by yourself. You do that in your dream, you do that in the time of, when the physicality is resting, but you've learned to park it between the blanket and the bed, we call it, a sleep time. (:58). Now, there is no sleep time, because now you park it between the Soul and the STP and there is no physicality. Nothing, except the emotion of the physicality, of the STP, and the emotion of the STM, which allows you the point of manifestation of the physicality.

Unfortunately, we have not made any measurement tools to measure the strength of the fields of the emotion of the man, yet. And as I know very little, there is no such a system in the U. You go on the edge of a cliff, the fear stops you jumping over the cliff, it pulls you back. It's the emotion which does that. Fear is an emotion. Now, you are on the same point. You are on the cliff of jumping from the physicality into the Soul, and knowing there is emotion of STP, which has held me (back) ... ?? doing something. I hide, I turn my back, I say, "it's not there, but let it do it," and I call it a dream and a sleep. That's what we do when we go to sleep. We hide under the blanket, we put something on our ?? .. ourselves, we have the physicality that we are asleep, and we turn our back, we close our eyes and we said, "okay, now go." Dream, go, wherever you want to go, you are free, and I call you a dream, because I don't want to accept this is my capability, it's my responsibility and it's actually part of me."

Now, you have to understand this. (1:00). This Soul has no bed and blanket to hide in between. Except the energy fields of the environment it's in, and except the energy fields which is within it, we call it the STP of the man. Sometimes in and sometimes out. When you sandwich the STM, and the physicality of the man, and the Soul and the condition of the environment, you get the STP doing something and create what we call, the physical structure. Now, in this process, you have a plasma of STP, you have a plasma of STM, and then you have a plasma of Soul of the space, time and position. And you're trying to

drag the STM to go in the other side, and pull the STP in the middle. And when you do that, you get the physicality.

Many of you, many of you who are used to dimension of the physicality, when you interface and interact with the first time, your new physicality, in new dimension, you will be panicking, hiding as fast as you can, (saying) "this is not me." Would I see with the eye of the man, in the mirror of the position and time, and see another body, which is not mine, but inside I know .. I am a man.

These things we have seen, we put you through the experience. We put you, we brought you to Linz, we let you go and you said, "I see blurred, I went to the Moon, I went to the sea, I became this, I saw the Soul of Christ and everything else." (1:02). We allowed you to experience. Because it was not you who experienced. Because as a man, you are part of the Soul of the race of the man, that knowledge has been embedded in the Soul of every man alive on this planet. Now, they have to tap into it. They have to progress to the level to be able to understand the transition.

Many experiences we did with you. In the time of the four or five hundred of you came to Linz to go through the system and we told you, come from all races, because we're storing, now you understand what we have stored, your emotion, everything else is part of this. You came in for a test, you actually added to the knowledge of Totality. And this is how it will work, and this is how you will be.

When you arrive in a time and place and position, you'll receive the knowledge from the "Soul of the citizens," and not from the school of the teaching and universities of the citizens. They haven't gone so advanced to bring in a structure of what we call, the lying, cheating structure of the, what I want you to learn, and what I want to indoctrinate you to know is the truth, because it fits me. You learn from the Soul of the citizens of the universe, in time and position and the place and the point of arrival, because you interact with their Soul, and not with their physicality. Because you entered into the dimension, in the dimension of the Soul, not the physicality. You didn't come off the plane, "oh these are Chinese and these are blacks, and I'm a European and I'm an Asian." (1:04).

As I said, listen to one of the Intros. When somebody looks from outside, sees the Soul, the brightness of the light, does not see the Soul of the king, a peasant, or a dog. As the Soul of the king and the dog look exactly the same, from the brightness of the man observing in the Soul. So there is no difference between the dog and the king, in the dimension of the Soul, why should be in physicality? Unless the man decides it. And then, we have to understand, who is the real dog, the king or the dog?

In the dimension of universe, we have no hierarchy. And we have nothing hidden. And this is what many of you will come to understand. In your first trips, you'll come to understand. Have any of you had a dream, talking to your mom, and in the dream, the mom tells you, "you're lying to me." Then, I, in the dimension of the Soul, everything is transparent, everything is dimension of what we call, line of the fields. So, you learn the language of the fields, you learn the language of the emotion of the language, you learn

everything else with it, what to eat, what not to eat, where to go, where not to go, as you are born in that society.

This is what I tell you, in the coming time when you learn this, when you come from France into China, and understand to arrive in the STM, (1:06). not off the plane of the man, you will understand Chinese, you speak the language of Chinese, you'll understand the emotion, and everything about the Chinese culture. Because you arrived through the Soul, you arrived through the fields of emotion, not through the plane with the fuel in the back, dropping your physicality.

The science of the man will change. The understanding of a life of the man will change. And then with it, the whole structure of the physicality of man will change. We tested this, without you knowing, through the process of the last meeting of you Knowledge Seekers, in elevating the Soul of the abusers, some couple of weeks ago. And it was so beautiful to see how the STM has taken over the STP and the physicality.

And the physicality had no line, it was a straight liner, a "flat liner." And how the physicality stayed on the line, and watched the STP and the STM battling it out to find balance, for the Soul to be in the opposite position, equal to the STP, that physicality stays flat liner, and there is no abuse. If we show you the graphs and the electronic information we collected, it just puzzles you, if you understand it.

Now it comes to the point, that how in a coming time, we can transmute you through the Soul. You can transmute yourself through the Soul, and then give yourself dimension of manifestation of physicality, (1:08). at the end of transmutation. This is what is part of the teaching, this is what, if you listen to the past two, three teachings, I start opening, telling you that when we bring you to the point, you already understand. You learned enough about physicality. We had to show you everything about the dimension of the Soul, and then dimension of the matter state, the Gans's, and the rest. Now, we put you through the transmutation. We put you through, going from Book 1 to Book 3. But this time it's you. It's not a reactor, it's not a system. The system is you, understanding of it. And it goes back to what I always said. As Knowledge Seekers, you take from these teachings, according to your intelligence. According to what you decide to be the reality in life, which becomes your understanding.

We go through a break, and we come back, and try to explain. The teachings are surely short, half an hour, 45 minutes nowadays, Because, it's so intense if you understand it. There is no more mixing things, the only thing you mix is your energy of your Soul, energy of your STP, and your physicality and see what you get. And what you experience with the new transmutation. And gradually, as you go through the teachings, in the coming months and years, one by one of you will start going through the transmutation. You learn it, you understand it. Don't take it just a voice, understand what the voice means, which is teaching. And this you understand, when I tell you, when we teach, we teach for the whole of universe. Because universe taps in the Soul of the Creator. We go for a break and we come back, and then we'll see what we can do. And answer any questions. Thank you very much, Rick.

R: Thank you Mr. Keshe, excellent teaching today. Okay, well we'll take a short break here, and be back in a few minutes.

proofed

BREAK >> 494 KSW July 13 2023 (1:16).

K- Okay, carry on. Let's see what are the questions.

Q: Good morning Mr. Keshe, I have two short questions. One, (can) the earphones or only headsets can be used for the July sessions. So, can we use both earphones and headsets, (1:18). or does it have to be only headsets?

K- I don't understand.

R: I believe it's, you know, the earphones are the ones that just go into the ears. And the headsets rest on the ears. So either ones can be used for the July sessions, correct?

K- Either one can be used. Either one can be used. Can you give me five minutes, something urgent has come up, please? I'll come back and just put another ?? .. please. Thank you very much.

R: Well Dean you had a hand up, maybe it's a good time to say something to the public here, perhaps you've been at the center in Linz and directing groups and so on, in the, kind of the end days, you could say, of the center in Linz. How are you feeling about that? How is that going? . Talk a little about that.

Q: .. Yeah, thank you Rick. It's been, it's usual with humanity and with all of us. In Austria, it's become, for many Knowledge Seekers, a center of thought provoking, field strengths of emotions, and then some clarity coming through where you feel emotionally stable. You know, the Center has become a platform, and a position where Knowledge Seekers have come forward, and some have said ?? that they feel extremely comfortable in those positions. (1:20). They feel like they've received energies and when they're in the building itself and in surrounding areas, they feel a comfort. And we know this is directly related to their experiences on a Soul level where the Soul is bringing them

forward, the Soul is present within the Foundation And all the Souls that are present, because it's not just the foundation Knowledge Seekers, there's many, many, many Souls present. And you sense it and feel it.

And I've understood that many Knowledge Seekers have experienced deep, deep self awareness and understanding that they probably didn't even know what it was. And then it just starts to open up like plasma does, you know, you get the first initial seed, you know, the first bit where you walk in through the door, or you experience it on the internet, you meet a Knowledge Seeker, the knowledge is shared, you know, you give them some of the knowledge, and then all of a sudden, it resonates so hard and so profoundly with the very essence of yourself that you just, you just want to know more. And then as soon as you want to know more, it opens up to you, and it becomes something much, much bigger.

So it starts off as it did for me, it started off with a just listening to Mr. Keshe and one of his teachings a long time ago. And the moment that the you know, the universal knowledge is portrayed to you, that field strength, then everything changes. And the knowledge, you know, when you share the knowledge, as Mr. Keshe does, the knowledge seems to talk directly to you. So when you receive the knowledge yourself, and then you share it once more, (1:22). it's the same feeling for the others that are coming forward. It touches them very deeply. When I was in the exhibition just the other day, I was speaking to some people and I just give them a little bit more knowledge of what I've come to understand. And you can see it in their eyes, you can see in their structure, the way that they respond to it. And you can see the, you know, this, the slight elevation, the, you know, the part of the enlightenment happen within the structure of them, you see in their eyes, and you can see when people have emotional imbalances that in the in the physical body, or in the emotional body.

And as soon as they walk, as I said, the walk in the door of the Centers and guided into the centers by their own Soul, they start to receive the balance and you can, it's a beautiful experience to see. And sometimes it's very subtle, very, very subtle. And, but you know, it's present. And other times, it's very, it's like, "bam," it's there. It's sort of like, you see it very physically. And I've experienced it many times where people get very emotional and some people like we all ?? they have different emotions and they will be very quiet and subdued and you wouldn't know but you sense it behind the structure, you sense that there's a big emotional change is happening.

So for me it's a constant evolution of sharing the knowledge and now we're coming to a position that Mr. Keshe has explained this morning, where, you know, it's the next stage. And I'd like to ask Mr. Keshe some questions about how it's really going to feel to transmute to how is man going to go through this emotional understanding to be able to comprehend, suddenly being in a different position with a different set of, even if it's the physical body, (1:24). like Mr. Keshe was speaking about, if you go into another body, how are we going to feel about suddenly not, you know, not having, you know, the body that we're used to, and still feeling it's me, but in another environment, that we don't, we're not, we don't even know. So we don't, you know, we may land on, you know, in

another position, even on planet Earth, we could land in another position that feels totally, for want of a better word, alien to us. However, we have to interact with it and we have to be part of it. And are we going to feel connected enough that we can emotionally be stable enough to interact in that environment and enjoy it, you know, and be enjoying in balance? How will that happen? So that would be one of my questions to Mr. Keshe when he comes back. Is there anything else you think I should explain, Rick? Or was that enough?

R: Well, there's the thing about the background image today, and of course, because we're broadcasting on YouTube, we have to be extremely careful of any testimonials of the medical kind, as you know, but you did give a very good testimonial in the public meeting for testimonials last Monday. And people can go to our Livestream channel, which I've put the, I've put the connection (link), that Livestream channel connection, to our chats here. And if you'd like to refer to a more detailed explanation by Dean, about the "Knee Gans." (1:26). But, perhaps you can, you know, say something about that Dean, that's not going to be impinging on our responsibilities, in terms of the medical, so called, medical misinformation. And just tell people that you had good results from using that product.

Q: Yeah, of course Rick. I will keep it in balance as we know we have to. So for me, I had a condition that I've experienced a long time ago where I used to play the game of soccer, football, as it's called in the UK and most parts of Europe. And it caused me where my knee had a condition where the fluid in the middle of the knee sort of more some part cartilage sort of "popped out" from experiencing this football game. And I never got it, I never got it medically looked at or anything, because I was very young and fit at the time. And I just went back to the, you know, my training schedules and just healed in that way, physically myself by just doing physical hard sports and activities. I went through a phase where as I've got older, it started to get, because I'm not obviously physically strong anymore, it started to cause me problems and started to, the structure of it started to, you know, I had a lot of pain when I was walking up and down stairs and other, you know, up and down mountains, I should say.

And so I mentioned this in the Foundation to Mr. Keshe with all his beauty, I said to him about it and then very shortly afterwards this Knee Gans came out. And I thank Mr. Keshe for that deeply. (1:28). And so I've used this Knee Gans and I used it according to the instructions and so what you see here is the Knee Gans on the right hand side. In the middle is the containment of the Gans itself and I've shaken this jar so you can just see some of the Gans just sort of fluttering down. And then on the left hand side, that brown bottle you see is actually the plasma water itself. And then you see the syringe and the bandage, the knee bandage that I would spray the knee bandage with some of the plasma water. And so I went through the procedure.

The procedure is very simple. you do a test first, where you would put a band, sorry, a "plaster" in the middle of your arm, opposite side to your elbow, the inside part of it. And you would just test it for 24 hours to make sure you don't get any reactions to the plasma. And then if that's okay, then according to the instructions, you mix up the Gans, shake it,

let it settle to the bottom. So all that you see in the middle here would be floated all the way down to the bottom and it would be clear, like you see in the brown bottle. And then this brown bottle, the plasma water, you would then spray some different amounts of spray, creating a flow. So you may have two or three sprays on the front of the knee and one on the back of the knee. So you're creating a gradient. And then basically you keep doing this for seven days. And then after seven days, you assess what's taken place in the structure of your knee. And if you sense and feel that you need it once more, then you can reapply. So you wait seven days with no interactions, you're not using it at all. (1:30). And then you would start to use it again for another seven days, spraying as you, once or twice a day, I would spray the bandage and then reapply it to the knee.

We say Knee Gans, but it's obviously for any joints. So it can be used across the body really. And I experienced many beautiful things. First of all, I experienced a connection, a reconnection of the neurological system. It seemed to me where when I first started using it within the very first couple of sprays, I think I went to bed that night and I felt a connection from my brain down the top of my neck, my back, that I knew was reconnecting the neural pathway from my brain to my knee, reconnecting it. And I think creating that flow again. And because that flow was connected, it meant that the knee then had a position to be able to start to re-grow and reposition itself using the Gans. And Mr. Keshe has made this specifically to help people and to help any, you know, creatures created and human beings to, you know, recondition something that's happened. It actually is there to, I don't want to go into medical terms, but it helps to rebalance the condition that you have and bring the ligaments and the tendons and cartilages back into balance.

And I personally have experienced that it has done this. It has taken a little bit longer than I would have liked, but this is because I had quite a severe thing that I'd left for quite a long time. One thing I did notice when I was using it as well, was I had like a sense of feeling of my knee getting bigger around the front to begin with. (1:32). And then it seemed to move around the knee. And then one time I remember feeling it on the back of my knee and I could feel the, you know the different areas of the knee responding. And it seemed to be readjusting, re-growing and reconditioning itself. And so this is probably two or three months ago now. And now my knee is, I wouldn't say it's 100%, but it's back to sort of 90 - 95%. And it means I can have an active life again and not be in pain when I just do the most simple things like walking up and down stairs, which is a massive thing, because this one technology alone that Mr. Keshe has released, if you multiply this, the amount of times somebody would strain themselves or hurt themselves or be in a position where, you know, they're in discomfort, then this opens up a huge, you know, this one product opens up a huge structure within the totality of positions on planet Earth with our physical bodies.

And so for me, it's a very, very important product that I know many people from the sports arenas, from lots of different positions. I mean, not just sports, I mean, just everyday physical life of many people that work very hard. have a repetitive problem or something they might do, then this would, I would suggest, would be a wonderful way of redressing and bring yourself back to balance. And it is a beautiful gift, a beautiful gift

from Mr. Keshe to humanity. And as I said, this is just one, and it touches the full structure of humanity and all the creatures. (1:34). As I said, there's one product. You can then when we start looking into as Mr. Keshe said, 20 or 30,000 products, can you imagine the full spectrum of energies we're going to receive to bring back the balance of the physicality and emotional state that we all experience as Souls present on planet Earth and elsewhere. Is that good enough?

R: Thanks, Dean. That was more than enough, probably. But I gave a break for Mr. Keshe to do his thing there, too. So, thank you.

K- Yes, I am very busy in the back with a lot of things. Sorting a lot of things out. These kind of things, which we put out, and Dean speaks about, this is a wellness. We are not in a health business. This is what brings comfort. Don't forget these materials have all been, Gans's have been, received a certification. When we produced them, tested them in China, and it has a health certification for it. It's a normal Gans of materials, but in a specific way, which we have developed for these things.

And we are not in the health business. We are in the wellness, in feeling better. And as Dean said, he feels the emotion in his body before reaching the physical condition. There are a lot of people using in different ways. As I said, Keshe Foundation is entering a new, totally new environment of work. And in the recent past, we have tested a new dimension in the process of converting fields into energies, into matters, (1:36). and conversion of the matters in the new dimension work. into the structure of the body of man.

We had the pleasure in the past few days, as part of the same process, to see physically what we call, the helix structure of the amino acid (AA) in a very, very specific way. I set it up to see it. And when it was there, it was amazing. Where you see it in the matter of what we call, "visual structure." And we'll bring in new dimensions, new materials and products in the coming months, in two or three years.

We have merged the Keshe Foundation with one of the strongest nations on this planet as a collaboration with the nation. And we are set on course to bring huge changes. As one said very recently, the giants of power and science have finally met. And that'll bring the change. The trap we were set up by Europeans to keep the Keshe Foundation silent has failed drastically. And one of the most powerful nations on this planet has joined force with the Keshe Foundation to bring the technology, as its utmost to serve humanity. Knowledge in exchange for peace has taken shape. And this bottle is a small bottle. Compared to what is to come. And deeply involved. (1:38). And we have left it to the governments to announce the collaboration and extent of the collaboration between the two organizations.

.. It will be fundamental that technologies like this, so simple, can change people's life. Like Dean said, you cannot go up the stairs. And then you find out life has changed. The reason I released this wellness product was I got injured badly last year in a hiking accident ?? .. work. The doctors told me I need to replace my kneecap. The cartilage has totally gone. And on the MRI showed both legs were kneecaps, cartilages, and part of the

knee itself, through this accident, has been damaged beyond and needs operation. I said to the doctors, I don't need it. I know how to repair it. And he said, when you've done it, come back. I couldn't go upstairs to the surgery to take pictures. I had to take ?? rest. Very painful.

And strange enough, on Sunday I was at the location and I was told that the electricity will be cut at 12 o'clock. And I was on the eighth floor. And I had to be outside. And I climbed the whole staircase, the whole eighth floor, round about 15 steps on each floor in one go, without any pain, without any actually thinking about it. And we see the change. (1:40). For me walking 100 meter was impossibilities for some time. And one of the Knowledge Seekers I said, when one of the teachings said, you, I felt you have a pain, there was a pain, and I said, yes it was. My cartilage doesn't need to be replaced, it's fully restored. And what you see in the bottle is what I used. And I thought the knowledge has to be shared. It's a kneecap operation, joint operation on the knee, because the MRI, we still have the MRI, we kept it for reference, shows totally there is no cartilage. And you cannot go up the stairs, eighth floor, at my age, in less than a minute or two, if you do not, and if you are not fit.

And this is how the knowledge is. I shared my technology (T) with all of you, like everything else. And, this is what it is. Many of you have tested it. There are different ways of doing, testing this, adding it. It's a wellness product. And this is exactly how it should be. Knowledge at the reach of man, at the point of demand. And I, many times, thought, I'll go back to the surgery in Vienna and tell the guy, "how many people would you like me to help?" (1:42). It's not a medicine, it conditions the environment in a ?? plaster of the fields. And I've seen the result. Don't forget, I originally used this in June of 2010 or 2011, when I fell off a horse. I rebuilt the whole structure of broken bones within 7 days. There is a lot of knowledge's which is to be shared, to be understood, to be in a way applied.

This technology creates condition, it's not healing, it's not medicine. And we've seen many people having used this different type of structures for this purpose. We have reached in the level of technology we have come to a point that ... (1:44). ?? today I have ?? very emergency things happening. Just please, one second.

R: Okay, bear with us a minute or two, while Mr. Keshe does his thing and reconnects in a minute.

Q: Rick ... one thing I forgot to mention, is Dean here again, is, what's beautiful about these products, about the... and I'm not, we're not trying to sell products, it's not about this, it's about the, the gift of creating fields, plasmatic fields, that bring, as Mr. Keshe said, wellness back to people. So you have here something that I know in this, in the matter state condition of this containment of this jar, this plastic container, a liquid plasma, you know, and Gans, gas in a Nano solid state. And you have the capability and what is the beauty, the real beauty of the knowledge is that you can share it. So physically, you can split this up and you can give it to other people, other creatures created to bring their structures and their emotions into balance. And for me, that is the

real, the beauty of this knowledge. It is the fact that it can be shared, it's given and it's in the sheer power of this technology is in the fact that, (1:46). in that very small little bottle is a technology that is beyond what we've experienced before and can bring, as I said, a balance back to all sorts of conditions that we have. And the fact that we can share it with our loved ones, our friends and family, communities, nations, is the beauty of this technology. And that is, for me, that is the most incredible thing.

K- Thank you very much. And sorry, I'm back again. In the recent past days, we have tested, in a specific way, the fields interaction. That's part of a very large scale test. And again, this will come into (flourish) in the next few months. You will see it. Where we release another range of technological scientific materials which can help with daily life. Restoration of the energies in the body in a very, very specific way that will change a lot of things for many of us.

What we foresee in the next maybe 12 months, maybe 2 years, in collaboration with our new partners, where we enter feeding nations, (1:48). where we enter a cycle of wellness care for nations. For example, today you send food packages to disaster areas or for famine areas. I foresee next 5 years our partners will market, feeding a whole nation with the new technologies, emerging technologies, where we become responsible for feeding a nation. Technology has been tested, technology is available. But in that way we don't need to farm. In Africa, in third world nation, where food is one of the biggest problems for governments, will be resolved. Where through very much like what you see, we'll put that into reality of the delivering of the food through plasmatic conditions.

New plasma, a new definition in the world of plasma. It's matter of how we come to an agreement and in a way, it's not something new. You as Knowledge Seekers, we promoted a few months ago and it's still on the Keshe Foundation website, that you can join in a food contract where we feed you through the Keshe Foundation Apps for so much per family. Now this, or your wellness covered by this. (1:50). Now this with the new structure which is coming in the Keshe Foundation, makes us possible in collaboration with the governments we work with, to become nationwide. Which means for example, let's say, the nation of France accepts to feed nation citizens of, let's say, Algeria for 2,000 per head for a whole year, irrespective of position in Algeria. This technology now is available.

There is a reason we push this forward. And the reason for that is very simple. Technology is jumping in a very, very rapid way. The development of the Keshe Foundation technology is growing so rapid, that now it's possible, accepting in the next 5 years, for example, to feed a nation. You don't need to export rice and grain and control the policy. You come to an agreement on a percentage of GDP to do this. Which means we take 2%, 3% of the GDP, whatever it is, whatever nation you are, and that becomes a payment for feeding the whole nation. And this ties up with the nation we have joined things to work, that we can do this.

This gives us a spare structure to learn more. Where a lot of problems with poverty brings a lot of diseases, malnourishment of the children, now we can cover. (1:52). And there's

a lot of new breakthrough knowledge's and technologies, which we have started releasing. And we will carry on releasing this in the coming months and years with our new collaborators. We have signed agreements with the nation.

The Keshe Foundation has entered into full collaboration with one of the most powerful nations in writing, not in talk. We are in that process, to allow many, many, many positions to be cleared. The Wellness Center of the Keshe Foundation will be spread across this planet in a very specific way. We have allocated the first Wellness Center to work with the doctors, but has no operation within the Keshe Foundation. In the next couple of weeks, we'll announce the first Keshe Foundation Wellness Center set up and up and running. But you don't need to go to the Wellness Center. You can be anywhere around the world. We see the operation, the opening of the second Wellness Center in Arizona and Uruguay. Most probably in a very, very systematic way, we, in collaboration with our partners, we'll start the Service Centers like this. But Germany, Arizona, and Uruguay will become part of our best structure of the world by Christmas. Where, through Uruguay, we serve the southern hemisphere of the American continent. (1:54).

We need to understand that the separation will come in a very big way. We do not sell our systems, but we install with the doctors to operate for a nation, or for a place. The state of ??, we lost a lot of money. And that brought us to understand and open new collaborations. And those of you who invested with us, you know, most of you have received some of your money back already. And some will receive it back in the coming due course in the next few months. But it brought us what we wanted to do as a Foundation individually, in collaboration with the government. Which I always say, thanks God we lost the funds, because then we had to go through the whole process. Now we are not involved in that process, because we are just research developers. And the nation will do the rest.

And the nation we have signed an agreement and entered into work is one of the most powerful nations and the richest nations on this planet. The leadership of the nation have understood and backed us, tested us, tested the technology, and we keep out till they announce publicly about the Keshe Foundation technology as one of the prime works of the, what we call, the nation, as a new emerging science. It's a sadness to see so much work was done in Europe but in a way it built us up to what it should be and now the Keshe Foundation has entered a new era, that technologies like this will be available to every man, more or less, on this planet, because we don't have to worry about it.

Every product carries the name of the Keshe Foundation on it. It will not be something hidden behind somewhere, (1:56). from the gas production to oil production, comes to satellite space travel, food, agriculture, everything will carry the Keshe Foundation name on it. This is how they respected the technology is. Technology as our Knowledge Seekers develop, ?? we'll see and will come up into the structure to announce it on due course. But we still work and the Keshe Foundation team has not stopped working on this ground for past months.

Any other question?

Q: Good morning Rick, good morning Mr. Keshe, good morning everyone. Mr. Keshe, you, you talked a little bit, but, you know, I had, of course, Hassan said it's fake, but this is what I heard, that Elon Musk was talking about, they created AI that every single person can use that program to get funds everyday so you don't have to have jobs that you don't like, or don't have to be poor or don't have food or shelter. And it's 91% is accurate and you can do it. So my question is this, because I know in the past we always talked about how can we bring the plasma science, this technology to the society that we don't create more chaos and mayhem. (1:58). Say, when we talk about the energy field replacing oil, if we suddenly give everybody a generator or they have everything, we have so many people work in oil business, refineries, and so on and on and on. And then they lose job. So for example, in Middle East, so many people like Saudi Arabia, Kuwait, all those countries, people are going to be, we don't want to make people poor.

But then, with the advancement of plasma technology at the moment, it is 100% we know is possible if we create an App. There's one App for food. For example, when I touch the App, I say I want a banana. I feel the banana and I get the energy of it. And I don't have to eat the banana. Or for example, in terms of shelter, the shelter doesn't have, a home doesn't have to have a wall or a roof. Because we know with the plasma field, I can be on the mountain, someplace in anywhere and don't feel the wind, don't feel the cold or don't feel the heat and because I'm protected I have the shelter, it's a field. Just like the field we create that we can grow tomato or wheat in the middle of winter with the snow because we create like the dome. So we can have App for both. So if we have an App for both and people have it, so everything else is going to be resolved. Because when I have my food and shelter I don't need a job. So all the killing is going to stop and everything is going to be done. So why can't we do that?

K- Do what?

Q: Create this App.

K- We talked about these Apps will come, a few months ago. (2:00). But to structure it has taken a long time, and to structure it, come and take maybe a year or two. But there has to be a new approach, than to the App. We don't think about things on the basis of man on this planet. We are a space structure. So if you go back on the headphones and the new Combination Homes Units which we brought out. There is no App in it, there is no way you can App to it. The technology has developed, has gone further. If you're on planet Zeus, there is no Apps and no televisions and no computers that you can App it to feed yourself. But you carry the strength of the field of the human race or planet Earth. Or you see in the creature which is need of energy, you can transfer that to.

This "App business" we already passed by introduction of new technology. New technologies when will be released, has the combination of work. You can tap into it. This is part of the teaching. You don't need an App. You don't have a computer. You're in the middle of a desert. You lost your mobile phone. Sorry, you die. This is the present state of day today. (2:02). If you learn to tap into universal energy, if you learn to tap

into energy centers, which is set up across we call it, Service Centers, you're fed. You have a headache...

Q: Mr. Keshe, I understand this.

K- These are what is the reality.

Q: Mr. Keshe, I understand this, as a Knowledge Seekers, we understand this. But one thing is, like right now at the present moment, there are people in the planet have been displaced or they have certain needs and stuff like this. So this App, it can be a transition for those people.

K- Yes, it can be a transition for those people, but this is what we said months ago. But the development is going to the next step. We showed and we have tested a lot of things in the background and it's getting developed to be tested. We don't set a system. I'm trying not to give too much, but at the same time trying to explain a lot. Just one second, please.

R: This seems to relate to Mark's question in the chat as well. He had the question, "would this product or technology be transferred into an application in the future?" (2:04). So, we seem to be getting an answer to your question there Mark.

Q: Yeah, you see Rick, because you see we understand, Mr. Keshe talk about we using the, because we start to recognize the field and not only we can use the energy of it as a food or traveling or transmutation or teleportation, but because we're not bound to this planet, we can go anywhere we want. But now, there are people that, you know, they don't have this knowledge. I was at the meeting yesterday, last night, it was a lecture, there were 10 doctors there. There was a lecture about implant and new technology in a implant. And then the doctor was from Italy and then describing how the implant can be done. When I was looking at it, all these doctors are so looking at it as such an advanced technology, when I looking at it, I mean I couldn't explain anything, but for me I was just like, I had, I was shivering my bone because all those metal and frame and everything in the mouth with everything. I mean, I feel I was like 200 years ahead of what they're talking about, but even if I want to explain to them what can happen in the future, what it entails, they wouldn't even understand it. So, there are these people, I mean, we have these people, and we have people who are suffering in terms of food and shelter, we have people who are doing crime because they don't have any means of support emotionally or physically. So, this transition can help them.

K- The transition can help, we can do a lot of things, a lot can be done. But, we can do it the old way or we can do it the newly developed. (2:06). I mean, we are not the end, we are not the answer to everything. We are even ourselves a transition, till, I'm sure, other people will come into it, and they do it bigger than this, better than this. But, the new structure of technology, allows us to upgrade in, we can do it by Apps, which will be done in the coming time. But we've gone a step further than that. And there is two ways

to do it. To stick to what we've done, because it works, or to bring the new technology and add to it.

This is what you do. When you come tomorrow online, you bring us your Zoom number in. And then down, once we establish that, we connect to your Soul. That's all that's going to be done. So in the next sessions of Keshe Foundation development, we don't send you a Zoom number. We interact with you in a different way. But you receive much more, whatever information, be it wellness, be it hunger, or whatever, through the new lines of communication. If you are in the desert, you run out of battery, your App is good for nothing. But if you carry the new system, it never runs out of battery. It is connected to everything you need. (2:08).

We try to jump very fast. And I see this even in the past few weeks. It is a struggle for governments to understand the transition can cost a lot of money, can cost a lot of time. But if we don't pass this transition, if we jump the transition to a new level without the transition, we'll gain a lot. And in the next few months, this is part of what we have to convey and put into, especially in October meeting with the ambassadors in London. To show the transition is the... You see, it's very simple.

In America you use the most ?? , oldest system for your Internet. Because the cable was set 30 - 40 years ago, nobody knew these things (will) come out. But you still have to cover those costs. You're still behind Kenya and Africa in all sorts of things, in communication, computers, and the rest of it. Because they didn't have, they didn't spend on these infrastructures. So people financed it for themselves, and the government supported it through.

And we are trying to explain this to the governments, that we have to jump the transition. We have systems we can show you can jump to transition. And it costs nothing for governments. The beauty with this transition to a new science, governments don't like to spend money. But they like to earn money out of the science and technology, (2:10). but have control over it. And this new development gives them all of it.

So do we go to the Apps? We still go through the Zoom. But are we going to spend a lot of money on it, to develop it? Or we already know the next generation here. Cope with it till the next generation of science comes in, and it kicks in, and it's done. It is very much like the oil industry. We sell you the fuel to burn in your car, because if you don't do, it costs a lot of money to do it. Or we come up with the new tricks of electric cars. It's so advantageous to the refineries and to the oil companies. Unbelievable compared to the present cars. But are we going to the electric? In electric cars, which they need to be charged on the wall, or are we going electric cars, which never need to be charged? There's a lot of games played, even with this.

It's the same way we talk about feeding people. A lot of people, if you understand what electric cars means, if the present pattern is kept, it's a gift to the refineries, gifted to the oil companies. To produce electric power at the power stations we use the most crudest oil, cost nothing to refine. (2:12). We don't need to have petrol stations. We don't need to

pay people to sell it. We don't need to transport it, and all sorts of mess. As a refiner, the biggest gift given to, is these electric cars, because we sell the oil of not clean, not clear to be burned into power stations. Governments are happy instead of paying 10 dollars a liter, of let's say a barrel, a gallon. They pay 1 dollar a gallon, but they charge you electricity at the end. It's a win and win for the government, oil companies, the electric cars.

But if you try now to bring the new technologies, which allows you to do 10,000 kilometers for one charge, governments will stop you. If you bring a car which doesn't need charging, there is no way they allow you to come, because they'll lose revenue. All this game you see with electric cars is one of the most profitable businesses for the governments. There is no environmental cleaning, car exhaust. The burning of the fuel in the power stations to produce your electricity is 100 times worse than your cars. Example, look at the ships and the amount of pollution they create. Governments don't care.

But if, as a scientist, you come up with a car which now, Tesla does 600 - 700 per cycle of charging, kilometers, if you bring this one to 10,000 kilometers, which the technology exists today, (2:14). the governments don't allow it to come in. Because they have not planned for the revenue from it to be less, unless they charge you the revenue, which gives you the 10,000, the same as you charge a 700. We are in the same position. Technologies, sciences, which the Keshe Foundation, I'm sure, many, many other scientific organization done, will not be allowed to come into the market so easily, because we shake the "apple cart."

If you took a bottle of the Knee Gans and you sprayed some water on your knee, as Dean says, it's changed his life 90%, 95%. Then what's going to happen to all the operating room? All the other things which they were supposed to, all the doctors we educated to do the knee operation. And all the incomes which brings with it. What about the pharmaceuticals, and the others who are going to look after you after your knee operation. If you spray our water, (it's) done. A life of pain away, no operation done.

The governments don't allow technology. We are now in a position, that we can eradicate a lot of problems health wise on the wellness. But it has to come in the right way. We can feed people. It has to come the right way. (2:16). And if I can tune, if you understand the gravity of what I'm going to state today, if you understand what I'm going to say, you understand how advanced we are.

If I can tune through the headphone to your Soul, to feed you, to change you, do you think we haven't reached a point of not needing the headphone and reach your Soul and feed it. Now you understand. But we have to get the governments to do it. And the best test of it is, let's do it in the space, because there is no food in space. We have to feed our astronauts, we have to feed our space people. Just flip the satellite 180 degrees, you feed the planet directly through the Soul.

It's not that we don't have the technology, it's not that we don't have the knowledge. It's if we release this technology, not if, it's already been released in past week, we have shown what, in past two weeks, we have shown the government, things that you cannot even imagine possible. It does not exist even in the sci-fi movies and in the imagination of the man today. They had to taste it, they had to touch it, they had to feel it, and even that has caused them more headache than where we are today. The leading scientists of a nation, the most powerful men of the nation, have stood in this environment, (2:18). and had to accept the technology is beyond even the knowledge of the man. They had to feel it. And even feeling it, they are baffled in how such a simple technology can create such a mayhem.

For me to feed the man it takes no time. I don't need no satellites or anything ?? But man has to understand it, that in the space can teach himself not to do what he's done on this planet. Most powerful man on this planet Earth are watching their eyes, the baffleness of what is happening around us, in past two weeks. What is next? We have the knowledge, we have the technology. But as I said, the political arena, the financial arena, the power point of arena of this planet, in past two weeks has changed. And, gradually will change a lot of things.

But we're in the space technology. Governments have to find a way that it becomes a human technology on Earth. I can cover myself with saying this is what we do in the space. But governments have to turn it for nationals and other governments to accept it. (2:20). We're so advanced in technology, it's beyond your imagination. And we don't talk we are, we have shown it.

Q: Mr. Keshe, I am thinking about all this, bring me back to another question I have is. You see, I started to teach the from beginning of the Knowledge Seeker number one. And we are right in the beginning. So when I listen to those, I wasn't a student there at that time. You were saying, "with the movement of my pen, I can make everything under the ?? surface talk. All your war mongering, all the killing, ?? everything."

<< audio breaks >>

K- We can't hear you.

Q: Can you hear me now?

K- Yeah.

Q: Okay, so my question is, why we so keen on attaching ourselves to the government and the government...

K- Let me, let me, let me tell you one thing Azarjan. We have moved our "pen." In past few days, we have released a "pen of knowledge" to the leaders of the world. Not by talk, by delivering of the technology and showing it. And, it takes time to go across to the other world leaders, (2:22). and go across to the understanding of the others, and the nationals, and then to the back of the African villages, and to the palaces of the kings. It's not that we haven't, we, as you say, you said, "I move my pen." My pen has moved in

past few days. And there has been Knowledge Seekers witness to it. And the same with the world leaders. The Knowledge Seekers stood "shoulder to shoulder" with some of the most powerful man on this planet, to see the technology and its beauty.

And now it's in the hand of the leaders to understand it themselves. And then it takes time to think in how to implement it. And how to understand that the technology is not for the man on Earth, but it's for the "man in the space." When even we send you to another part of universe, you're still connected to Earth through the line of the fields of your birth. We still can feed you. Not food, and apple, and orange, but through the fields that you need to survive the span of the universe life.

We have shown one of the most powerful technologies ever existed to the world leaders in past few days. (2:24). And they are puzzled how this technology, like the cap you saw, the bottle you saw in simplicity, can change the course. We will use the London conference with the world ambassadors to bring in a massive change in the course of humanity. It's not just a simple presentation.

Q: Mr. Keshe, I have one last question. Say you left this planet and then, and maybe I die or leave this planet too, and then and if I bump into you, do I know you? Do I know, that I know you?

K- All your dream is how to bump into me somewhere. As a Soul we don't bump, we are aware of each other.

Q: We are aware of each other, but do I know, that I knew you on this planet?

K- Of course. Of course.

Q: Thank you Mr. Keshe.

K- Just be careful where you bump to, and who you bump in the Soul level. It could be much stronger fields and it can, you can end up in the other part of the Universe, ?? you know the bump will be ?? .

Q: Okay, thank you.

K- Thank you very much.

Keshe Foundation in structure will stay the same. But in operation and delivery of the technology, in the coming months will change drastically. (2:26). And one of the reasons we are moving totally out of Austria, is that we have moved into a new position with our collaborators which, through the strength of power, power of the political, and the financial, and military, and defense and the space, gives us the opportunity to open new doors and allows the nations to become more powerful, to be more peaceful. The gun policies of United States to be more, to sell more, to be more powerful in the arms. We have changed it to be much stronger in technology and sciences. That makes the arms of the United States obsolete.

The Iranian military forces have shown the power of this technology in defense, in January of 2020, in Iraq. Not to be aggressive, but to be defensive. To be in a way, to defend what was planned to deliver in a massive way. And it literally decentralized all the plans which Trump and his son-in-law planned in Tel Aviv for Iran. And with it brought to show whatever was sold to Middle East, to the armed ?? militia countries as a defense against Iran, could not even defend the manufacturers and producers of defense, because ?? they couldn't defend themselves ??

Now we are entering the next phase, where with technology, we make everything obsolete of the past, in so many ways. Not only defense, space, not only space, the food, (2:28). the energy transfer, the health transfer. The same machine can feed billions of men on this planet. One machine. The same as the "Soul of the Creator" fed the whole universe.

So we have the knowledge on both sides. And now we have contemplated and we have come to an agreement with one of the most powerful nations on this planet, to bring that cycle in. But they need themselves to understand in a slow pace what is coming in. The "gun policy" to sell, to be, to create fear will be replaced with knowledge and technology, which brings comfort and peace and equality, not only on this planet. Then it goes back to the time when everything's peaceful, man will progress in knowledge and technology in a much, much more rapid way. That "heaven" which was promised has arrived. And we didn't need to do much, we just had to show the power of the technology, in its peacefulness and its beauty. And we have shown. It's now just getting slowly, next few months and years.

The rest of the world leaders on the same ?? ship as we call it, and ?? same soul. Making more aircraft carriers, making more nuclear weapons, making more weapons of mass destruction, has joined the, what I call, the time of the "bows and arrows" of the knowledge of today. (2:30). If you remember, when you go around Europe, and most of the places around the world, they used to dig trenches (and moats) around the castle, that no one can cross the water, and they could protect the castle. Till the first man came, first was the arrows, and then when a cannon came, and then when the planes came, these castles were nothing, became museum. The present nuclear war mongering and the systems, now has become those castles with all the, what we call, waters around them, obsolete, because you could cross it, you could bridge it. Now we can bridge that point.

Nuclear weapons have become obsolete, with what we have shown to the world, it is in past 7-10 days. All these aircraft carriers are good, for children to have holiday on and play with, on it. And it's for governments to start this ?? . And it's for governments to understand it. We've become very, very, what I call, outspoken about this. Because now we have started delivering technologies to a nation, to world leaders. That with it, they can see the changes they can bring in. Humanity is fed up of killing. Humanity is fed up of all this mess we created, as citizens. It is just a few people would like to be the leaders who create all the mess.

And with this new cycle, we take that out of their hand. (2:32). And in a way, we give it to the STM. Most of the world leaders suffer from all sorts of cancers, diseases, and they are like what we call, "Hollywood actors." They're pumped up, they're 80 years old, they make them up when they look 40, because 40 years ago they played in Western movie, which was very popular. People won't recognize their face compared to 40 years ago. It's the same with the world leaders. And now, they do anything to stay more in power, and be called, whatever. And with this technology, it does not exist anymore. We all become equal citizens and comfortable citizens.

But it takes time. And because the knowledge is transferred to scientists of a nation, will not be shelved. And in the peace conference of the world ambassadors in October in London, we will bring the shocking news and technologies, which none of you could imagine existed. We'll see. it's time to deliver the technologies, not to a few, but to all, but at the same time.

Any other question?

Q: Do we have so called, (2:34). "critical mass" in plasma technology like in nuclear field?

K- What do you mean by that?

R: Well I guess he's saying that...

K- We have "critical energy," ?? it's part of the... We have critical energies. But not critical mass.

R: Right. The critical mass in nuclear, as you know as an engineer, is the sort of a break even point where the...

K- I know nothing about it.

R: .. Things run away or whatever. But in plasma technology it's different. So, could you just explain that a little bit more, what you just said about that?

K- Critical mass, or whatever you call it, and when it runs away, we call it, "China Syndrome" in nuclear industry. Literally what we call, Fukushima, it was known as China Syndrome. In the energy, we don't have a critical point. In the energy of the plasma, everything finds balance. And if it reaches a point of not being holding the fields together, we reach a point of sharing and splitting. We call it, in a way, "fission."

So, critical mass to run away and create mayhem, does not exist in the world of plasma. (2:36). What we call, ?? "outer surface tension of the fields," cannot hold on with the inner gravitational field forces. Certain amount of gravitational field forces, take part in separation according to their strength, but they still carry the ?? outer strength level surface with them, which means they cannot enter each other.

In nuclear industry, as we know "China Syndrome," critical mass which, and then you go into overloading the energy, then the mass, going to China Syndrome is, it cannot happen

in a plasma technology, impossibilities. And I know nothing about nuclear to start with, so it's much easy to understand the energy.

Any other question?

Q: .. Okay, hello Mr. Keshe, hello everybody.

K- Long time we haven't heard from you Mr. Mosfeq.

Q: Thank you. You just mentioned in response, what you mentioned in response to Azar's question, it kind of prompted me, I didn't want to ask this, but anyway I'll ask it and you may choose to comment on it. In the last few meetings in elevations of the children and the... those who are, you know, (2:38). abusers of the children. I participated in those meetings intentionally without any devices. I did not feel any difference compared to whether when I connected with the device. Of course, I didn't hear the actual voice instructions, but I felt things, and it was somewhat clear, I may not be perfect in it, but it did, something came through. And, would you like to comment a little bit on it? Perhaps it's my ?? descent enchantment with the...

K- Tell me how you connected?

Q: Directly through my Soul.

K- How did you, how did you connect?

Q: Essentially what I did is...

K- Yeah, but I mean, you didn't come through the Zoom?

Q: No, I didn't come through the Zoom. I just, through my Soul. I essentially tried to recreate, you know, there is a sensation one feels, once the connection happens. This is how I have been doing it. So I essentially lowered the field of the blood flow, and I feel something different when it happens, and then I connected with the system. And I feel certain something some other feelings and this is how I connected. It was very distinct sensation and, anyway so this is how I did it. And in any case um yeah, I'm not you know, I like this because it seemed to work. I mean, maybe it may not have been perfect, but it did. I mean, at least to me. And I just wanted to hear your comment on it. As I said, you know, I have enough of these digital computers. (2:40). But anyway.

K- It's not... If you have managed to link up to that level, you don't need it. The Martians and the people on planet Zeus receive the information and the knowledge the same as you do with the headphones and your telephones. There is no need for what we recently brought up as computers and communication systems we are aware of today.

If you have reached that level of maturity in the level of the Soul, you can quite easily bypass our, or even the systems, and reach the Soul of the abusers. There's no exclusivity.

Q: This is something else, in addition to what I just asked you. And I have tried that as well. And, and there is a feedback I get, when I do it. And this...

K- Can I ask you something? ...

Q: Yes.

K- Did you reach our system or did you reach what was the feeling? You reached our system?

Q: First, I mean I've done two experiments. One is...

K- You felt that you were in communication with the system that...

Q: Yes, that's the first one I did. And then I did the second one, which is whether I can do it directly. And actually I came in contact with a specific Soul. (2:42). When I was doing it for the children, and that's your son. You know what I mean. So it is something definite that comes through for me. I mean, I maybe there might be some errors here and there. And maybe I may get distracted in things at times. But things do come through and that's my feeling of course. It's a feeling and I don't know it beyond that I can .. it's difficult to talk about these things. But I'm just saying what my experience has been.

K- Yeah, but you don't... this is what I was saying earlier on. You do not need the system, but the system is a tool for you to know what to do. And as we go deeper and deeper in teachings, many of the teachings will become a silent time, than the voice time. Very much the way you have it during the sessions. During the sessions there is no talk. I mean if we instruct something we want to do, yes, but in general there is no, nobody talks except you listen, you hear, you receive the energy from a system, which is set in a specific way...

R: Even the talk is very minimal when you do that and most of the verbal that we hear is just the translation of that initial sentence or two that you say, (2:44). and it has to be translated into several languages and that takes time otherwise it's quiet time. And it's very, very bizarre, because you're using Zoom which is known as for social media, for videos, audio, visual and so on. And, we tune in to Zoom with no visual and no audio basically, to be quiet. And, but yet the microphone has to remain on. So, it's a very unique situation and forces everyone to go into a particular position that they don't normally do when we're on social media. Social media is normally about talking and interacting and all of that "busyness," with our busy brain and so many things to think about and do as humans. But then in this, in this program it's a different situation. Everyone is quiet, but yet together. It's very, it's a beautiful approach and I thank you Mr. Keshe for coming up with that. And it's, it's great.

K- It's something which we, in a way, allow the expansion of the Soul. And this is what it is, when you expand your Soul. Once you learn to link, you don't need the intermediaries. And the more you link, the more you learn, the more access you receive. And this is the whole object of these teachings. (2:46). And in the future, many of you will, will do that automatically. It's just I have to show you how to get to the uncle's house. And once you learn the way, you go to the uncle's house, you don't need me to show you.

Any other question?

Q: ... Because recently, a very famous music star had suicide because of her depression. So our Chinese team has somebody asking, what's the reason to cause depression, and how to handle it?

K- Many reasons for depression. Many, many, many, many reasons for depression. And 99% of it, we bring it on ourselves. It's that we cannot achieve. This expectation could be communication, could be material, could be anything that we cannot reach. And we see ourselves as a failure, and man does not like failure. (2:48). And depression ...

When you speak for like a musician, a singer, we've seen this in very big numbers compared to in past 10 years, compared to before. The musicians expect to sell 100 million, but they don't sell, they sell 50 million. They don't look that they reached 50 million. But on the other hand, they see themselves as a failure. But their social life is not what we see outside.

Depression has many reasons, but primarily it's a change in the level of certain fields, which does not reach. Our team of doctors work on this quite a lot in the past recent months. But with the new technologies even what we use now, it's become obsolete. We can find the strength of the fields of the emotion of depression and feel it, that it become the strength.

But generally, depression comes from not receiving what you're expecting and not achieving what you wanted, and seeing yourself as a failure, and then it leads up one to another. Not being satisfied with, with what we call, (2:50). with life in the dimension of emotion. Which triggers by the physicality. It could be a word, which we like. Not having, it usually comes from shortage or loss << audio breaks >>.

It's very easy to process with the new technology. Very easy. And you have to feel what it is and how you can reach to add to the strength of it.

Any other question?

Q: ... Good morning, thank you very much. I would like to make this question to Professor Keshe. How to make a water Gans for world peace? << audio breaks >>. How to make a water Gans for world peace ?? spray to president Biden and Pentagon to gain peace with Russia? (2:52). Thank you.

R: You mean spray, not spry, I think.

Q: Spray, right.

K- Can you repeat Rick?

R: Well he put the question in the chat here, "how to do a water Gans for world peace to spray to president Biden to gain peace?" How do we spray President Biden and for all of the peace on the planet? Maybe, you know...

K- The thing is, he's just a "puppet," as we call it. You have to spray it over those who are the instigator of it. The people who make money out of war. You can wash it with a Gans water of peace ... It's impossibilities, because these people are just a voice box, especially in United States, for the people who pay them to be there. You got to reach the Soul of these people, not the water to wash them. See he's Italian, he still thinks of baptizing. And these people cannot, (2:54). or it is of the Christian mentality, we cannot, these people have to be elevated through the Soul.

Any other question?

K- ... Can we finish in about 15 minutes please?

R: Sure.

Q: Just to give you a proposal, to make a proposal, regarding our television, could be in a pod cast manner? What do you think? Because I am always thinking about our project. And I feel not so well because we didn't achieve yet to do this. And I am just thinking to solutions. Thank you. It's easier way to teach...

K- I don't understand what solution you're trying to find for what?

Q: For television. Television by pod cast.

K- The television .. and the rest of it, it does not work if they don't allow you to spread the knowledge. Or with the pod cast. This is one of the biggest problems which needs to be solved in different ways. I think in next few months you will see Keshe Foundation becomes fashionable. And all televisions and all the stations would like to speak about the technology in one way or another. We are reaching that point. We'll become our scientific work, (2:56). our peace work, our Soul work, will become very fashionable. And that's the time when we should ?? not lose track. And we need to reach masses and not a few. You got to remember, television and pod cast nowadays don't carry that much weight, not many people spend watching. The only majority of the old people watch television, television has become a thing of the past. The young generation does not have much time to sit in front of the TV, unless it's a beautiful football game, or another match or something.

The science of new communication has changed. And we have to reach those through the new sciences, new ways of communication. And it needs to be done by governments, that they have to, they can stand the, what you call, the abuses of the power of organizations.

Any other question?

We'll close in... after this question we can... ??

Q: Mr. Keshe, it's Dean here, may I ask a quick question Mr. Keshe?

K- It's been three hours now. Yes, yes, go ahead.

Q: Thank you Mr. Keshe. So you'd mentioned something very, very important just then. How do we reach the Soul of somebody to elevate them, who is creating a condition that's affecting many others, that we do not know who the Soul is, that's doing this. How would we reach that Soul, to be able to bring peace to their emotions?

K- Reach the Soul of the others, that they know how to reach. Find a friend who's got the telephone number, but in the Soul level. (2:58).

Q: Okay, thank you Mr. Keshe.

K- Many of you, many of you reached the elevation of Soul of the world leaders. And it has worked, you will see it.

Q: You just said that the world leaders are not the ones, it's there's others behind this. So, it's reaching the Soul of the... the seed...

K- You reach them, they got to... listen. If you reach them, if you reach the Soul of the world leaders, they already got to become world leaders by reaching, or being in reach of those Souls who reached them, their abusers, or the power players ?? If you understand what I'm talking about.

Q: I think partly Mr. Keshe, thank you.

K- Through the Soul ,we brought them to that point. It's the easiest way.

Thank you very much for today. I have to leave. It's over 3 hours. And we try to be very, very, what you call, upfront and open about the things. As usual, Keshe Foundation has been and we keep to that manner. But we don't expect, but we were working on a massive changes for the Keshe Foundation. Those who are close to us and work with us are aware of it, and we will not stop till that point reaches. And that needs a lot of support from a lot of you. You supported us financially and we worked very hard to bring things in past 10 years, 15 years, you've been there with us. Now we need the support of the Soul because then we have reached what we came here for, to bring the change. (3:00). And in past couple of weeks we see huge hope for that change to come. And we hope our hope becomes reality in a very short time. Thank you very much for today. Thank you very much Rick.

R: One last question Mr. Keshe. Do the sessions tomorrow start at, there's people are asking, do the sessions tomorrow start at 12 noon like previous?

K- At 12 ...

R: Sorry, you broke up there. Sorry, we can't hear you Mr. Keshe. He's gone totally. I think he was about to say 12 noon. And he's just cut out, I think things are happening there. Okay, I believe that's what it is.

494 KSW July 13, 2023
