headquarters in Miami; Can tests mineral reserves that a planet contains within its structure - do not drill holes or mining; Longer stay on surface of planet the deeper we can see into planet; This is part of Colonization of Moon & Mars program; For 20 years he supported KF - financial worries - criminals - now no worries - Chinese supported - KF focus on research; Now we have achieved my dream (became emotional) with Chinese government - exchange T for peace - through "Silk Road Policy" becomes Peace Policy - One Road - One Belt; This is why we came to Earth - achieved it; Chinese leadership has signed themselves to peace - this is why we signed with Chinese; End of American "Gun Policy"; In coming months sign away Nuclear Bombs - new T means no need for weapons; Chinese army to become "Peace Army"; T so powerful nuclear bombs & supersonic missiles "toys in hands of child"; Kept informing you about signed agreements - kept silent - Chinese invest billions into KF; Massive factories getting setup produce products - bring prosperity fairness to China - poor get what they couldn't have before; Losing so much to "Bandits of Western World" pushed us to Chinese - now we have what we wanted - powerful nation to bring peace with T; Today's teaching confirmation of 40 years work; President Xi will achieve Silk Road Policy - feeding nations through power of Chinese government - China will lead world to peace; Delivery Health - Food - evolution of T through Silk Road; Armies dismantled become "one army" of science and T; Worked relentlessly 7 years with Chinese team traveling China - also Austrian team relentless work enduring for T; All of you KS helped us reach this point; Got to this point by teaching & sharing knowledge openly; We have partner to be proud of - respect & honor Chinese signature; Teachings - traveling with Soul; Changing environment through fields to fit us; If in new environment Cu is changed for Zn - muscles tissues body will be Zn based instead of Cu - we will still exist; Can change MG field environment on Earth to see ahead of time how we will look when manifest on planet - 10 arms 20 legs; Means if we change Inertia strength in given matter state & GM field - we'll see a mutation; Videos of material production test property of Chinese military; Different compositions occurred during test - shows how structure change through properties fields; Can transmute instantaneously - you think of destination and arrive there - you will already changed to new body on Earth; Mutation before travel guarantees life in P at destination - no uncertainty how will manifest; If STP accepts change - STM will manifest; Huge change how travel in Space - no "monkey suits" - free to hug partner and feel emotion of love - not be outsiders when arrive; I look at field transition & transmutation during test - you look at material condition; Test room was "raining" particles of matter state - like upper atmosphere; Observers could see "rain" from outside building - though the bricks - matter state not a barrier; Means can go through Space as fields of STM; Tests have broad effects - in Health etc - can use fields to expand Soul; We can expand Soul to outer boundaries of the plasma we create - inside our own plasma; The longer we run system the further the plasma expands through U - then we can travel further in U; It's like only being able to go as far as fuel will take us; In Manchester get taste of travel through transmutation - become part of the teaching same time learning - "guinea pigs"; Life of participants will change; Final 65 meet in Beijing - passengers of U; December - first 2 people to Moon; Over time increase plasma to size of U - Soul of Mitra inside; Financial condition manmade - health depends on P; Souls don't get sick - different field strength; Beijing conference - might speak Chinese through Soul; By end of December governmental policies change - through expansion of fields - reach

leaders - world yearning for this - all will be equal; Make one common denominator Soul out of us - like one atom in stone same as others; Goal is One Soul out of Creation; Now with Chinese backing - KF has no financial limitations - to trillions; Our job develop T & bring prosperity to China & humanity - headed by Chinese; We say how & where - they say how fast; New T can reach all of our Souls and elevate us to next step - expanding sphere; Learn new languages - no crime - no courts - no drug trafficking - no child abuse - all become balanced through energy of Soul & STP in D of P; Tested when elevated Soul of abusers - STM - STP & P became one line on graph - achieved it - no need for survey at end; Still can join July sessions - taste new D - bring change; In Manchester conference many will change - knowledge through Soul not schools; We came to Earth to bring change; In test expanded M fields of plasma of system - whoever is inside expanded fields has access to all knowledge it contains; Explain to everybody not just to few; Manchester - London - Beijing conferences will change many - go to next step; Bring T unknown to man in 2024 - process started with exposing false assumption about age of planet & U - life in U based on Plasma - thousands of billions years old - but this is man's time - no time in U - it was just created; Youngsters will learn before us - not ingrained with wrong information; Be ready for change - months ahead; Teach open manner - no formulas - the system is your Soul inside you - you control strength of link; Goal is to make One Soul out of race of Creator - in time Man & U Community will understand; Science of Creation different than manmade science - only for himself to "understand" matter state of his life; M fields in motion is power of Plasma; Most beautiful time for man has arrived - we all work together - change will come; "Silencing of the Guns" in next few months - Chinese will enforce peace in exchange for T; American nuclear weapons become worthless - change Gun Policy - not work against each other; Deliver T to Chinese for peace - not become new superpower - all inclusive of whole humanity; I trust Chinese leadership - seen correct conduct in past few months - so agreed to next step; They can choose which part of ocean of knowledge to take from to speed up peace process - no hunger; When Chinese observes saw materials expanding outside room - fields will gradually spread throughout planet bring change - then beyond planet; I develop technologies for peace & share knowledge to create conditions of peace; Chinese government doesn't put more guns on street like in West - instead create conditions so no crime is committed; No one will need to commit crime to feed themselves; The center of plasma knowledge will be based in China; KS will become teachers of Plasma; Chinese leadership & KF management work "hand in hand" to rapidly bring out T; Thank KF Chinese team - Chinese officials - KF China has become part of the 14 and 15 programs within Chinese government - part of national structure of science and T; "I have come home & I have delivered what I promised."

Once sold out no new KF products from KF - most won't be repeated - Chinese have different idea of commercialization; Try to get electric & gas generators out - setting up new factories in China; Teaching on O as a gas and Gans - G point of both liquid and gas - gravitation fields connected to Fe; O & H gases but when mix in fields of Inertia GM field of planet - can exist in both D matter (liquid - water) and energy (plasma or Gans) - how it manifests depends of field strength; Study this teachings carefully; Developing detection system for Gans - will separate matter state physics from Plasma science; Chinese scientists have to understand difference to work with plasma; Gans and matter

state gas can coexist together - why see strange results in matter state experiments - scientists ignorant to knowledge; Can change nuclear warhead to gas state while still in warhead - disarmed; 95% of body weight in plasma state as Gans of water - inside skin different atmosphere; Effect of new T use on secret space programs of government; Cannot stop advancing research because think you have solution to everything - otherwise go backwards; Secret programs change drastically - won't need - everyone equal; Experience with little girl ingrained to think white skin is superior; Shows video of new systems in Wellness Center - serve planet by remote; Electric motor and generators more powerful as MaGrav T; When you reach a balance, there is no sickness; When STM - STP - P reach balance - no more sickness - what it means "to go to heaven" - is ultimate goal - in time brings everlasting life in all 3 dimensions; Stronger feeds the weaker - equal to itself; For human life this balance is always being blocked by emotions - "short circuit" work of P - reach a point where STM - STP & P don't see each other as different - when emotion same - will not be different - this is what is lacking within M field of Earth; Teaching about tilt of Earth create different field strengths and diversity; Has different emotions in winter than summer; One of 3 - STM - STP - P is slightly out of position - some diversity is killing - not in harmony with other 2; Now we correct - doesn't create wrong emotions - with T; Because emotions of P are GM field based plasmas - can correct with new T; Personally thanks Wang Lin for all she has done; Dr. Bararpour a great man - his Soul continues to work towards goals of KF - the work never stops; Wrong understanding about how STM or STP weaken to let the other go out; You don't weaken Soul - transfer it to another position - like sheep skin inside out; Can reduce M fields and increase G - but it is the same field; M doesn't change into G - same field changes direction but we use terminology that way; It's like changing from receiving to giving; Energy can change into Matter and then again back into energy - magic of Creation & work with fields; Taboo of science broken when we understand interaction of fields; If change G field force of the center of your plasma - manifest yourself as a field - instantaneous transmutation; Transmuting Cu to Zn; Produce system to measure speed of fields in transition - surely see a light - twice for plasma & matter state transition time; The trick to change matter state is the Inertia; Our body does it automatically because it remains in Gans state doesn't change into matter state; When we die only matter state bone structure left; Muscles and other tissues are in Gans state surrounding matter state bones - so already expanding a plasma over the P; Bones have skin to create separate atmosphere around them; Matter state is living within plasma state; When we say "expand your Soul to encompass the P" - your Soul is already doing it with the bones; Some Chinese scientist using expansion of Soul to block T - but expansion of the Soul as a plasma over P is already existing - So what are we afraid of; Netherlands using misinformation about Nitrogen (N) to get rid of farmers; Wikipedia about N - scientists contradict themselves - say rare in solid Earth, then later that most N produced in layers of Earth - they do this because they cannot accept that the fields of Sun and Earth interact to create N in upper atmosphere - this is what was shown in recent test to Chinese; Physics dogmas conflicting with new science; Matter state is shackled to P - while the plasma state has freedom of U; Can't use matter state to explain plasma state; Have to accept how stupid we were to believe all that stuff; N is not volatile; Politicians in Holland damaging nation; Souls accommodate each other - there is no dilution - we allow & accommodate things to happen; Measure integrity of a nation - look at crime rates &

domestic violence; Crime to do with hunger and lack; Domestic violence always emotion involved - learn main structure of domestic violence - then build systems to change; All races of Earth now connected together in the Enhancement Units (EU); Feel emotion of all races in one time and place - ignored by science up to now; Cannot run a society without understanding its emotion; Cannot run your P without understanding the emotion of its Soul; Drugs don't work because don't understand emotion of cause; No medicines for emotion because it's plasma based - new T uses plasma can elevate emotions & change things; Cataracts better processed with fields in new EU - rather than Gans's; Chinese release of KF products will be bigger than Amazon; Problems with Gans use in agriculture - metal in irrigation pipes & system - and need to constantly add amino acid to crops; We don't use Gans's anymore; New T changes fields of whole environment for agriculture; KF T will be transferred to nations through Chinese "Silk Road Policy" of "One Belt - One Road; Don't need splitter to participate in July flight sessions - can use Soul; Extra headphones to guide Soul to area needing help; How will China having T effect emotion of other nations; Can elevate Soul of Biden to go the way of peace - not control his mind - he still remains free; Mr. Keshe always warns Chinese leaders not to become arrogant and feel superior with new T - rather become more humble - think to serve humanity to bring peace; African nations can spend Defense budget on building nation; Chinese satellites can be used to feed survivors and provide "medicine" in disaster zones; Colonization of Moon; Did Chinese retrieve flag from Moon - has to be approved by Chinese - nondisclosure agreements; More and more nations will join with KF & Chinese; Bring prosperity - no one will die on streets of Washington; KF has no more problems with finances and western bandits - focus on research; Why China - media has spread a lot of bad things about China; 2 reason first they think like us - don't have problems of religious doctrines fanatics - upbringing in Taoism & Confucianism; Second - Chinese military wants peace - have to defend against American nuclear weapons; Mr. Keshe spent time with both American & Chinese military; Chinese talk about not wanting war and peace to develop nation; Americans talk about being superior and everything they can do to have war and nuclear weapons - totally different mentalities; Western people programmed to be afraid of other cultures - to create bigger weapons out of fear; Pleasure to be with Chinese military; American military show how evil the man can become; Fox News and media brainwash people to not like China and be afraid of them; Mr. Keshe's first visit to China found it to be totally opposite to what West portrays them as; They still have problems and lots of work to do - going through transition - take another 50 years; He is saying these things from own experience of China; No crime or drunkenness on streets and cleanliness is beyond Switzerland - West doesn't tell you this because they cannot deliver it to you; No guns are being fired on streets of China - it's safe at night - impossible in West; Building a culture like this takes a long time. (Note: It seems China is the hope for bringing the T out - whereas our experience shows the western countries are doing everything to try and stop the T from coming out. Through China we are getting closer and closer to realizing the new technology. It would be good if we educate ourselves to the truth about China and then join our Souls together to strengthen our intentions to help the process).
