Topic Index

Our Souls are part of the integrated system of this U; Even if die in desert still become part of U - cannot run away from - made of Soul & P part of; Whether king or peasant go to same place; Have we helped bring peace to another creature or our own STM & STP; Ambassadorial Meeting in London shifted to Armistice Day - Nov 11th 1918 - day to end all wars; Meeting will be end of wars & start of peace - exchange T for peace; Bring new flower of peace - replace poppy; Ambassadors of Iran - China - US - Russia & Ukraine invited - test leaders commitment to peace; KF is backed by 2 nations; Material production from fields - breakthrough in space T - waiting for centuries; Peace will come with change in T; Proving T to elite scientists step by step - being accepted as a breakthrough - becomes springboard to other nations; At same time opening doors to expand T; Iran will join; T to bring STM into operation - not aircrafts & UFO's; From energy to matter - now show change man into energy - travel with STM - will shock leaders & bring new D of Space T; Nov 11th bring Iranians to sit with Americans & Israelis; Give ambassadors first hand experience of T - take back to leaders & nation; Show leaders how we operate through Soul - have ignored our creator & understanding of own creation; After achieving "lift" of space reactor in Tehran 2008 asked what is next - what do we do when we land on Moon - how to survive & interact; This leads to completion stage of teachings; Turn up strength of Soul to manifest P on Moon; Want to live in environment of Moon - not spacesuits; How to get back to earth if land in other U by mistake; What if end up as stone on Moon - feel emotions of environment - how to get back; The knowledge can't be taught - it has to be felt - becomes second skin of STM - like a reflex; Be able to take energy of STM and transition into P; Earth knowledge limited; When travel with Soul it teaches you emotion of languages & culture - not learn in schools - knowledge becomes natural part of life; Practice living in U on Earth - make sandbox; Like swimming pool of fields of Alekz in Nigeria; A pool for feeling emotion of Mars; Can KS learn in mass as group; Family travel as group to same place - "hold hands" not to get lost in space; Look how planetary system connect to each other - same time follow rules of plasma flow; Best teacher is to look at nature how it interacts; Science by "true" sense not matter sense; Physics lacking in knowledge; See pattern in U

- solar system - Sun has North & South Poles and flow of MG fields & rotation; Why does Moon rotate - connect to other plasmas; How do we control G & M fields to attract or repel for positioning; Scientists to open to two parallel sciences matter & plasma or fields; Teachings not to show systems but to enlighten; God has no patents - no good few meters above Earth; Patent of Creation is set in STM - in D of P; Interaction of fields led to creation of Creator - how we are created from interaction of same fields - just as Sun's fields created Earth - so to fields created Soul; Is one of our planets belonging to a bigger planetary system we don't see; How many intermediaries of planets galaxies universes between us & Creator; Does enlightenment come when go opposite direction to Creator; Do we get release of energy when travel opposite to Creator; Hard for scientists to accept matter created in upper atmosphere from fields of Sun & Earth; Interactions between Souls - we don't see - person crossing street ahead - another planet - ignore creation of plasmas; Plasmas created all the time; See light when holding child; Does lover really love me when holding tight or thinking of other lover - cannot lie through the Soul; Learn to distinguish love & fields between Soul and D of P; Teachings about opening Soul - deepening understanding of interaction of fields; Emotion of Soul will guide us in Space if planet is right for us or bring demise; KF teaching not about physical love but Soul love; Can test Space life on Earth; Man only acts through P and not Soul - most relationships on Earth will fall apart; Learn what feelings - emotions - colors mean through Soul - "calibrate Soul"; Man is made in image of Creator - when man is a creator himself then what does he create - how interact with his creation; If giving too much love strangling child - need to understand strength of own fields; Can touch ears together communicate with Soul - try with lover - watch when they wake up if received love; In the Soul - "thy shall not steal"; Not religious cult - test D of true life - understand value of love.

Entering new era in understanding Creation - matter and energy side; KF T is not separate - it understands energy side of Creation - man has ignored; What keeps planets and stars apart and from sticking to each other; fields of plasma keeps Souls apart and separate; M fields have been missing from science of Newton and others - this is how everything functions; It's M field strengths between the two entities that keep them apart and dictates space between - speed of rotation - creation of energy through rotation; KF is filling in our gaps in knowledge; Do interactions between plasmas create emotions; When understand M field interactions & why gaps between entities & how it is created & what strength maintains gap - then picture is complete; Soul is plasma has gaps between other Souls - it's same knowledge as with planets; Soul is dynamic plasma can add and take away fields; Dynamic reactors have control over fields can create magnets for anything; Man only know metals as being magnetic; Can attract anything by creating M field of it in reactors; Can expand or reduce fields - create different fields - isn't this enlightenment; Man does this by eating different foods - gets different M field strengths from foods - adding knowledge - brings enlightenment to himself; Who determines kind of foods we add to Soul - more light more enlightenment; Knowledge of Creation same for Earth Sun - reactors - STM; If not facing Sun don't see light - not interacting with its fields; Knowledge of plasma is knowledge of Creation; Life doesn't start with matter state - but with interaction of fields to create plasma; Interactions of plasmas accumulate to physics - chemistry - biology - STM - finally Soul of Creator; Beauty of understanding Totality

of Creation - need to understand about love - we are part of the love; We created the Soul - it is us - within us; If don't manifest in matter - remain in plasma as fields going nowhere - manifestation is confirmation of existence; We interact with another plasma to confirm existence; Last 5 minutes is key to work of Creation; It's not intelligence but Soul that creates plasma - or the Totality creates the Soul - depends on how you define intelligence - intellect is not Soul; Knowledge of other creations comes through Soul; When travel the Soul gives knowledge of language & culture of new planet - it's "pre-taught" on arrival; It's not "déjà vu" - learning through Soul - enlightenment; Example of KS - felt it was going to be bad day - and was - Soul communicated its own plan for P; Soul makes arrangement with other Souls for what is to be experienced; Soul creates emotion and then arrangements with other Souls; November 11th Ambassadorial Meeting - many be shocked by what is to come; It will be interaction of the Souls that are preset to create a new condition - we'll see what the other physicality's do; Is it enlightenment - or education of Souls - us learning to be in both D; Watch ourselves being a "pawn" in "game of Souls"; Write wish for peace on cards - give to the ambassadors - you give a "Soul" to them - enlighten them - bring change; No traffic jams when hopping on M fields - MaGrav Positioning; Subconscious is not a separate entity - understand how STM STP interact and create emotions; What we call "intelligence" or intellect is not the Soul; Emotions created from STP & STM interacts, third way is P with the STM - when STM protects the P from accidents etc; Subconscious term made up without knowledge of Totality; Goes back to 2 fields interacting creating Mass & Weight; STM & STP interact to create emotions; Is subconscious referring to a higher order field that knows what the Soul will do; "I am the beginning, and the end" - because I am created ?? out of my own creations; Every interaction creates still more interactions which turn and interact with the original interactions - it's constantly making plasmas; Plasmatic Biology will create new species - but they won't be like GMO instead they will be their own creation - plasmatically; Plasma energy such as Gans can be used for Wellness by KS as much as by me - only difference is I know more about field interactions and conditions needed - will come with experience; With Naomi he didn't do anything to help her physically - only through the Soul & P responded - 20 people witnessed; We are masters but don't abuse; With flick of finger make every president sign peace - but what about gun manufacturers loss of jobs - this time no magicians - people have to elevate Soul; At death & transmutation MG fields of Soul flow in plasma of Earth - become part of fields Inertia - then go to other parts of U; Everything is connected to everything else - have to find path; Creator shows Itself in man's life called - dream; Taught "Gans of Gans" in past many applications; Now Gans of "Gans of Gans"; KS won't accept because can't see any matter state there - only fields; Use it to elevate Soul; Have to accept can't force; Medical questions not allowed by Google; Gans of Gans could be thought; Neutron Gans - see work in Fukushima; Manchester have diner last night - "last supper"; Come without expectation with clear mind - take back elevation; London conference 5 days prior to Ambassadorial Meeting will build up fields of peace for elevating Soul of leaders; August flight - private sessions with graphs of Souls will begin.
