Topic Index

In Amsterdam original KF - arrangement for future when he passes; London Ambassadorial Meeting price increasing opening to world scientists and Press; Technologies (T) not imaginable will be shown; Show things not discussed in teachings; Because collaborating with Chinese show T not seen in West; Not change world - rather increase understand of ourselves for own work; Release massive amounts of T; Finished with beginning stage of teaching - now Space transmutation - Comic Rays - transmute in both dimensions (D); Understand Totality of knowledge live both sides Soul of Man (STM) - energy pack; Soul of Physicality (STP) also energy pack - learn to interact with both; New ways of handling Wellness that doctors can't imagine - can be processed in minutes - days; Handle neuro system diseases - Parkinson's - ALS - etc - by connecting STP to STM; T in conjunction with Chinese to eradicate cancer; Had 100% success with paralysis; Asking to start new trials; Keep T back waiting for opportunity like London Meeting - show most of diseases can be eradicated in Space; Show man what T can do - gift to humanity; People in systems feel internal change in body; Either teach another 10 years or show T man forced to understand it; Knowledge of science & intellect instantaneously transferred -doesn't matter language or emotion; Whatever knowledge man gains adds to Totality of Knowledge; Loyal Knowledge Seekers (KS) waiting for years for release of T - time to fulfill promise; KS have understood fundamentals of plasma - can show T; London will be biggest Space T show on Earth; reveal what Space Organizations have to abandon; Time for world to see - Press invited; Manchester showed "soft feathers" of T; London will baffle world of science - will understand what they have misunderstood & done wrong; Playing with MaGravs like "naughty" children time to move on; Man will face challenges in transmutation; Need to understand totality of work of energy in body; Need environmental field to manifest physicality (P) - without M & G field around earth no P dimension; If move to another position or change environment man won't exist - or become invisible; If we change shapes will Soul still be inside; When go to new D would we think like man or a new creature; Through STP -

Soul can take a new shape of P - condition of life; Do we trust ourselves to be able to go back to our original shape; Power of nuclear bomb in center of our brain - Cosmic Rays within STM - STM more energetic & more strength than whole of P put together; Billions of cells - each has energy needed to maintain position & condition of life; Cells are energy packs - dynamic motion transferring fields through blood - creates cage - holds us in; It's one energy pack encaging another; An interconnection between energy packs - allows one to be embedded inside the other; Two energy packs of STM & STP - like G & M fields interact to create the Mass and Weight and P of planet; Call STP M & STM G field - they can switch between each other; Common denominator and interconnection through "interline power level"; Decides how to manifest yourself anywhere; Can create different bodies in same environment - slightly change emotion; Can turn from being white man to a black man - because environment of Earth does not change; Field emotion of place living allows transmutation - if go to China know everything about Chinese - understand emotion; When go to new place our Souls interact with fields of environment of "Soul of people" - knowledge is transferred through people; They transfer as much energy and knowledge to us as we transfer to them; Transmutation not just in physical D - interaction of Souls and environment; How citizens of U live amongst us - just like us - but don't reveal themselves; Started training KS in this knowledge in Manchester - to London & Beijing; Then world governments will bring in new D - not exclusivity of rich - scientists - or humans - also animals can be educated into this knowledge - teach Soul not P; Whatever knowledge we gather through transmutation becomes part of Universal Knowledge - all share it; When visit other place knowledge we carry goes to them - knowledge they have comes to us; We are part of "intellect" of U; STP gets embedded inside our Soul - when Soul lands somewhere decides if wants to manifest - our Soul interacts with Soul of citizens of that planet - we get all the knowledge needed to live there; Can travel different places quickly without knowing anything; We have to learn how to understand our emotion & complete understanding of work of the STM; STM & STP are nothing but energy packs; Learning this since beginning of teachings; Can switch between STP & STM irrespective of environment - lose fear of transmutation - becomes natural understanding of totality of life in U; Koran - "we have completed the knowledge of Creation" - and how we create ourselves; Next step understand how to transfer from one energy to another - what is common denominator - or link between STM & STP - same as link to Creator - same strength/path - it's how we communicate & connect to rest of U; P travel in 18 hours - transmute fields of planet 18 seconds - with Cosmic Rays in milliseconds; Only difference; It's how you want to ship package - it's different M field strengths; With plasma by order of magnitude - otherwise same Soul and STP - different method of transportation; No weightlessness with plasma - use different M field strengths - emotion of Soul; To become true Passengers of U - man have new knowledge & intellect of plasma; Understand interaction of fields of STM & STP - make our dream a reality - understand how they interact - positioning & distancing from each other - how use the different layers of field strengths - can live anywhere in U; Man decided to encage the Soul with flexible cage - body - chose Earth to manifest ourselves with two arms & legs - if go to higher order D become invisible & understand more Knowledge of Creation; Donkey is more intelligent than piece of metal - decide which way to turn carries emotion - metal can't; In order of Creation donkey understands emotion but doesn't have

intelligence - man develops intellect through his emotional interaction with environment; Man is ignorant of Knowledge of Creation - denies rest of it; Man is created out of energy of U - comes from & goes back to - it's how clever you can advance your knowledge enjoy more beauty of Creation & Creator; Every life comes to an end - P - STM - Fields of U; Only Creator lives from beginning to the end; Nevertheless we are always a part of Creation & responsible for it - bring elevation; Nothing can exist if there isn't an environment to confirm Its existence; You are the god of own P - your child is god of own P; Is there only one God - one Existence; Father needs son for confirmation of own existence; We decide emotion of how father & child feels in collective societies created from fields of the U & Unicose; Understanding this - end dilemma of own existence - end to the religions; Soon we will make it to be understood - time of cheating over; You are in possession of capabilities you denied yourself; If you extend strengths of both STM & STP - can decide manifestation; Can see how will look on Mars - if will crawl like animal; Man's life will become perfect; strive to reach ultimate goal of becoming part of Creation & Creator - mature to Knowledge of this U - start understanding Unicose; We learn knowledge by sharing field strength of Creation - man is blind to it; Today's teaching to open eyes to next cycle of teachings - decide field strength to travel in - what field strength to manifest STP - keep two emotions in balance to confirm existence; We are the "beginning and end" - see beauty of Creator and Creation; London create conditions for transmutation - but you will - not us; We just create the environment - your own understanding and strength of STM & STP; We cannot force you; It does not matter how long it takes - you have to understand yourself; Cannot be done collectively; Religions were collectively and failed - enslaved to leaders; Every Soul has capability to understand Creation - decide which field strength of emotion you use; We are not here to enslave man with another system; You are responsible to understand; Up to now you called your Soul a "dream" - now that dream has become a reality; Your dream is for you alone; Answers going deeper.

Test pH for flight session - bring massive change for next step; London Meeting no filming or electronics allowed in - interfere with plasma; Ambassadors tight security; Buddhist doctrine on reincarnation - explained as Soul entering fertilized egg of human or animal after death; In Plasma Science - in transmutation you never die - STP embeds inside STM and re-manifests in new dimension (D); So this death doesn't exist & we do not die and fertilize another egg; Use science to understand Buddhism - Soul takes new position in U interacts with new environment takes new cycle of life - can become star or galaxy; Instead of womb of mother - exists in womb of U; Friction of fields create smaller plasmas that interact with each other to create life; 2 dynamic fields interact create common denominator condition to life - sperm egg work this way; Life in the physical dimension always begin with a STP - for man - sperm & egg lead to creation of STM - collective field strength of the totality; If born in another D where no food - don't make a digestion system; STP on that planet create body according to needs of environment; STP also carries information and knowledge to interaction with environment; Interaction of the fields of STM & STP create emotion of existence - common denominator between two; There is Knowledge of Creation - then which story accept the Torah - Bible - Koran - Buddha - same knowledge - different interpretations; Buddhism more spiritual & emotions; Islam more P; Can always find parallels between

organs & body parts and plasma & reactors; Body has dual parts left & right - brain left and right lobe; For life always need two slightly different field strengths on either side to interact with each other - tries to bring balance creates continuity energy flow; STP made up of organs each side slightly different creates heartbeat; Hips - toes - thumbs - ears in pairs; It's a condition of Cu to create this dual structure - Cu has characteristics of splitting then confirmation of balance - cornerstone of life on this planet; Conductivity and in vacuum condition in body as a Gans creates this twin structure; Organs - bones - muscles have skin around them; Field strength of skin contains their properties inside "sack"; Holds part in its place through field strength of STP - collective structure; Creates part of "Spirit" passing by - transferring energy through river of blood; The skin itself is another plasmatic M field containment - contains field strength of all cells & organs inside it; Food does not pass through the wall of intestines - like believe in medical science; It's not acidity of stomach but salinity that create Gans to absorb energy; Stomach acidity converts food to Nano structure; Flight session testing this with pH - change science; Energy passes to liver; Have fixed our belief in all this nonsense - because written in a book - destroy beliefs; Matter changes into energy then back to matter; Food goes transmutation in stomach becomes energy crosses intestine become blood cell - travel around body transformed into other cells needed. They brought more fantasy into our understanding of Creation; 11 year old girl higher IQ test than Einstein; Would IQ of Souls be 10,000 - test has no meaning; New generation of Soul of "children of Mitra" 20,000 IQs; Erase name of Einstein & Stephen Hawking from science books; Asked to show eradication of Parkinson's Macau; Salinity gives condition of manifestation - holds P; Sugar gives D of transmutation; KS will be able to tell when they are ready to do transmutation; Show you how to feed yourself - absorb fields directly; Create same condition of salinity in stomach - don't need Gans's - absorb energy from Unicoise; Intestine does this; Energy does not cross wall of intestine to feed lymph - instead create a "seed" of Gans's inside stomach - cosmos with higher field strength feeds lower strength of matching seed - energy crosses into body; Same way with Gans Patch - higher strength feeds lower; MaGravs - don't see "mega" energy from whole system; When eat food converted to Nano then to Gans - makes seed in stomach travel down intestine - Gans water bypasses this step - seed directly attracts energy from Unicoise - body absorbs - this is 80% of energy from environment; Make permanent seed in body - fed forever - Given in London Meeting - fed rest of life - controlled through your Soul; Those attending conference 5 days before - preparing everything for that change; Life will be changed; London will change history; Preparing KS to take over the running of the KF - operates in 51 nations; Show Press new way to work; New Press - awareness of Soul; Wireless plasma communication already in operation; KS took home from Manchester conference; Get truth through plasma; Understand everyone through your emotion - not just the words; Communication Bundle uses the plasmatic field line of communications - it's a different thing; An extension of the Souls and interactions; Don't dream anymore - creator of reality in D of fields; Live in two dimensions; Embed in bloodstream always be in communication with STP; KF works in front for public and lot of work in background; When we come to right point - bring to your attention; Instead of working directly to achieve something - create an environment of understanding around point - same system does different things; Can transmute right now from London to New York in minutes - our people won't understand; Iranian team years ahead; Can make
