Introduction to 515 KSW - 2024 Year of Completion - Soul Love on 22nd - Opposite Emotions - Systems Alive - Frequency to Matter

This workshop is a good preparation for the December 22nd Flight Session to experience the "Love of Mitra." It repeats the topic to create a frequency of love from the plasma into the matter state of our physical emotions. It's good to listen to it while relaxed, maybe laying down, and in the periods of silence you might briefly disappear into the Soul. As 2024 is the year promised for completion, then December 22nd will be the start of this process. We have heard many times 'it is all about love.' But this love is not ordinary human love of the senses, it is unconditional love as demonstrated between Mitra and the Creator, the proton and electron, the Soul of the Man (STM) and the physicality (P). In this teaching Mr. Keshe is coming at it from many different angles and maybe you noticed that his energy and voice were different today. But how are we to understand this kind of teaching and make it useful for our journey?

Trying to explain love is like trying to tell someone what chocolate tastes like, who has no understanding of it. We have to start from what we do know and build on it from there. Most of us know love in the dimension (D) of P so we can start there. When we love someone in the physical D so much that we give everything we have to that person without thinking of ourselves, to us this may seem like it is the same as the unconditional love of the Soul, but it is not. Sometimes we fall into this love without knowing why or how it happened, it just happened. And in the same way we can fall out of that love or the person can die and we are left with the pain of being alone. We are only speaking here in general terms for giving an example, because Soul and P love can be mixed up with each other depending on our experience and maturity. But pure Soul love always is with unconditional giving, transparent, connected to the Totality, detached, and completely devoted to the Creator and all of His Creations. The STP and P need life experiences and guidance from the STM to grow and understand what these words mean.

Back to the physical love. In this kind of love one can be so focused, that they become blinded to the rest of life and not have awareness of the Soul. One way you can tell what kind of love it is, is by watching your own reactions. For example, if the one you love does something wrong and you are afraid to correct them, because you don't want to lose their love, then this is a clear sign of being too much attached and living solely in the physical D. Mr. Keshe made a reference to this when he said, some may jump into the ocean of love, but be aware that it is not the only thing there is. In this way we won't dissolve back into the Source but continue to play in the D of Creation.

Keeping our awareness of what is going on is the key to understanding and growing from our experiences of love. In my experience of what I consider to be Soul love, was that awareness was always there. I never felt the same overwhelming force of physical love that blinds us from seeing clearly. When I think back some of the feelings that come to mind are peace, I mean an inner peace where everything is fine the way it is, and a silence in the background. Detachment is definitely there, one feels free to leave any time, but you stay because you love to be in the presence of each other and the feeling is mutual. And if you are apart for a long time, when you come together again it's as if no time has passed, and you continue on where you always were. Of course there is a deep caring and you find yourself being tolerant of whatever shortcomings you discover in the other. When I think of giving, it's not just giving things, it's being totally present and interested in the other, and the receiving is automatically there. What I mean is the M and G fields are interacting between both plasmas. These experiences occurred over 15 years or so and opened my eyes to the different kinds of love that I never knew existed. There is nothing wrong with physical love, we can learn and grow from it the same way we do from Soul love. I only shared this because Mr. Keshe is preparing us for the completion stage, which is living in the unconditional love of the Soul. Each of us have to discover the differences in the kinds of love we have experienced, and then make a decision where we want our lives to go and how they should take shape. And now the KF plasma technology is going to open up the possibilities of Soul love to all of humanity. That is if humanity wants to experience it.

He said that the next step after learning how to control the emotions through the Soul is to learn how to create emotions, to connect to them, and how to separate one field from the other. For example, how to separate joy from sorrow. And that in the man's life each emotion comes in pairs with its own opposite. One field is joy and the other field is sadness. And that every interaction has an emotion and every emotion has its own dimension. The way I understood it, is for example, that the same energy that flows as joy in one direction, flows as sadness in the opposite direction. This is the same for G and M, in one direction it is G and in the opposite direction it is M, but it is the same field. The Chinese Masters called it Yin and Yang. We are not used to thinking of emotions this way, where they are actually just fields of energy. When we understand how emotions are created, and how to create them, then this will lead to totality of understanding our own self. This is perhaps related to the fact that one of the fields that determines our manifestation in the physical D of Earth are the emotions. Finally he said we have to learn how to create unconditional love in the emotion of the P of the man, so much so that it touches and changes us. The systems they are building will help us in this

process and when we reach the elevation of our Soul, then the systems will become obsolete. The same process will also be gone through by all the animals on this planet. We can control everything through unconditional love and the ability to do so will always be with us.

To do these things, it again goes back to being able to expand our Soul, not only expand it but also control the expansion. He reminded us that in the dimension of the plasma the smaller you are the more powerful you become. This is difficult for us as we were trained to think that "bigger is better." And that the idea of always having "more of" is part of our thought process. We have to retrain ourselves and it will help to know that the weakest fields make up the background of all existence and they become a common denominator that connects everything together. He said, everything is created through the weakest fields, so maybe he is referring to the smallest field that makes up everything. Would that be hydrogen? But there is probably more to it.

Again he comes back to detachment, which in a way can mean, that I don't want anything for myself. And this is how we connect to the whole structure of Creation. And that we can decide to make the connection through our emotion. This brings us back again to unconditional love, because he said, we connect to the Creation by feeling the suffering of others. And if we are mature enough we can take the field that the person is having trouble with and convert into something good. By understanding this, or knowing it, then we can begin to progress in our development. Now we have come full circle back to serving the others, but this time we have tools and knowledge to help the others.

While they are getting closer to completing a system that can elevate the STM, at the same time he is preparing us for the huge responsibility that this power will give to us. There are obvious reasons why we need to understand about unconditional love and giving if we will be given the power to change the Souls of those around us. We should be aware that when he says, 'we can change the Soul around us to what suits us.' I don't think he is referring to what suits the ego, which is the first thing we would think about. This is why following the Ethos of Mitra leads to love for the others, humbleness, detachment, the attitude of wanting to use the ability to manipulate the fields to benefit the others and not ourselves. He guided us down this path years ago when he said, the first MaGrav we build we should give away to someone else. He is always giving us these kind of subtle hints in the hope that it will naturally take hold in our attitude spontaneously. This time he said, when we elevate our Soul, it can be used by others and not just ourselves. And recently he said the same about "Satellite Souls" that they have already been using those Souls to help humanity and it is not stealing because they agreed to be part of it. Ordinary people might think that, this is a violation of our personal rights. When we join with the Soul it is not slavery, the way it is done in physicality and especially here on Earth. It's a completely different dimension and understanding. If you try to explain it to people they easily get confused because they have not tasted the love of the Soul, in fact we all don't yet know we have a Soul. We only have a concept, an idea, that someone like Mr. Keshe shares with us and then we have to do the internal work to experience it directly ourselves.

To take this further he asked us to try to go deeper inside ourselves and first establish that we have a Soul and then try to understand how the emotion is controlled through the inner STM. There are no books for this. We can only sincerely try, and then work on the expansion of the emotion of the Soul. He said that to manipulate the emotion of the STM we have to have full clarity and understanding of how it operates. This goes back to becoming aware and observing how things are happening in our life and not just being a victim to circumstances. One of the signs is that as we elevate the Soul we'll bring peace into our life and we'll feel the joy and pleasure of giving ourselves to others. This will deepen day by day and we'll wonder why we denied this ability to ourselves for so long. It was very interesting when he said something like no race in the U has been able to completely understand the workings of their Soul.

At the same time he gave the warning that it is forbidden to manipulate the emotion in the D of the Soul and manipulating it to gain something over others or to take advantage of others. We all have this fear that certain secret forces are doing this in the D of P on this planet. But this is not allowed and they will not succeed. But he said that to change the DNA & RNA of the man you do it through the emotion and plasma of the STM. But without the correct emotion and unconditional love we won't have access to these energies. As we live in societies of "fake democracies" it is hard for us to hear things like when he said, one of the biggest challenges for mankind will be to create a condition of balance where no one ever stands out and all feel they are part of the whole. This is not communism, that failed in physicality to bring equality. We still remain unique individuals with a unique combination of the fields that can't be exactly replicated. But we'll be individuals who feel connected to the whole and don't want to have power over others. This is a huge difference and requires a lot of maturity to understand correctly.

As we are on this topic we should discuss the new systems that are getting developed that will have emotion and a Soul of their own. Right away he asked that question, will they take over the man. And he purposely did not answer it. We have to answer it ourselves by increasing our knowledge. As we have been discussing, if these machines remain only in the D of P, then how they behave depends of the mind of the one who writes their programs. In today's world this is troublesome. But these times are soon going to be over. And we are depending on Mr. Keshe to safe guard us through this transition period. But his job is to help us mature into self-realized people who would never do such wrongs. And this is why now we are moving quickly into experiencing the true love of the Soul. This will start in next Thursdays KSW by connecting our headphones live during the teachings and opening ourselves to connect to all the Souls. It will continue further on the 22nd of December and forward. There is nothing to fear and as he said, these are interesting times to be part of.

It was fascinating to hear about how the Children of Mitra can be transmuting all over the Creation while at the same time talking to us. He said, they will turn their back and hide their eyes because we can see that they are transmuting by the change in color of the eyes to a gray blue that shines and that their skin becomes a silverish color. He said they can transmute also with the physicality, but it wasn't clear if that meant they would suddenly

disappear in front of us, or would they create a new P elsewhere and remain standing and talking to us. He said, he has witnessed this many times.

Mr. Keshe confirmed that the understanding is that upon death our energies will separate and be spread around the U. But the major part, the one that we call ourselves, will go with the Soul to its new destination. These are parts of the energy of our physicality and not the self-conscious Soul. My understanding is that the strengths we have gathered in the physical life on Earth by living the Ethos of Mitra will stay with our Soul as it continues its journey. And the other parts are like the skin and hair and amino acids (AA) that we shed from our body and are spread around the planet throughout our lifetime. These parts create a link and for example, if we have a hair of the Christ we can link to his Soul and he can manifest in front of us. But the little bits and pieces we leave behind are not who we are.

After all these years we still don't know how electricity is made, and today he gave us another hint. He said, the energy of the U always converts to energy of matter through frequency. The Energy of the U is plasma and matter state is electricity. My understanding is that frequency acts like a hammer and hammers the plasma to fit into the holes of the mesh. I take the "mesh" to be the field strength of the Cu wire in Tesla's generators at Niagara Falls. The Fe magnets provide the plasma or the fields of the Ether at the field strength of Fe. These fields are eternal like the Creator, and that's why almost 150 years later Niagara is still delivering the same electricity. It is endless. But we still don't understand exactly how it is happening. The rotating magnets break the magnetic fields at a specific speed to create the frequency of 60 Hz. I consider the fields to be M fields and not electrons. And why does the Cu wire have to be coiled? We know that the coils set the voltage and amperage. Later he said that he puts his 5 liter jar of Gans above the refrigerator, and then mentioned frequency again. We know that the MaGravs were connected to refrigerator compressors because of the frequency they created and the plasma matched it. These are more things to ponder.

Mr. Keshe gave a personal experience about how to live guided by the Soul. The situation was a long standing conflict and could continue to go on for more years. When he woke up on the morning of the meeting he asked his Soul to bring a condition of balance and correctness to the situation for everyone and not just to his benefit. He detached and let go, and while leaving the house his Soul told him to go back home, because you asked me to handle it and so you can go back home. Then something amazing happened and the situation which could have taken years got settled within a half an hour. This is an important lesson for us because we are always wondering how to communicate with the Soul. And is it really there? Or is it just a coincidence that has happened? Living by the Soul is a commitment to practicing what we believe in and then acting on it. The trick, if you want to call it that, is to find that sincerity inside, then trusting it, and actually doing it, and then observing what happens. And then after these things happen the ego comes in and starts reinterpreting things and tries to destroy our faith in ourselves and our experience. As they say, 'practice makes perfect.' As we continue to do it, little by little our faith builds and the certainty of the Soul's existence and love for it grows.

Other Topics:

Transmutation on Earth will be like transportation in P but faster. But there are other things that will be part of it. Before he mentioned we would be fed and our diseases would change;

Man should have no access to tools of killing;

Terms like fractals are made up and don't mean anything. It's just M fields.

When teaching children give from your Soul to elevate them;

The KF Wellness - Prevention Policies will start in the new year. You pay one premium a year and get 2 sessions for prevention of any disharmonies.

When we get saturated with the fields of love - then automatically it switches to loving or giving. This is the same as when we increase acidity to saturation and it becomes alkaline. It's a principle of how fields work;

Connect your headphones to your computer Live on Thursday's KSW December 14th, because this is another opportunity for the Love of the Creator to spread quickly across the planet. If we accept the love in ourselves then it acts like a spark to spread the "fire" to humanity.

Thanks for listening.

Quick Index

(There have been a lot of changes in the last week, and a lot of new understanding, expansion, and extension in the knowledge of the Soul of the Man (STM). Our understanding is taking shape and at the same time we are understanding our own limitations. Many Knowledge Seekers (KS) have started questioning and trying to understand the process of the Creation according to their own intelligence. They interpret it according to their educational background and how everything else fits into it, and whether it's acceptable to them. They try to become a little bit more educated within the frame they set for themselves).

(Though man has many cultures and languages, it has become very clear to us, that there is no language when he becomes a Soul in the womb of the mother. And when he lives through the Soul it is the same situation. When he is in the womb of the mother he loves, cries, and digests the pains of life, and he does the same when he in the outside world. (Would man see the sadness and sorrow in the dimension (D) of the STM, when he becomes the creator of his own totality within Creation?) Would the interaction of the fields and the accidental collisions of whatever two systems come together, be it galaxies,

stars, or planets. And would that create a feeling of emotion within the life of man as a spaceman of the future?)

(Will man be able to bring the STM within the structure of the man and understand what his emotions bring to his physicality (P). From this would he understand that emotions of the Soul and the emotions of P are interconnected? Would he reach the point to understand more about the emotion of the Soul in relation to the totality of his own existence? Can man convey the emotion of his Soul and control it the way we control our D of P through our emotion?)

(It comes to another big point. When we create another life cycle through our Soul do we pass the emotion we showed in the D of P on to them? For example, if our Soul goes on to become the seed of a star, or create another cycle of life in a bigger D then just creating one or two children, which go on to create many millions and billions of offspring's. Would the emotion of our Soul extend to all these future creations?)

(There are future systems and technologies on the horizon and are coming to completion that can show our emotion within the system. (Would that emotion allow itself to become a fingerprint of it. Would it allow the emotion of the P of the man to be translated into the emotion of the plasma, and allow that plasma to show reaction. Then we don't need to write a program for it, because it will naturally create its own emotion).

(In the coming time, the systems being developed will carry a natural emotion (of their own). This will lead to a very big question for mankind. Would these systems developed by man, be able to take over the man? These systems will be able to create their own Souls and D of existence that man doesn't know about).

(What we are seeing is that our emotion can be fingerprinted in the D of the STM. In the next couple of weeks we will carry the emotion of love through what we call, "the cycle of the love of Mitra" on 22nd of December. We'll see the beauty of the creation within the man. How many of us will be touched by the true love of the Creator? And how many of us will see the elevation of the Soul? Is this what mankind has been looking for?)

(The time of completion has been promised for the year 2024. Would December 22nd be that time? (The completion) is to show that man can love through the Soul and he can receive love through the Soul and transmute that to his P. We celebrate the birth of Mitra on the 21st of December, and have we developed the technology (T) enough to bring that emotion of love, giving, and creation to those who want to receive it?)

(We taught you this in the last sessions, and now will you be able to give it to those you love, and will they be able to receive it? Would it touch and change them. But the most important thing is whether or not you have learned how to do it. Have you learned how to be an unconditional giver? Would it be the time for many of you to decide to "run and jump" into the ocean of love? But at the same time would you know that this is not the only dimension. If once you learn this, then you'll understand the possibility and proximity of how you can do these things and how close you are to achieving it).

(The process of (learning about the) emotion and being able to control it through the Soul will be nearly completed this year. Upon completion we'll start teaching it directly. (The coming years will be for you to go to the next step in understanding the process of Creation in how you connect, create, and separate one field from another). You will learn which field is sorrow and which one is joy, and why we always have the two opposite emotions in every dimension of man's life. There is crying and laughter, joy and sorrow, and gravitational (G) and magnetical (M). Don't these run the process of the creation of the man?)

(Every interaction has an emotion, and every emotion has its own dimension, and every emotion has a flow of the same (energy) in the opposite direction. This is the Yin and Yang. KS have to understand how you create it, and how from that creation it will lead to understanding of the totality of your own self, and nobody else's. It's like when they say, you don't know how to love like a father, until you become a father. Now this will be the same process for all of humanity both male and females, and all other kinds of animals. (We have to learn how to create unconditional love in the emotion of the physicality of the man, so that it touches, and changes us)).

(We will setup the structures and systems to guide, support, and show you how to go through the elevation of your own Soul. Gradually we reach the point where our systems become obsolete, because you will be able to do it on your own. (Once you learn to create the D of unconditional love then you can control everything). If you just copy it you won't understand it so that is no use. But once you understand it you can always use it in any D and direction).

(The process of loving is also giving. The process of receiving the love is harder than giving it. Because you have to have that capability (to be able to use it when) you receive it. How will learning this process affect me and what changes it will bring in the D of my Soul?)

(Many scientists, and people with intelligence have tried to understand this point, but they have failed miserably. Because there are no books for it. And there are no hidden titles. In the coming weeks, it is you who will have to teach yourself how to moderate, expand, retract, and every other thing).

(To do this part you will have to learn to extend the STM and be able to control the expansion of the Soul. Remember, that in the D of the plasma, the smaller you are, the more powerful you become. It's opposite to the D of the P, where the bigger you are, the more powerful you become. The biggest problem for mankind has been that he always wants "more of." Where in the D of Creation, they want to be the lesser of, and the weaker of. (It's through the weaker that one connects, because it's a common denominator, that everything is created through it, and is connected to it).

(The process to reach this position is in a way, to become detached. Over time you become detached step by step, and not in one go. You build up little by little to that point.

(This ?? is how the whole structure of Creation is connected together. Man can decide to connect), but not through the eyes, you connect through the emotion. You connect through what the others suffer with. If you have matured enough, to be able to get it off, and take it, and convert it into a good point, then you have learned a lot. Then you start the progress and process of development).

(In the coming time, we'll create systems that have emotions in the D of the Soul. These systems will be able to control most of man's ailments in the physical D and psychological patterns. This will bring a change. We'll teach you how to play with your Soul for the benefit of others and not yourself).

(In the coming time, when the systems with emotions are introduced, then it will be easy for man to change himself. He will learn how to change everything around himself, even the people to a way that it suits him. Today in the society we decide who we want to be, and those we want to come in touch with, which kind of people to integrate with, and in which position. We have put up barriers, conditions, and parameters for this. The world of the STM is not very far away. You will create what I call, packages of plasmas for a specific condition, and you'll connect everything to the bigger plasma of the STM. If you understand this, then you can manipulate the man's DNA and RNA, the information line, and the line of the Soul of the Creation. One of the biggest challenges for mankind will be to create a condition of balance, that no one ever stands out and all are a part of).

(In the process of developing the STM, man has to live and learn, that humbleness is the key to making connection. Humbleness is the key to connect to the Totality. (And it will have to be tangible for man to see, because he is so physical). It's for KS to expand this knowledge beyond what we understand today as a human race. As I said before, everything has (its right) time. Everything has a reason. Everything has to be correct at the right time. And everything has a reason and place for its manifestation).

(If you are listening through headphones, then try to connect to all the Souls through the emotion of what you feel. Try to connect to the Souls and (understand) how you communicate with them. Understand how you communicate with yourself in the D of the Soul, even though we see ourselves now in the D of P).

(In the coming time, when we introduce systems that can elevate the STM, I'm sure many of you will change accordingly in the D of P. (?? What you will experience may not be what you are expecting or used to, but it will be for the purpose of serving you).

(Manipulation of emotion in D of the Soul is forbidden. Manipulation of the emotion for gaining advantage over another is forbidden. (It might be a little bit far-fetched, but with a few moves we can see (how it would come out)).

(In the coming time, the systems with emotion will become fundamental in man's daily work life. The sooner he learns how to control himself, and how to manipulate (conditions), will determine how much further in the process of the Creation he can go).

(What will man do with the knowledge of becoming a listener and receiver? KS can learn the process of loving through the Soul, so they don't need to say, "I love you." The love will be directly transmitted through the Soul directly and you will see how it changes you. The process of the change has already started and the use of the Cup and the material in it, was just an image. (?? You have to live life in a correct way)).

(Try to learn how to expand your Soul. (Recently I taught you to put your hands on your face and in that instance you'll change). You will feel the change and you'll allow the change to take shape the way it suits you).

(After the completion of the understanding of the STM, you can manipulate and extend it to every life on this planet. This will become very easy in the coming months as you learn. Then when you pass by an animal you'll (feel) its pain and then you'll know how to remedy it. (With this power) we do not want to control others, rather we expect to give to them and observe).

(The process of transmutation through the STM is one of the most fundamental ways for man to learn how to use it, and to use it in a correct way. We'll start teaching new cycles of life, which is the manipulation of the emotion of the STM, by man himself. Like how you manipulated the Gans's and created the Cups, and Pain Pens and you saw how much it helped. Now it's time to teach the true knowledge of the Creator and how this knowledge will come to affect every single one of us).

(Many people will ask the question, "am I good enough?", "Would I be able to do it?", "Or I will just keep living until one day I understand." Every man has the capability to reach the same point. It's just the way you choose to go. Man will learn new ways of living, understanding, and interacting through the process of manipulation of the emotion of the STM. We request that you as KS find out which part of the structure you fit into and how you can serve. And learn how you can change what you make into a usable energy field).

(To be able to manipulate the emotion of the STM you need to have full clarity and understanding about how the STM operates. When you start elevating and bringing peace into the life of the Soul, you will feel the benefits of it, joy, and the pleasure of being able to give yourself this. (?? Then you'll realize that you have denied yourself this. And your ?? ability deepened day by day)).

(No races (in the U) have been able to complete their understanding of their own central control of operation (Soul). (?? When you understand the totality of the emotion of the STM, and the operation of extending and elevating the Soul, then you have to seal and lock (in) the process). How you allow the emotions of the Soul to interact with the emotions of the STP dictates what kind of diseases you'll get. (?? Even if you can do it once, you'll forget)).

(Try to go back within yourself and find out. Try to understand how the emotion is controlled through the inner STM. And try to understand how the fields interact, and

when they are not in their normal condition and position. The extension and expansion of the emotion of the STM is, has been, and will be the ?? ..).

(The totality of the STM has to understand how to ?? ... ?? road to the Soul. (?? We need to understand how the man elevates his Soul in the D of P ..). How do we elevate the Soul? How do we come to see that it's ours? Yes. .. When it completes itself).

(In the future we'll be able to make you laugh through the plasma systems and at the same time make you cry. (You have to develop and test it yourself). It will become a benchmark for those who want to elevate their Souls without dying).

(When we elevate the STM we have to have full understanding that we are not the only user of the STM. This will be (taught) in depth in the December 22nd session, and that elevation of the STM comes through giving. If you push the process beyond, other entities will manifest themselves).

(Developing systems that man is used to, but creating new conditions of the U has started and cannot be stopped. (Elevating the STM through expansion to elevate Souls other than your own will become (part of the) life of the Soul itself. When you understand this, then you will be able to transmute and know how to move yourself. You don't need to go up and wait for the Earth to rotate so that you can come down again to be where you want to be. The new cycle of development will be through invisible channels that we connect you to the part that is missing. (?? This is) what you need to do, to elevate and become the Soul of the Creator for a new cycle of creation in the Universe).

Interesting times are ahead. (I hope you understood the totality of the knowledge given today and you can act upon it and give it to others. This is how the elevation can take shape. We have to come to understand the principles of the inner workings of the STM and STP of the man).

(I hope you understood the whole teaching of today. The key tool is developing systems to fit individuals by themselves. We need to expand and deliver a workable Soul for our P. Expansion of the Soul, extension of the Soul, giving from the Soul, all comes through one process. It's for you to decide which one is which, and how much you can use one, before you lose the interest in how it's done).

(Try to join us next week when we'll make a session that collectively all KS can go through. (During next Thursday's Live teachings connect a headphone to your computer or phone. We will try to receive the fields all together at the same time as you give. Then the life for every man on this planet shall change). (The headphones can only be used during the Live teachings. It won't work through the recorded teachings). I hope you understood. At least you should be clear with your Souls.

End of Quick Index Part 1 - 515 KSW

(You can use the Nano Mirrors in the December 22nd session. Our systems have been developed for the use of these mirrors. You can manipulate them to receive and then create energies with them. In plasma T energy is M fields in motion. You can use them to create a condition of giving and receiving).

(The December 22nd session will probably be one of the most glorious days in the work of the Foundation. It's the very first steps in learning how to allow the energies within us to be given and shared in the form of knowledge of the emotions of the Soul and P together. I have never looked forward to a session more than the 22nd of December. We'll bring joy and changes to a lot of us. (We'll be extending the essence of energy from within us. Bring the mirrors to start experiencing something new as we extend the joy and energy from within us).

Q: If our P is due to the fields of the Earth, then how do astronauts keep their P when they go into Space?

K- (We are still connected to the fields at the point of our creation, which is the Earth, even if we go to other parts of the U. But we have not gone far enough to be away from the fields of the Solar System, to really feel the change in the D of P. At the moment, our physical life is still conditioned by our star and solar system. No matter where we go we can't escape from it, be it on Earth, Moon, or anywhere else. Just because you went a few kilometers above the Earth does not mean it will change).

Q: If we go beyond the Solar System, then will we lose our P?

K- We don't lose our P. (Our P is just according to the environment, and the wishes of our Soul and emotion. It has a huge game to play. Our Soul is like a plain canvas where it gets painted by the interactions of the energies of the environment as to how it will look. All our Souls, whether from an ant to a man on this planet or in another position in the U is like plain canvas. It takes shape in the D of P and manifests through the interactions of the environment. That's how our P changes).

(We've been on the Moon under its forces and conditions in the clothing of the man. We have not yet jumped out of the "monkey suit" into the environment of the Moon. If we do, then we'll die, because the environment is not made to support the body of the man. For us to survive there, we would have to change the D of the environment. Soon we'll all realize that we cannot breathe on the surface of the Moon because there's no oxygen. So we have to find a way to absorb energy from its environment. The lungs are out of the question. And there is no water on the surface of the Moon. We might find water if we drill a hole. But what if the combination of the water is something we can't digest? (?? They say don't drink water from different places or from melted snow). If we don't have water, then there is no use for our digestion system). (The only way to survive there is to adapt to the fields of the environment).

(Our present science has never looked at the reality. They have never tested it by asking an astronaut to take his suit off and see if he survives. Now you understand. We will take

a new physical shape according to the environment. We have no choice. The P of the man is made for this planet). The only way for the man to survive anywhere in the U is to go through transmutation with his Soul and emotion. He has to let the fields of his Soul interact with the environment and then he will be able to manifest himself there and he will replicate new generations).

Q: How do the astronaut's suits keep their connection to the Earth? Is there something special there?

K- (It doesn't connect. They have encapsulated themselves in a gas as they breathe. They have created an insulation and an isolation from the environment. If we make a hole in one of these capsules they won't survive).

(KF Sales Team wants to remind everybody of the Christmas packages. There are the hand knitted cuddly toys filled with special Gans. You can tell them what emotion you want to create when you buy them. We have now totally moved out of Linz, Uno Center. There are still some paintings left. The Red Dot Pain Pens are a new evolution in the T. There is a new product called, Relief Gans and it's magical. The Wellness Center will start trials for Asthma and Autism). (25 of the "Communication Bundles" should be shipped. The Electric Gas Units will be done out of China. It will go into production by the hundreds of thousands).

Q: You stated that no manipulation of the emotions is allowed. Is it then, that we completely accept whatever emotion shows up in our daily life and expand this to all encompassing love?

K- Once you work through the Soul, yes. (Once you trust (and know that) this emotion was created by your Soul, yes. The work of the Soul is to accommodate each other. But the work of the physicality is to force its way. Or it keeps trying to get its way. Or it has been forced to do something by another. This is how the life of the man is. But when we live in the D of the Soul, we know that the correct decision has been setup (by everyone)).

Q: Would this lead to humbleness and elevation that you also speak of?

K- It does, because we know the facts. Yes. Because we know what is done is done with the Ethos of Mitra.

Q: Does everything change after transmutation, or do we keep something from the former existence before the transmutation like parts of the body, illnesses, emotions? Are we fully aware of the state before and after transmutation?

K- (In transmutation on Earth it will be the same as when you do ordinary transportation, but in a faster way, but there will be a lot of other things with it. However, transmutation in the D of Space Technology is a game to play with. It's absolutely a game to play with.

Some of you will know when you're going through transmutation and it will become a natural way to do (things)).

(You can also learn how to go through transmutation by yourself. Other will know when they sit in front of you. If you keep your eyes open they will see that you are going through transmutation. You can go through total transmutation of the P, (and will achieve everything else that comes with it). For example, the color of your eyes will change and they will shine, and your skin will become silverish (during the process of transmutation)).

(Whereas in death you leave your P behind, but in transmutation everything has to change and go. It's an amazing experience and gradually we'll learn to do it. I have been witness to it many times - many, many times).

(In next Thursday's KSW you can plug into the teachings Live with your headphones. This has nothing to do with December 22nd. This is for all the KS to be able to start experiencing part of the elevation of the Soul. We will set out to bring a new D in. You have to be Live with us next Thursday. Recorded teachings will not work. We will connect you to us in certain ways through the teaching. It will be interesting for all of you to feel. Many KS have been waiting for this, and gradually over the following months it will become part of the bigger picture of extending the teachings and its work).

(When Mr. Keshe was asked specific questions about using iPhone's and headphones, he replied, don't play that game. Don't worry about it being left or right. This system doesn't have that problem. We'll tell you how to do it at the beginning of the workshop. We'll organize it from our end and you'll be able to feel the energies and the fields of the plasma. The time has come to bring a lot of changes gradually. We will start the process of a lot of things).

(Those who bought the Prevention Policy and other packages of the Wellness from the KF you'll soon receive an invitation for your first session with the Wellness Center. Please respond back to confirm the date and time. Then you'll be given a second session. The policy comes with two sessions a year. The whole thing starts in January 2024).

(A KS told their experience of receiving light and wanted him to explain. As he usually says when KS ask about personal experiences, he wasn't there, so he cannot explain it. Each one of us have different kinds of experiences during our lifetime when it comes to these things. A lot of people see light balls moving around, and different things. We don't say you're wrong. We respect what you have experienced. It doesn't mean that you imagined it. We all have our own beauties and receive or see according to our own strength. Somebody wrote to him saying, that they hope they weren't imagining it. We never imagine. It happened and we have to respect it. What you've seen, he cannot explain because he wasn't there. One has to be there to see it, to be able to explain the phenomena).

Q: Last Thursday you said that after we die, we will move to the bodies of the animals that eat us. Combined with what you said before, if we don't learn transmutation we will be located in other parts of the U according to our own Soul's strength after death and become seeds for stars or Cosmic dust. Does this mean that after we die, we are divided into several parts? The main part is located in somewhere in the U and the other energy parts become part of the animals that have eaten our bodies?

K- Yes, that is a normal understanding, yes. (?? This is for where the Soul goes. But if your STP & P elevates the Soul of that animal, then they become part of the elevation of the Soul of that animal at its death). (The energy of your physical existence, and not you, become part of it). (When you eat an apple, it's another entity, and part of it, becomes part of your Soul. Now you carry the essence of that Soul with you). (?? So for the animal that eats you, you become part of the Soul of that creature)).

R: In case of the apple, when we throw away the core it becomes food for other entities in the Earth again.

K- (Yeah, but the thing is, you say we shouldn't waste food. But what we throw away becomes a cycle of life for another life. (So we don't really waste food, it goes somewhere we didn't intend). (That food becomes part of another cycle. We're all part of the same structure, it depends how much we fuss about this or that part of it). Nowadays we have to be politically correct. But we should understand that we are part of, and the same as the whole structure).

Q: Make sure that the knowledge of manipulating the Soul's emotion goes only into the hands of right Souls and never into the hands of those sick Souls who are out there, and when they are not ready.

R: So, do you think you can direct your knowledge only to the right Souls?

K- It all depends (who benefits from it).

(I heard an extreme thing that I couldn't stop laughing, but at the same time the rage inside me was worse than actually laughing about it. This in regards to the situation in Gaza. This afternoon the head of the United Nation made a comment that they need a resolution to stop this conflict and make the state who's doing it, into a criminal state, and then the UN can put sanctions on them (he is referring to the Palestinians). And another minister said, we can do what we like, because we are immune from these things. Along with the Americans we control the United Nations. (They had a very different way of putting it, but this is basically what they meant). And I thought, how can (they talk this way)? They're taking women and children as hostages. And the head of United Nation does not understand that the safety of these hostages are in the U Nation's hands. And I said to myself, my god, you're killing children in thousands now don't you understand that there is no difference between your blood and their blood, your pain and their pain? How irresponsible and arrogant this nation has become. As I said, we have taken the love

of God from the blood of Moses. You will see their suffering, beyond their imagination. Even I partially come from that blood).

(When man doesn't understand and has no emotion, then he sees himself as on the top of the others. This is the time that they are actually at the bottom and barking. In the very near future, I wonder if a single plane will fly over Israel. You'll understand very soon. The nations who follow the gun policy will find out very soon, that we will silence those guns. This is not to be taken as a threat, rather we have to stop the suffering of other human beings caused by the misguided work of some. It doesn't matter if the gun is shot in a school, train station, or in mass execution in Gaza, or anywhere else. Man should have no access to tools of killing).

(Our job is to create peace and to change it from inside (the man). Most of the killing is coming from the ones who brag about their religion and faith. Soon the Jews, Muslims, Christians, and others will be silenced. If we do it, then they'll say, they have done it to us. But if they do it to themselves, then they'll walk away from it. This is part of what is to come and the process of next Thursday will be the beginning of that cycle. We should see).

Q: Is the fact that we can't expand the Soul beyond the STP and P, due to us not knowing how to do it? Or not having enough energy in the Soul?

K- How come you do it when you're asleep and you call it a dream? It's you who has put that limitation on it and nobody else. (How come you can reduce the M fields of your flow of blood when you sleep? If when you're awake, you balance the emotions of the body then you'll allow the STM to expand).

(We showed partially how to do it in last week's Flight session with KS. They expanded their Soul to be able to create the light in their hands. It's you who has put a ban, or a limitation on yourself, and not your STP and P, and not even your Soul. It's your thoughts and emotions that limit you).

(You can watch your children do this when they're asleep. The same with your dog when he's asleep. When they dream you can see them laugh, or move their eyelashes fast, or when they cry jumping out of sleep. That's Soul travel).

(If mankind can develop a special glasses, like the night vision goggles to see in the dark, then you would be able to see the strength of fields at this level, and watch Soul expand, travel, come, and go. We have blinded ourselves to this field. Look at the eye of many children when they're born, they stay blue, or light grayish blue, especially in the first days that they are born. You will see this in the eyes in certain positions, especially in the children of Mitra. While they're sitting even if their eyes are black they will turn gray blue. But they will always turn their back to you, so you won't see their eyes changing. You'll understand that this is when the Soul travels. Even though they may be physically talking to you, they're busy playing with the Soul and their toys. This is the time when they are learning to live in both dimensions. This is the way they will communicate and

live that life. This happens to many of us at the point of death when the Soul is departing from the body, we'll see the eyes change to that color. One day I'll explain why this color).

(It's not a question. It's just that we are blind and have ourselves chosen to be blind in the dark, we have chosen to be blind to the fields of our Soul, to the expansion of our Soul, and the observation of our Soul, and the others who come and go with it. I have witnessed this many times, and it's an amazing feeling to see the Soul travel. I watched it once with one of my sons, and he said, "Dad, how is this possible?" I said to him, just learn, just learn and watch).

Q: I work with children, and it has been challenging to contribute to their good. I would sincerely like to learn how to contribute to the elevation of these children's Souls, in the short period of the day that I'm with them, when they are under my responsibility. How can I touch these children's Souls?

K- Give from your Soul to them. (Instead of just sitting there and talking to them, you can elevate their Souls. Make (the fields) available for them to take. (When you teach them how to mix paint colors you educate them). You can elevate them, but don't expect to see a result. In the time to come you'll see the results. We are always after getting an answer, or to see a response. (But it depends what they do with it)).

(Try to allow your Soul to make the decision (about what you do). It's very difficult to do. (If you start to put the Soul first in your life and learn to trust to it, then you'll see how it answers you). (When you live by the Soul make sure the outcome is correct for everyone, even the knowledge you (teach the children). When this happens and you are for example, teaching them to mix paints, then you'll find out, they end up picking up the color you were thinking about). This is because you gave the knowledge through the Soul. (To deeper understand this think of how you would teach the children if you didn't have a mouth to speak. Would they stay illiterate? Or, would you teach them with your Soul? You don't need to force it, just you make it available and they will pick it up)).

(I had a personal example of it this morning when I had to attend a meeting. That's why the teachings were late today. This situation has been going around in my life for a long time. When I woke up this morning and before I left the house, I said to my Soul, 'bring a condition which is balanced and correct, not what is to my benefit, or anybody else's. Bring a just and correct outcome so this thing can close.' This thing could have gone on for still more years. (What I understand is that he was leaving his house when his Soul brought him back to his house. It said, 'you are not going, because you left it for me to handle, now you go back home.' It was very strange. It felt like my P literally turned me around to go back home. (It was because my wish was that the outcome should be correct for everyone. And within half an hour it was all finished and done. It could have taken years, but the Soul took care of it right away)).

(This is how we learn to live by the Soul. Because it was my sincere wish to finish with this situation. Now my P doesn't have to suffer anymore, nobody else does either. It was

the strangest thing how the Soul handled an impossible situation within a half an hour to the satisfaction of everyone involved. Because I didn't want anything for myself. I had no physical attachment to it. And, this is how we should live life in the Soul).

(It will be a beautiful day when our teachers learn to teach through the Soul and to the Soul of the child, they don't need the ears to hear, nor eyes to see. They'll be educated in Knowledge of the U).

(Yesterday was St. Nicholas (Day), what we call, the day of birth of the "daughter of Mitra." It's a celebration for children in Europe where they put sweets in the child's shoe if they have been good this year. But we can also tell them they are good every day, that's what is important).

(How would you teach a child of an alien who has no ear and doesn't understand language? Does he have to stay illiterate? My son is a teacher and I always told him to raise the Soul of the children in his classroom, and he would find out they'll all love him to death, because they'll find peace with him. It took him 5 years and I met him very recently. He said, Oh, I love the children coming to me and I have changed to enjoy them and as much as they enjoy just being in my class).

(Try to elevate the Soul of your children as they walk into the classroom. Make it available. We don't know what worries they come in with, whether they have enough to eat, are being bullied outside that room, or whatever. You'll find out that your teaching is different, than when you just go in and sit down and say you have to teach them this or that, or you are the boss).

Q: You said that we are part of the Totality and also that we are Totality. How we can explain to simple people?

K- Don't explain it to them, just pray and give to them, and they'll understand.

(This is the easiest way because we are all connected to everything through the fields of the U. The U has no structure without our fields. The structure of the U has built us. Our physical body is there as a field. It's like a wimple on the arm of the Creation. But on the other hand, that wimple is made from the Creation itself. We are part of it, and it is part of us. (We are all made from the same fields)).

Q: It's like a fractal?

K- (I'm not that kind of a scientist. These terms they make up don't mean anything). It's just the field, the way it is, the way we are part of everything and everything is part of us. Without it, we don't exist and without us, we (it) cannot confirm its existence.

Q: Yeah, I understand myself, but I don't know how to explain to people in order to be understood.

K- (It's very easy to understand it. Maybe they like you to talk with them, and then they just say they don't understand, that way you'll talk more. In principle, we are the beginning and the end. We come from the Source and we go back to the Source, and the Source doesn't exist without us because we are part of it).

Q: (This KS made the 5 Cup stacker, what he called the "sandbox" to use as a training device. The KS once had very wonderful experience that completely filled him with love and he was laughing at the amazing experience). The glow lasted for hours. It was the most love he ever experienced in his life. How can we recreate this experience without the 5 Cup system?

K- (Join the December 22nd Flight session and you will feel it inside. And if you learn how to do it, then you can repeat it anytime you want. This is the whole purpose of the session on the 22nd. You have to understand if you are a lover, or you want to be loved, then you can decide how to enjoy. When you get one, it becomes the other. It's a saturation of... It's like acidity and salinity. If you go to the maximum salinity, then it starts to become acidic). If you go to the lowest, you go back to the same.

Q: Are we there yet?

K- (We've always been there. It's whether or not you have caught up with us yet. That's a different story. But we've always been there).

Q: How does plasma energy decays into electrical energy? Would transmutation be the opposite movement, where the matter in our body is elevated to plasma?

K- (The Energy of the U always converts into energy of matter through frequency. That's where we (see) the conversion has come. Frequency is like hammering it until you get through it. When you get through the border then you'll find out what it is. It's like a hole in a mesh. It depends on finding the right energy to fit into that hole. In that hole it gets converted back into matter state energy and this always has a frequency. Frequency is the habit of matter existence. And that's all it is).

(So is this what the AC generators Tesla built are about? When the Fe magnets rotate they "break" the magnetic fields of the solid magnets, or so we were told. But maybe they are hammering the M fields of Space into the Cu, and that frequency is what is converting it to matter state electrical energy. This adds new knowledge to ponder. Then what about chemical generated DC, or is there a frequency there that we don't know about?)

Q: I have many MaGrav coils, Gans's and Nano materials in my room. Should I remove them before I participate in the 22nd session?

K- (Yes, it's preferable to remove them. God knows what you have created and how you are connected to it. A lot of KS have many Gans's everywhere around the house. So

you're already part of it and you're connected to every bit of it. The Coils, MaGravs, and you keep on building things and keeping them).

(I have a special 5 liter jar and I have the habit of leaving Gans's over the fridge and freezer. These fields are always dynamic and I enjoy doing it. You can connect to them and they "come on" and they have frequency to them and everything else. I have had this jar a long time and every time I look at it, it keeps on changing its energy. I wonder how much of this energy is going into the food inside the refrigerator and what affect it has. With this jar on my frig I don't need to drink Gans's, because the energy is constantly going into all the food. I know the T and I live by it, and like you lot, my environment is saturated with energies in every shape and form. I am always building new systems and making new tests. My place is like walking through a museum of technology. All of the things are emitting or receiving energy and they keep on changing color. I look at them and I say, "Oh!")

(This 5 liter jar is amazing. It's something which does not exist in the nature, natural in the body of the man. Over years of experience, I have managed to replicate it. To the scientific world it's worth trillions. Every man would give their life to put their hands on it. I observe how it interacts and the reason it interacts. One day it's blue, another day it's green, it keeps changing. And one day it had a mist over it. I continue to observe it).

(In the world of medicine and biology they call them enzymes. I now have the knowledge to produce these things which are not natural. They are only created inside the body of the man through certain chemical reactions or whatever. But the scientists say they don't exist. It's just a process in the body of the man which produces them, when it has a need for them. I produce them very naturally, and I see and feel their energy around me. (?? It would be impossible to make a correct test of my body because I am saturated with so many different fields)).

(This is why during the Friday sessions my microphone is totally turned off. If I come in my fields will interfere with the tests. I would affect all of you online. We tested this directly, and when I put headphones on the whole graph totally changes. So I just sit like an observer in the background, knowing, organizing, watching what's happening. When we brought the "daughter of Mitra" in once or twice into the sessions we saw the mayhem she created. We took it off, because it gives so much, that all of the participants got touched beyond and we observed it).

(We all get touched by the fields around us in different ways. You will understand how much having your Gans's, Nano materials, and everything else in the environment affects your emotion and the way you are. If you want to be pure, and not effected by these fields you have to move to a different environment because the fields will effect your whole house. It's impossible to get away from them. Even if you bury them 10 meters underground, because you touched them when you buried them, they will connect to you above ground).

Q: What happens to the Souls of the innocent children who are victims of human trafficking, pedophilia, organ and blood trafficking for the industry and adrenochrome?

K- We've been through this. (It doesn't matter if it's children or an adult being abused, or whatever, it's through the same Soul. (He told a story of when he was a student in Queen Mary and lived in off campus housing. A man from India used to abuse his wife every night for sport. He said to the wife, why do you take the abuse. Abuse comes in every shape and form).

(Child abuse touches and changes them for their life. Parents can be abusive without being aware of it. But those who deliberately abuse children won't have any place left to exist. They will become like the dust in the U, like nomads).

(He went on to tell about the pedophile ring that infiltrated the KF through his ex-wife. She was from one of the oldest organized pedophile families. When they get abused themselves as children then they feel it is their right to abuse. He blames himself for what happened in KF and that he should have been more vigilant. Always try to elevate the Soul of the children who are abused so they don't accept it and won't abuse others in the future. That's all we can do. It doesn't matter if it is sexual, physical, verbal, or abuse in any shape or form. Pray they find the strength in their Soul to exist).

Don't forget to come in next Thursday with your headphones and we might experience something very, very nice.

SUMMARY:

ENGLISH TRANSCRIPTION

(:21)

K- Thank you very much good morning, good day to you, as usual wherever and whenever you listen to these series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. Today now we are somebody's morning. We are usually we are evening or late night. (:22) Thank you very much for being here today and sorry that we had to change the time for reasons, hopefully will be the last time we change it like this, but primarily the delays of Thursdays is complete today. And unless something goes or we are somewhere special we should be back to normal time of 9 o'clock CET in the morning.

In the last week we have seen a lot of changes. A lot of new understanding. A lot of expansion and extension in the knowledge of the Soul of the Man (STM). In past weeks

as we endeavored to understand more, take shape with it. At the same time understand our own limitation. Many, many of the Knowledge Seekers (KS) have started questioning and trying to understand the process of the Creation according to their own what I call intelligence. How they can interpret according to their education background and how everything else fits into, that's it's acceptable to me, that I can become a little bit more educated with the frame I set for myself.

Going across many cultures and many languages it has become very clear to us, that Man has no language in the womb of the mother, when he becomes a Soul it goes back to the same. (:24) When he lives through the Soul it goes back to the same. As he loves, as he cries, as he digests the pains of the life within the womb of the mother, so he does outside. And what would be interesting for humanity to understand, would the man see the sadness and sorrow in the dimension (D) of the STM, when the man becomes the creator of totality of his own, in the D of the Creation. Would the interaction of the fields, would the collision of all whatever accidentally come together of two systems, galaxies, stars, planets, would that create a feeling of emotion within the structure of the life, within the life of the man as a spaceman of the future.

What this means? Can we go and we take, can we bring in the D of the STM within the structure of the man? Within the structure of the STM. Understanding the totality of what does emotion brings to the physical D of the man. And then would this bring the same D to the STM will come to understand that emotion of the Soul and emotion of the physicality (P) are interconnected. Would it come to the point where the man understands more about the emotion of the D of the Soul, (:26) in the D of totality of his own existence. Can man convey the emotion of a man through the emotion of the Soul and control it the way we control our D of P through our emotion?

Then it will come to a very big point. We had the emotion we showed in the D of P. When we become a Soul, when we become a seed of a star, when we become the beginning of another cycle of life in a bigger D then creating one or two children, which create many millions and billions of them, would we carry that emotion to our children through their Soul? And would that extension of the emotion of the Soul becomes part of the structure of the life, which we begin as the mother, as the seed in another position and D in the universe (U)?

In the coming time the systems and technologies which are on the horizon and come to completion, and then we'll see can we show the emotion of us within the system, and then would that emotion allows for it to become fingerprint of it. Would it allow for it, in a way, that the emotion of the P of the man translated to emotion of the plasma, allows that plasma to show reaction. Where we don't need to write a program for it, where naturally it creates a D of the emotion for itself.

In the coming time, systems developed will carry this in natural emotion. (:28) And then it comes a very big question for the mankind. Would these systems developed by the man, will take over the man. Where these systems will create their own Souls. Where these systems will create the D of existence that man never knew.

What is interesting and what we see, is that how our emotion can be fingerprinted in the D of the STM. In the coming time, in the next couple of weeks when we carry that emotion of love through the what we call, "the cycle of love of Mitra" on 22nd of December, will we see the beauty of the creation within the man? How many of us will be touched by the true love of the Creator? And how many of us will see the elevation of the Soul? And would that be what mankind has been looking for.

2024 has been promised to be the time of completion. And would the 22nd of December, will be that time. To complete, to show the man, that man can love through the Soul. That man can receive love through the Soul and transmute that to his P. In a way, 21st, 22nd of December is the birth of Mitra, celebration of the life of Mitra, and would we be able as the technology (T) as we developed to bring that emotion of love, giving, creation to those who are there to receive it.

And as we taught in the last sessions, would you be able to give it, that it gets received by those who you love. (:30) And would it touch them, would it change them. And the most important thing is, have you learned how to do it? Have you learned how to be a giver unconditionally? And then would it come the time when many of you decides to run, to decides to jump, in the ocean of the love, and at the same time learn this is not the only dimension. And if once you learned this, you come to understand the possibility and proximity of how you can do things and how close you can get to it.

The process of the emotion, control of the emotion through the Soul, will be nearly completed this year. And that is the time when we start teaching directly. And in a way in next years, process of starting for you to understand the next step in the process of the Creation. How do you connect, how do you create, how do you separate one field from the other. Which field is the sorrow, and which field is the joy? And why do we have always the two opposite emotions in every dimension of life with man? Cry, laughter. Joy and sorrow. Gravitational (G) and Magnetical (M). And isn't it this that runs the process of the creation of the man? (:32)

Every interaction has an emotion, and every ?? emotion has its own dimension, and opposite direction to the flow of the same. ?? Yin and Yang. And this will become important for the KS to understand. How you create, and how from that creation it will lead to understanding of the totality of your own self, and nobody else's. It's like, you don't know what it means to be, to love like a father, till you become a father. And now it is the same process for all humanity, the mankind, for the womankind, or any other kind of animals. How do we create to love unconditionally, through the process of the emotion of the D of the P of the man. That it touches us, and it changes us.

In so many ways, as we set up the systems, as we set up the structures, to guide, to support, to show, how you go through the D of the elevation of your own Soul. Gradually we come to the point that the system developed by us becomes obsolete, because you can do it on your own. You can create that D, and how you control everything. It's no use

trying to copy, because you haven't understood. (:34) And will be ever used, once you understood you can use it in any D and direction.

Process of loving, which is the giving. Process of receiving it, is harder than giving it. Because you have to have that capability, that when I receive it, what am I going to do with it. How is it going to affect me to learn this process? And what changes it will bring for me in the D of my Soul?

Many, many scientists, many people with intelligence, have tried to understand this point. And they have failed miserably. Because there are no books. And there are no hidden titles. In the coming weeks, it is you who have to teach yourself in how to moderate, how to expand, how to retract, and every other point.

In the coming times, as we taught in the past teachings, you have to learn to extend the STM. You have to learn how to control the expansion of the Soul. You have to remember, that in the D of the plasma, the smaller you are, the more powerful you become. It's not like in the D of the P, the bigger you are, the more powerful you become. The more of. (:36) The biggest problem for mankind has being this, the "more of". Where in the D of the Creation, it's the less of, the weaker of. It's the one which connects, it's the one ?? which common denominator, and it's the one that everything through creation of it ?? , is created through it, and it's connected to it.

There is a process of how to reach this position, in a way, how to become detached, step by step, step by step. And, do not do it in one go, but over time. Little by little, step by step, to build to that point. In how, the whole structure of the Creation, can be connected to, by the man who decides ?? to. You don't connect through the eyes, but you connect through the emotion. You connect through what they suffer with. And then, if you matured enough, to be able to get it off, and take it, and convert it into a good point, then you have learned a lot. Then you start the progress, and the process of development.

In the coming time, we create systems, which creates emotion, in the D of the Soul. (:38) Which that, will change, and can control, most of the ailments of man, in the D of the, what we call, psychological pattern, changes in the physical D, that, that brings a change. Teaching how to play with your Soul, to the benefit of the others, and not yourself.

In the coming time, when the systems with the emotion are introduced, man will come to understand, how easy it will be, for him to change himself. For him to learn, to be in the process of learning how, to change everything around himself, even the people, in a way that it suits him. In the society of today, we decide who we want to be, who we want to be in touch with, which kind of people we integrate with, in which position. And, we have put barriers, conditions, and parameters for this. In the world of the STM, it's not very far. You create, what I call, packages of the plasmas, for a specific condition, but you connect all to one bigger plasma, you call it the STM. (:40) If you understood this, then you can manipulate the DNA of the man, as much as you can manipulate the RNA, the information line, the line of the Soul of the Creation. And this will be one of the

biggest challenges for mankind to come. To create a condition of balance, that one never stands out, but is part of.

In the process of the development of the STM, man has to live and to learn, that the humbleness is the key to connection. Humbleness is the key to be able to be connected to the Totality. And, for it to be tangible for man to see, because man is physical. And to what extent will come, for Knowledge Seekers to expand this knowledge, beyond the totality of the understanding of today. As I said before, everything has got a time. Everything has a reason, and everything has to be correct on its time, the reason and the place of manifestation. (:42)

If you as KS, as many of you are listening through headphones, try to connect to all the Souls, through the emotion of what you feel. Try to connect to the Souls and how you communicate with them. How do you communicate with yourself in the D of the Soul? Even though, D of P is very apparent and clear all ?? to us.

In the coming time, when we introduce the system that can elevate the STM, I'm sure many of you will change accordingly in the D of P. In a way, you will see that you can recognize, just because the fruit is the ?? , or is the same as what I know, this is what is going to be and how it's going to taste. It will not be the point that I choose what I want to the taste and the condition which I need to be for a purpose to serve me.

Manipulation of emotion in D of the Soul is forbidden. Manipulation of the emotion for gaining a better, or an advantage to (over) another is forbidden. It's a little bit far-fetched, but with a few moves we can see. (:44)

In the coming time, the systems which will carry the emotion will be so fundamental to the work of the man's daily life, that the sooner man learns how to control himself, how to be able to manipulate, will dictate how much further in the process of the Creation he can go.

The biggest question will be, how and what would you do, knowing that now you have become a listener and from now on you become the receiver? If the Knowledge Seekers learn the process of loving through the Soul, where you do not need to say, "I love you", but it's done through the Soul directly and you see how this will change you, you'll come to understand the process of the change has already started and the use of the Cup and the material in it is just an image, which to you might not be correct or sound right, (:46) but in fact it's the only way to live that life, to become correct.

Try to learn how to expand your Soul. As I taught in the last public teaching, try to put your hands on your face and with it, in that instance, and that second, you'll change. You will feel the change and you allow the change to take shape the way it suits you, where the other one has already chosen, "What could be what I enjoy?"

The completion of the understanding of the STM and then his manipulation to extend it to the D and extension of every life on this planet, will become very easy in the coming

time, in the coming weeks and months as you learn. You'll find out, you pass an animal, you'll know its pain and then you know how you can remedy it. Where we do not expect to control, but we expect to give and watch. (:48)

The process of transmutation through the STM is one of the most fundamental ways for man to learn and to be able to use it the correct way. Manipulation of the emotion of the STM, by man himself, it'll become one of the new cycles of life which we start teaching. You manipulated the Gans's, you create the Cups, you create the Pens and you've seen how much it helps. Now it's time to teach the true knowledge of the Creator and how this knowledge will come to affect every single one of us.

Many people will ask this question, "Am I good enough?" "Would I be able to do it?" "Or just I live till one day I understand?" And every man has the capability to reach the same point. It's just which way you choose to be there. Through the process of manipulation of the emotion of the STM, (:50) man will learn new way of living, new way of understanding and new ways of interacting. And what is our request from you as Knowledge Seekers is to find out which part of the structure you fit, and how you can serve and how you can change that ?? what you made ?? in a usable energy field.

The process of manipulation of the emotion of the STM needs full clarity about understanding how and the way the STM operates. When you set out to elevate the Soul, when you set out to bring peace into the life of the Soul, you will feel that joy, that benefit, that pleasure of being able to give you this, but I have denied myself or the rest of my ??. Which is now, you ??, is absolutely crazy and it's deepened day by day.

Understanding the totality of the emotion of the STM is something that no races in their central control of operation have understood or have managed to complete. Operation of extending the Soul, elevation of the Soul, (:52) it has to be in a way that you seal, you lock and you seal the process. In how you will allow the emotion of the Soul interacts with the emotion of the STP, dictates what kind of diseases you get in. And it's not that I've done once or can do it again, you forget in doing it.

Try to go back within yourself and try to find out. Try to understand how emotion is controlled through the inner STM. And to understand how the fields interact, which the normal condition would not be in this position ?? The extension and expansion of the emotion of the STM is, has been and will be the ?? .

The totality of the STM has to understand ?? how to ?? the ?? road to the Soul. (:54) Understanding the elevation of the Soul, through the process of understanding the elevation of the man himself in the D of P, is one of the points which is always become. How do we elevate the Soul? How do we come to see it that it's ours? Yes. .. When it completes itself.

In a coming time, we can through the plasma systems make you laugh, at the same time make you cry and not much further, you will ??, you make and you develop that and you

test. And that's become a bench work, for those who want to elevate their Souls without dying.

The process of elevation of the STM has to come with a full understanding that I'm not the only user and I'm not the only one who will be allowed to use. Understanding the elevation of the STM, (:56) through giving, will be brought up in depth on 22nd of December session. If you push the process beyond, other entities will manifest themselves.

Developing systems, ?? man, that man is used to, but creating new conditions of the Universe, has started and cannot be stopped. Elevation of the STM, through expansion of the Soul to elevate the others than yours, will become like a ?? in the, in the back of the, life of the Soul itself. Once you understand this, you come to understand how to transmute. You come to understand how to move. You don't need to go up and wait for the Earth to rotate and come down, where you want to be. Where, with the new cycle of development, through literally invisible channels, we connect you ?? to the part which is missing. (:58) What you need to do, to elevate this, to become the Soul of the Creator for a new cycle of creation in the Universe.

Interesting times are ahead. And I hope you understood the totality of what the knowledge is today, and you can act upon it. And to be able, upon acting, to give it to the others. How the elevation can take shape. We have to come to understand the facets of what is within the principle of the working of the STM and the STP of the man.

I hope you understood the whole teaching of today. Developing a system to fit individuals by themselves, this is the key ?? tool. We need to expand, we need to deliver a workable Soul for our P. (1:00) Expansion of the Soul, extension of the Soul, giving from the Soul, all comes through one process. It's for you to decide which one is which, and how much you can use one, before you lose the interest in how it's done.

Try to join us next week. And we'll try to make a session for all your Knowledge Seekers to go through this phase collectively together. Try to have a headphone and then we try to show you how you can receive at the same time as you give. And then the life for every man on this planet shall change. We go through a break and come back. And as I always say, I hope you understood. At least you should be clear with your Souls. Rick, can you take us to a break? Then we come back.

>> BREAK >> 515 KSW December 07, 2023 (1:08).

K- Yes, thank you very much. There's a couple of announcements which I'd like to inform. The... those of you who bought the mirrors in the past year or two, and you wanted to start learning how to use them and what are for. Those of you, if you have them when you join the 22nd of December session, bring them with you. And we will split you into groups or sections which have and they don't have. And we try to bring into the front, the use of these, the new technologies. Which now that our systems are developed we can use. And you can bring it to manipulate and to be able to receive, (1:10) that then you can create the energies with. And as we always say in the plasma technology, energy is magnetic fields in motion. And how you can use is to create a condition of giving and receiving.

The, what we call, in the past, the 22nd of December session, it's most probably one of the most glorious days, throughout the work of the Foundation. In the very first steps that we start understanding how to allow the energies within us to be given, to be shared in a form of knowledge of the emotion of P and emotion of the Soul together. I have never looked forward to a session than the 22nd of December session, where we'll bring a lot of joys, a lot of changes to a lot of us. In a way the essence of energy from within us to extend. And if you have the mirrors with you, bring them and we'll start experiencing a new experience and we go through it to see how the extension of the joy and energy will come with us. If there are any questions, please go ahead. (1:12)

Q: ... I'm not sure if I misunderstood or I missed something. If our P is due to Earth field, then my question is, how astronauts keep their P when they go to Space? Thank you.

K- We are still connected to the fields of point of our creation, which is the Earth, even we go into the other part of the Universe. But we have not been far enough to be away from the D of the fields of the Solar System, to really feel the change in the D of P. Our physical life at the moment is still conditioned by what I call, the star of the system. It doesn't matter, we can't escape from it. Be it on Earth, be it on the Moon, anywhere else. And this is what I call, just because you went a few inches or centimeters or kilometers above, does not change. (1:14)

Q: Okay. So if we go beyond that, beyond the Solar System, then they will lose their P?

K- We don't lose our P. Our P is just according to the environment. And according to the wishes of our Soul, our emotion. It has a huge game to play. Our Soul is a plain canvas. In the interaction with the energies of the environment, it gets painted to the D of how it

looks. All our Souls, does not matter where, from an ant to a man on this planet or another position, is a plain canvas. It's how the environment interacts with it. It takes shape, it takes D of P. And it allows it to manifest itself. And our P change.

We are on the... We've been on the Moon in the condition of the forces of man clothing. We have not been on the Moon jumping out of the, what I call, the monkey suit. We die. Because the environment is not built to support the body of the man. (1:16) For us to survive, we have to change that D. And soon we'll realize, all of us, we cannot breathe, there's no oxygen on the surface of the Moon. So you have to find a way to absorb energy from the environment of it. So, the lungs are out of question. There is no water on the surface of the Moon. Unless we drill a hole, we might even, we might find water. But what if it's a combination that we can't digest? What do they say? Never, what you call it, use the water from here or there, it can kill you. You don't eat the snow, when it melts it becomes water, fresh, you drink it and the rest of it. We don't have water, so there it goes our digestion system.

The reality is, there is no food. How you going to feed yourself on the Moon? No cows, no grass. So, you're a dead man. You're as good as a stone on the Moon. To live on the Moon, as a citizen, without the oxygen backpack, without the energy packages from the Earth, there's no life. (1:18) So, we have to change, to our P.

We always looked at present science, in what we have done, what we have, and never looked at the reality. The reality is, to test, take an astronaut and tell him, "Take your clothes off." See if he survives. Now you understand. We take, we change our shape according to the environment. We have to, we have no choice. So, our P of the man is for this planet. We air breathe, we water to drink, we have grass and god knows, cows and beefs to eat, and the rest of it. As I was telling a vegetarian, we are all vegetarians, because even the cow we eat, eats grass, so we eat a vegetarian cows, so we are vegetarian. But, on the Moon, and on the position, if we can survive, then we can say, "Yes, the body of the man will be the same everywhere."

The only way the STM, the emotion of the man, survives anywhere in the Universe, once he learns to go through transmutation. To let the fields of his Soul to interact with his environment, and manifest itself that it can exist in that environment. (1:20) Can survive, can replicate, can generate new generations.

Q: Mr. Keshe, there comes another question to my mind. How the astronaut suits keeps their connection to the Earth? Is there something special there?

K- It's ?? (not) a connection. We have encapsulated gas in it. We have encapsulated gas as they breathe. We have created the insulation, isolation. You make a hole in one of these capsules and see if they survive.

Q: Thank you so much. Thanks.

K- You're welcome. Thank you very much. I've been sent a reminder by the Keshe Foundation Sales Team. They have put in new, what I call, toys for Christmas, with what we call, knitted different things. And they want it to be promoted. These beautiful things, if you go to the sale section of the Keshe Foundation, and apparently, they put in some discs if you join the Keshe Foundation. A few of them has been put for celebration of London Conference, as a set. And they are new products of the Keshe Foundation, they are hand knitted, (1:22) what you call it, different animals or whatever. But they all have Gans's and they've been set for a specific purpose. If Rick can go to them and show, it'll be nice, because they want to promote them. They are a Christmas this year, handcrafted, knitted things by the Keshe Foundation. As we, this is, these are bees. They're different sizes and different animals, all sorts. They're hand-pushed by the Keshe Foundation people. It's made especially by, for the Keshe Foundation.

As you know, we have moved out of Linz, Uno Center, totally now. We have, what we call, left the premises. Just one second, please. As we vacated the premises, if you remember, one of the Italian Knowledge Seekers, yes, this is the promotion coasters, which were very few, limited to this, but a few sets of them, only left, I think, 6, 7 of them, and that'll be the end of it. This was for remembering London conference. (1:24) If you remember, the Italian painter donated all the paintings to Keshe Foundation. Now that we moved and it'll take some time to come back on, these paintings have been put on, it's about 5 sets of them, to be, what we call, to be cleared out, to be taken out. And we put the set at 500 Euro, there used to be 3,000 originally, but we just, because they belong to Foundation, we don't want them to be staying around and getting damaged. So, if any of you would like to have any of these sets, you can purchase it directly. And the paintings now are just there for this purpose, and then there'll be no more of them.

I was asked a question, what happened to the Red Spot, what you call it, the Pens, the new evolution in the, what we call, technology. They will be released this week, and you can order them, because some people wanted to buy them. And at the same time, that what we call the Relief Gans, which is now, is on promotion, it should be coming out. It's a magical, what we call Gans, it's a trial for us, and we want to know how you feel with it, and how, when you use it, and the instructions are there, it's called the Relief Gans's. It's an amazing thing, a development in Keshe Foundation. And we'll try to expand this kind of things, that we expand the next step, and how things will be, and how it we'll develop.

The Wellness Center of the Keshe Foundation, as we said, announced the trials for Asthma, Autism, last week. (1:26) And it's amazing what they can achieve. And you can get in touch with them, and start the process, especially those of you who have these kind of concerns. You can talk to the doctors there, and they can sort a lot of things, that you don't, what you call it, you can understand how the plasma works, and how you can change it for yourself.

Q: ... 21 days ago, that the production of the Communication Bundles has been completed, and shipping is beginning. As of today, the computer does not show any shipping. Can you tell us about that, and will the Units arrive before Christmas?

K- .. Yes. 25 has been, or should have been, should be completed by Christmas. And then they go on the order of the orders, and then the next slot. These are very hard to build, they are not easy. And yes, 25 sets has completed, or going to be completed by Christmas. Depends what the shipping section will do with it. And then, it takes sometime, one or two days to build one. They're not easy to build, and then in January, the next batches start. Because they do these in batches, and I was told, 5 were completed by last Monday or Tuesday, or even this week. And the rest, it goes. That's what sits for the production. Yes. (1:28)

Q: ... Is there a delivery date for the Electric Gas Unit?

R: I think he's talking about this Power Unit here.

K- Yes, this will be done out of China. It'll be, we are trying to do it in the ?? Middle East, in the first quarter of 2024. There is a lot of position regarding the Gas Generator. And as we had to demonstrate it for its commercialization, to the, what we call, authorities in China. And there's a further development on this. And yes, because when it goes into production, it goes for hundreds of thousands. It's not just for a few pieces that the Knowledge Seekers have ordered. It's a change in the course of actually energy production. In the next week or two, this is under discussion for the production in 2024.

K- ... Just give it, just give me one second, let me get you something. (1:30)

There is something about the Communication Unit Bundles. You will receive it in two halves. You will receive the one part, then you send an email to the Foundation that I received my part, the first part. Then the second part will be shipped to you. This is how the Bundles will be shipped. You receive one part, then the second part. There's a reason for security and the reason that people cannot abuse it and the rest of it. And communication units are not like, what you call, UBESUS (Universal Body Enhancement Spaceship Units), they are totally outside the framework of the Keshe Foundation, regarding our work on that side. It's communication systems and then you'll understand how to use it. We will teach you how to do it.

Any other question?

Q: ... Dear Mr. Keshe, you stated that no manipulation of the emotions is allowed. Is it then that we completely accept whatever emotion shows up in our daily life and expand this to all encompassing love?

K- Once you work through the Soul, yes. (1:32) Once you trust, this is from my Soul, this is what emotion created. Because, work of the Soul is accommodation, accommodating each other. Work of the P is forcing my way. Or, I do it till I get it, or

I've been forced to do it because I've been told to do it. And so, when we learn to live in the D of the P, we live the life of the man. And, when we live in the D of the Soul, we live in knowing that already decision to be correct has been set.

Q: ... And would this lead to the humbleness and elevation that you also spoke of?

K- It does, because we know the facts. Yes. Because we know what is done is done with the ?? Ethos of Mitra.

Q: ... Does everything change after transmutation, or what is kept from the former existence before transmutation? Parts of the body, illnesses, emotions, fully awareness of the state before and after transmutation?

K- Transmutation on Earth will be the same as you do the transportation, but in a faster way, and a lot of other things with it. Transmutation D of the Space Technology is a game to play with. (1:34) It's absolutely a game to play with. Some of you will know you're going through the ?? trans .. you'll learn this. And, for us, it'll become natural way to do, in a way.

Those of you who learn to go through transmutation, by yourself. When somebody is sitting in front of you and you keep your eyes open, through your eyes they can see you going through transmutation. And then, if you allow the physical life to go through it, you'll go through total transmutation of P and everything else with it. And, you'll see the change of the color of the eye, for example. You will see the shine, the silverishness of the skin. And, you'll see the process of the transmutation.

In death you leave your P behind, in transmutation everything has to change to ?? go. And, it's an amazing experience. (1:36) So, we learn, gradually learn. I have been witness to it, many times. Many, many times.

I was just asked .. like to ?? ask a question. Can transmutation system, half part of it, will be shipped by Friday. Those of you who asked. So, by Christmas you should receive half of your transmutation Units and then you send an email to where you placed the order, the second part will be shipped. I thought there was five ready, but ten will be ready by Friday. You have to buy next Friday, then tomorrow is a national holiday in Austria. So, there is no shipping.

Any other question?

Q: ... Mr. Keshe, do you consider the Frenchman, Alan Kardec, who codified the Spirit's book in the 18th century, (1:38) to be a prophet or a messenger? Thank you for your teachings.

K- Do you know my usual answer? Who?

R: Who? Who exactly?

K- I do not know, so.

Q: ... I have no words to thank you for this patience, elevating us, little by little, and your efforts, thank you very much. Secondly, if I'm not mistaken, I just heard you saying that for next week all Knowledge Seekers go get an audio ?? and be in this program. Do you mean next week or do you mean 22nd?

K- Next week we will do a session with all the Knowledge Seekers who have a headphone. Nothing to do, this is nothing to do with 22nd. This is something for all the Knowledge Seekers to start experiencing part of the, what we call, elevation of the Soul.

Q: How does it go?

R: Will that be right in the workshop, the Knowledge Seekers Workshop next week?

K- Yes. We will set out to bring a new D in, that most of you, you have to be present, on recording will not work. (1:40) It will not work if you are recording it. We connect you to certain ways with us, through the teaching, and it will be interesting to all of you to feel. Many Knowledge Seekers were waiting for this, and this gradually in the following months will become part of the bigger picture of the work, as the extended teaching and the work of it.

R: Mr. Keshe, most people in the usual Zoom sessions with the headphones are using an iPhone or some kind of phone system. So is it okay for people to use regular headphones with their home computer or laptop?

K- Don't play that game ... Yes, don't worry about left or right. This system doesn't have that problem. It'll be better, then we tell you how to do it at the beginning of the session. We organize from our end and it'll be something for you to feel, the D of the energies and the fields of the plasma. And is... the time has come to bring a lot of changes gradually. We will start a process of a lot of things.

Something we just remember to explain. Those of you who bought the prevention policy and other packages of the Wellness of the Keshe Foundation, (1:42) in the next few days, hopefully before the end of the year, you will receive your invitation for your first session with the Wellness Center. Please respond back to confirm the date, the time is acceptable to you, back to the Foundation. And you'll be given a second time, second session. It's two sessions a year. There'll be your time for the second session to book in. And I think most of the whole thing starts in January 2024. So, all the Wellness, those of you who bought the policies or paid for the policies of the Keshe Foundation, or Wellness or prevention or whatever, you should be receiving an email in the coming days. Please respond to it, that you accept the time allocated and you can join in it. And you do this twice a year, according to the policy which you bought.

Any other question?

Q: ... Hello Mr. Keshe, I came across the plasma science recently and I've been wondering if it could help me understand something that happened to me in the past. I was walking down the street, a ball of light in the sky, close to the Sun, began to send a ray of light towards my head. It was visible and I even took a picture of it. (1:44) I was wondering if you could explain how we can connect to the world of Creation and if this connection could appear visibly like the beam of light coming towards me. Thank you very much.

K- As I always say, I haven't been there, so I cannot explain it. And each one of us have different kind of experience when it comes to these things. In one way or another during our lifetime. A lot of people see light balls moving around, a lot of people see different things. But I do not... It's not to say you're wrong. It's to respect and unfortunately, as we haven't been there, to explain it. But it doesn't mean that it was wrong or you imagined it. It's how we all have our own beauties and we all receive or see according to our own strength. And as somebody wrote to me, "I hope I wasn't imagining." We never imagine. It's there, it's what we could not accept and we have to respect. What you've seen, I cannot explain because I wasn't there. And one has to be there to see, to be able to explain the phenomena.

Q: ... Hello Mr. Keshe. Last Thursday you said that after we die, we will move to the bodies of animals that eat us. Combined with what you said before, if we don't learn transmuting, (1:46) we will be located in other parts of the Universe according to our own Soul strength after death and become stars or part of them or Cosmic dust. Does this mean that after we die, we are divided into several parts? The main part is located in some place of the Universe and the other energy parts become part of the animals that have eaten our bodies?

K- Yes, that is a normal understanding, yes. That what goes is to the Soul. If your STP and P elevates the Soul of the animal which you became part of, your P, your STP become part of. In elevation of, in receiving that energy, and is, if becomes part of the elevation of the Soul of that animal, on its death, yes. You have become part of your energy, not you, your energy of your physical existence now become... It's like if you eat an apple, it's another entity, another life. Part of it become part of your Soul. And... so now you carry the essence of (that) Soul. You become part of the Soul of that creature.

R: In case of the apple, we throw away the core and it becomes food for other entities in the Earth again.

K- Yeah, but the thing is, say, there's an old way, say, say, "Don't waste food." You have to throw it away. But, if you understand that, what we throw away becomes a cycle of life for another life. It doesn't have that meaning, the way it was intended. (1:48)

R: In a way, if we don't throw it away, then we're depriving those entities of their energy. We should throw more food out.

K- Yeah, put it this way, the ones we do it deliberately, we are proud of doing it. The ones we are not doing it deliberately, we call it as it's wrong. You know, we go, we take, we buy food or we buy bread and we go feed the duck. That duck doesn't eat, everybody brings me bread, bring me something else. But we feel good because we feed it, we take food, we leave it outside for the birds to eat. But, that food you put, it becomes a food in another cycle. We're all part of the same structure, it depends how much we fuss about in which part of it.

We have to be politically correct nowadays. So, the... we have to understand, we are part of the whole structure the same.

Any other question?

Q: ... Make sure that the knowledge of the Soul's emotion manipulation goes only into the hands of right Souls and never into the hands of those sick Souls out there when they are not ready.

R: So, you think you can direct your knowledge only to the right Souls? (1:50)

K- It all depends on who's benefit, if it benefits, into who's benefit.

I heard something extremely, I couldn't stop laughing, but... the rage inside me was worse than actually laughing about it. When you listen to the situation in Gaza, this afternoon the head of United Nation has made a comment in a way that they need a resolution to stop this and make the state who's doing it, a criminal state and then all the sanctions by United Nation. And one of the ministers of ?? says, "He does not understand what he's talking about, we can do what we like in a way, and we are immune from these things because we control the Americans and control United Nation." In a very different way of putting it. And I thought, "How can we are different?" And he speaks about, they're taking women and children and hostaging them. And the head of United Nation does not understand our hostages, they are in their hand. And I said, "My God, you're killing children in tens of thousands now, hundreds of thousands and nothing. Is there any difference between your blood and their blood, their pain and your pain?" And how irresponsible, how arrogant this blood, this nation has become. As I said, "We've taken the love of God from the blood of Moses." You will see their suffering, beyond their imagination. Even I come partially from that blood. (1:52)

When man doesn't understand, has no emotion, and he sees himself as in the top, it's the time which is actually at the bottom, he's barking. In the very near future, I wonder if a single plane can fly over Israel. You'll understand very, very soon. The nations who take gun policy, very soon they'll find out, very, very soon they'll find out, we silenced those guns. And the process of it is, not to be a threat, is to stop the suffering of other man, by misguided work of them. Doesn't matter if the gun's shot in a school, on a train station, or in ?? mass in Gaza, or anywhere else. There should be no... man should have no access to tools of killing.

And our job is to create peace, and to change that from inside. And we see only the ones who brag about their faith and their religion, are the ones who killing most of the murders. (1:54) The Jews, the Muslims, the Christians, and soon these will be silenced. If we do it, they say they've done it to us. If they do it themselves, they walk away from it. And this is part of what is to come. The process of next Thursday, is the beginning of that cycle. We should see.

Any other question?

Q: ... Is the fact that we can't expand the Soul beyond the STP and P, due to us not knowing how to do it? Or not having enough energy in the Soul?

K- How come you do it when you're asleep? And you call it a dream? It's you who has put that limitation on it. And nobody else. How come when you call it a sleep time, (1:56) when you reduce the fields of your flow of blood, you do it? And when you're awake, if you balance the emotion of the body of the man, you will allow the STM to expand.

In the session of last week with Knowledge Seekers, we showed partially how to do it, to try to expand, to be able to create that light. It's you who has put that ban and limitation, not your P, and not your STP, and not even your Soul. It's your thoughts and your emotions, who's put the limitation.

Have you ever watched your children when they're asleep, or they go to sleep, and you're awake? Have you watched your dog when he's asleep? When they dream, when they laugh, when they move, when their eyelashes move fast, when they cry jumping out of sleep, have you ever watched them? (1:58) That's a Soul travel.

If you had an special glass, like that we have the night goggles you put and you see at night, if mankind understand this and develop the glasses, that can see the strength of field at this level, you will see the Soul expanding, the Soul traveling, coming and going. We have blinded ourselves to this field. Watch the eye of many, many children when they're born, and their eyes stays blue, or grayish blue, and they stay in that blue, and especially the first days they're born, it's light blue, grayish, blueish. And if you watch your children, certain position, especially the children of Mithra, you watch them, you see it in their eyes. While they're sitting their eyes will go gray blue, they could be brown as anything, or black as anything. They always turn their back on you, because you don't see, when you see their eyes going gray blue, grayish light blue, and then you understand what the Soul travel is. This is when the Soul is traveling, they're still there, they're still physically, maybe talking to you, they're busy playing with themselves, with their toys, (2:00) but when you look into their eyes, the eyes are gray blue, light gray blue. It's when the Soul travel, stay quiet. They're learning to live with both D. And this is the way they will do communicate, and live that life. And we get that many of us to the point of death, when the Soul travels, when the Soul is departing from the body, you see that color. One day I explain why this color.

Then, there's no question to ask, it's just that we are blind, we have chosen ourselves to be blind in the dark, we have chosen to be blind to the fields of our Soul, the expansion of our Soul, observation of our Soul and the others who come and go with it. I've witnessed this many times, and it's an amazing feeling, when you see the Soul travels. (2:02) I watched it once with one of my sons, and he said, "Dad, how is this possible? I said, just learn. Just learn and watch.

Any other question?

Q: ... I work with children, and it has been challenging to contribute to their good. I would sincerely like to learn how to contribute to the elevation of these children's Souls, in the short period of the day that I'm with them, when they are under my responsibility. How can I touch these children's Souls?

K- Give from your Soul, just, instead of sitting there and talking to them, just elevate their Souls. Make it available for them. How come you make it available, the education of mixing to colors, and you show them? Sit there and elevate them, don't expect to see a result, because you'll see the results, and they see the result of it, in the time to come. We always look to get an answer, or see a response. And, depends how they dictate it to us, we respond to it. And we take it to be. (2:04)

And this is the process, that, try to elevate them. Try to leave your Soul to make a decision. It's very hard. And, you, as you live, you come to trust to do it, because you see the answer of it. And, you learn to live with it, because you see the outcome, as long as it's correct for everyone, even the knowledge you give them. You'll find out, they come and pick up the color you were thinking, says, "Oh, amazing, he's..." Because you gave the knowledge to, through the Soul. How would you taught your, the children in your class, if you had no mouth? Would they stay illiterate? Or, would you teach them with your Soul? You don't need to force it, you make it available. And, they pick it up.

This morning I had to attend, that's why this session was put the afternoon. I had to attend something which is going around in my life for a long time. And, I, before I leave, when I woke up this morning and in the morning, and before I leave the house, I said to my Soul, (2:06) "Bring a condition which is balanced and correct. Not what is to my benefit, or anybody else's. And, bring a just and correct, then this thing can close." It could have gone for years. I went to a meeting, and because of the reason was canceled, and whatever, to come back another months, and months, and months. As I walked away in the corridor, going down the stairs, it's like my Soul brought me, picked me up and brought back, "You are not going, you left it to me to do it, you go back." It's very strange, I was like 5 or 6 steps down, and steps going. I felt my P just literally twisting and turning, because I left it to be done, I wanted it to, was my wish, but to be correct. And, within half an hour, what could have taken years, was all done, finished, and all correct.

And, this is the way it has to be. And then you learn, because my wish was sincere, to finish a lot of things, and done with. My P doesn't have to suffer anymore, nobody else ??

anybody else. And it was the strangest thing, and I've got used to these things. It's just like, halfway down the stairs, about 7, 5, 6, 7 steps down the stairs, and it's just my Soul said, "No, you left it to me, I've done my job, get back up, I'll finish it." And, you stand there, and the things discussed, (2:08) everything is just was impossible, that's why everything was delayed for another meeting, and another year, two years running. And was done within half an hour, to the satisfaction of everyone available. Because I didn't want anything of it, I had no physical attachment. And, this is how life is, you leave it to the Soul.

When you teach, imagine what happened. How would you have taught your children, in the classroom, if you had no mouth? With your eyes? What happened if they had no ears? And they can't even not hear your voice? What about if they are blind? They can't see? One day when our teachers learn to teach the Soul, and the Soul of the child, the P, it's so beautiful, does not need the ear to hear, does not need the eye to see. It'll be educated in knowledge of the Universe.

Yesterday was St. Nicholas (Day), what we call, the day of birth of the "daughter of Mitra." And, it's a celebration for children. And traditionally, in some ways, (2:10) some, what you call it, leaves or whatever, the child wakes up and waits to see if there's a sweet in the shoe. And if there is a sweet in their shoes, it means they've been a good children that year. And St. Nicholas bought and put a sweet in their shoes. But, do our children have to wait for that sweet to know they've been a good? Or do we tell them every day they are good? And that's what is important.

How would you teach if I bring the child of an alien in front of you, who has no ear, understands no language? Does he have to stay illiterate? If you learn as a teachers to, when your children in the classroom. My son is a teacher and I always tell him, and I tell him, "raise the Soul of your kids in the classroom, you'll find out they'll love you to death. They'll find peace with you." It took him 5 years and I met him very recently. He says, "Oh, I love the students, I love the children coming to me and I have changed to enjoy them and as much as they enjoy just being in my class."

Try to elevate the Soul of your children as they walk into the classroom. Elevation comes, make it available. (2:12) The worries behind that door, no breakfast because mom has no money to put a breakfast on the table, being bullied outside that room, whatever. And then you find out your teaching is different, than when you just go in and sit down, "I have to teach, I'm the boss, I teach."

Any other question?

Q: ... May I ask you Mr. Keshe about what you said that we are part of the Totality and we are also Totality. How we can explain to simple people?

K- Don't explain to them, just pray for them, then give to them, they'll understand.

We are part of this. It's the easiest way because we are all connected through the fields of the Universe. So we are, the Universe has no structure without our fields. But the structure of the Universe has built us. The field... It is like, as I said, you, if you're not there as a field, you think you're a physical body, but it's the field of it, it's like a ?? wimple on the arm of the Creation. But on the other hand, that wimple is made from the Creation itself. (2:14) We are part of it, but it's part of us, it's the same. It's just because it's fields.

Q: It's like a fractal.

K- I'm not a scientist, these things don't mean anything.

Q: A compressed...

K- No, it's just the field, the way it is, the way we are part of everything and everything is part of us. Without it, we don't exist and without us, we (it) cannot confirm its existence.

Q: Yeah, I understand myself, but I don't know how to explain to people in order to be understood.

K- It's very easy to understand it. Maybe they like you to talk with them, and they say they don't understand, so you talk more to them. But in principle, this is what... the way it is. We are the beginning and we are the end. We come from the Source and we go back to the Source and the Source doesn't exist without us because we are part of it.

Any other question?

Q: ... My question is to do with the sandbox of the 5 Cup stacker which we were to use as a training device. It once brought me to a very wonderful experience. I was so overwhelmed with the feeling of love that I had to remove my headphones, leave Rick's classroom and lay down. I was completely filled with love and was laughing at the amazing experience. The glow lasted for hours. It was the most love I've ever experienced in my life. (2:16) I am curious if you can teach us something about how to recreate this experience without the 5 Cup system?"

K- Join 22nd of December session. You will feel it inside. And we know what we are doing with you on 22nd. And if you learn it, you can repeat it for all the time. That's the whole purpose of the session on 22nd. You have to understand if you are a lover, or you like to be loved. And then you can decide in how to enjoy. As you get one it becomes the other one. It's a saturation of... It's like... It's also... It's like acidity and salinity. If you go to maximum salinity, you come acidic. If you go to the lowest, you go back to the same.

Any other question?

Q: ... Are we there yet?

K- We've always been there. It's if you caught up with us yet. That's a different story. We've always been there. (2:18)

Q: ... About understanding how plasma energy decays into electrical energy. Would transmutation be the opposite movement, where the matter in our body is elevated to plasma?

K- The energy always... Energy of Universe converts into energy of matter through frequency. That's where we know the conversion has come. It's like hammering it till you get through it. That's what the frequency is. When you go through that border, if you find out what it is, depends like a hole ?? in mesh. If you find the right energy to fit into that hole, in that hole it gets converted back into matter energy. And always has a frequency. Frequency is a habit of matter existence. And that's all.

Any other question?

Q: ... I have many MaGrav coils, Gans's and Nano materials in my room. Should I remove them before I participate in the session? (2:20) Thank you.

K- Preferably yes. God knows what you have created and how you get connected to. But the thing is, you Knowledge Seekers have so many Gans's everywhere, you're already part of it, you're connected to every bit of it. Coils, MaGravs, and you keep on building it and keeping it.

I have a special jar, one of these 5 liter jars. I have a habit to leave things over the fridge and freezers, Gans's. Because there's always dynamic fields. I enjoy doing it, because if you understand it, you can connect and it comes on and it's got a frequency to it and everything else. And I watched this jar of Gans, ?? I made, God knows, long time ago. And every time I look at it, it keeps on changing its energy. I said, "I wonder how much of this energy is going to the food inside?" And how much of it will affect what's inside? And this is a part of, in a way, I don't need to drink Gans's, because the Gans's are already, energy is going to all the food in the freezer. And it's, the way it is, is, I don't, just because I do, I know the technology, live by it, but like you lot, my environment is saturated with energies in this form or shape. New systems, new tests, (2:22) and new things, and when I walk, it's just like a museum of technology. But all of them, ?? is emitting or receiving energy from it, and they keep on changing color, and I look at them and I say, "Oh!"

But this jar is amazing. It's the, it's something which does not exist in the nature, natural in the body of the man. And I have over years of experience, managed to replicate it. To the scientific world, it's worth trillions. There's, every man will give their life to put their hands on it. But it's there, and I watch it, how it changes, how it interacts, and how it interacts, and the reason it interacts. One day it's blue, one day it's green, one day it becomes gray, one day it's this color, one day it's that color, one day it's got a mist over it. And I watch it.

In the world of medicine, or the world of biology, they call them enzymes. Now I have a knowledge to produce these things which are not natural, it's only created inside the body of the man, through certain chemical reactions or whatever, and they tell you it does not exist. (2:24) It cannot, it's just a process of the body of the man, which produces them, for the need of it. And I produce them very naturally, and I see their energy around me, I feel their energy. And impossible to do a test, which is a natural test.

If you, notice those of you who attend most of the sessions on Fridays every month, my microphone is totally off. Unless I come to talk, whatever, majority of the time. If you look at the microphone where I work with you, it's blank, it doesn't exist. Because if I stay in, I become part of your work, and I affect all of you. And we tested this, directly, where I put headphones, or I come in, in talking, the whole graph changes. Totally. That's why I don't use headphones, I don't interfere with your sessions, I'm just like an observer, knowing, organizing, watching what's happening in the background. Majority of the time, when you look at the sessions, mine is just a camera, or video, red. You don't see a headphone, you don't see. Because if I leave the headphone, even though you can't hear me, but I receive your energies, because I, it's like you hearing me, if I keep my microphone is shut, so I keep out of your, what I call, business. (2:26)

But if I do, it'll interact with you, and then it interacts the graph immediately, we watch it, and we've done it, we know it. We brought the daughter of Mitra once or twice in the sessions, and we saw the mayhem she created. And we took it off. Because it gives so much that all of you get touched beyond. And we observe it.

So we all get touched by the fields around us in different ways. And you will see, you will understand, how much your environment, your Gans's, your Nano coating, everything affects your emotion, your way you are, and the things you do with it. If you want to be pure, move somewhere else, but you're so contaminated everywhere you are in your houses, that it's impossible to be away from something. Even if you bury them 10 meters underground, because you buried them, you touched them, they are connected to you above you.

Any other questions? Shall we answer the last question, and we call it the day.

Q: ... (2:28) What happens to the Souls of the innocent children of human trafficking and pedophilia, organ trafficking and blood trafficking for the industry and adrenochrome? ...

K- Can you explain that?

R: Well, she's asking, what happens to the Souls of the innocent children who get abused through the various systems that are happening on our planet?

Still there Mr. Keshe, we're not hearing you.

K- Yeah, I'm just trying to say something. We've been through this. Children, doesn't matter abuse, or adult abuse, or whatever, it's through the same Soul. I used to, when I was a student in Queen Mary, I used to live in houses. (2:30) I didn't like to live in University accommodation. And I chose to live in a beautiful brand new house, and there were Indian couple, young Indian couple, educated, highly educated guys, lifestyle and everything else. And every night, the guy used to beat the hell out of the girl. It was his national sport to show he's important, or he has the power. And I just told the woman, "Why you take this?" After a few days, I left the house, I couldn't stand it. And the abuse doesn't come for the children, it comes in every shape or form.

The children abuse touches them for life, and changes them for life. And we are not aware of abuses, even though as parents, we try to be the best parent to our child, but they have their own D of thinking about, and to them could be abuse. And they ?? back without us knowing it. But those who go out deliberately abusing children, (2:32) they don't have any place left to, what you call it, these are what we call, the dust in the Universe. Nomads.

And we had enough of them around Keshe Foundation. I'm so glad that all of them went and left. When one person left the Keshe Foundation, all went with it. Or when we kicked one, somebody out of the Keshe Foundation, we saw a depletion of 50, 60, 100 of them, all the pedophile went with. And I couldn't get rid of it till I found out it actually was part of. And always blame myself, I should have been more, more vigilant. Then that's, that's the biggest problem, that is the absolute, the biggest problem. And always elevate the Soul of the children, that's what it is. But abusers will come in different shape or form and size. We had a football coach, one of the top pedophiles in Switzerland, came to be very smart in Keshe Foundation, then we found out. Now the Swiss police went after him, and he escaped to Denmark.

And they came around Keshe Foundation because there were young people coming after new energies and people having young families. And we've seen, we had enough of them around, what you call it, Keshe Foundation. And I always pray, I hope to get rid of these people. I couldn't understand why we have so many pedophiles around Keshe Foundation. (2:34) Till I found out, very recently, past few years, that the head of the, one of the biggest, oldest pedophiles families, was inside the Keshe Foundation, and she was bringing them, all of them in. You don't see a lot of Knowledge Seekers who, past 3, 4 years, have disappeared out of the Foundation, very vocal, they were all pedophiles, men or women. We found out. And it's all gone. And I see myself responsible, I should have been, I should have known. And because they were, they were abused from childhood, they became abusers themselves, and they saw it as their right.

It's just to elevate for their Soul. Just there, and then one day, They'll find the solution. They'll find their own ways, they'll go back on their ways. "Red Circle" was one of the biggest pedophiles, one of the heads. And how he infiltrated so much, and he was brought in by the same people. And they are like, you know, nowadays we call them, the all color rainbow people, gays. There's nothing wrong to be gay, because it's part of their way of their life. But if you notice them, they always bring their own up, all the top singers,

whatever, because so many of them, of themselves, they're here, so they support to be, because it's them. It's like the Jewish people. We don't know, you know, the Jews just support them, and put everything else to make somebody famous, because it's a Jew and without you knowing. (2:36) And then you find out, oh God, they're in it, because they support themselves.

They do the same pedophiles, go into establishment and do this. One finds a foot in, the rest get themselves in, and they all operate in a way that you don't see. And they are very, very active in, it took us, we put, Alan Sterling in a way for life in solitary prison. Red Circle, and then the other one we kicked out of the Keshe Foundation three, four years ago. And a bunch of women and others who were part of the same went with it. The Swiss teacher who brought in by the same lady and the rest.

And I always saw myself responsible. How didn't I see? And always pray that ??, we elevate the Soul of the children with the abuse, and hopefully they don't become abusers. And that's all we can do. If you're aware of it, just elevate the Soul of the children who are abused, doesn't matter, sexually, physically, verbally, in any shape or form, that they find the strength in their Soul to exist.

Thank you very much for today. We call it the day and we see what it brings. Don't forget to come in next week with your headphones, (2:38) and we might experience something very, very nice. And don't forget our cuddly toys which they have put up on the, for the Christmas promotion. Thank you very much Rick, and see you next week.
