## **Introduction to 522 KSW - Secret: All from Love of Creator - Single Fields to Diversity - Respect Woman - Aryan Culture of Persia**

Today the secret of Creation was unraveled by Mr. Keshe, and that is the whole Creation is made from the emotion of the Creator. In a way, that means everything is created from the Love of the Creator. Many times in these introductions we have mentioned that people say, "it is all about love." And all of these years and years of teachings, making Nano materials and Gans's and spinning reactors to feel the fields, and even the time a Knowledge Seeker (KS) created materials from the fields of rotating Gans's - was all done so that we could come to a deeper understanding of life itself and how everything is made. And now we know what that means in a scientific way and can show it to the skeptics. But it is not about showing something in matter state, rather it's about us understanding who we are, where we came from, and what our purpose in life is. In fact, he said today that we need to know these things before we can enter the Universal Community.

We'll try to put this together in a way that makes sense to us humans. We know that everything started from a single field that turns back on itself and interacts with itself to make plasmas, and also that two fields can interact to do the same. As the plasmas interact with each other and start to accumulate we go from physics to chemistry all the way up to the Soul and eventually the Soul of the Creator (STC). And we learned that in our Gans Boxes we can control the way fields interact with each other to manifest different things. We also learned about transmutation where the Soul of the Man (STM) expands over the Soul of Physicality (STP) and physicality (P) to embed the STP within itself in the plasma energy state, and then move to another location and re-manifest a different P according to the interaction of our emotion with the fields of the environment including the Inertia and other fields. How we appear in that environment will depend on all these interactions and if we feel satisfied with it, we'll manifest ourselves. In this way of travel we have to match the fields of the destination to be able to go there.

If we think about it, what are these two paragraphs and this workshop pointing to? The single field. That everything comes out of a Single Field. And just by feeling it, what if we turn back on ourselves, what do we have? The Single Field! So in essence we are that Single Field, we came from it, we enjoy creating with it, and then we go back to it. All these years of teaching are just about how the Single Fields dances and plays with Itself. In fact, they say, this dance goes on for eternity. Mr. Keshe in his infinite love and generosity has opened up and continues to open up ever new ways to dance with the fields and energy of the plasma. Isn't the plasma just another name for the Single Field?

Now there is a new way to travel, and that is by directly connecting to the fields of the Emotion of the Creator, and as we, and everything else is created out of these fields, we are already connected to it. And one of the ways humans are connected, is through the Carbon 12 (C12) and C14 link in the amino acid (AA) of our body. So we don't need to match the field strength of the destination, instead through our emotions we can connect directly to the emotions of the STC and we will instantly appear where we want to. The C14 is part of the Cosmic Rays which fills the Universe (U). Still there is another field we have to consider, and that is the Soul of the Environment, this will determine how we will appear in the destination. The power of the Soul of the Environment can be seen in the different races in different locations of this planet. This is why different races have different behavioral characteristics and so forth. And why on one side of a mountain people behave differently than on the other side. Unfortunately, ignorant people sometimes use the beauty of diversity to discriminate and create division. In plasma science we all have equal access to the Knowledge of Creation and understand we all come from the same Single Field and in reality, we are all one.

The extension of our knowledge is that the emotion of the STC has the power to create anywhere in the U on Its own. It does not need a matter state substrate like the egg and sperm, it can create directly out of the fields to any entity or life it wants. To summarize the process of Creation we have the Emotion of the STC, which interacts with the Soul of the Environment, the STM and its emotion, and the MG fields of the Inertia of the destination and other fields such as the solar system, galaxy and universes to create an entity and is the essence of life itself. So even though we have the Single Field of the Emotion of the STC it still follows the law of how the plasmas interact to create life. It sounds very complicated to keep track of all of these different energies. But actually, all this knowledge sits within us already. As we were created out of it, we have direct access to this knowledge. Our job is to get enlightened to the knowledge within us, and learn how to use it.

This is why Mr. Keshe showed the picture of the AA being created out of the fields on the stainless steel table in the most advanced laboratory in China. And why he said, if you understand this picture then you know the religions have ended. And why the top scientists themselves started shaking, because their Soul knew their time of control is over. He said, to listen to this recording a hundred times over, but in essence understand it at least one time. Our scientists have trained us not to believe that the fields are real, let alone to be able to create life. We are trained only to believe in the matter state, which is

symbolized by the "egg and sperm." We are the physicality and that is it. Do not go outside of this parameter or you will end up outside of society and its norms. So if we understand that the AA in this picture is created out of the field interactions of those reactors, then all the old belief systems in us fall apart and we become free. That's why the scientist had to rub his finger on the fat to check and see if it was really there. Was it the lack of knowledge in the Soul and physicality of the finger that brought him to ignorance. This is something to "feel" about - where does our ignorance come from and do we want to continue to hold onto it.

If we accept that the fields can create the AA and life doesn't have to be created only from the matter state, then we can reflect that back onto our own life. That we were created out of the fields. If we really understand this, then transmutation will be easy for us, because then through our emotion we convert ourselves back into energy of the plasma and through our emotion travel to wherever we want and manifest ourselves according to the laws of how the plasmas interact. So now we find out we have everything within us. But if we cannot accept that, then we can use the KF systems to create the necessary fields and conditions for expansion of our Soul and travel. We already do this in our dream state, and with the systems and Friday sessions we will gradually become conscious of it and can control where we go.

Mr. Keshe is giving us a special opportunity to do this in Sanya China. We can make our Cup of Life according to our wishes and bring them to China. They will interact with the special systems that can create Cosmic Rays and the fields of the STC, and the true wishes of our Soul will manifest in our Cup. Remember he said the true wish of our Soul. So we should come with a pure heart and intention to Sanya. If we understand what has just been discussed, this is the key to the world of Creation. Not only are we given the key, but in Sanya we'll be given the "car" to test drive our Soul. The Soul of the KS who can do this will awaken and go to Sanya.

An even easier method has been gifted to us. Mr. Keshe gave us the secret to the 3 bottles tested by the nuclear authorities in Belgium. Their instruments picked up different powerful fields in the 3 bottles, that they themselves cannot create nor understand. All Mr. Keshe did was to blow on the water in the 3 bottles. The water was the same in all the bottles, but the fields were different. He demonstrated to us the power of our emotions and why we have to come to understand them and create them. This is the same as what the scriptures referred to as, 'blowing life into existence.' Some KS can try to "blow life" into their Cups in Sanya.

He went again into the religions and how the Holy Books got changed over time. This time he said, Mohammad said very clearly that he would never do magic, because of how the magic done by Christ and Moses got misunderstood by the followers. And Mr. Keshe said, he won't do magic, but rather he wants to teach us to understand the science of it. One of the taboos Moslems have about the Moon is because it is written, that Mohammad showed the magic of splitting the Moon in half to get people to believe in him. Mr. Keshe says, that this must have been added later and then the clergy of the time said it was Mohammad, even though he strictly said he won't do magic. Again the point is that

people don't want to understand the essence of the teachings, but want to keep to their blind faith in the physical words written. We hope this will never happen with KF and that the Soul of the Knowledge will be received by the people.

Then he gave a long teaching about how when Iran was converted to Islam by the sword, the women ended up with half of their value compared to men. This requires a little more in-depth study of Persian history and of the time of Cyrus the Great and Darius to understand it more clearly. He brought out today that, the old Persian Zoroaster culture put woman at the highest point of respect in the society as creators, because they create children and understand how the fields of love are transferred to the child. We always say that women are feelers and men are thinkers. And we see this in the KF where the women learn about the Soul and the men make MaGravs. This is very strange for Western and modern people to comprehend, because through Hollywood, advertising, Internet and the rest, woman have been degraded to sex objects, where their essence and power is exploited by the corporations to make money. And sadly many women are victims of that flow and have surrendered to it. Mr. Keshe said, he wants to change the status of modern women and bring them back to the high position they once held, like in the old Zoroaster society of Persia.

The scholars sometimes refer to this as a matriarchal society. But as they are male dominated, they don't really understand the essence of what it means. But if we want to understand what he is talking about, it is still alive in some places in India today where the people are religious and follow the old Aryan Ethos. Just by mentioning the name "Aryan" we are going to have a big resistance in our brain, because Hitler twisted the true understanding of Aryan culture and made up lies to fit what he wanted to justify in his actions. This is exactly what Mr. Keshe is saying about what the religions have done with their scriptures. I'll briefly explain my understanding of what I learned. The oldest literature we have are the Indian scriptures of the Vedas, and these were written by the Aryans, who become known as the Rishi's of India, or enlightened masters. A Brahman explained to me that only a few Vedic scriptures have been allowed to be translated for foreigners, the rest they keep to themselves. Thousands of years ago the Aryans spread out over the world a branch went to Europe, one to Tibet (Bonpo) and China (Shang), and another went to Persia. Iran means the land of the Aryans. The first religions started with Zoroaster and most likely he was an Aryan Rishi. After the last ice age of 10,000 years ago all the cultures were mainly Devi or Goddess worshippers, which meant they prayed to get something for themselves. They did not know about the Transcendental, which means the Creator, or the Void. In the Transcendental religions you don't build temples or worship statues, you know that God is within you. For some unknown reason in this age, the Aryan Rishi's had this knowledge and they spread it to humanity. So in a way, from recorded history Zoroaster was the father of the religions and he followed the Ethos of Mitra. So ancient Persian society lived by these principles and in this regard the women protected society and made it prosper. I will end with this idea. In history of Herodotus he explained how simple the Persians lived and how they treasured speaking the truth. And what corrupted them over time was the influence of the Greeks. I hope some of you will get interested to try to find out the true history of humanity, not what the Colonialist and Elites want us to believe so that we remain slaves.

Thanks for listening.

## Quick Index

(Let's see how we share what can be written in the books of the knowledge. Here, we are all servants to this Creation. As it said in the Intro video and all the teachings we have done so far, that the direction KF brings man to one point, and that is the point of Creation. The reality is that we are alive because two people made a decision to create a Soul and we are the result of it. It's the same way we become creators of other Souls as our children, and they continue it on and on. But in essence we are connected to every one in every generation back through our forefathers. The question to ask is where did the original fields of our forefathers come from? (If we say it is the Unicose, that is also a collection of fields that was created from something. So where did those fields originate from? Where did all this come from? And who created the (original) magnetic (M) field?)

(If we consider the whole Unicose to be a ball of baking dough (where everything is created out of), then its fields were created from the fields of another structure. Where did that dough come from? You can't have dough without flour, and where did that flour originate from? In the final books, we have to understand the origin of where everything started from. How did the original M fields get created. What is the science behind it? Where did the origin of Creation come from that led to the creation of the first field, that

led to creation of interactions of the residuals fields of itself. In what environment was the Unicoise created. Remember, nothing can exist without a contain container. Everything has to have a space to contain it. It does not matter if you put it in a pot, plastic bag, or just create fields around it).

(Man has to understand the essence of the Knowledge of Creation before he becomes a "Man of Space," and can join the Universal Community (UC). He has to understand where his Universe (U) came from, (and what community he is a part of. As a man or a woman you created the fields that led to the creation of another Soul. And this Soul (throughout time will interact with others, (and create others) in the same way you were created). One will be Chinese, one English, two Chinese, two Iranians, one Iranian, one American, and all the rest of the combinations that lead to a mishmash of races on this planet. Now you have to consider what mishmash has led to the creation of the man).

(We say everything was created the way it is because of the geography, water, and this and that. But everything has a Soul that led to creation of us, or life, and it doesn't matter where. So who is behind the original fields that led to the creation of the Earth and Sun, and the energies which created the Sun? Where did the Soul of the Sun came from? The dilemma of this question has to be answered by the man, so that he knows where he is going in the Space. He needs to know what is the purpose of life. And scientifically as men, we are reaching that point of understanding the essence and origin of Creation).

(Maybe for the first time in the Sanya conference in China we'll show (what the first signs of how and when the Creation began), and how the fields came together to (indicate its beginning). Everything we talked about has to be physically developed, shown, and delivered. All of you have been waiting for the Plasma Gas Units and power generator to come out and give you what you want. We have this technology (T) in our hands and we shown it again and again to the authorities and we watch them shiver and shake, because they see the change (that is here). Others are also trying to make the gas, but no one can create gases the way it's done through plasma T. A few months ago the Chinese government appointed one of their leading scientists of to see how we produce gases in matter of minutes, and I could see the shake in his eyes. As a leading authority in China, his education now is worth nothing and he knew it. I could feel his Soul (saying, our mastership in science has no meaning anymore, because now it can be done without (degrees) and by a little boy)).

(We can deliver everything we have spoken about by understanding the essence of the Creation, and we have delivered everything we said (we would). But the level of understanding in society is not ready for it. When we showed (how life is created through the amino acid (AA) or protein that leads to the creation of man, one of the scientists touched the fat on the table near the reactor, and they said to the top guy, this has brought all our knowledge to zero). Because they can run a simple plasma system and it created proteins from the interactions of it, with the environment. It does not need the Earth, or the structure of the Solar System. Physical life can be created anywhere in the U, and we have shown it. In Sanya for the first time, we'll show how the AA and life was created,

and we can create any life in any position, anywhere in the U, because we can control the fields of Creation. We control the understanding of the Creation).

(The China presentation will bring a change in the threshold of the science of man. We'll allow you to see what is created in the different systems and environments that we'll setup during the conference. One will be the condition of an ocean, and another will be the condition of something else, and you will be able to witness it. (We'll watch how we create life. And if those fields can create life, then where did the fields that led to the creation of us come from? Maybe later on in Tehran or Washington we'll show you how we can create a man in a bottle, or a man in a system. We can create the essence of the DNA and RNA in a system without a father and mother, or any interaction of the physicality (P) of the man).

(We have to break down all these taboos (in science), so that man starts looking logically and scientifically at all aspects (of Creation). Once you can see how AA or protein is converted from the fields, then you'll understand how to convert your Soul as a field in transmutation to an entity, at any point where you want to manifest yourself. It's not just that we can produce gases, we can also produce protein or whatever else we want. The whole point is that we can create life. And the easiest way to structure this life that we create, is to use our own Soul, because it is already preset as a "dough," and it's like using a yeast to create another (loaf of bread). You do not need an egg and a sperm. You do not need what they call, all sorts of imagery with DNA. Through your own emotion you can create a being of you, right in front of your eyes. It does not need to be a child. It's a life, (that will ?? survive in) the span of the U).

(You have to understand this process and comprehend the principle of interaction. Understand where (??) it came from, that it led to the creation of emotion (of wanting) and then creating another living entity. Then many of your questions should be answered. (Was man created, through the interaction of the fields of the environment with the essence of the emotion of the Creator? Can man create life using these fields?) In a way, the planet became the DNA, and the essence of the emotion of the Creator became its RNA. If this is the way it is, then you understand why you carry the whole Knowledge of Creation within you, because it came along with the fields of the emotion of the Creator. (The Creator has the power to create through the presence of His emotion, and the kind of creature He creates depends on the environment and what kind of fields interact to create these entities. In the entity is the essence of the Soul of the Creator (STC) which blows (life) within them, and it gives them the D of emotion and life).

(Now you understand why we taught you in the sequence of teachings we did over the past years. In some books, they say, "we blow life into." In a way, this is the secret of Creation. Your emotion does not need (something material) for it to be transferred to someone else. It's not a food. Your emotions (are) fields that informs the other. (When you show emotion through tears, laughter, anger or whatever you transfer fields to the other, and they feel it). (This is the same way the essence of the origin of the Creation has been transferred to man, or any other being in the U)).

(Man has to understand how the interaction of the fields of his Soul of the Man (STM), with the Soul of the Physicality (STP) create his emotions. And how the interaction of the STC with the STM creates the emotions of the STM. Both the STM and the STC have to become aware of their interactions. Then it does not matter how many Souls you have, they all live within the emotion of the same fields. (What is important is how they interact and what emotions they create with each other. (This matters only for them, because the Origin (or the STC) is always constant in His emotion). (In other words the Creators emotion does not change like the man's emotions)).

(Then the question comes, was the origin of life, fields or emotions? (And this answers all the questions about Creation, that were given in the Holy Books as mysteries, and have been given to all the followers). This question was answered in the past two minutes. You have to understand how you have been created. (We said that in essence, your Soul interacts with the position, time and place you arrive at. (The emotion you create will determine how you will manifest at that place. If you become a master, and can change the (emotion) and strength of your Soul then you can also change your form. You can be a dog today, a cat tomorrow, and a stone the day after)).

(It's like putting a pea, a stone, and a grain of rice in the same cup of water and watching how each one reacts in that water through the essence of the Soul of that entity. The "water" is like the essence of the emotion of the Creator. If you understand what is being said here, then you have found the key to the essence of the Creation and the Creator. (To understand the emotion of the Creator can take one second and then we reach the STC, or we can spend a life time banging our heads on the floor 17 times a day and never understand and reach the point of maturity. A child in the womb of a peasant mother can reach the Creator at the time of birth and choose not to (carry the P and spend 80 years suffering on this planet, but go straight to the Creator)).

(If you don't understand the essence of what we will show you and what you will experience in Sanya it will just be another game where we show things, but you don't understand where we are taking you. You don't understand what it means. In reality, if you would have understood this, then the very first time I showed you a picture (?? of the T), you would have understood that the game of the religions is over. But as you are not aware of what's going on, you never understood the D of the maturity of the man and the understanding of the Totality of where the fields come from, where they go, and how they interact. Before I put this picture of the Chinese scientist rubbing his finger on the AA, in front of you, I asked myself one single question, would any of these people understand what is being shared? Would any of you understand what the touch of this man on the AA means? The AA was created out of interactions on the matter state of the steel? In the photo, you see the line made from the finger on the AA, and inside it was a piece of wood and also some papers sitting. We could not see the AA on the paper and wood, because the interactions with the wood and paper were different and created a different structure, that could not be seen in the same way. On the steel it manifested itself as a protein).

(But in fact, it was also on the paper and wood. Each one decided to manifest itself in a different way. And on the wood and paper it was not visible. It was only visible on the stainless steel of one of the most advanced laboratories of the Chinese government. For the scientist who touched the AA, you could ask yourself was it due to the lack of knowledge within the Soul and the P of the finger in the picture, which has brought him to ignorance?)

(The interaction of the fields with the environment and the steel, caused the fields to show itself as a AA. If you create the right environment within this, you can create any life (form). Because the essence of life in the dynamic motion on this planet is connected to that AA. And then there are combinations of the field interactions of the matter state created by the interaction of the fields of this planet with its environment, what we call the Solar System).

(When you go through transmutation and manifest yourself in another place and time, then you will manifest yourself the way you want to confirm your existence. This picture of the AA forming on the steel is so fundamental, that if you understood how it was created, then you will understand how you will be created when you go through transmutation. This would give you the key to the world of Creation. In essence, it's about understanding the emotion of the Creator. "I made man in the image of Myself." That image is the emotion, not the physicality. It's not even the STM. Because when I created the man, I blew life into his existence through interaction of his fields with My emotions).

(If you Knowledge Seekers (KS) understand this, you will master transmutation in no time. But if you are still in the doldrums of trying to see P, you will keep searching for the rest of your lives and many generations of you to come (and never find it). The essence of how man or any being in the U was created and exists, is from the condition of the fields of the environment, and how it interacts with the fields of the emotions of the Creator. These interactions manifest themselves in that position, place, and time. It's the same way that your Soul, STP, and fields of the structure of our P interact and lead to the creation of laughter, tears, and all the other emotions. Now you understand, what we are teaching you. We want to enlighten you to the light of the Creator).

(But there is one question remaining and I will answer that sometime in the future. And that is, who created the emotion of the Creator? (His emotion through interaction with our fields creates us, the same with everything else. It creates P and gives tangibility to everything. If you ever understand this, this is how the different races were created on this planet. It's through the emotions interacting with the fields of the environment, and the STP of the man. Man is then able to live both with the STP, STM, and the Soul of the environment. The scientists have not understood this. (It's the emotion of the Creator that interacts with all the different field conditions to manifest life the way it is)).

(The essence of the Soul of the environment, creates the man with his behavior, which itself is part of the emotion. This is why collectively we see different people from different parts of this planet behave different than the others. It's because the environment

of that place in interaction with the fields of the STP dictates the emotions and everything else to go with it. This is why we can see people behaving differently on different sides of a hill within a country. On one side of the hill they have one emotion, and on the other side they have another because the fields are different. This is why the Chinese built the Great Wall of China, to keep the people on the other side who had a different emotion, out. Inside the Wall they were peaceful and together behaved the same and had the same emotion).

(Those Souls who understand the emotion of the Creator, try to behave like Him. And this how we have to behave at the point of transmutation. When we transmute somewhere our Soul will interact with the Soul of the environment, and the emotions of the Creator).

(You can choose in what emotion you want to manifest yourself anywhere in the U. You have to understand these things when you start to transmute by your own energy and Soul. KF is not the only ones to make AA. But, the protein you see on this table in the picture has the essence of the emotion of the Creator. The interaction of these fields creates life. These fields connect the emotion of the man, to the field interactions of the emotions of its Creator. Knowing this you don't need to find the (right) field strength to go somewhere, instead you find in what emotion, you want to manifest yourself. (Through that emotion you'll be able to manifest yourself in physicality).

(When you understand this, you can traveling the span of Unicoise with the "flick of a finger." You won't need UFOs, donkeys, the legs of the man, or the transmutation systems. Now I hope you can see why we had to go through all this rigmarole to get you here. We did not produce the gas from our thoughts and emotions, rather we produced the fields of the gas, and with the fields we decide where and what to manifest).

(I have asked my team to bring systems to Sanya that will baffle the world of science. Even our team is not aware what will be shown. They just carry the systems. In a way, you have to see it, because man is so physical that for you "seeing is believing." If you use the sense of your Soul to understand the energy transfer, then you do not need to see something).

(These International Conferences will bring light into the knowledge and understanding of the nations. Because the emotion of the land creates the man and we can change the emotion of the land with the knowledge and T, and this will take away the mysticism. When we show you the production of protein in Sanya, don't look at it as a protein, instead understand what emotion you can put into it. As an observer, I am the egg and that is the sperm, or this is the sperm and I am the egg. You all can bring your Cup (of Life) to Sanya and put them on the table of the conference. What can you create within the Cup? Would that Cup carry your emotion? Would you create a fish or another being? Or would nothing happen in the Cup, because you did not understand the Soul of interaction?)

(In Sanya I'll bring you to see how man was created, that is if you understand your own time and position. Muhammad said in the Koran he would never do magic, because he

saw how the magic game was played with Christ and Moses (and the problems created). And I said the same, we will never do magic, instead we teach you the science. Muhammad didn't have the knowledge of science, but we do. We created the science. Bring the "Cup of yourself" with you to Sanya and put it on the table. We'll see what is the true emotion of the transmutation of your Soul, with the interaction of the system and what you will get in your Cup. Will it be nothing, something, or a being?)

(Over the past 520 teachings I said many times that there is a bucket in which I have created life and it goes with me everywhere. It's the same (as with your Cups). I have blown the emotion of myself within it, with the presence of the D of the fields, and life has been created. Bring your own mixture in your Cup and see if the interaction of your Soul with the fields of Creator's emotion, can lead to creation of life in your Cup. (Maybe your Cup being next to another Cup will lead to creation of a new child), a new life, a new essence of creation. We don't do magic. We understand the science of Creation).

(We are bringing in a new T and new science, which is the science of Creation. It's not another electric generator, gas production unit, or another machine to create gold. It's for you KS to be able to see (how the fields create life and everything we see), and how they will transmute, and what emotion will bring them to be in that place, time, and position).

(Listen to today's teaching a 100 times, or maybe one time, but understand the essence of the teaching, and you will have found your way to your Creator, and what you have to do to create. And what you create has to be loved, nourished, and fed on the STC for it to survive. Then you understand how Mitra brought life onto this planet with the emotion of the love of the Creator. (All she had was the physicality of the Earth, and the love and emotion of the man within the man himself)).

(This is the whole essence of the Creation. All the Holy Books of the past have spoken about it, but they never understood it. Today, you have received the Knowledge of Creation, and you see the evidence of it in this picture with the AA. But you have to decide how the fields which led to the creation of this protein in this picture can become a child from you through interaction with another field, which could be from the Earth or anywhere else in the U. Man in the D of physicality will never be able to produce offspring (?? in the U), because your DNA and the other interactions will not create that dimension. But Man can create children of himself through the interaction of his Soul with the other Souls and other fields. In that position and condition, they create from the essence of the STC, which leads to creation of a new life. This is what I meant when I talked about the creation of the "Children of Mitra," and that you don't need an egg and sperm to do it. The Universe is the womb of Creation. (You determine what conditions you'll create in that womb to make a boy, or a girl with blue eyes and 10 legs, or a being with the love of the Creator, and every other condition)).

(In the near future those of you who always wished for a child but could never have one (will have a chance with the new T). Understand the teachings of today, and you will understand that you are as fertile as the mother who has given life to tens of children. You will learn a new way to create a physicality so that you can hold it, give it love and

care and nourish it. This is the true meaning of the "Virgin Birth" as I explained before. They mistranslated the words. The words used for Virgin Mary actually mean the one who understands the knowledge, and becomes a true believer in that knowledge. This is what the "Virgin Birth" means. Because now you can create through the interaction with the fields of the emotions of the Creator. You can create any being and call it your child. You can also create it in the atmosphere of your womb, and it'll become what you call, the Christ. If you create it in the atmosphere of the love between you and your partner, it'll be a child that both of you can nourish. Together you can teach it to become a correct Soul, that it can manifest itself anywhere in the U, as it will receive the emotions of the fields of the Creator).

(Put all the past teachings together, and today you will understand the why and how. If you always wanted a child now you can create it by understanding the strength of the fields of the emotions of the Soul, with the interaction of the fields of your partner, (??) it becomes the planet and the essence of the emotion of the Creator. You don't need test tubes to create it. To become travelers of the U you have to learn this new way of reproduction, because you cannot physically interact, or what we call, "make love" to another creature in the U. (So you have to understand how it works. If you love another creature in the U strong enough, then through the interaction of your two Souls, the Soul of the environment which will nourish it, and the fields of the emotion of the Creator, and you will be able to create that child). This is the only way that you will be able to reproduce in the U. Unfortunately, most of the created things, and animals in the U do not have a penis or a vagina to reproduce. This does not exist in their structure. Then how would you make love the "Earth way" to create a child?)

(The essence of Creation is that life is created from the fields of the emotion of the Creator. To create life, you just make available the fields of your Soul and the dimension will be yours. If you understand this, then even after 10 children you are still a "virgin," because that "virginity" comes from being a true believer in the essence of the Knowledge of Creation. Then you can create any child, because it will be a child of the U. It's a Child of Mitra, as Mitra is the love of the Creator across the U. It's the emotion of wanting to share with itself, to confirm its existence).

(As I said last week, you cannot clap with one hand in your pocket. One of the hands represents the emotions of the fields of the Creator, and the other is the (emotions) of the STM, (they interact with the fields of the STC, and this leads to creation of life). It's like a drop of water, if you give it a specific environment it will manifest itself as ice, in another environment as a vapor and so forth. In essence, the environment leads to creation of what is already there, which you have created through the interaction with the essence of the fields of this environment).

(If you understand this then you have managed to unravel the secret of Creation. And if you don't understand it, then you're still waiting for that generator, Gas Production Unit, or to see something else. Come to Sanya with your own Cups and test yourself to see what you can create. We'll provide the fields and leave it open for all of you to test

yourself. Make sure the mixture you make is the essence of the love of you, and not just the water from the tap. And it does not even need to be water).

(Years ago the Belgian government decided to test my knowledge, they asked me to give them 3 bottles. I gave them 3 bottles with each one containing the essence of the emotion of the fields of the man, the Earth, and the U. They were baffled at how I could create fields, and they created new rules in their nuclear industry to be aware of these fields. Each bottle was actually just like the Cup you bring with you to Sanya. All I did was to blow on them, and I added my emotions to that water, and all 3 were the same).

(Come to Sanya and see the magic which you will create and we do not provide any shortcuts. Then you'll see truly who you are. (Maybe you can see how you will look in the environment of the Moon). We will create the fields for it through the D of the interaction of the fields of the Creator. I'm a teacher for the classroom of the Earth and we teach from nursery school to the professors, and to the leaders of the world. There is only one teacher and one classroom, because this village of Earth is too small and cannot afford more than one teacher. We carry the whole knowledge. When you graduate you'll join the world of Creation we call, the Unicose).

(I feel sorry for you KS because (when you were born) you were not been prepared for the knowledge you are hearing. But in time as more people understand, it will become much easier for your children to comprehend and become Passengers of the U. Being a Passenger of the U is not going from place to place, but becoming the field, and emotion of the Creator, that it can affect the creation of the others when they interact).

(We have told you everything from A to Z, but it depends on what you understand. (The essence of it is the understanding of the feeling of the emotion of the Creator). I hope I gave you a beautiful gift and I hope you understand it. Otherwise, it will be the same as lesson 1, 21, 201, and 520. Any of you could have been enlightened at any point. It's just (a matter of what you are looking for)).

(We'll explain more and more so that you understand yourself and nothing else. You need to understand who you are, what you are, how you have to be, and what you want to become. Bring the true "Cup of Life" of you, with you to Sanya. We gave the "Cup of Life" to the Chinese with Covid. Now we ask our Chinese friends to bring your Cups to Sanya and see what life you can create out of the emotions of your Souls).

## **End of Quick Index Part 1 - 522 KSW**

(The Sanya China conference is fixed for March 16 to 19th. This is where most of the research is done on agriculture seeds by the Chinese government. It's a bedrock of science and T and has facilities not seen in the world. The licensing is totally different than rest of the world, so they can test the latest diseases, and inventions in medicine on this island. This is one of the reasons KF Corporation in China will have a center here. It's full of scientists and those who have endeavored to go to the next step and they are open minded to develop new technologies).

(Our team will come equipped to show the evolution in science. Do not come to see the part you saw in London and Manchester. You will see things which have never been shown before and it's a breakthrough in the new science and T. But be aware that our target for transmutation and the manifestation of the Creation is for the Tehran conference. When we finish in China then we'll start negotiations with the Iranian government to hold a conference in Tehran. Then we'll negotiate with the American government to show this conference maybe in Nassau, or Florida. I chose the Bahamas island for a specific reason. We want to show the creation of life from the oceans of the U. We'll show how life came from the seas to the land. And we'll show how our creation shall be).

(If you're coming to Sanya, come with a clean Soul, because if we give you the Cup, you'll manifest yourself in a D of what, who, and the way your Soul interacts, and will interact. The "Cup of Life" given to the Chinese as a savior during Covid, will now become a true Cup of Life for the nation. We'll take this system across the planet, when we travel. And we'll ask the world leaders to bring their own Cups, for them and for us to see their true Soul that is within that physicality. And I wonder how many world leaders will attend or even touch the Cup. We want the Ayatollah Khamenei of Iran to bring his Cup to show us how clean his Soul is, and the same for the Pope in the Vatican, and for the other world leaders as well. Then we'll understand the true essence of the man. The true game of peace has started. The color of the Cup will show the color of their Soul and how peaceful the leaders truly are, and the so called, other peaceful men claim to be. This is what it means to say, I swear by my Soul, that I am the true me, and nothing else. I swear to the truth of who I am).

(This is the reason we started the KF and the teachings, to bring the true game. Those of you who come from China, bring the best potteries of China and come with a clear glass, so that you cannot hide in the "clay of the nation," your true emotion. Then we'll teach you how to create children of the man).

(Yesterday, when we turned on the first systems that leads to creation of life, I stood by the system and prayed for it as I always do, let it be the system of peace. Let it be the field that brings the Knowledge of Creation to man. We shall see. It's an amazing system that can create life in any dimension. It keeps the essence in its center, and the rays of the creation of the field of the emotion of the Creator. It communicates with every position, direction and dimension).

(I hope you are lucky to be in Sanya to see the beginning of the new dimension of science and T, which man never knew. It will be the beginning of the change. We invite the Chinese military leaders and scientists to come and to test themselves (with the Cup), so they can understand (the change). Then we'll go nation by nation and add their flavors to it. Come to Sanya with a pure heart, and no hate, no resentment, and no racism. And then you'll truly see if it is you in your own Cup. It's a Cup of your life, and then you have to understand it. Thank you very much and I hope we'll see you in the very near future. This is what all these teachings are about. It was not to make gases and electricity, it was to

show you the energies (of life) and how they manifest themselves according to the environment they're in. And how you will become that gas, that energy, when you come into the D of the fields of another position in time and space. And then as you interact with the STC you'll manifest yourself in and through those fields to the physicality which you desire).

(We'll put all the world leaders to test (their Soul) and we'll see how things will change. The system to do this was switched on yesterday and it will manifest itself across this planet step by step. It will come to the point, that when we choose a world leader, and most probably for the American election, the American nation will ask their leaders to come with their Cup, so that everybody can see if they are a true leader, irrespective of what words they speak. We will know by what color the Cup changes to. It's a Cup of Life of the man, a Cup of the STM in interaction with his Creator. It never changes. No one can lie (with it)).

(In the future, those who want to become the true leaders of this planet will always take this test (to show the true state of their Soul). This is why we asked the Universal Council members to be chosen by the STM and not the man. The members will also take this test and show the true state of their Soul. The new systems that were switched on yesterday has two dimensions of (its reaction), one is to the Soul of Creation, and the other connects to the Soul of the U and Unicose. It was specifically designed for these two. The rest comes out of the interaction of your Soul with the emotion of the Creator).

(I hope you will not be disappointed. And I hope you'll understand how you can, should, and will create the "Children of Mitra." The next time we'll show this system will be in the Tehran conference. We'll ask the Iranian leadership to come in with their Cup of Life. And then we'll understand who is the true man of religion of the nation. Then we'll take it to Washington and ask the President of the United States to sign himself to the Cup. This is where we are heading).

R: ... You mentioned today the Origin is constant in (Its) emotion. I thought that was an interesting idea, can explore that a bit.. ?

K- It's not an idea, it's not an idea, it's the truth. (God or the Creator cannot have an emotion of anger today and laughter tomorrow. It's a constant giver. It's man who changes his emotion, because he interacts with different fields and strengths. The Creator is continuous, and His consistency has led to the creation of the U. The diversity comes from the interactions of the fields which have created that Soul in that dimension. That's all it is. It never changes. It has never changed from day one. The only way we could (explain it is that) Mitra knew the emotion of the Creator and played with it to lead, and to show love to Him, so He could confirm His own existence through Himself).

(If you are on your own you cannot show anything (because it would just be a Oneness), and this was part of the teaching of today, you need a partner to experience love and to (manifest)). Is Mitra a part of a parallel interaction, ?? (in the Unicose to us), that is ?? what we call the love of the Mitra? Or has the interaction of the fields of itself, led to the

Soul D which is in parallel, but triggers the emotion of love? We'll answer this in the future. The Creator never changes, and always has been a giver and in interaction with it, a lover. Which is a habit of the lovers and givers).

(The details of the language was not clear enough to interpret. It needs direct experience and he said he will answer it in the future. In the East they say the Creator is the Void, it is the Oneness without a second, so there cannot be experience. To experience love it divides and interacts with itself, and this is called Creation or Duality or the Love of Mitra. In plasma T we need to have a second reactor to do anything, like the proton and electron. Even though they are one and the same, they appear different).

Q: How can I know when my Soul is talking to me?

K- (Do you have his telephone number? He can only talk to you if he's connected to you. Through the tests in the coming weeks a lot of you will find your path to it).

(We cannot separate things. We cannot bring things into dimension, if they don't (already) exist, unless we know how to mix them that leads to creation. (There isn't really a question of how to contact your Soul, as we are created out of it, so we already know. Science calls it an isotope with a different strength. Plasma works on the strength of the fields. At night when we look into the skies we see billions of stars. If they were all of the same (strength), then we would see them one (or not see them). They are separate, because each one is a unique isotope strength, of the fields of the U and Creation. (Then there are subdivisions, and divisions of subdivisions, all in different strengths. But because we are connected to everything, we know where it is and how to find it).

(In the new technologies we'll show for the first time in Sanya, we not only connect to the D of our Soul, but we connect to the dimension of U. This T has never been known by man. We have brought the Knowledge of Creation of it, to the P so that you can understand it, and then control it, and even communicate through it. And we can create that condition of life. We don't have to dial a number, instead we create the fields of the emotion of it, and it brings us there).

(When we dream and go to Tehran, New York or to South Africa, has anyone ever asked you for a passport? Did anybody ever tell you, sorry, you don't have a passport, so you cannot come through your Soul to South Africa?)

(Who gave you the number to go see that Soul? Who invited you? Some countries put a ban on certain websites on the Internet and they filter it out, from anyone reaching that website from their country. Has the Universal Community has put a ban on the emotion of the travel of the STM into Space? Can they prevent you from dreaming and traveling through your Soul to other parts of the U? Did we open that door through the KF system in Linz, that many of you traveled to the Moon or anywhere in the U? And then you came back).

(Have you understood the knowledge, or are you just copycatting? Gradually, a lot of you will understand and become knowledgeable).

(Mr. Keshe tells about his private life. When he listens to people talk about things or stories of other people, he doesn't need to be there physically to know what is happening. He can be there through his Soul. He can also see the truth of things through the emotion on peoples face. He said, he is present in the conversation even if he is not there. He doesn't listen in on people, but he knows. In the same way he can go inside an atom or inside a reactor. He can see everything. (He doesn't do it by thought. He sees how the molecules expand and interact with each other).

(It's the same in his physical life. Wherever he is emotionally involved he is present and he sees what is happening). He knows after a conversation, whether the others know or not that he is there in the manifestation. He knows if they are lying to him, because he heard the truth, and has seen the Soul. He feels the cup of water they drink, and the air they inhale. He sees the interaction, but out of wisdom he keeps quiet).

(When you travel with the D of the Soul, you will have these same (abilities). He gives an example of you talking with your mother in New York who at the same time is talking with your sister, and the mother lies and says it's sunny in New York, but you know it is actually cloudy and raining. And you say to them, come on guys, I know it is raining, because I am there with you. You are there through your Soul and you can see, feel, and are a part of what is there. This is the level you have to reach. Then you understand how you "dial that number" and reach any Soul in the U. The "number" of your Soul is your emotion, your creation).

(When you do this, it's not just seeing, you feel the physical emotion. You feel the pain of your mother, even if she lies to you and says everything is fine. This is the new process of understanding transmutation and transportation).

(Those of you who truly wish to see the Christ, bring your Cup with you to Sanya and see if you can bring him in through the true essence of your emotion, and the emotion of the Soul of Christ. Then we'll understand what the truth is. It's not a challenge, it's for you to understand yourself. Don't challenge yourself, rather try to understand what needs to be done to get to that point. Then, if you dial the "number" of Christ and see if he responds in front of the system in Sanya. And maybe the rest of us will be present to it. It might be that a lot of you come with your Cups but you don't see anything. It's because you came with a tainted Soul in the D of the field interactions. You will have time to polish it up before the Tehran conference and then we'll see what happens).

(Through our present system I put a challenge to the world leaders to create peace. Then we'll know who is true man of peace, be it from Ayatollah Khamenei of Iran, the rulers of the Vatican, the other religious leaders, and the world leaders. These Cups will become the standard for humanity (to weigh the truth of their Soul). We don't touch, we don't do, it's you and your own Soul and the truth about it. Nobody interferes with it).

R: You previously talked about this idea of a parallel world, or a parallel U. A question came ..

K- I don't believe in a parallel Universe. (Possibly, there is an interaction that creates something. But, a parallel Universe the way they talk about it and understand it, is not the same way as we do).

K- I'll give you a cup of tea. I can give you a nice cup of tea, if you can taste it.

R: Okay. .. (no response ..)

K- (But the thing is you have to want to feel the emotion of it, and then you'll taste it).

(He talks about the past history of the Persian Empire. When he say, "Kourosh" it means Cyrus the Great who was mentioned many times in the Old Testament and the Jews referred to him as the "Son of God" or a Messiah. Mr. Keshe is saying that as a Zoroastrian he was a Prophet, but he never claimed to be).

(The biggest crime in the time of Zoroaster and even Kourosh was to lie. Because lies created problems like wars and a lot of other conflicts. If you understand the emotion it creates, then you can understand why it was forbidden. It's a (kind of) stealing. And another type is when someone accuses another person of lying, because then it justifies their own actions. In time those people find out it that this comes to "bite them." If you understand the Soul of this, then you understand how things work. There are a lot of, what you call, the essence of interaction of the Souls which come from this notion).

(This is what I understood about what he was saying. The true history of the religions is very different than what is written in the scriptures. But we all kind of believe that they were not supposed to lie to us, as they claimed to be from God. But the truth is all the holy books are made out of the lies, when there was supposed to be no lying. Then everybody starts believing in it and they say it's true, because the prophet said. And the Prophet said he would never lie to us. Then he gave an example of Muhammad, where in the Koran he said he shall never do magic. He said, this because of what Christ and Moses did to show their power and how it was abused. Muhammad was very strict in saying that he would not do that).

(Mr. Keshe said the same, that he won't do magic, rather we have to understand the science of it).

(It ended up that there was a demonstration by Mohammad that he would cut the Moon in half, and this magic would cause the people to believe in him. It became a big thing in the Islamic world. It's not sure if Mohammad did the magic, or somebody else did and lied about it being from Mohammad. Because he said, they made a lie and connected (it) to the prophet, (so everyone would accept the lie). (I will leave it to you to sort out the original transcript).

(In the past weeks he has been "opening the books" of the religions and exposing their lies. (The essential point of the books is that it is about the true understanding and having faith in God, or the Creator, and not the mayhem caused by the lies in these books).

(The next step is to clear your Soul so when you travel the span of the U your Soul doesn't lie, (even if) your physicality wants to lie, because that will get you into a lot of trouble in the Space. In other words don't have hidden intentions of eating the other beings in the U).

(The process behind the teachings is for you to understand about yourself and your Soul. It's not about me (as Mr. Keshe), or the systems I make. It's how through the knowledge and the system, you can find the truth, the essence of reality about yourself. You don't need any Prophets, Holy Books, or anything else, because it's about you and your Creator, and what the conditions are that you have created yourself out of).

(We need you to understand the science and T for you to become part of the Universal Community (UC). Because, if one man creates a problem, this can create a bigger problem for us in the future, because we (Messengers) are responsible for taking you into the UC and teaching you to understand your Soul. This (bad habit of) lying and killing has to die within the man. And this is one of the cornerstones of our mentoring of the man into the UC).

(You can assess yourself with the technologies we are bringing. When some of you bring your "Cup of your life" with you, you might wish for a fish, but you get a monkey in the Cup. This is because you haven't understood your Soul. You have to go back and learn where you have lied to yourself. Was it originally that your Soul wanted a monkey, and you lied to yourself? When you wish for a monkey and you get a monkey, then you understand you are on the (right) path. First of all learn not to lie between your STM, the STP of you, and with the fields of emotion of the Creator. Nobody will know and you don't need to tell anyone that you wished for a fish and got a monkey. If you do, then you have not reached the essence of the truth, and are still lying to yourself).

(Many of you come with your Cup and will not see anything in it. You might see some AA floating on top. It means you haven't learned how to transmute to physicality. Then you have to teach yourself and find out how to correct it. But don't read the books, but understand it from within ... << audio cut >> ).

(If you wish to see a fish, but get a monkey, it's not the fault of the system. It means you have not been truthful to your own physicality and the D of the observation of physical life. Because your Soul wished for a monkey, (but your physicality was looking for a fish, which was not true to your Soul. So, you didn't get your fish. This is not a fault of the system. It's you, and your Soul and STP that have not been truthful with each other).

(These are not a "Cup of judgment." These Cups are for you to understand and to perfect yourself. There are no judges, there is no "Day of Judgment." It's for you to be enlightened and understand the life of the U. When you reach this point you will find

your way into the UC in a very easy way. And we are not testing you to see if you can go or not. It's for you to test yourself, that you become a perfect being, in the school of "beings of the Creator." That's all).

(We are not here to make money, otherwise we could have made fortunes. Instead we suffer and go through it (with you) step by step. As it says in the Holy Books, give us our daily bread. As long as our daily bread comes the KF remains. We will not stop, because every day our Soul is clear to what is to come, and what has to be done. The "bread" is provided, and that's why we are still here after 20 years. We haven't targeted ourselves to become billionaires. We could have become billionaires, and we've been billionaires. We give and you give. And this is how you should be. We are just bringing new systems for you to test yourselves. And to see how you will manifest yourself in the new position. Then you understand, when I told you, I'll bring you a drop of water, and there will be a fish in the Cup. Now you understand how, because it's my wish. And that drop carries my Soul, and interaction with the protein which is created by the system, will manifest the fish. Because our wish is sincere, and not tainted. And you will understand).

Q: You said that at the time of Jesus Christ he passed on the knowledge through women. But how did he try to pass on the knowledge to elevate the Souls of the people? Did he try to pass on something related to the plasma science? Did he talk about the existence of the STM, or the STP, in the language of the time? Why would he have failed in his mission to pass on this knowledge that you are opening today?

K- He never failed. (It was the Man who failed to pass it on. When you say, he gave the knowledge to women, let me explain. He gave an indication of what you call, "Virgin Birth." Which means the (true) believer (in God) in the Torah. The mother was a believer in the Creator, or God. She was a "true" Jew, but in a different way of believing in Judaism then what they were doing at that time).

(I don't know if I've explained it in these workshops, that I feel ashamed, absolutely ashamed as an Iranian, that our women have been put under Islam and devalued and degraded. Before Islam came our women were worshipped and respected beyond (measure). In the structure of the life of Zoroastrians, the female, the mother, is the holiest of all. Even at the time of Cyrus the Great and Darius and before, women were respected beyond in the Persian society. We devalued our women to make them half by the rule of Islam. Why? Because Islam, to keep the women they conquered, killed all the men and allowed the woman to live. They gave them the option to be beheaded or to become their slaves and bear them children. (At that time) the mothers were the light of the knowledge to their family and society. This is the biggest shame for me as an Iranian, to call myself a Muslim, because of what has happened to our women and our mothers).

(In Judaism when supposedly Moses conquered a village, (in the name of) Jehovah, he would kill all the men, women, child, and animals. Christ came from the same mentality, but he brought a halt to the killing of women, and instead made them knowledgeable, because he realized that without them, there is no next generation).

(The Christ said, that the women are the "true believers," because they create life, as their children comes from their womb. Mothers have that love and they understand the love of the Creator, they are knowledgeable. And (today) we don't value that. This is the reason that I always say, the next Soul that will lead us will be the Soul of a woman. And this is why we created the "Child of Mitra." The male does not create, a woman creates and understands the love she gives. She cannot physically touch the child inside her womb, but through her heart she transfers the love of the mother to the child. And in that interaction the child takes shape, becomes what it is).

(If you touch the emotion of the mother during the pregnancy, for example, if she is tortured or abused, then that emotion will effect the child and you'll have a handicapped child, or a child with problems when they are born. Then you understand, why God, the Creator, has one emotion. When you see calm and beautiful children who are born with absolute joy, then look at the time when the mother was pregnant and what love was transferred. It's the emotion of love of the mother for her child, which is the emotion of the Creator. As an Iranian, we have dishonored, we have dismantled, the essence of Creation by becoming Muslims. The first thing they did was to devalue our creators, our women to half. For what reason? Muhammad himself only beheaded men. He didn't behead children and women. He told the women they were their slaves and to be their wives. How can a woman who loved the man whom you beheaded, now has to become your wife and love you?)

(In Iranian history men gave their life for their mothers to live. But in the Islamic religion it's the opposite. And in Judaism, forget about it. Then you understand why we have to understand what kind of culture we want our Soul to be created in. Read the whole history of Islam. They went to war to see how many women they could get). (Then you understand why we are bringing an end to religions, because they have only been for making money and profit, not as in "Prophet" to bring a message).

(At the time of Cyrus when he conquered other countries to expand he used to spare the conquered King. This was opposite to the custom, which was to kill the King and take everything for yourself. When Cyrus took Babylon the Queen was brought before him and she said, I'm yours. But Cyrus said, no, you're not mine, you have a husband your own life. He gave her the same position as a Queen. When the King accepted defeat Cyrus first sent him to his wife where he saw how she was living in comfort and peace. Then Cyrus said, he came to bring peace to his nation and not conquer women. The Babylonian King said to Cyrus, I'm yours, because you are a true man).

(Cyrus is the only King who had only one wife from the beginning to the end of his life. Even though he had access to the most beautiful women in his kingdom. It may be hard for you to accept, but it was Cyrus who ordered the Jews to write their history, that unknowingly became the Bible of today. The Jews believed that he was a Messiah. And many times his name is mentioned in the Torah. Because, he lived by the rule (of ?? God), and he respected his wife, because it was the culture. And if a wife became an abuser, then it was her decision to leave. Read about the life of Cyrus how he became a

King. He is actually a true Prophet, but he never accepted that position. And that's why he was called the "Shah," which (can also) mean, the Prophet).

(Then you understand how we should live. If man lives the true life, like that of Zoroastrians and the true essence of Cyrus the Great, then there would be no wars. And to start with we have to respect our own creators, which is our women. This has been taken out of the culture of Iran by Islam. We have sold our women to half, where before they were equal to us, and above all of us as our creator).

Q: If the STP is fundamental to the process of transmutation and travel to the Creator, then I am understanding that the physical dimension is somehow essential for the learning of emotions.

K- Yes, it's your "sandbox", isn't it? (When you play with computers and write new programs they give you a sandbox to test the program. The physicality on Earth, how it is, and how it behaves is your "sandbox." You're testing it to see if you can get it right. Then on the other side you won't make a mistake).

Q: When a Soul is created in the plasma D, how will the STP be born, since it won't come through the physical D of the interaction of the egg and sperm? Will the STP come into existence through the knowledge acquired by the Souls of its creators? Could you talk a bit more about this?

K- (The STP in a larger scale is Mitra, where its interaction with the environment creates a physical dimension. When the STP interacts with the STM, it gives the fields which allows it to interact with the environment. In essence, it's our point of reference. We've explained this many times in the teachings. When the STP is in charge it creates a physical life and embeds the STM inside (the brain). But when the STM expands over and brings the STP into itself, then there is no interaction to create the P. (So does the body disappear?) At this point, the STM has to interact with a higher order dimension, which are the Universal fields. This how you travel across the U. This is where the AA comes in, because the Carbon 12 (C12) and C14 are embedded in the AA which are embedded in the P. The STP allows the STM to connect with Universal Community by jumping over to the C14. We are not talking about the matter state, but in the plasmatic field energy state).

(And this is what our systems do. They allow the C14 bandwidth strength to be created and it expands to a new dimension with the STP inside it. It's very simple. This is how you travel on Cosmic Rays. The Cosmic Rays are in essence a combination of the isotopes of C14. To cross Universes you use a combination of C12 to C60. We'll explain this T in the future).

(It's very easy and it's not magic, but you have to understand the T. When you don't understand it, it looks like magic. You have actually been to the Moon, but you didn't know how you did it. We build our systems in a way that they continuously produce, release, and control C14. This allows you to expand your Soul, because it's an energy

level of C14, common denominator, with the essence of the line of the fields of the U and the Creator, (?? and with the emotion you can travel). Up to now you didn't understand, but now you do).

(It's the same mystery for how Tesla used to run a car in New York, but the power supply was in Moscow. You haven't yet understood how he did it. It's the same (here). Once you expand the STM to the dimension of the system, it super-passes the STP. (When that happens there cannot be a physical life). When the STM expands beyond the STP it still has to interact with the strength of its own dimension, and with the Universal Community, and Universal transportation system. This how you travel (the U). We are not doing magic).

(We are the ?? Creator and we understand the process of Creation and how it communicates. That's all. In time it'll become a "second nature" to everyone. And in time it (will be a) part of us. Because every night when we dream, we let the Soul go out. How does our system allow for itself to travel and go beyond? And you go with a full physical body, you see yourself in your dream cuddling your lover, having a wet dreams, a fight with your grandmother, you steal from somebody, somebody runs to you. How do you take that physicality with you? How do you know it's you? Now you understand. This is a science, and it's the job of the KF to teach you this science. Then there is no magic).

(In 2023 there was someone on the 'Britain's Got Talent' show called, Magic. He did magic tricks making a child appear on a chair, or creating snakes and then they disappear, and he even picks up the child from the chair. But you have to understand the science behind the magic and how they create these "visions.")

(We don't have any of this with our T. The only magician is you, and the only magic is what you do by yourself. Understand the science. I'm the worst magician, because I show you how all the tricks are done by making the systems. The biggest trick you all missed is with the MaGravs. There isn't a day goes by that I don't say, God knows when this man will move. I gave you the essence of transmutation, which is expansion of your Soul. I keep on telling you, but you keep looking for those little bits of electricity. Try sitting on top of the system, and feel the fields it creates and this will allow your Soul to evolve. By not understanding you remain a prisoner shackled to the Earth).

(This is where the difference comes through understanding and not just hallucinating, or should we say, being uneducated. One of the beautiful things with this T is that there are many women around KF. A lot of women, because it goes back to the Christ. He said, "Virgin Birth" which means the women are the "true believers," and they understand the process of creation, because they are creators. All our men are busy with making MaGravs. And all our women are trying to understand the Soul of the technology. And this is the way it is).

(I will bring women to be respected the way they were during the time of Kourosh. The way the Creator created, loving the Mitra. For this we have created the "Soul of Mitra" in the "Child of Mitra." Soon you will understand what the game is about. This is the only

way the man will be peaceful in the U. Because (if he is alone he will try to find a partner, "twin Soul," and for that he will do the crimes the man on Earth do for the women's love. This shall not be allowed. Because the love is there right from the point of inception, but you never looked for it. You were created out of it).

Q: When we have a mutation in our RNA to react against some entity that enters into our body, such as bacteria, which has its own emotion, this change is unconscious to keep our body alive. But when we want to transmute to another environment through our conscious emotions, does this occur in the same way? So, is the only way to transmute, is to have a big purpose, like teaching the knowledge of the Creator, to maintain the Creation?

K- In the transmutation, the STM always stays in the dimension of ?? .. We pick up viruses through transmutation, without a doubt. And we'll come across other "energy packs," that's how we know of their existence, and that's how we fall in love with another virus. We become "Soul mates" and we create children of the Soul with them. Anything which is not at the strength of our Soul, is a virus to our Soul. But, we have to understand and change that point to one of love and care, and wanting to become part of.

(The structure of the physicality of the man is made by this principle. You want to be with me, okay be with me, but we have some surplus energy. Then the P creates a liver to handle the excess energy. If we are short of vitamin C we can get it in the liver. The urine was created to get rid of other parts not needed. All this has to work together or we will malfunction. This is called RNA operation). (It has to understand which energies are needed and which are not needed. We do the same basic thing in our lives. We work in an office and become a member of a club of runners, and maybe join chess club somewhere else, and then at home we are a member of our family with wife and children, and then become members of different things. But all of it function because we have a brain at the center controlling it. So we are doing the same thing but we are oblivious to it).

(It's the same structure across. At the gym you go and give your energy out, and somebody else picks it up. This becomes a virus to your marriage because you're not at home to love your wife. But she accepts that virus, because you look good when you come home. And this is how we interact).

(We showed how you can convert a virus to energy and feed from it, like with Cup One and (---). That's why a lot of you recovered so fast from it. You took the energy of the virus itself and converted it to food for your body. You interacted with it and didn't destroy it and it has become part of you. So it remains with you, and you will see the benefit of it in the coming time. It's an asset in your pocket of genes, or energy packs, you call viruses).

(We have to understand the science, and then we'll understand the T. And then we'll understand the technology of the Creation. The DNA and RNA are all made from man to become ?? real. There's a big mayhem at the moment in the world of medicine. Harvard University has called out some tens of papers as fraudulent. The Head of Medical School

of Harvard has resigned because of it. These papers have been out there for 20 years and the lies have forced a lot of people to change their mind, and now they regret it. A lot of medicines since early 21st century based on these fake papers are having a lot of problems. They did it to suit the money providers). (These kind of things won't happen when you live your life by the Soul, because you'll understand what energies and viruses are. This brought back the memories of Stephen Hawking and the KF. He copied our papers but never understood the principle, so he couldn't explain it, and people believed in him).

Q: Why on planet Earth only the human species has the capacity to develop technologies of all types, and other species have not developed them in this sense. Why does only the human race need to produce clothes to protect themselves from environmental conditions, and other species are born with the right clothes to live in?

K- Let me tell you one thing, (in the beginning) we had the clothes, but then we changed it because we felt the others had better clothes than us. So we stole from the sheep, cow, and whatever animals we could get our hands on. << audio cut >>.

(Thinking that we are better than the others because we can make tools, has more or less come out of our intuition, knowledge, and from the other sources, within us. We found tools to kill, and enslave and take from the others, what is not ours. This has become a process and we are getting better and better at making tools and whatever).

(But if you look at it, a lion, tiger or other animals don't need a compass to find their way. They don't need man's tools. How many birds have you seen with a compass? The more tools we make for ourselves, the less environment we gave them to live in. We are actually going backwards. But now with the new T and when we become travelers of the U, gradually we'll see the same kind of migrations of Souls from one U to another, because there are fields which we will enjoy more).

(The more materialistic we become, the more we walk away from understanding our Creator. If we would have relied on the energy of our inner being we would have been much further along in traveling the U. You've fallen off the horse of the Knowledge of Universe and we are trying to get you back on it. That's all. You're not so advanced, and you've actually gone backwards and your morality has gotten worse the more tools you make).

(Please, try understand the teaching of today, and don't just listen to it once. I brought forward about the Book of origins of the magnetic field and life. It's for you to understand the essence of the Book. If you understand it, you'll gradually become ready to be the passenger of knowledge of what is to come. Join us in Sanya, and start that process. Bring your Cup of Life with you. There might not be anything in the Cup when you're in Sanya, but when you get home you might find the emotion and essence of life in it. Then see how you can transfer this knowledge to the others, and become part of).

(As I said, I will bring the world leaders to answer for their conduct, by their own actions, and not by summoning them to the Court in Den Haag. When we ask a leader to put his Cup on the table, the only reason he will not do it, is because of the fear of the truth about himself. When a leader is not truthful to himself, then does he deserve to be leading the others? This is what was meant by, no man will take the crown of Kingship. Because the STM, in any direction, dimensions, is tinted ?? with something).

(:13)

K- Thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. We welcome you back as usual, and we'll see what is written in the books of the knowledge. That we could read from and share some, is the knowledge we know, so here we are all servants to this Creation.

When we listen to the intro and when we listen to many other teachings and the direction the Keshe Foundation has taken, it brings man to one point, and that is the point of creation. (:14) And the reality is that we ourselves have decided at a certain point in our life, or we will decide, those of us who are not in that position, or we are alive because somebody made a decision, two people to create a Soul and we are the creation of it. And the same way, we create our children, we become creator of other Souls. And then they become the others, and the others, and the rest. But in essence, every one of us, every generation, leaves a connection to us. And then, us to our forefathers. One question to ask is, where did our forefathers original fields come from? And we call it to be the Unicose, to be collection of fields that created. But the question comes to one point, where is the origin? Where did all this come from? And who created the magnetic (M) field?

If we consider ourselves, we as the whole of Unicose, to be, let's say, a ball, a dough, in the hand of another structure, (:16) created by fields of another structure. Where did that dough come from? You can't have a dough without the flour. Where did that flour come from? Where is the origin of that flour? And as I said many times, in one of the final books, we go to, we have to understand the origin of where all this started. How it became about that even magnetic fields were created. What is the science behind it? And where the origin of Creation comes, that led to the creation of the first field, that led to the creation of the interaction of the residual of interaction of itself by itself. And in which environment was created that Unicose could be created in it. Nothing can exist

without the containment, without a container, without a space to contain it in. Does not matter if you put in a pot, you make a plastic bag or you just create a fields around it.

This essence, the knowledge of the Creation, man has to understand before he becomes the "Man of Space." Before he joins the Universal Community (UC), he has to understand where his Universe came from, that he's part of community of. (:18) If you as a man or a woman, created the field that led to creation of the another Soul. And this Soul, in the term of time, interacted with the others, the way you were created. One Chinese, one English, two Chinese, two Iranian, one Iranian, one American, and the rest of it, led to a mishmash mixture of the races on this planet. Now you have to consider what mishmash led to creation of man.

We put everything down as, because of the geography, because of the water, because of this, because of that. Everything has a Soul which led to creation of us, or life, doesn't matter where. But, who is behind the original fields which led to the creation of the Earth, and led to the creation of the Sun, and the energies which created the Sun, where the Soul of the Sun came from? Then, this dilemma, this question, has to be answered by man, to know where he is going in Space. What is the purpose of life. And scientifically as men, we are reaching that point. We are reaching to the point of understanding the essence and the origin of Creation.

And maybe, maybe in Sanya, in China, for the first time we'll show the first signs of origin of the Creation. (:20) How life, how fields come together to show this origin. Everything said has to be shown, everything said has to be physically developed and delivered. As we said in the Intro about the gas unit, you all are waiting for the gas unit to come and give you the power generator you want. We have this technology in our hand and we shown it again and again to the people of the authorities. They shiver and shake. They see the change. We've seen others trying to do the same, but no one creates gases the way it's done through plasma. When, 2-3 months ago, one of the leading scientists of Chinese government was appointed to see how we produce gases in matter of minutes, I could see the shake in his eyes. His education as a leading authority in China, worth nothing. And he knew it. I could feel his Soul that he says, guy your mastership has no master, because now it can be done without mastership by a little boy.

Now you understand the essence of the Creation, we can deliver everything we said. We have delivered everything we said. But the society and the knowledge is not ready for it. When we showed the production of protein (amino acid), (:22) how life is created, which leads to creation of man, the scientists touched the table and they told the top guy, and this brought all their knowledge to zero. When we can run a simple system and with it proteins created from the environment of interaction of it, does not need Earth, does not need the structure of the Solar System. You can create a physical life anywhere in the Universe. And we have shown it. And for the first time in Sanya, we show how life, how protein was created, and how we can create any life in any position, anywhere in the Universe. Because we control the fields of Creation. we control the understanding of the Creation.

The presentation in the next few weeks in China will bring a change in the threshold of the science of man. We leave the systems and we'll leave different environments and you watch what is created in those systems during the conference. One will be the condition of ocean, one will be the condition of something else, and you be witness to it. Then it comes, how we create life. (:24) And then it comes, if fields can create life, where did the field which led to the creation of us came from? Then, in the process, maybe in Tehran, maybe in Washington, we show you how we create man in a bottle, man in a system. Essence of creation of DNA and RNA in a system, without a father, without a mother, without any interaction of the physicality (P) of man.

We have to break down these taboos, that man starts looking logically, scientifically, at all aspects. Then, once you understand this, once you can see how protein is made, converted from fields, then you understand how to convert your Soul as a field in transmutation to entity at the point of you, where you want to manifest yourself. It's not that we can produce gases, we can produce protein, we can produce whatever. The whole point is that we can create life. And the easiest way to structure this life is to use our own Soul, which is already preset as a "dough," it's the yeast to create the next. You do not need egg and sperm. You do not need what they call, all sorts of imagery with DNA. Through the emotion of you, you create the being of you in front of your eyes. (:26) Does not mean to be a child. It's life, and how this life will survive the span of the Universe (U).

You have to understand this process. You have to comprehend the principle of interaction, and understand where it came from, that led to the creation of emotion, with it, to creation of life, entity. Then, many of your questions should be answered. Did man, is man, would man be able to be created, is created, and was created, through the interaction of the fields of the environment and the essence of emotion of the Creator? So the planet became the structure of the DNA, and the essence of the emotion of the Creator became its RNA. And if that is the way it is, then you understand why you carry the whole Knowledge of Creation within you, because it came in the dimension of the fields of the emotion of the Creator. In essence, when the Creator has the presence of His emotion, it only depends on the environment, what kind of fields interact, what creatures they create, what entities they create. That, in that entity, the essence of the Soul of the Creator (STC) blows within them. And gives them dimension of emotion and life.

Now you understand, why all the teaching has been put, in the sequence and the way it has been done past years. (:28) And in some books, they say we blow the life into. In a way, it's the secret of Creation. Your emotion does not need materials to be transferred to someone else. It's not a food. Your emotion by fields, informs the other. The tear of you, the laughter of you, the anger of you, in the fields, transfers to another that they feel it. And this is the same with the essence of origin of the creation of the man, or any being in the Universe.

So man has to find, has to understand, the way the interaction of his fields of his Soul, with the Soul of the Physicality (STP) created his emotion, how his Soul, with the interaction with the STC, creates the emotion of the Soul of the Man (STM). That both

the STM and the STC, become aware of, understand and interact. Then, in fact, does not matter how many Souls you have, they all live within the emotion of the same fields. It's how they interact and what emotion they create for themselves, because the origin is always constant in emotion.

Then the question comes, was the origin of life, fields, or emotion? Then it comes the question of Creation. (:30) And this answers to all the mysteries and the questions that what you call, the Holy Books have been put to you, and to all the followers. I answered that question in past two minutes. In this, you have to find, you have to understand, how you've been created. And then, in the essence, in the interaction of your Soul, with the position you arrive, in the essence of the position and time and place, the emotion you create, manifest you in that position. Then you understand, even on Earth, if you change the dimension (D), the strength of your Soul, when you become master of it, you can become a dog today, a cat tomorrow, a man the day after, and a stone the day after.

Then, you understand, it's like putting a pea, putting a stone, putting a rice in the same cup of water. That water is the essence of emotion of the Creator. And how each one reacts in that water, is the essence of the Soul of that entity. If you understood, if man ever understands what is being said, man has find the key to the essence of the Creation and the Creator. And in a way, as I said, it takes one second for one to reach the Soul, the understanding emotion of his Creator, and some bang their heads against it and on the floor, 17 times a day, (:32) and still will never find, never understand, and never reach the point of maturity, of what one second, a peasant, a child at the womb of the mother, we're at the time of birth, and 80 years on this planet, can reach and in a way, does not want to carry the physicality.

In essence, if you don't understand this, you will see everything we show and we do, is just another game, he shows this, but you don't understand where we are taking you. You have not understood what it means. In reality, if you would have understood this, when the very first time I showed you a picture, you would have understood the game of the religions is over. But as you are not aware of what's going on, you never understood the dimension of maturity of man, the dimension of understanding the Totality, the dimension of where the fields come from, where they go, and how they interact. And when I put this in front of you, I ask myself one question. And I ask one single question. Would any of these people understand what is shared? Would any of you understand what this touch of a man on the Amino Acid (AA) means, which is created out of interaction on the matter of steel? And where you see this dimension, when you see this line of protein, (:34) inside it was a piece of wood. And inside and on it were papers. Could not be seen on the paper and the wood, because the structure showed itself different. But on the steel, which is a different environment, it manifests itself as a protein.

So in fact, it was on the paper and on the wood. Each one decided to manifest itself in a different way. Now you understand. On the wood, on the paper, you are not visible to ?? everyone. On the stainless steel, on the most advanced laboratories of the Chinese government, you see yourself as a protein. And then, as you see it, if you touch it, you

still ask yourself a question. Is the lack of the knowledge within the Soul and the physicality of the finger you see, which has brought him to ignorance? But the evidence is in front of you. Interaction of the fields with the environment and steel, I show myself as a protein. And if you give me the right environment within this, I create you any life. Because the essence of life in a dynamic motion on this planet is connected to the protein, which we call, from the combination of the fields of the matter state, (:36) which is created by the interaction of the fields of this planet with its environment, which we call the Solar System.

Now you understand. When you manifest yourself in another position and time, when you go through transmutation, who and how you can be seen, and how you want to manifest yourself, to be, to confirm your existence. This picture and what we showed is so fundamental, that if you understood how it's created, how you will be created when you go through transmutation, will give you the key to the world of Creation. In the essence, understanding the emotion of the Creator. "I made man in the image of Myself." That image is the emotion, not the physicality. It's not even the STM. Because I created the man, I blew life in his existence through interaction of his fields and the emotion of Me.

If you Knowledge Seekers understand this, you'll master transmutation in no time. If you are still in the doldrums of trying to see physicality, you will be searching for rest of your lives and generations of you to come. (:38) The essence of the creation of man, the essence of existence of man, or any being in the Universe, is a condition of the fields of the environment, with the interaction of the fields of the emotion of the Creator, which manifests itself in that position and time. The way, the interaction of your Soul, your STP, or the fields of the structure of your physicality, leads to the creation of laughter, tear and the rest of it. Now you understand, what a teaching and why we teach the way we teach. To enlighten you to the light of the Creator.

But, one question stays behind. That, somewhere in the future I will answer. And that is, who created the emotion of the Creator, that interaction with the fields of us creates man or anything else, in the dimension of anything, physicality, tangibility and the rest of it. In essence, this is how, if you ever understood this, created man in different races on this planet. The emotion, the fields of the environment, and its interaction with the STP of the man, leads to creation of that man to be able to live both with the STP, the STM, and the Soul of the environment. (:40) And man, and the scientists of man, have not understood this, that this is the reason in behind what you call, creation of different races, creation of life on this planet and beyond.

And in the essence of the Soul of the environment, creates the man with behavior. As behavior itself is part of the emotion. Then you understand why we see different people from different part of this planet behave collectively different than the others. Because the environment of that place and that position, in interaction with the field of the STP of the man, dictates not only race, but the emotion and interaction, and everything else to go with it. Why in one country, you call it, on one side of the hill, you have men with different emotion, and one on the other side, with different emotion, and collectively

behave the same. We've seen that. This is why the Chinese built the wall of China, to be peaceful on one side, as the others of the same were not the same, not behaving the same, didn't have the same emotion as the rest. And then, when we have what we call, the Soul of those who understand the emotion of the Creator, we come across those who we call, are, or behave like God. (:42) And then we understand, how we have to behave at the point of transmutation, at the point where the ?? glue, where the essence of the creation of us, at the point, time and place, will be interaction of the Soul of us, with the Soul of environment, and the, what I call, the emotion of the Creator.

If you understand this, you can even choose, in what emotion you manifest yourself in anywhere in the Universe. You have to understand these things. If and when you start becoming the trans... what I call, porters, the transmuters of your own energy and your own Soul. Maybe, maybe you Knowledge Seekers (KS) understand. It's not, we just made a protein, many others have done. But, the protein on this table, has the essence, the emotion of the Creator. The fields of interaction. And this, if you understand, creates life, which in essence, is connected to the emotion of the man, and in the same way, to the emotion interaction of the fields of it, with its Creator. And then, you don't need to find the field strength of the what to go where, you'll find in what emotion you want to manifest yourself. That the position and the time and place will take you to that emotion and dimension and manifestation of physicality. (:44)

Then you understand, traveling in the span of Unicoise, is a flick of a finger. Then, you don't need the UFOs, the donkey, the leg of a man, or transmutation systems. Now you understand. I hope you understand. I hope you can see why we've gone through all this rigmarole. When we produce that gas, when we produce the protein, our emotion, our thoughts, is not to create this, is to create the fields of it. But with that fields, we decide what to manifest.

I have asked my team to bring systems into Sanya, that it'll baffle the world of science. Even they are not aware what will be shown. They just carry the systems. In a way, you have to understand it. In a way, you have to see it, because you're man, you're so physical that you see by believing. You don't use the sense of your Soul to understand the energy transfer that you do not need to see.

We use these International Conferences to bring light into the knowledge and understanding of the nations. (:46) Because, as I said, "The emotion of the land creates the man." And we change the emotion of the lands with the knowledge, with technology (T) which man can understand, and with it, take away the mysticism. When we show you the production of the protein in Sanya, don't look at it as a protein. Understand what emotion I can put into it, as I am the observer, I am the egg, and this is the sperm, or this is the sperm, I am the egg, that what I can create within it, within a cup I put on the table. Would that cup which carries my emotion on the table, would create a fish? Would it create another being? And would it be nothing because I have not understood the Soul of interaction?

In Sanya, I bring you to see how man was created. If man understands his own position and time. As Muhammad said, "I will never do magic." Because he saw how magic game played with Christ and with Moses. And it's in Koran, he says, "I'll never do magic." And I said the same. We never do magic. We show you science. Muhammad didn't have the knowledge of science. We do. We created the science. And when you come to Sanya, come with a "Cup of yourself" and put it on the table and see what is the true emotion of your transmutation of your Soul, (:48) with the interaction of the system and what you get in that cup. Nothing, or something, or a being.

Don't forget, go back in the past teaching of 520 times, many times I said, with me, even in the labs of Linz, there is a bucket, which I have created life in, and it goes with me everywhere. It's the same. I have blown within it the emotion of me, with the presence of dimension of the fields, life has created. When you come to Sanya, bring your cup, bring your own mixture, and see if your Soul, the interaction of your Soul, with the condition of the essence of fields of Creator emotion, leads to creation of the life which you did. And how your cup next to another, leads to creation of a new child, new life, new essence of creation. We don't do magic. We understand the science of Creation.

As I said a few weeks ago, we bring in a new technology. We bring in new science. And that science is the science of Creation. not another electric generator, another gas production, another god knows creating gold. It's for you, the Knowledge Seekers, to be able to see what they are made of, what they will be, and how they transmute, and what emotion will bring them to be at the time, place, and position. (:50)

So, you have to understand, listen to the teaching of today, maybe a 100 times, maybe one time, but understand the essence of the teaching, and you have found your way to your Creator. And how you have to create. How what you create has to be loved, nourished, and fed on the STC for it to survive. Then you understand how Mitra brought life onto this planet with the emotion of the love of the Creator. She just had the physicality of the Earth and the love and emotion of the man within the man himself.

Now you understand, the whole essence of Creation. The Holy Books and the holy books of the past, have spoken it, but they never understood. Today, you receive the Knowledge of Creation, and you see the evidence of it on the table. You have to decide, even how the fields which leads the creation of this protein on the table, can become a child of you. With the interaction with another field, could be from Earth or anywhere else in the Universe. Man in the dimension of physicality will never be able to produce offspring. Because your DNA and the others interactions will not lead, will not create that dimension. Unless man creates children of itself through the interaction of his Souls with the other Souls, with the other fields. (:52) That in that position, in the condition they create from the essence of the STC, leads to the generation of the new life. Now you understand, when I talk about the creation of the children of Mitra. Where there is no need for egg and sperm. And if you understand, the Universe is the womb of the Creation. And in what condition, in that womb you want to create a boy, a girl, blue eyes, 10 legs, love of the Creator, and the rest.

In a near time, those of you who always wished for a child (but) could never have. You've tested with all the test tubes and everything else, and the answer has been no. You cannot bear a child. Understand the teaching of today. And you understand you are as fertile as the mother who gave life to tens of children. It's just that, and how you know a new way to create that physicality which you can hold to love, to care and nourish. Then you understand how the knowledge of Mary being virgin, as I said, misinterpretation last time. It means the word in the language written as knowledgeable. The one who understands the knowledge, who becomes a believer in that knowledge, and that's "Virgin Birth." (:54) Because now you are the Creator of the interaction with the fields of the emotion of Creator, you can create any being and call it your child. Create it in the atmosphere of your womb, it'll become what you call Christ. Create in the atmosphere of the love between you and your partner, it'll be a child that both of you nourish and each one of you can decide, how long I'll keep it with me and how long you keep it with yourself and how long us together we teach it to become a correct Soul, that it can manifest itself anywhere, anywhere, any place in the Universe, as it receives the emotion of the field of the Creator.

Now go back on the teachings of past years, and put all the words and teachings, now you understand today, why and how. You always wanted a child. Create it, understand it, in the strength of the fields of the emotion of the Soul, with the interaction of the field of your partner, becomes the planet, and the essence of the emotion of the Creator. You shall have that child, you don't need to create test tubes. You have to learn this kind and this way of reproduction, as you become the traveler of the Universe, and you cannot physically interact, make love to another creature in the Universe, but the essence of creating whole life together is so strong, that by participation, by the interaction of the two Souls, and the environment that the Soul decides to nourish itself, and the essence of the field of emotion of Creator, you will have that child. It's the only way that you will reproduce in the Universe. (:56) Unfortunately, most of the created things, animals of the Universe do not have the penis and vagina. And it does not exist in their structure. How are you going to make love to create that child?

If you do not understand the essence of the Creation and how life was created from the fields of the emotion of the Creator. You just create, you just make available from the field of your Souls, and the dimension is yours. Then you understand, as I said, how "virgin" you are, even after 10 children. Because that "virginity" comes from the believing, and in believe comes understanding that you believe in it, the essence of the Creation. And you can create any child, it's a child of Universe. It's a child of Mitra, as Mitra is across the Universe, is the love of the Creator, is emotion of it, wanting to share with itself, to confirm its existence.

As I said last week, you try to clap with one hand in the pocket, does not happen. One hand is the emotion of the fields of the Creator, and then the other is the dimension of the STM, in interactions, fields with the STC, which leads to creation of life. Then, it's like that drop of water. Give it the environment, it'll manifest itself as ice. Give it the environment, it'll be a vapor. (:58) Give it the environment, will be a drop of water. In

essence, the environment leads to creation of what is there already, which you created, in interaction with the essence of the fields of this environment.

If you Knowledge Seekers understand this, you have managed to unravel the secret of Creation. And if you don't understand, you're still waiting for that generator, the gas production, and seeing something. Come to Sanya with your cups, and test yourself, to see what you can create. And we leave it open to all of you to test. Make sure the mixture you make, is the essence of the love of you, and not just the water from the tap. And does not even need to be water.

Remember in one of the teachings I told you? When the Belgian government decided to test my knowledge, they asked me to give them three bottles. Each one had the essence of the emotion of the fields, of the man, the Earth and the Universe. And with it, they saw how I create fields, which baffle them, and they create new laws in the whole structure of nuclear industry. Each bottle is the same as the cup you bring with you. All I did, I blew, I added, I put in there my emotion in that water. All three are the same. (1:00)

Come to Sanya and see the magic's which you create and we do not provide any shortcuts. Then you see truly who you are and maybe you can ask this is me, this is the environment of the Moon, how would I look in there, when I get (there)? And we create the fields for it, through the dimension of interaction of the fields of the Creator. And then you understand, do you still want to see the gas production and electric power, or a system to lift? As I said, I'm a teacher. And the classroom is the Earth. And we teach from the first "Gaga Gugu" to the nursery, to the professors, and to the leaders of the world. One teacher, one classroom, and this village is so small, cannot afford more than one teacher. Then you understand, we carry the whole knowledge. But with you lot, I have to speak, "Gaga Gugu". And for those of you who become knowledgeable in the future, we'll talk about the straight line, blue color and red. And those of you who become more knowledgeable in the use of your Soul, we teach you how to jump, and how to make sentences. And then one day, when you graduate, you will become, you join the world of the Creation we call the Unicose.

I feel sorry for you Knowledge Seekers. You are born and you listen to knowledge, (1:02) which you have not been prepared for. But in time, your children, as more people understand, become a known, and much easier for them to comprehend and to become the, what I call, Passengers of the Universe. Being a Passenger of the Universe is not going from place to place, but becoming the field, the emotion of the Creator, that it can affect the creation of the others when they interact.

As they said in the Koran, Salaam Aleikum, means you have to understand. Salaam Aleikum ?? , we have told you everything from A to Z. It depends where you sit. The A, or you have educated yourself to reach to Z, which from the beginning to the end, without each other, cannot exist, but together make the essence of life. The knowledge and the communication and explanation, and understanding of the feeling of the emotion of the Creator. I hope I gave you a beautiful gift. And I hope you understand the gift.

Otherwise, it will be the same as lesson 1, 21, 201, 221, and 520. Any of you could have been enlightened at any point. It's just what you've been looking for.

We see and we explain more and more. (1:04) That you as Knowledge Seekers understand yourself and nothing else. Who you are, what you are, how you have to be, and what you want to become. Now, the true Cup of Life comes with you in Sanya. We gave the Cup of Life to the Chinese with Covid. Now our Chinese friends, bring your cups and see what life you can create out of emotion of your Souls. Thank you very much Rick. And we'll go for a small break and we come back.

**>> BREAK >>** 522 KSW January 25, 2024 (1:10).

K- ... Can I make couple of announcements?

R: Sure, sure.

K- We used to make the announcements at the beginning, so now we do it in the middle, which is much easier. First of all, on the Chinese, the third conference in China, is now fixed for 16, 17, 18 and 19th of March. In the island of Sanya, which a lot of you, some 58 Nations, don't need a visa to come in. And some of you can stay 30 days, some of you can stay 90 days in the island. It's one of the most beautiful places on this planet. If you don't waste your time just looking at the city, go and see the beaches and the island inside. It's where most of the seeds of the food and research in health is done by the Chinese government. It's a bedrock of the science and technology, and has facilities that none has seen in the world. Most of the evolution in the, within kilometers from Sanya City, the research centers, and then you have the big laboratories, (1:12) which the licensing is totally different than rest of the world, and they can test the latest diseases, inventions in medicine in this island. It's given a special license to be able to do this. And it is one of the reasons that Keshe Foundation Corporation in China will have a center in this area. It's full of scientists, those who have endeavored to go to the next step and they are open minded to develop new technologies. The elite of the sciences of the Chinese in certain section are in this area.

The conference will be from 9 to 6 or 4 days. And, as I said, we bring to show the evolution in science. Our team will come equipped to show this. Do not come to see, you see part of what you've seen in London and Manchester, but you see things which never shown before, never been there, and it'll break the new science and technology. But, be aware that we target, our aim, is the conference in Tehran, for transmutation and manifestation of the Creation. Once we finish with China, we start negotiation with the Iranian government, to hold this conference in Tehran. And then hopefully, by the fall, in September, we negotiate with the American government to show this, maybe, maybe in Nassau, maybe in Florida. (1:14) In a way, I chose Nassau, what we call, in the Bahamas island, for a specific reason. There we will show the creation of life from the oceans of the Universe. And that's what has been a playground for me for decades. And we go back to Nassau to show you how life has come, to come from the seas to the land and to life, that we know it. It's one of my favorite places. And some of the most beautiful memories of my young hood and adulthood comes from Bahamas in Nassau. And then you will see what is called the Paradise Island. It is the true paradise. So step by step, we go from island to island. And we'll bring, we show how our creation shall be.

One point which you have to remember, if you're coming to China, to Sanya, come with a clean Soul. Because if we give you the Cup, you manifest yourself in a dimension of what, who, and the way your Soul interacts, and will interact. The "Cup of Life," given to the Chinese as a savior during Covid, now becomes a true Cup of Life for the nation. We'll take this system across the planet, when we travel. And we ask the world leaders to bring their Cups, for them and for you to see the true Soul, (1:16) within that physicality. And I wonder how many world leaders will attend and even touch the cup. We'll put this cup to Ayatollah Khamenei of Iran, to put to place. We put this to Pope in the Vatican and to the other world leaders. And then we, in essence, understand the true essence of the man. And then you understand, the true game of peace has started. Where the Soul of those who claim to be the leaders and the peaceful men, will manifest themselves in the color of their Soul in their cups. And then you'll understand. When in Arabic they say, ?? Ashadamna, what it means. I swear to my Soul, I be the true me, and nothing else. I swear to the truth of who I am.

And then you understand when I told you, the true game, the reason we started the teaching, and the creation of Keshe Foundation, was done so. I hope those of you come from China, you'll bring the best potteries of China. And come with a clear glass, that you cannot hide in the "clay of the nation," the true emotion of you. Then we'll teach you how to create children of ?? man.

Yesterday, when we turned on the first systems to lead to creation of this life, (1:18) I stood by the system, and I prayed for it as I always do, let it be the system of peace. Let it be that the field of this, bring the Knowledge of Creation to man. And we shall see. It's an amazing system. It can create life in any dimension. And it keeps in essence, in its center, the rays of the creation of the field of the emotion of the Creator. And how it communicates with every position, direction and dimension.

I hope you are that lucky to be in Sanya, to see the beginning of the new dimension of science and technology, which man never knew, and it'll be the beginning of the change. We invite the Chinese military leaders and scientists to join, to come in and to test themselves, and to understand. And then it's for the others, nation by nation, to add their flavors to it. The Keshe Foundation team has posted how you can come to Sanya, come with a pure heart, and no hate, no resentment, and no racism. And then see if truly is you in your own Cup. It's a Cup of your life, and then you have to understand it. (1:20) Thank you very much, and I hope you will see, in a very near future, what all this teaching was about. was not to make gases and electricity, was to show you the energies which ?? (lives) leaves and how things manifest themselves, according to the environment they're in. And how you will become that gas, that energy, when you come into dimension of fields of another position in space and time, and how you interact with the STC, to manifest yourself in and through that field, to physicality which you desire.

We see how things will change and as I said, we put all the world leaders to test and the system for it has been switched on yesterday and it will manifest itself across this planet, step by step. And then, it'll come to the point, when you choose a world leader, most probably for American election, the American nation will ask your leaders to come with their cup, that they can see the true leader, irrespective of his words. We know the color, when we see the Cup. It's a Cup of Life of a man, Cup of the STM, in interaction with his Creator. And never changes, who wants to take shape. And no one can lie.

Then we see the true leaders, who will become the leaders of this planet, always shall stand this test. Then you understand why we call for Universal Council, to be chosen by the STM and not the man. (1:22) And how the Universal Councils will be cleared themselves through the same. And now you understand how the two process will link up, and how we'll link you up to the system. The new system developed and switched on yesterday, has two dimension of the reaction. One to the Soul of the Creation, and one connection to the Soul of the Universe and Unicose. Specifically designed for these two. The rest comes out of interaction of your Soul, and the interaction with the emotion of the Creator.

I hope you will not be disappointed. And I hope you'll see how you can, you should, and you will create the "Children of Mitra." Thank you very much Rick, and we leave it to you, to come and test yourself, in Sanya. The next time we show this system, will be in Tehran, and the Iranian leadership, to come with their Cup of Life. And then we understand the true man of religion, the true man of nations. And we take it to Washington and we ask the Presidents of United States to sign themselves to the cup. Then we all understand where we are going. Rick, is there any questions we answer?

R: ... You mentioned today the origin is constant in emotion. I thought that was an interesting idea, maybe you can explore that a bit. And perhaps we can combine that with... (1:24)

K- It's not an idea, it's not an idea, it's the truth. God or Creator cannot have a anger emotion tomorrow, or a laughter the day after. You understand? Because we interact with

it. It's constant and is a giver. It's man who changes emotion. Its continuity and its consistency has led to the creation of the Universe. The diversity comes from the interaction of the Soul, or the fields which have created that Soul in that dimension. That's all. It never changes. It has never changed from day one. The only way we could put it is how Mitra knew in knowing the emotion of the Creator, played with it to lead, to show the love to Him. To confirm His own existence through Himself.

But it comes to another point that maybe you understood as part of the teaching of today, is it cannot be on his own if there was nothing to show. Is Mitra interaction of the part, parallel, Unicoise to us, that the interaction leads to the ?? invention of what we call the love of the Mitra? Or has the interaction of the field of itself has led to the Soul dimension, which is in line, in parallel, but triggers the emotion of love? (1:26) And then this is for us to answer in the future. So, never changes, always has been giver and in interaction with it, a lover. Which is a habit of the lovers and the givers.

Any questions? Or you want to extend your question?

Q: Well that was very interesting, I thought maybe it could somehow combine with the question that was carried over from last week from YouTube, from Dot who says, "How can I know when my Soul is talking to me?"

K- You should have said, as I said just before the teaching, do you have his telephone number? He can only talk to you if he's connected to you. In the coming weeks and through the test to come out, a lot of you will find your path to it.

By the way, before I forget, we announced that the 6 sessions start of every month, the third week. In March we'll move it to the 29th, not 22nd, because we are still in Sanya, a lot of Knowledge Seekers are traveling. So, the 3rd of the 6 sessions, instead of Friday 22nd, has been announced, we'll move to 29th. And, at the same time, the another thing which I forgot to tell you, we finish on Tuesday the 19th. Wednesday the 20th is the celebration of Iranian New Year. And we celebrate in Sanya, the Iranian New Year, (1:28) with those of you who want to be with us.

But, you cannot separate things. You cannot bring things into dimension, if they don't exist, unless you know how to mix it to lead, let it to be created. And this question of how to contact, as you create it, as you have created out of it, you already know. In the world of science of today, you call it, isotopes, with different strength. In the dimension of the plasma, work on the strength of the fields. And as you have seen, as you observe every day and night, when you look into the skies, you see billions of stars. If they were of the same, you will not, or you will see them as one. You see separate, because each one has one isotope strength, of the fields of the Universe and Creation. And so you understand how it works, to subdivision, and then you create one, and then it becomes more of the division of the subdivision, and in different strength. And in that process, you always through, because you're connected, know the connection, you know where it is.

In the dimension of the new reactors, new technologies, which for the first time has gone into test and then they're going to operation in the coming weeks and we'll show it for the first time in Sanya. (1:30) You not only connect to the dimension of your Soul, but you connect to the dimension of Universe. This is a technology never known by man, unknown at all. It's not something you can do and we know it this and that. We have brought the knowledge of Creation of it, to physicality that you can understand it, that you then can control it, then you can communicate through it, then you can create that condition of life. Then, it's very easy, you don't dial, you create the fields of emotion of it, and you'll get there.

Something which is very interesting is, I put this to you as a reality, but with a tint of, what you call it, joy and in a way wisdom, if you understand it, and in a way of, little bit of joking, if you understand what this means. In the teaching of today, in past few minutes, we told you, and all of you in the past days, 24 hours, whatever, you had a dream. In your dream, you are in Tehran, you went to Los Angeles, you went to New York. You're living in New York in your dreams, you went to South Africa or you went to Australia. Have you ever asked yourself one question? Did anybody ask you for a passport? Did anybody tell you, "Sorry, you don't have a passport, you cannot come through your Soul to Australia, or South Africa, or Tehran, or New York?" (1:32)

And, the most important thing of this is, who gave you the number to go there? Who invited you? Or, as you know, like certain countries, they put a filter, certain things cannot be done, you are banned, because you don't understand it, we don't want problems. Has the Universal Community has put a ban on the emotion of the travel of the STM into Space, for you to dream, or to you, to travel through your Soul, to other positions of the Universe, and understanding, and you know, as you know you are in New York, or in South Africa, you know where you are, and you can go to. Or, through the system that many of you went in the Linz, we have opened that door, that you could go to the Moon, you can go to anywhere, any ocean, anywhere in the Universe, fly the way you want, and come back.

So, it comes to, have you understood the knowledge, or you are just copy-catting? And, you will understand, a lot of you, will go through this, and gradually become knowledgeable. I was explaining this, in the past day or so, to one of the Knowledge Seekers. When, in a position of my private life, they were explaining things, or they were telling me things, about interaction, or a condition of a person, (1:34) I don't listen, I'm physically there, I see the emotion on the face. I see the emotion of the Soul. I'm present in that conversation, at that place and time. It's the same thing as I told many times, I go inside the atom, I go inside the reactor, I see everything. It's not something that I don't, something I think. I see how molecules expand, how atoms interact.

And it's the same in the physical life. Where I am emotionally involved, I am present. And I see. Even in my physical life, I know after that conversation, they don't, they don't know I'm there in the manifestation. I know they are lying to me, because I heard the truth, I've seen the Soul. I feel the cup of water they drink, I feel the air they inhale. I see the interaction, but out of the wisdom I keep quiet.

When you travel with the dimension of the Soul, you get this. If you're in Tehran and your mother is in New York, and having a conversation with your sister, and they call you, you'll be there with them sitting, you see their emotion, you feel their laughter, you see, they say, "Oh, it's so sunny here, it's actually raining." You say, "Come on guys, I can see it is raining, what are you lying to me?" But you are not here. But I'm there through my Soul, I can see, I can feel, I'm part of you. This is to the level you have to reach. Then you understand how you dial that number. It's the number of your Soul, your emotion, your creation. (1:36)

And when you do this, it's not just seeing. You feel the physical emotion. Your mother is in pain, she's hiding it from you. She's limping, says, I'm so good. I went for a long walk. Mom, you are limping with a stick. I'm with you, I see you. And then you understand the new process of understanding transmutation and transportation.

Those of you who wish to see the Christ, truly bring your Cup with you to Sanya and see if you can manifest, if you can bring through emotion of your true essence, the essence, the emotion of the Soul of Christ, bless his name, and then we understand what is the truth. It's not a challenge, it's for you to understand yourself, and don't challenge yourself, try to understand what needs to be done to get to that point. Then, you dial the number of Christ and see if he responds, in front of the system in Sanya.

Then we understand, maybe we all be, ?? present to it. And maybe a lot of you come with a lot of Cups and you see nothing, because you come with a tainted Soul. Dimension interaction of the fields, ?? . Then, polish it till Tehran, understand it, and then we see what happens.

With the system which now is developed, I put the world leaders to challenge, to create peace. And then you know who is true man of peace. Be it from Ayatollah Khamenei of Iran, to the rulers of the Vatican, and the religious leaders, and the world leaders. (1:38) This become the scale standard for humanity. We don't touch, we don't do, it's you and your own Soul and the truth about this. Nobody interferes with it.

Any other question?

R: ... You talked previously about this idea of a parallel world, a parallel Universe perhaps? There's a question that came up with Malcome in ...

K- I don't believe in parallel Universe. Possibly, has to be that the interaction creates something. But, a parallel Universe the way it's put, depends what you understand of it, is not the same as us.

R: Okay...

K- I'll give you a cup of tea. I can give you a nice cup of tea, if you can taste it.

R: Okay. I'm having some tea here, but mine's green tea. I'm not sure what you're drinking.

K- It's a nice Earl Grey tea from India.

R: Okay, I had an earl Grey earlier today actually, double, double burger ?? mo.

K- But the thing is, did you come here to feel the emotion of it, to taste it?

It's very interesting how these things will change our lives. You know, one of the cornerstone of the ?? Kourosh (Cyrus the Great ??), Shah of Iran, or the man, what we call, the Prophet, was and is still in the dimension of Zoroastrian, (1:40) ?? through Zoroastrian's lies. The biggest crime in time of Zoroastrian and even Kourosh was to lie. Because lies created problems, wars and a lot of other conflicts, and there was no crime bigger than lying. And if you understand the emotion that creates it, then you can understand, why it was forbidden, why it's forbidden. It's a stealing. And those who make everything somebody says to them to a lie, because then it justifies their action, find out it comes to "bite them" themselves, as we say. And then if you understand the Soul of this, then you understand how things work.

And there is a lot of, what you call, essence of interaction of the Souls which come from this notion. And if you understand the true history of time and religions and whatever names they put on themselves, comes from this point, not to lie to your people. But all the holy books are made out of the lies where it was supposed to be no lie. And it's all believed in it. And even if the man who's a top man, who the prophet says himself, such a thing would not happen, because there cannot be no lies. They've written in the book and connected to him to become the truth and then they all believe in the lie which he said, "I never do lies."

Example of this is by Muhammad, bless his name. (1:42) In many verses in the Koran, he says, "I shall never do magic." "You will never see magic from me." Because he saw how the followers of Christ and Moses, or whatever, used magic to show his power, or their power. And Muhammad made sure this doesn't happen. And it's very strict, written in the Koran. But interesting thing is, they connect the biggest lie to the biggest magic, which Muhammad says, "I never do magic." I always said the same, "We don't do any magic, you have to understand the science." And half of Koran's belief, Muslim, doesn't matter what, goes on this lie. According to Muhammad said, he'll never do. So it's a lie. We know it's a lie, whatever they say.

And this is one of the criterion which now puts the Keshe Foundation, head on with the Islamic world. Muhammad, bless his name, said, I never do magic. Never, nothing, never be done. And then, in another part of Koran, which is a cornerstone of present, Saudi, Shia, they encourage it a lot, is Shaq al-Qamar, cutting off the Moon in two half. Which Muhammad promised, I never do magic. And that is a magic. That's what it was supposed to be, that he can do these things. And according to the time and place, if such a thing was done, as we see in Koran, such a big event, the rest of the humanity should

have seen it. Somebody in London, somebody Bedouins in part of Saudi Arabia, the rich people of Europe, (1:44) somebody should have seen this Moon cut in half. It should have had an effect on us. So you can see how lies has become against what the Prophet who they believe in, is. They made a lie and connected to the prophet and they want to accept that lie.

Where, even if you read the Koran, historically, time and place, they connect people who were present in that Shaq al-Qamar. Because, the story behind the Shaq al-Qamar is that, some people got together and went to Muhammad in a full moon, and they said to him, "Show us a magic, then we believe in you, if you show us this magic." And Muhammad said, "Okay, I..." you know, they said, "Full moon, cut the moon to half." And they said, "Muhammad did it to, for us to become his believer." And they give you name of the list of the people who were there. But when you go into the history book of the people, some of those people, two or three of them, were not even born at that time of Muhammad. They're there and they're asking him to show us. And you understand, we don't understand the history, and then we attach to it.

And this is one of the reasons when I start the talks, even with the, as I repeated many times, with the Saudis, ?? Jahan University, was this. And then one person who was actually was in a meeting with Muhammad said, you can see half of the Moon. And the Shaq al-Qamar will come only when it comes the end of the world in heaven. Not now. It will not happen today. And then there's another sentence, word, couple of words after, which tells you, this thing, Shaq al-Qamar, (1:46) will happen in Heaven. But they don't tell you that part of it. They say, "This is connected to Muhammad, Muhammad has done this." They don't tell you, they don't read the whole story. They tell you one half, and because most of these Mullahs of that time, and even today, are so illiterate, that they don't connect the word after.

Yes, we go to the park and then we have an ice cream. So, we went to the park, we don't tell you there's an ice cream. Or, we have an ice cream when we go to the park. Okay, where is the ice cream? But, you haven't gone to the park to get it, yet. Shaq al-Qamar will happen according to Muhammad, according to Muslim ?? Koran, but, in Heaven, is not sign of Islam. And these lies will now has to open up. As I said last week and the week before, I opened the book of religions. Then you understand the true understanding is the faith of God, the Creator. Not these mayhem of books and lies.

Then, you have to understand the next step. When your Soul cleared, the same with your Soul clear yourself, when you travel the span of Universe, your Soul is clear. Your Soul doesn't lie, your physicality wants to lie, you put yourself on the noose in the Space. I like to eat you, oh but because I know I can take fields from anywhere in Universe, I never even think of eating you, that you take energy from me to defend yourself, or you take energy from somewhere else to protect yourself, and create another mayhem. (1:48)

And, the reason, all this mayhem we have, even today's war in Palestine, between the Jews and the, whatever, is part of this. We have split the hair and we talk about which hair is the main hair. And now we get more and more cutting this hair to more pieces and

then we call it divisions of religion. But if we look at the end of the hair, it ends up in the same place, it's the same hair, you're tipping, it's just, you know, you have a split hair. This is the job of the religions nowadays. Which one of us is the biggest, so we have more. But, we are all fake, because that hair doesn't even exist, the way we built it.

Then you understand the teachings, the process behind the teachings. And why the teaching is about you, and your Soul. Not about me, not about the systems I make, not about anything else. It's how through the knowledge and the system, you found the truth, the essence of reality about yourself. And you don't need no Prophet, no Holy Books, and nothing else, because it's you and your Creator. And what, and the condition you have created yourself out of.

We start putting these together, in technologies and science that you understand, and then gradually in the coming time, you will see how we open that door to the Universal Community. Because, if one man ?? withers and creates a problem, this can create a bigger problem for us in the future, (1:50) because we are responsible for taking you into the Universal Community to understand your Soul. Then, the division of lying or killing has to die within the man, and this is one of the cornerstones of mentoring of the man into Universal Community.

And this, with technologies we bring, you assess yourself. Because, some of you will come, and come with a Cup of your life, you put it there, and you wish for a fish, but you get a monkey in the Cup. Then you understand, you haven't understood your Soul. Go back and learn where you lied to yourself. Was it that originally, your Soul wanted a monkey, and you lied to yourself? When you wish a monkey and you get a monkey, then you understand, you are on the path. That first of all, you don't lie between you, your Soul, and STP of you, and in the dimension of interaction with the fields of emotion of the Creator. Then you understand, nobody knows, and you don't need to tell no one, "I wish for a fish, I've got a monkey." Then you know, you have not reached the essence of the truth, not lying to yourself. And when you learn this, becomes the path of your life.

And many of you come with a cup and you don't see anything in it. You might see some protein on top of it. It means you haven't learned how to transmute to physicality. Then you have to teach yourself, find where the correction has to be. But don't read the books, but understand within ... << audio cut ... >> (1:52)

K- ... Yeah, what I said, when you bring your Cups to Sanya, and you wish to see a fish, and you get a monkey, that's not the fault of the system. It means you have not been truthful to your own physicality and dimension of the observation of physical life. Because, your Soul wished for a monkey, and got a monkey. Your physicality was looking for a fish for something else, which was not true to your Soul. So, you didn't get your fish. This is not a fault of the system. It's you, who have not been truthful with your Soul and STP.

These are not the Cup of judgment. These are the Cups for you to understand yourself, to perfect yourself. There are no judges, there is no Cay of Judgment. It's for you to be

enlightened, to understand the life of the Universe. And when you get to this point, then you find your way into the Universal Community. In a very easy way. And we are not testing you, if you can go or not. It's for you to test yourself, that you become a perfect being, in the school of "being of the Creator." That's all.

As I said to, wrote one of Knowledge Seekers, in past few hours. We are not here to make money, otherwise we could have made a lot and make a lot. We suffer, we go through it, (1:54) we go step by step as the man goes. But, as said in the Holy Books, "Give us daily bread." And our daily bread in the Foundation comes, we will not stop, because every day our Soul is clear what is to come, what is to be done. And the bread is provided, and that's why we are here in past 20 years. We don't go to target to become billionaires, we could have become billionaires, we've been billionaires. They said, what's the best way to make a millionaire to a, what you call it, a poor man, make him a farmer? And this is the same. You give and you give.

And this is how you should be. We are just bringing new systems for you to test yourselves. And how you manifest yourself, when you understand it, in the position which you manifest. Then you understand, when I told you, "I'll bring you a drop, and there will be a fish in the cup." Now you understand how, because it's my wish. And that drop carries my Soul, and interaction with the protein which is created by the system, will manifest the fish. Because our wish is sincere, it's not tainted. And you will understand.

Any other questions?

Q: ... Good morning Mr. Keshe, you told us that at the time of Jesus Christ he passed on the knowledge through women. But how did he try to pass on the knowledge to elevate the Souls of the people? He tried to pass on something related to the plasma science? (1:56) He talked about the existence of the STM, or the STP, in the language of the time? Why would he have failed in his mission to pass on this knowledge that you are opening today?

K- He never failed. Man failed to pass it on. Let me explain to you, when you say, give him knowledge to women. He gave an indication of what you call, "Mary the Virgin." Yeah? "Virgin Birth." Where I explained to you in Torah and in beginning of the word, it means "the believer." And the mother was a believer in the Creator, in God, a true Jew, but in a different way of believing Judaism than what was at the time.

I said this a few times, and I don't know if I've explained it here too. What I feel ashamed, absolutely ashamed as an Iranian, is that our women have been put under Islam and devalued, degraded. Before Islam, our women were worshipped, respected beyond. And today in the structure of the life of Zoroastrians the female, the mother, is the holiest of all. Even if you read the story of Kourosh and Darius and before, women were respected beyond in the society, in the Persian society. (1:58) We devalued our women to make them half by the rule of Islam. Why? Because Islam, to keep the life of woman, killed all the men and gave woman to live. We give you your life, but you are half of us, otherwise we behead you. Because the mothers were the light of the knowledge to their family, to

the society. And biggest shame for me as an Iranian is to call myself a Muslim because of what has happened to our women, to the mothers.

And then we go back into Christianity. We go back to Judaism. Go back to the Judaism when supposedly Moses, Jehovah, conquered a village. He killed everything, man, woman, child, animal. With Christ coming from the same mentality, with putting that the women are knowledgeable, he brought a halt to killing of women. Because he realized without them, there is no generation.

But, at the same time, 500 years, 700 years before even Christ, in Iran we worshipped, we respected our women. And we have devalued our nation, our culture, to become Muslim. And we have let our women down. Because this is what the Christ said, the true believer, because they create, the child comes from the womb of the mother, they have that love, they understand the love of the Creator, (2:00) they are knowledgeable. And we don't value that. For that reason I always said, if you've been around me, even before I started the Keshe Foundation. I always said, "The next Soul which will lead us will be Soul of a woman." And this is why we created the Child of Mitra. Because you have to understand, man does not create, a woman creates and understands the love she gives. She cannot touch the child inside, but through her heart, transfers that love of the mother to the child, that in that interaction, the child takes shape, becomes what it is.

If you touch the emotion of the mother, if the mother is tortured, abused during the pregnancy, you see that emotion, how it changes, you get a handicapped child, child will be problem when they are born. Then you understand, why God, the Creator, has one emotion. You see beautiful children, you see calm children, you see children born with absolute joy. Look at the time when the mother was pregnant, what love was transferred. It wasn't there was an injection of love. It's the emotion of love, it's emotion of the Creator, the love of the ?? mother ?? to the child. And as an Iranian, we have dishonored, we have dismantled, the essence of the Creation by becoming Muslims. By first thing first, devaluing our women, our creators, to half. For what reason? Because we came across bunch of people, (2:02) where with Muhammad only beheaded men. He didn't behead children, and the women. Read in all the wars, Muhammad headed, he always at the end when there was a victory, in all the wars. He said to separate the man, they took the man to one side and beheaded them and they said to the woman, "Now you are a slave and you are our wives." How can a woman who loved the man who (you) beheaded now, now has to become your wife and love you?

In Iran history, men gave their life for their mothers to be alive. And in Islamic religion, opposite. And in Judaism, forget about it. Then you understand, why we have to understand what culture, we want our Soul to be created in. Read the whole history of Islam. Read the time when Muhammad went conquering, and he won the villages. He beheaded men all together. And women became slave, and abused by the new man. The .. the men of the Islamic world, didn't go to war to expand the Islam. They went to war to see how many women they can get.

And in many, many books, even the Koran, it refers to it. The woman says, you killed my brother. You killed my father. You killed my husband. And now you want me to love you and to be my husband? (2:04) For you not to behead me and put me into prostitution? I say, "Yes." But this cannot be, because then I'm lying to myself.

And then you understand why we bring an end to religions, because only has been a profit, money making, not prophet to bring a message. The way it stands, the way it is. You read about the history of Iran, 600 years before Christ. When Kourosh used to be. Kourosh, when he conquered in countries as an expansion, even Babylon, and where all the Jews were sent, exiled and the rest of it ?? . When the rule, as tradition was, you kill the King and you take all. The... even Kurosh time, when he took Babylon, he brought the Queen of the nation, and gave her, she said, "I'm yours." He said, "No, you're not mine, you have a husband, you have life." He gave her the same position as a Queen. And, when the King accepted submission to come, went to Kourosh to accept to... that he lost the war, Kourosh said, "First send him to his wife, let him have peace, that we have not done anything wrong." And when the ruler went to his wife and saw her in such a comfort and respect, she explained everything, "I offered myself to Kourosh." He said, "No." He said, "You are not mine, I came to bring peace to your nation, I haven't come here to conquer women." Then the ruler came to Kourosh, he said, "I'm yours, because you are a true man." (2:06)

Kourosh is the only King, who had only one wife, from the beginning to the end in his life. Even though he had access to most beautiful women in the world of his kingdom. And you have to understand, when you read the Bible, as the Bible was written by order of Kourosh, in the book, in the Bible, Jews believe he's a Messiah. And many times, they mention his name in Torah. Because, he lived by the rule. He respected his wife, because it's the culture. And when a wife become abuser, it's her decision to go. Read about the life of Kourosh, and how he became a King. and he is actually the true Prophet, but he never accepted that position of Prophets. And that's why he called the Shah, which in that name means the Prophet.

Then you understand how we should live. If man lives the true life of Zoroastrian and the true essence of the Kourosh, there'll be no wars, because we respect to start with our own creators, is our women. And this has been taken out of the culture of Iran by Islam. We have sold our women to half, where they were equal to us, and above all of us as our creator.

Any questions? (2:08)

Q: ... If the STP is fundamental to the process of transmutation and travel to the Creator, then I am understanding that the physical dimension is somehow essential for the learning of emotions. My question is...

K- Yes, it's your sandbag, is it? You're playing the sandbox, when you play computers you want to write a new program. Physicality on Earth and how it is and how it behaves

is your sandbox. You're testing it that if you get it right, on the other side you don't make a mistake.

R: ... Her further question relates to that and you've talked about this before of the perfect Soul and so on. So her question is, "When a Soul is created in the plasma dimension, how will the STP be born, since it won't come through the physical dimension after the interaction of the egg and the sperm? Will the STP come into existence through the knowledge acquired by the Souls of its creators? Could you talk a bit more about this?"

K- STP in a larger scale is Mitra. Where its interaction with the environment creates a physical dimension. And with the interaction with the STM, gives the field which allows to interact with the environment. And in essence, it's the point of reference for us. If you look at, we all said in all the teachings and I've explained this many times. (2:10) We always say, when the STP is in charge, it creates a physical life and embeds the Soul (STM) inside. So, when the Soul expands and brings the STP into, what you call it, itself, there is no interaction for the creation of the physicality. But, you have to understand, in that point, the STM has to interact with a higher order dimension, which is the Universal fields. That's how you travel across the Universe. This is why, embedded in the physicality of the man, the Amino Acid, the Carbon 12, for the STP to allow the STM to connect with Universal Community, it only needs to jump to Carbon 14. Not in a matter state, but in the energy state, in the plasmatic field state.

And this is what our technology, the system does. We allow that C14 bandwidth strength to be created. So, it expands to the new dimension, it finds the STP inside it. It's so simple. This is how you travel on a Cosmic Rays. Cosmic Rays in essence are a combination of the isotopes of C14. And if, if you understand how to cross Universes, you bring a combination of C12 to C60, which allows you to cross universes. This is a technology we shall explain in the future. (2:12)

So, it's very easy, you have to understand, that the technologies we create is not magic, it's just you don't understand it, to you looks magic. You actually been to the Moon, but you never knew how. The way we build our system, it continuously produces, releases, controls C14, which allows you to expand the Soul, because it's energy level of C14, common denominator, with the essence of the line of the fields of the Universe and the Creator, emotion, then you'll go. And then up to now you didn't understand, now you understand.

It's the same mystery as how Tesla used to run a car with energy in New York, but the power supply was in Moscow. Because you haven't understood how. And it's the same. Your... once we expand the STM to the dimension of the system, it super-passes the STP. So now there cannot be a physical life. But, once the STM expands beyond the STP, it still has to interact with the strength of its own dimension, with the Universal Community, Universal transportation system. That's how you travel. We are not doing magic.

Is, we are the Creator, we understand the process of Creation and its communication. That's all. And in time it'll become a "second nature" to all of us. And in time it's part of us. Because we dream every night, we let the Soul go. (2:14) How does our system allows for itself to travel and go beyond? And you go with a full physical body, you see yourself cuddling your lover, you have a wet dreams, you have a fight with your grandmother, you steal from somebody, somebody runs to you. Well, how do you take that physicality with you? How do you know it's you? Now you understand. There is a science, and the job of the Keshe Foundation is to teach you the science. Then there is no magic.

It's a very interesting thing, if you watch, if you are a British, or you go on the Internet, and watch the programs which are coming out on the what I call, the, what you call it, 'Britain's Got Talent'. In 2023 they've saw somebody you call, magic's, where there is nothing, it appears a child on the chair, or the guy creates snakes, and then disappears them, and he actually picks up the child. But you have to understand the magic behind it, the science, that they create these "visions."

But, with our technology there is no such a thing. The only magician is you, and the only magic is on you by yourself. Understand the science, and I, I'm the worst magician, because I show all the tricks. And I make the system and I show it to you how the tricks are done. The biggest trick that you all missed, and it makes me every day, it's not the day that I say, "God knows when this man moves", is the MaGrav systems. I gave you the essence of transmutation, which is expansion of your Soul. (2:16) Many times in the teaching I keep on telling you, you look for that little bit of electricity, go on top of the system, and see the fields it creates that allows your Soul to evolve. And you're still, "Oh it doesn't work, he said he does 30% reduction." You lost 40% of your Soul, but not understanding. Be a prisoner of man, shackled to the Earth.

This is the difference. This is where the difference comes. Understanding, and not just hallucinating or, what you call it, being uneducated. One of the beautiful things with technology is that there are many women around the Keshe Foundation. A lot of women, because goes back to Christ, bless his name. They are the "true believers." They understand the process of creation, because they are creators. All our men are busy with making MaGravs. All our women try to understand the Soul of the technology. And that's where it is.

I bring women to be respected the way was the time of Kourosh. The way the Creator created, loving the Mitra. And for it, we have created the "Soul of Mitra," in the "Child of Mitra." You soon will understand what the game is about. This is the only way, man will be peaceful in the Universe. Because, as a Soul he'll be still alone and trying to find out, a partner, a, what we call, "twin Soul," will do the crimes man has done for women and love on this planet. (2:18) And that shall not be. Because the love is there from the point of inception, you never look for it (outside), because it's part of you created out of it.

Any other question?

K- ... We have to finish in next 15 - 20 minutes, because I have a long journey to take. Okay, please.

Q: ... Mr. Keshe, when we have a mutation in our RNA to react against some entity that enters into our body, such as bacteria, which has its own emotion, this change is unconscious to maintain our body alive. But when we want to transmute to another environment through our conscious emotions, this occurs in the same way? So, the only way to transmute, must have a big purpose, that is, teaching the knowledge of the Creator, to maintain the Creation?

K- In the transmutation, the STM always stays in the dimension of ?? ... We pick up viruses through transmutation, without a doubt. We'll come across other "energy packs," that's how we know of their existence, and that's how we fall in love with another virus. We become "Soul mates" and we create children of the Soul with them. Anything which is not at the strength of our Soul, is a virus to our Soul. But, we have to understand and change that point to a love, to care, to become, to be part of.

In a way, if you look at the structure of physicality of the man, it's made by this principle. (2:20) You want to be with me, be with me, okay, but we have some surplus (energy). What we are going to do? Maybe we won't get the ?? surplus. Okay, we make the liver. We made the liver, we leave our energies there. Anybody needs, call in and take up, that nobody robs anybody. It's a store, it's a national reserve, we call it. You're short of rice in one department, send, we give you. You are short of vitamin C, liver is kept. How we made that? We all have a lot of bits we don't want and nobody else wants, but others outside of the body might need it. We created the urine and the other bits, and then we make it food and water it. We have a bit which we all need to decide, we work together, otherwise we'll malfunction. We put one division to be in charge of this part of the kidney, to communicate with the brain. Liver puts a section to connect to brain and then comes to the other side, it tells which Vitamins to keep, which one to give, and then, "Okay, you don't want it in a storage, send it here, we get rid of it through the kidney." It's the same. This is called RNA operation. A military regime, with a full control of the principle.

Understanding which energies are needed, which energies are not needed. Don't we do this in our lives? We work in an office, but you are a member of a club of runners, and then you are a member of the chess club somewhere else, and then you are a member of the marriage in a family with the children, and then you are a member of such and such a thing, but all function because you, as a center brain, control it, where you would take your energy to spend, you go to the club, where you're going to give the energy to love, you call it home, and the wife and a child, and when there is something else. Don't we do this? We just become oblivious to it.

But, it's the same structure across. (2:22) Has the gym you go to share or give your energy out, that somebody else picks it up, has become a virus to your life? Yes, it's become a virus to the wife, because you're not home to love and more, you're spending

some time in the gym. But she accepts that virus, because you look good for it when you come home. This is how we are, we interact.

A virus, the way we showed even in the Covid, can be used as a energy for the man. That's why you lot recovered so fast with the Cup One, when you had the virus. You took the energy of the virus itself and you changed it to food for your body. How you interact with it? You don't destroy it. The Covid is with you. Those of you who and had the Cup One and you went through Covid and you used it, you will see the benefit of it in the coming time. Because now is, you haven't destroyed it, it's part of you, you already have it, next time come, " pouf , come on, it's a new version, I'll take you, but you won't touch me that much." It's an asset in your pocket of genes, or energy packs, you call it, a virus.

We have to understand the science, and then we understand the technology. And then we understand the technology of the Creation. The DNA, RNA is all made from man, to become ?? real. There's a big mayhem at the moment, in the world of medicine, and, wherever you go on the Internet, you see it. Harvard University has called some tens of papers out, because they're all fraudulent. And, the Head of Medical School of Harvard has resigned because of it, (2:24) and they've been doing this for 20 ?? years, and they forced a lot of people to change their mind, because of these lies, and now the ones who accepted it, ?? regret it. The effect of these papers in past 20 years, which has forced ?? by Harvard has done it, is going to be massive in a lot of medicines, which is faked, and that's why we see a lot of medicines, since early 21st century, have a lot of problems, a lot of diseases, a lot of pharmaceuticals companies going bankrupt, because they couldn't support it, because they worked on a fake paper, originally adjusted to suit the money providers.

And this is the way, it will not happen in the world of your life, with your Soul, you're understanding the energies and the viruses, then you call it RNA and DNA, or whatever you want to call it. This situation, how many, some very expensive medicines was backed on the back of this, and they didn't come up, the research did not bring the money, hundreds of millions was lost by pharmaceuticals, it's because they relied on a few papers, which was based on the lies, which was made up for to make somebody famous. Read about the Harvard University what's happening, it's a mayhem in there at the moment, with the fake papers and... The same people became peer reviewers to cover their own, what you call it, problems and lies.

When I started reading about this, a few days ago, it just brought back the memory of Stephen Hawking and the Keshe Foundation. Because he never understood the principle, he tried to copy and chase Keshe Foundation to change things for himself. And people believed in him.

Any other question? We answer the last question and I have to go. (2:26)

Q: ... Thank you very much for your presence among us. My question is, why on planet Earth only the human species has the capacity to develop technologies of all types, and other species have not developed in this sense. If all species are fruits of this planet and

some are older than the human species, why have they not reached the same development as the human species? Furthermore, why does only the human race need to produce clothes to protect themselves from environmental conditions, and other species are born with the right clothes to live in?

K- Let me tell you one thing, we had the clothes, we changed it, because the others had a better clothes for us, we didn't have to do. We stole from the sheep, the cow, the whatever animals we could get our hands on. And we are not the only species that physical, because we have, we lack << audio cut >>.

K- ... (2:28) Sorry I was talking and I didn't notice I touched the microphone.

The essence of us thinking we are better than the others and making tools, has more or less come out of our intuition, knowledge, and from the other sources, within us. We found the tools we can kill, with tools we can enslave and take from others, what is not ours, and this has become a process. And we are getting better and better in making tools and whatever.

And even the Keshe Foundation now, it works on the same basis to bring you back to the origin. We, when we were, what you call it, in the embryo of the Earth as a fish, we originally created and whatever they tell us, we were the first mammals, as a mouse, hidden under the ground, and then we got a chance to grow, whatever it is, it's a history they made up. We come from this background, of finding a way, and we set our mind to survive, and we've gone that way.

If you look at it, a lion or a tiger or other animals doesn't need a compass. It still knows the direction. Elephants travel thousands of miles, one place back. Birds fly. (2:30) They have a tool. They don't need man's tools. How many birds have you seen with a compass? "Oh, you lot going left, oh you lot going down, oh there is a wind, oh this here is going to be colder, we don't go that far, we stay further South." We chose to become more materialistic. The other animals haven't and that's why they... In a way they survive it, the way they have survived, and the way the more tools we made, the less environment we gave them for them to survive.

We are actually going backwards. If you look at the life of the animals, and then as man knowledge opens up, now that you become travelers of the Universe, gradually you'll see we have the same migration (of) Souls from one Universe to another, because there are fields which they enjoy more. The way we go on the summer holiday, because we enjoy the Sun and the sea, you'll see the travels of the Universe as Souls, which travel to certain places, but they don't go for a day. With them, they could be a million years of yours. Because you counted going around the planet Earth going around the Sun, they come from the Galaxy, rotates around the Universe, and they are from that dimension.

So, we, the more materialistic we became, walking away from understanding our Creator, the worse we become making tools. Actually, it's a shame how the man went, because if we would have relied on intellect, energy of the inner being of the man, we would have

been far, far in travel of Universe, then us coming and making a couple of things, and running it, and putting it together, and trying to get you back on the same horse as you were before. You've fallen off the horse of the Knowledge of Universe. We're trying to get you back on it, to go back on it. That's all. (2:32) You're not so advanced, you've gone backwards. And the more backwards you go in the understanding, morality, the worse you get. The more tools you make.

Thank you very much, Rick. I have to go. I have a very long journey to take today. Please, understand the teaching of today, just don't listen to it once. What I said, the book about the origin of magnetic field, origin of life, I brought it forward for you to understand the essence of the book. And if you understand it, you become gradually ready to become passenger of the knowledge of what is to come. And, join us in Sanya, and start that process. Take what's in there, what you create in that Cup, might be nothing with you in that cup, when you're in Sanya. But when you get home, you might see essence of life in it, emotion with it. And then see, how you transfer this knowledge to the others, and become part of.

As I said, I bring the world leaders to answer to their conducts by their own action, not by summoning by Den Haag, by a Court in Haag and the rest of it. When we ask a leader to put his Cups on the table, the only reason he will not do is the fear of the truth about him(self). When a leader is not truthful to himself, does he deserve to be leading the others? (2:34) And then you understand the word, that no man will take the crown of Kingship. Because the STM, in any direction, dimensions, is tinted ?? with something. Thank you very much Rick. We see you next week, and we'll see where the lifet takes us from there. Thank you very much.
