

525th Knowledge Seekers Workshop February 15, 2024

(Quick Index 20pp, Introduction, Topic Index, Proofing done ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

Need different connections of C - C12 common denominator CR - DC line on H - C overloads creates many C isotopes - to matter state; H connected to Creator; Travel U on overloaded energy fields - through AA; Why can't manifest P in transmutation; Need different AA strengths other than body for luggage; Venus Fly Trap - digests fly through fields; gaseous state AA; Sphere C60 has pentagons - same as skin - pentagons access to Universal energy - how to travel to other U - through pentagon; C60 common denominator of all structures in Unicose; Cosmic Radiation different than CR Cosmic Fields; Every creature in U have pentagons access; Connect to Souls through emotion & intention; Enlightenment within seconds - Knowledge of Creation; Have to find it within your Soul - understanding - cannot give to you; AA fingerprint where born; Every Soul unique - fields; Soul & STP cannot lie to each other - cancer; Understand yourself - connect to STM; MaGrav - 3 Kings; All 3 reach Creator; Never steal - always ask first - Soul elevation; Responds to KS - research is slavery; Transmutation like pulling stem of rose through ring; Cyrus (Kourosh) set example - treat women; Valentine's Day not balanced - not know how to love Creator; STP cocooned in STM - feels safe - not kill - pure love - emotions one - reach Creator; Soul of Grandfather; Chinese stole T - copied called own - be punished - give to others; Re-entry - cry of birth; Cosmic Radiation; Nt believe in Holy Books - made up; Personal stories - leg amputate - punishment; Manchester bombing - don't want others to go pain - sacrifice self - bring change; Happiness from correct living - helping others;

Topic Index

Need different connections to energy packs - C12 - common denominator of Cosmic Rays (CR) on C14; DC line is common denominator on H; When C overloaded creates isotopes of C energy - based on planet's fields - get different matter states; H connects us to Creator and Creation; Travel on overloaded matter state energy plasma level - C12 of this planet; On another planet fields different get different conversion of C - on energy level - radiation of C14 - convert to matter state; Travel U on overloaded energy fields of a common denominator - field; Environmental fields get overloaded and then deviations create isotopes of C - get different matter states on planet; Environment dictates how C14 or CR are converted to matter state at time & place - through GM fields of that place - create new life; Have to understand this to travel to another planet on common denominator of H; Overloaded C connection comes through AA converts to GM fields of that position - even if no C can still exist there; Send man through Space on AA (COHN) of Earth - convert at destination; Example - C14 converts to Potassium (by strength of C60) - create new kind of hemoglobin to survive there; See this knowledge acting all the time - don't understand - 'Venus fly trap' is plant that digests flies catch between leaves - acts like stomach creates plasmatic condition around fly - extracts fields; Plant understands Cosmic & Universal conditions & CR conditions; When STM returns back to Earth - converts back to C12 matter state AA - structure of hemoglobin; Call it AA -

but at strength of hemoglobin - different than AA of plant - or AA stone made out of; Man needs to learn how to create AA combination for transmutation; To transmute bride from London to New York with dress - handbag and apple - need to create different AA strengths otherwise other items left behind; Can't make AA - why KS cannot manifest body during transmutation; Now have built into new systems; Friday's flight session system ready for transmutation - can transfer AA of contents of body; If eat steak in London - but don't know its AA strength - will not transfer to New York - then hungry again on arrival; Stomach same as plant leaves around the fly - understand how to convert AA of different structures into energies of the body; We don't know - but body automatically transmutes energy to convert food to fields; Knowledge of man like new born baby learning to walk; This is why those who transmuted to Moon could not give themselves P; Next - find gaseous state AA; Why does C60 have crystal structure; Sphere of C60 has pentagons in it like football; Skin is like C60 - has pentagon cells all over it - these connect us to Universal M fields; Have to break out of C60 crystal structure to travel to another U; C60 is 5 times C12; C60 sphere needs pentagons - plasma without pentagons won't hold together; Go through pentagons to connect to other U -- same - common denominator fields to Creator; To use T don't need to understand it - don't understand translators of mobile phones to use them; T stolen by King of Belgium; Understand C60 when using MaGrav and Gans - C60 common denominator AA of all structures in U and Unicose - if don't know - becomes your peril - won't be able to convert in U - become lost Soul - ghost of U - won't be able to manifest P; Tomorrow's session - access to universal AA condition - can manifest yourself in P anywhere in U - if can replicate it; Preparing for full transmutation; Have to protect you - bring all right conditions for transmutation; Many are too attached to P - cannot feel anything; Even thinking is part of transmutation; Technologies will help man proceed; Future man will contribute to Knowledge help others; Produce C60, C14, C28, C30, C12, C4; In original patents - inert gases - ionization - Cosmic radiation not CR or Cosmic fields; Understand how to create C14 & C60 - look at skin pentagon cells connect to Universal Energy; Transmute between U - use pentagons; Every creature contains this pentagon shaped plasmas in P or energy; Create 4 dimensions of AA to live & survive in U; Earth states of gas, liquid, and solid, and living condition - same in every structure in U; Understand knowledge fully before transmutes - embedded within STM - not in DNA; RNA creates pentagons in skin - many on skin; Close to full transmutation; Give us picture of someone - we transmute them - connection through image; Understand science of it; Bring Christ - don't need image - thought & understanding history makes connection through emotion and intention; Everyone has unique field strength; Like flock of ducks - herding into hole of Knowledge of Creation; Cannot force feed you to learn - elevate Soul; Understand whole process of Creation to complete science of transmutation; Don't need a lifetime - access within seconds - apply it - 'enlightenment' - will become available; Needs clarity of Soul - understanding Knowledge of Creation - no one can give it to you - or give by name of a Prophet; Enlighten yourself to energy fields of U - learn to use them; Don't need to go through "pain channel" - goes nowhere; "Pleasure channel" - giving and loving others - opens knowledge; Teach T to others - empties cup - filled with new knowledge; If abuse - back to beginning - arrogantly thinking understood; Understand structure of Creation & existence - to apply things - who and where; Convert plasma into matter - matter into plasma; Understanding science of Creation; Already taught you full

knowledge - apply it; MaGravs blocked you from understanding Totality of Creation; Where does gas connect me to; Changing elements in COHN - change color; AA has fingerprint of where you come from; Field strength of pentagon - peeping hole into existence; Easily create plasma in Universal condition; Sit down - analyze what you have missed; Tomorrow's session - new D - transmute to see yourself - physically touch - don't know where you are - find out how to take back situation; We only create environment - you are the 'dancers'; Understand how to transmute yourself - create C connection with fields of place; Why man appears as different races in different environments of planet - conversion of C14 together with different field strengths - new AA isotopes - changes P characteristics; How man scientifically mutated into different races; Black man walked up rivers to Europe became white - blue eyes; Interaction of C14 - containment of C60 - communication C12; C14 connected to his Solar System - C12 matter state - C60 containment; Transmute "beautiful people" - one black - one white - satisfy both emotions of Souls; Beautiful life man will have; Explore knowledge no time for war; Change is here - no choice - a force behind - pushes you forward; Understand - world does not exist - travel through Soul - no one can touch you; Can walk through walls of matter state; Transmute on Earth - could switch to AA of dog; Transmute first couple to Moon - go through C14 and C60 - transmuting on Earth different then across U AA ?? ; Inside plasma of Earth - 'flat-liners' - outside - two 'flat-liners' - arrive in one piece; Have to make fields you want - hold onto; Transmutation will bring new behavior; Merge knowledge of P with knowledge of plasma energy - how to separate them; Transfer this knowledge to others; A drop of water into another water - create a fish - drop is your Soul - water is plasma fields of U - how will you manifest; Every Soul is unique according to conditions of time & place - you decide; Live by 'Ethos of Mitra' - Soul and STP cannot lie to each other - end up with cancer - be nomad in Space; You understand for yourself how you have to proceed - interact fields of STM; Hope a door opened into your life; Way to check P if ready for transmutation; Plug MaGrav into your brain instead of wall; Specific interactions in MaGrav - all field spectrums of U - if don't have knowledge cannot understand; Transmute with MaGrav - STM & STP don't lie to each other; Rings of MaGrav as 'Three Kings' - Bible; Think Good - bottom coil; Talk Good - top and bottom together; Act Good - transmute P; Don't keep Ethos - go nowhere; Jackpot is to accept responsibility all 3; Reach field strength of Creator; Clear explanation - purpose of MaGrav; In conjunction with work of your own life - put own energy on MaGrav; Try to understand - make mistakes learn; Have no choice but to understand it; Understand Totality of work your own Soul & STP - stay correct in behavior at all times - see what happens; Never steal, always ask first - it doesn't matter what it is - carries that Soul for elevation; Tomorrow's session - remove MaGrav from room - experience new cycle of life - transmute - now you have capability to manifest your P in D of energy; All past teachings are coming together in one cooking pot - needs essence of understanding.

Part 2

Mr. Keshe responds to KS who wrote research is slavery etc; He gives everything for betterment of humanity; Detached from money, results of own life, knowledge gained - all goes to humanity; At end of research may get large paid salary - if you were after money; Tuition doesn't cover costs of expenses for research; Haven't started Knowledge

yet; Why research needs to be done; Chinese government pays from their side - KF its own side; Put hand out to collaborate with other governments; Be ready by September; New trials for material (creation) T; He is not retiring like others - starting new cycle of 65 years of advancing the T; Not slave drivers or take slaves; You don't become dodecahedron in matter state - plasma to transmute; In sphere of plasma like centrifuge - higher order M fields - outer edge; Lower order (common denominator) goes to the center; Becomes ring not cylinder; Analogy of how it feels to transmute - like passing a rose stem first through a ring; Center line stem like H - leaves and flower passing through like your life of P, emotions, and everything else - ring becomes a tube - manifest new P at other end; Stem is connection line to Creator; Going through tube time & space of U; If miscalculate about ring - size of tube - come out slightly different rose - goes through different field interactions; You are already all of it; Book 1 & Book 2 - become part of Universal Community; Cyrus the Great (Kourosh) and Darius respected women - 'month of lovers' - do everything for women; Valentine's Day in West not balanced - men go buy roses; Forgotten how to love - forgotten how to love Creator - entangled; Long path to understand truth about Creation; Might let system run 30 hours; First steps in plasma transmutation - crucial; Some might transmute tomorrow; Connected to our system - not lose in Space; Emotional transmutation - take your emotions with you; STM expands - cocoons STP - comfort zone don't have to kill; STM - STP - P produce flat line - emotions all the same; STP should not lie - Soul's job to take places; See his grandfather never met - with picture; Emotion of wanting to see - makes connection; Elevate his Soul to know his grandchildren; Requires detachment from P - Soul is in perfect hands of Creator - can be no lies between; When STM embraces STP pure love - no need to lie; STP feels safe and secure within STM - all needs met - safe at home - emotions become one - reach level to connection to Creator - no dimension - one day will teach - too soon - distinguish emotions of different Souls; We never heard wisdom about life and love like Mr. Keshe - from my parents - gratitude; Will be doing transmutation - change physical defects - testing in Sanya; Full transmutation in Iran - follow-up in US; Pressure from Chinese to show something; We are not a magic show - show to Chinese Military & others; Come to Sanya to understand knowledge; Weeks after demonstrating T to Chinese Military - they copied and claimed it their own invention; We'll punish Chinese heavily for this misconduct - they have lost heavily - audacity to send video; Come to learn - not to steal; Chinese will lose part of T that could have saved their problem - have to deal with other governments; Mass transmutation will not induce nuclear decay of planet - energy of human too small to make any difference; KS felt something upon re-entry from transmutation; Same as cry at birth - conversion of genes - it balances P - not downloading; More KS will experience this - the systems 'click' on - sudden reduction in energy; Good that KS experience this - means working; Learn 'art of enlightenment'; He shares personal experiences with Soul - Pope putting down frock - last one; Moved by music when its field strength matches your emotion - touches Soul - matter state fields of instrument; Music conveys emotions and beauty of Creator; Sounds brings back certain emotions - reflections of life; Same with virus - matches strength of cell; Sound of hooves triggers - German Army marching - certain places in Europe; Fields are a collection of rays - both have a structure of strength; Single Ray travel in one direction at one strength field; Cosmic Radiation - created out of interactions; C14 as a ray - when interacts with fields of Solar System creates friction - Cosmic radiation; Art to create &

detect Cosmic radiation; Use mono-energetic radiation - laser with smaller bandwidth of strength; We can produce Cosmic radiation at will; Body does; We can create all 3 simultaneously; We can create fields - shown in Sanya; Don't know who wrote Bible - intention - meaning etc - not believer in Holy Books - written to fit; Have to decipher it - only small part is true; Need to analyze history from many different sources - not just one - more accurate; Christianity is put together - in Torah nothing real - collection of 'grandma's chats'; A guy called Moses - did certain things - rest made up from other stories - changed names; Same with all religions; Last Bell - tie rope to coffin if wake up; Soul has to come out; Cyrus ordered Jews to write their history - self-praise in book; Read historical books find out about Christ; Still massacring Palestinians in Gaza 4 thousand years later; Gaza will bring end to state of Israel - they'll do it themselves - misconduct - walk away from Judaism; Netanyahu end it; Become nomads again; Advised Iranian government how speed up process; Israeli snipers kill 10,000 children - those Souls have to be answered for; Excuses do not give reason; In Media Chinese report 'plasma shield' - stolen T from KF; Teaching on meaning of punishment - pain of preventing yourself from receiving - you do it to yourself; Chinese violated agreement - have to stop stealing T; Pride of nationalism - blinded man to lies of action; T will be shared - not exclusively to Chinese; Accused me of spying for Americans - made up to avert attention from theft; Don't understand essence of what was shown - one leg missing; Other nations become equal to China; China facing massive internal financial position; KS who went against Ethos - helped Chinese Military to steal from KF - became millionaires - but see what happens to children in US - problems everywhere - Soul has to balance books - now will learn lesson; Stole crumbs - lost cake; Punishment comes from not receiving what you want; Balancing Soul - live without doing anything wrong - STP perceives it as punishment; Sometimes people receive too much - forget; Tells personal story as child ate too much sugar - hyperactive - played games all day - want to amputate leg have to stop sugar - learned the pain of not having what want - why it's a self-punishment - learn from it; How Creator works - provides everything - we deny ourselves; Change misconduct; The Bad become Cosmic dust - have to learn through education; Tribes in Amazon no contact no education - stones at drones; Who is above watching Man; Don't stop collaboration with Chinese; Gain confidence - get out of confusion of religions; Happiness comes from correct living - helping others - unexpectedly comes back; Tells personal experience of this in business life; Thought his kids killed in Manchester bombing - felt pain of loss & not knowing - did not want others to feel same pain - willing to sacrifice oneself to help others; Did this with Northern Ireland - risked life - helped to change - did not think of danger to himself; This is attitude we should have; We're still going ahead with our "slavery program" - as our friend claimed; Register for Arizona research program - not changing anything; Germans meeting to send 3 people; Fantastic time tomorrow.

Introduction to 525 KSW - Carbon Energy Isotopes Creation - Unique AA Strengths - RBC - Find the Pentagons - Act on It

The teaching part of this workshop is mainly about the energy of Carbon (C) and how it converts into all the different life forms and things we have in Creation. It's not so easy to follow this teaching as it brings together a lot of the knowledge we learned in previous

years such as the C12 - matter state and C14 Universal fields or plasma state. This is also connected with the C in the amino acid (AA) or what we call "Mr. COHN." If you remember from the past the C is one point in the tetrahedron of the COHN that can switch back and forth between the C12 and C14. This is our link to the U and to traveling by transmutation with the Soul. These introductions are meant to be kept simple, but I will try with my limited understanding to explain more.

One thing that caught my interest was when he said that, when the H enters the environmental fields of a planet like Earth, the C energy starts overloading on top of the fields of the H and Cosmic Rays (CR) and starts to create isotopes of C energy, and later he gave a long list of the different C numbers of the isotopes that we need to learn how to create. It made me think of when I was studying chemistry and they taught us that, all the organic compounds contains long chains of C and H and they make up everything we call life. That's as far as what they could explain. So maybe this overloading of C14 as it enters into any environment in the U is the fundamental mechanism of Creation. The H plasma is the basic building block of all the elements and it's traveling together through the U with the CR and C14. Then when it comes upon an area that has plasmas forming like solar systems and planets, then the C14 on the back of the H and CR gets overloaded by interacting with the local GM fields and Inertia and starts converting into different elements that can create different life forms, or what we call the isotopes of C. In a way, these H - CR - C14 fields are the love coming from the Creator spreading everywhere throughout His own environment, which is the Unicose, and they provide the energy - information to create everything in Creation. And this is why we need to understand this if we want to do transmutation of the Soul.

Remember this is in the plasma state and that's why our scientists don't know anything about it. Their knowledge only begins when the C14 starts manifesting physicality (P) in an environment like Earth. It's interesting that there are 3 components to the creating fields, that is H - CR - C14. Maybe it's a kind of trinity what the religions talk about. We have the Father - Son - Holy Spirit in Christianity. In Buddhism we have the Body - Speech - Mind. In Hinduism they have the creator god Brahma - sustainer Vishnu - destroyer Mahesh. In Plasma Science we have the P - STP - STM. These are ways that man conceptualizes the fundamental principles of Creation.

Another part of this teaching was about having to understand how the AA field strength works when we transmute. First of all we should know that hemoglobin is made up of 4 AA protein chains called peptides and they have an Fe ion in the center and we call this a red blood cell (RBC). They say that the RBC transfers Oxygen back and forth to the cells mainly through the lungs. In plasma science we understand that the blood carries M fields and is part of a larger process of transmuting energy and creating specific cells in specific locations controlled by the brain. Mr. Keshe talks about AA in a very different way than our scientists do. He said today that in order to transmute we have to understand and learn how to create the different field strengths of AA. And I understood him to mean that each of the things in Creation has a unique AA strength. And that to be able to transmute not only the human, but also the other things he carries with him like luggage and food we have to be able to create these field strengths. He used the example of

transmuting a bride to New York and in order to carry a complete package across we need to know the AA strength of her clothes, and handbag with the apple in it. They all have different strengths. Even the food inside her stomach has its own AA strength and to carry that you need to match it. Otherwise, she will end up in New York feeling hungry and have to eat again. He also said the stones are created from an AA structure. I wonder what that means, because we know the stone as a collection of minerals without C and H. So where is the AA connection? Or is there an AA in the plasma level before the stone was created and we can't see it. He also said, we have to learn about the gaseous AA. Then he remarked that because we don't understand it, is why we can't manifest our P in transmutation. In a subtle way he said the Soul has this knowledge.

It's a good idea to know the matter state understanding of AA. The 'amino' refers to the N-H group and the 'acid' refers to Carboxyl Acid COOH. they join together and form a kind of head of the molecule. In the middle they put 'R' to refer to different size chains of C's and H's. The size of the R is what creates the varieties of AA's, and these are the field strengths that we will have to discover to transmute them. In the plasma state it's different, we work with the MG field strength of these groups before they turn into matter state and can be seen in a microscope. It's very interesting if you put 'hemoglobin' in the Google Search, the picture to the right is of a RBC. It looks kind of like a saucer, as in 'Flying Saucer,' or should we say plasma reactor. Then below it they show long coiled up strings of 4 different types of proteins connected to each other going around the circular saucer shape of the RBC. For a minute just forget about all the 'names' and feel through your Soul what you are looking at, or what could it be? What I see is a UFO with dynamic MaGrav reactors inside it, most likely generating M fields. I could never really relate to the Oxygen transfer concept, even though that is also possible. It's the micro inside the macro and Infinity Loop interactions of 4 different types of coils. Why 4 different proteins? A Star Formation (SF) has 4 different reactors setup to create a field flow. So continuously flowing around our body are millions and millions of these little M field generators we call RBC. To take it even further, what I remember of Mr. Keshe's teaching is that, we have the RBC on one side, the nervous system on the other side, and the Lymph flows in between, which is basically saltwater. The emotion comes through the blood and the current through the nervous system and the Gans's of our body are created in-between. It reminds me of our CO2 Box. Its like one world inside of another world, inside of another world, and on and on. It can be another little aid to help us contemplate what our MaGravs are really doing.

If you have ever tried to sew leather six-sided pieces or hexagons together to make a football, you find out that you cannot make it into a sphere unless you add a certain number of pentagons to it. The football is exactly like the C60, or what is also known as the 'Buckyball.' Mr. Keshe made a very strong statement in that, if we don't want to become the 'ghosts of the U' we better understand C60 and how to make it. "Through C60 we can find the common denominator AA of all the structures in the U and Unicose." This is a huge statement to make. It's again related to what was said earlier, that the overloaded C14 creates energy isotopes that make up all the different life forms. He said there can be life forms outside of C, but he didn't elaborate. What he means is that through the C60 we can manifest P.

Let's just put together some of the different information's he gave about C60. The biggest hint is that 5 times C12 is C60. If you read about Buckyballs, professors used to have their students play with spherical magnets, string them out as C chains and then push them together to form C60 spheres with the pentagons in them. From this we can easily imagine how C12 can form itself into C60 spheres. He said it's the same with the plasma, they have pentagons inside them. Otherwise, they won't hold together, and that this is how the U works. And our skin has many pentagons in it, which you can see under a microscope, and these pentagons are what links us to the Universal Energy. Maybe the U is also formed like a Buckyball, because he said, that there are pentagon formations in our U that connect us to other Universes. And that the Unicose has a common denominator pentagon that connects all the Universes together. This almost sounds like the 'portals' they talk about in Science Fiction. And the common denominator fields go through this pentagon and connect to the Creator. We have found another way to get home. Or maybe it's the only way. Also, all creatures in the U have this pentagon connection in their structure. He said, through our Gans's and MaGravs we should try to interact with the C60 and learn how to produce it. Maybe this is where we use our emotion and also that the Soul has this knowledge inside it. And to do transmutation we create the conditions of C14 and C60, and somehow it is related to our skin which has the pentagon cells in it. It reminds me of the opening and closing of the skin pores we did in Qigong, but maybe it is better not to mix up methods. He was repeatedly telling us in this workshop that we already have the knowledge inside us, it is up to us to access it. And we have to do it by ourselves. It cannot be done in the name of the Prophets or anybody else. Through the transfer of all this knowledge we can tell how close we are getting to the full transmutation.

As part of the pre-transmutation process he will test the ability to manifest someone in front of the KS using only the picture. It can be an animal or a person. The reason he can use a picture is because, at the moment it was created a connection was made through the energies. And with the Christ he wouldn't even need a picture, just by our understanding of history and through our emotions and thoughts we create the link to that Soul. And this is also because everyone in the U has their own unique field strength. This would be like a signature or a fingerprint that identifies us in the Creation. I understand that it would be in everybody's Soul but also in the AA strength when the Soul manifests P.

To complete the transmutation we have to understand the whole process of Creation. This really means to become enlightened and we don't need a life-time to do it. We can do it in seconds, and that comes through applying what we have learned. In a way, we "jump off the cliff" and have faith that we will fly. There was a Russian man named Maurice Frydman who did just that when he was a young monk, and he actually broke his bones. I guess he wasn't mature enough at the time, or maybe he just did it on impulse. He spent his life in India serving others, and he reached his enlightenment at the end. By truly serving the others it exposed the ego and through the love the knowledge came. And as Mr. Keshe stressed that we have to do it on our own, and that we enlighten ourselves, and through that we learn how to use the energy fields of the U. A very important way that we can do this is by teaching what we have already understood about the knowledge of

the Plasma Science. It's not just repeating concepts we read about, but by being an example of the knowledge we have already applied in our life and of course, remaining humble about it.

He wanted to share with us how it feels to transmute and he gave the analogy of pulling a rose, stem first through a ring. It's very nice to spend a little time with this. The stem is the line of H and the leaves and flower are our life of P, our emotions, and everything we believe ourselves to be. They all flow into the center as energy. First there is an expansion of the Soul over the STP, and then the conversion back into energy, and that flows into the stem, which is being pulled into the ring, which becomes more like a tube. This all happens instantaneously and the rose appears on the other side as actually a new rose, though it looks the same. When I first contemplated this it felt like one of those cartoons where the character gets kind of sucked into a point and disappears and then reappears somewhere else. Or like we are sitting on the couch and suddenly our whole being transforms into energy and we go through the ring, disappear and then reappear sitting on the other end of the couch. It all happens so instantaneously that we can't see the process. And soon this will become a reality and not a cartoon.

When Mr. Keshe says we flat-line, I take it to mean that the emotion of the STM, STP, and P become one. This is when our life becomes balanced and he explained it in a beautiful way. When the STM expands over the STP, it cocoons it in itself. At this point the STP can let go and relax it doesn't need to lie, cheat, steal or kill anymore to survive. It feels the comfort of being taken care of by the Soul. All its needs are met, and it can surrender to that safe feeling of the Soul. If we think about it, isn't this what we all have been looking for? Someone to take care of us, so we can relax and enjoy life. But we always look for security in the outer world and build our world around false ideas, false relationships, and ignorance. Now we know to look in the right place, which is within ourselves as our Soul.

A KS made a comment that he realized he never got the wisdom and knowledge about love and how to live life from his parents. He hit the "nail right on the head." We started out life the wrong way and were never given the correct guidance and knowledge of how to live. In a way, just to get this far in life we had to pull ourselves up out of the mud of life on our own. Because all the others are laying in the mud, and they are saying it's wonderful and there is nothing else, so enjoy it.

There are more things I would like to say on this topic, but when I start to think about how to clarify things I realize that everything is interwoven and when we don't have a good basic understanding about life and how Creation takes place, then it won't be understood, or worse misunderstood. As he said today, 'analyze your life and find out where you made the mistakes.' But what if the whole thing was a mistake. What if the foundation was wrong from the very beginning? To be without our Soul is to be isolated and alone and cut off from the Source of our own Creation. When someone asks for help and they have that true desire to learn, then it's good if they first recognize the truth about where they are, and begin at the beginning. Even just to know that we are created out of the M fields of the Creator and are always connected is a huge step in today's world. And

also to know that our Soul is our connection to each other and all of life. As we listen to the teachings the STP or the ego may come in and try to interpret the knowledge in the wrong way. And from that we suffer and get side tracked. This is why Mr. Keshe told the story of how he learned through not being able to eat sugar as a kid, that he was the cause of his own suffering, and not anybody else. There were many little hints today about these things. He warned the Chinese about not stealing the T, as they will punish themselves. And about the isolated tribes in Amazon, that it is difficult to teach someone when they don't have the basic knowledge about life. The Israeli snipers have killed at least 10,000 children and those Souls will have to be answered to, and this will bring about their own destruction. And we should understand that God provides everything for us, it is us who denies ourselves access to it.

Finally, Mr. Keshe ended the workshop with another example from his personal life. When he went through the ordeal of not knowing if his family had been killed or not in the Manchester bombing. From this he gained a clear knowledge within himself that he did not want others to have to feel that same pain and he was willing to sacrifice himself to help in that process. In this story is a key to enlightenment, but each of us have to unlock it by ourselves. Feeling the pain of life and not wanting others to suffer is a deep, deep process that takes over our whole being. It is not a sentimental wish. Great people throughout history have gone through this and have inspired us. It's simple and yet it is not simple, it has different dimensions and depths to it, and somehow we build it up through our life experiences and it bears fruit. We could say we mature to it. It's good to try to ponder what that would feel like. But when it hits you, it's like a flash, and takes you over. There is a lot of hidden knowledge in this workshop that will take some time to uncover.

Other Topics:

He said with one drop into the water of an aquarium he can create a fish. Now that drop is our Soul and the aquarium is the fields of the U;

STP likes to lie and we have to teach it by living by the Ethos of Mitra. If the STP lies to the Soul, instead of ending up with cancer like on Earth, we'll end up as nomads wandering in Space;

There is a way to check in P how close we are to being able to transmute. It's a sign on the structure of the P;

Try plugging the MaGrav into our brain;

He gave a clear explanation about the meaning of the MaGrav - relating it to Think - Speak - Act Good. If we get all 3 then we'll end up at the Creator. Understand the Totality of the work of your own Soul and STP, stay correct in your behavior at all times and then see what happens.

Thanks for listening.

Quick Index

(Today we expand our knowledge and understanding of our cycle of life. How we have joined together in the dimension (D) of Creation without knowing it. We change to different dimensions and characteristics according to our line of connection to the Universe (U)).

(To live and exist anywhere in the U, be it on this planet or in Space, and to manifest ourselves in a combination of tangible and non-tangible existences, but containing continuity of life, we need different connection to energy packs such as Carbon 12 (C12) and a common denominator of Cosmic Rays (CR), which usually work on a back of the C14. Last week we gave some explanations about "common denominators" such as the DC line, which stays on the Hydrogen. The Carbon is overloaded on this common denominator, so, when you come into the matter state life on this planet, you get deviations, or divisions, or isotopes of plasma energy of C, and not matter state energy. This connects you to the source, but it also connects you to the matter state, which is carried by the C).

(In the future, scientists will understand that the common denominator of Hydrogen will connect us to the Creator and the Creation. We can travel on the (overloaded) matter state energy plasma level of the time and place and on the atmospheric condition of C12, and on the gravitational condition of this planet. But if we travel on another planet, in another position, we'll get a conversion of the Carbon. It will be on the energy level, or what we call, as a radiation of C14, (and will convert to the matter state in that position). This means that, in the U, once the line of common denominator is established, then (we can travel on the) overloaded energy fields. These fields are a deviation of the fields of the environment that come through interactions. (?? So the environment dictates how the C14), (or Cosmic Ray) is converted into the matter state at the time place and position. It does it through interaction with the Gravitational Magnetic (GM) fields of that place. This leads to the conditions for the creation of new life in that position).

(It's important for Knowledge Seekers (KS) and the scientists who work in the Space T of the future to understand this. This means, if you want to travel from Earth to another planet, you travel on the common denominator of the Hydrogen, which is overloaded by the Amino Acid (AA) Carbon connection of the man, (and then it converts to the GM fields of that position, and it will allow you to manifest yourself at that time, space and position. Even if you land in a place where there is no Carbon, you can still exist there)).

(When man can go through this conversion, then we'll send him to Space with the AA of the Earth, (and he'll be able to convert) to the time and place and position. So, let's say you have 'Mr. COHN,' and for example in that position the C14 converts by reflection of the Universal strength of C60, to Potassium. Then you actually have 'Mr. COHN' plus Potassium, (??) plasmatic M fields. This will allow you to create a new (kind of) hemoglobin, so you can survive, react, and live in that place and position).

(We know this knowledge and T and we see it on a daily basis, but we never understood it. There are plants that can trap flies and eat or digest them. They go through this process, because once the leaves close on the fly it's not anymore in the atmospheric condition. It's in a plasmatic condition of the two surfaces of the leave which have trapped the insect in it. It's just like when you put food in your mouth and close it. If you put a banana in your mouth and close, it becomes a plasmatic condition. It's not a banana in the matter state anymore).

(Man can learn about the Cosmic & Universal condition, and the Cosmic Ray condition from this plant and how it converts two dimensions in Space, that allows the Soul of the Man (STM), when it returns back to Earth to go back to C12 (matter state) AA. You can see this in the structure of the man and the hemoglobin. We call it the AA, but it's at the strength of the hemoglobin. It's different than AA of a plant, or the AA a stone is made out of. Man has to find out how to create the same AA combination for 'Mr. COHN,' that they can coexist, live within and through each other).

(This means that when we put you in a system with your beautiful dress to go to a wedding from London to New York, and if you happen to be hungry and are carrying an banana in your handbag, we can transfer all of it together with you. We have to transfer the AA of the banana, the AA of the clothes you wear, and the rest of it. If we don't get it right you'll arrive in New York in your 'birthday suit' with no food to eat, because we couldn't transfer the handbag. We did not understand the concept).

(And this is why many of you KS cannot manifest yourself (during the transmutation). Because we never built this into our systems, even though we have known about it for decades. The new systems have these things built into them. So those of you who join us tomorrow could transmute in the D of the energy of the Soul. You can transfer the plasmatic condition of the AA of the contents of your body. If we don't get it right, then the beautiful steak you just had in London, won't be with you when you arrive in New York and you'll be hungry again. It's because the AA of (food) inside is different than the AA of the body).

(The implications and understanding of this science needs to be unraveled and understood. The stomach of the man is the same as that plant which closes its leaves around the fly. How do we convert the AA of different structures into the energies of the body of the man? How do we convert solid state Potassium, Calcium, or Magnesium tablets that you swallowed and just take the energy of it? Our body automatically transmutes the energies inside. But we never understood, and stay with the saying, ignorance is bliss. We have to learn this now that we have entered the science of transmutation and energy transfer, otherwise, the bride could turn up at the wedding from another planet, naked, because you forgot to add the AA of the position and connection, of the time, space and manifestation).

(Like a new born baby learning to walk you have not even started to stand up, let alone taking your first few steps of the Knowledge of the U, which is in itself thousands of steps. This is why those of you who went to the Moon couldn't give yourself a physical

manifestation. It's because you never understood about the AA, even though I taught it to you 4 or 5 years ago. It's there recorded in the KS Workshops with pictures. Now we have brought it into operation in the development of the new technologies. Our KS can now understand what it means and how to implement it).

(The next step is to find the condition of the AA in the gaseous state, which is another problem. Many scientists talk about the game of C60 but haven't understood it. Why do we have this crystal structure? What is its purpose in the U? To understand what C60 is, look at your skin and see where the five-sided pentagon cells are located. That cell, that piece of skin, is part of the structure of the C60, which allows you to be connected into the Universal M fields that are contained in this U).

(In the future, man has to understand how to break out of this crystal structure to be able to travel into another dimension and another U. C60 is very simple, it's 5 times C12. To better understand this, look at the older leather footballs (soccer), and count how many six-sided hexagons you have, and then how many pentagons or five-sided pieces you have. There are usually one or two. Without the pentagons you won't get the spheres. (It's the same with the plasma, without the pentagons it won't hold. This is how the U works. To get to the boundary of this U and travel into another U you have to find that five-sided pentagon to go through. It's the line of connection between the Universes. That pentagon point on the Unicose is common amongst all the Universes. This is the line of connection between Universes. Even the "common denominator" fields that go to the Creator goes through this (pentagon)).

(Those who are still struggling with your MaGravs, try to understand this problem scientifically. We are building up to it. Just because you carry a mobile phone doesn't mean you have to understand how it works or how the translator works that converts all the funny languages you speak on it. The languages get translated into what those on the other side understand. Around 2004 the Belgium's came out with an automatic translator. The King of Belgium (organized them to steal this technology from the inventor). This is a habit of the Belgians. Now the language translator on the mobile phone is commonly used).

(Just because you don't understand a T doesn't mean you can't use it. Those of you who are in the MaGrav and Gans game, try to understand and interact with the C60. Understand how to produce it. Through the C60 you can find the common denominator AA of all the structures of the U and Unicose. If you don't know this, it will become your peril. You will lose everything in the U, because you won't be able to convert. You'll become one of those Souls who are lost in Space, or what we call, a ghost of the U. Because you won't be able to manifest yourself in physicality at any time, and place in Space).

(Those who join us in tomorrow's session will for the first time have access to what I call, the universal AA condition. Which means you'll be able to manifest yourself in P at any given place and time in the U. That is if you can replicate it. We are preparing those who participate in the monthly sessions for full transmutation, (even of the P)).

(In developing these technologies we have to protect you, and make the transmutation fruitful. So we have to bring in all the right conditions. Many of you have the problem of being too attached to physicality and you cannot feel anything. Even your thinking is part of the process of transmutation, but you want so much to be in control, that you don't understand that your thinking is (part of the) transmutation level. (If you do, then you'll be able to manifest P)).

(In the process of developing this T we'll explain everything about the process of Creation. The scientists of the future will be benefited by it. Technologies will be developed that will help man go to the next step. These past decades of teachings have been setting the base and basic knowledge for humanity to understand, and some time in the future mankind will help to (evolve) the Knowledge of the U and it will be of benefit to the citizens of the U).

(Man has to learn how to produce C60, C14, C28, C30, C12, and C in a level of 4. Now you understand. (I spoke about this in the original patents of the KF when I spoke about inert gases, and the game they will play in the creation of ionization, and to create the conditions of Cosmic radiation, and not Cosmic Rays, or Cosmic fields).

(If you understood the Totality of what has been discussed in the past few minutes, then gradually you are moving towards full transmutation. Our scientists have to understand and be able to implement this by creating the conditions for C14 and C60. (The hint of how to produce these lie in understanding the structure of the skin of the man and being able to replicate it). If you get a microscope you can look for on your skin where the perfect five-sided pentagon skin cells are located. This is your point of connection to Universal Energy).

(In the future, scientists will use these pentagons to create the point of transmutation between Universes. Every creature contains this pentagon shaped plasmas in the D of their P or energy. You have to be able to create the 4 dimensions of the AA to be able to live and survive the U. Earth has the states of gas, liquid, and solid, and it has a living condition. Every structure in the U has the same. Man has to understand this knowledge fully before he transmutes. This knowledge is embedded within the Soul of the Man (STM), and not in the DNA of the man. According to the structure of the RNA, through the Universal Knowledge, creates those little five-sided (pentagons) on your skin. It looks the same as those black and white footballs. On a football you only need a couple of the (pentagons), whereas on the skin of the man, because the curvature and the field forces to be sustained, you need many of them).

(Now you understand, how much more you need to understand. And how close we are bringing you to be able to do a full transmutation. In the next few weeks, I will ask you to submit a picture Live online. It could be your uncle, the President of a nation, a dog, or a cat. In your presence, we'll manifest that entity at the time and place which you agree. For example, if you haven't seen your mother for 20 years because she lives in Australia and you live the US, with her picture (we can transmute her to you). If it looks like magic to

you, then try to understand the science of it. (When the image (of the picture) is created, the energies of the D of the connection are also created. We don't need anymore than that to do it).

(This how I was able to say to you many years ago, that I can bring the Christ for you to see. We don't even need the image. Just by the thought and understanding of the history books of the man will be enough to give us that connection. It will come through the emotion and intention. As everyone has their own (unique field) strength. There is so much more to learn about Creation. You KS are just like a flock of ducks that I am trying to herd into the hole of the "Knowledge of Creation" and you are trying to escape. There's only one hole to go through and that's the "hole" of the Knowledge of Creation. We cannot force feed you to learn, you have to do it on your own by elevating your Soul and understanding the knowledge).

(For completion of the science of transmutation, you as KS have to understand the whole process of Creation. But you don't need a lifetime to learn it, you can access it within seconds, if you understand and apply it. This is called, 'enlightenment,' and I call it the Knowledge of the U. And it will become available to you. You don't need to bang your head on the floor 17 times a day, or bang your head against the Great Wall in Jerusalem. All it needs is clarity of Soul, and clarity of understanding the Knowledge of Creation. No one can give it to you, or give it to you in the name of a Prophet, Ayatollahs, or the rest of it. You have to understand it yourself and enlighten yourself to the energy fields of the U by yourself, and learn how to use them).

(You do not need to go through the "pain channel," because that won't bring you anywhere. You have to go through the "pleasure channel," and the pleasure is through giving and loving (others), which will open the other doors of the knowledge to you. This is why I keep on telling you to 'teach the technology,' because as you teach, you'll 'empty your cup' and it will get filled again with new knowledge, and that will take you one step further. However, the minute you start abusing it, you'll go back to the beginning again. You may think that you have understood a lot, but in fact you are only galloping in a 'puddle of dirt' you created for yourself, through the arrogance of thinking you understood some knowledge, but actually you didn't understand it).

(You have to understand the structure of Creation and existence. You have to understand how and what things are applied, and to who and where they are applied. How do you convert a plasma into matter state? And then how do you convert that matter back into plasma. It's not done by salt, vinegar, and sugar. It comes by understanding the science of Creation. More or less, in past ten years I have taught you the full knowledge. It's for you to go (back) and pick it up and apply it. Try to reproduce it. All these plasma systems and MaGrav systems have blocked you from understanding the Totality of Creation).

(When you produce a gas within dimension, what is it for? What does it create? Where to does it connect me? Do I need it and how do I (use it)? When you create the AA, what you are connected to? In the AA or COHN what do you do if you go to a planet that doesn't have Nitrogen (N). Instead they have Potassium. (Can you change the Potassium

for the N and still keep the AA?) The Hydrogen and Carbon will keep you connected to the U in the D energy of conversion. Nitrogen becomes Potassium. You might look a little bit green from it. (On Earth the N causes us to have a brownish color skin). If you go to where you have Plutonium and Uranium then you'll little bit more silver-ish. In the future you can learn to be expert at seeing which colors are in the skin, then you can tell if someone has a fingerprint of another U. (In a way, if you can find the field strength combination of that five-sided pentagon cell, then it acts like a peeping hole into the condition of existence. If you understand and can achieve the combination of this process, then you can easily create plasma in the Universal condition. And if you don't, then you're still playing with the child's toys like the MaGravs).

(To extend your knowledge you have to sit down and analyze what you have missed. In tomorrow's session many of you will go through new experiences and experience new dimensions. Some of you might go into transmutation and see yourself, and physically touch yourself, but you don't know where you are. Then you have to analyze it. You have to find out how you take the situation back. We will be sitting in the background, creating the environment. You are the 'dancers,' while we create the dance floor. One of you might like to dance Greek, another Arabic, or another to go to a disco in New York to shake and shiver).

(It's important for you to understand how to transmute yourself and not for us to force feed you to create something. It's important for you to understand how to create the Carbon connection with the strength of the fields of the time, place, and position. By understanding this, you'll understand why, as the man moved around this planet he changed his appearance in different environments. It's because the conversion of C14 in connection with the time and place has a different field strength, and the combination of the two creates a new D for the AA isotope structure. And this gives you different characteristics like narrow eyes, darker skin, lighter eyes, and everything else).

(This is scientifically how man mutated into so many races, colors, and everything else. When a black man moved from East Africa on a boat and ended up in Australia his features changed. When the black man went walking up the rivers and after centuries ended up in Europe, he became blonde and blue eyed. (The changes come from the interaction of the C14 of the body, the containment of the C60, and the communication line of the physical condition of the C12 of the physical body, together interacted with the same as what the planet Earth has). The C14 is connected to his Solar System, C12 is the matter state condition of his existence, and C60 is the containment of the time, place, and position of the Solar System, planet, and the man himself).

(Now you understand how you mutated when you left Africa. And now you understand when I tell you, that when you transmute from Africa as an African, you will end up in Finland with white skin, blonde haired, and blue eyed. This is how it is to travel with the Soul. But when you travel in the D of P you arrive looking the same as when you left, because you didn't move the Soul. I wonder in the future, when man will test this and send part of the energy of himself by the physical condition of an aircraft to Finland, and

then send the other parts through the Soul. And when he arrives who will he be? Then, your problem is, how do you fit one into the other?)

(How will our "beautiful people" (Schizophrenic) look when they transmute? Will one be black, and another white? Because when the Soul interacts with its environment and manifests P, it has to satisfy both emotions of the Souls. Now you understand how sweet the life for man will become. With so much knowledge to explore the man will forget about wars and conflicts and play the game of being a better magician).

(The change is here and you have no choice, in one way or another there is a force behind which pushes you to go through that "hole" for the ducks. You might try to go one by one through the hole and get caught on the other side by the neck. Or if you totally understand that the world does not exist, then as you travel through the Soul and no one will be able to catch you on the other side. Then you understand how some of you can walk through the walls. You do it by transferring the energy, and not in the physical dimension, where you get bruised, a banged head, or a broken arm as you try to go through a matter state wall that does not allow. As you become experts, you'll be able to walk through any walls, any mountains, or anything you like. (This is like the stories of Qigong Masters we have read about)).

(From tomorrow onwards you will test this knowledge. Tomorrow is the first phase of it. Gradually, many of you should be able to transmute. Transmutation on this Earth is very simple, because you depart as a man, and arrive as a man, or maybe as a dog. If you play with the energy a little bit along the way you might end up with the AA of a dog, but at the same time ?? you will still be able to talk and tell people who you are).

(The problem will come when we transmute the first couple to the Moon, where we have to go through the dimensions of C14 and C60. (In transmutation it's the Universal line of connection). On Earth, you're all within the grasp of the GM fields of the womb of the village of Earth. But outside this planet, you are not. (?? This is why we separated transmutation for those who transfer across. I explained this to you in the last couple of teachings, where inside the plasma of the Earth, we are all 'flat-liners.' When I put you outside, you are two (separate) 'flat-liners.' One flat-line is of the plasma of the Earth, and (the other is) the plasma line of the Solar System. When these two interact they create a new sinusoidal shape of the fields, let's say. Then we have to understand how that interacts with the plasma flat-line of the Moon. (?? So we get you to arrive in one piece)).

(Many of you will be able to create, manipulate, structure, and hold onto the fields you want, and to make the fields you need to make what you want. It will become a game that will start for many of you in the coming time. And don't say it's something that happened accidentally. You did it purposely, because you made effort to do it. This is what will bring you to understand the Totality, the structure, the possibilities, and how you have to behave. It will bring you to a new behavior and a place of understanding how to handle two things at the same time. This is important to learn. And it's important for us to understand what the consequences of our actions in the Soul dimension and in matter conditions are. To understand the state of the P of the man).

(In the coming days and weeks we'll expand this knowledge, as our Knowledge Seekers understand more and develop systems and technologies for it. You have to understand how to merge the knowledge of P with the knowledge of plasma energy, and how to separate them, and how the D of P has to go into the D of 'flat-lining' and how you carry that information within this plasma line. To what extent will we go through and understand this? And how fast can you transfer this knowledge to the others?)

(As I said many times, I'll bring you a drop of water that when it falls into another water, will create a fish. In fact, that drop is your Soul, and the other water are the plasma fields of the U. What kind of fish (will you) come out as, in the new environment? Would you be a shark or goldfish, or an octopus or a whale? It's for you to understand how to bring the mythical conditions together to make it a reality, not us. There is no blueprint or fixed conditions for this. Every Soul is unique. And every condition of time, place, and position is unique. You are the one who decides (what it will be). You are the one, who through the dimension of your Soul and STP, will create that (new) physicality).

(You have to live by the 'Ethos of Mitra,' as your Soul and STP cannot lie to each other, because if they do, you'll end up with a cancer. And the 'cancer' this time, is you as a nomad wandering alone through the U. This is how the 'Ethos of the U' works. Because, as a Soul level, connected to the Soul of the Creator (STC), "thy shall not lie." The STP (likes to play "I shall lie." You have to teach it how to play 'God's game,' and not the man's game)).

(Now you can understand for yourself how you have to process this and proceed, and how you have to come to the point of interaction of the fields of the STM. I sincerely hope that I opened a door into your life. There is a way you can check the P to see how close you are in the STM & STP to be ready for transmutation. There is a sign that can be seen in the structure of the P. It doesn't matter how close you feel you are, you still cannot take the 'cake out of the oven' if it's not ready. Even though it looks cooked on the outside, it might still be raw inside).

(I gave you the MaGrav systems, use it to create a condition to understand. Next time try plugging your MaGrav into your brain instead of plugging it into the wall, and see if you get more out of it. Connect to the fields, and don't plug into the fields. They were made with specific numbers of turns and coils, which lead to certain interactions. The MaGrav connects you more or less, to all the field spectrums of the U. But you don't have the knowledge and cannot understand it. You are still worrying about if it's a right or left turn. It's one human, and so many hundreds of turns, fields, left, right, up, down, and every other thing, and the central field force of the U).

(Through the MaGrav, you can enter by transmutation into the realms and dimensions of the U. That is, if your Soul and STP don't lie to each other. You may say, you want to transmute, but really you want to save on your electricity bill as well. Then stick to your electricity bill and remain a citizen of this planet. You cannot lie about it. But if you want to go beyond, then look at the structure and the rings of the MaGrav as the 'Three Kings.'

One is inside the other, and at each level is capable to be correct. Then find out how you have sat on the 'Three Kings' that the Jews celebrate .. ??).

(Maybe you understand that if you Think Good, you'll connect to the bottom level. Or is it the top level? If you Talk Good, will it connect the top and bottom together? And if you Act Good, then your physicality will be a manifestation of your position. If you think good and talk good, but act wrong, then you'll go nowhere. Because you cannot cheat between the two, they are aware of the truth within you. You have to accept the responsibility of the three in a correct way, to hit the jackpot. And then you have to get all the strength in every turn correct, the emotion of sadness, joy, and all the others. If you get every turn of every coil of every level right, then you will reach the field strength of the Creator).

(I don't think I could have explained the purpose of the MaGravs in a much more clearer way than this. This is your place to test (yourself), don't plug it into the wall. Understand how it works in conjunction with the work of your own life. How many of you have made the MaGravs and laced it with the energy of yourself? Or do you put the AA of Gans's and all kinds of things in the center of the ball. One day, mankind will laugh at what you KS did with your MaGravs. They'll say he could have told them from the beginning what it was about. But the problem is when you don't try, then you don't learn about it and understand it. Now you are trying and you have no choice but to understand it).

(Understand the Totality of the work of your own Soul, and the STP. Stay correct in (your behavior) at all times, and with all lines, and then you'll see (what happens). Never steal, always ask first. Never think it's your right to take. If you've been around me, then you have seen that I always ask. It doesn't matter what it is. Because when it's given, then it carries that Soul for elevation. Now you understand the Totality. Now you understand the game being played by you, your Soul, and the STP, at the same time, place and position).

(I hope I opened your eyes today in what is about to come, and what you need to do to be (part of it), and how you can connect with each other. Tomorrow, when you join us, if you have a MaGrav system, leave it in the room next door. Make sure you don't have the MaGrav in the same room with you during the session. In the next sessions, I'll show you how to use the MaGrav, and your Soul will teach you what you have been doing wrong. Don't bring the MaGrav with you in the session tomorrow. Make sure you are nowhere near a MaGrav system. Because, you will experience a new cycle of life. And (when you transmute somewhere, don't say you imagined it. Because now you have the capability of the physical manifestation of yourself in the D of energy. Let's see how many of you will enjoy the trip tomorrow. I wonder how many of you will go through the barrier of the transmutation and transfer).

(We have joined together all the past teachings of the Soul teaching, Cosmic Rays, MaGrav systems, and everything else. It has all come in the same pot to cook, and make

the soup ready to eat. It all depends on what fire you put under it. And in a way, it doesn't need a fire. It just needs the essence of understanding).

End of Quick Index Part 1 - 525 KSW

(Last week the KF announced the new research groups for Arizona, Iran, and China. Then we had one of our dearest Knowledge Seekers putting up a note saying that, 'this is a slavery, we have to pay for our research and then the intellectual rights don't belong to us, it belongs to the KF,' and the rest of it. I also made a note in response. If we do such a thing (it's for the betterment of humanity). I spend all the assets possible and do all the research, and at the end of it, everything I do goes to the Foundation and thus to humanity. In a way, I'm detached from the financial side, I'm detached from my own life which I put everything into it, and I am detached from the knowledge gained, because it all goes to the Foundation. We live by what we do. We are not asking you to do anything that we don't do. On the other hand, when you become a researcher it allows you to (apply the teachings and gain new understanding of the Plasma Science. If at the end of your commitment you decide to continue with the KF research you will most probably get employed by the KF and the 25,000 per year that you paid, will become a paid salary of 100,000 to 200,000 a year by the KF, if money was your target).

(However, a lot of KS who came to the Cinzano in Italy and (other places) don't realize that the small tuition you paid was not able to cover all the expenses. The KF ended up paying a lot of money just to keep the KS there. The rent and the maintenance all has to be paid by someone. In Italy just keeping the premises was 30,000 a month, not including all the other supporting expenses. So your tuition could not cover the running expenses of the research. Everything in the society costs money. When you go to the supermarket to buy food you have to pay for it and then bring it home and cook it. It's the same for the KF, but this time you cook for humanity. So those of you who think you're paying a lot, you have to understand that you have paid almost nothing compared to what the expenses will be).

(In a way, what I taught today in the first part shows that we haven't even started the process of the knowledge yet. We have just been playing with the 'blocks of Lego's.' We don't yet know how to put them together and how they will look in the end. This is why the research is needed and has to be done. The Chinese government pays from their side, and the KF will bring 200 scientists of its own and we have to pay for it ourselves. Part of the payment comes through you as KS, and we pay the other part of it. We have put out a hand of collaboration to the other governments, and we are waiting for their response. We'll see how they respond and what is to come next, and how we will shape it. Those of you who want to be part of this research, please complete the process so we are ready by September).

(In the KF process of developing material through new technologies, we'll be offering you new systems to do trials with. By using the knowledge, we can extend it to the other side of Space Development. Please understand, I cannot do more than what (I am doing now. I give everything to the KF and normally people retire at 65 years old, and put their

legs up and become a pensioner and wait for the coffin to arrive. But in my case, I have just started a new cycle of teaching, developing, and spreading the knowledge. I now have another cycle of 65 years to complete for you lot, before I can become a pensioner).

(So, a new cycle of life, new teachings, and new sharing of the knowledge has started for me. I hope you understand this, that I haven't put my feet up and said, that's it, I'm done. I've just started a new nursery of knowledge, and I still go to class one. And I hope you as KS do the same way, because age does not count as time is non-existent. If there are any questions we'll answer them. Otherwise we are not slave drivers and we don't take anybody to be a slave).

Q: Do we have to convert ourselves into the shape of a dodecahedron in order to transmute?

K- (In the matter state, no. But in a way, when you become a plasma of yourself, yes. But on the other hand, let's go back to Book 2, at both ends you are a plasma, in a spherical shape. In between (the two ends) you are a ray, even though it's the same plasma. (You decide where you want to transmute to in that shape, on the end or in the middle. The middle is not impossible, but it will take longer and your losses are bigger. Stretching the football gives you a lot of advantages. (In a sphere and with the rays, the higher order M fields go to the outer edge, and the lower order goes to the center. A plasma (in this state is like in a vacuum. The stronger fields, which are the weakest sit within the center. This is how it works).

(The work of Cosmic Rays is very much like a vacuum, or centrifugal system where the stronger fields, the heavier material goes to the outer boundary, and the lighter one, which is the line of the 'common denominator,' goes to the center. For that you need to be able to travel in a spherical shape, and then into cylindrical, and then back into a spherical again. Even the cylindrical shape is so narrow, that it is not really cylindrical, it's more like a ring, than a field. Because you are traveling on the line of the common denominator that is so narrow).

(He gave the analogy of what it feels like to transmute. It's like passing through a cylinder and the example is that of pulling a rose, stem first through a ring. The stem is the center line and that's the Hydrogen. All the leaves and the flowers that have to go through the ring are like your life of P, emotions, and everything else. (But somehow you fit it all through the ring), which makes the ring into a tube, and then the flower comes out of the tube at the other end. This is (how you will feel during) transmutation. You are a beautiful rose and the stem is the connection line to the Creator. It's like you are in a tunnel being pulled by the stem, and then you come out on the other side, and we say you are the same rose. In the 'tunnel' you have gone through the transmutation of time and space in the U. If you miscalculate about the ring and the size of the tube, then you'll come out a slightly different rose, shivery, shuddery, on the other end. If you get everything right, then you'll come out the same spinning rose as you were at departure. The shades of color might look slightly different (because of all the field interactions)).

(You don't need to become anything, because you are already all of it. Book 1 is on the end before you get into the tube, Book 2 is the tube, and then you end up on the other side with the rest of the roses as part of the Universal Community. I hope I explained that to you simple enough that you can understand it).

Q: You spoke about Cyrus the Great (Kourosh) in the last couple of workshops and how he is an example of how men should treat women, and that if a woman becomes an abuser, she has the right to leave. My question is, how should women be treating men in partnership?

K- (In the time of Kourosh and Darius, they had a month called something like, the 'month of lovers,' and there was a day called the 'day of lovers.' When the month and the day became the same, the men did everything on that day for their wives. This is a 2,500 year old tradition in Iran. The men worship their women, they buy presents for them, and everything else for them on that day. It was for women so it meant their mothers, wives, daughters, (and whatever female relationships). It's a point of respect, maybe it's a little similar to Valentine's Day of today).

(He talks more about how women are treated in the Koran and also that Valentine's Day in the West is not very balanced and is (commercialized) for men to go and buy roses. If they don't they get into trouble. And why is it one sided, why don't the women buy roses for the men? Why can't the love go both ways and all times and not just on Valentines Days?)

(We've forgotten how to love, because we've forgotten how to love the Creator, and now we (all got entangled with (the Illusion). It's a long, long path for man to understand the truth about the Creation).

(I'll be with you Live for some time in tomorrow's session and then I'll leave. We will monitor and change things in the background. We might let the system run for 30 hours until the Zoom time lapses or maybe longer, maybe you can come and go for the whole weekend. It's a new system. Make your comments in the Chat, but be precise so we can understand it. We'll control everything in the background through our systems, like how, when, and the way you receive. We change parameters frequently and observe how you react. Mainly we look at the first 3 to 5 minutes. After we close the session you can continue to stay, or come and go in the room like before. Please make sure nobody touches your system when you're away from it. Don't give it to somebody else to come in and test, you will understand the reasons. Follow the 'true vow of silence' and keep quiet, don't cough, jump around, or do all sorts of things. Otherwise, it interferes with our tests).

(We have been working on this system for months and years that we will introduce tomorrow. We would like to see how it behaves. It's the first steps in the plasma transmutation and it's crucial. Some of you might go through transmutation tomorrow, or go through conversion for the first time. Tell us what happens. We'll keep you connected to our system continuously, so we won't lose you in Space. We'll see where we go. It's the

first time we have put you on the 'Boat of Noah,' but it depends how far you go and where you land).

Q: You have taught us about the Soul and physical transmutation, but does emotional transmutation exist?

K- (You take your emotions with you, you don't have a choice. The consciousness).

(When the Soul or the central energy expands beyond the P, the P doesn't (need to manifest P, because it's cuddled or cocooned in the Soul. It's in a comfort zone of fields where it doesn't have to do anything. It doesn't need to steal or lie to survive. It feels comfortable being inside the Soul and doesn't need to do wrong things and the rest of it. If the panic state that we showed you on the graphs before, where the STP and P start jumping around, doesn't occur, then we get a nice straight line on the graph. This means the STM, STP, and P are connected with each other and have the same emotion. Their line of emotion becomes one).

(If the STP doesn't lie, then it can ask the Soul to take it to see the grandmother. This is the job of the Soul, and it knows where she is and can go there. (In other words, you sincerely do want to go see the grandmother, there is no hidden lies in the communication)).

(Mr. Keshe talks about going to see a grandfather he never met and only had a picture of. He was able to make a line of connection through his emotion of wanting to see him. Also he cannot intrude on his grandfather. He might elevate his Soul to be able to know of his grandchildren).

(This requires a kind of detachment from physicality, because we understand that the Soul is in the perfect hands of the Creator. And this is where the emotion comes in. There (can be) no lie between the two. It can't be "yes, I don't, but no I do." And how sincere are you? They cannot lie to each other. STP, once embraced by the STM, has no need to lie. (?? It has the emotion of pure love. And to see the Soul to be...)).

(The STP feels safe and secure within the STM and all its needs are met so it doesn't have to kill to survive. It's that feeling of being totally taken care of, and that you are safe at home). (In this feeling the emotion of the STM and STP become one. And once it becomes one, you will reach the level of the connection to the Creator, because then there is no dimension. One day I'll teach this, and one day you'll understand. At the moment, it's far too soon. (Then you have to learn how to judge and understand the emotion of the Souls as one)).

Q: While listening to Mr. Keshe's wisdom, it occurred to me that this is something that I never experienced as a kid from my parents. (I generally never received knowledge about life and love). That's why I am super grateful to experience it now. Will you show transmutation in China? Would that mean we'll be able to change physically (into a) different person and can we fix any physical defects that we were born with?

K- (We are testing transmutation and it is part of our work in Sanya. But the full transmutation will be done in Isfahan, Iran and confirmation and follow-up of it will be done in Washington, or Arizona, depending on how we come to an agreement with the American government. The Chinese community is putting a lot of pressure on KF to show something in Sanya. They are saying that you have to tell Chinese what you're going to show, and then they'll come to see. I said, 'this is not a magic show, or the Chicago Fair when Edison and Tesla came to show the light bulb.' By definition of the technology, we'll show a number of technologies. Transmutation could be possibility or ?? partial production of other things. We are there for defense technology with the Chinese government as part of the structure. Part of the agreement ?? we signed with the Chinese government was for space development. Therefore, we are inviting the Chinese military and space people to join us. Then, we have extended the invitation to American scientists to join us. The same invitation will go to a couple of other nations. We are not a conference to do a magic show in Sanya. We are there to bring and show technologies).

(Since last May we have been shipping part of this technology to the Chinese, and we have shown part of this T to the Chinese military and officials. We have done a few tests to confirm a lot of things. (It depends on you what we can show). If we show magic, then we'll have one billion people sitting there, and we don't need that).

(You're coming there to understand the knowledge. But you have to understand a lot of KS in China come to steal the technology. They are well known for it. (Very recently they stole one of our technologies and put it on the Chinese media. Prior to our meeting with officials where we demonstrated the T, this technology was not available in China. Then within 3 or 4 weeks they copied it and put it as a Chinese invention. We'll punish the Chinese heavily for this. You will understand very soon. The T we showed to the Chinese Military, within weeks was made into a Chinese invention. We will punish, in a scientific way, the Chinese for this misconduct. They will understand soon how much they have lost because of this behavior. And they had the audacity to send us a copy of the video).

(As usual, I have patience, but the Chinese government will pay heavily for doing this, and we have informed them of it. Come to the conference to learn about the new technology, and not to steal, otherwise your nation will pay heavily for doing this. You will lose one part of the T which could bring a huge payment for your 'industrial revolution.' In a way, you lose exclusivity and you'll have to deal with the other governments who will come out and study. So, expect to see beautiful technologies in China, but don't come to steal technologies).

Q: Would mass transmutation induce nuclear decay? Could the addition of energy cause an imbalance to the planet and cause it to split?

K- (We have a beautiful saying in Farsi, what is the ant to make a soup with his legs? Basically, the energy of the human is so small that doesn't make any difference in the whole structure of the plasma field of this planet, or this Solar System. But to us it's

important because it's our Soul. As the old song says, we are just another brick in the wall. And this is like the Great Wall of China, think of how many bricks you need to make that wall).

Q: Why upon transmutation re-entry, it felt like the body is ... like loading some data, as the awareness returns to the physicality? Thank you for explaining my experience scientifically.

K- It's that 'cry of the birth' we have. (We cry at the point of the physical birth from the womb of the mother. We are aware of life when we are within the womb. When we come out of the birth tunnel, then we learn a new life, instantaneously. Part of the information data to make the conversion is in our genes. Our Soul does the same when we go through transmutation. It's not downloading something, rather it's balancing the physicality so that it can support the information, or the travel you had through the energy level).

(More and more of you will experience this. I've spoken about this cry I have heard from you when you come back through transmutation. It's the sound of, "Ahh." You cried when you came out of your mother's womb to 'click on' the systems. You do the same with transmutation, P confirms that it has returned. It's like shifting down to lower voltage. Or like on a highway when you are going 100 and suddenly have to reduce the speed to 30. You are balancing to a new condition, it's not downloading).

(It's nice to hear a KS explain this, because this is exactly what happens. The more you learn to do these transmutations, the more you learn the 'art of enlightenment.' (What I think Mr. Keshe is saying is that, sometimes he experiences events or things through the Soul, and only later on, after certain things happen, that he realizes why he went through that. It was in preparation for some changes to happen. For example, he was in the Vatican and the Pope was folding his hat and robe and putting it on the table and saying, my job is done. ?? Then something about, you can take the stones back to Coliseum. I brought the cycle to an end, as I promised, and (I will be the last Pope). It was very interesting how sincere the man who was the Pope, was. The emotion was there. We saw the frock come off and he became an ordinary man and walked away. His emotion was, "it's for the rest to understand, the time has come." In time I'll explain these things. Then when you come back to the dimension of physicality, who he is, or now what I have to set up for this to complete. What is left to be done. The Soul has taken the track. Now physical life has to bring the dimension).

Q: Music often moves me. If fields and plasma bring balance to the human body, can they also be conveyed with sound, in particular with music, which already in itself conveys emotions and the beauty of the Creator?

K- In a way, yes. (But you can listen to a piece of music 100 times over and it is just noise. Or you can listen to something just one time, and the strength of the emotion and fields of that music can bring you a new dimension. It has a meaning and touches your Soul. (?? The truth is you just happened to be at the same strength as the music). Because that sound is made by matter state, by the strings, or by somebody using the voice of the

man. That field strength matches you, and you feel it, and it touches you, and then it has a meaning. So, yes it does. It touches the field strength of your emotion).

(It happens to all of us that some sounds brings back certain emotions, certain reflections of our life. Because sound in music, covers many field spectrums and one of them just needs to match it. It's like a virus. If it's at the strength of the cell, then it attaches to it. Music is a sound and it attaches to the emotion which fields match it. Then it might raise the hair on your skin or tears and the rest of it. These are signs, or by-product of that emotion. We all have it, but it's how we sense it).

(He told again about how he gets this experience of feeling the German soldiers matching when he hears the sound of the hooves of horses walking together. He has felt this in Vienna, Belgium and in Nuremberg. These things are connected to our Soul and emotion, but we have to find out where it's connected to and why).

R: Can you explain more about what you mean by Cosmic radiation, and how it's different from Cosmic Rays or fields?

K- (Fields are a collection of rays. And fields and rays have a structure of strength. Rays travel in one direction, and as one ray, and as one strength. Radiation on the other hand is created out of interactions. This is very clear in the world of Creation. For example, if you consider the Earth, or the Solar System, or the Galaxy, as like a field and then C14 as a ray. Then a ray of the C14 when it interacts with the fields of the Solar System, will create a friction we call Cosmic radiation).

(It's an art to create and detect Cosmic radiation. It needs a lot of visualization of how you can create that condition. We usually use mono-energetic radiation, which is very much like a laser with a smaller bandwidth of strength. The ray has a slightly bigger field, it's a volume of it. We can produce Cosmic radiation at will. The body of man does the same and we know the process. We can also create a field at will. The knowledge of our KS has reached the point that we can create all three simultaneously. In advanced Space Technology we have reached creation of the fields, which is a massive step in science and technology and will be shown in Sanya, for sure).

Q: In the Bible it says that death we'll be coming out of the graves. What exactly does this mean and how do we interpret and understand that?

K- Who wrote it? Who wrote the Bible? What it meant in the Bible? And whose Bible? And what was the purpose of putting it there? I'm not a believer in what you call, 'what is written in the Holy Books,' because it's all written to fit. (It depends how you decipher it, and maybe only a small part of it is true. When you analyze history from many different sources then you can put together a more accurate picture of what really happened. A single account of history is not history, because man puts together things to fit his own ideas or purpose. Christianity is one of them, where they put together a lot of things to fit (a certain idea). Literally nothing is real in the Torah. They collected many different

stories from (different previous cultures) and made it their own. It's more a collection of 'grandma's chats,' which some of them made it into the Torah).

(There's a big question mark about the real structure of the Torah and if it was true. There was a guy called Moses, he did certain things, but the rest of the book is just made up from other stories. Because there is no historical background to it. It's all a bunch of what I call, lies, or lies in the way of stories of that time being changed into. They fit the stories together to make somebody look good. It's the same with all the religions).

(In English they have something called, "the last bell." In the olden days they couldn't tell for sure if someone was dead before they buried him and over time when they dug up the graves they saw scratches inside the coffin of the person trying to get out. So when they buried someone they attached a bell to the coffin so if the person woke up they could ring the bell and be dug out. Someone sat on top of the grave for a few days in case the person woke up).

(What happens if they bury a guy but there is no bell attached? The Soul still has to come out and leave the body behind. What would be the meaning? Or does it have another meaning? ?? when they wrote the "last bell" were they trying to tell us something? Cyrus ordered the Jews to write their history, but those guys had never been to Palestine. So you figure it out, what is true). (To find out about Christ you have to read the historical books written at the time).

(Kourosh got the Jews to write the stories celebrating their god Jehovah. But at the same time they ended praising Cyrus a lot in the book. So you could say it was a self-praise book about Kourosh, even though a lot of it was done with goodwill. Before Kourosh the Torah did not exist in any shape or form. The people haven't changed. They are still massacring Palestinians 4 thousand years later the same as Moses. This is what we see in Gaza in the past decades and centuries).

(What's happening today in Gaza will bring the end to the state of Israel, and they'll do it by themselves by their own misconduct. Like with Moses, they became the Bedouin's and had to live in the desert. Now, Netanyahu is doing exactly the same thing. They'll become nomads again, but they'll do it by themselves. You will see it in coming time. I advised the Iranian government how to take a step to do it faster, and they're sitting and watching. They've been trying to destroy Palestine, and through it they will destroy themselves. We'll see the end of Judaism as it has come to it's full cycle, and it's the time).

(When your snipers kill 10,000 children, those Souls have to be answered to and for the suffering the Souls of the mother and father. Excuses do not give you a reason to do such things. Nobody could have done it better than Netanyahu. You will see the end of Judaism from this, because a lot of Jews will walk away from Judaism. And more and more nations will turn their back on them).

Q: A KS said it was widely reported on the Internet media of China that the National University of Defense Technology of China has invented a cutting edge technology,

which they call a 'plasma shield.' It looks like a T that only exists in science fiction movies. Is this the reason that Mr. Keshe just said that China will be punished scientifically?

K- (The punishment is not the way you think. Punishment means, that we will share the knowledge (with other nations). We have openly shown this T to them and they think they can just copy it and do what they want, instead of following what we agreed upon with them. So, it's not balanced nor is it correct conduct. These technologies never existed before we showed them to the Chinese Military. How come suddenly they appear out of nowhere?)

(There is a need for correct conduct. The T is there and it has to come out, but it is not there to be stolen to come out. And stolen means doing it without our knowledge, and without us being there to confirm the technology for the all public to know about and accept. This is a habit of Chinese, because for them it has to be made by Chinese. What is taken, hidden, or what we call stolen, comes with no blessing. This habit has to go out of this nation. The pride of nationalism has blinded the man to the lies of action. And the Chinese will have to face this. They gotten away with it a lot in the past).

(Prior to Corona, by chance Mr. Keshe was invited to a top military show where they exhibit scientific discoveries in China. For some reason, they made him stand at the entrance and would not let him inside. Therefore, he couldn't see what they were showing. They didn't expect him to show up there. Later on he found out they were showing advanced T they had stolen from KF. While there he met some Americans and they arranged a meeting later).

(This habit of China has to stop. It will only stop when they find out that they are not the only ones with the T. And that's their punishment. (We'll share it with others). They've done it with KF agriculture, the Cup of Life in Corona, Space Technology, and also the Gas production. They have done it again and again. And then when we catch them, they made up a story that I am a spy. They accused me of spying for the Americans. I said to them, now you have to play the game straight).

(They don't understand the essence of what we showed them. They are like a dog with only 3 legs, one leg is missing. We have established a system that the Americans, Iranians, South Africans, and the French will face China in a bigger way, on equal terms, and this will be good (for the T). China is facing a massive internal financial position, so they are doing these things to try to recover).

(But I keep very quiet because we work very close with these people. The KS who went against the Ethos and helped the Chinese Military with the Cup of Life Gans became millionaires and they are listening. But look at their life. What's going to happen to their children in Canada and the US and their family. Observe how they are running into problems everywhere. Their Soul has to balance the books. If they haven't understood by now, soon they will understand. We have no problem. I don't take them to court. We brought the knowledge to be shared. But when you steal and abuse you'll have to learn

your lesson. Pretending that you are correct, when underneath you know you have stolen, is like committing adultery. In time it will all set itself right. We wish them all the best. But they'll find out what they stole in plasma, was only crumbs, and they lost the cake).

Q: In Koran every chapter begins with, "in the name of God who is enormously giving and enormously forgiving." So, maybe the idea of punishment, is again out of kindness and love.

K- (We call it a punishment. But in a way, the punishment comes from not receiving. It's not punishing the way you commonly say in language (where you hurt someone). For some, not receiving the love given to them is more punishable than receiving the love, and not knowing what to do with it).

(?? 'Balancing the books' by the Souls means it is through your behavior, you live without doing anything wrong. You do everything correct. (The STP perceives it as a punishment). When we talk about punishing the Chinese, the punishment to me is not doing damage to them, it is actually sharing the knowledge with more people. Then what they thought they would have exclusively, becomes of no value).

(Generally speaking, it's the same in the Koran where it says, in the name of mercy and merciful God. But sometimes when people receive too much, and they forget what they received. It's like your favorite food is being served on the table, but you can't eat it because you have a food infection. (You suffer because you can't have what you want)).

(Mr. Keshe tells a personal story of experiencing this very painful feeling when he was a young boy. He said, as a boy he used to consume a lot of sugar and was highly hyperactive and they couldn't stop him. He played every (?? video) game from 5 AM to midnight. And then he got injured in football but hid it from his parents. It was infected and somehow the parents found out about it. The doctor said the leg might have to be amputated. He said for 3 months he couldn't eat sugar to bring down the sugar levels. This was the time of Noruz in Iran and they serve sweets everywhere, but he couldn't have any. In that experience he fully understood what it means to be punished by not having what you want. It's a self-punishment that comes from not looking after yourself properly).

(This how the Creator works, He provides everything, but it's us who deny ourselves access to it, even though it's there. This is what I mean by punishment. We're not going to hit you. We'll make it so much available that you won't be able to touch it, and that's your pain. (And hopefully you'll understand your misconduct and change your behavior)).

Q: (If those people who do very bad things become a dust in the U, how does God educate them? Do they go through evolution over millions of years, and then become human or an animal again? ..)

K- It is process of education. (The problem is it's very hard to teach someone when they don't have the education). (He gave an example of tribes existing in the Amazon that

have had no contact with the modern world and they use drones to observe them. They throw stones or if they have developed arrows they use them against the drones. They don't have the knowledge).

(Man does not have the knowledge and this is his problem. The knowledge is there, but he is behaving like the tribe in Amazon, he doesn't understand who is above watching him, and in this case wants to help him).

(The Chinese have this problem of stealing T, but we don't stop collaboration. We could have stopped the Sanya conference. No, we'll show more for them to learn to be correct and one day they will learn and then they'll get the full knowledge. This is the beauty of it).

Q: (In your Soul teachings we are learning to gain confidence and get out of the confusion of the religions, and then we can even understand the religions in a correct way).

K- (Happiness comes out of living a correct life. It comes when you do something for the betterment of others. Then un-expectantly it comes back to you. I (had experience of this in my business and private life, and in giving the teachings of the KF). When you feel something so strongly that you don't want others to have to go through this same pain, and then you are willing to sacrifice yourself to bring it to the others. (You feel part of something bigger, that is more important than your personal feelings and enjoyment)).

(Mr. Keshe gave a personal example of what happened to him during the Manchester bombing around the 1990s. His children went to an appointment with their family hairdresser that was only 50 meters from where the bomb went off. He didn't know if his children and wife had been killed in the bombing. He described the process he went through and the worries and suffering. From that experience he decided that he did not want other people to have to experience what he did. He became part of a very dangerous negotiation to end the war in Northern Ireland. He was warned by MI5 how dangerous it was and asked why he would want to help since he had nothing to do with these people, it was there conflict. Mr. Keshe had the feeling and conviction inside that he would give anything and everything for other people to not go through the pain he went through. From that feeling he was able to help bring peace to Northern Ireland in the background without other people knowing he was involved. And today there is peace in Northern Ireland. This is the attitude of serving that he is trying to teach us).

(Thank you very much for today. We're still going ahead with our "slavery program," as our friend claimed it to be. You can register for the Arizona research program. We are not changing anything, it still stays the same. I know the Germans are meeting soon to send three people to represent their language group. We hope you have an enjoyable trip in tomorrow's flight session. It will be a fantastic time for many of you).

End of Quick Index - 525 KSW Feb 15, 2024

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:11)

K- Yes, thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. (:12) And as usual, we welcome you back, and let's see what we can share today, and what we have learned from the cycle of life on this planet, that we can expand on. When you listen to the Intro, it brings out a new dimension of understanding. It brings out in how we have understood the cycle of life. How we have joined together in the dimension of the Creation without knowing. And we change to different dimensions (D), to different characteristics, according to the line of connection to the Universe (U).

In a way, if one understands and one comprehend the Totality, one will see that to live, to exist, anywhere in the Universe, be it this, on this planet, be it in the Space, to manifest itself in a combination of tangible and non-tangible existence, but containing continuity of life, one will come to understand, one needs different dimensions of connection, as we have talked about before. Carbon 12 (C12) is what we call as an energy pack, it's for life existence. Connected in a common denominator to what we call, Cosmic Rays (CR), which usually work on a back of the Carbon 14 (C14). But, in a way, if you understand it, (:14) as we spoke last week and we showed some, some explanation and figures last week. The common denominator, what we call the DC line, stays on the Hydrogen. The Carbon characteristics is overloaded on this common denominator. So, when you come into the matter state, life state on this planet, you get deviation or division or isotopes of plasma energy, not matter state energy, of Carbon. That, it connects you to the source, but it connects you to the matter state, which is carried by the Carbon.

In a way, if you would have understood, and this is for the scientists who understand, or come to understand this technology, in the laboratories of the Keshe Foundation (KF), in the future, is, you have that common denominator Hydrogen, which connects us to the Creator and the Creation, and then we are overloaded on top of that, with matter state energy plasma, at the time, place and point. Which means, we travel on the C12, on the atmospheric condition, gravitational condition of this planet. But, on another planet, another position, we get a conversion of the Carbon, which comes to be on the energy level, what we call as a radiation of C14, to become matter state in that position. (:16) What this means is that, in the Universe, once the line of common denominator is established, and then overloaded by the energy fields, which is the deviation according to interaction of the fields of the environment. Then, that environment dictates how C14, as what we call, Cosmic Ray, is converted into that matter, in interaction with the field, Gravitational Magnetic (GM) fields of the space, time and position. Which leads to the condition of creation of new life in that position.

This is important for our Knowledge Seekers (KS) to understand, and the scientists who work in the Space Technology of the future. What this means, if you want to travel from Earth to another system, another planet, you travel on the common denominator of Hydrogen, with overload of the Amino Acid (AA) Carbon connection of the man, to the conversion of Magnetic (M) fields in a way of Gravitational Magnetical field of the position, that allows you to manifest yourself in that time, space and position. Which means, if you land in a place that there is no Carbon, it doesn't mean you cannot exist.

When man understands this, When the scientists can go through this conversion, so, when we send the man to Space, we send the man with the AA of the Earth to Space, plus the conversion to the time and place and position. (:18) So, in a way, let's say you have 'Mr. COHN,' and in that position C14 in conversion by reflection of the Carbon 60 (C60), of the, what we call, Universal strength, can convert to be Potassium. So, you actually have 'Mr. COHN' plus Potassium, plasmatic magnetic fields. And this allows you to create a new, what we call, as you like it, hemoglobin. That man can survive in that place and position, and can react and live the position and time and the space.

We know this knowledge, we know this technology, we see it on a daily basis, but we never understood this. If you look at what we call, the plants, which eat flies, which eat live animals, they trap them in and then digest them. They go through this process, because once the clap are closed with a fly inside it, now is not any more atmospheric condition, it's the plasmatic condition of the two surfaces which they have trapped the animal in. Is like the jaw of the man, when he closes. When you close, you put a banana in your mouth, and you close your mouth, that banana is not a banana plasmatic condition (means matter state) anymore, even if it looks as a banana in your mouth.

So, if you understand this, man will learn from this plants, man will learn the ?? Cosmic condition, and Universal condition, (:20) and Cosmic Ray condition of the conversion into existing two dimension in Space, that allows the Soul of the Man (STM), when returns back to Earth condition, to go back on C12, AA, look like a man, hemoglobin and the structure of the man. Then you understand, we call it the AA, But, the AA strength of the hemoglobin, is different than AA of the plant. Is different than AA which created the stone. Then, man has to find out, how to create the same AA, combination of 'Mr. COHN,' that they can coexist, live within each other, and through each other.

What this means? It means when I put you in a system, with your beautiful dress, you're going to a wedding from London to New York, and you happen to be hungry, or you carry an apple in your handbag, or a banana, just in case you go hungry, I have to transfer your AA of your human flesh. I have to transfer the AA of the apple or a banana, and I have to transfer the AA of the clothes you wear. If you cannot get this right, we have a beautiful woman in 'birthday suit' in New York, with no food to eat. Because we forgot to transfer the handbag. (:22) We did not understand the concept.

And this is why many of you Knowledge Seekers who've been with us, cannot manifest yourself. Because we never allowed, we never built this into our systems, even though we

know about it for decades. With the new system, which is developed with the Keshe Foundation, all these matters now is complete. Which means, in the coming time, When we put you through these tests, like those of you who join us tomorrow, not only you'll be able to transmute in the dimension of energy of the Soul, you can transfer the plasmatic condition of the AA of the content of your body. In a way, you just had a beautiful steak in London, And, sorry, we forgot to carry the steak. You arrive in New York and you're hungry because, we didn't have the right combination of the mustard and the chips, you had with the food, in London. Because, there is AA of vegetation inside. Different than the AA of the body.

This implication, understanding of this science, it needs to be unraveled, it needs to be understood. And the prime position to understand it, for the scientists, is in the stomach of the man, the same as that plant which closes. How we convert the AA of different structures into what we call, energies of the body of the man? (:24) How do we convert the Potassium, or Calcium, or Magnesium tablets, which is in a solid state, into your body, and then you take the energy of it? Our body does this transmutation of the energies automatically. But, we never understood, and we just do as we've done, ignorance is a bliss. Now that we have entered the science of transmutation, energy transfer, we have to understand, otherwise, unfortunately, you don't want a bride to turn up in a wedding, from another planet, naked, because you forgot to add the AA of the position, connection, of the time and the space and manifestation.

You got to understand, as I said, you have not even entered standing up, let alone walking in the steps of the Knowledge of the Universe, which is thousands of steps. Now you understand, why many of you, all of you, been there, you went to the Moon, but you can't give yourself physical manifestation. Because, in the structure of the technology, even though I taught this 4 or 5 years ago, and it's recorded in Knowledge Seekers (Workshops), you have pictures of it, you never understood. And now, in the new development, new technologies, we have brought this into operation. Because now, our Knowledge Seekers can understand what it means, what it implements.

Where we have to, the next step is to find the condition of the gaseous AA, (:26) which this is another problem. Then, you have to understand, you talk about it, but you don't understand it, or many scientists will talk about it, never understand it, is, what is the game of C60? Why do we have this crystal structure? What is the purpose of it in the universe? If you really want to understand what C60 is, look at your skin. And look where on your skin you see a five-sided hexagonal shape. Then you understand that cell, that piece of skin, is part of the structure of the C60, which allows you to be connected into Universal magnetic fields to be contained in this Universe.

In the future, man even has to understand how to break out of this crystal structure to be able to travel into another dimension, in another Universe. C60 is very simple, it's 5 times 12, which is C12. Then you understand, in so many ways, why you need this. If you don't understand this, go and get yourself a leather football. Older ones, or the newer leather footballs. You look how many six-sided shapes you have, and then you look, one or two five-sided are in that sphere. (:28) Without that five-sided, the shape, the structure of the

plasma will not hold. You cannot put a six-sided structure. Now you understand how the Universe works. You want to get to the skin of, to the boundary of this Universe to travel into the other, you have to find that five-sided. That's your line of connection. Because that structure, that point, that spot on the Unicose is common amongst all the Universes. This is your, what I call, connection line between Universes. Even the fields of the common denominator to the Creator goes through this.

Now, you as Knowledge Seekers who are still struggling with your MaGravs, try to understand this problem. in the scientific structure. We are building this up. And as I said many times, just because you carry a mobile phone and you speak your funny languages on it, and the other side put the translator and gets translated too, you don't need to know how the mobile phone and the translator was built. And those who understand it, they value it, they will understand what to do with it.

It's very much like, early .. 2004, 2003, 2005, (:30) the Belgium came out with the automatic translator. The King of Belgium wanted to steal this because they understood it. They 'mucked' a guy and they stole the technology. They put a play recorder under the table and said, "Oh, he's just using a play recorder." And they stole the technology, this is a habit of the Belgians. And now we see what was brought in years earlier, now is a common use with all of us on our mobile phone, we can translate, to the word, to the voice, to the image.

Just because you don't understand it, it doesn't mean it cannot be done. But those of you Knowledge Seekers, who are in the MaGrav and the Gans game, and you're still busy with it, try to understand, try to interact with the, what I call, C60. How you produce it, and how through this C60, you can find common denominator AA of all the structures of the Universe and Unicose. If you don't do, it'll come to your peril. You will lose everything in the Universe, because you cannot convert. You'll be those Souls who are lost in Space. You'll become the ghosts of the Universe. Because, you cannot give yourself the dimension of physicality, manifestation at the time, place and point in Space.

Those of you who go with us through the session tomorrow, for the first time, (:32) you will be, you will have access to what I call, Universal AA condition. Which means, gradually, in a coming time, you can give yourself physicality (P) of manifestation and the point, time and place, if you can replicate it. As I said, those of you who join us in this monthly sessions, we are preparing you for what we call, transmutation, in a full, meaning way.

In developing these technologies, you have to understand, we have to protect you. We have to bring conditions in, that it works, it develops, to a fruitful condition of the transmutation. Many of you, who have this problem, with too much physicality, and you cannot go, you cannot feel, "I don't know what happened, did I feel anything?" Even what your thinking is part of the process of transmutation, but you are so much want to be (in) control, that you don't even understand your thinking is in transmutation level. Then you come to understand the dimension of manifestation and physicality.

In the process of the Creation, in the process of development of this technology (T), we explain everything. And in the time to come, the scientists who understand this, will come to benefit by that. Will come to develop technologies which can mature to a science and technologies that will help man to go another step. But, in these teachings of past decades, we setting the base, the basic knowledge for you, and at the same time we add to it, that one day somebody, somewhere, on this planet, or somewhere else, (:34) will use it, to ?? mutate the knowledge of the Universe, to the benefit of its citizens.

Now you have to understand, how to produce C60, how to produce C14, how to produce Carbon 28, how to produce Carbon 30, how to produce C12, and how to produce Carbon in a level of 4. Now you understand. When you go back to the original patents of the Keshe Foundation, when I speak about inert gases, and the game they play in creation of ionization, in creation of what we call, creating conditions of the Cosmic radiation and not Cosmic Rays, and not Cosmic fields.

Now, if you understood this, if as Knowledge Seekers you understand the Totality of what has been discussed in past few minutes, you understand, all of you as Knowledge Seekers, gradually are moving towards a full transmutation. But, our scientists have to understand, our scientists have to implement, our scientists have to bring about the condition of creation of the C14 and 60, that in the structure of the body of the system, we replicate the structure of body of your skin. And get a microscope, (:36) get a lens, and look at your skin. See where you find a perfect five-sided structure. And that is the point of your connection to Universal energy.

In the future, scientists will use this to create the point of transmutation through Universes. Every creature, dimension of physicality or energy, contains this, even in the shape of a plasma. You have to be able to create the 4 dimensions of the AA, to be able to survive the Universe, to be able to live. Earth has a gas, has a solid, has a liquid, and it's got a living condition. So is the same with every structure in the Universe. And the man has to understand this knowledge fully before he transmutes. This knowledge is embedded within the STM, not in the DNA of the man. And DNA, according to the structure of the RNA, through the Universal knowledge, creates that little 'five-sided hexagon' on your skin, the same as a football. In a football you might need a couple of them, on the skin of the man, because the curvature and the field forces to be sustained, you have many of them. (:38)

Now you understand, how much more you need to understand. And now you understand, how close we are bringing you to a full transmutation. In the next few weeks, I will ask you to submit a picture to the Keshe Foundation, live online. It could be your uncle, it could be the President of a nation, it could be a dog, a cat. In your presence, we'll manifest that entity in the time, place and a position, which you agree. You haven't seen your mother for 20 years, she's in Australia and you're in United States. With a picture of the man, we can even now transmute the man. It's very easy, if it looks like magic to you, understand the science of it. Once the image is created, energies of the dimension of a connection, has ?? created. And we don't need to do anymore.

Then you understand, when I explained to you, many years ago. I'll bring you the Christ for you to see. We don't need the image. The thought, understanding of the history book of the man, will give us that connection. Through emotion and intention. (:40) As each have their own strength. Now you understand, how much more as Knowledge Seekers you have to move on. You're just like a flock of ducks, trying to escape and I have to herd you in. There's only one hole to go out. And that's the hole of Knowledge of the Creation. And we cannot force feed you. You have to do it on your own, by elevating your Soul, by understanding the knowledge of. This is not a Chinese duck farm, which there is a hole and the guy grabs the neck of whatever it sticks out, and puts a pipe in, and force feed it, and release it, till it goes on the other side of the wall, and pull it out again, when he's feeding next time.

You got to understand, for completion of the science of the transmutation, you as Knowledge Seekers, have to understand the whole process of the Creation. The whole process of understanding the process of Creation. And, you don't need a lifetime, you can access this, if you understand and apply it within seconds. You call it the 'enlightenment,' I call it the Knowledge of the Universe, become available to you. Does not need you to head bang on the floor 17 times a day, or go to the Great Wall and bang your head against the wall. All it needs is clarity of Soul. (:42) Clarity of understanding the knowledge of the Creation, and no one can give you this in the name of the Prophet, Ayatollahs and the rest, except yourself, in understanding, enlightening yourself, to the energy fields of the Universe by yourself, how to use it.

You do not need to go through the pain channel, because it'll never bring you anywhere. You have to go through the pleasure channel, which by pleasure is by giving, by loving, which opens the other doors of the knowledge to you. Now you understand why I keep on telling you, 'teach the technology.' As you teach, you'll empty the cup and it gets filled up with the new knowledge, that takes you one step further. In the minute you start abusing that, you go back to the beginning, but you still think you understood a lot, but in fact you are still galloping in the, what I call, the puddle of dirt you created for yourself, through arrogance of the knowledge which you never understood.

You have to understand the structure of the Creation. You have to understand the structure of the existence. You have to understand how things are applied, and to where and who, and what they are applied. How do you convert a plasma into matter state. And how you convert matter state into plasma. It's not done by salt and vinegar and sugar. It comes by understanding the science of Creation. And more or less, in past ten years, I have taught you the full knowledge. (:44) You have to go and pick it up and apply it. Pick it up and reproduce it. And all these plasma systems and MaGrav systems have blocked you from understanding the Totality of the Creation.

When you produce a gas, within dimension, what is for? What does it create? Where does it connect me to? Do I need it and how do I need? When you create the AA, in what you are connected? When I come to another position, there is no Nitrogen on this planet. So, I have to keep the AA of me, but here is Potassium. So, I change, I still keep possibility of the Hydrogen, the Carbon which connects me to the Universe, in the dimension of the

energy, and that energy of the conversion, Nitrogen becomes Potassium. Possibility, you will look a little bit green. So, on this planet, we all have brownish conversion of the skin, due to Potassium, you have different green condition, most probably. And then, if you go to levels of the, what I call, Plutonium and Uranium, you look a little bit more silver-ish. And more or less, when man becomes visually expert, you can see by the color of the skin, even if they look like a man, "oh-oh, these people carry the fingerprint of another condition in the Universe." (:46) In a way, you cannot find the field strength combination of that five-sided cell. Is a peeping hole into the condition of existence. If you understand this process, and if you understand how to achieve the combination of this process, creation of the plasma in the dimension of Universal condition, becomes a child's play. And if you don't, you're still playing with the children toys, which is a MaGrav.

Now, you have to extend the knowledge. You have to sit down and analyze what you have missed. In the session tomorrow, many of you will go through new experiences. Many of you will experience new dimensions. Some of you might go to the level of conversion into the transmutation and see yourself, physically touch yourself, but don't know where you are. Then you have to analyze. You have to find out how you take the situation back. We sit in the background, we create the environment. You are the dancers, we create the floor. One of you like to dance Greek, and one of you like to dance Arabic, and the other one goes to disco in New York. Shake and shiver the way you like.

It's important for you to understand this, and not for us to force feed and force create. (:48) It's important for you to understand how to create the Carbon connection with the dimension of the strength of the fields of the place, time and position. And if you understood this, you will understand why you, man, changes appearance as it lives in different part of this planet. As the connection conversion of the C14 in connection with the space, time, and area has a different strength, and the combination of the two creates a new dimension for the AA isotope structure, which gives you narrow eyes, darker skin, lighter eyes, and everything else.

Now you understand even how you are, in a way, mutating. If you understand this scientifically, now you understand how man has mutated to so many races, colors, and everything else. A black man moves from East Africa on a boat, ends up in a place called Australia, and his future changes. The black man goes walking down the river of what I call centuries, and ends up in Europe, and he comes blue eyes and blonde. It's the interaction of the C14 of the body of the man, containment of the C60, communication line of the physical condition of C12 of the physical body of the man, (:50) with the same as what Earth's planet has. Is C14 connection to his Solar System, C12 of the matter state condition of his existence, and C60 of the containment of the place, time, and position of the Solar System, the planet, and the man itself.

Now you understand how you mutate. And now you understand when I tell you go from Africa as an African, and you end up in Finland and you got these blue eyes and blond hair and white skin, what happened? If you travel in the dimension of the Soul, this is inevitable. When you travel in dimension of physicality on a first class seat on the Airbus, you still see a monkey coming out of one door, because you move the

physicality, you didn't move the Soul. I wonder, when in the future, man will test this. We'll send, as part of energy of himself, in the dimension of the physical condition by the aircraft to Finland, and then the other parts in dimension of the Soul arrives, and wait the other one to arrive and see, "this is me .. and this is me." One came through dimension of the transfer, and one came through dimension of the transmutation. Then, your problem is, how do you fit one in the other? (:52)

It'll be interesting, how in the future, when we come to understand the condition of the transmutation, how our "beautiful people" (Schizophrenic) will look. One will be black, one will be white, one will be blonde and one will be brown. Because the dimension of the Soul interaction with its environment manifest the physicality which satisfies both emotions of the Souls. Now you understand how sweet the life for man becomes and with all these to explore how man will forget about the wars and conflicts because this game is a better magician.

As I said before, and I repeat it to some one of you, some of you, or most of you understand, you have no choice. And in a way, one way or another there, there is a force behind you which pushes you to go through that hole. You might try all to go one by one and get caught on the other side by the neck. Or you totally understand the world does not exist as you travel through the dimension of the Soul and no one to catch you on the other side. And then you understand how some of you can walk through the walls. As you transfer through the energy transfer, not the physical dimension, you get a bruise, (:54) and a banged head and broken arms as you try to go through something which the matter state does not allow. And in a coming time, as you become experts, you'll find out you can walk through any walls, any mountains, and anything you like.

This knowledge will come into test from tomorrow, in the first phase of it. And in that process, many of you should be able, gradually, in time, to transmute. Transmutation on this Earth is very simple, because you are a man, you end up as a man, maybe as a dog, and say, oh, I was a man on the other planet. On the way, you played a little bit, you changed the energy, you ended up with the AA of a dog. But you'll be able to talk and tell people who you are.

The problem will come for you when we transmute the first couple to the Moon, where we have to go through the dimension of C14 and C60 transmutation. The Universal line of connection. On Earth, you're all within the ?? grasp of the gravitational magnetic field of the womb of the village of Earth. Outside this planet, you are not. And that's why you understand we separated transmutation and those who become the people who transfer across. I explained this to you in the last couple of teachings, where inside the plasma of the Earth, we are all 'flat-liners.' When I put you outside, you are two 'flat-liners.' (:56) One of the flat-line plasma of the Earth, and now one of the plasma line of the Solar System. And these two, when they interact, will create a new sinusoidal shape of the fields, let's say. And then we have to understand how that interacts with the plasma flat-line of the Moon. And then you arrive in one piece.

In so many ways, creation of the fields, manipulation of the fields, structuring the fields, holding to the fields you want, making the fields you don't need to make what you need, it become a game that many of you will start in the coming time. And don't take it that it happened accidentally. You've done it purposely, because you went for it. And this is what will bring you to understand the Totality. This is what will bring you to understand the structure, to understand the possibilities, to understand how you have to behave. And it brings you a new behavior. And it brings you to a position that you understand, I have to handle two things at the same time. And that is important.

Please excuse me for one second. << Mr. Keshe answers a phone call >> (:58)

K- ... Sorry about that. I told you beforehand, I might receive a call, I have to answer.

What is important, what will come to part of our work, in understanding the Totality, is how we progress to this point. How we come to pass the Totality of understanding of the Knowledge of Creation. (1:00) What is the consequences of our action in the Soul dimension and in matter condition, or what we call, the state of physicality of the man.

In the coming days, in the coming weeks, we expand this knowledge, as our Knowledge Seekers understand, and systems and technologies are developed for it. You got to realize how to merge the knowledge of physicality with the knowledge of plasma energy, and how to separate, and how the dimension of physicality has to go into the dimension of flat-line and how you carry that information within this plasma line. To what extent we will go through this? To what extent we will understand this? And how fast you can transfer this knowledge to the others?

As I said many times, I'll bring you a drop of water that when it falls in another water, will create that fish. In fact, that drop is your Soul, and the other water is a plasma field of the Universe. What kind of fish you'll come out of in that new environment? Would you be a shark or goldfish? Would you turn out to be an octopus or would you turn up to be a whale? (1:02) Now you understand the mythical conditions that you have to understand to bring to reality, not us. There is no blueprint. There is no fixed conditions. Every Soul is unique. And every condition, time, and place, and position is unique. And you are the one who decides it. You are the one, through the dimension of the Soul, and the Soul of the Physicality (STP) will create that physicality (P).

Now you understand what I told you many times. Live by 'Ethos of Mitra,' as your Soul and STP cannot lie to each other, because if they do, you end up with a cancer. And this 'cancer' this time, is you as a nomad in the Universe. Now you understand how the Ethos of Universe works. Because, as a Soul level, connected to the Soul of Creator (STC), "thy shall not lie". The STP plays, in "thy shall lie". You have to teach, this guy, we play the 'God's game,' not man's game.

Then you understand, how you have to process, how you have to proceed, how you have to come to the point of interaction of the fields of the STM. (1:04) I hope, I hope, my sincere hope is, I opened a door into your life. And, I gave you indication and physicality that you can check. In so many ways, by the structure of the physicality of your body,

you can tell how close you are in the Soul level, in the STP, to transmute. There is a sign, there is a way for you to understand, by looking at the structure of physicality yourself, to see how close you are to the point of transmutation. It doesn't matter how you feel you are. You cannot take the 'cake out of the oven' if it's not ready. Even though it looks cooked outside, but it's raw inside.

Now you understand. Now you... put it this way. I gave you the MaGrav systems. Use it to understand. Use it to create a condition to understand. As I said to a Knowledge Seeker, next time when you get your MaGrav, instead of plugging into the wall, plug it into your brain and see you get more out of it than what you tried to save a few dollars on the wall. And this is what I always told you, connect to the fields, not plug into the fields.

The ?? ... interaction of all the coils, with the numbers which you have created (1:06) MaGrav system out of, connects you more or less, all the field spectrum of the Universe. But you don't have the knowledge, you cannot understand, to you it's still, .. is it the right turn, is it the left turn, is it 41 turns or 40 turns. It's one human, and so many hundreds of turns, fields, left, right, up, down, and every other, and the central field ?? force of the Universe.

What I've given you as a MaGrav, gives you entry for transmutation into the realm and dimensions of the Universe. If your STP and the Soul do not lie to each other, or be there, "I want to transmute, but I want to get the electricity bill as well." Stick to your electricity bill, be a citizen of this planet. You cannot lie to it. Look at the structure of the MaGrav. The 'three Kings.' Look at the rings of the MaGrav. One inside the other, capable at each level to be correct and not to be ??. Then find out how you have sat on the 'three Kings' that the Jews celebrate, and you are given free, and you ?? suffer. (1:08)

Now you understand. Now, maybe you understand. You think good, you connect to the bottom level. Or do you connect to the top level? You talk good, you connect the top and the bottom together. And you act good, your physicality is a manifestation of your position. Then you understand, you can talk good, think good, but act wrong. Choo-choo, you're going nowhere. Because you cannot cheat between the two, they are aware of the truth within you. You have to accept the responsibility of the three in a correct way, to hit the jackpot. And then you have to get all the strength in every turn correct, emotion of sadness, emotion of joy, emotion of ?? stealing, emotion of blah, blah. In every coil, every turn, everything, every level. And if you get all that right, you've reached the field strength of the Creator.

I don't think I could explain in a much more clarity, the purpose of the MaGravs. Is your test step, don't plug it into the wall. Understand it works, in conjunction with the work of your own life. How many of you have made the MaGravs, and laced it with the energy of yourself? (1:10) Then putting AA, and God knows what, in the center of it, in the ball outside it, and soak it in different Gans's. One day, mankind will laugh at ?? you Knowledge Seekers, that he really played with them, he could have told them from the beginning what is going on, but when you don't try, you don't know, you don't understand. Now, you are trying, you have no choice, you have to understand.

Understand the Totality of the work, of your own Soul, and the STP. And stay correct in all time, with all lines, and then you'll see. Never steal, always ask. You never think it's your right. If you've been around me, you always know, I always ask. It doesn't matter what. Because when it's given, it carries that Soul for elevation. Now you understand the totality. Now you understand the game played by you, by your Soul and the STP, at the same time, place and position.

I hope today I opened your eyes in what is about to come, what you need to do to be, and how you come in conjunction and connection with each other. Tomorrow, when you join us, if you have a MaGrav system, leave it in the room next door. (1:12) Make sure you don't sit in the room with a MaGrav in it. Because in the next sessions, I show you how to use MaGrav, and your Soul will teach you where you're going wrong. Don't bring it with you in tomorrow, but make sure you are nowhere near a MaGrav system. Because, you will experience a new cycle of life. And don't say, "I imagine I went." You imagined you went, but now you have the capability of the physical manifestation of yourself in dimension of energy. Let's see, how many of you will enjoy the trip tomorrow. And how many of you will go through the, what we call, ?? the barrier of the transmutation and transfer.

Thank you very much for today. And, as I said, we join the Soul teaching, the Cosmic Rays, the MaGrav system, and everything else we have taught you in the past. Now it's all coming to the same pot to cook, to make the soup ready to eat. All depends what fire you put under it. And in a way it doesn't need a fire. Or it just need essence of understanding. Thank you very much Rick. Take us through a break and then we come back.

>> **BREAK** >> 525 KSW February 15, 2024 (1:19).

K- ... The usual way we bring some notes in. The Foundation has announced last week about the new research groups for Arizona, and subsequently for Iran and China. (1:20) We had one of our dearest Knowledge Seekers putting a note that, 'this is a slavery, that

we be paid for our research, and then the intellectual right doesn't belong to us, belongs to the Foundation,' and the rest of it. And I made a note to it. If we do such a thing, is because we've done such a thing. I spend all the assets possible, I do all the research, and at the end of it, all goes to the Foundation. In a way, I'm detached from the financial side, I'm detached from my own life which I put in it, and detached from the knowledge gained, because it becomes knowledge of the Foundation. So, we live by what we do. And, not asking you to do anything we haven't done. On the other hand, becoming a researcher, allows you to learn new ways, and if you decide at the end of it, to stay with the research, continuing to what is to be added to, then you get employed back on, most probably you pay 25,000 in 3 years, you get 100, 200,000 a year at the end of it, if that's your target.

And at the same time, as those of you as Knowledge Seekers who came to the Cinzano and the rest of it, a lot of money is spent just keeping you as Knowledge Seekers. (1:22) What you pay does not even cover the expense of the maintenance and the rent of the places. Those of you who came to Trani and then to Barletta, as the last second year of the Knowledge Seekers, you have to know the premises cost us about 30,000 a month. Without all other support expenses. So what you pay, 20,000 - 25,000, even 100 of you, does not even cover the expenses of the running. And you go to the supermarket to shop. You pay for it, and then you go home, and you start ?? (practicing) , what you learned to cook, what you want with it. This is the same, but you cook for humanity. So those of you who think you're paying a lot, you have to understand you have paid nothing compared to what we'll cover just to light up the place for 100 of you for one year. Create accommodation, all the scientific tools, and all the bits which you make a mistake in, has to be redone, 3 ?? mil, 3 bait ?? , and the rest of it. So I would love to see any of you would like to take this banner up. We pay you and you do it for that amount.

In a way, what I taught today in the first session, shows you, we haven't even started the process of the knowledge. We just played with the 'blocks of the Lego.' (1:24) We don't even know how to put them together and how they look at the end. So the research is needed and has to be done. Like the Chinese government pays from their side, Keshe Foundation brings 200 scientists of itself, has to pay for itself. It comes through you as Knowledge Seekers paying to be part of it, we pay the other part of it. We have put out the hand of collaboration to the other governments, and we wait for the response, we wait for understanding of what is to come next, and how we shape it. Those of you who want to be part of this research, please complete the process, and how you want to do it, that is done by the September time, you are ready to go through. And then, we go to the next step of development and everything else.

In the process of the material development of the Keshe Foundation, we are processing new, what we call, technologies, in, we'll offer you new systems for trials. That using the knowledge, we can extend the knowledge of the other side of the development of the Keshe Foundation for Space Development. Please understand, I cannot do more than what is. And as I said to one of the Knowledge Seekers, by law, by standard way of the life, and what it is in the, what we call the commercial world, as you're so connected to all the financial structure, (1:26) people at the age of 65, put their leg up and the coat, put

their hat on, and start becoming a pensioner, and waiting for the coffin to arrive. Pension time. In my case, in that age, I just started a new cycle, to teach, to develop and to spread. And now I have another cycle of 65 to go, to complete for you lot, before I become a pensioner.

So, new cycle of life has started, and new teachings has to be done, new sharing of the knowledge. And I hope you understand this. I haven't put my foot up, I've done it, that's it. Insurance company and the pension policy says, "65 you retire." I've just started nursery of the knowledge, and I still go to class one. And I hope you as Knowledge Seekers go the same way, because you'll understand, age does not count as the time is non-existence. If there are any questions, we answer and otherwise we are not the slavers, and we don't take nobody for slavery.

Any other question?

Q: ... Do we have to convert ourselves into the shape of a dodecahedron in order to transmute Mr. Keshe?

K- What? (1:28)

K- ... Somebody translate.

R: Do we have to convert, I think, into the shape of a, essentially a football, in order to transmute.

K- That's what I said, translate.

In a way, no. In a way, when you become a plasma of yourself, yes. But on the other hand, go back to Book number two. At two ends you are a plasma, in a spherical shape. In between you are a ray, even though the same plasma. And in so many ways, where do you want to transmute to that shape, at the end or in the middle? Impossible. It's not impossible in the middle, but you take longer time, then your, the losses are bigger. And stretching the ?? ball, gives you a lot of advantages. Because, in the world of, when we talk about the ray, you got to understand, your higher order magnetic fields, goes to outside, the lower, which is the central point, goes to the lesser. A plasma in the direction of the motion, in that state, is very much, is like in a vacuum state. The stronger fields sits within, which in a way, is the weakest, which is the center. This is how it works.

The work of Cosmic Rays is very much like a vacuum, or centrifugal system. (1:30) The stronger fields, the heavier material goes to the boundary, and the lighter, which is the line of common denominator, goes in the center. And you find out, for that, you need to be able to travel in what we call, spherical shape, then into cylindrical and then back into spherical. Even the cylindrical is so narrow, it is not even a cylindrical, it's more like a ?? ring, than the field. Because you are traveling in on the line of the common denominator and it's so narrow.

I explained this once to a child, maybe this means something to you. Give yourself a rose. I should say, happy Valentine to those of you who bought the rose yesterday. Yes, it was so, but if you are still in the process, might be haven't passed the 12 hours to go to the 15th. Get the rose and give yourself a ring. And try to pull the rose from its stem to the ring. That stem, that central line, is the Hydrogen. And all the leaves and the flowers and the rest, which now have to go through that ring, are your life of physicality, your emotions, and everything else. But, you fit in somehow. Make the ring into a tube, and you see when the flower end comes out of the tube, when you're already pulling on the long stem on the other end. And this is how life of a man in the dimension of transmutation is. You are a beautiful rose, and a beautiful stem of connection of line to the Creator. (1:32) You put yourself through a tunnel, pulled by the stem, and you come out on the other side, what we call as the same rose. But you've gone through the tunnel of the transmutation of time and space in the Universe. If you made the mistake about the ring and the size of the tube, you'd come out a slightly different rose, shivery, shuddery, on the other end. If you get everything right, you come out the same spinning rose on the other end. Maybe because of the color of the shade of the light on the other end, you look slightly different.

So, you don't need to become anything, you are already all of it. Then the Book one is on the end, before you get in the tube, the tube is Book number two, and you end up on the other side, with the rest of the roses, as part of the Universal Community. I hope I explained that to you simply, and if you understand it.

Any other question? (Dr. Gutaua ...)

K- ... (1:34) For those of you who might not, we might put you through a system today, we're off today, because systems are getting set up for tomorrow's meeting. Don't forget tomorrow is at 9 o'clock, 9 AM we start the session. Yes?

Q: ... Good morning Mr. Keshe, thank you for the wonderful teaching today. You spoke in the last couple of workshops about Cyrus, and how he is an example of how men should treat women, and how when the woman becomes the abuser, she has the right to leave. My question is, how should women be treating men in partnership? Maybe it's an obvious answer, I'm curious what your perspective is though.

K- I had a link sent to me by Azar last night. And in that link he says that, in time of Kourosh (Cyrus the Great), Darius, we had a month called like, the 'month of lovers,' and we had a day called the 'day of lovers.' And when the month and the day become the same, that day was a day that the men did everything for their wives. This is a 2,500 plus years tradition in Iran. And men worship their women, buy presents for them, give them everything else for that day to their mothers, to their wives, to their daughters and the rest of it. And, in a way, the point of respect, (1:36) and that day falls more or less about fourth of, what we call, another 10 days from the, what we call, the Valentine time of today. It's that 12 days gap again between the Iranian calendar and the International calendar, the rest of it.

And, it is very interesting, I have a cousin, she's extremely nasty, very pinpointed. She came to see us in the Cinzano, and she said, "do you know Mehran. In all the holy books, they say, that the man can have four wives, can have many things, blah, blah, blah, blah. But in none of the holy books, it says how many husbands a woman can have. So we are free. We can marry as many men as we like. And as we have no restriction, there is no adultery. But the men changed it for themselves. And in a way, being, what we call, 'minded that way,' which is correct. All the restriction of how many men you can have, I've discussed this before, how many wives you can have, is only for men. You women are free. And I said, yesterday, to a friend of mine, you, women, are waiting for that Valentine rose, Valentine gift. Excuse me, it's a two-way traffic. It's not only men who love women, you women love more men than men loves you. What did you give? (1:38)

And, do we need to love only one day a year? Or, can we have it every day of the year? Do you open your eyes every day to your lover, to your wife, to your husband, say, "I love you"? When is the last time you told your partner you love her, or love him? Or, does it have to be Valentine? Yesterday I was driving down the road, and near me there is a flower shop. And the flower shop was like a bread shop. There was a queue of men, all waiting to buy one rose. I thought, "Oh my God." It's come, and there was no women in the line. They're all men, short, tall, and they're queuing to go into this tiny little flower shop to buy one rose, and they were coming out, because I was sitting in traffic, I had no choice, I had to watch it. And I thought, "Where is the women?" When they're going to love us? So, where does the line comes? Why does it have to be always? Why is not both ways, and all times?

And, isn't the problem with most of the relationship is that we forgot, or we forget, and we are too busy, just to tell our partner, once a day, once so often, I love you too. The strength about, "Oh yeah, you keep on telling me this, yeah, yeah, yeah, yeah." But, you know something, somewhere it registers. It's walking into a flower shop, buying two roses, (1:40) pack them separately, and tell the cashier, "One is for my wife, and one is for my mistress." The cashier looks, "What?" "The second one is for my daughter. Because, the love of me for my daughter is the same as love of me for my wife. As she gave me the love to love." Then you understand. Does it need to be a man only purchase? Or do we open a flower shop next to the one, "Roses for men and roses for women."

Yesterday I was sitting at the dinner table, and two ladies walk in, each one, one carrying two roses and one carrying one roses. And I said to the person who was with me, "Look, these two are lesbians, they've given each other flowers." And, otherwise, if they had real lovers, he would have been with them. And, we joked and laughed about it. And, this is how life it is. Loving a person is the old traditional Iranian way, you can do it a month a year. And then, every month you have that day in the month. You don't need to wait for the 14th of February to become a Valentine's Day. It'll be Valentine's Day, 30 days a month, plus another 11 days on top of it. But, once you get into the habit, every day is a Valentine's Day.

We've forgotten how to love, because we've forgotten how to love the Creator, and now we are entangled with it. Doesn't matter you're a man or a woman. (1:42) How many

times have you woken up at night, kissing your partner, "I love you"? And then, don't even ask tomorrow morning, "Did you remember I kissed you saying I love you?" See what reaction you get the next day. And then you understand, it's sleep time, the Soul's hear. It's a long, long path for man to understand the truth about the Creation.

Any other question?

R: Azar put a comment in the Q&A: "Since men cheat, they feel guilty, so they go buy the rose."

K- Ha, ha, ha! So, women cheat, they don't... men don't need to cheat. Women cheat more than men do. Depends what you call cheating. This is the way women convince themselves, men only cheat. All creatures cheat in the two-legged life of man, depends. Does not need to be physical. You see how women turn things towards themselves? All men cheat. More women cheat than men. But, men have a conscious and they suffer with it. Women see the (it as a) natural process. Always called it, 'multitasking.'

Any other question? (1:44)

K- ... Do you know there's a very old joke about a couple getting married? And the husband brings two jars, sealed jars. He says, "We are humans and things can happen. If you ever do anything wrong, just put a grain of rice in the bucket, in this pot. And then when we get old, we open the pot, we don't need to say anything. In that time we had a lifetime together, we enjoyed our life, but we understand what happened." Married for 60 years, becomes her old age, the guy says, "Can you go and bring the pots we bought when we were young?" They open the pot of the man, it's got few rice grains in the bottom. The woman looks and the man says, "Sorry, I'm very sorry, you know, I was young and this and that." He says, "Open your pot." They open the woman's pot, it's nearly half full. He says, "Woman, what have you been up to?" She says, "This is the third time this jar is full." Now, the answer to Azar is, we never know. It's within us and we only know what we do.

Next question please.

Q: ... Will I please receive an email today with instructions for tomorrow's transmutation preparation? Which Zoom link? At what time? How do I set up the cell phone?

K- The links usually we leave it till later on, (1:46) on Thursday night, even early Friday morning, because a lot of people still register. And to do everything one by one, sometime overnight, tonight, or sometimes a little more morning, one, two o'clock in the morning, the IT team will send you the link. We never miss anyone, if you... If you don't get it by eight o'clock, look at your junks, to start with. Look at your junk link, because a lot of Keshe Foundation, over... If you do over 10 messages through Google, it'll block it. So, those of you who have a Google account, or other accounts, you have to check your, what you call it, your junk as well, to see what a message comes from the Keshe Foundation. And most of you have the link anyway. If you are new, wait till tomorrow

morning, most of you will be fully covered. We hardly ever had left anybody out. And the Zoom number, the password is set, and your link is already set up, using the... you have to come in with the email you made the request. If you come with another email, you will not get in. Because that email is opened up to enter the session.

And again, you can use one headset phone which is left over to your ears, or you can use two headsets, one set up, one on the forehead, one on the back, with one pair to your head, to your ears, or some people use a four line connections, the left and right loop of the brain, the central brain line and the ears.

Tomorrow experience will be very interesting, we like to see how you lot react. (1:48) And don't panic, we don't... we used to send out one of them early the week, and then we had late comers, we're still receiving this morning, people who are going to participate. So, everything will be done by tonight and it'll be sent out. And you will see in your email, or your junk, and you can only come in with the email you made the application for. Not with the other one, you will not be able to get it. But we have people on the standby, we check. If people run in trouble, we have one of our Knowledge Seekers, every time she's in trouble, but somehow she gets in after resetting. And if you don't have the connection opened up, you cannot come in. Even you have the link, but it's not set on the computer, backup to open for that specific case, it will not open.

Any other question?

R: And that will start at 9 AM?

K- 9 AM. 9 to 5. Actually we might...

R: It'll open a bit earlier as well, like 8:45 or something to let people in.

K- Rafael usually opens it around 8:30, 8:45. Or the IT team will open it in the background. You have 10 or 15 minutes, do all your coughing and chatting and the rest of it. And when we start. We start the session at 9:00. Tomorrow is, I'll be with you live, for 2 hours, by 11, 11 maybe 15. Then we... I leave the session, because it has to be done by you. But we are monitoring, changing everything in the background. (1:50) And then we might let the system to go till maybe the lapse time of 30 hours of the Zoom. Or maybe longer, if it allow us, the whole of weekend, you can come in and go.

It's a new system. I was with it yesterday, I'm again this afternoon with it, trying to make sure everything is in the correct way, after you setting everything up. We would like you, as we done with the other exercises, you can write a comment into the chat, live. Don't write, "Oh, I'm this and that." If you reach somewhere to a point, yes, just write down what it is, and watch the chat, because if I come, or anybody comes in to talk, it's distractive. So, while you close your eyes or whatever, try to keep an eye in the chat, see if there is a new instructions, but we don't have new structures. We control everything through our, what they call, systems. How you receive, when you receive. The way you receive, we change parameters frequently, we observe how you react. And, more or less,

when we change, what we call, parameters, we look for the first 3 to 5 minutes. And that is our, what you call, cue for the next step. But we allow that to settle, and then we go to the next step.

But primarily tomorrow, 9 o'clock. We still keep on changing systems, till afternoon or whatever. But by 5 o'clock on, you're on your own. You can come in and go, you can go for a dinner, come back in. (1:52) Please make sure nobody touches your system when you're away. Don't give it to somebody else to come in to test, you will understand the reasons. And follow the, what I call, the true vow of silence. Keep quiet, stop coughing, stop jumping, stop all sorts of things that allows us to do our work. And allows us to run our, what we call, testing.

Because tomorrow session is a new, what I call, parameters, it's a new structure. We have worked for this structure, weeks, months and years. And we would like to see it, how it behaves, how it comes. It's the first steps of plasma transmutation. And it's crucial, some of you might go through the transmutation, some of you might see, reach the point of, for the first time, maybe to go through conversion. But, it's for you, in the... Then you tell us how, we keep you connected to our system continuously, which means we are not going to lose you in Space. And we'll see where we go. But it's very much, as I said, the first time we have put you on the 'boat of Noah.' Depends where you go, how far. Now where you're going to land and how you're going to land.

Any other question?

Q: ... Will it be translated?

K- Usually, in the beginning, we have three or four translators, who do translate, yes. (1:54) We have usually the German, the Portuguese, I don't know, French, we have a couple of Iranians, sometimes Italian, and sometimes Chinese, depends if they're in these sessions.

Sometime in the next couple of months, there is a broadcast in Italian, which is getting organized by the Italian Knowledge Seekers, that it'll be an interview, but in a depth in a, what I call, a dimension of the, a new dimension Keshe Foundation work. It's getting set up, our Knowledge Seekers have worked with it, it's just structuring here. The interview will be translated, I think, into Italian, before it's transmitted. But, it's one of those in depth, in what I call, interviews or discussions, we have for a long time. And, we'll see how it comes, we inform you, if you want to listen to both version, the English and the Italian version.

Any other question?

Q: ... Hi Mr. Keshe, you teach us about the Soul transmutation, and start to teach the physical transmutation. But does it exist, the emotional transmutation? (1:56) Could you please say more about it?

K- It goes with it, you don't have no choice, you take your emotion with you. Or you take your emotion with you. That consciousness. In a way, once you expand, you'll understand the point of transmutation.

Because, I explained this to Knowledge Seekers before. When the energy, central energy, what you call, the Soul expand beyond the physicality, physicality doesn't have the needs of the physical existence. Because, it's like cuddled, it's just cocooned, it's in the comfort zone of the field, that I don't have to do anything, I don't need to steal to survive, I'm inside, I survive and in comfort, I don't need to lie, I don't need to do wrong thing and the rest of it. So, more or less, if that panic state doesn't set in, which we've shown you before, you keep on jumping between physicality and the Soul, and physicality and the Soul, when you get to that straight line of connection with each other, you have the same emotion. So, the line of emotion becomes one.

In a way, I don't lie, you don't lie, we want to go there, we go there. The STP through the memory, wants to see the grandmother. And what it is, ask the Soul, "Can you take me to grandmother, because I cannot do... I want to see the grandmother, to see how my grandmother looked like." And, there, at that point, it's the job of the Soul. "I know where she is, we go."

It's very strange, it gives you... It gives you some sort of connections you don't feel, (1:58) unless you're in it. I know I had a... I know I have... I had a grandfather who died years ago. My father was an orphan, with young age, because he died prematurely, in an accident, I was told. And to me it was just a... I had a grandfather. One of my cousins recently sent me a picture. This picture is got a brick, one level brick on the floor, and a flat stone bearing my grandfather's name, date of birth, his title, and whatever you put. And for the first time for me, I was connected to something which before I had no connection. And this stone on the ground created a cycle of life in me, trying to see the Soul of my grandfather. And would I intrude to see him, or would he accept to accept another Soul to visit him? And that's a dilemma for me for past few days. Something I had no ?? I was, you know, you have a grandfather. Now he's there physically. There is a stone. There is a place where his physical remains are kept. (2:00)

Am I, through my emotion of wanting, be able to create that line of connection to see him, to connect with him? And with this now that has been found, the grave, you know, a grave, ??, what you call it, places we found, other siblings and those who are created of him, his grandchildren and great-grandchildren, have the same emotion to meet him. Or is it just on the piece of stone? And would I like to transmute to that level? And now, ?? sound has taken a shape in the solid state matter of stone. And, interesting what's written on the stone, confirms a lot of things, which I was told as a child, about my grandfather. And brought everything together, that how his love was transferred to us, in the ?? emotion of the blood, the father, the family, and how we respect it. That's the dimension of physicality. And, what's the dimension of the Soul? I see a physical dimension, but would I be able to connect to the dimension of the Soul to see the man? (2:02) I cannot intrude, but would he allow that connection? Would the desire of the STP and the STM be in that condition? And, is his Soul aware of the grandchildren, and the great-

grandchildren he has? Would they lie to each other, or would they say, "We are not ready to receive"? Or, "Would I be able to strengthen the, find what I call, the field strength of his Soul, that allows him to know the existence of his grandchild"? Would they lie to each other? Or would they, not lie, but don't agree to be truthful, and you cannot complete, because it has to be all connected.

And, to what extent we understand this, is to the extent we can detach from physicality, because we understand the Soul is in the perfect hand of the Creator. And this is where the emotion comes in. There is no lie between the two. It's, "yes I don't, but no I do." And, "to what extent I want?" They cannot lie. STP, once embraced by the STM, has no need to lie, has... the emotion is pure love. And to see the Soul to be...

In a way, if you look at it, I explain it, because I see it in your graphs, I see it in digital form. You know, you work whole day and you come home, (2:04) and the wife says, "you've been working whole day, sit down, have a cup of tea, I'll look after you, I'll bring everything, wait till the meal is ready, and you just, you're safe, you're home." This is the feeling the STP has to receive from the STM. You're home, you're safe. I'll look after you, you looked after me, you kept me within, now I keep you within. Even though you don't ?? admit this to yourself. Now you don't need to kill, because you take from me.

And if you understand this, then you understand, the emotion between the two becomes one. And once it becomes one, you reach the level of the connection to the Creator, because then there is no dimension. One day I'll teach this, and one day you'll understand. It's too soon. Far too soon. How to judge, how to understand the emotion of the Souls as one.

Any other question?

Q: ... Listening to Mr. Keshe's wisdom, it is something that I have never experienced as a kid from my parents, generally on life and love. That's why I am super grateful to experience it now... Mr. Keshe, are you planning to show transmutation in China? (2:06) Would that mean that we'll be able to change physically as different person, can we all then fix any physical defects we are born with, with love?

K- We are testing transmutation, it is part of our work in Sanya. The full transmutation will be done in Isfahan. And confirmation of it and follow up to it will be done in Washington, or in Arizona, depends how we come to an agreement with the American government. The Chinese community is putting a lot of pressure on Keshe Foundation. They organized part of it, that you have to tell Chinese, what you're going to show, and they are coming to see. I said, "this is not a magic show." This is not, what you call, Chicago Fair, when Edison and Tesla come to show the light. We show, by definition of the technology, a number of technologies. Transmutation could be possibility of ?? one partial production of other things. We are there for defense technology with the Chinese government in part of the structure. In space development, as part of the Chinese agreement we have signed, that we are inviting Chinese military and space people to join, to be in. Then, we have extended the invitation, which is very unusual, if it takes place, to

the American scientists to join us in Sanya. (2:08) The same will go to a couple of other nations. But in a way, we are not a magic show, we are not a conference to do magic's in Sanya. We bring technologies to show, it'll be...

You got to understand, part of this technology is already shipped, since last May to the Chinese, we have shown part of this technology to the Chinese military and officials. We have done a few tests to confirm a lot of things. And so, in a way, is production of the, what we call, conditions, that shows new achievements. And that's depends on you. A lot of Chinese are asking, "Show us magic." We'll come and (I) say, "If I show the magic, I have one billion people sitting there, I don't need you lot to turn up."

You're coming in for the knowledge, you're coming in to understand, and you're coming in to do, but you have to understand a lot of Knowledge Seekers in China come to steal the technology. They are well known of it. We've seen one of the stealing of one of our technologies very recently, and it's on Chinese media. It wasn't there, we showed the technology to the officials, within three weeks, four weeks, they copied it, and they put it as a Chinese invention. We'll punish Chinese for this, heavily. You will understand very soon. What the Chinese did, stealing a technology which didn't exist, and within a few weeks after we demonstrated to the military, and to the government, they made this a Chinese invention, and we punish, in scientific way, the Chinese for this misconduct. (2:10) And they will understand soon how much they lost for this behavior. And they had the audacity to send us a video of it.

But as usual, I have patience, but the Chinese government will pay heavily for doing this, and we have informed the Chinese. You come to the conference, coming to learn about technology, not to steal, and your nation will pay heavily for this job. You lose one part of the technology which brings huge payment for your, what we call, industrial revolution. In a way, you lose exclusivity. Now you have to deal with the other governments who will come out and study. So, expect to see beautiful technologies in China, but don't come there to steal technologies.

Any other question?

Q: ... Would mass transmutation induce nuclear decay? Addition of energy could cause an imbalance to the planet and causing it to split?

K- We have a beautiful saying in Farsi. We say, "What is the ant to make a soup with his legs?" You understand? The energy of the human is so small that doesn't make any difference in the whole structure of the plasma field of this planet, or this Solar System. (2:12) It's important to us because it's our Soul. But we are, as old song say, "We are a brick in the wall." And this is the (Great) Wall of China. How many bricks you (need) to make that wall.

Any other question?

Q: ... Why upon transmutation re-entry, it felt like the body is more ... something loading data, as the awareness returns to the physicality? Thank you for explaining my experience scientifically.

K- It's that 'cry of birth' we have, at the point of physical birth from the womb of the mother. We're aware of life within the womb. Once we go through the birth tunnel, we have to learn a new life, instantaneously. But part of it is settled in our genes, in our information data, how to convert. Our Soul does the same when you go through transmutation. It's not downloading, it's balancing that the physicality can support the information, or the travel you had through the energy level.

And more and more of you will experience this. I've spoken about the cry of all of you, you make that sound when you come back through transmutation. That crying sound, that "Ahh". (2:14) Because, it's in a way, you cried when you were born, out of the womb of the mother, to click on the systems. You go through the same system, physicality confirms, "I'm returned, I'm here."

Have you ever been with a child, you go shopping and you come home, and say, the child walks in, say, "I'm home!" "Hello home, I'm home." And you laugh. And it's that way. You come back home and you announce, with that you call it, whatever word you choose. But yes, you all go through it. It's not really adjusting, it's just accepting what I call, lower level voltage. It's like traveling at 140 kilometers down the motorway and then there is a sign, 30 kilometers, "Ee, ee, ee, you have to get there." And that brings that sigh of awareness. And it's very common, it's not downloading, it's just, what you call, balancing to the new condition. And it's nice for you to explain it, because this is exactly what happens.

The more you learn to do these transmutations, the more you learn the 'art of enlightenment.' I was explaining recently, a cycle of Souls, I had to go through, in contact with, and what's going to happen. And usually when I go through this, in a few time in the future, I am in that position and say, (2:16) "Oh, I know why I saw, or why I was aware of, through the Soul, this will come." And part of this, what I call, Soul transmutation was very, very... it's... it is, because I know where I go, how it's done.

It was very, very interesting. I explained that to one of our Knowledge Seekers. I was in Vatican and the Pope was folding the hats and the robe and putting it on the table and saying, my job is done. ?? But I promised I kept. You can take the stones back. I brought the cycle to an end, as I promised, and it'll be the last one. It was very interesting how sincere the man was, and how the emotion was there. In seeing the, what you call it, the frock to come off, an ordinary man walks out, and his emotion was, "It's for the rest to understand, the time has come." And it was very interesting, how would we, or is it part of the beginning of a structure to come? In time I'll explain these things. And then when you come back to the dimension of physicality, who he is, or now what I have to set up for this to complete. What is left to be done. The Soul has taken the track. Now physical life has to bring the dimension.

Any other question?

Q: ... Good morning Mr. Keshe, there's one thing that often moves me, music. If fields and plasma bring balance to the human body, can they also be conveyed with sound, in particular with music, which already in itself conveys emotions and the beauty of the Creator? Thank you.

K- In a way, yes. But, you can listen to music 100 times, it's just noise, and once the strength of the emotion is the strength of the field of that music, it brings you a new dimension. And it has a meaning. And we say it touches the Soul, but in fact it's being at the same strength. Because that sound is made by matter state, by strings, or by somebody shouting the voice of the man. Matches you, you feel it, you touch it, and then it has a meaning. (2:20) And yes, it does. You just, if it touches, and the field strength of your emotion. Which emotion? Joy? Pain? Understanding the time and nature.

And this, it happens to all of us. It happens to all of us. Some sounds brings back certain emotions, certain reflections of life. And yes, it does. Sound does. Because a noise, a sound in music, covers many spectrums. And it just needs one of them to match. It's like a virus. If it's at the strength of the cell, it attaches to it. Music is a sound. it attaches to the emotion which has dimension with it. And then you might get the hair raised or tears and the rest of it, which becomes a sign, what you call it, the by-product of that emotion. We all have it, but how we sense it?

I get this quite often because I travel quite a lot to Central Vienna and... Every time I go to the central Vienna, there is a place in the center where the horses are in these carriages, go around the city, showing the city, it's beautiful to be in. But when you get to the center, there is sometimes 10, 20 of these horses. (2:22) And the Viennese horse show, or what you call it, center is on the same block. And this noise of horses on the cobblestones, sometimes it sounds like a march, because they're all, 10 of them, 4 of them, 5 of them are walking to go off, they got a passenger, they get off. And it brings back to me, I don't know how it does, what connection is, I never understood yet, marching of the German army, which we hear, the way they march. And don't forget, this was the center of the, what we call, German structure through Hitler. And, it's amazing, I have the same feeling, on one street in Belgium. And I have the same feeling, the same emotion in Nuremberg. Part of Nuremberg, when I walk, there's a cobblestones, and this brings the same emotion in three different places in Europe. And it's very hard to understand what it means, what it touches, why it brings, it just brings a march of German army into my head, the way we hear it, they marched, and it's just a noise. But this noise at that frequency creates a given emotion, which sometimes I have to understand what it means. Why does this noise means this to me? I stopped going to Nuremberg, because it became too strong for me, this emotion in Nuremberg.

And, what does the sound mean? (2:24) The music, the level of it? Is it an imprint of what I've seen in music? So, is it an imprint of being there and connected to something? And it's the same, what emotion it creates. And, I heard many time, I've been on carriages from when I was little boy in Iran. Never had that feeling. My mom used to enjoy taking

me on carriages to see Tehran. And it was something I always looked for. I didn't want to go with the car, I wanted to go on the carriage. And the noise of the horse, the clomp, meant a lot to me. In, never had, I was a pleasure, but this sound, it's the same animal, the same hooves I call it, but it brings a different emotion and strength. And, this is what we have, it's connected to our emotion, it's connected to our Soul. But we have to find out where it's connected to and why.

Any other question?

R: ... You were talking earlier and in a previous broadcast about how you're creating Cosmic radiation and you're very clear to say, not rays, not Cosmic Rays, and not fields. So, can you explain a little more what you mean by Cosmic radiation, how that's different than rays or fields?

K- Fields is collection of rays in a way, or a field, or a ray which has a structure of strength. (2:26) Rays is in a way, in one direction, and as one ray, as one strength. Radiation is created out of interaction. But this is very, very clear in the world of Creation. If you call it, Earth is a, if you consider it, or the Solar System in the Galaxy, is like a field. The C14 is a ray, but interaction of the C14 with the fields of the Solar System, creates a friction which we call it radiation, or Cosmic radiation.

It's an art to create it, it's an art to detect it, and it needs a lot of visualization of how you create that condition. And, radiation we usually use is mono-energetic, and very much like a laser. A smaller bandwidth of strength. Ray has a slightly bigger and field. It's a volume of it. We produce Cosmic radiation at will, the body of man does the same and we know the process. And we create a field at will at the moment as well. The knowledge of our Knowledge Seekers has reached the point that we can create all three simultaneously. (2:28) In the advanced Space Technology we have passed using ?? answers we have reached creation of the fields, which is a massive step in the science and technology. And it'll be shown in Sanya, for sure.

Any other question?

Q: ... In the Bible it says that death will be coming out of the graves. What exactly does this mean and how do we interpret and understand that?

K- Who wrote it? Who wrote the Bible? What it meant in the Bible? And whose Bible? And what was the purpose of putting it there?

Any other question?

I'm not a believer in what you call, 'what is written in the Holy Books,' because it's all written to fit. None of it has been, or very small part of it has been, deciphering of which side, which part is real, is a different thing. As I said to Knowledge Seekers, I go for a history. And history does not lie, because it's written by many, and it can be confirmed by many. (2:30) One man writing does not make the history, but what is done by two or

three, simultaneously, at the time of occurrence is a better indication. Men have put things in to fit them. Men have brought things to fit them. And men have done a lot of things to fit it, to a lot of things for the rest to ?? believe. And Christianity is one of them, which is full of it.

Literally nothing in Torah is real. Torah is a storybook of many old histories brought back into one history book and given one name for them all to fit. It's actually, if you read the historical time of Torah, what you read as a Torah, is the history of the, what I call, 'grandma's chat,' which has been collected by who said what, and could have had one beginning, and then built up and built up, and it's become the Torah. There's no, nothing, we.

There's a big question mark, in the actual truth, about the whole real structure of the Torah. There was a guy called Moses, he did certain things, but the rest of the book is just made up from history. You are from this village, you brought part of your history, you elaborated, and instead of Mr. John, you put Moses in it. The other guy came, (2:32) he saw an apple falling, rotting, and the worm came out of it, he changed it to this and that, put a Moses on it, it became a Torah. And because there is no historical background to it, but you see it's all, it's all bunch of, what I call, lies, or lies in a way of stories of the time, changed too. Because it had to be made to be fit, for somebody to be good. And this is the same with all the religions. How? What is being written? What is... where it fits, if you look at it, in what you say, the race comes out of the ??, ...

I tell you what, in English we have called, we call it, as most of you know, it's called "the last bell." The last bell was that those days, they didn't know when you were actually dead, so they used to leave your body on the table for a few days, and if you didn't move anymore, they buried you. And then sometime in the future, when they came to dig the graves out, they found out the guy is not the way he was left to be dead, actually he was alive, and now he's trying to dig himself out. They connected the rope to his toe, and they put a bell on top of the grave, and somebody sat there for a few days, that if he comes back, he rings the bell, and they jump in and get him out.

And now, if what happened, a guy dies and alive, they bury him, and there's no bell, and that Soul has to come out, leaves the body, because, just because you thought he's physically dead, he's not dead, now dies in the grave, and the Soul comes out. (2:34) Would that be that meaning? The people who they buried by mistake? Or does it have another meaning? Even today, in modern medicine, every now and then it happens. Somebody that was in the mortuary, all the electronic says he's dead, he comes back. And they hear kicking and bashing into what they call, in the mortuary. Is it that? Are they trying to tell us? They were aware of some people being buried alive, but they put it in different form? This is all part of the... who decided to have a say and... Oh, you know, I managed to get a paragraph in the Torah. I get managed to get a story in... a story of the Bible. And this is what it is. Written 3-400 years later. Most of the people who wrote or told these stories to be written by order of Kourosh, they didn't even come from Palestine. There was no chance they could have ever met Moses. Or Jesus. Impossibility. But now they say, "Story about something, somewhere."

To read about Christ, read the historical books written at the time, during that time. And then you'll see if there is any references, and if there are any magic's, anywhere written by anyone. The rest is grandmothers story, which she made it into the Holy Book. And I can pick up story after story, (2:36) and tell you where it comes from, most of it, how it was put in.

In a way, if you look at Torah, Kourosh got it to be written to celebrate Jehovah, the God of, what you call, people of the area, and with it, in writing it, they praise him in the book he got to be written. It was a self-praise book. But it had to be put a lot of other things to it, otherwise the Torah did not exist before Kourosh, in a shape or any form. And, it is one King writing something about another god, that praises him for being there, doing things. Even though a lot of it was done on a goodwill, And now it's become the ?? pattern and the rest of it, to give the right to. And we see, they haven't changed, it's still 3 or 4 thousand years, they still do the same, what I call, ?? massacres. We see in Gaza, as they've done in the time of the guy, and we've seen the same by them in the past decades and centuries.

As I said before, if we do it, they say, they've done it, when they do it to themselves, nobody can be blamed. And with what's happening to, in Gaza, you will see the end of the state of Israel, by themselves. You'll see, it's coming up. (2:38) By the conduct of the misconduct, by the same as done by Moses, they became Bedouin, and they were left in desert. Now, Netanyahu is doing exactly the same. Because it's the behavior and you see the end of. They'll become nomads again, they do it by themselves. And you will see in coming time. In coming time, I advise the Iranian government to take a step to do it faster, and they're sitting and watching, but they do it to themselves. The way Moses brought with his behavior for... to become nomad, this situation will bring Israel to that point. In a way, they've been trying to destroy Palestine, they destroy themselves. But because they do it themselves, nobody can... and we'll see the end of Judaism. It's come to it's full cycle, it's the time. And they do it themselves.

When you kill 10,000 children, snipers, these Souls has to be answered to the suffering mothers and father's Soul. Excuses does not give a reason to. And nobody could do it better than Netanyahu. You will see the end of Judaism with this, because a lot of Jews will walk away from it, because of it. And you'll see more and more nations will turn back on, and sooner or later, we'll see they've done it themselves, by their own behavior. By the misconduct of the way they were taught to. They made the same, same, same mistake. (2:40) And we saw what happened when Moses was there, this guy has no Soul, so imagine what happens with the rest of them ?? with each other.

Any other question?

Q: ... (not clear .. She talks about her dream .. a doctor who was torturing people. In the end Mr. Keshe was silent) So last week, you know, a lot of time I talk about the dream and those strengths. So this time is a little bit different and I know there is a meaning. So I'm saying if I make the said I'm sorry before I'm saying sorry before that. I saw last

Saturday, Bengali teaching about that. I saw a doctor, famous doctor, (2:42) he's a good doctor and he's like 65 years old, strong, and like height is more than six feet, healthy. Maybe he's going to live 100 years, who knows. So everybody knows he's very good. So, it is the real life. So, I saw in the dream, women in the big house, there is a big, big living room type thing, very big, like a palace. And then, they are torturing the man, tied the man in the ... like a bed and then... and then I was panic and ... in panic and ... and suddenly the dream somebody ... the dream. Like ... I felt somebody just moved me from this to ... And then I saw that normal dream, like everyday life, we like those kinds of dream. And then again, that mean that dream. So that time, I'm a little bit mentally strong. So I try to feel those women, they are doing that to that man. The women are tall too, those are two women, like white too, and those are tall, strong, but skinny women. (2:44) And they're 35 to 45 ?? in between. So I heard. And then I didn't feel them anything, just they want to do. They don't have any emotion. It's like a robot. And then they try to punish that man because he did a lot of bad stuff to ?? And we don't know. But they know they're doing their part. And then I had to feel that man hurt. And then I felt that... like people, normal people. But he knows he did a lot. So it is his punishment. If he wants forgiveness to them, they're never going to understand. So he will get his punishment. So that was bad. I know there is a lesson. I think in the future, power and we need to forgive the... I think so that was the message. So, I want to tell you and I want to tell everybody. Thank you.

K- Thank you very much. Is there anything else Rick?

Q: ... Just for clarification, recently on Internet media of China, it's widely reported that the National University of Defense Technology of China has invented a cutting edge technology, (2:46) which they call a 'plasma shield.' A lot of bloggers have made videos about this technology, and many military fans and young people are very excited, because it looks like a technology that only exists in science fiction movies, and it comes to be true. Is this the reason that Mr. Keshe just said that China will be punished scientifically?

K- The punishment for what you say, it's not going to do this. It means, we share the knowledge. There is a number of steps the Chinese have taken. We have shown openly to them the technology and they think, they have... We do it now, they can copy it, instead of following what was agreed. So, it's not balanced. And, it's not correct. You got to understand, these technologies never existed. How come suddenly in the past times, where we show technology, suddenly appears?

There is a need for correct conduct. Technology is there to come out. Technology is there, is not there to be stolen to come out. And stolen means without our knowledge, without being there confirming the technology. And this is a habit of Chinese, because it has to be Chinese. But you have to understand, what is taken, or hidden, or what we call stolen, comes with no blessing. (2:48) And this habit has to go out of this nation. Pride of nationalism has blinded the man to the lies of action. And Chinese will face that. They got away with it a lot of times with the man. This time with us, their own conduct will not ... will be left ... what you call it, to carry on with it. And as I said, there are two or three

technologies, which we have shown, never seen, and within weeks they come out, they say it's Chinese.

I met one of the Chinese scientists prior to what I call, the Corona session. I was invited to one of the top military shows, what they call, scientific exhibitions in China. And when I arrived they say no one can come in, no foreigners can be in this exhibition. We were invited officially by the officials. Later on I found out why, because part of the Keshe Foundation technology was shown there and they were showing it, and they didn't want us to say this is our technology. But you have the very interesting effect, because I was there by invitation, standing at the entrance door, they had a hullabaloo that no foreigners can come in, and I saw two, three Americans standing there, I think I explained this before, and they told me to stand against the wall, right against, opposite the entrance, that I don't see anything. (2:50) Now I found out in the past few months, when we go back to China, that they're actually showing a stolen technology from Keshe Foundation. That's why. They were shocked that I was there, they didn't know one of the scientists has invented it.

And, there were these two, three Americans, they were told again, "Stand against the wall." And, as I was standing, I said to the Americans, "What are you doing here?" The guy introduced himself to be the military attaché of the American Embassy, he's come to see, and they want, it's the first time they don't let him in. I said, "Do you know who I am?" He says, "No." I said, "I'm your ?? mentist, with my technology." He said, "Oh, you are Mr. Keshe, we know you're in China." I said, "Would you like to talk?" We organized to meet later on, in an empty restaurant, which was very unusual. And, that time, it didn't click on me, why suddenly, receiving the official invitation to go to a military exhibition, which was highly confidential, having a national clearance, I have a full clearance at the highest level in China, to deal with the military, and should be no where, that I could be not allowed in. And, after it's Corona, I found out why. Because, they were showing stolen technology of the Keshe Foundation, and they couldn't say it's theirs.

And, this habit of China has to stop. And the only stops is when they find out they are not the only one. And that's their punishment. Trying to rapid develop, you don't steal. And they have this habit. They've done it in agriculture with us, they've done it in Corona with us, they've done it in Space Technology, they've done it in Gas production, (2:52) they've done it again and again. And then when we caught them, told them, (they said about us) "You're a spy in", they accused of being a spy for Americans. I said, "Now you play the game straight."

And yes, ask yourself, how come China didn't have it six months ago, a year ago? And suddenly, now they have come up. But, they don't understand the essence of it. It is walking with three leg missing of a dog. And we have established a system that Americans, Iranians, South Africans and the French will face China in a bigger way, on equal term, and this is good in a way as well. Their behavior of stealing technology is getting, what you call it, furious. Furious ?? a lot of scientists outside. And I've come across a lot of them doing doggy things, trying to get technologies. You got to

understand, China is facing a massive internal financial position. And anything to keep the nation running at the moment is more crucial than anything else.

And I keep very quiet because we're too close, we work very close with this people. And yes, one of the reasons on this is, ask yourself, how come they were not there? And every time, after we show things physically, a few months later, a few weeks later, they come up with. They went to our Knowledge Seekers, prior to Corona, beginning of Corona, saying, "We know you are a student of Mr. Keshe, come and work with Chinese military to make the Gans's for it." And two or three of Knowledge Seekers who are listening, they said, "No, we are his students, we stay loyal." And couple of our Knowledge Seekers, they went to become millionaires. (2:54)

But, look at them, they're listening. What's going to happen to your children in Canada and United States and your family, and how you're running into a problem everywhere. Your Soul is balancing the books. If you haven't understood up to now, soon you'll understand. We have no problem, I don't go and take them to court. We brought the knowledge to be shared. Abusing it, stealing it, it's... you have to learn. Pretend to be a correct, and underneath of it, to steal and be conducting correct is, it's like the adultery. But in time it will set itself. We wish them all the best. But they find out what they stole in plasma, they took a crumb, but they lost the cake.

Any other question?

K- ... Our Iranian team, who are coming to Sanya conference, bringing with them the celebration table of the Iranian New Year, which is on the 20th of March, that we celebrate together. So, you will have a full Persian, Iranian New Year table to celebrate with all of us, fresh from Tehran.

Q: I hope this year will be a very peaceful year for everybody. ... I was thinking that maybe, like in Koran, (2:56) it starts every teaching with saying, in a chapter with, "In the name of God who is enormously giving and enormously forgiving." So, it means that, I think maybe the idea of punishments, is again out of kindness, out of love.

K- We call it a punishment. I call it a punishment in a way, the punishment comes from not receiving, and not punishing the way you say in common language. For some, not receiving the love given to them is more punishable than receiving the love, and not knowing what to do with it. In 'balancing the book' by the Souls, by behavior, without you doing anything wrong, you do everything correct, is a punishment by the STP. When we talk about punishing the Chinese, the punishment to me is not going to do damage to them, is actually sharing the knowledge with more people. That what they thought they had exclusive, becomes no value.

Generally speaking, it's the same in Koran. In the name of mercy and merciful God. But, sometimes when people receive too much, they forget what they received. And, this is not, not getting, even it's on the table, you can't, you know, it's like, you like a food, (2:58) but unfortunately you have a food infection, and the most delicious food you love

is on the table, you cannot touch. You understand? It's not that they haven't cooked it for you, it's not that they don't do it because to punish you, it's there, but you cannot touch.

And it's a very painful feeling. I know this feeling so well, I learnt it when I was a very young boy. And it's this time of year, exactly this time of year. I used to consume a lot of sugar, I was highly hyperactive, they couldn't stop me. Everything game in the world I played, day and night, from 5 o'clock in the morning, till 11, 12 o'clock at night, they couldn't stop me, it was just like a bullet, bullets everywhere, playing everything. And I got injured in football. And this injury came to a point that we became infectious. I hid it, but somehow my parents found out, they took me, not just now, just 2-3 weeks before 8. Your doctor said this can lead to amputation, but it has to be done something. You cannot touch no sweet, nothing for three months, to bring the sugar balance down, and we see if the leg can be saved, that the injury can be sorted.

Now, you understand, it's no rules. Everywhere you go is sweet, most delicious sweets. You know the taste of everyone, and you have to sit there and not to touch. And I understood fully the statement of the punishment. It's not that they are taking it away. You're not looking after yourself. You bring yourself to that point. Not doing the right things. And it's a self-punishment.

And this is how the Creator is. (3:00) Provides everything. It's you who deny yourself in accessing to it, even though it's there. That's to me a punishment, when I talk about punishment, we're going to hit you, we're going to... No, no, no. We make it so much available that you cannot even touch it, and that's your pain. Understand the misconduct.

Q: Yes, or maybe educate them, like I had imagined that those who are done very bad, God make, they become like, like nothing, like a dust. Till, a long time, million years later, they become, they, they go through evolution, and they become educated to become a human being again, or a life animal. So, it takes time that they educate, it's gained it in the process of education.

K- It is process of education, but when you don't have the education, it's very hard to teach. This is the problem. You know, I wonder what happens in the name of the other people. There's a lot of videos on the Internet, you can watch about the, what you call, the tribes in the jungles of Brazil. No one has ever been in touch with them, there are small tribes, 10 people, 5 people, 16 people, 20 people, they never seen man. They still are in arrows and that kind of thing, and now, not to intrude, not to put, what we call, mercenaries (missionaries) in, the scientific world is using the drones, to video them from distance. And they see this, to them it must be a UFO, aliens coming to get them and they try to hit them with the arrows and the rest of it. (3:02) But they don't understand it's a little man made things and it has a battery and he can fall and you know, the rest of it. Because they don't have the knowledge. And we watch them, it's the same.

Man does not have the knowledge and this is their problem. It doesn't mean that the knowledge is not there, just because they live in the jungle with the arrow. Human race at the moment is those people in jungles of Amazon, where they... you're not even the

arrows, they still can throw stones. And, they don't understand what's above them watching them, and what will be the future. And would they understand the future?

And we see this now in the structure of the, for example, Chinese. Chinese at the moment are in such a position that they're striving everywhere to bring some balance. Economically, the situation is not what it looks outside, politically is not what it looks outside. And how they try by stealing other technologies to show they're advancing to do this and that, back for a few of the Chinese, but those who are behind know it's a stolen technology.

And this is one of the biggest problems we see, is with all the nations, not just one. But, the punishment comes by their own structure, by themselves. I use the word of punishment, ?? we're going to do this. No, the punishment is what was supposed to be exclusively yours, to develop it fully, you took it and gave it to ten Chinese men, (3:04) who understand 1% of it, they think they ?? found ... Now 100% goes in the hand of the others, you find out, "Oh shoot!" "Why didn't we do it properly from the beginning?" And it's their problem, not ours. We don't stop collaboration.

Actually, the more they leak, the more allows us to open the technology to the others that they find that they have nothing. We haven't stopped. We would have said, "No, no presentation in Sanya, blah, blah, blah, blah, not here, not there." No! We show more for them to learn to be correct. Then one day when they learn correct, they get full knowledge. This is the beauty of it...

Q: ... We learn from your Soul teachings, we get the confidence, and we get out of the confusion of religions, and we can understand even the religions, the way it is correct to understand. And the places which are not understand, we understand it. So, it gives that confidence, that everything is okay, the challenges are okay. It's for me to better myself, to correct something, to go in front, in a way. And, that's a beautiful life you offered us, in a way, all the time, to be in a, in a happy, happy, happy state of Soul, happy state of life.

K- In a way, happiness out of correctness. It's in a way, if you do something for the betterment of more than you, it comes back to you, in so many ways. (3:06) And I learned that in my business life, I learned that in my private life, I learned that in, even the teaching of the Keshe Foundation. And I set this through personal, what you call, emotional feelings, even during my business time. Because, when I felt something, it was so strong, that I didn't want anybody else to feel it, and it brought me to verge of being killed, destroyed and the rest of it. But to me it was irrelevant, because the principle of, not under personal feeling, but I felt was more important than me.

And it's the same, sharing the knowledge that more people find a way out, is more important than you. And I learned that in a very... in a beautiful way. In 1980s and 1990s. I was traveling quite frequently around the Europe, around the World for business. And I booked my children to go to our Italian hairdresser, on a Saturday morning at 10 o'clock. They always been there from their childhood. He was somewhere, and the hairdresser

was, and the hairdresser of all the players of Manchester United, it was an private, so they could see the idols when they were in for a haircut and everything else, and it was very private.

And that weekend I couldn't be in Manchester, I had to be somewhere else, and at ten o'clock in the morning, and suddenly the news came that was a huge bomb in Manchester, in city center, as we all know what happened, the whole city center destroyed. And where they (family) were supposed to be was less than 50 meters, maybe less, or where the bomb went off. (3:08) (silence) You don't know, if you send your children to death. I called Downing Street, I said, "I want a clear answer." Downing Street says, "Mr. Keshe, stand by, we don't have news from Manchester, we are just working." I called MI5, I said, "I want an answer." MI5, the head of MI5 said, Mehran, just step down, we don't have answer, you have to wait, because we can't leave knowledge out. 5 o'clock, 6 o'clock in the afternoon, MI5 called me, said, "Mehran, your children are not in it." "There's no..." But I said, "What about my wife, they were supposed to be together?" He said, "We cannot give you an answer about your wife, just your two sons are safe." I called Downing Street, I said, "I want an answer, you have to respond to me. You're not letting us to fly in to be in Manchester, you closed all the airspace, everything we ?? could have fly in." And, late that evening, I received a call from MI6, head of MI6 saying, "Mehran, your wife is safe, nobody's been hurt." And somehow they couldn't get in touch, I couldn't get in touch with them.

I, years later, came across through my business, that in Southport there is a bridge, those who know from Southport University, coming into Manchester. I had a meeting with MI5 and MI6, we had to walk on the bridge, because nobody could hear or hear whatever it was discussed. (3:10) It was the situation of Northern Ireland, and the British officer told me, "Mehran, you're accepting a lot of responsibility in coming into this, to support that we can bring an end to the Northern Ireland situation." I said to them, "Yes, I am in." They said, "You're not even British, why you fighting it?" I said, "You don't know what happened to me when Manchester bomb went off, And I don't want no parents to feel what I felt. Let's do it." In that talk, on that bridge, within days we started stripping IRA and the rest, because there was a commitment, not to let another father feel what I felt for those hours. And because it was sincere, Downing Street always said, "It was one of the biggest helps we had to bring situation on Northern Ireland to an end." We planned, we stripped IRA and the other side from every penny we had, they had. And we did right in front of their eyes. And they all knew, everything ends up in my offices. It wasn't that there was something secret. They could follow where they were stripped of. And at the end we won. And now today we have no bombs.

You got to understand how many bombs, they've been at each other's throat for 300 years this lot, killing each other. And with knowing how I felt in Manchester bombing with my children, it brought me, a few months, few years later, to be able to be part of. (3:12) And, when it was done, it brought huge financial rewards for our organization, for our companies. Untold financial return, but it didn't matter. Never thought was, that time we didn't even think it'll be any financial (gain), it was just a matter of getting done in this

everyday bombing, and parents losing their children and everything else in other cities and in different part of Northern Ireland.

And this brings a commitment. This brings a commitment to serve, irrespective of what could be consequences of it. If it helps the others. And now, 25, 30 years later, we see how peaceful Northern Ireland has become. There is no more bomb, you don't hear, there was every day a bomb going out, mother losing their children, and parents losing their loved ones, and the same. This is something I've been committed to for a lifetime. Not just because it brings you, it just serves the other not to go through what you've been (through).

I remember the fear face of my five officers on the bridge in Southport, saying, "Mehran, they can kill you." I said, "Let them do." If it stops another father suffering, it's worth it. The hugs we got each other on the bridge, some people must have thought, "These people are crazy passing by." But it was decided and it was executed to perfection. (3:14) And we see 30 years of peace. It's for me the way of living. It's not just to say and ?? go (or do).

K- ... Thank you very much for today. We're still back about our slavery program, as our friends said it is. You can register for, what you call, Arizona. We are not changing anything, stays the same. And you can still register for Sanya, if you want to join. I know the Germans are meeting tomorrow, or so, to send three people. If you send people from communities, the entrance fee is waived, you just pay for the hotel and the flight of the people to Sanya. And, if you can afford more than the three, nominate somebody from another nation who cannot be there. And those of you who are with us tomorrow, I hope you have an enjoyable trip. It's going to be a fantastic time tomorrow, for many of you. Thank you very much Rick, and see you tomorrow or next Thursday.
