

GAZA Help: release KF Technology to Palestinians under fire

Mr. Keshe has asked all Knowledge Seekers to help find Palestinians to use the Technology for food and medicine - Emergency Relief.

Please respond immediately !!!

(Excerpt from 527 KSW transcript starting time 1:15 to 2:01;
Not officially check by KF. Interpretation by KF Brazil).

Quick Index - Excerpt of 527 KSW

(We have set out to become what we call, 'One Nation, One Planet, One Race.' This means each of us is responsible for each other as One Nation. For example, when there is a natural disaster like a flood in China, then all the Chinese forces gather together to help their own nationals. But now as One Nation, we are responsible for all the citizens of this planet and we each have to respond in times of emergency).

(For a few weeks some KS have been working in the background to help with the situation in Gaza. We see that the Palestinian government is not doing anything, so now it is our responsibility to use our knowledge and technology (T) to help alleviate some of the problems in Gaza).

(As part of One Nation it's our responsibility to feed and supply medicine to these people. For the past few weeks we have been working to try and open channels through a couple of governments to support, not the Palestinians, but people who live in Palestine and are under heavy bombardment, and have no food, water, or medicine. And I traveled to Vienna on Monday to meet with the representative of the Palestinian government to open the door for KF to use its T to deliver food and medicine through the telephone lines to Palestine, so that there will be no hunger and we can support those who are sick with everything they need from painkillers, antibiotics, to latest medicine which KF has at its disposal. We can deliver it directly to the hospitals. Nobody can stop the delivery. All the people need is to have a mobile phone and they can call into our system from Palestine and be fed and receive medicine. This is what we have been doing every month for more than a year now in our Monthly Flight Sessions).

(This is also part of the Ethos of the KF and as we can feed man in Space we can also support him in times of need on the planet. When I went to Palestinian delegation in Vienna the first thing they asked me was how much money I was going to give them, and here is our account number. They wouldn't even open the door of the Commission. They are only there to collect money. They said if you want to help with anything, go to Red Cross. I said, but it's your nation. And they said, oh, we have nothing to do with that.

What a sorrow I thought, this is not a war, it's a money mongering. Then I set out to connect to other Palestinian groups by different routes and we are establishing a link to them. Our KS have been busy making all the materials and everything ready to support and feed the Palestinians online. We have to deliver it because we know it works and now it's an emergency situation in Gaza. Starting on Monday the KF will open a Zoom link through the telephone lines into Gaza that can accommodate up to 80,000 people. They only need to dial into our line and they will receive 'food' and 'medicine' free, without charge).

(We need you KS to help us find the Palestinians who are actually in Gaza itself, to call in and receive the energy. This is only for Palestinians who are in need in Gaza, not in other parts of the world. Please do not try to come in and test it, you could be affecting the life of a man in Gaza who really needs the help).

(If you know Palestinian doctors or are connected to groups that have access to people who are on the 'front line' under fire give them the telephone number and let them test it. We have made a feast of fish, meat, chicken, vegetables, bananas, antibiotics, painkillers, anti-inflammatory, and everything else we could gather to be available on Monday morning. You claim to be a Knowledge Seeker and now it's the time of disaster and it's your responsibility to help. We still need donations for funding this project, which will run into hundreds of thousands of Euros. We'll bear as much as we can. But we need you to find the Palestinians to make the calls to our system. Gradually as the word spreads and more and more people come for help and it will build up, we should be able to support 1 million Palestinian in a month's time).

(If we see anyone coming in from places other than Gaza we'll disconnect you, and you'll be blocked from all KF activities and teachings. The materials our team is producing should be ready by Sunday night and 9 AM Monday morning we'll open the lines. Try to find as many Palestinians in Gaza as you can. Not Palestinians from somewhere else, or somebody who's sick in New York, they have all the facilities there to go to. Look for doctors to connect with. This is an emergency setup and not there to be stolen from. It takes a lot of energy and work to do this. While at the same time we are preparing for the Sanya conference. This is additional burden on our team, but we have accepted it because we had to take this step. Israelis sharpshooters are shooting the doctors, so that the sick people will die. This was never done in any war before, not even in the Second World War. The Israelis are committing genocide against the doctors and medical people. This is taking place today in Israel. They are deliberately shooting doctors and destroying hospitals. (But as the Press is controlled it will be hard to understand it). We said that we want this T to be equally available to every man on this planet, even in the remotest parts).

(Over the years we have brought in the Gans's, MaGravs, C14, and now Cosmic Rays. It's time to deliver the T where it's needed. There are hundreds of thousands of children sleeping hungry, because of one man, (the Prime Minister of Israel) has decided. There are hundreds of thousands of people wounded and they are prevented from getting access to antibiotics and painkillers to reduce their pain and stop the infections that can kill

them. We have to test this knowledge we brought, and today is the time to do it. The KF is ready. But it is your job to find the people in Gaza and get them to call in. I have done everything I can and I will still do everything possible to connect as many lines as we can with the Palestinians. Once this takes hold and people see the results it will become like a 'virus.' Please do not try to come in and cheat, because your family member is sick or whatever, and you think you are justified to use the KF T. I'll tell you why it won't work, because it won't carry our Soul. And 'thy shall not steal.')

(It's good if the Palestinians organize themselves to go online for 15 minutes each day to get what they need. They should try to come at the same time each day together with their families. We can accommodate 80,000 a day with our present system, but the Zoom channel only allows 1,000 people at a time. We expect the numbers to build up over time. Find Palestinians that are active in Palestine, and not just a bunch of Europeans shouting things about Gaza. We'll give the Palestinians the number to try it and then they can pass it on to each other. Our IT team will make everything fully operational. We are here to deliver the power of the technology).

(We need your help by donating your time and finding and creating the connections to Gaza. You can make connections with people from Gaza through the Internet. Give them the number to contact us and we'll explain the rest to them. We are not afraid of failure. We are more ashamed not to be able to help especially since we have the T to do it).

(If you're Jewish and you really believe in (the essence of your religious belief's), then you know where to find the Palestinians and you have friends there, you can open the line to help them. This is not a 'helpline' for the Jews you already have the best hospitals to kill yourselves in).

(We have announced our support for the Palestinians in Gaza to the officials of the Iranian and American governments. We are not doing anything, but to help those who are in need. One day somebody might come and say to you, that they had no pain and they received the food energy through the telephone line. It was because you as a Knowledge Seeker made it possible. I am providing the T and making it accessible to the Souls. But it's you who has to do the next step to delivery it).

(Once this crisis is over we'll switch the lines off. We'll also report to you how many people have used the system. Our failure is your failure, because you have to establish these connection to the people. You donated thousands to KF and supported us in every shape and form. Now we call upon you to donate your time to make the connection to the people so they don't die).

(They have 'doctors without frontiers,' now we have KF T without frontiers for food and medicine. I hope you KS will support this and we'll see what the response is. The so-called Palestinian government is not prepared to help their own people unless we pay them cash in their accounts, so they can put it in their pockets. We've heard that the head of Hamas has \$5 billion cash in his private account and is living in the most luxurious places in the world. We have a little money, but we can do a lot. We still need huge

financial support that could go to one million and more to maintain and support this project to help the Palestinians).

(Let's set this up now so when the next earthquake, flood, or tsunami hits your country we'll be ready. The people around the world will learn that this number is there for an SOS, for food, medicine and energy. It can even help with psychological damages from these kind of traumas. I thank you in advance. The KF team is doing everything we can. It's the responsibility of you KS to carry it forward. After all, it has been your wish to be 'One Planet, One Nation, and One Race.' Our 'One Nation' is now in dying need for support of one million women and children, and others who out of no fault of their own have become trapped in this situation. Thousands of women and children have been killed. These children will be brought up over the next 30 to 40 years without a mother. And the fathers will suffer with the images and memories of their children, which the bombs paid by the Americans were used to kill them).

(One day justice will be served, and that day is going to be very soon. It's not just the Israeli prime minister who will have to go the Court of Justice in Den Hague to receive his life sentence. It will also be all those who supported him and provided the money and weapons to create such murders. One day you'll understand when I say, that the end of the nation, and the race of Moses has come, because they will do it with their own hands. During the Second World War the Jews tried to hide their names and the 'yellow star' on their jackets, so that they wouldn't be killed. This time they'll hide it and want to forget about it, because they are ashamed of (what they have done as a nation). I thank you very much for helping us. Don't come and say, I found this group of people and here you contact them. It's your job to personally get in touch with them and find out how to help. Make sure they are directly connected to the Palestinians in Gaza. And then we can feed deliver medicine to them. We'll have manual in Arabic and English and you can give them the link. We'll give them instruction on how to use the headphones. They can also read the instructions to be sure. They have the right to food, medicine, water, energy and everything else like all the other people on this planet).

(We are not entering into the world of medicine and medication. We provide the energy which is available through understanding the science of the man. We do not need a license as it is the essence of everything. We have the T to deliver the energy of it. We have already done it and know exactly how it works).

(It will be a pleasure to save even one life, and take one Soul out of the physical pain with our systems. It's your responsibility to help. This is the beginning of the opening of KF internationally to those who understand. In the future, we'll become that '911 emergency call' for help for humanity. Maybe after the Gaza situation we'll become a source for feeding the homeless and the rest. But we'll need a huge amount of financial support).

(We are not allowing any government to dictate to us how to develop the next structure of One Nation, One Planet, One Race. We've been here a long time and Gaza is our test. It doesn't matter if you're a Jew, Christian, Muslim, Sunni, Shia, or a Buddhist. What matters is that we are all humans and our children are suffering. A child at the age of one

year doesn't yet have a religion, or believes in a God, because he hasn't yet come to understand the fallacies of the man. We ask for your support to bring us to this new position).

(Mr. Keshe took a call and had some good news. We'll see a future collaboration with one of the nuclear powerful nations of the world, as they have agreed to support KF in many aspects. It has been very crucial for the future of the KF to receive the support of a government. We'll see what the future brings).

(Try to find connections even through the Internet to Palestinian companies, factories, and offices in Gaza, if their phone still works. Try to reach them one by one. We'll get the support of KS who speak Arabic to help with the communication).

(I especially thank our team in Austria who are relentlessly developing, working, and changing things every minute. Even some of them are of the Arab background, I thank them for all their work).

(The Wellness Center in Germany with our doctors had some success on with emotional and psychosomatic conditions. Now they will accept 20 cases of Fibromyalgia, Depression to confirm their work. Get in touch with them if you need help).

(We have to double check our systems to make sure they are 100% correct and can handle the work on Monday morning. We don't want the systems to crash and we have enough material in the background to support it. The people don't believe it, but once they start using it and see and feel its benefit the numbers will build up. Don't expect that just because we have something to help them they are all going to jump on it. No .. because it's the nature of the man (to be afraid of something new). The numbers will build up over the next weeks).

(We'll try to open a Palestine group on Telegram by Monday and get the Arabic speaking KS to become part of it to respond to the need. We have to build the trust. We are not going to be successful every time. Some people might not be able to connect to it. But the ones we can help is what counts. Be prepared for good and bad. There may be people we'll try to help but they end up dying, because the timing was not right and we arrived too late. We learned this in China during Corona, when KS lost their loved ones and relatives, because we got there too late to reach them. This is a time of disaster and we are there to respond. It's the first time that we have put ourselves to the test and we'll try everything to succeed. But where we fail, is where we have to improve ourselves so that in the future it will be better).

(You all prayed to make 'One Nation, One Planet, One Race,' and this is the beginning of establishing that dream and making it a reality. The people only believe it when they see that we can deliver what they need. We are there to do that, and we are not afraid of failure. When we fail, it means we haven't understood the process. We have to understand it more to make it better. Hopefully, we'll be successful for many to receive help. When a father puts the headphones on his starving child and suddenly goes to sleep peacefully, he

will understand what has happened. Or when the child who's in pain from bomb shrapnel and has received relief through the phone, and can sleep in peace without the pain will make all the difference. This is my job and this is the reason I came here, and now we'll start delivering the T. This is why you became KS. We need you to give your time to help save the lives of children from hunger and pain, as well as the mothers and fathers. If using the phone lines can stop one amputation because of the infection, then we have served our purpose of being here for 10 years listening to the teachings).

(It will start Monday morning when we are fully ready to serve. We'll announce it in 32 languages and then you can immediately go public with it. Send it to the Press, newspapers, social media groups and whatever. You have to explain it correctly. We don't want people coming in for a headache. This could cost the life of a child in Palestine. We'll resolve your headaches and whatever after this crisis is resolve. We have that forsaken man, that heinous man doing this. I call him the 'reincarnation of Moses, a defeated Soul.' This man will go to prison for life. I said to an American very recently, would you do to him what they did with Saddam Hussein? Bring him to a court to prove the genocide? He smiled, 'how can we hang one of our own?' So let's see.

(This is going to be a game changer in T in exchange for peace. The next step for us will be disarmament. We'll cooperate with the Iranian and Chinese governments to bring disarmament in the next two years. We have the trust, financial backing, and with what you as KS are bringing (now), it will make disarmament possible, so that we won't have to see anymore of these kinds of mayhem by idiots).
