adds to; We become knowledgeable of own creation; 20% energy from food - 80% comes from U; How do we know to take Vitamin C etc; Attracts CR; Haven't understood total process - take energy from our environment; Don't take food - take fields of U; RNA adapted process - absorb energy without knowing it; Can see energy absorption through aura - interaction of M fields of Earth & CR with the body; Aura is atmosphere of body in respect to its environment - two environments - fields of planet & fields of Cosmos - where 80% comes from; Eat fruits seasonally - store energy in Liver use whole year; Same with U - certain areas have certain fields not available in other areas - don't have Liver or greenhouses to make all energies; Different Zodiac signs have different fields - cause us to feel and react in certain ways; We react (emotionally) to certain fields as Solar System passes through galaxy which is also absorbing from U; Scientists have to learn about these fields to work with RNA of U; We are part of a larger body in Unicose - like a cell on a toe - galaxies & U make up Liver & Kidneys; U has functions similar to organs in body - receiving and disposing of energies; Unicose - U - galaxies - solar system have similar process like organs in body; All galaxies & U make up bigger structure of the Creation - 'Creator of the Creators'; Persians knew this thousands of years ago - 'Shah' means the Creator - 'Shahanshah' (Shah of Shahs) - God of the Gods; 'Creator of the Creators' means the Unicose; Ancestors had simple understanding of world of Creation; All names for God in Islam - Judaism - Christianity refer to Creator; Made statues to confirm His existence; Lost understanding of Creator over time - became narrow minded - entangled with P; Man is creator of all his organs - liver - a 'god' of his body; Created by other 'gods' - parents; Created out of fields of U - connected to everything by Cosmic Rays; CR are like lymph that connects and feeds all cells of body; Just as lymph travels through body - the CR travel through U; Fields of lymph feed STM; World of Creation becomes very simple; We are one part of one fraction of one cell of a bigger piece of Creator; Outer boundary of U - skin cells - like fat cells under skin; Our U is a cell somewhere in there; Given different names to same thing; Looking for a God to carry on fallacy; CR - CF - STM - STC are all part of understanding the bigger structure; Lymph is like a soup of energies we use to create all the cells - CR are the same for the U; We receive two lymph's - one as CR - other as lymph; Lymph is tangible because of MG fields of Inertia and planet; Another level of understanding about Inertia - salt - CR - emotions then be able to transmute; Then don't need gods; If get hole in skin - brain automatically repairs - blocks area; Different names to same functionality - World of Creation is simple - we made complicated - lack of knowledge & ignorance of Creation; CR & CF same as lymph - spreads and delivers energy - cells take what they need; True science doesn't create atheists - don't believe in religions - we don't become atheists - know how existence happens; Those who cannot understand become enemy - of scientists who explain truth about Creation; Hypocrisy - lack of understanding Creation - brings miseries; Abuse man in name of religion - ignorant to truth - like how taxi drivers cheat tourists; Two people eat same apple same energy - become different cells in body because each use different field strength; CR same as lymph; Lymph has same radiations - B12 - your Cosmic Fields - no difference; Never teach what is not there - said 80% comes from Cosmos - eat only a seed to attract them - bigger plasma of U tries to feed it; Feeds energy balance of DNA of the U within your body; Soul is connected through fields of U - RNA of fields of U in our body; Ancestor's established connection in us - to U; Man has blocked passage to U through own conduct & lack of understanding; Don't

need to be genius to understand Knowledge of Creation - understand field interactions; Understand about transmuting into different environments - don't make yourself wrong - do according to fields of environment; 20% are matter state seeds - 80% CR for Souls of cells - feed STM - connects you to U; Both Energy and P need to be fed correctly - or die; Energy field leaves body take new P; On Earth everything was provided - now you have to feed Soul as energy; Could be dust - star - another creature in U; Transmutation happens at death - don't know where you will end up; Depends on conduct on Earth; Now can use system to see where Soul is destined after death - if don't like change conduct before too late (like Charles Dickens's Scrooge); Create system to hold STM and elevate it to perfection - then make perfect new creation in U; This is work of KF; Some Souls can see future; What CR teaching are all about; United Nations offer DNA test - tell where your ancestry come from; Through CR can trace back to where man originated in U - ancestors are still feeding us with fields; Feeds us through food we eat as seeds - get 80%; Understand purpose of teachings; Go slow - new door each teaching; CR & CF path to find ancestors in U - still feeding through RNA - M fields of U - without us knowing; Same as how mother feeds in womb - by energies; Same way CR feed STM - 'womb' is body - make Soul ready for its next generation; Becoming more mature - understand teachings; Develop T to 'back track' CR - find where energies feeding us come from; Understand how we ended up in M field Inertia of this planet - led to our creation; Understand plasma fields of ourselves; Will explain how to become a stone - or make a living being out of a stone; Combination of energies to create that life; Maybe some ready to understand; Amount of iron in body - size of one nail - make a living man from that nail; How simple life is.

## Part 2

Start delivering Cosmic Ray Plasma materials (CRPm); Value beyond price - worth more than life - future life line in different D; Difference between AA in RNA & DNA; Use different field strengths of CR & CF for different purposes; Can't specifically target - natural process of interaction of our fields; Explains how breast cancer created; Direct emotions to G fields - take fields from lymph create new cell - tumor - done through emotions; We decide direction of conversion - if change emotion - change cancer; We know that RNA is linked to our emotions. How do the CRPm in our DNA and RNA work to expand our Soul? Created out of love between our two parents; Children of love; Same process with cancer; Showed in last Friday's Monthly Flight session; We decide what & how want to receive something through our emotions - connect to fields of Soul - add CR; Same way get Vitamin D from CR and lymph; Use knowledge to elevate Soul; Elevation means to understand more about Creation - not become bigger Soul take over U; Needs understanding fields of U - not AA; When someone dies on another person's birthday - no special meaning; Mr. Keshe tells how his brother Mojhan dies on 40th day of mother's death; Have to read - lot of questions; During birth a lot of energy released - could help Soul to mature and leave P; At death also release energy - part goes to people around us - other part for destination of Soul; Transmutation don't need to synchronize brain - doesn't work that way; Works by expansion of Soul; Change your P to feed Soul & P - through emotion; Confirmed that Soul fed P; Israelis disconnected KF from Palestine - went to next generation of plasma communication - CR & intention - have

reached Soul of Palestinians - they received food - not much medicine; Systems turned off for 10 days during China conference - when returned their Souls used up Food system - millions were fed; We achieved what we came here for; Still feeding Palestinians - now connected to system - receive food consciously or subconsciously; In Friday session - people taking food from system; We are energy in physical fields of brain; On Earth if fall out of plane body torn apart by G-Force of gravity of planet; If field strength changes as a plasma - changes manifestation of P - but still remain a plasma - not torn apart by fields; When M fields change - P manifestation changes; Can remove a Soul by changing fields of environment to another position; Blood confines Soul according to its strength; Move loved ones from danger; Kept Einstein's brain - but Soul left; Lenin - chemicals cannot hold Soul; Have accident - hold Soul - fix P - return Soul; Heart surgery - controls STP; A KS asked if all humans have Souls - of course - without a Soul cannot exist; No Solar System without a Sun; Unless your Italian - Vatican tells you something else; Plasma of C12 interact with C14 - CR create P - C60; Can create a P from a Ray - needs lot of knowledge; Same as going from crystal structure to singularity and vice versa; Cornerstone of knowledge to build Spaceship - from the Rays - no hangars - become a physical embodiment of flight system; World Central Kitchen bombing - 6 killed; He explains in detail critical situation in Palestine; Summary - Israel failed to bait the Iranians into war - went for Vatican; Vatican pays for billions in US bombs to Israel only if they annihilate Iran; America also has its nuclear warheads aimed at Iranian cities as promised to Vatican; They killed another Sepah leader in Damascus to provoke Iran into war; Mr. Keshe advised them not to take bait; His Intelligence reports indicate attack within days; If go ahead Tell Aviv and Haifa will not exist; Iran will be forced to use new technology alone or together with conventional weapons; This war is an end to the 3 religions Vatican - Israel - Iran; Christians think they are protected by financing the Jews to kill the Moslems but all 3 religions will end; He held back Iran for 6 months - but with Damascus bombing it will be hard; New T will change American superiority; Plasma Communication Bundles and UBESUS Headsets ready to start using soon; Plasma communication - cannot get diseases through systems nor heal others - only for communication; Same way dream at night; We have innate ability to absorb fields in womb and in life - gave it up; At birth immediately mother puts baby to feed breast milk - no time to absorb own fields - no chance to expand Soul to feed P; We have proven in Palestine we can feed through UBESUS; In future children learn to use Soul to feed P immediately at birth; Still get love of mother through her emotion; Will teach how to create Inertia through emotions to absorb CR; Needs more teaching - end of year; Through thoughts manifest an entity - through emotions and Inertia; How we create tumor in body; A KS is set to manifest Christ; Pope will deny - end of power; Setting systems for this eventuality; T development moving so fast - if Iran can't show T - show somewhere else; Wait to see if in transmutation the cells open up become transparent - go from matter back to plasma; More about attack on Iran - Damascus was fully premeditated - Americans aiming nuclear warheads at Iran - they deny; Where will warheads land when Iran uses new T; Will Iran use combination of new T and conventional; Saudi Royal family already 'shook hands' with Vatican; We advised Iran to go a certain way - don't divulge - Damascus changed everything; It's Universal Council job to do something; There is a purpose to this war - end the religions - those who abuse the Soul; They will bring themselves to an end; It's not a 'Day of Judgment' - it's a foolish
