

# 534th Knowledge Seekers Workshop April 18, 2024

(Quick Index 22 pp, Introduction, Topic Index, Proofing done ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

Space is dark - darkness of knowledge; KF teaching how to live in darkness; How to survive in Space; Knowledge in patents 15 years ago; Withstand any fields - nuclear radiation - not afraid; Soul immediately alerts danger - saves; Everyone can have knowledge; Which CR to take; Transmutation - not reincarnation - change to new P until Soul elevates; Same Soul as Christ; Food traps a cheat - 20% - 80% from U; Food trap cause of demise - get rid of surplus energy cause of aging; Learn not to store - attract cancer energy; No Kings in U - can't control another Soul; Soul taught knowledge of U; Not Soul Catchers - don't want people free; Light in Space - interaction of M fields - enlighten Soul; Unconditional love for Creation - seed to attract Creator's love - secret; Cannot do for you - you have to be able to receive energy; Lost in Space - know how to get back; Messiah of own Soul; CR Units powerful to change - talk with UFOs - tap Knowledge of U; Live by Soul - trust; Patents mean take shackles of P from man - not slave to corporation - free time to elevate Soul; Gravity & CR; Egyptians had free time to elevate Soul - gained knowledge; Every women fertile - don't need eggs to have child; Example of women loving so much creating child - emotions change body; Sperm matches M field strength of egg - detect strength; Soul of Woman within womb - all plasmas not matter state; Create children of Soul; 7th Chakra doesn't fit science; Organ pairs - Gans's make Infinity Loop - point of balance energy centers not Chakras; 2 halves of Brain interact create Third Eye - atom of body; Teaching on Mehran - first time man discovers love - means possessor of love - not human - Creators Love - then Mitra - Zoroaster - Judaism - other religions; First time man believed in Creator; Expand Soul - physical brain; Every field creates sound - energy; Taste Gans; What is love; Update on Middle east - Iran gave 2 days - agreement with American for new T; British brought Lebanese to Iran 500 years ago - rule as Ayatollahs - not Iranians - support brother Hamas; Only one Keshe at time in U; Switch to opposite love to hate; US Military submit patent stolen T - triangle SF UFO won't work; War damages; Iran peaceful country

## Topic Index

Not human knowledge - Knowledge of Creation; Space is dark - darkness of knowledge; Needs knowledge - use darkness to exist; KF teachings - how to live in darkness - flourish in - recognize what's in darkness; Our choice to enter - survive; Create light - be tangible or exist without tangibility; No food - make energies to live; Use Energies of U to survive; KF patents around 15 years - wireless Cosmic Ray (CR) connection - provide energies; All teachings - how to survive in Space; Cannot give energies to another - each one has to learn how to absorb; Need knowledge Nano - Gans - Soul - CR - 'last man standing' in Space; Knowledge to manifest in P at destination start new life; If strong enough - become single star in middle of nowhere; Learn to enjoy the time & place - interact with fields; Withstand nuclear radiation - change into energy - doesn't manifest P; Convert yourself into Soul - won't be afraid for P; Soul instantaneously alert to danger - change D through emotion - continue existing; Jump away from train - 'train' was P - now

same 'train' is CR; Learn how to dodge CR when too strong; We do that automatically; Same way survive in physical D - survive in D of Energy; Man has to learn; It looks like we know everything - understand principle of Creation - everyone has same capability - not exclusive to Creator - His particular created things; KF won't create new religion; Learned enough about this planet - now learn to tap into energy of U; When STM departs - body finishes - Soul goes somewhere else - just change one P into another - continue until elevate Soul - not reincarnation - transmutation of Soul from one D to another; Continue changing physicality's as long as you like - an Art; Same Soul was Christ and the rest - play it that way; Whole purpose of teachings - give man ability to survive in U - both in P and Energy; An Art to work with energy - what to give and take - store for bad times; Can stay longer in places you like; Different types of CR - lower and higher - learn how to absorb; 20% energy through food - 80% from U; Food traps Energy - U tries to feed trap - cells absorb energy; Food is a 'cheat'; Master Art what to put in mouth - live thousands of years in U; Food - cause of our demise - don't control - end up absorbing what we don't need - body works to get rid of it - how we age; Become immortal if absorb energy directly from U instead of using trap; We are part of Totality - it never dies; An Art to know how to take energy; If body holds onto energies don't need - attract energies - become cancer; Only take what need - don't store surplus - in P or D of Energy; CR - Soul - understanding process of Creation - all interconnected; If take too much Soul - get cancer of Soul; Soul cancer is an energy pack you don't need - transfers to P; Cover all aspects of Knowledge of U; Don't take your Soul - they are creating fear in you - keep you slave; Master all Arts of Creation to survive - not just parts - purpose of these teachings; Unravel secret of Creation by yourself - 'last man standing'; Just because son is professor - doesn't make you professor; You have to understand & tap into Universal Energies; Don't take the bigger ones - cause of your demise; Gans of AA has own fingerprint - Soul created from AA of atmosphere of this planet - has its own strength that belongs (specifically) to planet Earth - like seed of pearl - gathering around - collectively makes up pearl; STM is seed - body is that pearl; Gather pearl of knowledge from past 10 years KSW - together with knowledge man has gathered on this planet - conquer U; No Kings - Emperors in U - no one can conquer or possess another Soul; Those who try to dictate - losers - deprived of receiving; Understand process of P to energy - energy to P - how to survive each D; Can stay for millions of years; Master Art of where and what energy to take - give - how to do it; Tap into Universal Energy Knowledge - information - part of Soul of emotion of U - get Knowledge of Creation from moment it began - knowledge of origin; Brain is taught what everything means - ABC's; Soul also taught same kind of knowledge - what everything in U means - knows what kind of field come across in U; If become greedy - try to own knowledge - lose - own demise; When store energy of an emotion in wrong place in P - give ourselves cancer there; Energies have to go somewhere; Change plasma balance in Soul - creates new P; Not 'Soul catchers'; Teaching you not to lose your Soul from ignorance; Soul cannot be caught by anyone; Controllers put fear in you - knowledge makes you free then they can't abuse you anymore - not afraid of 'devil' they created for you; Abusers and pedophiles tell child it's their fault they abuse them; Same people saying - KF is trying to control your Soul - don't want you free; Understand how to create light; In Space light from interaction of M fields; STM get enlightened; Secret to find Creator - have unconditional love for Creation - acts like seed - attract love of Creator - feed you - get

full understanding of Creation - a path to Creator; We had to do this correction; Connect to CR & CF - to get what want in U; Earth use roads - in U use M field paths; Create lower field strength - get to destination; Close to time - decide if want to remain in D of P to suffer - live in Soul; In P can touch, feel, and show love - only difference with Soul D; How Mitra was attracted to Earth - attracted Creator; Use Energy to make life in P more comfortable - vice versa - purpose of teachings; Not teaching you to rob bank - need correct conduct of P to live in Soul; Distinguish between the two - interconnect them - part of Universal Community; Cannot drag you in - have to be able to receive Energy; Throw man in Space - P dies - Soul create new D; Have no fear of Space; Leaves P behind anyway; Transmute anywhere; Understand truth about own creation - nothing else - KF teaching; Show flying machine in Iran - transmutation in Washington; Need to know how to get out of UFO live in Space; In Space if take a wrong turn - know how to get back; Teachings are to help avoid man from making mistakes in Space; Learn to absorb fields of U; Hope you understood purpose of teachings; Stop talking about coming of Messiah - you are the only Messiah of your Soul and P; You have to find your own way how to live in both dimensions; We can only teach - we cannot live your lives; Start living in both dimensions - becoming Men of U.

## Part 2

Test stamina of Soul in Monthly Flight session; CR Communication Units - with UFO; Should be able with Soul; If governments understood how powerful - change position - touch STM yourself - manifestation of emotion; First impression of Soul communication confirmed correct; Sixth Sense is interacting through Souls; Build up trust in Soul - live by it - how it will be in Space - CR Units are beginning - introduce as part of International structure; Natural part of Creation and life - animals don't pay for its food - God given rights - has to be free; Humans put financial limitations - we'll reverse; All these things in patents - take shackles binding man to P - don't allow Soul to grow; I have shown - don't see it; Man will have time elevate STM; All appliances - self-sufficient in energy - don't slave to pay corporations; KF patents - way to freedom for STM; It's more than Bible; Means no one can take us to ransom - KF patents free man from shackles he made for himself - we don't see it; Patents contain freedom in all dimensions of Creation; This knowledge is not ordinary; Showing you secret; Gravity is tangibility - P - energy is CR - connected; Will be free spend more time with child - elevate Soul; Gravitational System gives shelter - no worries; Why governments - Kings to communication corporations want to crush and control KF - giving you freedom; They have controlled you long enough; CR Units train man how to do it yourself - start change - contact UFOs; Use emotion to connect Mom's Soul - who died; Start learning how to use CR Units - tap into Knowledge of U - don't say it was a coincidence; Contact E.T. - UFO's; Background in 3 Books - practicality in patents - secret of Creation; Egyptians understood - referred to this T - they had free time to study & connect to Soul; About infertile women getting pregnant through emotion - changed P - fields; Gave examples couples unable - through love got pregnant; Created energy transfer of emotions of devotion - create child in womb through field transfer; Through devotion everything is possible; Emotion changed the body - allowed physical creation; Body actually changes through emotions; As we age blood changes; Create matching field strength of sperm with egg for interaction - both

plasmas - like magnets; Strongest sperm is fallacy - nonsense; Sperm penetrates because matching M field strength - even if on other side of Moon - reach egg; Understand knowledge and truth - not made up stuff; Every woman is fertile - depends on condition; Even woman without eggs can produce children - emotion of energy of 'Soul of woman' within womb - cannot deny; Test if emotional energy of sperm and egg match; What eat effects M fields of whether egg & sperm match; Find out why - solution; Bodies made out of fields and plasmas - continuously changing; Every woman in every D of Creation is fertile; If not fertile in D of P - use D of Soul; Create Soul first then P - children of the U - secret of understanding; Have to train living in Soul before it becomes automatic - learn to trigger it - stop & start; Same as when you learn when to eat - fell hungry or full - essence of emotion & energy fields of life; Teach ourselves to enjoy giving to Soul and others; Can't teach someone else - they have to feel it - what we feel as pain - could be joy to someone else; He never believed in 7 Chakras - especially 7th Chakra - doesn't fit with science; From point of Fields of U - each organ has pair made of dynamic Gans Plasma - they make Infinity Loop MG field interaction - crossing point could be where they say the Chakra is; Series of these points from testicles/ovaries to 2 halves of brain - interaction point Third Eye; 7th Chakra single on top of head doesn't make sense - made up story; Energy points between toes and knees; Discussion on Prophet Mehran - Wiki only refers to Mitra; It's not an idea - an understanding; First time man realized about love and kindness - gave name Mehran - one who possesses love and kindness - not human attribute - belongs to Creator; Mehran came long before Mitra - then Zoroaster; From Mithraism came Judaism and other religions - in essence - believe in a Creator; Up to then - love of Creator was not known to man; Then made statues and connected it to a god; Nowadays we accept God as God - don't need statue; First time man felt love it couldn't be physically shown - show through devotion by putting another higher than yourself - love became divine attribute and not human; First time man believed in an Energy above himself; Iranian team working on conference - Washington; Plasma created from 2 fields - 'two' doesn't have to be in opposite directions - 2 different field strengths - depends how you bend - put them together - interact and create own balance - they decide how to move; Use 2 halves of brain - interact physical energies - dynamic field - Third Eye - STM new proton in center - (outer edge) of brain becomes electron - we have control over position & strength of this electron - expand Soul to create envelope for transmutation - only way - P goes inside; How skull is created - why born with soft spot - adjusting (energies) - dictates behavior - characteristics; Not yet ready to discuss further; Why use 2nd pair Headphones - help with transmutation; Use in Wellness systems; Shape of skull effects emotions - how the emotions will transfer; (Everything depends) on Soul expansion - not ready; Third eye is created by interaction of 2 halves brain - Neutron of the Soul - position is physically locked in - point fixed - this is atom - as an emotion - if connect - go anywhere; Each field creates a sound when interacts with environment - taste - energy - can absorb, observe, feel, taste all 3 D; Taste Gans of CO2 - hold in hands; Gans has emotion; What is love - when you give everything you have to another - man, woman, dog, or a book - unconditional sharing of our energy - elevate what we love in respect to our energy; Depends how you define love; Story of the door frame - biggest transformation portal - professor gives up knowledge for love of ignorant wife - suffer anything to have that love; Kind of slavery - want to be recognized; God is part of the whole and a fraction of none - means a division; Update on the situation in

Middle East; Jordan betrayed Islamic nations - saved Israel; Iran gave 2 days warning to Americans not touch Assets - both countries working together - Americans want new T - sold out Israel; Israelis hid deaths; Netanyahu set for Dan Hague Human Rights Court - commit suicide; Expect some retaliation from Israel; Confirmed Iran collaborating with America; Half of 300 missiles would have sent Israelis fleeing; Only 3% of capability - only warning of what can be done - not want war; British 'stirring things up' make money from war; 500 years ago British brought Lebanese to rule Iran - Ayatollahs not Iranian - only marry other Ayatollahs - bloodline through daughter; Islamic bloodline through son; Why Iran supports Hamas in Lebanon - family - not for Iran; After 200 years came back into power with Iranian Revolution; Emotions are field strength - when reach extreme switch to opposite - love to hate - acid to alkaline - but extreme acidic first becomes weak alkaline - has residue inside; Emotion reach 'tipping point' - opposite emotion; About how vortexes created - one field weaker than others - starts interacting - first sign of a plasma; In Solar System why planets go in different direction of rotation; See Moon different when at Jupiter - (see discussion); How many teachers like Mr. Keshe in U - one at a time; Still in China; Chinese say - know about everything in more detail than matter state scientists; Where does knowledge come from - "I don't know" - Knowledge of Creation - just teachers - (through Soul); Start phase of transmutation testing; Asked why doesn't Iran show T; Answer - gave very clear message with attack - gave warning - didn't want to use technology; Iran has 30 nuclear warheads only as deterrent - hypersonic missiles - don't need to show; Americans need New T to match Chinese; Americans coming to some agreement with us - technology in exchange for peace; Shows shocking picture - Americans submitted patents in 2020 for triangular craft using Star Formation (SF) - stolen T as KF patents are from 2014 - Dr. Salvatore Cesar Paris fooled US Military by selling them open patents as his own - he is a fake - doesn't understand essence of T; Impossible for them to build this craft - can't have triangular Craft with SF; Only Mr. Keshe knows this knowledge; Americans know KF has agreement with Chinese - trying to get access - either by blood or by selling out Israel; This technology belongs to KS for world peace; Second Palestinian state in UN - Israel will pay war damages - Americans pay; Don't go deeper into discussion; Use new T to bring peace; Iran peaceful country;

## **Introduction to 534 KSW- Survival in Darkness - Transmutation not Reincarnation - Love of God - Every Woman Fertile - Mehran**

It was interesting how Mr. Keshe opened the workshop by talking about the darkness of Space, and that it is not just a physical darkness, but also a darkness of knowledge. And that we have gained a lot of understanding about how the Earth functions, but that won't help us survive in Space, because it is a very limited physical knowledge. First he directed us to start thinking about how we will light up the darkness of Space. Since there is no oxygen in Space we won't be able to light a match to see where we are. So we need a deeper knowledge that isn't human, but a Knowledge of Creation. For example, with human knowledge we think that the physical light of the Sun is the cause of the daylight. But this is not true, it's actually the MG fields of the Sun that interact with the MG fields of the Earth that cause the daylight. And this is a good way to think about the differences between Earth knowledge and knowledge of plasma or energy. This is why he had to first

teach us about Nano and Gans, and then about the Soul and Cosmic Rays (CR). This is the knowledge we are going to use to live in Space.

The whole purpose of the teachings are for us to learn the Art of Survival in the Universe (U) so that we can flourish and turn that darkness into the kind of life we want to live. To do this we need to understand about our Soul and how it operates and how to convert the Universal Fields like CR and Cosmic Fields (CF) into useable energy. When we live the Universal Life we'll have the option to remain as Energy or make ourselves tangible and manifest ourselves as a physicality (P) according to our fields and those of the environment. So all the science fiction movies we have seen portray us going around the U in our physical bodies living on a spaceship as we do on Earth. This is not exactly correct thinking and won't help us survive in the U. It's another example of the difference between Earth knowledge and Knowledge of Creation. It would be better if we started making movies that portray the true life in Space. When we see ourselves as an Energy Pack or a Soul, and that we can convert ourselves back and forth between P and the Soul by our own emotion or wish. It would be better to travel in the UFO as an Energy Pack than a physical body because of the changing M field strengths we would constantly be passing through, which would cause our P to change. And if we wanted to visit a planet, then we would manifest ourselves in the same type of body as the beings of that planet. This would help prepare our thinking process to join the Universal Community.

Everything we need to survive in the U has been put in the patents that were released about 15 years ago. One of the things was the Oasis System that would provide energy, food and shelter. We think of it as all these separate things it can do, but actually it creates a plasma and I am assuming it accesses the Cosmic Rays and then we create everything we need by interacting with it through our emotions and needs. It's an "All in One" kind of package. It does everything we need. But again we are thinking of it through Earth knowledge and that we'll live somewhere like we do on Earth. But that was not really the point. He opened up another reason to us, and that is, if all our needs are met then we will have time to elevate our Soul. This is the key to it. Right now human society is set up where the masses slave to pay the ruling Elite for gas, electricity and everything else to survive. This leaves no time and energy to work on discovering about our Soul and how Creation works. It's a vicious cycle that will never end. And the patents are the way to freedom, and this is why the Controllers are trying to crush KF and keep us from this knowledge. It may be as simple as being able to spend more time on learning the technology and of course loving it. But we are so beaten down and kept distracted that we don't think about it. Then he gave us the secret of why the ancient Egyptians were such an advanced society. It was because they had plenty of wealth and didn't have to work day and night for someone else. They spent their time discovering their Soul and the Knowledge of Creation started coming through that. And then they used the knowledge to create a better life for themselves.

The question we have to ask ourselves is that after 100 years of suffering on this planet in the physical body, did we learn how to tap into the Universal Energy so that we can survive on our own in Space? We each are responsible to elevate our Soul to be able to do it. If someone close to us is able to do it, it doesn't automatically mean that we will be

able to do it. They cannot give it to us, we each have to learn it ourselves. Otherwise, life will force us to go to another dimension according to the field strength of what we have gathered in the physical dimension. This is why it is so important not to waste our lifetime doing frivolous things that won't help us to achieve enlightenment.

In the next part of the teachings it started sounding like the Eastern teachings on reincarnation, but it is not. First of all, if we didn't learn to elevate our Soul or tap into Universal Energy then when the P separates we are forced to go to another dimension that fits with what level of M fields we have gathered by our physical life. If you think carefully then this description fits the majority of the people, which means they will leave the planet. Then he said, if you have a goal to achieve then you can continue changing your P until you reach elevation of your Soul. This is not reincarnation, rather you transmute yourself into the next P. This implies that you would have to have a reason for being human and you would have to be able to consciously transmute yourself at the end of your life. One of the 'goals' could be serving humanity like in the stories we hear of how saints continually take a human body to serve others. This is what Mr. Keshe has been doing for thousands of years. By this teaching it shows that we are all on different levels of knowledge and understanding. If we are born out of the fields of this planet then unless we advance very quickly, we'll be forced to go to another dimension. The other question that it raises is, whether we are transmuting into a womb or creating a new body. This is a whole other science to learn. Mr. Keshe didn't want to answer about transmuting into a womb at this time. Before he said that all the prophets are from one Soul, the Soul of the Creator, that keeps assuming different human forms. But each of the Prophets have their own individuality, then is there a merging of the Souls, or how does all that work? I am sure he will teach us more about this in the future. The important thing in this teaching for us is, whether or not we can elevate our Souls to the level of being able to transmute, then we can stay on Earth for as long as we like. If that is a concern of ours. And it would also depend if we have a purpose to be here. Because elevation of the Soul means that we serve others.

Before we learned that only 20% of the energy we need comes from the food we eat, and the other 80% we get from the Universal fields. We convert the food into Gans in our stomach and it acts like a trap by attracting energies to it. Remember in the U the stronger always gives to the weaker to make it equal with itself. So as the stronger fields of the U try to feed the weaker food Gans, which is a plasma, it tricks the U into feeding it, then our body absorbs that energy. In this process the body absorbs everything and doesn't just take what it needs. Then it has to work to get rid of what it doesn't need and this is what causes aging and that shortens our life span. If we could learn how to only absorb what we need and don't create a surplus then we could live for thousands of years. What I understand is that through the food we are getting a whole spectrum of energies, way more than what we need. And these extra energies are also attracting energies from the U, in a way, we get stuck with energies we don't need and this can lead to cancers and other things. We need to learn how to only take what we need.

To do this we'll have to develop a science of extracting specific energies from food. He said, we need to master the Art of eating only what we need? Would we find a way to

only create the essences of food and then eat those? But what about the pleasure of eating? But the real solution would be taking energy directly from the U without using the food 'trap.' Then we have to be able take that energy at the right field strength that we need, and not more because that would lead to the same problems. The common theme in the U is to take only what we need and not more. There is no need to store surplus because we can absorb energy at any time. When he said, if we take too much Soul, we can get cancer of Soul. But Soul is also called the Energy, and when there is too much it gets transferred to the body through the emotions. There is a lot more to understand on this topic.

Another beautiful gem Mr. Keshe gave us today was that, like how we create a 'seed' from the food we eat, we can also create a seed of having unconditional love for the Creation and this will attract the Love of the Creator and He will feed us. Not only that, but it's a secret way to get to the Creator. It's a secret to atheists, but to those who love God, they already know this. When I first heard this I immediately thought of Sri Ramakrishna a great saint of India who taught both the path of Advaita Vedanta (Formless God - Knowledge) and Bhakti, or what they call Devotion. He always used to say, that if you loved God with a pure heart then She can also give you all the Knowledge of Creation. Now Mr. Keshe is saying the same thing in different words. But unconditional love is not an easy path especially in this age that we are living in.

There was a very interesting discussion about infertility in the modern age. Doctors don't understand how life is created and they're making a lot of money out of their lack of knowledge. Whenever cases happen like the examples Mr. Keshe gave with a couple getting pregnant when the husband got sterilized by an operation, then they ignore them. If our bodies and Soul are plasmas and not matter state then the old understanding doesn't work. There are different ways it can happen, and doesn't necessarily mean that they are what some might refer to as a 'virgin birth.' Rather it is going deeper into understanding that we are dynamic plasmas and our bodies change physically through our emotions over time. And that the emotion of love is a field strength that interacts with other plasmas and can create physicality. So did the love of the couple reestablish the cut tubes to the testicles? Why couldn't that happen? But if every woman is fertile (at any time) then it wouldn't be needed. He also said that a woman doesn't need eggs to produce children and that the emotion of the energy of the Soul of the woman is always within her womb. She is ready to go at any time, she only needs the love to ignite it. But I don't think the sentimental love or the physical attraction love will be strong enough to do it. As with the couple who got pregnant after 20 years, perhaps the love deepened over time and became so strong that it burst through into the physical dimension.

People like to talk about the Chakras as something mystical and mysterious and it occupies a big place in the 'spiritual marketplace' of today. But Mr. Keshe said he never believed in the Chakras, at least not the way they talk about it. And the 7th Chakra or the Crown Chakra is singular and doesn't have a matching pair so he said, it's made up. If one studies the tantrism very deeply it's created out of the experience of a Master, and then he has his disciples create the same images in their mind, then of course they will generate the same experiences. Even if this is true it doesn't matter, because now Mr. Keshe has

given us a deeper knowledge. Each of the organs that could correspond to the Chakras have a pair and they are made out of Gans's of the body that become dynamic plasmas. They interact by way of an Infinity Loop with each other and at the crossing point, which would be in the area of the spine they find a balance with each other. Their interaction creates a plasma, which is felt as MG field energy by the body. So you could start with the testicles/ovaries, kidneys, possibly the 2 lobes of the liver, lungs, thyroid glands of the neck, and the 2 halves of the brain. From the experience of these energies was born the concept of the Chakras, which is not wrong, but it was how man could understand it at that time.

A very nice practice is to visualize each of the pairs of organs as plasma fields interacting in an Infinity Loop and creating a plasma at the point in-between where they find balance. A light can be created from the interaction, and would that then bring into balance the areas for which that new plasma corresponds? These interactions are not imagination, but the physical interaction of the fields of the Gans's. It's just like when we spin Gans's in reactors and use their fields for different purposes.

From my understanding the interaction of the 2 halves of the brain creates a new center like what they call the Third Eye, which is next to the STM. Then the STM becomes like a proton and that new center created from the 2 halves of the brain becomes like an electron. And this electron we have control over. Then we can use it to expand the Soul and create an envelope for transmutation. It sounds like we can create this secondary plasma to help expand the Soul. This is also related to why he introduced the second pair of headphones during the Monthly Flight sessions, to help KS to expand their Souls. Mr. Keshe is brilliant in using his knowledge to always find different ways to work with the fields. This is a sign of a true expert, even though we don't understand very much of it.

How are we supposed to understand about the first Prophet Mehran when human history doesn't have any record of it? If we want to understand more deeply about what Mr. Keshe is trying to communicate about Mehran we cannot approach it in terms of dates and events, like how we were taught in school. Instead, we should try to feel it from inside and connect to the Soul and think about general trends and how we develop ourselves and grow from one stage to the next. In a way, it is similar to how we are learning plasma science. If we think about some years ago when we knew nothing at all about plasma and compare it to now after years of study. It's totally different, somewhere in this journey we crossed a point where on one side we knew nothing, and on the other side knowledge as light came into our consciousness. This same theme of opening to the light, gaining more knowledge is repeated throughout this workshop.

If we think about life on this planet, they say that life started in the oceans. Then we became reptiles. At that time we were cold blooded and reproduction was done outside the body, and we wouldn't really call that a loving relationship. Then we developed into mammals and became warm blooded and felt the warmth and love of reproducing inside the mother's body. Then the humans came and we started as hunters and gatherers and then started agriculture and living in settled communities. This was the start of the worship of the Devi or the Goddess as the symbol of agriculture, through reproducing by

the seed. The love extended to the mother and the family, then the tribe and to the village. The love always had to do with 'me and mine.' Even the others in the town were from 'my' town, and in the background we always thought about how we would benefit from such relationships. Up to this point the understanding of a Creator or a Transcendent Presence had not yet evolved.

This is where I believe Mr. Keshe came in with his teaching on Mehran as the first time human's came to understand about a love that was not human, but divine love as was shown and taught by Mehran who then was recognized as a Prophet of God. Not of the gods and goddesses, but of the Creator of our dimension, or we now say the Unicose. It was the start of this new stage in human development that led to Mitra and later Zoroaster and then the Western orthodox religions. These guides of humanity probably, at that time didn't even develop a religion. If Mehran is many, many thousands of years ago, and organized religion is only a few thousand or so, then we can understand by the gap, that this problem with religions is a more recent development. And the reason we have such a hard time to understand our own true history is because it got all confused when the European Colonialists started archeology, then they started making up history the way it suited them to rule. And we just don't get this part. Mr. Keshe is trying to untangle it and put it straight again. We need to enter it through the Soul and how it manifests in physicality, then the true history will begin to make sense.

Other topics:

The CR Communication Units are for communicating through the Soul, helping receive the Fields and Knowledge, and to communicate with UFOs;

The British used the method of "divide and conquer" and they brought the Lebanese Ayatollahs into Iran to rule it. They never became Iranian and married amongst themselves to create a Religious ruling bloodline. They support Hamas because they are family, and they don't do it to serve Iran. Not many people know this part of history;

After the KF published its patents in 2014 a man sold them to the US Military as his own invention which they then published as a patent in 2020. This is stolen technology of the KF to make a triangular UFO based on the Star Formation, which is from KF. Now the US wants to work with Iran to get that technology. The KF goal is technology in exchange for peace.

Thanks for listening.

## **Quick Index**

(What are we going to do with all this knowledge we have gathered? This knowledge is not necessarily human knowledge, it's Knowledge of Creation, which means it's beyond humanity. These teachings have been bringing the man's knowledge beyond what knowledge can be gathered here about the Earth, wind, fire, daylight, and the light of the night that the man understands. As I was explaining to a space scientist recently, that the

Space is all dark, and it's not just a physical darkness, it's a darkness of knowledge. (Because of the Man's limited knowledge when he goes into Space it will just be darkness to him). He has no knowledge of what it is, what he has to do, what the resources are, or how he can see in that darkness. He doesn't know how to change the darkness into a light. He doesn't know how to change this darkness, which has no dimension (D) into a position where he can exist. When our astronauts traveled to the Moon and came back, we didn't see a light around their craft. There was nothing but darkness, and that darkness joins together with the darkness of ignorance of the Knowledge of Creation).

(The teachings of the KF over the past few months and years have been aimed at trying to educate the man how to guide himself to be able to live in this darkness, darkness of light, and darkness of knowledge, (or lack of Knowledge of Creation). We are teaching him how to turn this 'black environment' into a flourishing Space for himself to live and be able to recognize what's inside it. It's like if we live in a dark room and then start touching everything in the room to discover what is there. We feel the table, chair and other objects that are in the room. Then we discover what we can do with those objects. the chair we can sit on, and over there is the light switch and if I turn it on I can get rid of the darkness. We can investigate the space and find out that there is a bed, carpet, and a floor. Is the floor safe to walk on? In the same way we will learn to investigate the Space. It's our choice to enter the darkness of Space and the Universe (U), both in the dimension of the physicality (D of P) of the observation of the man, and with the knowledge of how to survive in this darkness).

(Part of the teachings of the past months has been about the Soul and Cosmic Rays (CR), and how to survive in this dimension (D). Man has already learned how to live in the D of the Earth where when it rains, he makes a roof or carry's an umbrella, and when it's dark he uses a light. We have learned everything about how to survive this environment. And now as we are endeavoring to go into another environment, we will have to learn everything about it. Like how to create light in the D of vision to become tangible, or to learn to existence without tangibility? We have to learn how to survive in the dark environment of Space. If we are in the dark Space for many days, where and how do we get the food to survive?)

(In Space we don't have a table to put food on, or a refrigerator to keep food from going bad. We have to learn how to use and make energies that are available instead of food to live by. We have to learn how to use the energies of the U to survive. Is it easier to survive in the D of P? Or is it easier to survive in the D of energy in Space? (We taught you about the Gans's and you made the Cup of Life and said, this is good for Corona, because you believed in it, and it worked for you. You understood it has an energy. But in fact, the Gans is an energy of the matter state. Now you have to learn how to use the energies of the U to get rid of that (virus), or hunger, or the fear of the darkness (of Space), the physical darkness, or whatever).

(The patents of the KF technology (T) have been around for about 15 years or so. (And we have been gathering the knowledge of the T in those patents. (?? The patents also spoke about how we will find the wireless Cosmic Ray connection of the U to handle all

our needs for survival and how we can use the fields to provide energy so that the Soul doesn't disintegrate). All these teachings have been gradually opening up for the man to survive in Space on his own. If your wife and daughter are next to you in Space and they understand how to tap into the energy, but you don't, it won't help you. Because she cannot give you that energy. You have to learn to tap into Universal energy yourself. You cannot tap into her Soul's energy (to survive). Everyone has to learn the art of surviving in the U and utilizing the CR and Cosmic Fields (CF) and how to interact with the fields. Otherwise, you will be like a blind man who cannot even feed himself, or walk on his own without somebody holding his hand in the darkness of Space).

(This is why Mr. Keshe was jumping from Nano to Gans's, to the Soul, and then to Cosmic Rays. It was for you, so that when you are the 'last man standing' in Space you can survive on your own. We are providing you with a rope, a lifeline to be able to exist in Space. But it's you who has to be able to hold on to the rope and we have to get you to your destination of where you can manifest yourself in P. Or you can use the same rope to 'hang your Soul' and bring it to an end. (If you can't ?? learn how to interact the fields to survive on your own, then you can bring yourself as a separate entity to demise, and (your energy will become part of the rest of the Universe))).

(If you are strong enough to survive on your own, then you can become) that single star in the middle of nowhere. (Then you have to learn how to enjoy the time and place, by knowing how to interact with the fields), and which ones you should avoid, and which ones you can (have fun with) to exist in that dimension. You have learned to do this in the D of P of the man where you drink, laugh, and everything else. Now you have to learn the same thing but in the D of the life in the U. This is the whole purpose of the KF teachings. We are showing you how you can survive in the U).

(Today they are talking about who has nuclear weapons and who is going to use them. If it happens would you know how to withstand nuclear radiation and change it into energy, so that there is no physical manifestation of it? Then no nuclear weapons or radiation can touch you. And after a few days when the situation calms down, or a few months, then you re-manifest yourself in the D of P in another position on this planet. And then you can go and see what has happened. From the point of view of the teachings, the sooner you learn to convert yourself into the D of the Soul of the Man (STM), then the sooner you will no longer be afraid of being killed by nuclear weapons, or bullets, or any accident that can demise your physicality (P). It's because instantaneously your Soul will alert you and through your emotion you can change your D to a new size, or a new energy, and continue existing. It's like if you see a train coming, then you either stand in front of it and get hit, or you use your legs to jump away and not get hit by the train. Up to now the 'train' was the physicality, but now that same 'train' is the CR which are Universal Fields. (You can either get hit in the D of P, or transfer your P into energy and after the danger passes, transfer back into P)).

(Once we learn how to convert it will be easy. We do this in the P when we cross a busy street. We know how to dodge in-between the traffic and not get hit. On one side of the road the traffic is coming from the left side, and the other it comes from the right side.

This is like Gravitational (G) on one side, and Magnetical (M) on the other side. The same way we juggle between the cars in P, we learn how to do that with energy fields of our Soul. (We do that now with the Cosmic Rays. Because ?? some Rays are too strong for us, so we don't tap into them. (We have already learned how to do that automatically)).

(There is no difference (in how we survive) in the physical dimension, compared to the dimension of energy. It's just because man has never had to experience this, that now it becomes a dilemma (until he learns how to do it). This is why people like me look very clever and like we know everything. It's because we understand the principle of Creation, and everyone of us has that same capability. It is not exclusive to the Creator and His particular created things. (Some humans have attributed these qualities to 'Ayatollahs', 'Priests,' and the rest of them). (This is why KF is not creating a new religion). We are a scientific organization. And we have to teach you how to survive traveling in the U with the STM and the P, and not just on this planet).

(We have traveled enough in the D of P on this Planet. We do it for up to a 100 years and at the end we lose (our P), because we never learned how to tap into the energy of the U. Then the energy center (or the STM) departs, because he knows how to survive somewhere else, but the body finishes. The Soul goes to another position and dimension. (Or if you have a goal to achieve (on Earth), then you just change the P into another one, and you continue doing that until you elevate your Soul. But this is not reincarnation. Instead, it's transmutation of the Soul from one dimension to another. And you can continue changing physicality's as long as you like. It's an 'art' if you know how to do it. This is how we have spent thousands of years on this planet. (?? It's the same Soul that keeps appearing here and there. 2000 years ago the people were waiting for a Christ, so we organized ourselves that way. And 2000 years later they are waiting for the Christ to come again. So we organized ourselves that way. They call (us) the prophets and the rest of it. They said the Christ will come again and the people believe in it, so we play it that way)).

(The question about this reincarnation issue that continually comes to my mind is, are we transmuting into the womb of the mother, or are we creating a new body that doesn't go through the womb? But then people will ask where did you come from? Do you have a birth certificate? Someone once asked Mr. Keshe if he transmuted into the womb of his mother, but he said, he preferred not to answer that now. Like the Count of St. Germain, his birth is very obscure and he had unusual abilities and they say he kept reappearing in different places over centuries. One day maybe we'll understand).

(The whole purpose of the teachings are to give man ability to survive in the U, both in the dimension of physicality and D of Energy. It's an art to be able to transmute and manifest yourself (in another D). You have to take some energy (in), and you have to be able to release what you don't need. You have to learn how to store energy for bad times (when you can't get it). And you learn how if you manifest in a place that makes you happy, how to stay a little bit (longer). (There are different types of Cosmic Rays. In some environments you use lower CR, in other environments you need higher energy

fields, so you use another (type of) Cosmic Ray. But at the end (it's about absorbing) the fields of the U and being able to take what you need from it)).

(This is related to what we always say, we eat 20% of the energy through food, and the other 80% comes from the U. The food we put in the mouth is like a trap, and the U feeds or connects into that trap. In trying to reach the trap, our cells absorb the energy they need. In a way, the food we eat is a 'cheat,' or a trick to absorb energies from the U. We put a little trap to absorb more energy from the environment of the U. If we learn and master the 'art' of what we put in our mouth, we will master survival in the U for thousands of years).

(The food we eat is a cause of our demise, because we don't control what we put in (our stomach). (Our body absorbs whatever we put in our stomach, so we end up absorbing what we don't need). And because it doesn't need it, then it has to work to get rid of it, and this is how we age. (Man will become immortal if he is able to absorb the energy of the U (?? directly), instead of (first) feeding himself with the dimension of physicality, (or what we call, food). Because we are part of the Totality, and the Totality has never died).

(It's an art to know what to take from (?? the energy), at what strength to take it, and the way you take it. (?? It's good if you can learn not to take what you don't need). (Because if (your body holds on to what you don't need) it becomes an attraction point (for certain energies), and it (can) become a cancer). (This is why we say, only take what you need, because if you keep a surplus, then that can become a cause of your demise. (Because you are also attracting energies from the U at the strength of what you are storing in your body). It does not matter (whether it's in the dimension of physicality, or energy, (or whatever) Universe you decide to live (in))).

(This is why we teach you about CR, the Soul, and understanding the process of Creation, because they are all interconnected. If you take too much Soul, then it can give you cancer of the Soul. And that 'cancer Soul' (is an energy pack you don't need and it gets transferred to the P of the man).

(This is why we cover all aspects of the Knowledge of the U. (Those who never understood start accusing us, that we are playing with the Soul, or they say, he wants to take your Soul). (They are creating fear in you to keep you a slave). Then they say, he's telling you about the CR because he wants to take you to the end of the U and leave you there to rot. You can't rot there. The U is not a refrigerator. If you go with the P ?? then you can be frozen for the rest of your life. You would end up a nice human looking ice pack, floating in the D of the Universe).

(For you to survive the span of the U you have to master all the 'arts of Creation,' and not just some parts. This is the purpose of these teachings. It's for you to understand and gradually unravel the secret of Creation by yourself. Because you are the 'last man standing.' It's like, just because your son has become a professor in physics, does not make you a professor. Because he is talking about something that you have no knowledge

of. It's just a riddle to you. We teach for you, and not for us. It's for you to understand how to tap into the Universal Energies that you will need. Don't take the bigger ones, (because they" become the cause of your demise)).

(This is why the energy, the Gans of the amino acid (AA) of the P of the man is important. It has it's own fingerprint. This Soul, which is created from the AA of the atmosphere of this planet, has it's own fingerprint, it has its own strength, and that strength belongs to planet Earth. It's like the seed of a pearl that starts gathering everything around it, and collectively it all makes up the pearl. The seed is still in the center. It's the cause of the pearl, which is the essence and reason for its existence. In the same way the STM is that seed, and the body of the man is that pearl. (If you change the environment of the area that covers the pearl, it will disappear in one way or another. But the seed will still be there, and you will find it in the center. It's what started the whole structure of the pearl)).

(Like the pearl, you have to gather all the knowledge of the past 10 years of these KSW, and the knowledge man has been gathering for thousands of years on this planet. (You have to fill in the knowledge he missed, and understand what has to do with the physicality, and what is to do with the energy, then man will conquer the U. He will do it for himself and nobody else. We do not have Kings, Queens, or Emperors in the U, as no one can conquer no one else's Soul. No one can possess anybody else's Soul, and no one can dictate to another Soul what they have to do. The ones who try to dictate, will soon find out that they are the losers, because it's them who deprive themselves from receiving what is available from the others. Now you understand).

(As we go deeper in the Knowledge of Creation it's for you to understand the process of Creation from physicality to the energy, and from the energy to physicality, and how to survive in each dimension. If you want to stay in the D of energy for millions of years of Earth's time, you're quite welcome, you can do it. There is no reason why not. But you have to master the art of where and what energy to take, what to give, and what to do. If you become clever enough and can tap into the Universal Energy Knowledge, which is the information, and is part of the Soul of the emotion of the Universe, then you can learn about the process of the Creation from the moment it began. You'll get access to the knowledge of the origin. It's there, but it's you who has to tap into it).

(It's like with your brain, you know that this figure means 'A,' because you were taught to recognize that this letter means A, and that digit means 1. Your Soul uses the same kind of knowledge, and it knows what (everything in the U means, it knows when you come across an energy field in the U). And those who are greedy and try to own it, are the ones who lose it, because they create an energy field that ends up with their own demise. When we store the energy of an emotion in the wrong place in our physicality, then we give ourselves a cancer (there). There is no difference between that, and in the D of the fields of the U. When you gather energies which you don't need, they have to go somewhere. And one day (?? the place where those energies are stored will disintegrate and they will be released. When they interact (with the body) they will create a change in

the energy balance of the plasma of the STM, and the man will become like a new thing. (And he will no longer be what he was in the dimension of the Soul)).

(We are not teaching you because we want to control your Soul. We are not 'Soul catchers,' and the rest (of what they say about us). No, on the contrary, we are teaching you so that you will not lose your Soul (because of not understanding how the Creation works). (The Soul cannot be caught by anyone), but ?? ... Those who try to control you, do so by putting fear in you, and they are afraid that the knowledge you are gaining will make you free. Because if you become free, then they can't abuse you anymore. If you become free, then you won't be afraid of the 'devil' they create for you to be scared of. When you are afraid, then they can do with you what they like. We all know what the abusers do and what do the pedophiles do. They always tell the child, that it is their fault that they hurt them. And they say, it's because they listened to somebody else other than them, and that's why they have to abuse the child. (These are the same people who are telling you, that KF is trying to control your Soul. They don't want that you become free and can live anywhere in the U).

(You have to understand how to create that light. As I said once to schoolchildren when we were teaching them about the plasma T, to use a torch to light your way you need to have oxygen. If you don't have oxygen you won't be able to light the torch. In Space there is no oxygen to create that kind of light. In Space you create light through interactions of dynamic fields. The fields interact with its environment and creates light, the same way it's done on Earth. Why is that hard for you to understand the difference? One is in the dimension of physicality, where you need a physical matter, and one is in the dimension of motion of the M fields, or energy. One is for matter state and the other for the energy state. The light you create from the plasma of the fields does not have to be physical. (?? When the fields interact and you absorb the energy of the light, you can see the environment, and can (also) be within the STM and he can get enlightened). (It's the same way when you put the 'seed' in your mouth to absorb the 80% of the energy from the environment. You can do the same thing through the energy of the emotion of love within the STM. Then the 80% you attract will be the energy of the love of the Creator. This is a secret to find a way to your Creator. You create a 'seed' out of love by having unconditional love for the Creation (and you attract the Creator). You will also have (full) understanding of the process of Creation, and in essence it will be a path to the Creator).

(We had to do this correction. We had to get you to understand about the Cosmic Rays and why we connect to the Cosmic Fields. On Earth you eat the apple and banana. But in U you use the Cosmic Fields and Cosmic Rays for what you want and how much you want. On Earth you use roads. But in the U you use M field paths to take you where you want to go. On Earth when you want to go somewhere you turn on the engine and drive where you want to go. You have the exhaust in the back, pushing to the front. But in the U you create a lower field strength compared to the destination. Then you use the higher strength of the Soul to move away, or to absorb. It is the same).

(It's getting close to the time where the man has to decide whether he wants to remain in D of P and suffer with the hunger, pain, and everything else, or live in the dimension of

the Energy where there is no limitation. The only difference between the two is that in P you have the advantage of touching, feeling, and showing love and that's why we come into P. Those are the only 3 things which are different between the physicality energy and the D of the Energy of the U. It's the love. And this is how Mitra was attracted to the Earth and then attracted the Creator in the mythology of Creation).

(The other part is that we can use some of the knowledge from the dimension of Energy to make life in physicality more comfortable, and vice versa. This is the purpose of the teachings. We're not teaching you these things so you can go and rob a bank or whatever. We're also teaching you how to correctly conduct your own physicality and live in the essence of the Energy, which is the STM).

(As soon as man understands this, he can distinguish between the two and can interconnect them, then man will become the passenger of both planet Earth and the Universal Community. I cannot drag you by your hand to live with the ones you call aliens, and say to them, this man or woman is from the Earth, you won't be able to survive because they don't have cows for you to eat. And if they leave you in the Space you'll die because you don't know how to convert energy).

(The question comes, what would happen if we throw a creature of this planet into the depths of Space, would it die? Or would it survive? I dare the world of science to test it. Take a man out of his 'monkey suit' and throw him into Space on the Moon and see what happens to him. The physicality will choke and break down, but the STM will exist and create his own new dimension. When man realizes this he will have no fear of Space. He leaves his physicality on this Planet anyway, after a few years. (In Space we can decide if we want to go outside and enjoy the atmosphere of the Moon, because we can transmute to a new dimension)).

(Knowledge Seekers have to come to understand the truth about their own creation and nothing else. This is what KF is teaching. I'm sure in future teachings you will learn more about how to do it properly and faster. In Iran we will show the 'flying machine,' and in Washington most probably we'll show you the transmutation. But at the end of it, we have to stop the 'flying machine' somewhere and get out (and live the life). Maybe you'll end up in the beauties of the Bahamas, congratulations. But what happens if you end up on the Moon and you don't have a spacesuit? Do we say, 'goodbye happiness -- hello loneliness' like the old song says? (Or do we want a different story for the man in Space?)

(When we are out driving and we take a wrong turn and end up in the wrong place, we can always follow the road back. But in Space if you take a wrong turn, how will you get back? Would your fear allow you to find your way back? Or would your fear make your Soul quickly learn what it needs to do to get back?)

(He tells a story of getting lost in Holland and having the fear of what they will do to people of color if he would have ended up in the 'wrong end of town.' But it was unnecessary. Does our lack of the knowledge of understanding the beauty of man's different races blind us to the truth of how to live? Would this be the destiny of man in

Space? All of these teachings are to help avoid man from making this mistake. If you take a 'wrong turn' with the fields and energy, you have to know how to come back home. Or is 'home' where you feel comfortable living and not necessarily the Earth? This is the purpose of the teachings and they are not for us, they are for you to understand how to live in both dimensions of the Soul and P. In the D of physicality you eat physical food, but in the D of Energy, you absorb the fields like gamma rays, X-rays, Cosmic Rays, and every other kind of ray, as the man calls them. If you can use this knowledge in the D of P to make life easier for the man, then life will indeed become a much better place for you and the rest of those on this planet).

(Today I hope you understood what the purpose of these teachings are. Then you'll lose that fear and you won't talk about the coming of the Messiah. Instead, you'll understand that you are the only Messiah of your Soul and physicality. As I am the Messiah of my Soul and physicality. I cannot be the Messiah for you, nor for my child or partner because they have to find their own way how to live in both dimensions. I can teach and inform them, but I cannot live their lives. And I hope you as KS will find the way to your Soul and start living in both dimensions and then we start seeing you becoming men of the U. You'll be able to live both in the physical D of Earth and the Energy D of the U. After the break let's see what energy of knowledge the man will bring out for us to answer).

### **End of Quick Index Part 1 - 534 KSW**

(The Monthly Flight session moved to next week. We will be testing the stamina of your Soul and your P).

Q: Will the Cosmic Ray Communication Units be the way we communicate when traveling with the UFO?

K- (By the time we use UFOs most of us should be able to communicate through our own Soul. If the people and their governments understood how powerful these future Cosmic Ray (CR) Units are, a lot of governments would have changed position. Because with the normal telephone you only get to the P of the man. With the CR unit you can touch the STM yourself. (Through the interaction of the Soul with the 'Soul' of whoever you are talking to will create the condition of the manifestation of the emotion). Then you don't need to do anything else).

(I was explaining to a gentleman how the Soul communication works and gave an example of it. I met someone in a meeting for the first time and within the first ten seconds I had an impression of him. Then 5 minutes later that man confirmed my impression was correct. And then in the following days, through our dealings or whatever it proved that the essence of my first impression was correct. In the past during these occurrences I used to stay silent and never discussed when I felt something. But now I express those emotions and what I feel. The others call it, a 'Sixth Sense,' but I call it, interacting through the Souls).

(Therefore, do I need the CR Unit to get that feeling? Or can I build up my trust in my Soul and start to live by it? This is how it will be for us in Space. These Cosmic Ray Communication Units are the beginning of it. In the next few months we'll introduce these CR Communication Units as part of the International structure and part of a new development in technology. But really communicating through the Soul is a natural part of the process of Creation and life. (It's not really a technology unless we make it so). A donkey does not pay for its food, a dog does not pay for its shelter, nor does a fish pay to be in the water. These are all 'God given rights,' and it has to be free. But as humans we are putting financial limitations on development of the new technology. We have to reverse this step by step).

(These things are all in the patents and they are how you will take the shackles that are binding the man to his P and don't allow his Soul to grow. (The ability to elevate his understanding of Creation has come with this T). It's been in front of you and I've shown it to you in the past 2 to 3 years, but you don't see it. (The words in the patent say something like the man will be free from the shackles of P and then he'll have time to elevate his STM).

(All the appliances like the fridge and stove will be self-sufficient in energy so we don't have to slave to pay the corporations to provide these things, like the gas, electricity, and communications). (The KF patents are the way to freedom for the STM, because they release the man from these things that have been put on him. It's more than the Bible. But since we are so physical, we think of it as a fridge without connection. But what does it mean when we supply our own energy? Then no one suffers we can't be disconnected and freeze in winter, no child goes to bed hungry, and we don't have to work ten times harder to pay the electricity bill, like in India. It means no one can take us to ransom. The KF patents are the freedom of the man from the shackles, which man has made for himself. Unfortunately, you only see them as a "reactor.")

(When man understands the meaning of the patents he'll find the key to his freedom in all dimensions of Creation. Read the patents and see how much information has been given about all the teachings over the past 17 years or so. The patents were written in 2005).

(This knowledge is not ordinary, it's a knowledge that frees the man from the shackles of everything they have put around him to abuse him).

(We have given you the Knowledge of Creation and 20 years later we are starting to educate you in how to understand their beauty, and what their secret is. We are doing it step by step. We talked about gravity and energy, where the gravity is tangibility, or the physicality of the man, and energy are the Cosmic Rays. But you don't seem to understand that they're connected together. When you are free from these things then you can spend more time with your child. And you will have time to elevate your Soul, because you are not worrying about how to pay the bills.)

(The Gravitational System in the patent you put it in the middle of your yard and you will have a shelter and not have to worry about becoming homeless. This is one of the reasons

why the governments, and all these people from Kings to communication corporations want to crush and control KF. Because we're giving you the key to freedom from all the ways they control you. (They have controlled you for long enough)).

(So do we need to have Cosmic Ray Communication Units? Yes, (in the beginning since you don't know how to do it yourself. It's a way to start the change). You can also use it in UFOs because it's connected to what you want to connect to, and direction of motion, everything else).

(When you use the CR Units you don't dial your mom who died years ago. Your Soul knows how to connect to her Soul and it doesn't matter where she is. We'll teach you how to use these Units. In P you dial a phone number to talk to your Mom. With the CR Units you feel the emotion of your mother and connect instantaneously to her).

(Those who get these CR Units and Headphones start learning how to use them. The people around you might call you crazy because they don't understand them. But you will achieve your target and be able to tap into the Knowledge of the U. In the beginning they might seem strange to you, but slowly you'll get used to them. Don't say it was a coincidence, that only delays your ability to learn how to use them).

(With these CR Units you can contact E.T. from the depth of the U, or reach a UFO that is traveling through the U. There is a lot you have to learn. You can read about the theory of how they work in the three books I have written. The practicality of it is in the patents, and you'll find the secrets of the Creation in both dimension of the Soul and P. (As you start to learn you'll realize what the Egyptians understood and how they were talking about this technology. Because it was a time of 'plenty' for the Egyptians and they had a lot of free time to study more about their own Soul, and how to connect to their Soul. This is how they progressed in everything that they achieved, because they weren't shackled (by what we call large corporations feeding off the peoples ignorance)).

Q: Many women are considered infertile from a medical point of view. For example, because they have blocked fallopian tubes. But suddenly they become pregnant. This is considered impossible in medicine, but it happens again and again. What is the Plasma Science understanding behind this?

K- (Mr. Keshe tells a story about a couple who were so much in love with each other, but the husband I believe, had the testicle tubes cut, or was it a surgery to sterilize him. So when his wife got pregnant he said, it can't be me. She obviously knew that it was him, so she got the DNA tested and found out he was indeed the father. There was another case of a couple who loved each other and couldn't have children so they adopted 5 children and gave them unconditional love. And somehow after 20 years of marriage the wife got pregnant. So was it after 20 years of marriage and all the loving, and wanting to have a child of their own, that it created an energy transfer of their emotions of devotion and she created a child in her womb through field transfer? (Through devotion everything is possible). The emotion changed the body and allowed the physical creation. (The other

thing we don't understand is that our bodies actually change over time through change in our emotions. The doctors have never understood this principle of life)).

(Over time our love changes. (As we age) the blood changes and can become more alkaline or acidic, or we can get a change in blood pressure and everything else. It can also happen through the strength of the fields of the sperm and egg. At some point they can change, and creates a matching field strength with the egg for interaction. This is because the egg and sperm are both plasmas, and they have the push and pull like magnets. If they match field strength then they pull into each other. The idea that the strongest sperm will penetrate the egg is a fallacy in the world of medicine. What a nonsense! The sperm that penetrates does so because it has a matching M field strength. If it is on the other side of the Moon, it will still find it's way to that egg).

(We have to understand the knowledge and the truth, and not what is made up, then you find out that every woman is fertile. (It just depends on what the condition is and what you can create. Even a woman without eggs can produce children. Because the emotion of the energy of the Soul of the woman is within her womb. How can you deny that? It's just that we don't understand, and now it has become a good system to make money out of).

(The same way we take blood tests to say how high the sugar and cholesterol levels are, we can develop a test for the emotional energy of the sperm and egg, then right away you can say whether or not the egg and sperm will match. And we can see why they don't match, (and then find a way to match them). (Was it because the man ate 2 boiled eggs yesterday, where one was from Africa, and the other from Asia, and it created an energy field difference, and therefore the sperm doesn't match the egg?) (Our bodies are made out of fields and plasmas, and not stones, Iron, Calcium, and everything else in the D of the matter state. (Due to the effects of the M fields our bodies are continuously changing). It's not magic, it's just understanding how it all happens, and how the fields interact))).

(Every woman in every dimension of Creation is fertile. (If she is not fertile in the D of P, then man now has the knowledge to make her fertile in the D of the Soul, and then you can create children of the Soul. Instead of working so hard to get that egg and sperm together in P and then creating the Soul, why don't you start by creating the Soul first and then let the physicality take shape. Then you will have unique children of the U. Now man has to understand that part of it, what we call the 'secret of understanding.')

Q: I know connecting and living according to the Soul is essential. What is an efficient, suitable way for us to train and practice the feeling, creating and filtering of appropriate fields, according to the individual needs and the environment? Or, is it best to live more and more in the Soul and let everything happen automatically?

K- (You have to learn (how to do it) before it becomes automatic. You have to learn how to trigger it, how to stop it, and when to start and stop it. We learn all this. It's like how we learn to tell whether or not we feel full and don't want to eat anymore. Or when we

feel hungry and it's time to eat. It's the same process. It's the same understanding, but now it comes in the essence of the emotion, and the energy fields of life. We have to learn to adjust and test ourselves. We should observe if we are doing it because we enjoy the condition it brings us, or are we doing it because we enjoy the pleasure we give to our Soul and D of P, and maybe what we give to the others. This is how we teach ourselves about life. We can never teach it to the others. It's impossible to teach someone else, because they have to feel it themselves. What we feel as a pain, could be a joy to someone else. What is right to them could be wrong for us).

Q: Can you say something about these seven Chakras of man? Do they exist and how do they relate to plasmatic magnetic fields?

K- (I never believed in the 7 Chakras, and especially what they call the 7th Chakra (Crown Chakra), it doesn't fit. (Is that because it is singular, and all the others are part of two halves of organs interacting). So I'm the wrong person to ask about them. But from the point of view of the Fields of the U, we have our internal organs in certain places, and their interactions create certain fields, that could create a balancing point, (and that could be what they are calling the Chakras). It's like when Magnetical and Gravitational fields interact to create Mass. When two fields interact with each other there is a point in-between where the Infinity Loop intersects, and that's a point of balance of the fields. This is a natural process that happens in the body, but then people turn it into whatever they like, and give it whatever names they like. For example, the two testicles interact (and create a balancing point in-between). (Is that the Root Chakra?) They both carry Gans plasmas and are dynamic, and they interact. So, they create a common denominator, crossing point between the two. Is this a Chakra? Or understanding the process?)

(The kidneys have 2 glands that interact. Would people with only one kidney have a different Chakra position than the others? That's debatable, we can explain that too. (The other Chakras line up with other organ positions. But the 7th Chakra (on top of the head doesn't make sense, so it's a made up story)).

(However, physically we have two halves of a brain and we know they interact with each other and their balance (point would be where they say the "Third Eye" is located. We know this point as a point where the dynamic fields of the Gans's of the brain cross each other. It's a real condition of the body that they gave a name to. Then you can make up a lot of things from it. But physically, it's like if you have two magnets interacting, then that point is where the Infinity Loop crosses. Is that point a Chakra? That's what these people talk about, but they have never understood how it is created. Therefore, they gave a name to it. Why don't we have Chakras between our toes or between our knees?)

Q: Can you talk more about the life of the Prophet Mehran? I looked up Mehran in Wikipedia and it said virtually nothing other than referring to Mitra.

K- (It's not an idea, it's an understanding. It's the first time the man in words realized about love and kindness. (The name Mehran comes from this). In Farsi it means the one who possesses love and kindness. It became an attribute that doesn't belong to the

dimension of the man. They said it came from outside, so they made it into an attribute of God, or the Creator of that love. Mehran came long before Mitra. It was the first time humankind understood about the emotion of love and they called it Mehran).

(Long before written history began the Iranian culture made statues, which they still have about that time. They know how and where it came from. Then centuries later there was Mitra and then Zoroaster. From Mithraism came Judaism and then the other religions. But (the essence of these religions was that they believed in a Creator, and not just worshipping the Pagan tribal gods). (The love of Creator was not known to the man. Up to that point he only knew physical love, or love of the mother, father, family, tribe, and those who belonged to your group, let's say. To love for love's sake was considered a divine attribute and they connected it to a god and made statues)).

(Nowadays we accept God as God, and we don't need to make a statue for it. But, at that time it was different. Mehran is the first reference we have to a Creator, which recognized that the Creator had attributes, and he was called 'Mehran.' (The name came to mean the possessor of love, to be part of, to be filled with. "Mehr" and "an" are two separate words. It's the same with 'Tehran,' it means those who belong to 'Tehr.' This is how the language was formed)).

(It's the first time man felt what love is, but it couldn't be physically shown. To show this love they could say "I love you." They could also show their devotion to you by putting you higher than themselves, and regarding this love as 'divine.' This kind of love was not created by Man, it couldn't be held by the wall of a temple, a container, or an animal). They called this love an attribute of the Creator. This is how they created gods. Later on it became Mitra, then Zoroaster, and then the (other religions of that region)). It was the first time ever, that man believed in an Energy above himself, which he could not explain, so he called it, 'Mehr,' or love and made a god for it. It was the first time man recognized something above himself and about the dimension of physicality. It goes back thousands of years before, or hundreds of years before Mitra).

(The Iranian team has started the process for receiving certificates for the conference in Iran. When we receive authorization, that means we can go ahead and we will announce it. It will be a two conference package, the first in Tehran and the second in Washington. We'll see how things take shape over the next few weeks both politically and geographically).

Q: Can the plasma be created from the fields?

K- Plasma is created from fields. (The essence and origin of plasma is from the fields, but it depends on how you bend it and how you put them together).

Q: I thought you needed 2 fields or rays to create a motion?

K- (Yes, there has to be two, but two means 2 fields of different strength. They don't have to be going in opposite directions to each other. The two different field strengths will

interact and create their own balance, and then they decide how they want to move, to master and bring together).

Q: (A long question was asked about the 362nd KSW) -- How can we create emotion where the STP in interaction with the STM, will balance each other, and thus bring the STM out of the P without the use of the Gans you talked about in the 362nd KSW?

K- (I just talked about this when I answered a question a few minutes ago. Your answer sits there. We have two individual halves of the brain the left and right sides. Each one has a dynamic field due to the mass of the (Gans) plasma they carry, the circulation of energies, and circulation of the blood of the man. The interaction of the two halves creates what you call a Chakra, or whatever it is. Some call it the 'Third Eye.' It is actually the interaction of the physical energies of the two halves of the brain).

(If we understand how the two halves of the brain interact then the STM becomes like a new proton in the center. In the second dimension, which comes from the physical interaction of the two halves becomes like an electron. We have control over the position and strength of this electron. We cannot touch this one. (We can ?? position and strengthen the interaction of the two fields from the brain, and we can (expand) it beyond, weaken it, or strengthen it, to create an envelope for transmutation. This is more or less, one of the only ways we can do this. Once we create the envelope then we can contain the physicality inside it. But it needs a lot of understanding and comprehension about the D of the fields. (There has to be balanced fields between the two halves of the physical brain). Then you have found your answer).

(In the past teachings we have mentioned this as part of how the skull is created. This is why when we are born we have a soft spot on our skull. The brain doesn't complete itself until this dimension (gets) adjusted. The adjustment and position of the interaction of the energy of the two halves dictates the behavior, shape, condition of interaction of the man, and even your height and everything else).

(But now is not the right time to discuss this, we'll do it when that time comes. If you know how to bring this energy function into play, you can do a lot of things in respect to transmutation and everything else. This is why we brought a second pair of headphones into the new transmutation process. We'll explain how this will rapidly help with transmutation).

(Initially I used part of this process when I made 'Wellness Systems' for people years ago in Belgium. The more dynamic you make it in respect to the Soul, the more rapid the (healing) process develops because it connects parts of the brain to each other, ?? within each other and physicality. This position is dictated because of the shape of the brain and the shape of the brain is dictated by the skull, which itself is dictated by interaction of the fields of the Soul, within the environment you live in. This then creates our behaviors and emotions. Why are some people so emotional, and others not? You can see it by the shape of the face of the body).

(The shape of the skull and the thing in that area, affects the emotion, that impresses on the others).

(Does the shape of the head determine how the emotions will transfer? Most probably, yes. Therefore, we teach from both the D of P and D of Energy. All the past teachings are starting to make sense and are coming together. (When you expand the Soul you may be able to trigger transmutation. But at the moment you're not ready for it).

(The reason some of you go into the Flight system and immediately can go somewhere, is because the headphones create a balance between the two halves of the brain, and the 'Third eye' is created. I call it, the 'Neutron of the Soul.' When it's created it has to interact because (its position in) the brain is physically locked in. If instead your brain was made of two rotating dynamic cores, then that point would have moved. But the way it is we don't have a choice. It's inside the Gans's (of the brain) and they're all trapped in the same condition. The point is physically fixed. The STM inside the brain is also fixed. So now you have your atom, which is the physicality of the man. And then, it has a emotion direction and you can do a lot of things with it).

(This is one of the reasons during the trials and Monthly Flight sessions we observe you falling out (from the system) and you're just not there. And (if) you put the headphones on, then we see you connected (again). It's because the balance of the energy between two halves of the brain allows that pinpoint (Third Eye) to strengthen. And if it does, then it connects with the neutron or proton, which is in the center of the brain, or we call it the position of the Soul. Then you can go anywhere you like, you have become a man of the Universe).

Q: My question is on different fields to create certain elements. Is it possible to fuse and blend all the fields together? And if so, could it be the field or essence of the Creator? And, is there a sound to all fields?

K- (Each field that interacts with its environment has a noise (sound). Each one has a taste, we can taste it. And each one has an energy. You can (?? make), absorb, observe, feel, and taste all three dimensions. It depends how you interact with it and what it is).

(Immediately when I open a bottle of the Gans of CO<sub>2</sub> I taste it in my mouth. If you blindfold me I can pick out which is the CO<sub>2</sub>. I wonder why I feel the CO<sub>2</sub> instantaneously? It's a liquid in my hand and I taste it. This is how you create the essence of energy fields. (This is how we know what they are, how to transfer it, how to recognize it, and how we can use it). We have to educate ourselves. It's like how the blind read Braille, each dot they feel means something. We have to do the same with essences of the energies of the U and we need to know which emotions they create, and the taste of it. It's an Art to learn. It's part of us but we forgot it. This would solve a lot of problems, and answer a lot of questions).

Q: What is love?

K- How old are you? (Have you ever had the feeling that you wanted to give everything you have to someone or something, be it a man, woman, dog, cat, or a book? That's what love is. It's the unconditional sharing of (our) energy that will allow the elevation of (what we love) in respect to our energy. (Of course, it depends on how you define love. We'll do all sorts of things for our love that we wouldn't ordinarily do. Man accepts a lot of things for his love. It's a kind of slavery. We want to be recognized that we exist. Mr. Keshe gave an example how even professors who are highly respected at the University, when they cross the door frame at home, because they love their illiterate wife, they'll accept that they are stupid in front of her and she knows everything just to get the confirmation of her love)).

Q: It was written in the Book number 3, that God is part of the whole and a fraction of none. Does the word 'fraction' here mean the ceremonial act of breaking the consecrated bread during the Eucharist rite in some Christian denominations?

K- No. No way. (It means a division).

Q: Is there an update on the situation in the Middle East?

K- We have to wait and see. (I promised to one government that I will not make any comments about it this week. What happened in the past 7 days is historical. It took seven nations, and the betrayal of one nation, to save another nation. The State of Jordan will be treated as part of the State of Israel. That's for sure. Never in the world of Islam has one Islamic nation betrayed another. It's earmarked for the next step of what will happen to Jordan in respect to what happened last week. How could this kingdom betray the whole structure of the Palestinians and the rest).

(The new Iranian foreign policy is very clear. The Americans will not touch the Iranian soil. In that other incident the Americans gave Iran 3 days to evacuate the area they bombed so that no one would be killed to create another incident. The new Iranian foreign policy is the same. We told the Americans 48 hours before launching the missiles on Israel. We even gave them how many rockets will be launched and the route they will take. It was just to show the strength of what we can do. The special committee of the US Senate was given a full plan of the attack ahead of time so that we wouldn't touch any American 'assets.' We gave them the same guarantee they gave us a few weeks ago. Then the Americans got 7 nations together to defend Israel against the 300. But still a few got through. The Israelis said there were no deaths, but we know there were triple digit fatalities, especially in one of their military bases).

(We will see, a 'dying dog still barking.' The minute Netanyahu comes out of the office of Prime Minister he will be on a plane to the Dan Hague Human Rights Court. He'll end up like the other world leaders who were convicted and are still in prisons for 'crimes against humanity.' He is set to 'go down fighting' so he doesn't end up there. We might see some retaliation by Israel. But what this action confirmed is that Iran is collaborating with America not to hit any American targets. The Iranians essentially gave the American the key to easily shoot down their slow flying drones. And this has given confidence to the

Americans that Iran will not support another cycle of 'activities' (retributions). Israel will have to step down, but they still have to show Netanyahu is doing something. But any reaction will lead to a faster demise of his government).

(If Iran wouldn't have informed the Americans ahead of time then even half of the missiles used by Iran would have been enough to send the Israelis running out of Israel. (This is what he meant in last weeks talk that the Israelis would flee Israel). Still there is no guarantee that Israel won't decide to take it to the next step. They should understand that Iran only used less than 3% of their capability. So, you can imagine what will rain down upon them in a full attack. Netanyahu and the other military men know that when you launch an offensive missile strike that you have to first lower your own defense to left the offensive missile to leave Israel, and this will make them vulnerable to attack by the other side. It gives a window for the total annihilation of the State of Israel. If you get into a prolonged exchange of 20,000 missiles that window will get opened. I heard through National Securities that Amman, Jordan as well as Tell Aviv is not a safe place to be anymore if they open these attack points).

(The longer Netanyahu keeps the war going the longer he stays out of prison. Some Israeli politicians and high ranking people believe he'll commit suicide instead of going to Dan Hague. The biggest problem right now is from the British. They are 'stirring things up,' by announcing (encouraging) there's going to be a retaliation, because they want to make a lot of money out of it).

(Most of you probably don't know that in part of Iran's history, some 500 years ago, the British brought Lebanese people into Iran and they became the religious people of Iran, and then they took over the government of Iran. They literally run the Kingdom. By no way are these people Iranians, yet they are still (ruling) Iran. Even though they have been in Iran for about 500 years they never became Iranian. Like the Armenians they have been in Iran for thousands of years, but they remain Armenians).

(The Lebanese people who govern Iran today can be easily recognized because they call themselves Ayatollah's and their family name connects to a village. They gave themselves Iranian names to cover up that they are foreigners. All the ruling Ayatollahs of Iran, are not Iranians. For example, "Rafsanjani" means he came from the town of Rafsanjan, which is a district in Iran. This is how they recognize each other. The second rule they follow is to never allow their daughters to marry outside. They have to marry another Ayatollah's son. This is the tradition in Lebanon and the Jewish families, that the bloodline goes through the daughter. Where in Islam it goes through the son. Because of this background, is why we see Iran supporting Hamas in Lebanon and the rest of it. Because they are interconnected through history and blood).

(Ayatollah Khamenei came from (the town of) Khomein, and the same with the other Ayatollahs. This is how we recognize them in the culture of Iran. Like for me I come from the village of Keshe, through my grandfather. You have the same lineages in China and other places. The distinction that only happens with Ayatollahs is that they give their daughters only to another Ayatollah's son. This keeps the bloodline and tradition to the

Lebanese culture. They look after each other and bring each other up, and that's why they're all in power. (They were out of power) 200 years ago, but then with the Iranian revolution they came back into power).

(People don't understand why Iran has got such a strong connection to Hamas, and the others, it's because they are all brothers. They are not Iranians, their blood comes from Lebanon. They're helping their own family and not Iran. But they've been brought up in the structure of Iranians. It's the same with Armenians, they still speak their own language and only marry with each other. This is the cultural structure of how Iran is).

(Iranians always respected other religions and cultures, but this group works in this way, and that's why we see so much connection of the Iranian Islamic government to the Hezbollah, and others in that area, because they are family. The British (as a colonial power purposely created this) 500 years ago. When they say Iran has so many proxies, these are not proxies, this is helping their own families. None of them are Iranian by blood. Then you understand what is planned for the next step and the next).

Q: Let's say for now that the stronger strength is hatred and the weaker strength is love, would this automatically be balanced or would the love field become more dominant? Thank you for bringing the world closer to peace.

K- (It depends. It's very much like when you reach the extreme of alkaline, then you become a weak acidic. And if you go to the extreme of acidic, you'll become (a weak) alkaline. When the strength of an acid reaches its peak, it starts switching to alkaline, but starts out as a weak alkaline. This is how they connect. (?? a residue of one always stays with it and starts to grow when they switch over). (It works this way whether it's from Alkaline to Acidic, or love to hate)).

(Our body creates the fields in that dimension and direction. (And if our emotion reaches to an extreme, or a 'tipping point,' then it starts the creation of the opposite emotion). (It's like when you have a lot of water going in one direction, and you have a small (opening) then you see a vortex start going in the opposite direction. It creates a direction of motion. It's more or less the same. (?? If a force is going stronger in one direction and the others around it cannot keep up to it, then the difference between the slower and faster create an opposite force, and this is the first sign of a plasma)).

(You can see this in the Solar System. Look at the direction of rotation in the Sun and compare it to the other planets like Earth and Moon then you'll understand. Even within the fields of each other, they create an opposite direction of motion. An interesting thing is that we always look at the Sun from our point of view. How would it look if you were standing where the Sun is, what would you see? You would see a different side of the Moon than we see. Does the same principle apply to it? And, is that only in respect to the Earth, or is it in respect to the Moon? If we look at our Moon from Jupiter or Saturn do we see a different side of the Moon? Because the Moon is rotating at a different speed, you have to compare. Or do they only see one side of the Moon, because it's relative to Earth, and not relative to them. Then you'll understand a lot of things. (?? And how the D

of P matches the D of the emotion. And the beginning of one ?? is the start of the other extreme)).

Q: How many teachers are there like Mr. Keshe in the Universe at this moment, teaching the Knowledge of Creation?

K- (Have you (seen in the movies when they said,) 'E.T. (phone) home' or 'Home alone' when the child was left home alone? It's both).

(At the moment we are still in China. One Chinese said that when he listens to our teaching he wonders how come we can answer the physics in more detail than the (matter state) physicists can. And when we talk about medicine we know about every organ and how they function. We also teach about energy, cosmology, and other things. He said, those of us who study the books have a problem to understand what you teach. But what we teach makes sense. He asked where our knowledge comes from. I said, "I don't know." This is a Knowledge of Creation and we are just the teachers. (We teach in the body of the man at this time, place and position. Our thinking is in the D of the Soul of the emotion of the man, and it is shared by the Universe, but man only hears the voice of the man, because he hasn't learned to listen to (the Soul). If you listen to the voice of the man and to the STM, then you'll (hear) exactly the same message. (You asked how many teachers are there. Well the thing is, if you have too many people teaching the same thing, then you can imagine how confused the Soul of the ?? .. ) I like the saying, "One at a time." If you put two pieces in front, one at a time, then that should answer (you)).

(Thank you very much. And we'll see what God brings us next week. Those who participate in the Monthly Flight Session next week write down ahead of time how you felt since the last session and what has happened to you. We'll give you 10 to 15 minutes at the beginning to discuss it. This will give us a chance to set up for the next session. We are trying to start the phase of transmutation testing, because we only have until June when the group of sessions end. We are getting ready for Iran and Washington to show the T).

Q: If Iran possesses the T why don't they really show it to the public, because then at least the public will know about it, and what Iran possesses. Secondly, what message do you have for the Israelis now?

K- Wait, wait, wait. Iran has already given a very clear message. (We have powers that they can't even imagine, and we'll show it if they do (something)). (This was said on Al Jazeera, that if Iran didn't possess nuclear weapons they would have not touched Israel or Pakistan which are two nuclear powers. Iran has an excess of 30 nuclear warheads, active, and still they haven't used them on the Israelis. Iran is the only nation which has hypersonic missiles up to Mach 29. There is no T in the world that can even detect them, let alone intercept them. Iran's arsenal of defense and technology is so far ahead of the others, but we don't show it, and we don't need to show. We'll show if we want to do (something)).

(They were debating some weeks ago if Iran has nuclear weapons. The answer was yes, we have many nuclear weapons as a national asset. We have them as a deterrent, and not for war. Now you understand why the Americans are working closely with the Iranians. They know the technologies we possess. Part of this current situation is related to an agreement that has been reached in the background, that Iran will give American scientists access to some of the technologies they are dying to have. The Americans are not just standing there and not doing anything when it comes to Israel. Their government has a policy. They are negotiating with Iran for new technologies. They need them if they want to match the rapid progress of the Chinese).

(There's a bigger game than what you see in the news on the table. In so many ways, the Americans 'sold out' Israel for new T. What we hear coming out of Iran doesn't make sense. Iran has reduced production on advanced weapons grade (?? plutonium) and has closed their centrifuge. The IAEA and Americans have accepted these as facts. So it doesn't make sense if they want to make nuclear weapons. Unless Iran has access to technologies beyond what the Americans have. In this way the Americans are coming to some agreement with us, in what we call, 'technology in exchange for peace.' And we'll all see it. (What Mr. Keshe said years ago is starting to come true). He is going to show us some pictures that will shock us).

(I think the Americans will be shocked with what is coming up. And it's the pattern we saw with British. Let's all have a bit of fun with it).

(Mr. Keshe shows a photo of a triangular shaped aircraft with 3 lights on the bottom in the shape of a Star Formation (SF). You all know what this is. It's a UFO with a SF. Nobody knew about the SF except KF. Now the Americans are heavily promoting it as being created by Americans. In 2020 they have submitted a patent describing a Star Formation, which KF started teaching in 2014. They have found a 'bogeyman' in Disneyland. His name is Dr. Salvatore Cesar Paris. This gentleman has taken the KF patent and submitted it as an American patent in 2016. That's 2 years after we released our patent. In 2020 the US Department of Defense has for the first time submitted this as a patent. But it is from an open patent of the KF. That's blatantly stealing technology. The problem is that guy doesn't have any knowledge about it. (He fooled them). Now the Americans are negotiating trying to access to KF technology through Iranian scientists. Now you understand. You can go on the Internet and find this Dr. Salvatore Cesar Paris and see what he did in 2016. He has become a 'guru' for the American structure of scientists, but he is a fake. They won't be able to hide it, because we have already opened our patents before they submitted theirs).

(It's impossible for them to build this craft, because they don't have the knowledge. By looking at the photo you can tell the guy is totally ignorant of the new technology, because you cannot have a triangular craft with a SF inside. It has to be done in a different way and only I have that knowledge. With my knowledge I can even make a 'zig-zag' flying system, or pencil shape, or an arrow shape craft with reactors, and it will have a substantial physical body. This shows the guy is a fake. He is trying to make plasma for the American military, but he hasn't understood about the core plasma, the

way we do it. Now the Chinese will crack it, and learn how to make the system work. He is still working on the basis of the ?? Tokomak ground, because he couldn't understand it. The first time we saw this guy was in 2016).

(When we opened the patent publicly, that guy took it and went to the Americans and said, "I found something." And the Americans fell for it. It's the same way they fell for the German guy, (the SS guy), what do you call it, the 'murder machine.' Wernher Von Braun headed NASA. Now you understand why the Americans are 'looking after the backside' of Iran, and why they sold out Israel. They are after this technology. Even the American scientists in their Defense Technology say, none of what this guy says makes any sense. It's because he hasn't understood the essence of the new technology. It was the same with Stephen Hawking going to lecture in Dublin about Black Holes, after I released my paper (and the British gave it to him). Everybody said he was talking nonsense, because he didn't understand it).

(This is where this matter sits. The Americans know KF has come to an agreement with the Chinese. And they are trying to get access to this technology, either by blood (killing), or by selling out Israel. Israel has been sold out for getting new technology. Now you understand how the game is played, and why we are sitting in the seat of control. And why the American need (to have this)).

(This technology belongs to the Knowledge Seekers to be used as a tool for peace).

(I gave the warning and the Americans and the others understood. It took 7 nations to bring down these 300 missiles, or like I told you, Israel would have been annihilated. That's why I said, that the Israelis would be on the run. Iran gave the warning to the Americans and didn't hit any American targets, now we are brothers and understand each other. But Israel will pay heavily for it. Because once this situation is sorted out, a second Palestinian state (will be approved) in the United Nations, which will be done sooner or later, then Israel will have to pay war damages to the Palestinian nation, and they will have to rebuild their whole nation for free. This means the Americans will have to pay the bill).

(The discussion goes much deeper, but I don't want to go into it. But you will see it. Today we see the sign for, 'technology in exchange for peace.' I've shown you how that peace will be achieved. Iran had to do, what had to be done, and in the process they got rid of a lot of old rubbish, rockets and things. These were the first generation, and you always make a lot of mistakes when you build them. We don't need to defend. We already defended. (We understand how to use the technology to bring peace)).

(The whole purpose of launching these missiles and drones last week was only to show that we can, and we will (if needed). We showed the honor and dignity and promise we kept to the Americans. You can find it on the Internet how we gave the Americans 2 days warning and they gave it right away to the Israelis. The Americans didn't have enough to defend Tel Aviv so they brought in the British, and the others. Most of the rockets were intercepted by Jordan. It was an Islamic nation betraying and they will see the result in

the long run. Without Jordan opening the air space it would have been very different. It was wrong for Jordan to open the door that way, they should have made different arrangements somewhere else).

(But in a way, Iran is a state of peace, but we have to see what this crazy guy does in Tel Aviv. He has to create another position of attack. And the day he stops, he'll be taken back to Dan Hague. When he was deposed as a Prime Minister and he had to go through Tel Aviv airport, he was deliberately treated by the staff of the Israeli airport in Tel Aviv as an ordinary man. He got so angry and said he was the ex-PM. This time they will treat him worse, because he killed many Israelis. But we'll see).

Q: Thank you Mr. Keshe for seeking to stop this bloodshed.

K- (At the moment, we have one crazy man sitting in the seat in Tel Aviv and nobody knows how to get him out. The Americans are hoping with this new situation they'll get access to some new technologies. But this time instead of the British taking all the 'loot,' the Americans got it, which is technology and peace and a lot of other things with it).

(The guy who wants to interview Mr. Keshe said he interviewed Dr. Salvatore Paris, the one who stole the technology as his own and fooled the Americans. He said, he really didn't know what he was talking about and goes in circles and doesn't have much scientific substance).

Mr. Keshe laughs and says, "I know."

## **KEY-PHRASES:**

## **SUMMARY:**

## **ENGLISH TRANSCRIPTION**

(:15)

K- Yes, thank you very much. Good morning, good day to you, as usual wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. And as usual, we welcome you back to another session of knowledge gathering and finding out what we can do with what we didn't know what we can do with it. And we didn't even know we had it. And now we're going to. I don't know what we're going to do with it, now we have it, how we understand it. And how we can utilize it for our, what we call, elevation of knowledge, and that knowledge is not necessarily human knowledge, it's a knowledge of Creation, (:16) which means it's beyond us, beyond humanity.

And the teachings of past few months, and past few years, is to bring for man to understand the knowledge beyond the knowledge of man, beyond the knowledge of what we gather to be, what we call, the Earth, the wind, and fire, and the daylight, and the night light of the man. And, in a way, as I said to one of the Space scientists very recently, when man goes to Space, it's darkness. And that darkness is not just physical darkness, it's a knowledge darkness. Man today, with the present knowledge he has, when he goes to Space, is like a man in dark. He has no knowledge what he has to do. What are the resources? What is there for it to see? How can he change this darkness to a light? How can he change this darkness, which is no dimension (D) to it, to a position where he can exist. When our astronauts traveled to the Moon and come back, they don't see a light around their craft. There is nothing except darkness. And that darkness joins in with the darkness of ignorance, the knowledge of the Creation.

And, through the teachings of the Keshe Foundation in past few months and years, We're trying to educate the man how to guide himself, how to live in this darkness, darkness of light, and darkness of knowledge, Knowledge of the Creation. (:18) And how to turn this, what I call, 'black environment,' to a flourishing space for itself to live, for man to recognize what's around it. It's very much, when we live you in a dark room, you start touching. Is there a table? Is there a chair? What is this object? It feels like a chair. What can I do with it? Can I sit on it? You touch, this feels like a light. Can I switch it on, to get rid of the darkness? What's the other one? Is it a bed? Is it the carpet? Is it the floor? Can I walk on it? Is it safe? So, we have that situation, where we, by choice, enter this darkness. We enter in darkness of Universe (U), both in the dimension of the physicality (P) of the observation of the man, and both with the knowledge of how to survive this darkness.

And, part of the teachings of past months about the Soul, about Cosmic Rays (CR), is how to survive in this dimension. Man has learned how to live in dimension of the Earth. You have rain, you make a roof, you carry umbrella, it's dark, you put a light on. We have learned everything about how to survive this environment. And now we are endeavoring to go into another environment, and we have to learn everything about it. How to switch a light on. How to create dimension of vision, tangibility, or understanding the existence without tangibility. How can we use this, if we are in this dark room for many days, where is the food? Where is the fridge? How can I get the food, which could be on the table, or it could be in the refrigerator? (:20)

In Space we don't have a table to put the food on, and we have no refrigerator to put the food in, that it doesn't go bad. We have to make, we have to do with what is available, to make that food, to make that fruit, to make the energy, use the energies of the Universe to survive. Is it easier to survive in the dimension of physicality in Space, or is it easier to survive in the dimension of energy in Space? What you call Gans's. You get a Cup of Gans and you say, "Oh, this is good for Corona" because you believe in it, it's done something, it saved you somewhere, and then it has a energy. But, in fact, it's the energy of the matter state which is there, you learned. Now you have to learn to use the energies of the Universe to get rid of that Corona, to get rid of that hunger, to get rid of fears of the darkness, the physical darkness or whatever.

This is what I just said, very recently to the Knowledge Seekers (KS) and people we were with. If you go back to the patents of the Keshe Foundation, we have spoken about the systems, like cookers and the fridges, which have no need for wiring anymore. At that time, 14 years ago, 15 years ago, it was, oh, it's just 20 years, ???. It was, you know, it talks there in few hundred years, 50 years maybe. Now it's there, it's with us. We have gathered the technology (T).

And then, as we said in other patents, (:22) soon man in Space has to find that wireless Cosmic Ray connection to the fridge of the Universe. And how to cook the fields to become part of the need of its existence that the Soul does not disintegrate. Now you understand, all the teachings, gradually opens up in how man will survive in Space on his own. It's no use, your wife next to you, or your daughter next to you, understands how to tap into the energy, because she cannot give you that. If you haven't learned to tap into Universal energy, you can't tap into her Soul's energy. Because, you have not learned the art of surviving, art of utilizing the Cosmic Rays, the Cosmic Fields, the energy interaction, the fields interaction. You're like a blind (man), who cannot even feed himself, not walk on his own, and somebody's holding in his hand, in the darkness of the Space.

Now you understand why Mr. Keshe jumps from Nano into Gans's, into Soul, into Cosmic Ray. This is for you. When you are the 'last man standing' in the space of your life, how to survive. We provide the rope, the lifeline to existence in the Space. It's you who's going to hold on to this rope to get to the end of it, to the destination that you can manifest yourself, or you can use this rope to hang your Soul and bring an end, (:24) in a way, demise the interaction of these fields on its own, as an entity with the rest of the Universe.

In a way, you are that single star in the middle of nowhere. Now you have to strive to enjoy the time and place, know which to interact with, which one to avoid, and which one to enjoy, that you can exist in that dimension. You've learned that in the dimension of physicality of the man. You drink, you laugh, and everything else, But now, you have to learn that in a dimension of the life in the Universe. And, as I said, this is all the purpose of the Keshe Foundation teaching. We are showing you the strings, we are showing you the ways, how to survive.

Now is the talk of a nuclear war. Who has nuclear weapon, who's going to use it. And, would it happened that you know what to do, and you can stand a nuclear radiation, change, convert into energy, that there is no physical manifestation, that no nuclear weapon and energy can touch you, and when it calms down in a few days, in a few weeks, in a few months, in another position on this planet, you can manifest yourself in the dimension of physicality (D of P). And then go and look for what was what happened. So, the dimension of the teaching of the conversion of the Soul of the Man (STM), is in a way, another dimension, another way, the sooner you learn, that no nuclear weapon can kill you, no bullet can kill you. No accident can demise your physicality, because instantaneously on a alert of understanding, (:26) you can change in a dimension of

emotion, to the new size, the new energy, and move on. It's like you see a train coming, you stand in there and get hit by the train, or as you have legs and you react, you jump off and the train passes. Up to now the train was a train of physicality, now the train is a Cosmic Rays, it's a fields of the Universe. It's a nuclear bomb, radiation and the fields. Are you going to stand there and watch it to come? Or are you going to stand aside and know how to jump off? How to transfer from physicality into energy and energy back to physicality?

The question is, is that so hard? You do it every day, jump in front of the cars, crossing the road, not to get hit by the other one. As soon as you cross one car, the other one comes and there is a bike coming, and then, up to now you were looking to the right, now you're going to do the same thing with the left to cross the other side. This side was Gravitational (G) and the other side is Magnetical (M). How you are going to survive this? The way you juggled your way, crossing the cars, avoiding the other people running next to you, you have to do that now with your Soul. You have to do that now with the Cosmic Rays. "I don't want these fields, because it's too strong, I need the other fields, which is weaker, it speeds my Soul, it gives me dimension of its ?? what I can tap into. Today I don't need a stronger field, I need a lighter field, and the rest."

There is no difference in the dimension of existence, in the physical dimension or in the energy dimension. It's just man, because has never had experience, now has become a dilemma. (:28) This is why people like me, looks very clever and he knows everything. We understand the principle of the Creation, and every man has that capability. It is not exclusivity of the Creator and His certain created things, call it, ??, 'Ayatollahs', 'Priests' and the rest of it. This is why Keshe Foundation has no religion, there is .. We are a scientific organization. Because, we have to survive the journey of the STM and the physicality of the man in the Universe. Not only on this Planet.

We have done enough journey of physicality on this Planet. We do it 50 years, 60 years, 90 years, and at the end we lose, because we never learned how to tap into the energy of the Universe. Then, the energy center departs, because he knows and he survives somewhere. This body finished, I go to the next, in another position and dimension. And if you have a target to achieve, you just change the physicality into another one, into another one, till the dimension of elevation of the Soul is achieved. It's not reincarnation, it's transmutation of the Soul, from one to another dimension. And you can do it, as long as you like, if you know the art, the way we do. We spent thousands of years here, and everybody thinks, "Oh, this is... but it's the same, it's the same community, it's the same people." Say, "Oh, I've seen you 2,000 years ago, what happened there, what happened there?" "Can you organize this now they are waiting for Christ, to put somebody on the cross? We tell something and then move down, further ?? another 2000 years, the same guy." (:30) "Who this guy? I'll be calling prophets, so and so, and the rest of it." "Because we said it's going to come, they believe in it, so we play it."

So, you understand, the whole purpose of teaching, is to give the man the art of survival. Both in the dimension of physicality, not only on this Planet, but when you transmute and manifest yourself, it's the same art. You have to take some energy, you have to release

what you don't need, maybe you store something in for the bad days, the rainy days, and, if it fits the right way, is a happy place, I stay a little bit. I use lower Cosmic Rays for this environment, (?? if I live in a) higher environments, the energy fields, ?? another Cosmic Rays. But at the end, I absorb the fields of the Universe. What I need from it.

This goes back to all the teachings that I keep on saying, What we eat is 20%, the other 80% comes from the Universe. We put that food in the mouth, we put the trap, and the Universe feeds that, connected to that trap. And it feeds it, and in coming to get, reach it, our cells absorb what it needs. In a way, if you look at it, the food we eat is the cheat, to absorb energies from the Universe. We put a little trap to absorb more from the environment of Universe. If we learn, if we master the art of what we put in our mouth, we master the survival of the Universe for thousands of years.

The food we eat is a cause of our demise, because we don't control what we put in, and so what goes in, it absorbs everything in which our body doesn't need. (:32) And because it doesn't need, it has to work to get rid of it, you age and ?? ta da. You're given 'six foot under.' If man realizes this, if man comes to absorb the energy of the Universe, instead of feeding itself with the dimension of physicality, man is immortal. Because you are part of the Totality, and the Totality has never died. The mastery, the art of it, to know what to take from it, the strength you take from it, the way you take from it, and to give to it what you don't need, because if you keep, you become an attraction point and it becomes that cancer. Now you understand what I keep on saying, and I keep on teaching, that you take what you need, because what you keep as a surplus, is the cause of your demise, does not matter in which dimension of physicality, energy, in the Universe you decide to live.

Then, you understand, why we teach about Cosmic Rays (CR), why we teach about the Soul, why we teach about understanding the process of the Creation, that all are interconnected. You take too much Soul, you give the cancer of the Soul. And that 'cancer Soul' cannot have, transferred it to the physicality of the man. It's the energy pack I don't need.

Now you understand, why we cover all aspects of the knowledge of the Universe. Now you understand, those who never understood, play the game of, "Oh, they are playing with the Soul, he wants to take your Soul." (:34) "Oh, he's telling you about the Cosmic Ray, he wants to take you to the end of the Universe and leave you there to rot." He can rot, it's not the refrigerator, you frozen for the rest of your life, if you go with the physicality of the man. A nice human looking ice pack, floating in the dimension of Universe.

Now you understand, for you to survive the span of Universe, you have to master all 'art of the Creation,' not some parts. And this is the purpose of the teaching. This is the purpose of what we teach, for you to understand, to gradually unravel the secret of Creation by yourself. Because, you are the last man standing. Just because your son has become a doctor and a professor in physics, does not make you a professor and whatever as the father or the brother. Because he talks about something you have no knowledge. And to you it's just a riddle. To this purpose, to this reason, for what we teach, is for you,

not for us. It's for you to understand how to tap into the Universal Energies that you need. Don't take the bigger one, it's the cause of your demise.

This is why the energy, the Gans of the amino acid (AA) of the physicality of the man is important. and it has it's own fingerprint. This Soul, this Soul which is created from the AA of the atmosphere of this planet, has it's own fingerprint, it has a own strength, and that strength belongs to planet Earth. (:36) It's that seed you put in the pearl, that then everything around it, collectively, makes the pearl, but still is what's in that center, Which is the cause, which is the essence, which is the reason for existence of the pearl. And if you look at it that way, the STM is that seed, and the body of the man is that pearl. You change the environment of the area, the, the what you call, covering of the pearl will disappear one way or another. But the seed will be there, you find that stone, that center, which started the whole structure of the ?? pearl.

Now you understand, why and how you have to gather all the knowledge of the past years, as Rick says, over ten years, over thousands of years, which man has been here. And what he missed, what is to do with the physicality, what to do with the energy, and then man will conquer the Universe. For himself, not for anybody else. We do not have Kings and Queens and Emperors in the Universe, as no one can conquer no one's Souls. No one can possess no one's Souls, no one can dictate to no one's Souls. And the ones who try to dictate, soon will find out that they are the losers, because it's them who deprive themselves from receiving what is available from the others. Now you understand.

As we go deeper, in the Knowledge of the Creation, it's for you to understand the process of the Creation, from physicality to the energy, from energy to physicality, and how to survive each dimension. (:38) You want to stay in the dimension of energy for thousands of years, millions of years of planet Earth time, you're quite welcome, you can do it. There is no reason why not. But, you have to master the art of where to take, what to take, what to give and what to do. And if you become clever enough, you can tap into the Universal Energy Knowledge, which is the information, which is part of the Soul of the emotion of the Universe, and learn about the process of the Creation from the day one. You get access to the knowledge of origin, you get access. Because it's there. It's you who's got to tap to it.

It's like your brain, you know, this figure means A, because you've been taught, you know, you recognize this is A and this is 1. Your Soul has the same knowledge, knows what it means, when it comes across energy fields in the Universe. And those who try to be greedy, to own it, to hold it, are the ones who lose it, because they create that energy field, which ends up to their own demise. When we store the energy of the emotion in the wrong place, in the dimension of physicality we create for it, we give ourselves cancer. There is no difference in the dimension of the fields of the Universe. When you gather energies which you don't need, it has to go somewhere, and that one day, somewhere, it interacts, it disintegrates to interact, and creates the change in the energy balance of the, what we call, plasma of the STM, and man becomes a new thing. And not what the man was in the dimension of the Soul. (:40)

So, what we teach you, is not that we want to control your Soul, and (we) are a 'Soul catchers' and the rest. No, it's for you not to lose your Soul, that it cannot be caught by no one, but it's the end and demise of you. And those who try to control you, they put their fear about the knowledge which you're gaining to understand the freedom. Because, if you become free, they can't abuse you. If you become free, then there is no 'devil' that you'll be scared of, that then they can do what they like with you. You know the trend. What do the abusers do? What do the pedophiles do? They always tell the child, "It's your fault that I hurt you, because you've done something wrong, and you listened to somebody else, so I have to do this to you." And those people who tell you, "Is this, they are trying to control your Soul through the Keshe Foundation." You cannot, you get the freedom of life in the Universe.

And it's you who have to understand, how to create that light. As I said once to the children in a school, when we were teaching them about the technology of the Plasma. You've seen it in the movies, they light a torch and they shake it in front of them, to see what's in the front and whatever, or to hold it. You can do that when you're on the Planet Earth and there is oxygen. If you have the same flag and you go into a mine, but there is no oxygen, you shake it as much as you like, there is no light, there is no oxygen to put that fire to burn. (:42)

How do you create that light in Space, when you have no oxygen? You create a dynamic field and the interaction of that dynamic field with its environment creates light, the way the light is done on Earth. Now, what is hard for you to understand the difference? One is in the dimension of physicality, you need a physical matter, one is in the dimension of, what we call, motion of the fields. One is for matter state and one is for dimension of the energy state. And that light which you create from the plasma of the field, does not need to be physical, because once you do, when you light it, when you absorb the energy, you show the energy of the environment, can be within the STM, for man to be enlightened. The way you put the seed in your mouth to absorb 80% in, you can put the same thing, the energy of the emotion of love within the STM, and make the STM, absorbing the other energy of the love of the Creator to it. And it's a secret to find a way to your Creator, to 'seed in' the love, the what we call, unconditional love of the Creation. Then, you can reach that position of understanding the process of Creation, and the path to the Creator, to essence to the source.

Now you understand. We had to do this correction. We had to open your eyes to understand, why you're doing the Cosmic Rays, why we connect to the Cosmic Fields. On Earth you have the apple and banana. (:44) In the Universe you need Cosmic Fields and Cosmic Rays, in how much you want, what you want. On Earth you have roads. In the Universe you have the Magnetic field path, that takes you to where you want to (go). There are no roads, there is no tarmac, and there are no donkeys, and there are no jumbo jets. On Earth, you decide, you turn the engine on and you go to a place. To get to the place you want to go. Because, you're exhaust is in the back, to push it to the front. In the Universe, you create a lower field strength, compared to the destination, and then what

happens? Or, you use a higher strength of the Soul to move away, or to absorb, it is the same.

So now you have to understand, it's getting to the time where the man has to decide, would he like to be donkey or to be 'donkey-ed'? Wants to live in a dimension of physicality and suffer with the dimensions of it, the hunger, the pain, and everything else with it? Or live in the dimension of the energy with no limitation. The only difference between the two, as I always said, we come to the dimension of physicality because it has advantages of touching, feeling, and showing the love. And that's the only three things which is different between the dimension of physicality energy and the dimension of what we call, energy of the Universe. The love, the... and this is how Mitra was attracted, and then attracted the Creator in the mythology of the Creation. (:46)

Then you understand. You have to know, if you want to live in the dimension of physicality, or you want to live in the dimension of energy, and can I use some of the knowledge of dimension energy, to live a more comfortable life, in the dimension of physicality, and vice versa? Then you understand the purpose of the teaching. We're not teaching you how to do this, to go rob a bank or what. We're teaching your how to be correct in conduct with your own physicality and the essence of the energy of your living, which what you call, the STM.

And as soon as man understands this, as soon as man distinguishes between the two, as soon as man can interconnect them, man has become the passenger of both the planet Earth and the Universal Community. I cannot get your hand and drag you to the ones you call aliens. This is from the Earth. It's a woman or it's a man. And he doesn't want to know he cannot eat. Well, he says, leave them there in the Space. They die, because there is nothing here. There are no grass and no cows for man to eat.

And then comes the question. If we throw a creature of this planet in the deep of the Space, would it die? Or would it survive? (:48) I dare the world of science to test it. Take a man and throw him out of his monkey suits on the Space, on the Space of the Moon and see what happens. The physicality will choke, the physicality will break down, but the STM will exist and create his own new dimension. And when man realizes this, man will have no fear from Space. As, in a way, we leave this physicality on this Planet anyway, after a few years. But, in that Space we can decide, "If I go out in that Space of the Moon, I transform, I transmute to a new dimension."

Knowledge Seekers have to come to understand, the truth about their own creation and nothing else, and these teachings of the Keshe Foundation. And I'm sure in the future teachings you will learn more, how to do it properly, how to do it faster. In Iran we will show the flying machine, in Washington most probably we show you the transmutation, but at the end of it, we have to stop that flying machine somewhere. You've got to get out. Yeah, if you'd end up in Bahamas, good luck to you, but what happen if you end up on the Moon? You have no Space jacket, and the condition of the aircraft is the Earth condition, you're on the Moon. What you say? Goodbye happiness? Welcome loneliness, if you know the song? Is that what's going to be the history of the man in Space? (:50)

How many times when you drive you have taken a wrong turn and ended up in the wrong place, but there was a road you could come back. The next time when you go into Space and you take a wrong turn, do you know how to come back? And would your fear allows you to find your way? Or, would your fear allows your Soul to bring back the education of what it has, to bring you back?

Years ago, I got lost in Holland, and from what I knew, what I saw, the fear we had, set into us by the color of the skin of the man, it was a fear, trying to get out as fast as you can. "Hide away, this is going to happen to you, that's going to happen to you." We find a way out, but was it real? Or, lack of the knowledge of understanding the beauty of the color of man, blinded us to the truth of how to live. And would this be the destiny of the man in the Space? And all these teachings is to avoid you from making that mistake. If you take a wrong turn in energy and fields, if you end up in the wrong place to know how to come back home. Home is where you feel comfortable and not necessarily the Earth. Now you understand the purpose of the teaching. And it is not for us, it's for you to understand the two dimensions of living. (:52) You live in the dimension of physicality, you eat food, you live in the dimension of energy, you live with gamma rays and X-rays and Cosmic Rays and every other ray man can call it. But, can you use this knowledge in the dimension of physicality to the advantage of the physicality of the man? Then you make the life much better place for you and the others.

I hope you understood the purpose of the teaching of today. Then you lost that fear and you lost that talk of Messiah. Only Messiah is you, and you are the Messiah of your physicality and the Soul. As I am Messiah of my physicality and my Soul. I cannot be for you, I cannot be for my child, I cannot be for my partner because they have to find the way to live in both dimensions. I can teach, I can inform, but I cannot live their lives. And I hope, you as Knowledge Seekers, find this separation, find this understanding, sooner, then we can start seeing you, to become the man of the Universe, the man of Creation, the ?? cause of the existence of the man. Both, in this dimension and the other. We go for our usual break and we come back and we'll see what the energy of the knowledge of the man will bring out for us to answer. Rick, if you like to take us for a break, then we separate the two parts and then we come back.

>> **BREAK** >> 534 KSW April 18, 2024 (1:00).

K- Not much. There's one thing we have to remind you, as we said last week, there's a possibility that the monthly session of the third week of each month, Friday, we will be moving to next Friday than tomorrow. We have to do that, because we're still on the move, and it'll be impossible to hold this session on for tomorrow. Next Friday we'll have the usual session, and new, what we call, experiments. And testing of you and your, what I call, the stamina of the Soul, and your physicality. So the monthly meeting of Friday is moved to next week and not this week. Thank you very much. We do apologize as you know, we can't do things, we try we do our best and we'll see what comes up and hopefully next Friday at 9 o'clock we start the session. (1:02)

Any questions?

Q: ...Will the Cosmic Ray Communication Unit be the way to communicate when we travel with the UFO?

K- You should establish that by then through your own Soul. Most of us, in a way, still there, but most of you who do that, as to do, should be able to do. I was talking about this, the past couple of days, that if governments, if people understand, how powerful the future of these Cosmic Ray Units is, a lot of governments change position. Because, with the normal telephone you get to the physicality of the man. With the Cosmic unit you can touch the STM yourself. Because, the interaction of the Soul, with the Soul of the dimension of whoever you interact, creates the condition of the manifestation of the emotion. You don't need to do anything else.

I was in a meeting just a few hours ago, and I explained to the gentleman in front of me, that when we met somebody a few days ago, within the first ten seconds, I had a impression, and I explained my impression, And within five minutes of the person present to us, the physical dimension and persona of the person, cleared to me exactly what I felt the first ten seconds was correct. (1:04) And in consecutive days, interaction or whatever different ways, proved the essence was correct. In the past I used to stay silence. In the past, I never discussed, this was something I felt, I lived the time to come. But now I express that emotion, what I feel, you call it the 'Sixth Sense,' I call it the interaction of the Souls.

So, do I need the Cosmic Ray Unit to get that feeling? Or I build it and I trust it and I start live by it. And this is how it will be for us in the Space. And these Cosmic Unit, Communication Units are the beginning of. In the next few months, we'll introduce this, what we call, Cosmic Communication Unit, as part of the International structure. As part of a new development in technology, we're in a way, is another part of the process of the creation, of us living. A donkey does not pay for its food, a dog does not pay for its shelter, A fish does not pay to be in the water. It's 'God given right,' and he has to be free. But as humans, as we develop these limitation of the financial limitation, with the new technology, we have to reverse it, step by step.

And, if you read the patents, they're all in the patents, (1:06) how to take the shackles of man, binding in physicality that doesn't allow the growth of his Soul, to ?? tap, the time to elevate his understanding of the Creation, has come with this technology. It's been in front of you, but you don't see it. I've shown it to you in past 2 - 3 years, you don't see it. You see it as a writing in the patent. "Oh, it's written this, one day." It's not written in the patent that one day you have it. It's written in the patent that one day you find a freedom from shackles of physicality. And then you have time to create a condition of elevation of the STM. Just go through the patent.

In part of the patent, it says, "like fridges and equipment which do not need and their ?? self energy supplying here." So your fridge has it's own ?? 'bathroom' in it. Your cooker has it's own gas in it, you don't need to .. What does it mean? When I give you a technology that it generates it's own gas, it generates its own energy for you to cook, to keep warm, to have light, to communicate with. You don't become a slave to work to be (pay) with the gas man, to pay for the electricity, to have water, to have light, to have a communication means. The patents of the Keshe Foundation are the way to freedom of the STM, and the physicality of the man from shackles of what has been put on the man. It's more than the Bible. (1:08) But, you are physical, you look at, "Oh, fridge without connection."

What is the end of it? What does it mean when I put in there, you can have a cooker, which is, supplies its own energy? There is no cable to electricity to the wall that they disconnected in the winter, you and your child suffer. You have to work ten times to pay the electricity bill, it's not India. You go to the post office, you go to the bank, you pay, trying to pay your electricity bill, the woman on the other side says ??, "Sorry it is ten dollar, you have to give me two dollar to accept your payment." No one can take you to ransom. The patents of the Keshe Foundation are the freedom of the man from the shackles which man has made for himself. And all you do, you look at it, "Oh, a reactor."

Maybe, for the first time you understand. It's the Bible of the science of the freedom of the man, and man to be free, both in the dimension of physicality, and dimension of the energy. It says, Gravitational and energy, dimension of physicality and the Universe. And if one day man understand the purpose of these patents, man finds the key to the freedom in all dimensions of Creation. Go and read these patents and see how much information is given about all the teachings of the past year, 17 years ago, (1:10) 16 years ago when we released the patents. But we wrote the patents in 2005.

These are not ordinary knowledge, these are the knowledge which frees the man from the shackles of everything they have put around you to abuse you. When in the house you have a system which your cooker has it's own power, your fridge has it's own power, who do you need to pay for? Who can come and disconnect you? Who can make you to work three shifts just to pay the bill of the electricity because Sheikh of Saudi Arabia wants money in the bank to abuse another ten European women for his pleasure?

Now, you understand, we have given you the knowledge of Creation. Now that is 20 years later, we start educating you, you understand the beauty, the secret in the, what we call, patents application. Step by step, Gravity and Energy. Gravity is a tangibility, physicality of the man, Energy is the Cosmic Rays. But you don't understand, they're connected together. This is it, that's how it is there. But in a few years time, when you have a fridge which doesn't need anything, it's just like a table and chair, it has its own energy, you cool things in it, you don't need to pay electricity bill, the cooker, no gas to worry, nobody can cut you off electricity. (1:12) Isn't that freedom, more time you can spend with your child? You can have time to elevate your Soul, because you are not connected, worried about, "I have to pay the bill."

When you make this Gravitational System, and you put it in the middle of the garden, you have a shelter, you don't have to worry about, "I'm homeless." This is one of the reasons governments, and all these people, from Kings to the, God knows, communication organization, television, such .. crush and control Keshe Foundation. Because, you're giving the key to the freedom from all their control. And, it's been there, for long enough. So, do we need Cosmic Ray Communication? Yes, if you don't know how to do it, it's a simple thing to start with. Would you be able to use it on a UFO? Yes, because it's connected to what you want to connect it to, direction of motion, everything else.

It's in a way, if you take the next step of the use of this Cosmic Bundles is, I don't dial my mom, mom died years ago. I know through it, how to connect to the Soul of the mom, doesn't matter where it is. We teach you how to use Cosmic Rays. In the dimension of physicality, you dial 0044, this is for England, 61 is Manchester. In the dimension of Cosmic bundles, you feel the emotion of the mother, and you connect to the mother instantaneously. The number is dialed. (1:14) Can they disconnect your phone? Or, I want to tap into the knowledge of understanding how such a system could be possible. It's written, it's put emotion into it to be written, I can access it.

You Knowledge Seekers who get these Headphones and Bundles, start learning how to use it. And you'll find out, they'll call you crazy, because they don't understand it, let them be crazy. But you achieve your target, you can tap into the knowledge of the Universe, you can tap into, one by one, the beginning is strange. Coincidentally, accidentally, I thought and it happened. Why didn't it happen accidentally the day before, which you had no thinking about it? Or did somebody ring the bell for you to get that emotion to think about it?

Then you understand, with these Cosmic bundles, you can contact E.T. from the depth of the Universe, or from UFO traveling the Universe. You got a lot to learn. And, as I said, you read the theory in the three books, find the practicality in the patents, and you find both, secrets about the Creation, in both dimension of physicality and the Soul. And understand some of it. If you go back and you say, "Egyptian understood this, so and so understood this, and they were talking about this." Because those days everything was plenty, they had nothing to do but to understand more and more about their own Soul,

connection of their own Soul. And that's why, and that's how they progressed in everything achieved, (1:16) because there was no, what we call, shackles.

Any other question?

Q: ... Many women are considered infertile from a medical point of view. For example, because they have blocked .. fallopian tubes. But suddenly they are pregnant. Such things, when they are impossible in medicine, happen again and again. What is the Plasma scientific understanding behind this?

K- The very first year I came to England, goes back nearly half a century ago, I'm an old man. We had a neighbor. They adopted, I think, five children, and they were in their 17's and 18's, they were 14 and 15's, they were our age. We couldn't interact with them, we just crossed the fence. And, suddenly out of nowhere, the reason they had adopted him, because they couldn't have children, they suddenly had a son. And, this son was the apple of the eye of the family. Everybody loved him, everything else. And the mother, totally changed the woman, and nobody knew how she got pregnant. (1:18) Because, when the ?? was going on, they didn't know, just happened to be pregnant after 20 years of marriage. And, does it come from emotion of love, loving, wanting? That the energy transfer between the two has taken a place, that emotion of devotion, looking after these five children. The children, you couldn't say they are step, what you call it, fostered or adopted children, they were loved unconditionally by this couple. And they were treated unconditionally. Sometimes you wish you were them in their houses, the way these two ate these children up.

And, or, as the emotion has changed, that the body changes that allows the physical creation. Everything is possible, and it's the devotion of time. And the other thing is, we change. This is one of the principles that doctors never understand. We change, the way we change our love by a duration of time, by change of the blood, we become more alkaline, we become more acidic, we get a blood pressure, we get sugar, we get salt, we get god knows everything else. It happens through the strength of the fields of the sperm and egg too. And somewhere they change, and that creates a match for interaction. And, now that we understand, the egg and the sperm, they are both plasma, they have like magnets, pull and push, if they match they pull. (1:20) And there is a fallacy in the world of the medicine, is that, the strongest sperm will go through and then get into egg. What a nonsense! The one which gets in, it's got a matching magnetic field, you leave it on the other side of the Moon, it still find it's way to that egg.

So, we have to understand the knowledge, we have to understand the truth, not what is made up, and then you find out, every woman is fertile. It's just what condition is, even without eggs you can produce children. Because, the emotion of the energy of the Soul of the woman, is within the womb of the woman. How can you deny that, ?? cannot? It's just that we don't understand, and now there is a bit of a good money making system. And then we see.

But in essence, the way you give a blood test and you say, "Oh, the sugar is high, cholesterol is low, blah, blah, blah." If the doctors create a test for emotional energy of the sperm and the egg, from the beginning you can say, "This egg and the sperm match, they don't match." And how come they didn't match, and now they match? Because, sorry the guy had two eggs extra yesterday, and one was from Africa, and one was from Asia, and the energy field difference, so it created this condition. We are created and creation of the fields and plasmas, not stones, Irons, Calcium and everything else in the dimension of the matter state. And to that effect, we continuously change. (1:22) And, there is no magic, it's just understanding how it happens, and the magic goes out of it.

Every woman, in every dimension of Creation, is fertile. And, if it's not in dimension of physicality, now man has the knowledge for a woman to be fertile, in the dimension of the Soul, creating the Soul of the children, or Soul of the child. You get the egg and the sperm together to create that Soul, why the heck don't you start the Soul and then let the physicality take shape? You have the unique children of the Universe. And man now has to understand that part of it. That is what you call it, the secret of understanding.

We have many, many cases. I know a case in Manchester years ago. A German got to know the woman and after a while the woman was in love and she said, "Darling, I'm pregnant." He said, "Not from me darling, impossible. I had a 'snip' (?? cut testicles) snap, few years ago, there is no way I can be a father." And, passed. She was adamant that he's the father. And she went through the process and genetically was confirmed he's the father. He was the only one .. who had operation. And he asked me, "How is this possible? What happens with the world of science? Why did I do this for?" I said, "You never understand the other part of the creation to him." I said, "One day you'll understand." Because the love between two was so strong, you could see them loving each other from the other side of the city, let alone when they were next to each other. (1:24) And that love creates the emotion, which doesn't need no eggs and sperm.

Any other question?

Q: ... Hi Mr. Keshe, what's the link and the plasmatic elements increased in our physical body, during the elevation of our Cosmic Rays and our emotion of happiness, to serve the others?

K- What does that mean?

R: She wants to know what's, what is the... during the elevation and emotion of happiness, what's the link in the physical body and the plasmatic elements that are increased in the physical body during that elevation?

K- What? I don't understand, I need to be...

R: Yeah, I'm not quite clear, but she seems to be saying, "Well, what's the link and the plasmatic elements increased in our physical body, during the elevation of our Cosmic Rays and our emotion of happiness to serve..."

K- It depends, it depends, it all depends. Doesn't have to be always again, maybe you have to lose a little bit to be happier. It's a correction, that brings that enlightenment. Does not need necessarily to be elevation. Sometimes you get too fat and you're not happy, you lose some weight you become happy, because you lost some weight. (1:26) It's the same way. It's the field strength which matches that emotion. Matching it in the order of the strength, which is the, which is the key.

Any other question?

Q: ... I know connecting and living according to the Soul is essential. What is an efficient, suitable way for us to train and practice the feeling, creating and filter of appropriate fields, according to the individual needs and the environment? Or, is it best to live more and more the Soul, and everything happens automatically?

K- You have to learn it before it becomes automatic. You have to learn how to trigger it, you have to learn how to stop it. When to start, when to stop. This all, all knowledge as we learned. It is like when do you feel, "I'm full, I don't want to eat anymore." Or, when do you feel, "I'm hungry, I have to eat." It's the same process. It's the same understanding, but now it comes in the essence of the emotion, and, what we call, energy fields of the life. We have to learn, we have to adjust, we have to test ourselves. And to see, are we doing it because we enjoy the condition it brings us, (1:28) or are we doing it because we enjoy the pleasure we give to our Soul and dimension of physicality, and maybe the others. This is what we call, teaching, Life teaching, of our own to ourselves. We can never teach it to the other. It's impossibilities to teach, because they have to feel it. What is a pain to you, could be joy to them. And what is right to them could be wrong to you.

Any other question?

Q: ... Hello Mr. Keshe, can you say something about these seven chakras of man? Do they exist and how do they relate to plasmatic magnetic fields?

K- I never believed in it, never believed in it. And, especially what they call the, "Chakra number 7", doesn't fit. So, I'm the wrong person to ask, but, from the dimension of fields of the Universe, we have our organs in certain places, which their interaction creates certain fields, that these could have a balancing point. It's like when we say, when you have a Magnetical and Gravitational interaction creates the Mass. (1:30) Or, when you have two fields there is this point between the two, which is a crossing point, or a balance point of the fields. These happens in the body, it's a natural process, people turn it to whatever they like, and yes, you have two testicles. They're both dynamic, they carry Plasma, Gans's, and they interact. So, they create a common denominator, cross point between the two. Is this a Chakra? Or understanding the process?

You have one which is your kidneys. They are two systems, and would the people with one kidney have a different Chakra position than the others? That's debatable, we can

explain that too. And then look at where they put the next chakra, and the next chakra, and... The number seven doesn't make sense, so it's made up story.

But physically you have two half of a brain, which we know they interact, and the balance is there, and because of their position and the shape of it, it's at a certain point, is it a chakra? (Or) is it a point of crossing of the field? And then you understand, you can give name to the real conditions, which is from interaction of the fields of the dynamic Gans's within the structure body of the man. Then you can make a lot of things from it. But physically, interaction you put two magnets and you see there's a point there, the energy interacts fields. Put a loop of Infinity in, and see where it crosses, is that the point of Chakra? And that's what these people talk about. But, because they don't understand it, they never understood it, how it's created, what it is, they (have given a name to it). Why don't we have a Chakra in our toes? (1:32) Why can't we have a Chakra between our knees?

Any other question?

Q: ... Can you ask in the workshop if Mr. Keshe could talk more about the life of the Prophet Mehran? And, I looked up Mehran in Wikipedia and it said virtually nothing other than referring to Mitra. And so I thought Mr. Keshe could shed some light on this idea.

K- It's not an idea, it's the understanding, and it's the first words of man realizing love, kindness, and that what the name comes from. It's two parts in the Farsi language. 'A.N.' means 'Possessor', the one who has. And the first, explain what you have. "Mehr" and "an", (1:34) the possessor of love, the possessor of kindness. When the man came to understand, has a love for someone, has a care for someone else, and he cared, it became like an attribute of his not belonging to man, it comes from outside. When you show your love to your partner, when you show your love to your child, It's not physically you feel it or whatever, it's just the emotion you show, and that's the very first thing humankind of the time, long time before Mitra, came to understand, and they made it the God of, mean the Creator of that love, and that's what Mehran means.

And then, we have that, in that process, and Mehran came long, long time before Mitra. Because, they, whatever man, we have statues of, writings in the history of the Iranian culture. We know where it came, how it came, and how centuries later on, became Mitra and then Zoroaster, and then from the Mithraism, we have the Judaism which come of it, and the other religions. But, the essence of it, came and became that God, that Creator. Because, it was something which wasn't in the man, you cannot show a love, Mehran, the ways, kindness, it's in love to someone, it wasn't human, so it had to come from something above, and they created a God for it, and then later on made the statues and names for it, and then like Zoroastrian, the rest of it, Mitra. Mitra was the same, (1:36) God's name that, then they made a statue to connect, this is connected to that.

Nowadays we accept God as God, we don't need to make a statue for it. But, at that time, that's what it was. What Mehran goes, it's the first reference we have to the Creator,

which recognize the attributes of the Creator, which was called 'Mehran.' And then the possessor of it, which we came, and that's what we call, "to be", "to be part of", "to own", and "to be filled with." And this is the two, two separate words. We have the same with Tehran, we have the same forces, belonging with 'Tehr,' which belongs to the district, to the area, which the people from that area become. And this is the way, it's a language.

But, it's the first time man felt the love, and this wasn't something, it wasn't physically, couldn't show. I could explain to you, "I love you, but do things that makes you higher than me, because of devotion I give you." And this wasn't something manly, or created by man, it wasn't a wall, or a container, or an animal. And, they call it one of the attributes of the Creator. That's how God's (are) created. In the attributes of the Creator, what they could not explain, they made a God of it, and then it became, then a statue of it, because they couldn't, anybody couldn't see it. And then it became, later on, in down the line, centuries down the line, into another belief of the same as Mehran, the way it started it, became what we call, Mitra, and then became Zoroaster and the rest of it.

But it's the first time ever, man believed in the energy above himself. (1:38) Which he could not explain, which was 'Mehr,' love. And made a god for it. And this is the first time man recognizes something above him, dimension of physicality. And in the history of the man, it's the first time we have recognized something, ?? it goes back about thousands of years before, hundreds of years before Mitra.

Any other question? ...

K- ... Those of you who sent us again, request us to know. We have started the process, the Iranian team has started the process for receiving certificates for the conference in Iran. Once we have authorization, which means we can go ahead, we will announce it. (1:40) And the two conferences of Tehran and Washington will come as one package. And as I said, we announce in due course, how we will run this and how it'll be done. And we'll see what the next step shall be, in respect to Knowledge Seekers attending to what we call, Iran Conference, and then Washington Conference. And we'll see how things take shape in the next few weeks, politically and geographically.

Q: ... My question is, can the plasma be created from the fields?

K- Plasma is created from fields. The essence of the creation of plasma, the origin of it is from fields. But it depends how you bend it and how you put them together.

Q: Because, I thought there should be two to create a motion. Like two rays.

K- Yes, it has to be two, but two of different strength... They don't need to be in opposite direction. Two different strengths will create their own balance, and then they decide how they move.

Q: And they create plasma.

K- Yeah... (1:42) They can get together, and then they .. what they master to bring together.

Q: ... Mr. Keshe, in the 362nd Knowledge Seekers Workshop (KSW), you taught about the creation of the envelope, and gave an explanation on how to do this, using the Cup of the Soul of Man and physicality. Then you tell us to create a condition where the Soul of the Physicality (STP) interacts with the STM, to create a balance between them. And the STM becomes stronger than the physicality, so that it expands beyond the physicality. Then you talk briefly about inter atomic fusion. Then you talk about the gland in the center of the forehead, which is like an electron, and the Soul is a proton. And that we can use it to expand the Soul beyond the physical boundary. So, I ask, or the question is, how can we create emotion where the STP in interaction with the STM, balance each other, so that we can bring out of the physicality, the STM, without the use of the Gans, as you mentioned, in the 362nd KSW. Could you expand on this knowledge, please?

K- In a way... I brought this up a few minutes ago, to one of the questions. And, in a way, your answer sits there. (1:44) You have two part of physicality in the brain of the man. And they are individuals. They are individual parts. You have the left brain, right brain. Each one has a dynamic field due to the mass of the plasma they carry, the circulation of the energies they carry, and the circulation of the container which is blood of the man. And the interaction, as I said, it creates, you call it a Chakra, whatever it is, it's just, we call it, they have different names for it, the third eye, whatever. Which is actually interaction of the physical energies of the two part of the brain.

If you understand this, and then you understand the position of the, what we call, the STM. The STM becomes the, what we call, new proton, or as you call it, the center. And this second dimension, which comes from the physical interaction of the two parts of the body of the man, becomes that electron. You have control about the position and the strength of this electron, you cannot touch this one. And, it's like where you position, how you strengthen this interaction of the two fields of the physical dimensions of the physicality of the brain, you can extend beyond, weaken, strengthen, to create that envelope of the transmutation. It is, more or less, one of the only ways you can do. And then, that envelope is created, that allows man to contain in, the dimension of physicality.

It needs a lot of understanding, (1:46) it needs a lot of comprehension about the, what you call, dimension of the fields. Balanced fields, between the two, what you call it, two sections of the physical brain of the man. And then you have found your answer. And this, that's why we mentioned in the teaching, in the past. And this is part of, this is a structure for creation of the, even the skull of the man. And this is why, when you are born, you have a soft spot, the brain doesn't complete until this dimension adjusts. And the adjustment and position of the interaction of the two parts of the, what you call, half energy of the physical brain of the man, dictates the behavior, dictates the shape, dictates the condition of interaction of the man, even in so many ways, your height and everything else.

But, we'll discuss this when the time is right, this is not the time for it. And if you know how to use it, and if you know how to bring this energy ?? function into play, you can do a lot of things in respect to transmutation and everything else. And this is one of the reasons why, in the process of the new transmutation we brought the second headphones. Because then we explain how this works in what we call, rapidly helping with transmutation.

Initially, part of this process was used, (1:48) understanding this process in a way, in many, many, what you call, ?? wellness, which I used to make in Belgium. The more dynamic you make it, in respect to the Soul, the more rapid you find the evolution of the process of the, what you call, connecting the parts of the brain to each other, ?? within each other and physicality.

This position is dictated because of the shape of the brain. And, the shape of the brain is dictated by the ?? skull, which itself dictated by interaction of the field of the Soul, with the environment you live in. And then, that creates a behavior, and emotion. And why some people are so emotional, and some people are not. You can see it by the shape of the face of the body.

I was sitting in a restaurant yesterday afternoon, and I noticed a couple across me, and they wanted to talk, and I said, "I broke the ice." I said, "Where are you from?" They said, "Oh, we are from Germany." I said, "Oh, I live in Austria, but you know, I'm from Iran." Oh, they start going on, you are the most kindest people, all our friends have been to Iran, they say you are so ?? help, you know, inviting people to your home, your hospitality, and we want to go to Iran. And I said, "What about the war in Israel?" "Oh, that doesn't count, we want to talk about, you know, how you are."

So, the shape of the skull of the man, and the thing in that area, creates that kind, that affects the emotion, that impresses on the others. (1:50) And, it was interesting to sit in that chat, yesterday, for about 10 minutes, and how these people being, never being, they didn't care about anything as well, how much they heard about this culture, and they want to go because, they want to be invited to people's home, is it true they are so loving? I said, "It is, it's our culture, it's the way we are." The guest is more important than the God.

And, does the shape of the head creates that condition, and that emotion does it transfers that way? Most probably, yes. So, when we teach, we teach from both ends. One dimension of physicality, one dimension of the energy. And now we see more and more the teaching of the past makes sense, when you put the two together. And yes, you can. And you can direct it, you can motion it, and then expand it, then it's one of the, maybe the only way, man can trigger transmutation. But in time, you're not ready for it.

The reason some of you go into the system and immediately can go somewhere, is because the headphones create that balance between the two side of the physicality of the brain, and the, what we call, that third eye you call it, or we call the, I call it the 'Neutron of the Soul,' is created. And when it's created, it has to interact, is because the brain of the

man is physically locked. So, that position is physically locked. If your brain was two rotating dynamic cores, that point would have moved, we don't have a choice. It's inside it, its Gans's, they're all trapped in the same condition, so that point is physically fixed. (1:52) The STM inside the brain is fixed, so now you got your atom. Which is the physicality of the man. And then, it has a emotion direction and you can do a lot of things with it.

And this is one of the reasons, as I said to many of you, we can see how in trials we've done over years with you, past two years with all the systems we watch, how you fall out and you're just not there. And then you put the headphones on and you're there, we see the connection. Because, the balance of the energy between two half of the brain, allows that pinpoint to strengthen. And then, if it does, connects with the neutron or proton, which is in the center of the brain, we call it the position of the Soul, now you can go anywhere you like, you're a man of the Universe.

Any other question?

Q: ... My question is on different fields to create certain elements. Is it possible to fuse and blend all the fields together? And if so, could it be the field or essence of the Creator? And, is there a sound to all fields?

K- Their interaction with their environment, each one has a noise. Each one has a taste, we can taste it. And each one has a energy. And you can do, you can absorb, observe, and feel, and taste all three dimensions. Depends how you interact with it and what it is.

A few days ago, in a talk with some scientists, I opened a bottle of the Gans of CO<sub>2</sub>, (1:54) and immediately I tasted, I know the taste. If you 'blind eye' (fold) me with the CO<sub>2</sub>, I can tell you this is a CO<sub>2</sub>. And I thought, "For, what reason I feel this material instantaneously." It's a liquid in my hand and I taste it. And this is how you create essence of the energy fields. And what they are and how we transfer it, and how we can recognize it, and how we can use it. And we have to educate ourselves. It's like, what you call it, playing Braille, when you are blind, these three spots means A, and these three spots, two spots means B. We have to do the same with essence of the energies of the Universe, that we know the emotion that creates, the taste it creates, and it's a ?? substance of an art, that we forgot it, but it's part of us. And this will solve a lot of problems, answers a lot of questions like this. If you understand the meaning of it.

Any other question?

Q: ... What is love?

K- How old are you? Have you ever felt anything you want to give everything to, what you have? Be the dog, be the cat, be the book, be it a woman, be it a man. (1:56) Then that's what love is. Unconditional, sharing the energy that allows the elevation of one thing in respect to us, in respect to our energy. And depends how you define it, and how you accept for love the things we do. And to receive something like what we love, or for

us to give love, we do all sorts of things. Man accepts everything to somebody, allow them to be, receive more attention or whatever, or to give attention for other, or some other. And, I always call it as a joke, "You want to know what the love is?" "Is it slavery, or is accepting, because I want to be recognized and I exist?" "And, I want to recognize somebody else exist, accept everything."

Sometimes I fight for it, but subconsciously, it's a condition what I call love. I accept, I want to give unconditionally, I'll do anything. And one of these, it's a joke I always say, "It's the key of the house." The frame, door frame of the house and the key, is biggest transmutation, transportation, emotion of love. What does, what it means, we have framed into it. You are a Prime Minister, you are the head of an army, (1:58) you're a road cleaner, you're a surgeon, you are whatever, and carry this key in your pocket. Outside, before you put this key and go through this frame of, what I call, 'wanting to confirm existence and confirming to be higher than the others, or the one inside the other side of this door is higher than anybody else for you,' you are all titles, people bend to you, they kill for you and everything else. The minute you put the key into the door and you enter the house, the partner, man or a woman or whatever, is ignorant, uneducated, the worst thing in the world. And, you become a servant, you're a minister outside the other side of the key, on this side of the key, on this side of the frame, you don't understand anything. You have no knowledge, and the person inside, uneducated, has no mannerism, knows everything, and you accept all of it, because you want to receive, or you want to give that I respect, or want to give you, as what we call love. And there is no bigger measure of love in the psychological of man, that frame of the door and the key to the house, and who's inside it and who's outside it, goes in.

And many of you understand exactly what I mean. You're doctors, you're professors, you married or live with the most illiterate, with no education, with no mannerism, when you go home, you know nothing, they know everything, and you're absolutely nothing at all. Because, what you want to confirm, you have emotion towards it, you call it love. And, if you understand that, you understand how we allow abuse, to confirm we can give. (2:00) Or, to confirm we can receive from that, and we get trapped into it with our physical life. Point of satisfaction.

Any other question?

Q: ... May I ask a question about the third book? It was written in the third book that God is part of the whole and a fraction of none. Does the word 'fraction' here mean the ceremonial act of breaking the consecrated bread during the Eucharist rite in some Christian denominations?

K- No.

R: I didn't think so.

K- ?? it's a division. But ?? is still alive and they don't make these things. No, no, no way. It means a division.

R: Well, breaking up the bread is somewhat of a division, I suppose, so.

K- I mean, you can add to it, but in that context, no.

Q: ... Is there an update on the situation in the Middle East?

K- Who's asking that question?

R: Doug McDonnald

K- We have to wait and see. We have to wait and see. I've been asked, ?? by people of one of the governments to not make a comment on this, this week. And, I promised I will not make a comment. Because, we have seen, in a way, historically in past seven days, (2:02) it took seven nations, and betrayal of one nation, to save the one nation. You will see, if anything, conflicts builds up, The State of Jordan will become, be treated as part of the State of Israel. That's for sure. Never in the world of Islam, an Islamic nation betrayed another. And Jordan has, and by the eye of the Islamic World, it's earmarked for the next step of what, how will happen to Jordan, in respect to what happened last week. That's for sure. There's something which is running in the Islamic World, that how could this kingdom betray the, what you call it, the whole structure of the Palestinians and the rest.

On the other hand, it took seven nations to come together with all their might to stop, or prevent what was to be, but at the same time as we said, the new Iranian ?? foreign policy is very clear. And I explained to you before, that when, when the, what you call it, a few American soldiers a few weeks ago were killed by accident, I told you, Americans will not touch the Iranian soil, it'll be done, as far away. We had a notice of three days, four days to evacuate, nobody was killed, nobody was done, just to be. The new Iranian foreign policy is the same. We gave 48 hours notice to the Americans to tell the others, how many rockets will come, the way they come, and it was just to show the strength of how can be. (2:04) And the American Senate had, what do you call it, the special committee of the Senate, had the full plan of how many rockets, how many missiles, in which direction will come, and that we won't touch any American 'assets,' as we gave the guarantee to the Americans, the same they did with us. So it was passed on to Israel and seven nations got together to stop 300. And still a few got through. And the Israelis say there was no deaths, but we know there are triple digit fatality in their structure, especially in one of the military bases.

And so, we should see, still a 'dying dog has to bark.' You got to understand, the minute Netanyahu comes off the table, he is on a plane into Dan Hague (Human Rights Court). The minute he comes off, within days, weeks, he'll be sent out, and he'll spend the same as the other world leaders we've seen, that are still in prisons in Holland for crimes against humanity. And he's fighting for every bit of it, not to get to that point. We might see some retaliation, but what it is confirmed, that because of the Iran collaboration with America, not hitting any American target, informing the Americans in full, the path of all the missiles, where they were waiting for them, to come in and how to intercept, has

given that confidence to the Americans that, they will not support the next cycle of, what we call, 'activities.' (2:06) And we see, Israel is going to step down, but they still have to, he has to do something to show he's doing something, but any reaction will lead to faster the demise of his government.

So, as I said, if this arrangement was not made, and what was planned by Iran, the, even half of the missiles would not have been captured, the Israelis will be running out of Israel, today. Because there is no guarantee, no safety. And, if Israel decides to take it to the next step, we have only shown less than 3% of our capability. So, you can imagine what will rain on. But you have to understand, Netanyahu knows, as much as we know, and the other military men know, you cannot launch missiles, you cannot do attacks to the other side, because at that moment your own defenses are in a step down, because you have to receive as you launch. And, that gives a window of the annihilation of total State of Israel. When, it was done in the past that you just threw an arrow. The new defense technology is, you have to step down your defense technology, otherwise the rockets you're shooting to the other side, gets its fire (hit by) on your own defense. And, when you go into a prolonged interaction, some 20,000 missiles, plus the window is open. And then, you have the what you call it, the new game of the ?? new state. (2:08) And, as I hear through National Securities, ?? Amman (Jordan) is not a safe place to be in anymore, same as Tel Aviv, if they open this, these attack points.

So, now we got to a point of stalemate, we expect something from Israel, And, if he becomes a 'tit for tat,' which he's looking ... Every time he creates a war, allows him to stay in power, he keeps himself out of prison, later. And, some of the Israeli politicians and high ranking people, believe he'll commit suicide. He will not go to the process of being captured and taken to Dan Hague. It is below him. By accident or something, he'll do something to himself. But now we have to see, because the biggest problem now is, we see British again got involved, British Foreign Secretary, ex-Prime Minister, is in Jerusalem, 'stirring it up,' and announcing that there's going to be a retaliation, because they are going to make a lot of money out of it. And then we see, we understand.

There's part of the Iran history that's most of you don't know. I'm sure none of you know. Some 500 years ago, British brought Lebanese, and then they became religious people of Iran, and then they took over government of Iran. They literally run the Kingdom. And these people are still in Iran. They are not Iranians, by no way. Even though being in Iran for four or five hundred years, it's like the, what we have, the Armenians. They are in Iran for nearly a thousand years, two thousand years, they are still Armenians. (2:10) And these are on the seat of the governing of the Iran today. They are not Iranian originally, and it's very easy to know them. They all carry name of Ayatollah, and their name connects to a village, or a city they come from. This is the way we recognize them. Because, they, hundred years ago, 150 years ago, the people went after them, to get rid of them, to cover themselves, and they know each other, they give, they changed their name to Iranian name, And then, the key was, it's like you have in German, you know certain names are, or in Scotland certain names are, ?? of ?? or whatever. These are that way. And they have certain behaviors. And then you know they're Lebanese, they are not Iranians. And all the ruling Ayatollahs of Iran, are not Iranians.

They carry .. Like when you say, ?? "Rafsanjani", It means he came from ?? Rafsanjan, which is a district of Iran. That's how they recognize each other. And the second rule with them is, that they never marry their daughters outside, except to another Ayatollah's son. That's the rule. This is the tradition in Lebanon and the Jewish family, with the bloodline goes through the daughter. Where in Islam goes through the son. So, we have this conflict and that's why you see Iran is so powerful in Hamas, in Lebanon and the rest of it. Because they are interconnected through history and through connection of blood.

And, we have this group which are part of the Middle East and Palestinian group, which have now become after 500 years again in control of Iran. Ayatollah Khamenei came from ?? Khomein, Ayatollah blah, blah. (2:12) This is how we recognize them in the culture of Iran. And this is... that's why, like me, I'm Keshe. I come from a village, my grandfather, which is connected to this. In Chinese you have the others. But the other distinction between them, and only happens in Ayatollahs, is they give their daughter to another Ayatollah's son. To keep the tradition, the blood of Lebanese in the culture, and they look after each other and they bring each other up. And that's why they're all in power. And 200 years ago they got this change, and they came back again with the Iranian revolution.

So, the people don't understand why Iran has got such a strong connection to Hamas, or the others, because they are all brothers, they're all, they are not Iranians, they are blood from Lebanon. They are from that area. So, they're helping their brethren, they're not helping Iran. But, they've been brought up in the structure of Iranians. We have the same with Armenians, Armenians are Armenians, but they speak their own language and they only marry inside each other. So, you have to understand the culture of Iran, and how this structure works. And then you understand why Iran is a highly involved, this people are highly involved with the Lebanese, with the Syrians, because they are ancestral, they're coming from there. They just take an Iranian name by their village, or the district they come, and the prime sign is, look at their children, how they marry, this is one of them, and they have a couple of other sides. If you are deep enough in the Iran history, you know who they are, and how they are.

We always respected other religions and cultures, but this creed works this way, and that's why you see so much connection of the Iranian Islamic government to the Hezbollah, (2:14) and the others in that area, because this is the brothers, these are family, uncles, they are protected. And this is what the Americans understand, the Israelis understand, and the others understand. And then, you see why we get involved with something which is not, we are not. As an Iranian, we are not involved, but them, as a Lebanese, they are involved because they are protecting their bloodline. It's like the Jews, they went all the way back to Israel, because they came from Palestine, or they say they came from Jerusalem, that's why they call them Jews. These people are Lebanese, but they have to protect their brothers. They're not from Iran, even though they brought up. It's like Germans been... Jews been in Germany for centuries, but when it came, they all went back to Jerusalem. These people, when it comes to defending, this is how they defend, and this is how Iran got involved in this mess, because of this bloodline. It's not

an Iranian bloodline, it's a Lebanese bloodline, which has been brought 700 ?? years ?? to Iran, with the push of the British.

Then you understand, the culture of the environment, and why there's all this. Iran has so many proxies, these are not proxies, these are brothers, these are uncles, the great uncles, and they still for centuries, they always been traveling between, back and forth, you know, it doesn't matter. You are, you are Italian in, what you call it, Australia, you still go back to Italy, because their ancestors came and you have a lot, but at ?? least they are the same people. They are not Iranian by blood, none of them. But they have been brought up in Iran and now, they managed to get themselves in a position of power like 700 years ago, when they got rid of all the Iranian leaders. It's the same, we see the repetition after 500 years. And some of them will carry on with this process. (2:16) It's part of the culture of the area. Then you understand what is planned for the next step and the next.

Any other question?

Q: ... Mr. Keshe, the stronger strength of hatred and say the weaker strength of love, would this automatically be balanced or would the love field become more dominant? Thank you again for bringing the world closer to peace.

K- It depends. It depends. It's very much like, if you go to the extreme of alkaline, you become acidic, a weak acidic. And if you go to the extreme of acidic, you become alkaline. The strength in one, starts the beginning of the, what you call it, weakness in the other. That's how they connect. And, because the fraction residue of the weakest ?? stays, it's the beginning of the line of the stronger. And this is how it works. And this is how... how do you want to connect it? Alkaline to Acidic, love to hate.

And our body creates the fields in that dimension and direction. And if our emotion reaches to a point, then yes, you have the tipping point, which is, start of the creation. It's when you have so much water going in one direction, and you have a small thing, (2:18) you see the vortex, which goes opposite of it, creates a direction of motion. It's the same more or less. It goes so much, that cannot match, you have the slower, in the faster, and that creates the first sign of Plasma, because it is in opposite.

The best of this is, if you understand it, is the Solar System. Look at the direction of rotation of the Sun. Look at the direction of rotation of the Earth, and then look at the direction of rotation of the Moon. Then you understand. Even within the field of each other, create opposite direction of motion. One thing interesting is, we always look at the Sun from our point of view. What happens, or does it happen, that any of the Planetary System, in this Solar System, if you stand on the Sun, you only see one side of it, the way we see only one face of the Moon. And, does the same principle applies to it? And, is that only in respect to the Earth, or is it respect to the Moon?

When you go to, let's say Jupiter, or when you go to Saturn, and look at the Earth and you look at the Moon, even though Moon always shows us one face, does the one on Saturn sees different face of the Moon? Because Moon is rotating in different speed of it, of

compare, or do they only see one side of the Moon, because it's relative to Earth, but not relative to them. (2:20) Then, you understand a lot of things in the dimension of physicality matches dimension of the emotion. And how beginning of one is the same, start of the other are the extremes.

Any other question?

Q: ... How many teachers are there like Mr. Keshe in the Universe at this moment, teaching the Knowledge of the Creation?

K- Have you heard about the 'E.T. go home'? And the home alone child? It's both. We... the knowledge... I was talking to one of these Chinese science... We are still in China, we haven't gone back to Europe yet. We were talking, a few days ago, with one of them. And he said, "I listened to your teaching, I've listened to your other things. But how come you can answer physics in more detail than the physicists? You go into the medicine and you have, you can know this, you go, you know every organ, how to operate what ?? you do. You go to the energy, you go to cosmology. And we, with the books, have a problem to understand it, but in a way, some of it, what you say, we understand. Is this and that, but makes sense. (2:22)

How much, where does your knowledge come from?" I said, "I don't know." This is a Knowledge of Creation. And we are just the teachers. Then, in the body of the man at this time and point and what we call, place. And as I said, our thinking, in the dimension of the Soul of the emotion of the man is shared by the Universe, but man only hears the voice of the man. Because he hasn't learned to listen to it. If you listen to the voice of the man and to the STM, you'll see it's exactly the same message. So, you have to ask how many there are, because if you have too many people teaching the same thing, you can imagine how confused the Soul of the ?? ?? Soul. There's a one favorite of mine, says, "One at a time." And, if you put two pieces in front, one at a time, then that should answer.

Any other question? Or shall we call it the day?

R: No, we just have some, a couple of comments. Freed says, "Thank you for giving some information on the Middle East, that is not in the mass media." And Doug says, "Thank you Mr. Keshe for that in-depth answer." And Bernard says, "Hello beautiful Souls and awesome beings, wishing everyone here in the Keshe family and KFSSI community a blessed day and week ahead." And I think that's it for now. (2:24)

K- Thank you very much. And hopefully, we see what God brings for us next week. Thank you very much, I will see you. Don't forget tomorrow there is no session. Do not turn up and write, "Oh, what happened to the session?" Wake up, there is no session tomorrow. 26th will be the session. And, I would love something to ask those of you who attend these sessions. When we start the session next week, we give you 10 or 15 minutes at the beginning. Pre-write and ready, just write down how you felt, the things you felt, the things you ate, since last session. Because, that will give us a chance to set up, not

next one, but the next month session. And in the next months session we try to go through for the phase, phase of transmutation testing. And we explain to you why, because you have May and then June is the last one, we want to test in deeper way, testing our systems and more or less getting ready for Washington show, the, what we call, Tehran and Iran presentation. We have to wait till we get clearance from Iran military to go in that phase. And then we show the other part in Washington. Most of the work we do now, in next two or three months is for the transmutation session to be shown in the United States. Thank you very much and see you next week.

R: Okay, very good. Thank you very much Mr. Keshe for another Knowledge Seekers Workshop number 534 here today, on Thursday, April 18th, 2024. (2:26) Our next ... public teaching workshop, will be the One Planet, One Nation, One Race for Justice and World Peace. And, that will be on Tuesday, April 23rd, starting at the 4 PM Central European Summer Time. And ... that's with members of the Universal Council and support members of the Universal Council and everyone of the public is welcome to attend that. Okay, I think that's it for now. ... Thank you everybody for attending today's workshop And thank you for your questions and comments. Jalal has a hand up, but... and Bernard, but I think we're done for now guys, so...

K- What does Jalal wants?

Q: ... I have three questions, all related together. It's about what Iran possesses from technology and why it does not really show it to the public. (2:28) Because if they show it to the public, at least the public people know about that, what Iran possesses. Second question, what a message you can, if you want to give a message to the Israelis now? What kind of message you want to give them?

K- Wait, wait, wait, wait, wait, wait. Iran has already given a very clear message. We have powers that they can't imagine, and we'll show it if they do. And I think the answer lies in so many ways, in another way, where... Let me read it for you. This is the communication by the Minister of Defense of Al Jazeera, as a nation. He says, "Iran would have not touched Israel or Pakistan two nuclear powers, if it did not possess nuclear power." Just because we have the nuclear weapons, we didn't target on the Israelis either, did we? We are holding in excess of 30 nuclear warheads, active. Iran is the only nation which has hypersonic Mach 29. We don't have even technology to detect it, let alone intercept it. (2:30) In the arsenal of defense and technology we are so ahead, we don't show, we don't need to show, we just show if we want to do what we do.

If you go back to the teaching a few weeks ago, There is a debate on if Iran is nuclear weaponed. The answer was given, "Yes, we are." We are heavily nuclear weapon, is a national assets, is not made for war, is there for deterrent. And then, if you understand this, you understand why the Americans and the Iranians work so close. Americans know the technologies we possess, and part of this situation is the agreement reaching the background that Iran will give to the American scientists access to some of the technologies which they are dying to have hold of. Americans are not just playing games of sitting there and not doing anything. There is a policy, there is a diplomacy and we

have given, undertaking that some of the new technologies of Iran will be shared with the American government. They need it, if they want to stand the rapid progress, development for China.

There's a bigger game than is on the table. Americans have sold out Israel in so many ways, but they have to keep their faces still, like, you know the French? Women didn't have rouge, they used to pinch their cheeks to keep it red. They're in that state. You understand? We are heavily nuclear, Iran nuclear technology. You have to understand the noise which comes out of Iran. (2:32) Iran, with advancing weapon technology grade, is reducing production and closing centrifuge. It doesn't make sense, does it? And IAEA has accepted, Americans accepted it, that we have access to technologies beyond what the Americans have. And the Americans have come to some agreement with us, that technology in exchange for peace, and we see it. And you will see it. Let me explain to you something very clearly. I'm going to share with you something that's going to shock you. But it shouldn't shock you. ....

R: ... I see ... the latest headline that has been sent to me a couple of hours ago is, is that the Israel is aborting their plan to carry out retaliatory strike against Iran. Netanyahu has decided not to proceed following a discussion with Joe Biden. So, maybe that's what they were discussing.

K- There is, they're still going to do a bit tactic, because he has to do something, otherwise he can't ?? ...

R: Yeah, he'll lose face.

K- He'll lose face, but let me just go through something. I don't have it, I have to switch, just wait one second. I have to switch, I'm going to show you something, which will shock you as Knowledge Seekers.

Q: Mr. Keshe, you have the whole day.

K- Just, just be patient, just be patient. I'm going to show you something very interesting. Because we follow things you don't follow, we understand things which you don't understand. Just wait. Now I'm going to share something with you, which is going to shock you. (2:34) And we can show this now, because you understand how negotiations are done. I'm going to show you something, step by step. And then I'm going to tell you why the Americans are, what I call, "On the ?? bottom of Iran". You will understand. And, I think the Americans will be shocked in what is going to come up. And it's the pattern we saw with British. Let's all have a bit of fun.

You all know what this is. This is a UFO, a Star Formation, which nobody knew, nobody talked about it, but now heavily promoted by Americans. Americans in 2020 have submitted a patent, describing a Star Formation, which was taught by Keshe Foundation in 2014. They have found a bogeyman in Disney, Dr. Salvatore Cesar Paris. This gentleman has taken the Keshe Foundation patent and in America has submitted it as

American patent, in 2016, after the patent was released. And now he's moved to Ministry of Defense. And for the first time in 2020, American government, for the first time ever, has submitted patent, open patent, on this Keshe Foundation Star Formation. It's stealing technology. And this guy, because he doesn't have the knowledge we have, (2:36) now Americans are negotiating to get access, because this is Keshe Foundation Technology, Iranian scientist. Now you understand. Go on the Internet, find this guy, and you see from 2016, this guy has become 'guru' of what I call, the fake name in American structure of scientist. Now moved to Ministry of Defense, the Defense Ministry or what you call it. And for the first time, because they submit a patent which is a public knowledge, we already taught it, they cannot hide it. That's why they put it in open.

And they... building such a craft is impossible. They don't have the knowledge. And this gives you how much this guy's fake. Because, you cannot make a Star Formation Triangular. Loads of physics, unless you have another combination, I can make you with the knowledge we have, a zig-zag reactor, what you call it, flying system. I can make you a pencil, I can make you an arrow shape, with reactors, and have a substantial physical body. This shows, this is fake. And now he started, this gentleman in American military, trying to make plasma, because he hasn't understood the core plasma, the way we do it, and now the Chinese will crack it. How to make the system work. It's still working on the ?? Tokomak ground, because he couldn't understand. And the first time we saw this guy is in 2016.

When we opened the patent publicly, he took it and he went to the Americans, "I found something." America fell for it, the same as they fall for it, what you call it, the German, what you call it, 'murder machine,' Von Braun (Head of NASA). Now you understand, what Americans, what we call, looking the backside of Iran, (2:38) and why Israel is sold out. This, thereafter this, and even the American scientists in defense technology, they said this guy talks, none of things he says makes sense, because he hasn't (understood), means he doesn't carry the essence. It's the same as Stephen Hawking going to Dublin, talking about the Black Hole after I released the paper, and everybody says, "He's talking nonsense, he doesn't make any sense."

So, now you understand where we sit, and where this matter sits. So, now Americans, they know Keshe Foundation has come to an agreement with the Chinese. And they are trying to get access to this, by blood (killing), or by selling Israel out. And Israel has been sold for (getting new) technology. Now you understand, where the game is played, and why we sit in the seat of control. And why the American needs this to be done.

So, actually I can show you something about this guy, which is, reads a lot of fake. Because he never understood, he immediately in 2016, when we opened the patent, if you remember, within a weeks he submit, he gave his idea, that is his idea, to the American Lockheed Martin and the rest and they followed it. And, for the first time, American Defense Ministry, as you call it, has opened a secret patent submission, open. Because it won't be approved, it's already a Star Formation has been released by Keshe Foundation, you Knowledge Seekers tested in 2014 in public teaching. (2:40) How can the American Defense submit such application?

And so, you come to understand, this is the reactor the guy is pushing them to build. And, funny enough, this guy went even a step further. He created a similar reactor than what we saw, a Keshe Foundation reactor in public teachings... This is, the very similar you see at Keshe Foundation original reactor. So, Americans are after this technology. Now you know what we know and what is claimed, played in the background. You understand? But in essence, they have no knowledge. We gave the Rolls Royce, but the key is in our pocket. You can enjoy looking at it, but you can't drive it.

Q: You're giving them the ?? hill.

K- Now you understand. Go and see what American government, as a top secret, it's impossible for a, such a structure, submit an open patent. Because doesn't need to be open, it's Keshe Foundation, Technology. American's tried to bring it into a patent. But the patent offices, if they check Internet, they see this Star Formation, which they shown in this thing, belongs to Keshe Foundation. And then there is more. We keep quiet. We keep, as they say, 'our mouths shut.' And we laugh at the behavior, childish behavior, (2:42) of the, what you call, the children. And you will see more and more how they try to bring this, to push this as this guy, he's a fake guy. It's the same as, what you call it, Stephen Hawking. And the American and the Lockheed Martin, haven't realized he pulled a fast one on them. And the pictures and thing I show you is in public domain. You don't need to go anywhere, that you can all check on it. We got another fake bogey, but he doesn't know what to do, and you see the things they are trying to do. And now you know, American government is talking to the wrong people, even inside the Iranian government.

Q: They cannot beat your prize Mr. Keshe.

K- No, it belongs to the Knowledge Seekers, it's the tool for peace. What it is, the Americans have sold the Israelis, that's when I tell you, they are there to collect them, when they start running. Oh, this is what was planned. We do, they can brag as much as they like about it, but if seven nations had to get together, to go on one nation which is against the rest, to stop 300 (missiles), which is less than 3% of the total, what it is, and actually we got rid of the most rubbish things in our arsenal, we wanted to get rid of it, there was a need for a space to open up. We cleaned out (the old stock). The first series of these rockets were tested, not the latest. We gave it a thing, play some play in the air. (2:44) And that's why America says it won't take part in defending Israel if Israel is attacked. Let them play.

I gave the warning, and the Americans understood, and the rest understood. If these 300, if the British, Italian, French, Israelis, Americans, and Jordanians, rockets, missiles, navies, all wouldn't be running at the same time, these 300 missiles would have annihilated the (Israel) ... What I told you would have been the Israelis will be on the run. But we gave a warning, we gave a push, they listened to us last time, they didn't hit us anywhere, this time we didn't hit the Americans, now, we are brothers, we just understand each other. But Israel will pay for it heavily. Because, once the situation is

sorted out, second Palestinian state approves within the United Nations, which is going to be done sooner or later, Israel has to pay war damages to the Palestinian nation, has to rebuild the whole Nation free, which means Americans have to pay.

The discussion is much deeper, I don't want to go into it. But, you will see this. And, as I said, the technology in exchange for peace, we see the sign of it today. I've shown you how that peace achieved. We had to do what it had to be done, we get rid of some of the rubbish rockets things, were there. The first generation, you make a lot of mistake in it, so it is done. We don't need to defend. We already defended. With technology, understanding and peaceful way to do it. (2:46)

The whole launching of these games, last week wasn't to play, was to show that we can, we do, and we showed the honor and dignity and promise we kept to the Americans. Go on the Internet, two days before the attack, Israel, the American cabinet, security cabinet, met to go through the detail of the attack, how it's going to be, how it's going to be defended, which way they're (missiles are) coming, and what it is, we don't have enough, if it was just the Americans, they didn't have enough to defend Tel Aviv. They had to bring in the British, they had to bring the Italian, they had to bring, ask Jordan to open it's aerospace. Most of the rockets which were intercepted, were intercepted by Jordan. An Islamic nation betraying and they will, in long run, see the result of their work. Without Jordan opening the aerospace and allowing rockets to be fired from his anti-missiles from his ground, half of the missile would have been inside. But it's all the arrangement which was made and done. But it was the wrong way for Jordan to open the door that way. They should have come ?? different way of ?? in the arrangements somewhere else.

But in a way, we are a state of peace, we are a state of ... We got to see what this crazy guy does. He has to create another position of attack. He has to. The day he stops, he'll be taken back to Dan Hague. (2:48) There's a beautiful picture on the Internet, if you can find it. When he was deposed as a Prime Minister, and he went through Tel Aviv airport, he was treated deliberately by the staff of the Israeli airport in Tel Aviv, as an ordinary man. And he was so angry, I am the ex-PM. They said, "Take your jacket off, take your shoes off." And they actually stripped him to get him through the security. They were so pissed off with this guy. They actually asked him, they stripped him with his wife. There are pictures of it. You are no different, you used to be Prime Minister, we don't like you, but you are an ordinary man, and he actually had to go through like a normal people, and this time they treat him worse, because he killed many Israelis. And we'll see.

Q: Thank you Mr. Keshe. All what we are seeking for stopping this bloodshed.

K- At the moment, at the moment we have one crazy man who sits on the... on the seat that nobody knows how to get him off the seat. And the Americans have got, they... they're hoping with this new situation, they access some new technologies, at the same time, don't take it to the next phase, but this time instead of British taking all the loot, Americans are taking all the loot, which is technology and peace and a lot of other things with it. Anyway, thank you very much, Jalal.

Shall we call it the day?

Q: ... (2:50) I got your email there last week, Rick. I'll reply to you tonight, and that I got the email to info@keshe.foundation to set up the interview with Mr. Keshe in the coming weeks. Is that correct? We've talked, I came on about a month ago.

R: Yeah, you talked about having an interview with the...

K- ... Yeah, you've got to send it to me at info@keshe.foundation and then they decide ?? it's there.

Q: Okay, perfect. And then, very interesting what you're saying about Salvatore Paris. I've actually interviewed him myself personally and I found that he seems like he just doesn't really know what he's talking about. He just goes in circles and doesn't have much substance when it comes to anything scientific.

K- We know that. (laughs)

Q: Yeah, I... I'm going to have to look further into it and connect the ... Star, or it's the Star Coil, Star System?

R: Star Formation.

K- It's the American Defense has submitted, I think it's July or something. I don't know the date exactly. But I mean, it's the first time ever American Defense has submitted. And, they're open about it.

Q: I just, I'll have to take a look and then show the blatant ?? patent where it's taking from what you've already released.

K- Yep. Thank you very much. And thank you indeed, thank you indeed. (2:52) Thank you very much Rick. Let's talk and we'll see.
