(Quick Index 13 pp, Introduction, Topic Index, Proofing done; Need to do; Key Phrases, Words) (Auto transcription from Elias)

Workshop is preparation for tomorrow's Flight Session; review of Creation - Creator of Creation - Rays of Creator make U - galaxy - daylight - STM; Universal Rays; Expand Knowledge without prejudices; Cosmic Rays - Crystallization - Gans crystal - heartbeat; Find heartbeat of stone; Spherical shaped graph - ready to Transmute; Interaction of 3 phases - matter energy - vegetation - life of animals - creates sphere; Why celestial entities spherical - plasma a sphere; KS get scared jump from STM back to P - don't feel worthy - block Transmutation - Health application; Sphere Graph - Soul takes over P; Self-inflicting division Soul to P - vice versa; Switch home from P to Soul of Creation - no fear; Learn both Transmutation & physical Transfer; Time gaps upon return; earth is spaceship; One STM can expand entire Unicose; Expand Soul through thoughts; Dream during daytime; Entangling STM - STP - P; Man has no choice - history written; Build confidence; Instantaneous Transmutation; Transmute perfect body back; Why sphere Graph - body made of matter energy - vegetation - animal; Become energy; Takes time train; KF Products commercialization; Teaching on Cataracts - Vision Enhancement Units; Change every part of body; Power in Science; French KF expanding; Cancer is solidification of fields; No Cu for eye & brain; KF Shops inside businesses; Digital photography; Teaching on Leukemia - malfunction bone marrow; Human created without P - Soul of Creation reference; Block filter M fields; Gaza Ukraine - balancing Souls - murderers not free; Putin Jewish ancestors - converted to Christianity - war to protect Christians; Soul Transmutes where you want to go; Pain to confirm existence.

Topic Index

Prepare for Flight Session Transmutation; Soul is stronger fields - STP & P are weaker fields; Subdivisions of the divisions of cell; Totally different Flight system - interact only on level of STM; Preparing first couple to transmute to Moon; Test to find pitfalls in work; Final phase of Transmutation; Review Totality of Creation - Cosmic Rays (CR); Begins with 'Creator of Creation' emits CR - part of Daylight of Earth - Universal Rays and above 'Rays of the Creator'; When Rays of Creator slow down create universes - galaxies - SS - Earth - STM; Be ready to expand knowledge - without any prejudices; Stop learning when prejudiced - creates limit to understanding; Fields of C12; C14 are Cosmic Rays - interaction of fields leads to crystallization - becomes a crystal - a Gans crystal with no dimension; Slight difference between a crystal of a life form - and matter form; Gans crystals have a heartbeat; Soul of stone has heartbeat; We have to find out what that heartbeat of the Soul is; Interaction of 3 phases of matter energy of vegetation, energy of life like human body, and matter state energy; In Flight sessions see interaction with STP - totality 'line of connection'; 3 conditions in body - bone (matter) - food (vegetation and animal) - and all cellular structure has a Soul; Same condition when STM, STP, P come together - get graph of a kind of sphere - when physical body interacts with STM; This dimensional sphere shaped graph means Soul has taken over P - subdues it; Graph means KS have reached point of maturity can understand Totality -

ready for Transmutation; Graph shows STM, STP, P have all combinations of fields of matter, vegetation, and animal kingdom, which is the cell of body; Man has reached the point of transmutation - everything is in a field matter; Other graphs mean stuck in P cannot expand Soul; Spherical graph shows why all celestial objects are spheres; First time explain scientifically why plasma is spherical; Why stars are spherical - not only due to rotation - but combination of field strengths - each one has its own heartbeat - matter state heartbeat embedded in star - a 'life state' - vegetation state - same as P & STP - or 'Soul of system'; Tomorrow - how spherical can group make graph; When squeezes itself to sphere shape - ready for transmutation - all energies have come together; First two to transmute to Moon work with separately; Group has problem to open to Soul - but then fall back into P - try to take control through P; Suddenly yellow peak appears behind it - P takes over - means you don't trust Soul - don't believe you can do such a thing - don't feel yourself worthy to do; When KS ready to transmute - suddenly get frightened of themselves; See same in medical application - we see people getting better - life changing - but they deny it - have a fear of confirming they have changed; Data shows many are ready to transmute - have to overcome fear - feeling unworthy; Have to build your confidence - develop trust in yourself - don't need intermediaries; Switch to new D - understand own existence - say yes, I can transmute; I am not afraid because I can bring it back; Be aware you keep yourself from expanding Soul - learn to trust in higher order - mechanism for Transmutation; We see fear in KS as groups and individuals; Kind of self-inflicting division - divide Soul from P - and P from Soul; Many KS are ready to transmute - become part of Universal Community (UC) - Totality of existence; Our job is to make you understand; Graph indicates how you see yourselves; Tomorrow will understand what 'continuous fields' are; Trying to find safety in matter state; Coming years everyone will go through this; Why does the Man jump back from the conversion of the Souls; Those without hesitations will go through Transmutation; Other graph shows how STP is entrapped inside P - Soul cannot pass D of P; Shows how physical Man is; Reach the point - have no P; Continuous jumping back and forth from STM to P - feel safe in P; Man has to learn that his true home is with the 'Soul of Creation' - not the P; Create conditions for you to let go of P; Transmute with all matter state objects - clothes - things in pockets; If transmute without clothes - different graph; During transmutation some are eating, drinking, sleeping all can be seen on graphs; Have to be able to transmute you with all your clothes - so you'll feel safe; Can happen that through transmutation - you can appear without clothes; Even if you use physical transportation systems - still learn transmutation - so you can go outside UFO - experience environment the way it is; Don't be like 'Expats' in foreign countries; Feel environment of Moon - become true Man of Space; Everybody can take from a sphere - no end; Graph show how KS are afraid of their own image; Time to put your knowledge into practice - don't be afraid of your own shadow; Pushing you to understand how to control the fields of existence - use them to travel U; Spherical shaped graph shows Soul is expanding; Other graph shows Man is still afraid of losing his life; You can jump into fields of U - through your emotions and pleasure - come back to P; Might find a gap in the time - a lot has happened while away; Sooner or later have to face reality - you are Passengers of Space; Earth is UFO - traveling 1,600 kilometers an hour; D of physicality of man has no limits when it becomes D of energy - STM; One STM can expand entire Unicoise - if that Soul understands; Understand how to transfer energies of CR and Cosmic Fields - convert

back into a plasma of itself - when comprehend - become travelers of Space; By thoughts can allow Soul to expand; Can make yourself invisible - or be in 2 or 3 places at same time; Some 'daydreamers' do this - interact with fields exactly same way as dreaming at night; Soul expands takes you to another place or D; Can dream during daytime - means STM has expanded - what we do in these systems; STM, STP, P have a specific way of combining; New sessions after June - do at night - repeat in day with same people - distinguish between dreaming at night or daytime; Won't need to sleep to dream; Create conditions to instantly dream; Be able to transmute as backup to physical Transportation - or in case you need it; Can Transfer somewhere - wait until Soul settles - feel comfortable with the new conditions; Transfer first and then transmute; KS need to understand process - exactly what shown in graphs; Entangling with P, STP, and STM; Develop systems to create it; Change life for all - understand own existence; P not have to be in charge all time - STM to come out; In future make these distinctions between our Souls - feel safe in transmutation; Now P wants to dominate - afraid to let go - let our Souls do the work themselves; We have no choice - history for man has already been written - has to play this game; Somebody is there to watch and play; Next few weeks - become passengers in these systems of matter state - be puzzled how much you already know about physicality and Soul; It's for you KS to bring this level of understanding to yourselves and the others; Have to understand the why, how, and way to go; Have to secure physical life of the Man before we can even start this process; Opened your eyes to where we're going - already started.

Part 2

Take a teaching day for Transmutation and physical Transfer; Making KS ready for Tehran conference - then US; Gradually build up Transmutation - gain trust to do it; KS decide to meet each other with Transmutation; Have to be able to recognize each other; This process will take time - thoughts are so embedded about dream and sleep time - can't recognize truth about yourself; Need time to build confidence train; When KS can Transmute - become future teachers help others gain confidence; Do workshops teach others how to do Transmutation in masses - and for physical Transfer - combination of both; When go through Transmutation - body become perfect - change all diseases; Receive a perfect body back; Start this process gradually from July; Graph colors - yellow for P - purple for STP - green for STM; Soon instantaneous transmutation - develop technologies - for you to test; Spherical shaped graph is because body is made of field energies of minerals - vegetation - energy fields - each one has its own field strength and own Soul - why its spherical; Buy Apps - tell if you are ready to transmute; See your Souls and P - ready for takeoff - three-dimensional systems; Show when you become energy fields with no D of P; All three will line up together - can divide yourself and be in two positions at same time - connected by a Twinity; This all takes time - you need to learn about yourself - develop confidence that you're not dreaming - experiencing another dimension of fields; We hide in P because we feel safe - somebody starts it and others follow; Vision Enhancement Units for cataracts; KF products coming into industrialization - have get them certified; We'll begin with clinical trials - won't release any information out to public - prevent problems; Collectively we have the knowledge to change every single part of the body; Can put heart at rest - so plasma fields can feed and

repair - and the other parts; Make systems to handle the Totality; Want all KF technology & work done at the level of national acceptance and certification - completing over next months to come; KS have not gathered enough knowledge to handle these things; Shown before we can heal bones within hours - T available; Showed doctors what can be done - they saw results - didn't want to talk about it - because it means their end as doctors; Man becomes his own doctor - expand his Soul - do what needs to be done; You yourself have knowledge to repair your own eyes - many KS tried - but still don't understand - haven't put all the knowledge together yet; KF is going through a process to become a power in World of Science - energy, matter state, food, medicine, and everything else; A lot of scientists have been blocking our work - danger to their position as experts; We can grow teeth - change cataracts, blindness and everything else; Spread knowledge to many KS; Problems with French community trying to expand rapidly; We solved cataracts years ago - but it was shelved; As we age we can get dementia in cells of eyes; Change hearing problems; A year to get certification; Changed our work so they cannot block it - pushing things in all directions; Our partners can bring T out - work with people from different nations - they'll do this for us; KS tested Glasses 3 or 4 years ago - feedback helped this process; Glasses used in Flight Sessions in conjunction with Head Units and Transmutation Units; KS and scientists have to understand basic process of energy to matter and vice versa; Cancer is solidification of fields to matter state; CO2 Gans patch works but depends how you use it; KS think everything is CO2, Zn, and Cu Gans - have to expand - other plasmas and their interactions; If CO2 Gans bluish has some Cu - could be good; Do not use Copper with the eyes or brain - don't touch Copper; KF American Store is totally gone - property sold - see what comes up; Mexico is gone; All shipping only done from Austria; People opening little KF shops in existing businesses like restaurants - sell KF products; Need existing business with people passing - not just in your basement; Official KF products only come from Austria; People copying logo; KF Store soon will be shut down in Austria; Can order KF products on Amazon; Leukemia involves different kind of things with blood - malfunctioning of bone marrow primarily through the heads of bones; Thalamus together with Nano layers of femur effected; Both red and white blood cells change because of the damage to spongy bone heads - especially with femur; Changes its spacing - blockage of materials - effects blood cells - becomes Leukemia; Radiation also cause - hits bone - changes its capacity - energy balance; Only solution Vertical Enhancement Units - bring balance to environment; Another solution - production of a specific type of blood; Explain further later; Breakthrough very soon in medical side of KF; Leukemia can be related to psychological conditions - rare; Happens during nuclear accidents - connected to how the amino acids convert; Can come by change in diet - changes bone marrow composition; Recognize a transmuted person through Soul; Soul of Creation is the reference point; Recognize each others Soul; Biggest problem is a lack of trust - other is 10% lack of knowledge; If KS start trusting themselves - start transmuting; Every organ absorbs what it needs on its own - 80% environment; Should be possible to apply Plasma T to art of digital photography; Have to understand what you are actually seeing; Developed a T to block and filter M fields - only see one strength - or given strengths; Have tested it; Talks about Souls killing in Gaza; Not first time - won't be the last; Energies are released at death - at strength of those who committed the murders; Will bring an end to that culture - they have to do it themselves; Includes one who shot the bullet - ordered it - made decision in

government - all adds up; Wait and see what happens to these people; It all will have a purpose; The Souls collectively will bring a position; Gaza and Ukraine are similar: More people died in Ukraine than during WWII; Putin's great, great grandfather was a Jew - became devout Christians - war is about protecting the Christians; Ukrainians have lost the war - giving guns to prisoners to kill; Americans put in another 2 billion - pump it up when losing; Don't hear the truth of what's actually happening; Don't know how many lives have been lost - Souls have to balance; This is last war of the religions; Waiting for authorization of Iran conference; KS talks about experience with Soul expansion for transmutation in Manchester, London and Sanya; Soul takes her where she doesn't want to go; Subconsciously she actually wants to go there; Have to learn language of Soul; Reason why Soul takes you somewhere - figure it out; If pain doesn't go away - maybe you want pain to confirm your own existence.

Introduction to 538 KSW - Prepare for Transmutation - Spherical Graph 'Ready' - Safety in Creation - Reincarnation

This workshop is primarily a preparation for those participating in tomorrow's Monthly Flight Session, but really it is for all of us as we are on the verge of full physical Transmutation. As I was listening to it over and over I realized it was not just the words, Mr. Keshe was transmitting Energy/Knowledge in the silent spaces for us to absorb the idea of transmuting, and what that means to each of us individually. Part of the preparation is to be able to imagine what it will be like to transmute as a reality, and what effect that will have on us and how it will change us.

First he briefly went over how we are created starting with the 'Rays of the Creator' that interact to make the universes, galaxies, solar systems, Earth, and then the Soul of the Man (STM), that's us. We are really part of the whole of Creation. And those Rays interact to create the daylight and when we understand that everything is made out of the interaction of the fields, then we'll understand how Creation works. He advised us to remain open when we are learning new things and not develop prejudices about what we are learning. This is what stops us from going further. This is very typical when our eyes get opened to something new that we didn't know before, then we think that little bit of knowledge is everything, and we start telling other people about what we know, and we unknowingly put it in a fixed or 'concrete' way. If we can stay open and remain humble as we advance in our understanding then we can go further much faster.

He slipped in a teaching about how the interactions of Cosmic Rays (CR) lead to crystallization, but this is not the crystals or diamonds we think about though I am sure they are related to them. He spoke about Gans crystals as having no dimension. I am assuming that means no physical dimension (D) and therefore we can't see them, but they must have a D of energy because they have a heartbeat. He said there was only a slight difference between matter state crystals and crystals of a life form. What does it mean that a Gans crystal has a heartbeat as well as the Soul of a stone and that we need to be able to work with them? The only heartbeat we know of is the kind that pumps blood in a rhythmic motion. The heart gives and receives blood, and thus allows the exchange of energies and life to exist. So would the heartbeat of the Soul be how it gives and receives,

or how its M and G fields interact to exchange energies with our environment and thus live eternally? It seems we don't have enough information and knowledge about what crystals really are to be able to fit them into this.

After this he started explaining about the 3 phases of existence on this planet. There is the matter state energy which is most likely stones and matter objects that don't move on their own, then vegetation, and life forms like animals. And that all of these have heartbeats and through their interactions, it somehow leads to the creation of a sphere. It's up to us to find a way to 'connect the dots' together. Somehow this information is connected with why the Graph became spherical and why all the celestial bodies like stars and the plasma are spherical. Maybe it has to do with the field pressure of 3 plasmas being inside sphere and rotating? In the body we have 3 conditions of matter state like the bones, and the vegetation part is the food we put in our stomach, and the animal part is like the cells, and they all have Souls. And on the plasma level we have the STM, STP, and P and when the STM expands over the STP and P it forms a new plasma, which shows up on the Graph through the lines becoming spherical shaped. This means the Soul has taken over control of the P and it is ready to convert it back to energy, and thus he said, when we see a spherical shaped graph it means the Knowledge Seekers (KS) are ready to transmute.

Then right after the spherical graph there was a sharp peak which collapsed the sphere and the yellow line representing the P was on top and the green line of the STM on the bottom. This meant the KS got scared and went back to where they feel safe in their attachment to the physical body. This keeps getting repeated over and over again. Therefore, he decided to test the couple that will be the first to physically transmute to the Moon separately. This is the level of development the humans have reached in regards to Transmutation. One of the main problems is the fear which also comes out of attachment and identification with the physical body. This is what KS have to try to work more deeply on. First he has to get us to recognize that we have that fear, then we can decide to start working on it. If our intention is to help humanity progress then we'll find the desire and strength to understand more about ourselves. At the same time there is a subtle feeling inside of whether or not we feel worthy to be able to do such a thing as transmute. This is an equally difficult task to overcome because society and especially orthodox religions have programmed us with low self-esteem, as a way to keep the control in the hands of the leaders. It may be confusing to people unless you study human behavior more closely. But people who appear egoistic actually suffer from low self-esteem inside. I don't think this is about using positive affirmations, and telling ourselves with superficial thoughts that we are worthy. Rather it's about educating ourselves in the Knowledge of Creation and understanding how we are created in reality, and not listening to someone's fantasy about it. If we understand that we are made out of the fields of the Creator and are part of the Creation there is a huge relief and a feeling of self-love that arises and wanting to share that with others. If this is done properly it can alleviate the fears and feelings of unworthiness. Another way not to be afraid is to know that at any time we can bring ourselves back to physicality. In a way we learn to trust in a 'higher order' of existence and this will bring us the confidence to move ahead. He gave us a hint

by saying, this is the 'mechanism for Transmutation.' In a way, we are letting go of the control by the P and surrendering to our own Soul. There is a huge Knowledge in this.

What does it mean when he says, we find our safety in the matter state of existence? I am sure we have all experienced this at one time or another. When we experience something new that is a little bit too energetic, or too freeing, or the conditions in our physical world get shaken up we look for a way to get out of those feelings. If it's a spiritual experience then we say, 'oh, now I can feel my body I am safe again.' Or we get back to our house and feel the safety of being at home. For Transmutation it's important that we understand all of this and begin to work at loosening the attachments. But then how will we handle uncomfortable situations? He gave us the perfect solution and that is to think of ourselves as belonging to the 'Soul of Creation' instead of the physical body. First we have to become aware that such a condition exists and then we have to develop love for it. If we think about it, the Soul of Creation is a universal condition, and in it we love everybody equally as ourselves. We are all one. But it's a deep feeling that has Truth with it and then comes the feeling of peace and that everything is okay the way it is. If we can develop this sense we will have found the true security in life or existence, and not the illusive one that wealth, family, and intellectual knowledge gives us. Another name for Transmutation is Enlightenment, and then we become part of the Universal Community, and maybe this is what the concepts of Heaven and the Angels are referring to.

If you remember last week Mr. Keshe said that transmuting the Gans plasma condition of our body is different than transmuting the matter objects we carry like our clothes and the coins in our pockets. In other words, it might be easier to transmute a physical body that didn't have matter state attached to it, or should we say naked. But that would be uncomfortable for people to accept, but it might make the development of Transmutation easier in the beginning. We should be aware that it might happen that we end up transmuted on the other side without clothes anyway. But the wonderful thing is that we'll get a new body that is perfect, and all the diseases will be gone. It sounds like being 'born again' but in a true way.

In a way, it feels good to hear that we cannot fail, and that we have no choice, because the history of man has already been written and we are just players in the game. Somebody is watching, and Mr. Keshe must be one of those who do both, watch and play. Nevertheless, we still work hard and do what we have in front of us, and one day the energy on the planet is going to shift. When that happens we'll already be part of it because we have been doing the work, and we'll be able to help make the transition easier for the others. And before he said that the technology should not be in the public yet, because we first have to elevate more Souls so that when the shift comes the technology will be a tool for peace. Right now the governments only want to use it to gain power over the others. And we can't have that. This time it will be a true change that will be irreversible. Because then the Children of the Soul will start to be born on the planet. And those of us leftover from the past will use the technology to improve our lives. And hopefully, those of us who work hard now to bring the change will be able to live in the both the Soul and P at the time of the change.

KF solved the situation with cataracts a while ago but they shelved it. Some years ago KS did trials with ski goggles from KF and then through their feedback they were able to develop systems. He said, that as we age the cells in the eyes get dementia and this develops into cataracts. When the new Vision Enhancement Units get marketed by the KF partners they will be used together with the Transmutation Units. A lot of things are happening in the background that cannot be told to the public, otherwise as what usually happens certain groups 'hone in' on the work to try to stop it. This brings up a disturbing trend that has happened with scientists and doctors. Mr. Keshe said, he recently attended a meeting with doctors where he showed them the results of tests proving the validity of the technology (T). So in the past they always denied that the T was real and would say that we have to prove it to them. The new development is that they don't want to talk about the T and this is very disturbing. Because before there was a kind of innocence of ignorance and that some part of them wanted to understand the reality. Now it's a total denial of the truth and a hostility for it to come out. Their character has become very low, because it means that they would rather that people suffer and die, then to get help with the new T, only so they can keep their position and wealth as experts of an outdated science. This is something horrible and we have to elevate their Souls. This means we have now advanced to the point that the Plasma Science is like a mirror reflecting back the true understanding of Creation and this will bring the change. But we also need to develop a love for the T so that we ourselves are not afraid of the coming change, and can work to bring it about faster.

Part of the teaching on Leukemia was taught before in how the micro or Nano channels in the spongy part of the bones make the bone marrow and the immune system such as T and B Cells, White and Red Blood Cells and the rest of it. These channels create different MG field environments and as the lymph flows through them, it leads to creation of the different components of the immune system. When there is malfunctioning in this process it effects the blood and this is what they call Leukemia. The head of the femur is the main area and these Nano channels work together with the Thalamus to create the blood components. Leukemia occurs a lot during nuclear accidents when the radiation released can change the channels in the spongy part of the bone heads.

Last week in the 537 KSW there was a subtle teaching clarifying more about what we consider to be reincarnation. He said, 'the way you go (from) one shell to another, you can go (from) one Soul to another, and add to that Soul, and by it, strengthen (its) position (so that the) next cycle of life it creates will have more intelligence and understanding.' The Hermit Crab goes from one shell to another and lives in it. If we read this carefully it says our Soul can add to another Soul, and doesn't have to create a new body. This opens up a whole new chapter in the Science of Souls. How does this take place? Mr. Keshe told us something like, twice he said no, to receiving his mission because he wasn't mature enough. On the third time he accepted. Is that when the 'Soul of the Creator' entered into him? Once he was asked about this and he said something like the Souls merged. This leads me to think that it's a copy of the 'Soul of the Creator,' and the original copy of the 'Soul of the Creator' for this planet gathers all the experiences and knowledge of the Souls that have been gathered from those we call Prophets. And each of these Prophets keep their individual amalgamated Soul, that also contains the copy of the

Soul of the Creator. Because how are we going to deal with the Soul of Moses, and the genocide, lying, and killing? Part of our work to end the religions is to elevate the Soul of the Prophets. Does that Soul still contain the Soul of the Creator within it, or does it lose it when its physicality goes the wrong way? And the physicality of every Prophet had their problems. Then he said, that if we added our Soul to a 'Soul of a Sheppard,' but we didn't attain the Knowledge then it ended there. In other words, the Knowledge gained did not reach maturity and so it was lost. One has to start over again and try to reach completion. Then he said, that Messengers like them know how to add to another Soul, so that they gain more understanding. One question that comes is, then what happened with Moses, how come he didn't gain more understanding? Or is part of Mr. Keshe's life to correct the mistakes of the Prophets? There is a lot to think about, and a lot of knowledge we don't yet have. In summary, we don't reincarnate, instead our Soul adds to another Soul and continues its growth back to the Creator and to serve the Creation. The other part I can't quite figure out is, what happens to the STM that was created when this STP & P were created from my parents? Does it remain a separate entity? This requires a much higher order dimension of understanding to comprehend.

The main point of this workshop was for us to start thinking about transmutation in a real sense and how it will effect us. And if we start thinking about it on our own, then when we go into the system it will be less shocking, and we'll be able to come to terms with our fears and feelings of unworthiness. And to be aware that in a group when the Souls are connected, if one Soul starts to get afraid, the other Souls can pick it up and this stops the process of transmutation. It's something that first we become aware of and then we work to overcome it. This will open the next step towards full physical Transmutation.

Other Topics:

One STM can expand the entire Unicose. The way I understand how he can do that is he has to identify himself with the Creator, and that he is part of the Creator.

Thanks for listening.

Quick Index

(We are setting the scene for you to start understanding more about yourselves now that you know about your Soul, physicality (P), and everything else in the dimension (D) of the fields of Creation. The stronger fields becomes the Central Energy fields or what we call the Soul, and the weaker ones the P and the Soul of Physicality (STP). In the future we'll learn more about the subdivisions of the divisions of the cell (in different ways then what we know in the matter state of the plasma)).

(Today's teaching will be preparation for tomorrow's Flight Session as we start the first phase of the Transmutation. We'll collectively put you in a new and totally different (flight) system. The energy fields will interact only on the level of the Soul of the Man (STM). It will be (up to you) how you interact with it. Then later the couple whom we selected (to be the first humans) to transmute will go through different dimensions of

field strength to see how they react in the first phases of transmutation. We'll try to see if at least these two can transmute and to what level. We have to test if there are pitfalls in our structure of the work and our systems. Then we'll be ready for the final phase of completing the Transmutation).

(Let's go back and review what we know about the Totality of Creation and the Cosmic Rays (CR). We start with the 'Creator of Creation.' (They ?? emit the) CR that become part of the Rays of the Earth. This is what we usually see as the daylight, or whatever. (On the other side we have the Universal Rays, and above those are the 'Rays of the Creator.' (These Rays are single and travel the depth of the World of the Creation of itself). When they slow down, and through interactions they lead to creation of the universes (U). And the fields of these universes interact and lead to creation of the galaxies, stars, solar systems, and then the STM and the rest of it).

(It's important for us Knowledge Seekers (KS) to be open to understanding the Totality of Creation and to not draw a line limiting our understanding. We should be ready to expand our knowledge and own understanding without any prejudices. Once we become prejudiced to what we have learned, this is the time when we stop learning. When we draw a line that limits us then we cannot go any further. This is the limit of our understanding and comprehension).

(We have the fields of Carbon 12 (C12), and then C14, which are Cosmic Rays, and then we go into the interaction of the fields that interact with each other in the D of the Totality and this leads to what in the physics of today we call crystallization. It becomes a crystal. But it's a Gans crystal, which means it has no dimension. There is a slight difference between a crystal in a life form, and a crystal in the matter form. The crystals are a diversity of the fields from Gans's, and they have a heartbeat. The Soul of a stone also has a heartbeat. It's important for us to find out what that heartbeat of the Soul is, and what takes it over, and what brings that condition of understanding).

(We've seen this in our Technology (T) during the Monthly Flight Sessions and it's happening more and more. We see the interaction of the 3 phases of matter, which are vegetation, (or the energy of them), matter energy, and the energy of life, which is like the human body. When these interact and the STP interacts, then we see the totality of the 'line of connection.' When the 3 field forces of matter, vegetation, and the animal kingdom come together, we see something very interesting. And the totality of the information gives us a lot of insight into how we have entered the 3 dimensions. This means we put the field strengths of these 3 conditions, which in the body are made of bone (matter), the structure of the food which is within the man (vegetation and animal). And then the cellular structure all has a Soul. This gives us an interesting position (to observe) and it has many applications).

(We see this when the STM, STP, and the P of the man come together, it gives us the same kind of condition. And this gives us a totality of understanding. Mr. Keshe shows a graph of the Flight session where the lines form a kind of sphere. (?? This graph is when the body physicality interacts with the STM). (When we see this dimensional sphere

shaped graph it means the Soul have taken over the P, in a way it subdues (it) and then follows and together they make a beautiful system. This kind of graph tells us that you KS have reached the point of maturity, and can understand the Totality)).

(This is an amazing picture of structures. These graphs show the STM, STP, and P bear all the combinations of the fields of matter, vegetation, and the animal kingdom, which is the cell of the body. Together we get this sphere shaped graph. When we see this while our systems are running, it means that the man has reached a point of transmutation. Everything is in a field matter. Everything is ready to move on. But the picture of the other graph means you're still in the doldrums of being the P and not able to expand the Soul. The spherical graphs also shows us the reason why all of the celestial objects are spheres).

(This is the first time scientifically we can explain why even the plasma takes a spherical shape. And why the stars are spherical. It's not only due to rotation, but also to being able to create a combination of field strengths, where each one has its own heartbeat. And in that heartbeat sits the structure of the matter state, which is embedded inside the star. We call it a 'life state,' but you call it a vegetation state. It's the same as P and the STP, or the what we call the 'Soul of the system.')

(These graphs explain a lot of things to us scientifically).

(Tomorrow we'll see how spherical your group can make the graph. When it squeezes itself to a near enough sphere, then it means all the KS are ready for transmutation. It means all the energies have come together. (We have separated the two volunteers to transmute to the Moon from the rest of you). Because there are too many of you that fall into the pitfall of believing in what you're trying to do. Or should we say, you go back to the matter state. You try to (take control of the situation) through physicality. That's when we see the other graph instead of the sphere. We have shown this sphere before, but then suddenly there always appears this peak behind it. The yellow line is the P and it takes over. It means you don't trust the Soul. You don't believe that you can do such a thing as transmute. Or you don't feel yourself worthy to be able to do it).

(It's very interesting how suddenly the energy increases and reaches a peak, and the KS are ready to transmute, but then they get frightened of themselves (and we get this peak in the graph). We see this also in the medical application. I explained this to many doctors before, that we see people getting better and they change their life through the systems they use at the Wellness Centers, but when you ask them about it, they say, nothing is happening. They have a fear of confirming and saying yes, they have changed. This is the same problem we see here with the Transmutation).

(If we understand this data here in front of us, then we understand how many of you are ready to transmute. (It's just you have to overcome this fear you have of whether you feel worthy to be able to achieve such a thing as Transmutation. And then we'll see what happens. When you find a way to build your confidence, and find trust in yourself, and that you don't need any intermediaries, then you will move to these new phases. You will switch to a new D and another understanding of your own existence, and you'll come to

say, 'yes, I can transmute, I can transfer the fields of my existence, and I am not afraid of it, because I can bring it back. I can create it to be.' (For many of you, your own success and the combination of the fields of the work, become a block and you stop the process). (You keep yourself from expanding your Soul through trusting in a higher order. The process of expansion through a higher order is a mechanism for Transmutation).

(We see this quite often with KS and amazing how they keep repeating it. (We see it when there are large groups of you together in the system). We also see it with individuals. It's a kind of self-inflicting division, where you divide the Soul from the P, and P from the Soul. When we see this it brings us a lot of knowledge. Today's teaching is primarily about these kinds of conditions. Many KS are ready to transmute. You are ready to become part of the Universal Community (UC) and Totality of existence. Today we are trying to bring you the understanding of the Totality. It's our job to bring you to see it. It's our job to make you understand where and how this can happen).

(This graph gives us a beautiful indication of how you see yourselves, and this is important to know for those of you who will join us in tomorrow's session. You will understand (what) continuous fields (are). We will see the beginning of the creation of this sphere, and then everybody will collapse and go through a matter phase. And then the Soul and STP will try to come together to go through the phase of transmutation of the Soul. (But then again, you may look for safety in the matter state). This is true for all KS and humanity. But in the coming months and years everyone will go through this, and they have to understand how much the difference is, and what the difference is).

(Why does the Man jump back from the conversion of the Souls, into the P? Is it fear? What are you afraid of? Or is it whether or not you feel worthy? Those of you who don't have any hesitations will go through the system and the whole structure of the Transmutation. (I have another graph that shows how the STP is entrapped inside the P, and where the Soul cannot pass the D of P. It shows how physical the Man is. (?? In this process you'll reach the point where you can say, "I have no Physicality." In this D the P it doesn't come into play). But we still see this continuous jumping back and forth from the STM to P. It's because you feel at home in the P and you feel safe there. The Man has to learn that (his true) home is with the Soul of Creation, and not the physicality of the man. And that he doesn't have to be afraid of interacting with the fields of Creation).

(Tomorrow we'll create a condition for you to be able to let go of the physicality. In a way, not to let go, but to not have fear that you won't be able to manifest yourself again in the D of P).

(The next part is for you to bring about the condition that you can transmute with all the matter state objects you are carrying with you, like your clothes and things in your pockets. It's very interesting, because if we would ask you to take your clothes off before transmuting, and do it naked, then these graphs would look very different. During transmutation some of you are eating, drinking, and sleeping during the sessions. We can see these interactions and conditions on the graphs. We understand how to eliminate most

of this. But I have to be able to transmute you with all your clothes. I have to take you together with the things you'll feel safe to be in).

(Going through transmutation is like being fully dressed and jumping from an extremely high place that as you free fall all your clothes and belonging will slip away during the fall. At the end you'll land safe and sound at the bottom. But you might not have any clothes on. Everything will be lost during the fall from the top. From tomorrow onwards you'll have to accept this can happen. It shall be this way. But don't be afraid of how you will land at the bottom of the fall).

(Even if you use the physical transportation systems, in the future you'll have to be ready to do transmutation also if you want to experience what is outside this cage called the physicality or the UFO. (You don't want to be like the 'Expats' who live in foreign countries but stay in their own groups and don't intermingle with the local population. They never discover what it is like being amongst the people and culture of that country. Then why do you want to go into Space if you are going to remain in a UFO). If you go to the Bahamas with a tie and suit it will be of no use on the beach. You need to change into a swimsuit and feel what it is like to go in the ocean). When you are a 'Man of Space' you will experience the environments you visit).

(When we start going to the Moon, you don't want to go to the Moon and then only sit in the system, do you? You will want to touch the Moon sand with your feet and feel what it is like to be a citizen of this new environment. So even you if are taught the physical Transportation Flight system, in the end if you want to go outside and feel the environment you'll have to learn transmutation, then you'll become a true Man of Space).

(You as Knowledge Seekers have to gain confidence in your own understanding and then tomorrow we'll see this spherical shaped graph, where the STM, STP, and P will be in all three dimensions of their creation. You will be in the matter or solid state of the bone structure, the field strength, which are the Amino Acids of your organs like lungs, liver, and the rest, and the energy of the STM, all will work together to create that spherical shaped graph. To create that, 'what I have is yours.' In a sphere there is no end so everybody can take from it).

(These graphs bring me so much understanding of how much our Knowledge Seekers are afraid of their own image. When it comes to what I call, putting your knowledge into practice, you're afraid of your own shadow. We are pushing you to understand how to control of the fields of the existence, and use them to travel in the dimension of the fields of the environment and the U. The spherical shape in the graph shows the Soul expanding. But the other graph with the jagged peaks shows that Man is still afraid of losing his life and the demise of his physical life. You don't know that you can jump into the fields of the U, and through your emotions and your pleasure, you can come back to the D of physicality and manifest yourself in the time and place you left from. Or when you come back to that (same) time and place, and you (might) find out that jumped a gap in time. And that a lot of things happened while you were away, but you can come back and see).

(We'll try to open the knowledge more and more for all of you to understand. Sooner or later you as Knowledge Seekers have to face the reality that you are Passengers of Space. In fact you already are, and your UFO is the Earth and it is traveling 1,600 kilometers an hour, and is rotating everywhere. And, it is in the span of another system called the Solar System).

(You have to understand that the dimension of physicality of the man has no limits (when it becomes the dimension of the energy, or the STM). The Soul of one man can expand the entire Universe. The STM can even expand the whole of the Unicose (if that Soul understands that ?? it is part of everything (and made out of the same fields). Then you have to understand how to transfer the energies into what we call, the fields, (or) the Cosmic Rays and Cosmic Fields (CF). And that you can also convert it back into a plasma of itself. The day you can comprehend this, is when you'll start becoming the travelers of Space. Then just by your thoughts you can allow the energy expansion of your Soul in the inner sanctum of the Man. When you can do this you can also make yourself invisible, or be in 2 or 3 places at the same time).

(Some of the people we call 'daydreamers' have already managed to do this. They can see the interaction of the fields exactly the way we do when we dream at night. The Soul expands and takes the man to another dimension, or to another position. So we don't only dream at night, we can dream during the day, which means that the STM has expanded. This is what we are putting you through (in these systems). The STM, STP, and the P of the man have a specific way of combining, and they have tuned themselves to work in certain ways).

(After the June session we'll start a new set of Sessions that will last maybe three to six months. In these we'll run the sessions at night in different locations to make sure it's night time for (everybody). Then we'll repeat the same thing during the daytime with the same people. In this way we'll be able to distinguish between dreaming at night or during the daytime. When we put you through the systems we'll allow you to go through a faster process than a day dream. You won't need to go to sleep, and you won't need to go into the phase of energy that allows you to dream and the rest of it. With a flick of a finger, we can create the conditions that all of you can start dreaming (?? at the same time), but you will dream what you want).

(When we give you the physical Transportation, we want you also to be able to transmute as a backup, or in case you need it. Or if you Transfer somewhere you can wait until the Soul settles, and you feel comfortable with the new conditions and can be there. We are coming to the process of separation, and understanding the Totality of the working of ourselves. Now we are ready to go through that process. We are ready to go through the (physical) transfer and then transmutation. Then we can decide if we want to transmute and then transfer, or to transfer first and then transmute).

(It's for Knowledge Seekers to understand the process, which is exactly what we see here in these graphs. We see the 'entangling' with the P, STP, and STM. To the extent that the

KS and humanity come to understand this process, will be the extent to which we can develop systems that can create it. This will change life for all of us and we will understand more about our own existence. Then P will not have to be in charge all the time. (It will give room for the STM to come out into our life)).

(In the coming time, when we (can make these distinctions between our Souls) and understand our position, and about our own dimension, then the Man will start moving forward in a very easy way. We will start this process with two KS who have volunteered to be the first humans to transmute. From this we'll understand how to set our systems up to bring us to the point that we can go from A to B, but all the time knowing we can still come back to point A. In this way we'll go from A to B without any fear. Because we'll know we are in safe hands. It's like when a child learns to walk, it knows the mother is always there to catch him if he falls. And this is what we see in these graphs. We have learned how physical we are. We can see this by the height difference between the green and yellow lines. The P wants to dominate, and we are afraid to let go and let our Souls do the work themselves).

(As I always say, we have no choice, the history for man has already been written, and he is just a player in this game. There is somebody watching, and somebody playing, and then there is somebody who's there to watch and play).

(In the next few weeks, as we prepare you for becoming passengers in these systems of matter state, you'll be puzzled as to how much you already know about the physical and Soul state, and the STM. It's for you KS to bring this level of understanding to yourselves and the others. We all have to understand the why, how, and the way to go. We have to secure the physical life of the Man before we can even start this process).

(I hope I have opened your eyes to where we're going, because it (has already started). We are back (doing demonstrations and if you have a team of Knowledge Seekers who want to understand more, it can always be arranged)).

End of Quick Index Part 1 - 538 KSW

(Our plan is sometime this summer to have a day that all of you, like what we did a few months ago, can come into the process of Transmutation and (physical) Transfer. We're making a number of Knowledge Seekers ready for the Tehran conference and then for the US conference. Transmutation cannot be done in one go. We can't just decide today and then you can do it. You have to gain trust in being able to do it. You have to trust what you do. We are training you that gradually you'll be able to transmute. It's not just a talk. Two or three of you can decide ahead of time to meet at a specific place. You have to be able to recognize each other and have the trust to know who this Soul and P are).

(This process will take time. Because your thoughts are so embedded about dream and sleep time, that you can't even recognize the truth about yourself. (?? The truth that you can travel with your Soul). So it needs time for you to build your confidence and to train, then we'll see the next steps coming in. (?? The systems for Transmutation and (physical)

Transfer are becoming ready at the same time. As KS gain confidence and knowledge you will become the future teachers to help the others gain confidence. Today you are doing workshops on making Gans's and MaGravs, but in a year or two you'll teach the others how to go through the Transmutation in masses, and for the physical Transfer, you can teach a combination of both. (In the near future, by going through Transmutation we can change everything in the body from cancer to whatever. When you transmute you'll receive a perfect body back. We'll start this process gradually from July and August to push you to be ready to go through that point).

(The colors on the graph are yellow for P, purple for the STP, and green for the STM. Very soon we'll bring new dimensions into play of instantaneous transmutation, and we'll develop technologies to this effect. It will be for you to test them).

(The reason we see the spherical shaped graph is because the body of the man is made of the fields of energies of minerals, vegetation, and energy fields. So, each one has its own field strength and its own Soul, therefore we see this spherical shape. In the coming time, you'll be able to buy Apps that will tell you if you are ready to transmute. You will see your Souls and P coming to the point that it's time to takeoff. We have to develop these, because we are delivering the systems. We are looking into three-dimensional systems, that where collectively or individually it will show if you are ready for transmutation. It will show the time you are physical, and then when you become the energy fields of the man that have no dimension of P. We can also have a position that all three will line up together and at that point, you could divide yourself and be in two positions at the same time, but they would be connected to each other like a Twinity, to be manifested on both sides).

(This all takes time, and it needs for you to learn about yourself and develop the confidence in yourself that you're not dreaming. You're experiencing another dimension of the fields (that you can be in). As we saw in the graphs today, you went forward into the Soul, but then got scared and jumped back into the P where you feel safe. We hide in physicality because we feel safe. The more of you that do this, the more prominent the field (lines) are. It means a Soul starts it and puts down a line, and then the other follow into it. They gather around that strength).

Q: Is it possible to speed up the development of Vision Enhancement Units for cataracts so it becomes available sooner?

K- (Yes, we can do that. But it's like (?? what happened) with the Knee Gans. But yes we have the T for it).

(It will be coming into industrialization. We have to get the KF products certified in many aspects. We'll begin with clinical trials, but we won't release any information out to public, so as not to create the problems we had in the past. Collectively the knowledge is there to change every single part of the body be it to put your heart at rest so the plasma fields can feed and repair the heart, and the others. We can make systems that will handle the Totality, and that's why it's very simple compared to the rest of it).

(We want to have all of KF technology and work done at the level of national acceptance and certification. We'll be working on this over the next months to come. And yes, cataract is very easy (to process)).

(However, most of the KS have not gathered enough knowledge to know how to handle these things. We have shown this before where we can heal bones within hours. You don't need to be in a plaster cast for a month. That technology is already available).

(This morning I was with some doctors and when I showed them what can be done, and when they saw the results, they just didn't want to talk about it. And I said to them, you know why you don't want to talk about it? It's because it means the end of you as doctors. Because now the Man himself becomes his own doctor, he can decide to expand his Soul and do what needs to be done, without them).

(Essentially, you yourself have the knowledge to repair your own eyes. Many KS tried this, but they still don't understand so they say, it doesn't work. It's because you haven't put all the knowledge together yet. Why do you get cataracts? Why do you get blindness? Why do we get problems with our eyes as we age? And why do some children have it from the time of birth? I can put Gans together now for cataracts that will give 100% Wellness, guaranteed).

(KF is going through a process to become a power in the World of Science. It doesn't matter whether it's for energy, matter state, food, medicine, and everything else. We understand the process, but a lot of scientists have been blocking our work because they see it as a danger to their position as experts in their own fields of knowledge. We can grow teeth, change cataracts, blindness and everything else. The knowledge is here and we have to pass it over from being in the hands of one man, to being in the hands of many KS).

(The people who are trying to stop KF work from coming out are behaving horribly. We had problems this week with the French community trying to expand rapidly. People who have been there a long time are trying to destroy it. (?? We are changing our direction to bring the French community back to expand KF work)).

(We solved cataracts years ago but it was shelved. As we age we can get dementia in cells of the eye. Mr. Keshe developed this part of the T because he was himself having trouble with it, and the same with the Knee Gans. We can bring the change even to hearing problems. It might take a year to get certification of KF products. This time we changed our work so that they cannot block it and we are pushing things in all directions like Wellness, Agriculture, Energy, Material production, Space and everything else collectively).

(We have found partners who can bring the T out. We work with people from different nations and they will do this for us. Knowledge Seekers tested part of this with the Glasses you bought from us 3 or 4 years ago. Your feedback helped this process. In the

future we'll use the Glasses in the Flight Sessions in conjunction with the Head Units and Transmutation Units).

(The biggest problem has been for our KS and scientists to understand the process. It's like in the cancer, it's the solidification of the fields to matter state).

(Whether or not a CO2 Gans patch would help, depends on how you use it. KS think everything is CO2, Zn, and Cu Gans, but we have to expand our repertoire to include other plasmas and their interactions).

(If the CO2 Gans is a little bit bluish, then it means some Cu is in it. It could be good, but depends what you use it for. Do not use Copper when the eyes are involved or anything with the brain, you don't touch Copper).

The KF American Store is totally gone and the property is (sold). We'll see what comes up in the future. The same has been done with Mexico. All the shipping now is only done from Austria).

(There are a number of people opening little KF shops in existing businesses like restaurants where they keep a little space for people to buy KF products when they come in for a meal. If you want to open a KF Shop you need an existing business where there is a lot of people already coming by, and not just in your basement).

(To get official KF products they have to come from Austria because some people are copying the logo. There are a lot of people doing it like in Romania and France. Once our partners will go into the market, in a big way, then a new KF logo will be made. The KF Store soon will be shut down (in Austria). You can order KF products on Amazon).

Q: Please tell us about Leukemia? How does it happen? And what can you do about it?

K- (Leukemia involves different kind of things with the blood. It's part of the malfunctioning of the bone marrow primarily through the heads of the bones, and the thalamus together with the Nano layers of the femur. Both the red and white blood cells change because of the damage to the (?? spongy bone heads at the end of the bones). It especially happens when the femur gets damaged in different ways, or changes its spacing, and this can lead to release or blockage of materials which then affects the blood cells, and this becomes what we call, Leukemia).

(Radiation ?? can cause this also because it has an energy that hits the bone and changes its capacity, or changes the energy balance of the bone structure. Then we can see Leukemia with it. We understand the process of Leukemia very well).

(The only solution we see for Leukemia is creation of systems very much like the Vertical Enhancement Units (VEU). (?? It can bring balance to the environment. Another solution is production of a specific type of blood, that is not connected to the production

of white and red blood cells within the bone structure. KF will soon do trials with this blood structure, and we'll explain it further in the coming time).

(There's a big evolution in the Wellness and medical side of KF, which will breakthrough very soon. Then we can do something for these conditions. Part of Leukemia can be related to psychological conditions, but it's very rare. Mainly it's to do with the thalamus, and the femur. We see it happening in nuclear accidents, ?? something about the femur, and also it's connected to how the amino acids convert in the heads of the bones. (?? They are extracted out of it and it changes)).

(It's very much like how the ?? field strengths of Zinc and Copper are not very far from each other when you make them into a Nano material. But one produces CO2 Gans and the other one another material. When you put Copper with Copper as a field, what happens to it? What happens when you put a Zinc with Copper? (?? The field difference is exactly the same. This comes from a damage to the head of the (femur). Or it can come by a change in the diet, which in turn changes the bone marrow (composition). The solution for these things will be the VEU).

Q: How will we recognize a transmuted person, will the Soul convert the physical image to what others are familiar with? What will be the point of reference for those born without a physicality?

Another KS answered, I think he just answered your question, by saying earlier that the Soul of Creation is the point of reference.

K- I think a lot of KS gradually will become aware of these things, and how to recognize (them). (As more and more of you go through transmutation and transfer, you'll start to recognize each other. (You'll learn to interact and recognize each others Soul. The biggest part of the problem is a lack of trust which makes up 90%, and the other 10% is lack of knowledge. If we manage to get KS to trust in themselves, and in the energy they carry, then you all will start transmuting). The way you recognize the Soul of your mom or sister when you dream, you'll recognize people you have never met before through your Soul).

Q: Does the Soul absorb 80% of its energy from the environment, or is ?? there a specific organ responsible for absorbing the energy?

K- Every organ absorbs what it needs on its own. (The Kidneys absorb 80% of the energy they need, so does the Liver, Intestines and the others. We had a very clear example of this recently. Each organ absorbs what it needs, for the section it needs. It's not that it goes only to Kidneys or only to the Liver. The energy spectrum of each organ is different, and that's why each organ does different jobs. (They absorb a different ?? spectrum of fields from the U for their own functions)).

Q: Is it possible to apply the Plasma Technology into the art of digital photography? I've converted my camera to full spectrum, while approximately 300 to 1200 nanometer. Any ideas? Maybe a Plasma lens filter?

K- (I'm assuming you can, there's no reason why not? But you have to find out (what spectrum of fields), because it's like with the night vision glasses. If you add something on top of the camera then you can see at night. You have to understand what you are actually seeing. You might see something, but not really understand what you are seeing).

(We have developed a technology to block and filter magnetic fields. You can use the same thing to block certain magnetic field, or filter them that you will only see one strength, or given strength of the fields. We have tested such a thing very recently).

Q: You've talked about the Supernova power of death. How can this be understood in Gaza, where tens of thousands have been deceased? And what about the ones who murdered them?

K- (The process is the same. This is not the first time these kind of things are happening, and it won't be the last. We all go through the same process. When the energies are released (at death, some of those (fields) are at the strength of those who committed (the murders). There have been 40,000 or more Souls whose energies have been released in Gaza. This will bring an end to that culture, and you'll understand why. But they have to do it themselves, (they have to bring themselves to an end)).

(The energy they release, itself has a strength of field, because (it includes) the man who shot the bullet, the one who ordered to do it, the ones who made the decision in the government and Ministers, it all adds up. You just wait and watch what happens to these people, and the way it happens to them. (It all will have a purpose. And collectively these Souls are involved. It's like when our Soul matures. The fields and energies of all these Souls collectively will bring a position).

(Both what is happening in Gaza and Ukraine are similar. More people in that specific area have died in Ukraine now, than even during the Second World War. The Russians are saying its about 200,000. On the Ukrainian side nobody knows how many. How many mercenary soldiers have died there, nobody knows. You have to understand the background of how this came to be. In Putin's family background, his great, great grandfather was a Jew. He is a descendants of Jews. But a couple of generations before, or whatever, they became Christians. They are devout Christians, and this war is about protecting the Christians).

(Then we have to think about what happens to the people who sit unknown in the background and setup these wars (like the Vatican)? It's estimated that nearly 300,000 have died in Ukraine. If you compare that death rate with Palestine it's about 15 to 1. We know (the Ukrainians have lost the war because they) are prepared to bring in 20,000 prisoners to become soldiers. Instead of staying in prison they'll give them guns to go and kill. And because the Americans are putting in another 2 billion into Ukraine. You don't

do that if you are winning. You pump it up when you are losing. But we don't hear the truth of what's actually happening there. We know the Russians just walked into the North Western front).

(We don't know how many lives have been lost. In these conditions the Soul will go back to the essence of who ordered the murders, and it doesn't matter if it's Putin, Netanyahu, (the Vatican), or whoever, they will have to settle it. This is the last war of the religions. It's the last flick of a bird before it goes down).

(The process of the Souls being released is all the same, it doesn't matter if it's in Gaza, or wherever. The Soul of the man who pushes the button has to pay for it, as well as the man who made the guns to do it. We gave this teaching some time ago, you can go back and read it. The man who ordered the soldiers to kill, the man who organized it, and the ones who did the killing will all have to pay, and then the things will change).

We are still waiting for authorization of the Iran conference from the authorities. They have to allow us to do it. First we need the permission and then we can announce it.

Q: (A KS said that she did the Soul expansion for transmutation in Manchester, London and Sanya, and that she got the feeling of it. She realized she had been transmuting before but didn't know it. She wanted to know why she always ends up in nature and not to the places she wants to go).

(Mr. Keshe explained that subconsciously she actually wants to go there. But physically she thinks she wants to go somewhere else. Your Soul doesn't go where you don't want to be. (It's up to you to subconsciously understand why your Soul is taking you to these places). You have to learn the language of the Soul).

(When the Soul takes you somewhere there is a reason behind it and you have to figure it out. Some weeks ago we asked you to pinpoint a pain in your body with your finger so the energy of the Soul goes there. It's like a Pain Pen. But if the pain doesn't go away, maybe you want the pain to confirm your own existence. You have to find out for yourself).

We welcome you to join us tomorrow for one of the most fascinating journeys man ever has made.

SUMMARY:

ENGLISH TRANSCRIPTION

(:10).

K- Yes, thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers program from the Spaceship Institute of the Keshe Foundation. We welcome you back as usual we set the scene to start understanding more about ourselves now that we know our Soul our physicality (P) and everything else is in a dimension (D) of the fields of the Creation. And the one which is part of it, is the stronger becomes our Central Energy fields we call it a Soul and a weaker, in interaction of the D of other fields becomes our P and the Soul of Physicality (STP). But I am sure in the future we'll learn more about subdivisions of the divisions of the cell in a different way as we know in the matter state of the plasma.

The teaching of today is interesting, as we go back, but in a deeper way to understand more about the science of Creation. (:12) And this becomes in a way important as tomorrow we start the first phase of the Transmutation. Tomorrow collectively many of you who have been part of this Monthly meeting, we will put you in a totally different new system. Energy fields which interacts only on the level of the STM. And then it's how you interact with it. And later on, tomorrow, or the following days, we'll take couple of those people who are supposed to be the first transmuters into a different dimension of the, what we call, field strength. To see how they can ?? go through the, what we call, phases of transmutation. And by June we try to see if, at least these two can transmute and to what level they can. And if there are pitfalls in our structure of the work and our systems, that we can get ready for, what we call, the final phase.

But, to understand the totality we go back again to Cosmic Rays (CR), back again to what we call, the 'Creator of the Creation.' We call it, as I said, CR and then we become part of the Rays of the Earth, we usually see as light, daylight, or whatever. But on the other side as we said, we go back to Universal Rays, and then above the Universal Rays is the 'Ray of the Creator.' Which as these fields, these fields singularity travels in the depth of the World of the Creation of itself, (:14) in slowing down, interacting, and then interacting, will lead to the creation of the Universes. And then the field of these Universes interacting leads to the creation of the Galaxies, what we call, and the stars, Solar Systems, and then the STM and then the rest of it.

So, what is important for us as Knowledge Seekers (KS) is to be open to the understanding of Totality, and do not draw a line. And be ready to expand our knowledge, our own understanding without any prejudices. Once we become prejudice, then it is the time when we stop (growing). When we draw, that is the limit, we cannot be any further, that means it is the limit of our understanding, it is limitation of our comprehension.

So, in reality if the what we call, field of Carbon 12 (C12), and then you have the fields of Carbon 14 (C14), which is CR, and then you go into interaction of the fields that in that process they are interacting with each other in the D of the Totality leads to, what we call, in the physics of today crystallization, as a crystal. But a Gans crystal, which means it has no D. But the difference between the crystal in a life form, and a crystal in the

matter form, is slight difference. The crystals as, is a diversity of the fields from Gans's has a heartbeat. So has the Soul of a stone, has a heartbeat. (:16) For us it is important to find out that heartbeat of the Soul. What takes it over, what brings that condition of understanding.

And we've seen in our Technology, when you join us in these Monthly Sessions, more and more the interaction of the 3 phases of the matter, the, what we call, vegetation, or energy of them, or the matter energy, and then the energy of what we call, life, which is like human body. The interesting point is when these interacts and the STP interacts, we see something very interesting. We see the totality of the, what we call, the 'line of connection.' And when they come together, when these 3 field forces of the matter vegetation, and the, what we call, animal kingdom come together, we see something very, very interesting. And this is where the totality, the information gives us a lot of insight in how we have entered the 3 dimension. Which means, if you put all the, what we call, field strength of these 3 conditions which the body of the man is made of, bone, then you have the structure of the food which is within the man. And then you have the cellular structure of the man, and all having a Soul, this will gives us a interesting position, (:18) in many, many applications.

And we can see this... In a way when the STM, the STP of the man and the P of the man come together, gives us the same kind of condition. This gives us a totality of understanding. You've seen these pictures we've shared before, and in so many cases we see on the rapid way, when the P body of the man comes into connection, comes into interaction with the STM and the P of the man. This gives us in a dimensional way the shape of a sphere, which we know at that point, the man has passed the position, and in some test results we see how the Soul takes over and how the P, in a way subdues and then follows. And together they make a beautiful system, and it tells us that you as KS, going through the process have reached the point of maturity, have reached the understanding of the totality.

And this brings us an amazing picture... In what we call, structures,. When we see these pictures appears in the graphs where we see the STM, the STP of the man and the P of the man bear all the combination of the fields of the matter state, (:20) the what we call the vegetation state, and the animal kingdom, which is the cell, body P of the man together, we get this figure. But when you look at this, when we see this in our systems running, it means that the man has reached a point of transmutation. Everything is in a field matter. Everything is ready to move on. When you get this picture it means you're still in the doldrums of trying to find out the P and what we call, separation or expansion of the Soul. But when you see this picture, it's spherical. The reason that most of, or all of the celestial objects are a spherical is this reason. What you see.

It's the first time scientifically we can explain even why the plasma takes the spherical shape. Why the stars are in a spherical shape. Not only due to rotation, but due to creating combination of the field strength, which each one has its own heartbeat, and in that heartbeat sits the structure of matter state which is embedded inside the star, the what we

call a life state, and what you call the vegetation state, or the same as P, the STP, or the what we call the Soul of the system. (:22).

And when you see a picture like this, scientifically this explains a lot of things to us. And we look tomorrow (Monthly Flight Session) in these tests to see how much, how more spherical you make it. And when it squeezes itself to a near enough sphere, it means all the Knowledge Seekers (KS) are ready for transmutation. It means all the energies have come together. And this is why we separate two KS, as too many of you fall in the pitfall of believing in what you're trying to do, or what you see, and you go back to the matter state. You try to control it ?? through P. And then we see, we see this picture quite often. I think in some of the pictures we've shown before, you've seen appears as a sphere and then suddenly always has a peak behind it. And when are you going to pick, you see the P, which is the yellow line takes over. Means I cannot trust the Soul, I cannot believe I can do such a thing. Am I worthy of being able to?

And very interesting is that how suddenly the energy increases, reaches a peak, reaches a point. And these, when we get these data it shows how much KS are ready to go, and then they get frightened of themselves. We see this in the medical application. As I explained this to many doctors before, we see people getting better. They change their life through the Wellness Centers, or the systems they use, (:24). or processes of the KF they use to get in a Wellness side, and then when you ask them the question about it, they say, no, this isn't happen. The fear of confirming, yes, and this is the same problem we see here.

And in a way, when you understand, when you, the what we call the data. Then you will see how so many of you are ready to transmute. Except that you have the fear of am I worthy, am I, can I, would I be able to achieve such a thing, and then we see what happens. How when you build your confidence, in a way, trusting in yourself, that you don't need any intermediaries, you move to these new phases, and in a way, you flip over to what we call, another dimension (D), another position, another understanding of your own existence, that yes, I can transmute, I can transfer the fields of my existence, and I am not afraid of it, because I can bring it back. I can create it to be. And then what is interesting with many of you is that your own success, your own combination of the fields of the work comes to become the process of demise. In a way, you stop the process. (:26). In a way, you control the expansion of the Soul, trust in a higher order, what we call mechanism, higher order what we call, process of expansion.

And we see this quite often with you KS, and amazing enough you keep on repeating it. We see it in the crowds of you when there are many of you. And we see this with, when it's individuality of you. And how the what we call the process, would lead to another process of what we call, self-inflicting division. Self-inflicting division of what we call, division Soul, from the P, and P from the Soul. And we see this. And this brings us a lot of knowledge. And today's teaching is primarily about these kind of conditions. Because you as KS, many of you are ready to go. Are ready to in a way, become part of what we call, Universal Community (UC). To become part of the existence of the Totality. And it's a day like this before we bring you as KS to understand the Totality. It's our job to

bring you to see. It's our job to make you understand where and how this will happen. (:28).

And this picture it gives us a beautiful indication of how you see yourselves, and this is important for those of you who will join us tomorrow in the sessions. And you will understand a continuous fields. You see this beginning of the creation of the circle, and then everybody collapses. And then you go through a matter phase. And then Soul and STP tries to come together to go through the phase of the transmutation to the Soul. But as you see, again, the matter state, because this is where you find yourself safe. All of you, all the KS, humanity in the next months and years of coming time will go through this, and has to understand how much is the difference, and what is the difference.

And why does Man jumps back into what we call, conversion of the Souls, into the P? Is it fear, are you afraid of? Or is it am I worthy of? Those of you who have no hesitation will go through the system, will go through the whole structure of the transmutation. If I show you another picture you can see it in a more what we call, beautiful way. How the STP is entrapped inside the physical, where the Soul cannot pass the D of P. (:30). This photo, what we call the image we see, it shows how much the Man is physical. And this comes at the process, when the Man says, "I have no Physicality." And you can see the other dimension in the same process, that Physicality doesn't play. And as I said, then you see the same, continuously jumping. This jump and going back to physicality is like you do something and you feel at home, you go back home, you stay home because home is safe. And man has to learn that the home is the Soul of the Creation, not the physicality of the man. Not having fear of interacting with the fields of the Creation, than with the physicality of the man.

In tomorrow's session, we will create a condition, for those of you who'll be in the session, to be able to let the physicality go. To, in a way, not to go, but not to have a fear that you cannot manifest yourself in a dimension of physicality. In how you bring about the condition of everything together to be carried.

What is interesting in these pictures is that if I ask you to all take off your clothes, (:32) and just sit with the bikini (no clothes on), nothing with you, all of you sitting in these pictures, you usually are in your clothes, there's a belt, there's money in the pocket and everything else. You'll see a different image than this. Some of you are eating, some of you are drinking, some of you are asleep during the session. And then that interacts with what we see on the graphs. And we have, we understand, and we can eliminate most of this. But it has to be there because when I transmute you to, I have to take you with a cloth. I have to take you with something which you feel safe to be in.

As I said once to one of the Knowledge Seekers, going through a transmutation is like, in a way, being fully dressed, and jumping across into a free fall from a height where all your clothes can rip off, all your belonging can be taken away from you during the fall. And then you land in the end, at the bottom, safe and sound. But you could have no clothes on. Everything is lost during the fall from the top. And this is what you Knowledge Seekers have to accept in coming into the sessions from tomorrow. (:34) It is

and what will be and what shall be. But, in a way, be not afraid of how you land at the bottom of the fall.

We're getting to the point in the development, that even those of you who go through a full transportation systems, in the future, have to be ready for transmutation. If you want to experience what is outside this cage of physicality, "I'm traveling as a UFO, a Spaceship", whatever you want to call it. Unless, you are what I call, 'Expats' (living in a foreign country). You go to another country, you create your own group, you only eat your own food, doesn't matter you're 10,000 kilometers from home. Why have you come this way, if you're going to be in your own village? Why do you come to the Space, when you still want to be in a UFO, you still want to be in a flying machine? You cannot go to Bahamas with a tie and a suit, go and sleep on the beach with a tie and a suit, and try to enjoy the pleasures of the water. You take your clothes off, you change in a swimming suit, and you go in the water to taste it, to test it, to see how good you are in that environment. This will be with the man in Space.

When we start showing the flight system to the Moon, you want to go to the Moon and sit in the system? Don't you want to touch that sand? Don't you want to feel how it feels to be what we call, a citizen of this new environment? (:36) So you understand when a man, even when we taught you about the flight system, at the end of it, you have to go through a transmutation if you want to see where you are, how it feels.

It's like going to China with a bunch of Koreans, and you eat Korean food every day in China. Why did you come to China? Just being a ?? ? This is what you, as Knowledge Seekers, have to understand to gain confidence that we lose these pictures, and we reach, what we call, the spherical shape tomorrow. Where the Soul, the STP, and the physicality of man in all three dimensions of his creation, which is the matter state, solid state, which is the bone, the what we call, field strength, which is the Amino Acids of your, whatever you call it, the lung, the liver, or whatever, and the energy of the STM, all work together, to create that spherical shape. To create that, what I have is yours. When it's a sphere, everybody takes, everybody's, there is no end.

And when you look at these pictures, when I see these things, brings me so much understanding, how much our Knowledge Seekers are afraid of their own image. You're afraid of your own shadow. (:38) When it comes to what I call, putting your knowledge into practice. Understanding the control of the fields of the existence, and using it to travel in the dimension of the fields of the environment and the Universe, is what we are pushing at. What we are pushing you to, what we are bringing you to understand. Understanding that this shape, this little spherical, and then jumps to physicality, shows the Soul can expand. But it jumps to physicality it becomes ?? it found
<< audio cut >>.

This means, man still is afraid of losing life, afraid of, or the demise of the physical life. Not knowing that you can jump into the field of the Universe, and if the emotion and the pleasures of becoming back to the dimension of physicality is there, you'll manifest yourself, the way, the place and the time you left. Or you come back in the time and

place, and you see how much you jumped the time. In a way, so much has gone on while you've been away, but you come back and you see. (:40)

When we come to... and as I said, we try to open the books more and more for you to understand. When we reach this point of understanding, that you as Knowledge Seekers, sooner or later, have to face the reality of, you are a Passenger of Space. You already are, because your machine, your vehicle, what you call, the Earth, is already going in 1,600 kilometers an hour, and is rotating everywhere. And, is in the span of another system called the Solar System.

You got to learn, you got not to learn, but to understand, that the dimension of physicality of the man, has no limit. It becomes the dimension of the energy of the man, the STM. Soul of one man can expand the whole of the Universe. STM can expand the whole of the Unicose. If that Soul understand that everything within it is for everything which has made it of, to be. You got to understand how to transfer the energies into what we call, the field and the Cosmic Rays and Cosmic Fields (CF), that at the end of the point, you can convert it back to a plasma of itself. And one day, when you comprehend this, you start becoming the travelers of the Space. (:42) You start becoming those who can just by thinking, by allowing the energy expansion of the inner sanctum of man, you can make yourself visible, invisible, and be in two, three places at the same time.

Those who manage to do this, already go through it and we see them. We call them daydreamers in some cases, because they see the, what we call, the interaction of the fields, exactly the way man dreams at night. But now, the Soul expands and takes the man to another dimension, to another position. And then we see, man only does not dream at night, man dreams at day, which means the STM can expand, even (in) the daytime. And this is what we are putting you through. But the STM and the STP of the man and the physicality (P) of the man have a specific way of combining, ?? combination and it has tune itself to work in certain ways.

In the second session, after the June, which we start for another, maybe three to six months, we'll run the sessions at night, in different locations to make sure it's a night time for these people, (:44) more or less within hour or two, back and the front. And then we repeat the same thing during the daytime, with the same people. And to see, to distinguish between the night dream and the day dream. When we put you through the systems, we allow you to go through a faster process than a day dream. You don't need to go to sleep, you don't need to go in a phase of the energy that allows you to dream and the rest of it. With a flick of a finger, we create condition that all of you start dreaming but what they want, what you want to dream of.

The whole structure of transmutation is part of, it has to be a process of what we call, what we consider as transportation, with transmutation as a backup, a back end of, when you need it, or transmutation to be able to come into a transferable situation, till the Soul settles, is this mine, can I be here, am I feeling comfortable? Now we come to a process of separation, understanding of the Totality of the working of ourselves, that we are ready to go through that process. We are ready to go through that transfer and then

transmutation. And then, do we prefer to transmute and then transfer, (:46) or do we prefer to transfer first and then transmute?

For Knowledge Seekers to understand the process, is exactly what we see here. Exactly what we see is 'entangling' with the dimension of the physicality and the STP and the dimension of the STM. To what extent the Knowledge Seekers and the humanity in the coming time will come to understand this, will come to develop systems that can create of what we call, existence, then we come to understand how life will change for all of us. And, we will understand more about our own existence. Where, physicality does not need to be in charge, all the time. Which means, the man is getting the hand of the man and dragging it to be, to feel. You are here, you are not going anywhere.

In the coming time, when we understand this separation, when we understand this position about ourselves, about our own dimension, man will start moving in a very easy way. And as I said, (:48) we start this process with two of the Knowledge Seekers to become the first people who can transmute. And see how we can set our systems, to bring them to the point that, they can go from A to B, knowing that they can come back to A, and they can go between A and B without any fear. Because they know, they're in the safe hand. It's like a child, move away from safe position they are, but knowing the mother is on the other end of the line, and is there to catch them if they go wrong. And this is what we see in these graphs. What we learn, how much physical we are. You see here, if you understand it, you just look at the height, the separation point of the green from the yellow. We want to dominate, we are afraid to leave our hand, we are afraid to leave our Soul to work themselves. Then, we can see much more in the time to come.

One day, as I always say, "You have no choice." The history is written for man, and man is just a player in this game. Somebody who's watching, and somebody who's playing, and somebody who's there to watch and play. (:50) In the next few weeks, as we prepare you to become the passengers of systems of the matter state, you'll be puzzled how much you already know about the physical state, about the Soul state, about the STM, and how you, as Knowledge Seekers, are there to bring that level of understanding to yourself and the others. We have to understand why, how, and the way we go. And have to understand we have to secure the physical life of the man before we even start this process.

I hope I have opened your eyes to where you're going, because it starts. We are back in the ?? demonstration. We are back from this week. And if you've got a team of Knowledge Seekers who want to go through more, to understand more, it always can be arranged ?? Would you like to take us for a break, Rick, and we come back, please.

>> **BREAK** >> 538 KSW May 16, 2024 (1:00).

K- Yes, something to remind you of today's session is what we call, a delay to, or change to three o'clock in the afternoon. Next week will be the same. So, next week teaching will be three o'clock in the afternoon, Central European time.

And, at the same time, we try to expand the knowledge, and in a way monitor the Totality of you as Knowledge Seekers, how you start going in the dimension of the transmutation. Our plan is sometime in this summer, bring about a day that all of you, like what we did a few months ago, come into the processes of transmutation and transfer. That we're making a number of Knowledge Seekers ready for the conference in Tehran and in, back in US. It cannot be done in one go, it cannot be as we decide today and you come. (1:02) It's gaining the trust, being able to do, trusting in what you do. It's not this, I come in this session and I transmute. It will not happen. And we start putting sessions in, that most of you, as Knowledge Seekers, gradually can do. It's not just a talk. Can two of you, or three of you, decide prior to meet at such a point? And make that point, and recognize each other. And have the trust to know this Soul is, this physicality is, what I know as this and that.

And this process will take time. Because you got so embedded in your thoughts with the dream, in the sleep time, that you will not even recognize the truth about yourself. So it needs time to bring the confidence to train, and then we'll see the next steps coming in. So, we become more, as the systems are ready, in the dimension of transmutation and (physical) transfer, at the same time. And, to see how you gain confidence and knowledge, because that you in turn in the future become the teachers of those who need to be to gain that confidence. The workshops you run today is how to make Gans's and what it does, how to make MaGravs and what it does. Maybe in matter of a year or two you teach others how to go through transmutation in masses, how we do and go through the transfer, (1:04) how we can learn combination of both. And how in the near future we can jump into transmutation, change everything in the body of the man, be it cancer, be it whatever, and come back in, to see, to receive a perfect body of the man. And this process starts gradually from after July, August, for us to push you to be ready to go through that point.

Any questions?

Q: Good morning Mr. Keshe, kindly explain again the colors of the graph. What's the yellow, purple, blue and green? Thank you.

K- Mainly what you are concerned with is the yellow, the green and the purple. The yellow is said to be the dimension of the physicality. The purple is the STP and the green is the STM, strength of the field. And very soon, we bring into play new dimensions of the, what we call, instantaneous transmutation, by developing technologies to this effect. And, for you to test it. And we go through the next phases of the whole process. And we watch, we see, we understand and how.

The reason you see that spherical, it means because the body of the man is made of the fields of energies of minerals, vegetation and the energy field. (1:06) So, each one has his own field strength, his own Soul, and then we see this spherical shape. And then, maybe in a coming time, if you buy Apps, you buy whatever systems that you can see when you are ready to transmute, you see your Soul is coming to the point, your physicality, it's time to go. We have to develop these, because we are delivering the systems. We are looking in three-dimensional systems, that now we can see immediately, how you collectively or individually, are ready for that transmutation. When is the time you are physical, we see you, when you become energy fields of the man, which you become fields, and have no dimension of physicality. And then, can we have a position that all three line up together? That at that point, you can divide, and be in two positions at the same time, but connected to each other like a Twinity, to be manifested in both side.

And this takes time, this needs you to learn about yourself. Confident in yourself that you're not dreaming, it's another dimension of the fields and you can stay. And you've seen in the graphs we showed today, you all go through and then you jump back to physicality. We hide in physicality because we feel safe. And then the more of you do that, the more prominent the fields are. So it means, somebody's laying the line, somebody's bringing the decision, and the others fields in that strength gather to it.

Any other question?

Q: ... (1:08) Thanks for all the teachings so far and I have a couple of quick questions please. The first one is, is it possible to speed up the development of Vision Enhancement Units for cataracts so it become available sooner?

K- Yes, we can do, but we... it's like a knee, what you call, liquids which you've ?? adopted. We will in the coming time, as we work in one direction, one dimension with the structure of the people we work with, yes. It is resolvable, is... there is a solution for it. And we have the technology.

But, instead of doing all these tests which we done, we've shown for past, what we call, years, now it's coming into industrialization. And we have to go through process of... We are putting Keshe Foundation through certification, in many, many aspects. And we start by clinical trials, but we don't leave anything out for public, to know, to create problems.

And the, what we call, collectively, the knowledge is there, for every single part of the body of the man to change. (1:10) Be it, we can put your heart at rest, create a condition of the plasma field which behaves, feeds, and the heart can repair.

Can we bring in systems that we bring the Totality? Yes. That's why it's very simple compared to the rest of it. But, now we're going through a phase of work, that we have to bring all the Keshe Foundation technology, everything in the level of acceptance and certification, and whatever you call it, national acceptance. And this is what the job of the Keshe Foundation is for next months to come. And yes, cataract is very easy.

Most of you don't have... you have not gathered that knowledge enough to know how to handle it. You can... we have shown this before. You can heal your bones within hours. You don't need to be in a plaster for a month. That technology is already available. I was with some doctors this morning, and when I show them what it can be done, and they've seen the results, they just don't want to talk about it. And I said, "You know what, you don't want to talk about it, because it means the end of you as doctors." You don't want to, or you say you don't understand, because that's the end of you as doctors. Because the doctor becomes the man himself, you decide, you expand. (1:12)

You go through the phase of changing things. You can do this, you can... Essentially, the knowledge you have, repair your eyes. Many Knowledge Seekers tried this. But because they don't know, they say, "Oh, it doesn't work." Because you haven't put everything together. Why do you get cataract? Why do you get blind of the vision? Why do we get problems with the eye as we age? Why some children have it from the time of birth? We need to, yes. I can put tomorrow morning liquids for cataract and give you 100% Wellness guarantee with it. That it will come and it'll do the job. But these things for us is over.

We're going through the process of Keshe Foundation to become a power in the world of the science. It doesn't matter the energy, doesn't matter the matter state, doesn't matter the food, the medicine, and everything else. We understand the process, but a lot of scientists, a lot of scientific work has been blocked, because, they see it as a danger, to their own fields, to their own knowledge, to their own expertise. And yes, the way we grow the tooth, we can show how, we can change the cataracts, blindness and everything else. The knowledge is there. (1:14) But, we have to change it from a hand of one man, of number of Knowledge Seekers we work with, to be there.

And try to eradicate the people who stop things going on. Because, they are not there. They don't want to see this to come out, because they use us to show themselves. How horrible and how disgusting these people are. ... We have to come.

The process is we had it this week. The French community is expanding rapidly. And those who came in to destroy, been here before, they start breaking down, they're saying that the people who are pushing the Keshe Foundation, the French community forward and doing tests and exam, they have left the Keshe Foundation. And they are not in the Foundation, or they left. And we had to go back into the French community and put,

because we spoke with, "No, we are busy working for the Foundation, more than before, and it's not just one of us, it's collective of us." But they go out to damage. So, with the Keshe Foundation work, we are taking all these out. We change direction, we change our position, we change in how we do things.

But, you will see liquid, you'll see a systems for blindness, for cataract, (1:16) for bone growth, for what you use for, what we call, transplants. This all will come in next few weeks and months. And we foresee a lot of Wellness conditions, which now is a problem, it'll become part of the, what we call, everyday life, to bring, what we call, easiness to all of us. Cataract, we solved the cataract years ago, and we shelved it. Because the same goes at old age, you get dementia in cells of the eye. This is radicable.

And I tell you why it is, because I do it. In a physical life we have the problem. It's the same as I said, with the knee, a lot of you use, you don't even know how to use, or we tell you how to use, you don't use it properly, but those who use it properly, the Knee Gans can change your life. You cannot walk, it does. I produce it because I run problem with it. For cataract, for the eye, I developed this technology because I became aware of it years ago. But, I'm a lazy guy because I want to see how much, how good I am, how far I can go, and then touch it for a few days, and reverse it back to the limits I want.

It's the same with your hearing, it's the same with many conditions. And now, we bring that change. That, yes, you buy the material for cataract. (1:18) I don't know, maybe in the next 6 months, 12 months, the same as you do, but from the pharmacist around the world. With the certification of FDA, or whatever you put on it. This time we changed our work that cannot be blocked and we are pushing things in all directions. Wellness, agriculture, energy, material production, Space and everything else collectively.

Yes, we have the material for cataract. And it's not to be released, it's already... is there, we just have to allow the people who are in this game, to bring it, to change it. And we have found partners who we can do this. We have to develop knowledge and technology, and not to be tied up with commercialization and bring it to public. Those people who we work with, from different nations, will do this for us. Maybe in 6 months, 12 months time, in cataract, will be resolved the same.

Don't forget you as Knowledge Seekers showed us, we tested it in part, with those Glasses you bought from us, 3-4 years ago. You gave us the feedback, and we knew how far it is. But you don't see the full picture with the ???. Those of you bought the Glasses, and are in the session tomorrow, (1:20) don't use it tomorrow, but we tell you in the following sessions, to use it. In conjunction, if you put the Head Unit and the, what we call, the Transmutation Unit. And you will see how you will see everything.

The biggest problem has been for our Knowledge Seekers and our scientists who work with it, to understand the process. Process of solidification, we call it cancer, process of aging, due to lack of connection, the process of blindness. We have understood that process and now we put systems in the process, in the coming months and years, to reverse everything.

What's your second question? Are you still there?

Q: Yes, my question was, could a CO2 patch help until then?

K- Would it? Depends how you use it, help you a little bit. Yes. Am I correct, you are from Canada? ...

Q: Yes.

K- ... (1:22) This is the biggest problem our Knowledge Seekers have. And that is, they think the solution sits everything in CO2 or Zinc or Copper (Gans). You have to expand the vocabulary of the knowledge of the plasmas, but understand their work, understand their interaction.

Q: Okay, I'll try that one. I have this, I have the CO2, but it has, it's a little bit of bluish, I was afraid to use it, so.

K- Did you produce it ... It means it has a little bit of Copper in it. So you have to make a fresh one, you know. Because you produced the CO2 with the Nano coated Copper, some of the energy of that level is transferred back to. And, in a way it's good.

But in a way you don't use Copper when the eyes are involved. Anything involved with the brain, you don't touch Copper.

Q: ... And my other question is, is there an online store in USA, shipping to Canada?

K- No, there are... our American store is all totally gone now. It's closed, the property is gone. And the facility has been dismantled. We'll see what comes up in the future. We've done the same with Mexico. And all the shipping now is done directly only from Austria. (1:24)

Q: Okay. Because I think the shipping cost is high, right? To Canada.

K- It depends. In a... at the moment, yes. There are a number of people opening shops in past 2-3 months. Knowledge Seekers who join in, not as, what you call it, resellers, but actually, what you call, stores where people can go and buy, and some people are adding it to another business they have. As we showed in the last week.

In the next few days. In Austria there is a teaching in premises, which is a restaurant, and part of the restaurant is converted into retail products of the Keshe Foundation. And we now have other groups, other people, individuals, adding the Keshe Foundation materials as part of their, what you call it, outlet. It's not that you have to talk to anyone, they come to the restaurant, they come to the shop, they come to whatever, and the products are there. And we're controlling this very heavily, because in the coming few months, as we expand in a bigger structure with our partners, they become the provider of bigger

structure, with a number of materials and the rest of it. But, if you're in Canada, you want to open a store, for Knowledge Seekers, or people you have that kind of facility, you can add the stock of the Keshe Foundation to it.

Q: I just have a basement.

K- Oh, it does better. But a lot of Knowledge Seekers have, a lot of Knowledge Seekers around the world have facilities to add this to theirs. And our agreement is, that there are only products from the Keshe Foundation, because others who produce things and they try to add and then discredit us. (1:26) The contractual agreement is only products from the Foundation Store.

Q: No, it has to have the logo, right? The logo of Keshe Foundation.

K- It's not a logo, it has to come from Austria. There is, as we call, there is a lot of people making things and putting a logo of the Keshe Foundation on it. There's a lot of people doing it. We see that in Romania, for example. In France, they are using. The logo will change. Once we go into the market, in a big way, the logo of KF for products will change to a new logo, (we are) working on it, and you'll see it, that it is a Keshe Plasma Technology on, or is part of our structure.

Q: So, how could I use, like, my basement? Should I do the shipping and...

K- If you have, it's, you don't need, I mean, you have a basement, where people, they come into your basement. Or you have to invite people. The people who are now doing it, they have a business, and they just add this on the shelf, add this on the environment of their retail site.

Q: Yes, we don't have that facility on the...

K- It becomes very difficult. Yes, it'll be good to me, say, "Yes, buy and put." No, it's a wrong way because it needs passing people, a lot of people passing through. And in, around the world, we started a number of Knowledge Seekers in past few weeks have started doing this. And we changed the structure of people who used to sell by agents and they could, they had to go to people. This doesn't exist now, it's retail shop. It's not a... Its section is for the Keshe Foundation. And all the material goes in and it builds up and soon, a list of these is getting put up, it'll be put up, that you can actually go to around the world, (1:28) because the Keshe Foundation store as such, very soon will shut down.

Q: So, there is nothing available in Toronto, right?

K- In Toronto no, but something is very interesting is happening in Toronto. We have people in Canada who have shop, for instance, but they have to go through that process to take the material on and add it to part of their ??.

Q: ... So we have to order from Austria then?

K- Austria. Yeah, it's on the website, or you go through Amazon.

Q: Oh, Amazon also?

K- Amazon Keshe Foundation has a shop in Amazon, yes.

Q: Oh, good, perfect.

K- You can buy it through Amazon, Amazon US, or Amazon UK. Or there are different, you can check in. If you send a message to info@keshe.foundation they can give you the links in Amazon, where you can go and get things. ...

Q: ... Yeah, I have access to Amazon.com as well, so I can order from there.

K- Yeah, I think it's Amazon.UK or Amazon.US with the materials there you can order so many things.

Q: Amazon.com is U.S Amazon?

K- Yes, but we have some products on U.S side. You can order through it. (1:30)

Any other question?

Q: ... Can you please tell us about Leukemia? How does it happen? And what can you do about it? Thank you.

K- Leukemia is different kind of things with the blood, which is called Leukemia. How it happens, part of it is due to bone marrow malfunction. Part of it is primarily is the head of the, what we call, the bone, the thalamus, all together with what we call the Nano layers on the femur. And the combination of the production of the red cells and the white cells, changes through the damage to the head of especially what we call, the bone ends. When the femur especially gets damaged in a different way, (1:32) or changes its spacing, can lead to release or blockage of materials which then affects the blood cells, or what we call, Leukemia.

Radiation does this, because we see this with the radiation, because radiation has an energy that it hits the bone, changes the capacity of the, or the energy balance of the bone structure, which then we see Leukemia with it. We understand the process of Leukemia very well.

The only way we see there is a solution in Leukemia, is creation of very much like the Vertical (Enhancement) Systems. Very much environment that we can bring the balance. Another solution is production of a specific type of blood, which it creates blood, but not connected to the production of the cells, white cells or red cells, within the bone structure.

And this blood structure, it'll go on the trial and test very soon by Keshe Foundation. And we explain that in the coming time how it'll be.

And, as I said, there's a big evolution in the Wellness on the medical side of the Keshe Foundation, which will breakthrough very soon, and you'll be... you'll see, you can understand, you can do it. (1:34) The Leukemia, part of it, very, very rare part of it, is psychological. Mainly is to do with the thalamus, and the, what we call, the femur. We see it coming in the nuclear accidents, we see it on people who had a brush ?? of the femur, and also, it's all connected how the, what we call, the Amino Acids converted in, and then the conversion on the head of the bones, what we call, they're extracted out of, it changes.

It's very much like the Zinc and Copper are not very far from each other. In field structure, when you make them into a Nano material, but you've seen it, one produces a CO₂, and one produces, what you call it, another material. When you put a Copper with Copper, what happens as the field? When you put a Zinc with a Copper, what happens? And this is about exactly the same thing, it's the field difference. And it comes from change of the parts of what we call... Does it come by damage to the head of, what you call it, the head of femur? Does it come by change of the diet, which changes inside the bone marrow? These all can be handled in one ?? set, in the very near future. (1:36) The solution to it is Vertical System.

Is there any extension to this question? Hello Rick, are you there?

Q: ... To recognize a transmuted person, the Soul can convert the physical image to what others are familiar with. What will be the point of reference for those born without a physicality?

R: And we did have an answer from Van from Denmark, underneath Peng Peter's comment, who's... Van says, "I think he just answered your question, meaning you Mr. Keshe, with that sentence Peng Peter, Soul of Creation is the point of reference."

K- I think a lot of Knowledge Seekers gradually will become aware of these things, how to recognize. The more and more of you go into understanding the process of transmutation and transfer, you'll start recognizing each other. And how you interact, how this, what the Soul is, who it is and what it is. As I said, partially 90% is the lack of the trust, (1:38) 10% is the knowledge. And, if we manage to get Knowledge Seekers to trust in themselves, in what, the energy they carry, the 10% is how to teach them to do it. And then you all can transmute.

And then, because you know in the... you are transferring through energy, not the physical dimension, the way you recognize this guy is this, and that guy is that, you recognize the Soul. The way you recognize the Soul of your mom, your sister, your... You dream about other people in your dream you never met, but in physicality most probably, can create to know them who they are.

Any other question?

Q: ... If the body absorbs 80% of its energy from the environment, is it the Soul that absorbs this energy? Or is there a specific organ that is responsible for the absorption?

K- Every organ absorbs what it needs on its own. Kidney absorbs 80% what it needs, and the energy it needs. Liver does the same, intestines do the same. We had a very clear example of this in the past three, four weeks. And then, I'll explain to you exactly, we've put this into a physical test. And it's amazing, when, when it's completed, I'll explain. And how much we absorb from our environment. (1:40) And we're testing in two or three cases. Each organ absorbs for what it needs, for the section it needs. It's not that it goes only to kidneys, only to liver. Energy spectrum of each one is different, that's why they are different organs and they do different jobs. So they absorb ?? coordination of different fields from the Universe for their function.

Any other question?

Q: ... Is it possible to apply the Plasma Tech into the art of digital photography? I've converted my camera to full spectrum, while approximately 300 to 1200 nanometer. Any ideas? Maybe a Plasma lens filter?

K- I'm assuming you can, why not? You got to find out, but... it's like a night vision. You add something on top of the camera and you see the night. Yes you can do, and you have to understand what you see is what you actually understand. Maybe you don't understand, but it's actually what it is and try to understand it.

We have developed a technology to block and filter magnetic fields. This is not the ?? system, this is not. (1:42) This is a technology where you actually can block magnetic fields. And then you can use the same thing to block certain magnetic field, filter it and you only see one strength, or given strength of the fields. Is there ?? in the environment or what it is? And what do we see with these new systems? We have tested such a thing very recently.

Any other question? Can we finish in 15 minutes, because I have to be somewhere.

Q: ... You've talked about the Supernova power of death, and Freed has a question, how can this be understood in Gaza, where tens of thousands have been deceased? And how about those .. who murdered?

K- It's the same, it's not the first time happening, it won't be the last time. But, we all go through the same process, we release energies, and some of those are at the strength of those who committed it. And we got to understand, as I said, this 30 - 40,000 people plus Souls or energies released, will bring an end to this culture. And you'll understand why. And they have to do it themselves. They have to do it themselves, for themselves to come to an end. (1:44)

And the energy they release, itself it does a strength of the field, because the man who shot the bullet, the man who ordered it, you can shoot him. The man who made the decision, in the ?? Cabinet, and as the Minister, all adds up. You just watch how, what happens to these people. And the way it happens to them. But they have a purpose. And these Souls, collectively, it's just like when your Soul matures, these people, collectively, their energy, their magnetic field, and what we call the field of their Souls, will bring this position.

It depends. It's a very funny situation if you look at the Gaza, and if you look at Ukraine. It's ?? similar. More people have died in Ukraine than even during the Second World War in this area. Russians talk about 200,000. The Ukrainian side, nobody knows how many. How many mercenary soldiers have died, nobody knows how many. But when you listen to how it is, how it is the background of these people, and how they come to be, if you go to the background of Putin, great, great grandfather, he's a Jew. (1:46) He comes from the descendants of Jews, and then, couple of generation before, or whatever, they become Christians. And they become a devout Christians, and we created this war to protect the Christians.

But what happens to the people who were setting for this war to create (Vatican)? And what happens to this, nearly 300,000 estimated, have died in Ukraine. The death rate compared to Palestine is 10, 15 to 1. We know it because now the Ukrainians are prepared to bring 20,000 prisoners to become warriors. To guns, give them gun to stop staying in prison, go and kill. And we know Ukrainians are losing the war, because America has put another 2 billion in. If you're winning, you don't put it in. Because you are losing, and you just pump it in. But Russians have taken the over. We don't hear actually what's happening in the real arena. They only tell us what Russia has more or less opened the front. They put millions, billions to cover the North Western front and then Russia just walked in.

How many lives have lost? We don't know. But these Souls, in these conditions, goes back to the essence of the Soul who ordered the murder, doesn't matter if it's Putin or it's, what you call it, Netanyahu or the rest of it. They will settle, they will bring an end to, and this is wars of the religions. It's a last, what you call it, flick of the bird before it goes down. (1:48)

But the Souls released, in Gaza, in others, is all the same. The man who pushed the button pays for it, go back to the ??. The man who built the gun will pay for it, the man who ordered for the soldiers to push the button, and the man who thought of doing that order, all will do, will pay, and the things will change.

Any other question?

Q: ... There's any further information on the conference of Tehran? Is there a day and a date and time?

K- No. We have to allocate a date, but we have to get the authorization from the authorities before we can move on and everything is done. Our team in Iran has done its job. And we are waiting for the people who are responsible for to allow us to. And then we can announce the date and move forward. It's not so easy, maybe in next few weeks we get the date, next few days we get the date, we don't know. It's not a date, we need the permission, then we can announce it.

Q: Hi Mr. Keshe, you know, I have two, three question. One is regarding this session, one is regarding the old teaching. So, if you need to go, so I have to ask question maybe next time.

K- Ask the question ??. (1:50)

Q: Okay. My first question about the transmutation. You see, when we did the transmutation in Manchester, London and Sanya, so, we got the idea, I mean we got the feeling, what the Soul expansion is, and then we did transmute. Because then we know how it happens. So, like for example, in the past I was transmuting, but I didn't know this is transmutation, because I'm sitting in my living room, suddenly I'm under the tree and the wind blowing, and then I come back. So, but my body is not there, so insomnia happened too. Now I'm practicing it, but the question is, I don't make the, where I go is not under my control. How can I make it under my control? For example, I want to go see, I want to go to my dad's, my parents' house. That's one question. Second is, how can I take my physicality with me? Because I don't want to go to my parents' house, but if I see them, but I'm not there, my physicality is still in the living room. So, and every time I do transmutation, I'm always in nature. I don't want to be in nature. I want to go someplace I decide.

K- You have to learn that you make a decision. In a way you made a subconscious decision where you want to be and you went for it. But physically think, "I didn't think I want to be there." Your Soul doesn't go where you don't want to be.

Q: But, but the question is why the Soul wants to take me always to the nature, on the tree, or the mountain, and a river, and that's not where I want to go. I, I cannot, how can I have that connection with the Soul that, I want to go here, not where you want to take me?

K- You have to learn, it was my decision to go there, but, subconsciously, and you have to learn that why, (1:52) you have to understand why you subconsciously want to be on the tree, you want to be free, or you want to be in the water. But it's not where physically you want to go. This is what I tell you, you have to learn the language of the Soul.

Q: You mean communication with the Soul?

K- Yes.

Q: So the only thing it came to my mind, I said, "Maybe my Soul was so much locked up in the brain, so now he wants to go to nature." I have to let it go to nature until it's done with the nature, then you can go where you want to go.

K- Maybe, maybe that's what it is. Because we have to trust the same as... How can I put it? You say, "I didn't want to go but they took me." You know, "I went to my aunt but they wanted to go to my cousin and I don't want to go to the cousin but they took me." I had no control over it. But in a way I wanted to see the cousin, because I haven't seen him for a long time. It's the same position with you, with the people that way. Your Soul wants to go, but your physicality, and the condition of why you're meeting that position, you deny it, because it's easier, because, "I wanted to go to my cousin, but I went on a tree."

It's a collectiveness of what is the purpose of going to the tree, what you are supposed, what the Soul is trying to attain from it. (1:54) And then we can dictate it, it's the same, we tried to do this couple of months ago with Knowledge Seekers, where we asked you to pinpoint, if you have somewhere pain, pinpoint it. Put your finger on it, and see what happens. Those of you who didn't get it, or nothing changed, it's the same as that Pain Pen we sell. Because, that pain stays there, because you need it to be there, because of it, you can confirm your existence. You don't want it to go. But those who have no problem, they know it's there physically, it has to go, they pinpoint, they take it. You can do the same with all your diseases. If the Soul, the emotion is satisfactory, I mean, happy with what you're doing, and is not a, what you call, physical, even a physical damage, you can change it.

Q: You know, for example, you know, when we were in Sanya, you know, I didn't have any control, so I was, one of the trip I went, I was in a taxi, and I was talking to the taxi driver, when I opened my eyes, I had my arms full of the, taking my change. I mean, how did I end up in a taxi and asking for my change? I just...

K- Because you're a traveler, you're always traveler. Have you ever seen yourself out of a taxi, or out of a plane for past ten years?

Q: No Mr. Keshe, that is not a joke.

K- This is what it is. You, you... How many videos we have of you in taxi in Tehran or somewhere else? You're...

R: If you were in a UFO, you'd probably think it was a taxi, and it would look like a taxi to you. (1:56)

K- It's amazing, how many videos I get from Azar being in a taxi. She sits in and just takes videos. And this is the New Yorkers, you don't have cars in New York, you are used to taxis. So, this is part... To me, if you want me to explain, because I know a lot of things in the background with you. You want to be... what you do in New York, when

you sit in a taxi. In China, you just put a WeChat and that's it, you are paid. In New York, you pay cash to the guy, whatever.

Q: No Mr. Keshe, what you said is correct. You know what I came up with, this is when I came up with. Because when I look at all the, all the scripture, all the office reading, all the stuff we talk about, I came to conclusion, it's just the humans, the human doesn't have any faith in who they are. And that's what you talking was correct. Because for example, if I believe the ?? on the floor can cure my ??... cancer .

K- I answer you, I answer you very easily. Do you miss New York?

Q: Do I miss New York? I don't know... yes and no.

K- The life, the life of living in New York.

Q: Hmm

K- Yes.

Q: Not really. Because you know what, the life in New York for me was over, you know why? Because I ...

K- No, no, no, no, no, I'm just... I'm just asking you, deep in down, deep down, yeah? Would you like to be in New York, now?

Q: Yes.

K- So, where the taxi comes from, that's where your Soul is. You answered yourself, you don't need...

Q: But that was, I was in Sanya, I was still in New York.

K- It doesn't matter, but you know the process, it doesn't happen overnight. It's not explaining, it's understanding.

Q: Okay, but now, now the next question is, how can I take the physicality with me, wherever I go?

K- Very, very easy. Take it, take it.

Q: If I'm on the, if I'm on the tree, I want to be in the tree.

K- Tomorrow, tomorrow session, we try to get you to that point, some of you. (1:58) Tomorrow's session and next, and the June session is part of this process. We have brought, we are actually testing the system tomorrow with all of you on. System tomorrow you'll be linked in to, you never had it before.

Q: Mr. Keshe I can't be in tomorrow because I'm teaching, so.

K- So tell the people I cannot be there, I'm teaching. Tell them, "I'm traveling, I can't be a teacher." Like me, just tell them it's delayed by a few hours. Or be in part of it, and ??

Q: I have to tell Yosef Jon to put me in, because you know I'm not in.

K- Anyway, let's see what happens.

Q: Okay, so my other question is going to be too long, so I let you go and ask next time, because it was about the 21st of International teaching, so I'll ask next time.

K- Yes, thank you very much. I have to leave. Thank you very much for today Rick. I have to leave, I have to be somewhere. And we welcome you tomorrow to join us and experience, most probably, some of the fascinating man ever has done. And we would like to know, I'm sure a lot of you will tell us what, how you felt in that point. Thank you very much and see you tomorrow.
