

539th Knowledge Seekers Workshop May 23, 2024

(Quick Index 18 pp, , Topic Index, Proofing done; Need to do; Key Phrases, Words)
(Auto transcription from Elias)

Emotions; Iranian President passes; Science not understand man connected to CR; STM & STP create body through emotions; Explains Psychosomatic - real meaning; Create children in own image - like God - suffer with conduct; Emotions connected to Creator; Teaching on how emotions create P; Nerve system physical connection whole body - emotions through fields - instantaneously - energy felt all cells; Environment of womb decides shape; Imbalance left right sides brain - cancer diseases; Children Mitra born pure - not effected by parents; Control emotions during Transmutation - manifest emotions - defects; How manifest Gans state body; Transmute with Joy to Moon; Identify beings in U how manifest; Manifest according to M fields; 2 halves of brain reactor - illnesses; Creation works on interaction of 2 plasmas create emotion; Zebra Fish recreate heart from emotions; Create twinity with another Soul; Eternal life in Soul - change P; One H creates Unicose by dividing - add emotions; H₂O like 2 halves of brain; Sustain Soul fields environment; Environment becomes STP to manifest P; fallacy of time; Emotions create P - behavior traits; Have to control emotions to Transmute; One KS brought group down - connected; Twin Soul like molecule; Become a Soul of stone; No defects in children; Listen to teaching many times; Isfahan conference; reach Soul of Creator; True saints understood same fields strength - abused; Don't always know why things happen - trillions of interaction; Soul of grains agreed to be eaten - become part of STM; Humans could manifest as dog - bird - stone - back to human; Teaching on love - wife daughter; Deeper love beyond physical act; Give equally to all; Practice to feel fields; Go to lower strength common denominator for more; Creator humble; KS riding CR; June become stone; No frequencies in Plasma - field strength; Life started with H - made gold; Train to balance brain June session; Opinion - helicopter crash internal struggle - religious monarchy for Iran.

Topic Index

Respect and honor to His Excellency President Raisi passing; STM is another dynamic condition inside the man - Science never understood - Humanity not grasped totality of life; Medicine and Science do not understand connection of body of Man to Cosmic Rays (CR) - essence of how Man is created; Means we tap into CR by eating food - environmental energies CR - Earth Rays; Another way for STM to absorb energies; CR used by STM & STP to create emotions - leads to creation of the man - through interaction with his environment; Psychosomatic has a psychological & physical part; How does one create problems in the other - Science not able to explain; KS know - be part of Universal Community - interact with their emotions; You manifest yourself through emotions; God made man in the image of Himself - we create our own children in the image of ourselves; Feel how conduct of children - happy or suffering; We suffer with their misconduct - enjoy successes - Creator does same; Rejoices when Man achieves understanding - process of Creation within himself; Our emotions are connected

to Creator; How do we manifest ourselves in different shapes through our emotions? Emotions hidden in structure of brain - psychosomatic illnesses; Psychologically our brain absorbs energy from U through CR & C14; Emotions of STM & STP - CR have direct effect on our emotions; Teaching on how emotions create P - if understand can control Transmutation and (physical) Transportation; Left side of brain controls right side of body - left side of neural system controls right side of body; Nerve system connected together by matter state way - somatic or physical - symmetrical throughout body to every system; Emotions are not physical - created as fields from interaction of STM & STP - comes through blood; Emotions have no physical connection from brain to body - however sometimes travel through nerves; Emotions through interaction with currents of blood and neural system creates P - connected to CR; Why Science cannot explain psychosomatic conditions; P is controlled through neural system; Emotions come through fields - have no physical connection - why when touched feel it in every part of body; When thirsty water felt by all cells in body instantaneously - don't need neural system; Transferring energy of water through fields to every cell; Because the fields are connected sometimes by accident they can transfer emotions to the other side of body - if energy information doesn't match get diseases like cancer - depression; Important to understand when you Transmute - consider how your emotions will bring you back to P - will have different features; Environment of womb of mother influences fields - decides shape of body of child; If mother tortured during pregnancy - changes those fields - Soul & birth won't be perfect - emotions transferred to child - effects CR fields of mother to child - touching energy of this Soul system; Children of Mitra - born pure and balanced - receive CR directly at point of birth - connected to energies of Universal Community; Emotions and P of mother cannot touch child - children of the emotion of U - not children of abuse received from Earth father - or love - in different dimension in womb; KS have to understand how to control emotions during Transmutation - effect how manifest themselves; When connected to fields of U everything will come out perfect; Finding out we are nothing but connected to Universal Community - don't know it - brain and P connected; Souls interact create emotions then create neural system - both field and matter state - manifests body and everything inside it; Emotions create field D throughout body - allows body to manifest in Gans state - not matter state; If child is born from emotion of Soul's of parents - then it has no interaction with environment - Soul comes from Soul of U through C14; This knowledge will revolutionize Medicine - change everything; Transmutation comes through emotion - can transmute in emotion of Joy to Moon and manifest as a Moon creature; Waste of time to go to Moon and live in 'monkey suit' - have to learn Transmutation through emotions - conquer the Space; Spacesuit can dissolve in fields of Space - then die - unless you able to expand STM through connection Universal Rays and Fields and manifest yourself in time, place and position; All creatures that transmute from a certain planet will manifest in the same way on another planet - this is how we know where they are from; Example all people from planet Earth might manifest 4 arms and 2 legs on Planet Zeus - this is how identify people from Space; True men of Space - part of U Community - not be imprisoned by time and space like we do on Earth; Life will be extended; Manifest different in different M field environments - but Soul still same; Fundamental principle of how Creation works (is interaction between 2 plasmas to create); This is why we have a split brain with 2 halves; Emotions can be mapped out; Neural system makes everything symmetrical - understand how illnesses are

created - to transmute; Certain way to change and through balancing the 2 halves of brain - change our height - color of our hair - whatever we need; Teach this in Monthly Flight Sessions - we don't move - instead we create the emotion of moving; To transmute - we create emotion of joy of being on Moon - then we'll be there - create new P to be there; June sessions - learn to create emotion of being on Moon; To move - not with P - give the emotion of joy to the cup that it will make you happy to see it move - cup has a Soul - every atom a dynamic field - collectively they work together; Understand whole structure of Creation - then we'll be able to transmute - have to be able to balance emotions on right & left side of brain to manifest correctly - if not - one leg missing; In Zebra Fish fields of emotion will balance organs - if take heart out - re-manifest it; Reptiles replace limbs on outside - Zebra Fish on the inside; Emotions in brain are balanced (reestablishes balance); The emotion of wanting to live - creates new heart; Become part of U Community by choice - not by a system; We made you a runway - but you have to get the plane and takeoff - knowledge of how to takeoff; Up to now we didn't understand - our emotions have power to create; Touch a toe - immediately feel it throughout body - not by neural system or physicality - by fields of emotions; Line of emotions on this planet gives instantaneous connection; STM creates a Twinity with another Soul - come to balance - keeps integrity of its P - then never age; Soul remains same - change P - secret to everlasting life in the Soul - not in P; Like changing clothes; Live million of years in Space - million years nothing in Creation; Understand how Creation works - everything comes from division of one plasma unit called a 'Fundamental Plasma' - splits itself in two - finds its balance - lives to live within its environment; Hydrogen lives to live within its environment - creates water - essence of life - giving; H₂O same as 2 halves of brain - O is gravitational field - absorb fields from others - then from atoms to molecules to oceans to universes; One H can create every element in U through interaction of fields of emotions with each other - how you give P; Sustain Soul through interaction of those fields with its environment; Instead of manifesting yourself from STP inside STM - now environment becomes the 'STP'; STM interacts with environment gives emotion to manifest - this is transmutation; Transfer whole energy of the man into one cell - plasma - neutron; At destination neutron interacts with environment - divides itself - two halves become Infinity Loop - creates emotion in space gap - How we'll manifest ourselves - can also multiply ourselves; One atom of H - neutron - Fundamental Plasma to create a U; How Creator created the Unicose; From today onwards you carry this knowledge - have to add fields of emotion; Medical teachings said - emotions in layers of skin; With this knowledge - easy to transmute; Emotions are dynamic fields - not connected to P - interact with energy center of environment - manifestation Man; STM becomes left side of brain - Soul of Environment becomes right side - emotion in-between - gives manifestation P at TPP; Secret to everlasting life; Continue to live as STM until feel you have served Creator enough - gathered enough - move on; Never need to die - but only exist in D of Soul - then through emotion interact with Soul of environment to manifest P anywhere in U; Man has trapped himself in fallacy of time; Time doesn't exist in Creation; Time starts from point where STM and emotions interact with environment to create a new life; P does not create behavior; Emotion creates P and this is why different physicality's behave a certain way - as in behavior traits of a race of people; With knowledge cure any disease - transmute to anyplace in U - manifest yourself in any shape, color, size, race, animal shape, or a stone, anywhere in U; How became mermaid

in KF system; KS have to learn to control emotions - transmute - manifest everything within yourself; With 'twin Soul' don't need to talk - live one life - like a molecule; Souls don't eat food - need energy - through emotions connect to Universal fields - CR and C14; Monthly Flight Session - one KS brought the rest down - in environment of plasma everyone affects each other; Become part of a 'Satellite' structure of system; Hope today's teaching will change course of history and medicine of man; If take further - change the genes - no children will be born with diseases; If bring deficiencies into Soul during transmutation - manifest those defects in new environment; Through understanding - never create children with defects - because that child in the new environment is you; Understand totality of emotions of Creation; Listen to this teaching over and over - try to understand; easy to transmute; You will decide where you want to go and do; Understand how to handle your fears and emotions.

Part 2

Announce time period of Isfahan conference soon; We hope November; KS will collectively travel to Iran from Europe; Traveling Unicose by CR - just different field strength - it's how much fuel have in tank decides how far we can go; In plasma gather field strength during our life time on Earth through the absorption of fields - conduct - decides where end up in U; Transmutation is a different approach - strength of how far - what speed to travel - depends on the interaction of emotions with STM; If understand Totality of Creation - go at strength of Creator - instantly reach Soul of Creator; Some Souls peddling for millions of years - haven't started; Strength you have gathered allows you to choose dimension; Some understood in Christianity - couldn't shape or explain it - then got misused; True saints were able to reach this level and create this condition; Example saint of fishermen - could transfer his Soul energy to Souls of those who fish; Not fisherman who just killed - those who saved lives - brought a balance; Different definition of saint; It's you who decides strength of belief - Soul - emotion - those who can - tap into you; Different reasons why things happen to people (not as simple as Karma); Do the Souls arrange to happen or accident; We don't always know why; Structure of plant's Soul - like rice and wheat - accepted to be eaten by STM - for energy to become part of bigger structure - get added to STM; Never know reason unless become part of structure of arrangements being made by Souls; Impossible to know - trillions of interactions - don't have system to measure; Not about doing spiritual methods - about understanding better; Not working with - it's about learning to manipulate fields of Creation - through essence of emotions - secret to Transmutation - how manifest yourself within that environment; In past many Souls understood - could change into dog - then bird - stone - back to human; Understood emotion of each animal - condition - created it; Key is creation of emotion; Emotion has certain strength - capacity at that strength - control it; When create emotion of love for partner if don't switch it to P - go to higher order of joy than physical interaction; Our Soul decides to accept life at strength of P - enjoy beauty of P; Only enjoy emotion up to limit of P - not beyond - don't allow our Soul & emotion to go beyond P - otherwise experience different D; Love children deeper; Talks about different strengths in loving wife - daughter not same strength of love; If we love the U the way we love our children - find an answer; Learn how to love - strengthen the love; Story of father adoring daughters; Mr. Keshe loves - people abuse it - they cut

themselves off from the love; He shares same love with everybody - way they share knowledge - don't exclude anybody because of race, color, religion, culture, size, shape, blind, handicap, a professor, or whoever you are - share equally; Hundreds of thousands listening to teaching over next few days; You change that emotion with your P - some help others - some create your own cancer through greed; You create own limitation by saying - I can feel this or that - feel everything - see what happens; Need to practice feeling fields - very different experience; About techniques to feel fields - depends on what you accept - want from it; Change doesn't come through painful workouts - more is not better; In plasma - don't need to go higher strength to get something; Instead of 80 seconds - do it in 'no seconds'; Lower strengths instead of higher; Use lower strength - has larger common denominator connect to more; Creator doesn't say I'm on top your Soul is within Me - we are within Soul of Creator - He is so humble - we don't understand; Transmutation easier - feeding and everything; When don't understand make many rules for Creation - it has no condition except giving - love; KS experiences riding on CR through U; Last week used new system in session - changed phases - brought in Cosmic Fields & CR - Cosmic Soul - next session will be much more sophisticated - you can decide to become Soul of stone - Soul of vegetation or life - STM as energy field; KS make plan for session - carry it out; Use 2 mobile phones; During flight KS noticed each other in D of Soul; No frequencies in Plasma Soul state - it's whether or not at same field strength to notice each other; If bring yourself to lower strength - common denominator with others - KS struggle with this; Life started with H - H made the Gold - made Gold from itself; About breathing techniques - don't need to control your lungs - understand energy; In 'Mr. COHN' N connects to N14 or C14 or CR - we are already connected to U Energy - don't know it; Excessive energy can solidify into matter; 2 hemispheres of brain alternate every 4 hours - day and night; Rest time is not a total rest - means time of lower energy fields to nourish and repair - one side of body takes breaks; Energizes full spectrum of plasma - lower to higher; Train brain to be in balance - start in June sessions; Develop before the Iranian conference - control emotions for Transmutation - show Transmutation & Transportation - become one - manifest totally new dimension; Scientists not understand secret of Creation - is field flow - those spots in brain for emotions - creates P; Blood gives it D - STP; Mr. Keshe gave opinion about helicopter incident and loss of President Raisi of Iran; Scientific data - helicopter crash not natural process - direct communication to Iranian Leadership; Look who will benefit - was planned internally; Heading towards a religious monarchy - better not any monarchy; Ruling of Iran - change to committee - some don't like - want son to become ruler; Members on committee already carrying British & American passports; Understand whole politics of Middle East; Ayatollah Khamenei sons appointed as new Iranian Foreign Minister - Prime Minister of Iran - keep it in family; We'll see if we are correct.
