(Auto transcription from Elias)

How Plasma forms internally; Internal structure of plasma - residual fields interact create sphere & rotate; Wheeler to Sphere; Every plasma connected to U - specific strength; Creation of planet surface - Inertia; Inertia changes; Internal Inertia; Color of soil - emotions of planet; Soul of Planet - gravity in center; STP is Inertia; Man & Planet same setup; Planet absorbs energy from U without killing - man can do same; Learn spherical shape; Connect to all fields in U through Soul; Layers of soil from fields - not Big Bang; Man is connected to Creator; Understand pitfalls of Transmutation - same as P life; Everyone join Flight session no restriction - education of Soul; Thursday teaching for P; Daughter of Mitra in session; Crime spree - bring elevation; Pineal gland - Earth; U Council help nations; Kill to enforce opinion; Iranian President assassinated - details; KF Gas Units - plasma; About AI; KF can make Microchips with Soul - emotions - Plasma Chips; Superconductivity; Plasma Nano independent of environment; Soul is present in Cabinet meetings - was present when executed Raisi; Gradually humanity getting ready; Humans mix with U Community - children through Soul interactions - not P; Mitra created from STC; Chinese scientists block T - lose position; 2010 US Patent - admits not inventor; Blocked Nobel Prize for KF; KS experience with fields internally; Souls in Empty Space; Mr. Keshe transmuted age 8 - now keep body; Cosmic Ray material shrinks; Military using KF T for weapons - "Non-Collateral Damage Systems" wipe out computers; Nuclear obsolete; Back up all data on hard drives; UFO create clouds with fields - used in Iran kill President; Daughter of Mitra - in session - elevate Souls.

Topic Index

Switch from being 'Wheeler Race' to sphere - like rest of U; Plasma is sphere - Earth is plasma - solid sphere; Fields inside interact within itself; Understand how plasma works - its structure; See drawing of totality of internal plasma fields - interaction - how it rotates - maintains shape; Residual fields interact with each other become spherical; Move in all directions; Plasma fields connected to other plasmas - never disconnected; The plasma is part of Universal System - connected by fields to U - can only attract fields from its creators - which have same strength; Other fields available - cannot interact; Circular motions within sphere of plasma; World of Science - fallacy - think M fields only enter South - exit North Poles; Wrong understanding; M fields come into Earth from many different directions - strongest M fields create illusion of South & North Pole; Plasma fed by fields within its own center; Combination of fields within center - decides which fields will be absorbed from U; Interact with fields of its environment - manifest P of planet surface; Surface creates a new D - called Inertia; Field strength of U interacts with planet - dictates matter state; In Man's world - called emotion; Matter state world called - Inertia; Life of planet comes from interaction of Inertia with rest of the fields of U - manifest P; As layers accumulate on planet - it grows bigger - Inertia changes; Emotions of planet change Inertia; Emotions come from interaction of P of planet with 'Soul of Planet'; Soul of Planet is its gravitational field in center; Planet manifests itself - same

way as STM - through interaction with emotions to create P; Inertia of planet is a hidden field - Soul of its Physicality; Gravity is equivalent to STM; STP and STM interact & manifest skin; Inertia and gravity of planet interact manifest surface of planet; M field lines we draw for Earth is how U feeds planet - doesn't need to kill; Earth learned to attract M fields of U to live from; Earth has absorbed fields from U through interaction of its Soul with its P - expanded its size to what it is today; All layers of soil from interaction with fields of U; Different colored layers - correspond to Earth's different emotions; If Earth managed to feed itself without killing - so can we; Man kills - created hierarchy in possessions and possessing; Purpose of teachings - us to learn to absorb fields of U like Earth; Volcanic eruption like anger of Man - Earth has same emotions as Man; Every single field which makes up sphere of plasma have different field strengths which tap into Universal fields - feeds it; Learn to be spherical shape - absorb all fields - don't need to kill - True meaning of Universal Life - Ethos of Mitra - connect to all fields of U through his Soul - absorb what needs; Man will reach point - not have to do anything to survive - but be obedient to rules of U; Planet keeps constant speed & distance from neighbors when rotates - Mother & son relationship - doesn't harm anyone else - lives for billions of years; Man kills and destroys for only 50 years; Religions understood weakness of Man - abused him; The drawing he made - life of Creator and created - Totality of Creation; What are we fighting for - dragging ourselves into P just to live for a fraction of a second - Universal Time; STM, STP, P, Inertia, atmosphere, G, M fields all work together - can change Inertia - understand Totality; Planet also creates Inertia internally - creation of materials inside planet; Inertia changes as planet changes; Inertia moves to level on surface - as emotion of planet changes; Certain place no gold - suddenly find gold - means planet created fields to make gold; Science believes in fallacy of "Big Bang" - all materials came from; How we create cancer in body; Gravity in center of planet dictates what it absorbs - same with STM - has amino acid connection to planet - only absorb that strength; When absorbs fields of U - obeys rules of Unicose - link to higher dimension; Can create conditions at level of STM & universal level; Each M field of given strength travels span of U at a constant speed of itself - in respect to environmental field strength it passes through; If understand 'space gap' can tap into energy; Translate this energy through your emotions - exist in U without killing; Emotion dictates what man needs - take from U at time of need; G fields of planet do this; Use these fields without disturbing others; Some of these field strengths from Creator - receive from "Mother Source" - every man has connection to his Creator - man denies it; Through detachment Man will understand what strength he has; Detachment not mean giving everything away; By making your own fields available to be taken by others - to elevate; Essence of Creation gives everlasting & connection to Creator - attribute of Creator - you exist in time between beginning and end; Transmutation will start soon - understand pitfalls - same as physical life; Be aware of its capability; Find detachment - attach to everything as a part of you - understand Totality of Creation; Cannot lick other Beings in U - still takes energy; Receive energy through STM and emotion - not steal; Key to Universal existence; Key to transmutation & everlasting life; Or remain listening to the next thousand KSW; Replicate work of creator - this planet - don't need to kill; Don't need to be attached to Earth - like it is to its Sun; Use interaction of fields of STM & P - create a life without killing; Energy is M fields in motion - not an animal in motion to eat; Have forgotten Science of Creation; Energy has to be given freely; Hunger came

with P - not exist in spherical life of U; Strength of everything available within STM; STP dictates needs to confirm existence - continue living; For transmutation - live Ethos of M fields in motion; You decide what to move; Easier to move fields than P of the man; Live everlasting life in U.

Part 2

Can join Monthly Flight sessions at anytime - each session totally different; Thursday's teaching for P - Flight sessions for education in STM - not exclusivity; Learn how to detach - elevate - concentrate; KS have progressed; Cannot record session for listening later - Soul D of fields of U; Allow 4 weeks to integrate experiences; Changes come to your P and emotion; When transmute P will change - get used to; Soul receive fields from other strengths of U; His energy level can effect session - everything monitored and recorded; First time Daughter of Mitra in session - bring elevation to STM; Understand how to transmute and physically transfer; Crime spree in Ecuador - also Iran - approach Universal Council; Trying to find a solution to elevate criminals - elevate Souls - correct P; It's impossible - but still can be done; Reach these people through transmutation; Have to see the bigger context of whole situation; Find out who is behind it; Criminal may misinterpret elevation of Soul - think it is them - get worse; Dealing with STP & P manifestation - find root cause; In Iran if elevate Soul - misinterpret - think it's gift from God; Criminals running crazy from top of government to bottom; Pineal gland made only here - for mankind - some animals - due to environmental conditions; Has to do with P not spiritual; Need to have Soul & STP to be alive; Glands & organs are control systems for body; On Earth digestion system major cause of death - hard to die in U; Related to giving and receiving from planet - when STM feeds P don't need; Fallacy - women also have prostate gland - scientists made exclusive to man; Ask Universal Council to help nations - their job; Kill on this planet to survive - enforce opinion - show power; How President Raisi of Iran was killed - planned months ahead - for one man to stay in power - will be lethal like North Korea; KF Gas Units are completed wait to release - certification - disturb world pattern; Advancing T to harvest plasma energy direct to electricity - not go through turbine generator; Radiations of mono-magnetic - G - depends on their strength; Matter state called isotopes; Plasma state called spectrum of fields; STM umbilical cord to Creator - STP to our creator the Earth; Without a connection of fields won't exist; A lot about artificial intelligence (AI); Are we artificial intelligence now; AI doesn't have Soul or consciousness - depends on computer database - needs Internet to work; KF technologies can now produce Microchips with emotion - intelligence - feeling; Take fields strength of emotion embed it within material - any material; Can give AI a Soul react to emotion; Cloud is really computers & Chips on ground; Introduce Plasma Chips - have Soul; Intelligence of brain - natural process of elements; Microchips are rigid and connected - not flexible; Plasma Chips - emotion interactions through plasma - not solid state matter; Superconductivity is a misconception - Matter has resistance - condition dependent - means temperature and pressure; Nano or plasma state environmental conditions of pressure and temperature cannot interfere; Temperatures irrelevant; Color changes of body through emotions - field strength you observe at - not much with environment; I see your blush at my field strength of observation - not yours; Emotion of pain; Mr. Keshe shares personal experience - his Soul present in Cabinet

Meetings; Told Head of Military how President Raisi of Iran was assassinated - his Soul present at execution & planning; Don't need to be physically somewhere - be there in D of Soul; Soul is connected to every field and every point - tap into; Same way get information needed to live on another planet - languages - everything else; How U works; Art we all need to learn; One day unravel how Soul works; Gradually humanity is getting ready for Change - not be 'Day of Judgment' - live it in everyday life; Soul being made ready by KF teachings; When Man matures - accept change; Already there - but we deny it; No difference between P creating STM - or STM creating P; Chicken or egg comes first; Egg is a plasma - interaction of its fields creates P - the chicken; Once Soul created - dictates what can be added - confirm existence - create P; Soul creates Children of Mitra - not P; In Space only create children of Soul; Different Space races interact through fields create child - it decides if wants take P; Fields of Sun and Earth rub - create plasma - Inertia of Earth converts matter state elements; Children of Mitra created out of interaction of emotions of two plasmas; Body can't exist in middle of galaxies; Mitra was created from Soul of Creator - has no physical entity - she decided to give herself P on Earth because of its beauty; Children of Mitra free from everything - everlasting life - can transmute & transfer P; Since man travels with Soul in dream must have made children in Space - fall in love with other Souls - mutual love - did they take a P on this planet; It's our decision & expectation to convert our Soul back to light to transmute; Chinese government gave power to confirm T to scientists - they said - show us and we'll believe - we showed them now they say - we don't understand so not real; Truth is if they confirm T they lose their own power - have to admit wrong; Advanced T so much - KSW are way behind; Scientist - Salvatore took KF Star Formation made own patent - US Government backed - gave patent - now says - he's not inventor - doesn't understand how it works; KS not ready for advanced T; One day release to all of humanity; We have no problems - don't claim anything - teach openly; Others using our T - hiding it - one day Soul will balance; KF work was put for Nobel Prize - Americans & others blocked; Have IP address and proof of taking KF knowledge - getting Nobel Prize - lie about it; Discussion of KS practicing with fields inside himself - have to confirm our own experience; It's about understanding the interactions; Feeling somebody's presence behind you; No 2 stars in the U same; Flying between London and New York - citizen of Atmosphere of Earth; Many Souls live in empty spaces of U; You have to learn about yourself - no rule books in U - write rules according to own understanding of fields and energies; I cannot tell you if you have achieved it; Comes from trying and experiencing; Mr. Keshe started transmuting at 8 years old - fly everywhere - took body with; Now can transmute without anyone knowing - keep body in place - Soul goes out; Use emotions to transmute - in Cabinet meetings - know what decisions being made; How you transmute depends on what you learn - what good at; Still have to come back to body - people don't accept transmutation; Practice to learn; No religions in Space - everything is individual; Understand reason to follow Ethos; Working on Cosmic Rays materials (CRm) - it shrinks by half on its own; Don't know if AI can elevate Soul - has to become intelligent enough; AI not really in Cloud - fooled the man; Huge problem - Military has developed weapon's T to disable all computers - came from Downing of Drone by Iran - "Non-collateral Damage Systems" - not known in public; Can destroy AI, Clouds; Makes nuclear T obsolete; Solution to problem is new plasma technology - self-sustaining systems - cannot be effected; Why new T has to be implemented - otherwise whole

computer system worldwide taken down; KF already protected against this for 20 years; Advise KS to back up all computers on physical hard disk - not connected to Internet or electricity; Can reach inside computer system; Governments denying it - to their peril; Will use within two years; Don't need to invade nations - take down Central bank - power supply; AI will be biggest victim; Using new T interact fields to create cloud - UFO can do - seen on BBC 2010; This within reach of certain governments; Cloud making T used in assassination of Iranian president Raisi; Advanced T part of KF technology - gave to governments and scientists; Have to understand how to protect yourself; Daughter of Mitra will be among us in Flight Session
