(Quick Index 18 pp, Introduction, Topic Index, Proofing done ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

STM no termination - keeps memories of body; Who is Sun of our Sun - was it good; Our Soul create more killing; All Souls from Earth isolated - eradicate killing in RNA; Crime is not letting life die naturally - Soul matures; Trace where Soul goes; Killing keeps Man from elevating - reaching Creator; Children of Mitra not shackled; Creator 's Love equal to all - we block; Purpose of teaching - create Children of Mitra; Love of mother can feed child without eating - breast milk - receive energy through humble; Killing distances us from Creator; Change body through Soul; Soul can become human - animal - stone; Create life without woman; Was Creator alone or had partner; U Council through STM - wish; Teach detachment - by behavior; Don't imprison for killing animals & plants - only other humans; World peace will destroy killing; Vegetarians fool self- still killing; STM elevates STP; Flight Session - become teachers of others; New Youtube channel launched - strictly for teachings - newcomers - KF current news; Where do thoughts Information come from; Enlightenment is emotion - behavior; Intellectual Rights steal from Man; We all can access Universal Knowledge Library - Knowledge & our improvements shared to whole Creation - no patents; Convert to Earth version of Knowledge; Mullahs memorize Koran not understand; Access Library through Soul; God made to love Him - share Knowledge with everyone - elevate - enjoy Creation; Europe uses collective system raise children - same in Creation; Killing prevents us accessing Library; We Teachers - Messengers thieves; Plasma computer of Gans - alive; Brain cannot access Library- Gans can; 3 layers skin - same for spaceship; Spaceship has been made - need to understand; Craft has Soul - alive - no doors become like organ in Craft; Craft is Soul of Creation; Inventions simultaneous; Musk controlling Internet - worse than Fox; Create own car; Mammals reproduction; Inherit features - emotions from ancestors - part of Soul; Created out of each other; No race superior; CR Bundles and Glasses - train for transmutation; Original Books; Fukushima - lies; Church door - burning withes - same today; Transition time to stop killing; Iran Conference update.

Topic Index

Soul of the Man (STM) has no D of physicality - no termination - always converts - amalgamates - starts new life; Keeps memories being in Man's body - imprinted on Soul; Where did our Soul come from - Soul of creator of our Sun elevated enough to create Sun - whose rays became us - no other truth beyond this; Was it a good Soul that created us; What kind of star shall we make - I made man in image of Myself - collection of fields; We'll pass on our energies emotions through RNA and M fields - carry memory of Earth life; Reality of Creation; Can see energy of Soul released at death - follow smoke to new destination - create another cycle of life - create killing like on Earth; Creation isolates all Souls from Earth - start killing again; Handling this "virus" - eradicate killing from RNA of planet; What happens to race of 'Soul of Sun' - same position; Have to change man from inside - learn to take energies directly from U - not from what U creates; Then he can create new cycles of life - at maturity of his Soul; Man's crime - not allow animals to

die naturally - kills plants & animals before Soul reaches maturity; Understand process of Creation; Where did fields of man's Soul come from; Put marker on Soul can find relatives in U; Create borders on Earth; No borders for Soul in Creation - only restriction is strength of fields each Soul carries; Understand when Soul kills - cannot elevate to Soul of Creator - man blocks himself through behavior from time of birth; Children of Mitra - and Children of Soul not dependent P of planet - won't have to kill to elevate; Their Soul reach higher point of Creation and Creator; Shackled at birth - not able to elevate; Changed by first mouthful of meat/food; Inside we know we are killing another being; Create next generation through Soul - will not kill or destroy - at beginning absorb energy from U; Love of Creator rains on all equal - we put up umbrella - don't want to get wet; Parents brought us up to kill; Deny it to ourselves - don't want to know; Man never endeavored to go to next level - doesn't think about not killing - or that entity has a Soul; Stop killing be able to expand Soul; Killing creates prison of own P; Stuck in own D; Receive energy from U to enjoy it; Purpose of teachings - create Children of Mitra; Already have that knowledge; It's love of the mother through her Soul - she can feed her child - no killing; Can feed our children through love; Turning point comes - why we teach about space travel - UFOs - transmutation - you can create children that might love Me - won't commit crimes of killing - distance themselves from Me; Soul created within body - fed through love - feed itself within womb - doesn't need breast of mother - already connected through Souls - through being humble receives energies; Can walk at birth through Soul; Change all things through structure of STM; Moved hands and legs of Naomi through Soul; We all have gift; Christ raised the dead - rose Soul and P walked; Feed Soul and Soul feeds P; Change to whatever form loves - man - animal - stone; Don't need to study - educated instantly - receive energy & Knowledge of Creation; I made man in image of Myself - in the knowledge too; Through the love; At any age create Child of Mitra; It doesn't require a man and woman to create life; Creator created all of us from Himself - or who is His partner; Our creation can change according to emotion of STM; Tried to teach you with different games; Why we established Universal Council through STM; The "wish" is energy of creation of peace within man; Can create child through fields of Soul; If any of you wish to have a child - you can create it through Soul - food is not needed - life will be everlasting; Change life or clothes when worn out - P is for this planet - Soul is another D; Stay here 10,000 years; He has been doing; Not even a second in life of Creation or U; To see how Soul travels - watch Jellyfish - rotate directionally from top to bottom - body is transparent - like STM; Travels according to how others accommodate - your wish - Jellyfish don't bang into each other - MaGrav positioning through emotions of Souls; Have Children of Mitra - teach you detachment - love - no killing; How World of Creation laid out - teach children by our behavior; Society decides if kill animal okay - not another human - a butcher not imprisoned; It's us who has to change our understanding of Creation - then change world; Hunter could learn to love deer; Man will learn he's a criminal in both dimensions; Why we have to learn how to transmute; First need world peace - it will destroy system of killing; Vegetarians and vegans fool themselves - don't kill - actually kill more; Have create Children of Soul through Ethos of Mitra - never commit a crime - perfect child - loved by beings of planet; First of that child is already amongst you; Find out how to live the path; Seed of Creation and understanding - within you - enlighten to it - understand the process; Decide not to consume other lives - only what has been given; Day of Judgment of yourself - decide

which life you want to live; It's you who will bring that change - don't need Prophets - nothing to fear; Mature to the truth about Creation - not the fallacy the man made up about his own Creator and Creation; We are so confused - hide under the banner of ignorance; Beginning of teaching man how to use his Soul to feed himself - create new race; Tomorrow's Flight session first taste; We are at that junction - to change; See something totally different - emotions never realized; You can create a Child of Mitra; STM elevates its own STP; Tomorrow - how many will become teachers of others to elevate Souls; We are just facilitators; You have to educate yourself - live by it - your rules and nobody else's - no fear - no punishment.

New Youtube channel launched: Keshe Space Plasma Technology; Strictly for teachings; Make the T reachable by everyone; Short teaching videos of 10 to 15 minutes; Bring knowledge forward rapidly - understandable way; Be very careful - violate copyrights; Promote flight tests - prepare for Iran Conference; Keep regular alerts about what's new in KF; Don't flood this channel with other material; Is information needed first before Creation; Depends how we communicate - communication is backbone of Creation; Enlightenment is process of Creation; Enlightenment is a kind of emotion - react to it - becomes a knowledge - behavior; Never consider as emotion - same with knowledge and information; Pondered from young age - where does information and knowledge come from; How does our brain connect that leads to that information - new thoughts - understanding; Man has not unraveled; Created Intellectual Rights - my thinking; But bunch of brain cells & M fields - how do they connect to each other - come up conclusions; Information doesn't have barriers - becomes our language - see and feel it; Brain automatically changes from one language to another; Where does information come from; What is intellect - Does information become intellect - brain cells create intellect; Haven't built a computer like our brain; Information from Universal pool of Knowledge - comes through certain strengths; Access to it without knowing; Our knowledge gets added to Universal pool; Knowledge is two-way traffic receive & give; Earth's inventions like motor wheels added to Universal Knowledge; Somebody in other part of U can access knowledge from Earth; Soul knows it came from Earth - others get enlightened - invent wheel - knowledge is shared universally; Reasons for opposing patents - Intellectual Rights - fallacy - information in our head is ours; Working through Gans's in our brain - M field connection to Universal Knowledge - then becomes part of us; We make an Earth-like version of knowledge; To others we look like genius; We are Universal Teachers - have access to Universal Knowledge Library - we have the key; It's not building - collection of fields; When we ask agriculture - gets Knowledge - same with Soul - Energy - other; For you to convert that knowledge to physical D of human; I access information through field strength of Soul; My teachings are like a curriculum - told you what will teach - not recorders - we can explain it; Old days Mullahs - Christian priests not read 7 not educated - memorized Koran or Bible; They didn't understand meaning of scripture - ignorant; Now we can connect to Universal Knowledge - why we promote transmutation - enlightenment; Access Knowledge through Soul; We access Universal Knowledge (UK) to make something - then we make our own addition to knowledge - that becomes part of UK Library - whole U has access - no patents -

knowledge shared automatically; What we add has emotion of Soul - becomes part of Soul - added to Library; Islamic World says God said, I made you to make children that they might love Me' - really means - I made you to create knowledge and information, so that it brings peace to the others I made; No limitation on loving; Your knowledge becomes my knowledge - because I am you; Man needs time to understand this; We used patents only to reach as many people as possible; Man created patents as tool for stealing from each other - we teach you not to steal; In reality patent does not belong to humanity anymore - part of UK Library open to all Souls in Unicoise - access information through Soul; When Soul transmute somewhere - information goes with; All of modern European raises child not just parents - they pay for food - education - health - children property of whole of Europe; Same structure in Creation - children of Creator - knowledge belongs to Totality of existence; U has no physical body to restrain it; As you receive more knowledge - access higher levels of information; We deny ourselves access to Library because of killing and creating emotions unacceptable to U. Easy to bring up Children of Mitra - they have access to UK Library - same way I do; Access to Universal energy - don't need to kill; They are born citizens of U; When here behave like humans - not stigmatized; They are a creation of Soul; Information or enlightenment; Become detached - Soul is free - access UK Library; Not exclusivity of Mehran Keshe - teachers - don't bring any messages; Messengers are the thieves - didn't bring whole message - given access to Knowledge - stole what they wanted; Make computers out of Gans's - living entity - all computer fit in 1 micro millimeter of Plasma computer; Brought Gans for humanity to add to Knowledge of U; Calcium to become brain; Gans connect you to Universal Energy - all information in U; Gave you gift of Creation from Creator - still deaf to it; If all nations rise against me and KF - never succeed - because it's not mine - Knowledge of Creation- there are Souls who put it right - protect because it's theirs; Not understand even fraction of what Gans's are; Brain cannot access Universal Knowledge - Gans can; Patents are colonization of the intellect; Knowledge is free - access it yourself - add to whole U - if you abuse - you lose it; Plasma and M fields connected to every cell in U; Grandfather taught to read Koran by Mullahs - abuse knowledge in name of religion; Nowadays mullahs and priests educated in universities; Man has to educate himself - not follow blindly; We are just teachers - you learn and educate the others; Not forced to understand - access to Universal Knowledge; Teachings about 3 layers of skin - manifest P - manifest spaceship - KF trying to understand ready for Iran; Bring and open suitcase - create spaceship from fields; Interaction and combination of different fields have to accommodate each other - need to have a Soul - create Soul it manifests itself P; We have already built this machine & it creates its own P - we have it today, it exists; Our scientists have to understand; KF laboratories are creating a Soul of a machine - have all emotions like child - give birth to its own structure - we can control it to give any shape; Created 3 dynamic layers - interface with inside and outside - like skin; Inside layer controls emotion, P, and Soul; Why get skin diseases etc; Spaceship exists and has emotions; First time created spaceship - fear and exhilaration of having understood Creation; Need humbleness to understand gift - it's not mine; In Isfahan - spaceship will be Soul of Creation; To enter Craft we become like its organ - a kidney - system will feed us - no dining rooms; I have started preparing my physicality for that point; Have to transmute to use it - no doors; Will Ayatollahs of Iran be able to enter - or world presidents when we show to other countries; KF scientists have to understand salt to

solidify Craft - then complete; On earth inventions happen simultaneously in different parts of world - nylon - accessing same knowledge; Talks about Musk - the new Fox News controlling - dictate communications on Internet; Claiming to be free channel - actually worse than Fox - control what he wants; Give his work 3 years maximum - worth zero; KF will show things in Iran; Through Cosmic Ray (CR) Bundles - inventions appear in 100 different places same time; Connected to same system - same field strength of knowledge - others have access - shared knowledge; CR Bundles open you to Universal Knowledge Library - given you pieces - but you don't understand - biggest gifts to man - access UK Library; We are Universal Teachers - not the only one - we educate others to become; No exclusivity - many fools on Earth claim; Spaceship creates itself - use T to create own car - it will love and protect you - emotion;- vehicle becomes part of your skin - put things inside; Systems are in production; Can help people in Spacelab with phone line; No hierarchy with Universal Teachers; Every part of body has Soul - within us or outside us - part of us - guide us; Teaching mammals - reproductive organ opposite Soul - birth of child like STP & STM separating at death - create new life; Inherit different features of our ancestors - also given a part of their Soul - makes up different Souls inside us - brings certain behaviors; We are amalgamation of different field strengths - emotions; Matter state say it's genetics - but connected and have a Soul; We are all connected and created out of each other; US presidential race - blonde man claiming to be different then black woman - Whites mutation of the Black man - ignorance of Creation; About feeding oneself with Gans patches; Forbidden to use Gans - body cannot absorb energy pattern; Cells have Ca seed - stronger the Gans - body feeds Patch - doesn't work; Gans mixture that will feed you for centuries; Teaches about getting old - can have children of Soul at 90; Need to remain active - not accept retirement at 65 - cause of diseases early death; Parkinson's; Have to provide services collectively as One Nation; Use CR Bundles & KF Glasses - can transmute at home; During transmutation when your P wants to move - have to let go; Original Books signed by Mr. Keshe; Edition 2 was edited - put own ideas into; Creating a brain out of Gans; Computer that is alive; Adding to plasma not exclusivity of Soul's emotion - any intention can be added - but5 does it fit strength; TEPCO people in Japan overseeing Fukushima - shocked to see singed documents for KF - how Americans lied to them; Carvings on doors of Catholic Churches - killing and burning of witches - same with KF today; Persecution by same ignorant people - still believe in same Church; About constructive interference of scalar fields of elements; Feeding through transmutation - if still want to kill - decision of Soul - some concessions given for transition time of humans; Soul has that power to do - as you transmute no need for killing - structure has to be changed in RNA and DNA - changed from inside - not forced; updates situation in Iran and Conference.

Introduction to 551 KSW - Remove Killing from Man's RNA - Universal Knowledge Library - No Patents - Enlightenment is Emotion

The first part of the teaching focused mainly on the fact that because the man chose the path of killing other beings like the plants and animals to take their energy to survive, he has cut himself off from the rest of the Universe (U) and the Soul of the Creator (STC). He went into more detail about how it works. Mr. Keshe asked us questions about the origins of the killing to get us to think more deeply about it. For example, did the killing

start with the Soul that created our Sun. Because that Soul would have had to first elevate itself to be able to create a new cycle and somehow it must have passed on this emotion of killing through the RNA to our Sun, who then created the Earth out of its fields, and then passed it to the Soul of the Man (STM) when it was created. Therefore, when we elevate to the point of being able to create a new cycle, then we'll likewise pass it onto our creations. This has all been described very nicely in the "Cycle of Creation" video.

From the point of view of us as humans we didn't know about this, and when our consciousness awakened enough to know that we exist, the killing was in us as something normal and natural. Regardless of the "who to blame," we are suffering with the result of it and now we have been given the way to transform this condition. He asked another question, do all the Souls that were created on Earth get isolated from the rest of the U. In a way, they quarantine us like we do with a virus to keep us from infecting the others. Maybe occasionally a few break through, because he once said that Souls from Earth started spreading killing to other planets, but he didn't give much details. The solution is not to say, 'oh, I won't kill anymore.' That won't work because it is written deep in the emotional level of the RNA of the STM. It take 20 years of behaving in a certain way before that information gets written on the human RNA and passed into the DNA of the physical creation. How will it work on a solar and planetary level? It seems this is a work for higher Beings like Mr. Keshe to solve, but we have to participate in the process in some way. Maybe a certain number of humans have to elevate to the point that they really know killing is wrong, and that we can receive the energy in a peaceful and loving way. This is our job to understand and integrate the knowledge so that essence of our RNA can be changed to eliminate killing from our emotions, thoughts, and behavior. Just by reading this we get a sense of how low human knowledge and understanding is, and that we are denying our true condition to ourselves. And now we are being given an amazing gift of knowledge to come out of the darkness of our ignorance.

When we look at the world we see so many horrible things going on. Of course, we also see a few good things too, but the general trend is towards certain groups controlling the rest. And if you have ever worked in the physical dimension with organizations that try to bring a change, then you eventually come to understand that true change is virtually impossible, because the structure won't allow it. And now Mr. Keshe is explaining to us the reason for it. From the very moment our mother puts the first mouthful of food in us, we change into the lowest position in the Universe. From inside, our Soul knows that we are killing another being and this automatically cuts us off from reaching the level of the Soul of the Creator. It doesn't matter if you think because you are a vegetarian you don't kill. That's your self generated concept, and it doesn't change the fact that rice is a living being with as much right to live as us. If we understand that the system is fundamentally flawed right from the beginning, then we won't waste our life chasing after the wrong things. Of course, we can learn and grow, and we do that, but then we reach a point where we can't grow anymore, because our very existence is leaving a trail of corpses behind us. When we deeply understand this and want to change, then the door will open, because it has already been open and waiting for us. But we have been ignoring it, and it has been more comfortable for us to deny it. In fact he said, we have never really tried to

go to the next level and we don't want to know about it. But if man would find a way to exist without killing then his possibilities in the U would be endless.

This is why we are being taught the process of Creation through the Soul. Because if man learns to create the next generation through the essence of his Soul, then from the very beginning he will know how to absorb energy from the Universe without killing. When man creates Children of the Soul they will not know how to kill or destroy. In the present time we learn to kill from our parents, because they feed us with it and they think it is the only way to exist. But the Children of Mitra, or of the Soul know that the love of the Creator 'rains' on all created things equally. It's us who puts up an umbrella and says, 'I don't want to get wet. I don't need the rain.' This is the purpose of the teachings, so that we can create a new race of man that won't be dependent on the physicality (P) of the life on this planet, and they won't have to kill to elevate themselves through taking others energy. The scene will already be set for that Soul to be able to go to the higher levels along with the rest of Creation at the field strength of the Creator.

The way it works is that mother feeds the child in her womb through her love. This knowledge is inside us. We know it already, but then we get misled to not understand it. The energy of love is fed to the child through her Soul and she remains connected to it. There was no need to give the breast to feed, because it was already fed. When we understand and accept this there will be no need to commit all the crimes in the name of surviving and ignorance. The child understands and feels that love, it's the parents and society that have to be educated to the next level. Aren't the first words the child learns to speak, "I love you." Now we are learning that they are not just words, but a living energy. The mother's Soul teaches the child's Soul how to feed from the love, and it's through being humble that the child receives the energies and grows through them. All these things are decided through the structure of the STM. The Soul decided that it should take a year for the child to walk. But the Soul of other animals decided that their child needs to be able to move right at the time of birth so they don't get eaten by other animals. In the same way, through the STM we can decide to be able to walk right at birth. This is the power of our Soul, and the physicality responds. This is how Christ raised the dead. He elevated the Soul and it took care of the physicality. In the same way when we feed the STM it will feed the physicality.

If all of Creation came out of the Creator Himself, then do we need to have a man and woman to create children? Mr. Keshe says, no, that every Soul can create life from its own Soul through love. I made Man in the image of Myself. And if we can reach that level we can create life in the essence of the Soul of the Creator (STC). These are the Children of Mitra, and it seems that if any Soul reaches to that level they can create a Child of Mitra together with the STC. And he invited anybody who attends the Friday Flight Session that if they get that feeling they want to create a Child of Mitra, they are quite welcome to do so. You don't have to worry about how you are going to feed, educated, and supported, because the child is taken care of by the Creation. They have everything within themselves including the Knowledge of Creation and it's them who decides whether or not to manifest a physical body on Earth.

The same way that we create children through the interaction of the fields with our emotion, is the same way we can change our form to be whatever we want. We can be a man, a cat, stone, or whatever. The next time we pick up a stone to randomly throw it we should wonder who we are throwing, and do we need to throw it. It's all done through understanding the interaction of the fields. He has been on Earth for thousands of years and we can do the same. But we have to learn how to create a new body, when ours gets worn out. Maybe this is more for if we get bored with the same body for centuries and want to change it. Because before he said there is a way that the body won't age. Again it's not reincarnation, which is a theory made up by people who didn't understand the Knowledge of Creation, or the Masters told it this way because that was the level people could understand.

To realize all these beautiful things we need to achieve world peace on Earth. When all the nations come to peace with each other this will destroy the system of killing we have made for ourselves. The teachings he is giving us now are the beginning of this stage where Man will learn to use his Soul to feed himself and to create a new race of man that doesn't kill. By joining the Friday Flight Session we can use the KF systems to elevate our Soul, and when we manage that, we can teach the others how to elevate themselves. It's us who will change this planet by ourselves. They are here to provide the Knowledge and Technology to help, but not to do it for us. And the Day of judgment is the day we decide we want to live in the dimension of the Soul, while at the same time enjoying the dimension of physicality. And through the elevation of the STM we'll elevate the STP and become a complete Being who can live anywhere in the U.

In the second half of the teachings Mr. Keshe opened a discussion for us to think about where thoughts and knowledge come from and how our brain processes this knowledge. He has pondered on this a lot, but for us it is not so easy to ponder because we don't know very much about what Creation is or how it works. We use the machine of our brain but we don't really pay much attention to how it works. Today he has given us a lot more to think about.

First of all knowledge is shared equally throughout the whole of Creation. There is no exclusivity or discrimination and each Soul accesses the information through the correct field strength. For example, Mr. Keshe has access to the knowledge, as well as the Children of Mitra because their Souls are pure. He even mentioned that there is a part of his brain that has the field strength to allow him access. But all of us can learn to access it through our Souls. But the problem we have at the moment is because we kill others, we cannot access the knowledge. The knowledge is in a place called, the Universal Knowledge Library, but it's not a building, it's a dimension of M fields. Perhaps this is the same as what he used to call, 'acquiring knowledge through the Soul,' as when we dream, for example. So when people invent things, most likely they are really accessing this Library, whether they know it or not.

So how does it work? Let's say you had a great desire to bake a cake and your intention was correct. Then knowledge about cakes that are in the Library would come to you and you could bake the cake. The interesting part is that whatever improvements and

innovations you make to baking a cake, like different textures, flavors, and whatever, that information will be added to the Library for others in the Creation to have access to and enjoy. And the knowledge also considers what emotions you experienced from what you invented. It's not just "facts," rather it's the interaction of the M fields and how they flow to create this or that emotion. Also the knowledge is translated and converted into the way we experience things on Earth. If the invention originally came from Planet Zeus where they don't have wheat to make flour, it will be converted into its equivalent experience. This is why the emotions are important, because each dimension and planet is created out of the interaction of the fields with emotions.

If we understand this process then it would seem that the inventors on Earth accessed the Library to make their inventions and then we called it theirs, because that's all we could understand. But it never was really theirs. The improvements are theirs, but they cannot keep it for themselves because it will automatically be shared. If you remember a couple of weeks ago we mentioned that a Nobel Prize winner in Physics originally got his idea through a dream. And isn't that the D of the Soul? This is why Mr. Keshe opposes patents and Intellectual Rights, because it wasn't really their idea and all knowledge belongs to all of Creation. He said through certain field strength we could have access to this knowledge without knowing it. It is important to remember that not all the knowledge comes from there, it's a two way traffic and we can be developing knowledge that gets added to it. And if someone on another planet has the feeling of wanting to move in a continuous motion, he would get access to the knowledge about motors that are made on Earth and his Soul would know it came from Earth. So there is still recognition of creative discovery, but you can't block other Souls from accessing it by claiming a universal patent.

It seems that for ordinary people our brain doesn't have the right field strength by itself to access the Library. However, through the right use of the Gans's we can access it. Mr. Keshe has a special part of his brain that can access the Library and maybe other special Souls that are here to help us, have the same. When we achieve world peace or we manage to elevate our Souls ahead of the others we'll also get access to help speed up the process. In a very humble way he said, we are just Teachers, it's you who has to elevate yourselves and then teach the others. We have to understand that the knowledge is free and has to be shared with everyone, and stop this colonization of the intellect that is going on today by certain nations and races. Even the Messengers became thieves, because they didn't give the whole message and ended up stealing from humanity to have what they wanted for themselves.

For those who do serious spiritual practice trying to get enlightened to help humanity the following information could be helpful. He said that, enlightenment is a kind of emotion, which we react to it and it becomes a knowledge, or it becomes a behavior. This is exactly what happens when you do spiritual practice intensely. Suddenly you get an experience which you think is enlightenment and it can last for a few moments or for months and maybe years. But if you feel deeply into the experience you realize that it is really a change of emotion, and that changes your behavior or gives you a knowledge and

understanding you didn't have before. Maybe this is exactly what's going to happen to the whole of humanity when we make that "Change."

Our bodies are made from the interaction of the 3 layers of the skin and this is how they will make the UFO from a suitcase in Iran. He said, it has already been made, we have it, but our scientists have to understand it. Mr. Keshe has felt the formation of the Craft and sometimes the others feel it also. This is why he is so confident and is ready to show the spaceship to humanity. But he also said he has to prepare himself for the conference, so that he can transmute himself into the Craft. Showing the Craft will be one thing, but it also has to be flown and maybe he is the only one that can fly it right now. The secret to solidifying the fields is salt, which he talked about many years ago, but has never revealed the true secret. Each week is getting more exciting.

The Cosmic Ray Bundles are tools for transmutation and the place for Knowledge Seekers to begin practicing how to do it. He talked a lot about adding the KF Glasses that were developed a couple of years ago to form another Twinity of M field interactions which can help expand the Soul over the physicality. These can be used by oneself at home, but also during the Monthly Flight Sessions where they will expand the experiences to new dimensions. If there is enough interest they might open production on the units again, because they take several months to produce.

Our ancestors pass on to us different features to our physicality. We say we inherited this or that from such and such a grandparent. But we also inherit different emotions and behaviors that come through the Soul. We carry the Soul of our ancestors within us because we are all connected and created out of each other. Now we understand that cultures that show respect to their ancestors for what they were given, actually have more knowledge about Creation than we, who consider them to be more ignorant.

The next step is to learn how to feed ourselves from the Love of the Creator. It's a real energy and not a fantasy. When we were first created in our mother's womb we were being fed by love. Now we have to relearn it and have faith in it and one of the keys is humbleness and another is detachment.

Other Topics:

All the nations on this planet can rise against me and the Keshe Foundation. They will never succeed because it's not mine, it's the Knowledge of Creation. There are Souls who will put it right and protect it because it's theirs;

No one will pay 100,000 for an electric car when you can build your own for 50 after what we will show in Iran. And this car will love and protect you and not be a danger to your life or others;

Because the cells of the body all have a Ca seed they usually have stronger M fields than the Gans Patches people want to use to feed themselves. So instead of being fed by the

patch, their body ends up feeding the Patch. He can make a Gans mixture to feed us for centuries;

By observing Jellyfish, which have transparent bodies we can see how our Soul will travel through the U. They rotate directionally to where they want to go, interacting with the different fields, and they MaGrav position themselves with each other;

In the Islamic World they say that God said, 'I made you to make children that they might love Me.' But it really means, I made you to create knowledge and information, so that it brings peace to the others I made. Your knowledge becomes My knowledge, because I am you;

There is no hierarchy with Universal Teachers they are all the same.

Thanks for listening.

Quick Index

(Man's life has a limitation of the physicality (P), but the life of the Soul of the Man (STM) has no dimension (D) of physicality and does not terminate. It always converts to (something else), amalgamates, or starts a new life. But when it starts a new life does it keep the memories of when it was in the body of the man? What remains imprinted on that Soul? The rays of the Sun become part of us, but whose Soul was that Sun before it became the seed of this current star. The star that led to the creation of the planets, and then the man, and the rest of the creation in this Solar System (SS). We always think about what our Soul is going to become, but what about the Soul that elevated itself enough to become the seed of our Sun, and its rays that have become us. There is no other truth beyond this).

(When our Soul takes position in the World of Creation in the Universe (U) and Unicose, what kind of star shall we make? And what kind of creatures of life will come out of it? It's important to know that we transfer energies and emotions to our creations. The man is the way he is today because of what was reflected through the Soul of his star into his emotions. Our Soul is our being and is a reflection of the Soul which created our Sun. As we always say, 'I made man in the image of Myself.' It doesn't come from cameras or mirrors, only from the collection of the fields. The man has learned about the DNA and RNA. Our physical life (represents) the DNA of our star and the RNA is the Soul of it. (They are within our Soul? And our Soul is a reflection of its emotion. Was the Soul that created our Sun a good Soul? (It's momentum is in our emotions), and all the planets and creations of this SS will have the essence of that Soul in them)).

(Then one day will our Soul, if it has gathered enough energies from the U going to be a Sun itself whose emotions will be reflected in its own creations. It will pass on itself through its RNA and M fields of the strength of itself, and will reflect back to it, by creating life like we have on Earth. It won't necessarily be like a human being, but it will

carry the memory of Earth life as part of its RNA. This is the truth about the reality of the Creation).

(Recently, our science was able to develop technologies that allow us to see in the dark. They call them Night Vision Glasses, and we can now see at night. Also technologies like the new cameras and mobile phones have allow us to observe when the energy of the body, or the STM gets released. If we get educated enough then we can trace where it goes, like following smoke. What would we find? Most likely the spot where it lands and how it MaGrav positions itself. What creations would it lead to in time? Would it create another cycle of life? And because it has the memory, emotion and fingerprint of the time when it was a man, would it create another cycle of killing like on Earth?)

(The biggest question we might ask is, whether or not the Creator and the World of Creation isolates all the Souls which were created on this planet, because they all can start killing again? Now they are trying to handle this virus by coming to the source and eradicate killing from the genetic RNA of this planet. But what about the 'Soul of the Sun,' which came from the same position, what happens to that race? This is why we have to change the man from inside. Man has to realize that he can use the energies directly from the U, and not take the packages the U creates. Then he can create new cycles of life at the point of the maturity (of his Soul)).

(Man's crime is that he does not allow the natural process to take place. When man and animals die naturally, and when its Soul departs (?? the P has an energy form that man can consume). (?? Instead, man has been killing the plants and animals before they reach their maturity). And this is where man needs to understand the process of Creation).

(We keep on talking about where our Soul will go, but what about where the fields of the Soul came from? (There would be no gold on Earth unless the fields of the Sun interact with the fields of the Earth, and through conditions manifest physical gold on Earth. It is the same with the man).

(Would it be possible for man in the future to leave a marker on his Soul? (?? That later we can say this is the Soul of the father, or whomever in another position in the U. We talk about immigrating to other places on this planet. Would we build walls to stop others from moving around. We've done everything on this planet to create borders and divide each other. But life of the Soul in Creation has no borders. There are no restrictions except by the strength of the fields that each Soul carries).

(The purpose of these teachings about the STM is for us to understand that when the Soul kills then it cannot elevate to reach the strength of the Soul of the Creator. Man blocks himself through his behavior from the time he is born. He blocks himself from reaching that point. However, when we create 'Children of Mitra,' and children from the STM, they will not be dependent on the physicality of the life on this planet. They won't have to kill to elevate. The scene will be already set for that Soul to be able to go to the higher point and reach the level of the rest of the Creation at the field strength of the Creator).

(We are shackled at birth from not being able to elevate to higher level. Because we get changed by the first mouthful of meat or whatever else we eat. (We know from within us, that we are killing another being). It's like the first mouthful of food has changed us into the lowest caste in the Indian system. Automatically our own behavior has put us in a class that cannot reach the elevation. This is why we are teaching you about the process of Creation through the Soul. Because if man learns to create his next generation through the essence of his Soul, then it will not know how to kill or destroy. From the very beginning it knows how to absorb energy from the resources of the U without killing. The love of the Creator rains on all the created things the same. It's us who puts up the umbrella and says, 'I don't want to get wet. I don't need the rain.' We have been brought up to kill by our parents and they feed us with it. (But then we deny it to ourselves and don't want to know about it)).

(Man has never endeavored to try to go to the next level. He never thinks about what if he doesn't kill, or destroy another energy package of plasmas, what we call a P, or a Soul of an entity. (If man stops killing the possibilities are endless. He will be able to expand his Soul. By killing he creates a prison of his own physicality around himself. He gets stuck by his own dimension. If he would receive that energy from the U, then he would have dimension of physicality and the Universe would become his "oyster."))

(The whole purpose of these teachings are for you to learn how to create Children of Mitra through the interaction of the Soul. And from the first point of life you'll teach your children how to take energy from you through your Soul. Then you won't go to the shop to buy meat, rice, bread, and whatever to feed your child by ending another life. We already know how to do it, because we've been born with that knowledge. We have been misled to not understand it. We call it love. It's the love of the mother and through her Soul she can feed her child, then the child doesn't need to kill for the energy. This is the next level of educating the man. your child already feels and understands your love. We hear our child say, "I love you dad, or I love you mom" Why don't we nourish that love. They feel the love at age of one or two, and the first words most of the children learn to speak is to say, "I love you". We can feed our children through that love then we don't need to commit crimes anymore. We don't take a gun and go and kill, and we don't put what we killed in their mouth. Instead we give them the essence of Creation).

(This is where the turning point comes. And it's the reason we teach all this about space travel, UFOs, and transmutation. We want to get you to see that you can create children that might love Me. Because if they understand (the language of loving Me, then they won't commit the crimes of killing, which ends up distancing themselves from Me). (The color of skin, race, religion, and creed doesn't come into play). Because the Soul is created within the body of the man, and it is fed through that channel (?? of love. You feed and teach it to love, and then it has already learned within the womb (how to feed itself. Then it does not need to take the breast of the mother to feed itself. The Mother has already connected to it through the interaction of the Souls. She has taught the Soul, that when it comes out it doesn't need to kill. (Because the child reduces the energies, and it uses the energies within itself and within the environment. (to create). (Through being humble the child receives the energies and grows with it))).

(A child of the man takes a year to learn to walk, because the man has decided to do it this way through his Soul, because he needed to confirm his existence. However, children of animals in the jungle, or savannah, learn to walk within a few hours of being born. For survival some can walk at the point of the birth. (We can change this in the structure of the STM, then we'll teach our children through our Soul, and they won't need to kill. They'll walk as soon as they are born through the motion of the STM. (?? It's not through the physical legs following ?? We need to interact with the Soul, physicality moves without)).

(It's how I moved the hands and legs of Naomi from behind the glass. I did it without physically touching her. It was done through the Soul. It's a gift we all have. We say that the Christ raised the dead man, but he rose the Soul and the P walked (through) it. This is what we mean by saying, we can feed the Soul and the Soul feeds the P, so that it doesn't need to kill. It takes the shape of the time, place and position (TPP), in what it loves to be. One minute it wants to be a man, another minute an animal, or even stone. It's all within the grasp of our control).

(By the same principle you won't need to study for years to understand something. By using the same channels as you do for food you get educated also, instantly. You receive the energy and Knowledge of Creation. I made man in the image of Myself, not in the physical dimension, but in the knowledge too. It's the same for the love, and with all the emotions within (?? ourselves). It's man who has degraded himself to this level. Then you'll see that it doesn't matter how old you are, whether you are 18 or 80, if you (reach that point you can create life in the essence of the Soul of the Creator. You can create a child with the Soul of Mitra, within the D of P. (?? It doesn't require a man and a woman to create life). Hasn't the Creator created all of us from Himself? Or who is His partner. Then you'll understand, that we haven't understood very much about what we think we understood. We haven't understood how we are created, or how our creation can change according to the emotion of the fields of the STM).

(Many times I have tried to teach you this using different games and different parts. Maybe now you understand it. This is why we established the Universal Council through the essence of the connection to the Soul. The Knowledge, or "the wish," as you call it. Actually, it's not a wish, it's the energy of the creation of peace within the man. It's for man to learn that there is another dimension, and that you do not need the physical contact. (You create (a child or anything) through the interaction of the fields of the Soul)).

(If any of you wishes to have a child, you can create that child, nourish it, and allow it to have its own existence. Understanding this brings you to a new D, where even the food of P is not needed. The life will be everlasting. (You just change your clothes. When the clothes get worn out then you change them. Physicality has a dimension on this planet. The Soul gets change into another dimension. If you want to stay here for a thousand or ten thousand years, you're quite welcome. All you need to do is to change your clothes when they get a bit dusty and too old)).

(Isn't this what we've been doing for thousands of "man's years"? A thousand years not even a second in the time scale of the Creation. We still have thousands of Universal years to live, not the man's years. If you say 1 year is the rotation of the Earth coming back to the same point, then if you do that for the center of the U, it will be thousands of years to make a rotation. We live for thousands of years in the cycle of the U. Then you understand how insignificant is the lifetime of the man. It is not even a second in the life of the Universal cycle of motion).

(There is another point to think about. Does the Soul travel in the same dimension? And how do the Souls interact with each other? They have huge tanks with jellyfish in the "Sea Parks" when you go to visit them. Stand back and watch the jellyfish, they rotate directionally from the top to the bottom of the tank. But they have no real tangible physicality we can see right through them. Isn't this the STM? Isn't this the way the STM behaves? Isn't this the way the contribution of the fields of the U allows our Soul to be dynamic within the structure of the Creation of the Universe?)

(If you then choose one of the jellyfish to watch, then you'll see how your Soul will travel in the D of the Creation in the Unicose. You still touch, you still go to the center, you still go to the boundary, and you still are everywhere. It's according to how the others accommodate you, and what your wish is. You'll never see the jellyfish banging into each other. They all know their position and distance, because they are "MaGrav positioning" through the emotions and feelings of their Souls).

(Then you can ask yourself this question, where and how you want to be (in the U). And as parents, would you prefer to bring a child up in the D of P, or do you want to create a child in the fields of the U as a Soul of Mitra. Then you'll have to nourish and teach it the ways of Mitra. Do you think you will love the children of the Soul any different than the children of P? Or would you become envious of them, because you cannot live like the one you have created. Because they are detached from P. Or will you learn from them how to become detached from killing and destruction).

(This is how the World of Creation works and has been laid out. We teach our children by our behavior, whether or not they'll become a "killing machine" from birth. Society makes it a crime if we kill another human. But it's okay if we kill a cow, sheep, bird, or grains of wheat and rice. In a way, we have become 'criminals of the criminals' and we decide who we're going to punish. If you kill another human, we kill you, but if you kill a lamb or a cow everyday, then you're a beautiful man, and we call you a butcher. How many butchers do we put in prison? Now you understand. It's us who has to change our understanding of Creation, and once we understand, then we can change the World of Creation for ourselves).

(We have classified killing and have given it different values within the structure of the physical life of the man. If one man shoots another man, then he's a murderer. But if he shoots an animal then we are proud that he is a hunter. We can make it so that from birth

we don't need to kill. What about if the hunter learns to love the deer from inside and enjoy its existence. Then they can learn from each other's love how to live).

(The time will come when man will learn that he's a criminal in both directions and dimensions. This is why we have to learn how to transmute and use the fields of the U. (?? The difference is that the matter state of the U has gathered life). (Killing any form of life should be the same punishment).

(This is why we first need world peace on this planet. The peace will destroy the system of killing. Man will look deeper inside and find a way not to kill. (Recently, humans have found a new trick to fool themselves. They say they are vegetarians and vegans, but actually they are killing more lives in their cooking pot in the shape of the Souls of the rice, wheat and everything else. We have created another lie (to feel good about ourselves)).

(This is why we need to learn to create Children of the Soul through the Ethos of Mitra. Then that child will never commit a crime. It'll be a perfect child. It will walk on this planet and be loved by every citizen whether it's a cat, dog, man, woman, a president, farmer, snake, or whatever. The first of that child is already amongst you. It's for you to find out (how) to live the path. The seed of the Creation and understanding is within you. It's you who has to enlighten it. It's for you to understand the process. It's for you to be able to draw the lines. It's not by country, race, or religion. (You have to draw the line, and decide not to consume other lives. (And take only what has been given)).

(That day is the "Day of Judgment," when you will judge yourself and you decide which life you want to live, the physical or in the D of the Energy. It's you who will bring that change. You don't need Prophets, and there is nothing to fear, nor promises (to expect). It's the point when you reach maturity. It's the point when you understand the truth about Creation, and not the fallacy the man has made up about his own Creator and Creation. We have muddled this thing so much and 'muddled the waters' so much that we don't even understand about ourselves or where we stand. It's so muddled that we just do what we like and then cover it up under the banner of ignorance).

(I hope you understand what this means. (We are at the beginning of teaching man how to use his Soul to feed himself, and how to use his Soul to create a new race of man, (one that doesn't kill). In tomorrow's Flight session you will have the first taste of this. I will bring you to the point, then you have to decide. It's good to transmute, but what happens when you get there? Are you going to start another mayhem, and be another sun that leads to the same creation of the life we have on Earth? Or are you going to create a life of perfection? In a way, we are at that juncture. (Do we stay with the way P has programmed the DNA and RNA to be dependent on destroying other lives? Or do we change our structure of understanding and move to another dimension, where we don't have to kill to live, but take what is given?))

(In tomorrow's transmutation some of you might see something totally different than what you are used to. There might be emotions that have never been apparent to you, and

understanding of a new dimension. If any of you wish to create a Child of Mitra, you're quite welcome to do so. It's you who has to decide, but it's not in dimension of physicality, it's in the D of the Soul. There is no limitation in the P of the man, as it can be replenished at any point through the elevation of the STM, when it elevates its own Soul of the Physicality (STP)).

(It'll be interesting to see how many of you tomorrow will reach that point. And when you come back, would you like to accept the dimension of physicality, or will you become the teachers for the others to learn how to elevate (their Souls). We are here just facilitating. It's you who has to educate yourself. We are the library with all the books. It's you who has to pick up the book, read it, understand it, digest it, and live by it. You live by your rules and nobody else's. There is no fear and there is no punishment).

End of Quick Index Part 1 - 551 KSW

(The new Youtube channel has been launched and it's a separate channel. This channel is strictly for the teachings of the KF and it leaves out the other parts. It's setup to be focused on the T and it's primarily for new people coming in. We have started working on a different international level, and this brings in a lot of new people to see what the KF is. The team behind it are trying to make the T reachable by everyone. Many new KS have difficulty with 3 to 4 hour teachings. It's too much for them. This channel has short teaching videos of 10 to 15 minutes each. It will bring the knowledge forward in a very rapid and understandable way. Part of the Brazilian easy education is there and part of the KF teaching. We are also trying to get it translated into other languages directly. There will be sections for the Soul, transportation, transmutation, and other things. And when you come into it you won't get lost. The team will build this up section by section. This will take years to build, it won't be done tomorrow. I have even started using it myself this week. There is still a very limited number of videos but it's enough to have a look at KF. We have to be very careful with videos we add to the channel that they don't violate copyrights or infringe on music and other things. Materials that are free for private use are sometimes not free for public use and we have to be able to tell the difference. It's for pure plasma knowledge from us and it will be used to promote the flight tests to prepare for the Iran Conference. We'll post all the new data here. We'll do this instead of having Blueprints Days. We'll keep regular alerts about what we are doing in research. (This will be the channel to find out what's happening in the KF). I hope you enjoy it and it brings a new dimension into the teachings. We don't want to flood this channel so that it doesn't get overloaded.

Q: Is information a dimension? Because for Creation first we need the information of the process of Creation. For example, creation of time and space first needs to have that information. Does the information of all creations comes first?

K- It's the story of the egg and the chicken isn't it? But this time it's more defined. (We know which part of the egg... The information is part of the structure of the communication. We all receive it. It depends how we communicate with it and how we

use that communication. (Communication) is the backbone of Creation. Even the thoughts, even the enlightenment is the process of Creation).

(Enlightenment is a kind of emotion, which we react to it and it becomes a knowledge, or it becomes a behavior. These are the things which we do not consider as emotion, but they are part of it, and it's the same with the knowledge and information).

(I have pondered about this from a very young age. Where does the information and knowledge come from? Is the natural process of $2 + 2 = 4$? Or do we have a 2 which is our thought and then the other 2 comes from the emotion or knowledge of the U? Or are we connected to the information, or do we create that information that makes the second 2 to equal 4? We say need is the mother of invention, but what is the mother of information? How does our brain connect that leads to that information, and new thoughts and new understanding?)

(Man has not unraveled this yet. Instead what he has done is to put it as Intellectual Rights, or call it, my thinking. But it's bunch of brain cells, it's a bunch of M fields we call brain cells that are stuck together. How do they connect to each other and come up certain conclusions, and sets of information? How come that information doesn't have barriers such as language. And when it come to us it becomes our language. We see and feel it at the level of understanding we call, our information. If you speak two languages, sometimes this comes to you. How does my brain automatically changes from one language to another? I dream in one language, I speak in another language, and I develop a technology in one language or the other. How does our brain process this knowledge? If I would have stayed with only one language, would I have received this information? And where does that information come from?)

(What is intellect? (Does the information become the intellect? How do our brain cells connect that they create the intellect? On the calculator you put 2 and 2 and you get 4. But we haven't yet built a computer that acts like our brain, then we'll be able to see how it works (and creates the intellect with that information). How does it create that information? Does that information sit in the Universal pool of Knowledge? And through certain strengths, do we have access to it without knowing? And is our knowledge added to the pool of the Universal Knowledge? Not all the knowledge comes from there. It's a two-way traffic where knowledge goes in and comes back out).

(For example, our knowledge of making motors and wheels has also been put into the Universal Knowledge. And if somebody in another part of the U wants to think about if he can go faster and do it continuously, and if he goes into the Universal Knowledge he will be able to tap into the knowledge that came from Earth. The Soul knows this knowledge came from Earth, and the guy from the other planet takes it and gets enlightened, and invents the wheel. We haven't understood this part of the knowledge yet).

(I've pondered on this a lot and this is one of the reasons why I oppose patenting, Intellectual Rights, (and the fallacy that all the information in our head is ours). How

does our Soul, and brain get so much information? Do we create it through the interaction of the Gans's and how do these Gans's find out the information? We never understood that we are working through the Gans's in our brain. Now we understand. Do we get a M field connection to the Universal Knowledge, the Bank of Technology and Information, which then becomes part of us? Then we analyze and compare it to what we understand on this planet, we make an Earth-like version of it. Then to the others who have not reached this field strength of the connection, we look like geniuses).

(This is why I keep on telling you that we are Universal Teachers. We have access to that 'Library' (of Universal Knowledge). We don't need much to do, because we have the key (to the Library). In the structure of the brain of me, there is a part that has a field level strength connected at the strength of the Universal Knowledge in that Library. It is not a building, it's a collection of fields. (When you ask about agriculture the answer I give you comes from this Knowledge. It's the same with the Soul, energy, (and everything else)). But it is for you to convert that knowledge into the physical D of the human. I have access to this information through the field strength of the Soul. (If you look carefully at my teachings you'll see that they are like the curriculum you get in a school. Go back over the 10 years of teaching and you'll see in year 1 we taught you this, and year 2 we taught you that, and year 3 the same. But in year 4 I referred back to year 1 when I told you what we were going to teach you. We are not recorders, we have access to the knowledge and we can explain it. (The man has not (yet) learned how to do this))).

(Up until about 50 to 100 years ago most of the Mullahs, Christian priests, and even a lot of Rabbis didn't have any education. Some memorized the Koran or Bible and others pretended to be reading it. For example, in Iran your schooling was to listen to a Mullah read the Koran you didn't learn math or physics. If you didn't know how to read, how would you know the guy was reading the right thing?)

(But today we have the capability of connecting to the Universal Knowledge. And this is why we promote transmutation, because you can get access to the same enlightenment. You say you went to this planet and saw things, or you became a mermaid, and whatever. It's because of the freedom of the fields of the Soul that you are getting access to universal information. But you can't describe it (as a knowledge), so you say you went to this or that place. (This is the capacity of what your brain can understand, and the people around you can comprehend. It fits into their understanding)).

(He talked about in the Islamic world they had the people called ?? Hafez and they would come and read the Koran for you. They memorized by listening to someone else read it to them. So if that person made a mistake then his student memorized that mistake and gave it to others. For the most part they themselves didn't know the meaning of the text). (In a way, this also protected the religious ruling structure because nobody could question them. It was the same in the Catholic Church).

(When we learn how to access the Universal Knowledge and use it to make something, for example, a cake. That information does not belong to us anymore. It really becomes the 'cake' of the U, because the knowledge came from the U. We want to think that it is

ours. The minute we talk and understand something, then we have created a M field, and they are connected everywhere (to everything). So how can patents and Intellectual Rights have any meaning? But in the past few hundred years, the man has made it this way).

(Where does the information come from and what does it do to me? If you learned to make a cake and you added something new to it, like a new texture, taste, or whatever, then that emotion of joy which it gave you gets registered and becomes part of your Soul. And that now becomes part of the Universal Knowledge in the Library. When someone from another place in our U or another Universe sees what to them is like our flour, and in their emotion of wanting to do something with it, they get access to (the knowledge of what) you already made, and then they make their equivalent of the cake).

(In the Islamic World they say that God said, 'I made you to make children that they might love Me.' But it really means, I made you to create knowledge and information, so that it brings peace to the others I made. (Then there isn't the limitation of loving. Rather the knowledge and the emotion from that knowledge is shared and becomes the knowledge of the whole U). Your knowledge becomes my knowledge, because I am you. Man needs time to understand this. This is why we oppose patenting. But we are using the patents to reach as many people as possible. Man created the patents as a tool for stealing from each other, and we are using that tool to teach you not to steal).

(I battled with Dirk Laureyssen about submitting a patent. When I understood the power of it we put in the patent and started spreading the knowledge as fast as possible. We did this by opening the patent and we gave the knowledge to everyone. But in reality, the patent does not belong to humanity anymore, it's part of the Universal Knowledge Library open to all Souls in the Unicose. You access the information through your Soul, or through the interaction of fields of your condition, your knowledge. (Then as you create new knowledge with it, it becomes part of the total information in the Library. When you transmute it's not just that your Soul goes somewhere else, your information goes along with it. It's not exclusivity of the physicality)).

(I compare it to the modern European way of living and raising children. In the old days it used to be one father and one mother. The father worked and supported the child until it was old enough to take care of itself. Now in Europe the whole nation supports to bring up the children. They have child protection agencies, and you get payments from the government to have children, they pay for educating the child, and everything else. Nowadays you just have to give it birth and then the nation and the whole continent takes care that it grows up good. Now children are the property of the whole of Europe. The parents now just hold the key to the house and the children in the house belong to the whole continent. It's become a collective parenthood, but we cover it up under different names. That knowledge of that child collectively belongs to for example, Germany, and the EU uses it).

(The same exists in the bigger structure of Creation. We are children of the Creator and our knowledge belongs to the whole of the U, the Totality of existence, and it's not an

exclusivity. Because in the U there is no physical body to restrain it. It's what I call, 'Social Childhood,' that has been structured in Europe. We pay the parents to look after the children. And the knowledge is shared and everybody uses what they need according to their culture, but in essence it's the same knowledge. This is the way it works in the U. Once you understand something, then that knowledge is not yours anymore, it's belongs collectively to the Universal Knowledge (UK) Library. It's up to you to access it. (?? As you receive more knowledge your level goes higher and you get access to higher levels of information)).

(?? The knowledge goes out and creates, and as you create something from that knowledge and add to it, it expands and becomes part of it. On Earth we are used to making a library and locking it. You don't want to understand that through the Soul and interaction of the fields you are connected to UK Library. You have denied yourself access to it by killing, and creating conditions that the emotion of the Universe does not accept, like jealousy, and the rest of it. We like everything to be "virgin" (untouched) and we want to be the first ones. But we don't understand, we have never been the first, it's always been all of us. It's never been just me).

(Once we understand this it will be so easy to bring up the Children of the Mitra, because they have access to the UK Library, the same way I do. And they have access to all the Universal energy so they don't need to kill. We talk about going to see London, they talk about going to Moon, Mars, and other planets. They've been in the sky and the rest of it. When we don't understand, then we say they are crazy. They are born as citizens of the Universe. When they are on this planet, they behave like the rest of us so they are not singled out and stigmatized. When they go to Mars, they live like Martians. This is the beauty of the Children of Mitra, they are a creation of the Soul).

(Is it information, or is it enlightenment? It's for you to elevate and connect the two parts of it. (If you become detached you can let your Soul be free. ?? Partially, detachment gives you access to the Universal Knowledge Library). It is not the exclusivity of Mehran Keshe. We are teachers. We don't bring any messages. Those who are Messengers are the thieves, because they didn't bring the whole message. When they were given access (to the Knowledge) they stole (other things that suited) them)).

(Is the information you receive yours? Or through the action of the fields you create a new dimension (with it). In the very near future, those Knowledge Seekers (KS) who understand the science will make computers out of Gans's. (These computers will be a living entity and if you put all of the computer servers that exist today on this planet, they will fit into one micro millimeter (of the Plasma computer)).

(I brought the Gans's out for the future of humanity, and to add to the knowledge of the Universe. (They are for understanding the basic corners of Creation in the energy, plasma, and M field connection). Your body on this planet needs calcium to structure itself to become a brain. When you make Gans's you're connected to the Universal Energy and that plasma carries the connection, the same as your Soul does to all the information in the Universe).

(In time, when you understand, you'll find out that I gave you the gift of the Creation from the Creator, but you're still deaf to it. All the nations on this planet can rise against me and the Keshe Foundation. But they'll never succeed because it's not mine, it's the Knowledge of Creation. (There are Souls who will put it right, they protect it because it's theirs). But you don't understand and you say, he gave us the MaGrav and this and that. But you never understood what it is for. You have not even contemplated 1 billionth, of what the Gans's are for. Then (it's) an information)).

(Your brain cannot do it, but through the structure of Gans's, can you access the Universal Knowledge? Yes, you can. And would that become the knowledge of everyone? Then how can you patent knowledge. It's like on the land we make borders, patents are borders in the intellect. We make weapons to stop anybody else from taking what is mine, or so we think. I call this colonization of the intellect. Those who are benefiting from it, protect it. Those who understand how it is an abuse, fight against it. But you don't need to fight, because the knowledge is free and you can access it yourself. You receive the knowledge free and the knowledge you add to it becomes public to the whole Universe. But if you abuse it, you lose it).

(So, which came first the chicken or the egg? Is this your information or was it already part of the Universal Knowledge Library. Because we know that the plasma and M fields that created our plasma are connected to every cell in the Universe. We have access to it and yet we claim it to be ours. Maybe we put some of it in ourselves, and the others can use it).

(Mr. Keshe tells a personal story about his grandfather being taught to read the Koran by Mullahs). (This is how the knowledge has been abused, especially in the name of religion. People who do not understand what they are teaching others abuse them, because the others believe they understand. But nowadays they send mullahs and priests to universities to educate them. We need to teach the man to educate himself, and not just blindly follow things. This time we educate the Soul to get access to Universal Knowledge and the essence of the Creation, which is the Creator).

(And we are just teachers. We bring the message for you to understand, then it's for you to educate the others, not anybody else. (You have to teach yourself the correct way, but everyone will take according to their own ability to understand. It's us, who have to understand us. Not us trying to force what we don't understand or misunderstand to the others. This will give us access to the Universal Knowledge and information)).

Q: There are a lot of spaceships in this U and possibly the Unicose, that have a dynamic triple layer protection, a shell protecting the Souls, encapsulating the Souls that are in that spaceship. How does the Soul of Existence, the Soul of Creation, and the Soul of Totality relate to the dynamic triple layer spaceship encapsulating the totality of Souls within the Unicose?

K- This is what our scientists today are tackling and trying to understand. (In Iran we want to bring in a suitcase and open it, and create a spaceship. But when you look at the structure of the spaceship it's created from three different dynamics. It's the interaction of the three dynamics that gives it manifestation of physicality. Sometimes our people feel the energy of the dynamic of the skin, of the touch, and sometimes they need to understand what is touching them).

(The D of physicality is created by the interaction and combination of different fields, they have to accommodate (each other). But it has to have a Soul to be able to accommodate. Once we create the Soul and conditions for P, which created that Soul, then we can give it the physicality).

(We have already built this machine, or spaceship in a physical sense. It creates its own physical D. We have it today, it exists. It's not something we're going to do tomorrow. Our scientists have to understand their relationship with what is needed to bring the fields together, and then once they come together, they have to understand what energy they (are bringing) to create the Soul. And once the Soul is created using the same material, the same energy, they have to create the physical manifestation of the craft. In a way, today KF laboratories are creating the Soul of a machine, which has all the emotions and it's like a child, it will give birth to its own structure. But through knowing how we can position it, we are dictating the shape of the structure. We can control it (to be the shape of a man, UFO, spherical, triangular, or to any shape)).

(We have created 3 dynamic layers, which allows the interface with the outside, and accommodates the inside and outside, and the inside. We have the three layers. It's like the skin where we have an outer layer to separate us from what's outside, and the middle layer is to mediate between the inner and outer. It's a kind of 'no-man's' zone, and it's why the diseases come here. Skin problem appears in this middle layer, because it has to accommodate what is inside. The inside layer controls your emotion, P, and Soul. So, if it doesn't fit with the outside, then you get blisters on your elbow, or crooked eyes, and the rest of it. It's interactive. (How you create new layers we call cirrhosis on your elbow or whatever, is exactly the same way we make the spaceship). It exists and has emotions, but you have to get the mixture right. You have to get the field interactions right, that their interactions from the top will give it physicality. (When all of it is right then like a click it manifests itself)).

(When I saw this structure the first time, two emotion comes. One is fear and one is exhilaration of having understood the Creation. And (one needs to handle this with humbleness and understand that a gift is being given), and it's not mine. And then with it, through your emotion, you construct the structure).

(In the body of the man we create a child, but with the Children of the Soul we create another dimension of life. In Isfahan we hope to create a spaceship, and (it will be a) 'Soul of the Creation.' (If you have the understanding, when you enter the Craft, its like you'll become an organ of the Craft, like a kidney). Then you'll be fed by the system. You don't need to kill, and there are no dining rooms to go and eat. I know what is to come,

and what it needs to be done in Isfahan. And I have started preparing my physicality for that point. Because you have to be able to transmute (?? to use it). It doesn't have doors on it).

(I wonder if the Ayatollahs of Iran can enter it. Or if the world presidents will be able to enter it, wherever we will show it. It needs the understanding of the interaction of the fields and the Soul of Creation. At the moment, we are like that individual cell being created, it's dividing, and moving to create that central Soul, plus what we have brought in to create it, we will give it the manifestation of itself. This machine exists today, we have built it).

(It's to understand how to feed. You cannot put too much salt in the middle layer, or you'll get psoriasis, and if it is too little you'll get infections and make holes in the skin. So everything needs to be correct. For it to solidify it needs to have salt. And our scientists have not understood, nor have they grasped the concept of salt. Once they do, the creation will be complete and you will see it in Isfahan).

Q: In the history of the man there seems to be inventions or discovery's happening at several places on the planet at almost the same time. (Are people receiving information from higher dimensions, or is it just be accident?))

K- (No, it's quite possible. The best example of it is nylon. Nylon was patented within hours of each other in London and New York. It's a progressive sharing of the knowledge on a different level).

(He talks about how Musk took over Twitter and calls it "X" and is using it to control and dictate communications and the Internet. Before it was Fox News controlling all the (Medias around the world on what news they can release). More or less Musk is claiming to be a free channel, but it is actually worse than the Fox. It's being used to control what he wants. Musk knows about the (KF) work and what is happening with the knowledge around the world. His "X" machine has maybe another 2 years before it will come to zero. Once we show the things in Iran his wealth will come to be worth zero. He's taken the dimension to control knowledge and the public).

(Would their control lead to the others understanding the same thing at the same time? How many old Twitter accounts have been closed, or are not allowed to run, because he doesn't like it, and it (gets) worse).

(We need to open communication lines beyond the D of man, so that nobody can control it. Then at the same time we'll see the same invention appearing in a 100 different places. We have set the roots of this through the Cosmic (Ray Bundles). Gradually you will understand. The others who are connected to the same system will understand you without physical communication or talking. They'll understand the field strength of the knowledge, or have access to it. Then they will come up with the same knowledge as you at the same time).

(The Cosmic Ray Bundles will open you to the Universal Knowledge Library if you understand it. I give you pieces that you don't understand. But those who understand will know that I have given you one of the biggest gifts man has ever received. You'll be able to reach the Universal Knowledge Library. There are no satellites in the U, it's called Cosmic). (We are Universal Teachers and I'm not the only one. Because as "we," we educate the others to become).

(There's no exclusivity with the Universal Knowledge, but there are many fools on Earth who will claim it. Musk's work has a maximum lifespan of about 3 years. No one will buy electric cars. Because once you understand how to build the spaceship according to the wish of your Soul, would you buy something dangerous from somebody else? Or would you build a structure that protects you according to your emotion. In a way, your vehicle will become another part of the layers of your skin. But this time you can allow everything inside it, and you create a barrier. My child and friend can come in, or I can put what I bought shopping in here).

(When I look at Musk, it makes me laugh, usually they say the guy's got 20 to 30 year lifespan. The way the KF is developing he won't have a chance. Would you pay 100,000 dollars when you can make it for 50 dollars. It will be a vehicle that loves and protects you, and can't crash, you can't be killed with it, and you can go places. The first series of these systems are in production).

(If you can communicate in different dimensions and go to Mars within minutes, do you need Space X? For the people trapped in Spacelab give them a telephone line and we can feed them. You won't need somebody to bring them down. These machines are already in existence and are getting tested).

There is no hierarchy with Universal Teachers they are all the same.

Q: You said, there are other Souls in us that can guide us. And we can refer to them.

K- No, you see. Every part (of the body) has a condition and a Soul, within us or outside us.

((It's too hard to untangle this part). Briefly what I understood is that for mammals the reproductive organ is opposite the Soul, and when the child is born it takes separation from the mother, and that's just like when the STM separates from the STP at death and starts a new life. We are a copy of our mother with some different parts added from the father and ancestors. So they say the child has the lips of the father and he gave an example of that. So what we should think about is that we were given different features of our ancestor, but were we also given a part of their Soul. Does part of their Soul exist in us? Then this makes up all the different Souls we have inside us).

(Mr. Keshe studied this quite a lot and discovered that the different features we inherited also bring certain behaviors of the Soul. We are an amalgamation of the different field strengths. And they bring certain emotions. In the matter state we say, it's because of

genetics. But the genes and amino acids ?? are connected and have a Soul. We carry the Soul of our ancestors and their features. We have the Soul of everything within us because we are all connected and created out of each other).

(He talks about the US presidential race and how a blonde man is claiming to be different then a woman with black and Indian ancestry. But the truth is without the Africans, the Whites would never have been born, because they are a mutation of the Black man. There is no reason for race and religion separation, it's because we don't understand the truth about ourselves and Creation. Ignorance doesn't come in the shape of presidency, it comes in the shape of humanity).

Q: Can one feed oneself by placing Gans patches with different ratios on opposite sides of the aorta?

K- Listen to the teachings the of past 10 years where we speak about this. First of all, it's forbidden to use Gans's, because it's an energy pattern that your body cannot absorb. Some people claimed they ate Gans's. We said very strongly from the start not to do this. If you do it anyway it's your problem. When a naughty child doesn't listen he always punishes himself. Secondly, we always spoke about using a gradient of strength in the plasma. Something you haven't understood is that some of the cells of your body are actually stronger than the patches you put on either side. In effect, you are actually feeding the patches, they're collecting what your body doesn't need, so the patch takes it).

(To feed yourself you have to understand when you are weaker and when you are stronger. You may be feeding the patches. Watch how they change after interacting with your body, (if the lines are stronger or weaker). Because a Calcium is in the center of every single cell, without which the cell won't exist. So it's already stronger than your patch. There are some foods that take more energy to digest then you receive from them like celery and grapes. (Understand what you're doing and the system of your creation. Don't just do things blindly. I can make a Gans mixture that will feed you for centuries)).

(Mr. Keshe again speaks about women in their 70's becoming sexually active. With the plasma T you don't need to lose your vitality nor take tablets to try to get it. It's all about the emotion of the Soul. He explains how menopause came from the women's emotion of not being able to take care of a child after 35 years of age, so they stopped the menstruation. You'll be able to give birth at age 90 and today's society is setup to look after the child, so you don't have that worry. And that the menopause of the wife can lead to Parkinson's in men, because they don't want to be unfaithful so they take care of themselves. He talked about this before in other teachings. The key is to remain active throughout your life and don't let the retirement age of 65 stop you. That's when all the diseases start in men or people who don't have anything else to do in their life. The Pensions and Insurance wager the investments they receive from you, on when you will die. They have calculated that you should die within 5 years of retiring, and this is because you don't have anything to do. If people start becoming active then they will have a problem paying out the pensions. KF is doing trials on using the T to help with this together with one of the large companies of the world. And this will force

governments to bring changes in the social and financial structure. I came to all of you and asked for financial support to help this process, so donate as much as you can, because it's for your next generation). These services have to be provided by us collectively as a One Nation.

(Come to tomorrow's Flight Session without us having to give you expectations. We are providing the fields and conditions for you to do what you want. We don't plan it for you. The Cosmic Ray Bundles can be used with the KF Glasses if you have them. Some people are asking to purchase them but they take a lot of time to make. If there is enough interest we might open up production for a certain number to help you get started with transmutation process on your own). (The only problem you are having with the transmutation is learning when to let go. When your P wants to move you have to let go. These Glasses are part of the transmutation startup. We are developing a much more advanced version. Come into the session and see what you would like to enjoy doing).

(Rick shows his original copy of Book 1, signed by Mr. Keshe. The very originals have all the English mistakes in them, but they contain an unedited version of the knowledge. Edition 2 was edited by a lady who put her own ideas about what she thought it meant. So it has been altered, nevertheless, you can sort it out).

(Back in Italy years ago, Marco was working on creating a brain out of Gans. But now no KS wants to work on it. It can be made very easily because now we understand more of it. You can make a computer that is alive).

A series of questions were asked that Mr. Keshe could not understand to answer.

(Adding anything to a plasma is not the exclusivity of your Soul's emotion, any intention can be added to a plasma and it always depends on whether or not it fits into the structure of that plasma and if it has the right strength to be part of it, to be absorbed, to be increased. It doesn't need to be in motion, you can put a Gans next to it and it will act the same).

(The Americans don't believe in the Iranian nuclear physicists, so they won't allow us to save their lives. Recently he showed documents stamped by Japanese authorities to people who were connected to TEPCO, the Atomic Agency in Japan overseeing Fukushima. They said how much the Americans lied to them. We stopped offering these things to the Americans because it's just a waste of time. These people are so arrogant and they think they know everything so it's better not to get involved. We stay out of it. They have Mr. X to save them).

(He shows a picture of a carving that are on many Catholic Churches in Italy. It depicts the killing and burning of witches and what they called, heretics, and anybody that didn't agree with the Church during the Inquisition. He said, there is no difference between this and the Keshe Foundation today. So, we're still on the same persecution by the same ignorant people, and they still believe in the same Church).

Q: How can we understand that the constructive interference of the scalar fields of one or more elements has taken place? Is it possible to see the interference of these fields by having a witness like salt water?"

K- (If you don't put separation between the scalar fields and ... But you have to understand even with that, look for what comes in, and then what goes out. And there is a technique in detecting this).

Q: Does feeding oneself come naturally from transmutation. Will those who still want to kill be able to transmute?

K- (It comes by the decision of the Soul. There's no gray area on it. We understand the dilemma the human race is in and how it needs time to change. We understand this position clearly, and know what needs to be done. But your Soul has that power to do so. There are some concessions given for the transition time. And as you transmute more then there is no need for the killing. The structure has to be changed in the RNA and DNA and it goes with the rest it. The structure changes from inside and is not forced).

Mr. Keshe talks about the situation in Iran and updates on the Conference.

(:13)

K- Yes, thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to these series of Knowledge Seekers from the Keshe Foundation Spaceship Institute.

The life of the man has a limitation of physicality, but the life of the Soul of the Man (STM) has no dimension of physicality (P), no dimension of termination. It always converts to another, or it amalgamates, or starts a new life. But what is interesting is that when it starts that new life how much memories of his time in the body of the man it remembers. What is imprinted in that Soul? (:14) When we receive the rays of the Sun which becomes part of us, whose Soul that Sun has been, that it's become the seed and then it become a star, that it led to the Creation of the planets and then the man and the rest of the Creation in this Solar System (SS)? We always look where our Soul is going to be, how is going to be, we never look that what we become in some point or another has been part of the Soul, or is the Soul of another created things, that has been in a position,

it has elevated itself to the level that it could become the seed of a Sun, which its rays has become us.

And there is no other truth beyond this. And that is when our Soul takes position in the World of the Creation in the Universe and the Unicoise, what star shall we make? And what creatures, what kind of life will come out of it? And most importantly, we transfer energies, we transfer emotions. Would and is, how the man is today, (:16) has come through the Soul of his star, which has reflected in his, what we call, emotion and has created the man the way the man is today. In a way is our Soul, is our being, reflection of the Soul of the Soul which has created the Sun. 'I made man in the image of Myself,' there is no cameras, there are no mirrors, only collection of the fields. We speak about the DNA and we speak about the RNA. Is our physical life the DNA of the star? And is the RNA the Soul of the star? Which is within our Soul? And does, or is our Soul reflection of its emotion has it, has the Soul, we call it the Sun, the Soul which led to the Creation of the Sun, has been a good guy? That he was or it's what you call it, momentum in the emotions, has led to creation of this star, that we know as a Sun, as our creator, as essence of our creation. And was, or is the manifestation of the life the way we see it depending on which condition we put it earth, moon, Mars, in essence all will have the Soul of that who created the Sun. (:18)

Then you understand, is your Soul one day is going to be that Sun, which gathers the energies of the Universe, and in its reflection creates another life. And through his RNA, through the magnetic (M) field of strength of his creation, reflects back, in creating life like Earth, like living thing, not necessarily like man, that reflects his what he carried as memory, as part of RNA, in the time of his creation. Is this far from the truth? Or is this the reality of the Creation?

In the present world of science we could not see in the dark. We developed technologies that we can see in the dark. Now there is no darkness in the way we have a vision. We can see. With the new technologies like the new cameras and the mobile phones, we have observed many times when the energy of the body of the man has been released. So we see it for the first time and I've said this before, the energy of the man, the energy of the STM. What is left for us is to trace it? If we get educated enough is like a smoke we follow it to see where it goes. (:20) And then, would be fine in that position, the spot where it lands, where it finds its MaGrav positioning, would it create in time? Would it create another cycle? And due to his fingerprint, due to his memory, due to his emotion, which it carries from the time of being the man, would he create another cycle, which end up in killing?

Then the biggest question comes, has the Creator, has the World of Creation isolated all the Souls which are created on this planet, as they all kill? And now is trying to handle this virus, and they come to the source to eradicate killing from the what we call, genetic RNA of this planet? But what about the Soul of the Sun, which came from the same position, what happened to that race? Then we understand why it is necessary to change the man from inside. That he realizes he can use the energies of the Universe (U), than

the packages that the Universe has created for it, to create new cycles at the point of maturity. (:22)

The crime of the man is that he does not allow a natural process to take place. When you die naturally, when animals dies naturally, when the Soul of it has departed, is that physicality in the energy form at the level that man can consume? Or does the man has to stop that point of maturity by killing the animal? By harvesting the food? By harvesting the weed? Harvesting whatever. This is where man needs to understand the process of Creation. We keep on talking about where would our Soul go, but we have to stand still. Where did our Soul come from, the fields of the Soul? In the essence there's been no gold unless the field interaction of the Sun with the field interaction of the Earth has created a condition that it has led to the manifestation physical structure of this ?? Earth. On it, in the matter, in the essence, in the physicality of the gold.

So it's the same with the man. Would it be possible for man in the future to leave a marker on the Soul? That when that Soul goes through that marker, it can say this is the Soul of the father, (:24) or this is the Soul of this, or the Soul of that, in that position in Universe. We talk about man immigration on this planet. And we build walls to stop one moving from one to another. We've done everything, created the borders to be. But in the life of the creation of the Soul, there is no borders. There is no restriction except by the strength of the field that the Soul carries.

Then you understand the purpose of the teaching. The STM, the Soul of the created which kills has been gathered like in a part in a dimension (D) that cannot elevate to become, to reach the elevation of strength of the Soul of the Creator. The man behavior has blocked him by his own action from the time of the birth to reach that point. When we create the Children of Mitra, when we create a child from the STM, which is not dependent on the physicality of the life on this planet, to kill to elevate, we already set the scene for that Soul to be able to go to the higher point, to be able to reach to the level of the rest of the Creation in the level of the strength of the field of the Creator.

In a way, at birth, we have got the shackles of not being able to elevate to higher. (:26) Because the first mouthful of meat, whatever other thing which we have killed for, comes within us, it has changed us. It has made us to be what you call in Indian the lower class (caste). In a way our own behavior of physicality has put us in a class of behavior that has not, cannot reach the elevation. This is why we brought and try to understand the process of the Creation through the Soul. Because if man learns to create his offspring's through the essence of the Soul, that created things does not know how to kill, does not know how to destroy, because he has learned from point one to absorb energy from the resources of the Universe without killing. The love of the Creator rains on all created the same. It's you who puts umbrella up and says, I don't want to get wet. I don't need the rain. By behavior, by killing, by the way we've been brought up, because our parents kill and they fed us with it, to us is known, we have come to a point of blanking. No. We don't want to know.

Man has never endeavored to go to the next level. What about if I don't kill, what about if I don't destroy another package of plasmas, we call it the physicality, or the Soul of entity? (:28) What happens then? There is so much more. The expansion of the Soul become limited because man has limited by killing his own prison, his own physicality, his own dimension, where when you receive that energy from the Universe, man has no dimension of physicality, the Universe is your oyster.

And this is the whole purpose of these teachings, for you to learn how to create Children of Mitra, through the interaction of the Soul. That with it, from the first point, instead of going to the shop and buy the meat, buy a rice, buy a bread to feed it with, ending another life to do it, you teach it how to take energy from me through my Soul. We know how to do it, we've been born with it, but we have misled to understand it. We call it the love. The love of the mother through the Soul can feed the child, child does not need to kill for it. This is the next step of understanding, the next level of educating the man. "I love it." How come the child feels your love? How come he understands your love? Have you ever heard your child, when the child says, "I love you dad, love you mom"? Why didn't we nourish that love, if she felt it at the age of one or two, the first words most of the children learn, is to say, "I love you". (:30) What about, I feed you through that love that you do not need to commit a crime, I don't give you the gun to go and kill, I don't put what I killed in your mouth, but I give you the essence of the Creation.

And this is where the turning point comes, and this is the reason we do everything about space travel, UFOs, transmutation is to get you to see this point. Create children that they might love me. Because if they understand the love in the language of me, they shall not, they do not need to commit the crime to distance themselves from me. This is where the color, the race, the religion, the creed doesn't come into play. Because you create that Soul within the body of the man and you feed it through that channel. You feed it through and you teach it to and then it's learned within the womb what to take, does not need to take the breast of the mother to feed itself. Mother has already through the structure of the interaction of the Soul connected to, has taught the Soul, when you come out, you don't need to kill, because you reduce the energies, you use the energies within you, within the environment, to create, (:32) to become humble that you receive, and with it you grow.

A child of the man takes a year to learn to walk, because that's the way man has decided through his Soul, I needed to confirm my existence. A child of the animal in the jungle, and in the savannah, they come out of the mother and within the few hours they are ready to go. Some within the point of the birth, they already know how to go (walk). If we have changed that, in the structure of the STM, then we can teach our children this through the Soul of us, that they don't need to kill. They walk when they come out directly through the motion of the STM. Not the physicality of the leg of the man and the leg can follow, does not matter what. We need to interact with the Soul, physicality moves without.

And I've said that many times and I refer to it many times, maybe now you understand in a deeper way when I moved the hands and the legs, of Naomi being behind a glass, never been in touch with (without physically touching her). It's a gift we all have. We say the

Christ raised the dead man, he rose the Soul and the physicality walked with it. This is what we keep on saying, we can feed the Soul and the Soul feeds the physicality, that the physicality does not need to kill, (:34) just takes the shape of the time, place and position, in what it loves to be, a minute the man, another minute an animal, another minute the stone, because all is within the grasp of his control.

And then, you don't need to study for years to understand anything, you're already through the same channels, educated to go, you receive the energy, the Knowledge of the Creation. I made man in the image of Myself, not in the physical dimension, but in the knowledge too. The same as in the love, the same as with all the emotions within me. It's man who has brought himself and degraded himself to this level. Then if you understand this, does not matter the age, 18 or 80, if you come to the point of creating life in the essence of the Soul of the Creator, you create that child, the Soul of Mitra, within dimension of the physicality. Then you understand does not need a man or a woman to give life. Hasn't the Creator created all of us from Himself, or who is His partner. Then you understand, we have not understood much about what we think we understood, (:36) and how we are created from, and how our creation can change according to the emotion of the fields what we call, the STM.

Many times I try to teach this to you, many time with different games and different parts. I try to bring for you to understand. Maybe now you understand. This is why even we established the Universal Council, through the essence of connection of the Soul. Knowledge, the wish, you call it. It is not a wish, it's the energy of the creation of the peace within the man. For man to learn, there is another dimension (D), that you do not need the physical contact, you did not the physical presentation, but through the interaction of the field of the Soul, you create that.

Now you understand, how any of you who wishes to have a child, can create that child, nourish it and allow it to give its own existence. And if you understand this, you understand the point of this understanding brings you to a new dimension, brings you to a point that even the food of the physicality is not needed. Life become everlasting. It is just you change clothes. (:38) It wears off (out). You use the clothes and now it start getting torn. You put it away, you buy another one, you can choose a new clothes. Physicality has a dimension on this planet. You change the Soul into another dimension. You want to stay here for a thousand years, ten thousand years, you're quite welcome. All you need is to change the clothes. It's a bit dusty and its got torn, it's got old.

Isn't this what we've done for thousands of years? Man's years, and maybe not even a second in the dimension of the World of the Creation, where we still have thousands of years to live. Not the man's years, but the Universal years. If you call one year the life of the man, the rotation of the Earth coming back to the same point, now take one year and the further distance from the center of the Universe and let it come back to the same point. We live in thousands of years in the cycle of the Universe. (:40) Then you see how insignificant is life of the man's lifetime. It is not even a second in the life of the Universal cycle of motion.

But there is another point, does the Soul travel on the same dimension and how do the Souls interact? One day, when you go to what we call, "Sea Park", to the Safari Park or whatever, and you come across these huge tanks usually, with jellyfish in it, stand still, stand back and look at them. You will see they usually rotate in a directional ??. But you see they go from the top one to the bottom but they have no real tangible physicality we just see through them. Isn't this the STM? Isn't this the way the STM behaves? Isn't this the way the contribution of the fields of the Universe allows our Soul to be dynamic within the structure of the Creation of the Universe?

Then stand back and choose one of the jellyfish, and see how your Soul will travel in the dimension of the Creation of the Unicose. (:42) You still touch, you still go to the center, you still go in the boundary, you still are everywhere, according to what the others accommodate you and what is your wish to be. You never see jellyfishes head banging. They all know their position, they all know the distance, they all understand MaGrav positioning through the emotion of the feeling of the Soul within it.

Then ask yourself this question, where and how do I want to ?? (be)? And as parents, as fathers and mothers, would you prefer to bring a child in the dimension of physicality, or would you create a child in the dimension of the fields of the Universe as a Soul of the Mitra, and then nourish it and teach it the way of Mitra, the way of ??. Do you think you love the child of Soul any different than the child of physicality? Or would that become envious for you, that you cannot live like the one you have created, detached from physicality, or you learn from it how to become detached from killing, from destruction. (:44)

Then you understand how the World of Creation works, how the whole structure of the Creation has laid out. It's us, by behavior, teach our children to become a killing machine, from birth. But now we make it criminal if it kills one of us. But it's not criminal if he kills a cow, or a sheep, or a bird, or a wheat. We have become in a way 'criminals of the criminals' and we decide who we're going to punish. If you kill one of us we block you off, but you kill a lamb and a cow every day, you're a beautiful man, you're a butcher. How many butchers have you put into prison? Now you understand. It's us who has to change the understanding of the Creation and with it, once we understand, we change the World of Creation for ourselves. (:46)

Why have we classified killing and have given it different value, in the structure of the physical life of the man, we take a man, shoot another man, he's a murderer, we give a man on his back, we send him to the woods as a hunter, and we are proud in what we ?? eat. Why don't we take that weapon from the birth from both that they do not need to kill? What about if the hunter carries the emotion of the inside of the love when he sees the deer with the love it brings it to. Enjoys its existence and they part with earning, learning from each other's love and how to live. Has a bullet, written on it, different crime. If the gun is in the house to go for shooting, and animals, and you're a hunter, and you are proud, you take the same gun, the same bullet, and kill the man, you have committed a crime and you are in prison.

When the time comes, man learns that he's a criminal in both direction and dimension. This is why we have to learn how to transmute. (:48) This is why we have to learn how to use the fields of the Universe. Then the matter state of the Universe which has gathered life. This is the difference. We are criminals and in that point of criminality we have like gangsters with different values for our gang than the others. And anybody who commits a crime in the gang, we punish. You can kill anything except man. And if you kill a man, you committed a crime. But you can kill as many as animals you like. Where does the sanity of this comes to a man. Do we give a different punishment if you kill a black man, a white man, the yellow man, the dog, the cat, the fish, the pig, the cow? Now you understand, why man first needs world peace on this planet. That in that peace, that in destroying the system of killing, then he comes to understand, I don't kill myself race, why should I kill other races? Then man looks deeper inside to find a way not to kill. We have found a new trick. We are vegetarian, we are vegan, but we kill more in the pot in the shape of the Souls, in the shape of the Soul of the rice, the wheat and everything else. (:50) Because we have drawn another lie. What walks you kill is criminal. What doesn't walk has got no mouth, cannot make any noise, I eat so he doesn't say anything I'm not a criminal.

This is why we need to learn to create children, nothing but the only way through the STM, through the Ethos of Mitra. Then that child will never commit a crime, it'll be a perfect child. Walks on this planet and be loved by every citizens of it, doesn't matter the cat, the dog, the man, the woman, the president, the farmer, snake or whatever. The first of that child is amongst you, it's for you to find out to live the path. The seed of the Creation understanding is within you. It's you who have to enlighten it. It's for you to understand the process. It's for you to be able to understand, to draw the line. Not by country, not by race, not by religion, but draw the line, I do not consume no others, except what is available for me to accept.

That day is the point of the Day of Judgment when you judge yourself, (:52) and you decide to go from the physical life to the energy life and it's you who will decide, it's you who make that decision, it's you who will bring that change. You don't need no Prophets, no fear and no promises. It's the point of maturity. It's the point when you understand the truth about the Creation and not the fallacy the man has made about his own Creator and Creation. And we have muddled this thing so much and we have muddied the water so much that we don't even understand ourselves where we stand, because by muddling it we can do whatever we like and cover it on the banner of ignorance and not ?? know.

I hope you understand what this means. And I said last week, we started with number one. So we start teaching the man how to start to use his Soul, to feed itself, how to use his Soul to start to create a new race of man. Tomorrow those of you who join us on the Friday session will have the first taste of this. I take you through and I bring you to the point, then you have to decide. It's good to transmute, as I said, it was good to fly, but what happened when I get there? (:54) It's good to transmute, but what are you going to do when you get? Are you going to start another mayhem, another sun which leads to creation of life the way on Earth is? Or you going to create a life which is perfection? In a way we are at the juncture. To stay the way the physicality of the man is today with the

DNA and RNA which is dependent on destroying other life. Or we change our structure of understanding and move to another dimension, in taking what's available but not killing to be alive.

In tomorrow's transmutation, some of you might see something totally different than what you are used to. Emotions that has never been apparent to you, understanding of a new dimension. And any of you who wishes to create a Child of Mitra, you're quite welcome to do so. It's you who have to decide, not in dimension of physicality, but in the dimension of the Soul. And then we shall see, then we understand, then we carry on and then we understand there is no limitation in the physicality of the man as this physicality can be replenished at any point through elevation of the STM, when it elevates its own Soul of the Physicality (STP). (:56)

It'll be interesting to see how many of you tomorrow reach that point. And then it'll be interesting if you come back you'd like to accept the dimension of physicality, or you become the teachers to teach how to elevate. We are here just facilitating. It's you who has to educate yourself. We are the library with all the books in it. It's you who has to pick the book up, read it, understand it, and digest it, and live by itself, by your rules and nobody else's. There is no fear and there is no punishment. We go for a break and we come back, and try to answer any questions. Rick if you can take us through a break, a small short break.

>> BREAK >> 551 KSW August 15, 2024 (1:02).

K- Yes, thank you very much. Thank you very much. The Youtube channel launched, is separate on this channel. If you can put the link on the screen, people can pick up on it. This channel is put in strictly and completely about teaching of the Keshe Foundation. without any other parts. In a way, it's set up and it's done, that it's no, what you call, Knowledge Seekers (KS) question side, or there is an answer to some questions, try to be very much directly to the point of the knowledge. And it's for... part of it you'll see, you already seen, but it's primarily for the new people who are coming in. We have started

working on a different international level, and this brings a lot of new people to see what the Keshe Foundation is, and this new Keshe Foundation Youtube is pure teaching, pure knowledge, and the team behind it, people who are helping and supporting, are trying to make it, in a way, reachable by everyone. (1:04) Easy to translate, easy to work with, and we have started giving this to many people to start coming in to look at whatever it is, and if you're in the X, what used to be Twitter, if you are in different channels and groups, promote this. Let people come to see, come to understand the technology. Listening to 3-4 hours of teaching of Knowledge Seekers is very hard, but 10-15 minutes, five minutes, pieces, that it brings the knowledge forward very rapidly, is much easier, is understandable, people have time for it to do, and it builds up.

It's part of the Brazilian education, part is getting added to it, part of the Keshe Foundation teaching, and it's easy, they're trying to see if we can be easy to translate it to the languages directly. And I hope this makes it easier for Knowledge Seekers to come in and the group will change one to the section for the Soul, one section for transportation, one section for transmutation, that when you come in you don't get lost. You go directly, I want to know about the Soul, I want to know about transmutation. And the team will build this up, section by section, about the physical transportation, the systems, and whatever. This takes years to build, it's not going to be tomorrow's job. And even I have started using it this week, by even limited number of what you call, videos, or whatever, to give to the people to just have a look. If you want go in there, you don't need to go in 550 sessions, you go in there, what is selected from them, (1:06) is there and it can get added. You can make the things, pieces like what Lisa has made, is a good piece, it's just parts put in there, we learn part by part, we add to it. And that's what the purpose of it is. Easy, short-term, down to the point, understanding, and promote it, wherever you are. And you will see the feedback on it.

Otherwise, it's a reference point. It does not need to have, it doesn't have any pieces that they're infringing, it's a pure knowledge from us and what we use and the way we are. I hope you enjoy it and at the same time this channel will be used for promotion of the flight tests. What we do, when we do different tests, when we do different things, you can, we make you aware of it on this channel. Instead of doing the Blueprints and then everybody coming and everything else, as we do the test, and we give data as it comes up, we post here. So, we can put it on a, what we call, regular alert that anything comes up, you get informed if you like to do it that way.

But as you know we are heavily around the clock, working around the Space Technology and the transmutation and transportation. And we start putting these things up and adding to it. And showing how it is, how it can be done. New systems developed, new technology developed. Now that the Keshe Foundation is going through large clinical trials with the health application. (1:08) Once these trials completed, the data will be released on the Keshe Foundation on this website. Once we go through commercialization of the structure of these, what we call ... materials, we will use this channel to bring it to the attention, that it can be done in other part of the world, it can be done through the structure, what's been achieved. Because up to now, we always did everything in the Keshe Foundation, without giving the structure to outside. Now, the

emphasis is to give it the structure in outside, that it becomes acceptable by general public.

The November flight system in Iran is another part of it. We'll try to promote it as we go, we try to bring that in. The structure of new systems will be done the same way. This becomes a backing for spreading the knowledge, and keeping up to date with what is coming. And I thank the people who are working hard in the background to put this together. This is what a lot of Knowledge Seekers have been asking for years now. We have brought it as a 'childhood step.' And you all can join in, if you see a section. The Romanian section to it, and the French section to it. Add whatever you want for the languages. But you have developed as a video, it has to be short. It cannot be using music from somewhere and put something else. It has to be directly from the teaching. And it'll be controlled, it will be controlled, and it does not need to be all in English. Create your own sections within it, but nothing but direct teaching. And that's what the purpose is. (1:10) No music from somewhere that it bridges somewhere, infringes somewhere, you cannot do. Has to be within the guideline of the channel, that nobody can object to it, but you teach in different sections, agriculture, health, wellness, sports or whatever.

And I hope you enjoy it. And hopefully it will bring a new dimension into teaching, for the other people to come, literally pinpoint into the position, part they want to understand. And go and, hopefully at the end of each video, it tells you from which Teaching, which section it has come from. That, if you want to listen to most of it, you can go back to that teaching subject, teaching number 250, such a minute is there, so people understand that teaching that time, if they want to come more in depth in it. And I hope you enjoy that.

R: Mr. Keshe, I'd like to play the Introduction Video, it's about a minute and a half. It might be a way that people can get a taste of the channel.

K- Yes, go ahead. Please. I have to say...

R: Sorry, did you say something?

K- ... I have to say, this is written (by me), what is read here, by me, is the introduction to the new science. So, it is directly what we feel, what we think, and down to the point, that you can enjoy the channel in a beautiful way. Go ahead please. (1:12)

<< Shows video of Introduction for the New Youtube Channel of Keshe Foundation >>

R: Ah, lovely little video I would say. Well done.

K- Thank you. In a way, as we said, as it's the title of it, with nuclear we brought mayhem, with plasma which makes the nuclear, we bring peace. (1:14) It's for the governments, for the scientists to understand, to appreciate it and then use it. And usually it takes a long time for man to mature to the knowledge. And hopefully this time man matures much faster, much, much faster. And we have to see, how you, as Knowledge Seekers and those who come after you, will enjoy this, understand this and will use this.

If there is any other point you want to raise, then we can go to the questions, if there are any questions.

Q: ... Hello Mr. Keshe and thank you very much for your teaching and for the books you wrote. I hope that many of the students have read them. (?? I read them). Many people ask me for the video about vineyards. I hope you'll put it on the Youtube channel. Thank you. God bless you.

K- Give it to the people who do this channel, send it to Rafael and his team, and they will surely put you on the agricultural part. These are what people can refer to and see, the practical side of the technology. (1:16) We have to do this, but as long as there is no infringement, there is nothing music used by somewhere, somebody who needs licensing. You have to be aware, there is a very tricky thing with these licensing things, the music even you play. You're allowed to use the music, as long as it's not on a public channel. When you put any music on any sections to go on this channel, you have to make sure, if there is a license fee to be paid for it, you pay it before you use it. Not just because it's free, yes, for private channels, for private teachings you can use them, but not on a public channels. This is why we opened this. You can't put the Keshe Foundation in danger, just because you made something, and you think it's good for others to learn and do.

And, we don't want to flood this what you call it, channel, with just people's work to be put on. Educational wise, that's the decision of the people who run this channel. And I've no doubt, it's a lot of work. And I'm sure Rafael will put a group in charge of this, to monitor to Knowledge Seekers who want to do the teaching and, that part, to control and what is taught, then everything is correct. We need to show the practical side of it, but at the same time, we have to be making sure, because a lot of Knowledge Seekers make things, and gets everything from everywhere, other articles, trying to confirm what they do, what they don't understand, and they bridge. This, what you call it, the protection they have put around sharing, or whatever. You have to have a license for it, and there is no copies can be made. Unless it's your original work, nothing else, and then how correct it is. Because this channel cannot teach something wrong, and then people say, (1:18) "Because it's on your channel." I presume we all learn gradually from it. And gradually we become good at it.

Any other question?

Q: ... Hi Mr. Keshe. Can I ask if information can be considered to be a dimension? Because for Creation first we need the information of the process of Creation. For example creation of time and space needs its information first and if all information of creation comes first. Thank you very much.

K- It's the story of the egg and the chicken isn't it? But this time it's more defined. We know which part of the egg. The information is part of the structure of the, what I call, communication. This is the way I always looked at it. It's... we all receive it. Depends how we communicate with, how we use that communication. And it is the backbone of the Creation. Even the thoughts, even the enlightenment is the process of Creation.

We... if you put it that way, enlightenment is a kind of emotion, which we react to it and becomes knowledge, or becomes behavior. And these are what I said many time before, these are the things which we do not consider as emotion, but it is part of it, and it's the same with the knowledge, and the information. (1:20)

The beauty of it is, if you ask for it, many, many times. I have pondered on this from a very, very young age, and is that, where does the information come from? Where does the knowledge come from? Is the natural process of $2 + 2 = 4$? Or do we have a 2 which is our thought and then the other 2 comes from emotion or knowledge of the Universe, or we are connected to information, or do we create that information that makes the second 2 that makes 4? We say need is the mother of invention, but what is and where is the mother of information? How does our brain connect that leads to that information, that new thought, that new understanding?

Man has not unraveled this yet. Because we do it, it's just we put it as intellectual rights or my thinking. But it's bunch of brain cells, bunch of magnetic fields we call it brain cells stuck together, how do they connect to each other to come to certain conclusions, some set of information? How come that information knows no languages, no barriers, and then when it come to us it becomes our language? (1:22) And we see it, we feel it, in that level of understanding we call it our information. If you speak two languages, sometimes this comes to you. How does my brain automatically changes from one language to another? I dream in one language, I speak in another language, and I develop a technology in one language or the other. How does our brain processes the knowledge? If I would have stayed with one language, would I have received this information? And where does that information come from?

In a truth, in a way, what is intellect? That's what the information becomes, what is the intellect? How does our brain cells connect, that it creates that intellect? You on the calculator you put 2 and 2 makes 4 in the computer, you put some data and it gives you some answer. But we haven't built that computer which was like the brain of the man and we can see how it works out that intellect, that information. How does it create that information? And is that information sits in the Universal pool of knowledge? And through certain strengths we have access to it without knowing? (1:24) Or is our knowledge added to the pool of the Universal Knowledge? Not everything comes there is on the milking machine it's a two-way traffic.

How much knowledge of us making motors and the wheels has been put into the Universal Knowledge that somebody in another part of Universe wants to think how I can go faster but continuous, goes to Universal Knowledge, taps in, the Soul knows this is the knowledge came from Earth, takes it back, the guy gets enlightened and invents the wheel. This is what we haven't understood. And I've pondered on this a lot and we talk about ... This is one of the reasons I oppose the patenting. Intellectual right, is it all ours? How does our Soul, how does our brain get so much information? Do we create it through interaction of the Gans's and how do these Gans's find out? And through, because we work through Gans's in our brain which we never understood, now we

understand. Do we get like magnetic field connection to Universal Bank of Technology and Knowledge, Information, which then it becomes part of us, we analyze it, compare it to what we understand on this planet, we make it Earth-like version of it. And then if somebody else has not reached that strength of the connection we become geniuses. (1:26)

This is why I keep on telling you we are Universal Teachers. We have access to that 'Library.' We don't need much to do, because we have the key. In the structure of the brain of me, there is a part which has, what we call, field level strength, which is connected, is as at the strength of Universal Knowledge, in that Library. It is not a building, it is a collection of fields. You talk about agriculture, I tell you, you talk about the Soul, I tell you, you talk about energy, I tell you. But leave it to you, for you to convert it into the physical human dimension. It's the information which through the strength of the field of the Soul, I have access to. And my teaching is like the curriculum we get in the school. If you follow 10 years of teaching. Year 1 you teach this, year 2 you teach this, year 3 you teach this, and these are the information's that when you get to year 4 you refer back to year 1, that class I told you about it. My years changes to teaching 550, 220 and the rest. We are not recorders, we are the ones who got access, who can explain it. Because man has not learned how to do it.

I said this to someone some times ago. (1:28) You know most of the Mullahs and most of the Christian priests and even a lot of rabbis don't have any education. They put the Koran or Bible in front of them, pretend to be reading it. That's how it was till about 50, 100 years ago. There wasn't a book to read. They took you to someone who could read Koran. In Iran for example. And that was your schooling. No math's, no physics was taught. Maybe a few calculations, as much as the guy couldn't... Even that guy was not able to read, Because when you start reading you understand the guy told you the wrong thing.

Us, we have the capability, the knowledge connection, to bring the knowledge from the Universal Knowledge. And this is why we promote transmutation, because you have, you can get access to the same, enlightenment. You say, I went to the place, I saw this, I became a dog, I became a donkey, I was a mermaid, I saw such and such a thing, in such a place, then I went to another planet and whatever. Isn't it, because of the freedom of the, what we call, fields of the Soul, you are getting access to that universal information? But you can't describe it in any other way. You cannot explain it in any other way. So, you make it as a story, "I went there and there", because this is the capability, capacity your brain can understand, or people around you can comprehend it, because it fits into their understanding. (1:30)

And then, how much when you understood to read, you can read correctly, because you, the guy showed you S and he said it's G, because he never knew what's the S and G difference, because he was learned by... This is very typical, I explain to you, for you to understand. In Arabic words, in Arab, Arab world, in Islamic world, we call them ?? Hafez. And these Hafez people, it means, Hafez means memory, you can remember. They can read you, is an art. Every word, every sound, every sentence, every full ?? stop

in Koran, from beginning to the end. One of the most famous points of Iran is when you come to Iran to just now, travel a few hundred kilometers, a few, God knows, couple of hours you go to Shiraz, that is its birthplace. And most of these Hafez people never could read. They learned it by somebody who read it. And if that guy could not read and he learned it by mistake, in their things they remember the wrong thing. They can sit in front of you and read Koran back to front, no book in front of them. But how much of it do they understand, word by word? And which part of it they connected to another one to analyze? Because the teacher was ignorant, the teacher never learned and he never could read. (1:32) He heard something and he, you know, carried on. So he learned and he knows this by heart, so he taught it, his ?? A's and ?? O's and everything else. It's very funny the way they do it. But they don't understand the knowledge. They remember the book.

If you watch the Iranian, the new Iranian President, he's amazing, he's a doctor, and in some of his speeches, he goes back into the verses of Koran, exactly what it says, but he says it in the Farsi language, in the Persian or Turkish accent, and what you call it, talking, and you listen to the same thing, what he says in the way Arab says, it's totally different, sound different, but what did he understand from it? Because he quotes that quite a lot in his speeches. How was the teacher? Where did he get access? What... how can he connect it? This is the beauty with the information, how do you connect it and what is the outcome?

In olden days ...?? now there's, we send children to private school and we send them to school, they have to learn or whatever. In olden days they use... the only knowledge a child needed, was to be able to read Koran in Iran. And the wealthy people could send the children to one of these Mullahs, who himself could not read, but he was told this is Koran, and he remembered what picture is where, the rest of it he couldn't understand. Most of the mullahs of the old time had a very good photographic memory. And they attended the way they wanted it, because they never understood it. So children were sent kilometers to sit with a guy, a mullah, to just learn Koran, that was all the education you needed. (1:34) But what that information they got, correct or half-cooked or uncorrect (incorrect), will bring them to use the emotion of the Universal Knowledge. Intellect and development is not the making of the 21st century and only in Europe. It's been across the Universe we ?? call this world for thousands of years.

So how do we get access to that information? But how do we make it and once we understood something new, we made a new cake out of the flour and something else, that cake does not belong to us anymore. It become the cake of the Universe, because of Knowledge (is from) for the Universe, because you think it's mine, I don't talk. But in fact, the minute you talk, the minute you understand, you have created a magnetic field, and the fields are connected to everywhere. Once you understand this, you understand patent has no meaning. Intellectual right, has no meaning, but this is the way man has created in past few hundred years.

Where does the information come? And what does the information does to me. If you understood how to make a cake and you added something to it and brought a new texture,

taste, flavor or whatever. This emotion of joy which you get from this is registered, it becomes part of your Soul, part of the joy of your Soul, pleasure, whatever. Now it becomes part of the Universal Information. Someone else in another position in this Universe or another Universe sees a flour, (1:36) in the emotion of wanting to do something with it, most probably has made something, not by rice, it could be stone, it becomes a flour, and in the emotion of wanting to do something, wishing it, gets access to what you made, and then makes the cake, in their flavor, in their condition.

It's not that 'I made you to make children that they might love me,' I made you to create knowledge and information, that that brings peace to the others who are made, are created. It's not a limitation of me loving, it's the limitation of understanding, is the information, it's the knowledge, which what you gather, what you create, becomes the knowledge of the whole Universe. That your knowledge becomes mine, because I am you. A man needs time to understand this. This is why we understand it and we oppose patenting. But we use a patent to reach as many as. You created the tool of stealing from each other, we use that tool to teach you not to steal.

I battled with Dirk Laureyssen, I don't want to do patent. He said, "Otherwise you can't protect it." After a couple of... sometimes, he came to me, "Mehran you're a fool, he's giving access to give your knowledge to everyone. How long would it take you to get this out? Now you put in a pattern, it's all world's. So let's do the pattern as fast as we can." And what will we do with it? We open it. Because that knowledge in that patent is, does not belong to humanity anymore. (1:38) It belongs to Universal Bank of Knowledge. It's information. How? Through your Soul access it or through the interaction of field of your condition, your knowledge, you create a new information which becomes part of it. It's not just that we are connected and your Soul goes somewhere else. You are connected, your information goes to somewhere else too. It's not exclusivity of the physicality.

It's a, I call it in a very funny way, European way of living. European way of living is very simple. It used to be one father and one mother. The father worked until they bring the child up and then that child, whatever. Now in Europe you make a child the whole nation brings the child up. They bring child protection, they bring child payment that the child is paid, and paid, they bring educating the child, everything else. You just give life to it and the whole nation and the whole continent grows it. That child is a property of the whole nation, it's a whole continent. It's not anymore German. Because Germany is in trouble, Central European Bank gives money to government Germany, or to grants or whatever collected from the Spanish, French or whatever, for the German child to be educated. Now the parenthood we just hold the key to a house. That child in that house belongs to the whole of the continent. It's become collective parenthood, but we cover it under a different name. That knowledge of that child collectively belongs to what you call it, Germany. (1:40) But the EU uses it.

And so it's the same in the bigger structure. We are children of the Creator and our knowledge belongs to the whole of the Universe, Totality, not exclusivity, because now there is no physical body to restrain it. 'Social childhood,' as I call it, is something that we have structured in Europe. We pay parents to look after the children. Monthly payment.

We make free education. Wasn't this the job of the parents to make money to feed the children, to educate them and the rest? Now we do it collectively. And we share that with all of... Germans do it, British have to do the same, and what you call it, Austrians have to do the same and the rest. And, the knowledge they shared, that everybody uses what they need, according to their culture, but in essence it's the same. It's the same with the Universe, once you understand that knowledge, it's not yours anymore, it's collectively belongs in the Central Information (Bank). And how you open it, how you reach it, that you share it, gives you access to it. The more you get, the more you receive. The more your higher level becomes, the more access you have to the higher level information.

So, did the information come to create something from it? Or, part of the information you created becomes part of the Central Information? You are used to locking and call it library. You never understood, you don't want to understand through the Soul, through the interaction of the field of the what makes your Soul, (1:42) you are connected to that library, it's just you who denied yourself to it, by killing, by creating conditions that the emotion of the Universe does not accept .. jealousy and the rest of it. We like everything to be virgin and we are the first and we are, it's us. Where we don't understand, never been us first, it's always been all of us. Never been me.

And once we understand this, it will be so easy to bring up the Children of the Mitra, because they have access to that Universal Library, the way I do. They have access to all the Universal energy. They don't need to kill. You and I talked about to go to London to see London. The Children of Mitra speak about they've been to the Moon, they go to Mars, they go to another planet, they've been in the sky and the rest of it. If you don't understand it, you say this is crazy. But if you understand it, you created it to do that, to become a citizen of the Universe. And then, what they bring you is information, and what they put together, is their information ?? we become part of without condition, without the prejudices of race, religion and the rest of it, that they are the world citizens. They are Universal citizens from birth. When they're on this planet, they behave like those that they cannot be separated and stigmatized. When they're on the Mars, they live like them. This is the beauty of the Children of Mitra. (1:44) Creation of the Soul.

So, it's information, or is it enlightenment, it's you connected to, you have elevated to the point that you can connect two parts of it, but if you let your Soul free, detachment, parts of that detachment gives you access to Universal Knowledge. It is not the exclusivity of Mehran Keshe. We are teachers. We don't bring any messages. Those who are Messengers are the thieves, because they didn't bring the whole message. When they were given access they stole what suits them.

Now you understand, it's the information, is it yours, or through the action of the fields you create a new dimension. In a very near future, I was talking about this very recently, in the very near future, you Knowledge Seekers (KS), those who understand the science, will make computers out of Gans. And once man be able to produce a computing system, a living entity condition system out of Gans's, then you understand, if you put all the computers of today, all the servers of the day together on this planet, will fit into one micro millimeter.

When I brought the Gans's out I didn't bring it for you to have a thing rubbing here. (1:46) The future of the humanity, the future of the knowledge of the Universe, is understanding the basic corners of the Creation. In the energy, in the plasma, in magnetic field connection. Your body on this planet needs calcium to structure itself to become brain. When you make Gans's you're connected to Universal Energy that plasma carries connected same as your Soul to all the information in the Universe.

You have not understood, and in time, when you understand, you'll find that I gave you the gift of the Creation from the Creator but you're still deaf. All the nations on this planet can rise against Keshe Foundation and me. They'll never succeed because it's not mine, it's the Knowledge of the Creation. And the Souls who put it right, there are Souls who protected because it's theirs. But you don't understand. He gave us a MaGrav blah, blah, you never understood what it is for. You have not even come to contemplate to understand 1 billionth of what the Gans's are for. Then is an information.

Can you through structure of Gans's, because your brain cannot do, access Universal Knowledge? Yes, you can. And then would that become the knowledge of everyone? Do you patent it? What is the patent? Patent is the knowledge, on the land we brought borders in intellect, (1:48) and we made patent, (to) corner it, condition it, make weapons to protect it and anybody else wants take it, it's mine. I call this colonization to intellect. And those who benefit by it, they protect it. Those who understand the abuse of it, they fight against it. But you don't need to fight. The knowledge is free. You can do it. It's you how to access it. It's a information, which you create, becomes public to the Universe, and you, in one way or another, have received through it. You abuse it, you lose it.

So, which one came? The egg or the chicken? Is this your information or is it already information in the Central Bank of the Universe because of the plasma and understanding magnetic fields which create our plasma connected to every cell in the Universe. You have access to it and you claim it to be yours, but even though some you put in, and the others use.

Any other question?

K- ... Let me tell you something about this topic. As some of you know and when you come to Iran you might know a bit more. My great grandfather and grandmother were very people who wanted to educate their people, their children. (1:50) And they say my grandfather, he used to send my oldest uncle, it's about 100 years ago, he would have been over 100 years old now. He used to send to a mullah to read Koran. And every day, snow, sunshine or whatever, except Fridays, they used to put him on the back of a donkey with two men, outriders, walking this donkey all the way to Natanz, where the Iranian nuclear reactors are now. And they used to bring him back. Everyday he had to make this trip, to go and learn. When I was a child, I was told that he's educated, he can read. And I was very clever little boy, I sat on my uncle's lap and I said, "Can you read this for me?" He said, "I can't read" but I said, "They said you've been going to from childhood, God

knows till 18, 20, learning from the mullah reading.” “We just been told, we remembered the voice.” He couldn't read.

And this is how knowledge has been abused, especially in the name of religion. People who do not even understand themselves, trying to educate people who believe they understand. And, nowadays they send mullahs and priests to universities to educate, but the people who taught these people were never educated. And this is the same, we need to teach the man to be educated to educate himself, (1:52) not somebody to tell him that he believes, but this time we educate the Soul to get access to Universal Knowledge. To essence of the Creation which is the Creator.

And we are just teachers. We bring the message for you to understand, that it's you who have to do the teaching, not anybody else. And you can only teach to yourself the correct way, as everyone takes according to their own understanding and their own ?? . It's us who have to understand us. Not us trying to force what we understand wrong to the others. And that gives you access to Universal Knowledge and information. Carry on.

Q: ... Fantastic, thank you Rick. Mr. Keshe I have a question for you. There are a lot of spaceships in this Universe, possibly the Unicose, that have a dynamic triple layer protection, a shell protecting the Souls, encapsulating the Souls that are in that spaceship, protecting them. How does the Soul of Existence, the Soul of Creation, and the Soul of Totality relate to the dynamic triple layer spaceship encapsulating the totality of Souls within the Unicose? Thank you. (1:54)

K- This is what our scientists today are tackling and trying to understand. The, what we're trying to show in Iran is to bring a suitcase, open a suitcase and create a structure. But when you look at the structure, it's created from three different dynamics, that the interaction of the three dynamics gives the manifestation of physicality. Sometimes our people feel the energy of the dynamic of the skin, of the touch, and sometimes they need to understand what is touching them. And if we look for the dimension of physicality, because it's created by the interaction, by combination of different fields, they have to accommodate. So it has to have a Soul to accommodate. And once you create the Soul, and once you create the condition of the physicality, which created that Soul, you give it the physicality.

We have built this machine. This machine, in a physical sense, to create its own physical dimension, today exists. It's not something we're going to do tomorrow. Our scientists have to understand, their relationship with what is needed to bring the fields together, what once they came together, what energy they bring to create that Soul, and then once that Soul created using the same material, the same energy, to create the physicality of manifestation. (1:56) In a way, today in the laboratories of Keshe Foundation, we are creating a Soul of a machine, a Soul of a system, which has all emotions and it's like child, it'll give birth to its own structure. But through knowing how we can position it, we are dictating the shape of the structure. We control it, so it'll be the shape of a man, we control it with the shape of a UFO, we can control it with a spherical, triangular, all shapes.

And because we create the three dynamic layers, that three dynamic layers allows the interface with outside, accommodating the inside and outside and the inside. This is why we have the three layers. I've explained this many times before. The skin we have outside is to separate us from what's outside. The middle layer is to mediate between the inner and outer. It's what we call the no-man's zone. That's why the diseases come here. That's why all your skin problem appears in this middle layer, because it has to accommodate what is inside what. The inside layer is controlling your emotion and your physicality and your Soul. So, if it doesn't fit with outside you get blisters on your elbow and this and crooked eyes and rest of it. It's interactive. And if you can make what we call, cirrhosis on your elbow or whatever, which creates ?? the new layers, this is exactly how we make the shape of the system. It has emotion, it has existence, but you have to get a mixture right. You have to get the field interaction right, (1:58) that their interaction from the top will give it physicality. It's not there, click of a minute, when it comes right, it manifests itself.

When I saw this structure the first time, two emotion comes in you. One is fear and one is exhilaration of I understood the Creation. And that point needs what I call, humbleness. To understand this is a gift and it's not mine. And then with it, through your emotion, you construct the structure.

In the body of man, we create a child. With the children of the Soul, we create another dimension of life. In the structures which we create, I hope you see it in Isfahan, we create the Soul of the Creation. It's you who, through understanding, can come in, become that organ of the kidney, liver, whatever you call it. Because then you'll be fed by the system. You don't need to kill, there is no breakfast rooms, there is no canteen to go and eat. I know what is to come, and what it needs to be done in Isfahan. And I have started preparing my physicality for that point. Because you have to be able to transmute with it. (2:00) We have put no doors on it. We don't come with a truck with the doors, handles, steps or whatever.

I wonder if Iran Ayatollahs can walk in. I wonder if the world presidents wherever we open this can come in. This is the understanding of interaction of the fields. And understanding the Soul of the Creation. We are at the moment like that individual cells creating, dividing, moving to create that central Soul that by creation of that central Soul, plus that what we have brought in to create it, we give it the manifestation (of itself) This machine today exists, we have built it.

And it's to understand how to feed. You cannot put too much salt in the middle layer, you get psoriasis. You put too much less it gets infection, it makes a hole in it. So everything needs to be correct. They need salt to gives it solidification. And our scientists have not understood and not grasped the concept of the salt. Once they do, the creation is complete and you will see it in Isfahan. (2:02)

Q: ... Hello Mr. Keshe, hello everybody. You hear me well?

R: Yes.

Q: Well, thank you for enlightening us to see who we really are, because we all need to know who we really are to take away a lot of confusion. I have two questions. One is, I have been, I had noticed that in some ages, in some progress of history of man, when there is an invention or discovery or progress in some place there is similar in another place. It might be that they copy each other, but...

K- We have lost you. We lost you. Can you start again?

Q: Yes. I have noticed that how come sometimes there is invention, or discovery in one part of the world, and we see the same thing in another part of the world. It might be that they copy each other. But is it maybe because of these, they call it Akashic level? (2:04) Which you talk about maybe the knowledge level dimension? Which opens up and it falls on people, different places on Earth? Like in the sixties, we see a progress towards individual liberty and creativity in arts, in humanity. And then it's got stopped or in some other invention we see something in Italy, we see something around that time in Iran, that kind of invention. Is it possible that it exists? Same thing? Or it's just by accident?

K- Quite possible. No, it's quite possible. The best example of it is nylon. The material we use, nylon, is the best example of it. I think it was patented within hours from each other in London and New York and there was a dispute who's going to get the patent. So, patent was given to both, and coming from New York, and coming from London, we call it nylon. And so, it's been, it's quite possible, people coming up with the same information, according to progress, without even knowing about each other. It is a progressive sharing of the knowledge in a different level.

We might do it slightly different than they do it, but more or less, in principle, it's the same. (2:06) There is a very interesting point, how people know and how people keep, and do all do the same, but not knowing it. But all sharing the same, what we call, understanding. So, it's possible we mature at the same time, all connection of the Souls, or, for instance, in the reaching the knowledge at the same time.

Nowadays it's not impossible because the communication is so open, that nothing is impossibility. Nothing is impossibility. And it depends how we control the knowledge. And how we dictate with that knowledge what we want to control. You see, the good example of this control of the knowledge, and then we see people actually think at the same time, is the new dictatorship in communication and Internet. And it's showing it's hand very, very clearly. Up to now we had the Fox, controls all the news, and everything else. This guy, Musk, bought Twitter and got access to what now change it to X, and he has become more or less claiming to be a free channel, worse than the Fox. And using it to control what he wants. But you have to understand, Musk knows about the work and the knowledge which is happening around the world. His X machine has maybe a year maximum to go, (2:08) two years, if that, maybe sooner. Once we show the things in Iran, this... his wealth is worth zero. The Tesla cars and what he sells as a cars, will come

to nothing. This wealth will go to the ground very quick. So, he's aware of this. And he's taken dimension to control knowledge. And public.

But, how much can they control? But, would their control lead to the others to understand the same thing at the same time? Certain groups will be knowledgeable, because they only have the people who can put out. What he claimed, he's bringing freedom, he's actually bringing more restriction, what he likes to be in public. How many new Twitter accounts have been closed, or old Twitter accounts are not allowed to open or run, because, doesn't go by him (he doesn't like it), it is worse.

And we need open line communication, beyond dimension of man, that nobody can control. And then you'll see, at the same time, the same invention, will appear in 10 different places, 100 different places. We have set the roots of this through Cosmic Communication line. Gradually you will understand. You think and the others who are connected through the same system, will understand you. You don't need to talk, you don't need to make a call. Those who understand that field strength of the knowledge or have access to it, or the ability to be, (2:10) will come up with the same knowledge as you at the same time. In a hundred places tomorrow morning all make the same cup. Who copied who? Soul Share. In what we call Cosmic Ray connection to each other connects.

When we put this unit out as Cosmic Ray, oh, you thought, you know, it's just I want to call my brother. No, we have opened you to the inter, what we call, Universal Information Bank. If you are clever, you understand how to use it, you lock into it, you, you jump into it. And then you don't put it on, "Oh, I had a dream." No, this is knowledge I received. What can I do with this knowledge I received? Why has it come to me? What have I reached in the level of understanding that this knowledge is open to me? And what can I do to put something back into it?

I told you I give you pieces that you don't understand, but those of you who understand or come to understand, I have given you the one of the biggest gift man has received to be able to reach that Universal Information Bank, has no satellite. Because there is no satellite in the Universe. It's called Cosmic. You connect it through the Cosmos information how you want to tap into it. The limitation is you. And then how many of you at the same time reach a point, same day, same hour, next month, to the same Universal information, because you elevated your field strength of understanding to that level. It's not exclusively just me.

Listen to what I say. We are Universal teachers. I'm not the only Universal teacher. (2:12) Because as "we," we educate the others to become. So it's possible, hundred people at the same time, now especially with this condition of understanding the Cosmic Ray, how it connects to your Soul, not to your body. And the Soul and your system is connected to Universal Cosmic Rays. How much new knowledge and in bracket technologies you will come up with? What do you want to patent? The Universal? And then you go to another part of the... Oh I "Oh, I have a patent of this on Earth, so technology is mine." You make yourself a laughing stock. When you come to Universal knowledge... Pardon?

Q: No, excuse me. Sorry.

K- When you come to Universal knowledge, information, there's no exclusivity. Whoever claims it is a fool. And there are many fools on this planet. Because they can't fool outside, they just fool themselves. You'll see if you put your finger on everything which Musk has done, they have a lifespan, .. life span of a maximum 2 years, 3 years. No one will buy electric cars. No one will connect to electric cars, because once you understand the first structure of how you can build the structure according to the wish of your Soul, would you buy something somebody's given to you and can kill you with it. (2:14) Or you build a structure which protects you according to your emotion. Your vehicle becomes your another part of layer of your skin in a way. But this time you allow everything inside it, you create a barrier. My child can come in, my friend can come in, I can put the shopping in here.

You'll understand very soon how, when I look at Musk, it makes me laugh, usually say the guy's got 20-30 a lifespan. Keshe Foundation where, the way we are going and the way you will see in the coming months and systems coming up, the guy doesn't stand a ?? in hell chance to be five years. Would you pay hundred thousand dollars when you can make it with 50 dollars. A vehicle which loves you, protects you, can't crash, you can't kill with it, you can go places with it. You understand, it's just now this, the first of these series of systems is getting developed, is in production, and it's the next step to it.

If you can communicate in different dimension and or you can go to the Mars and the Moon within minutes, do you need Space X? There's a big X, actually the name of which sits on an X, it means it's finished, it's crossed. There's no end to it. They have a problem with people in the space lab. How do they get to them? They want to be there. Give them a telephone line. (2:16) We give them facilities in Linz. We can feed them. Let them be there 10 years till they decide to come. or through developing transmutation, we don't need them, just... What do you need? You exit. You don't need somebody to bring them down. These are not theories. These machines are already in existence, they are getting tested.

... What's your second?

Q: Second question. First of all, are you the hierarchy of these teachers?

K- Pardon?

Q: Are you the higher in hierarchy of these teachers?

K- We are all the same.

Q: Thank you. So, another question is ... If rapidly you can open it up about the last week teaching. You said, there are all other Souls in us that we... that can guide us. And we can

refer to them. Can you explain very shortly how it is? Is it the Soul of the ?? followers or the Soul of the organs? Which have a Soul? I mean...

K- Explain? I don't understand what you're asking.

Q: You said it in the teaching of last week, that we have all other Souls in us which can get inside us? Or maybe I, it was all other Souls around?

K- No, you see, the... Every part of us has a condition and a Soul. Within us or outside us.

I explained this before but maybe we can go back on it. (2:18) All the animals, most of the mammals or whatever, all the animals have a reproduction line, as I said many times before, opposite to their Soul. And this reproduction part is always with them, from the day of birth. And when the Soul reaches a point of maturity inside, the two exit, the two create that separation, we call it a birth. It's the same thing when you have the Soul and the STP, and then now your own physicality rejects the other part, and it becomes a freedom of the Soul to start a new life. You move the Soul, you give physical birth from the womb of the mother. Now that individuality not depending on the mother, you create that field that separates the energy, the STM from the physicality of the man, you give a new birth.

So, if you look at it, we are a copy of our mother, we are a copy of our parents. They say, "Oh, it's genetically DNA, this is for the liver, this is..." But you are born in this. You are created in this tank, this machine, which has liver, kidney, lungs, and everything else, and dictates where the energies go. So you're replication of your above, what carries you inside it, and because it's there it replicates. (2:20) Why do we call it inherited disease? Because it's the replication of what it is. If you put something else in it with a different field strength, and what is there which created it, now it has to make adjustments. You take a slight change, become the color of the eye of the guy who's put some energy in it, "Oh your eyes look like your father", and he'd had something from his grandfather, oh your grandfather had this shape of lips and the rest of it.

In fact, the replication is the mother. We just copy it down (into the womb) and then we give the structure. That's how life is created in mammals. The same is with the eggs. Why do we need two eggs? Because we bring the other information, one information needs to adjust with the other one, it divides and creates more, brings more energy. And why do we... why all these lines have a skin, a shell? Because within this limit we can create what is there. Then this is, so we carry mixture of Souls with us. If your eye is the color of the eye of your grandmother, it's not just what happened, it's a connection, it's a Soul, you're connected to the Soul of the grandmother, because it's there, you come, and we are replicated.

I was traveling, I was given a birthday gift to go to Paris. We live in France. When I was 18, my family's birthday gift for me was going, the week in Paris. (2:22) And I was with my sister and my mother, we were going to see the rest of the family and whatever. And on the bus there was a guy, he came and he stood in front of my sister and he said, "You

are the daughter of this man." And my mom said, "Why? What you asking?" He said, "He was my friend when I was a young boy and I know this face." And my mom said yes. If you see image of my sister and my dad, they are very much the same.

So how did that come to be, and how we recognize it? Does that feature bring certain behavior of the Soul? And are we amalgamation of the strength fields we call it, we have something or, you know, you have you look like this and that. Are we carrying that Soul behavior in that feature? And it's very typical. And I watched this and I studied this quite a lot, because it has a lot of meaning for me. How the features bring certain characteristics, certain connections and certain emotions. (2:24) And how we carry the Soul of that who created that feature. Because if it wasn't the Soul of it, connection to the Soul of it, it wouldn't have been there. In the present day they say, "Oh, it's genetic." Under the genes, amino acids which are connected and have a Soul, why don't we talk about the reality? And we always stay with the matter state of it. Do we carry the Soul of the grandfather who for the first time created the ?? lips that come to the father and to the daughter? Then yes, we have the Soul of everything within us because we are all connected created out of each other.

Q: Thank you so much, Sir. Bless you.

K- It's very interesting this, if you follow the presidential pattern of what's going on in the United States, it's amazing. How a man who is blonde and he comes from a black root because we all know where all we came from, is using the color of black and the Indian which all come from the same as the reason to be different. And it's interesting watching how the most ignorant people on this planet claim to be intellect, and want to run on this side on the rest of the humanity. If it was not the ancestor of that black woman, your blond gentleman would not exist. (2:26) Unless you are shallow and you don't understand. There is no reason for race and religion separation, Because those who do, do not understand the truth about themselves. Ignorance doesn't come in the shape of presidency, it comes in the shape of humanity.

Any other question?

Q: No, thank you very much.

K- Thank you.

Q: Thank you Mr. Keshe. We have some questions in Youtube. We have actually a number of questions from 7th Star. I'll relay maybe a couple of them here. Has a question, can one feed himself by placing Gans patches with different ratios on opposite sides of the aorta? Or how is it better to use Gans water with minimum Gans's in comparison to water with a bigger amount of Gans?

K- Listen to the teaching of past 10 years where we speak about this. And first of all, you cannot use Gans's. That's forbidden. Because it's energy ?? pattern that your body can not absorb. And some people claim they took Gans's, they did this. You're taught not to

start with, to do with, you do it anyway. So you've done it, it's your problem. When you don't listen, a naughty child always punishes himself. Secondly, we always spoke about gradient in strength of the plasma. (2:28) You got to understand, some of you can do what you say, put a Gans here and there, and stand behind it or in between it. But something you don't understand or you haven't understood, you need to understand, is that, some of the cells of your body is actually stronger than the patches you put on either side, you're actually feeding the patches, you're collecting what they don't need, which your body doesn't need but it takes in, because it's part of the cycle.

When you talk about feeding yourself, you have to understand you are not always something in between. In depending on what and where, sometimes you're stronger, sometimes you're weaker. So are you actually feeding yourself or are you feeding the patches? This is very interesting. See how the patches changes after interacting. If there lines are stronger than weaker than before then you are fed. So you say it doesn't work I still eat. Yes, because you don't understand the patch you put there to feed you, you actually fed it.

And this is the understanding when you don't... << Indian speaking >>, Indian say. Half a doctor is danger to life because you don't know what the disease is, what you're doing with it. Understand yourself, then you can feed it. It's not just because I put the Zinc and Copper and God knows what and it does. No, it doesn't. Because you have Calcium in the center of every single cell. Without the Calcium, the cell doesn't exist. So you're already stronger than your patch. (2:30) I tried it but it doesn't... because yes, you never understood. Can I feed myself by this? If you haven't understood, what you want to feed yourself with?

You know there are some foods that you eat, you actually lose more energy to consume them, actually they give you anything, but they're just good for some purposes in the body. You eat celery, you lose, you gain, you actually consume more energy to digest strands and everything else on it, than it actually gives you. You eat grapes with the seed and the stone. You .. even it's so sweet, you think with calorie 9you gain, but) actually lose because you burn calories (to digest it). It's the same as your patch. Are you putting a celery outside or are you putting a, what you call it, grapes on the other side?

Understand what you're doing, understand the system of your creation, not what you do blindly. I can make you a Gans mixture that feeds you for centuries. We are developing a system now, I was talking to one of Knowledge Seekers, going through the trial, that now these men or women, whatever, you go and buy a Viagra after a certain age or some stupid young people do it and damage themselves physically because they don't need it. But what does it do? Where does the essence of non-productivity come from? (2:32) Why can't you understand it and sort the whole reproduction and the emotion and the Soul with it? If you're taking it on a physical dimension so it's easy, but then you are always in trouble for the next one. But why don't you sort the emotion of the Soul? And then you don't need, because you sort out the body, you don't need the emotion. You don't need the, what you call, physical tablets. We work too much on physicality, we don't understand it.

Very soon we'll launch this as a clinical trial, as a material which changes you to be what you call it, with emotion, with the sense of Creation and Creator. As I said, we launched the Twin System last time, last couple of weeks ago, in September, October, you start receiving your materials. The next product is what it touches emotion. We knew this, I explained this in teaching years ago, when we did the trials, in, or started the processes in Belgium. Women in the seventies and eighties they started menstruation. I always told them be careful grandmas don't become mamas and papas. A man and a woman can be fully productive to the day they die. And now we are putting it into trials and it comes out you will see it.

If you look at it just from sexuality, you will get nowhere. If you understand, is there for your Soul to be, (2:34) what I call, happy, not happy, but in order with its existence, then you'll see the other side of it. This is part of the structure for the demise, for the death. If you can correct it, you never die. This hormone change, you call it, is a big problem. Why should a woman at the age of 35, suddenly, we call it menopause, become, changes that because, why 10,000 years ago, 5,000 years ago, there was nobody to look after the children. So at this age, I stopped, because if I give life to a child at the age of 40, there is nobody to feed it. Now we have, as I said, social structure. I can give birth to age of 90 and still love the child, live in the dimension of Soul. Or I know the society will look after it, and have the better life than I could give it. Why should we take that joy of, pleasure of, sharing love, equal without from a man or a woman?

Very soon we'll launch this out, women, men, with live a full life. In intimacy, in emotion, and then we see how many problems get solved. How much hospitals will be empty, how much Parkinson will not exist in a man anymore. How much women will change in the dimension of the creating a homogeneous home, and not change a form. And all these changes come because of us, we did not have the security to feed our next generation. So women, by instinct, brought this to them that, "I better don't have any more children, that they don't have a father, and I cannot do... I have to do things. I can't go gather and hunting." (2:36) The menopause was created by women's security themselves, in their emotion.

The same comes, you put a woman at age of... This is a very interesting point, I've spoke about it before. Why do we get men at age of 45, 50 with Parkinson? If any of you been with me with condition of Parkinson, I ask you one question. When did your wife go into menopause? Oh, 5 years ago, 10 years ago. Do you know why, what has done to you? Her menopause is 90% of the cause of your Parkinson's. Nobody connects it, but that's what the reality is. So, if we sort out the structure of the menopause, security of the woman, understand that the child, they bring in even 60, 70, is still secure, is still alive 100, 150 years, why should you deny your life, pleasure of sharing with a man you love or a woman you love, changes. They go into menopause, man goes into Parkinson. Why, why, why doctors don't want to see it? The guy wants to stay home, so he plays at home (with himself). To keep the wife, I have to keep, to be correct with the conduct with the partner (cannot cheat on the wife).

Remove the hormone condition, whatever they call it, emotion of the Soul, woman lives a normal life, why should they suffer? The man lives a normal life, why should they suffer ?? your family, you sort out a huge problem. Why do men die after 65, 70 and the insurance company bets on it? The retirement should not be there, man should be productive, work till the day he (dies). Man works all his life and he comes home at the age of 65, from today you are not worth it. So what do I do? (2:38) I just plan to die, because I cannot do. If you can keep active, if he can keep a correct life, he can live eighties, nineties, we see American presidents, we see world presidents in seventies, eighties, they are still working and they are like rabbits having so many mistresses next to them, one wife and 20 mistresses. Because if you see, they never accepted 65 retirement, look at all the top richest man in the world, except one, which is exception. The rest are all in seventies and eighties, they still you see they... It's not that you stop, they made us to stop. And what happened, you stay home. You've been going to work every day 9 to 5, you saw a purpose in life, now they locked you up from 8 am to 6 pm. The day comes it's like 18, you get the key. The day comes 65, they take the key away from you. What do you do? You're depressed, you become sick, you die. And insurance companies bet on you, on your pension policy.

And when you start becoming active, now blah blah blah, insurance companies and governments are in problem, because you're not supposed to live more than 5-7 years after you were retired. Now you're living 20 years, we use your money, we can't pay you. You have a social structure problem. Once you sort something out correct, everything else falls in pattern. 85%, 90% of the illnesses, what we call old age illnesses, through whatever physical dimension, should not be there. We should be able to be active.

We are running a trial, you will hear about it soon when it comes out with one of the large companies in the world. That you see at age of 65, 70, 80, people become bent, they cannot move. (2:40) We have produced a system structure, going through ?? trial, within a week, two weeks, you go gradually back to be able to stand up, to be able to sit down, to walk, that you couldn't sit, you have pain in every part, shouldn't be there. We have shown it. So when you're healthy, now they were calculating you die at 80, now you're 90, 95, 100 years, you're still mountain climbing.

So this forces government to bring changes in the social structure, financial structure. Do we get paid by work or do we all look after each other like a social protection and the money has no value because we have more old people. Japan is going to hit this very hard. They are facing with it. China is the same, in Europe is the same, we got more people over age of 65 are not productive and what happens? We have to find money for them, they are home, they are sick, they get sick because they have nothing to do. If you want to be active, you go out, you need to go to be socialized, it needs money, it needs financial, it needs health. So, when you are stuck, you become burden on the society with the health problem. When I can get you moving and you go, there ..

You will hear about this very soon. These are going through clinical trials. We have jumped a barrier in a very big way, and we need that time to go through. This is why I came to you, all of you, we ask for financial support. Donate to us as much as you can,

because it's for your next generation, it's what is there and what is coming up. We need to support these things.

I can show you videos, if you can block faces. You see a woman in 82, 83, 90 percent bent, cannot even bend more than a little bit, to sit back in three weeks, she's a runner. (2:42) She stands up upright 90 degrees, 100 degrees. Walks, sit down, all the way down. Before when we meet, they need to hold her hand if she can walk. Now she sits up and down, everything else without anything. Health, Wellness is a God-given right to every living thing, to the point when the Soul ?? suffers. Should not be connected to the wealth, to what you can do and the rest. And it has to be provided by the governments, by us collectively, as a One Nation. You'll see, we have to, bit by bit, do everything. And now we have connected to the structures who can do that for us.

Any other question?

R: We should ask Gerhard's question here, which is, "What can we expect in tomorrow's Friday meeting? And how is it linked to today's Knowledge Seekers Workshop?"

K- Tomorrow's meeting we'll serve you with Chips and we'll serve you chicken. What else would you like? Oh, you're German, you most probably like sausage or ?? Frank Porter? And we'll bring you a glass of wine if you like that way. You're coming for travel of your Soul, what do you expect? You, you make it yourself, we are not planning it for you. (2:44) You're the cook, you're the chef, you're the eater, you're the servant. You cook it with your Soul, you serve it and you enjoy it in dimension of physicality and the Soul. And secondly, I never give you pre... what you call it, (preconceived ideas) pre-set what might happen to expectation. (If) you have the Headphones, Cosmic Ray Headphones, bring it. You still need two phones, bring it. You have the... the Glasses which we supplied years ago, bring it.

And some people wrote to me, we want the Glasses but you're not selling it anymore. We don't have the time to manufacture them. And then they say Keshe Foundation sell things we can't. They are time consuming. It's a lot of labor work with it. But I received a call. Mr. Keshe, we want to buy... while we were thinking with the Cosmic Rays people bought within a half, we might open a channel for maybe 50, 100 of these next week or this week because people need it with the Cosmic (Ray) Communication (Bundle) Unit and we start doing it. Maybe we open it, because we received a few people writing to us, how can we join these sessions and enjoy it but we don't have the Cosmic Ray, what we call it, the Glasses. We open it, very limited, maybe 50, 100. It takes us about 6 months, 5, 6 months to produce. Take it. It's... and then when you take the Cosmic Bundles with it, transmutation becomes very, very much easier. And you learn how to transmute.

The only problem with you, you have with transmutation, you have to learn when to let go, when your physicality wants to move. (2:46) Don't worry about the glass, don't worry about what I'm holding in my hand and whatever. So, tomorrow is still if you don't have the Cosmic Bundles, still, I think we delivered, we have supplied most of it, whether it should have been done as far as I know before holidays. And we allow the Glasses to

come into operation, for a very few numbers, because it takes time, till one day they go into a massive, mass production. These Glasses are part of the transmutation startup. And now we've got developed further, we'll be much, much more advanced ?? the new sets. And we connect it to the Headphone and to the Transmission Units.

And don't expect much. Come in and see what you like to enjoy with. But we bring a lot of things. I know a few of you have the Glasses and a few of you have the Cosmic Ray Bundles we open this maybe tonight tomorrow if you want to order but don't expect for another ?? couple months. But still we go into production with it and because it has to be met together. And let's see.

R: Mark had a question in the chat here, can we use UBESUS (Universal Body Enhancement Spaceship Units) Headphones without the base Unit in the session are only the Cosmic Ray Units Headphones? Those of you who have the UBESUS Unit use the Headphone and the base Unit. We try to bring all of them into process.

What will be interested. We... it is too much job to be done for this time, maybe for next time. We bring all your other end of the system, UBESUS you have, to be together. (2:48) And we'll be very interested to see how you people of each group, communicate with each other when your system is together. We cannot do it because it's holiday time, it's impossibilities to be done. But next session most probably, when you come in with your Cosmic Rays, and the Glasses and the UBESUS Units, we bring your other end into. Because once you are not in it, don't try to use the Cosmic Rays, because it doesn't go in the system. They go in a box and they're kept outside. Then we bring you together and see how you communicate, how you feel each other's emotion, if you have Cosmic Rays and what you call it, UBESUS Units, with each other.

It'll be very interesting, it's part of what we come and what it is. and we try to go with the production of this Glasses. There is a possibility that we open the Germany over a very few numbers, maybe couple of hundred people. To be able, the way you came to Austria, to go to Flight Units in Germany. The facilities are there, we can use it. And we might open it this week, if you want to go through a Transmutation Unit. Prelude to, we might support you with transmutation there as well. And Dr. Kern and the team in there in Germany will support you. We'll... you can test it and then maybe we can go with other parts with it. Next 24 hours we'll make announcement over this. But, for sure we open there because I've seen a lot of... number of people ask me for... can we have the Glasses? Because we have the Bundles or we want to buy it, but without that we don't want it. We opened the Cosmic Rays and the, what you call it, the Eyeglasses together, and we might open, we'll let you know maybe by next week there. (2:50) you can book to go through Transmutation Units in Germany. In... the way you came to... what you call it, to Austria, you go to Germany, many Germans would like to go, and then you can test it.

It'll be allocated, it won't be all in one day, but a lot of German people like to do the transmutation, just look out, maybe this week we announce, we open the channels for it and we promote it. You can book for it and go ahead. There is another session of the Knowledge Seekers Workshops, organized by the Austrian group which is sometime in

September I think we will, they asked us to announce it as part of what we call, Keshe Foundation work. Let me just check something I'll tell you exactly the date. What's the name of the guy? Okay. The session will be held. It's a workshop for a weekend 20 and 21st of September 2024 in Linz. And it's a two-day workshop with Herbert and Mario in the same place as it was last time you can join the to have a workshop set up. And is what you call it, is extensive workshop in different aspects of it. You have to understand these workshops does not carry the banner of the Keshe Foundation. We don't endorse it because they can teach or say something, say it was sold in one of these workshops. (2:52) It is what you call, a process that you can do and use if you like to do it. And it'll be very interesting to see. They had an interesting workshop last time. If any of you are Knowledge Seekers who work with part of the Keshe Foundation Store System and you do workshops, we're trying to promote you for your sessions, as long as it's within the frame of the Keshe Foundation, don't use our name to do other things, then we block it, we don't support, and we stop everything.

And very soon, I think this month or next month, they'll open a second or third retail shop in Switzerland. It will be opened up and then you can go actually to the stores, these places to buy or book for different things for the Keshe Foundation. But the German community if you wanted to go for transmutation sessions, as was with the Keshe Foundation, this time there is not so much pressure. We ?? we spread it to go to Germany. We to a very few limited, because there's been a lot of people who like to do it. The Italians like to go to the transmutation again. ... This, we open up, you can register for it, and go to it, more or less, next couple of weeks.

Anything else?

R: I was wondering if, excuse me, I was wondering if the book sales were happening through the KF Store. Can people order, like, physical books, not the e-books, but the...

K- Yes, yes.

R: ... physicality books, sir? Okay.

K- Yeah, physical books, I think they were printed in Romania. (2:54) And they are there, I hope, the Italian post doesn't steal it, like the, what you call it, Austrian post doesn't steal it, like the Belgian post did their books, so, yes.

R: Maybe, maybe that's what's made them so rare. We were looking, excuse me, on Amazon yesterday in the Plasma group, at the, at your three books, and one of them was selling... it had the e-book for, you know, 30 bucks or something. And then they had used books, were the only ones available on Amazon besides the e-book. And one of them was 5,802 dollars or something like that, over almost 6,000 dollars they wanted, For, I think it was book 2 on that one, and one of the other ones was 130 dollars.

K- Some of these books have signed, we don't do much signed books. The original books were signed and registered, and some people actually sell those signed books. We know

that because they've done that. And somebody in Holland found it in a secondhand shop, for very few dollars. But when you open them, if you get these, they have a special signature. And you can ask us and we can tell you the, what you call it, the authenticity of it.

R: The production number and so on, they have a number. (2:56)

K- Yeah, they are hand signed by me. And they have a registration number on it. And you can easily identify it.

I put this, what you call it, this teaching on the screen. If you can see it from, in September in Austria. ...And ... you ... what you call it, we still sell the books, you don't need to pay 5 or 6,000. But, will not be signed. I signed some books a few months ago, and that'll be the last of the signed books, for the time being, as far as I can tell you. ... I know ... I think ... Is it Polish or another group are printing books to publish? They received authorization from the Keshe Foundation to print a few thousand books, all ISBN number from the Keshe Foundation. Is it Bulgaria or Poland, one of the two? We authorized the book to be published by the Keshe Foundation supporters in that country. And I think China is going through the same process of publishing books. In Chinese. You don't need to buy it. And then some of these books will be done. And we'll see what the next step with it will be. It's not bad if there's 6,000, it was 9... 29.99, 20 years ago. Or 10 years ago when we published it. It's a good inflation if you can get it.

R: Yes. I remember that, in fact, I have a picture of it here. Let me share. (2:58) I have to place the current share here.

K- In Belgium, of course, I've got hundreds of them.

R: You remember signing this book to me, you made an actual error, probably the only mistake in your life, and you had to cross it out, and you put in, "Not everything in life is perfect." M. T. Keshe. I remember that's the first... the first communication from you, I think, I got was this, "Not everything in life is perfect." and that was just perfect in itself.

K- Yeah, see this has specific sequence numbers, we know, I know these numbers and these are, we know what, I know exactly what is, if it's genuine or is it copied or because some people try to copy this, said that I was signed from this ?? Mr. Keshe. And the new is just the signature, has no dates, so they are not like the first ones. As I said, there's hundreds of them, hundreds of these books stuck in Belgian Post, they didn't want the technology to be shared. And we paid the Post but never left the country. So, it's nice to see. This was, this is one of the original ones. And I know when you bought it.

R: Yeah, we're trying to sort out some of that what's original and what wasn't. And there was a couple of different versions and so on that had come out at that time. Like, we have this. This is... It says, it says 2011 here for the copyright notice.

K- Go back, go back to it. Go back, go back to the cover. (3:00) Go back to the cover, the cover. You see this is the original first book. This, if you have this book, these books, these are my writing. These are a lot of English mistakes in it. That time they were opposed. Oh, this, this. The knowledge is important, not if it's this and that and the others.

The second edition one is edited by English woman who made a lot of things she wanted to do (she changed it to her thinking), we had a big problem with some part of it's done the other way. But if you have this one, these are the originals and they never made this only about, I can't remember, two or three thousand of them. The second edition is tens of thousands of them, there is no problem with that. But this if you have, these are one of the original ones. And I know, Belgium Post has, what you call it, quite a lot of them. FedEx and Belgium Post have a lot of them, they kept. Interesting. Do you have all the three copies or is it just one of the three books or one book?

R: No, I have all three, I got all three originally it took every penny I had. Because the shipping was even more than the book price actually at that time. So I've between the exchange and I... it's quite a bit to invest in at that time. but I was determined to get the books and to pay for them too, because they... there were ways of getting them, you know, online and that kind of thing, I think even back then. (3:02) But it's not correct to do things that way with books, especially... and especially these kind of books from someone like yourself. So, Gee also at that time, he paid the price too, he got his own set of three. And, yeah, we decided to pay for it, and it was a good decision.

K- All 3 of your books signed, or is it just one was signed?

R: No, I think, I believe it was just one that I got signed. Let me have a quick look here. No, that's not true. I've got the ... Structure of the Light assigned here, and probably number three as well. I think I got all three of them. Let me have a look at that. Yeah. Yeah, it's got a number there, but it's cut off, I can't quite... I didn't scan it in, quite.

K- Yeah. No, this, these are the original books, ???. The first edition will not be published again. Somebody asking when. It will not be published. We are holding about 36 of these books, I think, of the first edition and the second edition, first cycle, I think 7,000 of it still with the Belgium printer, by the instruction of their King has been held. We paid them 24,000, we never saw the book, but that's tradition. These are all first editions, you don't find them, it's nice to see it.

I remember when I got the first book, first edition in my hand. (3:04) I have a picture of it somewhere. I have a picture of this first edition book, first picture. Dirk Laureyssen took it and because we gave it to the printer going in, and he said, "Oh, you sell a few, one or two and our friends only buy, nobody buys books like this." And it's interesting. Some are in the archives, there's a photo, I've seen it somewhere, I can't remember where. This picture, of the best book ever.

Okay, any other question?

R: Well we probably need to wrap it up soon here but let me have a look, there's no more attendees with hands up, there's a couple more questions if you want to take more. How about some quick questions here from Doug McDonald, "Is the Gans brain that Marco began making in Italy still being developed?"

K- What?

R: The Gans brain that, I believe Marco began making in Italy back in the old days, a green thing I think it was a sphere.

K- I remember, I tried to give it to Marko. No. It cannot be made. But we actually, it can be made very easy. We can be done. We don't have that structure of the Knowledge Seekers who do the job. And the time, I don't have the time to do it, but what you call, (3:06) it can be made, that can be made very easily. Yes. I mean, it's easier now, we understand more of it. But you can make a live computer of it, lives full of it, yes.

R: Okay, well that could maybe segue into Seventh Star... one of... one of their additional questions. "Can intention, enveloped by feeling of giving, focus and patience, be used to build a strong connection to plasma, whether it is the Sun in the Sky, the center of the Galaxy, or a simple MaGrav device?"

K- Pardon? Repeat.

Q: Can intention, enveloped by a feeling of giving and focus and patience, be used to build a strong connection to Plasma, whether it is the Sun in the Sky, the center of the Galaxy, or a simple MaGrav device?

K- I presume so, yes. If you understand what you're doing.

R: And can one use a MaGrav device to release energies that one can absorb using one's intention? And then convert them by one's Soul to building blocks one needs to achieve one's goals?

K- Everything is possible. Everything is possible.

R: How about one more from 7star? How important is it to create low strength fields for manifestations? (3:08) What effect do they make when flying through the center vortex of different states of matters in comparison to higher strength fields?

K- Can you repeat that?

Q: He starts out with how important is it to create low strength fields for manifestations. What effect do they make when flying through the center vortex of different states of matters in comparison to higher strength fields?

K- That doesn't make sense to me. I don't understand it to be able to answer you.

R: Right, well maybe it goes back to another previous question. Is it possible to use focus and intention to release energies from the Soul of the heart center and how emotions created that way contribute to Soul expansion and to general well-being.

K- Repeat that please. Just repeat what it says.

Q: Is it possible to use focus and intention to release energies from the Soul of the heart center, and how Emotions created that way, contribute to Soul expansion, and to general well-being?

K- I cannot understand this.

R: He seems to have a common thread of ... this idea of coming through the center, or the center of the vortex kind of thing that, that these, (3:10) this focus and intention goes through, and that releases energies that might contribute to expansion of the Soul. I'm just kind of supposing some things there, so I'd rather just read the question as it is.

K- I cannot answer, I don't understand.

R: Perhaps they can reformulate one question to incorporate all those questions because they're similar in some ways. You sort of getting close to a question that we might be able to answer but it's not quite there yet. Perhaps how about how about this last one? We'll try one more. How does intention relate to converting of rays flying through the center vortex of plasma from south to north? How does intention affect what strength of fields flies out of the north point? Can you elaborate, please?

K- Can you repeat this? Because this this...

R: Okay, maybe we're getting closer to something here.

Q: How does intention relate to converting of rays flying through the center vortex of plasma from south to north? How does intention affect what strength of fields flies out from the north point? Can you elaborate?

K- The point is to understand, that does not matter where you look at anything. Whenever you add energy or emotion, you call it or whatever, always is the same, always adds the same. (3:12) And you always add to any, what you call it, any plasma is not exclusivity of your Soul emotion, any intention can be added or increased or added to a plasma and always depends if it fits into the structure of that plasma as it had the strength to be part of it, to be absorbed, to be increased. So, doesn't need to be in motion, you can put a Gans next to it, it's the same. It'll be, what if we has that strength, it'll be shown. Even on the equator doesn't need to be the top. There's a misconception that everything comes stronger on the top. There is a reality that everything is inclusive in all dimension and directions.

Any other question?

R: Okay, a question from Antonio, my question is about the two astronauts stuck in the space lab for the next six months. (3:14) Can the Keshe Foundation retrieve them and bring them back sooner?

K- Americans don't believe in the Iranian nuclear physicists, so the answer is no. We don't exist, we don't exist.

I, sometime recently I was with some people connected to TEPCO, and when I showed them documents, stamped by the Japanese authorities and the rest, they said how much lies have American told us? I said that depends on your government how much you accept what they tell you because the data is black and white, it's done by the authorities and the rest of it. And what do we accept? Is it to our benefit? We stop offering these things to the Americans because it's just a waste of time. Working with these people, they are so arrogant and they are, that they have everything and they know everything so it's better not to get involved. We stay out of it and if the... they have Mr. X he is supposed to save them, isn't it?

R: Yeah, apparently the next flight that Space X is going to take they have to leave two the astronauts out of four out of the trip up, so they have room to bring the other two back or something like that.

K- When is it supposed to be done? (3:16)

R: I think in a couple of months they go up, but they don't come back until the New Year sometime in January or February. So they have an extended trip.

K- Good luck. I hope they stay safe. I hope they stay healthy. That's the biggest problem with it. Rick check your usual communication line. I've just sent you something I'm trying to send you something with what we were just talking about before the start of the teaching, it'll be something interesting for you. You can share it if you want, but ... pick it up, where are you?

R: It's not coming through yet, I don't think so.

K- I can't find your name on it. Where are you?

R: Sometimes Telegram sort of makes it difficult to find people.

K- Oh, I found you. I found you. There we are. Just have a look. What we're just talking about before the beginning of the session. I was talking about the gate, the door to the church.

R: Would you like to say something about that?

K- Yeah, but this is how the churches were, huh? churches were, huh? Anybody had any knowledge of the truth, they were beheaded. You can share it if you like, but it's very interesting.

R: .. Pretty violent images, lots of swords and lightning and... (3:18)

K- This is a door to a church, a very prominent well-known church in Italy. Our Italian friends can tell us. I went to this church because I wanted to see it. Not because of the Church but because of the door of it. If you look at it, there is no difference between this maybe a thousand years ago, when Christianity came to Europe and the Keshe Foundation today. If you see these are young girls who were at that time virgin girls, who were the ones who could do the medicine, everything else (witches). And it was on the church, whoever comes to this church, cannot believe in these people (or you could be burnt as a heretic to Catholic Church). And they were so, so, what you call it, adamant, that they, and they were so powerful they can do this. Actually, this is the entrance of a door to a church. And there are a number of these churches, doors like this in Italy. The bottom right hand side you see is a young girl to be beheaded, or whatever and flogged and put to on the sticks on the fire because virgin girls were thought to be like the medicine men and people believed in them. They couldn't believe in them and the Church and the only thing was to get rid of them. And if you believed in these things you couldn't come into the church, or if you were one of them you couldn't come to church. And there is no difference in thousand years in man and ?? ethos, and Keshe Foundation is in the same situation. You cannot because it does not fit. So, we're still on the same prosecution, prosecution... or persecuted, uh, (3:20) a thousand years ago, by the same ignorant people, and they still believe in the same Church.

What's next? Anymore? Or shall we...

R: Okay, we have maybe one or two more, if you can hold out a bit. A question from... well first of all, we still have... I don't know if I should bring this up, but we have our Chinese guests that had trouble a couple of weeks ago, with ingestion of Gans, is still...

K- No, no, no, no. Just ignore this. things.

R: Okay. We've already...

K- No, we've said to the Chinese, this is nothing to do with the Keshe Foundation, it's nothing to do with our work and it's something... People do a lot of things to themselves. This was handled over to the Chinese Keshe Foundation, and it's for them to handle it. There's nothing... nothing to do with our work. It's all made up to be something, somewhere. Next question.

R: Okay. From Ali who says, "How can we understand that the constructive interference of the scalar fields of one or more elements has taken place? Is it possible to see the interference of these fields by having a witness like salt water?"

K- If you don't put separation between the scalar fields and, what we call it, Tesla speaks about, and other scientists, is... (3:22) If you make a iceboxes, that'll be one of the best connection to it, best ways you can see it. But you have to understand even with that, look for what comes in, then what goes out. And there is a technique in detecting this.

Originally they have a different structure of the strength. The scalar waves. If you do enough of them, depends how you do it. There is a way to separate the scalar waves and make sure that it is, it's not the other way around, is by ice blocks. But you have to know how you make that block. It has to be made a specific way. And then you can see. And you can measure it. You can actually find the strength of it, if it's coming in or is it going out. We did this a few years ago with one of our Iranian Knowledge Seekers, extensively. You need a very fast -50 plus freezers that it can encapsulate the fields very quickly. (3:24)

Any other question?

R: Wolfgang had a question about, is the German edition of the books ready? Is it already in print?

K- No, we have a problem with this German book. Book 1 is already again, we have it sorted out. Book 2 and 3 I have to spend, God knows, maybe 2 weeks to go through every comma in the right position, every dot done before we can publish it, and I don't have that time. Book number one we can get it printed. We can ask the German community to print it, a few editions for it. Number two needs, once we agree with it needs to be set and everything else. We have... Sorry, in our, in our archives, in our system, we have about, I don't know, maybe 20, 30 different languages the books are translated to. But we never got around to do it, and then when we hit the problem in Belgium with the printers, we just... You lose hope, you lose all your strength in doing it. It's something a quarter million retail value of books sitting and they deliberately say you wanted to come here Belgium King wants to kill you, your books for your life. That's all it is. But we give them our best wishes.

Any other question?

R: Question from Peng Peter in Youtube about does feeding oneself come naturally from transmutation and do those who still want to kill, (3:26) will they not be able to transmute then?

K- It comes by the decision of the Soul. There's no gray area on it. We understand the dilemma the human race is in and how it needs time to change. And this is something which is not something new. We understand this position clearly, clearly. What it is, and what it means, and what needs to be done. But your Soul has that power to do so.

We say in English there are some concessions given, if you put it that way, for the transition (time). And when you start learning transmutation, you gradually give up on the other side. You do not give up, there is no need for. You understand that man carries

everything through his DNA and RNA and it goes with the rest of the cat, the dog and the fish and the rest of it, and the structure is to change inside, not force to bring the change.

Any other question?

R: Speaking of structures changing from the inside, we have a message from Ukraine, from Feofan, who says, (3:28) "Hello, I'm from Ukraine. I have successfully made about 20 reactors. I have also successfully used them for health and as fertilizer. Yeah, so that's a, that's a nice, inside job. Spreading peace in Ukraine and one reactor at a time.

K- Ukrainian Knowledge Seekers are very... used to be very active, but in this turmoil you don't know what they do and what they are, how they are, how safe they are. Keshe Foundation has a very strong base in Russian Space Agency. Many of the scientists were aware and work and done a lot of research around the Keshe Foundation technology. The Ukrainian used to be in different way. They used to work in American Knowledge Seekers.

R: Okay, one last, one last question here, perhaps from Nikolai, who's asking if there's any new information from the Keshe Foundation, about the Vienna to Iran journey, that Canadians and Americans need to sort out.

K- We will inform those of you who are registered to come. We will inform you. It's something it has... You got to understand, everything for us was black and white. We're going ahead, the president died, and then they had the elections, there is no certainty, and then we had this stupid situation in Iran, by the killing of the, what you call, the Palestinian guy, (3:30) and they just brought accumulation of delays and delays, and nobody wants to take position. The President doesn't come into actual power till September, and we cannot do till we have a full cover instruction. And in writing, and what we can do, there is one of the biggest problem for us is, to be able to retrieve or bring back our material with us, out of Iran. ...

We have two part of the technology presentation. One is for you lot and public and one is for Iran officials. We've maybe spent five days with you, we'll spend about two, three weeks with them. And we have representatives of the government to be invited and the rest of it. There is a lot of things to be done. And we are still waiting. The Americans. We asked for the restrictions to be lifted so the Americans can come into the conference. And the country or the government has a restriction on it. So we are trying to do a lot of other things. We have to receive the authorization from the Iranian officials. They have this 2-3 elections and what I call, murders and whatever. Everything is delayed. The minute we receive it, it's their job, they have to issue documents that we can start getting foreigners into Iran and then announce the conference in Iran. And then you have to understand the conference will be, a lot of scientists and others are invited from different universities and structures.

It's not as easy as... China was a hard, tough but this is much tougher. But it's... I think by Monday, Tuesday or early next week, we're getting some resolution to part of it. (3:32)

As the President has to appoint people and then we see what will come of it. As I said last time, last week. We've made our point clear and the government and the authorities understand our point. And ... as we've seen up to now, there's been no changes, and we don't expect changes at this moment of time. Unless, World Parliaments in the structure do something. But ... what was made, asked for by the Iranian leadership, has been stepped down now. And we'll see how, who people say, face this ?? somewhere and then the conference will go ahead with the rest. Just be patient, the minute comes it takes a couple of weeks, we do everything in the background. You don't need to do anything. All you do, you get a time where to go, to which embassy, what time, everything will be done for you. And then you carry on with the normal procedure.

Any other question or shall we call it the day?

R: Yeah, we've got to quit asking if there's any more questions. Now we're pretty much at the end here I think Mr. Keshe, so thank you very much.

K- Thank you very much, thanks for today. We try to share knowledge as much as we can and we opened, as I said, maybe tonight, the production of the Glasses and Cosmic Bundles but it'll be very limited because it takes a lot of things out of our research and of work and we opened what you call, the German, what we call, transportation, transmutation, (3:34) that you can go to Germany where the systems are and enjoy the pleasure of being to be able to do it. Thank you very much and see you next week.

R: Okay, thank you Mr. Keshe and to quote Milenov in the chat "Thank you Mr. Keshe for your words, when I listen to your teaching my Sun inside me shines. God bless you, love to all."

K- Thank you.
