

# **Remove Killing from Man's RNA - Universal Knowledge Library - No Patents - Enlightenment is Emotion**

## **Introduction to 551 KSW**

Note: Not checked by KF interpretation by KS of KF Brazil

The first part of the teaching focused mainly on the fact that because the man chose the path of killing other beings like the plants and animals to take their energy to survive, he has cut himself off from the rest of the Universe (U) and the Soul of the Creator (STC). He went into more detail about how it works. Mr. Keshe asked us questions about the origins of the killing to get us to think more deeply about it. For example, did the killing start with the Soul that created our Sun. Because that Soul would have had to first elevate itself to be able to create a new cycle and somehow it must have passed on this emotion of killing through the RNA to our Sun, who then created the Earth out of its fields, and then passed it to the Soul of the Man (STM) when it was created. Therefore, when we elevate to the point of being able to create a new cycle, then we'll likewise pass it onto our creations. This has all been described very nicely in the "Cycle of Creation" video.

From the point of view of us as humans we didn't know about this, and when our consciousness awakened enough to know that we exist, the killing was in us as something normal and natural. Regardless of the "who to blame," we are suffering with the result of it and now we have been given the way to transform this condition. He asked another question, do all the Souls that were created on Earth get isolated from the rest of the U. In a way, they quarantine us like we do with a virus to keep us from infecting the others. Maybe occasionally a few break through, because he once said that Souls from Earth started spreading killing to other planets, but he didn't give much details. The solution is not to say, 'oh, I won't kill anymore.' That won't work because it is written deep in the emotional level of the RNA of the STM. It takes 20 years of behaving in a certain way before that information gets written on the human RNA and passed into the DNA of the physical creation. How will it work on a solar and planetary level? It seems this is a work for higher Beings like Mr. Keshe to solve, but we have to participate in the process in some way. Maybe a certain number of humans have to elevate to the point that they really know killing is wrong, and that we can receive the energy in a peaceful and loving way. This is our job to understand and integrate the knowledge so that essence of our RNA can be changed to eliminate killing from our emotions, thoughts, and behavior. Just by reading this we get a sense of how low human knowledge and understanding is, and that we are denying our true condition to ourselves. And now we are being given an amazing gift of knowledge to come out of the darkness of our ignorance.

When we look at the world we see so many horrible things going on. Of course, we also see a few good things too, but the general trend is towards certain groups controlling the rest. And if you have ever worked in the physical dimension with organizations that try to

bring a change, then you eventually come to understand that true change is virtually impossible, because the structure won't allow it. And now Mr. Keshe is explaining to us the reason for it. From the very moment our mother puts the first mouthful of food in us, we change into the lowest position in the Universe. From inside, our Soul knows that we are killing another being and this automatically cuts us off from reaching the level of the Soul of the Creator. It doesn't matter if you think because you are a vegetarian you don't kill. That's your self generated concept, and it doesn't change the fact that rice is a living being with as much right to live as us. If we understand that the system is fundamentally flawed right from the beginning, then we won't waste our life chasing after the wrong things. Of course, we can learn and grow, and we do that, but then we reach a point where we can't grow anymore, because our very existence is leaving a trail of corpses behind us. When we deeply understand this and want to change, then the door will open, because it has already been open and waiting for us. But we have been ignoring it, and it has been more comfortable for us to deny it. In fact he said, we have never really tried to go to the next level and we don't want to know about it. But if man would find a way to exist without killing then his possibilities in the U would be endless.

This is why we are being taught the process of Creation through the Soul. Because if man learns to create the next generation through the essence of his Soul, then from the very beginning he will know how to absorb energy from the Universe without killing. When man creates Children of the Soul they will not know how to kill or destroy. In the present time we learn to kill from our parents, because they feed us with it and they think it is the only way to exist. But the Children of Mitra, or of the Soul know that the love of the Creator 'rains' on all created things equally. It's us who puts up an umbrella and says, 'I don't want to get wet. I don't need the rain.' This is the purpose of the teachings, so that we can create a new race of man that won't be dependent on the physicality (P) of the life on this planet, and they won't have to kill to elevate themselves through taking others energy. The scene will already be set for that Soul to be able to go to the higher levels along with the rest of Creation at the field strength of the Creator.

The way it works is that mother feeds the child in her womb through her love. This knowledge is inside us. We know it already, but then we get misled to not understand it. The energy of love is fed to the child through her Soul and she remains connected to it. There was no need to give the breast to feed, because it was already fed. When we understand and accept this there will be no need to commit all the crimes in the name of surviving and ignorance. The child understands and feels that love, it's the parents and society that have to be educated to the next level. Aren't the first words the child learns to speak, "I love you." Now we are learning that they are not just words, but a living energy. The mother's Soul teaches the child's Soul how to feed from the love, and it's through being humble that the child receives the energies and grows through them. All these things are decided through the structure of the STM. The Soul decided that it should take a year for the child to walk. But the Soul of other animals decided that their child needs to be able to move right at the time of birth so they don't get eaten by other animals. In the same way, through the STM we can decide to be able to walk right at birth. This is the power of our Soul, and the physicality responds. This is how Christ raised the dead.

He elevated the Soul and it took care of the physicality. In the same way when we feed the STM it will feed the physicality.

If all of Creation came out of the Creator Himself, then do we need to have a man and woman to create children? Mr. Keshe says, no, that every Soul can create life from its own Soul through love. I made Man in the image of Myself. And if we can reach that level we can create life in the essence of the Soul of the Creator (STC). These are the Children of Mitra, and it seems that if any Soul reaches to that level they can create a Child of Mitra together with the STC. And he invited anybody who attends the Friday Flight Session that if they get that feeling they want to create a Child of Mitra, they are quite welcome to do so. You don't have to worry about how you are going to feed, educated, and supported, because the child is taken care of by the Creation. They have everything within themselves including the Knowledge of Creation and it's them who decides whether or not to manifest a physical body on Earth.

The same way that we create children through the interaction of the fields with our emotion, is the same way we can change our form to be whatever we want. We can be a man, a cat, stone, or whatever. The next time we pick up a stone to randomly throw it we should wonder who we are throwing, and do we need to throw it. It's all done through understanding the interaction of the fields. He has been on Earth for thousands of years and we can do the same. But we have to learn how to create a new body, when ours gets worn out. Maybe this is more for if we get bored with the same body for centuries and want to change it. Because before he said there is a way that the body won't age. Again it's not reincarnation, which is a theory made up by people who didn't understand the Knowledge of Creation, or the Masters told it this way because that was the level people could understand.

To realize all these beautiful things we need to achieve world peace on Earth. When all the nations come to peace with each other this will destroy the system of killing we have made for ourselves. The teachings he is giving us now are the beginning of this stage where Man will learn to use his Soul to feed himself and to create a new race of man that doesn't kill. By joining the Friday Flight Session we can use the KF systems to elevate our Soul, and when we manage that, we can teach the others how to elevate themselves. It's us who will change this planet by ourselves. They are here to provide the Knowledge and Technology to help, but not to do it for us. And the Day of judgment is the day we decide we want to live in the dimension of the Soul, while at the same time enjoying the dimension of physicality. And through the elevation of the STM we'll elevate the STP and become a complete Being who can live anywhere in the U.

In the second half of the teachings Mr. Keshe opened a discussion for us to think about where thoughts and knowledge come from and how our brain processes this knowledge. He has pondered on this a lot, but for us it is not so easy to ponder because we don't know very much about what Creation is or how it works. We use the machine of our brain but we don't really pay much attention to how it works. Today he has given us a lot more to think about.

First of all knowledge is shared equally throughout the whole of Creation. There is no exclusivity or discrimination and each Soul accesses the information through the correct field strength. For example, Mr. Keshe has access to the knowledge, as well as the Children of Mitra because their Souls are pure. He even mentioned that there is a part of his brain that has the field strength to allow him access. But all of us can learn to access it through our Souls. But the problem we have at the moment is because we kill others, we cannot access the knowledge. The knowledge is in a place called, the Universal Knowledge Library, but it's not a building, it's a dimension of M fields. Perhaps this is the same as what he used to call, 'acquiring knowledge through the Soul,' as when we dream, for example. So when people invent things, most likely they are really accessing this Library, whether they know it or not.

So how does it work? Let's say you had a great desire to bake a cake and your intention was correct. Then knowledge about cakes that are in the Library would come to you and you could bake the cake. The interesting part is that whatever improvements and innovations you make to baking a cake, like different textures, flavors, and whatever, that information will be added to the Library for others in the Creation to have access to and enjoy. And the knowledge also considers what emotions you experienced from what you invented. It's not just "facts," rather it's the interaction of the M fields and how they flow to create this or that emotion. Also the knowledge is translated and converted into the way we experience things on Earth. If the invention originally came from Planet Zeus where they don't have wheat to make flour, it will be converted into its equivalent experience. This is why the emotions are important, because each dimension and planet is created out of the interaction of the fields with emotions.

If we understand this process then it would seem that the inventors on Earth accessed the Library to make their inventions and then we called it theirs, because that's all we could understand. But it never was really theirs. The improvements are theirs, but they cannot keep it for themselves because it will automatically be shared. If you remember a couple of weeks ago we mentioned that a Nobel Prize winner in Physics originally got his idea through a dream. And isn't that the D of the Soul? This is why Mr. Keshe opposes patents and Intellectual Rights, because it wasn't really their idea and all knowledge belongs to all of Creation. He said through certain field strength we could have access to this knowledge without knowing it. It is important to remember that not all the knowledge comes from there, it's a two way traffic and we can be developing knowledge that gets added to it. And if someone on another planet has the feeling of wanting to move in a continuous motion, he would get access to the knowledge about motors that are made on Earth and his Soul would know it came from Earth. So there is still recognition of creative discovery, but you can't block other Souls from accessing it by claiming a universal patent.

It seems that for ordinary people our brain doesn't have the right field strength by itself to access the Library. However, through the right use of the Gans's we can access it. Mr. Keshe has a special part of his brain that can access the Library and maybe other special Souls that are here to help us, have the same. When we achieve world peace or we manage to elevate our Souls ahead of the others we'll also get access to help speed up the

process. In a very humble way he said, we are just Teachers, it's you who has to elevate yourselves and then teach the others. We have to understand that the knowledge is free and has to be shared with everyone, and stop this colonization of the intellect that is going on today by certain nations and races. Even the Messengers became thieves, because they didn't give the whole message and ended up stealing from humanity to have what they wanted for themselves.

For those who do serious spiritual practice trying to get enlightened to help humanity the following information could be helpful. He said that, enlightenment is a kind of emotion, which we react to it and it becomes a knowledge, or it becomes a behavior. This is exactly what happens when you do spiritual practice intensely. Suddenly you get an experience which you think is enlightenment and it can last for a few moments or for months and maybe years. But if you feel deeply into the experience you realize that it is really a change of emotion, and that changes your behavior or gives you a knowledge and understanding you didn't have before. Maybe this is exactly what's going to happen to the whole of humanity when we make that "Change."

Our bodies are made from the interaction of the 3 layers of the skin and this is how they will make the UFO from a suitcase in Iran. He said, it has already been made, we have it, but our scientists have to understand it. Mr. Keshe has felt the formation of the Craft and sometimes the others feel it also. This is why he is so confident and is ready to show the spaceship to humanity. But he also said he has to prepare himself for the conference, so that he can transmute himself into the Craft. Showing the Craft will be one thing, but it also has to be flown and maybe he is the only one that can fly it right now. The secret to solidifying the fields is salt, which he talked about many years ago, but has never revealed the true secret. Each week is getting more exciting.

The Cosmic Ray Bundles are tools for transmutation and the place for Knowledge Seekers to begin practicing how to do it. He talked a lot about adding the KF Glasses that were developed a couple of years ago to form another Twinity of M field interactions which can help expand the Soul over the physicality. These can be used by oneself at home, but also during the Monthly Flight Sessions where they will expand the experiences to new dimensions. If there is enough interest they might open production on the units again, because they take several months to produce.

Our ancestors pass on to us different features to our physicality. We say we inherited this or that from such and such a grandparent. But we also inherit different emotions and behaviors that come through the Soul. We carry the Soul of our ancestors within us because we are all connected and created out of each other. Now we understand that cultures that show respect to their ancestors for what they were given, actually have more knowledge about Creation than we, who consider them to be more ignorant.

The next step is to learn how to feed ourselves from the Love of the Creator. It's a real energy and not a fantasy. When we were first created in our mother's womb we were being fed by love. Now we have to relearn it and have faith in it and one of the keys is humbleness and another is detachment.

## **Other Topics:**

All the nations on this planet can rise against me and the Keshe Foundation. They will never succeed because it's not mine, it's the Knowledge of Creation. There are Souls who will put it right and protect it because it's theirs;

No one will pay 100,000 for an electric car when you can build your own for 50 after what we will show in Iran. And this car will love and protect you and not be a danger to your life or others;

Because the cells of the body all have a Ca seed they usually have stronger M fields than the Gans Patches people want to use to feed themselves. So instead of being fed by the patch, their body ends up feeding the Patch. He can make a Gans mixture to feed us for centuries;

By observing Jellyfish, which have transparent bodies we can see how our Soul will travel through the U. They rotate directionally to where they want to go, interacting with the different fields, and they MaGrav position themselves with each other;

In the Islamic World they say that God said, 'I made you to make children that they might love Me.' But it really means, I made you to create knowledge and information, so that it brings peace to the others I made. Your knowledge becomes My knowledge, because I am you;

There is no hierarchy with Universal Teachers they are all the same.

Thanks for listening.
