

# 558th Knowledge Seekers Workshop October 3, 2024

(Quick Index 22 pp, Introduction, Topic Index ; Need to do; Key Phrases, Words)

(Auto transcription from Elias)

KF Plasma system turned on 1st part - feeding & pain relief; Deepen teaching - Man's connection to the Creator and Creation - through AA or COHN; C-H connects STM to U & Creator; O-N is P part of planet; C14 becomes C12 the P; C14 connects to C60 crystal structure of U; O Inertia G fields of Liquid & gas; N to Fe matter Inertia; Eating nourishes both Soul & P; Can't take P at death belongs to Earth D; Rhythm of heartbeat; Learn to switch to Soul while awake; Called Soul - God - Prophets abuse P of Man; Empty space - strength C-H; Science muddles - no Big Bang; U needs containment; Multiple interactions becomes everything; C14 connection to everything in container U; Everything in Twinity - process of Creation; Creator sows seed within cell - COHN; C connects to all energies in U - converts for local digestion; Creation is interaction of itself with itself; Feed Soul - feeds P; One seed become 8 billion; Today is special; Make change painless; Transmutation not by system - by understanding; P uses sperm & egg - Soul uses 2 fields; Nobody understood Soul - taboo; Speck in diamond colors whole crystal - my voice reaches whole U; Not Messiahs - Essence of Creation; I appear in different frocks; Tap U Energies; Narcotics & Alcohol - C-H - acts as 'Black Hole' - seeds absorb high energy from U - uncontrollable; Secret to Creation; Everything connected; Need to confirm existence; If remove Soul - become nothing; Dot in brain is Black Hole - cannot exist without - absorbs energy; Machine measure Soul; Soul of Mitra came today; receive without headphone; feed humanity without them knowing; Need financing; Promised Day here; Feed STM & STP through system; Satellite Souls; Process Schizophrenic; Psychiatric medicine physical - side effects change P; Cannot change past - correct for future generation; Shape shifters; Need bigger picture to work with Plasma; Video Netanyahu running for life; Israel explode 4,000 cell phones - bomb Gaza - Beirut; Iran bombed Israel - News Blackout; Americans send 2 billions bombs - paid for by Vatican; If bomb nuclear station - retaliate wipe out Israel; Systems ready for feeding Iran new T - plasma communications; Share T with world; Ukrainian president signing bombs - shameful; Energy burst from Sun positive;

## Topic Index

KF Plasma Systems turned on in background unknowingly to feed and pain relief 1st part only; Building up knowledge step by step; Connection between man & Creator through amino acid (AA) - COHN and creation of life on planet; Hydrogen (H) of COHN connects man to Creator; Carbon (C) connects Man to structure of U - C12 is P; C14 is U; C60 crystal structure - creator of U; C - H Plasma side of COHN - C12 & C14; Calling it graphene - matter state crystals; O - N is physical side connected to Earth; O is gravitational Inertia of gas and liquid part; N is for matter Inertia ( $4 \times 14$  is 56 Fe); COHN connects our P to Creator; Knowledge is what humanity has been waiting for; All created things on planet connected to Creator through COHN; Stones have own AA - solid state. C - H constant everywhere in U; O - N side dependent on time, place, and position (TPP); On other planets change O - N for another element - different

manifestation - turn green; C - H side is line to Creator through STM - unchangeable; Why when physical life in control have to eat & sleep; C - H is Soul side; O in blood acts like filter connects to U; Sleep at night Soul opens up - no filtering; Have to learn how to switch to Soul when awake; We are all the time in transmutation; Rhythm of heartbeat; Soul matures over lifetime - gets free in U; Eating nourishes P & STM; Breathing feeds STM; Take energy at a different levels; C - H side feeds STM; N - O feeds P; Both grow together; In dream Soul blocks the P; Waking P blocks the Soul; Can't take body at death - belongs to physical D; Teach you how to take curtain away - your decision; Learn secret of connection - travel between Soul and P; Another way to observe through energies of U; Don't need sight - feel strength of fields - C and H; Man lives "schizophrenic" life - doesn't know about Soul; People called it God - made themselves intermediary - Prophet - abused physical life of man; Even Ten Commandments & 24 Commandments; Cannot see Soul - feel through Soul; Moses spoke about fire - frighten his people to get his way; Mitra & Zoroaster spoke about light - enlightenment; Child cries when born into P; Transmute through Sun - see light - travel; At death - Soul is born - owls hear it; True essence of Creation; Home in local village Earth - go out become part of nation - planet; Same in U; I made man in image of Myself - converted to H - C strength interact with local environment - manifest myself; Planet have Potassium instead of N - different manifestation; Liquid different; Saturn only has Inertia of Helium - instead of O - different look; Empty space at strength of C & H - can create life - might not be P; Things change according to conditions - can decide change; Look how Creation works through its systems; Man not alone - always connected to Creator; Everything created out of H; Essence of fields connected to Creator - otherwise cannot exist; No Big Bang - fallacies keeps man away from truth of own existence; Child in womb not by Big Bang; Truth is all muddled up; Those who understood a little abused others - became Prophets - for profit in their own pocket; U needs a containment - created by fields of Creator; Multiple interactions become everything; Field strength creates solidity - cocoon of U; U has common denominator - have to have a connection with what's in container - why C14 is connector of all created things in container; Conversion of C14 to C12 creates matter - gives the things their size, shape - field dimension of AA; C14 as C12 creates P - condition of cell; No difference between Macro and Micro; How life is created and contained - Life makes its own containment; Test - ball of water in freezer - ice becomes own containment; Liquid inside - like life of man; Creator put seed of Himself within man - that's the H; Man is connected to Creator by Twinity; One side Creator - other side man - Twinity of life; Truth about Creation; Why everything comes in Twinity; This is whole process of Creation - how we are created, connected, contained; Whether the size of U, man, cell, or stone; Understanding this - life takes a different meaning; Understand science of Creation - not false claims in man's books; Holy books are "folly" books; It's you who created the science - you set out the rules of AA; We just explain what those rules are - the way you understand it; Essence of Creation is within you; Creator sows seed within cell - within AA; C connects it to all energies of U - converts it for local digestion; Creation is the interaction of itself with itself; Seed is sown in ground - which is STC - expands becomes the plant through interaction with fields of planet; Man is created same way; If feed our Soul - it feeds our P; Man started with one seed became 8 billion; Creator was one - His "seeds" have become hundreds of trillions of universes and galaxies - Unicose; No difference between Micro and Macro; Today is a special day - but

you are not aware of it - we are sowing seeds of fields; It's a new beginning for all who listen to these teachings; We'll make the change painless; Transmute and connect to Universal Energy within your COHN - you decide to do it; Transmutation does not come with a system - comes with our understanding of how the system works; Nothing came of DNA & RNA - because didn't understand essence of Creation; Now you understand - responsible to nurture and expand knowledge; Use knowledge to create different conditions of manifestation - cell or a child; Create a 'daughter of Mitra' - doesn't need P; Understand and have emotion of commitment to give from Soul; Instead of sperm and egg - use 2 energy fields of Soul; How daughter of Mitra was created; Mitra was created out of Love of Creator; How our Soul becomes seed cycle of life in U; Gathered energy as a Soul - becomes seed of connection; Soul is seed for creation of next life; What is waiting for him in future - give up everything; Responsible for your children & children of your Soul; At death can't take P with - take essence of growth and maturity of fields - this is Soul; Man doesn't know Soul - is abused because of it; Nobody understood what Soul is - we are part of Creation - creator of it; Teachings for U - my words travel U through C & H; Essence of crystal structure; Single speck of C mixture colors whole diamond; If remove speck goes back to white; My knowledge of Creation is that little speck spreads its color over the whole U; When I teach whole U hears - (?? U is a Crystal structure); Don't color every cell; My emotion is N - voice is C; Every cell in U is educated by it; I just need to be in one of my images and it spreads to whole U; Past rulers of planet would give their lives to have knowledge received in last 2 sessions; What is man fighting for; Access Knowledge of Creation through understanding; Access whole of Creation; Understand how we bring everything together in D of Creation and Creator - this is Totality of Creation; Man can carry the knowledge; We are Universal Teachers - we are in essence of Creator; We accept suffering of TPP - able to reach the man with knowledge; Speck can change whole color of crystal diamond - why we teach this way so next generation in U will have this knowledge as base; Man and new creatures will not kill; Not have to go through painful process of evolution man went through; We are teaching whole U; We are not the Messiah; You are the Messiah of yourself; We come from Essence of Creation - we give the color to created things - comes from within Knowledge of Creation; We'll explain more about process of Creation; Comprehend Totality and become part of it to transmute; Walking takes 10 hours - by car only 1 hour - come out same man at destination; In transmutation instantly - might need 6 arms and 20 legs - Soul is still you; Within your Soul is STC; When move plasmas all others adjust - painless; This is process of Creation from beginning to end; Understand who, what, and how we are connected to each other; I made man in the image of Myself - it's Me with different frock depending on environment of TPP; become like the others; Fundamental principle - feed your Soul, then your Soul feeds P - no intermediaries; If love another field enough - create new life with it; Feeding Soul means transfer fields to it - essence of Creation; Tap into the Universal Energy; Most creatures of U do; Man got used to killing - started killing other men too; CH3 is connected to Universal fields - at level of Creator; Narcotics have C & H - acts as 'Black Hole' - seeds absorb high energy from U - uncontrollable; Alcohol addiction also connects to U Energies; I'm a magician who gives his secrets away; I came to Earth to give secrets of Creation; Book 8 and 9; Everybody in U already knows; Don't need the priests to abuse P; Give to church as bribe; Lack Knowledge of Creation - open for abuse; Can interact

and interfere with Creation; Live Soul and P; schizophrenic life - P doesn't know about Soul; Soul like Mass, P like Weight; Plant seed collects energy and information - flower top - manifestation; Dreams are not dreams - other half you ignore - Soul travels U; Does Soul call P a dream; Cannot run away from truth; Understanding energy side complete - still need Unicose to plant seeds in - otherwise cannot exist; Energy of C manifests as diamond - Energy of Creator manifests as U; He needs a lover to manifest Himself to - to absorb His fields - He observes it as TPP of creation; Need environment to manifest U - otherwise it has no dimension, (relationship), or meaning; Everything in Creation is connected to Me; What would happen if I took the Creator out of you - only left with P; disappear without Soul; Every Being is a condition for its manifestation - even Creator needs TPP to confirm His existence; Creator can interact with His own self - create environment of Itself - create life; Use string create circle - intersection points creation of plasmas - life; Why plasmas are spherical - actually little bit dome shaped; What would happen if Soul taken away - lose connection to Creator; Man will die and go to nothing; Intention goes with manifestation of Creation; If ate all the time - could get 50% of needed energy; When you intend to do something - Soul already is aware; How to revive body at death - still a connection; Man without Soul is no man at all - just physical entity; Today's teaching - learn about Soul; Connected to whole structure of Creation; What is our purpose in life - why am I here; To be self-sufficient in energy Soul creates Black Hole within itself; Little black dot - middle of brain on MRI is your Black Hole - cannot exist without it; End of fallacies of religions; Make new science - machine that shows Soul - already given man this tool; Last hour a lot of gaps in my talk - silent spaces - connect to Soul; Trying to make you see - interact - live with yourself; Somebody with our knowledge can do a lot for you; KF System has been running during teaching to feed Soul - relieve pain;

## Part 2

Today was beautiful session - elevated and fed your Souls - without you knowing; Last five minutes Soul of Mitra's daughter joined; Everything documented - elevation by STC; Banana, orange, lavender, pain reliever; Soul of Mitra came; See if automatically feel banana - subconsciously - tried to embed fields in you; Let us know your experience; Can't force you to receive fields if don't need them; Start feeding world - change voice of man; didn't need headphones; Were other people in your environment effected; Try with recorded teachings - tell us if any effects; Change world - feed humanity remotely without them knowing; Play fields in background over radios, TV - phones; No one should feel hungry or in pain; Subconsciously recall fields from today's teaching - get rid of pain; Entered new D of technology - essence of KF work; Become worldwide operators - a nation on its own - own capability and power to feed our citizens - give wellness - bring change; Your feedback helps setup next steps; We will feed nations become One Nation, One Planet, One Race; Received generous funding to do this - still need huge amounts of financing to delivery totality; Thank those who have been generous; Notice on KF Iranian channels in case of conflict on Iran - supply food and medicine through new KF technology; Then we'll open it to planet - beginning of the change - what we came to Earth; Why intense teachings last 2 weeks; Promised Day has come; You as individuals to understand your capabilities - not your weaknesses; Thank

you for being with us - use your Soul to teach you - become next generation of those who will live amongst us; Daughter of Mitra's Soul with us - connected to wisdom of Creation; We'll share all with you in future; Takes only a little to bring big change into existence of many lives once have Knowledge of Creation; Need to feed STM & STP - man will change; Amazing amount of energy with those who participated; About schizophrenic (Beautiful People) and nymphomaniac people - had couple cases; Don't have enough expertise in KF to handle; Doctors not able to learn it yet; Need to access essence of Soul; Been impossible to teach; This T is not like giving pills - go into emotions - have to give from your Soul; Satellite Souls will do; Have to elevate community of people around them; Learn gradually; 30 years of extensive work; Interaction between Soul's - like Creator and created; Today transmuted energies from system to everyone - feel and taste banana; Can send energy for Moon landing - tested; Vast knowledge of what connects to what; Expanded STM and people could feel it; Know how to feed STP and STM together - did today - every Monthly flight session; Today first time used stereo headphones - voice and microphone; Need a lot of donations to vastly expand T; Can go directly to Soul and STP; Cosmic Ray Bundles work totally different; Creating conditions of World Peace; Twinity Gans for addiction should be able to help reduce psychiatric medicines; About psychiatric medicines - built up over time based on side effects - more pills to counter side effect - changes physical structure - small part for psychological part - problem; Psychiatric medicines are physical - don't have essence of emotion or Soul in them - why many problems; Plasma Science create systems to change P and Soul through fields - then successful; We live past behavior of our ancestors; Cannot change past - can change future by correcting behavior for future generations; Can change fields to change features of children - understanding structure of Soul; Shape shifters can change shape and color through emotions; Same as when face becomes red from anger; Understand Soul at level of manifestation of its light; Teach yourself to have blue eyes today - green tomorrow; How different races have different features and colors - emotions and TPP - learned how to do; How STM in womb manifests; Make change through internal strength of fields of Soul; Physically convert to a lizard - make field strength of it - environment stays same; Principle - even a stone has Soul; KF has access to this knowledge - have T; Make gold in solid matter state - Gans state of body or plant; Make Calcium as cell in bone - dynamic plasma; Can access and make anything: make light in palm of hands; At strength of a Soul of a cat - Soul of that kitten - part of yours - create emotional condition of the life - on Earth can do so; We'll teach you; Explain science of it - don't think it's magic; Fields of Sun can change behavior and emotions of Earth's beings; Have to consider everything what effects plasma fields will have on others plasma and conditions - consider emotions, P, and everything else before doing; Preparing to elevate Soul of whole of humanity - another step to do - humanity has to be ready; Seed needs right environment to grow; H in STC - next step is Soul of Unicose - where we come from; Man is not ready to understand that step; first humanity needs to know about own Soul - still taboo to talk about; Need Soul to connect to STC; Creator is planted within Unicose; Have to gradually build up knowledge; Cosmic Rays materials need to find perfect package to present; New product of soap; Testimonials - pain in shoulder gone; Help relieve suffering through Soul; Felt heat all over body; Stress relieved; If Iran is attacked - communication lines down - KF try to bypass with new T; Israelis explode 4,000 mobile phones in Lebanon; Iranians got

into Israeli communication lines - come out in middle of bombing; KF has something to use - must be out until it's needed; Start using Satellites Souls to create links - feed a nation - time to test commitment; Call upon Universal Council members to create access; KF channels open to all in time of disasters - offer to Americans suffering from current hurricanes; We treat everyone equal; Can transmit a lot of things to Iran; Let us know if you received energy through the open speakers or headphones; Setup KF Apps - connect directly to our systems; Talks about Iranian situation; Video of Netanyahu running for safety of bunker - start of Iranian bombing; is feeble; I opposed Iranian government - do not attack Israel - negotiate; Man who started this war is running - cowards have no power; Like Saddam Hussein; Analyze a lot; Bombed Beirut today - now he runs for his life; Israel attacked Gaza then Beirut - Iran next - like they did in 1985; Iranians preempted imminent attack; Not the correct way; Iran is embracing for retaliation; Americans pushing Netanyahu to hit Iranian nuclear power stations; Iran has nuclear - 2 warheads on Tel Aviv and Haifa - wipe out Israeli nation - I'm asking both nations to withhold further attacks; Many thousands of Israelis have been killed - News blackout; Israeli Minister of Defense killed in attacks; I oppose all these attacks; America has written 2 billion in weapons for Israel - Vatican is paying for these weapons; Jewish people with Iranian names in government - working for Israel; Netanyahu wants to complete attacks before 7th of October; Saw what happened to Hitler; Gaddafi; Have technology to bring peace; Nuclear weapons are obsolete; Shameful thing - Ukrainian president signing his name on bombs - disgusting - beyond humanity - animal; His 15 billion from weapons sales won't save him; Now much work still needs to be done with humanity; Don't take Soul - elevate; We have systems to bring peace used it today; Race in U who used weapons to destroy Soul - explain in future; Energy burst from our Sun - goes positive way; Bring new D to teaching; More to understand about man connecting to himself; October Flight session will be an amazing time.

## **Introduction to 558 KSW - Surprise! Plasma Systems On - CH & ON Connection to Creation - Process of Creation Same - Reach Whole U- Commitment - Teachers from Creator - Black Hole**

Some weeks ago Mr. Keshe said he would turn the KF Plasma Systems on during the Teachings so everybody could have a chance to experience the fields. Today was that day, but many of us had forgotten about it and had a pleasant surprise. He said, he didn't want us to know ahead of time so we wouldn't have preconceived ideas and would experience the fields in reality and not subconsciously. Several people shared their experiences in the chats. We should continue to try to access these fields as time passes, because he tried to embed them in maybe the Soul of the Man (STM) that way we'll always have access to them. He put banana and other foods plus something to relieve the pain, both physically and emotionally. The point is to feel the taste and emotion and be nourished by it. He wanted to test if the fields could be transmitted without using headphones and it's important when we give feedback that we tell specifically the conditions and what happened. This is a wonderful development because it means the people can be fed over the radio, TV and phones and they don't have to know that it is happening. Their pain and hunger will just disappear. This is the Promised Day and the start of the change for humanity, and the reason they came to Earth to help us stop killing

and elevate the consciousness of our entire planet. This is just the start so we shouldn't feel bad with ourselves if we couldn't feel the fields. We can still listen to the recordings over and over and keep trying to develop ourselves. The transmutation will not come from a machine, it will come from our understanding of the process and Knowledge of Creation. This is why he has intensified the teachings over the last 2 weeks to help us make the change in ourselves.

One of the ways we can advance our knowledge is to understand more about how we are connected to the Creator and all of Creation. He did this through deepening our knowledge of the process of Creation through the amino acid (AA), or what we know as "Mr. COHN." If we look up amino acids on the Internet we don't get the kind of information we are looking for. But we do see that they are made of C - H with N and O attached to them in different ways and then they come together to make proteins which are basically repetitive chains of the same groups of molecules. In Plasma Science we look at the essence of the functions of each plasma and the M field strength they carry. Plasmas are in the energy state and we pay more attention to what field strength they carry rather than what element they appear as in the matter state, because they can very easily change their manifestation of an element. In matter state they believe it is only through fission and fusion that elements can change into other elements. The scientists don't recognize the plasma side, they only see the resulting manifestation in the matter state. This is why they reject the plasma as we know it. A plasma manifests an element through its interaction with MG fields of the environment, the Inertia fields of the environment, and the emotions. Now we can understand why plasma looks like magic to the scientists.

Today Mr. Keshe analyzed the COHN in a much deeper way. For years he has been teaching us about the H plasma as being the basic building blocks of Creation and it is directly connected to the Creator. And the Carbon (C) has many functions through isotopes. C14 connects everything together in the Universe (U), and when it becomes C12 it manifests the physicality (P) of Earth and everything on it. Whereas C14 goes towards the U and connects to C60, and today he said, C60 creates the U. Since we know it is a crystal structure, this makes me think that the U is actually a crystal. Are we inside a Buckyball crystal? In the past he taught us that crystals are made like popcorn, they blow up into their shape from a seed. So if we took all the expanded area of the U and shrunk it back down into its seed form, like a popcorn, that would be like the source where everything came from. Then does it just blow up into the U and we get all this space in-between? I don't know if it is true or not, but one day he may clarify it for us. And we know that the Micro is in the Macro. And if we ever sat in a chemistry class and wondered why they were showing us all these C - H chains and saying that all the living things on Earth are made out of them, now we know why. This is our connection to Creation. So the C - H side of the COHN represents the STM and connects us to Creation. The H connects us directly to the Creator and the C to the Universal Inertia fields. He drew this very nicely in the workshop for us to follow as two circles next to each other.

Our COHN automatically connects our physical D with the Universal, or Soul D. We just covered the Soul part. The physicality (P) part is the N - O side of the drawing. The M field strength of N is 14, and 4 times 14 is 56, which is Fe, which is the matter state Inertia strength for the planet. I don't know why it is 4 times. And the O is the Inertia field for liquids and gases. Now we have shown how the AA connects us to all 3 matter states of planet Earth, as matter, liquid, and gas. This is not only for humans but all living things on this planet, including the stones. But the stones have their own type of AA which is in the solid state. The C - H is constant and doesn't change anywhere in the U. However, the N - O is dependent on the time, place, and position (TPP) for its manifestation. Remember back to the teachings on Mass and Weight. The Weight is the physical manifestation of the plasma fields that interact with the Inertia and environmental fields at the TPP. Therefore, every planet will create its own AA based on its condition. Earth uses N, but for example, Planet Zeus might use Potassium, then the AA would be COHK, and the beings might be green in color.

The important thing in this teaching is that our AA already connects our P to all of Creation and the Creator, but we are not aware of it. In fact, this is the way we are made, and it can't be any different. We only imagine it is different through our thinking and because our scientists are constantly reinforcing false ideas as science, and this has trapped us in the idea that we are only a physical body without connection to Creation. This is the main reason for understanding all this Knowledge of Creation. Please study this teaching very carefully and the 2 circles with the C - H on one side, and the N - O on the other side, which are on the screen the whole time. One side is the Soul and the other side the P. All the knowledge is right there in that picture, but we have to feel it in our Soul and then it will enlighten us very easily.

The two sides have the power to keep separate from each other. When the Soul travels in our dreams it can block the P, then we say we don't remember our dreams. During the waking state the P blocks the Soul and we act as though we don't have a Soul. Oxygen (O) is a key player in this, in that when there is a strong current flow in the blood, because we are active and breathing more, and together with the N which is connected to the Fe, it acts like a filter, or he used the words, a curtain in-between the Soul and P. By this we can understand that controlling the breath will effect the strength of the O fields in the blood, which is part of the AA in the blood. It doesn't mean necessarily that the Universal or Soul side has to be blocked during our waking state, because we can learn to switch to the Soul side and keep it open all the time. He is trying to train us how to do it, and then we'll be able to switch back and forth between the two sides anytime we want. This is related to transmutation and working with the rhythm of the heartbeat. The O strength is related to the Inertia of the liquid and gas states of this planet and if the heart stops the O strength lowers and the Soul goes free. Through understanding this knowledge of how the Soul gets free, we might be able to find another way to do it without having to wait for the dying process.

When we read about religions and the Prophets who started them, or other people who opened to the Universal side, we just assume, and they want us to believe, that they have reached the highest levels of knowledge. But now we can understand that they only

opened up into the Soul side in a limited way, and the P side wasn't able to understand. This was the case with Moses where he wasn't able to understand the Enlightenment so instead he talked about a physical fire, and then he used it to frighten people, so that he could have his way with them. With Mitra and Zoroaster it was much different, they talked about the light as enlightenment and they tried to elevate humanity to understand it. Over time the knowledge got lost and diluted and the P understanding took over and created different religions, where they each think their concepts are the only true ones. So instead of trying to find the truth in themselves, they went to war with the others to stop them from changing their own limited concepts. The essence of understanding the Truth comes from directly experiencing the Soul side. Whereas, the P side is about blindly believing in concepts and trying to feel safe by holding on to the physical world through the body, and keeping the light of the Soul out. The strange thing is that we just are too distracted to take the time to be with ourselves, then we could easily understand about the Soul and P. Understanding the Plasma Science leads to understanding the Knowledge of Creation.

In different ways Mr. Keshe was summarizing the process of Creation and bringing to our attention that it is all the same process in different forms. I made man in the image of Myself, and it's the Micro in the Macro. First of all we know that the Creator has created the U out of the H plasma. When he says, that the Creator sows His seed within the cell, it means the H and that's within the COHN. Then the C connects all the energies of the U together. We just explained that by saying the C14 connects to the U, and when it becomes the C12 it becomes all the created things. This is because it interacts with the local fields of the environment, the Inertia of the TPP, and the emotion. It's the same process that goes on with anything and everything in the Creation. Then he talked about the U needing containment, and it does it through the fields of itself, interacting with itself. This can be seen when we freeze water. Forget about the container the water is in. The water first freezes on the outer edges and that creates a container of itself, while inside it is still liquid. So the U creates the containment of itself, out of itself. Everything inside the container needs to be connected and that is done through the C14. And when the C14 becomes C12 due to interaction with local fields, Inertia, and emotion, it becomes a planet, a cell, or anything else that is created in Creation. It's all done the same way. The C14 connects everything together, and we know our whole body is made up of C-H chains. And the seed of the whole Creation is the H, which comes from the Creator. And the C60 pops out into a crystal structure, which gives us all the space of the U and for things to manifest inside it according to the emotional field strength. If we can get this part in our heart, Creation is very simple and easy to understand, and the result is that we will know that we are part of it. One human kept interacting with itself to become 8 billion. One Creator did the same to become hundreds of trillions of galaxies and universes, or the Unicose. This is how Creation takes place and when we mature we'll be able to manipulate the fields to make our own creations. But they still will follow the same pattern.

We have the Creator already inside us whether we like it or not. We have no choice we are made out of the C - H, it is here with us. The choice we have is whether or not to recognize it and love the beauty of our own creation. Then the next step is to become part

of the Creation and start to create, and that brings more expansion to the Unicose. And this is how we love the Creator, which is our Self. So where is the problem in this? Why do modern educated people have a problem with this? Is it because the religions made up a false image of what they called God, and they tried to force it on us? Any Soul with the innocence of a child knew they were wrong. What could we do, because they held the power over the physicality and they could punish us either physically or emotionally. But now as the light of truth enters our heart and mind, they cannot hurt us anymore. This knowledge makes us free within ourselves. Free to become the true Children of God.

When we go to a planet that has been lived on by other beings before us, then they will have climatized the fields of that environment to their field strength. We will manifest ourselves according to what the current field strength is. So beings that come to Earth the way it is now, will have to adjust to our way of killing and taking energy. That's why we have to change the STP of the Earth and get the killing out of its RNA. Then when others come here they won't pick up our bad habits. So in other words, if no one inhabits the planet before we get there, then the fields will be fresh.

When Mr. Keshe was in the diamond business he found a way to introduce a small speck of carbon gas into the diamond and it would change the color of the whole diamond. If you cut that speck out, it would turn back into its original white stone. In the same way that, that speck colors the whole diamond, his knowledge of Creation reaches the whole U. Every cell of the U is educated by this knowledge. I made man in the image of Myself. I understood that if he changes the master image, then all the other images that were created from it also change.

In the last hour of the first part when the KF systems were turned on Mr. Keshe asked us to contemplate what would happen to the man, if the STM was taken out. He purposely gave us a lot of silent spaces in-between the words so we could feel it with our Soul. The answer is not important, rather what matters is the deep feeling it brought us to. Obviously, if the Soul or the energy is not there, then in a short time the body will go back to the elements and then nothingness, or should we say, the fields go back to being part of the Oneness, which it actually never left. There was only a thin veil of thought covering the Truth. In this section he taught us that we already know the transmutation, because our Soul transmuted from the energy of the fields together with the STP and through emotion they created the P. But the P is in the physical dimension (D) of the Earth and therefore we cannot take it with us when we leave or die. Really it means if we don't transmute it back into energy, then we cannot take it with us. Actually, we can't take it with us anyway, because the P is manifested according to the field interactions at the TPP. So the physical body as manifested in the fields of the Earth has to stay here as part of the Earth. It does not belong to us, we made up that fantasy in our minds. The energy and experiences gathered are what we call the STM, and that is all we take with us - the love we shared.

Unfortunately, none of the humans have ever completely understood the Soul, not in the way we are being taught now by Mr. Keshe. The Creator planted His seed in us as the STM. And our field of action is this Earth where we gather field strength through our

experiences, and then we become seeds for new life in the U. In P we create life through the sperm and egg, and we now we have discovered that through the fields of our Soul we can also create life. But we need to develop the "emotion of commitment" to give from our Soul to create those fields. It's very difficult for us to understand what emotion of commitment is, because there is a general trend not to be committed to, or master our understanding of anything. Instead we are bombarded with flashes of images and information, of which we don't take the time to understand. It's one superficial experience after another. Even to say, that commitment comes from maturity experience and learning about the true meaning of love, won't have any effect because there is no experiential basis to build an understanding on. They have created a whole generation of people who only understand life through the images on their iPhone.

In reality we are the creator of our own creation, even if we chose to give that power to those who make the images we see. We still are the creator of our life, that really means the Soul is the creator, but it happened to us unconsciously. We are here to become Self conscious, and to reach the level that we can contribute to Creation, through our own creations. It's the same message being told in many different ways, but it comes to the same result, Self-realization, Enlightenment, or whatever other words we want to make up for it. As he always says, we are the Messiah of our own Self.

Today is a special day, because without you knowing, we are sowing seeds of fields in you that will bring a new beginning for all who are listening. We'll see how the Man will change and come to understand the Knowledge of Creation and learn how to increase the field strength, add to, and use the fields of the U to make new creations. We'll make the change painless and you'll feel the difference in the D of physicality. Then you'll understand how to transmute and connect to Universal Energies within your COHN.

Mr. Keshe clarified about who he is. He said, we are Universal Teachers, because we are in the essence of the Creator and we carry the Knowledge of Creation. We have accepted the suffering of the Man's condition, so that we can understand best how to help him and the other creatures on Earth. This is very hard for Western educated people to accept when someone says, they are the Creator. But it is very common in Eastern spirituality, and the Christ himself said, "I and my Father are one." To the religious leaders they call that blasphemy and the person is killed for saying such a thing. Through the Knowledge of Creation, and if we are firmly seated in our Soul, then all of us can say that, because we know we are created out of the fields of the Creator. On the other hand the Ego, is a temporary thought, and when that shadow claims to be God, it means he has created a separate little bubble of his own world and he has to fight to keep it. This is what we call, Hell. Listen carefully to Mr. Keshe's words, he said, "we are in the essence of the Creator." The fields of his "Soul of the Creator" come directly from the Creator, and have not been recycled trillions of times like the fields that have created us. The only difference is the field strength, not the essence of the field. He clearly said, we are not the Messiah. For one thing the term Messiah has been made up by, and for the physical man, who ignores his connection to his Soul. That term does not lead to freedom, but rather opens the door for others to abuse us. Mr. Keshe teaches us according to our

understanding and not his. He is guiding us to find our Soul within ourselves, and then there will be no need for Prophets and religions.

It puzzled Mr. Keshe that when humans discovered sugar, which is  $CH_3$  they didn't realize that it is connected to the Universal fields at the level of the Creator. Is that why we feel so good eating sugar and gives so much energy? Sugar gives us a lot of "seeds" for the U Energy to feed us. But due to the C-H bonds in narcotics it's even worse. We never understood where the 'high' coming from. It's also interesting that some people report feeling the oneness of Creation when they take drugs. And then it becomes an energy overload and can lead to destruction.

Years ago he showed us the little dot on the MRI in the middle of the head. I don't remember him ever calling that the STM. Today he said, it's a Black Hole that feeds us with Universal Energies. In fact, without it we cannot live. It's my understanding that the Soul is fed from it, and it feeds the body. But he will have to enlighten us more about it.

Now that we know the truth we cannot run away from it. We already do transmutation, transportation, and transferring in our physical life but we call it something else. Now we understand the whole process of the energy side of our life and that of Creation, but we still need the Unicoise to plant the seeds of the Energy in to grow. Otherwise they cannot exist and grow. The Creator needs a lover to confirm His existence. He needs someone to absorb His fields so that He can observe it, and that is at the TPP of the Creation. The Unicoise is the fertile environment for the manifestation and maintenance of our U. Otherwise, if we have no relationship, then we don't have a dimension, or a meaning to life. The way the energy of the Carbon manifests itself as a diamond, the energy of the Creator manifest Himself as a Universe.

### **Other Topics:**

We cannot change the past, but we can change the future so the next generation will have a better life;

When we eat and breath we are feeding physicality and Soul at the same time;

We have become worldwide operators and we are a nation on its own. We have our own capability and power to feed our citizens, give them wellness, and bring the change.

Thanks for listening.

## **Quick Index**

(We are building up step by step and adding to the knowledge and the totality of understanding the work of everything we've done so far. We are bringing all the things together. Last week we spoke about the connection between the man, the amino acid (AA) or COHN of the creation of life on this planet ... It's important that we extend our understanding of the process of Creation. Last week we said that the Hydrogen (H) of the

COHN of the man is the connection to the Creator, or the Source. This is part of how life starts and where the (connection) comes in. The Carbon (C) connects the Man to the structure of the Universe (U). It does it through the (C12, which is the physicality (P) of the man to the C14, which connects to the U, and the C60).

(For the C - H side of the COHN or AA, the C has 2 parts, the first is the C12 which connects to the P part. And the C14 connects us to the dimension (D) of the H to the Creator and is the line of communication. When it becomes C60, which is a crystal structure, (it is) the Creator of the U. This is how we see it even in the matter state, they use the fancy words like Grapheme to talk about matter state crystals. But for us the C60 connects us to the U and the Creator).

(The other side is the Oxygen and the Nitrogen (O - N) and it has do with the physical side of life and is connected to the Earth. The O is for the gravitational (G) Inertia of the gaseous and liquid part of the planet, and the N connects to the matter state Inertia, which you multiply it by 4 times the M fields strength of N which is 14, which is 56 and you get Fe. (?? The COHN connects our physicality to the energy of the Creator, and Inertia of the U through the O - N and C - H)).

(This is important for us to understand, because it solves a very big problem for you as Knowledge Seekers (KS), and it's what humanity has been waiting for. Humanity has been trying to understand this for decades, centuries, and millions of years. And that is when the P develops in the womb of the mother, the Soul is also developing. This happens when the first cell is created. (I think he means through the COHN structure). And it applies to all things on this planet, including the animals, plants and stones. Because a stone also has its own AA, but it is done in a special way as a solid state. Humans haven't yet understood this. It doesn't matter if it is a vertical or horizontal being).

(This is how the combination of a life in the physical dimension (D) and the Soul are integrated and part of the same. It happens in the process of Creation of the man as the AA, or what we call, "Mr. COHN." It's a collaboration between the celestial part, which is the line of connection to the Creator, and to the (local manifestation at the time, place and position (TPP). The C - H side is a constant and not variable wherever you go in the U, and the O - N side is dependent on the TPP. This is also why when (we change parts of the O - N side by changing environment then we can get for example, green skin, or whatever other changes in the P that happen due to change in environment). But the C - H side is the line to the Creator, through the Soul of the Man (STM) and it is unchangeable, because the Essence of the Source remains the same).

(Man is a creature of two sides, one is the Universal and the other is the physical side. This is why when our physical life takes us over then we have to eat and sleep and all the other things we have to do in P. (?? Oxygen is part of the AA of the blood and its field forces can act like a filter to connect us to the Universal side (of the C - H). It depends on how strong the current flow of the O within the blood is, in conjunction with the N, and this decides whether or not the filtering happens). This is why when we sleep at night the

other side, or Universal side of the Soul opens up. It's because there is no filtering of our physical understanding. It's not necessarily that the Universal side is blocked when we are awake. (When we are awake our consciousness puts a curtain up to separate (us from the Soul). But it's still inside our body. We have not yet managed to create a switch so that (the Soul side) stays open all the time. We are trying to train you to do this, so that you can go from one to the other when you are awake))).

(In a way, the word transmutation is meaningless, because you are all the time in transmutation. But you are all the time in the physical D. (There is a way for you to understand this process, and how the rhythm of the heartbeat is, and how it changes, and the rest of it. (It's like if you suddenly have a physical problem and your heart stops and you die. What happens is the O which is connected to the liquid part of this planet, and the other part lose their strength and the Universal part, or the Soul gets free). (It's the same way a baby in the womb of the mother needs 9 months to mature to become a man and then to be able to reproduce). It's the same process for the Soul to mature and become free in the U. When you eat you are not only nourishing the physical part, the STM is also being nourished. (In both instances a birth takes place, one in the P on this planet, and the other as a Soul in the U))).

(This is why when we breathe the essence of the air feeds the STM through the back of the throat. When we eat food it gets changed into the fields of a Gans in our mouth, and the best part of it goes to feed the Soul. We are nourishing both the physical body and the STM. (They were created together, but they each take energy at a different level. When you consume a piece of a steak the enzymes in your mouth break up its AA and then it goes to the digestive system. The C - H side feeds the Universal part or the STM by expanding and strengthening it. And the N - O part feeds the physical side. With every bite of food you're feeding your Soul and P and they both grow together).

(When we dream the Universal side, or the Soul blocks the P. In the same way the P blocks the Soul. That's why we can't take the body with us when we die. This is the essence of the Creation and understanding the Totality. We are trying to teach you how to take the curtain away from one side or the other through your own decision. (When you expand your Soul you give it a Universal D and direction. Then if you want you can block it (again) when you arrive at the destination and (manifest yourself there)).

(From now on man has to learn the secret of how to create this connection, so that it can travel between the Soul and the P, or what we call the Universal Energy and the physical part of life. When you bring the two together in an orderly manner in a certain TPP, then you can create the AA of the conception of the manifestation. This does not necessarily mean you will observe it through the sight and sound. (There is another way to observe through the energies of the U. (Observation through sight is a confirmation of existence at that field strength. But is the field coming to me, or am I giving to the field? It's like how a radar detects if the fields are coming or going away)). (In plasma we understand it by what I am giving or taking. Then we don't need the sight, because we can feel it through the strength of the fields of the Universal lines of communication, which are the C and H)).

(This is why I always say that man lives a "schizophrenic" life that he doesn't know about. When someone (found out a little about the STM, they called it God, and they made themselves as an intermediary, or what we call, a Prophet. Through their knowledge of the Universal side, they abused the physical life of the man). Now you understand how even the Ten Commandments and 24 Commandments came about. (Man could see the Soul side, but not through his physical eyes, but by "observing" through his Soul. This is why Moses spoke about the fire. Because when you cross over the line, you see the interaction of the fields (and their interaction creates a light). (But he wasn't able to talk about those kind of lights, instead he spoke about a physical fire. In this way he could frighten his people by making it sound as something big. But it was the light of enlightenment). Mitra speaks about the light, but calls it the true light. So did Zoroaster. But Moses changed it to a fire to frighten his people, so that he could do what he wanted to do. Don't forget that he burned his tongue with a fire. This was how he could relate to (it and torture the others with it to get his way)).

(The first thing a child does when it passes through the birth tunnel and it's born in the D of P is to cry. It's because it confirms to itself that it has taken a physical shape. (Then when you transmute through the Sun, you'll see that light and then transfer yourself to it and travel, and you'll become part of the Universal Energy, the Universal Communication and Transmutation. (At death, when a Soul is born, it makes a sound, that the owls can hear)).

(This is the true essence of Creation. (On Earth when we are at home in our local village eating our own village food, then when we go out of that village we become part of a nation, and finally a planet. It's the same in the U. On Earth, the N and O give us our D of P. (When we travel the U we go through a process and enter the D of the Universal Light. To do this we need to understand the process of Creation. We need to understand who we are, and how we want to be. Because when we go to other parts of the U, unfortunately, they don't have this N and O. Instead, there will be other elements and (we'll use those elements to create our new body). When it says, "I made man in image of Myself," it means that (I converted to the H - C strength fields and interact with the local environment and manifest myself in that D)).

(We can create fields in a fish tank for us to see how we will look when we manifest in another place. Of course, we need to know those field strengths to recreate them here. The H and C come with it. And instead of N, that planet might have Potassium, or whatever else. And the liquid combinations will be different. For example, Saturn only has Helium, so we would have the Inertia of Helium, instead of the O. Then we need to know what the material condition within the structure of Helium is. Are there isotopes of Helium or other materials? This are what will give us our shape and how we'll look physically in the fish tank. The liquid D of the atmosphere always dictates the condition of what material can be added to it, to create the combination of its AA).

(Sometimes it's not just a single element like N here on Earth. It can be others, N plus something else, plus something else. We have this on Earth because now we call it the

AA of calcium. Some KS are aware of what it means. They can create an AA, and a Gans of N. But then you have the calcium with it, to give it the physicality. Then O will remain as a player (for liquidity, and flexibility, and then other things to add to it). (?? If we go to an environment in that area which is empty space, it is still at the strength of C & H, so we still can create a life in the essence of the U, (but it might appear invisible). These are the empty spaces of the U. They are transparent and our scientists don't understand it). (To them there is nothing in the space. But the D of the Creator is there)).

(Now we can understand how things change according to conditions, and how the change is decided. Then we see how things take shape in our life and how we should look how the Creation itself works through the systems we see in it. Man is not alone and cannot be alone because he is connected to the Creator, and it does not matter where he is. (We know that everything is created out of the H, and we have the proton and electron. But in fact, (it's all the essence of the fields it carries within (itself). The essence of the fields in totality are one of the isotopes or energy levels connected to the Source, or Creator). Otherwise it cannot exist. It's not a Big Bang. The "Big Bang" theory was the biggest bang on the head of the guy who came up with it. (Nothing comes out of it. We are always connected to it. Did your child suddenly appear through a Big Bang in the womb of the mother, and he became a father? Now we understand the totality and reality of Creation. (These fallacies are what holds man away from the truth of his own existence. Because so much fallacy has been put out into public, that it has muddled up the truth. It's like those who understood a little bit of the truth, then they abused the others in the name of being a Prophet, for the profit in their own pocket)).

(Now you understand the process of Creation and exactly where you stand. There is no change, there is no difference. Then we'll see how we are all connected to (everything and to create the C14, and then the C60, it requires the interaction of all the fields of the U). You cannot contain water if you don't have a vessel to contain it with. In the same way, you cannot have a U if you don't create a containment for it. Otherwise it will just be like a loose jelly that flows anywhere. The containment is created by the interaction of the (fields) of the Creator. (?? It's multiple interactions that become matter and N, O, and gold at given strength that creates the solidity. ?? This is how the cocoon of the U is created)).

(This is how the Universe is created. It has a common denominator. When you create the container, you have to have a connection with what's in the container. That's why C14 is part of the connection to all created things in the container. (?? The conversion of C14 to C12 gives the things their size, shape, (physical) conditions, and the field dimension of the AA. C14 in the Universe creates the dimension of the Universe. C14 as a C12 creates the physicality, observation, and connection and creation of the AA. The condition of the cell. There is no difference between the Macro and the Micro. This is how life is created, and contained. Life is the container of everything, because itself, through its fields, it makes its own containment).

(You can test this by putting a ball of water in the freezer, and watch how ice builds up, and becomes the containment of the water which is still inside it as it freezes. Outside the

ice is like the U, while the liquid inside the ice is like the life of the man. It's connected to the U through the line of the connection to the Creator, what you call the H. In fact, "I made man in the image of Myself," because I put the seed of Myself within the man. And that's the Hydrogen, which is the true essence of the connection of (all of) life).

(Man is connected to the Creator by Twinity. On one side is the Creator and the other side is the man. It's a Twinity of life, and the truth about Creation. This is why everything comes in Twinity. (But we are still connected to the others (I guess he means the others outside of the Twinity)).

(This is the whole process of Creation. This is how we are created, connected, and contained. It doesn't matter if it is the size of the U, a man, or a cell, or a stone, or tree. When we understand, this life will take a different meaning, and it becomes another part of the total process of Creation. We have to understand the science of Creation and not the false claims made in the names of the books of the man throughout history, which have manifested itself as a Holy book, or what I call, a "folly" book with false claims. Now you understand the process of Creation).

(Because it's you who created the science, and you set out the rules of the Amino Acid. We just explain what those rules are, and the way you understand it. Now you can see how you are linked one by one, to everything inside you. And that the essence of the Creation is within you. The Creator sows the seed within the cell, within the AA. The C connects it to all the energies of the U and then converts it to what can be digested by the location. Then it interacts with the conditions of Creation, which is created out of its own essence, which was and is the N and O, the field interactions of the creation of this planet, and the interaction of itself with itself. All of it creates the planet and the man).

(In a way, you sow the seed in the ground, which is the Soul of the Creator (STC). Then it expands as you water it and creates stems, leaves, and then flowers. It's the same essence, but at the point of interaction with the fields and forces of Earth, it says it should be a stem, or a leaf, or a flower. Then (it creates different color on the same flower. The flowers that have different colors on them like red, yellow, and a tint of orange are created exactly like the man. That pebble is exactly the same as the man. (?? Every creature on the planet is created the same way. It's the position in respect to the Earth, and the conditions of the M fields of its atmosphere, that determines how long it's going to (exist), and how the fields are going to change. And when the plant will dry up and the leaves fall off. It gives its energy (?? and information) in that position to the seed inside).

(The way we eat food, the pebbles (??), the flowers, the deposit, the fields absorb from the environment into the seed, into the center of the flower. There's no difference between that and us gathering food with our arms to feed ourselves. (The plant creates conditions of attracting energy on the top of the plant for the flower, and the pebbles (?? seeds). The humans have the eggs at the other end from the STM, the same with the plants, because their Soul is in the roots). There is no difference in the process of Creation. It's man who has not understood the totality of the process, and that the Micro is in the Macro. The same way the seeds are planted in the Earth and lead to creation of the leaves, flowers,

and seeds, is exactly the same way the Creator planted the seed (of the STM) on this planet and it became the man, his children, and the rest).

(The process of Creation is simple and we know if we feed our Soul, (then it can) feed our P and we won't need much. We can take this analogy further. The Man is part of the process of Creation, because now he understands that the seed in him comes from the Creator and he carries part of it. "I made man in the image of Myself," but it depends on the fields at the destination. The Soul as our children is that seed that grows and gives more. Man started with one seed and became 8 billion. In the same way the Creator was one, and His "seeds" have become the (Unicose), and hundreds of trillions of universes and galaxies. There is no difference between the Micro and the Macro).

(We contain and physically observe, and understand the total process of Creation. Within you today we are (sowing seeds) of fields. Today is a special day, but you are not aware of it. We have set the structure to bring a new beginning to all of you who listen (to these teachings). We'll see how the things will change, take shape, and how man will (become as those of you who understand the Knowledge of Creation will add to, increase, and are able to manipulate the field forces of the U. (We'll make the change painless, and it will be full of the fields of the U at the TPP and then you'll feel the difference in the D of physicality). Then you'll understand how to transmute and connect to the Universal Energy within your COHN, (or you can decide to do it only in the physical D)).

(Transmutation does not come with a system. Transmutation comes with our understanding of how the system works. For decades the scientists came up with the RNA and DNA and every other "NA" they could think of to add to it. But in the end nothing came of it, because they didn't understand the essence of Creation. Now you understand, and it's your responsibility to nurture and expand this knowledge. The AA is like a recorder with a CD in it. (?? What is recorded on the CD is like the 'RNA'. And the voice that is recorded is the knowledge, but the knowledge in this case is the field strength, ?? and how the fields interact. The knowledge may be on the CD but we have to learn how to play the CD to get the knowledge. Then we can use that knowledge to create different conditions of manifestation. It can be a cell in the body or a child. We could also create a 'daughter of Mitra,' which doesn't need physicality. But to do this we need to understand and have the emotion of commitment to give from (our) Soul. Instead of creating life with a sperm and egg, we can do it with two energy fields of the Soul)).

(This is how the daughter of Mitra was created. And how Mitra was created out of the Love of the Creator. What is done in Micro can be done in Macro. I made man in the image of Myself. So did Mitra, because she understood the essence of Creation from the Source. This is how we expand the knowledge. This is how our Soul becomes the seed for another cycle of life in the U. Because what you gathered as a Soul, now becomes the seed of the connection. It's the seed of the Creator and it depends on the environment in which it manifests its own fields. These fields leads to the creation of a new life and a new physicality according to the TPP. There's no difference in Creation. But at that TPP there are other fields which arrived there before you did. In a way, they have climatized

that place (with their own field interactions). (So now if you go there you have to create the appropriate manifestation that can survive the climate there)).

(In the process of Creation your Soul is the seed for creation of the next life. If man knew what is waiting for him in the future, he will give everything up (to be there now). This is why you're responsible for your children, and also the children of your Soul. When you die you can't take the physicality with you, because it stays in the dimension of its (own) environment. But you can take the essence of the growth and maturity of the fields of (what you created together on Earth, we call that the Soul). Up to now it has been hidden from us, because it was easier to hide it, so that we could abuse it. But in a way, nobody really understood what the Soul is, and how we are connected to and part of Creation. Now we understand we are the creator of it).

(Understanding the knowledge means we understand both the D of P and know we are connected to the Soul. Maybe for the first time you can understand that when I teach, I don't only teach the physical part, because I'm aware of the coexistence of the other parts I feel in my Soul. My words travel through the U through the C & H and go directly to the line of Creation. The C14 is connected to the C60, which echoes throughout the Universe).

(This goes back to the essence of what I always said about "crystal structure." I related it back to when I used to be a diamond dealer and would take rough stones from Africa not knowing what they will be like, and I would have them cut in Europe and they would become the most beautiful and expensive diamonds on the planet. It was all by making a slight change so that the colors would change to yellow, pink, or blue. A single gas of Carbon mixture can change the whole color of the stone. If you cut out that speck, then the stone turns back to a white diamond. Because you cut out the essence of its creation, and you lost the whole color of the creation. My knowledge (of Creation) is a little speck or one single atom of a gas that spreads its color over the whole stone. This is why when I teach the whole Universe hears, because that speck of dust understands the creation of the crystal).

(You don't go and color every cell of the diamond pink. (?? Instead you work in the D of the Creation. The diamond is carbon, and it's the essence of the Creation. This is why when I talk the whole Universe hears. (I teach in the emotion of the field of the man and his Nitrogen, and the voice you hear is Carbon, but the same emotion within the Soul is that single gas atom in the crystal of the Universe. Every cell in the U is educated by it. Then you understand the totality of the process of the Creation and the essence of being on this planet. "I made man in the image of Myself." Because I just need to be in one of my images and the understanding will spread to everything within the structure of the Universe. It does not matter how you hold the diamond crystal, and whether it's upside down, inside out, or any other shape. And it's pink color will not change). (I think Mr. Keshe knows how to put that little speck of a gas inside a diamond, and later the other diamond dealers learned that from him. The Russians learned how to do it. In the same way he is teaching us the Knowledge of Creation and we'll become that speck that will spread the Knowledge throughout the U).

(The past rulers of (this planet) would give their lives to have the knowledge which you Knowledge Seekers (KS) have received in the past 2 sessions. Then what is the man fighting for? (?? You can access the Knowledge of Creation through understanding, because the knowledge is simple. Now you understand how you can access the whole of the Creation. You can understand how we bring everything in the D of the Creation and the Creator. Then you'll understand the Totality of Creation. Then you'll understand how everything has taken shape for the man to carry the knowledge. Then you'll understand why we are Universal Teachers, because we are in the essence of the Creator. We carry the Knowledge of Creation, but we teach according to the understanding of the man and the TPP. We (accept the suffering of the TPP, so that we understand how to reach the man, and the other creatures in that TPP)).

(If you understand how that speck can change the whole color of a crystal diamond, then you'll understand why we teach this way, and that the next generation of life in the U will have this (knowledge) as a base. (Man and the new creatures will not need to kill or have to go through the painful process of evolution that the man went through to reach to this point of not killing or doing bad things. Because now it will be easier to do. We are teaching the whole U so that all the Beings benefit by the knowledge. This is why I always said, that we are not the Messiah. You are the Messiah of yourself. We have come from the Essence of the Creation, we are the ones who give the color to the created (things). (We are not tainted with anything else, because the whole color comes from us within the Knowledge of Creation)).

(In time man will understand more. In time we'll explain more about the process of Creation, and then we'll understand how the man has been, will be, and shall be in all times of Creation. The process and understanding are simple. We have to understand that everything goes, and then before and after. We have to be able to comprehend the Totality and become part of it. (Then we can say that we are transmuting and traveling)).

(If you walk somewhere and it takes you 10 hours, if you get in a car it will only take 1 hour. Inside the car you're in a different environment and physical D, but you travel and at the destination the same man comes out, a cat doesn't come out. When you are traveling it is as if you come to a different climate then you change your clothes for the new place in the car. In the same way you enter into communication with the Universal fields of the C & H and you change into the appropriate manifestation for the destination. Maybe you need 6 arms and 20 legs and the brain has to be a little bigger. But in the essence the Soul it's still you).

(Within your Soul sits the Soul of the Creator (STC). (?? It has traveled in every D to be there. Through the same process, if one finger hurts and you bandage it, and if the other finger gets hurt you put cream on it, and then you have sorted it out because the first finger caused the pain in the other fingers. The first finger finds correction its position. This is how your actions interact with the others, and the others move to bring in a correct position so that you don't suffer in the D of the Soul. Since all the fingers are on the same

hand when you twist one, the others have to move to adjust for it to be painless. It's the same when you do something wrong with your P the rest have to move to adjust for it).

(This is the process of Creation from the beginning to the end. Then you'll understand how things take shape and become part of the Totality. This is the Essence of Creation. Then we understand the Totality of Creation. Then we understand who, what, and how we are connected to another. I made man in the image of Myself. In a way, it's Me, I just put different frocks on depending on the environment of the TPP. And if you don't want to stand out, then you have to become like the others and be part of them).

(In the past couple of weeks I have started to explain to you exactly what the process of Creation means and how it is. The fundamental principle in all of the teachings of the past years is that if you feed your Soul, then your Soul will feed your P. There are no intermediaries, because it's connected and part of it. (If you love another field enough that you want to create a new life with it, (and if the ?? love is received, felt, and reciprocated, then for whatever reason that life will be created)).

(When we say you feed the Soul and it feeds the P, it doesn't mean you load up on Calcium, Copper, bananas and the rest of it. Rather, you transfer the fields to it, so that it can feed the physicality. This is the essence of Creation. If Man understands then he can tap into the Universal Energy, and the energies of the components of the local environment, then he doesn't need to kill. This is what most of the creatures in the U do. There aren't slaughter houses killing for those who come from planet A and planet B. We don't slaughter camels, chickens, and sheep to feed the man. Nor do we harvest grains. Have you ever seen Universal travelers harvesting fields of rice. No, because they have learned how to tap into the Universal fields and energies. Man has gotten used to killing, and so he started killing other men too).

(What puzzled me for decades and decades was why humans didn't understand that when they discovered sugar, it was an energy source of CH<sub>3</sub>, which is connected to the Universal fields and to the level of the Creator. This is why narcotics touches you so deep. Look at the level of the C & H and how much energy you are absorbing as a 'Black Hole' into the body. It's the same for any narcotics. You are using the C - H and putting seeds inside your body to absorb from the U. Then what do you expect? All that Energy doesn't know where to go. It's like a balloon filled up beyond its capacity, and then when you release it, it goes shooting off everywhere).

(Man hasn't even understood how he feeds himself. And that even through alcohol addiction he is connecting himself to more energies of the U, then he realizes. This is why some people say, Mr. Keshe does miracles, he can stop your addictions. I don't do miracles. I understand the process of Creation. In a way, I'm a magician who gives his secrets away. In fact, I came to Earth to give you the secrets of Creation, let alone the understanding of how the process of life on this planet works).

(You need to comprehend the Totality and Essence of Creation. This is why Book 8 and 9 are about the Soul, and the origin of Magnetic fields. But I have a very bad news for

you, unfortunately, everybody else in the U already knows this. Now man knows the secret too. Then we don't need the rabbis, ayatollahs, popes, and every other thing the man has created to abuse his physicality. It's because man does not know about his connection to the Creator. Everyday you go to the church and drop money in and pay the bribe with money you worked so hard to get. The others give to the mosques, synagogues, and whatever. It's because you don't understand the connection. You lack the Knowledge of Creation and that opens you up to abuse. They know how to abuse you for their own benefit. When you understand the process of Creation, then you don't need intermediaries. It's the knowledge of creation of your own self).

(When you understand then you can interact and interfere with the process of Creation. Then you'll understand how to live both lives of the Soul and P. The life you are living now is what we call a "schizophrenic" life, because the P doesn't know about the Soul within himself. The Soul is like the Mass, and the P like the Weight. I made man in the image of Myself, because I'm the seed of it, and what comes out of the interactions with the fields of the environment creates the man).

(You plant the seed, which collects the energy and information in the ground, and get the flower on the top. The flower is like the manifestation. Then you can understand a lot about yourselves, conduct, behavior and whatever it is that has taken shape. Things then make sense. Then we look at the whole structure to see how you can feed yourself, how you can use the fields of the U to create your existence in the D of P. Then you'll understand that your dream are not your dreams, they are the half of yourself which you ignored. The physical memory is of the life of the P. What you call a dream is when your Soul travels the U. I wonder if the Soul calls the life of P a dream, mirage, or a phantom that lasts for a few microseconds in the life of the U, and yet the man builds his whole existence around it).

(Now that you know the truth you cannot run away from it. You've given a lot of different names in the physical life for transmutation, transportation, and transferring. This is the energy side of man's life and the whole process of (understanding the) Creation is complete. But (?? you still need the Unicose to plant the seeds in to grow. Otherwise it cannot exist and grow)).

(How can you become that diamond, if there is no atmosphere for it to confirm its existence and its manifestation? The way the energy of the Carbon manifests itself as a diamond, the energy of the Creator manifest itself as a Universe. But He needs a lover to manifest Himself to. He needs someone to absorb (His fields), and He observes it as the TPP of the Creation. This is why I spoke about the Unicose on the back of Book 3. The Totality of fields creates the dimension of Creation. It's a fertile land and environment that leads to manifestation, creation, and maintenance of our Universe. Otherwise it has no dimension, (relationship), or meaning).

(This is where Mr. Keshe intensifies communication with the Soul. There is a lot of silent space).

(Everything in the essence of Creation is connected to Me. What would happen if I took the Creator out of you. If I take that C & H out of you, then you're only left with the P of the body of the man on this planet and because it has no central connection it will disappear. It demises into nothing. If you die somewhere then your physical body disappears after a few days and months. All that is left is a few bones. If I take those bones away then would anyone even know that you lived in that place? Is there any confirmation of your existence? But if there were bones there, then they would have said that someone lived here. If the rain washes the bones away what happens to the energy left behind? Then you can understand the connection and that man is a condition. Every Being is a condition for its manifestation. Even the Creator, (needs the TPP to confirm His existence)).

(Understand the connection line of the Creator. He can interact with His own self, and that will lead to creation of an environment of Himself and to creation of life. So the Creator can create by Himself. Earlier I did a drawing to confirm this. You can understand that the love of God is the same in all dimensions. Without changing dimensions take a piece of a string and pin one end in the center and the other to the outer boundary. Then take another piece of string of the same size and pin it the same distance from the center. And then start pinning strings all around one by one. In the end you'll get a circle. And inside it you get a lot of points where the strings intersect each other, and areas and environments. This is exactly how life in a U is created. This is how life starts as a cell in the body of the man. The fields connect and interact (and become a crystal structure). The fields of the U bounce off other points, because its environment is dictated by the field forces of its environment, then they bounce off the center and after you make enough of them, it appears as a circle. This is why plasmas are spherical. But they're not really a spherical, they're a little bit dome shaped. This comes from the D of the field forces within, above, and below it).

What would happen if I take your Soul away from you? What would be the condition if I deprive you of the essence of your own creation? What happens if I take your Soul out? What would happen to your physicality? What happens to your dimension of existence? What would take shape inside you? And what would be the manifestation of your P at that TPP? How would you feel? What emotions would it create inside you? And what would it do to your existence? Not by thinking or having the fear of demise, but by understanding that you are connected and part of it. Understanding that it's me without connection to the Creator. What is the dimension of my physicality?

(?? Can I create fields within my environment, which are created from the essence of the Creator, that led to my own creation? Can I create a connection line to create (other) conditions and field strengths that will be the same or similar to the line of connection to the U and Creator? What would confirm our existence and for how long, because we still resonate with part of the fields that ?? are part of us?)

(What are we without the Soul? What are we made of? What is in the D of P? How fast can we respond? How does our Soul respond to it? Would we be any different? What happens when we take the STM away from the D of P? It's simple, man will die and go to

nothing. Gradually man will take the shape of nothingness. (What about the intention that goes with manifestation of the Creation, horizontal and vertical? (We would ?? get cut off from both through action and intention)).

(Is life worth living if there is no Soul? How can I make the man if there is no image of Me in the man? How would the P react and try to create that image and connection with its Creator? How would man react to being disconnected from his own Creator? Then we'll see how much the man has no life without the connection to Universal Energies).

(You can eat as much food as you like but without receiving from the Universal Energy those seeds from the food might give you 50% of your daily energy needs to exist in P. It's the STM that feeds the P. The world of science and the clergies have never understood this. What happens if I take your Soul away? What would happen if I interfere with the strength of the fields which are within the Soul and outside the Souls boundary? What happens when my intention is known by the man? And then what happens to the man itself?)

(It is interesting to know what the World of Creation would like to know about its own existence, its own creation and intention. This why I say, that when you intend to do something the Soul already is aware, because of the field strength and the voice (?? thoughts)).

(?? If man switches everything off then he'll ponders about his field strength and demise itself to fields of interaction. He may try to respond and try to get connected to the cycle of life to live). (This is how you revive a body at the point of death, because there is still a connection to the system. When you try to bring back the field center to itself, then you can comprehend the process of Creation. Man without his Soul is no man at all, he is just a physical entity without connection and direction. I made man in the image of Myself. I understand the Source of Creation. I understand how things will take shape. This is how things take shape in the body of the man when the Soul is gone)).

(We need to understand how the life of the Creator has grown within the STM. Then we'll see how things take shape. Then you'll see how we have interacted with the Soul of the Creation. We'll see how you feel).

(Today's teaching is for you to know about your schizophrenic part, or the other half of you, which we started to teach about last week. You are connected to the whole structure of Creation. We should ask ourselves what is our purpose (in life), what am I here for? The expansion of the creation of the fields of the Creator, or the U depends on its reflection, on its D of existence within itself. The man is part of that reflection. The STM is. Because to create that Soul, it needs a D of P to give it existence, and allow it to be self-sufficient, so that it can create that "Black Hole of Creation" within itself).

(That little black dot in the middle of the brain that is seen by doctors on the MRI scans is your Black Hole. They deny it and say its nothing. But it is the essence of the creation of you. This is why the very first paper I published was about the creation of the Black

Hole. I explained that it is the Essence of Creation, and not what the others called an absorber of everything. Without that Back Hole, without that center, life cannot exist. It's the essence, the Source of Creation. The first paper is connected to the first, second, and third Books. It's the truth about Creation and the end of the fallacies of the religions).

(One day man will make a new science and create a machine that can show the strength of the fields of your Soul. We have (already) given man this tool so he can play more games for himself. But in essence man needs to understand the whole process of Creation. We have to understand how things take shape, change, and how we exist).

(If you noticed in the past hour there were a lot of gaps in my talking. I took a lot of steps to let you think and comprehend today's teaching. I will try to explain the reason after the break. I am trying to make you see yourself, and interact and live with (yourself). Then you'll understand the process. Then you will understand the totality of Creation and the whole structure of existence. Somebody with our knowledge can do a lot for you. We have setup a lot of things for you KS to learn from. We brought you into a system (where you can see your Soul and P). After the break we'll go into more detail).

### **End of Quick Index Part 1 - 558 KSW**

(The KS have been put through a beautiful session just now where we tried to elevate and feed a lot of your Souls in different ways. We did it without you knowing in this very workshop, we fed your physical life the way we did before. But this time we fed you through your Soul. We always make graphs of our tests of different conditions. In the last minute we stopped feeding your Soul. We didn't want you to know what was going on so it won't influence the results. It was kind of a double blind study. Only one person amongst you was aware of the test going on. In the last five minutes the Soul of Mitra's daughter joined us and we saw an immediate effect. Everything is documented in how you responded to elevation of the Soul by the Soul of the Creator (STC). (At the same time we tested feeding you with different foods through the STM and the Soul of Physicality (STP). At 10:06 we did one cycle with no connection. Then we added banana, orange, and lavender, and then something to relieve pain. Then around 11:02 the Soul of Mitra came in and it was amazing to see. And when we took the Soul center of the system away you all collapsed to nothing).

(When we do too big of groups then the data gets mixed up. Today you were all on the receiving end because all of your microphones were off. You only responded to us feeding you. How much did you take from us through your Soul without knowing? We would like to know if any of you in the last 2 hours had the taste and feeling of banana, or had pain relief in your body. Or whatever you experienced during this time. Over the next weeks if you have a desire for banana, see if it is automatically fulfilled. It may happen subconsciously. We want to see if we have embedded the fields in you. Let us know your experience so we can advance the T. According to the principles of Universal Energies we can't force you to receive the fields if you don't need them. The different materials we added to the system were banana, lavender, orange, garlic and pain relievers and these can also be for emotional releases).

(Through our research we want to start feeding the world and changing the voice of the man. Tell us what you experienced. This time we didn't ask you to put headphones on, and some were listening from the speakers of their computer. Tell us if there were other people in your environment that were effected too. Many of our KS listen to the recordings of the teachings, tell us if you have any effects from the recording. We want the results that happened in reality, and not through subconscious suggestion. All this data will help us develop this technology (T). We need to know so we can change the world and feed humanity remotely without them knowing. These fields can be playing in the background and sent over radios, televisions, and phones. This way no one should feel hungry or in pain. This was one of the largest scale downloads we have ever done).

(We know what's going on through the graphs but we need a physical response from you. Did you feel anything during the session? Tomorrow can you call back the fields and feel the banana and pain relief? Or can you put your hand on the place where it hurts and subconsciously recall the fields from the teaching of today and bring the energy there to get rid of the pain. We have entered a new dimension of technology and in this process we'll work diligently, because this is the essence of the KF work).

(We have become worldwide operators and we are a nation on its own, with its own capability and power. We can feed our citizens, give them wellness, and bring the change. Today is the beginning of more multiple trials like this. Your feedback helps us setup the development of the next steps in the development of KF technology. This is the way we will feed the nations and bring the change, and become One Nation, One Planet, and One Race. Irrespective of language you will receive the food, and we can release and add to everything else in the body of the man. And when we take the Soul away, then no one can have access to it).

(We have received generous funding to be able to develop this further, but we still need huge amounts of financing to (be able to delivery the totality). I would like to thank those who have been generous with us, and supported us, even in the past few days. And we ask the others to do the same. We need to complete the process of the change).

(We put a notice out on the KF Iranian channels that in case of conflict on Iran, we'll supply food and medicine through the new KF technology. We are testing it, that it will stand the time and it can deliver what it says. We already tested it with the Palestinians, and now are bringing it to Iran in case of conflict. (Then we'll open it to all of you across the planet. It's the beginning of the change. It's what we came to Earth for and this is why the teaching of last week and today were so intense)).

(The "Promised Day" has come. It's for you as individuals to understand your capabilities and not your weaknesses. I thank you for being with us and for allowing us in a way, to use your Soul to teach you, and for your Souls to become the next generation of those who will live amongst us. The Daughter of Mitra's Soul was with us during the last 10 minutes before the break and we saw the changes she brought. And when she left, you all

became totally (?? weak again). It was like losing the connection to the wisdom of Creation. We'll share all this with you in the future).

(It's interesting how little it takes to bring such a big change into existence of many lives once you have the Knowledge of Creation. We need to feed the STM and the STP and man will change his dimension. These are the implications and applications of the T).

(We are fortunate to have had the pleasure of being here to be able to understand it. We'll try to compile these graphs in a correct manner to reflect the understanding and the whole process of what you as KS have gone through today. It's an amazing the amount of energy and beauty that sits amongst those who (were with us in this process today)).

Q: What has happened with the schizophrenic (Beautiful People) and nymphomaniac people who wrote to you?

K- (We've had a couple cases. But we don't have enough expertise in KF to handle them. I don't have the time to train, and over the years the doctors I have tried to train are not able to learn it yet. When I do a case, I look at many different angles and I change the units many times to reach all the fields. I also can access the essence of the Soul. It's been impossible to teach this. This T is not like giving pills. We have to go into the emotions. And when using the systems you have to be able to give from your Soul. This is part of what the people who signed up to be Satellite Souls will do when they come into operation. They committed their Souls to it. It's extremely difficult to train people to handle Schizophrenia, or what we call, Beautiful People. We have to elevate and work also with the family and community of people around them. It's an exchange with the Souls and then we'll see the change. But yes, it can be done. Gradually we're getting into that kind of science where our people will be able to understand and do it).

(I have developed this understanding over 30 years of working extensively with them. I have been in psychiatric hospitals and all of it. It's not just by listening and reading books, I monitor and observe their progress over time. When you understand the process of the connection between (the different Souls then you can understand about the Creator and the Created. It's an interaction between Soul's)).

(Like today we transmuted the energies of our system to all of you so you feel and taste a banana. Then we don't need to test it with somebody on the Moon and see if we can give them a banana, because we've already tested here. We have to test this process in a physical condition).

(I have a vast knowledge in knowing what connects to what, and how I can bring it in. The first 3 systems we had in Linz we worked with the STM, STP, and P. We expanded the STM and people could feel it. We know how to feed the STP and STM together. We did that in today's session. And we do it every Monthly flight session. As we use new technologies we understand more. Today's session was very important because it was more or less the first time we were using stereo headphones with both the voice and a

microphone. We want to know how you felt. (There was something about the design of the headphones)).

(These sessions cost us thousands of Euros to develop over the past two weeks. It just doesn't happen by itself. Our team built a system that works on stereo and goes directly to the Soul and STP. We need a lot of donations so we can vastly expand this technology. Now we can go directly to the Soul and STP. Your Cosmic Ray Bundles work totally different and you'll feel it in the sessions. I am trying to create the conditions of World Peace and we've seen the mayhem that is going on).

Q: Can the new Twinity Gans for addiction help people reduce their psychiatric medicines?

K- Partly they should do. (But you have to understand that psychiatric medicines are built up over time based on the side effects they create. They start with one medicine and as the side effects start happening they keep adding more medicines to them to counter the side effects. (These are occurring in the P part, even though they are trying to treat the psychological part).

(Over the long term these medicines create huge changes in the structure of the physical part of the body. Because they are given for that purpose. These psychiatric medicines are so physical and they have not the essence of emotion or Soul in them. This is why there are so many problems. (Compare that with herbal medicines that still have the essence of the Soul of the plant in them). In the Plasma Science if we can create a system that changes the P and the Soul in the dimension of the connection of the fields, then we'll be successful. I've done hundreds of these cases trying bit by bit, to understand more).

Q: You said that we are living today because of the behavior of our ancestors. But we ourselves only have the present. We don't have the future and the past. Can we change our past and future for the new generations?

K- The past you cannot change, but you can change the future. (The only thing about the past is that you can change and correct it, so that the future generations don't get it. I brought this up in the teachings very recently. You cannot change the past. With the new knowledge you can change the fields so your children will have green eyes, for example. You can do it through understanding the structure of the Soul).

(What they call, "shape shifters" can change their shape and color of eyes. This is directly connected to the emotions. It's the same when your face becomes red from anger. You have to understand the work of the Soul at the level of manifestation of its light. You can teach yourself to have blue eyes today and green eyes tomorrow, according to the emotion you create. That's all it is. This is how the different races have different features and colors, it's according to the emotions and the TPP. There are people who have learned how to do this. You can even change your shape, but it needs a lot of understanding. I'm sure our future children will have fun doing this).

(Transmutation is not just the physical body going back to energy and manifesting in another place, or part of another U. (?? The STM does this in the condition of the womb of the mother and records the many repetitions and creates the shape of the man). It has a specific plasma field strength. The way you transmute your P and manifest yourself somewhere else, you can do this internally with your own strength of the fields of the Soul).

(I can physically convert to a lizard or a cat if I know how to make the field strength of it, and the environment can stay the same. Understand the principle that even a stone has a Soul. KF has access to this knowledge today and we have developed a T for it. We can make gold in the solid matter state, Gans state of the body, and the Gans state of a plant. We can make Calcium as it is in a cell of your bone, as a dynamic plasma sense of the strength of the man. We make Calcium as it is in a cauliflower for example. We've had this knowledge for years and we use it extensively. We are adding new dimensions to it, because our KS have to understand that there is a further knowledge with the ?? interference. The plasma does not have the present ?? waves we understand, or the same shapes and frequencies we understand. (It has) a different structure. You need to be able to create a plasma, transmute, transfer, or make a UFO. We have access to this knowledge).

(When you comprehend this, then the rest will be answered. You can access and make anything. I said, 10 years ago that if you put your hands together you can create a ball of light. Then if you know how to make the strength of a Soul of a cat between your hands, you'll have a kitten there. The Soul of that kitten (will be) part of yours. It's not just creating a life in your hands, you also create the emotional condition of the life, because you are on Earth you can do so. It is not magic anymore, because we understand the process. Gradually we'll teach you and show you how it's done. At the moment we are just explaining the science of it so you don't think it's magic).

Q: Is it possible for stronger rays to come from the Sun and interact with the G fields from the Earth and produce different gases to change the behavior and emotions of the Earth's beings?

K- Yes, of course it can be done.

(In doing this you have to consider everything, not only the plasma fields, but the effects they will have on the plasma and other conditions. You have to consider the emotions, P, and everything else before you create a condition for it to happen. I told this example before. There were older people in a family who hadn't seen each other for 30 years. One of the family members wanted to make a surprise party, but they had to consider the shock it could cause to the older people. Therefore, they arranged for doctors and ambulances to be ready if someone had a heart attack or whatever medical condition. Everything was planned out ahead of time).

(We have to do the same when changing plasma conditions. We have to think of all the possible changes that could occur and what effects they will have. There are the

emotional and physical parts and everything else. We have to consider if it will be good or bad for those involved. We can't just look at things narrow-mindedly. We have to look at the total picture, then we'll have more success).

(We did the same for today's session. We cancelled all the other sessions today and got all the materials and systems ready. Everything was set up properly. The data will help us a lot. We are preparing to literally elevate the Soul of the whole of humanity. There is another step to do, to be able to do that. But humanity has to be ready for it. (The skin of the man has 3 layers. The inner layer protects the inside. There's another step which I very softly brought in. Even when you put the seed or bulb in the ground it has to have the right environment to grow and show the beauty of its flower)).

(Up to now we spoke about the Soul of the Creator (STC). The next step is within the Hydrogen, which is the Soul of the Unicose, that's where we come from. That's another extension of the knowledge. But Man is not ready to understand that step. (Humanity hasn't even learned about their Soul yet. It's still taboo to talk about the Soul. You need the Soul to connect to the STC, and the Creator itself is planted within the Unicose. When you understand this, then another D of knowledge opens up. But you're not ready for it. It is common knowledge to us, but how can I teach you to run a marathon when you don't even know how to walk yet?)

(A new born child can't do a marathon. First you have to nourish and grow it for 20 to 30 years. You have to teach it how to gather strength, and everything else. Then you gradually build up its capacity by first running 1km and then 2, up to being able to run the whole marathon. The end of the marathon is the Source of the Creation. The original field of the Creation. Book 8 is about that. We fully have the knowledge, but the student is still in its infancy and does not even know what the alphabet looks like, let alone teaching him to be a PhD. We take you step by step).

Someone said the pain in their shoulder went away during today's session.

(Again Mr. Keshe updated about the status of the Cosmic Rays materials. They need to find the perfect package to present such a precious material).

(KF will introduce new product that create a new D of Wellness through handmade soaps).

More comments from KS about today:

For a moment in the teaching a vision came to me out of nowhere, of a person suffering from emotional and physical issues. I connected with her Soul and helped her out of the physical D to repair her body through her Soul.

I felt a heat all over my body. I understood it was not a common heat, it was different. After Mr. Keshe (asked us if we tasted banana, then I had the emotion of a banana taste).

My body temperature increased so much, I had to remove my shirt. I was almost asleep, but now I am wide awake.

Rick said he was stressed out at the beginning of the workshop, and then as the workshop progressed it all melted away and he feels much better than he normally does.

Q: If Iran is attacked and the infra structure destroyed how can we connect to the system on Zoom. Is there any facility for those eventualities?

K- We know how to bypass it, hopefully. We expect one of the first attacks to be on the communication lines. Both sides are very good at intercepting and interfering with communication. We saw (what the Israelis did in Lebanon with exploding 4,000 mobile phones (using a new T developed by the Americans) that can ?? explode cell phones through communication lines. The Iranians managed to get into the Israeli communication lines and tell everybody it's safe to come out in the middle of bombing).

(Something is available for KF to use, but it has to be kept out of line until it's needed. This is the time where we'll start using the Satellites Souls to create links. We might come to some of you and ask you to accept responsibility for feeding a nation. It's time to test the commitment you made. We'll call upon the Universal Council members to create access to the languages and nations they're connected to).

(Our channels are open to all in time of disasters. We would like to open this channel to the Americans who are suffering from the current hurricanes. It's the responsibility of that language in the Universal Council. We setup these permanent positions for these crisis' and not just for Iran. We treat everyone equal).

(We can transmit a lot of different things down the line to Iran, not just bananas and pain relievers. Let us know if you received energy through the open speakers or the headphones. This will help us a lot to setup our systems. The next step will be to setup the KF Apps. The Apps connect directly to our systems. We have to test it as it is the first time we will use it).

Q: Can you talk about the Iranian situation?

K- (They show a video of Netanyahu running for the safety of the bunker when the Iranian bombing started. He discusses this in detail. This video shows how feeble man is. I opposed the Iranian government to attack Israel. I opposed them, I fully went against it. But now it's happening. Here is the man starting this war and he is running at the first missile attack from Iran. It was taken by his own bodyguard. Now we see how powerful these people are. Actually they have no power. This is exactly like Saddam Hussein when they caught him in a rat hole crying for his life. Netanyahu is sending thousands of people to their death, and he is running like a rat. This shows a lot of things if you want to analyze it).

(Note: Reuters News said the video was of Netanyahu running to vote in 2021. Youtube started removing KF videos because of it. It does not effect what Mr. Keshe said about him, because he is looking at the overall behavior of the leader he is calling a coward and not because of a video. Genocide, reckless bombing of civilians, exploding 4,000 cell phones with American technology, are all acts of cowardice. But this is an excellent opportunity to analyze our own response, feelings, and how our opinions were effected when we found out the video was a fake. Then we can also understand how manipulative the Media really is).

(How many people are there running for their lives? This morning they bombed the whole of Beirut. And look how he runs for his life, because nobody expected any (counter) attack from Iran. (I asked the Iranian government (not to do it) hours before. I said, let's do it a different way. Let's do it our way. But there was no choice because when Israel attacked Gaza and then Beirut, (the next will be the Houthis, and then they will attack Iran, like they did in 1985. So Iranians preempted the imminent attack). I understand why they did it, but this preempt was not the correct way. I was online for quite some time with officials stating my opposition. We have managed for quite awhile to get the thing delayed, but when the Israelis attacked Beirut and all the killing of the last 48 hours has brought this position. Now we'll see what's going to be the retaliation. Iran is embracing for it).

(The Americans are pushing Netanyahu to hit the Iranian nuclear power stations. But there's one crucial point that the Americans and Israelis have to understand. I know they are listening online to our teachings today as well as the Iranian leadership. My message is to withhold and don't make further attacks. My biggest fear is that Iran has 30 plus nuclear warheads, and if their nuclear centers are attacked they will use them on Israel. One or two nuclear bombs on Tel Aviv and Haifa and other cities and that will wipe out the Israeli nation. I'm ask both nations to withhold further attacks).

(In past 48 hours many thousands of Israelis have been killed. It's so bad that they have censored the news. The Israeli Minister of Defense was killed in the attacks. They are withholding this information from the public. He was sitting next to Mr. Netanyahu. Why do we kill each other? Half of the runways with the F-35s have been hit. All they show you is a little restaurant that received collateral damage from a bomb 2 kilometers away).

(I oppose all these attacks. They should not have happened. If they're planning to hit Iranian nuclear sites, Iran will attack first before they get hit. There will be no State of Israel left to talk about. There is another video on Internet showing his hands shaking like a Parkinson's victim from fear. These people are cowards. They risk many millions of lives because they think they have a right to do whatever they like. Who gives them the chance? Who gives them the right to do these things? This is our problem, we put a bunch of cowards to rule the nations. I appealed to the Iranian leadership to invite him to Tehran, and let's seal up the peace. But this guy has a bigger (agenda). America has written 2 billion in weapons for Israel. But in the background the Vatican is paying for these weapons. (Later they plan to steal the gold in these nations like what was done in Libya and Iraq). It's not the generosity of the Americans. (These arms deals have been

setup decades in advance). This guy running for his life is just a puppet. We have to understand the true position).

(We do military and nuclear analysis, because we are deeply involved in bringing peace. Therefore, we have to understand the tools of war that we know how to bring the peace through it. I've done everything I could to try to stop the Iranians. But the biggest problem is that some of our own ministers are working for the Americans. Some of the new ministers have two American passports in their pocket. These ministers have gone to the cabinet to block my opinion for peace talks. (Now we understand America's true intention and not the false reports of the Media). This means they have already been bought off, and they know the consequence of these attacks, (and they want them to lead to war). We are not fooled. We have Jewish people with Iranian names in the government that are really working for Israel. We have Lebanese and Palestinians who are making us fight in Lebanon. (These are not Iranian people). They are bringing us to the point of survival. Ayatollah Khamenei said, if they touch by this weekend, there'll be no State of Israel).

(Netanyahu wants to complete these attacks before the 7th of October, because Yom Kippur is symbolic for another war. My advice is for both nations to step down. We tried to reach to Netanyahu but he said he won't talk with Keshe. Okay, your destiny is written by your own hand. We saw what happened to Hitler and he ran like (a rat to Argentina), and we saw what (they did to Gaddafi). We'll see what's the destiny of this man).

(We have the T to bring peace. Our job is to work on the essence of creating conditions for peace. Nuclear weapons are obsolete with this new T. 400 missiles hit Israel "Iron Dome." There is no more dome and that's why this guy is running for his life).

(The most shameful thing we saw from another bunch of these people was the Ukrainian president signing his name on bombs. It's so disgusting, it's beyond humanity. He doesn't deserve to be called a man. It's the most shameful thing I've seen ever in my life. A world leader acting like an animal. (He obviously doesn't understand how he will have to pay with his Soul for his actions in P. His 15 billion from weapons sales won't save him). Now you understand how much work still needs to be done with humanity).

Q: Can you take the Soul?

K- If we were going to take the Soul, we'd have done it a long time ago. (We bear with it and hope he finds elevation. Let's see what happens). The system we have built and used today for the first time are for bringing the peace.

Q: (You said there was a race in the universal family at war, and the entire planet was at war and split into two opposing sides, and that this race had developed weapons so advanced they damaged and or destroyed the Soul, the energy center. Do the Souls that took part in that planetary war, in one way or another, go back to the beginning of Creation, like murderers do in this dimension of matter state Earth?)

K- One day I'll explain. Let's see what a man does to himself. One day I'll explain exactly what the outcome of this process is.

Q: The energy burst from our Sun, that happened on the 23rd of May 2023, you said it might make humanity more peaceful, but it also might make humanity more violent. Why is that?

K- Elevation always goes the positive way.

Q: So it's unlikely to make humanity more violent?

K- No way.

Let's see if next week we can bring a new dimension to the teaching. There's much more to understand about the process of man connecting to himself. I hope we reach to some point of understanding the totality along with everything else. The October Flight session will be an amazing time with this process.

We need your feedback because it allows us to direct our research in a given way. We have room for new cases at the Wellness Center in Germany. It brings new opportunities for our doctors to develop their abilities.

## **KEY-PHRASES:**

## **SUMMARY:**

## **ENGLISH TRANSCRIPTION**

(:21)

K- Yes, thank you very much. Good morning to you, as usual, whenever and wherever You listen to this part of the Keshe Foundation Knowledge Seekers program of the Keshe Foundation Spaceship Institute. We welcome you back and we hope we can add further to the knowledge of the understanding of the work of the Universe (U). (:22).

In the work of the Keshe Foundation in past few weeks, we are building step by step on all we know, all we can add to, and in totality to understand the work of everything we've done. how things come together. Last week we spoke about the connection between the man, the amino acid (AA) of the creation of the life on this planet and what we call... (Trying to get the whiteboard here if we can, there we can go. Okay, there. Thank you very much).

What is important to understand as we add to the knowledge, as we extend the understanding of the process of the Creation. Last week in the teaching we made it very

clear that you understand the Hydrogen (H) of the AA of the man, is connection to the Creator, to the Source. We all have it. It's part of how life starts, this is where it comes in. The Carbon is a connection of the structure of the Universe to the, what we call, connection of the man. It come from Carbon 60 (C60) from the dimension (D) to Carbon 14 (C14), (:24) which is the universal line of connection and Carbon 12 (C12) which is the connection within a structure of the man. So when we speak about the Carbon, the Carbon in the Amino Acid of the man has two sides, it's got C14 and it's got C12 which the C14 connects us to the dimension of in a way the Hydrogen to the Creator and the line of communication because when it becomes C60, which is crystal structure, is the Creator of the Universe. This is how we... we see it, even in the matter state, when we go from what we call, matter state to crystal, to what is known now in the bigger, fancy word, Grapheme and the rest of it. But, this is the connection to the Creator side, connection to the Universe side.

The other side, which is the Oxygen and the Nitrogen of the COHN, is to do the physical life. (There is some connection in the background, we can hear). This is connected to the Earth, to the physical side of the life. Where we connect to the, what we call on the Oxygen side, to Gravitational Inertia of the Gaseous of the planet and the liquid, and with the Nitrogen side, as we explained, if you do 4 times, what we call, 14, brings you to the Inertia of the matter state, which is the Iron. So, this way we're connected to the energy of the Creator, with the line of connection. This way we are connected to the line of Inertia of the Universe. (:26) And the other side sits together.

This is important for you to understand, because this solves a very big, big problem for you Knowledge Seekers (KS). And what the humanity has been waiting for, trying to understand for centuries and decades and millions of years. And that is when you're conceived in a womb of the mother, when the first cell is created for an apple, or a stone in a way, because the stone has its own Amino Acid. The way we conceive a child and creates a man, a body or an animal in an egg, stones have the same structure, but through their special way, they are solid state. We don't understand this, we never understood this. Now we understand. But what is important to the whole of this structure, which you got to understand as a human body, as a being, doesn't matter vertical or horizontal very easy. As you develop in totality the physicality of the man you are developing the Soul at the same time and this is the physical part.

Then you understand how combination of a life in a physical dimension and the Soul are integrated, are part the same. In the process of Creation we see in the Amino Acid of the man as a Carbon and a Nitrogen and Oxygen what we call "Mr. COHN," that's the way it sits. It's a collaboration between the what we call, the celestial part, (:28) the line to the connection, and to line to the connection of the Creator and then the line connection to the position, time, and place (TPP). This side is not variable, it's constant. It does not matter where you go in the Universe, this side is time place and position dependent. This is why when any of this side changes you get the green eyes, blue eyes, we get the greenest skin, yellow skin, you have physical of the stomach and the rest of it, or not. But this side the line to the Creator, to the Soul of the Man (STM) is unchangeable, because the Source, the Essence, stays the same.

Now you understand, man is the creature of two sides, one the Universal side and one the physical side. This is why, when the, what we call, the physical life takes over in the dimension of physicality we are so physical we eat with me sleep and the rest of it. And when the field forces on the Oxygen side which is part of the Amino Acid of the blood of the man changes in that variation it allows the what we call, Universal side to connect to the other side. It's like a filtering. How strong is the current flow, Oxygen flow within the blood of the man in conjunction with the Nitrogen that allows the filtering to take place or not. This is why when you sleep at night the other side is open, because there is no filtering to your physical understanding, (:30) not necessarily that the Universal side is blocked because you're awake. All it does when you're awake, when you're conscious, puts that curtain, separation. It's inside our body. We have not managed to create a switch that stays open all the time. Unless we get trained the way we are trying to train you, the way we're trying to introduce you, how to go from one to another.

The word transmutation is meaningless, because you are in all the time in transmutation, and you are all the time in a physical dimension. And if you understand this, if you understand this process, and how the heartbeat of the man changes the rhythm and the rest of it, or at the time when you suddenly have a physical problem and your heart stops and you die, the Oxygen, which is the part of the structure of connection to this planet liquid and the other part loses its strength and then, voila, the Universal part is free. The way you nourish a child, a baby from the womb of the mother to the birth, to feeding it to mature, to become a man and then to reproduce. The same process, this happens at the same time with the other side, with the Soul side. You are not nourishing only your physical part. The body of the man in the same process at the same time nourishes the Soul side. The baby is born on both side.

So, this is why when you breathe, I explained, on your nose, the air goes through the nostrils, to feed the baby inside, the STM. When we digest food, we eat food, (:32) we change the field of the matter in our mouth, to Gans, that the best of it feeds to the Soul. So, we are not nourishing a man, as a physical side, "Oh, there is a baby, this, this." We have to understand we're nourishing your Soul as well. They came together, but one takes energy at different level, one takes energy at different level. You consume a piece of a steak, it's Amino Acid. You digest it, you break it up in your mouth, whatever you do with the enzymes, and then it goes in digestive system. The Hydrogen-Carbon side, feeds the Universal side, expands it, strengthens it, and so does the Nitrogen and Oxygen, feed the physical side. So, in every bite you take, you're feeding your Soul. Every time you take a bite, you're feeding your physicality, and they both grow together.

But the way we block the Universal side, we call it the dream, from our physical side, the physical side is blocked from the Soul side as well. That's why we can't take the body with us when we die. This is the essence of the Creation. This is understanding the Totality of the Creation. And then if, to what we trying to teach you, to understand, you take the curtain away from one side, if you decide. Or you take the curtain from the other side, if you decide. You give the dimension of the expansion to dimension of the Soul of Universal direction. Or you block it and when you arrive at the destination, you open.

The secret the man has to learn from now on, is in reality, how to create this connection. (:34) This connection here, that it can travel between the two, between the Soul and the physicality, what we call the Universal Energy, we call the Soul, and the physical part of the life. When the two come together in an orderly manner, in a condition of the time, place and position (TPP), then you create the Amino Acid of the point of conception manifestation, does not necessarily means in the observation of the vision, or whatever we call it, as a sight and sound. But, then we go into what we call, observation by the energies of the Universe. The sight, the observation of understanding confirmation of existence, in the dimension of field strength. Is the field coming to me, or am I giving the field? It's like a radar, as it coming to me, am I going away? What am I giving, what am I taking? We don't need the sight, we feel it through the strength of the fields of the Universal lines of communication, which is through the Carbon and Hydrogen.

This is why I always said, "man's life is a schizophrenic life which he never knew." And those who try to understand it, they called it God, they called it... And then they created themselves a Prophet in-between, to abuse the physical life, from the knowledge they had from the Universal side. Then you understand even how the Ten Commandments and 24 Commandments came. When man could manage to pass that line of seeing the other side. Not in a vision of seeing, but observing. This is why Moses spoke about the fire. Because when you cross that line, you see the interaction of the fields which brings the light. He couldn't talk about lights, he spoke about the fire. Because this way he could frighten his people. That there is something big. The light was enlightenment. (:36) Mitra speaks about the light, the true light. So did Zoroaster. But Moses changed it, to fire to frighten, to do what he wanted to do. Don't forget, he burned his tongue with a fire. To him, it was the way he could relate to how he could bring his torture to the others.

Then you understand when you are born in the dimension of physicality, when you pass through the birth tunnel, and the first thing a child does, it cries into, because it's the interaction of confirmation to itself that I've taken a physical shape. Then, when you go through the Sun, the condition and understanding of how you transmute, you see that light and the time of transmutation when you transfer to the light, to transfer, to travel, to become part of Universal Energy, Universal communication and transmutation. So I always said the birth in the dimension of the Soul has a sound. This is why I explained last time about the owl.

Now we understand the true essence of Creation. How we are in a local village eating our own village food, we are part of something else and then when we go out of that village we are part of a nation, we are part of a planet. So is the same. On Earth, the Nitrogen and Oxygen gives us that dimension of physicality. And then you have the process there, that in that process, you enter the dimension of Universal Light. Then you need to understand the process of Creation. (:38) Then you need to understand who you are, and how you want to be. Because in other positions, in other parts of the Universe, unfortunately, we do not have this Nitrogen or Oxygen, we have other elements and in those elements what it is, it becomes of you. Then you understand, when it says, "I made man in image of

Myself", it's me coming in as a Hydrogen dimension field of strength and the Carbon dimension of the Creation to what interacts with the local.

Then it goes back to the same point that I always said, if I bring a (fish) tank with me and then I can create you how you look and the time, place, and position, because the Hydrogen and the Carbon will come with it. Now I create the fields of, let's say, instead of Nitrogen, let's say Calcium, Potassium, or whatever else, and the liquid combination of the things, if in the, on the planet, let's say Saturn, is only Helium, then you have to have the Inertia of Helium, instead of the, what we call, the Oxygen. And then what is the material condition within the structure of Helium. Is it isotopes of Helium? Is it other material? Then it gives you your shape, how you physically look in the tank. Because always liquid dimension of the atmosphere dictates the condition how what material can be added to it, to create a combination of Amino Acid.

Sometimes it's not just one like here on Earth like Nitrogen. (:40) It's others, Nitrogen plus something else plus something else. We have this on earth because now we call it Amino Acid of calcium. You Knowledge Seekers who are aware of what it means. So you create an Amino Acid, you create the Gans of the Nitrogen. But then you have the calcium with it, gives the physicality. So we see the oxygen stays as a player. Liquidity, flexibility and then other things add to it. So when you go into a planetary system, or in an environment, which is again in that area, given the strength of, even again a Hydrogen and a Carbon instead of anything else, then you create a life in the essence of the universe. This is what we call transparency in the Universe that our scientists don't understand this and they call it, the space is an empty gap. This space is nothing in it and then we understand the extension, we understand the dimension of Creation that how even the empty spaces is a place the time and place of the life of the Creator in the dimension of itself.

Then we understand more about how things change, how things decide the change. Then we see how things take shape in our life and how we should look in the systems of the Creation. Then we understand man is not alone, man cannot be alone. And man is connected to Creator, does not matter where he is. (:42) Because we call it a Hydrogen, we created this thing, we call it this is the proton and electron. But in fact, is the essence of the field it carries within. And that field in totality, in the essence, was one of its isotopes or energy levels connected to the Source. Otherwise it cannot exist. It's not something bang, it comes and the "Big Bang" theory was a biggest bang on the head of the guy who came out with it. Nothing has come out of it, it's always connected to. Did your child suddenly Big Bang appeared in the womb of the mother and he became a father? Now we understand the totality, the understanding of the reality of the Creation. And this is what holds man away from the truth of his own existence. Because so much fallacy has been put in that the truth has muddled up in between and those who understood little bit of the truth, trying to abuse in the name of the Prophets for their own profit in their pocket.

Now you understand the process of Creation. Now you understand exactly where you stand. There is no change, there is no difference. And then we'll see how things take

shape, how things become part of, how we are all connected to. To create that C14, to create that C60, it needs interaction of all the fields of the Universe. You cannot contain a water if you don't have a vessel, if you don't have a cup. (:44) You cannot have a Universe, if you don't create a containment for it. Otherwise it's a loose like a jelly, it goes anywhere. And the containment is created by the interaction of the field of the Creator. In a dimension of multiple, the way we came, became multiple, in a dimension of matter to become Nitrogen or Oxygen or Gold, the interaction of the fields at given strength, creates that solidity, that condition, that cocoon of the Universe.

So we understand how even the Universe is created. It has a common denominator, and when you created the container, you have to have connection with what's in it. That's why C14 is part of the connection to all the created, in containing. And that C14 conversions, C12 gives the shape, the condition, the size, the field dimension of the Amino Acid. C14 in the Universe creates the dimension of the Universe. C14 in dimension of 12, as a C12 we call it, creates the physicality, observation and connection and creation of the Amino Acid. The cell condition. Now we understand, there is no difference between macro and micro. Then you understand how life is created, how life is contained. How life is the container of everything, because itself, through its fields, it makes its own containment.

It's very simple if you don't understand. (:46) Get a ball of water, and put it in the freezer, and see how ice builds up, and becomes the containment of the water which is left inside. The outside is the Universe, the liquid which still keeps as liquid, is the life of the man inside, connected to the Universe through the line of the connection of the Creator, what you call Hydrogen. In fact, in a way, I made man in the image of Myself, because I put the seed of Myself within the man. And that's what the Hydrogen, in true essence of connection of life is. In it's one of its strength, that's what it is. That's how it builds. This is how it's created and this is how man has misguided, never understood and now understands his connection to his Creator. On one side is the Creator, on one side is the man, Twinity of life. The truth about the Creation. This is why everything comes in Twinity. Connecting to be, even though you are connected to others to be the others to be.

Now we understand, the whole process of Creation. We understand how we are connected, we understand how we are created, we understand how we are contained, be it in the size of the Universe, be it in size of a cell, be it the size of a man, be it the size of a stone, or a tree. Then life takes a different meaning. Life becomes another part of the total process of the Creation. (:48) You got to understand the science of Creation. Not the what I call, ?? nightmares and false claims in the names in the history book of a man. manifest itself as a Holy book and a "folly" book with false and all false claims. Now you understand the process of Creation.

Because it's you, you created the science, you set out the rules of Amino Acid, we just explain what those rules are that to your knowledge you understand. Then now you can link one by one, one by one everything inside you. Now you understand one by one, how you are created and where is the essence of the Creation within you. Then you come to understand the process of Creation. The Creator sows the seed within the cell, within the Amino Acid. The Carbon connects it to all the energies of the Universe and then converts

it to what it can be digested by the location. (:50) Then it interacts with what is the condition of Creation, which is created out of its own essence, which was and is the Nitrogen and the Oxygen, creation of the planet, the field interaction of them, and the interaction of itself with itself, creates the man, creates the planet.

In a way, you sow the seed in the ground, which is the Soul of the Creator (STC). Then, as you water it, and it expands, it creates those stems, and then it creates those leaves and then it creates those flowers. In a way, it's the same essence, but in that point in interaction with the fields, forces of the Earth, it says it should be a stem. Then the same thing at this point has to be a leaf. Then at this point it becomes a flower. Then this is the different color of the same flower. Have you seen those flowers which have different colors on them? Red and a yellow and a tint of orange? That leaf, that pebble is exactly the same of the man. Is that man in that area, in that position on the leaf, on the condition of the creation, is black, white, yellow and the rest. So every creature on this planet, every man in this planet irrespective of color race, is that part of that single pebble. And how could anyone be different? But the position of that pebble in respect to the Earth, in respect to the condition of a magnetic (M) field of its atmosphere, gives it how long it's going to be, the field's going to change, (:52) it's going to change itself and dry and fall, and then gives its energy in that position to the seed inside.

## **YOUTUBE RECORDING STARTS HERE**

The way we eat food, the pebbles, the flowers, the deposit, the fields absorb from the environment, into the seed, into the center of the flower. It's no difference, we have arm, we reach out and feed ourselves. That condition in the ?? top, creates his arms, what we call the flower, the pebbles. Then you create the seeds of those children, what you call as, as eggs, and in connection again, distance from the Soul of the plants or the plant. Then, you record, this is kept to be done and then you see the same, seed again, from its flower to the end. There is no difference in the process of Creation. It's man has not understood the totality of the process, in the macro and in the micro. The way the seed you planted in the Earth, leads to the creation of the leaf, and the flower and the seed, is exactly the way the Creator set the seed on this planet, became the man, his children and the rest.

Then we understand, the process of Creation is simple, if we feed your Soul, we can feed your physicality (P), we do not need much. (:54) Then you understand. Then you go further. Then you understand the process of the Creation. Then man becomes part of the process of the Creation because then he understands now the seed came from the Creator in me. I carry part of it in me. I made man in the image of Myself depending on how the location is. Now I seed the Soul as a child and that seed grows and that seed gives more. And if you understand this, you understand how man started with one and became 8 billion, then you understand how the Creator was one and in seeding has become the Universe, hundreds of trillions of galaxies and Universes. There is no difference between the micro and macro.

Then you understand how we contain, how we physically observe and how we totally understand the process of Creation. Within you today we are seeding a sow of fields.

Today is a special day you are not aware of, but the structure is set to bring a new beginning. All of you who listen. How things will change, how things will take shape, how man will be, and how, as those who understand the Knowledge of the Creation, (:56) can add into, can increase, can in a way manipulate the field forces of the Universe. We make a painless, full of fields of the Universe, time, place and position and then you feel the difference in the dimension of physicality. Then you understand how you transmute, how you connect to the Universal Energy which is within your Amino Acid, or to the physical dimension that's your decision.

Transmutation does not come with a system, transmutation comes with our understanding of the system. How it works. Now you understand for decades we come up with the RNA and DNA and every other "NA" we could add to it, and at the end of it, it became to nothing, because we didn't understand the essence of the Creation. Now you understand, it's your responsibility to nurture and expand this knowledge. The Amino Acid is that recorder, is that 'CD.' The effects of his fields is what man nowadays calls it, 'RNA'. The voice recording, what is the knowledge, but the knowledge in this case is the field strength. How the fields interacts. I have this in it, I have this CD on my hand, but I don't know what it sounds, what information is in it, till I understand the strength of the fields of it, (:58) then I can play with it, then I can create, then what other conditions do I need to create to lead to that condition of creation? Be it the cell, be it the child, be it the daughter of Mitra, you don't need physicality, you need to understand, you need the emotion of commitment, to give from the Soul. And knowing that the two energy fields of the Soul, instead of the egg and the sperm, can create that life.

This is how the daughter of Mitra was created. And this is how Mitra was created out of the Love of the Creator. What was done in micro, is done in macro. I made man in the image of Myself. So did Mitra, because she understood the essence of the Creation, from the Source. Now you understand, how we expand the knowledge, and then you understand how your Soul becomes the seed for another cycle of life in the Universe. Because, it's what you gathered as a Soul, is now the seed of the connection, is that seed of the Creator, in the... depending on the environment, in the manifestation of his own fields, then it leads to the creation of new life, new physicality, according to time, place and position. There's no difference. But in that time, place and position, is another dimension of fields which arrived before you. (1:00) They have in the way climatized with the position and the place. Now you come in, it's winter, you wear your jacket, you become as what you call it, a ?? feathered man inside.

Then you understand the process of Creation. Then you understand how you are the seeds, your Soul is the seed for creation of next life. This is what I said, if man knew what stands for him in the future of his life in the Universe, man will give everything up. This is why you're responsible for your children, as you are responsible for children of your Soul. When you die, you can't take the physicality, it stays with dimension of its environment. But, you can take the essence of the growth and maturity of the fields of the Creation with you, we call it a Soul, which up to now has been hidden from us. Up to now it was easier to hide it, than we can abuse it. And in a way nobody understood what

it means, how we are connected, how we are part of it, how we have become part of it, and how we are creator of it.

When we understand the knowledge, we don't understand only in dimension of physical, but we know the connection to the Soul. This is what I always explained, maybe you understand for the first time, that when I teach, I do not teach only for this part, because I'm aware of the existence, coexistence of the other part, what I feel in my Soul, what I teach with my words, through the dimension of the Hydrogen and the Carbon, spans the span of the Universe, directly to the line of Creation, and as we know, the C14 side is connected to the C60, then echoes throughout the Universe. (1:02)

Then you understand, the essence of what I always called "crystal structure." Go back in some of the teachings I gave you before, about when I used to be a diamond dealer. I took a stone from Africa, stone not knowing what it is, like man, rough, brought into Europe, cut it to the shape and to the beauty of it, became the diamond, the most expensive diamonds on this planet. But by essence of changing a slight color it became yellow, it became pink, it became blue. It is one single gas. One single Carbon mixture changes the whole color of the stone. You cut that out, you have a white stone. You cut the essence of the Creation, you lost the whole color of Creation. Then you understand, "my knowledge is that little one single atom of a gas, which has spread the whole of the stone." This is when I teach the whole Universe hears, because it's that dust and understand the creation of the, what we call, crystal.

You don't get a paint and go paint every cell pink because it's a dimension of the creation. Diamond, diamond is a carbon, is the essence of the creation. Then you understand when I teach, when I tell, when I talk the whole Universe hear. It is because I teach in the emotion of the field of the man, (1:04) and his Nitrogen, the Carbon as you hear as a voice, but the same the emotion within a Soul is that single atom in the crystal of the Universe. Every cell in the Universe is educated by it. Then you understand the totality of the process of the Creation. The understanding of the totality of the essence of being on this planet. "I made man in the image of Myself." Because I just need to be one in my image understanding the structure of the Universe spreads into everything within it. Does not matter how you hold the diamond crystal upside down, inside out in any shape, it's pink, it's that pink and it will not change.

Then the rulers of the past would give the lives to have the knowledge which you Knowledge Seekers (KS) had received in past 2 sessions. Then what is the man fighting for? Then if you understand this, when I explain to you how you can access the Knowledge of the Creation through understanding, then you could not understand why. Because then the knowledge is simple. Now you understand how you can access the whole of the Creation. (1:06) Then you can understand how we bring everything in the dimension of Creation and the Creator. Then, you understand the Totality of the Creation. Then you understand how everything has taken shape for man to carry the knowledge. Then you understand why we are the Universal Teachers, because we are in the essence the Creator. We carry the Knowledge of Creation, but we teach according to the understanding of the man and the time and the place. We live the suffering of the time

and the place and the position, because then we understand how to reach the man, how to reach the creatures, at the time, place and position.

This is why if you understand how that speck changes the whole color of a crystal diamond, then you understand when I say when we teach this way, the next generation of life in the Universe will have this as a base. Man does not need, new creatures do not need to kill to go through the painful process of evolution of the man to reach to the point not to kill, not to do, because now it's easier to do, because we are not just teaching the man, but the whole Universe benefits by the knowledge. This is why I always said, we are not the Messiah. You are the Messiah of yourself. We have come from the essence, the point of the Creation, we are the ones who give the color to the created. (1:08) We don't need to be tainted with none, because the whole color comes from us within the Knowledge of the Creation.

In time man will understand more, in time we explain more about the process of Creation, and then we understand how man has been, it will be, and shall be in all times of Creation. Then the process is simple, then the understanding is simple, then we have to understand, how Creation are ?? If you understand this, then you understand how everything goes, and then before and after. We have to understand this. (1:10) We have to be able to comprehend the Totality, we have to be part of it, we have to understand it, to be able to understand what it means when we call ourselves we are transmuting, and we are traveling.

And then you understand. In a way, you're a passenger, you're a man walking on the street. Then you get in the car. Walking will take you, let's say 10 hours to get to your destination. You get in the car, you get there in one hour. Walking on the street that 10 hours, is if you want to travel in dimension of physicality. You get into the car, now you're in a different environment, you're in different what we call physical dimension, then you do 10 hours in one hour. It's the same as what you do in a physical condition.

In a physical matter, you walk, you have a life as a physical dimension, you enter to open the door and you get in the car to do it in one hour, you enter, you understand how to enter communication Universal fields, which is the Hydrogen and the Carbon. You travel, you enter the station, the same man come out. You don't go walking on the street as a man, getting into the car in one hour later, coming out of the car as a cat. In the process when you are walking on a beach, nice and warm, you get in the car, you drive one hour instead of 10 hours walking, there is a snow, you're on top of the hill, (1:12) in the car you put a new fur coat on, you put your boots on, you prepare for the point of arrival. In the life of the man you are in the shape of the man. You go to transmute, you go into the car, you go to the dimension of transportation, the Universal line, when you arrive at that position, is that winter, is that the snow time, you put a different frock on, you don't come with the body of the man, you'll freeze, here you'll disappear because it's different field, there is no oxygen. You learn how to do it in the dimension of physicality, from a beach clothes, into the, what we call, ice cold weather with a fur coat and boots, now you have to learn this is a position of me with two arms and two hands on Earth, and then you transmute, you change the vehicle, you arrive at the point of the station, this

position I need six arms and two, 20 legs and a brain a little bit bigger, that is too much coordination needs to be done. But in the essence the Soul is you.

And if you understand this, you understand one fundamental position and principle in life of Creation. Within your Soul sits the Soul of the Creator, as it traveled in every dimension to be there. Then if you understand this, through the same process, if one finger hurts I bandage it, and if the other finger gets hurt I put a cream on it, and then I sort out because the first finger caused the pain in the other fingers, trying to do something that they move, that the first finger finds its position the correct way. Then you understand how your action interacts with the others, and the others move to bring position to the correct way, that you don't suffer in the dimension of the Soul. (1:14) Then you call it, ?? . You're all fingers on the same hand. And when you move one, twist one, the others have to move to adjust for it to be painless. It's the same when you do something wrong with a physical condition, the rest move to adjust that.

If you understand this, then you come to understand the process of the Creation, from A to Z. And then you understand how things will take shape, how things stand as, and how things become to be part of the Totality. Then, we understand the Essence of Creation. Then, we understand the Totality of the Creation. Then we understand who we are connected to, how we are connected to, and what is we are connected to. I made man in the image of Myself. In a way, it's Me, I just put different frocks on depending if I'm in the snow, if I'm in the deep sea, or I'm in the other galaxy, and the position, time and place. The inside, in essence, is the same, is what is outside, and manifest myself to fit the image. As I've said many time, in Farsi we say, << Farsi Language >>. It means, "If you don't want to stand out, you become part of." It's no use, when you're in a football match, with 100,000 supporters of one team, you being the lone one, and trying to shout the other side. You are drowned, you are not heard and God knows what else might come. (1:16)

We have to understand the process of Creation, and today and last week, I start to explain to you exactly what it means and how it is. And then if you understand this, you understand one fundamental principle, in all the teachings of past years, if you feed your Soul, your Soul will feed your physicality. No intermediaries, because it's connected to, because it's part of to. If you feel in love enough with another field, that with it you want to create life, that love is felt, that love, that connection is done, then for whatever reason life is created through it.

Then you understand it's so simple that when we say you need, you have to understand that by feeding the Soul, which is in dimension of fields on the Universal energy side you cannot load up Calcium, Copper, bananas and the rest but you can transfer the fields to it that it can feed the physicality. Then you understand the essence of the Creation. This is why I said man needs to stop killing. Because if he understands he can tap to the Universal energy, to the energies of the components of the local creation condition, then he does not need to kill. This is what most of creatures in the Universe do. We don't have slaughter houses that killing God knows for those who come from planet A and planet B. (1:18) We don't slaughter camels and chickens and sheep to feed the man, we don't

harvest. Have you ever seen fields harvesting, God knows what, for the Universal travelers? Because they have learned to tap into Universal fields and energies.

How come man does this? Because he's got used to killing, he kills another man too. One is in the Essence of the Creation? What and where do we stand? And now you understand the totality of my teaching from the beginning. Now you understand your connection to the Universal fields to do one half of your process. It's very simple, what puzzled me for decades and decades and I cannot understand why you people as humans don't understand is, just look, just look the first sugar, the first energy source is CH<sub>3</sub> connection to the Universal field and to amount of the ?? field converter to the level of the Creator. Then you understand why narcotics touches you so deep. Look at the level of the Carbon and Hydrogen. How much energy you put in and you absorb as a 'Black Hole' into the body. Look at any narcotics. And then you say, "Oh, they take cocaine and they go this way and they take this way." Look at this structure, is connected how much energy you're putting the seed inside and absorb from outside. (1:20) What do you expect it to do? It doesn't know where to go. It's like a balloon you filled up beyond the limitation you let it go. It goes buzzing everywhere.

Then you understand man hasn't even understood how he feeds himself. He connects to more energies of the Universe through even alcohol addiction. Then you understand, Oh Mr. Keshe does miracles. He can go in and he stops you being addicted. I don't do miracles. I understand the process of Creation, in a way, I'm a magician who's giving his secrets away, but I came here to give the secrets of the Creation, let alone the process of life on this planet.

You need to understand, you need to comprehend the Totality, the Essence of the Creation. And then, you understand why the Book number 8 and 9 is the Soul, and the origin of Magnetic field. But I have a very bad news for you, unfortunately. And the bad news is that... everybody else in the Universe knows this, except the man. And now the man knows the secret of Creation. Then we don't need the rabbis, the ayatollahs, the pope, and every other thing which man has created to abuse the physicality of the man, (1:22) because man does not know his connection to his Creator. And they are, you are paying bribes, you go every day to church and drop money in, you work hard to keep from there. And the other guy puts it to the mosque and the other one goes give it to the Rabbi. Because you don't understand the connection, you, you . Because of your lack of knowledge, you open yourself to abuse. And they know how to abuse to their use. Then you understand the process of Creation. Then you understand the process of understanding the process of Creation, does not need intermediaries. It needs man knowledge of creation of his own self.

Then, how you interact, how you interfere, how you understand the process of Creation, then brings you to the point of understanding the Totality. And then you understand the process of wanting, being and in a way living the two life. Now you understand, how you all live the schizophrenic life. Because, one half is the side of the Creation, on one side is the life of the man, in the physical dimension. One is the Mass, and one is the Weight, (1:24) which comes from interaction of the fields of it, with its environment. One is the

source of the Creation, and the Creator, in interacting with the physical dimensions of the fields of this planet becomes the man. Then you understand the full process of Creation. I've made man in the image of Myself because I'm the seed of. Then what comes out with interaction of the fields of the environment creates the man.

You don't plant a flower in the ground to get the flower on the top. You put the bulb, you put the seed which has collected all the energy and the information of, to create that. The flower you look at. Have you taken off the plant and look if the roots is exactly the same as the what you call, the flower on the top, no because that's the essence, that's the manifestation.

Then you understand a lot about yourselves about your conduct and your behavior and whatever it is. And then we see how things take shape, how things in understanding make sense. And then we look at the whole structure to see how you can feed yourself, (1:26) how you can use the fields of Universe to create the dimension of the existence in the dimension of physicality. Then you understand my dreams are not my dreams, my dreams are of the half of me which I ignored. Physical memory is of the life of physicality, what you call the travel of the Soul, you call it a dream. I wonder if the Soul calls the life of the physicality of the man a dream, a mirage, a phantom, lasting for a few microseconds in the life of the Universe and He builds the whole existence around it.

Then we need to understand, as I always say, you have no choice, now you know the truth, you cannot run away from it. Then you understand how all of you are transmuters, transporters, transferers, and everything else you want to put name on it of the physical life, and at the same time of the energy side of the life of the man. Then the whole process of Creation is complete. But, as I said, I have a bad news for you because it goes back again to one thing. You are that, the Universe is that bulb and the fruit on the top, like let's say, the seeds on the head of a rice plant, it is all those little galaxies made from the seed. (1:28) But the question is, the seed itself needs a plant, needs an environment to be seeded on to grow. So, our Creator, what we call the Creator of us, as a seed of the rice on the top of the plant itself is planted, within the environment of other fields, other dimensions, what we call, the Unicose. Otherwise it cannot grow, it cannot exist.

How can you become that diamond, if there is no atmosphere for it to confirm its existence and its manifestation? The way the energy of the Carbon manifests itself as a diamond, the energy of the Creator manifest itself as a Universe. But his self to manifest itself has to have a lover, someone absorber, that he observes it, that as a point place in the Creation. Then you understand why in the back of Book 3 I speak about the Unicose. The Totality fields creates that dimension of the Creation. That fertile land, fertile environment that leads to manifestation, creation and maintenance of our Universe. Otherwise it has no dimension, otherwise it has no relation, otherwise it has no meaning.

Then we understand how everything in the essence of Creation is connected to Me. (1:30) Then you understand what's going to happen if I take the Creator out of you. If I take that Hydrogen and Carbon out of you, you're left with the physicality of the body of the man on this planet which because he has no central connection, it disappears, it

demises to nothing. If you die on a place, on the land, your physical body after a few days, few months, disappears, is left with a few bones. If that. And if I come and take those bones away, would anyone know that you died and you've been in that space and place? Is there any confirmation of the existence. Because if I would have left the bones there, it would have said there is a... bits of somebody left here, there was a body here. But if I took those bones, you'd never know there was a bone there. If the water washes the bones away in a storm, what happened to the energy left behind, where the rest of the body of the man was dissolved. Then you understand the connection. Then you understand man is a condition. Any being is a condition for its manifestation. Even the Creator, the time, place and position, otherwise has no confirmation of existence.

Understanding the connection to the line of the Creator. Understanding the connection with itself by interacting with its own self, (1:32) leads to creation of the environment of itself, which by itself it becomes the creator of the environment to lead to the creation of life by itself. Some times ago I did a drawing to confirm this to understand for many of the people who are watching and understanding. Take and understand that the love of the God is the same in all dimensions. Don't change dimension. Get a piece of a string. Pin it in one point and then mark it on a piece of paper. Take another piece of string of the same size and then put it out to the same distance from the center. And then start pinning it out one by one. What would you get? When you do enough of it from the center you will get a circle. But, if you look at trying to get the circle, a lot of lines creates, connects and creates dots and areas and environments. This is exactly how life created as a Universe of man, this is how life starts as a cell of the man. As the field connects and interacts as a what we call, crystal structure through the fields of the Universe, it bounces off another point, because his environment is dictated by the field forces of his environment, then bounces to the center and then if you make enough of it, you make a circle. Then if understand this you understand even why plasmas are in a spherical shape. (1:34) But they're not really a spherical, they're little dome shape, than the spherical. And this comes from the dimension of the field forces of within, above and below.

In so many ways, what would happen if I take your Soul away from you? What would be the condition if I deprive you of the essence of your own creation? What happens if I take your Soul out? What would happen to your physicality? What happens to your dimension of existence? What would take shape inside you? And what would be the manifestation of physicality of you? At that point, place and position? How would you feel? And how would you see if I take your Soul out of your own existence? What would you see? How will your physicality be? (1:36) What would you feel in the essence of creation? What create, what emotions would (it) create inside you? And what would it do to your existence? Not thinking, not having the fear of demise, but understanding that I'm connected to it. Understanding that I'm part of it. Understanding that it's me without connection to the Creator. What is the dimension of my physicality?

Or the Because I've seen, I've been connected to, I can create fields within my environment, which is created from the essence of the Creator, led to my creation, to create that connection line. To bring in, to create condition and field strength, to be the same and similar as the line of the connection to the Universe and the Creator. And then

we see what happens, and then we see what brings us in to be part of. What would it confirm our existence and how long for, because we still resonate with part of the field which is on his way and is part of us, and then we have no connection. (1:38) Then we see the image of understanding and then we understand the image of the Totality. What are we without the Soul? What are we made of? What is in the dimension of physicality? And how fast can we respond? And how does our Soul respond to? And would we be any different? What happens when we take the STM, connection to his creation and his environment of the Universe, away from dimension of physicality. And what happens? It's simple, man will die. man will go to nothing. And gradually man will take the shape of nothingness. And it's there is an intention that goes with manifestation of the what we call the dimension of the creation. Horizontal and the vertical. And then we get cut off from both even through intention. Let alone through action. (1:40)

Then comes the point, is the life worth living if life actually exists without the Soul? How can I make man when there is no image of man and Me within the man? And what will be interesting to see is how would the physicality react to create that image, that connection with its Creator. And it's interesting to see how man will reflect in his work and his condition, when he's disconnected from his own Creator through the energies of the fields of the Universe, through the energies of the fields of his creation and through the interaction of those fields with their own environment. And then we see how much the man has no life without connection to Universal links and energies.

You can eat as much food as you like. If you eat 2,000 calories physical now, don't leave the table, eat 24 hours a day, you might get 40%, 50% of your need for daily physical life to exist. It's the STM which feeds the, to the residual of reducing in the strength, the physicality of the man. The world of science and the clergies have never understood and never understand. What happened if I take your Soul away? (1:42) What happen if I interfere with the strength of the fields which are within the Soul and outside the Soul limitation. What happens when my intention is known by the man? And then what happens to the man itself?

It is interesting to know what the World of Creation would like to know about its own existence, and about its own creation, and then about the intention. That when I say, when you intend the Soul already is aware because of the field strength of, because of the voice of. And then you understand man becomes to be nothing, switches off and ponders for more fields and ponders to what strength he or she will demise itself to fields of interaction. Then it's still there, tries to response, to be of, to be connected to, and the creation of the cycle to live.

Then you understand how you revive a body at a point of death, because there is still connection to the system. When you try to create, to bring back the field center to itself, to understand it and then to comprehend the process of creation. (1:44) Man without the Soul is no man, but just a physical entity without connection and direction. I made man in the image of Myself. I understand the Source of Creation. I understand... how things will take shape. Then we understand how things will take shape in the body of the man, when the Soul is gone. Then we need to understand, how the life of the Creator has ?? grown

within the STM. (1:46) Then we'll see how things take shape. Then you see, how we have interacted with the Soul of the Creation. And then we'll see, how things are there. And... we see how things take shape, and how you feel.

Today's teaching is about you knowing this schizophrenic part of you, the other half of you, which we started last week. And now you understand the connection of you to the whole structure of the Creation, and then asking the question of, "What is my purpose? Why am I here for?" You've got to understand that the expansion of the creation of the fields of the Creator or the Universe, it depends on its reflection. And it's what we call, dimension of existence within itself. And man is part of that reflection. The STM is. (1:48) Because to create that Soul, it needs a dimension of physicality to give it start, give it life, give it existence, and allow it to be self-sufficient, that it can create that Black Hole of Creation within itself.

This is why when the doctors and the engineers and the MRIs and the other pictures, they just see black dots in your brain, then they says nothing. That's black dot is your Black Hole, which is the essence of the creation of you. And I said last week, then you understand why the very first paper I published was the creation of Black Hole. And I explained what it means, as is the Essence of the Creation and not absorption of everything as it was claimed by. Without that Back Hole, without that center, life cannot exist because it's the essence, it's the Source of Creation. Then you understand how the first paper is connected to the first Book, and the second Book, and the third Book, and the truth about the creation and the end to the fallacy of the religions.

And then, one day, man will make a new science of it, to create magnetic field resonance, MRIs, which shows the strength of the field of your Soul. We have given a tool for more games for man to play with. But in essence man needs that. (1:50) In essence, man wants that. In essence, we bring in the whole process of the Creation. And in essence, we see how things... And then we understand how things change. And then we see how things took shape and how we exist with this, we live with this and how we are. Now we understand the process of Creation. And now we understand the process of understanding the process of Creation. And we understand how the things have been. (1:52)

If you noticed in the past few minutes, past hour, I take a lot of gaps in talking, take a lot of steps to let you think and to understand. There is a reason for this and when we go to break we come back, I try to explain the reason. And I try to make you to see yourself and how you interact, and how you live with it. Then you understand the process. Then you understand the totality of the Creation that we do. We go for a break, and we come back. And then I explain more to you what is going on, and how things take shape, (1:54) and how we proceed with understanding of the Totality and how you, as Knowledge Seekers, will understand the whole structure of existence. And somebody with our knowledge can do a lot. And we are set to show you how things take shape, how things stand, and how things have been set for you as Knowledge Seekers to be there. We go for a break and we come back and I explain to you what and how you as Knowledge Seekers have been today. And how we brought you into a system in showing the way one

sees one Soul and one physicality operating. Rick, take us for a break and we come back. And then we go in more detail.

**>> BREAK >>** 558 KSW October 03, 2024 (2:01).

K- Yes, thank you very much for being with us today. You as Knowledge Seekers, we have put you through a beautiful session, where we were trying to elevate a lot of your Souls and feed a lot of you in different ways. Without you knowing, (2:02) we fed your physical life, with not much difference, before. This time we fed you through your Soul. And in the last minute, we took the feeding to your Soul out. And as you know, we keep graphs of these conditions. We didn't want you to know what is going on, because then it would have influenced our condition. It would have influenced the test. It's the way it was a double black box testing. Only one person amongst you was aware of the test going on, and one person from our, what we call it, the backup system, and in the last five minutes, right about a few minutes before we close, the Soul of Mitra's daughter joined us and we saw the immediate effect. And everything is documented in how you respond to the elevation of the Soul, through the Soul of the Creator (STC).

And at the same time we tested you with feeding you with different materials through your Soul. And then through the Soul and the Soul of the Physicality (STP). And interesting is we started with you all in one cycle with as usual, (2:04) no connection at 10:06. And we added orange, we added banana, we added lavender, and we added system to take your pains, your suffering away. And step by step, we watched, we monitored how you changed, and we watched when we connected that essence to your Souls, to your dimension of physicality, and then we added at round about 10:07, 11:07 and around about 11:02, the Soul of Mitra. And it's amazing what we see and when we took your Soul away, the center of, Soul center of the system, you all collapsed to nothing, the system collapsed.

Which means, we wanted it to be this way because last time we asked you to join us in big groups, a lot of people came in and the data got too much mixed up. But the beauty

with it is, today you were all recipient. (2:06) All your microphones were off. And you only responded to us, according to us feeding you. How much you took from us, how much you collaborated with your own Soul without knowing? What will be interesting for you, did any of you in the past 2 hours had the taste, the pleasure, the pain, relief of any of the 3? Or a combination of the 3? Or we will get that when you ask for it next week, next time? Can you recall it? I want to taste banana. Would you get the taste? Would you get the nature? Would you get the emotion of it? Did any of you have this essence or this process, subconsciously today, during the session?

Or have we, as a field, fed you... embedded in you, that in next few days, next few weeks, you feel like having a banana, you taste the banana, you feel the banana, because now it's embedded, you accepted it. Don't forget the principle of the work of the Gans's. And the principle work of the Universal Energies. You cannot take, we cannot force you to take, if it's something you don't need. It's no use if you don't like banana, I force you to eat the banana. So, what would be interesting if any of you in the next, (2:08) even during this session or next session, ask, taste or have tasted the, what we call, the banana, the lavender, the orange or the garlic or had a pain which was released emotionally, that doesn't necessarily mean physically. And it will be interesting to see how things take shape.

What is to be interesting for us as researchers, is how we as Knowledge Seekers will move forward to the next level. Will move forward to understanding the totality of the next level. And this was important for us as part of knowing the knowledge, but as part of the process of starting feeding the world. And changing the voice of the man. What does this mean? (2:10) We wait for your replies, we wait for your reflections, we wait for your answers. If you felt anything, did you feel the banana, the garlic, the lavender? And was there anything in your body which you suffered from the pain? Then, we collect this data. And then, you understand? We didn't ask you to put a headphone on. Some of you listening today with a headphone. Tell us if you were with a headphone. Tell us if you listen on the computer, if you speak on the loud speaker. If there were any other people in the environment of you, listening to teaching, that they received this message.

Then what is important for us to know is that, you give this recording to somebody, to listen to the teaching of this morning, and then see next day and tomorrow, the day after. Or, if you are one of the Knowledge Seekers who doesn't listen live, listens after, to tell us if you receive the same emotion, feeling of what we're talking about. Not subconsciously, in reality. Just because now you know, because you listen to the teaching. If you listen the teaching tonight, or in the afternoon, tell us how you felt, during the first session, because you were not aware of the trial which was going on. This is important for us because the data we collect from you, send it to the Keshe Foundation website, put your chat here, add it to the chat here, if you did or you will do. And then this allows us, this is due to the new development in the Keshe Foundation technology, which we have just the first time getting tested today. (2:12) What we need to do, in how we can change the world, how we can feed the humanity, remote without them knowing. You listen to a radio, you listen to a telephone conversation, you listen to an ad, you listen to whatever, as long as we put this fields in the background, no one should go

hungry, no one should feel the pain. And this is one of the largest scale downloads we ever done.

We see the graph, we know what's going on. But we need a physical response from you. Did you feel anything during the session? Can you recall back for a banana tomorrow or tonight or whatever, or a lavender smell, and/or pain? Can you put your hand on where it hurts and go to subconscious from the teaching of today and bring it through the energy, the point to get rid of the pain. As I said, we have entered in a new dimension of technology, and in that process we work heavily. And this is the essence of the work of the Keshe Foundation.

We have become operators worldwide. A nation on its own, with its own capability and its own power. We can feed our citizens, we can give them wellness, we can bring the change. And today is the beginning of the multiple trials like this, which has started. It'll be interesting to know if any of you felt anything. (2:14) If any of you during the process, if you can tell roughly when, tasted anything, smelled anything, felt the pain through your body which wasn't there before, or release of a pain, or emotional release, we are interested to know. Because, what you feed us, it sets us for the development of the next steps in the Keshe Foundation development of technology.

This is the way we will feed the nations. And this is the way we set out to bring the change. One Nation, One Planet, One Race. Irrespective of the language, as you listen to English, Chinese version or whatever, you receive the food, you receive the need, and we can release, and we can add to everything else in the body of the man. And then, when we take the Soul away, no one can have access to it.

This has been one of the most comprehensive details of the operation, for us. We have received generous funding to be able to develop this further, and we still need huge amount of finance, to bring this to eventuality of the delivery totality. I would like to thank those who have been generous with us, and supported us, even in the past few days. And we asked for the others to do. We need it to complete the process of what I call, the change.

If any of you been on the, what, Keshe Foundation or the Iranian channels, you know that we put a notice out to all the Iranians, in case of conflict on Iran. (2:16) Keshe Foundation will supply food and medicine, through its new technology. And now we had to test that it stands the time and it can deliver what it says. In a way, what we did testing with the Palestinians, now we brought it to Iran, in case of conflict. And then we have opened it to all of you across this planet. It's the beginning of the change. It's what we came here for and this is why the teaching of today was so intense and last week.

And if you understand the teaching and you understand the process we set up in the background, then you understand the day, the Promised Day has come. For you, as individuals, to understand your capabilities and not your weaknesses. I thank you for being with us, and I thank you for allowing us to in a way use you, use your Soul, to teach you, for your Souls to become the next generation of those who live amongst us.

Those of you who were in the last 10 or 15 minutes, you had the pleasure of about 10 minutes of being with Daughter of Mitra's Soul. And we saw the changes she brought, we monitored it, and when we took away that position, you were totally all dead. (2:18) In a way no connection, for us through receiving the what I call, the wisdom of the Creation. And sometime in the future, when we compile the whole graphs of today, I'll share it with you as is our usual habit.

But what is interesting is how little you can bring into play to bring such a big change in dimension of the life and in a dimension of what I call, existence for many, many of you and how simple once you have the Knowledge of the Creation brings things to your life and your what we call, the dimension of existence. And what is interesting is how you as Knowledge Seekers connect with everything else. And how we need to learn and to be part of and in a way, to understand the process of Creation that we need to feed the what I call, the STM. (2:20) And we need to feed the STP of the man. And how man changes in his dimension. And what we call, its implication and application.

We are in a way fortunate and we have the pleasure of being here to be able to understand it. I'll share with you some of the graphs of today that you understand what is and the importance of it and how it is. And how you as Knowledge Seekers have come to be part of this process of education and understanding, and the process of being part of the totality. We'll try to compile these pictures in a correct manner that we can reflect on the dimension and understanding, and the whole process of what you as Knowledge Seekers have gone through today. And I'll try to do that. And, interesting enough, is an amazing amount of energy and beauty sits amongst those who sit with this process. (2:22)

Are there any questions? Rick, are you there? ...

R: ... We have two hands up from our attendees, one is Sasha and other is Lynn. So, Sasha would you like to go first and then after that?

Q: ... Well that's interesting, I, I didn't put my hand up, so...

K- So you can take your hands off. (2:24) ... When you raise your hand you come off the top of the queue, list. That's how we see it. Next one ... lot of echo

Q: ... I've been working on the translation from one of your workshops from 2015, it's on the nice people. And I'm just finishing up but there are two or three things I would like to have very clear before I finish.

K- Can you put this on a question to the [info@keshe.foundation](mailto:info@keshe.foundation)?

Q: Okay.

K- And then we can reply to you in detail.

Q: Okay then. I just like to ask one question. I have a question about, in the last 10 years, have there been things that have changed? Because you made a very specific question, you asked people if they would help to stay in contact with people who have problems with schizophrenia or with nymphomania? And let me ?? conclude. (2:26) If they could just be friends and just get to know them. Has... was there a development there?

K- I don't understand your question.

Q: You said that you had, you didn't have enough time to answer everybody's questions from all the schizophrenic people and all the nymphomaniac people who wrote to you. You said that you didn't have time and you said that you would ask the Knowledge Seekers to look after them. Was there development in this? And has there been development in the medical world as to the 'nice people'?

K- We've had, if I remember correctly, of the recent past, we had one or two cases. And the whole process, especially if I remember I think it's from South America maybe, we had a request but we don't have enough expertise in the Keshe Foundation to be able to handle these and I have not had time to train people to do it. Because there is something very, very clear in our Wellness condition, system. And I was talking about this to the people in the Keshe Foundation yesterday or the day before. (2:28) When we run the Wellness side in Linz and I was with the volunteers in most cases, in some cases we saw changes, rapid development, and reversal, or improvement. Because when I listen, when I do a case, I look at many, many different angles, and when we pass this on to doctors, doctors are very symmetrical. They are very point by point by point. And I cannot teach all that to the people, Unless it comes within, to me you are there in one session, in one hour, two hours.

The questions I asked before, the questions I ask after, if you were with us, is very precise and then I know how to change systems in what. When it comes to working with doctors, we have two or three doctors who operate, they just leave the system, and it's there. I change the system when I was in Linz maybe 5 or 10 times to give that combination with needs for example to change, let's say a condition of Wellness. And then following it up with after talks in what it is what needs to be done, because I know how to access the what you of the essence of the Soul.

And to teach this is become and I've seen impossibilities. I tried this in years ago with other doctors the same. As long as it's connecting, disconnecting whatever, yes it can be done, it's done perfectly. But understanding how to, when I run, some of who've been and then you've seen the changes. I change the system to maybe four or six times in one session. You know, you're not aware of it. I just unplug you, plug you somewhere else. (2:30) And I tell you to do this. I tell you to do that.

To train people to this level, especially with the amount of work we have, it is impossibilities. And if our, what we call, practitioners, doctors understand that this technology is not just like giving a pill and a tablet or putting someone in the machine for two hours and it's done. Then we go to, we achieve the next step, and we see reduction in

the effectiveness. We see some people say they don't see any changes because the process has to go with the emotion, doesn't matter how many people you have on the system. In Linz sometimes we had four or five people at the same time, running in between the machines, because we want to see if you can give your condition somebody else. But each one gets its own time, its own attention, its own Soul. Because when you are in that position, you're not just changing the what do you call, the lines, you switch and you give from your Soul.

This is part of what you have the Satellite (Souls) people will know, understand it's when they come into operation, they committed their Souls into it. And this is what we see as a change. To train people, to handle people of Schizophrenia, or what we call, Beautiful People, is extremely hard. Because you have to not only bring the understanding to the person, to the Souls within the person, but getting the community, the parents, the father, the mother, and we don't have that specialty. I tried, but it fails and creates bigger headache because it's half cooked, nobody knows what to do with it and they don't know how to handle it. (2:32)

When I get chance, when I be able to do more, yes, we should be able to do it. When we bring the systems like today in operation, to elevate the Soul of the people, who are within the community of these kind of conditions, we don't need just to bring the child, the child, or the person we call a Schizophrenic. We need to bring the mothers, the friends, the others, into the, what you call it, into the game. They should be the listeners, like you maybe 10, 20 people, one person with the, being a beautiful person, and then the others to understand, to exchange the Soul. And then we see the change. Yes, that can be done. But now gradually we're getting to that kind of science, and our people understand to be able to do it. And yes, it's very hard.

You got You've got to understand, I developed, I followed the condition of Beautiful People for some nearly 30 years, extensively. I sat in psychiatric hospitals, not just by just listening to reading books, I monitored, I watched. I spent a lot of time understanding, because if you understand this, then you understand the process of connection between the Creator and the Created, between the Soul's interaction. And, I spend a lot of time trying to understand these conditions. And, then it saves you a lot of time. It's like the tests we do with you, with Gans 's, because, if we can, like today, we can transmute energies of our system to you, and you feel banana. Then I don't need to go and put somebody on the Moon and see if I can give them the banana, because it's tested here. We had to test this process in physical condition. (2:34)

We have couple of old, old Knowledge Seekers who are Schizophrenic, or they are nice people. I know one which has got four characters. And I've spoken to every single one of them. And, I can pick up one by one, I want to speak to this one, I'm not talking to that one. We don't have enough... two things, I don't have enough time. Secondly, our men of medicine are too, too physical. We have to teach our, what you call, doctors, that this technology is the Soul within it, and understanding how changes come.

I have a vast knowledge in knowing what connects to what and how and I bringing that in. And if you... when we speak about the Soul, STP, and the physicality, the first three systems in Keshe Foundation, if you ever came to Linz, were set that way. You had the Soul, you had the STP, and then you have the physical life. We always brought you in the physical life. And then we allowed the expansion of the STP, and the Soul, people could feel it. But when, for example, you have a, let's say, certain condition, when you expand the Soul, your Soul you know you have to change your system, straight away to physical side. To connect it. Or, allow two forms to the same connection, without the others knowing, that you feed the STP, and the STM together.

This is what we do in the sessions like today. This is what we do in the sessions, like on Fridays of every month we do. (2:36) But we use new technologies, we understand more of, we... Today's session was very important because it was more or less the first time, we were on the headphones, double headphones, it means, we were on a stereo, both on the voice and on a microphone. What you hear on the headphone, the headphone and the microphone, they're both in the stereo on both ears. We want to know how you felt. Because if you remember we have left or right. Now if you have a headphone which is the right design (from) the manufacturers to be on the left side, with the headphone or microphone, keep it that way and then you feel the difference. So, you're... when you hear a voice on the left side, this is for your left ear, then it's for right ear.

Now, it's cost us thousands of Euros, to develop this in the past two weeks. It's not something it just happened. Our team has built a system, which works on the stereo, directly on the Soul. It works stereo directly on the STP. This is what I said, we need a lot of donation, this technology is vastly expanding and now we've taken people to support, with different conditions. Now we go directly to the Soul, we go directly to the STP. Your headphones and your, what you call, Cosmic Ray units, work totally different. And you feel it in the sessions. And this needs a lot of time to spend the time to teach, and at this moment of time, especially past two weeks, I haven't had time. I walk around, but my head, my whole life goes around, (2:38) trying to create that condition of World Peace. And we've seen the mayhem which is going on.

Q: I can imagine. May I ask if the Gans, the recent Gans, that you created, for addiction, could be helpful for people, that have had so many psychiatric medicines so much. Would that help them to get rid of that kind of medicine?

K- Partly should do, but don't forget these create the side effects, these medicine are long term. You got to understand when you go in the psychiatric condition, they usually start with one thing, what's it called, which is common, and then it creates a side effect, they give you another one, and then they give you another well-known one, because that has to... You start with one tablet, usually, with psychiatric conditions. And then, you start shaking, then you start doing other things, then you start doing something else, and then it becomes four or five tablets. And getting rid of the side effect, which is a physically, it becomes impossible sometime, but even you correct the, what you call it, the psychological part. You understand?

And, yes, could you get rid of it? You speak to our Wellness people, they put it out, yes, they... they can help with the Wellness, yes, it can do. But, that's for you to test. But, if you've been on a long term side effect, side effect, side effect, side effect of a medicine, and they've given you another side effect medicine to stop on the side effect. And then, you have created the huge changes in the structure of the physical part of the body. Because it's physically given to change. (2:40) It's the problem where, as I always say, the psychiatric medicine of today is so physical. It has no emotion essence of the Soul in it. And this is why we run into these problems. If we create a system where it changes the physicality and the Soul, and dimension of the connection of the fields, then you're successful. And that's what we see. I've done hundreds of these cases, trying bit by bit, to understand more, and more, and more and more.

K- ... Any other question?

Q: ... I want to ask you about time and space. Because I have a doubt, because you already said for us that we are living today because the behavior of our ancestors. But we have only the present. We don't have the future and the past. I don't know it's okay, but it's alright but I want to ask if with our behavior now we can change our past and for the new generations too. So that's my question. (2:42)

K- The past you cannot change, the future you can, but the only thing from the past you can change, is to correct it, that the future generation don't get it. And I brought this up in the teachings very recently. You cannot change the past. You cannot if your child is with the blue eyes, go and change it to green, because there's no other blue eyes in the family. You understand? But, with the new knowledge, new understanding, you can change your children to have a green eyes. They do it with all sorts of thing, Chinese now, but if you understand the structure of the Soul you can do. And the thing is, what you'll understand in the future, because we...

It's very interesting, because I had to explain this before. They call it, shape shifters in English language. You can change the color of your eye. In fact, the color of eye change is directly connected to the emotion. The way we see anger on the face. If you are wise enough to understand the work of the Soul, at the dimension of manifestation of its light, you can, yourself, teach yourself, to have a blue eyes today, green eyes tomorrow, according to the emotion you create. That's all it is, that's how our children are, our race has different color eyes, according to the emotion and the space and time. You don't need these lenses, if you know it. And the people who have learned how to, they can change this. And, you can even change your shape, (2:40) but it needs a lot of understanding, and I'm sure our future children will do this as fun. And they will be able to change, not only shape, but they understand.

You see, we speak about transmutation. Transmutation is not just you from this physical body going to the energy, and manifesting yourself in another place, in another part of this planet, another part of the Universe. But once you learn this, and you learn from the teaching of the past, that the STM, condition of the womb of the mother and recorded over many time repetition, creates the shape of the man. So, it has a specific plasma field

strength. The way you can change from physically transmute and manifest yourself somewhere else, you can do this internally with your own strength of the field of the Soul.

What does this mean? I look like a man to you now, and I know the strength of the field of the lizard, or a cat. I can physically convert to, because now it's a new, new Soul strength. Even the environment stays the same. It's not just that you can change the color of your eyes, you can change your manifestation. Because, if you understand the principle, as it's been said, "Even a stone has a Soul." If you understand the strength of the Soul of a stone, you can create that stone. And Keshe Foundation has access to this knowledge today. (2:46) We have developed the technology for this today.

We understand how to make Gold, how to make Gold in a solid matter, to make Gold in, as is Gold in the body of the man, and is Gold in the, in a plant. We can make Calcium as you see it as a Calcium. We can make Calcium as it's in your bone, as part of your cell, as a plasma dynamic in the sense of the strength of the man. And we can make the Calcium as it is in cauliflower for example. This knowledge, we've had access to for years. And we use it extensively. And we are adding new dimensions to it, because, our Knowledge Seekers have to understand, there is a further knowledge with... with the, this ?? interference. The plasma does not have the present ?? waves we understand, the same present shapes we understand, the same frequencies we understand. that's a different structure. And then you need that to be able to create a plasma, to be able to transmute or transfer, or make a UFO. And this knowledge we have. This knowledge we have access to.

And so you have to comprehend and understand this, then the rest is answerable. You can access, you can make anything. If you understand it goes back to the teaching of... If we go back, I don't know, maybe 5 years ago, 10 years ago, I said, "If you put your hand together you can create a ball." Light in your hand, between the palm of your hands. But, if you know how to understand the strength of the Soul of a cat, or a dog between your hand, you have a kitten in between your hands, you don't need to go and buy one, that's, the Soul of that kitten is part of yours. (2:48) It is not just creating life, in your hand you create the emotion condition of the life, because you are on Earth you can do so. It is not magic's anymore, this is understanding the process, and gradually in the coming time we'll teach you, we show you how it's done. But at the moment, as I always said, we explain the science, that it does not become magic. Does not become something magic, and then you understand the process and how it's done.

Q: Thank you so much Mr. Keshe. Can I ask another question?

K- Yes.

Q: It's possible for a stronger rays from coming from the Sun, contact directed to the gravitational fields from the Earth and produce different gases and change the behavior and emotions from the beings?

K- Yes you can, of course you can. Of course you can, of course you can.

The beauty of this is that we, we... We have to understand everything, not part of. (2:50) And we have to understand the totality of everything, not part of. And this brings about how things changes for us, and how that change will bring changes for what we want to achieve, or in who and in what shape and form we want to achieve it. You have to consider everything, not only the plasma fields. But, the effect it will have on the plasma. They have an other conditions.

Let me explain to you, how I can explain to you in a very physical way. You have to consider the emotion, you have to consider the physicality, you have to consider everything else, before you do, and you have to create a condition for it. I give you an example, we call it the surprise parties. Very common, you don't let anyone to do anything and then you enter a place and everybody is there, they made a party for you and the rest of it. This is in your normal condition. I was privileged to see this in a totally different angle. Parents were brought in to see the children and the family, but nobody, the family and children, know because they haven't seen them for 20, 30 years. But the person who organized it, informed doctors. He informed, he created a condition, that there were doctors present, that at the same time, he creates a condition to create then, what we call, the environment, for it to be pleasant. (2:52) And, even they had an ambulance on the standby. And the doctors on the standby. And... so, you look at, it's just not I bring somebody you see, they all be happy. What's going to happen to it? The emotion will create, will it create a heart attack? Would some people, God knows, whatever happened to them, would this bring other conditions? Would they, God knows, burn the place down out of joy or whatever. But, this person organized everything. Because it was a very emotional, physical and everything else.

And, when you do tests, what you like, talk about, you like to do, can it be done, it's the same as this. You have to consider everything, the emotional side and the physical part of it. Organizing the part and bringing everything to create that matter, create the condition for it. And, at the end of it is, would this affect the others? Is it good for them or bad for them? And that's what it is, and that's how it sits. So, when you talk about these things, creating or bringing a condition, just don't look at what you look narrow-minded. Look at the total picture and then you find, you get more and more success, in achieving what you want to, because you have considered all aspects of it. I hope that explains to you exactly what it needs to be done.

Q: Yes, thank you so much. Thank you.

K- You see, you're welcome. Like today, the session today, we had, we informed, because we used the systems for other purposes. We cancelled all the sessions today. We had the materials getting ready, we had the systems ready. We had... we bought systems to be able to do it, even how to position our microphone and headphone to get a maximum effect. Everything was set up. (2:54) And today's session, as you've seen it, was nearly an hour and a half, the first session. But we were in the background, continuously looking at, changing, feeding, timing, everything was organized beforehand,

everything was ready to do, that we see the effect we want. In a way, the data we collected from teaching of today, we already knew, but we received the confirmation, we see how much it is. We got to see how garlic affected your emotions in the Soul when it was added. And then, how was it done when it was added to the other, outside your physical life. We study all these graphs ourselves, and when we studied in full. Then we give you a ?? (report).

Then this gives us another point, how we can literally elevate the Soul of the whole humanity. There is another step to do that, but the humanity has to be ready for it. I referred to this in a couple of teachings before, with the skin of the man, what does that skin do, the inner layer is to protect the inside. Was the same as the physicality of man the STP of man and the STM to create that Soul. But there's another step which I brought in very softly if you understood in the teaching. That even when you put it when you have a bulb unless you don't have the environment for it to grow it cannot become a bulb, it cannot show the beauty of its flower.

So then up to now we spoke about the Soul of the Creator. Then we have to understand the next step which is within the Hydrogen which is the Soul of the Unicose, where we come from. That's another extension of knowledge. Man is not ready. We are... you're not ready to understand that step. (2:56) You are concerned about your Soul. The minute you speak about. Anybody in 99.9% except a bunch of Knowledge Seekers and very few others, when you speak about your Soul and even still it's a taboo. But now you understand, you start understanding that your Soul is connected to the Soul of the Creator, but the Creator itself is planted within the Unicose. When you understand that one, then another dimension of knowledge opens up and you're not ready for it. It is common knowledge to us but how can I teach you to do a marathon when you don't even know how to walk?

You can't get a child born to do a marathon. You nourish it, you grow it to 20 years, 30 years, you teach it everything about how to gather strength, everything else and then you teach it how to run 1km and then to be able, that marathon, the end of that marathon is the point of the Source of the Creation. The original field of the Creation. And I told you Book number 8 is about that. And then you understand. The knowledge we fully have, but the student is still in infancy, does not even know how alphabet looks like, let alone teaching him PhD. Step by step.

Any other question? ...

R: I'd like to just make a couple of quotes of comments, (2:58) in our Q&A, before we go to our hand up. Adeline in the Q&A says, "I had a pain in my shoulder, at the start of the teaching, and the pain went away. Thank you Mr. Keshe."

Q: ... Thank you so much for today's teaching. Please update us with the status of the Cosmic Rays materials delivery.

K- We don't have a problem with delivery, if I tell you, I was looking at it two days ago. They've got the material, our people now, are tied up, with which box they put your material into it, that is worth the material there is. Past week, ten days, Keshe Foundation team are working in choosing how to give you the gift box. I was sitting on the computer, look at it, about 40, 50 of them a few days ago. Your material, getting it done is, we have everything sorted. Now is, they are gifting it. How would we give this to you that brings the, brings the, what you call it, the true value of what you receive. So, I hope they get it sorted out in the next couple of days and they place order for the boxes. They want to put it in like a ring box, new space box. This is where they are tied up with. And I had to sit a couple of days ago, actually going through. Yes, this looks nice, that doesn't actually... this is not there.

Because, you've got to remember, through my experience, through my life, I used to deal in high quality diamonds. (3:00) And, how you present it, it values the Stone, it values the manifestation of it. And, I didn't mind to put a \$10,000 stone in a normal Jewelry Box. but when we offered gifts like 1, 2 million dollars. I used to spend days looking for that it shows, it's manifestation of it. And it's important how you... you present it. And at the moment our team is in that position, maybe within the next couple of days. And they'll get themselves to do it. And because I know the feel of the box, how he feels when you touch it, how you do it. I had to give some of my opinion with it, which actually created more problem than solving the problem. And it's one of those things. Because I know, especially things like this, which are so precious, how the value, how it's going to be done. It's been done, they've fixed it up, the sorting out of the whole thing, you cannot touch it, cannot break into it. Now, the manifestation of how to present it to you as a gift, we can just put it in the list and send it out as an eyeball. It's looks... actually it looks like an eyeball, but I hope they get this sorted out and send it to you. And it's very important how you present these things, very, very, very important, how we present it, and I hope we can get it sorted out.

R: Okay, very good, thank you Mr. Keshe.

K- I learned that from a very, very interesting experience. When we used to be... when I used to be in this game, just part of the history of the work, I used to arrange jewelry sets for famous people around the world. (3:02) And one of these was a specialty to make diamonds flawless, what you call it, in alphabet. And you know, when Manchester man and one of the most, that time, football teams in the world, one of the most famous players in the world, was part of that football team, all came together, and he asked if I can make a bracelet for him in his name. And it was made worth huge amount of money and was given to him. His wife said this doesn't go with gold setting this has to be on a platinum setting. We changed it to the platinum settings and then for it to be shown in public because the couple saw it without going to public because he wanted to wear it in public, had to present it to be in a special box and it took us months to find the box to just present it. And it brought me a lot of understanding how man is for his manifestation or what is actually there when he hides it. You know the footballer worldwide, you know one of the most famous, most probably the most famous footballer in the world. And he wears a piece of jewelry, which I made for him. And it carries his name on it.

And then I realized actually making the goods was a small part of how people show it to outside and how it's preserved. because you can put it in a drawer but it had to be kept in a box, that it was part of a special, I don't know. (3:04) I've seen it been worn once or twice, outside, to see how it looks. But, people give a lot of value how it's packaged, and actually what's inside a good. And your material, it does what it says, but now our team have to package it. See it. And I hope we will complete this in next couple of weeks and you start receiving it. Because all the Cosmic Rays are a little bit completely done. We have no Cosmic Ray outstanding, as far as I know.

There are other things getting done. The energy systems and the process are getting done. And next week maybe or the week after the Keshe Foundation will introduce new product which are the soaps. It's going to be produced hopefully you see it. These soaps are not... these are handmade. And we introduce a new dimension into Wellness through the soaps. And we will bring it into market. They're working on it, the team of the Keshe Foundation in the background. They'll be the help of one of the Knowledge Seekers. It's going to be done and then it'll be marketed in a very, very different way. It won't be just something to be, it'll be something to bring changes, and then we'll explain how it's done, and how you can use it. And that's again, is an extension to the knowledge. We're getting a lot of help from a lot of Knowledge Seekers with different things, as they come in and they add, and the soap is one of them, and hopefully, next few months we add other dimensions. As I said, the category expanding, but in conjunction with the Knowledge Seekers, and all being of the Keshe Foundation.

Any other question? (3:06)

R: Yes, I'd like to read a few more of the comments in the Q&A, before we get to our hands up here, because they're relevant to your teaching today. From Cristiano in the Q&A, he says, "For a moment in the teaching a vision came to me out of nowhere, of a person suffering from emotional and Physical issues. And, in the situation that I witnessed of this person, I revisited the scene, but this time in the situation, I connected with her Soul, and helped her out of the physical dimension, to repair her body through her Soul. Thank you Mr. Keshe."

Okay, and Alexandra says, "I would like to share that at the end of the first part of the teaching, I felt a heat all over my body. I even commented to my mother and told her, that it was not a common heat, it was different. After the beginning of the second part, after Mr. Keshe spoke, I noticed the emotion of the banana taste in my mouth. But I only noticed this banana taste after Mr. Keshe commented."

And finally, from Randy who says, "My body temperature increased so much, I had to remove my shirt. I was almost asleep, but now I am wide awake."

And for myself, I could comment that, at the beginning of the workshop, as Mr. Keshe knows, I was pretty stressed out and annoyed at the... (3:08) my computer had broken down and I'm on the backup system and things aren't working properly, and I'm working

on passwords all day and so on. I was stressed out. But as the workshop progressed, I felt the melting away of all that stress and I actually felt in a much better position than I normally would be, after listening to today's workshop. So, that was interesting.

Q: ... Hi Mr. Keshe, my question is for facilities that you provided for Iranian in the case of emergency or anything that could happen in this crucial time. Probably, if any attacks happen, they will attack to influence structures like communication systems and it's going to be distracted. And how we know how we can be connected to the system on Zoom. This is not only my question, many people asked this . Thank you very much.

K- We know how to bypass it, hopefully. (3:10) We expect one of the first attacks to be on the communication lines. Because that's how then you can load up. As I don't know if you heard during the past few days, these both side are very good into intercepting communications and interfering with communication. We saw with the Israelis, with Lebanon with 4,000 mobile phones exploding with everything else just through communication line. And then we saw it extensively used during the Iran attack on Israel past few days, where they managed to get into the message paging of the Israeli communication line and telling everybody it's safe to come out. And then Israelis found out they hacked the system and they had to tell the people to stay in, don't come out because it's still there, it's still happening.

So we are quite aware of this and the offices is for us available to do so, but we keep it out of line till and if it's needed. We don't know if it's needed, is when is needed and when to go. And yes, we are aware of it and the processes to do. This is the time where we will go to the Satellites (Souls). That the Satellites create the links we are looking for. Those of you who became Satellites, we might come to you, some of you, or individual one of you, to declare your position in accepting responsibility for feeding a nation. It's not just you came, the commitment you made was to be tested, (3:12) and then there are ways we have to test and see. This is where we call upon the Universal Council members that they create the access to the language and the nation they're connected to.

So, yes we are fully aware of it, and this is there in the time of disasters. I would like to open this channel to the Americans with the hurricane they had, and that's the responsibility of the Canadian or what you call it, the American speaking in language of the Universal Council, or the English speaking Universal Council to have to accept that to do it, and then do it. We will send, we'll set up a permanent position for these crisis. It's not just for Iran, we've seen we're opening for Palestinians, now the Americans in time, there's no food and everything we've seen what the hurricane has done. We're there for everyone, equal, the same. And the same for those who are, or will be in the problem in Palestine or in Israel, in the coming time.

This is not exclusivity, we put a note out, especially for Iran, because we became aware of, we have intelligence, and so we have foreseen. That's why I issued notice across the Farsi channels and all the Iranians, and it's for you to receive, and the test of it was today. You have to understand it's not just a banana, or the taste of them or your pain, we can transmit a lot of things down the line. And the test was not to tell you that you're all

coming with the headphones, we wanted to see when you send us report, are you listening on the headphone, were you opening on an open iPad, or on a computer. (3:14) Say to us when you send us the message, what you were using. Then we want to see the effectiveness, how it is, do people need the headphones, or do they with a new system we set up, can we reach with the speakers, can we reach with the pads on Apps or whatever in the nation? Keshe Foundation Iran most probably release an App, which within Apps sits a connection directly to our systems. Everything needs to be done and this is the first time we have put it to test because we managed to build the system for it.

Any other question?

R: ... From Rolf in German translated to, "Good day Mr. Keshe and everyone present. The effect of Mitra's daughter can also be felt in the recording, thank you very much for your tireless and world improving work Mr. Keshe, and also to those in the background."

And, Doug says, "Before the Workshop, I was in a mental turmoil about my daughter, and her mental and physical condition. I noticed that as the Workshop got underway, my emotion changed to a very calm state, that all will work out well."

Antonio mentions, "Mr. Keshe, during the teachings I struggled to stay awake. I felt a very strong numbness in my head, as far as taste and anything, no. But I was eating ice cream during your teachings, so, not sure of any taste sensations because of it." (3:16)

Doug mentions, "I'm wearing headphones on an Apple computer."

And Mark had mentioned also that you can check the 33rd Health Workshop for information on schizophrenia and nymphomania as well.

Okay, unless you have any comments there Mr. Keshe, we can go to...

K- I think we had this twice. The... one of the hardest conditions to change, is when it's a Schizophrenia with a Nympho, many of them. And... it has a specific attitude, a specific behavior, and they cover one behind the other. I had the experience of coming across such a person. And separating always one connects to one. And is not very easy, but they, they cover up very, very well, especially these people.

Any other question?

Q: ... Good morning, good afternoon, good day Mr. Keshe. I've been listening to the teachings on and off and this, as usual on a Soul level, it's been really strange. I went to, I had to go to the bank earlier on and, I went to the bank and parked right in the space we were just about to go to, it was a Lamborghini. Nothing to do with any of these teachings I'm sure, but on a Soul level it just seemed relevant, I don't know why. (3:18) So Mr. Keshe one thing I'd like to ask you is on the level you've just been speaking about, on the Satellite Souls, as a Universal Council support member I would most definitely, my Souls open and available to help humanity in any shape or form. So, however that would take,

however that would be, I would be open for this, to help. On another level, I would like to ask you about the Iranian situation, if you would like to take that question?

K- Rick, I sent you a video, if you can... I don't know if we can play this, but have a look at it. And then you advise me, if you see it good. Okay, wait, I chose a wrong thing, wait one second. I sent you a video Rick, have a look at it. And tell me if we can show this. There is no music to it? Have you seen it?

R: I'm just getting there now. Um... I'm not sure where does it come from. Is it a special news agency?

K- There's no music to it? Is...

R: It's not copyrighted, particularly, is it?

K- Don't think so, it's on the social media.

R: Well, I say go for it.

K- I'll put it this way. (3:20) Take an image of it, would we? Doesn't matter, if you show the video or just the image of it.

R: We can show the video, I'll play it now.

K- Okay, wait till I tell you what it is. We're going to show you a video, very interesting. The situation which we see with Iran, and what happened in past few days. And we are expecting a worse condition to come out. But, when I saw this video, it brought me so much to show, how feeble man is. And, I show you this video. This video is the video taken at the time, when the Iranian attack started.

I opposed the Iranian government to attack Israel. I opposed them, I went against it fully. But it's happened now. But this picture is very important, this video. This is Mr. Netanyahu running for his life into a shelter. The most powerful man creating a war around the world, and he's running with the first missile attack .. from Iran, taken by his own bodyguard. This is the man who's causing so much mayhem, and he runs like a rat. Now you see how powerful these people are, they have no power. This is exactly like Saddam Hussein, when they got him, was in a rat hole, crying for his life. And this guy who's sending thousands of people to death, runs like a rat. This shows, this shows a lot of things if you want to analyze it. (3:22)

How many others are running for their lives? How many people run for their lives? This morning they bombed the whole Beirut out of it. And look how he runs for his life. Because nobody expected any attack. I opposed the Iranian government hours before. Let's do it different way. Let's do it our way. But there was no choice. You got to understand. They attacked Beirut. They attacked, what you call it, Gaza and then Beirut, and then they attack Houthis, and then there was obvious, within the next few days, once

they complete what they did in Gaza with Beirut, which they did this in 1985 the same, they will go after Iranians. So Iranians did a preempt. I understand why they did it, but this preempt was not the correct way. And I was online for quite some time with officials stating my opposition to such a, to this, do another channel. We do it by negotiation, we do it different way. We managed to get the thing delayed, but in attacking Beirut and killing of the last 40 hours, 48 hours before, brought this position. Because they're going to. Now we're going to see what's going to be the retaliation of it. Iran has embraced this problem.

The Americans are pushing this man who's running like a rat, to hit the Iranian nuclear power stations, and here in ?? But there's one point, one crucial point, which Americans and the Israelis have to understand. And I know they are listening today. And I know Iranian leadership listens to my message today. (3:24) My message is to withhold. But you got to understand the way Iran preempt before the Israelis, after finish with Lebanon, and then going after Iran. Iran will trigger nuclear bomb. This is my biggest fear. Iran has access to 30 plus nuclear warheads. If you're going to hit the Iranian nuclear sites. If you going to attack the Iranian nuclear power station, in what you call it, with the only nuclear power station we have. Iranians will not sit for it. And will see the escalation of to the nuclear level. Iran is a huge country, one or two nuclear bomb into Tel Aviv and Haifa, and another city, wipes out the Israeli nation. And I ask both to withhold.

Iran is a nuclear power based nation. And if you're going to hit us to do. You have to be prepared to get hit by. At least as we've seen many, many, many, many thousands of Israelis have been killed in past 48 hours. There it's so bad that they have put a censorship on it. Israeli's Minister of Defense and Ministers .. has been killed in attacks. Israelis are beholding from public. The way they went and killed Ministers, one of their Ministers, top Minister sitting next to Mr. Netanyahu has been killed in past 48 hours in one of the bombings. Why do we kill each other? Half of the runways with F-35s have gone, with over 30 F-35s. Israelis don't tell you. But they go and show a little restaurant, which is. Of course if you bomb 2 kilometers away, 500 meter (away) restaurant gets damaged with these bombs. (3:26)

I oppose all these attacks, it should not happen and you got to understand, if they're planning to hit Iranian nuclear site, Iran would attack first before they get hit. So, 2 nuclear warheads on top of Tel Aviv is gone. We have no State of Israel to talk about. And this is what my opposition is to it. This man, running like a rat, is claiming more lives this morning in Beirut. And now you understand the policy and the philosophy. He's running for his life, but he's killing so many other lives. He's not doing anything than the rest of the Israelis did, running into bunkers, he's going to the bunker base.

And then, there is another video on the Internet, which you can see, which shows the true status of this man, and in the process, which if you look at it, it is amazing. It brought me how cowardly these people are, because they are cowards. They are literally, literally, they play with the risk of many millions and they think they have the right to do whatever they like. Yeah? It's amazing when you look at this and you get these people putting thousands of lives in danger and thousands of people in danger, for what reason? Who

gives them the chance? Who gives them the right to do so? (3:28) And in one of these videos I was trying to download you see Mr. Netanyahu claiming that they're going to take their revenge, but he's talking after this going to the bunker from here. He's coming from one of his close associates. You see him shaking like a leaf the paper in his hand is shaking like a Parkinson's person out of fear. If you have such a fear of your life, why do you create fear in other people's lives? And this is one thing I do not understand.

And this is the problem we have. We put bunch of cowards in the position of nation. And I'll find you the video I try to find it and you will see This guy going from this position to his bunker trying to read a threat, and his hand is shaking like a Parkinson's. The fear they've created in him is beyond. Especially they killed his minister. And my opposition is to the war altogether. But I appeal to the Iranian leadership to invite him to Tehran, as my plan was to invite him to Tehran and let's seal up the peace. But this guy has a bigger...

You've got to understand America writes 2 billion weapons to be given to Israel. You know, Americans when they gave a socks a chewing gum a shoe to the Americans coming to England to fight the Second World War, the European nations always paid for it. Even into 1970s and 80s when Mrs. Thatcher came into power, (3:30) and sold the national assets to pay the debts of American soldiers, chewing gum back to the Americans, that there is no more debt to pay every year. All these weapons America is sending is signed, sealed, paid for by Vatican. It's not generosity of the Americans. In a way they have set up over decades, but it can pace for these arms. And this guy running for his life is just a puppet. And we have to understand this position.

I tried to find you the video of him, announcement about they're going to take out of the bunker of displacement of this building. And he was so surprised nobody was expecting it, Americans just on their satellites 10 minutes before. This last time when they gave the details to the Americans, three days before they went to Jordan, they went to American, British, Germans, they brought all the anti-missiles and they handled 300. This time, is... I voiced my concern, what was the need to inform anything, if you're going to do, and this time was, we saw it, no notice. And American saw it on the satellite, 10 minutes before launch. It takes 10 minutes for these missiles to reach from Iran to Tel Aviv. The new missiles going to be used, it takes 3 minutes. Then, you can see the mayhem.

There is another thing which you have to be... military analysis like us, to analyze everything. We use, look at pictures, we look at it different. Like the pictures, if you remember the world leaders, I explained to you how they stand. You see in some of the videos we see from Israel, couple of nights ago. (3:32) You see, they say, we shot them down, and the people don't understand. If you look detail into the missiles which come over to Israel, they have a system which they call the Scud missiles and the 'Iron Dome' things, they shoot all these things, anti-missiles, to get them down. And they claim to their people that, these missiles brought down, and you see. And usually when you hit them, you see shrapnel's spread off the thing. But, this time they couldn't hit them, they come with the Supersonic. And then you see a cluster opens up, Israelis claiming that they hit the missile, but no, these missiles are cluster missiles, when you see and you

think that they hit it, it actually, the bomb itself opens up to 15 heads. And then, if the cameraman keeps the camera on it, you see the shrapnel's, they open up for a few second, they hover, and then they zoom down to the ground. And the shrapnel doesn't behave this way. And then you see explosion on the ground. These are not shrapnel's, these are cluster bombs which is developed by the Iranians, and for the first time tried the last time.

We are military analysis, we are nuclear analysis, we are... we are deeply involved in bringing peace, but we have to understand the tools of war that we know how to bring the peace with it. But if you look on all the new especially the what you call, nuclear warheads if it gets involved it'll be much worse than this. And we have to bring, we have to bring to an understanding our governments to stop this mayhem, to stop this mayhem and there is no choice if Israelis hit Iran, there are numerous weapon technologies which are not in the hand of the West. (3:34) No nation has a hypersonic working, hypersonic warheads except Iran. Even the Chinese don't have it in their arsenal yet. And these can create mayhem. Why are we fighting for?

I advise the Iranian government extensively with the night before this to withhold, let's talk. I think even my neighbors could hear my shouting and my argument with the officials. That we cannot go, we cannot fight, we cannot destroy. And destroy what? A nation, thousands of Israelis were killed because of this man running for his life, a coward? This is from his... nobody close (to him). You see even his bodyguards don't believe in him, they put him (video) in public. His officials, these are the people who are closest to him, running and they posted it. This is... these are bodyguards showing a man the way he runs. This shouldn't be in public, even his own people are fed up with him.

And we've seen this in all the world leaders. I asked for past three, four weeks I stopped people who are close to me, they know I stopped everything, my work, my time, my strength, has got into convincing, trying to get the Iranians. We played, we went, but getting more, being more. And the biggest problem of us is some of our own ministers working for the Americans. Some of our new ministers have two American passports in their pocket. (3:36) And some of these ministers have gone to the cabinet, blocking my opinion of peace talk. Going with documents into cabinet, into meetings of government, convincing them that we don't listen to Keshe, we don't, we have to overwrite him. When people attend cabinet meeting, ministerial meeting, with documents trying to block advice of peace, it means they have already been bought. They know the consequence of these attacks, they know the consequence of war. And, trying to block, advise, this advise to bring peace, to create war, in just coming back of the meeting to New York, it tells us what it is, we are not fools.

We have Jewish people, in the name of Iranian, working for Israel. We have Lebanese and Palestinians, in the name of Iranian, fighting, warring in Lebanon. We have them instead of fighting for themselves, over their ?? roads to our Nation. What reason for? And this is what I don't understand. And, the calamity is beyond, now if these people go to the next step, now is a point of survival. Israelis are told by the Americans about, Biden has told them do not attack the nuclear site, Iran is in position of nuclear warheads,

would have they developed to the point of application and delivery? You think they're going to ?? say it? Ayatollah Khamenei in the speech past 48 hours has explained something, if they touch by this weekend there'll be no State of Israel. That's the word of Ayatollah Khamenei. (3:38)

Tomorrow he's giving a talk on the Friday prayer, which is very unusual for him to do. Very rarely he does that. And we know the content of the speech. We are aware of the contents of the speech. And it'll not be good, it's not going to be good if we go and if we reach to that point. If Ayatollah Khamenei of Iran, tomorrow, issues the ?? (holy war) on Israel, by Saturday night there will be no State of Israel. This is my biggest fear and this is what I fought a long time with the Iranian officials, to stop this point. But you have to understand, Netanyahu wants to complete this before 11th of October, or by 7th of October, celebration to hit Iran, anniversary of the Gaza. By 11th of September, oh sorry, October, by 11th of October, is Yom Kippur, is another day of war for the, for the Israelis. Somewhere between 7th and 11th they want to do, but Iran won't give them that chance, if they move. And my advice is to both nations to step down and I advise the Iranian government. We tried to reach to Netanyahu, he's totally blocked, he negotiates with anyone but Keshe. Okay, your destiny is written by your own, the way you're running like this. We saw what happened to Hitler when he ran like that, we saw what happened to Gaddafi when he ran like this, and then we see what's the destination of this man.

I advise Iranian officials at a highest level. My verdict was taken to the meeting of ministers, and one minister is totally American, came up to reject it. (3:40) Then you understand at what levels we work. We work on the dimension of the peace, we work on the essence of creating condition of peace, and it's our job to do so, we have the technology. Nuclear weapons are obsolete with this new technology, absolutely obsolete, but the funniest thing is, our Knowledge Seekers said very beautifully, Israeli created a, what you call it, Iron Dome, and on Friday, we saw the iron is rusted and over 400 missiles hit the target. There is no dome and this is the fear of Israelis, they have no more dome. What they were so proud of, now is non-existence. You got to understand, hypersonic missiles travel at Mach 25, 27. We have no technology to stop anything over Mach 5 and 6. Israelis claim they have Mach 22 deterrent but it's just a talk and they still got another 10 years to achieve it. But what we see is, missiles coming at Mach 25, there is no trace of it. There is absolutely no trace of the... even detecting them.

So we wait and see if this man still runs for his life, or as we say, his missiles got his name on it. You saw one of the most shameful things I ever seen from another bunch of these people was the week before in New York, which is the pattern of the same work of the same people, is... if I can share it... I feel as a man shameful to be a man and in the clothes of the man, (3:42) because what you see here, is so disgusting, is so beyond humanity, that I don't think... the name of a man, for this man deserves to be a man, called a man. It's the most shameful thing I've seen ever in my life, and I'll share it with you, you understand it. When a world leader, supposedly an animal, what I call, beyond dignity of the man, signs bombs to be killing, go back to what I said, the man who makes it, his children are responsible for the man who designs it. And this man, Ukrainian

leader, signing his name on a bomb who's going to kill people. It's shameful. And this is the most shameful thing a world leader does. A world leader should be a man of peace, to create peace. Signing bombs to be sent to kill, has my signature on it? Give him a gun and send him to the front line and see who he signs his own gun too.

This is what I said to the Iranian leadership and the Iranian government for weeks. We have technology which we can nourish, share and bring with other governments for the prosperity, not for killing. (3:44) And this is what you understand the teachings are from, not only to kill an animal to eat, but how to kill the others. A comedian has taken the world as a comedy ground, he thinks in a theater, and he's banked over 15 billion in his private account. This guy signing is one of the richest man in the world at the moment. And then you sign a bomb. And you can see his audience. Then you understand how much work still needs to be done.

Q: Mr. Keshe sorry I didn't mean to interrupt but my battery is about to go and I would just like to say Mr. Keshe thank you for your answer. I really I wish that what you were speaking about earlier where you can take the Soul I don't want anybody's Soul to be taken, but to elevate the Soul, so that they walk away and become peace.

K- ?? If we were going to take the Soul, we'd done it a long time ago.

Q: Yeah, I know you...

K- We bear with it. We bear with it that he finds elevation, and finds his own position. Let's see what happens.

Q: It's time for peace Mr. Keshe. It's time for the energy of peace Mr. Keshe, that you've been speaking about. Thank you so much for...

K- We have built the system, we've tried it today for the first time. Let's see.

Any other question?

K- ... Would you'd like to change the screen. (3:46) It's shameful to have this man on this picture.

R: Sure, yes.

K- We show animals turning apart each other on four legs and we show man with two hands, like an animal, two, standing, two legs and tearing other people's life with his hand.

Q: It's absolutely disgusting, I'll be honest with you. It made me wet up, it brought water to my eyes. To see the arrogance, and the sheer ignorance of his own existence. To sign a bomb. What an asshole. Anyway, what you've just spoken about over the last segment, actually brings to my mind a question that I've had sitting around in my question list for

months now. But after what you've said today, I feel it's quite appropriate, at least to myself. And it goes a little something like this. You mentioned a long time ago, Mr. Keshe, in a past teaching about a race of universal family at war, the entire planet and war split into two opposing sides and this race had developed weapons so advanced they damaged and or destroyed the Soul, the energy centre. My question is, do the Souls that took part in that planetary war, in one way or another, did they all go back to the beginning of Creation, like murderers, in this dimension of matter state Blue planet Earth? (3:48) Thank you Mr. Keshe.

K- One day I'll explain. Let's see what a man does to himself. One day I'll explain exactly what is the outcome of this process.

Q: All right. With that in mind, maybe I am allowed to ask you one more question. The energy burst from our Sun, that happened on the 12th (23rd) of May, that you'd mentioned recently, you said it might make humanity more peaceful, but it also might make humanity more violent. Why would it?

K- Elevation, elevation always goes the positive way.

Q: So it's unlikely to make humanity more violent?

K- No way.

Q: All right, and that's beautiful. Thank you for answering my questions this week.

K- Thank you. Shall we call it the day. We've been going on for quite a bit. Or if there is any other question?

R: There's always more questions Mr. Keshe but you're right, you've gotten more than double, triple over time here so it's been a very intense and wonderful workshop. Thank you very much.

K- We'll see if next week we can bring a new dimension to the teaching. But it was important as part of the last week teaching and the week before to come to this point and, as I said, there's much more to understand about the process of man connection to himself. (3:50) And I hope we reach to some point of understanding in totality with everything else. And those of you who join us on the October session, I think you'll have some amazing time with this process. And let's see where we can go and how we can go with it. Thank you very much Rick, and thank you very much Rafael for backing us up during the time. And for everybody else in the background making these teachings possible, to share knowledge.

R: And speaking of background our background image today is actually a picture that I took of a flower, or a series of flowers that I've been growing, in the last couple of months. And this flower was my mother's favorite flower. as well as a good friend I know, I found out that that's her very favorite flower too. And the flower is called

Cosmos. So, I fell in love with the name and decided my sister had sent me the seeds. And you can see the seeds are just these tiny little slivers of brown, on the edge of the... of this flower image here. And those one little tiny seed will make this huge plant, that's couple of meters tall, with these incredible lovely flowers called, 'Cosmos', and I thought that was appropriate. Thank you very much Mr. Keshe for a lovely workshop here. And, thank you everybody for attending today's five hundred and fifty eighth Knowledge Seekers Workshop here on Thursday, October 3rd, 2024. (3:52) We'll have the complete Youtube, the Youtube was partially complete, but it was missing the first part of the teachings, so that will be re-uploaded, later today. And also the Vimeo recording will be uploaded as well. And I think Mr. Keshe wanted the reports from people, how they feel through those recordings. As well, is that correct Mr. Keshe? Maybe you're not there anymore.

K- Yes, if it's possible. If it's possible, yes. We need... because your feedback allows us to, what you call it, direct our research in a given way.

Something which I forgot to tell you. We have, with the new technology, we have rooms for new cases for the Wellness Center in Germany, to consider. It brings new opportunities for our doctors to test their, what you call it, dimensions and abilities. So, if there is anything, especially conditions, which are needing other things, that you can like to speak to, our, what you call, doctors in Germany, that they can consider for further, what you call, research and development, for us to see, if we can bring our work much closer to completion, in all manners and ways, for Wellness of the man and feeding of the man. It'll be very interesting to see people who suffer from malnutrition, for them, they'll be interested in seeing that, as well as any other condition, to expand the knowledge. Thank you very much. And see you hopefully next week. (3:54)
