(Quick Index 18 pp , , Topic Index ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

How Soul works in lives; Fed from environment - like Earth fed from Sun - from galaxy; Humans think separate; Connected to everything; Humans from other part U; UN traced human single Mother gene - same in U - everything comes from Creator; Blacks evolved into brown then white - DNA shows; Trace where Sun comes from; Soul adapts mutates - new P; M field penetrates through wavelength; Everything gets recycled - fields; Cu create 2 brain lobes; Most have single brain - absorb energy from U; Twinity structure of interaction; STC Twinity with Mitra; Earth not Twin - Sun has Twin; Always give and take & extra energies added; DNA not to STM - RNA part of STP; Intermediary translates between; Every cell communicates indirectly with STM; Not see in P - feel with Soul; Aware of what happens around us; Feel totality of energies - not just emotions; Drink Gans water - connect P to STP - balance what STM wants to do; Ask pear - receive more energies; Few blood vessels top of skull - STM escapes; Remember dream; Blood vessels circle Earth - connected; Take from every point in U; Work with field strength; Creator shows way through Messengers & Soul - Connected to everything - work with fields; Unicose like 1 string rolled up - STC - crossing points galaxies - all connected to RNA of Creator; Common Denominator field strength; KS transmute without system; Strands of string connected to everything - sheep's wool; STP in heart - M fields strength from whole body constantly flowing - strength varies; Gans is living changes emotion - connected to one who makes it; Body is Gans mixture; Soul changes P; Teaching on heart - Duct Arteriosus - closed; 4 chambers evolved into single heart; Heart M field generator; Gans change M fields in heart; Every cell has P and Energy; KF patents open to public - translate for yourself - don't publish - damage T - wrong understanding; Distinguish between dreams - ones from Soul; Try to analyze; Nightmares; Words mean; Lucid dreams; Dreams are reality of Soul; Love diminishes over time; Denied emotion in symptoms; Koran - light within light - plasma within plasma; Seeing light; U Prophets - light as Creator; Holy Books tried bring equally; Royal families - mafias; Work with fields - own understanding; Spherical magnets not flat 2-D; harmful Gans; Took lead out gasoline - Gans change brain; Match field strength - get addicted - different types; Confirm Existence; Twinity Gans instead alcohol; Awareness inside dream - exist both D; Solve problems in dream; Play with fields

## **Topic Index**

Introduce new topics over years - then give details; Exploring work of Soul in our live - how its connected; RNA and DNA dual carrier of communications between P and Soul - most of energy comes from; Not here on our own - continuously getting fed from air, water, and food to survive; Same way Earth fed by planets and Sun - mother; Sun cleans our waste - gives new energies; M and G; Whatever we don't use comes out of body as waste; Same process between Sun and its galaxy; Everything is connected to everything else; Humans self-centered - think we are separate from everything else around us; Time for science to open its eyes - Micro is in the Macro; Humans ignore what doesn't fit to

our liking; Everyone else can see where humans come from in U through DNA of our Soul; Like DNA test to confirm; UN traced back how white man came to America; Blacks migrated through Straits of Hormuz into Europe - evolved from black into brown - then white with blue eyes; Africans who fly to New York don't have evolution in their bloodline from DNA; Process of migration same in U - trace back where our star came from - DNA connections; Where galaxy came from; Need this knowledge to know possible places in U to live; Soul has to adapt and mutate P to new conditions; Lose some field strength - gain others - field strength already inside us - where we tap into; STM on Earth won't be exactly same as STM moved to planet Zeus - DNA connected but Soul adapted and slightly different; Evolution of man on this planet is replication of what happens in Unicose; UN did 10,000 blood tests across the world - found everyone comes from same bloodline of a single mother - common gene mother; Trace STM "bloodline" by M field strength; H connection line has slightly different strength, wavelength, shapes and conditions; To penetrate something need a frequency or wavelength; When M fields hit something - wiggle to penetrate through cells; Otherwise field continues on; See field strengths of stars, galaxies, universes; Everyone comes from one Mother on this planet - color & race don't matter; All are made from same Creator; Creator is like a string whose essence feeds all of Creation; What feeds the Creator and our Unicose; Have to become enlightened by Knowledge of Creation; Everything gets recycled - we feed cow - what cow drops feeds crops - around and around; Same process in World of Creation and U; I made man in the image of myself; Because we see jealousy - is God jealous; Or did the man himself make this from his own environmental conditions; Cu creates a brain with 2 halves; Many races in U have single brain lobe - don't consume other Beings - absorb energies; Become like Black Hole; See balanced structure of Twinity - Infinity Loop interaction between two plasmas; STC has Twinity - Mitra; Means we always give and take; Need somebody to give to - they receive - then we get something from them; Other energies add to process of Twinity; Earth not Twinity - but Sun is; Earth gives and receives from planet & Sun; Same process between heart and brain - even emotions have good and bad; Same with whole structure of life in Unicose; Always extra energies are added & given to; How does RNA give & take from DNA; RNA is connected to STM. DNA does not speak to Soul - has wrong characteristics in field strength; Collection of entire work (of body) is STP - communicates with STM; RNA is part of STP; Need to have intermediary - like a translator; Every cell communicates with Soul - but not directly - aware of its existence - they go through boss for P - which is STP; Difference between P, STP, and STM; STM is intermediary between P and field forces of U; Cannot physically see what is happening to child on other side of planet - feel it through Soul; Understand how STP and STM work; Connect through STP to feel emotion in P; STM is for Universal connections; We have to know everything happening around us; Become aware of our capabilities - what we are connected to & what connects to us; Connect to all of life - I made man in the image of Myself; What we feel is not just emotion - totality of energy fields in U; Connect O to H or create COHN to connect to our P, STP, and STM; Drink Gans Water connect P to energy fields of Soul - to STP - effects rest of body; Not from Gans - from energy of STP; Has to balance with what Soul is trying to do - otherwise won't change P; Doesn't mean not working - energy needed somewhere else; Gans satisfies what is short in body; Gans Water has own STP; Intention when make it - understand overall conditions; Subconsciously do when go to shop to buy food - feel it

first; Learn how to work with feeling our energy - make adjustments - part of structure of STP; Ask pear what you can give it, so that it will give you pleasure of its existence; Receive its beauty before take it home; We have not understood this; Pushing you to understand in new development of T; Tomorrow's Monthly Flight session - hold Gans CO2 and Zn in hands; Right hand is giver; Use Cosmic Ray Communication Bundles, UBESUS Units everything else; Put CO2 bottle on top of units; Sit above MaGravs - give & take energy; Connect to fields of Soul - and others - enlightenment you'll receive; Talks about Soul and graphs; Vertical D of Soul; Can tell where Soul will manifest itself in P; Blood vessels at top of skull very few - Soul can escape; In dream STM goes out skull - connects to rest of U; Remember which side lying on when wake up - sit quiet analyze dream; Can see future events; Vertical People sleep upright - Soul in roots; All blood vessels and neuro system in body - can go around Earth 2 to 4 times; How we are connected to every point on planet - feel child on other side of planet - all blood connected to a given M field strength - how cells feed themselves; Same we take from U at every point - make connections where needed; Graphs show physical life through vertical line can transmute and take P with; When P, STP, and STM one line - means transmuted - everything is together; When someone too physical - anchoring all of us to P - because all are connected; Every piece of T - bring us closer to understanding own creation; Understand process of fields - not physical arms & legs; Find out which field strength will give you what you need - give away field strengths don't need to U; Watch when grandfather cuddles his granddaughter - observe flow of energy; Two people in interaction are recycling their energies - confirming existence; Blood vessels brings everything in; lay with partner side by side - feel Soul; See where you can bring balance - process of RNA and DNA; Creation is simple; Man made difficult - never understood real process; Understand about the field connections; don't need to hold grandchild's hand to confirm love - transfer every emotion it needs; Connect to our Creator through emotion; He shows us way through His Messengers and our own Soul - we are connected to everything; How the perfect position has to be; This is the DNA and RNA; Get closer to understanding our own life - how we effect other's lives - how they effect us - even thousands of miles away - in another galaxy; Structure of fields of U like very big ball of yarn - a single string rolled up with twists - knots - crossing over each other; Whole ball is Unicose - string is STC - love of Creator; How we are all connected to each other - it's all same string; U is a crossing point of string; We are all on one long string of STC; Crossing point are galaxies; All comes from same Source - RNA of Creator; Who is holding end of string; String itself is made up of many strands - not just one string; This is source of Creation; My image is what I made from interaction of the fields of Myself with the others who are also of Me; Hope you understood how you're connected to everything; Understand where is God, or my Creator - follow string back into center of ball; Other way - more Creation to come; Crossing of string is creation of life forms - plasmas; Truth about how we and U is created; All have one common denominator field strength; Trace all life in Unicose through H back to same mother; Today we have brought together all the other teachings - made connection to bigger picture; We should be enjoying beauty of the varieties and feeling the different emotions of the whole of Creation.

Feel physical emotion - connect to; KS can transmute without the system; Still have to manifest P; New ways to use fields of body - won't need us - Passengers of U; Transmute without headphones - can do; Clearance from Iran not received - all flights to Iran suspended because of political situation - hope KF will be involved to end this mayhem; Show how T can bring peace and change; STC connected to everything like ball of string; Inside string are other strands - connected to everything; How you want to perceive and understand it; STP is (around) heart - different field strengths stream into heart from all over body - strength continuously varies; STP interacts with all structures of body - pumping of blood - and interacts with fields outside body; STP feels wounds, or touch of lover, or pressure of anger of your partner - transfers energy; Everything connected to STP which is connected to STM - interact and feed from each other; Test how STM can change STP and P - find right field strength; Touch a Gans their emotion changes - feeds STP; Emotional reaction between two Gans; Your AA connected to Gans when you made & handled it; It reflects you & your emotions; P, STP, and STM are all connected - even when away from system; We are like 100 liter bottle of Gans mixture - skin is jar; STP is interaction of physical environment with what's inside us - how we connect to others; I made image of myself in Gans jar - I can see how it interacts; P shows changes in color from emotions; Soul causes P to change; Everything is moving inside Gans jar - see its heartbeat - has a Soul and life Duct Arteriosus closes at birth, stays closed; Medical information; 4 chambers each have different pressures - different functions; During evolution there were 4 different systems - blood - lymph - and 2 others; Time of mammals combined all 4 into 1 heart unit; Every time heart contracts - sucks fluids from blood vessels, bone marrow - into certain chambers; How heart circulates fluids - needs certain pressure and M field strength to do its work. Don't just consider the heart as pumping blood but think of the M field strengths generated - interacts with Gans's of body; Can put different Gans's on heart watch reactions; Machines that take pressure off heart to repair itself; Be careful using Gans's around the heart - have to know what you are doing - nobody trained enough to do this; Can change M fields of blood flow inside heart with Gans's - should not interfere with physical part - two different things; Every cell has both physical and energy part; If cannot get P part to work - try with emotions; KF patents are open to public - but translating it into other languages is a different story; Very difficult to translate knowledge of patents - it's not using the correct words - it's by knowing the essence of the meaning; You can translate for yourself only - do not publish - can cause damage to technology by bringing total misunderstanding into it; People will say Mr. Keshe said this - but it doesn't work - accuse T to be wrong; In the future when KS have more in-depth knowledge translate in groups; English lady who translated Book 1 did not know anything about T - totally changed meaning of what she thought she understood; Couple who translated Book 1 into German were very precise because they were scientists; Mr. Keshe spent many hours making sure the language of patents was precise; Patents are open for independent investigation by every KS - not for a translator to write only what they think they understood - could be 100% wrong; Learn to understand dreams and distinguish what is the STP and what is in D of STM; Don't be afraid of nightmare - find out the source of it; Most dreams connected to physical life - chit chats; Distinguish between STP and STM; You're responsible to educate yourself to know the difference; Learn how and why you dream; Some dreams take hundreds of

years to become reality; Are they prophetic dreams or the Souls confirming a change is about to come; Distinguish which is dream and which is interaction of fields of STP - or interaction of STP with P - or STM; STP & P end up kicking and shouting - rapid movements; STM dreams have very subtle movements - communicate with eyes - feel depth of connection; STM in middle of head under open spot on top of skull with few blood vessels; STP has little access to top of head - no blood vessels; When wake up remain still - feel essence dream; Prophets received messages from above - interaction with light of STC into STM - saw light; Nightmares have different reasons; Why don't we call nice dreams as nightmares - what you cannot accept; Discussion about how English word emotion came about; (We went over this in detail a few months ago in a Quick Index - actually it's a French word - English copied it - at that time people were not aware of emotions as we know it today); Robin Hood meant literally "robber dressed in a hood," as he shared his loot they made it something positive; (Languages like Sanskrit convey very deep spiritual meanings both through vibration and words); Lucid dreams means being able to interact in your dreams - like reality; But dreams are a reality - don't want to accept them; Reality of life of your Soul; Without Soul can't exist; Describes how love diminishes in relationships over time; Try to continuously confirm love - doesn't have to diminish; Denied emotions reflected in body symptoms - confirmation of true problem; Black out while experiencing fields - consciousness is still there - concentration of fields in blood caused disruption; It's not elevation, it's receiving what you need - you have to understand what you received - how much of it you want to keep; Quote from Koran about the light; Different lights come from interaction of the fields; The string is STC - creates light; Light within the light are like plasmas within plasmas - STP interacts with STM creates a light and STM interacts with STC - light within light; Both lights exist within each other; Start seeing light with Cosmic Ray materials; Holy Books were written only way man could understand these things; Now we understand physics - translate more of the meaning; STP interacts with Soul of organs - create light; Not mystical anymore - interaction of M fields with each other; To see that light plasma has to be transparent instead of solid ball; If strength of fields of STM are same with STC - imagine level of gratitude man has achieved; If light of STP with STM as bright as Creator - station of Universal Prophets - their light shines same as Creator; This is meaning of the light within the light; It's not about us adjusting the words to fit our understanding - it's understanding truth about Creation; Plants have a Soul; A stone has a Soul; Even grain of sand has Soul, otherwise couldn't keep all other energies in it together; Muslims carry a "prayer stone" to pray on; Stone that gives elevation can be used to stone a man to death; You choose its purpose; Koran quote says no difference between the other Prophets and Holy Books; Differences came by who could make money - Holy Books tried to bring equality to all - just different languages; Civilization is according to understanding and our own ethics; Royal families - highly educated - but inside their structure - biggest mafia's in world - worse than mafias who have some ethics; For training to interact with the fields - all one level - goes by your own understanding; Fields behave the same - we create differences to get pleasure from them; They are entities like you; Practice with spherical magnets hang from string - not 2 dimensional flat magnets; When bring in limitations create prejudices, dogmas and things follow; Be open minded with this T; Certain things we know will bring harm - Aluminum Gans; If you play with them end up in mental institute; Reason lead taken out of gasoline;

Burnt Nano coating but Gans of it interacted with brain created new conditions people suffered with; Further teaching about addiction - CH3 also C15; Get addicted to high emotional outcomes - connected to H; Connect STM & STP according to energy which matches strength; Alcohol creates matching Twinity field between certain emotions and P; If don't match - don't touch; If take drugs out of fear - have to live with demons in ourselves; Distinguish between types of addiction; How much energy it gives us - emotion it creates; Sometimes part of gratification of the fields; People destroy their lives through addictions - satisfies a field strength they need; Get drunk to forget pains of emotions - cannot handle in physical or emotional life; Use addiction to confirm existence - part of the human race; Twinity Gans's help in respect to emotions and confirmation of addiction; Instead of alcohol take a few drops Gans Water - satisfy your emotion; About becoming aware in dream state; Nothing is happening - confirming you exist in both dimensions; Before you denied Soul - now confirm it; Exist in both worlds - can ask Soul to solve problems in P; Soul & P are here to save each other - coexist - gives freedom and options; There are people who can do it; Soul comes up with 100% correct decision - you take the action; Tomorrow's session will be fantastic - bring 3 headphones - UBESUS units, Cosmic Ray Bundles or whatever; Hold Gans CO2 in right hand and Zn in left; Time to start playing with fields and understanding your own limitations - use energies to transmute; Didn't have strength to transmute; Systems now can support long term.
