Jon Bliven passed away; Solid supporter of KF - tells about his life; Where do Energy of fields - linked to STM - come from - go to; Musk failed at landing rocket back on pad; Americans never accept failure; No advancement in T since 1960's; What if STM landed in wrong place - what to do; Or transmuted not back to body; How would we bring you back; First plasma targeting beam - create tunnel - transmute through; Aim beam at Moon - transmute through plasma tunnel back & forth to Moon; Transfer body within plasma beam; Have the T - KS have to understand; If target Mars - don't want to land somewhere else; Transmute through energy channels of plasma - system size of shoebox - not a dream - have T; Have to have Correct understanding of Light - for plasma laser science; Man is misguided about light - accepted fallacies; Light is part of M fields; Scientists say light cannot bend - it bends supernova; Only way light would not bend - if no M fields in

environment - U is full of M fields; First teachings of KF - contradict present knowledge; Draw plasma as spiral; M fields of Earth do not come out in straight lines - they are dynamic - spin; Change mankind's understanding of M fields; Light is made of M fields - bend - U works on a spiral of M fields; See as straight because length of arc of bend is longer - can't see bigger picture; Part of light on arc appears straight; Plasma Physics contradicts today's Physics; World of Science needs to reassess - redefine things; Light straight only applicable to matter state under given conditions; Another controversy - believe light travels directly to us on straight line; Wrong; There is a spectrum of M fields that comes with it - we see only matter strength of star's light; Plasma has spectrum of M field strengths; Are we seeing light from a star in a true straight line - or part of spectrum of horizon; This is why man cannot travel depths of U - needs rockets - nuclear fuel - only thinks of matter state; Our Space T create two dimensions of travel - matter as a straight line - plasma on spiral; Even though longer - shortest in time; Straight matter light takes hundred thousand light-years - plasma only a millisecond following spiral; $E=MC^2$ is fallacy of assumptions by fake and most stupid scientist in world; Too many different factors involved; "C" or Constant Speed of Light does not exist in Creation - man-made measure of own observation; Does not apply to U; As Peer Reviewer Einstein evaluated patents - stole from others - had to make assumptions because patent applications proved he was wrong; Blocked Science from going forward; Leave Plasma Science with those who understand Creation; STM travels U in an instant - based on plasma - works by desire and emotion of fields of man; We choose which spectrum of field strength to travel with; One man's stupidity became Man's downfall in understanding Creation; Explain how to travel to any destination in U - not on straight line; Field transfer through plasmatic M fields - highest speed - how Inertia and gravity created; Humans not understand science of Creation; If no spectrum of M field - all would have remained stuck to Creator - no U; Fields of Creator do not emit on straight line - spiral - His diversity and rotation creates interaction of fields with themselves - by themselves - creates diversity; On back page of Book 3; Leads to creation of Creator; Make assumptions when don't understand; We believe in those who have misguided themselves; Question even my teachings - understand it yourself - find own limitation then comprehend; When you don't question - as good as a dead man; Knowledge comes from questioning the Creation itself - when find solution - enlighten STM - extend Knowledge of Creation; It's your responsibility to understand the true meaning; Not your responsibility to teach others - because your limitation becomes their limitation; Why do you do meditation - align energy fields of body - elevate STM - purpose of meditation - not just to think you are free in open space; Meditation on science & understanding World of Creation gives access to Universal Knowledge - understand Science of Creation; When you claim that you have understood all of it - point of your demise; Deliberately misguided by those put there; We accepted light travels in straight line & age of U at 4.5 billion years old - could be 13 billion years and it's bigger; Age and size of U based on Einstein's fallacy of $E=MC^2$; Light doesn't travel in a straight line across U; Can't calculate size & age; Traveling in a straight line in transmutation is not possible; Depends on strength of STM - strength of purity of man's service & what he gathered in life - and what strength field he decides to travel; Is he closer or further from Creator; Holy Books say this is Heaven - other side Hell; Plasma fields of U are limitless; Limitation is our own understanding and comprehension of Creation - not our educators;

U part of spin of Unicose; Any Soul in any D can travel to Soul of Creator (STC) - not just Soul of U - as man thinks; My servant has a servant, who has a servant ... ; Teach how to travel in straight line to STC; For STC to expand - needs to have a feedback line - knows how much has expanded - we call it gravity; G field forces of plasma is different than G field forces in matter or Inertia; G field forces of Creator - so low - attracts everything to it - Black Hole (BH) of Creation not U; BH of our U - within BH of Creation - essence of creation of U; Man has to unravel truth about his own creation - then travel through Creation; H - C interact creates C60 - confirmation of existence of U - this U can be your P, or Unicose - depends on comprehension - explain in more detail; See where you fit into bigger picture; Will wonder how to go to Creator directly - but still travel U and create life; Everyone has access - but very few will ever see this Light, or direct line to Creator; Everyone stuck with strength of fields they can gather for themselves; Knowledge of man has to be complete in its totality - understand own creation of Soul & P; Understand true science of Creation - not what he makes fit; Always stay open to understand more - if draw line - stop there; Listen to last 3 teachings - fit together as a knowledge; To transmute have to understand bigger picture; In Creation have to understand emotions - stuck in matter state.
