Topic Index

Summary of last few weeks - how U works - structured - moves; Every particle - Being - skin is dynamic - cells continuously in motion; Objects in Space in motion; Origin of U is a M field - Fundamental Particle - Fundamental Plasma - call it God - no difference; We are within a sphere - M fields embedded in it - interact with themselves and expand - gather - create boundary; Unicose makes room & sets limitation of how much U can grow; U starts with single, or combination of M fields - interactions (with itself) create a structure for life - can be U - galaxy - planets - all of life; Creation - simple process of M fields interacting with itself - creating all life in U; All started from one field, or one ray - creates all these combinations and structures; Creation is simplest thing; Need M field in motion - it evolves; M field line start crossing over itself - creates whole U; Crossing points are plasmas; Field residues create plasmas - all of life; Field in center is continuous and feeds the others - creates life - created from residual leftover fields; Center of U - same as center of Sun - galaxy - everything; Same structure again and again; Scientists never understood - simple fact of creation - two M fields interacting; They don't need to physically touch each other - just come near to interact; Not matter which way moving - because they create residue fields that interact with others as they cross over them - crossings create plasmas; Same process how U - galaxy or cell in body is created - how

kidneys are positioned - everything else; Womb becomes limitation of interaction of fields - becomes fetus - dictates what field interactions it will have with outside - how man will manifest; Scientists don't look deeper into how all galaxies have same structure; Mirrored in body of man with arms & legs - kidneys & eyes positioned; Same pattern - galaxies have to digest energies coming from U - store them - needs something like a liver; Happens through parallel field interactions; Some part of galaxy behave like kidneys; Our U started as energy package in Unicoise; M fields in motion that has led to dimensional motion of this field - absorbs energy from Unicoise creates life - our U; Same thing happens in womb of mother - introduce a seed - mother adds energy - cycle of life starts; No difference; Our U is continuously being fed like umbilical cord from Unicoise - energy in and out; STM does this when we dream; Nothing special about the man - made same way; Totality of knowledge comes from understanding how fields interact - single line crosses over other parts of same line - starts life as plasmas; A single ray through its motion creates a confinement or environment within itself - directional motion; Coming in close proximity to another line is enough to create a plasma; This is Hydrogen (H) - crossing points have common denominator strength are C14; When creates a volume is C60 - an entity; This is the Fundamental Element or Energy - what creates everything; Understanding process of Creation - gift of knowledge; It's not about electrons and protons - but energy level - creates the H and C14; Confine C14 within another D of fields - becomes C12 in womb of the mother - creates life - it's fields within fields; C60 gives volume - creates separate entity - U or skin - no difference - same process; C60 confines and confirms existence; H is Fundamental Energy through its motion interacts with itself on its line of travel - that is the 'line of communication' of C14 - these intersections become separate plasmas; Structure they create is C60; Everything comes out of same single Ray - interacts with itself - friction creates plasmas and life; How everything is created; Cornerstone of understanding Creation; C14 converts to C12 makes matter state - becomes a human - in environment becomes elements like Cu, Zn and rest - objects; Once man understands - do everything he could ever imagine possible - knows source - becomes a creator; He decides on manifestation - fundamental decision maker of how energy will manifest itself - interacts by itself - and the rest; To travel space have to become aware of energy - detect it - give it visualization; Change field strength to make its P visible; Understand line of communication between entities; Develop technologies; Sensors within STM and P - detect and give it visualization; Like blind man touching and recognizing things; Don't kill and eat energy fields in U - respect & honor its existence; Develop our sense of detection for every energy in U; We do this every time dream - detect Grandma who died 20 years ago - has no P - know her energy & feeling; Brain transfers energy of grandma into physical shape we recognize; Never understood process; Do not carry brain in Space to decipher objects - use field energies within STM for this conversion; Why do we see ourselves with grandma in dream; Means aware of our Soul as energy in our brain; Our own Soul recognizes division of itself; Grandma in D of fields - she's dead; It's same - H, C14, become C60; Physical being is aware of energy - STM - its transmutation; To manifest ourselves physically have to understand Totality; Knowledge is within us; In dream we see ourselves physically moving - body is still asleep in bed; Children of Mitra able to make energy of P part of energy of Soul, instantaneously; Because they were created from Soul first, then P; Once you transmute - understand about life in deeper way; Essence of life is energy

transformation and transmutation - rest is mechanical; When dream of Grandma not physical condition - she is energy; Brain converts energy fields to what you recognize; Why when dream & and Grandma stuffs you with food (energy) in D of Soul - you still feel hungry in P; Have not converted the energy to D of P; Knowledge goes from Book 1, 2 and 3; Secret of Promised Promise - go from matter state to energy - to any D; Starting from energy is Creator - matter is you - can become part of Creator - no difference; Lack of knowledge and understanding; Last Friday's session received energy of a fruit - you transmuted it to taste in P; Same structure; You tasted same fruit in our system; Means we can dictate what fruit you receive - feel and taste; How we fed people in Palestine through systems - one Soul in Palestine acts as Satellite - feeds the rest; Do not need millions of resources - only one; How Creator works - love of Creator in center - feeds U, instantaneously; Food Gans sent for December Flight session; Feel and taste food without digesting - don't need to kill to receive energy; Bring new emotion to man - killing won't exist - kill to survive & show superiority - all will be superior; Peace will come - man start changing; KS make first step for it; Those born in Space will taste & feel apple - never seen before; To transmute - understand how Creation works; When fed by Grandma in D of Soul - have to convert to P - other half of transmutation; Missed line of communication - C14; Have to recognize power within us - part of KF teachings; Need to tap into Universal Fields with Soul - how energy comes in and goes out of galaxy - same process; Use these lines to jump to another U; Embrace the totality - which is your Soul - that's how much you will expand; Expand Soul over the P - cocoon it - then receive grandma's energy - transfer to P through Inertia of Earth; Tap into energy and receive it; MaGrav is source of energy gave years ago; Enough to live on; Build MaGrav in specific way - becomes a Soul to feed you; Connect to line of communication; Create energy in different levels - dictate what you want - transmute and transport; MaGrav system is the key to your understanding life and Creation in U - your connection to U; Will give you everything you need - look at its energy - the secret; Connect it correctly it will manifest itself as fields - fourth manifestation of man, or Creator; Connects to other Souls - can feed; No difference between MaGrav system & Star Formation - static & dynamic; Why not achieved - never understood process and principle of Creation - you decide where to travel; Will teach you how to combine these - create an emotion - realization of attachment and detachment from every D of your life in the U; Find pathway to your own Creator, in the creation of the whole structure of the U & Unicose;

Part 2
