

570th Knowledge Seekers Workshop December 26, 2024

(Quick Index 8 pp, Topic Index ; Need to do; Key Phrases, Words) (Auto transcription from Elias)

High fever - short teaching - Questions & Answers; T advanced beyond UBESUS - New Headphones do more; Graphs of Soul's shape; Souls react separately to conditions; Analyzes graph - dots; Soul functions like MaGrav; Center Soul "S" energy transfer - to above higher - and below to STP & P; See size of Soul; Show emotion - if ready to transmute; 3-D P comes inside Soul; Same as 3 layers of skin; Convert fields from outside to inside through middle layer; Cosmic Ray material (CRm) put inside Headphones; CRm connects to Universal Fields; Headphones connect two Souls together; About C60 Energy crystal structure - different than matter crystal; C60 like gas no dimension; Depends on container of crystal - fill U; C60 pops up like popcorn; Inside Soul rectangular - outside sphere; Plasma anticlockwise; Genetic corrections through plasma; No more genetic defects - balance; Can change 1 gene number not all; Post Traumatic stress handled through Headphones; Political talks - advanced weapons T disarmed by plasma; Matter not exist in energy state; Space Defense not meant for military; 3 forces to bring peace; KF Space development only alternative to war industry; Biden blocks everything; Ukrainian president 14 billion; Discuss CR material - each has different fields; Same field strength make invisible; Balance outside fields with middle layer - invisible; T for old age - bent over; Be healthy up to 3 weeks before death; Everyone dies on this planet - principle; Hurricanes convert energy; U expands - ends or contracts - energy used to start again; Natural process of fields - not cycles - no meaning; Souls in dying U become Space refugees - some live on Earth.

Topic Index

Mr. Keshe with high fever short teaching; Question and answer session for Knowledge Seekers to clarify their understanding of T; Huge UBESUS have 40 dynamic reactors spinning inside - very loud; New Headphone Units higher T - don't use UBESUS anymore; Headphones used in conjunction with health center of Dr. Kern; Headphones & new series of systems coming out literally target everything; Tested part last Friday first time can see shape of Souls of participants; See how each Soul reacts separately to conditions we create; See shape of Soul - can analyze it; Could not do this before - advancement in T; Now we can target the Soul - as observed in last week's session; Next time can go directly to STP & P - observe how they react - show themselves in this process; Explains screenshot of graph - bunch of dots with particular pattern - only he can interpret; Pattern of these dots - very much like how a MaGrav functions; Top cluster - Universal fields - open up to U - where fields come in; Central part represents STM - looks like 'S' - represents energy transfer; STM connects to STP and P - the bottom line; Can see the size of STM; D of the Soul in a physical thing; Center of graph looks exactly like a MaGrav; Lower part connects to P - upper part to higher dimensions; Balancing of the bottom with top; In another group we saw empty cavity in center where STM should be; Dynamic structure - not static; Comes from right side of brain into Soul - from left side goes into body; We can physically see structure of your Soul and what it is; In future

these graphs will show us condition of your emotion - whether or not you are ready to transmute; We'll see a 3 dimensional zone where P will come inside - Soul ready to transmute; This is scientific data; Same process of jet taking off; Maybe in January Flight session - identify all 3 of STM, STP and P - see reaction; Have advanced intelligence to level - can touch your DNA; This brings us huge advantages; See changes in RNA - change conditions; Means any genetic defect can be put right by balancing fields of genes - without chemicals; Have to mature into the knowledge to do; Through Soul can see emotions of STP; STM works like 3 coil stacker in MaGrav; Soul works like MaGrav; Same as 3 layers of skin - top, middle, and inner layers; 3 layers are about conversion of field strength from outside to fields inside body; How body can withstand environment - how things are passed between the two; Purpose of 3 layers; Same pattern with STM; Can put Cosmic Ray material (CRm) inside new Twin Headphones - open new opportunities - connect directly to Universal fields; CRm is connection to Cosmic Rays and Universal fields; Twin Headphones connects two Souls together - these are two different things; A Twinity is a connection between two Soul - you and somebody else - or your P and your Soul; It does not connect with dimensions and different time zones, timelines, or whatever; Matter state crystals are totally different than plasma or energy crystals (C60); Energy crystals have no dimension - like a gas; Physical gas is in a container - dictates size; With plasma fields dictate conditions and interactions - not physical boundary; Energy in a plasma condition is connected by fields; Matter state crystals limited by physical structure; Energy crystal structure is connected through fields - has no limitation; Higher or lower fields dictates position and size - totally different understanding of the work; ?? size of energy crystal goes according to its strength - could be size of a U as an energy; Matter state - size of diamond on your finger; Energy crystal structure creates a U like a "popcorn" - pops out; More or less same structure; Size and structure is limited to how much energy it has within itself; U has a limitation of its fields in its center - and other fields outside it - dictates its boundary; After field interaction - it expands; It's a controlled system - chaotic way of finding its time, place, and position; On graph would expect Soul to be a sphere - inner structure is not a sphere shape - outer structure is spherical; This is also how Universes are; In all the tests always see a rectangular structure in different shapes - also leakage on the sides; Shape of plasma is going anti-clockwise; Blue and red lines above in graph are genetic corrections which we are now working on; We can test genetic modifications; Human race has genetic diseases - by bringing things into balance - no genetic defects; Have T to repair broken bones & bulging - within 24 hours walk again - no sign of breakage, bulging; No bone deformation; Not genetic modification - it's genetic balancing; If a particular gene number has moved and is causing an illness - can change only that gene number; Don't have to go through all genes in body; Same with cancer - within hours cancer opens itself up; Post Traumatic Stress - now handle with new Twin Headphones - collection of knowledge - see massive results and big changes - going through that phase now; Past few months tied up with governmental work - has been achieved - go for rapid development; Can create Universal fields - on line to Creator; Talk about political situation - doesn't matter how advanced B-52s etc - nuclear warheads - etc with this T takes one second - they are finished; We work on energy level - not matter state of not being detected; Matter state does not exist within the energy states; Create a field dome - not shooting anti-missiles; Two crafts 100 kilometers apart - switch on plasma - disarms

any craft passing through dome - drop like a brick; Most advanced weapons technologies will have no functionality against plasma; Israeli "Iron Dome" Defense more like plastic - everything goes through; We didn't develop this T for military: It's for Space - huge applications - travel through Cosmic dust and M field environments - can balance everything out - not be effected; 3 forces ready to come together - beginning of world peace in big way; American presidency, Iranian space nuclear technology, and finance people detached from other financial organizations - we'll see changes; Instead of fighting Chinese - open the Space - work together; Will come on the International Alliance - next phase of discussion with world leaders - getting written up to be delivered in next few weeks; Have explained it to Trump Administration and Russians; Chinese are a different "ballgame"; Trump is pushing - for no more war - but for how long; Can't close weapons factories unless replacement for the jobs; Need to switch over the scientists to Space development; KF technology will become - Technology in Exchange for Peace (TIEP); Getting planned out - see it publicly; Anything we do Biden blocks it - have power; Have to wait until January 21st; Then you'll see it on public channels; Slowly we're setting it up; If you want world peace forever - switch war industry to Space Development; This is the alternative to war; We'll see how government's respond; New T to divert man from mayhem of war and weapons; It's all of us working together; President of Ukraine asked 9 nations for asylum; He came into office with hundred thousand dollars - now he's worth more than 14 billion - why he pushes for war; KS discusses Cosmic Ray materials (CRm); If fields at same strength balance each other out - become invisible; CRm are all different strengths; Each have a spectrum of fields; No two exactly alike in content, energy, or fields; To become invisible have to balance fields - totally different technology; When balance inside fields with outside middle layer doesn't exist - why become invisible; Middle layer is where conversion to P - become transparent when middle layer doesn't exist - like a MaGrav system without a middle coil; Special and very elaborate T that works; Ali's MaGrav setup did this more or less - hand disappeared; Cosmic Ray material interact with everything - because it's within an environment - spectrum of fields - can make planet disappear; A Star Formation with 4 Cosmic Ray balls might be too strong - depends how you position yourself; Getting old over 80 hardly move around - not with KF plasma T; We tested it - bent over lady became straight within few weeks; Using KF Plasma T should live normal life up until 3 weeks before death - then energy starts running out of body; Irrelevant whether 100 years old; Now with plasma old age doesn't have to be a time of suffering; Tested in conjunction with major company in world - have video of them running; We all die, because that's a principle of life on this planet; With knowledge don't have to be crippled; Pharmaceuticals don't like these technologies; Don't do any exercises - apply Gans's and you walk; Trial so successful the military general threaten us - we'll take our position back in coming time; Hurricanes are conversion of matter and energy - from inner sanctum; U expands for trillions of years - comes to end - contracts - life is extinguished - starts again; It has no meaning - just a natural process of interaction of fields; fields interact 2 ways attraction & repulsion - then depends on strength, sequence, combinations; Man made up Ages for his comprehension; Like children playing sand castles - destroy and rebuild something else with the same sand; It's normal for all Beings in a collapsing U to move somewhere else if they have the knowledge; When we interact with Universal Community we'll see these Space refugees; Just like on Earth when

islands fall into the sea; Space refugees living amongst humans - we don't know they're refugees; They can tell us where they used to live - before it exploded; I was one of them - we're all part of it.
