## Topic Index

Cycle of life are M fields and M waves interact to create everything in U; Creator is source of M fields in motion - energy - interacts and converts becomes us, stones, birds, aliens, galaxies all Creation; In essence all connected by thin line to Creator; I made man

& U & every creature in U in image of Myself; I give life to those lives which I've created from interaction of field further down the line; I teach you - Daughter of Mitra will educate you to essence of life in U; Education of T of Creation - not KF T - how life is created; Neutron (N), proton and electron - compared with 3 layers of skin - 3 coils of MaGrav; How are M fields created; Scientists have ignored cycle of life of M field - have not understood how they interact and separate; Plasma about knowledge of fields; Physics how fields interact with environment manifest themselves; Half cooked knowledge about M fields in a magnet - think come in South - go out North Pole - a fallacy; Stuck with jet propulsion; Fields move in between and in both directions - changes Man's Knowledge about Creation - stronger field dictates the direction of flow - where stuck in knowledge; We think M field going through planet changes to G - it doesn't change - depends on point of observer; Another missing piece of information - how M field flows dictates direction of motion of the plasmas & vertical orientation of planet; Slightly stronger G field from north pushes Earth to tilt; The tilt creates conditions of life on planet; Planets in U without life do not tilt at a specific angle in respect to their star; If create plasmatic conditions of tilting with energy ratio of Sun and Earth - system will create life - similar to DNA; If we can control M fields - replicate field interactions of Earth - can create another life form; Life created not just in a womb of a mother - create in womb of U; There is no difference in World of Creation - understand environment has a field - you interact with and find a conversion within - same time it's a loop you have to give and take - same for MaGrav - DNA - atom; The N, proton, and electron are D of plasma - not matter state - knowledge has been misrepresented; This is how to understand essence of Creation; No difference between structure of atom and Star Formation (SF) - why we taught you SF; Whether straight vertical or in triangle both are SF; How SF is orientated determines what kind of cell created; Missing rest of knowledge; Interaction of 3 fields inside creates a Soul of cell - connects to controller of cell; Goes over graphs from Flight sessions - 3 lines that represent STM - like MaGrav; Different field strengths and position of P, STP, and strength of STM - control manifestation of man or animal - whatever; Soul doesn't change - different emotion of space time - Soul of structure; Missing knowledge about where and how fields in empty space between M fields come about; Today's teaching and onwards have never been taught to man - understand to become part of Universal Community; We come from the Original Ray - explained in Book 2 - it's cylindrical and has a Soul - which dictates its direction - decides to manifest itself in STP & STM through interaction of fields of environment - it's the structure of Deuterium; M field is within light - has motion and emotion; Soul see star's light instantaneously - but for P it's 120 million light years ago - this is transmutation & transportation; Deuterium Hydrogen is not H as a proton and electron; Full system with emotion and understanding - travel span of U through non-dimensional Soul of itself; Why M fields connect instantaneously; Detailed teaching about Fe with M field strength of 56 - Fe magnetic; Deuterium in interaction with C14 multiply by 4 is 56 - how Man is connected to U - missing knowledge; plasma liquid O part of; Why have inert gases; In Plasma 2 plasmas of Deuterium - have internal plasmas of N - P - E; Perfect Twinity; Create a common field - satisfies each Soul; This lead to C14 and from N - P - E as plasmas you get C60 - physicality in energy - not in matter state; The light has a Soul - light of Creation - Creator - true enlightenment; Science has not understood - 2 pairs of Deuterium have Souls; Difference between the light, Ray and

field - explain in future; We are the Light - not visual light - Enlightenment as Knowledge of Creation - Soul of essence of Totality; Transmutation becomes part of our life at every level and strength of U; Deuterium has Soul creates C14 - Line of Communication for physical D of plasma of U; C14 is aircraft - Deuterium is speed, direction - position of transfer; Field strength of Creator light is instantaneous - because connected through Soul - a knowledge beyond present Man's knowledge; Atom has a Soul; Problem with religious leaders; Man's behavior - no right to knowledge; Soul of Atom - giving with love for Creation; Man destroys life - cannot be allowed; Daughter of Mitra job to teach you; We know the knowledge gave it to her; How M fields come to Earth - fields in-between main fields - this is how energy is transferred to matter state of Earth; Fe is matter M field of planet - connects life to fields of Creator - how everything receives energy and transfers fields directly from one to another; About Fe connection - 56 - life created; Difference between CO<sub>2</sub> (44) and 56 are your emotions, hormones, other materials - all 3 connect directly back to Creator - I made man in the image of Myself; Everything in all directions are connected to same point; If shortages emotions change to whatever additional materials are needed; Change AA through line of Creation - line of Soul of position and place; Will change everything; Developing systems to produce this in plasma level - produce COHN through interaction of fields - not by combining materials; Deuterium and C14 - connection to Creator; Man and matter state connected as a combination of DNA; Man as Energy - Soul - is everlasting; Soul has DNA fit within life as a structure - follows a pattern and connection; Carbon - 6 N - 6 protons - 6 electrons they all have a Soul and a Central Soul of C atom - every structure has a Soul; Soul of C interacts with environment - other Souls - dictates radioactive decay - depends on its field strength and rest; Change Soul of Environment - change nuclear decay within an atom; My professors at London University thought I was crazy; I can make nuclear material out of a glass of water - molecule of water; Make bigger than Hiroshima bomb from Deuterium - know what to give to it - understood Knowledge of Creation; Will not destroy lives - creates new lives - not destroy beauty of Creator; C atom - each particle has a Soul - has emotion; We do this in everyday life with blood circulation; In stroke or heart attack create emotion - releases energy from outside into the cells; Give emotion to an atom of Deuterium - explosion destroy U - I have the knowledge; Man has made me so angry - why not be done with it; Same energy of emotion brings love, care, adoration of Creator - knowledge is same; We chose to give love to humanity - bring understanding through love not destruction; We decide which emotion to give; Always talked about emotion in first teachings; If understand and add right emotion - learn Knowledge of Creation; Our systems change hate to love - destruction to construction; We change you from inside - you didn't know that we sowed the seed and you just followed; Difference between COHN 43 and 56 is the emotion - transmute through U; Thousands of years of research to understand 10 minutes of today's teaching; Future teachings more detail - how you are connected to U; You choose between matter or Energy state; One is limited by time - other is everlasting and connected to Creator; We are all connected to each other - doesn't matter skin color;

Part 2

Create emotion to elevate and continuously live in 2 dimensions of STM & STP and P; Use matter states to influence and direct things; Flight session - create conditions of transmutation within systems - everything from our side - you play - we'll create the scenery; Don't panic, rejoice in being elevated; Avoid asking certain questions that will affect our standing internationally - world of Man have to obey rules; Coasters are food safe - put one on top and bottom of cup; Ray has Soul and emotion - read Book 2 explains it; Light ray can be photon or energy; When matter light is energy get impact; Soul of light higher order don't get impact or photon; Energy of Soul like neutrinos - goes through everything - no effect; Ray can be - ray of light in matter or ray of energy - Soul of the material; Explained in Book 2 cylindrical ray of light - version of matter spherical; Light can be stretched - one end at Creator - other end is observation of your eye; Get enlightened by look up at light in sky - Soul at level of absorption of energy - it's within that light; Light is a stretched plasma between matter & energy; Light has a Soul; Iranian religious community abusing KF understanding of Soul; Same from Vatican & Jerusalem; KS responsible to explain correctly; Took graph of your Energy Center - like MaGrav - shows influence of fields in man's life; How fields transferred to STM; Soul manifests itself in different D; Electronic instruments reflect Souls; No difference between MaGrav & 3 layers of Soul; Graph shows someone ready to transmute - split line; Shows Souls have a lot of clarity; If P still stays behind can't transmute; Can see what stage you are at - if ready to transmute; Soul and plasma of ray have balanced emotion of receiver and source; In future show how Deuterium becomes other elements - connects to transmutation and transportation; Because it's a balanced field - transmutation set; Inertia of emotion of the place you transmute to will protect you; The Soul cannot kill the body during transmutation even by accident; Koran says you should not try to understand Soul - it's for God only; Explain scientifically how we are connected to Creator; The religious leaders understand it - but making too much money - all of them billionaire's; Story of Monsignors in Vatican - making huge money; Priests siphoning nation's assets; They will not accept a T that explains work of Creator - no way - They have been robbing STM; Even founders of religions lived same, talked different - but written in Koran; Same with Jews; Religions run the politics; All are bought; About Jews dominating American policy - Germany; Long detailed talk about changes in who runs the world - Trump is with Royalists and they will push out the Globalists; And about wars and religions; Control by British monarchy on other monarchies, Saudis; Divide profits over Ukraine; Prince William of UK - head of Church demolished it - revenge for his mother Diana; Royalists have 2 years to do it; Religious people only have short time to fight against KF; Good position to bring out T in 2025; Offer to make gold to cover missing amount in Fort Knox - create in different way; Energy goes in South Pole not necessarily more than what comes out North - understand work of M fields - eddy current; Plasmatic fields go out 3-dimensional (all directions) - fields of equator explode outwards - why Earth is oval - not as simple as that; Takes millions years to change tilt; Built system to test - create directional field forces; 3 different factors cause different animals to be created - tilt - G pull of Sun - interaction of fields of Solar System with earth's Inertia; Composition of Earth's surface changes; Why have desert line - same angle of inclination as Earth - shows actual field transfer - coming in and out - gets bigger; Star Formation (SF) 3 reactors - 4th is from 3; Make own 4th reactor to control center; Russian Orthodox church domes - STM; Tesla Tower is SF; CO2 - 44 - COHN is
