Mysteries of how churches of Europe were made - look at top stain glass window - a pattern to them - none are the same; Secret to these windows; Built one after the other - within a few hundred meters in cities and villages; Fishermen villages; Stain glass windows designed with shapes and patterns correlated to match with sound of bells - don't get certain illnesses - a knowledge and science; Early last century Rockefellers and Rothschild's understood what these bells were doing - bribed Vatican to take them out - then out of Protestant churches - put back bells that don't match; Test pictures of windows with pot of water and add frequencies - will match the stain glass patterns; According to how you create frequency - M fields in motion; When it meets resistance it has to find a way to go through it - this is frequency; Each pattern matches certain illnesses; Every time rang church bells - those who could hear - were cured; Churches were healing points through frequency of bells together with stain glass window patterns; People didn't have the illnesses of today; Now pharmaceuticals injecting us; Our ancestors found secret - built the churches; Same with construction of Pyramids in Egypt - create certain frequencies - bring certain emotions; New bells have no relationship to patterns in windows; A deeper understanding in world of pottery - tea cups and saucers; Churches used to use specific glasses for giving water to others; New silver cups and things not part of this; Royal families & the rich had their own glasses made special - blue, green, red cups - they knew science behind it; KF bringing same science for all - KF products use this science in the Cups, soaps and everything else; What did centuries ago has been erased from man's history; Green cup is a uranium and nuclear-based energy - won't contaminate you - get so much excess energy no illnesses in your body; This knowledge was given to man thousands of years ago - why King's physicians always carried special made glasses - for patients to drink from - secret of Creation; Stain glass windows create different shades of color - what see in Space; See the light of a Being; They'll see STM and what intention it has through that light & color it has; Different colors have different meanings; New cycle of teaching - how to interact with Universal Community; Talk about New World Order - we talk about Universal Order; Universalists are teaching man how to become part of UC; Purpose of teachings - man learns rules of U; Secret of knowledge was taught to man - but disappeared - didn't have global communications like Internet; People who understood kept to themselves - used for power over others - clergy; Church was to be a place of power and refuge; Next time hear bells know what was stolen from you; Creator's light stays pure - everything else gets rejected; Color we see - what has been rejected; 3 layers of skin - 3 of neutron (N), proton (P), and electron (E) - NPE, 3 layers of STM - 3 coils of MaGrav system - no difference between them; Unless you work within D of Creation nothing will work out; On Earth consume matter of air, water, everything else to keep life going; In Space we need the fields - understand how they work; Have to connect to fields of U to exist - understand D of energy, or M fields in motion; Common denominator of energy is One - all 3 exist in this light - has no P; Interaction of fields within proton and neutron creates a new D - energy - has no dimension; When interact with each other create new dynamic cell - Star Formation (SF); 3 base reactors interact to create 4th reactor; SF has 3 matter state entities - 4th is the light; Science doesn't know difference between light, photons, and matter state; Why sometimes light is photon or ray - wave; When light has no energy - common denominator 4th level energy is operating at top of SF - field is so big NPE inside it; When the field is weak - feel warmth of it releasing its energy at a target; UFO

is matter state - Plasma become that light - instantaneous and continuous; Why we can see light in the dark - Earth is lit - daylight - whole Space is dark; Explained in Book 2 - translucent light - has no tangibility or D; Galaxies like a mirage; Telescopes see matter photon - needs time and space - why it's both a wave & photon - creates different dimensions; Sometimes partially see both at same time - brain in matter state - Energy state of Soul; P sees person in front of you - Soul sees their Soul - feels if have wrong intention; Only Jon Bliven close to understanding MaGrav - levitated on fields; Gave you enough tools to survive span of U; Humans are lousy learners; Mr. Keshe always humiliating us - saying we don't understand - not stupid - don't understand work of U; Study which illnesses bells heal within hearing range; This knowledge hidden in KF Coasters, Soaps, MaGrav systems and more; Have to match your Soul with product; Japanese scientists showed how our intention changes vibration in water - recorded on graph; Body 90% water - Man as energy - equal to energy of Creator - convert to water - change the Man; Explain Soul and work of U in more detail; Knowledge given to Man many times in past - only in villages not spread worldwide - became magicians - how Vatican & Mosques work; Some things written in scriptures - one big magic show - clever ones changed it; Knowledge is free - understanding it costs a lot; Key is interpreting & understanding knowledge; Have to understand essence of what's written in books; Don't just carry knowledge like a donkey; All getting knowledge same time; Why religions never taxed - kings and governments pay for secrets of Creation; Never understood created green and yellow cups and the rest of it; Meaning of windows - each one has a center - the Creator - light radiates equally amongst all; Make frequencies on water - center radiates fields; See same patterns in U as in windows; By pattern can tell what kind of creatures live there - what to expect - how close they are to Creator; Water flowing underground affects our behavior; Churches and mosques built near rivers find disturbed people with animal behavior - war, anger; Running water creates disturbance in emotions of the men - not much in women; Built churches on top of hills - away from underground rivers especially Italy; Bells in these churches covered a larger area - purified environment from certain conditions; Bells of different sizes ringing together - purified STM - not P; Heard sound - Soul received energy; Need both Soul and P to live; Knowledge hidden in Cup of Life; Nano materials interact create radiation - when matter stops it - creates a resonance - field that matches with virus; This is Twinity that drains it; No coincidence or dream it's understanding Science of Creation and applying one to the other; Understand difference between photon and ray; You are the light when matter energy is felt; Explain to scientists - this is a common denominator light that goes through us - (they say neutrinos); Change your emotion - body receives energy - see flash of light - enlightenment; You bring it down to level of saying had a dream; This time when we teach - not hide anything; Manifestation is matter - transition is Energy that one day will manifest; Why we travel in matter - transmute in Energy; Lot to learn about transmutation; In U interact with colored lights - tells emotions & intentions; I'll teach you about lights - Daughter of Mitra will teach you Ethos of interaction; Wait for her manifestation - teach through STM; Understand separation between matter and Energy - don't call one dream - other reality; Dream is reality; P manifests what's come through Energy; I made Man in image of Myself - I am Energy and light - not P of man - otherwise all would be solid; Not that you don't understand - decided to deliberately ignore - suits your physical D; Interaction of fields creates a vibration - leads to

manifestation; Have same emotion of love for another - better life; Soul is one lover - Creator the other - how you nourish this light, emotion, energy, brings you closer or further; Only for you in respect to Him - He always loves; Understand Reality - movement of Man as matter - energy; New Twinty MaGrav - water on top - has your Soul in it - you decide what to receive; New self-driven cars - no driver - tell what to do; Plasma Car use thoughts - car goes; If breaks down - your understanding broke down; Why got stuck on this planet; Dynamic plasma Microchips - no D - more liquid and emotion; If in matter - man will become slave to them - brain locked into confirmation - unless work with Soul; Different layers of Gans's - solidity of brain has its limitation; Current Headphones - for learning - limitations; Plasma Headphones no limitation; Will show you how emotions work; Explained graphs from last Flight session; STP dictates reactions through emotions; Emotions dictate conditions of P; When one panics spreads to others; Graph shows when transmute; Understand how fields move - purpose - emotion control everything - not just give you love; Emotion of transmutation unknown to man - calls it dream; New emotions; Emotion of Transmutation - stronger even than love - the love between P, STP, STM - you control it; We are not a cult or religion - no temples, except temple of Knowledge of Creator to be created within STM, or any creature in U.

## Part 2

New phase of teaching - new unknown knowledge over next 2 years - bring things into focus for governments, world leaders; Expect end of religions within 2 years - people will understand Knowledge of Creation - no need for fake intermediaries; Won't happen overnight need to start it; Teach you how to create vibrations the bells had - touch whole humanity and beyond; Vibration of knowledge of Soul; Work on the national, governmental, and international levels; There'll be a surge in knowledge gained - don't need to be a KS - knowledge is shared; Tesla working on flying cars - matter state; Plasma Car uses MaGrav - see light; Delivering technologies of enlightenment; Don't become arrogant when change comes - share with others; You're just a tool - share little bit you understand; Problem with KS pretending to understand - but couldn't answer questions - discredits knowledge and T; Always refer people back to original KF teachings to read it themselves; Systems to connect you and your Soul; Invisible D of fields between all KS; Graph shows when one shakes - the rest shakes; How to know if elevated; Depends what you consider elevation - a little more enlightened; Elevation of Soul is very clear; If comes as massive change feel it in P - even when transmuting; Transmutation like dream but you instigate; Soul elevates - P has to match it; A stranger to your own physical body; Get used to it through experience; Definitely feel Enlightenment; He was ADHD in youth; Last Friday people transmuted - then someone panicked -brings everyone back to P; Do same in sleep; Build systems to tell if someone is ready to transmute - like on Star Trek; More about church bells & windows; Built by old (Pagan) knowledge; Early Pagans brought Knowledge of Creation into their religion - later transferred it to name of Christ; Same with Zoroastrians; Symbol of snake wrapped on pole - door of pharmacies - snake ate rats; Look below surface - see it; Fields of underground water flows create disturbances in peoples body's energy; If child's sleep disturbed use Nano Infinity Loops - KF Butterflies; We behave differently in different

Creation and Creator - rest is how to apply it; Mr. Keshe made a call for people with professional experience in Space Agencies of the world - like NASA to join KF - it's a matter of urgency; Work with breakthrough plasma technologies; Also many other fields like oil refining, energy, metallurgists, material specialists, environmental programs, CERN, plasma technology, nuclear physicists specialized in radiation transmission, doctors who are specialists in certain fields, cosmology, magnetic field development, environmental cleanup and change and more; Depends how your knowledge fits into what we want.
