Preparing Man to travel U - add knowledge of Cosmic Rays (CR) and Cosmic dimensions (D); Principles and interactions of M fields remain same throughout U - in cell of body of Man - structure of planet Earth, or Unicos; Understand why interact the way they do - and outcome; No interaction - no effect; About Cosmic noise we hear; About translucent light seen in darkness; Creatures of U don't see with eyes - like some animals; Work on different level of M field strength of U - visualization in brain without eyes; Blind people visualize apple never seen; Saudi royal family princesses born without iris - KF helped - could see color; This became research now using in Headphones to transmute; Don't need eyes to see - colors radiate fields - brain recognizes color; Why when travel Space lose our mouth and eyes - consume too much energy; D of Soul doesn't need P; We test something before teaching; Learn how to recognize M fields - understand their process; Drawing; Presents what scientists understand about M fields around Earth - ones that flatten out in back - ones that circle around back to Earth - ones that flow out go to Sun; Scientists have misrepresented the true science - stopped research - created dogmas around ignorance; New Plasma Science has to overcome these; Things don't fit - why only daylight only on front of Earth when same M fields flowing in back - 24 hrs light; Continuous light at Poles - compactness of fields - cause Aurora Lights; Teaching about nuclear decay - instead of Sun and planets have neutron (N) & protons (P) interacting convert materials - this is what happens in nuclear decay; It's same energy transfer - fields interact increase energy - becomes unstable - decays; Can have additional neutrons in system - behave as a P; Nuclear Physics doesn't understand about N; Every N has its own M field strength - One of Jupiter, another Earth, etc; N interacts - delivers energy - pushes away - becomes Nuclear Decay; Need to understand interactions and structures of M fields of planetary systems & Earth; Friction between two M fields creates light; About Nuclear Decay & half-life; Fields in magnets goes both ways like current & eddy current; Need fundamental understanding of Universal M fields how they interact; M & G fields of U rub each other and create energy packages, CR, noises, translucent lights; Sound and light created from M fields of same element; Black Hole in center of U radiates out fields interact with galaxies & SS to create light - same how daylight created on Earth; Locate center of U by which side of galaxy is brighter - same with SS; Side facing center of U receives stronger M fields; Same in forest - heavier growth on trees facing Sun; Go outside U see where light of Creator shining from - direction to STC - Source; Same process from atom to Earth - SS, galaxy, Center Line of U; M fields created by interaction 2 fields similar strength; Problem - cannot measure M fields of Universal Systems like Earth - Galaxy; Only matter state measure in Tesla's - outside scale; COHN can also change - Nuclear Decay; Common denominator field connects us to Creator can be measured; If cannot measure it - do not exist - I made Man in image of myself - on top of you in every direction - go through your head, brain, and Soul; How we are connected to Creator - all fields circle back to Creator - ourselves; Progress towards peace - finances switch from war to peace - Space development - finding path to Creator; This scale of research - mature Man; Time to come in with new T - give helping hand; They provide peace - we'll provide knowledge; Develop systems to measure M fields - by accident, or deliberate acts of Teachers; Path to Creator not anymore in Holy Books - in 'Holy' Soul of Man; Knowledge has been hidden from Man - makes false books - knowledge in matter state; Newton's law doesn't apply in plasma; Need knowledge of M fields in plasma condition; Have to correct understanding to

plasma conditions of Space; We already shown some principles - energy factor of plasma 50 to 80% of its matter energy strength (Fe 56); Line to Creator has to be felt by STM - scale and indicator; Creator has different field strengths - different lights; Light of Unicos - galaxy not what used to; Special tools to see light of U - enlighten us; In dream STM see light - aware of Creator; Light has emotion and feeling; Get enlightened directly from light of Creator - no intermediaries; If get enlightened through P - temptations; Every entity has access to direct enlightenment - came from it; Bring end to fake religions - abuse of STM in name of religion; Vatican come to end - return stones back to Coliseum; Travel U on one M field line - or jump on galaxial fields; Understand M field interactions within plasma - not within ion; Need to measure fields of plasma - travel with; Matter state has friction speed limitation; Soul no limitation - between STM and its Creator; Emotion plays massive factor - path to Creator; Creator has emotions - otherwise couldn't give them; All plasmas made same way - plasma of cell of body, cell of dog, cell of stone, alien, Galaxy, all have same property - same direction of fields; I made whole U in image of Myself - show My image in emotion of Man; Soul of stone interacts in atomic structure with my Soul - has emotion; More detail in future; Want to show you direct path to Creator - stop games of religions; Man started path to peace - give him tools - to group who will push new T; Doors of U will open; Need to deliver new structure otherwise Man will go back to old; With a new knowledge - forget about war; We set structure up years ago - process already started; If we don't give these tools world leaders won't be able to deliver - get rid of dogmas; 2025 - Promised Day - no more war - finish with religious wars; Give to men of knowledge to implement; Develop science for STM find path to Creator - why we came to Earth - also you collectively as KS - spread rapidly; We are doing our work - you have to do yours - do not be ashamed of T - or frightened by what they say; Concentrate on understanding interaction of fields of plasma, creation, measurement, confirmation and transition to matter ; Misguided about M fields - same as plasmatic fields - bend backwards to itself; Understand how fields behave - why there is a 'spaghetti' of field strengths; Correct problems caused by idiotic knowledge of Einstein - say light (M fields) only travels in straight line - cannot bend; How does it bend back on itself; M fields same as light, sound; Universal laws have to apply to everything; They show M fields bending backwards around Earth - light can do same; Teaching of physics is wrong - never understood - had bad teachers; Fields that bend back around Earth needed for emotional reaction - pain of kick feed back around so Earth can respond emotionally - seasonal changes; Planet has emotions just like we - haven't measured yet; Measure strength of fields to Galaxy - can transmute; KF Vertical Enhancement Units do this - take to Creator; Tune to different field strength - travel to specific planet; Learn how to measure plasmatic M fields; Fake plasmatic M fields of CERN - mixing matter with plasma; Instead use Gans's 1 mille volt open plasma of matter state; Fusion a dream because using magnets and electricity to handle plasma; KS have same problem as CERN with transmutation; Never a single plasma - always a mixture of fields - make anything out of them; Don't get fusion from matter state - use M field strength - dependent on TPP in plasma - KS can transmute; KS are ahead - convert matter Cu to energy Gans - make what like; Plasma confined in skull - like CERN; We don't generate heat making Gans's; Have to learn how to manipulate fields - bring different field strengths together; If accidentally see Creator nobody believe - can replicate it; Through devotion correctly bring all emotions together to focus on one path - find Creator; Koran says - 99 names of

Creator - 100th is understanding true meaning - Creator is collection of all M fields - all these names - emotions; Need 99 to the order of 99, to reach Creator; Lots of emotions Man not aware; Emotion of Transmutation not in Koran; All plasmatic M fields of Creation end up in Creator; This is a science - not religion - find your own path to your Creator; Some KS serve the religions but they never find field strength to path of Creator; A child in womb can reach that strength and not have to manifest & suffer in P; Concentrate the emotions to reach the strength; It's hidden in graphs of Souls - when get emotion it clicks - P and Soul follow; The importance of emotion; Understanding Creation does not make Man - Man of Creator - only wise to understand path to travel U; Learn languages instantly; Gans's are the tool - understand how to manipulate them - connect that plasma to your Soul - receive strength you need to manifest yourself; Travel U without P; Go deeper later on into this; Interaction of fields coming and going with each other create light, noise, CR, sounds and lights - elusive lights in Space - not created by fields of Galaxies; Translucent light comes from interaction of G and M fields of ?? Creator - with themselves; These are directly from Creator - not manipulated by galaxy, U, or Unicos; Call to religions to lay down fake robes and hats let the Man see for himself; Emotion of Creator's field strength takes Man to Him - not fake names of rockets, Spaceships, Temples; All these buildings are like skull - trap STM not to be all the time with his Creator; With new plasma knowledge can transmute - super-pass Ca of skull; Many have done it; Time to break through physical structure built up in our imagination dictated by those who control religions; They created fear in us in name of religions; Understand this and it will end religions; I made Man in image of Myself - not to be afraid of Me, but to be part of Me; Understand joy of being part of Existence.
