Topic Index

Mr. Keshe in Beijing celebrate public presentation of T - by American Markray Corporation - financial arm of KF; Disclosing major breakthrough technologies; 100 spoons of gold or rare Earth materials made from fields of U; Beginning of change for humanity - start Plasma Industrial Revolution; Always had to mine minerals - kill to get - exploit African nations - 3 stood up said no more; Enough abuses on this planet for natural materials; Exhibition will display production of materials; Showing 'dinosaur' system in exhibition - already obsolete T - but way beyond present T; Produce materials like gold from air - M fields; Massive breakthrough in evolution of science and T; Hidden within system - Time Travel - explain in future; Display communication system; Scientists from Beijing Space University - Military factories - foreign diplomats will attend; Presentation behind a window - in prestigious hotels - Beijing - common place for President Xi to attend conferences - well placed; Small space - but very powerful for delivering technologies; Zero-time communication system - different type of Headphones; First time allowing scientists to connect to system - no dynamic - rotating reactors: One system can create lift, motion, atmosphere, materials, gases, energy, and everything else; It's size of a football - first time being shown; Expecting massive announcements during exhibition; KS can meet together to discuss putting T into Plasma Industrial revolution for time to come; Changes will be massive; This time we are Markray Corporation on US Stock Exchange; Presentation not by KF - gave license to Markray - bring T to public - financial part of our work into worlds of business, science, T; We cannot announce here - has to go through OTC; Most important thing - show power of T - producing materials from fields; Will be shown Live on Zoom for 3 days; Informed many scientific organizations; KS it's your job to make this public on all Social Media platforms; Post announcement in as many places as you can - production of materials from air - fields - shown Live on Zoom; This T is obsolete - we are way beyond it - but still beyond what Man can do; At same time Iranian government will announce and start explaining use of Cold Plasma T; This has nothing to do with KF or Markray; They are confirming correctness of T - where it was originally tested & developed; Thanks to all KS - made exhibition possible - demonstrate T in public; Can see in window in front of hotel - watch, enjoy, celebrate it; Continue discussion of creation of time; Most fundamental point in our life; After physical life go to another Time, Place, Position - start another life through strength of STM; End of one time - beginning of another; Strength of STM creates structure of Time - dictates Man's shape - Position (entity) - what Man will become when time changed; If kill thousands - haven't gathered much strength in Soul - carry burden of bad; Bad things move Position (entity) &

Possession (strength of AA) away from Creator; More perfect life you live closer to Creator; Bad things make you heavier & weaker in M field strength - puts you further away from Creator; Field strength determines shape & appearance at Place & Possession - Time starts at that point for you; Saying U is 13 billion years old - a joke; Time starts at point of manifestation - not from point of observation of manifestation; Gather as much strength you can while alive - behavior dictates strength of Soul & Position, Possession, Place you will manifest - Time will start new; Need to be aware of Totality of structure of life; Star Formation (SF) creates Space - Place and Position - dictates Time; If we have Place, Position, Possession - can get Time; Soul has to have correct M field strength to be human - not Tesla's that's matter; Introduce new tool - measure plasmatic M field strength of Cosmic Rays (CR) - Tesla's don't work; Explain later about detection system; Need to measure plasmatic M fields - can create Time; Know strength of Place our Soul will possess - Position or entity - Possession or strength of AA; Creation of Place and Position totally depend on strength of Possession - all are in plasma state; All 3 can be replicated in system; Man can create M field of Place, Position, Possession - these dictate Time; If create Time - reach any dimension (D); Time created from interaction of the 3; Later go into more depth; Started with Nano to Gans - dynamic systems - Soul - now about Time; Time for Creator is always zero-time - means time never existed; Shall not exist unless its fields brings Place, Position, Possession; No beginning or end; Possession main factor in creation of Time; Soul leaves P creates a new Time, Place, Position; If create M field of Place & Position, while having Possession - create a new Time; Can check what Position (entity) you'll be; Scientists mapped emotions in brain - to what part of body it controls; Don't know - brain is creator of M fields in plasmatic CR - how Soul contained in body; If can measure M field - decide Place, Position, and Time; Not really Time Travel - we travel in Time - because we create Time; STM is the Possession - field strength will be measurable - technique for measuring; If measure - create GM field of New York - can decide to manifest as dog; AA of M fields of animals - specific characteristics; If create all 3 - Time will be zero; Do this when travel with Soul - leave body behind - Soul manifests another Position; Change Possession - start new Time at destination; Never end up in wrong place - not GPS - plasma creates Time positioning - totally different science & T; Connects us directly to line of Creation - as if another star is created; Cosmology says millions of stars created everyday in Galaxy - it must have a principle; Now we can make stars too - understand process of Creation; Star is my Soul, my identity, what I possess within; Creating Time is totally different understanding; Go backwards in Time only by Plasma - physical D cannot go backwards in Time because physical distance and speed - your image gets scattered - further it goes in Time; Through plasma fields can go back in Time - this Time is interaction of M field strength; Can only move Time if others allow - those effected by your change in field strength have to agree; If have birth defects - go back in Time change; These things become possible - needs a lot of knowledge; Change behavior - change where Soul will go at death; Field strength of Soul creates pre-set Place, Position, Possession; Field strength of Possession determines where Place will be - further or closer to Creator, Zero-Time, Time of Creation; Closer to center - Soul of Creator is Heaven; Hell is farther away; Lover's game with Creator - try to become same as them - closer to lover; When do a crime - have more Souls to carry; Not just one who shoots gun - also those who made it possible - profited by it have to carry heavier load on Soul; If we understand Time and Place - no one will ever create guns; Understood by U

Community; Suffering emotion of being away from lover - bigger punishment than fires of Hell; Need to experience love to understand; Creation of Time is essence of Creation; Time doesn't exist in U - manmade; Further you go in towards center - longer time becomes; Creation of Time from interaction of fields; Manifest Christ - know field strength of Jerusalem - shape of man - create plasmatic M field strength of his Soul - Time will be zero - observer will see Christ; Not magic - this T shown in Beijing; Get particles on you - showered with love of Creator; Glass cannot stop fields of Creation and STM; Purpose not to show materials - but enlighten humanity; Enlightenment part of structure of Possession; Don't think of it as flying system - evolution in time - enlightenment; Place, Position, Possession will create Time - will be Time of enlightenment; Time starts at zero point - before that, no knowledge, after there is knowledge; Time of enlightenment is very rare - change comes; Will teach more details to understand essence of Time - not a system of Time; Create field strength within Possession - to create Place and Position; Possession is most important factor - change it by our behavior, attitude, not destroying; When we destroy others we destroy ourselves; Worst thing Man ever did - damage himself, self-inflict his own pain. - does with every breath - every spoon - every action of his emotion; I made Man in the image of Myself - But I do not kill - Man cannot be My image; Talking about - STM is My image - not its P; Place and Position are wrong; Change Possession - can change Place; Intro video about today; Every Man can change his Possession during his lifetime on this planet.

Part 2

11 year old asks how Dark Matter works - position & M field strength dependent; It's relative - dark to you - not dark to me - I'm on different field strength; Black Hole looks black - because field strength of vision; Dark Matter is imagination of Man - doesn't have field strength to see it - all light is absorbed in that field strength; Pictures of materials being created; What we'll see in Beijing; First fields manifest as Dark Matter - slowly they change into gold; Dark because it's Carbon 14 (C14) and C16 - energy changes becomes matter state gold; Point of strength of observation of observer - change is acceptance and observation; How they call Dark Matter doesn't exist; If have different M field strength - won't appear dark to me; Interacts with Inertia of Earth - goes from dark to gold; Dark Matter in Book; If change field strength won't be dark anymore - changed Position (entity) - Place is same spot; When interacts with M fields of Earth Possession changes to gold; Color change same as when Gans's change color from field change in environment; Possession is dependent on Place; Don't put Gans's near metals - keep in open environment - metals absorb more; Black Hole really like a sun - source of energy - point of observation makes it manifest as black; Dark Matter doesn't exist - point of observation; If environment gives it more will manifest as different entity; This is how Creation works - starts out as Dark through effects of environmental fields it becomes matter; Have to create condition of that matter - example gold; This is an example of effects of Inertia - how cancers grow in body; Environment changes - same field energy; Change Possession, or Place - get Position (entity); Gold color is different spectrum & field strength than Creator; Creator is White Light - not white as a color; Those with white aura reflect light of Creator - not many; Color of Soul tells destination; Color exists in Man's aura - don't know how to interpret; At time Messengers receive message - aura

becomes white - afterwards emotion of P taints it; Very soon Satellite Souls will help with transmutation; Part of last test; Captains are like Satellite Souls - carry number of Souls - few months away; 7 Captains went through an evolution at Soul level; Participants in Monthly Flight sessions will choose Captain they trust - give Souls - take them to destination through transmutation; Group transmutations didn't work because when one panics - others panic and temporary crash system; With Captain they trusted - didn't panic; Showed Soul transferred - one Soul can carry 150 Souls as passengers; Next Satellites will be trained - become semi-pilots - big part to play; Satellites are connection between STM and Captain - like U Council is connection between humanity and U Community; Dark particles all come together form bigger pieces gold; Touching - get absorbed into body - process to change it; Dark Matter becoming matter - it's always a matter - point of observation - field strength are different; Explains graphs - last flight session of 7 Captains and passengers; Graph shows no connection to anything else - means they trust Captain - no panicking; Many will physically be able to transmute - trust was biggest problem; This area means went through transmutation; Felt transmutation like dream; Can control and increase enlightenment and love - brings trust in Captain - all go to one place together; How environment will react when manifest in Place - Position - then start Time; Could land in wrong Place, not familiar with Positions; Gradually go through this - next 3 to 6 months - first phase of Time Machine - shown in Beijing; Then Time Travel, or Time change in conjunction with transmutation; Can bring something into our Time that is already in an energetic state, but not yet manifested; Like moisture in air becoming ice - change temperature; Technique for doing with M field strength - creating gold part of process; Black particles coming together bit by bit as molecules - form one piece; That piece of gold is data - suddenly form piece; See amazing things in exhibition - but system already obsolete system - don't try to replicate - have huge problems; We know what we are doing - not what people think it is; See magic of Creation; Chosen combination to bring completion of understanding of T - not science; Want to draw piece of land to us - start teaching people about transmutation; Big problem with showing transmutation governments not ready; T is complete - can release it tomorrow; If we jump without governments ready - we could get hit very heavily; Beijing exhibition planned quietly 8 weeks ago - nobody knew till 10 days ago - because time is right; Once we show transmutation massive problem for governments - not for us; Need to create a condition of world peace; To undo structures created over centuries needs a lot of trust; Move around planet like birds without passports not feel threatened; Have to change mindset of governments; In human race not ready for T - bring too soon - could backfire; I think now is right time to show first stage - create energy and then do other things; Creating wealth on this planet - biggest problem for humanity; When everyone has access to resources of U - no class differences - no war - then go to next step; CR materials might not have effect way you expect - but might change another's life; KS felt CR Ball in hands - changed him; Body repairs itself - receives what needs; Everyone feels CR in own way; Do not share CR Balls with anyone - very personal; It has your fingerprint of connection - don't want somebody else's dream; Soon create system to neutralize or zero out fields - then can share; Surprise package - KF Store - Cosmic Mystery - some CR materials; President Xi and President Putin meeting in Moscow - discuss how to unify world; Coincidence or Souls know what is to come; Expecting to meet Chinese officials in exhibition; Relying on KS to spread word

on Social Media; Tell world - showing creation of matter from fields - out of air; Live for 3 days; Bring especially to youth and scientific world; Reason we are doing it this way; Making matter from fields - theory of Big Bang will mean nothing - fallacy - change a lot of things; Specific reason I planned this out; Have to reach world scientists; Send to your professors, every University - tell them this is how gold is produced; Send to your Ministers, Prime Ministers, and everyone else; Once we show gold can be made half of battle for world peace won; New structure using Keshe Coin & Keshe Cryptocurrency - for inside nations who accept T - create one currency; I've done my work from now on you have to do yours; Coincidental - headlines in Science about where U creates gold - heavy metals - magnetic stars; Also NASA - post on X; Send invitation to Space programs; Banners & invitations on Markray website; If we get it right - no more war for gold; Bring an end to nuclear warfare - produce Plutonium and Uranium without centrifuge - every nation become nuclear; But we'll use energies for advancing Space T; Showing production of materials - stop sanctioning countries for becoming nuclear; But now everybody can produce any material they want; End of materialistic world as we know it.
