Essence and what creates Time; Puzzles of Time - same time being on Mars as on Earth; Planets have different position of time in relation to Earth; Adjust time in Space - not be thousand years ahead or behind; Other planets in solar system (SS) tilted - decides a lot - respect to energy Position and Possession; Transfer time from one planet or entity to another; Traveling in Zero-time; Change M field strength of Possession - bring to Creator; Reach absolute zero in G - not M - travel in Time - starting time - zero point of U; Get on line of expansion of U - same for Unicos; Mankind not travel with UFOs - too slow; Transmutation slow compared to traveling by Time; Knowledge of Place, Possession, Position (PPP), and interaction of MG fields of Universal fields - travel Time of Creation; See expansion & creation of U - by Possession & Position of every field strength in environment; T to replicate Time; Time can carry impression of emotion; Cornerstone of traveling Time - understanding essence of emotion; Not STM - but emotion of STM; Time & emotion create Place, Possession, and condition of Position; Become stone and listen through "voice" of Soul of stone - return back to original Possession; Mankind become immortal - travel in Time of existence - live for lifetime of U; During lifetime won't be any losses or gains in direction of fields of motion of existence; Man's dilemma doesn't understand how Creation is created - not see truth about Creation & Time; Create Possession & Place - can decide on Position (entity); Work with Time - order of magnitude of collective field strengths in all 3 parameters of PPP; Change Time - create Possession & Position at Place; Transmutation systems only use 1 parameter of Time; When learn to change all 3 parameters - have eternal life - true understanding of Creation; Universal condition - can reverse life cycle; Darwin only talked about evolution of Man's DNA; Evolution in Time - see evolution of creation of U; Understand Time - how Black Hole is created - essence of creation of Creator; Today's teaching - not for those who don't understand - needs thousands of years; Unravel more secrets about Possession & Position & M field strengths of life in every D - learn about field interactions - understand Totality of Knowledge of Creation; Understand our relationship to Time in respect to what is beyond SS; Only focus on time of Earth; Think about Time of SS in relation to galaxy; What is Sun's horizon; KS will understand Totality; Sunrise only creates a time according to our system - measure rotation around Sun; Where is horizon line of our Star; How long does it take - Sun rotate galaxy (Black Hole); Time Travel - use time frame of SS - add field strength of Galaxy in respect to its center; Where is horizon of Galaxy; To create Position and Place with Creator needs

multitude of M field strengths in respect to time of planet, SS, Galaxy, Black Hole - Unicos; Creating Time to travel U - different than on planet - different orders of magnitudes of M and G fields of SS; Example was multi-core systems - each core creates a time M fields of Earth, SS, another core, Galaxy, another core, on and on; To see Creator - understand M field spectrum of Creation; All M field strengths already exist in Soul - tap into travel U in Totality of Time of Creation; How we travel in our dreams - different parts of U & interact with other things; Understand capability - power of brain - can confine STM; Create Time in Possession & Position of Creator; Understand full spectrum of GM fields of plasma of Cosmic Ray (CR) level - secrets of Creation & Totality; Teaching fundamental understanding of Totality - first have to understand PPP dictated by collection of fields of Totality of Times of U according to their M field strength; Travel span of U according to our wish through strength of STM - change any factor of M fields of any parameters of PPP in conjunction with changing Time; Have this capability in Soul; All plasmas have intelligence of emotion - capable to create Time; Wake up morning - create time in our brain & Soul - freely accepted this ability; Morning for each is different - because in different position; Consider all the different creatures of Soul of U; Understand that there are other lives in other D across U - live and exist in different Times of GM field strength - not at strength of AA of Man - his plasma; Scientists finding life in depths of Ocean or mines - same way life exists in U; Like Creator each have own Time, Place, M field strength of Possession & Position; Some men in past have managed to freely travel U by creating full spectrum of Creation; Once understand - have access to knowledge of U; Does not require language - enlightened by Knowledge of Creation through essence of emotion - not physicality of Time, PPP; I made Man in image of Myself - I possess full spectrum - so does STM; Man exists through My Soul as I exist through STM; I am the beginning and end, but the end, is the beginning of the end; All fields of Time, PPP exist within structure of STM; Man can live same way as Creator lives; Man shall be beginning & end - strong enough to travel Time - not just 1000 years ahead on Earth - next second in another part of U; At death - this is what STM does - travels to start new Time; Learn to measure field strength of Possession of STM - change Time to reach destination of Place and Position; End to physical reincarnation; Incarnation will be in essence of fields of STM in existence of Soul of Creator - emotion of Creator will dictate emotion of STM; Emotion exists when two plasmas interact; STM possesses Totality - spectrum of all fields of U - carry emotion of Creator within them; Next step in learning about Creation; Today's knowledge not in Man's books - never understood process of Creation; Our job as Universal Teachers - teach Man Knowledge of Creation in true way; Each one has to independently investigate truth - develop fields within himself to understand process of Creation and Creator; Not about prophecy anymore - you understanding strength of knowledge; What you gather in your Soul - is where it shall go; Be cell within another creature - or be creator of that D; Change your Position in respect to Time of Creation - then PPP become irrelevant; Heaven is getting closer to Creator; Zero-time is within; When have time - means away from Creator; Measure the Time where you are at - understand true position; Find out where Soul is going before it's too late - change your life; Find purpose of life; When Time closer to zero - closer to Creator - promised Heaven; When Time, PPP reach zero - total generosity - giving - within Time of Creator; Feel whole emotion of Creation - enlightened to process of Creation for this U - not Unicos; Then understand Totality of

GM fields of CR of Creator - which has created the creator of Man; Big puzzle for Man to unravel; Given knowledge - so in future can understand; Today - message of how you can elevate your Soul - zero point - become part of Creator; Future generations might understand; Try to find horizon of Sun - will move to next step.

Next Friday's Monthly Flight session - Soul Travel with Captains - choose by number not name; Bring in D of Time of M fields - first fundamental systems for traveling Time; Connect to Captains through Soul - create trust - have emotional interaction between two Souls; One is STM - other STP - manifestation P - where Soul takes STP; Next is to carry multitudes of Souls in Time to destination; No experience needed to join Flight - travel with emotion of Soul; Use same pattern as Beijing exhibition - present production of material - or another systems under banner of Markray to another major capital around world; KS show up and watch from window; Expand operations of Markray around world to demonstrate T; Give Man opportunity to travel in any D; Announce next exhibition in next few weeks - Berlin or Paris - bring change to continent; Germany suffering lack of energy - France with nuclear problems - show T to boost their economies; How to work with PPP in Triangle of Creation; Whole of Creation based on interaction of fields - CR in different strengths; Man has to master this knowledge - have control over all 4 parameters - Time - PPP; Biggest problem - increase field strength of plasma of CR; Matter state use high voltages, current to change M field strength of iron; CR depends on field radiation - created by different conditions and interactions; Use field interactions and strength - increase or reduce strength of M field - ray of magnet - M fields CR level; Angle of tilt - not all planets straight; Different horizons - trajectories in respect to center of U - dictates operation of stars and planets within; We and our Soul not isolated from Universal CR - part of; Soul interacts with central line of Creator, Galaxy, SS, planets central line; we are result of many interactions of CR; Exist in this D not another of Time - because field interactions of plasmas of AA in this angle - manifest P; Man as fields to Mars not manifest same shape; Send robot to Moon or Mars - matter state fields - strength of this SS; Traveling in Time - don't need to manifest P; We can observe visible part of us in visible part of this U; Deeper understanding is - we are a field within solid structure of brain; U is solid by interaction of fields of CR; If see full spectrum of GM fields of U - we're trapped within it - not free floating; Light traveling across U - like cell for emotion of happiness traveling from one side of to other of brain; New CR reactors do this; New reactors - made same way as structure of U; We have created Time Machine to meet with Creator of matter; Why new reactors are solid state - not rotating spheres with motors; Reactors are dynamic - changing MG field strengths like in galaxies - connection line; Don't see the others; Horizon from this planet by M fields - gets filtered out; Few kilometers above Earth - star combinations change; Everything changes when go out of SS into Galaxy; Our horizon only from our perspective; We live in solid, dense environment of PPP and Time of U. Our U is not a free floating entity; Same as what happens in brain; U is solid state in totality of all interactions of field strengths of Creation - not free floating on its own - made by CR; Brain is dynamic - see vibrations - interactions of the emotions - U has same structure; Live in condensed environment - total collective fields of Creator; Creator Itself sits

within center of something - like our Soul sitting within center of brain; Creator has a shape in respect to central point of His Unicos - like our body; With systems to travel in Time - we'll see shape of U; Understand totality of spectrum of field strengths - combinations - interactions & field resistance created by them; Before said humans gave Creation and Creator emotions; Emotion always existed from start of Creation; Emotion between electron and nucleus; Structure of U always created emotion; Soul has full spectrum of all field strength of its environment - interacts with another free plasma of STP - create light; When 2 plasma interact will have internal interactions - like Sun & Earth; These turbulent fields create storms & weather patterns; Fields pulled from center of Earth create lightening; Emotions of planet; Sun like STM - Earth like STP - what happens in environment of planet - from emotion and behavior; Call them 4 seasons - storms - Global Warming - not want to understand reality; Can't deny anymore; Interaction of every 2 plasmas has consequences - called emotions - depend on GM fields; Humans only know few emotions; In U we'll experience emotions never knew existed; Our emotions nothing compared to emotions in Creation; Emotions in Creation - not like happy or sad - bigger emotions; Earth has weaker CR; Tiny Moon - effects physical D huge Earth - high and low tide; What interactions - between Souls of Earth and Moon; Redefine emotions; Can create fields of emotion between any two positions (entities); Creator can transmute into everything and everyone; Creator transfers emotion through words and actions; Receives emotion - connects - reacts to everything within Existence; Strengthening the Soul; Don't just look at P - look at human as energy of matter; Told officials - Military send scientists open to understanding energy state of matter - they will expand frontiers of knowledge; Energy of Existence is within us - master both matter and Energy - strengthen Soul; Both are connected to each other; Deny our experience of Energy - give it names - dream, Aura, premonition, déjà vu; Humans on own in physical D can't do much - collaborate with Soul; Capable - do anything - create life - children; Take life - cell replacement; Manipulate environment to live life we created; Celebrate creation of Soul - instead; Denial of Soul - runs deep; Children of Mitra different - created from fields; Control P through STM; If I show - becomes magic - not learn knowledge; When someone understand a little - call themselves God - say teacher of Mr. Keshe; Become proud and arrogant; Matter state - plasmatic representation of Energy - see both; Children of Mitra - born with knowledge; KS knowledgeable enough to become parents - different - they work through Soul; Enjoy their existence and presence - their knowledge from Soul of Creator - not words of Man; Many soon understand; No coincidences - governments & scientists watch KF; Thief of Baghdad - Stephen Hawking - Einstein - stole knowledge from others and claimed it; When KF announce Beijing - CERN claims made 89 atoms of gold; We teach you the science; Produce gold in hands; Long teachings about AI; Matter state computers connected electronically; We have plasmatic systems without wires or communication systems - no electron energy transfer - make AI non-existent; AI come to breaking point; Governments move in - influence what knowledge received; Plasma Intelligence (PI) - no cost - emotion and knowledge are real; First plasmatic Microchip - CR Package - 3 centimeter cube; Showed it - nobody understood; Store all computers/memory on planet - only 10% of cube; Knowledge of U within it; Knowledge of U answers - not manmade AI; University laboratory in Iran - few years ago reported Nano and Pico material - even below Pico - not report because KF; 10 to minus 15 - huge amount data; Only KF -

consistently produce Pico; Stop others stealing - denying knowledge; Atomic structure limited memory - but Cosmic D are fields - doesn't need space; Fields of plasma - self-sustaining system; Structure of U is solid - KS don't understand; New system is solid state; Creation of Creator - creating Time; System carries same intelligence as U; Put 3 systems into SF - create Time - dictate emotion of Time; Creator of beginning and end - full spectrum of knowledge; Universal knowledge - not electrons moving around - all AI is; Understand you are part of it - not outside of you; We understand purpose of AI - how they are developing it - beginning of mind control; Public not reading for themselves - being told what to believe; American government passed an Act; Setting up AI certain way; Instead of only believing CNN - now whatever AI says; Rockefeller decided how to change medicine; KF bought plasma keys of AI for new technology; Future generations receive correct first information about plasma; How world governing is done; Introduce T our way; Can't change how AI works; Using systems of world to teach world - like with patents; One of leading scientists - taken to largest AI city - West cannot afford to build; See vulnerability; We can feed the feeders; We see things 30 years ahead; KF T coming out in 3 years - wipe out AI; We have no choice - change course of knowledge; Use system to beat system; Governments planning to setup AI; AI is just electronics; True intelligence form plasma; Quantum plasma is still matter state electron vibration; Only plasma uses fields of U; If AI made with plasma - have emotion of Creator - emotion of knowledge of U in your hands - already showed system; U is solid - dimensional in motion in respect to observer's GM field strength - only see what's in that position; Atoms made of electrons and protons - dynamic plasmas; Not solid and locked in - connect - make molecules - make everything else solid; Stand outside SS to see horizon of Sun - or on Sun; Earth blinds Man not to see what's outside; weak creator of MG field; Galaxy creates filter - cuts off certain fields - don't see beyond; Same - Galaxy in respect to U; Never seen horizon of Sun; Formula to calculate horizon of SS to Unicos - teach in future - part of Time systems; Center of Black Hole not Zero-time - exists among other fields; Double Black Hole interaction; Time does not exist; Where did original fields come from to create Unicos - answer before leave planet; About M fields & CR; Don't need 12 stranded DNA - matter; All Souls not born in same time; Souls don't get born - collections of interaction of fields; Woman born with all 600 eggs - rubbish; Another type of Keshe Coins - plasma - don't pay - reaches those in need; Our job - not to sell T; Purpose of teaching to bring change through man's own understanding and development - him to nourish planet - provide what's missing - stop killing; Our responsibility to understand true cause of our problems - remedy through T; Man's Soul needs education and enlightenment - not gold - don't repeat killing in U; Why - teaching you all this knowledge; Teaching P for Soul to be educated - change environment - change DNA - emotion; Don't pay for love of Creator; Don't punish child - father not teach properly; Time to feed all Beings with Energy have knowledge; One Keshe Coin feed all breathing creatures on planet - U - have to change DNA; Play game with different target; Takes one Moon to lift all waters on planet - one Coin to feed all humanity; Moon only has plasmatic M fields; Bring knowledge don't need Coins; Need time to correct mistakes before announcing Markray license agreement in China; People betrayed KF made mess we have to clean
