K- (Mr. Keshe gives a long and detailed discussion about the war between Israel and Iran). (In last Thursday's teaching, in a very hidden way, I explained what was about to happen, but I did it in a way not to cause panic. We were aware what the Americans and Israelis were planning. (We knew the reason behind it and we were looking for a date it would start. The date was easy, because now the Iranian Securities managed to get the whole intelligence information physically out of Israel in the two truck loads we talked about last week. So the Iranians have the full information on the Israelis. Therefore, the Israelis had no choice but to attack, because they were like a 'cat cornered.' There was a plan in a bigger structure to do other things, but the Israelis tried to preempt it. By them knowing there was a plan on the way, they made the mistake of trying to preempt it). (What the Israelis have been playing on the others for years, now got played very cleverly on them by the Iranians. The Iranian Intelligence was able to feed the Israelis in a controlled way, information that caused the Israelis and Americans made their biggest mistake)).

(Iran used its most loyal people to nation, to secretly build a huge arsenal of advanced missiles. However, on the surface those who thought they knew how many missiles Iran had reported wrong information back to the Americans and Israelis. The most famous spy the Americans had in Iran is Mr. Zarif, who became the Vice President. He was passing information at (the highest levels). He escaped out of Iran just a few weeks ago. He was the chief negotiator, but he was really the "chief" cheater and one of the biggest spies Iran has ever had).

(The Iranians found out about these people and were able to feed wrong information to the Americans. Don't forget, he was the Vice President, so that means the President of Iran also knew. The team stayed loyal and Mr. Zarif told the Americans Iran only had 2,000 missiles. The other part of the plan was to create an uprising in Iran against the government. Every time there was an uprising in Iran we saw people on the streets who didn't speak Farsi. They came from Syria, Palestine and we saw them on (motorbikes going around killing people and being very brutal, and the rest of it). (They were brought in from the outside to bring down the government. This time they brought in the Afghans to kill the Iranian people and create a revolution). (It was also related with the ex-president of Iran who got killed in that crash). (Part of the Afghans job was to kill high ranking people to start the revolution. One of the first people they killed was a plasma

scientist close to KF T. Our team was crying on the phone, because he was a peaceful man and used the T to his absolute best. He always defended KF).

(The Americans were relying on the Afghans to kill certain ?? Heads of Departments, their assistants and advisors. This time they didn't just kill the top man. They thought that by killing these people on the top and then bombing will cause the nation to uprise and do a revolution and get rid of the regime. This was the calculation of the American, British, Germans, Italians and French. As we said before, they are all after uranium mines and the technology. Mr. Trump said, ?? they will take what they want from the centrifuge. But sir, we don't need the centrifuge, that's why we showed you in Beijing that we have more advanced technology. This was the reason we showed the T in Beijing).

(We sat tight and took what they shot at us. We assessed their game, and they opened their hand. They said, Netanyahu and his Cabinet went to Greece, (but we know they fled to Cyprus and are hiding with the British and French military. Their plan was to empty the gold in Iran's central bank once the revolution started. We have a very wise team watching all these things. Mr. Zarif reported Iran has only 2,000 ballistic missiles, but in fact there are 20,000 and they can sustain months of bombing on Tel Aviv. This was not calculated. Agreements were reached between Russia and Iran, and China. The biggest mistake Netanyahu made was publicly saying that after Iran they'll go for Pakistan. It became clear that the line is China. China entered the war defending Iran. The larger plan became very clear now. But no Chinese, Russians, nor Mr. Zarif, nor the American government, nor Rockefeller and Rothschild Group knew that Iran built a massive arsenal in the background. Nobody knew until last Sunday that Iran has submarines with warhead launching capability. The first wave came from the ocean to give a message to the Americans, that we can get you on top and underneath).

(The European rhetoric claims they control the Iranian airspace, but in fact Iran controls the whole of Israel. No flights, nothing can move. The Americans had to get permission to take their people out. Some months ago I said in the teachings that the American Naval forces are there to collect all the Israelis escaping the state of Israel, and it will come to an end by themselves. Last Thursday it was \$50 for a ticket to Cyprus, now it's \$5,000. Israel is moving out, but you won't see these pictures in the Media or Social Media. The Jews are in 'Exodus' of Israel. It's the way they came).

(In the history it was the Rothschild's who funded for the Zionist to return to Israel. It was discussed before. Many of the Jews in Israel came from East Europe. Netanyahu is really I think Polish, he changed his name to sound Jewish. It's different with the Middle Eastern Jews, like Iranian Jews and others, they are part of the culture of that region and they lived and worked together peacefully with Muslims and Christians for centuries. It was the Rothschild's who planned this so that there would be endless wars and they could continue to make money from weapon sells).

(They won't show you, but Tel Aviv and especially Haifa, and other places, look exactly like what they did to Gaza. It's a wreck. This is not nice to see, but they planned to dominate. The Knesset of Israel was built by Rothschild as a gift to the nation.

Everything was built to create war to make sure the wars continue. Now the wars will finish and domination by Iran will bring an end to the religious war. The Vatican has lost and we'll see a lot of changes. I stand as a senior advisor to three major governments and yet I remain humble and still come and teach. But we stay impartial and correct, because we want to bring the phase of change. They have accused us of a lot of things, but we play one game and that is the technology has to be amongst the people. It has to be taught, grown and looked after by the people).

(Last week 80% of the nation was against the regime. Today we 95% are praising Ayatollah Khamenei of Iran. They united the Iran, because of what they said, stole, took, and did. The missiles answered it. And these missiles are old stock to be gotten rid of. If it goes further, you will see interaction of the technologies which they could not even imagine existed. Nobody knew Iran had submarines that can launch missiles).

(Yesterday, Iran launched a missile that creates plasma and comes at high speed. The biggest mistake Americans and Israelis made was to make this attack on Iran. Now Israel is being flatten and there will be no industry, no port, and no oil to light the cities. The "immigrants" will go back home to Eastern Europe. (Some years ago Mr. Zarif made the Cabinet listen to a 2 hour 55 minute recording of Mr. Keshe's ex-wife saying he was a spy of Israel. Those of you in Iran, you got my notice. You know what we're going to do with you. You know what you've done to yourself, we don't need to do anything with you)).

(Mr. Netanyahu's is actually one of the richest men in the world because of all the money he scuffled on arms. He took a cut from the Iraq gold reserve and 2 other countries, like Syria and the rest. But now he got cut. According to Intelligence Israel has ammunition and food for 48 hours. That's what's on the Internet. Would we see Palestinians coming back from what they destroyed in Gaza, start living in the luxury hotels and rooms of Tel Aviv. They just moved home instead of going to Syria. Hundreds of thousands of Israelis are fleeing and leaving empty apartments. Now instead of being forced into the Sinai deserts they can move into these apartments. It's their land, they were kicked out, and now they are coming back).

(The Jews, Palestinians, Christians, and Moslems all lived together in this land for hundreds of years. But then the Rothschild's financed all the European Jews to come and create division so they could sell arms. That was the big plan. Now, would the Americans make the mistake of touching Iran. Would Netanyahu be a free man by next Friday? We don't know. Everything has changed 180 degrees and gradually we'll open the books of history. We stay loyal to you and the rest of humanity. One idiot financed by Rothschild's has caused so many problems with his lies and deceiving).

(We tell you everything because the people have to understand the truth about what is going on. The people have to be clever to understand the dynamic of life across this planet, then we can all live together very peacefully. The Vatican has lost over 30 trillion in this war. The Americans have lost over 300 trillion investment in Israel. I'll explain later how it happened. Maybe if we don't go into the nuclear phase of attack, we will see

the stepping down of the situation. America will lose its dominance. They are cornered very badly and feel they have to attack to keep their superiority. But they know if they do, Washington, Los Angeles, Chicago, will be unlivable by the Russians. The Chinese will take Philippines. North Korea will flatten most probably Japan and South Korea. We hope this will not happen).

(We hope the Americans will go back. The plan to make Palestinian into the Bahamas will not happen. We have to understand the politics of peace and we are instrumental in doing this. The question was raised about the damages to the Iranian nuclear facilities. Keshe Foundation, according to our ethos, will stand firm and we are in the cleaning phase. The way we gave our technology to help the Japanese in Fukushima is now in the hands of the Iranian government and military to clean up any nuclear mess).

(Full technology transfer has taken place between KF and the Iranian government in the past days. Contamination of Fukushima is the same as contamination of the Iran nuclear centers and the technology is ours to use it. (We have taught the Iranian scientists how to protect themselves and clean up. We stay peaceful. The same way we offered the materials in case Ukraine gets damaged. Secondly, we don't need centrifuges as you've seen in Beijing in past 4 weeks. The way we gave them the obsolete missiles, we'll give them obsolete centrifuges. Let's see what comes. If we don't go to the nuclear phase, we'll see an end to the wars in the Middle East. This is the final phase of the religions).
