

596th Knowledge Seekers Workshop June 26, 2025

(Quick Index 18 pp, Introduction, Topic Index ; Need to do; Key Phrases, Words)

(Auto transcription from Elias)

Aftermath Israel Iran war; Continue Time teaching; Collect Time teachings - Book; No Time in U - manifest - confirm existence of entity; M fields in Time; Every condition - life cycle has Time - measured by interaction of fields; Dream - 2 different time zones - Soul & P; 2 parallel Times running same time - Energy & P; Daydreaming; Schizophrenic life - deny Soul; Accept both -world change; feed through Time of Soul; Create Time inside of Time; Soul evolving faster - own Time; Soul gives knowledge feelings - deny; Each change- create new Time - Times simultaneously run together; Soul evolves by STC; Sun rotates in Galaxy time - U - cannot tune directly - field strengths; Start Clusters have own Time - Soul travels through; Soul cross different barriers - multiplicity M field strengths; Outside weaker - stronger to center STC; Use Time - go to Creator; Expectation according to field strength - decide to use; Train to create Time; Bring Time of Energy & P together - transmute & physical transfer; Trick to travel Time - higher strength; Narcotics connect STM - hallucination Time; Get addicted to drugs - don't need; KF systems expand STM; Peel layers of onion - inner rings higher; Center rings push outward - manifest in outer rings - how STM works; Center is Creator - Original Time; Transmutation through Time - part of Creator; Travel within Soul of others; How Daughter of Mitra created; Create Time with breath - supernatural power; Change strength of breathing - Time of Soul; Connect both Times together - feed & transmute; Flight session - start new Time when transmute; See Creator; P connected to Energy; Why Man kills; New systems support life - tap into emotion & P - start July; Become transparent see Soul; New Headsets & systems - no P - transmute Energy - information in motion; Replicate brain; Deal with STP & STM emotions; Create Time - change Science; Time to release knowledge; Transmute through fields of Creation & Creator; P & Energy creates its own Time - connect both - dream; Reality being denied; Not 2 timings - 2 Times create Creation; Creation needs confirmation of its P - starts Time; P cannot exist without Energy; Use energy of STM & STP directly - not kill for 20% - release inside body; Creation of Time - most important teaching; Time created out of emotion of fields; Make Book of Time teachings; Transmute & feed yourself through Time; Flight for enlightenment; Captains; About Markray - shares for KS who served; Donate shares to KF; KS shares experience of Soul - in womb - enter others Souls; Important teaching on plasma; STP embedded in STM; Intention - love & surrender; Shares childhood Soul travel; Experience emotions - opens knowledge - enlightenment; Why drugs open Soul - don't need; Practice a lot - CR Balls - with noise; Captain help all humanity; Expand Soul don't see body; Light of STP - transmute; 12 day Israel and Iran war tells aftermath; Why didn't use T; Hypersonic T - creates plasma; Militaries online; Huge information missing from public; Precise targets - thousands Israeli scientists killed - 40% - huge losses hidden from public; Nuclear silos and bases under Military hospitals; Biological Weapons lab wiped out - operations worldwide help to humanity; Details of damages & losses; Iron Dome failed; Americans and Israelis started - got punished; Americans Carpet Bombed thousands of tons - B-52's - like Vietnam - kept from News; Leaked documents - IAEA helped kill scientists; Chinese given American T shot down - cracked; Started by Vatican - Rothschild's - money; Last phase of wars; Killed Iranian

Plasma scientist for peace; Beings living inside Earth; Life from core of planet to heart of Creator; KS testimonials - like published scientific research - no payment; 90% of scientific publications are fraud - lies for sponsors; Europeans brought patent's; KF introduce 10% sales tax (Intellectual Rights) given to scientists inventors for technology - like royalties on music; Present T at Tesla Tech New Mexico; Present to scientific community in Vienna; KS offers 1 million shares; All M fields connected - perpetual connection; Plasmatic energy part of matter energy; Plasmatic vortexes; 6 months to build brain; Feed humanity one system - 2 years away; Feel all emotions - change people's perception of war; Centrifugal force of U dictates Mass in U - different in different U - speed of rotation - dictated by center of Unicos; No Black Hole - longitudinal ray - U is elliptical; Why atoms small; Both nuclear decay and nuclear elevation become higher element - not fusion - Cosmic radiation; Fits law of Conservation of Energy; KS - contribute fathers art work to KF; DNA reflection of RNA - STP; Change STP - peaceful; CH3 related to RNA and DNA - matter to Universal Energy; Walk on gravel - energy absorbed

Topic Index

Continue teaching about Time; Not called Time in U - manifestation to confirm existence of entity or life; M fields involved in Time - Universal language - Knowledge of Creation; Every condition of Creation - life cycle has a Time - measured as manifestation of interaction of fields; Dream or a lifetime; Dream is connection between 2 different time zones - bring back to physical life; Time zone always connected to another cycle of life with own time; When Soul leaves body still has life and Time; We live a 2 time zone life - but deny it - ridiculed; When we walk, eat, do everything - same time Soul dreaming inside - traveling, talking - life of Soul going on in background another D; Daydreaming; 2 parallel Times running same time - Energy & P; Schizophrenic life - deny existence of Soul; World will change when accept both; Both sides help each other; Won't have to go to supermarket for food - use Time of Soul - get energy; Create a Time inside of Time; Humans - rest of U evolving together; Soul level evolving much faster - higher level than P; P Time lagging by billions of years; We use satellites telephones to communicate in physical time - Soul traveling U without satellites - has own Time; When we sense something wrong at home - Soul connected; Soul gives us knowledge feelings - we deny it; Soul exists in own D & Time - sometimes connect to P - not listening - carries on with work; Each time go through a change- create a new Time - all these Times simultaneously run together; Earth time by rotation of planet; Soul evolves by dynamism of Creator - Soul of Creator (STC) has different time zones; Our Sun rotates in time of Galaxy - U; Sun cannot tune directly to cycle of Galaxy - due to M field strengths; Collection of hundred thousands of stars create clusters - connects to other cycles; Hundred billion stars - each creates own Time in respect to others; Scientists find clusters - don't understand think something else; In dream & thoughts Soul has to travel through clusters - super galaxies; Soul can cross different barriers because have multiplicity of many M field strengths from inside to outside; Outside weaker - inside higher field strength - center to STC; Each stage has own Time; Connect to Time - go to Creator - an art and understanding; Our expectation is according to understanding of our field strength - like villager going to city; We decide how and which M field strength to

use; Train ourselves to create Time; Bring Time of Energy & P together - transmute & physical transfer; Why teaching about Time; When connect Time to STM & STP & P don't need to go through Energy Time; Trick to travel among different Times; Call upon higher strength make transition; Narcotics create higher order energy in brain - connects STM - create hallucination Time - goes deeper; Why get addicted to drugs; Open higher level with drugs; Denied be able to do by yourself; KF systems and Headphones do this - expand STM; Get addicted to drugs - deny own ability to access; Every cell in brain has same capability and power through STM; Analogy of peeling layers of onion; Inner rings higher order - outer weaker; Center rings push outward to manifest in outer rings - how STM works; Always another center within center etc; Man sits on outer layers - connected to center - center pushes out - for him to exist; All layers have own Time & connected to center; Center is root - Creator - has no structure - but structures everything; Center is original Time - allows rings to be created - each at given strength - harmonizes process; Internally go through outer layers to center - everything connected to center; Travel between Time of Man & Time Soul - transmute; Transmutation through Time - key to travel to STC - be part of Creator; Travel within Soul of others - all Souls connected to STC; How Daughter of Mitra created - not physical creation - interaction of fields of Souls - highest order; When STM ends connection with Time of Earth - can manifest new seed - star - dust; Understand Creation through Time; Time created from Place, Position, Possession & emotion, intellect, enlightenment; P and intellect connected to each other - creates Time of Creation; Use breath to create new Time and creation - close to Energy Time; When experience - obtain supernatural power - have connected Time of P and Time of Energy together; Change strength of breathing - change Time of Soul - won't need to eat; Connects both Times together - feed each other; Create Time and transmute; Do this tomorrow's Flight session; Travel between each others Souls; Try to create Time; Start new Time when you meet; Bring Time and Energy into Time and P - see features of Creator; It's STP, STM, Energy; P does not exist if not connected to Energy - cannot be fed; Why Man kills to keep P going; Hasn't forgotten - doesn't want to understand; New systems to support life on planet - not kill - tap into emotion and P - feed yourself - supply lacking GM fields of Earth; Run system in July; Become transparent see Soul - new Headsets connect; New systems - no P - transmute Energy - information in motion; Elevates STM to new D - create Time between STM & P; Deal with STP & STM emotions - not P; STM tiny dot inside brain mass - creates Time; Why brain works - system to replicate; Create Time - change Science; Time to release knowledge - developing T for it; No need for phones, food, transportation - transmute through fields of Creation & Creator; Understand how P creates its Time - how Energy inside creates its Time - connect both Times together - dream; Reality being denied; Not 2 timings - understanding 2 Times create Creation; Creation needs confirmation of its P - starts Time; P cannot exist without Energy side; Directly use energy of STM & STP - not kill for 20%; Don't need seed to attract energy - instead transfer energy from Souls - release inside body; Creation of Time - most important teaching; Time created out of emotion of fields - not P of matter; Please extract all recent teachings on Time - make book; Key to next level of understanding; Transmute & feed yourself through Time.

Part 2

Flight session tomorrow - go within yourself - transmute between each other's Soul - physically feel other people present - feel own Soul; Know own power and strength - be breakthrough; Know your weaknesses and strengths - move on; Choose Captains within yourself - feeling match with Captain; Trust - give Souls to Captains of Space - take us across U; About Markray - huge evolution in KF; Shares for KS who served KF; Not release more shares - not correct value; Some KS want to donate shares to KF - help get through stagnation; Afterwards give back 1 to 1; If we sell shares at low rate - damage value; KS bought Cosmic Mystery Box - got more than expected - tells experiences working with CR Balls - reach zero-point - detached from body - no consciousness me - only Soul; Important explanation interpretation of experiences; Consciousness - totality of understanding Creation & energy fields; Zero-point - awareness - transmute - feel womb of mother - detached - P below; Energy expands over P; STP embedded in STM - fields match - connection lines same; KS felt in womb - upside down; Happened in his youth - STM stronger on top; Same as giving birth; Close to embracing STP - problem is fear; Set intention to love & surrender; KS entered Soul of another person; Flight session - connect to other Souls - access to emotions and knowledge; He does a lot - don't interfere with Souls development; Don't read minds - connect to them - like meeting people in café; Experience interesting emotions - opens knowledge - enlightenment; Same experience when took psychedelic mushrooms; Be in charge of Soul; Different decision making in P or Energy; Age 12 became aware - hungry - tap into Knowledge of U - deeper now; Practice hard to have experience; Do in public place - noise & people; CR Balls help; Hold Balls each side of head - transmute - balance between Soul & P; Special material to 7 Captains; New Headsets connect all field forces of Man together; Captain - help all Souls of humanity - rest of U; Expand Soul - won't see body - inside own fields; No STP to interact with, or Soul of Planet; P inside STM - as energy not P; Look for light of STP - transmute - know as youth; Cosmic Mystery Boxes - more KS to experience - give back; KS tells history of involvement in KF; KF T shown in different ways - past 2 weeks - Israel and Iran; Why wasn't T used; Hypersonic T - hidden knowledge - solid fuel - creates plasma; Developed by Chinese, Russians, Iranians; Officials from Militaries online; KF has information not in public; Iranians held a lot of things back - testing new T; Made offer to Iranians - change course; Huge piece of information missing - 12 day conflict; Israelis struck - Iranians struck back hundred times worse; About religious superiority - culture of Islamic Middle East - not West; Iran stood against 20 nations backing Israel; Israel lost over 7,500 top engineers, scientists, nuclear physicists; About 75% of their advanced T wiped out; Talks about damages heavy losses to Israel; Put nuclear silos and bases under Military hospitals - why Iran struck - killed thousands of scientists - not civilian hospitals; Destroyed Israel's nuclear bases, Military Port of Haifa, oil refinery, Microsoft's headquarters, Biological Weapons lab, Weizmann headquarters, Mossad headquarters; Gives more details of damages & losses; Iron Dome failed; Israel keeps information from public; Lost 40% of scientists; Killed 4 Iranian nuclear physicists; Economical damage to Israel beyond imagination - closed borders keep people from leaving; War should not have happened - Americans and Israelis started it - got punished; Take 20 years to recover economically - America and Europe will pay; Iran's losses - tens of thousands; Americans Carpet Bombed with thousands of tons - B-52's - like Vietnam - kept from News; Iran emptied centrifuges - not much nuclear radiation damage; Leaked documents prove IAEA gave Israelis information to

kill scientists - Iran not participate; If Israelis go to next phase - nothing left of Israel - Russians and Chinese join; Palestinians shot down Americans drones - shipped to China - replicated - overcome latest American missile T - F-35 & B-2s - cracked soon; Israelis hired Afghanis - assassinate officials and scientist - start revolution; Used telephone and drones; Only beneficiary in war - Rothschild's & Vatican; Best thing for world - destroyed Biological Weapons Center - all chemical weapons in world operated here; Hope for peace - this was religious war - no emotion - decision was Vatican - Israel pawn; Last phase of wars; New Chinese financial system coming; Americans might create bigger war; we have to stop it; Huge offers to Iran; Iran victory - can bring arrogance - other Arabs join; Advise for peace release T; They killed Iranian scientist for peace - knew plasma - supported KF; Time to bring T out - hold Markray shares; Elevate Soul - don't need physical silence; About Beings living inside Earth; Depends how define life; Structure of planet - not way led to believe; Life from core of planet to heart of Creator - space between; Pray for plasma reactors - field interactions create life; Intelligent & decide for selves; Respect all life forms - not just on Earth; KS share testimonials - like published scientific research - no payment; 90% of scientific publications are fraud - lies for sponsors; Europeans brought patent's to get access to other people's knowledge - time over; Instead of patents - KF introduce 10% sales tax (Intellectual Rights) given to scientists inventors for technology - like royalties on music; Every contract with Markray has this new structure; Raise funds for research - greatly advance science; Why Markray shares not correct - collect 10% - revenue; KS presenting at Tesla Tech New Mexico - ask KF to present Plasma T; KF present to scientific community in July in Vienna, Austria; KS offers 1 million shares in Markray to help KF; About magnets; All M fields connected to each other - nobody holding last magnet - perpetual connection - spectrum of strengths; Plasmatic energy part of matter energy; In Books - matter and energy of matter; Move any matter with plasma fields - wood, plastic - everything has M & G fields; M and plasmatic vortexes; Made structure of physical brain; 6 months to build brain; Dictate layers - only use energy not matter; Feed whole of humanity one system - 2 years away; Feel all emotions - change people's perception of war; About Mass - interaction of given amount of field strength; Centrifugal force of U dictates Mass in our U; Mass of element - given strength; Mass of Cu in another U different; Size of neutron fixed; Dictated by center of Unicos; No Black Hole in center of U - long, longitudinal ray; U is elliptical like UFO; Moving within Unicos; Speed of rotation of central column dictates Mass in that U; Electron not moving spherical; Cannot transmute with same Mass from one U into another; Why Mass everywhere same; Why atoms small; Have both nuclear decay and nuclear elevation; Nuclear physics never understood - only think nuclear decay; Nucleus gain energy - become higher element - Cu to gold; Otherwise everything becomes drained - nothing left to divide; Atoms can be elevated; Design new reactors - nuclear elevation; Fits with law of Conservation of Energy; Done through Cosmic radiation - not CR; Fusion doesn't exist: Fusion not nuclear elevation; How produced materials in Beijing; Cannot detect inside nuclear reactor or nuclear materials - conversion of matter outside; Design reactors to produce Cosmic radiation - allows elevation; Mass in one U different in another U; Depends on central force of Unicos; KS - contribute fathers art work to KF - long discussion; Mr. Keshe used to buy art; DNA reflection of RNA - STP; To make Man peaceful - change STP; P just a tool; Change emotion - sits in RNA; Body - reflection of emotion; CH3

related to RNA and DNA; Sugar of life - connects both Universal & matter to Universal Energy; Tell character of person - walk on gravel; Energy absorbed from ground changes blood circulation - creates a reaction of emotion in brain; Shows trust in themselves; Thank you for support - need another 4 or 5 million Markray shares from KS to get things through; Come to tomorrow's session to know yourself.

Introduction to 596 KSW - Importance of Understanding Time - Compile Book - Onion of Time All Connected - How to Experience Soul with CR Balls - Upside Down - Aftermath of Israel Iran War - Universal Mass - Nuclear Elevation - KS Donates Million Shares

The teachings on Time continue to expand and today Mr. Keshe stressed the importance of understanding Time if we want to live in the Universe (U) and be able to transmute and feed ourselves. It is so important that he has requested Knowledge Seekers (KS) to compile all the recent teachings on Time into one file and make a book out of it. For us as humans we only considered time as the speed and number of rotations our planet makes around itself and the Sun, which we measure in the physical dimension (D) as seconds and all the rest. Physicality (P) Time is the lowest form of time, but it cannot exist on its own without the Time of the Soul or the Energy. As we are brought up to only consider ourselves as physical entities whenever we experience the Time of the Soul we treat it as something strange, and to not be ridiculed by others we deny it, just as we deny the existence of the Soul. We pretend to be only physical bodies, but with the emergence of the Plasma Science and Technology that is slowly changing.

It's not easy to ponder about Time without constantly wondering back to minutes and days which refers only to this planet and our body. In the U they don't even call it time. Instead, they refer to time as the confirmation of existence of the manifestation of an entity, or a life form of any shape, it's not just a physical body. And just as life exists as Matter and Energy state, so too does Time exist as both as Physical Time and Energy Time, or Time of the Soul. It is my understanding that when Physical Time manifests there has to be a Soul there also, but with the Soul it is different. A Soul can manifest only as a Soul with its own Time and dimension, it does not need to manifest physicality. This is very important to understand especially with learning transmutation. Everything in Creation follows the same pattern, you cannot transmute only a physical entity, because it cannot exist without a Soul and even a stone has a Soul. So if time is not really minutes and seconds, then what is it? As we were taught from the beginning Time is the M field strength of the Place, Position (entity), and Possession (strength of the AA of the entity), and is the emotion, intelligence, and enlightenment. That's not an easy "yes or no" answer, it requires knowledge, understanding, and comprehension. If we try to feel it, it makes more sense. All we have to do is to think about our dreams and what they are, and how could they manifest. Instead of ignoring it, we can say to ourselves, so that is what a M field interaction is. It's like a subtle energy interacting, even though we usually watch it happening, sometimes we get the feeling that we are part of that dream. Well if I am not part of it, how could it even happen? Learning Plasma Science is not like how we were taught in school to just memorize and accept things without questioning. And in that

system for sure, you don't want to actually feel what you are learning. Can you imagine saying to the teacher in class, "I can feel the consciousness of an atom." If they all didn't laugh at you, then they would want to punish you for being a disturbance.

The interesting part is that the Soul's life is existing and going ahead simultaneously with our physical life. It's like we have 2 different Beings living inside us at the same time. In a way, like Siamese Twins but at the Soul level. This is what we call a "schizophrenic" life, at the same time we are talking, walking, eating, or whatever, the Soul is living its own life in other dimensions. Please don't become frightened by hearing this. In a very short time it will become a natural part of our life and society. We already experience this in our daily life but we give it different names to deny it. One of the things we call it is premonition. We call home because we feel something is wrong, and when we call home we find out we were right. Or we can get inspiration and discover new things that help us in our work. Many times it is our Soul taking care of us and helping us develop ourselves. When we learn how to use the Time of the Soul we'll be able to create the energy we need instead of having to go to the supermarket to get it. The Soul has evolved much faster than the physical side even by billions of years. Maybe that's why they feel so different from each other and the work of the Soul seems like magic. The Soul tries to connect to the P, but after so many times it just gives up. And when it needs to do something the P has to follow, and it wonders what has happened.

Every time we create a new dimension of fields, we create a new Time and all these Times that we have created run simultaneously together. This implies that we are creating new Time periods all the time without knowing it. This needs more clarification. If we create a dimension through the M fields of our emotion it will have a starting time and a finishing time. These Time periods could overlap with each other, and if we have plasmas within plasmas we could also have Time periods within other Time periods. For example, our Soul evolves and rotates in the dynamic structure of the Soul of the Creator (STC), but it still has its own time. Likewise, the P is on Earth, which physically rotates in the Solar System (SS), which is in the Galaxy. Our Sun connects to the Galaxy but it doesn't tune directly into its cycle. I wonder what that means? It has something to do with the pressures and strength of the M fields. Because then he started talking about clusters of stars in the Galaxy that have their own Time. And when we travel in the Soul D we have to go through these clusters. The Soul can do it because it is made up of a multitude of many M field strengths, and if needed the Soul can go deeper inside and connect to the strength of the STC in the center.

The reason they are teaching us about time is because we can create Time and through it transmute and feed ourselves. We have to train in how to use, create, and change M fields strengths and it has to do with our expectation of the field strength. It's deeper than just saying I want to go somewhere. There must be something inside that connects to our feeling and emotion and then being sure about it. But also knowing that one is correct in their ethos and behavior. Mr. Keshe is developing the technology (T) to help us develop our own inner skills, which we already have, but are denying it to ourselves without knowing it. And it's also part of learning and growing, and that is the example of going from a village to a town, then to a city, and eventually traveling the span of the U. It's the

same body that passes through these experiences, but we learn to make a decision about how to use the M field strength. When we can bring the Energy Time and the Physicality Time together then we can create Time for transmutation.

He spoke of another way to do it where we don't need to go through the Energy Time. There is some kind of trick or method to travel through the Time itself. We can travel through what connects all the Times together, but to do that we need to tap into a higher strength field. This is a kind of 'back door' that the Soul of the Man (STM) can do by connecting to the Soul of the Physicality (STP) and P, and traveling that way. He said, this is what narcotics do, they create a higher order energy to the brain and then connect to the STM through a higher field strength and create the Time of Hallucination. But this usually leads to addiction and other problems in the physicality. We have this ability already with us so we don't need the drugs, which then become a denial of our own abilities. Every cell in the brain has its own capability and power to ?? connect to the STM. We don't need the drugs. This is what the KF Headsets do, they expand the STM and connect the lower order energy of the P to a higher order energy of the Soul and create a new Time.

He again used the analogy of the layers of an onion. The outer layers are fluffy and weak compared to the inner ones that are tight and strong. The strong inner core of the onion pushes the fields to the outer edges where they manifest P. That pushing outward allows a space to open up and the manifestation of P to occur. The implication is that the growth of the onion comes through the inner core and pushes outward. In other words, new growth comes from inside and not outside like we might think. The energy comes in through the center and pushes outward to manifest physically at the outer edges. Isn't this the way our solar system works? Then he said, this is the way our Soul works. From a physical point of view the energy of the onion just magically appears in the center. No one has been able to explain that. There is a bigger teaching here. The center is like the Creator and it has no structure, but it structures everything.

He further said, that Man sits on the outer layers of this ring structure and at the same time he is connected to the center. It's the center that the growth starts from and pushes out. This is how life is structured. Each layer has its own Time from the center to the outer layers. And each are connected through the fields with each other and to the center. This is how Time is given for all to exist, and how all the Times are connected to each other. We might think they are separate but they all come from the center and are still connected to it. The center is the original Time and because all the layers are created from it, it harmonizes all together and allows each to have its own Time. Internally, each layer can go straight to the center without having to go through all the layers in between. In this way, Time is the key to traveling to the STC where we become part of the Creator. This analogy of the onion also shows that we can travel through the Soul of the others. And as a KS said, she was able to feel herself inside another Soul and could feel what that Soul was feeling. This is how the Daughter of Mitra was created. There was no physical penetration, it was the interaction of the fields of the Souls of the highest order. At death the STM gets rid of its attachment to P and the outer layers of the onion, then it

can manifest in any of the layers. It can become a new star, or a seed for creation, or a dust.

The Time of Physicality is created out of the PPP, and the Time of Energy from the emotion, intellect, and enlightenment, and both are connected to each other. This is why we can use the breathing to create Time, and if the Energy Time and Physicality Time get connected then we will have supernatural powers, and can feed ourselves and transmute through the energy. The systems are set to help with this in tomorrow's Flight session.

KF is creating a new system to support the life on this planet so that Man does not need to kill. He can tap into the emotion and P and feed himself what is lacking in the structure of the GM fields of the Earth. We hope to start it in July. The system will also make the body transparent so that we can see the Soul inside. The silver sphere Space Reactor we showed back in May has many flaws and is in the D of P. The new system doesn't have that and is an evolution in T. It will make transmutation possible, is information in motion, and will provide all the Man's needs, and at the same time elevate the STM. We can create Time between the STM and the P, but we won't touch the physicality. We only deal with the emotions of the STM and the STP.

It was very nice to hear a KS tell her experiences working with the Cosmic Ray (CR) Balls and how Mr. Keshe answered back with important knowledge of the Soul and shared some of his personal experiences that started at a very young age. It's not a matter of just purchasing the CR Balls and expecting them to do it for us. This KS worked diligently for one and a half months trying to feel one with her Soul and using the CR as a tool. I think of the CR as very high order fields, or in a way, "virgin" Fields from the Creator. Mr. Keshe has the knowledge to access them and convert them into a technology so that we all can access them, if we develop the right inner attitude and emotion and work to fulfill it. She said, she reached a zero-point field where she could let everything go and be one with her feeling. Her question was how can she know she is in the zero-point if there is no "me"? And then on that same line how can she direct the fields?

Mr. Keshe answered in a way to direct us to think about what our consciousness is, and how it works. In the same way that the Soul and P each have their own emotions, they also have their own consciousness. And that the Soul's consciousness is far more aware than the physicality's consciousness and it understands the totality of Creation. While listening to this part over and over it occurred to me, that it is the physicality's consciousness that has the doubt about what it is experiencing, and not the Soul. In a way, we are using the wrong instrument to understand what we are experiencing. This is where a true Master like Mr. Keshe is needed to guide the student through the maze of experiences in the correct way. If the Ego is the guide then confusion and problems can develop. One of the ways we'll know that we have reached this zero-point is that we'll become detached from the P and we'll "see" it below us and it will feel as if our P is cocooned in the energy, like in the womb of the mother. And we will feel that we are part of those fields and not separate like when we submerge ourselves in water.

The KS said, that one time she felt she was in the womb and was wondering why she was upside down. He replied, that this was an indication that she really did experience this because she can describe the feeling of it. The reason the STP is upside down is because the STM is stronger and more aware so it is on the top side. And like the Yin and Yang symbol, the STP is on the bottom. And this is the way it is with the Mother on top, and the baby upside down in her womb. I wonder if the Children of Mitra will have a different feeling because they are identified with the Soul, so they wouldn't feel they are in the position of the STP, upside down in the womb. As a child Mr. Keshe used to experience being upside down when he went into the Soul D. Then he figured out on his own, that energy fields move in one direction. The implication is that if you embrace the STP, you'll become one with it. Would that mean we won't leave it behind at death, because now we are one with it? The biggest problems for us to reach this stage is having the fear of it, or not knowing what it is about or what to do.

Earlier we talked about the layers of the onion and because everything is connected to each other we can go into other Souls. This KS confirmed that she was able to enter the Soul of a little girl she physically saw on her bike in the village. Mr. Keshe never explained why it was important that she saw the girl physically. Maybe there is a difference between that, and entering a Soul completely from the Soul's own dimension without the physical dimension. Then there is the possibility of gaining access to that Soul's knowledge and emotion. But this should only be done with their permission. It is not mind reading, rather it is making a connection to that Soul. The example of meeting strangers in a café and learning from them and exchanging information is similar to how the Soul's work. At Mr. Keshe's level he has the power to actually change peoples conditions if he wants to. But he said, he doesn't interfere because he knows that, that Soul is developing and learning in a certain way. He totally respects that, and doesn't interfere even if he has to suffer from it.

This testimonial makes it very clear that humanity has already entered into a new level of evolution for its spiritual development. Now with the Plasma Technology we don't need to spend 20 to 30 years of doing vigorous spiritual practices in a silent place in the wilderness. But the problem remains of how to quickly mature to be able to integrate what we experience through the T. This KS is diligent and seems to be mature enough to know that she has to work hard to develop herself. What I understood about the past, was that the main purpose of serving a true Guru for many years was for the Ego to be humbled and give up its arrogance, so that it can receive the higher order fields. And of course, develop love and devotion for the Truth. How is the modern "eternal teenager" society going to do that? Or will it be that when one Soul "flips" the others will start flipping, and the Soul will takeover the P and force it through? I think only a Master as great and knowledgeable as Mr. Keshe is able to find a way out of humanity's dilemma. Today's teaching has given us so much hope, and now it is for us to make the move and use what is being made available. He advised the KS to practice, practice, and more practice. This was the reason they released the CR Balls and all this new T.

The war started by Israel and America and 19 other nations against Iran ended after 12 days. If we only listen to the controlled mainstream Media it will be very hard to

understand what really happened. Mr. Keshe gave a detailed explanation about it that will be hard for Westerners to accept. He also said, that the Militaries involved and others are online listening to this teaching to find out what actually happened. From past teachings we learned that Vatican is secretly financing the weapons supplied by America to Israel and the Middle East, with the understanding that they will get the gold in Iran's Central Bank. But more than this, it was a war of religions to see who is superior and the orders to start it were given by Vatican.

The reason it started when it did was because Iran's State Security was able to get 2 truck loads of physical documents out of Israel that exposed their entire government and defense system along with their 90 nuclear warheads. The documents exposed the corruption of Netanyahu with implications to Trump. Israel made a surprise attack together with executing officials and scientist trying to start an internal revolution to change the regime. If we analyze the news carefully we see that Iran's counter attack was very specifically controlled and calculated, as if they really did have detailed information. We'll just give a brief summary of Mr. Keshe's explanation. The intent of the Iranians was to show that for every attack by the Israelis, their response would be a hundred times worse. Iran was able to destroy the nuclear bases they put under Military Hospitals with thousands of military scientists, nuclear physicists, and others responsible for making weapons. They hit Mossad headquarters, Military Port of Haifa along with the refinery, Microsoft headquarters, Biological Weapons lab, and many more. Israel lost 40% of their military scientists, which we hope will result in peace for the region. The devastation is beyond imagination and 3 more days the country would have been totally destroyed. However, you will never hear about this in the Media. When all these devastations were occurring, Trump decided to 'Carpet Bomb' Iran with thousands of tons of bombs like they did in Vietnam. This was totally against International Law, and even his own officials said they have no proof of Iran having nuclear weapons. See the Quick Index for more details. Wiping out the world's center for Biological Weapons lab with 1,500 scientists, who are in a way, 'doctors of death,' was a gift to humanity. But why didn't Iran use the plasma technology? That question remains to be answered.

Mr. Keshe laid out a new system of collecting a 10% sales tax on items that use plasma technology, that would be paid to the inventors. In the same way we pay royalties for music played, we'll pay scientists for their knowledge and helping humanity progress. This will put an end to patents, which the Europeans devised as a way to get access to others knowledge. If the invention doesn't work nobody will buy it and no taxes will be collected. So it will only effect true scientific inventions that improve peoples lives. There are different approaches to it that will be worked out in the future. At the moment, all contracts signed with Markray will have this 10% Intellectual Rights tax to be collected at the point of sale. The funds collected will support scientists and advance research and improve life on Earth.

There were some important plasma teachings we'll briefly summarize. The reason the Mass is a constant everywhere in this U is because it is dictated by the central field forces of the U. Each U has its own Mass. For example, if Cu is 9 in this U, it might be 20 in another. He clarified that there is not a Black Hole in the center of our U, instead it is like

an elongated ray going in a specific direction based on the field interactions with the Unicos. Because our U is moving inside the Unicos its central field forces are stretched out and this causes the U to be elliptical, or like a flatten shape of a UFO and not spherical.

Our scientists only have half of the understanding about the nucleus. They think there is only nuclear decay where the atom loses energy and splits into two new atoms of a lower order. They don't know that the nucleus can also receive energy and become 'Nuclear Elevation.' For example, Cu can increase and become a gold which is a higher order. Nuclear Elevation is not what they call, fusion. Fusion does not exist. Nuclear Elevation can come from Cosmic Radiation, which is different than Cosmic Rays. Energy that is released in the nucleus can also be used for Nuclear Elevation. You can see details in teaching and more will have to be explained in the future.

Other Topics:

If you bring the Time and energy into the D of the Time and physicality, you will see the features of the Creator;

A large number of Markray shares have been reserved for those KS who served the KF over the years. They have kept a list and will give a gift of gratitude;

A Knowledge Seeker offers KF 1 million in Markray shares (about \$120,000) to help solve the current situation;

Thanks for listening.

Quick Index

(We are still teaching about Time and why it is important. In the structure of the Universe (U) we don't call it time. We call it manifestation from where a principle, entity, life, in any shape or form, (its existence) can be confirmed. (In the back of our mind we are always aware that magnetic (M) fields are involved in Time. It's the Universal language, and the knowledge of Creation. Every condition be it Creation, or development of a life cycle has a Time. Time is measured as a manifestation of the interaction of the fields. We call it a dream, or a lifetime. ?? Dream is a connection between the two different time zones, and we bring it back to be part of the reality of the physical life. A time zone is a time of creation, or a manifestation, and it is always connected to another cycle of life that has its own time)).

(When our Soul leaves the physical body, be it during the day or night, or when the physical tangibility of the body of the Man is not needed, traveling on its own, that Soul still has life and a Time. What does this mean? We live a two time zone life. We are aware of it, but we deny it because it's been ridiculed and put down by others who deny their own existence. We walk and eat, while at the same time we dream inside to go somewhere and to be talking to someone else. We can keep the conversation going even

while sitting and eating at a table. (We can be talking to someone, while running in the background, our thoughts and emotions are in another dimension (D)). We call it daydreaming, or we say we were asleep dreaming, but in fact there are two parallel Times running at the same time. One is in the D of Energy and the other is in the D of physicality. We are used to living a "schizophrenic" life. And the only way we have managed to make it acceptable is to deny the existence of the Soul).

(When we learn that the two Time actually run together, and when we enjoy the pleasure and privilege of being in both, then we'll see changes in the world of existence. Then we will find out how we can strengthen and develop the Energy side, or the D of Energy Time to help the physical side, and vice versa. (Now we have to walk to the supermarket to get food, in the future we'll be able to use the Time of the Soul and get the energy we need without having to go to the supermarket). In a way, we need to create a Time inside of the Time. This is where we have fallen short in our understanding of the process of Creation. (The D of evolution is not limited only to humans, the rest of the U is evolving too. The Soul level is evolving much faster and higher level than physical side. In different ways we can access the D of Creation. The P Time is lagging behind the Soul by billions of years)).

(In P we develop satellites to connect telephones and communicate in the physical time, but all the while our Soul is actually traveling the span of the U without any satellite. It has a time of its own. For example, when we sit in our office and feel there is something wrong at home and we call our wife, and she says, yes, something happened. How did we know? We have not accepted that our Soul is already connected. Or we are at work and think of something, and at the same time feel another emotion, another knowledge comes to us and (we find a way to solve our problem). But then we deny that the Soul is working in the background trying to improve and change our life, and be in communication with us. (It doesn't use a mobile phone or a satellite, because it doesn't have a matter state connection to the U)).

(The Soul has its own Time and it exists in its own dimension, but sometimes it tries to connect to our physicality. (But after so many times it realizes we are not listening so it carries on with what it has to do). It does what it wants to do. (?? Each time we go through a change and bring a new D of fields and energy, we create a new Time and all these Times simultaneously run together)).

(On Earth we have decided to time our life according to the rotation of this planet around its sun. But our Soul evolves and rotates in the D of the dynamic structure of the Creator. It has different time zones and it evolves ?? with the Time of the Soul of the Creator (STC). (In our physical D we've chosen our time to be the rotation of the Earth around the Sun. (But even so, our Sun rotates in the time of our Galaxy, which rotates in the time of our U)).

(Nobody has ever (figured out where and how our Solar System (SS) is rotating inside the Galaxy. (?? This means our system connected to another central rotation, that is again connected to the center of the Galaxy). Our Sun cannot tune directly to the cycle of the

Galaxy. (It's impossible if you understand the M field strengths and pressures it experiences. Instead, it works within a cluster, and this cluster has a star of itself. And there are a collection of hundreds of thousands of stars that connect to the next cycle. Then they themselves are connected to another (cycle), which in the end connects to the field forces of the center of the Galaxy)).

(We are not just on our own running around in the Galaxy, there are a hundred billion other stars in it and each one has its own Time. Each one creates its own Time (in combination and in respect to the others). The same thing happens with the galaxies. The galaxies are in clusters, and these clusters again have a central point of fields, or a star. Sometimes our researchers find these stars, but they don't understand what they are seeing. They think they have found a star that so many hundreds times bigger than Earth (the Sun). But these stars have their own time. These are stars for the central Time of the galaxy. They are like the mother of the mother for us. And that mother has another star which it rotates (around)).

(When the World of Science gains a deeper understanding of the Time, Space, Position (entity), and Possession (strength of the AA of the entity), then they will discover that these stars are (part of a) central cluster, and they create a different Time in the D of the universal rotation. (?? When we Soul travel in our dreams and thoughts, what we (see in our dreams) have to cross the borders of the ?? connections of the clusters of these super galaxies. It's like going through different barriers. (Our Soul can do this, because it is a multiplicity of many M field strengths from inside to outside, and it has always done this)). (?? The outside is weaker. As ?? the Soul goes deeper and deeper inside it needs a higher field strength until it reaches the connection to the Soul of the Creator, which sits within the center. Each stage has its own Time and its own creation of manifestation, which gives it confirmation of (its) existence in Time)).

(When we learn how to connect to this Time we can travel the span of the U to the Creator. It's an art and understanding. (It depends how we are educated, and how we understand it, that will bring us to the next house (level). (When we understand the D of the Soul and Energy we'll rise to the next horizon). ?? Our expectation is according to the understanding of (our) field strength. (It's like a man going from the village to a town and seeing bigger things, and then going to the cities, and then traveling the continents, and finally becoming a Traveler of Space). We decide how and which M field strength to use, but it's the same body and structure. We can train ourselves to create Time, and which way the Energy and Physical Times come together, and use it for transmutation, (?? or physical transfer by use of the energy)).

(This is why we have been teaching about Time. Because once you learn how to connect the Time to the Soul of the Man (STM), and to the Soul of Physicality (STP), and to the D of the physical man, then you don't need to go through the Energy Time. (You can travel through ?? Time itself). There is a method and trick to travel among the (different) Times. (You can learn to call upon the higher strength to make that transition). (We do this when we use narcotics, but we haven't learned to do it (on our own). The narcotics create a higher order energy in the brain, which leads the STM at a higher connection,

and it takes us to Time of 'hallucination.' But in fact, we actually create a Time that goes deeper). The higher strength fields of the brain are opened up to the STM. This is why we get addicted (to drugs). (We know this process already, but we have denied it to ourselves). (Without drugs we can bring the higher order energy to the brain and open up that level). This is what the KF systems and Headphones do. They expand the D of the Soul, like what is done through narcotics. They create a new time of connection. They connect the higher order to the lower order energy of the P).

(We bring certain addictions into our lives so we can deny our own ability to access this. We have the possibility, because every cell in the brain has the same capability and power (?? through) the STM. It's just which layer of the onion, are we prepared to peel off. (The rings in the center of the onion are tighter than the outer rings, which are fluffy and weak). The very center ones are the points of power, because they have to push the others (out) to find space for themselves. (?? They manifest themselves in the outer layers. This is how the Soul works. The bigger (weaker) ones are pushed by the stronger ones in the center, and this allows them to open up and manifest themselves (?? in the outer layers). But there is always another center within the center, and further within the center).

(Man sits on the outer layers of this ring structure but he is still connected to the center, because that center one is the one which pushes (?? itself away for him to exist). This is how life is structured. The little one in the middle layers has its own time as much as the ones in the outer layers. (They all are connected to each other through the fields and with the center point). This is how Time is given to all to exist, (and at the same time remain connected to each other at all Times. (We see the rings of the onion, and the little rings in the center, then we understand that everything came from the center). The center is the root, and the Creator. It has no structure, but structures everything (else)).

(?? The center is the original Time, and it allows the rings to be created ?? each at a given strength. It pushes the structure ?? out and harmonizes the process. (It sees that each layer has its own Time, and they all remain connected (to each other) in Time. (?? Internally you can go through the outer layers to the root, because everything is connected to the center. You don't need to go from the outside, you ?? go through the inside. (?? This is the root section, and you can travel between the Time of the Man and the Time of the Soul, and transmute. All times exist in all layers, but the strength and internal power decides where and how we can travel within)).

(Transmutation through Time is the key to travel to the Soul of the Creator (STC) and find yourself to be part of the Creator. Transmutation through Time allows you to (?? physically) transfer, and travel the span of the U. (Like what was said about the layers of the onion, if you know how to transmute and you understand the power and strength of the fields, you can travel within the Soul of the others, because the Souls are all connected to the One STC). This is how the 'Daughter of Mitra' was created. It's not a physical creation, it's the interaction of the fields of the Souls. It is not a physical penetration, it's a connection, an interaction by D of the fields of the highest order).

(?? The STM when it finds itself a new place it can manifest itself as a new star, new seed, or a dust. This is because it doesn't have a connection anymore to the Time in the D of physicality, (where it was part of the same Time structure. In effect, it got rid of the outer layers of the onion and now it can manifest itself in any of the rings). Man has to understand the process of the structure of the Creation through Time. Don't forget, Time was created out of the Place, Position, and Possession (PPP), as the Time of P. And then there is the emotion, intellect, and enlightenment, the Time of its own. The P and intellect are connected to each other, which creates the Time of the Creation. We're dealing with that Time. This is why we can physically breathe to create the conditions of a new Time and creation. That Time will be close to the D of the Energy Time. (When we experience this we are able to do things which cannot be normally done in P because we have connected the Time of the P and the Time of Energy together)).

(By changing the strength of the breathing, we can change the Time of the creation of the connection, to the Time of the Soul. (This is the Energy side and we can feed ourselves with it. This is why we won't need to eat. This is a real process we have to understand. We create a Time for the connection of the two Times together, and that creates a new Time condition, that the two can feed each other. Once we understand how to play with the creation of Time, in the D of physicality and the Energy, or what we call the STM, we will achieve the true transmutation)).

(In tomorrow's Monthly Flight session we'll try to bring you to be able to do that. Let's see how many of you can travel between each other's Soul. Which one of you will feel the other's Soul, because we can create that clash. All of you will be together in a 4 hour session and let's see which of you will be able to contact another, and what you will remember from what you will see. Try to remember what you gave, and how you created that Time. You start a new Time when you meet. You will feel when the new Time starts. What will you do with that time? (If you learn this then you can connect the P Time to the Energy Time and transmute. Otherwise, you're still dreaming. I made Man in the image of Myself, because I am the image in the D of the Time, in the D of Energy, and not the physicality. Man has not yet understood this)).

(If you understand this and can bring the D of the Time and Energy into the D of the Time and physicality, you will see the feature of the Creator, and the connection, and central energy of each, (as it manifests itself). It's the STP and STM, Energy. The P does not exist if it's not connected to the Energy, it cannot be fed. This is why Man kills to keep that physicality going. He hasn't forgotten, rather he doesn't want to understand, that he can connect to the D of Energy and feed the P through the STM).

(Systems are getting developed to create that dimension and condition. We are creating a new D in supporting the life on this planet so that the Man does not need to kill. Man can tap into the D of emotion and P and in that process feed itself. He can make up for what was lacking, and is lacking in the structure of the GM fields of the Earth. The new system will support both. This way the Man stops killing to survive. Most probably in the July Flight session we'll run this system for the first time and the P, emotion, and Soul will be

fed and Man will receive what he needs. For those of you who will join the July session we would like to know how much you change).

(In the coming weeks we will show the structure of the new transmutation system. (The Man will become transparent and be able to see his Soul). The new Headsets we showed last week is the connection to this new system. We are not just releasing the Headsets just as something on its own. It is all done for connecting to this system. Would it stop you from killing, abusing, eating, and a lot of other things which you do? And would it give you a chance to transmute?)

(We have changed the structure. (We showed you that silver sphere Space reactor some weeks ago in Beijing, but it has flaws and limitations). And it brings the D of physicality into play. With the new systems we won't have that. The evolution in technology makes the transmutation very possible. It doesn't just transmute the P, it transmutes the Energy, information in motion, (and provides) everything the Man needs, and at the same time elevates the STM to a new D. It's the structure where we create Time between the STM, and the P. The new system is undergoing its full development and will bring for the first time the condition that we do not touch the physicality. We deal with the STP and the STM in the dimension of emotion of both).

(If you look at the structure of your brain, and where your Soul is located, the rest of that lump of mass, or matter has to be control ?? and connected to that tiny little spot (of the STM). (This is a 'game changer' in the structure of being able to create Time). It is upon us and we have developed it. It's going through the final phases. The structure will not allow the D of physicality, because the STM and STP are interconnected, and they don't live through any physical D of conversion into matter state. (?? This is the way your brain works, its energy fields connect to the STM, and the ?? creation of Time)).

(When Man goes through this process and understands how to create Time, then you will understand how fast the World of Science will change. It's time to release this knowledge. And we are developing the T for it. There is no need for mobile phones, food, or transportation, because Man will be able to transmute through the D of the fields of the Creation and the Creator).

(Try to understand the process of the creation of Time and how your physical D creates its Time, and how the Energy inside you creates its Time. When you can connect the two Times together, which sometimes you do, then it becomes a dream. Then you will understand how the reality has been denied by Man. It's not two-timings. It's understanding the two Times which create Creation. Creation cannot exist without the dimension of confirmation of its physicality, which starts Time. And the creation of P cannot exist without the Energy side. Why has Man chosen to kill to take that little bit of energy? (?? When he can directly use ?? the energy of the STP, and directly use the energy of the STM). We don't need to put a seed inside to attract (energy from outside), instead we can transfer the energy from the energy side, and it can release itself inside the D of physicality, or the body)).

(Probably the most important part of all the teachings we ever did was to bring Man to understand the creation of Time. Time is created out of the emotion of the fields and not by the D of physicality of the matter. If you understood today's teaching you have already become a traveler of the U).

(We would like a KS to extract all the recent teachings on Time and put them together as a kind of book. A book of Time, and we'll release it. Make a single file of all the Time teachings. This will be the key for Man to progress to the next level of understanding. Because, if you understand Time and how it's created, then you can feed yourself through Time and transmute through Time).

End of Quick Index Part 1 - 596 KSW

(In tomorrow's Monthly Flight session come with one pre-set idea in your mind and that is, that you're going to transmute between the Soul and P. We are not taking you to go somewhere, we are taking you to go within yourself. You can try to transmute between each other's Soul and see if you can feel physically other people present in the system. See if you can feel your own Soul and enjoy its presence. We have given you a big D up to now so that you could do whatever you liked, but now you have to know yourself. You have to know your own power and strength, and this will be a breakthrough for us).

(You will have 4 hours to know yourself and you don't need to go anywhere else to do it. You don't need to travel the span of the U, or go into the desert to find yourself, instead you travel within yourself. You need to know yourself and understand your weaknesses and strengths, so that you can move on. Also in the process tomorrow you'll choose your Captain and see if you can connect to them. Once you know yourself, we'll inform you, and then you can connect to the Captain of your choice. (Does he mean they will see on the graph when you know yourself?) We don't need to know the Captain you choose, that is within yourself. (?? Your feelings should match with the Captain. This is how we trust ourselves to give our Souls to the Captains of Space and they will take us to places, much the same way we do with the aircrafts of today. Tomorrow's session will be very intriguing. It's for one to know oneself. I hope we can bring you to be ready for what we want to do with you in July).

(About Markray get confirmation receipts or certificates for your shares. There's going to be huge evolution in KF and it will come through the Markray side of our work. We have reserved a large number of shares for Knowledge Seekers (KS) who served KF and they will be well rewarded for their support through our work with Markray. That's for sure. It doesn't matter if you helped us 20 years or 2 weeks ago. We have kept a list of those who served the Foundation well. We'll answer you back and thank you for all your help).

(We are not releasing (anymore) shares due to the fact that the share values on the stock market are not realistic, and due to other factors. You can buy shares from other KS if they want to sell. Some KS who have bought shares have suggested making it available financially to KF, so that we can go through this current situation where we need funds. After we pass through this condition, we'll give them back their shares. We are still in a

stagnated position and we need 1 million dollars to go through this. We'll give you back shares at a one to one rate. If you have 1 to 2 million shares, you can sell them and give the money to KF, because we need it urgently. You would help us to go through this stagnated period. If we sell the shares at this low rate it will damage the value of the stocks in the market. And we are not prepared to that to or to go under ?? investigation).

(A KS bought the Cosmic Mystery Box from the KF Store and got way more than she expected).

Q: I said to myself, wow, I got all this! It was really amazing. At the moment I am working with the Cosmic Ray (CR) Balls and I managed to get into that zero point field. I got detached from my body after one and a half months of hard work. I can let everything go and be one with what I feel. How do I know if I'm in this zero point field where there is no me, no consciousness me, there's only Soul in this zero point field. How can I direct the things I want to do in the energy fields, if there is no consciousness me? It's only the Soul.

K- (The consciousness the way you talk about it, is not the exclusivity of P. Consciousness is a totality of understanding the process of Creation and the energy fields. (?? The way emotion is parallel to the P and Energy, consciousness is the same). Your Soul is more conscious in D and strength, than your own consciousness and P. When you reach the zero point, which is the point of transmutation, or awareness, you will see and feel the energy of your P to be cocooned like a baby inside the womb of the mother. You will feel and see it. If you become detached from it, then usually you will see it physically below you. If you embrace it and become conscious of its existence, then you'll feel it within you. It's like how a mother feels her child inside her womb. It's because the Soul expands. The energy field expands beyond the energy fields of the P).

(An example of this is like when you have a gel and an object outside it, and then the gel expands over the object and it becomes inside it. The STP gets embedded and embraced by the fields of the STM. You cannot take it over, but you can connect to it. This is how it's done. It's not the (same as when you jump into water and you're inside it, ?? but you're (still separate from the water). (?? When the energy and ?? field strength match, then ?? the STP gets brought into the STM and you become part of it)).

(?? You can test this by getting two different kinds of gels and injecting one inside the other and watching it expand inside. This is how it will be when your STP will be inside the STM. (?? You will see the connection lines because they are the same, and you'll just see the colors, the connections, and emotions. When you expand, it's not just taking over the P, it's connecting all the (connection) lines which are common to each other and are now inside). (?? They are pretty much the same. But you should understand the emergence of the two). You are always conscious of it and you see and are aware of it. This is why you will be able to manifest yourself and put it (back) outside).

Q: One time I felt and saw that I was in the womb. My physical consciousness suddenly questioned, why am I feeling upside down? I really felt I was in the womb and there was

a veil around me. But I didn't know what to do with it, so I let it go. But now I understand I had to be one with it, to connect with it. Is that right?

K- Yes. (This happens to many people. It used to happen to me when I was very young. Then I start understanding and comprehending the way it is. The Soul is always stronger and that's why we see it on top, as I call it, standing up. The STP always looks upside down, but I don't know why. Even when you separate from the body you see the P for example on the bed. In a different way it's upside down. This is correct, because it's like the Yin and Yang. If you decide that the STP should be inside the STM, then as an energy field one has to be on top. We usually choose the STM for the top, because it stands up. This is very normal and because you can explain the feeling it means you have actually gone through the process. This is the same process as giving birth. Where the head (of the mother) is up and the child is upside down, opposite to the mother).

(It took me a long time to understand the reason why everything is in reverse. When you go to the D of the energy fields everything is one dimension, or one direction. You were very close to embracing the STP, and you most probably achieved it. The biggest problem is the fear. (?? But when people understand then they will be able to let go)).

Q: I don't have fear, it's more like not knowing what to feel, or what to do. So I just feel everything that comes to me. I don't focus on a specific point, but before I start with the session I always set my intention and I connect to the fields and I send love to all the fields, and then ask the fields to connect to me and show me the way. (Then I follow that way). It brings me very quickly into the field where I don't feel my body anymore and then the visions and feelings start. (One time) it brought me into the consciousness of a girl here in the village that was riding her bike behind her parents. And I felt her emotion, and I didn't even know the girl. I had the thought, why is my Soul taking me to a strange girl now?

K- Did you see the girl, physically?

Q: Yes, I saw her (with my physical vision).

K- (In tomorrow's Flight session you will be able to connect to the other Souls in the session. We'll start connecting on two levels. And you can connect to your Captains. (?? Try to physically see them. Be aware of the conditions and try to gain access to their emotions and knowledge, but with their permission, of course)).

(I do this quite a lot. (Some KS were asking me why, when I know things will happen, do I allow them to happen when they are painful). I said, because I don't interfere with their life. They asked why do I let myself suffer when (?? I can change it. No, because I just watch it. Because the cycle of Time has to go through its own process. (I don't just change things because I can). (You reach a point where you are aware of the others emotion and their life, and you respect it, and don't interfere. You can learn from it, (if they allow it), then you can progress rapidly in the D of knowing how to interact with two dimensions of the Souls. You don't read minds. You just connect to them. It's like the

way you go into a café and meet strangers, (by talking to them you get to know what they know). This time we go to the "café" of the U. There are very interesting emotions (there). It's interesting that KS are gradually going through these emotions. I know them well because I have been through it. It opens knowledge and brings enlightenment).

Q: I felt these feelings before when I took psychedelic mushrooms. I was suddenly in the consciousness of my partner who was guiding me, and felt him completely. I knew his emotions, who he was, why he did the things he did. That's how I could recognize when I was in the girl's consciousness. I always thought with transmutation that you can direct what you want to experience. But I think I must completely let go of the control of myself, and let my Soul decide? Is that the right way?

K- In a way, you are in charge of your Soul. (You have to understand the difference between decision making in the D of the energy, and P. Recognition is the easiest and most difficult part. I went through this process when I was about 12 years old, maybe younger, and I could choose between the two. I became aware of what decisions I made in the D of energy, but it doesn't need to affect the D of P unless I want it to. I remember in those days I was very hungry for knowledge of the U, and I could tap into it. Later on I understood the Universal fields of knowledge and that has not stopped. It has become much deeper rooted in me. All of us have the capability to get to that point. You have to understand what you need from this privilege).

(The KS said they only got that feeling of being in the womb once. Mr. Keshe recommended to practice a lot. One of the best ways is to not isolate yourself. Instead, try to sit in a room with a lot of noise and people and see if you can do it there. This is why we are releasing the Cosmic Ray (CR) Balls. (These should be delivered very soon because all the orders are completed). Hold one Ball in each hand and try to limit the D of physicality. This is what these Balls were partially built for. Bring your hands with the two Balls as close as possible to the sides of your head, like how the Headphones are positioned. You'll create a D of rotation of the fields between the two Balls and your Soul. They you can go through a very fast transmutation. But you have to understand what you are doing. We sent out special material to the 7 Captains, and you will interact with them. They are embedded, they cannot be touched. The whole structure of the Soul is part of their P. The CR Balls can bring balance between the Soul and P).

(The new Headsets connect every part of the field forces of the Man together. There is another edition, a system ?? where the Captain will be for all the Souls of humanity in the rest of the U. It's an amazing structure once it's finished. You will expand your Soul directly beyond the P and you'll feel that warmth and energy. (?? You won't see your body because now you are inside looking at your own field energy, which does not allow (you to see your body)). There will be no STP to interact with, or its energies to interact with the Soul of the Planet, which creates its manifestation. Now you will be dealing with the two energies of the Souls inside, which will not create P, but will have the awareness of P and connection to the emotions, which connects you with Consciousness, and the fields of P. ?? But now the P is in the STM at the energy level, and not the physical D. (When you see yourself, for example, upside down as the physical part, try to see the

light within it, which is the light of the STP). This is when transmutation can happen. I am fully aware of this since before my teenage years).

(We put out all these Cosmic Mystery Boxes so that more people could experience the plasma and become part of the process of expanding the Technology. We wanted to share and give back to the people who helped us to be where we are today. Thank you for all your work you did in Netherlands).

Q: (A KS tells the history of his involvement with KF and plasma. Does the hypersonic abilities of Iran, Russia, and China come from the KF plasma technology?)

K- (The KF technology has been well shown in different ways during the past two weeks (of the war between America, Israel, and Iran). There's no question why the systems were not used. I asked that question to the officials and got a very direct answer, that was very interesting for me. China used part of this T last week, by switching on and switching off aircraft, and disappearing from the radar and then appearing over Tehran. Literally you cannot detect it. It wasn't detectable and this brought a shock to the systems. Aspects of the hypersonic T is hidden knowledge, which in the future will be released. It works partially because of the solid fuel. The solid fuel at the highest speed creates plasma and if you can add certain fields to the plasma you can change it. These technologies are getting developed by the Chinese, Russians, and Iranians partially. We are waiting to be answered why the plasma T was not used. The first part was answered, it's confidentiality of the military (national security) and we have to keep it that way).

(Officials from Israeli, Iranian, Chinese, Russian, and American Militaries, and a few others are online listening to this KSW today. We've been told and have been tracking them, they are here. They're expecting some announcements from KF in this respect. We are privileged to have information that is not in public, and our intelligence structure gives us a lot of insights).

(We understand why the Iranians are holding a lot of things back. They're testing new technologies. We have made a very impressive offer to the Iranians, which we are waiting for an answer and should receive it within the next few days. This will change the course with Plasma and Space T. We have to wait for what the officials decide).

(There is a huge piece of information missing (in the reports during the past 12 days of the conflict, and this has to be understood. Why did the Iranians take this course of action with rockets, missiles, and the rest of it, which we understand. (When the Israelis struck, then the Iranians struck back, but a hundred times worse). This is what they wanted to show. The conflict has created a lot of mess. (But it's more about religious superiority, than actually the technical superiority. You have to understand this from the point of view of the Islamic world in the Middle East, rather than the point of view of the West)).

(In the first 7 days Iran stood on its own, against 20 nations backing Israel from the land and sea, and with weapons, and everything else possible. The total damage to the Israeli side is very heavy. Israel has lost over 7,500 top engineers, scientists, nuclear physicists,

and the rest. The estimate is over 11,000. 7,500 top Israeli scientists have disappeared. (But the news only mentions about the killed Iranian nuclear physicists, and the rest. They ignore that Israel has lost half of its nuclear scientists)). We're talking statistics, but we're not getting involved in it here).

(Around 65 to 75% of the advanced technology of Israel is wiped out. It does not exist anymore. The casualties on the financial side is in 5 and 6 digits. The total loss of life is in excess of 75,000 in Israel alone. These are not figures made up. Israel accused the Palestinians of building silos under hospitals. (But this is what Israel does. In the News they said Iran attacked Israeli military hospitals, but they didn't tell you that Israel does half of its military nuclear weapons research under military hospitals. Iran did not hit the hospitals to kill patients and military soldiers. Half of the soldiers killed in these hospitals are military scientists, nuclear physicists, using a military hospital as a cover. So when you hear Iran hitting military hospitals, they are actually hitting nuclear silos kept underneath these hospitals. Iran did not touch a civilian hospital. This is proven by the words of Mr. Netanyahu when they show him at a ruined Military hospital. He himself said, that right next door is an untouched Children's hospital. Only the nuclear base was hit. What the Israelis accused the Palestinians of doing, they themselves do).

(Actually, most of the military nuclear warheads and central operations of Israel's nuclear side are under Military hospitals. That's why they were attacked. You can imagine if 3,000 people are working in the nuclear base in these hospitals, then we can estimate that around 3 to 5,000 have been wiped out in the hospitals. We didn't touch the Children's hospital. The target was the military nuclear silos and their operation Headquarters. Other targets were hit. The whole military Port of Haifa is gone. As well as the oil refinery, Microsoft's headquarters, the Biological Weapons lab, and the Weizmann headquarters. All the scientists were working there during the attack because they thought their "Iron Dome" would protect them. One and a half thousand scientists were in the Biological Weapons Center and nothing is left of it. There were three to five thousand in the Port of Haifa, maybe more. The biggest loss came where they put military bases inside the basements of (?? civilian) housing. In the News you see those big devastated buildings. Every building in Israel has a bomb shelter (by law). When you see the destroyed apartment blocks on top, all the people are in the basements in the shelters, and the buildings collapsed on them. This is where these figures of 50,000 missing at the moment come from).

(All this information Israel doesn't want you to know or see. They don't want you to know that all the advanced technology, drones, Microchip, Research centers, and the other things have been wiped out. They never thought they were going to be touched. Israel has lost 40% of its scientists. They killed 4 Iranian nuclear physicists, and lost 40% of their own knowledge base. The economical damage to Israel is beyond imagination. They closed the borders because they don't have enough people to look after their own population anymore, so they can't let people leave).

(This war should not have happened. The Americans and Israelis went for it, and they got punished by it. It will take 20 years for Israel to recover economically. They will need all

the resources from America and Europe to pay for it. The biggest loss was the 7,500 to 8,000 scientists, nuclear physicists, and the rest. It takes years to replace them and there are no more Jews left to follow in their place. Therefore, there will be a 40 years gap to replace the scientists).

Q: I saw leaked videos of those buildings before they got hit. Indeed, they was a military command center in that hospital, below it.

K- The reality is, if Iran would have kept the war going for three more days Israel would have had nothing left to live on.

(But don't forget, Iran's losses runs into tens of thousands too, because Americans used B-52's and "Carpet Bombed," like they did in Vietnam. (But you won't hear this in the News, but it's a fact. The losses in Iran are huge because the Americans used thousands of tons of bombs. But we have not lost any nuclear material. The Iranians were well informed beforehand and emptied all the centrifuges of nuclear material. This is why we don't see so much nuclear radiation damage, they cannot detect it because it's not there).

(It wasn't background diplomacy. We knew long before what they were going to do. (We left the target there. Iran will not participate anymore in the IAEA, because the leaked documents prove that IAEA gave the Israelis information to kill scientists and other things. A couple weeks ago Mr. Keshe told about the 2 truck loads of physical documents that got out of Israel. This gave the Iranians precise information of where to strike. If the Israelis go to the next phase there will be nothing left of Israel. This time the Russians and Chinese will be in it).

(The Palestinians shot down a lot of Americans drones and other things and these captured drones were shipped to China. China has replicated them and understand how to overcome everyone of the latest American missile technology. This includes about 10% of the missiles that don't explode were sold to the Chinese. The F-35 is now in the hands of Chinese and the B-2s will be cracked very soon). (The Americans are trying to "save face" by saying they've done everything. But they're negotiating out of weakness)).

(The Israelis hired ignorant and illiterate people from Afghanistan to assassinate officials and scientist in Iran to start a revolution. They gave them a drone and the telephone number of the target. They called the number and used that as tracking for the drone to hit. Now they won't get any Iranian telephone numbers. About a thousand people were captured doing this job and the majority are from Afghanistan, and not Iranians. Israel is running out of fuel so they can't drive freely. This opens the door for Palestinians in Gaza to go to the empty houses left by the fleeing Israelis. But they are just going back to their own homeland. Israel is living on 'hand outs' from the American naval forces. The Pakistanis did not let Iran down. The last thing Trump did before attacking Iran was to try to get access from Pakistan, but they refused. The only beneficiary in this war are Rothschild's and Vatican. Watch the rise in Israelis death certificates in the next 6 to 12 months).

(The best thing that happened in this war was that the Biological Weapons Center, which was the essence of all the chemical warfare in the world was destroyed. This is a big help to humanity. All the biological weapons research, all the chemical weapons was operated through this center under different covers with different nations. Now it's gone. This is according to the Iranian government. It was in full operational when it was hit. (?? They were developing the latest weapons to use on Iran). Unfortunately, humanity has been lucky with this. All the drone facilities are gone. They were full of engineers and top scientists. The losses are more than can be imagined from both sides. It took 11 nations to bomb Iran and do everything to stop Iran. One good thing happened with Iran. Now we don't need to develop nuclear materials because Russia will give it to us free. We have become nuclear without wanting to. So what's next? Don't look at the rhetoric in the Western News. They're bleeding beyond).

(We hope for peace, but this is a religious war and has nothing to do with humanity. These people have no emotion. The Vatican decided to launch this. Israel is just a tool, and the rest of it. This is the last phase of mankind jumping on each other. There are a lot of things happening economically. The ?? SWIFT will go out of use in next few months and the new Chinese system will come into operation with a lot of banks. The people outside don't know (about this). The economical situation in Russia has changed opposite to what they were expecting with the Ukraine war. This will show itself very soon. The rare Earth materials are blocked to America and this has paralyzed a lot of other things. (?? They brought this nonsense (on themselves by getting rid of the people ..) The Americans might create a bigger war to divert attention from internal problems). (It's horrible what's happening, and we have to stop it. We're trying every possible way with the Iranian government to find a solution. We have made huge offers to the Iranian government in the past 48 hours. But they have now found a weakness in the animal, how it's bleeding and they're not letting it go. This is the wrong approach by the Iranians, but that's the decision of the Iranian National Government. There is solidarity in the nation and at the same time now a lot of Arab nations are joining them. This can bring arrogance which is not good. (The time to stop is now. If Israel goes any further there'll be nothing left of the State of Israel. They will have demolished it themselves. They came in as a refugees, and they'll leave as refugees)).

(This should not have happened. But one man brought his nation to war. But this time he chewed more than he could swallow. We lost one of the biggest supporters of KF on the first day of the attack. Knowledge Seekers will one day know this man who stood by our technology and science in Iran. They shouldn't have killed him he was a great scientist and had a huge understanding of the new technology and the changes to come. It's time for peace and it's time to bring the new technology out, and we are on the verge of doing it. Don't sell your Markray shares, hold on to them).

(There was a request for two minutes of silence to elevate the Souls of all those who have died in the wars in the Middle East and Russia and Ukraine. Mr. Keshe replied, why don't you give me a Soul, then bring it to the dimension of physicality of silence? Use these two minutes to elevate the Soul of the World leaders. Nothing else. And you don't need

the physical silence. Make the time within you and you can reach it much more than (in silence).

(There was a question about human-like Beings living inside the Earth, possibly in a non-material state. Mr. Keshe answered that first there are a number of things you would have to understand about how you define life. (To have life doesn't mean it ?? has to have physical intelligence or a physical body like that of the Man. Life can be in any shape or structure. ?? It can have emotion, understanding, and intelligence. This is the same across the U and not the exclusivity of the Earth. As we have the birds flying in the sky, fish swimming in the sea, Man on the surface, we also have Life within the structure of the planet. (?? It all depends on its structure and how it physically manifests itself)).

(The whole structure of this planet is not the way we've been led to believe about it. There are moles and other animals that tunnel into the Earth and live intelligent lives. There is even life in the core of the planet. (?? They only know about their own life and not what is happening on the surface)).

(He talks about praying for the plasma reactors we build because through the fields we create lives. (There is life all over the U and in the so-called empty spaces). They have intelligence and decide things for themselves. They can accumulate, divide, and everything else all the other life forms do. In some parts of the U at the age of 20 million years you're still a kid. Man has to respect (all life forms and not just what's on Earth). (Intelligent life can replicate and finds a way to survive. Intelligence brings survival. When we travel Space we'll encounter other lives which are intellectually more advanced or sometimes behind us. Life exists from the center of the planet to the heart of the Creator and all the space in between).

(KS can share testimonials in the KF testimonial group. All these testimonials will one day be opened up in a different way and people will learn from them step by step. In scientific research they publish paper, but KS make testimonials without payment so there is no interference with the outcome or the research).

(If you want to keep a technology or knowledge hidden, then write scientific papers. It's now understood that 90% of the publications are all fraud. They are written to defraud and divert attention from true knowledge, and to partially cover the lies of those who have sponsored them. More of this is coming out into public. The worst thing you can do is to patent a technology, because it's a cheat. The Europeans brought in this patent business to get access to other people's knowledge, and people are not going to stand for it anymore).

(I will make a quick summary but you can read the original text. Mr. Keshe has come up with a new system where you collect a 10% sale tax at the point of sale for the scientist who invented the T. It's an Intellectual Rights kind of tax, similar to royalties paid to musicians every time their music is used. So every time the KF plasma T is used, a 10% tax will have to be collected and given to the inventor. Every contract with Markray will have this new structure as part of it. They will have to collect 10% at the point of sale. So

if the T doesn't work and nobody buys it then you don't get anything. But if it works then the scientists will be paid. This will raise lots of funds for research and will greatly advance science. (?? It's not clear but he also said something about the factories paying and not the public). Please study the original. Now you understand why we said the price of the Markray shares are not correct. If you collect this 10%, then you can see where the revenue will come from).

(A KS is presenting at Tesla Tech in New Mexico this August and would like KF to present a demonstration of the Plasma Technology at the event. More details about it are given. There will be scientists presenting cold fusion and things like that. Mr. Keshe is considering the possibility of attending as the commercial American Markray Space development corporation and not as KF. They will discuss it further. KF will give a 3 hour lecture to the scientific community in July in Vienna, Austria organized by Dr. Kern. They will present the psychological part of the Technology, and Plasma and Cosmic Ray T to the World of Medicine).

(A KS wants to sell his 1 million shares in Markray to give to the KF to help it through this difficult time. He will be given the shares one for one back, after the problem is solved. At 11 cents a share that's about 120,000 dollars. This will help but we still need more. Thank you very much).

(A KS asked a question about lateral magnets and how they move. It's not so clear, please read it on your own. Mr. Keshe answered, M fields are all connected to each other. Nobody's holding the last magnet, it's a perpetual connection of the M fields. It's the spectrum of field strength that connects to what, how, and to what matter state. We never considered it, but plasmatic energy is part of the structure of matter energy. This is why in the teachings and Books I always talk about the matter and the energy of the matter. This is why we can move any matter with plasma fields, like wood, stones, and plastic. Everything has M and G fields. There is no end to a M field, it's one vicious circle going around and back onto itself). (Please read on your own for further information)).

(There are M and plasmatic vortexes made by the fields themselves, in how they connect to each other. Years ago we made the structure of the physical brain. In maybe 6 months we'll build the structure of the energy of the brain, which is a total breakthrough in the world of science. We can dictate the layers, but at the same time, we only use the energy and not matter. We can feed the whole of humanity with one system. We are maybe 2 years away from it, maybe less, maybe more. Our scientists have to understand the work. We'll be able to feel all emotions, and touch all emotions, and change people's perception of war, and destroy that (feeling inside the Man)).

Q: (A KS asked a complicated question about what our Mass would be at the destination. Please read it.

(?? Mass is the interaction of the given amount of field strength. The centrifugal force of the U dictates the Mass (in our U). The Mass of an element is the balance fields of the GM fields of a given strength. The amount of fields is explained as a Mass and this is

dictated by the central point of this U. While the Mass of Copper (Cu) in another U can be totally different. It's the field forces (of the U) that dictates it. This dictates how many fields there can be and why the energy of an electron, proton, or neutron is fixed. We cannot change it, because it is dictated by central forces of the center of the U. But within this, there is another field that is dictated by the center of the Unicos. The Masses are not all the same in all the Universes. We know already that the Weight changes by interaction of local fields. The Mass in the center is dictated by the centrifuge forces of the inner center).

(All the Universes do not have a central Black Hole. Rather its center is a long, longitudinal ray. It has this shape because it's moving within the Unicos. And it has a direction. If we look at the U from outside it looks like a UFO shape, it's not spherical, it's more elliptical. The central line is a combination between light and matter as a plasma. The speed of rotation of the central column of the U dictates the Mass in that U. If the speed and absorption rate of (?? some Mass is different, then it will reject it into the Unicos). This also is what happens in the atomic structure, an ?? electron is not moving spherical, it's more like a plasma UFO shape, because the central point dictates its motion. It's not a ball. This shape dictates the Mass, the matter state. This is part of the understanding of transmutation. You cannot transmute with the same Mass from one Universe into another. It's impossible).

(I'll explain it backwards, the Mass is an interaction of the GM fields at the level of the U for every matter. This is why we say the Mass of something is the same everywhere. When it interacts with the environment it gets a Weight. But you also have to understand that this Mass is itself dictated by the Unicos Mass, by its central field forces (?? that this U allows its fields to interact with)).

(The Mass in this U is fixed by its interaction between the fields of itself in the central point. That's why there is such a small amount (?? as the atoms). Atoms are not the size of a galaxy. It has gone down to the lowest common denominator field strength package. This is why we go through nuclear decay. Because this package interacts with the fields around it, that come from other Masses. (Through giving and taking, it divides)).

(There is a part of nuclear physics that has never been understood. They think that only nuclear decay happens, but in fact, the nucleus can gain in energy and become a higher element. Mr. Keshe calls this "nuclear elevation," where Cu can actually go to a higher matter of say gold. This happens all the time in the U through ?? plasmatic interaction and absorption. You cannot have a one-way traffic where the nucleus only decays or loses energy. Whoever came up with this knowledge was totally wrong. Because then eventually everything will become drained and there will be nothing left to divide. The atoms can also be elevated).

(?? We are deliberately designing this into new reactors. Nuclear decay is exactly like (a M field, but the M also has a G side, that gains (energy) for that M to exist somewhere else. (The nucleus decays, but is also can be elevated and this fits with the (law of) Conservation of Energy). Otherwise we would just keep on losing. We had to prove it

exists. The only way is through Cosmic radiation, and not Cosmic Rays (CR). This is why I started talking about Cosmic radiation months ago. Because I knew one day we would come to it).

(?? Fusion doesn't exist, and fusion is not nuclear elevation. ?? When the nucleus splits there is a certain amount of radiation released, this is used for nuclear elevation. This is what we do when we produce materials from the fields like in Beijing. (?? The source continuously creates much bigger elements, that we don't know about, and these ?? go through decay. Nuclear elevation uses the surplus energy of a higher order to interact with and create elevation. It's not fusion. We observe it, but we cannot detect it inside the nuclear reactor or inside the Uranium rods, or in nuclear materials. (But ?? outside the reactor we see conversion of matter)).

(He talked again about how the panels were falling off the walls near the nuclear reactor because the radiation was softening the pins. Nuclear elevation comes from the radiation, but we can't see it inside. It materializes outside when a Cu becomes gold, and gold can become plutonium. In Plasma T we especially design reactors to produce Cosmic radiation and that allows elevation. (Universal Mass is part of this equation and it's dependent on the U. Another U, in another position has a different Mass, and GM plasma packages. For example, if Cu in this U is 10 gram, in another U it could be 9 gram, but still gives the same characteristics of Cu. It depends on the central force ?? of the Unicos, and that determines the Mass)).

Q: (A KS was willing to contribute her fathers art work to KF and had the idea about making reproductions using Gans materials in the prints).

(There is a long and interesting discussion about the possibility which you can read on your own. Mr. Keshe said, he had the experience of buying art when he was a multimillionaire in England. Her father had lots of exhibits, but he never pursued marketing them, because he did not like what was happening in the art market. She still has several hundred of his paintings left. He shows some of the painting for the KS to see).

Q: Is the Cosmic radiation the only way to change our DNA to become a peaceful man?

K- (The DNA is the reflection of the work of the RNA, or what we call, the STP. (Using its memory bank), it reflects how we physically respond to (?? our environment). It's not the creator of the information, response, or emotion. To make Man peaceful you have to change the STP. The P is just a tool, it's the computer. (You have to change the information you put into the computer. Otherwise, no matter what color you are you will still be aggressive. It's how we transfer that point. The emotion or information that sits in the RNA has to be changed. The body is just reflection of what is in the emotion. (?? CH3 is related to the RNA and DNA. It's the sugar of life and carries both the Universal connection through the C, from the matter state to the Universal Energy. It's the connection between matter and energy, but science has not yet understood this part)).

(You can tell the character of a person by having them walk on gravel and watching their response. Do they express fear or are they tiptoeing? The energy absorbed from the ground changes the blood circulation and it goes to the brain and creates a reaction of emotion. It shows if they have trust in themselves. It's the energy of the planet, reaction of the STP, STM, and P).

(Thank you very much for all your support and it's amazing what we achieved. If we can get another 4 or 5 million Markray shares from KS then we can get things through. We'll give you back the shares (from my own assets, and not from KF or Markray once the current situation has passed, then you won't lose anything at all. It will help us a lot to solve this situation and move very rapidly. Come to tomorrow's session to know yourself, and nobody else, or nothing else). Thank you and goodbye.

End of Quick Index - 596 KSW – June 26, 2025

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:18)

K- Thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers from the Keshe Foundation Spaceship Institute.

In the past few weeks, as we're all aware, we're talking about time. Why time is important. In the structure of Universe (U), we don't call it time. We call it manifestation, in a way, from where a principle, entity, life, in any shape or form, can be confirmed. But, in the Universal language, we are always aware in the back of our mind, in the knowledge of the Creation, that every condition, every time, be it Creation, be it development of a life cycle, there are magnetic (M) fields which are involved. In a way, the time we measure is a manifestation of interaction of fields. We call it a dream, we call it lifetime, we connect to the dream, which is connection between the two different time zones, and we bring it back to be part of the reality of, what we call, physical life. (:20) The time zone, or what we call, time of creation, or manifestation, is always connected to another cycle of life with a time of his own.

When our Soul leaves the physical body, be it during the day and night, or when the physical tangibility of the body of the Man is not needed, traveling on his own, that Soul still has life and he has a time. What does this mean? We live a two time zone life. We are aware of it, but we deny it because it's been ridiculed, has been, in a way, been put down by the others who deny their own existence. We walk, we eat, at the same time inside we dream. We dream to go somewhere, we dream to be talking to someone, we

keep a conversation going, and we still eat, sitting on a table. We're talking to someone, but the thoughts, the emotion, is in the background running with another dimension. We call it a daydream, and we call it when I was asleep dream, but in fact two parallel times are running at the same time. One in the dimension (D) of energy and one in the dimension of physicality. (:22) We are used to schizophrenic life. And the only way we have managed to make it acceptable is to deny the other.

In a way, when a man learns that the two time run together, and he has a pleasure and a privilege to be able to do so, then we'll see changes in the world of existence. Then we will find how we can help from the physical side to strengthen, to develop, to bring more in the dimension of the energy Time into the physical Time and vice versa. We walk from home to supermarket because we planned, "I need this and that, that's where I'm going to get it." We haven't learned to use the time of the Soul. Can I have the energy of what I need in the supermarket to bring me what I need without me going? In a way, we need to create a time inside the time. And this is where man has fallen short in understanding the process of Creation. Because, as we evolved, as the dimension of the evolution is not limited, and exclusivity of the Man the rest of the Universe is evolving too. We, in different ways, and we have access to the dimension of the creation are evolving at the Soul level much, much faster, at a much higher level than the evolution in the physical side. (:24) The time of the physicality is literally lacking by billions of years the time of the Soul of the energy part.

We look for to develop satellites to connect, to maybe create telephones we create every way of communication, to communicate on the physical time where our actually Soul is traveling the span of the Universe without any satellite. It has a time of its own. You're sitting in an office and you feel there is something wrong, or something is going to happen and you call the wife, "Yes, something happened. How did you know?" We have not accepted that our Soul is connected. We are at work we think of something and then at the same time, another emotion, another knowledge comes into it, "Oh, I can do it this way, or it can be done." Because we deny that the Soul is working in the background trying to improve your life, trying to change your life, trying to be in communication. But it has no satellite, it doesn't connect it, it's not connected to any mobile phone and it has no connection with a physical dimension of the matter state in the Universe.

He has a time of his own, he exists on his own dimension, but sometimes, very seldom, tries to connect to physicality. And in a way when you try so many times you give up, that's it. It doesn't listen, I carry on with what I do. But when I get time, I do what I want to do. And each time, every time you change you bring a new dimension of fields and energy you create a new time. (:26) But all these times simultaneously run together.

In a very simple example, we live here on Earth. We have decided that we time our life according to the rotation of this planet around this star. But, our Soul evolves and rotates in a dimension of the, what we call, dynamic structure of the Creator. It has a different time zone. It evolves, the whole target of it, connection of it, is the Soul of the Creator (STC), has his own time. It is very much, we have a time on this physical dimension we've chosen to be the rotation of the Earth around the Sun. But again, there is a different

time in the Galaxy because the Sun has to rotate in own Galaxy. And then as we said the Galaxy in the Universe.

Nobody has ever patented where and how our Solar System (SS) is rotating inside the Galaxy. Our system itself has another central connection and that on its own connects to another central rotation that, that again connects to the center of Galaxy. Our Sun cannot tune directly into the cycle of the, what we call, Galaxy. It's impossibilities if you understand the pressures, the strength of the Magnetic fields. It works within a cluster, which this cluster on its own has a star of itself. (:28) And that collection, hundreds of thousands of stars, connect to the next cycle. And then they themselves are connected to another. And then that, in the end connected to another, connects to the center of Galaxy field forces.

It's not just that we are running around in the Galaxy on our own and the rest of the hundred billion stars in it. Each one has his own time. Each one creates his own time combination in respect to. And then the same thing happens with the Galaxies. Galaxies are in clusters, and these clusters again have central point fields, star. Sometimes our researchers find these stars, but they don't understand it. They consider it as they have found a star so many hundreds of times bigger than Earth. These stars have their own time, and these are the central galaxy time stars. These are the mother of the mother for us. And then that mother again has another star which it rotates.

Once the world of science understand the deeper understanding of the Time, Space, Possession, and Position, they will find out that these stars are central clusters and they create a different time in the dimension of the universal rotation. Our thoughts, our dreams, what we conceive to see has to cross these borders of the super galaxies connections as clusters. It's like going through different barriers. Because it can do this, (:30) because it has always done this, because our Soul is a multiplicity of many magnetic field strengths from inside to outside. The outside deals with what is here, and then as the higher strength needed, the deeper, the deeper we go inside, till that connection to the Soul of the Creator, which sits with the center. And each stage has his own time. Each stage has his own creation of manifestation, which gives it confirmation of existence in time.

Once the Man learns how to connect ?? this time Man can travel the span of the Universe to the Creator. It's an art, it's understanding. How we are educated, how we understand this it brings us to the next house. It rises our horizon to understand in the dimension of the Soul and energy. Expectation according to the understanding of the field strength. Very much a man coming from a village to a town seeing bigger things, and then going to the cities, and then traveling the continents, and then becoming Man of Space. We decide, it's the same body, it's the same structure, how we use which magnetic field strength. You can train yourself to create time. You can create this, train yourself to create what time in which way the energy and the physicality time come together, (:32) and use it for transmutation, than transfer of energy by physical dimension of transportation.

This is why we teach about the time. Because once you learn this, once you connect the time to the Soul, and connect the time to the Soul of Physicality (STP), and connect the time to the dimension of the physical man, you don't need to go through the Energy Time. You go through the time travel of its own. There is a trick into it, there is a method into it, how to travel amongst the times. How to call upon higher strength to be able to do that transition. We do it through narcotics, but we haven't learned to do it through free time. When Man uses narcotics, that position, creating higher order energy to the brain of the Man, which leads the Soul of the Man (STM) at a higher connection, takes the Man into the time of what you call, hallucination. But in fact, you create a time to go deeper. Higher strength fields of the brain are opened up to the STM. And we have to learn that process. This is what we denied. This is why we get addicted. Because we go to the position, we go to the dimension, which the higher order energy is received by the brain of the Man, which means it opens up the level, (:34) in a way what we do with the Headsets to expand what we call dimension of the Soul, is done through narcotics. Creates a new time of connection. Connects the higher order energy to the lower order energy of the physicality (P).

We get this, we have this, we bring certain addictions into our lives to deny this, that we can access. We have the possibility, because this every cell of the brain of the man has the same capability and power and the STM. It's just that which layer of the onions we are preparing to take off. You got to remember, as I always said in some teachings, cut an onion in the center and look at the rings. The outer rings, the outer layers are very fluffy and weak. The inner ones, very center ones, are the point of power. Because they have to push the others to find space for themselves. To manifest themselves at the outer layer. This is how the Soul works. The bigger ones are pushed by the stronger center, that allows it to open up to manifest itself. But there is always another center within the center, within the center. (:36)

Man sits on the outer layers of this ring structure. But still connected to the one in the center, because that center one is the one which pushes it away for himself. This is how we structure it. This is how the life is. Then you understand. The little one in the middle has his own time as much as the one outside. But, they are still connected through the fields with each other, within the center point. This is how time is given to all to exist, but we can find a connection between all times. We see the rings, we see the little rings in the structure, but if you look, everything came from the center, from the root, which is the Creator. Has no structure, but structures everything.

That is the original time, because that time allows the rings to be created. Given strength to push to structure to harmonize the process of timing that each layer has its own time, but they're all connected in time. (:38) If you go through the outer layer, internally, to the root, to where everything is connected you can go to the center. You don't need to go outside, you don't need to go through inside. And that, for that root section, is like where you can bring the travel between the time of the Man and the time of the Soul, transmute. But, all times exist in all layers, but the strength, the power internally, decides where and how we travel within.

Transmutation through time is the key to travel to the Soul of the Creator. To ?? find yourself to be part of. Transmutation through time allows you to transfer, to travel the span of the Universe. And as I said about the onions, if you know how to transmute, if you understand the power and the strength of the fields, you can travel within the Soul of the others, as the Souls are all connected to one Soul of the Creator. Creation of the 'Daughter of Mitra' done that way. No physical creation, interaction of the fields of the Souls. It is not a physical penetration, it is connection, interaction by dimension of the fields of the highest order. (:40)

Then you understand, when you find a new position for the STM why you manifest yourself as a new star, as a new seed, as a dust? Because you have no more connection, time with the dimension of the physicality, which was part of the same time structure. You got rid of the outer layers of the onion. Now you can manifest in any rings of. The structure of the creation through time is the process which Man has to understand. Don't forget, time was created out of Possession, Position, Place (PPP), Time of physicality. And then you have the emotion, the intellect, and the enlightenment, the time of its own. But both physicality and intellect are connected to each other, which that creates the time of the Creation. And we're dealing with that time. That's why physically we can breathe to bring to condition of a creation of a new time, that that time can be close to the dimension of the time of the energy. (:42) Then, we say, I had, I can do things which cannot be done in physicality because you have connected time of the physicality and time of energy together.

Changing the dimension of the strength of the breathing, you change the time of the creation of the connection, to the time of the, what we call, the Soul. The energy side, then you feed yourself through the energy, that's why you don't need to eat. This is the real process that one has to understand. You create a time for connection of the two times together, to create a new time condition, that the two can feed each other. Once Man understands how to play the creation of the time, in the dimension of physicality and the energy, what we call the STM, Man will achieve the true transmutation.

Tomorrow in the session of the Fridays (Monthly Flight session), we'll try to bring you to that session. And see how many of you can travel between each other's Soul. Which one of you feels the other, because we'll create that clash? In a 4 hour session tomorrow all of you are together, and see which one of you will contact each other, and what you remember in what you've seen, what you remember in what you gave, what you remember, how you created that time. When you meet, is where the new time start. What you feel is where the new time starts. And what do you do with that time? (:44) And if you ?? learn this, and you go through this process, you bring the time of physicality connected to the time of the energy, then you transmute. Otherwise, you're still dreaming. I made Man in the image of Myself, because I am the image in the dimension of the time, in the dimension of energy, not the physicality. And this is what Man has not understood.

And if Man understands, and brings the dimension of the time and the energy into the dimension of the time and physicality, you will see the feature of the Creator. The connection, central energy of each, manifests itself. It's the Soul of Physicality (STP) and

the STM, energy. Physicality does not exist if it's not connected to the energy, cannot be fed. This is why Man kills to keep that physicality going. He hasn't, he has forgotten, he doesn't want to understand, he can connect to the dimension of the energy and this is what I've said all the time, "You feed the physicality through the STM."

Systems are getting developed to create that dimension and condition. We are creating a new dimension, in supporting the life on this planet that Man does not need to kill. Man can tap into, to the dimension of emotion and dimension of physicality. (:46) And, in that process, feed itself through, what was lacking and is lacking in the structure of the Gravitational Magnetic (GM) field of the Earth, in a coming week, so it'll be supported with a new system which can support both. That Man stops killing to survive. Most probably in July session for the first time we trigger this system. Where Man's dimension of physicality and dimension of emotion, in the dimension of the Soul, will be fed, will be receiving what we needs. We would like to know, if you complete, those of you who are in the July session, would you and how much you will change?

In the coming weeks we will show the structure of the new, what I call, transmutation system. Transparent, where Man can see the Soul of his ?? self. The new Headsets we put on last week is the connection to this system. We are not just releasing the Head units, just for something on its own, is done to connect to this system. Would it stop you killing? Would you stop you abusing? Would it stop you eating? Would it stop you a lot of other things which you do? And would it gives you a chance to transmute?

We have changed the structure. If you remember the steel Ball (Space reactor) I showed you, a few weeks ago, has flaws, has limitations. (:48) It brings a dimension of physicality into play, where now we don't have that. Evolution in technology makes the transmutation so possible that is not just transmuting the physicality of the Man, it transmutes energy, information in motion, everything which the Man needs, and at the same time elevates the STM to a new dimension. It's the structure where we create time between the STM, and connection create time between the physicality of the Man. The new system developed, and is undergoing its full development will bring for the first time the condition that we do not touch the physicality. We deal with the STP and the STM in the dimension of emotion of both.

Look at the structure of your brain, and where your Soul is, and the rest of this mass of lump of matter that it has to control to be connected with that tiny little spot. Then you understand, the 'game changer' in the structure of this creation of time is upon us, we have developed it, it's going through its final phases of being developed completely to go through. But the structure will not allow dimension of physicality. Because, the STM and the STP are interconnected, they live through no physical dimension of conversion into matter state. (:50) The way your brain works, the way your brain energy fields connects to the STM, the time of the Creation.

Once Man goes through this process, understands how to create time, you will understand how fast the world of science will change. It's time to release this knowledge. And we are developing that technology. No need for mobile phone, no need for food, no need for

transportation. As Man transmutes through the dimension of the fields of the Creation and the Creator.

Try to understand the process of the creation of time. How your physical dimension creates its time, and how energy inside of you creates its time. When you can connect the two together, which sometimes you do, and then when it becomes it, it becomes a dream, then you understand how the reality has been denied by the Man. It's not two-timing, it's understanding the two times which creates Creation. Creation cannot exist without the dimension of confirmation of its physicality, which gives the starting time. And the creation of physicality cannot exist without the energy side. (:52) Why Man has chosen to kill to take that little bit which we understand how, than directly using the STP. And then, directly using the, what we call, the STM. We don't need to put the seed inside to attract, we need to transfer the energy from the energy side, to release itself within the dimension of physicality.

Most probably, the most important part of all the teachings in past 11, 12 years, and plus other teachings, was to bring Man to understand the creation of Time. Time is created out of the emotion of fields and not by the dimension of the physicality of the matter. We go for a break, and if you understood today's teaching you already have become a traveler of the Universe. Rick, would you take us for a break and we come back?

R: Okay, thank you Mr. Keshe.

K- What I would like, sorry about that, what I would like to know is, to give to those of you who work in the background. Take the first teachings of Time, few weeks ago, cut it out, and connect all these sessions together. In a way, we make the book of Time and then we release it as one. (:54) Make it available to the Foundation, I know transcribers and the others are working on it. All the time in each session. Take only the Time, the sections which is purely teaching about the Time and make one file from it, and add all these together as we go forward. And then that'll be the key to for Man to progress to the next level of understanding. Because, if you understand Time and how it's created, then Man can feed itself through Time and transmute through Time. Thank you very much.

>> BREAK >> 596 KSW June 26, 2025 (1:00).

K- Not really, yes. Couple of things we have to clarify. There was a mistake, or miswriting, or misrepresentation, of the new system last week, which was released, the Headphone. The price was put at 7,999, that's for two Headphones, not for one Headphone. So, I think they have corrected it in the background. So the price of the single Headphone is different than the two Headphones, because we put this up as, remember, the original two Headsets were put up. If you remember it. But this one is, the 7999 is a price for two Headsets, not for one Headset. I do apologize for this, but not everything in the Keshe Foundation is perfect, sorry about that one.

Those of you who join us tomorrow, come in with one pre-set mind that you're going to transmute between the Soul and the physicality. We are not taking you to go somewhere, we are taking you within yourself. We allocated 4 hours and in that process, if you know each other, if you are aware of the other existence, you can transmute between each other's Soul. See if you can feel physically other people present in the system. See if you can feel your own Soul, you can come in touch with it, you can enjoy its presence. We have given you a big dimension up to now that you could do whatever you like, but now you have to know yourself. You have to know your own power, your own strength. (1:02) And, in a way, it is a breakthrough for us.

We tried to do this last month, the systems were not ready, this month we are ready. That we use only two ways, and you have 4 hours to know yourself. You don't need to go anywhere else. You don't need to go to the span of the Universe, to go to desert, go to another country. You travel within yourself. You need to know yourself, to understand your weaknesses, to understand your strength, that you can move on. And we have, we give you tens of other Souls in the same system. In that process you choose your Captain and see if you can connect to. You don't trust the rest, you don't know the rest. But you allocate yourself to one of the Captains, you have seven of them. Once you know yourself, we inform you, after part in the session, you can connect to your own Captains. You can keep to the same Captain as before or you can choose a new one within yourself. We don't need to know. And it's very clear how you feel, if the feeling is the same as your Captain. This is how we trust ourselves to give our Souls to captains of the Space, to take us to places the way we do with the aircrafts of today. So, tomorrow's session is very, very intriguing. And it's for one to know oneself. (1:04) And I hope we can bring you ready for what we want to do with you next July. If there are any questions, we go ahead and we'll see.

K- ... There is something before, I forgot to tell you. We're getting a lot of inquiries about Markray Corporation through Keshe Foundation and through Knowledge Seekers (KS) coming to us. Please understand, we emphasize strongly, especially in next few days, convert all your shares into certificate that you have confirmation of. Make sure your agents confirm, or you get the confirmation receipts, or the certificate for your shares. There's going to be huge evolution in Keshe Foundation within the next structures and with it will come the, what we call, the Markray Corporation side of our work. Do not shortfall your... short, what you call, fall your rights, to hold, to buy.

And, as we said, we have reserved a large number of shares for Knowledge Seekers. Those who served the Keshe Foundation will be well rewarded for your support through our work with Markray. That's for sure. Does not matter you helped us 10 years ago, 2 weeks ago, or 20 years ago. We have kept the list of those who served the Foundation good. And, in return, we'll answer you back. And thank you for all your help.

Those of you who are trying to buy shares from us, we are not releasing the shares. (1:06) Due to the fact that the share values is not realistic, what's on the stock market. Due to other factors. So, if you ask us, "Can we buy shares?" You can buy shares from other Knowledge Seekers, if they want to sell. There's been a suggestion from number of some Knowledge Seekers, that, "Can those who bought shares, make it available financially, that we can go through the, what we... the need we have at the moment, that the Foundation in the... after going through this process will give from the shares of the Foundation to them. We respect that, as is suggested by many Knowledge Seekers, that they are prepared to sell their shares to help the Foundation to go through what we are. We're in a stagnated position and we need to go through this 1 million dollar. And we give you from the shares of the Foundation. After going through it, even you sold your shares, we give you shares parallel one to one. This is suggestion from number of Knowledge Seekers. And Keshe Foundation respect that and we can accept that. If you have 1 million, 2 million shares and you want to sell half of it to give the money towards the Foundation work, which we need urgently. Tell us this is what you've done. We parallel 1 to 1 shares back to you. Which means, once we go through you haven't lost any shares. You just help us go through this stagnation time.

If you're holding 1 million shares, 2 million shares, you decide to sell 500,000 of it, 100,000 of it to give us 1 million, 1 million shares, to give to the Foundation. Say, "I sold so much shares, irrespective of price, to help earn Foundation in return." We'll return back your number of shares back to you. (1:08) Which means you have not lost share, but it allow us to go through this stagnation position which is affecting our work. If we manage to sort it, we tried every avenue, it cannot be done. It's just something which we were not expecting, and it's just happened by default.

So, as suggested by a number of Knowledge Seekers, if you're holding large number of shares, tell us if you sold, give to the Foundation, we reimburse you back from my private stocks back to you, which belongs to the Foundation. That we can go through this process. Make sure you do not get tricked by what we see. Somebody in the stock market shares is playing with you, sells a hundred below for you lot to jump in and he buys it high. They are trying to extract shares from you, or trying to sell shares at higher value. Just be aware, buy shares direct. And the reason we are not releasing the shares of the Keshe Foundation into the market is very simple. These shares worth much, much, much, much more than what is today, and Foundation needs these reserves in the future. And if we do, we damage the stock value in the market. And we are not prepared to that to go under ?? investigation. Thank you very much. You can go ahead.

Q: ... I hope you're doing fine.

K- I am still alive, I am still here. (1:10)

Q: Yes, I'm always so happy to hear your voice and your energy to feel it. I am very, very grateful for the Cosmic Mystery Box we received with all the items.

K- You got shocked? You got more than what you expected?

Q: I got more than I expected. It was like, I was like a kid with Christmas and opening the box. I was eagerly waiting and I was opening the box and I said, "Wow, all this!" And it was amazing, really. And so I'm very grateful for that. And then I found the voucher for the transmutation and that really, really, really, really made me so happy. Because at the moment I am working with the Cosmic Ray material Balls and I managed to get into that zero point field because I can get detached from my body now after one and a half months of just working, working, working and let everything go and be one with what I feel. But I have a few questions if I may ask them.

K- Go ahead.

Q: Thank you. The first one is, how do I know if I'm in this zero point field where there is no me, no consciousness me, there's only Soul in this zero point field. How can I direct the things I want to do in the energy fields, if there is no consciousness me? It's only the Soul. (1:12)

K- You got to remember, consciousness the way you talk about it, is not exclusivity of physicality. Consciousness is a totality of understanding the process of Creation and the energy fields. The way we have emotion parallel in the physical and dimension of energy, consciousness is the same. Your Soul is more conscious in dimension and strength, than your own consciousness and physicality. When you reach the point of what you call zero, what we call, point of transmutation, or awareness of, you will see, you will feel the energy of your physicality to be cocooned like a baby inside the womb of the mother. You feel it. You see it. If you become detached from it you see it physically below you usually. If you embrace it, become conscious of its existence, you feel it within you. It's like the mother feels a child inside. Because the Soul expands. The energy field expands beyond the energy fields of the, what I call, physicality.

I explained this once, maybe this gives you a better understanding. It feels like you have an object outside of a gel, (1:14) and then the gel expands and the object becomes inside it. You have the same condition. The Soul of, or the dimension of STP get embedded, embraced by the STM, by the fields of it. You cannot take it over, but you connect to it. This is how it's done. It's not the way you see that you jump into the water and you're inside it, but you're separate. In the dimension of energy, the dimension of the fields which you have, or had, in strength, the same as the Soul, brings you in. In a way you submerge, you become part of.

Very simple, if you, if I can explain it. Get two different kind of jellies, and take one as injected inside the other and see how you expand. This is what your STP will be in the

STM. And then, those connection lines, because it's the same, you just see the colors. You just see the connections, you see the emotions. And this is what happens, because when you expand, it's not just taking over the physicality, is connecting all the lines which is common, now inside. And so, it's not too different, it's the same, but understanding the emergence of the two. You're always conscious of it, you always see it, you're aware of it. This is why, when it comes a time, you can put it outside and you manifest yourself.

Q: I have felt that somehow. (1:16) One time I felt and I saw, and I felt it and I saw it, that I was in the womb, ... because my physical consciousness suddenly questioned, "Why am I feeling upside down?" And I was in the womb and I felt this veil around me, like really being in that womb. And that was a really, really special feeling. But I didn't know what to do with it, so I let it go. But now I understand I had to be one with it, to connect with it. Is that what ?? I am saying?

K- Yes, yes, in a way you always look and... this happens to many people. And this used to happen to me when I was very young, when I start understanding this. Then I found and I comprehended the way it is. The Soul is always stronger. So we see the top side, as I call it, standing up. And the STP, always looks upside down, I don't know why. But, even when you separate from the body you see, you see the physicality, for example on the bed, you see it in a very different way, upside down. And, this is correct, because it's Yin and Yang. If you decide the STP to be inside the STM, then as energy field, then one has to be the top. We usually choose the top as a Soul, because the Soul stands up, (1:18) and the STP it feels like a, what you call, as you say, upside down. This is very normal, which means you have actually gone through the process because you can explain the feeling. You understand? And this is very much in the same process as giving birth. Where the mother is, you know, the head is up and the child is upside down, opposite to the mother.

And this is very... it took me a long time to understand this. The reason for it, why everything is reverse of. And then, when you go to the dimension of the energy fields everything is one dimension. Or one direction. So you've been very close to, what you call, embracing the STP. Very close, you most probably have achieved it. This is the biggest problem, the fear. The fear of, not understanding of, allows people to let go.

Q: Yeah, it's, it's, I don't have a fear, it's, it's, indeed it's more like, not knowing what to feel, not knowing what to do. So I just feel everything that comes to me. I don't focus on a specific point, but before I start with the session I always set my intention and I connect to the fields and I send love to all the fields, and then ask the fields to connect to me and show me the way, and that I will follow the way. And that brings me very quickly into that field where I don't feel my body anymore. And when there's visual starting and feeling starting. But I was suddenly also... (1:20) It brought me into the consciousness of a girl here in the village that was on her bike, riding behind her parents. And I felt her emotion, and I didn't even know the girl. And I thought, why is my Soul taking me to a strange girl now?

K- Were you seeing the girl, physically?

Q: I saw the girl, but I don't know her.

K- I mean physically, did you see her?

Q: I saw her then, yeah, in that visual, yeah.

K- It is, you, this is what I said in the session tomorrow. You connect to the Souls, you no need to look on... doesn't mean, just because you're on the street you don't know the others, they are not part of the street. So, we start connecting in two levels, and then now this is one of the process of understanding the bigger part of the structure. This is what I said, you connect to your pilots, tomorrow session. Because, you see it, or physically if you see it and connect it. If you expand this further, next time if you connect to the same girl, or somebody else, you are aware of the condition, you can gain access to their emotion and knowledge with their permission.

And, I do that quite a lot. I do that enormously a lot. And, I was talking to one of the Knowledge Seekers in past couple of days. And I was asked, "Why do you let it happen?" I said, "Because then I interfere with their life." They said, "Why do you let (yourself) suffer when you can do everything else, and you just watch?" I said, "Because the cycle of time has to... The cycle of life has to go through its own process, not just because, I know I can change it." (1:22) And then, if you get to that point, you're aware of their emotion, you're aware of their life, and respect it, and don't interfere, and don't touch it, but learn from it, as they let you learn from it, then you rapidly progress in the dimension of knowing how to interact (with) two dimensions of Souls. You don't read mind, you just connect. It's just like the way you go to a bar and cafe, you connect with the strangers, and then you get to know whatever. This time is without the going to the bar, you go to the, what I call, the 'Bar of the Universe.' And it's very, very interesting emotion. It's interesting that Knowledge Seekers gradually are going through this emotion, because I know it very well, because I've been through it. And it opens knowledge, it brings enlightenment.

Q: Well, it is a wonderful feeling, and I must admit, I have felt it before, but only when I took mushrooms, psychedelic mushrooms, then I've... I was suddenly in the consciousness of my partner who was guiding me, and felt him completely, knew his emotions, knew who he was, why he did things. So I have felt that before and I, so I recognized it when I was in the girl's consciousness. But I was, because I always thought with transmutation that you can direct what you want to experience. And, but I think I must let it completely out of control of me, and let my Soul decide? Is, is that the right way?

K- In a way, you are in charge of your Soul. (1:24) You have to understand decision making in the dimension of the energy, and decision making in the dimension of the physicality. This is, this is the, most probably the easiest and the hardest part, recognition.

I went through this process when I was 11 - 12 years old, maybe younger, and I could choose between the two. And, you become aware of what decision I make in the dimension of energy, does not need to affect the dimension of physicality unless I want

to. And you connect a lot. I remember those days, I was hungry for knowledge. I was so hungry for knowledge of Universe, and I could tap into. Later on I understood into the Universal fields of knowledge and that has not stopped. It has become much deep-rooted, and you can get to that point. All of us have the capability to do so. You got to understand what you need from this privilege.

Q: Yeah, .. it is so new to us, we are so connected to the physicality, and so focused on everything in the physicality that we don't even know how it feels to be with the Soul.

But my last question is, (1:26) like when I was feeling that I was in that womb, I only got that feeling once, and that was the same session as when I was in the consciousness of, when I felt the Soul of that girl. How all my other sessions were, sometimes I go, I always go deep, and with deep I mean, I always can get out of the connection with my body and with my mind, and get on a complete blank part of myself. But I rarely get into this womb feeling or something that is a veil around me. It's usually some visual, some strange feelings, but yeah.

K- Practice, practice, practice. First of all, one of the best ways to do it, is don't isolate yourself. As you get better, try to sit in a room with a lot of noise, in a room with a lot of people and see if you can do it. One of the easiest way to do, this is why we released the, what you call it, the (Cosmic Ray) Balls, which you all were waiting for such a long time. Now more or less, all the... every single Ball which has been bought is now is completed, if you haven't received it, you'll receive it in next week or two. It is to hold these Balls in each hand. And try to limit the dimension of physicality. This is what these Balls do, partially built for that. (1:28) Which, if you put your hands next to your face, if you bring your hands with the two Balls as close as possible to your two sides of your head, the way that you put the Headphones, which you create a dimension of the rotation of the fields between the two Balls and your Soul, you go through a very fast transmutation. This is one of the reasons I release these. But, you have to understand what you are doing with it.

If you put your hands, this is... your captains have the material with them in a different form, that it was dispatched to them, it's not something that we're going to do, this is how you interact with your captains. The captains carry, each one of them has received a package for this purpose. They are embedded, they cannot be touched. The whole structure of the Soul is part of their physicality. It's amazing what we've done with this thing. So, you can use these Balls, Cosmic Ray (CR) Balls to bring balance between the physicality and the Soul.

The new Headsets are amazing things once they are released. They connect every part of the dimension field force of the Man. There is another edition, I told you, it'll come later on. To a system which literally is your captain for all the Souls on Humanity, in the rest of the Universe. It's an amazing structure once it's finished. So, you can expand your Soul directly beyond your physicality. And then you'll feel that warmth, you feel that energy. You feel. You don't need to see your body is not there, because now you are part of inside looking at your own field energy, which does not allow... (1:30) In a way, there is

no STP to interact with, or energies of the STP to interact with, the Soul of the Planet which creates manifestation of. Now you're dealing with the two energy Souls inside, which does not create, in a way, physicality, but awareness of physicality, but connection of the emotions. And that connection of emotions connects you with Consciousness, connects you with, what you call, the fields of the physicality, which now the place of it is in the STM, it's an energy level, not a physical dimension. And it's very interesting, when you see yourself, for example, upside down as a physical part, see if within it you can see a light. That's the light of the STP. And that's when the transmutation can be happening. It's something I'm... I know fully where (well), I've done this since... God knows, before teenage time.

Q: Well, thank you, thank you very much Mr. Keshe. I hope it also will help other people listening to this. And I'm looking forward to the transmutation session tomorrow.

K- You have to choose it and inform us you want to be in it.

Q: I sent an email already to the customer email.

K- Yeah, it's just that you've been placed in, so it is. I have to explain that many of you who bought these gift bags (Cosmic Mystery Box) 250 or 500, some of it you receive packages beyond 2 or 3 thousand Euro. That's why we called it a surprise pack. (1:32) You received gift vouchers, some of you most probably received the Cosmic Ray Bundles. Also, this wasn't there, it was there to bring more people to understand different part, aspects of the Technology. Many of you received these vouchers, you can use it for tomorrow or next month session. It's all registered, so we know who they have. And, quite a lot of you received these vouchers, and some of you received the Balls which is around a thousand Euro, even if you paid 250 Euro for the surprise package. But this is what, how we wanted to share to... to in a way to give back to the people who helped us to be where we are. Thank you for all your work you did in Netherlands.

Any other question?

Q: ... Mr. Keshe, I ordered and paid for a Cosmic Mystery Box on May 7th. When will it be shipped? Thank you.

K- As you heard, a lot has been done. We received a lot of orders for it. So, it's the human packaging side of us which is delaying it. And plus some of the people, depending on what you, which category you chose, special materials are getting made for you. So, if you haven't received it, it's all done, there is... everything is there. And, it's just... we wanted to share, and it's there. You just wait for your turn. It's usual first order goes out first, and as we hear people start receiving it. (1:34) It's a huge effort to put these together, and to, in a way, to share it with everybody else. But if you ordered it, which next 2 or 3, 4 weeks, as the orders gets going through, it'll go through. All of the... you which ordered the Balls, should receive it within the next 2-3 weeks, because all have been done now. All have been completely completed, it's just, I think it's lasering the boxes and the rest of it. Yeah. The orders are complete on this cycle, if they... if you order more, then you have to wait for the next cycle, which could be next 2-3 months. Don't

forget in the near future we use this as currency, as part of the Keshe Foundation structure. I'll explain to you when it comes to it.

Any other question?

I think some of you who bought the Mystery Boxes you'll receive some of these packages too. Let us know if you did.

Any other question?

Q: ... I last talked to you about a year ago, and I meant to follow up to schedule the interview with you. But just to give a brief history of my history with yourself, (1:36) I absolutely love your opening video now documenting all that you've done and that I've been following the Keshe Foundation participating on and off in the Zooms since the very beginning. I remember when you were targeted in, it was like the Netherlands or Denmark or whatever. I remember your press release with the base systems that you originally worked with in England. (K: carry on) And then I also remember the video where you presented to the Cardinals in Rome. I remember specifically with the Iranian drone and the key part that will stick with me forever is back in, it was 2011 I believe that time, or right after. But when it was, the servers for like Youtube for different online chat rooms, they weren't blocked like they are now, the digital walls that are up, and that's all the Iranian people were posting and giving you credit for it, and it was quite apparent, right, that it was 100% your technology that did it. And ever since then, specifically my first question, I guess, is it was the plasma technology you said, and that Russia and China had also signed on. And that, is that the plasma technology that gave the breakthrough for the hypersonic abilities that these countries, (1:38) Iran, Russia and China now have, that the West has been unable to replicate?

K- The Keshe Foundation technology is very well shown in a different way in the past two weeks. There's no question why the systems are not used, the whole why, what happened. I asked that question from the officials and I got a very direct answer, which was very interesting for me. China used part of this technology last week, by switching on and switching off aircraft, disappearing from the radar and then appearing over Tehran. Literally you cannot detect it. It wasn't detectable and this brought a shock to the systems.

The aspects of the, what we see, hypersonic, is a hidden knowledge, which in the future will be released. It works partially because of the solid fuel. And the solid fuel at the highest speed creates Plasma. If you can add to the Plasma certain fields, you can change it. These are technical technologies which are getting developed by Chinese and by the Russians and Iranians partially. We are waiting to see two question we asked. Why the systems were not used? I was answered the first part, it's a militarism, what you call, confidentiality, why not? And we have to keep it that way, because we got... before ..

Q: Of course, National Security.

K- (1:40) No, it's just before we even start the session today I was explaining to Rick. There's a lot ... Today we have officials from Israeli military, Iran military, Chinese and Russians and Americans and a few others online. We've been told, we know, we're tracking them, they are there. They're expecting some announcements from Keshe Foundation in this respect. Because we, we are privileged to have information which is not in public, but at the same time our intelligence structure gives us a lot of insight.

We asked a simple question and was answered immediately in one sentence by the officials in the first two days of the beginning of this conflict. We understand why Iranians are holding a lot of things back. They're going to test new technologies, they are testing what they want to call it, as it is. And in replica, when answering it back, we have made a very large, impressive offer to the Iranians, which we are waiting for an answer, within next few days. Which will change the course with Plasma Technology and the Space Technology. And, we have to see what the officials decide.

But you have to understand there is a huge piece of information which are missing in the past 12 days conflict, which has to be understood. And the reason for it, why the Iranian took this course of action with rockets and missiles and the rest of it, which we understand. It was in a show, 'tic for tack,' but to show what we can do, we can do a hundred times worse. (1:42) And the conflict has created a lot of mess. And it's religious superiority, than actually technical superiority thereafter. You got to understand the Islamic world in Middle East, and you have to understand the West point of view.

Iran the first 7 days stood on its own, with 20 nations backing Israel, from land, sea, weapons, everything possible. The total damage to the Israeli side is very heavy. Israel has lost over 7,500 top engineers, scientists, nuclear physicists, and the rest. The estimate is over 11,000. 7,500 top Israeli scientists have disappeared. They speak about all our Iranian nuclear physicists and the rest. Israel lost half of its nuclear scientists.

Q: They're very...

K- No, no, we're talking statistics, we're not going anywhere. I don't want to get involved.

Q: Yeah, just they don't release casualties, right? So it's the... ??

K- Let me explain. Let me explain. 65 to 75% of the advanced technology of Israel is wiped out. Will not exist, does not exist. Casualties is in five digits and six digits in financial side. Physical casualties hundred thousand plus. Total life loss is excess of 75,000 in Israel alone. You have to understand these are not figures made up. (1:44) Israel accused Iran or Palestinians building silos under the hospitals. Israel, you heard that Iran attacked Israeli military hospitals. It happened because Israel kept half of research and military nuclear weapons under the military hospitals. Iran did not hit the hospitals to kill patients and military soldiers. Half of the soldiers in these hospitals are military scientists, nuclear physicists, covered under the military cover. So when you hear Iran hitting military hospitals, it's actually nuclear silos kept underneath these hospitals. Iran did not touch a civilian hospital.

When you see Mr. Netanyahu going, "This is the hospital." Yes, it's your nuclear base. What they accused Palestinians to be holding military bases on the hospitals is exactly what they did themselves. They accused... We have a beautiful saying in Farsi, we say, << Farsi language.>> "The guy who's misguided, thinks everybody else is misguided." Actually, most of military nuclear warheads, central operations of Israel, on the nuclear side, is under the military hospitals. That's why they were attacked. So, you can imagine, two, three thousand people in these hospitals. They're all military, so estimated 3 to 5,000 wiped out in the hospitals. We don't need to go very far. And it's beautiful when Mr. Netanyahu stood, says, "Next to this is a hospital, children's hospital." We didn't touch the children's hospital. Target was military nuclear silos, which was hit. Headquarters of the operation of nuclear. Seven and a half thousand top scientists of Russia and Israel, can be confirmed by the other sources. (1:46)

You have to understand, the whole of Port of Haifa is gone. The whole of military Port of Haifa is gone. The refinery is gone. Microsoft's headquarter is gone. The biological lab is gone. The ?? Weizmann headquarters is gone. And these were all, because they were so sure that the Iron Curtain, Dome, or whatever you call it, Dome will keep it, they were all scientists working. One and a half thousand scientists were in the biological warfare center nothing is left of it. That's one and a half thousand. Military base is gone, three to five thousand. Port of Haifa refinery is gone, two and a half thousand workers. The biggest loss has come out of the hand, where they put military bases in the houses, in the basements of houses. When you see these big devastations, and then you understand the public knowledge, in Israel, that every corner, every near, all these buildings, there is a bomb shelter. You see the space which is destroyed, you look at the previous pictures, the apartment blocks on top, these people are all in the basements. They went to the shelters and the building collapsed on them. Now you see where the figures comes. 50,000 are missing at the moment.

This is why Israel doesn't want you to see. All the advanced technology, drones, microchip, research centers, all has wiped out, all in a working condition, according to the Israeli. (1:48) What we saw with Mr. Netanyahu going and standing in front of the Weizmann Center, there were scientists working in there, what happened? They never thought they're going to be touched. The biological center with one and a half thousand people was in full operation. Israel has lost 40% of its scientists. They killed 4 Iranian nuclear physicists, they lost 40% of their knowledge base. Economical damage to Israel is beyond imagination. They closed the borders because they don't have people to look after people anymore.

This war should not have happened. They went for it, they got punished by it. It'll take 20 years for Israel to economically recover. And it needs all the resources from Europe and America to pay them, to give them, to bring. The biggest loss is the scientific world. Losing 7,500 to 8,000 scientists, nuclear physicists. It takes years of development, and there are no more Jews left, who's following into this position, so you have 40 years gap. The Iranians did not hit the hospital, they hit the military base, nuclear material, scientist in it.

Q: I saw that, I saw the videos that leaked of it, before it even got hit, and that there was the military command center in that hospital, below the other hospital.

K- Yeah. They are... When I was in South Korea, a few years ago, I was given access how these things work, (1:50) because they wanted me to understand how to use the technology, and then secondly I had an accident, I was taken to a hospital hundreds of meters below the ground. I was operated in a room tens and tens of meters below surface. Because they were afraid that North Koreans will get me during the operation. I've been through the structure, I saw it, what happens. And the reality is, if Iran would have kept the war three more days Israel would have had nothing left to live on.

Q: Right, like they destroyed the power plants, the oil refinery, they hit everything that Israel originally hit in Iran first, right? It was...

K- Yes, but Iran is big and these are... but don't forget, Iran losses runs in tens of thousands too, because Americans used B-52, to "Carpet Bomb," like (they did in) Vietnam. This is not in the news, but it's the fact. Israelis didn't hit every missile. B-52's took over from, we know where, and the Carpet Bomb, the central structure of Iran. The losses in Iran are huge the same. Americans used B-52's, thousands of tons, military headquarters, and the rest. We have not lost any nuclear material. Iranians were well informed beforehand, all the centrifuges were emptied, all the materials taken out. And that's why you don't see so much nuclear radiation damage, they cannot detect because it's not there.

Q: Well, thank God that there was at least that sort of backroom diplomacy of communication of warning, (1:52) so that they could shut it down, so that there wasn't nuclear leak, and that would have happened. Right?

K- No, we knew... We knew long before they do. Because you know the target is there, you leave it there. And as you know, Iran will not participate anymore in IAEA structures, because we gave the structure to the IAEA and they gave it to the Israelis. So, from now on it's a blank point. As you know the leaked documentation out of Israel, which has been obtained by Iran, shows the head of IAEA's position with Mossad documented. And secondly, what we could not understand, why it didn't talk of the United Nation in past couple of days, Israel appears, who says, "Got nothing to do with the International Nuclear Monitoring", on the table, in the room. What the heck it's got to do with you? This is the biggest... Iran has to follow nuclear observation, but the Israelis do what they like. But they...

The reason they are there this time is because their nuclear bunkers, most of their nuclear scientists have died. They killed four, but they lost hundreds. And they never thought, because they were so confident that nothing will happen, nobody can cross the domes, in the three days, plus all the American, the Europeans, missiles and everything, and Jordan helping them, when these centers were hit, it was in full operation. Israel has lost half of its nuclear scientists, decision makers. Iran didn't hit bunkers that they have nuclear

warheads in them. Iran hit the controlling offices, and the Israelis were shocked how they knew it. (1:54)

This is the reason as I told you a couple of weeks ago, Iran accessing the knowledge, downloading the knowledge of the information. The Israelis knew their target. Every place, maybe one or two by mistake, random, has been hit, has been a military operation, economical operation, and it's a part of. Israelis hit all their operations. If you look at some of the videos, missiles, anti-aircraft, what you call, missile units, are launched in the parks between apartment buildings, which is part of the work of the military base, and Iran hit those. You don't put people on top. What they accused the Palestinians doing is exactly what they were doing themselves.

Netanyahu has a habit to say, "We are done, they've done this to us." But we don't listen to it anymore, because then he wants to make the others damage us. You started it, you get (it) back of. And the worst thing. I advised the Israelis, is to back off. Step down, walk away, accept the loss and end to it because if they go through the next phase, there'll be nothing left of the state of Israel with the bombings which is going to happen. This time Russians are in it, Chinese are in it, defense systems are up and you have to understand something very clear.

Palestinians shot a lot of Americans' drones and other things during the Palestine. All these drones captured were shipped to China. China has made replication of those, understand how to overcome every latest American missile technology. Everything which you have to understand, 9% to 10%, sorry, (1:56) 5% to 10% of the armaments used, if you go back to some of the teachings I gave the hint what it means, never explode. And the Palestinians gave all these to the Chinese. Chinese bought literally all the spare materials, fell on Palestine to the Chinese. And they have replicated it. And now F-35 is in the hand of Chinese. Within next few months, they'll find a way around it. F-35 has lost its position. B-2s, very soon will be cracked. So, it becomes very hard,

Americans are trying to show their face, we've done everything. They're negotiating out of weakness, not out of strength. Over 75,000 people killed died, by apartments just collapsing on top of their own shelters. When you see these big buildings, you see big these crates, were they empty? If they're empty, they're wiped out. And if they're not empty, people are in the basement. They didn't run 10 kilometers to go in the .. (bomb) shelters. Thousands of tons sitting on top. They are not disclosing it. You look at these pictures. You look at the research centers when they hit. By structure of the technology, most of the scientists live around the research centers in Israel. They can walk to, they cannot be tracked. They're all gone. (1:58) When you see the Weizmann Center demolished, they don't show you the other side. All the residential is gone, all the scientists have been killed with their families. The loss is huge.

The Israelis took ignorant, illiterate people from Afghanistan. They gave them a drone and they gave them a telephone number. By tracking the phone number, they rang the Iranian nuclear physicists. When the phone rang, the missile, the rocket followed, the drone followed. That's how they killed them. That's why you don't get no Iranian

telephones. Everything was cut off, that they cannot connect to no one. And you see 7, 800, 900 people captured who've been doing this, are majority people from Afghanistan, not Iranians. Then you understand the other part of the whole situation. Israel is running out of fuel, they don't have fuel, it's all there. Refinery's, electric power, ?? were hit. This is done. We cannot drive freely in Israel, because there is no fuel. No food, no water, because the power stations hit, the pumps don't work. And as we suggested, the only place left for a Palestinian in Gaza to go, is to empty houses for hundreds of thousands of Israelis left. They don't need to go, they go back to their own homeland. ?? (Israelis) has no power to stop the Palestinians to move into Tel Aviv, because tens of thousands got to Romania, hundreds of thousands are in Israel. You could buy a 50 dollar ticket to go from, back to Cyprus for a day trip, now it's 50,000 dollars to get a seat, to find a place. (2:00) Ashdod is wiped out.

Israel lives on the hand of the American naval forces and their cruisers to take them out. That's why they closed the borders, nobody can leave, because they don't have enough people, they lost too much. Scientifically Israel is out of question, all this research center doing the advanced microbiological warfare, every single scientist in these centers have gone. Unless they've been on holiday or escaped, there's nobody survived. One and a half thousand they reported they were in the building. That's Israeli statistics, not us. Was it a need for this? We ?? have to wait. So, you marked, calculate, look at the death certificates in 6 months time from Israel. You should see around 100,000 deaths in this past 2 weeks. Injuries plus the direct hits.

When you see these huge buildings, by Israeli law, each room, each apartment has a safe room. And, look what building was before, what was there, people went into these safe rooms in their own apartments, the apartment doesn't exist. Now you understand. Nothing is, we guess, these are statistics, and all of it is backed by the Israelis' data. So, was this war necessary? But, in a way, if you look at it, Pakistanis did not let Iran down. The last thing Trump did, before attacking Iran, as for the, look at the news for Pakistanis, militaries to appear in the White House, (2:02) getting assurance that they give them access to go through their territory through India to bomb the deep side of the Iran missiles, Pakistanis refused. And this is where most of the missiles are launched, on the far end towards the Pakistani border, that they cannot interfere.

But Iran lost a lot, was in need for it, all our nuclear bunkers, all our nuclear materials are in hand. The B2's dropped a bomb meters away where it is, and it was the biggest failure in American deployment of B2 and B2's. Was it a need? The only beneficiary is Rothschild's and Vatican. Just watch, the death certificate appears in Israeli documents in 6 to 12 months. A lot are wiped out because they cannot even say. A lot of the registration, a lot of central intelligence has gone. When Mossad headquarters was hit, it was full of people. They lost their intelligence. When other headquarters, military headquarters, they were all manned because they never thought they were going to be touched. Airport was full of people when it got hit.

If Israel decides to go for a second time round, I think they go back to the Moses time. (2:04) Seven and a half thousand elite of the nation scientists have gone. Plus engineers,

decision makers, all gone. Was it a need for it? Did we have to do it? And just go on the statistics from the Israeli government, nobody else, no one else. When you hit the refinery, these refineries, you cannot leave them unmanned. Across from the refinery is the military port of Haifa. The port is unusable. Empty from soldiers, where did they run out? My condolences to the nation of Israel, and the same with Iran. But the book is clean, and you will see. If ever research center has ever come up.

The best thing in this war happened, the microbiological warfare, which was the essence of all the chemical warfare in the world has gone. This is a help to Humanity, we go to the next step. All the biological research, all the chemical warfare, was operated through this center in the different covers with different nations. Now it's gone. And that's according to the Iranian government. Full operational when it was hit. There are no ghosts in these buildings. That's a tough ?? sight. They were trying to develop the latest that it can do something with the world and with Iran. Unfortunately they are not there. Unfortunately, humanity has been lucky with this.

All the silicon, all the drone facilities have gone. They were not empty places. Full of engineers and top people, scientists. people, scientists. All gone. (2:06) Losses is more than, more than man can imagine. For both sides. It took 11 nations to bomb Iran, do everything to stop Iran. And it took Iran the first 7 days and a little bit of help ?? ?? change at the end. But one good thing will happen with Iran. Now we don't need to develop the nuclear material. Russia is giving it to us free. We become nuclear without wanting to. So what's next? Don't look at the rhetoric in the news outside in the West. They're bleeding. Beyond.

Any other question?

Q: I'd just like to finish with saying I pray that the peace stays and the ceasefire can develop into a longer lasting permanent peace. and ..

K- We hope the same but you have to understand this is a religious war. Nothing to do with humanity. These people have no emotion. Vatican decided to launch this. Israel is just a tool and the rest of it. But it is, as I said, it's the last phase of mankind jumping on each other. You got to understand there's a lot of things happening economically. The ?? swift is going to be out of use in next few months with the Chinese new system coming in which is now operated with a lot of banks, which people outside don't know. (2:08) The system brought in by the Chinese now fully operational. Doesn't need the ?? swift, doesn't need changes exchanged in the market direct. And then, you have to understand, the economical situation in Russia, has changed opposite to what they were expecting with the Ukraine war. And this will show itself very soon. And at the same time, blocking the rare Earth material to America, is paralyzing a lot of other things. They brought this nonsense of getting rid of the people who are there working, and it's going to bring huge pressures on Americans, and they have to do something to change the internal pressures. And this will end up to a bigger war, because to divert attention.

It's horrible what's happening, we have to stop it. We're trying to every possible way with the Iranian government to find a solution. We have made huge offers to the Iranian government in past 48 hours. But, you have to understand, they've set their mind, they found a weakness of the animal, how it's bleeding and they're not letting it go. And this is the wrong approach by the Iranians, but that's the decision of the Iranian National Government. They were hoping they get the people on the street, they get the revolution, they brought the solidarity to the nation and at the same time now a lot of Arab nations are going behind them. This can bring arrogance which is not good. And there is a time to stop. The time is now but we'll see. If Israel goes any further there'll be nothing left of the State of Israel. They demolish it themselves. (2:10) They came in as a refugees, they leave as refugees.

We tried to approach both governments, trying to bring (them to their) senses apparently. Americans don't want to accept it because there is a reason for Trump to stay in the office. And the Iranians have found their weakness, they're going to solve the problem for themselves. ?? Who's all ?? losses in this war? It's around about 150,000 on both sides, nearly quarter of a million injuries. Watch the hospital, watch the statistics, watch the government leaders, you don't see anymore. Officials which are not there anymore. Scientists don't appear in conferences, these are all dead. Just watch which conferences coming up, Biochemical conferences, Nuclear conferences, Atomic conferences, Military conferences, all get cancelled, one by one, Israelis will not be there because scientists have gone, people who are instigators. Look at the structure in coming months in the scientific world and see what's missing, where is missing, why there is no more research papers coming out of Israel. They reckon 80% of the research papers in Israel will not appear for next 5 to 10 years. Because the scientists are not there. And a lot of foreign scientists have already fled the nation.

It should not have happened. But this one man has brought one nation after the nation to war. But this time he chewed more than he could swallow. (2:12) We lost one of the biggest supporters of Keshe Foundation, the first day of the attack. Knowledge Seekers one day will know the man who stood by our technology and science in Iran. Shouldn't have been done. He was a great scientist, he was a huge understanding of the new technology and ?? changes. It's time for peace and it's time to bring the new technology and we are on the verge of doing it. If you understood I keep on telling you, don't sell your Markray shares, hold on to it.

Any other question?

R: Okay, thank you Mr. Keshe. Let's see here. We have a request in the chat from Lisbeth. I'll just say, and you can say whether we should do it or not. She says, "Can we take two minutes to elevate the Souls of all those who have died as part of these clashes in the Middle East and between Russia and Ukraine?" That means two minutes of silence.

K- Why don't you give me a Soul, then bring it to the dimension of physicality of silence? Use these two minutes to elevate the Soul of the World leaders. Nothing else.

And you don't need the physical silence. (2:14) Make the time within you and you can reach it much more than the silence.

Any other question?

Q: ... You mentioned some time ago, that there are Humans, or Human-like beings, living inside the Earth, possibly in a non-material state. Could you please tell us more about this? In what field state do these beings exist? Do they have connection or communication with the surface, or with you?

K- Can you repeat? Can you repeat?

Q: ... You mentioned some time ago, that there are Humans, or Human-like beings, living inside the Earth. Possibly in a non-material state. Could you please tell us more about this? In what field state do these beings exist? Do they have connection or communication with the surface, or with you? What role do they play in relation to current developments? And, what do these inner Earth Humans think or feel about the driver on Earth, the forces that control events here?

K- There are a number of things you have to understand. Life within does not mean physical intelligence. Life within does not mean physical body of the physical Man, it could be the shape of any structure. Have emotion, understand, has intelligence. This is the same across the Universe, it's not exclusivity of the Earth. (2:16) As we have the birds flying in the sky, we have the fish in the sea, we have Man on the surface of the planet, we have Life within the structure of this planet. And, depending and according to what structure is made, how it's made, depends the physical, what we call, manifestation.

The whole structure of this Planet is not the way we've been led to believe. We have moles live under the surface. We have all sorts of animals which make their tunnels and they live. They have intelligence, they have life. So, going by the same principle, within the structure of the Earth, even within the core of the structure of the Earth, there is a life. Is it aware of the thing happening above? Does it matter to it? Because that's the only world it knows.

In the early reactors I used to build, which I was sitting on top, I was aware of. All the, every position of it, and if you go back to the teachings I've done many years ago, I always say, when you start a reactor pray for it, because it has a Soul, you create lives in these systems. It's because to understand this, to... we understand the totality of Creation. The problem is not so much, is there a life in the inner Earth, the life above us, which we always ignored, that as a... many time we see it by satellites. When the Man actually gets out of the Solar System, you will see life ?? without a dimension of physicality, as energy. I've said that many times, (2:18) in between Solar System, in between Galaxies, in between the Universes, due to interaction of the fields, there is a life. It has intelligence, it decides for itself, accumulates, divides, does everything else which every other life does. Life on the Earth is hundred years, life in the span of the Universe, as a fields is millions of years. If you are 20 million years still a kid.

So, if you understand the full structure of the interaction of the fields creation of life, it's not hard to understand. And in time, the different cultures come in touch with each other. It has happened many times, the way the mole comes out of the hole and he sees life, humanity and animals, the same thing over time has happened with those who live within this planet. You have volcanic eruptions, you have holes in this Universe, in this Galaxy, in this planet. It's not that they are hidden, has been, there is, decision is we cannot live, we cannot put an animal which cannot breathe air onto the surface of this Planet.

So, there is life, Man has to respect that life, not just what's within the Earth, is there a life? Yes. Intelligent? Yes. Because if they're not intelligent, they couldn't replicate, they couldn't find a way to survive. So, intelligence bring them survival, and you can survive, you are intelligent, because you'll find a way. (2:20) Man has just learned, we'll encounter very soon, as we open the Space into excursion, will face, will interact with the other lives, which are life intellectually more advanced sometimes, sometimes behind us, of living things. Don't put your mind, narrow-minded, that this is it, no. Accept the truth, accept that, you know, if life could be created on this planet, which comes from interaction of fields, so Universe is full of fields, and it comes interacting with each other. We are above, on the surface, the fish are in the water, birds in the sky, what I call, jelly life on the upper atmosphere, and for sure from what our geologists tell us from drilling of the holes, we find new lives, there are other lives, we just don't, have not drilled into the right hole to find them. Life exists from the center of the planet to the heart of the Creator and all the space in between.

Any other question?

Q: ... May I please ask one more question about scheduling a follow-up interview, please? I hope to discuss several material science aspects I've discovered, working with the MaGrav coils, electrochemistry, Gans technology and Nano material plasma states. Are you open to interviews or?

K- Send a message to info@keshe.foundation. It'll be organized that way. (2:22)

Q: ... I would also like to give my full testimony of my 14 years of following Mr. Keshe, as well as all I have experienced while participating in 12 years of Keshe Zoom workshop groups. ...

R: ... I would suggest that he could do that in the public meeting for testimonials, which is always the second Monday of the month, coming up in July, and that's an excellent place. You could put a presentation together, if you like and... Let that... workshop know about all your things you'd like to talk about. It's what would you suggest Mr. Keshe?

K- I think that's a good idea, because that's the way people share. These, all these testimonials one day will be opened up in a different way and people learn, step by step. You're researchers, that's why you release it. When people publish scientific paper, Knowledge Seekers create testimonials, without payment to interfere with the outcome.

That's the way we look at the testimonials. Testimonials are research papers. You do the research, you do the validation of, and you put the knowledge out. Who reads it, what you want to do with it.

R: Your peer review is your peers are peering at you while you give your presentation. And they'll give you a response instantly.

K- The worst thing to do if you want to keep a technology hidden or a knowledge hidden, is to go to the scientific papers, (2:24) publication, which now we understand 90% of the publications are all fraud. Built to defraud, divert attention or knowledge, and partially to cover the lies of those who sponsored it. It's very strange, the number is 80-90% of the published papers are all lies. More and more is coming up. It's just put out to please the people who paid the research for. And the worst thing you can do is to patent the technology, which means I give it to you, do whatever you like with it, but it's the cheat which the Europeans brought in with the patent business to get access to the other people's knowledge, and it's 'not washing' anymore. Not washing out anymore, there is no more people. Any time you want to lose your technology, you patent it. Which means I give my knowledge to everybody else, but I want money for it or whatever.

We changed this in the new structure of the contracts with Markray Corporation. You will see, because it's a public knowledge, it's not something that we hide. It has to be released once the things are completed. With all the governments, with all the institutions, with all the companies we negotiate. We got away (rid of) with license, with what you call, patenting and intellectual rights. We give the technology, if the technology is correct we take 10% on top of the bill of the sale. If the technology is wrong, you cannot do anything with it, why should you pay?

This means that you will see all the organizations, all the companies which collaborate with Markray, if you develop, let's say, a plate, and it costs you 100,000 to develop it, make it and you sell it for 10 dollar, that's a profit of company. (2:26) We have brought an international license fee, 10% on top of that, whenever you pay VAT. And it's the job of the factories to pay, not the public, because you already paid. This way we have gone round all these licensing, certification, research, patenting and publication. Because, if a technology is used and sold, it pays as a point of sale. If it's useless, doesn't have any income.

You will see all the contracts signed and going through Markray Corporation carries this international 10%. Doesn't matter you use the technology in Africa, you use it in Asia, you pay 10\$ for a good in Africa, you pay 10% on it. You work in America, you pay 1,000\$ for it, you still pay 10% for it. The new license we will put out, is attracting a lot of attention from the governments. This way, does not matter who takes technology, what it does with it. Source back, sources back to the point where it came from, 10% bill is a scientific payment. It's the same as you get royalties in the music. If somebody plays your tune, you pay for it, doesn't matter what they do.

Now we set the structure, we change the patent business. Doesn't matter what patent. Technology refers back to what it is. It uses a Nano technology which is confirmed to be Keshe Foundation. You are the shopkeeper, you are the guy who buys a microphone or telephone which uses that. 10% of that bill goes to the Foundation. International intellectual tax. Does not matter you sell the goods, you manufactured it in China, you sell it in America, and America pays 10% of the bill. And this is written in all our contracts. Goes by, technology has to be open, let people use it, let them develop it. (2:28) You don't need to patent it, you don't need to hide it. Connects to a knowledge, recipient of the knowledge takes 10%.

It has a value, it's the same as a farmer. Why should we pay a farmer 20\$ per kilo for a meat, which it cost him all his life, and plus all expenses, 18 dollars. He has to live, he has to live correct. This is why you go to a shop to buy the cheapest, but who suffers the farmer then? Why don't we pay equal, correct amount, that the farmer survives, can expand, brings a new life, doesn't need to find shortcuts to create health damage. Now we've done that. You will see with all the Keshe Foundation going through Markray contracts, 10% sales tax. Does not matter where our products is sold. In China, manufactured is sold in America, produced in America, sold in Vietnam. 10% follows, and the government see the right to it. And this is the only way we can go to the next step. This is all we need, this money which we sent to the stagnation to get these things sorted very rapidly in the next few... but we already passed our deadline, we are still stuck.

But, all our contracts will go that way. Government contracts, you use our technology for defense, you're welcome. You bring it into commercialization. Part of it, 10% or whatever the technology used. It's the job of the scientists to track who used the technology for the 10%, and the governments to allocate it the way they do with the musicians. What's the difference between a scientist and a musician? How come people get royalty because of the music played by somebody on the radio, or was used in a movie? (2:30) Now, that love sits on the scientific side, and we brought it in, and we are forcing it. And this is the way it should be, should have been. Not patent rights. The way we did, we left the technology in your hand, we let you to deliver it and develop it, but you will find out soon, very soon, next few years. Anything you developed which uses in source Keshe Foundation technology you still get your money. Customer pays 10% tax. Intellectual tax. There's no need for the guy who made the wipers of the cars, if you know the history of it. He made it, he patented it, car companies used it, 20 years after he spent all his life and energy trying to get paid for the patent, that every car you drive uses his wiper.

Now, it's there, you pay. Intellectual right becomes Human right, and that's why I started, that I ask you to develop as much as you can. Because now that we go into operational track, you use the technology, you're selling your soap which uses Gans, you still get your money. Customer pays 10%, intellectual right, as a license. Not a ?? royalty, there's no royalty into it. And you'll find out, science world will evolve a lot with this income. We have to do it this way, we had to change the patent. But now that we've gone into operational transferring the knowledge from Keshe Foundation into Markray. Markray is

a stock market company and has different clouds and different structure and different government structure behind it and can enforce it. (2:32) It's no more, "Oh it's Keshe Foundation", you deal with Markray technology, sits there, you pay 10% because it goes by license to the licensee. Does not matter who plays what music in which channel, doesn't matter what you use, technology, what part.

You will see the changes and now we have written into all our agreements and it's acceptable because doesn't affect the profit of the company. Does it affect if you pay 30% VAT on your goods? Goes in the hand of the pocket of the government to do what they do. 10% what you call, license fee on sales goods, sale of the goods, solves the problem for the scientific world, solve the problem for the scientists, makes huge amount of money available to research and development into a Space technology and ?? everything else. And you don't have to be worried who copies it. The more you copy, the more income you have. You just need to confirm where it comes (from). It becomes a job of governments to collect in the future. The way they collect money for musicians and they give them, now goes the other way.

This intellectual right tax on sale of the goods will be worldwide applied, because every product, even the apple you eat, has genetic or scientific evolution on it. It allows a balanced world to create new dimensions in the ?? planet, to support of science. And it's international, it's broad, right across borders. Does not know no nationalities. You will see it. Intellectual tax on sale of goods, does not affect, you don't buy it, you don't pay it. (2:34) You use a technology, which brings your sale by advantage of it, you don't do anything, it doesn't touch your margin. It gives the intellectual person who use, you might have used 10 different technologies in your work to be the available thought, the scientists get paid for it.

And this is the way it's going to be, all our contracts, through Markray carry this 10% intellectual right license. At the beginning, the first two or three negotiations was very hard, because people they all doesn't touch, does the VAT touches your profit? No. You produce Microchips, who uses 10, 20 different scientists, know how life for companies, this is the job of the government to allocate, this is what I do, I use this knowledge, this knowledge, this knowledge. It doesn't harm me, it's like list of ingredients, and it's the job of the government by ratio to pay, research centers, "I use this, this, this, this." And this brings balance, gets rid of all the patent business, gets rid of all these intellectual rights. Your internal rights is finished use, and if the government use it for military, Space or other development, again the same. They have to allocate percentage of the research for development, goes to the scientist. Then business is finished, and governments understand this now.

This is why I always ask you to go as much, teach as much, develop as much, use as much. Because, when there is enough of it in the market, there's enough of it usage, you sell your things, you have to pay your taxes. (2:36) The one who uses it can pay 10% for the knowledge. Intellectual right has to be the right for people develop it, but controlled by the government, they all get paid for it. Then there is less involvement with the governments to getting involved, because researchers receive funds directly from.

You look at Beatles, you look at all the songwriters, even one TikTok of their music's used they have to be paid a fee. How come their knowledge of a scientist does not worth that much? They only think of a noise. This way is correct. Doesn't harm the producer. He says, "Right, these are the technologies, I use from these places." That's all he needs to disclose, the government's collected taxes, or the sales tax from it comes. If you exclusively use one technology, directly goes to technologists. There is a need for restructuring and injustice to scientists. And the people who develop technologies, and this is the correct way to be done. In America you pay three different, four different taxes, local tax, government tax, this tax, that tax. Why not pay the scientists who brings you together with the governments to collect the taxes for it?

Any other question?

Sorry, but let me add something. By the way, now you understand why we say the price shares you see in there, in Markray is not real. If you collect this 10% you can see the revenue. Carry on. (2:38)

Q: ... I'm also presenting at Tesla Tech in New Mexico this August. I'm part of the media team at the event. Is there still an active US Keshe Group that could present a demonstration of the Plasma Technology at the event?

K- Pardon? Who's this one?

R: That's Bernie again, who you were just speaking...

K- What does it say?

R: ... He's presenting at the Tesla Tech, it's called, it's a conference in New Mexico this August. And he's wondering if there's an active US Keshe Group, that could present a demonstration of the Plasma Technology at the event?

K- We have to know what it is.

On the 16th, 17th... sorry, am I correct? 16th, 17th, 18th, 19th? Or somewhere around 17th, 18th, 19th of July, there is a medical conference in Vienna. I think we've been told something like 500 psychologists and people in that field will be attending. And Keshe Foundation has been given three hours of lecture, in this conference, on the 19th. Which we present the Keshe Technology to the scientific World, to the World of Medicine. The application of it is done by invitation, and I'll be presenting this. You cannot just come in, I presume it's for doctors and the World of Medicine, (2:40) we've been given this, thanks to Dr. Kern and his work organizing this. We're making this presentation of the technology, psychological part of Technology, in Plasma Technology, Cosmic Ray, in World of Medicine.

If we know what this conference is exactly what it represents, who is going to be there, we can tailor make, or we can arrange live demonstrations from remote places that nobody knows where we're doing the research, to explain the technology. Or we can organize with couple of people in US to be there. But it has to be, you got to understand, these positions has to be delivered scientifically. Maybe 5 minutes at the beginning, the history, but you have to deliver technology scientifically to be accepted by these people. Is Tesla, which part of it is, what does it apply, who's there, and then we can tailor make it.

Q: Yes, sir. So it's hosted by Steve ?? Elswick. He's been doing it for about 40 years. And this year there will be Dr. Bob Greenier, the head of the Martin Fleischman Memorial Project out of the UK. They're the top cold fusion scientists. And there's also Gerald Polak. He's the 'fourth state of water,' out of I believe Oregon or Washington State University that's also going to be there. As well as...

K- How many people attending this conference?

Q: I believe like 500 maybe a thousand. (2:42) There's going to be Terence Howard there with Dr. Yu of NASA presenting their Theory of Everything model as well, the geometric model. And yeah, I myself will be demonstrating a process of transmutation of hydrogen into helium we'll be reproducing through this white plasma arc electrolysis process, as well as a second transmutation cold fusion process but this, the second one is strictly acoustic energy only of aluminum into iron spherical metal cold fusion and I have been able to figure out the process of the stabilization of the iron sphericals afterwards when drying them to prevent the decay rate. As well as what you were just saying about the 10% aspect of invention, that's absolutely reasonable. And I fully agree to that and I want to put forward with you. And the major one that I believe I have produced and replicated that you've spoken of over the years is the production of deuterium, as well as tritium on the different electrode Nano structures through specific Gans electrochemistry process, using the triple solenoid MaGrav coil design and the Nano-coating that you've taught, (2:44) and that also I've learned how to stabilize their decay rates when drying into the solid form in that. It'd be something, it'd be interesting.

K- How long is your time of presentation?

Q: I could put an hour, a two hour one, of my own work, or at Tesla Tech, because I'm part of the media team there. So I can arrange for remote demonstrations as well as live demonstrations, if they're able to be arranged. I believe it's August 7th to 14th or something like that. I'll get the exact dates and we'll put it in the email to you.

K- If we can participate remote we can discuss. But depends if it's a lecture or is it an exhibition?

Q: Sorry?

K- Is it a lecture?

Q: Oh yes, absolutely, 100%. ..

K- Or is it an exhibition?

Q: It's a five day presentation of all these different free energy as well as like cold fusion and the Gans also under the Ormus there, but I understand there's the differences. And yeah, there's literally, I believe, 5 days of 12 hours of 1 hour to 2 hour presentations by the different leading people in the fields of cold fusion and ?? cavitation, plasma fusion and coils.

K- If you talk to us, how we can represent the technology, it'll be fantastic. (2:46) If we can collaborate to make it presentation .. You've got to realize, a lot of things regarding the work of the Keshe Foundation, in the next, maybe two, three weeks, will change. We'll explain why, you will understand it. Because, the technology now is presented as a scientific, commercial technology. It's not a talk anymore. And this will bring the change, and maybe in the conference, we'll have a different position, if you do talk to us on how we represent, how we present it. We can present as a Markray Corporation, in the Space Technology than the Keshe Foundation, as an American structure, and that might have a different effect, but we have to wait, to discuss with you what we have and how we can represent it.

Q: Okay, I will be in contact with you and with the organizer as well, and hope to talk to you soon. Thank you.

K- Thank you very much indeed, thank you. I just had an update from... regarding the conference in Vienna. It says, anyone interested can participate in Vienna or via the Internet, at the World Congress for Psychotherapy. We will post the link in the Telegrams. A total of 2,500 people are expected to attend this conference. We've been given a 3-hour allocation in the conference on the 19th. And it'll be partially represented by Keshe Foundation, Markray Corporation, and other parts of the Keshe Foundation structure.

Just one second, I received a very interesting... (2:48) We just received a message from one of the Knowledge Seekers. I would like, hopefully, for him to be kept anonymous. Mr. Keshe, one million Markray shares I have offered back to Keshe Foundation. Hoping to sort these things out. We'll give... we tell you what to do with it and how to do with it in the stock market. That it helps us and we replenish this 1 million shares back to you, on accomplishing the, what we call, to get the realms. This 1 million takes us a little bit further up to help, when the share values at about 11, 12 cents, that gives us 120,000 dollars. And we thank you for your support. If any other Knowledge Seekers would like to do this, to share their shares, we give it back guarantee once we sort out. But this will help us to move on very rapidly. Thank you very much, and we thank you for all your support.

Any other question?

Q: ... I have two questions regarding one of the old teachings. In one of the old teachings you had a demonstration of a lateral magnet. If you had like three magnets on the floor, (2:50) and then you're holding one on top, and then you move the magnet and the other

magnet moves. So, .. it's not like the magnet we all, we had the circular magnet on the ground that you move one, the other one moves. The movement is different. So, you explained in this that how the field, you can see how the field is not the matter that moves the matter. It's the field that the interaction of the field moves the matter. So, then you take this to, this is happening in the Universe, like everything moves according to what something else moves. So, my question is here, you holding the latter magnet on top, but who's holding the last thing in the Universe? Because...

K- Magnetic fields are all connected to each other. Nobody's holding it. It's one, what I call, perpetual connection of fields. It's a spectrum of strength, which connects to what and how, and what matter. This is something which we need to teach a lot for people to understand, that plasmatic energy is part of the structure of matter energy, but we never consider it. This is why in the teachings always talk about the matter and the energy of the matter. This is why the Book 1 and 2 and 3 brings out. We consider the matter as it's a matter, but a matter to stick together needs an energy to hold it together, individually and collectively. (2:52) And, it depends which one you can connect to. In a matter state, in a Magnet, Metal, you connect to the... so many balanced fields of so many plasmas together, that's all it is. So, if I can change the balanced energy, I can move even a stone, I can move a plastic, which we've shown before, understanding the knowledge behind it. But, all the fields are somehow connected to some other fields, that at this point manifests itself in a matter level. There is no end to it. It's one vicious circle going back to itself.

Q: Okay, so can I say, for example, if I get a circular room, like a planet Earth, and I have a opening to it, and I create a whole field inside of it, and I throw in a whole bunch of items, and suddenly they're all holding their own position in that field, because they're all interacting, so it's just like, the whole Universe is just like that, so there's no, nobody's supposed to hold something, because everything is holding themselves.

K- They're holding through magnetic and gravitational positioning of the field strength. That's the explanation of it.

What we're developing now in the lab is very interesting because we can show it and we set up to show many things with it. And, you should be able to see magnetic vortexes, plasmatic vortexes, made by the field themselves, in how they connect to each other. You should see the way the information comes. (2:54)

I hope maybe in the future we can, if you remember in Barletta, (Italy) we made the structure of the physical brain. Our next step, maybe in the next three months, six months, maybe more or less, to build the structure of the energy of the brain, which is the total breakthrough in the world of science. We have set up the first half of it. It's going to be developed, to be finished. Where we dictate the layers, but at the same time, we use only the energy. Not the matter. And this is a huge, huge breakthrough. It just changes everything. In a way, we can feed the whole humanity with one system. We are maybe a year, two years away from it. Maybe less, maybe more. If you're lucky, we might hit it next month, God knows. But our scientists have to understand the work, that they can develop that phase. And then we can feel all emotions, we can touch all emotions, we can

change people's perception of war, and destroy that inside. This new system which is now going through a test in past couple of weeks, will change the world of science, in understanding the work of the energy of the matter, than the matter. That's where the breakthrough comes in.

Q: Mr. Keshe, the next thing I want to ask is, when you talk about, if I know, if we know the Mass of destination, there's two questions. If we know the Mass of destination we can actually travel to that. (2:56) It's just that the difference between the gravitational field than the magnetic field gives me the Mass. So, is the Mass of destination is our own Mass at the destination, or Mass of the destination as the destination, for example, say moon. And this is the case, is the destination Mass is important in transmutation, is important in teleportation, because transmutation you don't deal with Mass, because the Soul traveling. With the teleportation, you physically is going to be there, so the Mass comes into play in that case. Am I correct? And if it's correct, then it has to be with my Mass of, my Mass in say planet Moon or planet Mars, not the Mass of destination itself. I'm not sure. (microphone switched off)

K- ... If you explain the Mass, as the interaction of the given amount of field strength, then you are correct. Considering that the centrifugal force of the Universe, dictates that Mass. (2:58) The Mass of the element, which is the balance fields of the gravitational magnetic field of given strength and the amount of field is explained as a Mass. And this is dictated by the central point of the Universe, in this Universe. The Mass of the Copper in another Universe can be totally different. Because, the field forces, then it dictates on this, on how. Then this dictates on how much fields can be. This is why the energy of an electron is fixed, we know what it is. We know what's the energy of a proton or a neutron is. Because this is fixed, we cannot change it. Is dictated by central forces of the center (of the U). But again, within this, there is another field, which is dictated by the center of Unicos, which dictates that. So, the Masses are not all the same in all the Universes. And, the way, the weight changes. The Mass in the center is dictated by the centrifuge forces of the inner center.

Q: Mr. Keshe, I know, I know, partially I know that.

K- Let me, let me explain something. You have to understand, that the Universe, our Universe, or any Universe, does not have a central Black Hole. It has a longitudinal, it's a long, it's like a ray. Because it's moving within the Unicos. (3:00) And, it has a direction. So, if you, one day we can look at the whole of our Universe, is not more or less spherical. It is very much like a flat UFO, because the central line itself. It's a combination between the light and the matter, as a plasma. And this, the speed of the travel, the speed of rotation of central column of the Universe, dictates the Mass. Because, if the speed of it, if the absorption rate of it is different, it will reject the mass into the Unicos. This is how it actually happens in the atomic structure. An atom, when you look at it, the electron, is not spherical moving. It's very much a plasma UFO shape. Because its central point, it dictates its motion. It's not a ball that you see or follow. It's slightly elliptic. And this is what we have to understand, because this shape dictates the

Mass, the matter state. And this is part of the understanding of transmutation. You cannot transmute with the same Mass from one Universe into another. It's impossible.

Q: So, Mr. Keshe, okay, so it's impossible, but then, so the Mass is important in transmutation, then, and also in teleportation, because in transmutation you don't have to physically be there. I can be there, for example, I can be sitting here in my room, and then I transmute, go someplace in Tehran. (3:02) And I can see, for example, my parents, but I'm not physically there, but I can see them sitting there, whatever, I can see the objects in the room. But with teleportation physicality is going to move, and the only way physicality can move is because the Soul has to come out enough to expand to kind of get the physicality engulfed. Just like the way you explain the envelope, that you put something like a letter in the envelope and you can mail it. So the Soul comes at expanding of the physicality is going to be engulfed in Soul. And then, at that point the Soul has the interaction, because the Soul already has all the connection to the whole Universes. So it can decide where it wants to go. So, the Mass doesn't matter, it ?? matters. I don't know.

K- You see the... I'll explain it backwards, maybe you understand it easier, or maybe it's understood easier. Mass is a interaction of the gravitational magnetic fields at the level of the Universe for every matter. This is why we say the Mass of thing everywhere is the same. When it interacts with the environment it gets a Weight. But you have to understand that this Mass which we dictate to be whatever, it's itself is dictated by the Unicos Mass, by central field forces, which in this Universe allows the interaction of. (3:04) This is what we have to understand.

The Mass in this Universe is fixed by its interaction between the fields of itself in the central point. And that's why you have such a small amount. Atoms are not the size of a galaxy. It's gone down to the lowest common denominator field strength package. And this is why we go through nuclear decay. Because, this package interacts with the fields around it, with other fields which come from other Masses. And in giving and taking, it's... it in a way divides.

There is a part of nuclear physics which is never understood, we don't... we never explained. And it's the elevation of the matter. Not everything goes to a nuclear decay. Matters go to nuclear elevation. It can go from Copper to Gold, and it happens all the time in the Universe. Plasmatic interaction, absorption, allows it. This is... you cannot have a one-way traffic all the way nuclear decay. Whoever came up with this knowledge is absolutely nonsense. Then it comes to doomsday, there is nothing left to divide.

We have the same process backwards, elevation of atoms. (3:06) Elevation of atoms comes in a different way from interaction of the fields. If the Gold is come from the decay of, let's say, Plutonium, Uranium, whatever atom, when Gold is temporarily sectioned in this part of the Universe, in this planet, because then it decays to something else, there is nothing to be made Gold of. This is why in the teachings always say, the number of elements, we say, is 100 and something is of the lowest order, because part of these in the dimension of conversion get elevated back to a higher level.

We are producing this deliberately in the new design of the reactors. We have taught. How is this? We tested it, we've done that in the previous reactors. Nuclear decay is exactly like Magnetical side. But the Magnetical side has a Gravitational side, has to gain for that Magnetical to exist somewhere. The elevation of the matter, it's far more than the Nuclear decay. And, I put this forward years ago. This fits with the Conservation of Energy. Otherwise we just keep on losing. But, we had to prove it, it does exist. And it exists only in one way, and it comes through Cosmic radiation, not Cosmic Rays (CR). This is the reason I started to talk about Cosmic radiation, months and months ago. Because I know one day it comes to it. (3:08)

You don't with, let's say X-ray you hit the target, you split it you release its energy. With the what I call, elevation of the matter. In a way nuclear elevation if you want to call it. This is where the radiation comes into it. Fusion does not exist. Fusion, it is a dream which will never come true if you really understand the fusion. But you can add to, to elevate the atom to a higher order and this what happens. In nuclear physics we talk about the split of uranium into subatomic structure and then we always say the release of the energy comes heat, which we use in turbines or whatever for electricity. But scientific world has never understood. A percentage of energy released, used for elevation of the matter next to it. In the energy level. Then you have to find out, because this environment does not allow manifestation of it, where that energy matter comes up to.

This is what we do in the production of material. Elevation of the, nuclear elevation, exist, has to exist, otherwise we are a one track mind, of decay, decay, decay, decay, decay. Where are we going? Where did we come from? So the source continuously creates much, much bigger elements, that we don't even know, that they decay today, become Uranium of today, and then decays to something, something, something else. (3:10) Half of the knowledge is missing. Nuclear elevation exists, it does exist, because it uses the surplus energy of the higher order, to interact, to create elevation of. It doesn't need fusion. This is why I always said, "Fusion is a dream, which never come true." Nuclear elevation exists, we see it, we observe it, but we cannot detect it inside the reactor. We cannot detect it inside the Uranium rods, in nuclear materials. But, if we collect outside, we see conversion of matter. We call it conversion of material structure.

A few days ago, I was sitting in a cafe, and next to me was an English man. I said, "Oh, where you come from?" and he says, "Oh, I'm in a very peculiar business." I said, "What business you are in?" He said, "I'm in a net business." I said, "What do you mean?" He says, "You know, table tennis nets, and this nets, and that nets, yeah." He said, "But this is not the main job. The main job of the net production now is nuclear industry, especially like in ?? Sellafield." I said, "What do you mean?" He said, "In Sellafield the panels are falling off the ceilings." I said, "Oh God, it's got that bad?" He says, "they haven't found a solution for it." I said, "Yes, I know, because I did my research as a student, on these panels when I was working for British Nuclear Fuel, they were falling off." Because, at that time, we sorted it out, we gave the energy from the reactor, nuclear energy, which is hidden to us, hits these, softens the pins, and they fall, we sorted it out, we organized it. But now they stopped the reactors, the energy is reversing, back onto itself, (3:12) so ..

they are just making mesh nets, to catch these panels, that it doesn't fall on top of the nuclear reactors.

Nuclear elevation comes from the radiation, what we don't see it at the point. We see it outside, when it materializes. A Copper becomes Gold, a Copper, a Uranium becomes Gold, a Uranium becomes something else, later down in the course of, the nuclear decay, in that process, that Gold can become Plutonium too, if it's positioned in the right place, to create the condition of. This is nuclear elevation, this is what we see, not as a nuclear decay. Decay is half of the game. Conservation of Energy tells us, has to be something to feed it, that it can decay, that it go back to. And, World of Science has never understood, and when we do it, in the Plasma Technology, especially we design reactors now which produce Cosmic radiation that allows elevation.

Our friend was just saying, telling to us, few minutes ago, that he's developed technology to produce Hydrogen into Helium, blah, blah. You don't need to, if you understand the Plasma Technology as a Nuclear Cosmic radiation, you just create a field of radiation, every atom will go back to what it's supposed to be to decay back down. This is what I say, in the science, we always deny, ignore, out of our lack of understanding, the process. Because, somebody down the line said, "Nuclear decay, blah, blah." Where is the other half? Where is the balance of it? (3:14)

And if you understand this, then you understand, mass is part of the equation. Universal Mass is part of the equation. And it's Universe dependent. Another Universe, in another position, has a different Mass, Gravitational Magnetical plasma package, that indicates, is what we call, let's say Copper. Maybe in this Universe, let's say we have 10 gram, in the other Universe is 9 gram, gives the same characteristics, Copper, as a Copper material. In another Universe could be 15 gram. Depending on the central force, but when they interact in the Unicos, then the interaction of central field force of Universe, or Unicos, decides on the Mass.

This is, and if you understand this, using the transition time between the mass and the energy, which goes up, become the mass again, you can transmute, you can transfer, you can do everything, this is what we call time, the time of switch time. The split of, what we call, the lifetime plus time (half-time). You have a nuclear time decay, you have a lifetime decay, lifetime... If you understand that, then you can connect. And, in some papers I refer to this, even I think it's Book number 3 I refer to this somewhere. Nuclear radiation is, or Cosmic Ray radiation is a corner, (3:16) is the other half, because elevates the lower elements to a higher element that they can decay back. It's not all the way down the hill. If it was down the hill, why do we see Universes, why do we see Solar Systems away from us to the edge of the Universe, which have the same characteristics as us? Where does it go? It should be smaller. This should be made of only atoms from Gold down, and the next one, further out, only from Hydrogen down. It doesn't happen.

Conservation of the Energy tells us, there is, should, there must be something, going up the ladder, that it can come down the ladder, to keep the conservation going. And the world of science has not understood this. The elevation of the plasma, it does not mean

the fusion of plasma. In this process radiation comes in, not the amalgamation. In a way, you blow air into the balloon, you don't bring another balloon to add it to it. World of science doesn't understand, it never understood that, you go and look at any literature, does not, is not, never taught. And, most of this radiation comes out of Nuclear decay. The bits of the energy when it splits, we... they say it comes energy, okay, just because we use the heat of it we ignore the other part of it, which is used for elevation of the atoms, in the field strength to elevate to the higher that they can decay.

Q: Thank you Mr. Keshe. The same way the world of science doesn't understand this, I think that's the same way humanity doesn't understand the law of give and take. Thank you. (3:18)

K- World of nuclear is one of the most fascinating world of science. Has no dimension and has no connection to the science of man. It's the world of Creation. And this is why when you understand it, you see the life totally different. I had the privilege from China to be involved in, or introduced by my father to X-rays and radiation. And, took years to understand this. It's not a one-way traffic down. It has to be, it has to be a balance, where the balance comes. Cosmic Ray could supply part of it, but it has to be much closer. And it only comes from actually the decay of neutron itself. It's not all heat. How come we get a heat we get a sound? What about the other higher orders radiations? Sound in the atomic is nuclear, is a radiation. The light of the splitting is a radiation. So why not that extra radiation which we don't have the detection method at the moment? At the moment that is used to, in a way, elevate an atom. Doesn't go through a decay. We don't consider it. But because we don't consider it, because it doesn't happen, it's a higher order. It doesn't happen in the environment of the matter. In that place, It happens further out.

When it comes with others, we see this in cladding of the nuclear material, nuclear rods. I've seen this many times in cladding of the nuclear rods. I see this in the nuclear control rods. Structures which we're not expecting, and then it cracks, because it's bigger than atomic structure than this other one, which is made of. Then we find cracks in control rods. We find cracks in the cladding. We find, we call it corrosion, because we never understood. (3:20) This is a material of the higher order in energy level.

This, this is, this is beyond understanding of the present time, but those who worked with me in the nuclear side of the development, they already understood, it's been explained to them. And we're building system for that purpose, creating Nuclear Cosmic Ray radiation for elevation of an atom, not fusion. Fusion is totally the wrong way, it doesn't exist. This is why there's so much problem, creates so much heat. Actually, the, what we call, Nuclear elevation is the one which creates coolness, it brings the heat down, if it's used properly, you can use it for controlling nuclear reactors.

Any other question?

Q: ... I had briefly corresponded with Mr. Keshe about maybe helping with my father's art, to make a contribution to the Keshe Foundation. (3:22) And since then I've had the

idea maybe we could make reproductions, and use Gans materials to print, is that a possibility?

K- Everything is possible. I read your message, I thank you very much for your offer. But, how are these valued in the market? I mean, how popular your father was with his work?

Q: He had lots of exhibits, but he never really pursued marketing them, because he did not like what was happening in the art market. Like for instance, like Van Gogh... starving, and then now the people making millions of his work. So he never wanted to participate there, but he had his own private exhibits, and marketed them that way, but not very much. We have a lot of them left.

K- How many do you have left?

Q: A couple hundred, or more, several hundreds actually.

K- This has to be in the hand of an art dealer, who understand, who can make from it. It's very interesting what you said. When I read your message, it brought the flood of memories back, from years and years ago. And I was trying to find a solution, what did I do with it, what happened that time? In 1980s, early 80s, I was in the same situation as you are, I mean what you offered us today. I was flown by the British government to Holland. We had to drive through Belgium to go to Northern France with, that time, police cars and all sorts of things. It was ridiculous and I never understood why it happened. They took me to an old abandoned school. I was maybe 26, 27, (3:24) I was one of the multi-millionaires in England and they wanted to get me to buy this artwork. And they opened this school, and it was full of paintings, in covered packages or whatever, hundreds of them. And I said to the guy, "What is this?" This artist was sponsored by the government and his artwork was kept. That when he dies, it gets value. Now it has gained value, we want to sell it. You understand? Because maybe you've ... when I saw what you offered us it brought a flood of memories, because I was involved in two or three things like this at that time. So, it needs somebody who knows how to package this as a artist, to give it value. Otherwise it's just another painting.

Q: Right, what I was thinking is, if we could do something with the Gans's, to reproduce them with the Gans's and then sell them as energy paintings. Because they themselves are highly loaded with energy. I mean like when...

K- We did that couple of years ago, if you remember, in Linz exhibition. We put the energy of the painting of the artist with the Gans's. We still have some of him there left. We can do that. It can be done.

Q: Yeah, because I surely like his designs a whole lot better than what you ?? sold ...

K- Yeah, they're very interesting. They're like a... some influence of Picasso you see in there.

Q: Oh yes, the whole expressionist movement.

K- Expressionist movement is in there, yeah. It's a very complex picture. So much I'm bearing, I used to do with art these things years ago. I used to work with ?? selling auction rooms for these things, years and years ago. (3:26)

Q: And for me, he was a little bit like you, he was an eternal teacher, only in a different area, and highly ethical. And like he was a professor, and every time he had a lecture, he would start the lecture in art education with something from Zoroaster, or from Buddha, or from Lao Tse, or something, and it would start his lecture, precede his lecture, with something like that to feed his students. And he also did an extensive work with youth, and so, and they, he included everything from physics to poetry to music and everything, all, all those things for me are contained in those paintings. I see all the things.

K- It's amazing, it's amazing. I watched it because I enjoy painting, I enjoy art this way, because it shows depth of emotion they go through to put it in.

Q: Yes, and like even those paintings that deal with negative subjects like old age or even he painted about Staffenburg in Germany who...

K- You mind if I share some of these pictures?

Q: Sure, sure.

K- It's amazing, some of them is very beautiful. I enjoy it because I see the mixture of number of European paintings (painters).

Q: Yes, sure, he was part of the expressionism.

K- Yeah, you can see it, it's beautiful, some of it.

Q: And I'd love to share this, I'd love to share it, but most people wouldn't, I mean. He didn't sell them for excessive amounts of money, he actually sold them by the square meter, because he said I'm not a good judge of value, or of... (3:28) He wasn't dealing with the market value, he was dealing with the art value from his perception, because there's so much junk out in the art market, that he says I want more than that, whatever they're getting for their junk, I want more. So, just to honor my work, so... So, we never established a value.

K- Here let me share some... It's a mixture of, what you call, not a mixture, but amalgamation of some of the world famous arts (artists).

Q: Yeah, and there's way more. I mean, he is very diverse. He went through all kinds of experiments. He... he was always setting himself challenges. And he didn't paint for a market, he painted for his own personal development.

K- Yeah, I'm just... I share the pictures if you can see some of his work. Yeah. It's just how you... it needs somebody in the Art World to evaluate, and to put this in, in a correct manner. This takes 2 or 3 years of work to do and how to promote it. And the problem is with the Expressionists and the artists like, what we've seen in the... in becoming very high, the prices, because the market is limited, there is no more of it. And introducing a new artist and getting it to be accepted. (3:30) It's usually has a higher value nowadays, if they find one. And if (he's) not alive, like your dad. Because, there is only one Mona Lisa, you can't make two of it to have the same price. And the market is saturated. That's why new art, there's what we call it, art taking up and having value, because there is no more of the old one, and the rich people have bought all the old ones. And the expression is like him, gives a new dimension into the world of Art. But you need someone, from Salovey, or from another artist, if he's well known, documented, that they can bring value to it. And with it to have a history of this artist, what it worked the way he did.

You know, the painter who was selling so much, when you look at his pictures, you see on all his pictures, two matchsticks. He was producing in such a rate selling, that he didn't have time to dry, he put matchsticks on his old, last painting, to stack the next one on top. It became a mass production of replication. But this is, this is genuine art, but at the moment there are so many artists. But if you can connect the history of him with the things...

Q: He published, he wrote about art and he published about his own art.

K- But does he explain, does he explain any of his paintings? Is there anywhere the...

Q: Some of them, yes.

K- Yeah, because art without explanation has not got that much value, unless somebody buys just because of the name.

Q: Right, I talk with him every Saturday and he gave me a summary of that week's work. (3:32) And I jotted down notes on all of that.

K- Yeah, if there is a history, because for example, when you look at this, let's say this picture, just the painting, but what's behind it, what's the essence of the painting behind it? To me it's just a trumpet and a man playing, but what's the expression and... You know, the detailed explanation of the painting, puts a lot of value into it, because I've been in this game years ago. And anybody who'd like to buy the paintings, we can put them all on the website and we can get other painters to replicate it, to copy it, it can be done. But what people offer for it? These, some of these, I looked at, one of them I think worth a lot of money. One of the paintings you sent me, I think, this one, the one on the top, from what I understand, going to the impression of the face and the body, It's... if there is explanation with it, has a value. But I don't have that expertise. I can see there's a picture behind the picture, if you look there's so many of them.

Q: Oh there's...

K- I can see the picture behind the picture there. Yeah, thank you very much, but let me think about it, it goes back to... I used to know the director of the ?? Servey in London. Used to do a lot of work with them in the art world. They're all gone at my age, then none of them exist, that's a problem with me. If anybody would like to, if you want to put it, we put it on the website and see what comes and make you offer. These are in thousands, these are not in a few hundred you can buy these paintings. (3:34) The brushwork, the detail is too detailed. It is a mature painting, it's not a painting of somebody just to paint and rush and go. (Q: That's for sure). Yeah. It's beautiful. I enjoy art like this and if you can collect, because I was involved as I told you, years ago, buying art collections of the dead artists. You buy it for a million or two and you're worth in tens of millions, if you know how to market it.

Q: Yeah, I was just wondering, once we start having houses come out of a box, how can we hang paintings?

K- People don't appreciate this. People don't appreciate paintings like this. The painting like this with the history of your father and the explanation of the paintings, has to go into ?? art galleries and private collections. But you have to create a value for it. And don't forget auction houses gets hundreds of these every year. But .. it needd somebody to put detail into it, and I think... what's the size of this one which is on the screen?

Q: Oh, that's probably one meter tall.

K- Valued about 10, 15,000, 20,000 dollars, easily. If there's explanation with it. Thank you very much. Let me think about it. If Knowledge Seekers want to do anything with it, you're quite welcome. Get in touch with Keshe Foundation and then we'll find a ?? way. Thanks for all your support. Thank you.

Any other question? (3:36)

Q: ... My question is related about the DNA that we were discussing yesterday, about the amino acids (AA) and that phosphorous is the balance in our star formations (SF). And I was listening about Cosmic radiation. Is the Cosmic radiation is the only way to change our DNA to become a peaceful man? That's my question.

K- The DNA is the reflection of the work of the RNA, or what we call, the STP. And with its memory bank, it reflects how we physically respond to. It's not creator of the information and the response and the emotion. And to make a peaceful man you have to change the STP. Physicality is just a tool, it's the computer. What you put in it you have to change. The information. You can be black, you can be white, you can be yellow and you still be aggressive. You can be black, yellow and green and you still be lovable. And it's how we carry that point, how we transfer that point.

Is it in DNA or is it in emotion? (3:38) Or do we change the STP? One of my children had a habit of, when he played with children, goes and cuddle the child and kisses it and say goodbye. That was a habit. And this is still the habit, because physically I enjoy it, now I show you my emotion. That's what counts and that's what we have to understand, physicality is outside, but the emotion or information sits in RNA. And this needs to be changed. Body is just reflection of what is in the emotion.

Q: I saw the difference is about RNA and DNA that we learn at school it's only one CH3. So it's like the physicality and the emotion like...

K- You know what CH3 is?

Q: Yeah.

K- It's sugar of life. And it carries both Universal connection which is a carbon and what you call the matter state to the Universe energy. And this shows the characteristics of the connection between the matter and energy. And science has not understood this part yet. (3:40)

Q: So if I change the emotion, I change the DNA, and I change the phosphor?

K- Yes, of course, of course.

Q: Or the phosphor is for the nerve?

K- Of course. You look at these people who have different color skin, mixture of black, what you call it, white and brown skin patches. Scientifically you can change the whole skin to black or white, if you decide to do, just by emotion. Same body, it's physical manifestation, you can do it yourself, it can be done. You don't need creams. You just change why do you want to be white when you're black? What's the advantage? What's the suffering? Why do the white people go to the sun places to get tan, brown and be dark? And then they stay racist? Doesn't add up, does it? It's the physical interaction or the emotional interaction. Man became white because of the emotion in interaction with the environment. And then he goes and gets suntanned, goes and stays under the sun, to go to sun beds, to go brown, and then comes out and is racist. Why? Because the information is missing, the emotion is missing.

Q: And the Phosphor will change to another mineral or another amino acid or...

K- Oh, it's to do, it is to do with the energy of the Soul. (3:42) This is why more or less all the Passengers of the Universe are the same color, the ones who understood. Because that emotion is equal to everywhere.

We did the knowledge and research to be in a very correct way and by what you call those who understand the knowledge. And it needs a lot of understanding of the transfer of energy. And different understanding of the totality of the fields interaction. We have to

understand the difference between the matter and ... how they connect to each other. How we have to find a common ground when you say the DNA and RNA connected with CH₃, the Carbon connection connects it to the physicality of the, what you call, the Amino Acid. The Hydrogen of it connects it to the Universal energy. (3:44) This is why you need that two extra Hydrogen as you call it energy wise to bring to create the seed of connection and the information and the emotion. In the future, as we develop these technologies, we go further with understanding of this connection. I used to use this knowledge quite extensively when we used to produce units in Belgium years ago. If you understand how to use this connection you can change a lot of things, from emotion to physicality to the school of thoughts, you can change the emotion of the person.

Any other question? Shall we call it a day?

Q: Maybe one more. One more thing Mr. Keshe, can I ask?

K- Yes, go ahead.

Q: You said that when we go to more distance from the surface of the Earth, we have a like, the fields become weaker and we produce more Hydrogen. So, is the same in us? Like for example, or doesn't matter the distance, for example, I have my Soul in my head, and my foot is the, the part that's far away from my Soul is the part that produce more Hydrogen? Or not?

K- You have to redefine it. In which way? You have to ... You know how you... I can explain it. Walk in the house and go and walk in the garden and feel the difference in your emotion. (3:46) Then you'll understand the emotion of insecurity, you understand the information... the information about the energy, you understand about the emotion of the trust. You want to see a character of a person in emotion and response. Get them to walk on gravels, not on the grass, not on the pavement. You see the reaction how they walk on gravels, on pieces of stone. Because it's the energy absorbed from the ground, changes the blood circulation, goes to the brain and creates a reaction of emotion. Do they run on it without a fear? Are they tiptoeing? It gives you a full emotion about the person's behavior, trust in themselves. Because there's nobody else there, it's just them. Energy of the planet. Reaction of the STP, of physicality and the STM. It's a beautiful experience.

You want to see how mature your child is? Get them to walk on gravels. Small and big pieces, not the soft gravels. And see how they run, how they react. And then you can assess the state of the emotion of the person. How they develop, how much trust they have in themselves. How they convert the energy of information in the Soul into physicality. What do they feel inside, ask them. You can do the same with children especially, give them a mixture of a fruit, (3:48) which is got a rough and a smooth, and it's got different texture in it. Their reaction tells you the state of maturity of the child. Because, it's them, directly with their own emotion, there's nobody else involved, and it's the response between the physicality, what it touches. STP, the emotions created, and how they connect with the Soul, with the others. Watch them. Do they look up to you,

open their eyes? And they give you a sign of "Hrrg", or do they sign of pleasure? And you give it to the child next, and see how they react. Maturity of a child can be seen by feeding a child. You need, you see the state of development in trusting themselves, maturity in converting information. If you understand these things, they do amazing job for research and development, and understanding of your own children. Do they run in the gravels? Do they accept new food? How they accept the new food? What challenges is in them? And then you see the connection between the STM, the STP and the Man itself.

Q: Thank you so much Mr. Keshe. Thank you. Have a good day.

K- Thank you very much indeed. Thank you. Call it a day. And thank you very much for all your support. It's amazing what we achieve. And what we can do... thank you for the Knowledge Seeker support, relentless support. As we received an offer for 1 million shares, if we can get another 4 or 5 million shares that we can get things through, we give you shares back out of our own assets, not from the Keshe Foundation, what we call it, Markray. (3:50) Once the situation is over, then you don't lose anything at all. That help us a lot to solve, it's a solution for us to move on very rapidly. Thank you very much, see you next week, see you those tomorrow, we start at 10 till 2, 4 hour session, and please, please come to know yourself, nobody else. And nothing else. Thank you, goodbye.

596 KSW – June 26, 2025

End
