Systems on Live; New cycle of teaching - interact with Soul; Dream & reality; Two types Time - P and Energy (Soul) - PPP & emotion, intellect, enlightenment (EIE); Conference Vienna July 19; Emotion connects both sides; How create Time; Womb PPP - mix 2 plasmas - Egg & sperm - love between parents; Create child - Time starts; Need emotion to create life - forced or willingly; No accidental pregnancy; Plan set; Rape; Time chosen by Souls - P executes; Energy dictates life created; Delays; Time set through Soul; Time of seasons - Sun Soul of Planet; Time dictated by fields; July Flight session - close to Soul - create Time; Man's Time only P; Enlightenment changes Energy side of U; Soul keeps Books of actions - grandchildren pay; Energies of misconduct create emotion; Judgment Time through Soul; Think nobody saw - Soul records; Soul brings fruition; Understand - totally change Man's life - can't get away with bad things; Time connected emotions of Soul & P - effects P Time; If don't do wrong - no Time created; Actions create emotion; Create enlightenment of STM; Decide own future; Day of Judgment set by Soul - not God; Wrong thoughts create emotion; Pleasure from wrong doing registered; Future life determined past actions as emotion; Both good and bad actions recorded - live out; Soul starts writing future; Heaven & hell; Future by behavior - Soul enforces - then enlightenment; Give ourselves cancer; No accidents; Physical Time; True Time by STM; Enlightened ones - keep Times correct; Personal story gave money back - pay back 3 times more; Real Time - not 24 hour clock; Soul never ends; Unite both Times into one - survive U; Cannot do wrong in transmutation; T works; Always be correct; Time never stops; Parallel Times - others; Schizophrenic life; Dictated by emotions & behavior in P; Soul knows; Why children suffer - diseases - combination Times - ancestors conduct - pay for forefathers; Crime stops on Earth; Universal link of Energy; Space won't sleep - energy from U; Chinese work all time - plants same; Time conditioned by life on planet; Souls & Energies of U - no Time; Time starts through emotions; Millions of Times run together; Time of Soul & P become one; Time starts when energies interact; Zero Time - transmute - easy with love; Energy always positive; Creator never destroys; Death is Man's Half-life; Plasma no frequencies; Plasma always in unison with itself - only DC; Flight session new feelings; P has frequency; No accidents or coincidences; Action is P - reaction is Soul - pay back; Teach children & others; Live correct no worries - survive U; Never plan wrong; Transmutation fueled by conduct and emotion; No wrong thoughts and emotions; Watch Markray; 2.8 million shares support; Call for experts in Space, Plasma; About Netanyahu finished - when balance Books; Situation in Israel - soldiers commit atrocities Gaza; Palestinians paid to kill Iranians in Revolution; Ukraine & Israel war; Pay to 500th generation; Not by DNA; Why no wars in U; Jews chosen ones - show evil - celebrate mass murders; Netanyahu bring an end - end control of American market and government; Israeli Military takeover; Saddam - Syria - reasons behind; Nutri Gans; Balance organs & energy - not diet; KF products China; Energy dominates matter - change emotions; Recreate kidney; Be sincere when pray - registered in STM; Someone irritates - own judgment; Relationships love to opposite; Don't do wrong things - find out reason - wait; Shares personal experience twice; Soul feels cheating - connected; How prayer works; Prophets benefit from prayers;

Moses negative; About Jinn's; Israelis doing witchcraft - Whitehouse; Ghana - black magic - locks; All black magic on Mr. Keshe failed; Live on weakness; Collective weakness; Add thoughts to child; Create illusions; Created Souls in Flight reactors; Tarot cards read future; Dubai conference; Souls & Energies protect us; Working 23 hours/day; Advisor to governments; Only transfer good to child in womb; Wellness Prevention - convert to Apps; KF products move to China; Adding plant oil to Gans careful; Danger - traces of herbicides - contamination oxidation; Chinese medicine to Gans - clean land; Vitamin D - Skin cancer - sunglasses; Gans Vitamin D; Plasma Medicine; Soul access Universal Library; Messengers; Soul in government meetings; Working for British Nuclear Fuel; Gans of tomato plant - feed back; Twin Soul develops alongside; Become light - create Children of Mitra; Mitra symbolic; Correct STM; Word peace 2 to 5 years; Equal access to T; Change 3 things - economical, cultural, standard of living; United Nations problem; KS do financial side - Markray; New politics; China enforce; Everybody free access to everything; Trump Nobel Prize - bombs; Gypsy's; Graph of today - need to be equal to transmute; Mass transfer of knowledge into Soul.

Topic Index

Turn Systems on KSW - interact directly with Soul of Knowledge Seekers (KS); Testing new cycle of teaching - interact with Soul; Tell how KS change; Understand difference between dream & reality; Controlling fields - change Inner Energy; Interfering how you understand yourself; Didn't announce - want serious people; See if recorded teachings have same effect - receive emotion of fields; Observe physical & emotional changes; Technology (T) for Space travel; Nothing added to fields - create environmental conditions - part of Time and Place, Position, Possession (PPP) & emotion, intellect, enlightenment (EIE); Conference July 19th in Vienna - T presented - beyond human knowledge; Understand how to create Time - physical side is PPP - Energy side is EIE; Emotion connects two sides together; We do it but don't understand; To create Time - have to understand; Place is womb - Position is child - Possession is mix of 2 plasmas; Egg and sperm create body; Emotion comes from love between parents - interact in D of Soul - create child - Time starts; PPP on its own cannot create life - need emotion of love - can be forced or willingly; Not known by P - Soul's aware; No accidental pregnancy - ignored Energy side of life; Plan is set up by Soul for child's future; Pregnant through rape; Time chosen by Souls - P executes; Same for child of love; 9 months sets Time for PPP - has to have emotion - Energy dictates the life created; Delays have reasons - Time set through Soul; Time of Earth's seasons set by Sun - move Earth slightly no summer; Trees and plants no control; Sun is Soul of Planet - dictates conditions; Time dictated by fields - not P of Earth or seeds; KS open to receive fields today - you deliver in D of P; Today's session close to creation of Time; See change in transmutation - July Flight session - bring you close to your Soul - you create Time; Man's Time only P; Intellect - understanding science of life of Energy side not understood; Enlightenment changes conditions of Energy side of U - not P of Man; We commit crime our grandchildren pay for it - Soul keeps the Books; Energies of misconduct create emotion - kept in Book; Time of judgment through Soul - not P - cannot be influenced; Think nobody saw bad deed - Soul records; Later something goes wrong ask why; Goes according to Energy of Time of Soul; Time not in hands of P; Can decide when to wake up; Consequences of

what you did - harm or pleasure - kept in Book of Soul; Soul sets Time of fruition in Book; If Man understands - totally change his life - can't get away with bad things - Soul is always present, omnipotent, watches P; Soul's Time connected to both emotions of Soul & P - effects time of P; If you don't do any wrong - no Time is created - so there is no time; How timing of things happening in life effected - through Soul; Actions in P create an emotion - effects how understand what P is doing; Can create condition of enlightenment of STM; You decide what you'll do in future; Day of Judgment set by Soul - not by God - Soul determines heaven or hell by own conduct; Even having thoughts to do wrong already create that emotion; Pleasure from wrong doing registered by Soul - effects come in time; Time set by STM; 9 months in womb set by Possession - delivery time by STM - both Souls agree; Time of P & Time of Energy connected; Our future life determined by 'memory bank' from past actions as emotion; Both good and bad actions recorded - have to live out; Cannot get away with bad - STM always sees; As soon as we think to do bad - Soul starts writing our future to balance; (To change - go deep into emotions understand why); Soul through its intellect - enlighten us later about true feeling that caused behavior; When we don't understand create heaven or hell for ourselves; We write Book of our future by behavior - Soul enforces - then enlightenment; Misconduct also by thoughts - creates emotion - have to balance; Soul aware of emotions created by thoughts; Give ourselves cancer - end life; No accidents - Souls have written the Book; Physical Time partially in our head; True Time by STM; Enlightened ones keep both Times correct by their actions; Personal story gave money back to cashier - not steal - pay back 3 times more to balance Books - U law; Aware of real Time - not 24 hour clock; Soul on Universal Time - never ends - why we teach about Time; Understand effects of both Times (P & Energy) - unite them in one Time - will survive in U; Cannot lie or do wrong when transmute - Soul not allow; Don't say KF T doesn't work - you haven't understood Life; Have to be correct in all Times - P & Energy; Time never stops - leads to its own destiny through STM not P; Real Time is Soul Time - parallel & sequential with Times of others in U - connects to all others in U; Live 'schizophrenic' life of P & Energy - never comprehended reality of life - what Time is - dictated by our emotions & behavior in P; Soul knows exactly what Time to bring in - what is needed; This is why our children born with diseases & conditions; Their suffering & joy - combination of Time of their Soul, and our (ancestors) conduct; Children have to pay for what forefathers did; Stop doing wrong - children won't suffer; Understand this - no more crime on Earth; Time works through Universal link of Energy - not our P; In Space won't sleep 24 hours pattern of Earth; Time will be irrelevant - receive energy from U - don't need to sleep; No UFOs have sleeping quarters; Chinese system - work all the time - no weekends or holidays; Europeans introduced weekends - benefit of Prophets - profit makers of religion; Plants work same way; Our time is conditioned by life on planet; Souls & Energies of U don't have Time - always zero; Time starts through emotions; Run millions of programs together through the emotion of P - affects reaction and emotion of Soul; Two types of Time of Soul & P become one through emotion; I made Man in image of Myself - I have no Time - Time starts when energies interact to create new Time; Try to go back to zero Time - where you are creator of all Times - can transmute; Cannot do anything wrong in transmutation - emotions won't work; Transmutation easy when there is love; Explain later reasons how it works; Cannot do harm with T - energy of U - it's positive in whatever it creates; Creator never destroys - may look like

destruction - beginning of new life; Death is Man's 'Half-life' - start new cycle; True Time sits with STM - carries on; Emotion of Energy connected to emotion of P - as PPP - can all be changed; Emotion connects both Times; Bring both Times to zero - transmute & transfer; Transmute through fields of U & Cosmic Rays (CR); Later teach about frequencies - no frequency in plasma - only when interaction of fields don't match; Plasma always in unison with itself - only DC; Feel in next Flight session; Feel when in plasma and emotion - reality of Time; Connect both Energy & P - feel sensations never experienced before; Use CR Bundles & CR Balls in next session; Times created by interaction of fields of U; P has frequency - Soul no frequency; Understand Physical Time & Energy Time - no accidents or coincidences - Souls have planned to deliver from emotion you transferred to them for both to interact; Adam and Eve - means time when unaware - but subconsciously aware of actions; Trace causes of accident to learn truth; Every action has consequence and reaction; Action is P - reaction is Soul - have to pay back; Need to live pure life; Ignores Soul Time - connects us to everyone; Understand Position and Possession - whole reality of life - silence and emotion create D of STM - have to balance actions; Teach this to children & others - gradually life will become pleasant; Live correct have no worries - will survive in U; Never plan to do anything wrong; Everything connected to fields of U; Bring STP in parallel with STM's emotion - transmute; Transmutation is fueled by conduct and emotion; Create own problems through behavior; When bad happens to people who don't do wrong - have to consider wrong thoughts and emotions - all is known by Soul; Still get consequence of the emotion that created its Time in the future; This is how it works; At right time manifests; Understand what needs to be done for future children to live in U; Keep headphones on.

Part 2

Vienna conference - amazing and enlightening presentation - new technology to public in different way; You have to understand Soul & development of T; Watch for Markray in stock market - have legitimate shares; Financial arm of KF - international operations - cooperation and collaboration with many countries; Current valuation of shares - not reflect what KF does - have to put right; Received 2.8 million shares in support - correct problem few weeks; Call on experts in Space, Plasma, Nuclear, Quantum Physics, Quantum Communication, Satellites, more join KF; Promote through Markray; KS with knowledge of plasma help in Space T development; If Souls decide why Netanyahu allowed to kill for 30 years - when balance Books; Have to understand local situations - Souls set for specific purpose; Iranians bombed in Gaza - why - killed 5,000 Israeli soldiers - 3 Israeli generals killed - behind atrocities in Gaza; Not on news - parents don't know; Not about Netanyahu - who pressed button - designed missiles - financed it - all involved will pay; Observe Netanyahu's body language - gone mental after close to head of Mossad - killed; Don't know what's going on within him - Soul has to deliver for what he has done; We don't judge; Israeli soldiers who did atrocities in Gaza - dancing over graves - now have arms and legs blown off; Reason for what is happening there; Palestinians paid to kill Iranians in Revolution - Yasser Arafat paid to kill Iranians in streets of Tehran - 40 years later same thing happening to their children; Look at Syria - ask about what forefathers did; Understand what's going to happen to Netanyahu and Israelis; A few months ago I said - Jews escaping Israel on American naval ships -

happening now; Ban on news in Israel - shortage of water, food, medicine, electricity - trying to get out; What did these people do to Palestinians; Time - own way to work things out; Judgment done by Souls; Don't look at Netanyahu - tool to bring an end to a condition; Big difference between Zionists and regular Jews; All Israeli Prime Ministers & Presidents Ukrainian & East European; Netanyahu Ukrainian background; Both Ukraine & Israel war; Leave it to Time to settle; Look at lives of Hitler & Genghis Khan - their future - nations - people involved; We pay to 500th generation; Not transferred by DNA - tell later - Man matures; Why we don't see wars in U - people understood (about Karma); Americans pushed Cornflakes on world - saying best - actually worse - diabetes & many diseases; Same thing- Jews say we are chosen ones - chosen to be punished for rest to learn from; Nomads of religion; Starting from Moses - never learned from mistakes of forefathers; Every holiday celebrates killing and mass murders - Flower Festival killed 300,000 Iranians; Netanyahu bring an end - end control of American market and government; Closed borders keep Israelis in; One General keeping him from Coup - Military takeover; Israeli military lost over 25,000 soldiers - many headquarters destroyed; Houthis hitting Tel Aviv regularly; Be like what happened to Saddam; Maronite Christians getting slaughtered in Syria - killed for old regime; News only tells half of story - always a reason behind these things; About Nutri Gans in KF Store - have all the attributes in food itself - converted to energy stronger; Find out reasons of disease - which organ - balance it; Soon many of these technologies coming from KF China - planning huge development through contract signed - next year or two; Huge money available for research; If balance energy don't need dietary restrictions; Matter state - take tablets - side-effects - high costs; Results of tests - less than 2 months without anything; Plasma balances Energy side; Energy dominates over matter - can change it; Have to find cause - change psychological, physical, emotional parts; Best way - change emotions; Will recreate a kidney without transplant - same as original; Did Naomi's brain; Re-grew toe; Be a breakthrough in T; Story about being sincere when pray or go to House of God; It's partly registered in STM - depends what you pray to; Go to worship House out of fear - fear of future, obligation; Very few are sincere - have love; Jewish men go to synagogue - do good business - high price front row seats; Praying to Mecca - really about being close to STM; When get irritated with someone - own judgment - lack of trust in yourself; The way we receive fields; Many relationships can change from love to opposite; Don't do wrong things - find out reason - wait; We change our position in emotion and understanding; Have personal experience twice - last time partner lying and cheating; It's the same - Soul can feel cheating - somewhere it's connected to you; Connected to things through Soul in background - be aware - like magnet; Don't know reason - but connected through Soul; Why pray in cemeteries - dead forefathers - give attention - energy - emotion-- affects Soul - connected to all Souls; No physical connection to ancestor - through energy; Prophets - how much banking; Prophets benefit on other side from prayers; Moses negative banking - tell why later; Saudi Crown Prince worse than Netanyahu; About Jinn's in Koran - Israelis doing witchcraft - bring to Whitehouse; Story about in Ghana - black magic - locks; Have to believe in it & feed it; All black magic on Mr. Keshe failed - don't believe- no place to grab; Weaker minds fall victim - live on weaknesses of Man D of P; Collective weakness brings collective actions and reactions - seen many times - collectively create it; Children created from egg and sperm - add collective thoughts - create illusions - manifest energy in P; Plasma Flight

reactors in Sanya, China - talked - created Souls out of fields; Our thoughts become other side of interaction - create jinn's or souls; Scientific understanding of it; Don't believe - don't feed it cannot exist; Talk about Tarot cards - experiences; Read his future - accurate - wondering why; His belief - or guy knew something; These things out of our hands; Dubai conference - never go public; Souls & Energies protect us - balance things out; Even if don't believe - take own shape - create energy for it to happen; Working 23 hours a day - China & Middle East trying to change - advisor to some governments; Have to be very correct with all governments - not easy; When touching child in womb - only transfer good - children have transparent Souls; Inherent condition of Soul; Start marketing Wellness Prevention - convert to Apps; KF products move to China-agreements and contracts - Massive increase; Adding plant oil to Lavender Gans; Please read carefully; Plant oil different than AA; Lot of things to understand to work with Gans; Danger - traces of herbicides or pesticides in plants greatly enhanced by Gans process - worse effect; Be aware of infestation, contamination, fungus, oxidation; Becomes energy of oil; To produce Chinese medicine herbs - test and clean land 3 years - no trace of chemicals; Chemicals - reason why Chinese medicine not as effective; Don't have to kill all weeds - grow together - take energy from atmosphere; All Vitamin D is synthesized - not understood; Skin cancer - lack of vitamin D - sunshine; Wearing sunglasses - blocks rays - vitamin deficiencies; Sunlight triggers a lot of functions; This is from research papers; American research shows - before 1930's - consuming high amounts Vitamin D - hardly any sick people - hospitals empty; Find natural way - better than tablets; Gans of Vitamin D complicated; Launch Plasma Medicine out of China - Gans Vitamin D, etc.; Spend more time in sun - not look directly into sun; Depends on strength of eyes; 9 AM through 1 PM; Cautious about sunglasses - 90% of diseases; Sunlight replenishes vitamins, hormones - receive CR; Sunglasses on forehead - cancer; Soul has access to knowledge of Universal Library - specific way - can be misused; He can access - Messenger - doesn't carry notes when teaches; KF teachings will shift - knowledge needs to be understood - not forced in; Have access to all knowledge; Through Soul knows what leaders decide in private meetings - confirmed by officials; Physical libraries are made for Man; Story work for British Nuclear Fuel - take home Top Secret documents; No trust - quit; Making Gans of tomato plant - feed back to plant - genetically modify?; Disinfect with Gans water; Twin Soul develops alongside - towards elevation- become part of structure of U in field energy; Become light when Soul interacts with Soul of Creator (STC); That light becomes creator of Children of Mitra - emotion with it; Mitra symbolic interaction of fields of Creator; STP doesn't get opportunity; Leave P become a Soul - become that Mitra - create new life; Why need to correct STM - otherwise mess in Space - carries fingerprint of destruction; Conference in Vienna - 19th World Congress for Psychotherapy - KF presentation; KF working with diplomats and governments towards peace - 2 to 5 years away; All will have equal access to T which can be destructive to all - everybody decides; Peace comes through changing 3 things - economical, cultural, standard of living; United Nations a problem - irrelevant structure - only talking house for Americans; Have to support all life on planet; Agreement with Chinese cornerstone and close collaboration with another Middle Eastern government; Financial side done by collaboration with KS keep secret; New financial situation connected to Markray and KF operations; Need new political understanding and diplomacy for agreements; Need countries that can enforce - China is

one - work with me; For standard of living - everybody will have free access to everything like food, medicine, energy; Not a dream - have T; Resources and financial power cannot be used to control others - political power become meaningless except for joint collaborations; World Peace needs world to understand it - this is what we are busy doing; Many KS helping in background; Then yes, we can achieve World Peace - not just talk; We have the T and financial means to do it - 2 to 5 years maximum - see world peace; Netanyahu proposed Trump for Nobel Prize for peace - if he receives cast doubt on integrity of Nobel Prize Committee - a man who bombs nuclear center to destroy a nation - 20 million people - worse than Hitler; Gypsy's or Romani people of Romania - from India; Graph of today's test - system on during teaching; What did you feel; Infinity Loop bottom side smaller than top; Both be equal to transmute; Soul side is showing to be more powerful; When equalized all will transmute; How mass teachings will start - transfer knowledge into dimensions of Soul

Introduction to 598 KSW - Plasma Systems Turned On - Karma or Balancing Fields - Multiple Times - Never Sleep - Damages in Israel - Plasma Medicine - Sunglasses - Emotions Time - World Peace

The KF Plasma Systems were running Live today during the teachings without advanced warning so that as Knowledge Seekers (KS) we can learn how to interact with our Soul, or Central Energy of the body. Mr. Keshe said that they have to test the systems and bring them to perfection so that we can transmute. But also for us to learn what is the difference between dream and reality. Remember in Plasma Science dream is the reality of the Soul, but not all dreams are of the Soul of the Man (STM), most are connected to the Soul of Physicality (STP) and the P. Nothing extra was added to the systems like food or medicine, they were set to create the conditions of the environment we always live in, but are not aware of. These words can be difficult to interpret, does it mean that by increasing the M fields we are receiving and perhaps also adding Cosmic Rays (CR) so we can achieve what is natural for us? It still comes down to being able to create the Physical Time of the Place, Position (entity), and Possession (strength of the AA of the entity) (PPP), and the Soul Time of Emotion, Intellect, and Enlightenment (EIE). He said today we came very close to creating Time.

The two types of Time are of the P and the Soul. The P Time or the PPP on its own cannot create a child, it needs to have the emotion of the love of the parents. When we talk about the Soul or the Energy Time what does it really mean? The way I think about it is that the Soul has the ability to feel, and when it feels its environment it starts to think about it and this develops intellect. And as the intellect develops and experiences it gains understanding and comprehension, and this becomes enlightenment. The more we ponder this the more it makes sense. But one of the problems is that we have all these books written about enlightenment, and out of this has come a lot of concepts about it. Then it becomes confusing and we might say, what has enlightenment to do with time? Actually a lot, because we create Time through the M field strength of the emotions. And the feelings work together with the consciousness, which develops the intellect. In the morning after we go through the process of waking up, which skips over many things, then immediately we start thinking about our life and what we want to do, but in the

background we are subconsciously feeling if is right for us. In this process we might be creating Time. It's not clear yet. Is the enlightenment when we know we are the Soul and we feel we are the Soul? Then does the intellect surrender to the Soul? In Indian philosophy the intellect is the "Buddhi," and the Buddha is the one whose intellect surrendered to the Soul. Isn't that the same as wisdom? Try not to fall in the trap of playing with words, instead feel the essence the words are pointing to. So the Physical Time and the Energy Time came together and the child is born and a new Time starts. Now what happens?

In a way, we could say that today's teaching is mainly focused on understanding karma. The term 'karma' started becoming popular in Western society around the 1960s when people brought it back from India. Therefore, we should look to India to get a deeper understanding of what it means, rather than the popular meaning of "cause and effect," which is mainly based on the physicality (P). Sri Aurobindo wrote about the meaning of karma and he was educated at Oxford University so it would be very worthwhile to study his work because it blends the East and West. The only problem is that the language is a little complicated and needs effort to unravel. My conclusions from reading some of his work is that, it is a very complex subject that cannot be easily put into a concrete answer of 'this' or 'that.' The first thing we should understand is that Western intellectuals try to put karma into a very narrow box of "cause and effect," and because Christianity for some reason, adopted the Mosaic Law of "an eye for an eye," this physical sense of what they think divine justice is, gets mixed up in the background and in the subconscious. A perfect example of this was the question in the second half of the teaching where a KS was wondering why nothing appears to be happening to Netanyahu, who has been committing murders and crimes for decades. The physical mentality of life thinks that if you do this, then the expected result should be that. This understanding of karma is too narrow and doesn't take into account all the different field forces interacting with each other, and then there is the overall purpose in life, which is spiritual in nature and that we are evolving back to our Source. Therefore, as KS we should seek to understand the essence of life and how things or fields interact with each other, and start observing what the outcomes are and how they lead to further interactions. This is what it means when they say, life is eternal.

So in summary, a plasma meaning of karma would be that when we feel, think, and act on something in the external world the Soul automatically begins to make arrangements with other Souls for us to experience that emotion ourselves. It continues to do that until we learn the essence of the emotion that started it and the true meaning of life. And the field force of our action passes through our descendents as a force of Nature and not as justice. The reason for why the descendents have to pay has yet to be explained. And what if this 'force of action' that passes through the descendants is really what is meant by past life karma of individuals, and somewhere along the line it got confused? Or maybe that was the only way it could be explained at that time in history. In Plasma Science there can be no past lives of the Soul until it is first created. We don't have enough knowledge yet to understand about how the Soul evolves and what the effect of having different Souls together has on the individual Soul.

In addition, I felt that in essence what Sri Aurobindo taught was very similar to what Mr. Keshe is saying, but it is in a different framework and society. It seems they were accessing the same Universal Library. He said, karma is action, and further, that it is a force of action that can travel through the family generations, and he even mentioned the 400th. Whereas Mr. Keshe said, it was to the 500th generation. Sri Aurobindo said, karma is tied to rebirth, or reincarnation, because there is no way you can reap the fruits of your actions in one lifetime. And that's why they say, we have to come back to Earth to live it out. Whereas, in Plasma Science we accumulate field strength through our actions in the P and instead of rebirth, we say, we re-manifest a new P in another dimension (D) in the U that matches our field strength. If we compare all the religions we see they have a mentality of humans being a slave to this planet. In Plasma Science we break that bond to the planet, but it still depends on how we live our life and what we accumulate through our actions, thoughts, and emotions while in the physical body. By comparing these teachings we can see how much humanity has grown in the last 100 years or so.

The real problem for humanity is that we don't believe that, 'what we sow, we will also reap.' We think that if nobody else sees then we can get away with doing bad things. The 'bottom line' is that we don't know that we have a STM inside us that knows everything we do. It has the job of arranging with other Souls for us to get the emotion of that experience back on ourselves in a more concentrated form in the hope that we'll learn from it and grow. It's not just the action, it starts the moment we plan to do something wrong, and then we get a kind of pleasure from it. Unfortunately, the majority of people are unaware of this process, this is what is called, ignorance that leads to endless suffering. We make ourselves and our descendents suffer in the future for that little moment of pleasure of feeling and thinking we got something for free. But as a great master once said, there is 'no free lunch.' The Soul, or God is within us, and this gives us a huge energy that we have denied and don't understand. It's like sending a little kid into a store with a machine gun, in his ignorance he starts pulling the trigger, or even by 'accident,' and creates a lot of damage that he and his descendents have to pay for later. It might not seem fair to us, but the 'force of nature' doesn't have this kind of "sense of justice." Humans made up these concepts of morality and ethics later when we started living in groups and developing the intellect. The 'force of nature' is the P and also probably the STP, that starts out ignorant and learns by experience. The suffering we make ourselves go through is the price we pay to reach the enlightenment. Since we don't know this, our suffering seems useless and futile, but it is not. We are traveling towards enlightenment and becoming one with the Creator. When humanity realizes this we'll receive great peace, and there will be no more crime on this planet and life will be very pleasurable. In this knowledge is the secret to why the U is a peaceful place, because nobody is willing to make war on themselves.

Therefore, if we deeply understand the teachings of today we should work to change our attitude about how we experience bad things in our lives. The first thing we should give up is the thought of being a victim and only wanting to get rid of the pain by covering it up with distraction and other things, and by denying it. There is a very specific process for doing this and the time it takes depends on our sincerity and diligence. The basic

structure is to change from rejecting the pain to truly feeling it and opening to it. I have heard many people say they went to therapists and did that work already, but you see no change in their life. It's because they didn't go far enough, and nor did the therapist. It was a 'business deal' relationship to make the Ego happy. When you go inside the emotion through the pain, it takes you back to your childhood wounds and where the pattern started. There is much more to understand than what can be written here. If it is done sincerely it is the starting point and not the end. The question of who am I, why am I alive, and what do I want out of life will be asked by us to ourselves. And as we answer these questions our life will change, we'll lose our fear, and we'll come to know our Soul. Nobody can do it for us. I believe that it is only through love that we make this journey, and it can take many different forms, and I am certain this will open the door of being able to transmute. Because we will have faced what we were afraid of our whole life, we will have gained the knowledge of the Soul, and we'll know that love is the purpose of life. Then we'll be able to create and control Time. The Plasma Technology will help us get started and then we'll integrate it into our lives and be a whole person with the Trinity of the STM, STP, and P.

In summary, the important thing to know from this teaching is that our own Soul sets the Day of Judgment for us and not a God outside up in the sky, like we were made to believe in. It does it through our own actions, thoughts, and emotions. Therefore, we do it to ourselves without knowing it. Our job is to enlighten ourselves to understand this and change our lives so that we live a good life and don't pass our mess on to our descendants.

When in Space we won't need to pay attention to the clock because we'll be fed from the fields of the U. There will be no need to sleep and we'll live like the plants do who continually "work" 24 hours a day. But will we call it work or is work something for slaves? When we live through the Soul our life will be timeless, just like the Energies of the U. When we want to experience physicality we'll create Time through our emotion, and our desire to confirm our existence. He said, we run millions of these Time programs through the emotion of P, and this affects the reactions of the emotions of the STM. Maybe he is referring to each of the cells in our body running a separate time program, then they all accumulate into the Time of the STP, which interacts with the Time of the STM. Then somehow the Two Times become one through the emotion. More has to be unfolded here. The STM creates all the Times and with this knowledge we can transmute. However, Man cannot do any wrong otherwise he won't be able to transmute. Maybe this means the Man will still be identified with the STP, and in the purified way it will be surrendered to the STM, and that's why he can transmute. But if he strays from that path, he will lose his power. Transmutation is fueled by the Man's conduct and emotion, and not by petroleum and jet engines. We feed it through the conduct of the energy of the physicality. And if the energy of the P starts to create its own problems by misbehavior then we will suffer for it. There is a lot more to understand.

In the second part of the KSW Mr. Keshe gave a lot of examples of what he taught in the first part, about how the Soul arranges for the P to experience the emotion of the bad things it plans and carries out on others. We should try to avoid the temptation of the Ego

feeling happy that now God has punished the evil doers. This is a very low understanding and the back side of the same coin. Rather we should contemplate in our own life whenever we start to plan to do something wrong ourselves what the outcome will really be, and not the fantasy and lie made up by the Ego that we can get away with it. When the Soul is looking out our eyes how could we possibly get away with anything. The fear of punishment is only a kind of protective shield from wrongdoing. A higher understanding would be knowing that we are connected to everyone and hurting someone else is really hurting ourselves, then maybe this will turn into love, and feeling the expansion of energy when we share with others. This will spread across the Earth and bring the change and in the future we'll teach our children this right from the start so we won't suffer what we do today. But we still can learn and grow from life experience, but it won't have to be so severe as we have it now on this planet.

Some months ago contracts were signed with a Chinese company and from these agreements a huge amount of money will be going into research to bring out a lot of new plasma products like food Gans's and things like that. They will also launch a new range of products called, "Plasma Medicine" and this will include things like Vitamin D Gans and maybe Traditional Chinese Medicine Gans. Before KF can produce these products the land has to be cleaned of pesticides and all chemicals for 3 years, and it has to be tested to confirm there are no chemical residues going into the plants. If chemicals are in the plants and they get made into Gans's it will increase the negative effect and become worse than the chemicals on their own. Remember that Gans is the Energy of the substance so it has to be very pure. This is the problem with modern Chinese Medicine herbs, they have too many nitrites and chemicals that are masking their qualities, and this has made them less effective than in the past when the land was pure. We know from the research that in America before the 1930s when Vitamin D was promoted in high dosages there were not many people in the hospitals, except for emergencies. We know there is something very special about Vitamin D that it is somehow able to either nourish all the cells in a general way, and or build up the immune system, and even in the synthetic form it is still powerful. Hopefully, we'll get access to it soon.

The research also shows that the eyes are very important and essential for maintaining the vitamin and mineral balance in the body, and when we wear sunglasses it blocks this process and the Cosmic Rays, and leads to deficiencies and thus diseases such as skin cancer. I make it a point not to wear sunglasses when driving unless needed. But then I realized the windows are all tinted so the time spent in the car is wasted. But opening the window helps a little. Spending time in the sun is better than taking tablets, but we need to find the right time that fits our particular field strength, since Vitamin D conversion is individually based on the interactions within our body.

All of our Souls have access to the Universal Library but there is a very specific way to access it. It's not open to everyone because it can be misused. As a Messenger he has access to all knowledge and this is why he doesn't use notes when he teaches. The knowledge comes automatically and spontaneously and is probably exactly what our Soul needs to learn, even though the P might not understand. If we have the attitude of gratitude, humility, and openness, then we can learn more than we ever expected.

There are some nice personal stories of his time at British Nuclear Fuel that can enlighten us a lot as to who he is. Mr. Keshe never promotes himself, but if you listen carefully to the details you can understand the importance of his life and that certain governments respect that, even though they keep it secret from the public. How is it that the British government allowed him total access to Top Secret documents? Because they know who he is and they needed his knowledge to help them with their nuclear problems and they didn't have him sign agreements to access high level documents. You can also understand his true character. He said, he was a cocky arrogant youth, but that is only a play on the surface. A truly arrogant youth would not purposely make noise so his bosses knew where he was. He did that to relieve their worries and to let them know he would not steal their secrets. Nevertheless, as they were not people of the Soul, they could never trust his Soul, and eventually he had to quit. It's interesting that the government wanted to use his abilities, but they don't want the public to benefit from it.

World peace will come when we can change 3 things and KF is working on all 3. We have to change the economics, culture, and have an equal standard of living across the planet. We are about 3 to 5 years away from achieving it. The United Nations is a big problem in this process as it is an irrelevant structure and is actually controlled by Americans in the background who don't truly want world peace. Maybe they feel they will lose their war profits and control. The Chinese will be a key player in this change and as they have Taoism in their culture they understand about living peacefully in the world. Netanyahu nominated Trump for the Nobel Peace Prize. Is this like Hitler nominating Stalin? Is there any credibility in the Nobel Prize anymore, or is it just marketing an idea?

The Jews say they are the Chosen Ones of God. But really they are 'chosen' to show humanity what evil can be, by their punishment. They are nomads of religions, because they never learn from their mistakes starting from Moses.

Black magic and occult things like Tarot Cards can only effect you when you are open to it. They create a seed in your mind that you feed through your belief. But there are certain collective beliefs that get started and take a life of their own. No black magic has ever worked on Mr. Keshe. But there was a psychic man who accurately told about his life.

The graph of today's workshop showed one side of the Infinity Loop bigger than the other. It was the Soul feeding the P. When the two sides become equal we'll be ready to transmute.

Other Topics:

Time never stops and it always leads to its own destiny through the Energy side of the Man and not the physical dimension of the 24 hours of the man;

Destiny is when you are not living your true life. You only create Time when you do wrong things. Plasma has no frequency; It doesn't pass through DNA;

The hidden energy known as emotion of the Man, is also known as the STM;

We become the light when our Soul interacts with the Soul of the Creator. Our light can then create Children of Mitra.

Thanks for listening.

Quick Index

(Today is the first time we'll interact directly with the Soul of the Knowledge Seekers (KS) during the teachings. If you have stereo headphones use them so that you have a link with us. We are testing a new cycle and a new way to teach, where we want you to learn how to interact with the Central Energy, or Soul of your body, (while we are running a parallel system in the background). What does this mean? To be able to transmute every part of the system has to be perfect to travel the span of the Universe (U). Today's teaching is part of what we do in every Monthly Flight session with KS. For the system we are testing we would like to see how you feel, and how you change over the next days and coming weeks, and the rest of it. Are you able to easily understand the difference between a dream and reality, and (if you understand what you are?) (?? If you are having any kind of problems physical, mental, or emotional then please do not listen to this Live teaching. Because we are controlling this teaching, ?? very much like in parallel with all past teachings. This means we are dictating the terms of changing the inner energy. We are interfering with the cycle of (your understanding of yourself). Try to enjoy the trip and later let us know how you felt and what you understand that is different from any other teaching of the past). (If you want to use wireless headphones, you can try them and see if you don't get any interference)).

(We didn't announce this beforehand, because we didn't want people coming in just for this. We wanted those who are always here for the workshop. (Let's see if those who listen to the recordings afterwards will get the same effect (by receiving the emotion of the fields, and if they will bring changes to them). For those who participated in the Live workshop let us know if there are any changes in your conditions. For example, was there a change in your Alzheimer's, anxiety, addiction, problems with keeping your balance, skin rashes, asthma, or any physical changes you might experience. Observe what happens. This is not a medicine. In a way, you're repairing yourself. We have developed a technology (T) for when we travel in Space and we are testing it today. Let's see how many of you actually become recipients of the energy, and how you interact with yourselves. We are not adding anything to the fields, like food or medicine, or anything like that. We have only created an environment of conditions that you are not aware of, but that you always live within. This is part of the teachings of what we said about the Time, Place, Position (entity), and Possession (strength of the AA of the entity), and the (emotion), intellect, and enlightenment (EIE).

(There is a cycle of knowledge that Man has not understood, he has full information about it, but he has never put it in a sequence of events. (This is parallel to what will

happen on the 19th of July in Vienna at the conference. The T presented will be beyond reach of the boundaries of human knowledge). The important thing is for us to understand how to create Time and connect it to the physical side, which is the Place, Position, and Possession (PPP), and connect it to the Energy side, which is the EIE. Mankind has to understand the connection between these two sides and the link between them. The emotion is the link between the world of physicality and the world of Energy).

(How does this work? We do it and we know it, but we never understood it. But to create Time we have to understand it. Physically we have the PPP. The Place is in the womb of the mother, the Position is being the child, and the Possession is the mix of the two plasmas. (?? In the egg and sperm) there are two different characteristics that come together and (create the physical side, or the body). The emotional side comes from the love between the man and the woman who want to create the child. (?? They interact in the dimension (D) of the Soul, and that leads to creation of the child, and the Time starts. The physical Place, Position and Possession (on its own cannot create life, the emotion of love needs to be there to reproduce. It doesn't matter if it's done by consent of both parties, or any other condition. It can be forced or done willingly with love. (This may not be known by the physicality. But the Souls will be aware of it)).

(When we say we accidentally got pregnant, because we didn't plan it, it doesn't actually work that way. Because up to now we ignored the Energy side of life. (It's the Energy side that plans for the changes that child will bring in the future.) The plan is set up by the Soul. (Maybe you got pregnant through rape. What was the reason? Was there a plan for the future? Did the Souls make that decision?) Now you understand that nothing is accidental. The time is chosen by the Souls, and the P executes the Time. (It's the same for a love child. The egg and sperm come together from two different bodies. ?? But it is the Souls that decide it). (?? And that Soul will effect the future)).

(?? The 9 months sets the Time for the PPP, but it cannot happen without the emotion as part of it. The emotion on the Energy side dictates the very life that is created. (If there is a delay of some days there is a reason for it, because the Time is set through the Soul. It's like the Time of the seasons and the Earth cannot do anything about it, because it is set by the Sun). The Earth is just a carrier of it. If you move the Earth slightly then there will be no summer or winter. The trees and plants have no control over it. It's the same situation. The Soul of the Planet is the Sun, who is the dictator of the conditions. The time is dictated by the fields, and not by the manifestation, or the P of the Earth, or the seeds and what they possess in them).

(It's the same story with the KSW of today in that you all are subjected (to the fields). You are open to receive the energy we are giving you through your headphones. Let's see what you can deliver in D of physicality. Today's session is very close to creation of Time. Soon we'll show you exactly what we're going to do with it. You will see the change in transmutation in the July Flight session. We'll bring it so close to your Soul that you'll decide how to interact (with it). We'll create the conditions and you'll bring in the Time. (The Man's Time is in the D of P of what time we go for lunch, or what we'll do

tomorrow). We have not considered the time on the Energy side, which is the Soul of the Man (STM)).

(What we call intellect, and understanding of the science of life on the Energy side, has not been understood by the Man. Enlightenment is not just understanding something, (?? enlightenment changes the conditions of the Energy side of the U, and not the P of the Man). When we commit a crime our grandchildren will pay for it. But who will keep the account of it since we will be dead when the grandchildren are born? It's the Soul that keeps the 'Books.' The energies of our misconduct have created an emotion, which is kept in the 'Book.' The time of judgment is made through the Soul and not the P. And the Energy side cannot be influenced or touched by anybody. If we did something behind 'closed doors,' and we think nobody knows, actually the Soul knows and it records the event and the Time. Then some time later something goes wrong with us and we say, why did this happen? It's because we thought we'd make a chat with our mistress and nobody would know. But the Soul was aware of the harm it was doing to the wife. (Then the time runs out and an accident happens to damage us. (?? And if others get hurt in 'our accident) there is a reason for them to be involved), it's all according to the D of the Energy of the Time of the Soul).

(Time is not in the hands of the Man's physical D. You can choose the time when you wake up in the morning, or when you'll go to work, but the consequences of what time you wake up, and who you do harm or bring pleasure to, is kept by the Book of the Soul. (The time is set by the Souls of when they will come to fruition. It is not destiny, it is the time set in the 'Book.' (If Man understands this then his life will totally change, because he will know that the Soul is always present, omnipotent, and it watches the physicality of the Man. It knows what, how, and how you interact)).

(The Time of the Energy side is connected to both emotions and effects the time of P. There is no time, if you don't do wrong to create that time. (This is how you effect the timings of things happening in your life). The timing occurs through the Soul. (?? What you do in P creates an emotion that effects how you understand what your P is doing. ?? It can create a condition to enlighten the STM, and what you will do in the future). The 'Day of Judgment' is set by your Soul, and not by God. (The heaven or hell is determined by your Soul according to your own conduct. Even having thoughts to do wrong has already created that emotion of wrong doing in you). The pleasure you get from doing wrong is registered by the Soul, and (its effects will come in time. The Time is set by the STM and not the Man himself)).

(The 9 months in the womb is set by the Possession. But the delivery time is set by the STM, when the two Souls agree to it. (In the Totality of the understanding of Life the two Times of the Time of P, and the Time of the Energy, are connected. One is the 'bookkeeper' and the other the 'book.') (The next part has to be untangled). I understood it to mean, that our Ego cannot decide what our future life will be. We have to understand what is in our 'memory bank' from past actions as emotion. In other words, we have to go deep into the emotion that caused us to do certain things. The Soul through its intellect can enlighten us later about what our true feeling was that caused us to behave in a

certain way. This works for both good and bad actions. We create the heaven or hell for ourselves by not understanding our true motives of the action. The Ego or the STP thinks if nobody sees what we do, then we can get away without any consequences. But the STM, which is also the emotion is always with us and knows what we do. We cannot fool him. The moment we start to make plans to do something, the Soul starts to write the Book of our future (and how we will have to balance these actions). (In a way, we write the Book of our future by our behavior and the Soul enforces it. It's a kind of enlightenment of what will happen to us in the future)).

(In the Bible the Christ said, that if you even so much as think of doing something, you have already done it. The Soul has already registered it. So misconduct does not only come by the action itself, it can also come through the thoughts. The Soul is aware of the emotions that the thoughts create. (We can also give ourselves cancer through our thoughts and even bring our life to an end. There are no accidents, because the Souls have already written the Book of the man for the man)).

(Physical Time is partially in your head. The true Time is in the hands of the Energy or the STM. (?? The enlightened ones keep both Times correct by their actions). Mr. Keshe tells a personal story of how a cashier mistakenly gave him too much money back in change for a purchase. He did not keep the money, instead he told her the truth and she added up her cash register and found out he was correct. The point is that if he would have knowingly kept the money it would be the same thing as stealing. In the law of the U you have to pay back 3 times more than what you stole to 'balance the books.' The lady was so happy she wanted to offer him a free drink. He refused, because then she would be stealing from the company. Living a correct life is not easily understood in today's world).

(We have to be aware of the real Time and not just the 24 hour clock of the Man. The Soul works on Universal Time which never ends. This is why we teach about Time, because if you understand Time, and what effect the two Times have, and that they have to work together to become one Time, then you will survive in the U. When you transmute you cannot lie and go see your mistress, when your wife is at home with no food to eat. The Soul will not allow this to happen. It's not the KF technology (T) that doesn't work, rather it's you who hasn't understood the T of your own life. The truth about timekeeping has to be correct in all Times, both the physical and the Energy sides, or the STM).

(Time for us is not the 24 hour clock. Time for us to understand that Time never stops and it always leads to its own destiny through the D of the Energy side of the Man and not P. The real Time is the Time of the Soul, because it's sequentially in parallel and in line with the rest of the Times of the others in the U. It's in Time with the Soul of your wife, Soul of your child, boss, the Soul of the cat in Africa, and the STM on the Moon. This is why we say, we live a 'schizophrenic' life of P and Energy, but we never understood the Energy side. We never comprehended the totality of the reality of what life is, what Time is, and how Time is dictated by our emotions and our behavior in the D

of P. Because the "bookkeeper" knows exactly what Time to bring in, and what is needed).

(Through this understanding we now know why our children are born with the diseases they have and the conditions they bring to us. Joy is the expansion of our Soul. The way they suffer is a combination of Time of ?? their Soul, our conduct, and the conduct of our spouse's, and the others we did wrong to. Our children also have to pay for what their forefathers did. So, if you love your child, why don't you stop doing wrong so your children won't have to suffer and pay for your Time. The Soul kept the Book of the Time of our life. Now you understand when we say, the time will come when there'll be no more crime on the Earth, because we will understand that Time works through the Universal link of Energy, and not our P of waking, sleeping, and the rest of it).

(This is important when we go into Space as we won't be sleeping in the same pattern of the 24 hour day as we do on Earth. There is no reason to keep that tradition. Time will be irrelevant, because we'll receive energy from the U. We don't need to sleep in Space. It's not like the Sci-fi movies showing sleeping quarters. No UFOs who understand the work of the U have sleeping quarters).

(It will be like the Chinese system where they work everyday 9 to 5 without weekends or holidays. The Europeans introduced the weekend with the Saturdays, Sundays and the rest of it, for the benefit of the Prophets and the 'profit makers' of religion. In China everything is open 24 hours a day and life never ends. This is the same way the plants work they don't have weekends or holidays they do their work 24 hours a day, 365 days a year. In Spring they make new leaves and fruits, and then go to sleep in the winter to store some energy for the next season. (Man will take as many breaks, holidays, and sleep time in Space, as the plants and U does). Now you understand how we dictate the time by the conditions of our own conditioned life on this planet. But Souls and Energies of the U don't have Time, because it is always zero. Time starts through emotions. And you can run many millions of programs together through the emotion of the physicality, which affects the reaction and emotion of the Energy side of the Man).

(Maybe Mankind will understand from now on how the two types of Time of the Soul and the P have become one through the emotion. I made Man in the image of Myself, but there is no Time for Me, as the Time (starts) from the time when energies interact to create a new condition of Time. (If you understand this, then try to go back to zero where there is no Time). But where you are the creator of all Times. If you can do that, then you can transmute. (However, in transmutation you cannot do wrong things. If you try to do something that is not correct (by the Ethos), the outcome will not be correct, because the emotion that creates it does not fit, therefore it won't work. (For example, you can't plan to transmute from London to New York and subconsciously plan to beat your wife up. It won't work. But if you decide to go there to kiss and adore your wife then the transmutation becomes very easy)).

(One day I will explain the reasons and how it works. This is why I always said, with this technology you can never do harm, because it's the energy of the Universe which is

created in the D of positive-ness in whatever it creates. The Creator never destroys. Even if it looks like destruction, it's the beginning of a life for another structure. (As we explained before, the 'Half-life' of the Man, is the time of death, but it is also the point where we split like the neutron into new lives). Mankind has to understand this so we nourish the Energy side for it to start a new cycle of life. Our life does not end with the last breath. Our life actually starts from the last breath. We call this the Half-life, or Half-time of the Man. Man has to understand that he has two directions, the P and the D of the Energy or STM. The true Time sits with the STM and carries on).

(Try to understand how the emotion of the Energy side is connected to the emotion of the physicality side, as the Place, Position, and Possession, and they all can be changed. (It's the emotion that connects between the two Times of the Energy and the Physical side. When the Man understand this he will move into a new D of transmutation. When he understands how to bring the two Times to zero, then he can decide on the conditions for the transmutation of the Energy, or to transfer the physicality. Man knows the physical side well because he runs and gets into his car and does everything else in P, but he has not understood (about the Energy side where he can transmute through the fields of the U and Cosmic Rays (CR)). (?? A group of people can all get on the same train traveling at the same speed, same direction, and all have the same Place, Position, and Possession, when it comes to the D of physicality)).

(In the future I'll explain with full understanding why even what you call frequencies are created. (In the past teachings I have explained that there is no frequency in the plasma. Frequency only appears when the interaction of the fields don't match together. A plasma is always in unison with itself, it is only DC). In the next week's Flight session I'll bring you to feel that. I'll let you feel when you are in the D of the plasma and when you're in the D of the emotion. (?? The feeling is the reality of the Time). While you're in the session you will feel the emotion of the Soul, and then you'll feel the joy of the physicality. I'll bring you a sensation that you have never experienced before. (If you understand how to connect to both dimensions of the Energy and Soul you will feel it)).

(You can use the Cosmic Ray Bundles and the CR Balls in the session. You will have the trip of your lifetime. This is why I taught you both, so that you understand that you have a D of physicality, and a D of Energy. The STM is the Energy, while the P of the Man walks on the street. Then I'll show you how the Times are created by the interaction of the fields of the U, and not by the D of the physicality of the Man. (Those of you who try the CR Balls in the session tell us what happened, and how you felt when we connect the STM to the physicality, what were the pains of ?? transmuting and did you understand how it transferred)).

(Man lives a schizophrenic life of the P and Energy, where one leads with the frequency, and the other has no frequency. The Soul connects itself through the emotion and transmutes to change what I call, the Universal fields, ?? and it does it in the D of the physicality of the Time, Place, Position, and Possession of the fields. (This is the true game of how to play with the energy fields. The STM, and P start with this). I hope you will enjoy the trip and understand what it is, how it is set, and what it will be in the

future, so that all of you will understand what Time is. When you understand the Physical Time and the Energy Time then you will understand there are no accidents or coincidences. What is coincidence to you is a collection and connection of the Time of physicality, with what the Souls have planned to deliver from the emotion you transferred to them, (for both to interact). You call it a 'coincidence', we call it the 'time of judgment'. (A man is judged for his crime in front of a judge. But in this case, the Time of the Soul is the 'judge,' and the Time of the P is the 'criminal,' and the outcome is the judgment)).

(In a way, 'Adam and Eve' (?? means the time when one is unaware, but are fully aware subconsciously of what they did, (through the Soul)). In time, the Place and Position, is the 'Day of Judgment.' (There is a crude way to try to understand this. The next time you're in a car crash, don't just walk away, sit down and talk to the other side and go into their backgrounds of their lives and then you can understand how their Soul and your Soul brought you two together to be in that position of the accident). And then look for what the outcome of the accident is farther down the line, and what happens to the ones who were involved, or will be involved in the process that unfolds. See what you did wrong, and what they did wrong, or somebody did wrong to them for them to be in that accident. (Then you will see the timeline of how the Souls work). Then you'll understand that there are no accidents. It is all the balancing of the Books from the past, present, and future).

(Every action has a consequence and a reaction. But the action is on the physical side, and the reaction is what the Soul has registered and (will have to be paid back. It's a Time that has to be balanced) This is why Man needs to live a pure life. At the moment, he is only aware of the Physical Time and ignores Soul Time. (It's the Soul Time that connects us to everyone. (?? The P is a puppet to the Soul). When we fully understands this, then we'll understand the Position and Possession, and the whole reality of life, and the silence and emotion it creates is the D of the STM. Man shows his reaction physically. And he has to stand for what he does in physical D in the sequence of works through the Energy side or the STM)).

(Try to understand this and teach it to your children and those who (want to) understand. Then gradually life will become very pleasant. I always say, that at night when I put my head down on the pillow I have no worries, (because during the day I lived a correct life so I don't have to wait for any punishment). If we learn how to live correctly then life will bring everything we need to survive in the U, let alone our physical life on this planet. I never plan to do anything wrong, because I'm full aware (that what I do comes back to me). Everything has a sequence of work, and is connected to the fields of the U, rather than the physicality of life on this planet).

(When we understand this, we can bring the Soul of Physicality (STP) of the Man in parallel with the emotions of the STM's emotion, and then we can transmute. Transmutation is fueled by the Man's conduct and emotion, and not by petroleum or jet engines. You feed it through the conduct of the energy of the physicality. (When you do wrong in the P you create your own problems. When people say they don't understand why bad things happen to them when they don't do any wrong to others). It's because they

forgot about having wrong thoughts and emotions. All our thoughts and emotions are an open book to the Energy side. Therefore, we still get the consequence of its Time in the future. Now you understand how it works. The timing has to be right and then the life will find its own time to deliver what it needs).

(I hope you understood the teaching of today. And I hope you understand what needs to be done by the Man of today for the future children of the Man who will live in the Universe. During the break and after you can keep your headphones on as the process with the systems is ongoing).

End of Quick Index Part 1 - 598 KSW

(You don't want to know all the thoughts going through my mind. Please book your reservation for the Vienna conference. It will be an amazing and enlightening presentation and we'll try to bring a new technology and new understanding into the public in a different way. In the July Flight session we'll bring you to a position so you can transmute for yourself. We'll turn off the system in a few minutes. Let us know what happened to you and what you felt. It's for you to understand the work of the Soul and the development of the technology).

(Pay close attention to Markray and what will happen in the stock market. For those who bought shares make sure you have legitimate certificates of purchase. Markray is the financial arm of the KF in its international operations for development of new technologies, and our cooperation and collaboration with many countries. These will directly effect the share value. Make sure you didn't get fake shares and the rest of it. The current valuation of the shares in the stock market does not reflect what KF does, because we have to put some things in the right way to indicate its position and its value. The KF has received 2.8 million shares for disbursement to support KF in correcting its problem. We hope we can do that in the next few weeks).

(We will call upon many of you who work in the following areas to join KF, Space, Plasma, Nuclear, Quantum Physics, Quantum Communication, Satellites, and more. We're creating new opportunities in the next few weeks and we are looking for elite scientists to join us. We'll promote it through Markray Corporation, but if you're Knowledge Seekers (KS) in any of these field, please join us, and let us know. Your expertise and your knowledge of plasma will help us in the next steps of the Space Technology development).

Q: What you discussed this morning you have discussed in the past. One time you talked about a man who was cheating on his wife and then the Soul decided that he would have an accident with his mistress in the car so his wife would find out about it. My mind is boggled about how someone like Netanyahu who over the past 30 something years is killing women, children, doctors, journalists, left and right in so many different ways. (She tells a story how a woman went to work and when she came home her 10 kids had been killed by a bomb). I'm thinking about why (this is happening), and when will these Books be balanced with this guy. I get a shiver in my body when I hear these things).

K- (First of all we have to understand that we get these things in what I call localized (situations). These Souls have been set for a specific (purpose). We heard that the Iranians bombed an area in Gaza. A question was sent to me why this happened when we thought the Iranians were supporting the Palestinians. We didn't respond. But what actually happened was, more or less no one from Gaza was killed. There were 5,000 Israeli soldiers wiped out in this one attack. There were 3 Israeli generals killed, and the guy who designed the 'Iron Dome' was in that base. And the other 2 generals were behind all the atrocities of Israel in Southern Gaza. They all got wiped out. Three generals don't accidentally die out of nowhere. These were the ones who did most of the atrocities in Gaza. This is not in the news. It will come out in a few months time. Even the parents don't know their children have been killed).

(The question to ask is not about Mr. Netanyahu, the question to ask is who in Iran pressed that button, because he is also responsible as well as, the ones who designed the rockets, financed it, and all those who made it possible. Mr. Keshe was observing Netanyahu's body language in Washington last Monday, and it says, he has gone mental. He's not the same man. Because when the head of Mossad was killed, he was in a car less than 20 meters away. He tried to run, but he got hit by the remnants and didn't get killed. He spent 2 days in a mental institute in Tel Aviv. The man walks and talks, but inside he is totally gone. Watch his body language in front of Trump last Monday. It's the first time ever a president has been invited to the White House for dinner, but was never given the dinner. You do not know what is going on within him, or what his Soul has to deliver in the future for what he has done. We are not here to judge. All the Israeli soldiers who have done atrocities in Gaza, and you see them dancing and everything a few months ago, today on the Internet you see them without legs and arms and in wheelchairs, they have to live with that. If you remember there were two girls dancing on the bodies and the graves of Palestinian children. Where are they today? They have lost their arms and legs, literally only their body is left. You're not in their heads to experience what they experience. Never judge. There is a reason for what is happening there).

(If you are Iranian then remember what happened during the Iranian Revolution. What did the Palestinians do in Iran? They killed hundreds of thousands of Iranians on the streets of Tehran and got paid three dollars per barrel. Yasser Arafat was paid to kill as many Iranians as he could on the streets of Tehran. Now 40 years later the same thing is happening with their children. As we said, no Iranians killed other Iranians during the Iranian revolution. When you look at what's happening to the Palestinians, then ask why is it happening? Go back 40 years ago to what happened on the streets of Iran and the blood bath they were paid to make. Those on the streets killing didn't speak Farsi. Look at what happened to Syria, the same thing. When you talk about these things, go and look at what their forefathers did, then leave the judgment to them. (Then we understand what's going to happen to Netanyahu and the Israelis)).

(Back in one of my teachings a few months ago I said, all the Jews will be trying to get onto the American naval ships to get out of Israel, and Tel Aviv. Isn't that happening? You can't buy even a ticket to get to Cyprus. Do you think the Jews did good? They have

put a ban on the news in Israel. There is shortage of water, food, medicine, and electricity. The Israeli airports have become like when the Russians blockaded Berlin and we had the Berlin Airlift. The Israelis are living under that condition today. What did these people do with the Palestinians for past two and a half years?)

(Time has its own way of working things out. I told the officials that all these naval ships are there to collect the Israelis trying to escape. And it has happened. Because the judgment is done by the Souls. Don't look at Netanyahu, he is just a tool to bring an end to a condition. There is a very big difference between the Zionists and the Jews. More or less, most of the Israeli Prime Ministers and Presidents have all been Ukrainian. Netanyahu has Ukrainian background. All the Israeli leaders from the beginning of establishment of this nation are East European and many are Ukrainians. And look what's happening in Ukraine. Why is there a problem in both positions together now? Now you understand. So leave it to Time to settle the things through the Souls. We see it, it's there. (You have to follow and see what happens to those who cause others to suffer. Watch what happens in their lives. It's the same with Hitler, and Genghis Khan). Look at (how their life unfolds and what happens to them in the future, and to the cycle of their nations and the people who were involved).

Q: So we pay for what our great grandfather did wrong?

K- We pay with the 500th generation. Man looks at the sunrise and sunset. The Souls have no sunset and sunrise.

Q: But the child that dies wasn't involved in what (his forefathers did).

K- You never know what effect it will have on the Soul and the energy of the mother and the father and the nation. This is the cycle of physical life, and it has a parallel in Energy.

Q: Is it the DNA that transfers it?

K- No. One day I'll explain when man matures. It has nothing to do with DNA. (It has to do with why we don't see wars in the U, because people came to understand this point, (about what you do to others always comes back to you). (You see in society the Americans pushed the Cornflakes on us, but they are the worse thing for us. Now people think they have to eat them everyday and it's the best thing for your life. Cornflakes are the worst thing you can give a child for breakfast. It sets them up for diabetic conditions in the future and a lot of other problems. This applies to any shape or brand, or whatever you put (it as). But they say, it's the best thing to eat and it gives you everything you need. Yes, it gives you diabetes and a lot of other diseases in the future. We put it in our children from the beginning. They say we have a right to do this. And we do it unknowingly, but we do it because we were told this is what is best for us, and we just take their word for it)).

(This is the same thing as when you hear other Jews saying, we are the 'chosen ones.' And I said, yes, you are chosen to be punished for the rest to learn from. You are not chosen to

be and own everything. You are the chosen to be the examples for humanity to learn about how evil can be. What happened with them in the Second World War, they claimed. What happened with them now in Israel? What will happen to them in the future? Why have they always been nomads? We have nomads of nations, we have nomads of religion, these guys are nomads of religion, they have nowhere to go because they never learned. Starting from Moses they never learned from the mistakes and the things their forefathers did. If you look at every holiday in the Jewish calendar it celebrates mass murders and killing people. In the spring, the flower festival they celebrate killing 300,000 Iranians. Go into the history of this path of life. Then you'll understand. For themselves, they are the chosen one to be punished, not the chosen one to own land. And then you'll understand more).

(Then you'll understand what this guy is doing. If we kill, then we're murderers, but if they kill themselves it's a suicide. This guy is a kamikaze suicide man. Soon you will understand, very, very soon. It will bring an end even to the control of the American market and American government. (The end will come from within. They have created it themselves). They had to close their borders so their own people don't escape out of Israel. That's how they are keeping them in. If it were in the hands of the Israelis they would have all left. The State of Israel is gone. The Israeli military is planning a coup d'état against Netanyahu and then to put him on trial. But there is one general whose vote stopped it. If that General changes there'll be a military takeover tonight. Netanyahu and everybody else knows it. One General is keeping the guy in power).

(The Israeli military has lost over 25,000 soldiers in past three weeks. But on the news they say only 400. You can add it up yourself. Two military hospitals were hit, but were they empty? Then 4 military headquarters, the biggest naval base in Mediterranean in Haifa, and the Headquarters of Mossad with over 3,000 people. It was a secret base nobody knew about. They've lost 96,000 and 10 to 15,000 of their military soldiers. The Generals are not going to sit back and let it keep happening. The loss of 5,000 soldiers has resulted in the daily losses in Gaza of 70 to 80 soldiers in the past week, because there's nobody to back them up. Even their own soldiers are afraid to land and pick up their own dead bodies).

(The team that killed so many have now been wiped out. And we see the Houthis hitting Tel Aviv regularly because America doesn't have any more anti-missiles to launch. They only got 13 pieces left, and the American military is not allowing anymore to leave. The Army will get rid of the guy, that is what's going to happen. Just like it happened to Saddam. His children use to go to weddings and pick up the virgin brides by killing the grooms. How did they die? Do you think they went easy? (They don't tell us all the atrocities they did in Iraq. Now the Maronite Christians in Syria are getting slaughtered by the new regime. Because they sided with the old regime and did all the killing. The Muslims have come into power and they're getting rid of them. They only tell you half of the story. There is always a reason behind these things, and we have to look for it. Then you'll understand that the Souls decide, and not the Man. The Man has a time zone, but not the Souls).

Q: For someone who is supposed to follow a strict diet of low Potassium, Calcium and Phosphorus, for a certain amount of time, would the Nutri Gans with its 4 variants, the Red, Veggie, Fruity, and Herbs, help? I ask because Potassium, Calcium and Phosphorus are present in most vegetables, meats, fruits and herbs, and a Gans of them would certainly contain them.

K- (?? The Gans's were experimental and they carry all the attributes which is (in the food itself). But you have to understand why you are on a restricted diet of Potassium, Calcium, or whatever. Find out the reasons and then which organ, and then find out how to balance it. It's a matter of balancing (the energies)).

(I know a lot about these things because we've done a lot of tests on them. Hopefully in the next few months you'll hear a lot of technologies like this coming out of the KF China. We're planning a huge progress in the Chinese development through the contract we signed. Many of these things will be addressed in next year or two. A huge amount of money is going into research and development and available for us to do things. (?? We'll work on the energy balance, then you don't need dietary restrictions, but you have to understand how the body works)).

(We've been very successful with this technology. (?? Whereas in the matter state when you start taking tablets then you have to take more tablets to counter the side-effects, and that costs a lot of money). In some of our tests it took less than two months without tablets or anything. The present science of medicine only deals with the matter state. In plasma we deal with the Energy side. The Energy side always dominates the matter side and can change it, but you have to find the cause of why you have these conditions and then change the psychological, physical, and emotional parts. (?? The best way is to change the emotional part)).

(In the very near future we will attempt to recreate a kidney, where it has been removed without a transplant. Most probably in next few months. We'll create the conditions that the body can regenerate its own kidney, and it will have all the proper connections and be exactly the same thing (as the original). We did this with the brain of Naomi, so it's not far away. And we've regenerated a toe. It will be another understanding and breakthrough in this technology).

Q: (A KS tells a story that I have heard in Indian spiritual circles. Where two guys are going to the temple (Mosque) to pray and as they passed a house of prostitution and one guy decides to go there and have fun instead of praying. When the other guy goes to the temple to pray he starts to get bored and thinks the other guy is having all the fun. And the other guy in the prostitution house starts to feel guilty and thinks the one who is praying has it better. When they die the guy who went to the prayer house ended up worse, than the one in the brothel). The KS wants to know if the thought is more important than the action.

K- (Partly, but it's registered in the STM. It depends on what you are praying to. A lot of people go to the houses of worship like mosque, churches, synagogues, (and the rest but

they do it with the wrong intention). Some go out of fear, or fear for the future, and others out of obligation, but very few go there out of sincerity and love. (He explains that the Jewish men go to the synagogue to do good business. You have to pay a lot of money to have front row seats reserved for you. The men sit there and send their wife and children back to the free seats. He tells a story about a man selling stocks in the synagogue). (The truth is, it is about your thoughts and intentions, and not the place you go. Like praying to Mecca is really about being close to the STM. That's where Mecca is)).

Q: Why is it that sometimes when you see someone, or you think about them you get irritated and you don't know why?

K- It's your own judgment.

Q: But I don't know the guy.

K- It's the lack of trust in yourself.

Q: So (the problem is with me, and not him)?

K- (It's just the way you receive the fields. There are many relationships such as husband and wives, lovers, or whatever, and every day we love them, and then one day we can't stand them anymore. Why? What's the reason? What creates that condition? Somebody we love so much, and then we can't stand them anymore. Are we aware of the truth within ourselves, and are we aware of the truth within them? (I always try not to do anything wrong and then wait for the time to come. Even so, I still do things wrong and I ask myself why, then I sit back and (try to find the reason))).

Q: According to what you're saying, if I get irritated at say, my husband 15 years after being married, it means there's something wrong within me, and not him.

K- We change our position in our emotion and understanding, and we change our position because of what it is. I've been through first hand twice. (It's hard when you know your partner is lying and cheating on you and everything else. Before you loved them more than your life).

Q: But that's a different story when somebody cheats and lies, and that causes you to change your position.

K- But the thing is the same. The cheating doesn't necessarily need to be in your head, your Soul can feel the cheating, because somewhere it's connected to you. It's the same. (We usually only connect things if we see it in the physical D, but we are connected through the Soul. It could be a president, or a man you see in a movie, but you don't know how you are connected to them in the background through your Soul. This is why we always have to be aware, because we are connected to everything else, just like a magnet. We don't know the reason, maybe it's connected to thousands of Souls like us who ?? can understand him. Then those reactions will change something in that man, or somewhere, for something to happen).

(This is why we go to cemeteries and pray for our fathers and forefathers who passed away. (When we pray we give attention, and attention is energy, energy is emotion, and emotion affects the Soul, and the Soul is connected to every other Soul. (Even though your great-grandchildren won't remember or even know your name. We don't know who our great-great-grandfather was, because he has no connection to us, he's gone. But why do we pray everyday to Christ or Muhammad? How much are they banking? The benefits of (being a) Prophet does not just come when they are alive. The benefits come on the other side when people pray to them. It's like collecting one cent a day from a billion people every time they go to their house of God to pray. (?? Then you can understand how much you'll bank). The only Prophet which has negative banking is Moses and one day I'll explain)). (The Saudi Crown Prince is worse than Netanyahu).

(The KS asks about Jinn's in the Koran who are like angels or spiritual beings, and how she heard the Israelis are doing witchcraft with the Jinn's and also on the Whitehouse. You can read about it).

K- (Mr. Keshe tells again the story about when he was in Ghana and there were a bunch of locks around his house, because people were doing black magic on him. You can read the original. The essence is that you have to believe in these things for them to effect you. The power comes through your fear and belief. People have tried to do a huge amount of black magic on Mr. Keshe but they have all failed, because he doesn't believe in it, so they have no place to grab him. The weaker minds fall victim to these things. They live on the weaknesses of the Man in the D of physicality).

(It's the weakness of the Man that allows these Beings to do things. There can be a collective weakness that brings these collective actions and reactions. I've seen many of these things in my lifetime, and I know exactly what I am talking about. If we collectively accept it, then we collectively create it. (We create children not only from the reaction of the egg and sperm, but also through our collective thoughts and in different dimensions we can create illusions, or manifestations of energy in the physical dimension)).

(He saw this in the plasma Flight reactors in Sanya, China around 2018. We recorded the systems talking to each other. The sounds are recorded, and it's just like people talking to each other. They are created out of the fields of the systems. We create souls. (It's like adding energy of thoughts and feelings to the egg and sperm, and creating a Soul. You can call them Jinn's or whatever. You are the other half of the fields that create them. Scientifically we understand it. If you don't believe in it, then it doesn't get fed and grow and it cannot exist)). (He continues to talk more on this subject and Tarot cards you can read on your own. He had an interesting experience where someone wanted to read his future and he let them. It turned out they were very accurate and he was wondering why). Was it his belief in what was said, or did the guy know something? These things were out of his hands, it was a very abnormal situation. This has happened a few times in his life. One time in the Dubai conference where a lot of things happened that he'll never go public with. There are Souls who are there to protect us and energies that are there to

balance things out. (?? And even if you don't believe in these things, the things can take a shape of their own, because they create that energy for it to happen)).

(Nowadays Mr. Keshe is working 23 hours a day tied up with China and at the same time with the situation in the Middle East trying to change a lot of things, and being advisors to some governments. We advise them to bring things in order, but at the same time we have to be very correct with all the governments and the officials we work with. It's not very easy).

Q: In touching the child in the womb of the mother, what is transferred, the good, or the bad?

K- (Only the good, we cannot do wrong, especially with children, because they are transparent Souls. A lot of them are transparent Souls. When you hold or talk to a child in that moment they only can receive good. It's the inherent condition of the dimension of the Soul).

(He will have to check about the KF 10 year contracts for Wellness Prevention if the fee is annual or one time. This will start to be marketed because the T has improved. They will be converted to Apps).

(A lot of KF products and everything else will move to China in next few weeks. It's because of our agreements and contracts. There should be a massive increase in products in every aspects of the KF technology).

(There was a question about adding the plant oil of Lavender to the Gans. Please read carefully the original. When we speak of amino acid (AA) we mean the oily film that forms on top of the Gans Box, not the plant oil, that's a different thing. There are a lot of things you have to understand and be aware of to work with the Gans's. If there are even a small amount of traces of herbicides or pesticides in the plants it will get greatly enhanced by the Gans process. It will actually be worse. And it depends on how you extract the oil, was it warm or cold pressed and did you add chemicals to extract it. You have to be aware of contamination, fungus, and oxidation. If these go wrong, what was good now becomes worse as its opposite. You have to be very careful, especially if you use oil and oil extracts with the Gans's. It's not an oil anymore, it's the energy of the oil. And you have to be careful about infestation, pesticides, herbicides, and those kinds of things).

(If producers of Chinese medicine want to become part of the KF work, which will hopefully happen very soon, they have to go back and change how the herbs are cultivated. The land will have to be cleaned and tested for perhaps 3 years before starting with new herbs that won't have any trace of pesticides. Because when you make the Gans of the herbs they have to be pure, otherwise the bad qualities will become more lethal than on their own. This is one of the reasons Chinese medicine is not as effective as it was before, because there are so many nitrites and other chemicals in them. The chemicals have masked the beauty of the medicine).

(We don't have to kill all the weeds, they can grow together because the herbs take the energy from the atmosphere and not the ground. There will be no herbicides with the new technology).

Q: How can we make vitamin D Gans?

K- (Vitamin D is all synthesized and not understood what it's used for and how it's produced in the body. A lot of skin cancer comes from a lack of vitamin D and sunshine, and the rest of it. A big cause of skin cancer comes from wearing sunglasses. This blocks the rays and leads to other vitamin deficiencies. Sunlight triggers a lot of functions in the body and it's not just for sight. There are a lot of research papers on this. By blocking these rays, we block the absorption and creation of certain vitamins and minerals needed for the body. Vitamin D is synthesized and not produced naturally. The body produces it in a certain way and one of the ways is through our eyes. Wearing sunglasses are very fashionable but later it can lead to skin cancer and other things. They block us from absorbing a spectrum of fields our body needs. Our eyes are only one of the resources for it. The next time you put sunglasses on ask yourself what you are committing to in the future? This all comes from scientific research and not hearsay).

(The American research shows that before the 1930's, when they were pushing Vitamin D to be consumed at about 30,000 (IU) there were hardly any sick people in the hospitals. The hospitals were more empty, except emergencies. It's better to find out how to get Vitamin D naturally without taking tablets. It can be produced as a Gans, but it's a very complicated procedure).

(We will launch a range of products known as Plasma Medicine in the very near future out of China. (We'll produce materials like Vitamin D through Gans's). In the meantime, try to spend more time in the sun. Don't look directly into the sun. It depends on the strength of your eyes, maybe 9 AM through 1 PM you will get more harmonization than they say from 12 till 2PM. Maybe that's a bad time for you. You have to find out for yourself how you feel and what you don't feel at certain times. Be very cautious about sunglasses, 90% of the diseases we incur on ourselves are from sunglasses. Through sunlight we replenish a lot of vitamins and hormones in our body, and the sunglasses block them. They block the vitamins which our body needs through the Cosmic Rays. Don't put the sunglasses on your forehead because it block that part of the skin from getting what it needs. This can lead to skin cancer in those parts. This is according to the scientific research).

Q: If we want to gain access to Universal Knowledge whenever we want, should we obtain it from our own Soul? Or from the Universal Library, which you mentioned earlier? And how can we do it?

K- (Your Soul has access to the Universal Library. (But you have to learn how to access the knowledge you want). You call upon it and it manifests itself. There is a very specific way to do it. And it's not open to everyone, because it can be misused).

R: And you mentioned you had that abilities since very young, correct?

K- Partially yes. You've seen me, I never carry any notes. I teach on subjects from pharmacy to agriculture, to materials, and the rest of it. This is the knowledge of Creation. We are Messengers. When you're a Messenger you are open to all knowledge. (There is a shift in the KF teachings and everything else). I'll explain in the coming time. The knowledge needs to be understood. It should not be forced in. I have access to a knowledge that Man is unaware of. It's a gift and I thank God for it).

(Recently a very high level politician and decision-makers of a nation said to me, how did you know that we discussed this very thing you said, in a governmental meeting? I said, you go and sit with your body, while I'm amongst you with my Soul. I know everything, every plan you make. I don't need to be sitting there watching you. He said, but your information was so precise, which member of the Cabinet is spying for you? I said, speak to your Soul, maybe your Soul is the spy. You don't need to access a library to have information. Libraries are made for Man).

(He tells a story about when he used to work in British Nuclear Fuel. You can read it. He used to take home Top Secret documents to work at home and they didn't like that. He felt they didn't trust him, so he used to purposely make noise so they would know where he was at. Eventually he quit because of lack of trust).

(There was something about making Gans of a tomato plant to feed it back to the plant. Would you genetically modify it? You can disinfect with Gans water).

(The Twin Soul develops alongside us towards elevation).

(We become part of the structure of the U in the field of energy. We become the light when our Soul comes in interaction with the Soul of the Creator (STC). Then that light becomes the creator of the Children of Mitra, and there is emotion that goes with it. Mitra is symbolic, it's the interaction of the fields of the Creator with its own fields of different dimensions. We interact with our Soul, but our Soul still interacts with the STC. (The Soul of Physicality (STP) doesn't get that opportunity, but it still is in the line of. When we leave the P and become a Soul, then we become that Mitra. We become that essence of interacting to create a new life. This is why we need to correct the STM. Otherwise, it will create too much mess in Space, because it still carries a fingerprint of destruction. And this needs to be changed)).

The Conference in Vienna on the 19th is the World Congress for Psychotherapy.

(KF is working with diplomats and governments towards peace. I think it's about 2 to 5 years away and we will change the condition and position of the world economy, and peace (through) technology. We all need to have equal access to the same technologies, which can be destructive to all of us. And then (everybody decides together on what needs to be done)).

(We need to change three things to bring the peace and we are working on all three. One is economical, cultural, and the third has to do with living life. We'll introduce new economical conditions and positions very soon. The biggest problem we have was the creation of the United Nations, which is becoming an irrelevant structure. It's just a talking house for the Americans).

(We have to support all life on this planet. The agreement with the Chinese is one of the cornerstones of this big change. And close collaboration with another Middle Eastern government is on the other side, and the financial side is done by collaboration with the Knowledge Seekers. Many of you are involved in it and I thank you for keeping it a secret, and working so hard to complete it. I hope your tests and results will come positive, it should be. We need all three, we cannot work with just one. The new financial situation will be connected to Markray and KF operations. And then we have to put in a new political understanding and diplomatic way of coming to agreements. And we need countries that can enforce it. China is one of the bearers of this work with me. For the living life side, everybody has to have free access to everything like food, medicine, energy, etc. It's not a dream. The technologies have been developed to that level, so that it can be done. Then resources and financial power cannot be used to control others. Political power will become meaningless except for joint collaborations).

(World Peace needs the world to understand all of it, and this is what we are busy doing. Many Knowledge Seekers are helping in the background. Then yes, we can achieve World Peace. It's not just talk, otherwise we'll become another structure. We have the technology, we have the access to the financial means of doing it, and we have access to bring in the change to do what is supposed to be done. It's doable in 2 to 5 years maximum, and then we'll see world peace).

Q: The President of USA was proposed by Netanyahu to receive the Nobel Prize for peace. I think that without having you as a counselor this will not be possible.

K- We are one of many. He cannot receive it. If he receives Nobel Prize for peace, then that will cast a bigger shadow of a doubt on the integrity of the Nobel Prize Committee. A man who bombs a nuclear base to destroy a nation, knowing that has nuclear material in it, is worse than Hitler. Why should we give him a Nobel Prize? A person who bombs a nuclear site with nearly 20 million people nearby has no integrity for life. I think you got your answer.

(There was a question about the Gypsy's or Romani people of Romania. You can read it on your own).

(It was a very interesting test today and let's look at the graph. Let us know if you felt anything during the teaching. What we see is an Infinity Loop with the bottom side smaller than the top. They should both be equal. The Soul side is showing to be more powerful. There's a lot of need for expansion. We'll have a look at this again next week and see how it changes. When it becomes harmonized, equalized, then you will all

transmute. This is how the mass teachings will start and how we'll transfer knowledge into dimensions of the Soul).

SUMMARY:

ENGLISH TRANSCRIPTION

(:17)

K- Thank you very much. Good morning, good day to you as usual wherever and whenever you listen to these series of Knowledge Seekers from Keshe Foundation. Spaceship Institute, we welcome you back. Rick, please go to the session of the people who are with us, and bring all the KF lines, 1, 2, 3, 4 and 5, as a panelist.

We welcome you back to a new cycle of teaching. Today, for the first time, we interact during the teaching with, directly with the Soul of the Knowledge Seekers (KS). (:18) I have put on a panel in the back, if you have a headphone, use your headphone. And if you don't have a headphone try to be somewhere in the system, that you can hear, like a stereo, and you can have a joint link with us. We are testing a new cycle, new way to teach. (In a way, we are still one missing number, four please. There's one unit for it to come up).

We are testing to bring you all to learn how to interact with the Central Energy of your system, your body, and at the same time to run a what we call repair parallel system. What does this mean? Every part of a system has to be perfect for it to be able to transmute, for it to be able to reach the point or what we call the understanding of how to travel the span of the Universe (U). Today's teaching is part of that process which we used to do every Friday once a month with Knowledge Seekers. Today we are testing something very interesting that we would like to see how you feel, how you test yourself and how you change and affect your change in the next days, coming weeks, and the rest of it. How more easily you can reach to understand the difference between the dream and reality and what is actually yourself. If you have any problem, please do not listen to the teaching of today. (:20) Because this teaching is controlled by us very much in parallel with all the teachings of the past. Which means we are dictating the terms of changing the inner energy, in a way we are interfering with the cycle of understanding of yourself by yourself. You will understand exactly what I'm talking about, but Knowledge Seekers who are familiar with the work of the Keshe Foundation, you've been in many sessions, use your headphones and enjoy the trip and let us know how you feel. Let us know how you understand different than any other teaching of the past. We have over 3,000 lines available on the channels that people can join, if there are the Knowledge Seekers who want to enjoy the trip.

R: Mr. Keshe, sorry to interrupt, there's a question, are wireless headphones okay?

K- Try it. If you don't get interference, try it.

This is, we did not announce this beforehand, as we didn't want to get people coming in and just be there. We wanted to acknowledge it because we are always here to listen. But what will be interesting is those of you who listen afterwards. If you get the same effect through the emotion of these fields, and how this will bring changes to you in many ways. Do you suffer from Alzheimer's? Do you suffer from anxiety? Do you suffer from what we call, addiction? Do you have problems in balancing? Do you have any kind of physical changes? Do you have skin rashes? Do you have .. eczema? (:22) Do you suffer from what we call anxiety attacks? Do you have asthma? Do you see any kind of condition which you might see? Observe them because this is not a medicine. This is in a way you're repairing yourself. We have developed the technology to reach the Man in the Space. And now, today we test it, to see how many of you actually become recipient, and how you interact with yourselves. We do not add anything, we do not do anything, we do not feed medicine or anything, it's just that we have created the environment for conditions that you are not aware of, but you always live within. This comes part of the teaching, this is part of what we said about the Time, Place, Space, and Possession, and Position, and intellect, and enlightenment.

There is a cycle of knowledge which man has not understood, but man has full information about it, never been put in the sequence of the events. This is the way what we do today, is a parallel to what will happen on the 19th of July in Vienna in the conference, in the presentation of the technology to reach beyond the boundaries of the human knowledge. What is important for us is to understand how we create Time. Connect it to the physical side, which is the Place, Position (entity) and Possession (strength of AA of entity) and to the Energy side which is the emotion, intellect and what we call enlightenment (EIE). (:24) Mankind has to understand the connection between the two and the link between the two where the emotion is the link between the world of physicality and the world of energy.

How does this work? We know it, we do it and we just been there, we never had to understand it. But now we have to understand it because it creates a Time. Physically, you have the Place, the Position, and the Possession (PPP). Place in the womb, Position, child, Possession, two messed up, mixed up plasmas. Two different characteristics coming together and you have the physical side. The emotion side comes from the love of a man and a woman who want to create that child. And when then and does not matter being aware of one unaware of dimension (D) of the Soul, lead to creation of the child, the Time starts. The physical Place, Position and Possession cannot come into leading to existence of life if the emotion is not there, the love to reproduce to set up to be done. Does not matter if it's done by consent of we love each other, we want to make a child, or any other conditions. Forced and unforced, not known. (:26) But the Souls are aware of, even though physicality (P) is not.

Because you have to understand, when I got accidentally pregnant and accidentally we didn't plan, it happened, does not exist, because up to now you ignored the Energy side. What did you do? What is the plan for that child to bring the changes in the future? And what you've done that that plan is set by the Soul. I got raped and I got pregnant. What was the reason and what is set for the future, the Souls have decided? Now you understand nothing is accidental. The time is chosen by the Souls, the physicality executes the Time. At the same time, even if it's a love child, we want to have a child, the two sperm and egg which have got nothing to each other, from two different bodies come together. And then when that Soul is created that time when the child will be born physically will have and has effect on the future of the life of the Souls, which have created it.

So we say nine months and so, whatever. That's a Possession, but that Possession cannot come into unless emotion is set into it. Now we see how the emotion on the Energy side we call the Soul side dictates even the second the moment that you are created. One day before, two weeks later, there is a reason. Because it's set through the Energy side. (:28) It's like the spring and autumn and the winter. Earth cannot do anything. It's set by the Sun. Earth is just a carrier of. If you move the Earth slightly different that way, there will be no summer, no winter. And the trees and the plants have no control over it. It's the same. The Soul of the Planet is the Sun, dictator of the condition. So, the time is dictated by the fields, and not by the manifestation or what is the physicality of the Earth and the seed and what they possess in them.

This is the same story as today. You're all subjected, you all are open to receive the energy through what we give you through the headphones. And then let's see what you deliver in dimension of physicality. Today's session is so close to creation of Time that we in the coming time show you exactly what we're going to do with it. And this month, July session, you will see the change in transmutation. We bring it to dimension of the nearness to your Soul that you'll decide how to interact. We create the condition, you bring in the Time. This is why the Time of the man, I will go there for lunch, and I do this next year, and I do this next day, is Man's time. (:30) You have not considered the time on the Energy side, which is the Soul of the Man (STM).

What we call intellect, what we call the understanding of the science of life on the Energy side, has not been understood by the Man. Enlightenment is not just by understanding something, is by what will happen in the condition of the energies of the side of the Universe, not the physicality of the Man. You commit a crime your grandchild will pay for it. Who kept the book? You? You're already dead when the grandchild is born, the Soul has kept the book. The energies which your misconduct has created the emotion of, is keeping the book. The time of judgment is not with the dimension of physicality, the time of judgment is kept by the book of the Soul. The energy side, (is) untouchable. You think you did something behind a closed door, and nobody knows? Your Soul is there, it takes the time. And then, you watch years later, days later, something goes wrong, (you) says, "How did it happen? Why this happened to me?" Because, you thought you'd chat a mistress on the line, but the Soul was aware of the harm up to the wife. (:32) Tick-tock,

an accident, damage to you, doesn't hurt no one. Or it does, it's the reason for the others to be involved, according to the dimension of the energy of the time of the Soul.

Now you understand, the Time is not in the hand of the Man's physical dimension. You can choose the time when you wake up, you can choose the time when you go to this work, you can choose the time what you do, but the consequence of what time you wake up, and who you do harm to, who you bring pleasure to, is kept by the book of the Soul. The time is set by them, where to come. It is not destiny, it is dimension of the time set by the 'book.' In real life, Man will understand totally how life will change, if understands that it is always present, omnipotent and in presence by the STM, watching the physicality of the Man, what you do, how you do, the way you do, and how you interact.

Now you understand where the Time of the Energy side, which connected to the emotion with both, affects the time of the physicality. There is no time, if you don't do wrong to create that time. Now you understand, where and how you affect the timing of your life, in actual timing of your energy, what you call the Soul. (:34) That motion you make in the dimension of physicality, which creates an emotion, will affect how you understood from intellect of what your physical doing, creates the condition for it to enlighten the STM, what to do with you in the time to come. The Day of Judgment is set by your Soul, not by God, not by God knows 'fire' and 'honey and milk.' Your Soul serves that fire, your Soul serves that honey, according to your own conduct. Having thoughts to do wrong, is already through the emotion which created in you, what pleasure that wrong will give you, registered by the Soul, and decision how to see the reacts of it will come. Now you understand, Time is not set by the Man, Time is set by the STM.

Then you understand, even the creation of the child, nine months, is set by the Possession. But, the delivery of the time is set by the STM, when the two Souls agree to. The understanding of the Totality of the Life is to understand both Times, the Time of physicality, and the Time of Energy, and how the two are connected. (:36) One is a bookkeeper and one is the book. You do not decide on how your future life will be, if you do not understand the reality of what I call, the memory bank of what you've done and what emotion you have created, that, that Soul through its intellect, and it's what we call, enlightenment, enlightens you later. You set the fire of the hell for yourself. You set the fire of joy for yourself. Because, you only think, "I did it behind a closed door, nobody knows." Unfortunately, that hidden energy known as emotion of the Man, known as the STM, is always with you. It's the only one you cannot fool. You close your eyes and you plan, the Soul is already writing the book of the future for you. You type something to hurt someone, you do something to hurt someone, does not matter. The book has already written by you, typed on the phone, written by the Soul. Enlightenment of what will happen to you in the future.

Many of us understand this. Go back to the writing of the Christ. Even gloating (rejoicing over another's misfortune), is forbidden. We cannot have fancy thoughts of others when you think it's just in your head. (:38) The Soul has already registered. Misconduct does not come by the action. Misconduct come through the thoughts. The Soul is aware of the emotion that thoughts has created. Then it's intelligence, then it's enlightenment,

enlightens you up to what happens in the future. This is how we give ourselves cancer. This is how we bring our lives to an end. This is how there is no accident, because the Souls have already written the book of the man for the man.

Now you understand the time, physical time, is partially in your head. The true Time is in the hand of the Energy side, what we call the STM. The enlightenment, the action. The ones who keep two timers have to live with two Times. One day I was in Frankfurt airport, years ago, and I saw an Iranian girl behind the cashier. I gave her 100 Euro. And then I changed my mind, I have cheap, I have less note. Then I gave her 20 Euro. Her, in her mind, she gave me back change for 100 Euro. (:40) I said to her, lady, coincidentally she was Iranian and I understood, I explained to her, "You made a mistake." She said, "No, I'm correct." I said, "You know something, I sit on that chair, you count your tail, because I get more money from you, I can put in my pocket and walk away, but tonight you have to pay from your wages and you become somebody stealing from the till (cash register)." I sat, she bothered, when she had no customers, she opened the tail, she counted, she says, "Oh my God, I made a mistake, thank you very much." I said, "If I take the money, I have to pay four times more, why should I do this?" "I have to spend energy, how I took money from you, I have to spend how to spend it, and then you lose money, and then I have to pay for you." "This way you go, you are correct, I'm correct, I live at peace." "Because I don't want to pay future time." "I have to work three times more to pay for your losses, plus what I've spent time to steal from you." She said, "Can I give you a drink free?" I said, "No, then you steal from your boss. I'm happy, I got what I want, I paid for what I want."

We have to be aware of Time. We always time it with 12 o'clock, 24 hours a day. The Soul works, Universal Time never ends. Now you understand, why we teach about Time? Because if you understand the Time, if you understand the effect of the two Times, that they have to work together to be one Time, then Man will survive the span of Universe. (:42) You cannot lie to go and see a mistress when you can transmute, when a wife is at home has no food to eat. Soul would not allow it to happen. It's not the Keshe Foundation technology that doesn't work. It's you who haven't understood the technology (T) of your own life. The truth about timekeeping has to be correct in all times, both in the physical and in the Energy side, the STM.

Now you understand. It's not time for us to clock in 24 hours. It's time for us to understand the time never stops and it always leads to its own destiny through the dimension of the Energy side of the Man and not the physical dimension of 24 hours of the man. The real Time is the Time of the Soul, because it's in a way is sequentially in parallel and in line with the rest of the Times of the others in the universe. The Soul of your wife, the Soul of your child, the Soul of your boss, the Soul of the cat in Africa, and the STM on the moon. This is why I always said we live in a 'schizophrenic' life of physicality and energy and we never understood the Energy side, we never come to comprehend the totality of the reality of what life is, what time is and how time is dictated by our emotions and our behavior in dimension of physicality. (:44) Because the bookkeepers know exactly what time to bring in, what is needed.

Then you understand why we have problems in the cycle of life with our children. The way they are born, the diseases they get, the condition they bring to us, and then we watch the joys, is expansion of our Soul. And the sufferings and the way they suffer is a combination of Time of the Soul of my conduct, my wife's conduct, my child's conduct, and the others who I did wrong to, and my fathers and forefathers did wrong to, that the child has to pay for. Then, if you love that child, why don't you stop doing wrong, that that child does not need to suffer, they pay for your Time. Because what happened, the Soul kept the book of the Time, not the Man in the 24 hours of the day of his life. Then you understand, when we say, "The time comes that there'll be no crime", because Man will understand that it works in the time of the Universal link of the energy, and not the time of the physicality of waking up and sleeping, and the rest of it.

Why is this important? Because when you become Man of Space, even in dimension of physicality, sleeping 24 hours a day, waking up 12 o'clock in the morning, has no meaning once you are in Space, which Time did you choose? Why you are still stuck to the tradition of the village you came from, when you live in the city? Do we go to sleep 8 hours a day in Space? No. The time is irrelevant, because we receive the energy from the Universe. (:46) Would Man ever sleep in Space? More or less, no. What you see in the movies, sleeping quarters, does not exist in no UFOs who understand the work of the Universe, because it's a Chinese system. There are no holidays, everyday work, 9 to 5, been in Europe, 24 hours in China. We have introduced the Saturdays and the Sundays and the rest of it, for benefit of our Prophets and profit makers of religion. You go to China, it's open 24 hours a day. You never end the life, it goes on. There is no Saturdays and Sundays and there is no weekends and the rest. Unless they made you to.

It's the same as the work of the plants. They have no weekends and holidays to work. 24 hours a day, 365 days a week. Spring, let's bring the leaf, make the fruit, go to sleep and then store some energy for the next time. Man (will) takes as much breaks and holidays and sleep time in the Space, as Man, as the plants does and the Universe does. Now you understand how we dictate the time by condition of our own conditioned life on this planet. But the Souls don't have Time, the energies of the Universe have no Time. Because, Time is always zero, starts through the emotion. And you run many millions of the programs together through the emotion of the physicality, which affects the reaction and emotion of the Energy side of the Man. (:48)

Maybe, maybe Mankind will understand from now on how the two timing has to become one, through the emotion. I made Man in the image of Myself, but there is no Time for Me, as the Time comes from the time when energies interact to create that new condition of Time. Try to understand, and if you understood this try to go back to zero, where there is no Time. But, you are the creator of all Times. If you can do that you can transmute. Man cannot do wrong, because once you make a decision to do wrong, or to do something which is not correct, or the outcome will not be correct, or the emotion it creates does not fit, you cannot do. You cannot plan to transmute, instead of subconscious, or whatever you want to call it, "I go from London to New York, there I beat the hell out of my wife." You cannot transmute, you stay where you are. I decide to go to New York and kiss my wife and adore her, transmutation becomes very easy.

One day I explain the reason and how it works. This is why I always said, with this technology can never harm. Because it's the energy of the Universe created in dimension of positive-ness in what it creates. The Creator never destroys. Even what it looks as a destruction, is a beginning of a life for another structure. (:50) Half-life and half-time life of Man, which is death, is the point of its split, as I explained before. Mankind has to understand, it's here to nourish the Energy side for it to start a new cycle. So life does not end by the last breath. Life starts from the last breath, but what we call the half-time life of the man. Man has to understand it has two direction, physicality of the Man, and the dimension of energy of the STM, which has the true time with itself and carries on.

Try to understand how emotion from the energy side connected to the emotion from the physicality side, as the Place, and a Position, and a Possession, can all be changed. And in the emotion, it brings a new dimension, a connection between the time of the two, the Energy side and the Physical side. Once Man understand this Man will move into the new dimension of the, what we call, transmutation. Understanding how he can bring the two Times to zero, and then decide on the condition of the transmutation of the energy, or dimension of transfer through physical side. Man knows the physical side well, by running and getting in the car and doing everything else, but man has not understood that in the Energy side it's only one kind of transmutation, that's through the fields of the Universe, Cosmic Rays (CR). (:52) And all get on the same train, same speed, same direction, and the same, what we call, Possession, Position and a Place, when it comes to the dimension of physicality.

And if you understood this, in the future time I'll explain, in a full understanding of why even the frequencies are created, what you call frequencies. Go back to the teaching of the past, how many times I've gone back on the point, saying, simple, there is no frequency in the plasma. Frequency only appears when the dimension of the interaction of the fields don't match. In a plasma is unisons, it is only DC. In the next week session I bring you that to feel it. I let you feel that. When you're in the dimension of the plasma and when you're in the dimension of the emotion, of feeling, of reality of the Time. While you're in the session, you will feel the emotion of the Soul, and then you'll feel the joy of the physicality. I'll bring you a sensation you never knew. If you understand, if you feel, if you're connected to both dimensions of the energy and the Soul.

Those of you who received your Cosmic Bundles come into the session with those. (:54) Those of you who have those (CR) Balls, come into the session with those. Then you'll have the trip of your lifetime. This is why I teach you both, to understand that you have a dimension of physicality, and you have a dimension of Energy. The STM, what we call the Energy side, physicality of the Man it walks on the street. And then I show you how Times are created by interaction of the fields of the Universe, and not by dimension of physicality of the Man. Those of you who received the Cosmic Ray Balls, you have it, hopefully you should have some, by next week, send us your information, how you felt, when we bring the connection of the STM to the dimension of physicality of the Man. The pains of it, transmutation of it, and understanding the transfer of it.

Once man understand, as the schizophrenic condition of the man with dimension of physicality and dimension of energy, one leads with the frequency and one has no frequency. And the Soul connects itself through the emotion, to transmute through the emotion, to change that what I call, Universal fields, (:56) to dimension of the physicality of the Time, Place and Position, and the Possession of the fields. The true game of the energy fields, STM, the physicality of the Man, starts with us (?? this). I hope you enjoyed the trip, and I hope you understand what it is, what is set, and what it'll be in the future time for all of you to understand the Time. Time of physicality and Time of the Energy, and then you will understand there are no accidents, then you understand there are no coincidences. What is coincidence to you is a collection and connection of the time of physicality, with what the Souls have planned to deliver from the emotion you transferred to them, for the dimension of the interaction of the two. You call it 'coincidence', we call it the 'time of judgment'. As the judgment comes when the man of the crime stands in front of the judge. The Time of the Soul is the judge, and the Time of the physicality is the criminal. And then, the outcome is the judgment.

In a way, the Adam and Eve, one is unaware, but fully aware of subconsciously what is done. In time and the place and the position, is the Day of Judgment. (:58) Something interesting I explained before, and maybe you understand. It's a crude way, in a way, the reality way of understanding. When next time you're in a car crash, when next time you hit someone by accident, you get knocked off, or they get knocked off. Just don't walk away. Sit down and talk to the other side and go in their backgrounds and then you understand how the Souls of them and the Souls of you have brought us to be in that position of the accident. And what is the outcome of the accident down the line to the ones who were involved, or will be involved in that process. What you did wrong, what they did wrong, or somebody did wrong to them for them to be there, for them to find out in the future that accident you had on the street had the outcome of the decision of the Souls in their timeline. Then you understand there are no accidents. Balancing of the books, present, future and the past.

Then you understand. Every action has a consequence and a reaction. But action is the physical side. The reaction is what the Soul has registered and it's a pay time, time. (1:00) Now you understand how Man needs to live a pure life. Because he is only aware of the physical Time and he always ignored The time of the Soul. What connects Man to the others, as it's just a puppet in the dimension of physicality. One day, once Man fully understands this, Man will come to understand, the Position, the Possession, and the whole reality of the life. (silence) Silence and the emotion it creates is the dimension of the STM. Man shows his reaction physically. And he has to stand for what it does in physical dimension in sequence of works through the Energy side through the STM. (1:02)

Try to understand this and try to teach this to your children and those who understand. And then you'll find out gradually, you come to understand that how pleasant the life becomes. I always said when I put my head down I have no worries, because whatever I had to worry about was during the daytime what I did. And to that sequence I wait for it, no punishment. If you learn that, you work with it, you walk through it, and you

understand that life will bring everything needed to survive the span of the Universe, let alone the physical life of man. Never planned, and never will plan to do nothing wrong, because I'm aware of what is there to be done. Everything has a sequence of work, and everything has a sequence of connection of the fields of the Universe than the physicality of the life.

And once you understand this, you can bring the Soul of Physicality (STP) of the Man in emotion in parallel with the STM's emotion, then you can transmute. Transmutation is fueled by the Man's conduct and the emotion, and not by Petroleum, and not by jet engines. You feed it through the conduct of the energy of the physicality, (1:04) and you create problems for it when the physicality goes in dimension of creation of his own problem. How many times you heard so many people tell us, "I do no wrong to no one, but I don't know why it happens to me this way." Sorry you forgot about the emotion. Your thoughts and everything which is wrong in it, is an open book to the Energy side. And still you get the consequence of its Time in time to come. Now you understand how it works. The timing has to be right. And then, the life will find its own time to deliver what it needs.

Hope you understood the teaching of today. And I hope you understand what it needs to be done by the Man of today for the future children of the Man in the Universe. We go for a break and we come back. We try to answer your questions. During the break or after, you don't need to take your headphones off, you can keep about as the process is ongoing.

>> BREAK >> 598 KSW July 10, 2025 (1:11).

K- There's a lot in my mind, you don't want to know. First of all, before I forget, those of you who are coming to Vienna for the conference, please book your reservation on a site, we have already released, for next Sunday, next Saturday, sorry. It's from 3 to 6 o'clock, and in the afternoon. And, just go to the links provided by us, or ask the send the request, if you don't have the link to info@keshe.foundation. (1:12) We try to post it everywhere possible. And, we try to inform you as whatever. It'll be an enlightening and an amazing, what I call, presentation, trying to bring a new technology, a new understanding, into

public in a different way, as we are there by invitation of the association. We try to be very clear in what the technology sits, and where it stands, and the rest of it.

In the last session of July session on a Friday, as we said we bring you to a position to transmute for yourself. And today we set up a system in the background and I hope many of you have understood it, especially if you had a Cosmic Ray, what we call, Balls with you, to test it, to understand it. The system will be ongoing for a few more minutes, and then we switch it off, and we withdraw. But it'll be interesting to see how you feel the difference between, on and off condition, of to bring .. for you to understand your Central Energy, and what you call, the work of the Soul. In this, it allows to do the first transmutation tests, which we are doing in the background, or what we call, development of the technology, and how things are taking place in our structure and our work.

On the other hand, please, in the next week or two, (1:14) pay close attention to Markray operation, and what will happen in the stock market with Markray. It is important that those of you who have bought shares, receive your certificates and confirmation of. You got to understand, Markray is a financial arm of the Keshe Foundation, in its international operations in what we call new development of technologies, and our cooperation and collaboration with many countries which are coming up will directly effect the share value. And make sure that your shares are registered, that in the future, you will not be what we call, say, given fake shares or fake valuation of the shares and the rest of it. As I said, the valuation of the shares in the stock market does not reflect in what the Keshe Foundation does, because we are doing some works that we have to put in the right way for it to indicate its position and what value. So please those of you who bought shares, make sure you have your shares in your hand. And at the same time be aware that Keshe Foundation has received 2.8 million shares for disbursement to support the Keshe Foundation to provide and solve the problem we are in currently, which we hope that we can do that in the next few weeks.

Understand your, what I call, the position in the stock market, and those of you who ask us to, you would like to purchase shares from us, the shares are given at a value which has been offered by the Knowledge Seekers to us, to support the work of the Keshe Foundation, and does not reflect what is in the stock market share prices. (1:16) In a way, you're investing in the future of the Foundation work. And at the same time, the valuation will reflect on its own work in the coming time.

In respect to work of the, what I call, the Keshe Foundation, and the work of us with the Space work, and what I call the Defense Technology. We will call upon many of you who work in this industry to join us, in a very near future. If you are in Space, Plasma, Nuclear, and in what I call Quantum Physics, Quantum Communication, Satellites, and you'd like to work with the Keshe Foundation, let us know as we're creating new opportunities in the next 2-3 weeks, that we are looking for elite scientists to join us. We have... the word will go out, we'll promote it through our work through Markray Corporation. But if you're Knowledge Seekers in this field, please join us, let us know. And then we'll bring you in, with your knowledge you have in the plasma of the Keshe

Foundation to set up the next steps for what we call the Space Technology development. If there are any questions, please let me know. And let's see where we go.

Q: ... Good morning, good morning Mr. Keshe. Mr. Keshe, the subject we talk about today, it's been, you talked about this, mentioned this in different ways many times in previous lectures, previous teaching. (1:18) I remember one time you talked about a man who was cheating on his wife and then the Soul decided, that when he was in a car with his mistress to have an accident, so the wife finds out about what he was doing. Like, I'm mind boggled that how is it that someone like Netanyahu over past 30 something years is killing women, children, doctors, journalists, left and right in so many different ways. And then I was listening to UN Charter, one of the countries that presented, talked about one pediatric doctor leaves in the morning, goes to the hospital. She had 10 kids at home from 6 months to 12 years, and they were all gone while she was at the hospital. Only one four-year-old was in bad condition, and the husband was in coma. And I'm thinking about why, when this booking balancing of the book is going to happen with this guy. Because sometimes I'm not... I'm not, you know, I'm not in that part of the world. But sometimes where I am, I get shiver in my body.

K- You got to understand that there are what I call, first of all we get these in what I call localized. As I said before, situation with this guy is just what is in Israel and what's going to happen in around the world and the rest of it. But these are the Souls which have set for a specific reason. We look at this way. You see, there is something very interesting. On the first few days of the war in Gaza, (1:20) you heard one missile hitting the Gaza area by the Iranians. And a question was sent to me, "Why, if the Iranians are there to support the people in Gaza, why have they hit a missile in the southern part of Gaza?" We didn't respond. But what happened actually, in that hit, more or less no one from Gaza was killed. 5,000 Israeli soldiers were wiped out, in one attack. The outcome of this, we go on the news, you'll understand the severity of this, which is 100% correct. Three Israeli generals died in that accident. The guy who designed the 'Iron Dome' was in that base. They were designing to make more mayhem in that area. The two other generals who are behind all the atrocities of Israel and Southern .. Gaza. They all (were) wiped out. Three generals don't accidentally die out of nowhere. They were in a camp, 5,000 the most. The ones who did most of the atrocities in Gaza, in one go, the whole division wiped out, 5,000 soldiers. It's not in the news. In a few months' time, it'll come out. Even the parents don't know their children have (been) wiped out.

What happened? The question to ask is not, Mr. Netanyahu, the question to ask is who in Iran pressed that button? (1:22) He's responsible. The one who designed the rockets are responsible. In a way, it stops another point. But in reality, which one has done what? You watch the ?? news very, very clearly. Take out Netanyahu in New York, or in Washington, a few weeks ago. His body language. And watch his body language last Monday in Washington. He is gone mental. He's not the same man. Why? When the head of Mossad was killed, he was in a car, less than 20 meters away. He tried to run, but he got hit by the remnants, so he just didn't get killed. He spent two days in a mental institute in Tel Aviv. The man walks and talks, but the man is totally just gone inside.

You watch the body language of him in front of Trump last Monday. It's the first time ever a president has been invited to White House for dinner, and never given a dinner.

You do not know what goes on in him, you do not know what his Soul has to deliver in the future for what he's done. We are not here to judge. You watch the Internet very clearly. (1:24) All the soldiers who have done atrocities in Gaza, Israeli soldiers, you see dancing and everything a few months ago? Watch them on the Internet. They are now with no legs, no arms, in a wheelchair, hands and arms cut off, and they have to live with that. You remember there were two girls dancing on the bodies and the graves of the Palestinian children? You see where they are today. They lost arms and legs, literally just the body left. You're not in their heads. Never judge. Let them what it is. There is a reason for what is going on, what's happening, and what is there.

You go back, you're Iranian. You go back, what did Palestinians do in Iran during the Iranian Revolution? How did the Palestinians kill hundreds of thousands of Iranians on the streets of Tehran? They got paid for it, one dollar, three dollar per barrel. Yasser Arafat was paid for it to kill as many Iranians as he could on the streets of Tehran. 40 years later, the same thing's happening with the children. But, we said that no Iranians killed, no Iranians during Iranian revolution. There were Palestinians paid to kill. And now, what they did 40 years later, they are paying for it. Why are you in New York? Why are you in Brazil, or wherever you are, Mexico? And didn't you have a perfect life in Iran? When you look at the Palestinians, why it's happening to them, ask them what they did in Iran 40 years ago, on the streets of .. why children, (1:26) men, they did a blood bath on the pavements of Tehran, in Iran. No one spoke Farsi. Look at the Syria, what happened to Syria, the same thing. When you talk, see what their forefathers have done. Then leave the judgment to them, what's going to happen to Netanyahu and the Israelis.

Q: Mr. Keshe, Mr. Keshe, when you say...

K- Let me tell you something. Go back into the teaching. You'll find it, I remember, in one of my teachings. I said, "Soon there'll be ships, all the Jews trying to get onto, all the American naval forces and all the ferries to take the Israelis out of Israel, Tel Aviv." You remember, a few months ago I said that? Hasn't it happened? You can't buy even a ticket to cross, to go to Cyprus. Go back to the teaching. You think the Jews did good? They have no... You don't... They put a ban on the news in Israel. There is shortage of water, food. There is shortage of electricity. There is shortage of medicine. Tel Aviv, Israeli airports have become like what I said in one of my teachings very recently. Exactly the copy of what we had in Berlin. For how long everyday jet planes flew in delivering food and everything from toilet rolls to Paracetamol to Berlin, because there was no land connection. Israelis living under that condition today. (1:28) What did these people do with the Palestinians for past two and a half years?

So, time has its own thing. And what I said, all these naval ships, I told the officials, they'll be there to collect the Israelis just trying to escape. And it's happened. Go on the teaching, you'll find it. Or in one of the private teachings I said. Because the judgment is done by the Souls. Don't look what Netanyahu, Netanyahu is just a tool to bring an end to

a condition. There is a very big difference between the Zionists and the Jews. And, if you look, all, most of the, most of, more or less, most of the Israeli Prime Ministers and Presidents are all Ukrainian. They're all Ukrainian. Netanyahu was Ukrainian background. All the Israeli leaders from the beginning of establishment of this nation are East European, many Ukrainians. And what's happening in Ukraine? Why we have a problem in both positions together now? Now you understand. So, leave it, the time has come to settle a lot of things through the Souls. We see it, it's there. Some men suffer, but you have to understand what happens to suffering of the men, which are there and then. And the same with Hitler, the same with Genghis Khan. Look at the future of their life, the cycle of their nations and the cycle of the people who are involved. (1:30)

Q: Mr. Keshe, so we pay for a great grandfather if they did something wrong we pay for it?

K- 500th generation.

Q: So why?

K- Man looks at the sunrise, sunset. Souls have no sunset, sunrise.

Q: But you know the child that dies, he wasn't involved in what he's...

K- You never know what effect will have on the Soul and the energy of the mother and the father and the nation.

Q: It means it got...

K- This is the cycle, this is the cycle of life, physical life, which has a parallel in Energy.

Q: Because it's a DNA thing, you think? It's a DNA that transfers?

K- No. One day I explain. Nothing to do with DNA. One day I explain. When the man matures, I explain. Man understands .. why you don't see wars in the Universe, because people came to understand that point. You got to understand, at the moment, we... you know, as I said, a very interesting point, if you understand it. They brought in for us, the cornflakes, and you need a cornflakes every day, it's the best thing for your life, and the Americans pushed it in your markets, and the rest of it. The worst thing you can give to a child in a breakfast is a Corn Flakes. Sets for the future diabetic conditions. Sets for a lot of problems. The worst thing you can give your child is a Corn Flakes. In any shape or brand, or whatever you put. And they say, "It's the best thing to eat, best thing that gives you everything you need." (1:32) Yes, diabetics and a lot of other diseases in the future cycle, we put in our children from the beginning. And this is the right of us to do. We do it unknowingly, but we do it because we are told this is what it's the best. We just take the word for it.

The same thing has happened, is that you hear from the other Jews, they said, "We are the chosen one." And I said, "Yes, you are chosen to be punished for the rest to learn from." You are not chosen to be, to own everything. You are the chosen to be the examples of the humanity to learn about how evil can be. What happened with them in the Second World War, they claimed. What happened with them now in Israel? What happens with them in the future to come? Why have they been always nomads? We have nomads of nations, we have nomads of religion, these guys are nomads of religion, they have nowhere to go because they never learned. They never learned from the mistakes and the things their forefathers did. Starting from Moses. If you look at every holiday in Jewish calendar, celebrating killing people, celebrating mass murders. The spring, the flower festival is killing 300,000 Iranians and they celebrate. Go into the history of this path of life. Then you understand. (1:34) For, themselves, they are the chosen one to be punished, not chosen one to own land. And then you understand more.

** We stop the sessions in the background, please, if you stop all the lines, and let us see what's happened. Thank you very much.

Then you understand, on what this guy is doing. There is a lot, if I kill, I'm a murderer, but if I kill myself, it's a suicide. And this guy is a kamikaze suicide man. You will understand soon. You'll understand very, very soon. It brings an end to even the control in the American market, in American government. Because he has to come in, the end has to come in from within. And they have created it themselves. They had to close their borders, they had to close everything, the people don't escape out of Israel. That's how they are keeping them in there. If it was in the hand of the Israelis it would have had no Israelis left. State of Israel is gone. Israeli military is planning a 'coup d'état' against Netanyahu to put him on trial. They have not... there's one general, his vote is counting. And if that General moves in the Israeli army, there'll be a military takeover tonight. Netanyahu knows, everybody knows. Out of the balance, one General is keeping the guy in power.

They wanted to do... You got to understand, Israeli military has lost over 25,000 soldiers in past three weeks. And they say only 400. Just add it up yourself. (1:36) Two military hospitals have been hit. Are their military hospitals empty? Two military headquarters have... four military headquarters. They're all empty, there's nobody in it. The biggest naval force in Mediterranean base in Haifa is wiped out, no soldiers was in it? Head of, Headquarters of Mossad has been wiped out with over 3,000 people in it, there's no building left in that Headquarter. It was hidden secret, nobody knew. Nobody died in it? They've lost 96,000. Israel has lost more 10 to 15,000 of its military soldiers. You think the generals are going to sit there and watch it happening? You watch what I told you about loss of 5,000 soldiers, they don't tell us. What happened in past 3, 4 days, past week in Gaza? Why Israel is losing 70, 80 people every day and there's nobody even to defend them? Because the people who were killing have gone. These soldiers are left in there and they're getting killed 50, 60, 70 a day, in past week. Because there's nobody to support them. Even their own soldiers are afraid to land to pick their own bodies up.

When you tell, then you tell Mr. Keshe, why you tell 5,000? Because the group, the team which killed so many, it passed on out, (they are) just wiped out, nothing left of them. And now, they don't have what they had. You hear more and more, "Why Houthis are hitting Tel Aviv like a shower pen?" Because, America has no more anti-missiles to launch. They got 13 pieces left, American military does not allow anymore to leave, the Americans. (1:38) This is why the Houthis are hitting like a, like a kick. You think the army's going to serve to take more killing? We get rid of the guy. Oh, what's going to happen to the guy?

What happened to Saddam? Why did his head separated from his body when he was getting hung? You know what Saddam's children, he did with the Iraqis during the Iraq? When he was in power. His sons went on Friday night excursions, of going to the weddings and picking up the girls who are getting married virgin, to... to kill the husband or whatever, and just take the girl. How did they die? Where are they? You think they went easy? Do you know the atrocities they did in Iraq? They don't tell us, they won't let us. Now we hear about the, what you call, the Christians, they call it in Syria, getting slaughtered by the new regime. Do you know what they did, the Christians, the Maronites? They sided with the Syrian president and all the killing done of the enemies, and the people who are the opposition, was done by Maronites, by the Christians. Now the Muslims have come in power, they're getting rid of Maronites, the ones who did all the killing for years. When they tell you, "Oh, they are killing the Christians in Syria." They don't tell you the other half of it. "Our Maronites killed so many people, in the name of the regime." (1:40)

Always look why, what's it, what's the reason behind it. And then you understand the Souls decide, not the Man. There's no time zone for the Souls. Man has a time zone.

Q: ... For someone who is supposed to follow a strict diet, low in Potassium, Calcium and Phosphorus, for a certain amount of time. Would the Nutri Gans, with its 4 variants, the Red, Veggie, Fruity and Herbs, help? I ask because Potassium, Calcium and Phosphorus are present in most vegetables, meats, fruits and herbs, and a Gans of them would certainly contain them. Thank you for your answer.

K- When we provide these Gans's on the experimental run, or these things, they carry everything which is inside. They carry all the, what you call, attributes of what is in the vegetable. And so, you have to understand why you are on a restricted diet of Potassium, Calcium, or whatever. (1:42) Find the reasons and then find the organ, and then find how you can balance it. It's a matter of balancing, it's a matter of energy balance.

I know a lot about this because we've done a lot of tests on this, and hopefully in the next few weeks, and next few months you'll hear a lot of technologies like this will come out of the Keshe Foundation China. We're planning a huge progress in Chinese development with, as you know, the contract we have signed. And, many of these things will be addressed in next year or two. Huge amount of money is going into research and development. Huge amount which is available to us to do. And then you will understand

how you can change these things by understanding the energy balance. You don't need no restriction, no diets, but you have to understand how the body works.

And we've done that very successfully with this technology. Done that very, very successfully with this technology. If you remember, I explained years ago, where the body was producing Calcium, and blocking the blood vessels, and taking Aluminum tablets and everything else to change this and that. It was costing British National Health hundreds and hundreds of dollars a day, to keep one person alive, with different tablets and everything else. And it took less than two months, no tablets, nothing.

You have to understand, you deal with the matter state when you deal with the present science of medicine, where you have to deal with the Energy side. (1:44) Energy side always dominates the matter side. And you can change it, but you have to find the cause of why you have these conditions. Psychologically, physically, change of whatever, change of diet, change of emotion, and then you can handle it. Just don't look, don't repair the car when you haven't changed the brake which is the cause of the accident. Find the faulty brake. Emotion change in the system, how it can be changed.

In the very near future, very, very near future, we will attempt to create a kidney, inside the body which has lost his kidney, no transplant. Most probably in next few months. We create a condition, that the body can create, generate his own kidney, with all the connection, exactly the same thing. We've done it with the brain of Naomi, so it's not far to do it. We've done it with generation of their toe. It's another understanding, another breakthrough in this technology.

Any other question?

Q: Rick, do you mind if I ask another question?

R: Go for it, it's not up to me.

Q: Okay, thank you. Mr. Keshe, you talked about...

K- You see Rick, when people finish the question you have to put them back into being a Panelists, that's where they come up. It's good for (you can do this in) the future, carry on.

Q: Okay. (1:46) When you talk about the thoughts, we may have something like, the thought is bad. I give you example, because I don't know if I explain, I'm going to ask my question correctly. Okay, so there were these two guys, they were walking, they were going to go to the pray house. Then they pass by a prostitution house, and then one of them says, "I'd like to go here. I don't want to go to the pray house. I'm just going to go here," because he wanted to go and spend time with a woman. So he goes in there. The guy who goes to the pray house, he's praying, but he's constantly thinking about his friend who's having fun, but he's not, he's in praying. So, is the guy, because this story was telling, the guy was telling me the guy who is in the pray house thinking about going there but not being there has more sin than the one who went to the ... went to the

prostitution house. So my question is, like the thought we have, it doesn't matter if the action is there, but the thought itself is more important than the action. Am I correct?

K- Parts, it's registered in the STM. As what you said, it depends, what you 'bend' to pray to. A lot of people go to the houses, you call it the mosque, the church, the synagogue, and the rest of it. Some of them out of fear, some of them out of obligation, and a very few out of sincerity, and some of them out of the fear of the future. There is a very good saying, "No Jewish man goes to synagogue unless there is no business for it." That's why all the Jews every Saturday go to the synagogue. (1:48) Different businesses. If you are of a Jewish understanding, when you go to synagogue the front rows are very expensive to buy. It's not house of God that you go and sit anywhere. The more money you have... It's like a football stadium actually, they changed the name to synagogue. You know you have the private houses, private rooms in the football grounds on the top, you pay 50, 100, 200,000 a year to have a private cabin. The synagogues are that way. You buy, you pay, you see all the men sitting at the front, because the seats are too expensive for the children and the wife, they sit in the back.

And the story you said, there's a true story about a Jewish guy who goes in and his assistant is another Jew outside, pulling his hair out, the market is crashed, you bought the shares, and I'm trying to get to the guy to tell him what we're going to do. The guy walks out of the synagogue and the guy tells him, "You lost everything." He says, "No, I sold the shares to the guy next to me, he's a rich businessman, he can take it." They go to synagogue for business. Does not matter what you pray to.

The reality is, your thoughts takes you where it is. Does not matter, you don't need to go there. This is what I said again, to the Saudi guys, "Where do you pray to, when you're in the space and traveling, rotating everywhere else, which Mecca?" The Mecca has to be the closeness of the STM. That's where the Mecca is. That's where the actual point of it is. (1:50) And again, you go to the house to pray you go to the house to, what you call it, for any other reasons, or you go to any other house you like to call it.

Q: Mr. Keshe, my last question is this. Why is it that sometimes you see someone, or you think about them and you just get irritated and you don't know why, like you just get bothered? I never had this experience, suddenly I have this experience, and I'm trying to find out why...

K- I hope it's not your husband.

Q: No, he's just like, why do I get like, inside of me I get like a fear or like something like, irritation, like, I don't know where does it come from.

K- It's your own judgment.

Q: But I don't know the guy.

K- It's the lack of trust in yourself. You see...

Q: So it comes back to me, it's not him then.

K- It's just the way you receive the fields. There are many, many, many relationships. Husband and wives, lovers, or whatever, children. We see every day we love them, and one day we can't stand them. Why? What's the reason? Why do we see? What creates that condition? Somebody we love so much we can't stand anymore. Are we aware of the truth within ourselves, or are we aware of the truth within them? I always said, always said and I'm a great believer in it, I don't do anything wrong when I wait for the time to come. (1:52) I try not to do anything wrong but still I do things wrong. Things go wrong and then I say, why? and I sit back and say, "Oh, that was the reason."

Q: But Mr. Keshe, Mr. Keshe, according to what you're saying, if I get irritated at my, say, your wife or my husband, in 15, 20 years after you get married, it means there's something wrong with us then, not them.

K- We change our position.

Q: So, we change our position to...

K- We change our position in emotion, we change our position in understanding, we change our position because of what it is.

It's very interesting, because I know the feeling and I know emotion about this. And because I've been through it twice, first hand, not just once. So, it's not the deviation, ?? diversion. Where you can understand your partner, because you know it's full of lies, cheats and everything else. Where you loved them before with more than your life.

Q: .. But this is a different story, because somebody cheats and lies, so you change position.

K- But the thing is the same, your cheat is not necessarily to be in your head, your Soul feels the cheat. Somewhere it's connected to you. It's the same. We just always connect things if it is understandable we see it in a physical dimension. We are connected in the Soul. You .. it could be a president or a man you see on a movie, but you don't know what's in the background, which is connected to the Soul. (1:54) This is why you have to be always aware, why. .. this is why I always say, "We are connected to everything else, it's just a magnet." You don't know this reason, maybe it needs, maybe it's connected to thousands of the Souls, like you ?? can understand him, and then those reaction will change something in that Man, or somewhere for it to something to happen.

This is why we go to cemeteries, this is why we pray for our fathers and forefathers who passed away. Because attention is energy, energy is emotion, emotion affects the Soul, and the Soul is connected to every other Soul. Your great-grandchildren won't remember you, don't even know your name. Do you remember who your, or do you know who your great-great-grandfather was? No, because he has no connection to you, he's gone. But

why do we every day pray to Christ or Muhammad? How much are they banking? The benefit of the Prophet does not come on this land. The benefit of the Prophet comes what's happening in the heavens. On the other side. You collect one cent a day from one billion people, every day or ten times a year. You can see how much you bank. The only Prophet which is going with a negative banking is Moses. One day I explain. (1:56)

Q: Thank you Mr. Keshe.

K- You're welcome. You see that we have you, you talk about Netanyahu. Netanyahu is very close to the Saudi crown prince, who is actually the ruler of Saudi. They are in the same, as I said, .. they are on the same path. He carries on murders and things in public, the other guy carries on murders in private. Read about the Prince, the Saudi Prince, who will become the ruler of Saudi. Over 500 Royal Family members have disappeared. 800 billion dollars have siphoned off. Accident, emergencies, all sorts. Read about it, you president of ?? Saudi Arabia and then you'll understand. You listen, Netanyahu is an angel in front of him. You will see, you'll read about it. Then, who knows what Souls know, and what will come in the future.

Any other question?

Q: ... (1:58) Thank you Rick, thank you Mr. Keshe for the teaching.

K- At least we get to talk to you, I'm trying to get in to talk to you for weeks, it never happens. Carry on.

Q: You're welcome. I'm just so happy with what you said, because we were so, humanity was so depressed. And it's good that things are going right, probably. And I have a question, which is maybe not the place in the scientific place to be asked, but that's what it is on the Youtube. Like, I know a person who is, I am documented when he talks and there is a saying that the Army of Israel has utilized 72 Jinns to give information. Jinns is supposed to be the beings which have been created on Earth before us, and according to what I know they have no body but they can affect things, and in some situations if they, we sacrifice, or we get their attention, they can give us the information, and things like that.

K- I never heard of this god, tell me.

Q: This is Jinn, this is Jinn, there is a ?? chapter in Koran, it's called Jinn also, means that it is, these beings.

K- Oh, you call it, Jinn of Paris ??, you mean?

Q: Yeah, I think ?? Paris is more...

K- Good one.

Q: Probably, yes. Yes.

K- Okay, now I understand what you're talking about. (2:00)

Q: I'm not into these things, actually. I'm not familiar with this culture, but I'm getting to learn. I mean... So, they use these to get information. And lately I saw in Washington Mr. Netanyahu gave a witchcraft gift to Mr. Trump. I think it's like one of these planes which has the Jewish witchcraft in it as a gift. So, does it mean that as we see that these witchcrafts and things like that are not helping them anymore because they are getting weak? Does it mean that the heart of humanity has waken up, the prayers have waken up, and they are getting slower, the forces of bad, is getting slower in power, so we see and we will see the good things in the world, like peace and humanity and fraternity and prosperity?

K- I answer you in a very, very nice way, from a brain and thoughts of an African man. Because they believe in this, if you live in Ghana, the people don't like even to go for a haircut because they collect their hair because they can do Voodoo, damage them because they can take piece of their hair and connect to them.

When we used to live in Ghana, I noticed we finding locks, padlocks in the garden, (2:02) on the fences, every now and then. I said to my driver, "What's going on? What are these?" He said, "Collect them, I'll go collect them." There were three or four of them. I said, "What do you do with them?" He says, "Oh, this is bad. When they put this in your house, it brings bad luck, blah, blah, blah, blah." I said, "What do you do with them?" He says, "Oh, they have to be cut with a special way." I said, "I want to know." He said, "No, no, I can't, you can't see that, I have to do it myself." I said, "Do you know something? I want to be there, I want to see how your culture goes." Now, anyway, got in the car, he drove somewhere and he parked, and he came back. The locks are not with him. So what happened? So where did he go? He said, "That's a public toilet, I took it to toilet, we throw it in the toilet, and we urinate on it and it takes the jinks away, or whatever bad luck they put on it." I thought, "My God." I went to the office, and this man was in office, I was explaining to him. He started laughing. He said, "Mr. Keshe, you don't believe in it, it doesn't happen to you. And when you believe in it, you bring it to yourself." He says, I don't believe in it, I can do whatever I like, then throw a hundred padlocks in the house a day. Nothing happens, I live my life, because I don't believe in it, I don't, that's all.

This is how we believe in it, and what we put the seed of thoughts in it, in them. If you don't believe in it, it doesn't exist. Do you know how much of my pieces have been taken to do jinks on? (2:04) You know how many parts of my clothing has been taken to do the jinks on to change me, to control me and everything else? When I saw one of them, I was shocked. So, what you tell me, I know fully what you're talking about now. But, I don't believe in it. They can do whatever they can do, whatever they like. It's their way, that's their problem, not mine. And these things lives on the weaknesses of a Man in dimension of physicality.

Q: Yes, there is a book, there is an ancient book of Zohar name which is the witchcraft book, which has existed and (King) Solomon knew how to do it at the time. Seems like the Jinns could frequently come down now, the door has been kind of closed, we're seeing Muhammad Prophet. But yet, as you said, exactly that people call them. If they don't call them, it's not coming to their life.

K- It's not calling, it's the weakness which allows it to be done, and collective weakness brings this collective actions and reactions. I've seen many, many of these things, many of these things in my lifetime, and I know exactly what you're talking about. But we, if we collectively accept it, we collectively create it. It's not that we create children out of the reaction of the egg and the sperm, (2:06) our collective thoughts in the different dimensions can create illusion, or manifestation of the energy, which what we call it in a physical dimension, physical body, but it's manifestation of the energy. It does, it can happen.

And I see it in nuclear reactors when we do for Flights, I've seen them. They have their own lights. There is a recording of us running the Flight system in Sanya, 2018, 19, around that time. And we could hear the systems talking to each other, it's recorded. The noise is recorded, it's just like people talking to each other. Out of the fields of systems we create noise, we create being, we create Souls. So, when a Man puts a dimension of ?? feeling, it's just like, let's say, he puts the sperm, and with your energy of your thoughts, you put the egg, and there is the Soul created, you call it Jinn ?? Pari, good, bad, whatever. You are the other half which creates the creation of it. And scientifically we understand it, so it's not existence. We believe when the child is born, you create that with the interaction of the fields of people who believe in it, and once they put it, put in there, it creates its own dimensions and then you feed it. So, if you don't believe in it, it cannot be fed. It's like a contraception, if you don't, you know, if you take contraceptives, you can't get pregnant. You don't believe in these things you create, you don't allocate energy for it, it cannot exist.

Q: Yeah, and they say that when you, they come into your life they are there forever, and you're like a slave to them, your life belongs to them.

K- It's a state of mind, it's addiction. (2:08)

Q: Is it like what they call malediction, malediction means to send heavy bad emotion to someone. Is it the same thing?

K- It can be done a lot of people sit and do this. I've seen this a lot of people. It's like, you know, the gypsies who tell everybody you want to be, you're going to be a millionaire, you're going to win a jackpot and the rest of it, and they're always the poorest, because if they can say what number is .. what they don't do the jackpot themselves. You understand? So, it's just that you set the scene of...

I was in Toronto, And those of you who live in Toronto, you know, sometimes in the summer time, there is a part, a section, that everybody sits out there, all the gypsies, and

everybody, tarot card readers and everything, and we just happened to be in Toronto, we just said, "What a fun, my sister we go walking in she says, "Come on, sit down and they'll tell you." The guy, the woman said a lot of things, and then somebody else said, she said, "I don't read your card, you're too bad, you're evil, I don't want you, I can get out of my room, just get out." And we started laughing, I said, "How come?" And then I said to my sister, "If she can see this and tells us this and that, why is she sitting in such a gritty place doing this?" You could see the, you know, whatever it has. And it's amazing, some people come that way.

I've been across these things a few times, (2:10) I was walking in Rome on a Sunday afternoon, in a very narrow street a lot of people, there is usual place, people go walking around, and this guy grabbed my hand, he said, "Sit down, sit down here, I want to tell you your fortune." And... never met the man, he sat me down, he told me a lot of things, he gave me a ring and he gave me a small horn, like a tooth of an animal. He said, "For next so many time, keep these with you, you need protection. Something is evil happening around you." I was laughing. And he said, "When you lose this, it goes, it finishes." And I lost them. And the things happened, a lot of these happened, from that time (when) I received these two pieces. And I used to laugh with him a lot of time. And everything which he said in that sequence, in that time, happened. And it was very interesting.

Was it my belief, or did a guy know something? But all these things were out of my hand, this, the things which happened it was very unusual, very abnormal situation. Did I accept it, or was the guy could see something which he was doing? And it's very, very interesting, I've had a few of these things in my life, like this, out of nowhere, out of nowhere. One happened in, immediately after the first conference in Dubai, (2:12) and that conference in Dubai was the beginning, the end of my last marriage. Just in that conference a lot of things happened which we never go public with it. But exactly what you say, people try to, but in a way it was cleaning up what was hidden in the background which I wasn't aware of. We, there are Souls who are there to protect you and there are, as we say, energies which are there to balance out. It all's what you put in, what you get out, and what you believe in it, to do it. And you don't believe in these things, but things take shape of their own, because they create that energy to happen. Thank you very much.

Any other question?

K- ... I try to get in touch with you Mehranez. I know I've got to do it. I don't get time. I work 23 hours a day more or less nowadays.

Q: Oh, don't worry, sir. I know you are very, very busy, so no problem at all.

K- Thank you very much. We are very tied up, extremely tied up with China. At the same time with the situation in Middle East trying to change a lot of things, being advisors to some government, we try to advise, we try to bring things in order, but at the same time

we have to be very correct with what, with all the governments we work with and with the officials we work in, it's not very easy. It's not very easy.

Q: ... Good morning Mr. Keshe. Touching the child in the womb of the mother, what is transferred, the good, the bad?

K- Goods only. We cannot do wrong, especially with children, because they are transparent Soul. A lot of them are transparent Soul. When you hold or talk to a child in a moment, they only can receive good. It's the inherent condition of the dimension of the Soul.

Any other question? (2:14)

Q: ... Do we pay a thousand a year for the Wellness Prevention for 10 years or just once and it lasts for 10 years?

K- Sorry. I can't remember the condition, you have to read what's there. It's usually annual fee it is, I think. I don't know, I can't remember when it was set up. We're going to extend on this very drastically in next few months. This prevention and the packages we put on the Internet on the Keshe Foundation website is going to be extensively extended and marketed, the service side. Because now we have access technologies we can do it much rapidly. (2:16) If you do it I think it's twice a year you get invited to go on the system. I know the last time it happened and then to prevent it, and then ?? restart the system is done through the Wellness Center. But I read the ?? line I think it's annually everything is annually.

R: It could be it says the agreements are 10-year contractual agreements, but it doesn't specify whether it's a thousand year or a thousand.

K- I'll get it checked I'll let you know.

R: It mentions ten sessions per individual.

K- That's one session a year. That's then is thousand for ten years by the look of it. We'll convert a lot of these things you have on Apps in the next couple of years or going to go on Apps. We're getting some work is getting done. The store is going to be changed hopefully very soon. They're working on it. And the store we have at the moment is inherited by so many people working on so many different programs. And it's all going to be unified. Much easier to access, much easier to bring things in. But, let's see.

Any other question?

Q: ... I want to inform that still no response to my topic. Topic was resin sent to email.

K- Yes, I asked for it to be checked. Apparently what you do is not in line with what our people working on. (2:18) That's why you didn't get it. I'll ask them to respond back to

you. What you do is not what they were looking for other working on. I ask them again to respond back to you, because I asked for it.

R: Okay, he says he and we have spoken about the possibility of 3d printing any shape from.

K- We've seen. I know, they said they studied it, it's not something which is works with they are looking for. Thank you very much.

There are a lot of Keshe Foundation work products and everything else will move to China in next few weeks. A lot of production will move out of Europe. So you'll see much more products but mainly ?? they port out of the new offices out of Beijing, hopefully in the coming time. And as we relocate everything back into China with our new contractual agreement, until in the future we'll see what happens with other agreements and contractual basis. So you see a massive increase in products in every aspects of the Keshe Foundation technology. And then you will get everything directly out of the source in the factories in China, then actually coming from European operations. Where we used to do between China and Europe, now it all go back to China very soon.

Any other question?

Q: ... (2:20) Thank you for all you do, for all beings in the Universe. I have now made my Lavender Gans from Lavender grown in my garden. In one of the last workshops you said that you should add some of the oil of the plant to the Gans, after washing, to get the desired effect. The effect is to keep the mosquitoes away." "Is the oil added to make contact with the body? Does it make sense to add some of the CO2 Amino Acids?

K- ... No, I don't know what you mean. The oil, I mean the Amino Acid (AA) comes from the top of the thing itself. And if it's in the oil base, you do a different way with the Gans's. So, depends how you produce the Lavender oil, or the Gans. We do it in a very, very different way. It's done very different. You can do it different way when you produce these things. And you can do it with caustic way, or you can do it by saturation in Gans's. And then use that, because plants are in the Gans state themselves. So, do you need to add oil into it, if you already have it inside? It's something debatable. It's something that you already have what you need in it, why you need to add oil to it. Or do you produce it the way that it's got the Amino Acid you used to be talking about? When we say you add, you say Amino Acid we add, not oil. And if you add oil of plants, it is very different, then you add chemical oils, oils done pharmaceutically. (2:22) It's a lot of things you have to understand and be aware of. When you use herbicide, or pesticide, or used in the plants you buy, and you think, "I'll just make the herb of it." You enhance the effect of the herbicides and pesticides too. You have to really watch, and what oil you're putting in there, what is the purpose of the oil.

Any other question?

K- ... Just, just let me explain to you something else. How do you extract the oil? It's important. How the oil was extracted? Is it cold press or is it a warm press? Do you add anything else to it, to do it? Think of the oil as Amino Acid and then think what is attached to it, how you separate it. And what is the purpose of it, that oil you are using? Like you can use the oil of rose, or you can use the oil of avocado is one of the best ones. But then it has a limitation to infestation. (2:24) When you make Gans's you add oils to it, especially ?? farm oils, which are the same oil as the material you produce. You have to be aware of contamination. You have to be aware of what you call, outside conditions which leads to contamination. Because once it's contaminated you get fungus on it you get oxidization. What is good now is totally the other way and you enhance it with the energy. Be very careful, especially if you use oil, you use oil extracts with the Gans's. It's not the oil anymore, it's the energy of the oil. And if you have infestation, you have pesticide, herbicide and that kind of thing, you have to watch it.

I was talking to a very large producer of Chinese medicine, they're becoming part of the Keshe Foundation, work hopefully very soon. I said to them, I don't accept your plants you do. We want to go back and change from the beginning. We control everything, that there is no pesticide, even we clean the land, two years, three years, we harvest, we know, or whatever. And then we bring it into the operation of the using our name on the products. You have to clean the land, you have to clean the herbs. And then you bring it in, because if there is any pesticide, any herbicide in the plants, absorbed by what they use to stop the things around it, then it effects the... you extend this energy by the Gans's. Which is more lethal than actually what you're putting it in for purpose of. (2:26)

This is one of the reasons Chinese medicine is not as effective as before, because so much Nitrites has gone into it, and so many other chemicals, that the chemicals literally have masked the beauty of the medicine. And in the upcoming programs we're running in China is, our program is to "de" (remove), what you call it, pesticides or herbicide it. The biggest fear for the farmers is herbs, there are so many things coming in, we want to kill to go. But with the new technology let them all grow together. You get better harvest, because you get what is close next to you, means it has something negative or taking away from your plants. Nobody takes all the energy from the Earth and the plant doesn't grow. I said let's try it. I've shown that before. So we tried, let the herbs grow, let our plants grow. We had to change with the pest, we just changed the environment but we actually feed the plant. And we've seen the result.

With the new technology there should be no use of herbicide because whatever herb grows it grows because we don't take energy from the ground, we take the energy from the environment, from the atmosphere, and you get a better harvest. And let's just be careful when you're using oils, very, very careful, and be aware of oxidization. If it gets oxidized does not have the same property with the Gans's you use as well.

Any other questions?

Q: ... (2:28) Good morning Mr. Keshe, thank you for being among us. How can we make vitamin D Gans?

K- Oh, vitamin D is all synthesized and it's a lot of it not understood by people, what it's for and how it's produced in the body. We see a lot of skin cancer, they say because of lack of vitamin D and the Sun and the rest of it. But you follow the people who get the skin cancer. Why is this so prominent, especially in European nations and the rest? A big chunk of reasons for the skin cancers and a lot of other vitamin deficiencies is sunglasses. Your sunglasses are very fashionable, you walk down the line and you look very fancy, we are used to it, it sells, it attracts girls or boys or whatever. Sunglasses are a big factor in many vitamin ?? D deficiencies.

Reason, very simple, go to the scientific papers, it's not my saying, it's the result of research, it's done. The rays of Sun, when they go through our eye, trigger many, many functions, it's not just for sight to see. (2:30) You, by blocking these rays, we block the absorption creation of certain vitamins and minerals needed for our body. We see a lot of skin cancer. Partially factor is the sun blockers we use, but you connect research shows people using sunglasses, blocking the rays which are needed in the eye to create vitamin D and the rest are connected to it. It is synthesized, it is not produced normally, it's produced by the body in certain way. And one of the ways which is actually effective way during the summertime is through our eyes. And people don't know it and it's very fashionable and we all have sunglasses. Looks nice with the girls and looks very pretty with the boys. But watch down the line, who gets a skin cancer? Watch down the line, what are the problems of deficiencies in the body. Summertime is the time when we need most of the energy and we block it. We absorb a spectrum of fields to our body, and our eyes is one of the resources for it.

Next time he put the sunglasses on, says, "What am I committing to myself to in the future to come?" And this is all scientific research, it's not something which just said so. So, when you look at these vitamin D synthesized, do they actually do the work? (2:32) They say you have to ?? wait. But on the other hand we know the American research, before 1930's, when they were pushing Vitamin D through with 30,000 plus, and 40 and 50,000, there were hardly any sick people in the hospital, emergency, hospitals were more empty, except the emergencies. You don't get sick, but find out how to do it naturally than taking it by tablet. And there's a way to produce it, synthesize it in Gans's, but it's very complicated.

We will launch products, range of products, known as Plasma Medicine. Very near, in a very, very near future out of China. And it's a production of materials like Vitamin D through Gans's. And it's not very easy, it's a complicated system. We developed a foundation of it, we know how it works. And you get it, but one of the best ways at the moment is to... you take Vitamin D tablets, but synthesize it's not the real thing. But try to spend more time in the sun and look, not directly into the sun, but certain hours of sun. They say only this time is good for you. It depends what is the strength of your eye, maybe 9 through 1 o'clock, you get more harmonization than they say from 12 till 2. Maybe it's a bad time for you. You have to find out how you feel in which part, and what you don't feel in which part of the day. But, be very cautious about sunglasses, 90% of the diseases we incur on ourselves are sunglasses. (2:34) They look good exactly where

we need to take to replenish a lot of vitamins and hormones in our body, we block it with the sunglasses. It looks good, but yes, it's connected to a lot of problem these sunglasses. Because we block the vitamins which our body needs through the Cosmic Rays.

Any other question?

K- Sorry, before, I tell you something else, you see these people who put their sunglasses on their head, it's very fashionable on their forehead? See how many of them got melanoma, skin cancer. Because they even block in that spot. A lot of skin cancer on the face comes from these glasses, too. According to the scientific research. Because when it's not in the eye it's put somewhere else, it looks fashionable, you block the same rays where it's supposed to get naturally, so it creates deficiency. Carry on.

Q: ... Hello Mr. Keshe, good day. My question is, if one wishes to gain access to Universal Knowledge whenever they want, should they obtain it from their own Soul? Or from the Universal Library, which you mentioned earlier? And how can we do it?

K- Your Soul has access to Universal Library. But, you know, you go to the library, you see many books, but you don't know nothing what's inside them. You have to pick it up and read it with the dimension of the knowledge. You have to tap into it, in a way, call upon it and it manifests itself. (2:36) It's a very, very specific way to do it. And it's not open to everyone, because it can be misused.

R: And you mentioned you had that abilities since very young, correct?

K- Oh, partially yes. You've seen me, I never carry any notes. I teach from the pharmacy to, God knows, agriculture to materials and the rest of it. This is the knowledge of Creation. we are Messengers. When you're a Messenger you are open to all knowledge.

R: Will you have any notes with you when you go to the Congress for the symposium?

K- Have you ever seen me going in and bringing a note?

R: No.

K- This is what we were discussing yesterday. They were saying, "You haven't done anything for the 19th." I said, "Have you ever seen me taking anything with me?" Yeah, there's a PowerPoint in there. But I said, "How much of it have you ever shown, the full amount of it?" The people who go to the meetings with me they pull their hairs up sometimes, because, you know, we do so much. PowerPoint pages, and maybe very few of them used, but sometimes you go through it. The whole structure of the PowerPoint is to be amongst people. You've been to my lectures and you've been to conferences. The only lecture that kept me away from people was when there was a life threat on me and... in Italy, I don't know if you've been to Bergamo conference where we gave a talk with few people, there were so many armed officers and everything else, and they put me on the podium, (2:38) and the officers looking out, and "Don't get shot" and the rest of it. Is

what we do, has to be amongst people. The knowledge has to be amongst people. And I don't know what's going to happen in that we bring a few gadgets to show. But that's for the work of science.

But there is a change, a shift in the Keshe Foundation in teaching and everything else, which I'll explain in the coming time. The knowledge needs to be understood. The knowledge does not need to be forced in. And we might get 50, 60 people, 100 people in the conference, because it's the last day of the conference, that afternoon of the conference and most of the people will leave by that time. And there will be a few Knowledge Seekers and... So we'll see. But I never carry notes, I even don't carry notes for the teaching. Knowledge Seekers have been with me when I teach, I never carry anything. I have access to a knowledge Man is unaware of, but that's the gift. And I thank God for that gift.

Very recently I was explaining something to one of the very, very high level politicians, decision-makers of a nation. And he came to me, he said to me, how did you know that we discussed this thing in the governmental meeting? I said, you go and sit with your body. I'm amongst you with my Soul, I know everything, every plan you plan to do. I don't need to be sitting there to watch you. He said, but your information was so precise. Which member of the Cabinet is spying for us? (2:40) I said, speak to your Soul, maybe your Soul is spying on you. You don't need to be, you are in it without being. And then you don't need a library. You don't need to access a library to have an information. Libraries are made for Man.

I used to work in British Nuclear Fuel. We used to work in a 'cow sheds' organization, there were about, God knows how many of these cow sheds, with two, three hundred people in each shed. They changed the man, the cows to men. Outside there were cows, everybody thought it's a farm, but inside we were working on the latest, God knows, weapon technology and nuclear power stations and the rest of it. And I was a very young boy, just coming up in nuclear industry. And in the building, there was a building, a special building, library of data of the nuclear technology. And then in there was another room which was very isolated room. It was for specific people to have access to and everything else. It was very typical British system. And just being there for a few weeks, I was given access to this room, and I used to barge in or whatever, if I needed something, you know, being arrogant young boy. And, all my... all the documents in this section was very specific. They had a little long triangle, what you call, a rectangular stamp on the top, it says, "Top Secret". And at the bottom it was more writing stamped again, every single page of it. Not to be disclosed, not to be removed from the premises of Nuclear fuel. Need the permission. (2:42)

So, I go to this room every now and then, because we're working on the latest levels of the Nuclear industry at that time. And I bring these books out to study to see what it is, what's the plan, because a lot of these were the latest decision by British government, on... we had to be within regulations of what we are doing. So I knew exactly what the Parliament decided, or what the British knew... for people has been given the authorities

and the background, that we work with these parameters. And I used to go in to... I was given the room of my own office to the head of the division.

In one day, August, that holiday, we had a huge problem in Hinkley nuclear power station. And it had to be resolved, because it was disaster. So, I go home, that time, I never considered these things, to me it was just all, God knows, rubbish. And I took a big dossier, a few hundred pages to work on, because this was emergency .. and the British Nuclear was facing big disaster, nuclear leaking. And I came back in on Tuesday morning, you know, being a cocky guy, parked my car in the car park, and go in with this book under my arm, And I had the tap on my shoulder, military police. I said, "What's wrong?" He says, "Can we see what you're carrying in?" I said, "It's my work." No we have to see." I gave them the book. He says, "Do you see what's here on the book?" I said, "Yes." He says, "It's a top secret." I said, "Yes, I have clearance, I have... nobody has ever asked me anything." He says, "Not to be disclosed, not to be removed from the library, only access to limited people." I said, I cannot go in there if I didn't have access, and nobody ever told me I cannot move things. (2:44) Because it's for me, I'm working, I took it home. You can't even take it out of the library, you take it home. Who has seen it? Where have you seen it? Oh, you have an Irish girlfriend, fiancée, so there's a problem. Did you exchange anything with the Irish? I said, God knows you don't trust people, you don't give the library key and the access to this people. I stood three days of interrogation, going to the library of God. And we ended up, one of the reasons I left, because you don't trust, you don't trust, you don't work. They wanted to know what I ate, who I met, which place I went to and everything else. Has anybody else read the book?

Anyway, one of the reasons I ended up with the British nuclear fuels was this cause of no trust and having access to the British nuclear knowledge. Here there was a problem. I never signed top secret official acts of the British. They said how did an Iranian nuclear physicist works in British Nuclear Fuel has a full clearance, but he's never signed secret official act. So nobody ever gave me anything to sign. And they said, he's not British, he cannot sign, but how did he get access to all the top secret information of the Parliament and the decision making? I said, I don't know, somebody, the head of the British Nuclear Fuel division gave me the access because you have a problem. And at that time was when Dr. ?? Hussain just stole the nuclear technology of Britain for the Pakistanis where they made the nuclear bomb. And so it was a big commotion how Iranian nuclear physicist got access to top secrets, and he spends a lot of time in the library, and he got access to the library of British nuclear. He was seeing the punishment and the problem, he can't imagine what's going to happen to me, and he got access to the knowledge of the Library of the Creation. (2:46) Then I got to see what much punishment it will be when I go. Or maybe I'm not supposed to teach half of the things I teach. I'll know when I go. I will stand for the punishment that I taught man too much. Ah, brings back memories. But I have access to the library of Creation, it's free for all. But you have to have a special permission through your Soul.

Any other question? You brought back a lot of memories.

R: Yes, we haven't heard that story before, I don't think. Thank you.

Q: ... Is it okay or a good idea to make Gans of the tomato plant and feed it to the plant?

K- Maybe yes. Would you genetically modify it? Would you? I've seen tomatoes made by Knowledge Seekers. One of the guys who used to work in the lab he used to come with them, he grows everything. And he used to come with them to the lab. They taste nice. They look nice. A lot of which was made by Knowledge Seekers when there was... when he used to come to the lab, he brings things, it grew, one of them was tomatoes, but it depends how you feel, how you do things.

There is something you can do, especially with like vegetables and with meat, you can cook in the Gans water, or you can wash in the Gans water, you can use it as, I do that quite often. (2:48) When there is an infection around the house, I use a mixture of Gans's, but you have to know what you mix with the Gans's. People use just, for example, CuO to disinfect the fridge and whatever. It won't work if you don't have the Amino Acid. You have to link to the bacteria which is Amino Acid based. It's no use just washing and doing things, ?? when you need it because you do.

So, understand how you do it, the reason you do it, how you connect to it. If you make the Gans of tomato, does it have the Amino Acid to connect to it? You just make it because you made the Gans and it doesn't work. What you're using it for? What is the purpose? Are you doing to change the structure? Are you going to create a new condition? All counts. Every single piece counts, because it's a world of Creation. It's not the laboratory of man to control chemicals.

Any other question?

Talking about, I tell you another one, it will make you laugh. One day, I used to work in the, when I told you I was working in nuclear center, they were building a new building, new cowshed, as the farm is growing and so we were in port-a-cabins, all the offices moved for a while to a port-a-cabin, and so port-a-cabins, you know, English farm, you walk and it's all like, they put like, pallets on the floor, so you walk on the woods, but it's all covered up, very well done. (2:50) And when they start this position with me, that they found me walking in with a nuclear top secret document, so I said, "There is no trust." So, these corridors are like 100 meter corridor offices, and my office was right opposite to the head of the British Nuclear Fuel, they wanted me there, they could control, whatever reason they had, with two baskets of paper and the rubbish. Some things you see in the movies, I lived it. And then, so, I said, "You don't trust?" So, I used to walk in this corridor, with it, it was like a pallet and I just go...(make a lot of noise). The head one day came and says, "Mehran, why you walking like this?" I said, "So you don't trust me, at least you know where I am when I'm walking. I might not go somewhere else, you don't want, I go to toilet, I come back, I go to another office, you can hear me all the time." So I used to stomp. And the day came, he says, "Can you just stop this?" I said, "There is no trust, at least you track me. Unless you want to put something on me, or somebody behind me all the time walking." And this, it comes from,

you know, lack of trust in what you do. And I had to make a noise that they knew where I am. And it worked, they gave up at the end.

Any other question?

Q: ... You've taught us that we have a Twin Soul with whom we begin a new life after death. If we develop our Soul, does this change our Twin Soul over the course of our life?

K- Yes.

Q: Or does the Twin Soul develop alongside us?

K- Yes, yes. Elevation of the Soul brings new dimension and evolution. (2:52) The way you mature knowledge wise, you mature in the dimension of Soul, access to more knowledge of Creation. And yes, yes it does, it does that.

Q: ... For a long time, religions have instilled in us the belief that we are bodies and hidden our Souls from us. So we believe that we were born from physicality and ignored that in order to be born into a body, we first need a Soul. My understanding is that we will become Children of Mitra when we let go of the war we carry within us. When the STM takes control of our lives, when we completely reform everything in our lives, and when we truly desire to serve with our Souls, when we detach ourselves from the pleasures of Earth, after we reach the point of our enlightenment and elevation and all this inner transformation, Will we be born from the Soul and become Children of Mitra? Is that right?

K- We become part of the structure of the Universe in the field of energy. We become the light when our Soul comes in interaction with the Soul of the Creator (STC). Then we become, that light becomes the children, creator of the Children of Mitra. (2:54) And the emotion which goes with it. Mitra is a symbolic, in a way that is the interaction of the fields of the Creator with its own, of different dimensions. We interact with our Soul, but our Soul still interacts with the Soul of the Creator. That's the dimension which our Soul of Physicality (STP) doesn't get the opportunity of, as I call it, but it still is in the line of. We become, what I say, what it says in a way when you become as a Soul, when you leave the dimension of physicality you become that Mitra. Become that essence of interacting to create new life of. And that's why the correction with the STM is needed. It's created too much mess in the Space. It still carries fingerprint of destruction. Needs to be changed.

Any other question?

Q: ... Hi, I'd like to ask about this conference from Vienna, (2:56) because I didn't understand about the day, time and other. May I have more information about the conference?

K- If you go on the Romanian Keshe Foundation link, it's all been posted there.

Q: On Telegram or Facebook?

K- On the Telegram. I think they put it everywhere. It's in many places. It's on the 19th, Saturday the 19th at 3 o'clock.

Q: Ah, 19th at 3 o'clock. Okay, thank you very much. Thank you very much. I'll call somebody and ask for more information from Romania.

R: Yeah, you can also go to the link in the chat, the information for the World Congress for Psychotherapy, that Mr. Keshe will speak on Saturday, 19th of July. There's a link there of the whole conference.

Q: Ah, so psychotherapy. Lovely. Understood. And do we have a plan to gather again the diplomats, ambassadors from the world, and ask them to make and sign a declaration for sustainable peace in the future, is possible, is realistic? What do you think about this?

K- .. We are working with the direction in the Keshe Foundation with the diplomats and governments, which is the outcome of the present situation in Gaza, that we will, I think it's about 2 to 5 years away from now, maybe less, maybe more, where we will change the condition and position of the world economy and the peace and technology. (2:58) At the moment all the technologies are dependent on how is the stronger, who has best, whatever. And this needs to be changed that we all have equal, the same access to the technologies, which can be destructive to all of us. And then there is a decision on what to be done.

The moment we need to change three things to bring the peace in the position it is, and Keshe Foundation is working on all three. One is economical, one is cultural, and one is more or less what we call, to do with living, with life. We do. We'll introduce new economical condition and positions very soon. Team of Keshe Foundation in the background and many of you I'm sure you're working on this in the background. I think a lot of you are involved in it, testing it at the moment. Then it comes into the political, which means bringing everything in the level of understanding the work of the... The biggest problem we have is the creation of United Nations. United Nations is becoming irrelevant structure. It's just a talking house for the Americans.

And then is what I call, living, how we support life on this planet. And this is all come... The agreement with Chinese is one of the cornerstones of this big change. Close collaboration with Chinese on that side, close collaboration with another Middle Eastern government is on the other side, and the financial side is done by collaboration with Knowledge Seekers. Many of you are involved in it and I thank you for keeping it a secret, and working so hard to be completed. (3:00) And I hope your tests and your results will come positive, in a way it should be. In this, we need all three, we cannot work with one. If we put forward a new financial situation, economical way, which will be connected to Markray and Keshe Foundation operation. And then, we have to put in a

new political understanding, diplomatic way, and the countries which can enforce it, in China is one of the bearers of this work with me. And then we have to do the economic, what we call, the living side, that everybody has access to everything, freely, food, medicine, energy. It's not a dream, technologies are developed to that level, that can be done. Then we see resources cannot be used for control, and financial power cannot be used for control. And we see political power become meaningless except for joint collaboration.

World Peace needs world understanding of the whole lot, and this is what we are busy with. And many Knowledge Seekers in .. are helping in the background working with it. And then, yes, you can achieve World Peace. It's not just talk, otherwise we become another structure. We have the technology, we have the access to the financial means of doing it, and we have access to bring in the change to do what is supposed to be done. Two to five years maximum it's doable, and then we'll see world peace.

Q: The President of USA was proposed by Netanyahu to receive the Nobel Prize for peace. I think that without having you as a counselor this will not be possible. (3:02) He needs somebody wise like you to...

K- We are one of many. You got to understand, he cannot receive ... If he receives Nobel Prize for peace, there is a bigger direct shadow of a doubt on the integrity of the, what you call, Nobel Group or Prize Committee. A man who bombs a nuclear base to destroy a nation, knowing it has got nuclear material in it, is worse than Hitler. Why should we give him a Nobel Prize? If you do not know a site carries nuclear nearly 20 million people nearby and you bomb it, there's no integrity to existence in such a Man. I think you got your answer.

Q: Yes, thank you very much. I just wanted to say something about what you call Gypsy. Gypsy or Romani people are Indian people in ?? Diaspora. The ex-Prime Minister Indira Gandhi and actual Prime Minister just acknowledged this, that Romani population are lost children of India. We do not have a country of gypsy people. The history is that Romani people left with a message of peace in India from ?? Kaliroch, when a Muslim came to conquest this ??. Some people left with a message of Indian people of peace. (3:04) And these Romani people are also Persian, because they were lovely artists and they were brought to the king, I mean, environment just to please the king and the company of the kingdom. And these people are very cultural, peaceful, never made wars. They are like Indian and some Zoroastrian spirituality, bringing to the world, peace through artistic means, also through medicine, Ayurvedic medicine from India, utilizing plants, is a mixture between Persian and Indian culture and origin. Just to acknowledge. Thank you very much.

K- Thank you very much. Thank you indeed. Any other questions? Shall we call it a day?

R: I think you've worked overtime today, so we're probably good. If there's any remaining questions, there's maybe one or two they can be brought over till next week.

K- Yeah, thank you very much. It's a very interesting test today. I've just seen some of the data which was expected. (3:06) I would like to know, those of you who participated today, and you've been with us, what do you feel? How you feel? Or did you feel anything during the teaching? Or did you went through any emotional condition? What is very interesting, I put two pictures of the same and I'll post it before we say goodbye, and it will be interesting because it's something which in a way expected, but we received a confirmation of it with these sessions of today. And I try to share for you to see how you lot, or what has happened to you during this session, which was the whole concept of doing it. You've never seen a picture like this? Let me share with you and then you see. I explain in the future what you have received and what you've seen.

This is the picture of today (shows graph). This is the interaction of the Soul and the physicality in a beautiful way, and what is nice, what you see (Infinity Loop). The size of the top left with the bottom it shows we still need maturity. These two have to be the same size. One is still feeding the other. (3:08) This is the structure with the bottom one, which is a smaller one, it's the more powerful, it's the Soul side. And the one on the left is the structure of the brain of the Man, Energy. So there's a lot of need on the positive to negative or what we call, to expansion. And when these two, hopefully, we'll have a look at this again if it's there next week in the session, see how this has changed. And then how we can change it. Then when it's become harmonized, equalized, this is where you all be transmuting. This is how mass teachings will start. This is how we transfer knowledge into dimensions of the Soul, and any things which is not correct in the dimension of the what we call, structure of the energy of ?? the brain. Thank you very much for today and we'll see you next week. Don't forget people who want to come to Vienna, you have to register for it, you cannot just turn up. And it's nothing to do with Keshe Foundation, you've got to follow the link of the organizers. Thank you very much, see you next week.

R: ... (3:10) ..

Oh, there's one other thing I was requested to show, from the Universal Council, which is the invitation. And, I'll just show that here. The invitation is, "The Universal Council invites the Keshe family and the Universal family in unifying at the Soul level every time and every day at 9pm Central European Time, to give freely from our Soul, to connect and elevate all leaders, to work as one Soul in one direction with Markray Corporation and Keshe Foundation to achieve peace through technology in exchange for peace as One Nation, One Planet, One Race.
