## **Introduction to 600 KSW - 3rd Week Systems On - Many are changing - New Timeline - Change Body - Reptilians - Poison - Sun's Ancestors - Satellite Souls - U Teachers Meeting**

This is the third week in a row that Mr. Keshe has kept the KF Plasma Systems running in the background during the teachings. And Knowledge Seekers (KS) are giving a lot of feedback of how they are changing both personally and the people around them like family members. The way he explains it is that we are receiving more energies that we never had before. In a way, he has 'wired us up to the Creator.' He has the knowledge of how to access Universal Fields through Cosmic Rays (CR) and is teaching the KS in KF laboratories to advance humanities knowledge. He said, the graphs showed that they were able to align the Soul of the Man (STM), the Soul of Physicality (STP), and physicality (P) of the Man in a centralized line, and they have never done that before. He didn't say what that means other than it connects us to a lot of things. Maybe it means when all three are on one line, then all 3 are making the same connections and that makes it stronger. And when we add energies then we effect the Time and create a new timeline. They have added the energy, but it is us who has to decide how to use it. Since we don't understand about the Soul, then we say, this or that happened, or I felt something subconsciously. In a way, we are denying the interaction with our Soul. Nevertheless, we are still receiving the energies and they are changing us. The energy is coming from outside and makes up part of the 80% we receive from the environment. But these fields are of a higher order and if we normally receive a 100 field strength, now we are receiving 120 or 140. This higher bandwidth is elevating our Soul and giving us greater insights into our own energy, and other things, as are being reported by testimonials from the KS.

It's a little difficult to unravel all the words and concepts being presented here. It's important for each of us to go through that struggle of trying to understand, then the learning goes deep inside us. For myself, I think about the two Times of the Physical and Energy. The Physical Time is the field strength of the Place, Position (entity), and

Possession (strength of the AA of the entity), or the PPP. And the Energy or Soul Time is the emotion, intellect, and enlightenment (EIE). To change the Physical Time we go through the evolution of the PPP in the physical dimension (D), like evolving from our experiences in the body of the Man on Earth. This is a very long process and takes millions of years. The other way to evolve is through the Soul, and I believe he is trying to show us that by increasing the MG field strength of the EIE the Soul automatically evolves. As Mr. Keshe has access to the Knowledge of Creation he can build systems using the physical D of this planet to create CR and attract Universal Fields that increase our field strength and elevates our Soul in a much faster way. This is what I believe is happening now, when 3 weeks ago he decided it was the right time to start this process of elevating our Souls. About a month or so ago he said he wouldn't turn the systems on in the KSW because it would cause too much mayhem. Something changed and now he is turning them on and keeping them on. And the wonderful part of it is, that KS are able to absorb the fields and start changing their lives. Hopefully we can keep up this momentum of growing and changing. We may have even added 20 years or more to our lifespan by being part of this process. Another interesting point is that he said, the Soul has access to these Cosmic Energies by itself, but it has not been able to convert it to a usable strength. Maybe the systems are converting these high order fields into a strength we can digest and use for elevation of our Soul.

When the Soul receives higher energies then it creates a new timeline for itself and this delays what he described before as the half-life, or the point of separation from the P, also called death. If we keep extending the half-life then we can live for eternity. We will never die because our essence is directly connected to the Universal Timeline and Energy. There are different timelines like the Earth has its timeline, and so does the solar system (SS), galaxy, and U, etc. Timelines can be changed and we can enter into other timelines, like if we transmute into another planet we would have to be accepted into their timeline. It's similar to how the plasmas function where we have one plasma inside another, and another, and so forth. Of course, then we'll have to learn the rules of how timelines are created, function, and how they can be changed. He said, during today's session we created a new timeline, so we'll have to learn more about what that means. One way we can measure changes in dimensions is through changes in the length, life and energy cycle of a brain cell. But it is not clear what this means.

If we transmute to the Moon as a Position and Possession of a Man from Earth what would happen? When we appear on the Moon it will not be in the same Position of a Man as we are on Earth. We have to understand this and overcome our false perceptions created by Sci-fi movies from Hollywood. What is not clear to me is whether the Possession, which is the strength of the AA of the Position has to be exactly the same. Or is it more complex and has a spectrum of field strengths? If the Position of being Man cannot be the same, then wouldn't the AA also have to change? This has never been clearly stated. In this example, he said, when we land on the Moon the Time and Place of being the Moon are fixed. The Position has to change to that of a Moon Being, then wouldn't the AA of that Moon Being also change the Possession? He simply said, you hold the energy to have a certain Possession. But you still carry the STM and the memories and intellect of the Man. What would that experience be like? Would we

transmute to the Moon and suddenly see ourselves as a different creature, but we would still remember our life in the human body? Maybe those thoughts fade to the background, and we start to have new thoughts of being a Moon creature. The energy we receive through the Headsets would fix the enlightenment and our emotions would be locked. What does that mean? It seems to me that inside we would know ourselves as a visitor, or an alien, but our new body would match the environment and that would take some getting used to because we would still remember our life as a human body. In our minds we would know we were only visiting temporarily and we'll return to Earth. This can also be done without systems by learning how to breath and controlling our emotions.

At first it seemed like he was saying that our food was like poison and it kills us. In a way, that could be true considering all the chemicals in it. But after studying it more carefully I think he was saying, that when we eat poison and die, we really create a new timeline. The poison released too much energy and created a new half-life that caused the STM and STP to split and create a new dimension. This is exactly what happens in a nuclear reactor, we bombard the nucleus with energy and cause it to split, and it creates a new timeline. There seems to be much more to the Possession than just the AA. The higher energy changes the Possession, which changes the Time and creates a new timeline. And if we are in a situation where everything else is fixed, like the Time, Place, and Possession, then the only thing that can change is the Position (entity). So let's say for some reason we received too much energy, and everything else was fixed, then our body would change into the shape of another Being. And if we were on the Moon, then we might suddenly look like what they call a Reptilian. Or some call them 'shape-shifters.' But now we know scientifically what has happened. They received higher energies and it caused their Position to change. But they will remember everything from their original form because all the other parameters in them have remained the same. This can also explain how mutations occur. Is this what happened when the original humans left Africa? When they left Africa they entered a new field strength and all other factors being equal, only the Position could change. So they became brown in the Middle East, and then white in northern Europe, and changed into other races according to their environmental field strengths. And with this understanding there is also a timeline, but we need more knowledge about how that works. Because when we physically spread Gans's around the planet we are changing the timeline, but also we do the same through the KF Teachings. One is through P and the other through the Soul and both work.

We all may be wondering if the U is a peaceful place, then where did all this killing come from? If we were created from the fields of the Sun then we have to look to the parents of our Sun, or the Soul that created our Sun to find out. What kind of civilization did our Sun come from? But what if the Soul of our Sun was perfect when it arrived and due to an unforeseen accident it lost fields when it interacted with the local Space fields of where that seed started? Or when it came to its balance with its environment the result was, we ended up with these characteristics of killing and destruction? He seems to be saying that there are many different possibilities for what happened, and it may not be just one cause. The main point is that we fully understand the problem and know how to remedy it so that we don't spread our disease to other parts of the U. That's why he encouraged those who are still spreading Gans Water around the planet to continue,

because it is part of the solution, which is to raise the field strength so that the Beings of this planet can feed from the Universal Fields and stop killing.

The Fountain of Youth is a myth that has been around for centuries and got very popular in Europe when America was being explored. It was claimed that there was a spring whose waters would keep you from aging. In Plasma Science there are different ways to remain youthful. We can rejuvenate the life through the field strength of the emotions of the Soul and the STP. Maybe this is related to keeping the cells of the body always new. Another way is to understand about Time, and by keeping our timeline constant we would not age. To do that he said, we can elevate the intellect and enlightenment. It was not clear how this would work. If timelines are independent of each other, then ours would remain constant and the ones around us would continue to age. How would that effect the other parameters? And how would that effect our spiritual growth, would we become stagnant? Would it be possible through the strength of our emotions to keep the Possession and Position constant? There must be other things involved, but the main point here is for us to start thinking about how we would adjust the different parameters and how they relate to each other. The emotions, intellect, and enlightenment are the higher order fields of the Soul and they can be used to manipulate the field strength of the Place, Position, and Possession to control and change the Time.

The remainder of the first part of the workshop was about different aspects of how the change is going ahead. It is the responsibility of the Universal Teachers to see that this change is carried out in the correct way, and that it actually takes place. Nevertheless, humans have to be involved in bringing the T forward. We can't just sit back and expect them to do all the work for us. We are at the verge of the change, but we need to elevate the world leaders so the governments will bring it forward. The Universal Council needs to work on elevating their Souls and we as KS can help with that through our intentions. Now that the systems are being run during the teachings more KS can join and start the process of enlightenment and this will spread across the planet. Another aspect is to get the systems onto the new Chinese satellites that are Plasma based and called Quantum, then the whole planet can be reached through the fields and every Being will have enough energy that they don't need to kill and their emotions will be satisfied. The governments cannot interfere but if they create so much resistance to block the progress, then the Messengers will have to "force feed" them the change. In Chinese Medicine the superior doctor is the one who puts his knee on the patients chest and forces them to take the medicine to get better. The Messengers are Superior Physicians. Having the "Swiss Life" means every Being on the planet will have all their basics needs of food, shelter and survival met, so there will be no need for fighting and war. Through the enlightenment the emotions will be elevated so we will love to live, and we will not be a burden on our own emotions. We will enjoy our emotions and live a satisfied life. To see this through is the job of the Universal Teachers. The implication was that very soon they will make this change, but the way he said it was, 'we'll address the shortcomings of the Man on another level.' Let's hope that this time they will be able to carry it out.

One of the ways the energy will be spread across the planet is through what is called the Satellite Souls. In the past KS volunteered to become Satellites, but now with the systems

turned on in the KSW, Souls will become Satellites to transmit the energy to other Souls. Perhaps the P won't even be aware of it. It's part of the KF logo, we are here to serve. It's an intimate way of serving where the essence of our Being is happy to be part of the conduit of Energy from the Creator. It's not making a donation in physicality and forgetting about it. It's part of our life and it spontaneously occurs when there is unconditional love. This was confirmed by a KS who said that since the 598th KSW she started focusing on her brothers health condition and he has been recovering and through this situation the whole family became closer. It shows that we should not underestimate the power of our Soul and the subconscious program of being a victim is a real waste of time and energy.

Mr. Keshe explained about the graphs. In the beginning of the session there was nothing in the lower part of the graph representing the P. He said, 'my wish is my command,' and because we are all plasmas the energy gets transferred. Does he mean that he made a wish that we should receive the fields of the U? I understood that the center flat area connected the STM, STP, and P, and then the energy went from the STM to the P and more dots appeared in the area of the P showing that it was being fed. This is confirmation that the systems can be used to feed the Soul from the Universal Fields which in turn feed the P. In effect, we make up for the shortage of energy not provided by the planet under normal circumstances. All the entities on the planet with Souls will receive the energy and the emotion will be elevated, the P fed, and the killing will stop. Now we just have to get them into the satellites and change the planet. There is still some work that needs to be done to complete the systems, but it is not far away.

Mr. Keshe referred to the time when he had Pancreatic cancer some years ago and that experience was explained in detail in past teachings. The main point he is making today is that when you yourself have experienced something like cancer or a terminal illness, and if you are in a way, given a "death sentence" by doctors, and if you deeply process and understand all the emotions that go with it, then you will have a direct connection to those emotions. If someone comes to you who has cancer or in a similar situation, then your advice, or even just sharing the emotion with them, will have a greater power than someone who is just speaking words without knowing the experience or the emotions. In fact, he said, your sharing of emotion with them could change their condition, that's how powerful it is. You are transferring the energy of that emotion to them. If we think about it, maybe that's why people who write 'self-help' books on things like overcoming cancer are able to reach larger audiences. Personal experience is a very high level of knowledge, but more than that is personally having experienced the emotions in a sincere way. He called it a hidden enlightenment. And this ties into emotion, intellect, and enlightenment that can change Time and create a new timeline.

It's a little strange to imagine such high level Beings sitting around a table and having a meeting about their work. I guess we might think that they should already know everything instantaneously. I am sure they actually do, but this is how we can understand it in our physical dimension. It seems like his peers of the Unicos were not complaining, but simply wondering why it was taking so long to change the Man. Mr. Keshe said it was necessary to take time with the Man because he is like the slowest creature in the U.

The most encouraging part of the conversation was that his Soul peers actually confirmed that humanity has started to change and they were encouraging Mr. Keshe to go a little faster. So it's true when Mr. Keshe's teaches the whole U benefits, because this Soul said, that as humans are getting enlightened, so are they. The implication was that last time the elevation didn't work, and this time it will. And then there is the process of getting the Universal Community to accept that the Man has really changed. This was a beautiful gift because rarely do Masters share these kind of intimate details.

We are seeing the last skirmishes between religions as they destroy each other by themselves. We know the Vatican is funding the Israelis to attack Iran and help to totally conquer the Moslem World. It will be hard for the Christians to accept the Israelis destroying a Christian church with the faithful inside. But as Mr. Keshe said, the script is already written and the world leaders, or the physicality of the Man has to follow it. Then he told the story of how the Traditional Jewish families and not Zionists, who over centuries have a good relationship with Palestinians are now being brought out of Israel by them. The Palestinians are taking them through their tunnels to escape to Europe. They are mostly doing it out of love and not for money. This is the sign that there is still hope for humanity.

A Chinese proverb states suffering makes a man think, thinking makes a man wise, and wisdom makes a man rich. We are giving you that wisdom so you will feel the richness, which is the essence of the elevation of the STM, and not 'money in the pocket';

Enlightenment is not just by getting knowledge. Enlightenment is by knowing oneself. This is the next step in the teachings;

Thanks for listening.

## **Quick Index**

(We continue with the research and development, and other phases of the technology (T) for the human race and beyond. It is time to open the doors into the next step. (This is the third KSW in a row that we are running the KF plasma systems in the background. We'll try to change the situations and manipulate the strength of your communication, energy, and whatever, as we have seen during the last two workshops. We have taken baseline graphs before starting today's session so we can measure how you perform and what elevation you will achieve, and what you will understand. (We are 'wiring you up to the Creator,' in a very direct way, and we are aligning your Soul of the Man (STM), Soul of Physicality (STP), and physicality (P) to more or less to one centralized line, which you never had before. It shows that we are connecting you to a lot of things)).

(You have been giving us a lot of feedback of how you are changing within days, and even within hours for you personally, and situations between you and your family, and other things that are moving in your life. (In this teaching (?? we are creating Time and

we are elevating the energies of the inner sanctums of the Man)). Then it's up to you to decide how you will distribute it, and manipulate it through your 'subconscious,' which is really the work of your Soul. The Man finds many names to cover his ignorance, lack of knowledge, and to cover what he cannot understand. Nevertheless, he still tries to explain that something is there).

(Enlightenment comes from the dimension (D) of the connection between the STM and what we call, the true emotion, and what we call, the Possession (M field strength of the AA of the entity). When we use the emotion, and increase the energy in the dimension of the field of the Universe (U), within the Soul, we create a new Time. (During these few minutes since you locked into our system the Timing of your Soul has changed, compared to before you came in. It's because you are receiving energies and through the emotions it is changing the M fields of the package in the motion of your D). In that way, we are playing with your ?? Physical Time, which you have. And we change the Time on your Energy side. We are entering directly as an outside energy. We are that Cosmic Ray (CR) which you receive (through the) 80% of the energy from the environment. Now we are feeding that 80% into (?? you)).

(You are receiving higher order fields which you never received before. For example, if the range of fields for the Human race is from zero to 10,000 and you normally receive 100, today you are all receiving between 120 to 140. This means you have become elevated to the D of your own energy, and you have an insight. We made it available ?? within the bandwidth of your field strength. In all 3 of these sessions your Time zone in the D of the physicality, and your Time zone in D of the Energy has changed. There is no doubt about it. In a systematic way you are receiving a higher bandwidth, and you are becoming more conscious of your emotions, and unknowingly you do things. In a way, instead of you have to go through the evolution of the P, we are putting you through evolution of the Soul, or the Energy part of your existence, which you have denied. As the Soul is the feeder of the P, through this process we are creating a new Time).

(You might notice certain changes in your life. For example, before you joined these sessions there was something you never enjoyed, or thought of doing before. And after being in the sessions you now do it and people say to you, oh, at your age how can you be doing this? It's because the Time has changed, and maybe you increased your timeline of life by another 5 days, 2 years, or even 10 years. It's because the distribution of the fields, of what you weren't able to receive before, is now given to your Soul. The body receives this what I call, 'Time of the Energy.' We are changing. We are bringing a new evolution on the Energy side. We are feeding you what the Soul could not, even though it has access to it. We convert it to the Soul).

(You will see changes in yourself and it won't be coincidental. (If you say it is coincidental, then how come it couldn't happen over the past 20 years or however long you have been around? And suddenly it started after receiving the fields in these sessions. It's because before you didn't have the field strength which we have given you in these sessions. We changed the position, and we see how you have moved. You have changed your D of understanding. We are changing your timeline, even in today's session. But we

don't interfere. We're simply making it available to you. And if you're looking for a new enlightenment then you'll change the D of physicality, and understanding of your life. It's an evolution of the Soul, (?? by creating a new timeline). In a way, we are delaying the separation of the half-life of the man, (or the death)).

(This process can be extended to such a length that you can live for eternity. You will never die. You cannot die, because in essence you're directly connected to the Universal Energy, and Universal timeline. This is part of the teaching of today. You have an Earthly timeline, which we showed you and talked about before. Now you are entering the timelines of the solar system (SS), galaxy, and U. In the background gradually we're increasing the strength for you to be able to (handle that new) timeline. As we are making available the Energy side of life, some you in the past 2 weeks, and maybe in the coming weeks will extend your life by 10 or 30 years, or maybe even a 100 years. You won't know until you reach that time. But later if you live to 130 or 140 years then you can think back to 2025 when you received that energy. (These dimension changes can be measured through the length, life cycle, and energy cycle of a cell in the brain can be reconstructed, because what was important in matter state, is now in the hands of the Energy state). We call it consciousness. We don't become conscious of it. It becomes available to us and we become aware of it).

(In the session of today we are playing a very beautiful game, because you all know what it is and that the systems are on. That means you have made yourself ready to receive (the fields). Many of you have seen the change in your emotion, interaction with your family, with yourself, and the environment during the past 2 weeks. You sent us your testimonials about how your addictions and attachments have gone, and there is more peace in your life. It's because the STM got elevated and the timeline has been changed. We have brought in a line of connection to the Universal line of energies in a very specific way. We launched it, and we are monitoring it to see how you change. Our team in the background is continuously watching exactly what happens and exactly how you change. We are watching the change of the condition of your Soul).

(What will happen if we change one parameter? Or if we understand the totality of it? What would happen if we change the D of the field strength? Or the elevation of the STM, which changes the emotion of the man, which in turn changes the Possession? This is one of the games Man can play. (?? When you arrive at a destination, through the energy you can fix the Time. If you go to the Moon and ?? hold the Time and put the Possession at a certain field strength. ?? As the Place will be set as the Moon, then you change your Position to be a Moon Being. ?? But you still carry the STM and the memories of the intellect of having been a man). But since you're on the Moon, you cannot be a human anymore. Because the Position, or the entity as a man cannot exist on the Moon. But the energies exist, and the Time and emotion are locked. You will have received directly through your headset or whatever you are using, the energy that fixes the enlightenment and the intellect. Therefore, you'll manifest yourself as a new creature that can live in that Possession (AA strength) and the Place of the Moon).

(Man needs to understand this technology (T). Man needs to progress to understand how to do it. In the D of physicality you change your food, breathing, and position of your lungs. But have you ever thought why you are taking food in and that it kills you? We call it a poison, but have we ever thought that it is an energy that brings balance to the STM and STP? (In a way, death is like switching things off. That poison we take brings a new energy. It brings a new D to the STP). We wait until we reach that 100 year old point and then that poison actually becomes the freedom of the STM. It brings the energy so high, that the energy of the STP comes in balance, and separates from the STM. But we say that the cause of death is by poisoning).

(But if we look at it scientifically through the Knowledge of the U, it means we have put too much energy in, and that creates a new timeline, which matches the timeline of the Soul. And then we get separation, or the 'half-life.' This is what happens in nuclear reactors. We bombard it with new energy and it splits and creates a new half-life. (This is a term Nuclear Physicists use but the word refers to the same cycle). The next time you see somebody dying of their 'poisoning,' understand that they are changing the Time and the energy of the Possession. When we change the Possession we also change the timeline and start a new game).

(We can create a new timeline even for poisons that they will never match the timeline of the half-life of the Man with his Soul. (We can create anti-poisons by draining and transferring the energy back to ?? it. Because at the end of it, a poison is just another energy pack, and nothing else). It's at the D that brings the STM to a new timeline. (?? This is why in transmutation you cannot (die), ?? because you don't allow the energy of the Possession to create an end to your Position (entity) or Place. ?? If you change the Place to the Moon you create a Position of the Moon. You make yourself into a new creature of the Moon, but it still carries the memories and emotion of the Possession of a Man). The timeline cannot change because it's the Soul that has brought the P to this Place and you change to a new creature. You have no choice, but to ?? change to Being of the Moon, Mars, or any other place you go to in the U).

(We all probably heard the word, 'reptilian.' They came up with this to try to explain how the Man mutates. This is the physical scientific process of it. We can do this in our systems. We don't create a death, because we pass the energy to the Soul and it decides the new point of manifestation. But when we transfer you to the Moon the Place is fixed, (?? so the Possession and Position will change, otherwise you would die if you landed as an Earth Man). It's because the energy doesn't match and the timeline does not fit. You're holding the timeline in balance with the timeline of the energy. That's why you appear as a Moon Position, or you might manifest yourself as a creature crawling 10 meters under the surface of the Moon, because that's where the balance with the others will exist).

(As scientists we know this for the first time. Many research developments tell us that there are civilizations below the Earth's surface, just as we've seen NASA photos of civilizations living above us. These are not Beings who were first on the surface and then dug themselves underground. They created themselves at that Place through the GM field they created, and they ended up so many meters underground. They manifested

themselves as a Position with the amino acid (AA) and at the M field condition of this planets, which comes with 2 arms, 2 legs, ?? and whatever else, but they look like humans do, but they never lived on the surface, because the surface of the Earth would kill them).

(As Man develops intellectually he is finding others living under the surface in different layers of this planet. ?? Or he finds Beings living in the span of the U. Now we understand that it has to do with timeline that they match into, and then their Position has to change to fit. Then they manifest as a new creation, with a new understanding of life. Now we can understand why worms live ?? underground and others in the depths of the oceans. (This knowledge is not part of our present knowledge and is considered physically impossible). But we now know that it is because they match the conditions of the timeline, and the Place and Position to manifest themselves as a creature).

(This is why dinosaurs cannot exist in the present day conditions, because the timeline has moved. (?? We cannot bring the M field energy to balance with ?? what it used to be. Maybe we are 1 million kilometers away from the place that created the appropriate M field strengths for the Position of a dinosaur to exist. (?? However, the Soul and the surface are the same, and the Place is Earth). The only thing left to change is the Possession. Why did suddenly the dinosaurs disappear? Was it because of a meteorite? It would have happened (anyway) as the Earth comes closer (to the Sun and its energy changes and so does ?? the timeline. Since the Place is fixed as Earth, then only the Position has to change. (?? This was centrally dictated when they were created)).

(The question we have to ask is, who was the creature that made the seed for the structure of our Sun, that it led to the creation of our Solar System (SS)? Who was that Soul? The Sun didn't just appear here out of nowhere. (In the past humans worshipped the Sun, skies, and the fire, but now we have more intellect). We have to understand who the Soul of our Sun is, because it is the creator of our creation. It must have come from another Soul somewhere in the U, and then He found his Place and Position here where our SS sits today. Did it come from this Galaxy? Are we the manifestation of His Soul? In a way, the creator of our Soul (was the seed from another Soul, and likewise, we'll become a seed for another star ourselves)).

(There is no hypocrisy in Creation, unless it comes in from a lack of intelligence and we decide to accept that position. In a way, 'I made Man in the image of Myself.' Are we the image of the Soul that created our SS and Sun? (Our Position (entity) was already dictated by that). (We've seen the mistakes of this Soul, and that's why we have to change the Man. Our (Mother/Father) Soul was not able to take sufficient energy from the U to survive, so it started killing for it. All these killings that we suffer from came from the Soul that started this SS, because it was misguided and didn't provide everything that was needed for life. (This was the same for Venus, and will repeat itself for Mars when it comes into the position of the Earth). (The center of the Soul that created our Sun lacked something. And this is why we are developing systems to change this. So that when your Soul leaves this planet at death you will not repeat this mistake in other parts of the U)).

(Another question to ask is which Universe do we come from? Where did this Soul come from that led to the creation of our Sun, which created all this mayhem. Which civilization did it come from? Or was it just an accident of the Soul arriving and receiving extra energy, and that's why we became what we became? Or was it because it lost some of its energy and we became this way? And in balance with its environment, it created this condition. (When we taught you about the Gans's, especially the Chinese, Italians, and Brazilians started feeding the Earth with them). Some of you still spread the Gans Waters. You are changing that condition of lack by spreading energies around and changing the environment. (?? You are creating a new timeline that affects the levels of the energies of the emotions and behavior of the Man. Thus, you are changing the Man. Carry on with this work because you are creating a new timeline for humanity. What you do physically, we are doing the same in our teachings). And especially these past two weeks we have been changing the timeline for humanity. (?? And we have been adding to your energy and inner sanctums, for your understanding and for distribution of the fields of the Universe)).

(Mr. Keshe is receiving data Live about this session. We see a lot of alignment in the D of the Soul and Creation. We need to understand where these conditions come from. In a way, when I am quiet, I'm tampering with your energies. We are changing things in the background for this Live session through one control system. We want to see how you will feel and what things we can change. We see all this from observation of the data coming in). (We have centralized the position of the STP, which means it changes your emotion. Right at this moment many of you might feel different emotions. (It's more about having a positive life, and in the interaction of the STM & STP). (Hunger is getting fed). We'll show this later to you).

(It's important to understand the Totality, then we become good at creating a new dimension through the Position and Possession. We are feeding you with energies. (It's what we taught you before about using the energy of the apple as a seed to attract the 80% from the U. That seed energy is in your intestines and attracts stronger fields of the U. What we are doing is, instead of feeding you with the energy of an apple, we are feeding your Soul. We're making it available, that if it's hungry, it will take it)).

(As Man evolved in the physical D every element on this planet came within the structure of the body such as Zinc, Oxygen, Uranium, etc. Because as Man takes (food) from the Earth, new elements come into his body. The body doesn't get rid of these new elements, instead it finds a new use for them to make the body more efficient. We are doing the same thing (with our system), but this time we are making it available to the Central Energy, or STM, and this changes the D of the intellect, and enlightenment. (As the Enlightenment uses it, it changes the emotion, and the emotion is connected to the STM & STP, and they change the P of the Man)).

(We want to monitor how you change in this process. Hopefully, you took some self photographs of how you looked before the sessions started 2 weeks ago. Try to take some now. Then compare how you have physically changed. And take some over the next few weeks and we'll see how you have changed your features. Are you taller? Do you look

much happier? Have the lines on your forehead, and frowning disappeared? Have some of the lines on your face disappeared? Or have more lines formed? Then we'll understand that, as we change the Time, the cell structure also changes, and you look younger. Because now you are receiving an energy which has never been available to the physical dimension of the Man before. It's available to the STM which transfers it to the P and this changes the timeline. You used to look 40 years old and now you look 30. You can see how the timeline changes).

(The reason we are teaching you about Time is so you can manipulate the conditions and use the Soul to rejuvenate your life. You do this in conjunction with the STP, and comprehending the Totality of the work of the Man, and nothing else. Try to understand how we're playing with the Time. This is why we are teaching you about Time. You can always look and behave like an 18 year old, and not an 80 year old person. You can learn to increase, elevate, and change your intellect. And through changing the Enlightenment keep the same timeline, but change the emotion. It's by changing the emotion that we change the timeline. ?? Then the only thing to change is the Possession and Position).

(This is the true meaning of the 'Fountain of Youth.' It comes through this energy, not through the P or just using make-up to cover up the aging. (?? You make the future through what (energy) you can receive from the Soul). (?? People are reporting feeling happier and having better relations with family. It's because of your interactions with them. Because when you enlighten then you radiate the fields to them and they receive. Through our connection we spread the fields to others. Our Souls are connected to each other. When you get enlightened you change your emotion, and that changes their emotion)).

(For those who will participate in tomorrow's Monthly Flight session, we'll do something fantastic for you. I will bring such a change. I want to see how you will emotionally feel the change. I will touch the emotion of the Soul. Over the next 3 monthly Flight sessions we'll play with transmutation and communication that no matter where you land, you'll be happy. The cause of 90% of the killing is because you're not content and you try to find something else. Being content and happy (is important). I want to see how many of you will change over the next 2 to 3 weeks. We'll also play other games that will help you start transmuting. The game of the transmutation through Space, and mass transmutation has started, but we have to fine-tune it, and we are using you as guinea pigs to see how you'll react, behave, and change).

(Some of you have written and said, that your addictions stopped just after last week's session, and other people's behavior has changed towards you. This is because we are feeding you what you were not getting from the Earth and Sun. Now you're receiving it through the teachings at the Energy level. We are bypassing the Earth and the Sun and connecting you to the Universal fields, so you are not short of anything. You receive the Enlightenment and that brings happiness. I always love the Chinese proverb that says, suffering makes a man think, thinking makes a man wise, and wisdom makes a man rich. We are giving you that wisdom, so that you feel the richness, not the money in the

pocket, but the essence of the elevation of the STM. This is our responsibility as Universal Teachers and we will continue to do so).

(Even after 600 teachings how little we have learned and how much more we need to bring maturity to the Man step by step. In the future all or your siblings and offspring's, and ?? your great-grandchildren, and who will become the Children of Mitra in Space, will study these teachings. They will become part of the knowledge of the Soul, and the enlightenment through the energy and knowledge).

(Man has to understand where to draw the line and what the next step will be. (The idea, that I am only interested in 'what's in it for me,' is finished. Now it is, what I can do to give and be part of the Enlightenment through the Soul. We should all know exactly (?? who we are and what our life is about). It will be interesting to hear how you Knowledge Seekers (KS) feel at the end of this session and what has changed inside you. What timeline did we move? In this session we are moving the timeline. That's all we are doing. (We fix the timeline of the STM, then we ?? fix the P timeline, ?? then we can change the Possession and how it reflects into the Place. (?? And a third part is that you decide to change, the Place, Position, or Possession. But you cannot change the Place, you will remain in the same clothes and room. (However, you can change ?? part of the energy of the Possession and Position))).

(?? Through the fields you might look younger and be more happy, and find contentment within yourself. You won't get bored. This is how we play with your timeline. (When we taught you to change the position of your lungs, it was actually to show you a way to change your timeline back. But you didn't do it, because you get too busy with other things. Now, we are going to ingrain it (within you), by bringing a new energy level that does not exist on this planet. (?? Man kills because he doesn't have that energy, but he can also become unified when he does get it)).

(In a few weeks we'll address the shortcomings of Man on another level. (Let's explain it this way. If you are born in Switzerland you become what I call, a 'Swiss Man.' It means all your needs are met by the society. But for a child born in Africa his parents have to worry about how to feed, clothe, and provide shelter for him. It's the same in other parts of the world like in India, and the Amazon). In a very short time, we'll give that 'Swiss Life' to every single child born on this planet. We'll change the Time and bring a new D. We are set to do it. We just need a few 'tweaks' in the next few weeks and we'll bring the cooperation and elaboration of change of the Time for the whole of humanity. Then we'll move to the next step. I am who I am. I'm born to be free. I'm born to not to worry where and when the next food will come from. In a way, every child born is born with sack of gold in his Soul).

(The governments cannot interfere, change, (or stop it). (In England they made it a criminal offense to use your mobile phone after 10 PM). Now there'll be no crime because we'll elevate the Soul of the Time of the Man. We have brought a new energy into the cycle of the Man, which doesn't require any government (control). All we need is the Knowledge of the U. We are the Messengers. We are here to save humanity the

correct way. Even though we live amongst men, and live the same as Man does by sharing his sufferings and joys. We do this so that we can understand the weakness of the Man and his flaws, so that we can correct them. How can you do something if you don't have an understanding of it?)

(How would you know what hunger is if you're born in Switzerland with food and money on the table for every child born? The Africans know it and so do a certain percentage of the children in America who go to bed hungry because there is no food. Mr. Trump has wiped out a lot of jobs (and the children have to pay for it by not eating). Now we are going to provide that food, and the contentment through the T and knowledge. We'll work indirectly through the work of governments to create condition to change the timeline through knowledge. Our work is now to enlighten the world leaders in this dimension. It's the responsibility of the Universal Council to take up that challenge, and feed the Universal Energies to the Souls of the world leaders to bring that change and balance. We don't look at the shortcomings of the wars (Man makes, because it's like volcanic eruptions, they can't be stopped). There is too much energy and testosterone, and it has to hit somewhere. It's like the bulls fighting in the fields, but only the Man uses weapons).

(?? We have to create a condition of power through increasing the energy in the D of the STM, and this will bring a new timeline, a new energy, and then the body of the Man has to make a material for it. But since he cannot make a material, because this material does not exist on Earth, then instead it (creates a new energy, D, Possession and Position at the Place that is already there and cannot change. The Soul that created the STM was short of energy to create a perfect life)).

(Every Man is responsible to understand the totality of the operation of the STM. (?? This is a Right given from the Creators). But Man has to put his hand out and take it, and understand and use it for himself. (?? Because what you are lacking will be passed onto what you create. You have your lifetime to mature and correct it, before you reach the "Half-Life," and create a new cycle of life. Your Soul should reach self-containment, and contentment before leaving)).

(Now you understand how we have been playing with your Time and timeline and why your behavior towards your siblings, children, dog, neighbors, and others have changed during the past two weeks. And they have changed towards you. And you have changed towards yourself. You start to love to live because you are no longer a burden on your own emotion. You enjoy your emotions. (It's because we changed the timeline. Even as you are listening now you're going through that process. We are not enforcing it. We just make it available. And if your Soul is hungry for it, it will start eating, or using the available links to feed your emotion, and change both the STP, and P. I explained this process many times and now you might understand it. This is how we feed the Man through the STM, and he feeds the P. It's done through the enlightenment. The enlightenment increases the D of fields of the emotion, which is the connection between the STM & STP. The STP is the feeder of the Man).

(?? On the graph this parallel flat line is in the D of the physicality, and it means the STM, STP, and P work on one line. ?? On the Energy side is the Soul. If you change it horizontally, then you change it to the D of physicality, and it manifests as contentment in all 3 dimensions. Now it's time for that change. (Is there another field energy that can change us? Can it change the conditions of the Position and Possession? Would we be able to come to an agreement with the governments that the satellites can beam out the Energy Fields of the U to change humanity and all the creatures on this planet?) It won't matter if they are above in the atmosphere or below the ground in the Earth all will change. The Man shall not kill nor do wrong things, because he will have a 'Swiss Life,' and doesn't need a Swiss Knife).

(This is our job as Messengers. And eventually this will be the work of the KF under the banner of science. This is why so many governments attack and fight us, because they know in their Soul, and in their subconscious, that we are here and we'll bring that change. They can cry and shout as much as they want. When it's time to give you that medicine, we'll hold your head and legs and force feed the child to take that medicine. Because we know it's good for you and it will feed the STM. It will be the end of killing, and the beginning of the love of the man for the Creation and created and a new cycle will begin).

(This is our job as Universal Teachers. For those who became Prophets, the others are making profit in their name. As Universal Teachers we make sure all will benefit by the knowledge. You'll receive the knowledge. You are the givers. We don't interfere. We enlighten. Enlightenment brings the change, and the emotions will change (the D of P). The Place of Earth is fixed, so the only thing left to change is the Position (entity). You might look younger like when you were 18 years old and you'll be more active. Your husband will receive the energy from what you do to change yourself and he'll also change. We have started the process. We have to bring the knowledge in a way that you can understand and bring the change. It's time to understand that the true life of the Man sits with the STM and not the P).

(During the break notice if you went through any changes between the first and second halves of the session. For those who join us tomorrow, observe what changes you go through. We'll change the Time and bring the enlightenment that will change the D of P. Use your Cosmic Ray (CR) Balls and other things you might have from KF. You should start seeing a reduction in the need for the D of P. You can do a lot of things with these CR Balls. Place each one in your hands and if you have 2 more put them by your legs. Then in the second half move the two by the legs to the sides of your head. Start to play with the D of enlightenment, and see how it changes the P to the D of Energy and back. This is where all the fun starts).

(To honor those who have served the KF we sent out some free CR Balls and we also put some extra ones in the Cosmic Mystery packages. We are thanking you for your services to the Foundation. This will allow you to enlighten and bring a new dimension, and evolution to the STM).

(These CR Balls are an amazing gift that are beyond any value this physicality can offer. They are adding more energy so that we can serve more. Thank you KF!!!)

### **End of Quick Index Part 1 - 600 KSW July 24, 2025**

(There were some comments about the effects of last weeks session. A KS said, there were very positive changes in his daughter lately. She has been very messed up with drugs and she wasn't communicating, and now she started communicating with us in a happy and positive way. And the KS realized what changes need to be made to not repeat the mistakes of his past. Another KS said, she cannot stop crying, and she is so thankful).

K- (It's important for us to know ourselves, and then (the energy) we release allows the others to live a better life through us. In a way, we become like the Sun. We call this being Satellite Souls. Many of you volunteered to become Satellites. In these sessions many of you will start becoming what you volunteered for with your Soul. We'll keep it this way, because it's our job to bring the change. (Working through the Soul is not the same as working with the P, and it's not about donating money. Becoming a Satellite Soul is about making the Soul available to (help others). We're setting this up in a very big way. This is what the KF logo means, that we are here to serve. Many of you (were looking for something physical. But we are really here to serve the STM, and not the P of the Man. The Man physically serves himself whatever he likes anyway. And maybe by serving the Soul we'll change the Man. This is the whole parameter of the work)).

(A new series of 3 sessions are being setup starting in August through October and you can register for them. These sessions will bring you to enlighten yourself to the next phase and the rest of it. In the first session we'll put you to reach transmutation in the dimension you like).

(We're still battling with trying to sort out the situation (with Markray). We received many supports and donations, (but the amount we actually need is so high that we have to find another solution, so collectively we can bring that change. As long as (we don't solve this, it is still pending. It takes a lot of time to sort such a thing out). Before I used to (use a million or two of my private assets, but a lot of limitations have come through the misconducts of others)).

(We are here to bring a lot of change, but (it has to come through you and not by us). We are not a cult or a religion. We are a scientific organization that helps you to understand the process of Creation. (?? Other institutions and organizations don't really make much difference. But the work of the KF sits somewhere else and it has a different criteria). In the next two months KF will make huge announcements in accordance with what we agreed. We set up for the structure of KF for Markray, Keshe Coins, and Cosmic Rays. A new criteria and new balance will come into operation. One of the KS who heads the KF has written this out in detail. (While reading it yesterday I understood how enlightened the people and management at the top of KF are. They are tuned to our purpose without having to speak it out. One day I will release this text of the KS who serves the KF through his Soul. It does not matter what it brings (or ?? how it is explained) in the D of

P. There are other Knowledge Seekers who without knowing it, are setting up (things) to bring the change).

The following are some more comments by KS about what they felt in the sessions. I am more master of my Soul, calmer and more serene. Another says, relationships in my family have improved significantly. Another one says, in a complicated emotional situation, I felt more detached and objective. (I felt a relaxation in my chest). Another KS said, I cried a lot during the teachings, with a very deep joy. Throughout the teaching I didn't feel sleepy, I was very attentive to what was being said. Another one said, Hello, wow! So deep, happy, strongest emotion ever inside. Thank you so much. Another one said, despite having completely reduced my food intake, I felt nourished and energized with incredible energy, and a very pleasant feeling of harmony and balance. And finally one said, my husband has been trying for years to get rid of me. Now he is moving himself out of the family home, etc, etc. Much love and appreciation. I am a Satellite Soul and living... loving it).

Q: (A KS tells about his experience with the T and how it helped him with his cardio-respiratory system in 2023. And his experiences with electronic digital devices that are being used for evil purposes of spreading diseases through energy packs over the phone lines. He wanted to know how he can shield himself from these transmissions so that no government or criminal enterprise can attempt to dominate or harm us through the malicious use of these technologies).

K- (The change is set to come through the sharing of T and the advancement of it in a special way. There is a window of opportunity for KF to bring, effect, and interact, or whatever name you want to put on it, with governments and the structures that effect our daily lives to bring the change. We have produced this system for change and the next step is to get it into the satellites and communication channels. Not by hiding them, but by embedding them into the mass communication systems. But there is still a lengthy process to perfect them).

(We are on the verge of being able to change the emotion of the Man collectively. We can turn the violent Man into a peaceful man through feeding his Soul through our systems, and his Soul will feed the P. Instead of spreading buckets of Gans's around the planet and in the rivers, we can simply and directly transfer the emotion of peace and understanding through the satellites. This will also feeds the whole planet including the animals. Anything that has a Soul will receive it and will change. We are not far from it. And we are developing structures through governments to reach this position. It's the greed of power that has allowed us to bring this into the position and do it. (We are bringing the T to feed the Man, change the STM and the emotion using the present communication system, but through plasma)).

(Mr. Keshe compares the graphs taken last week that show how the STM got concentrated in the upper part. And now they are trying to feed the STP directly from the STM. As you are Souls, we can transfer the energy we receive to you. 'My wish is my command.' (Try to follow it in the recording. He was able to turn them upside down so

the STM went to the position of the P). This is why your physical field changes and you report physical changes in those around you. After the break he used a different configuration in the systems. It shows fields from the U directly feeding the Soul. Then we see the brightness in this area of the P. And when we feed the Soul, it changes the emotion and we'll see it in physicality).

(I expect people who participate tomorrow to have an increase in life span in the long term by 10 to 20 years. And some should experience the joyfulness they had 20 years ago. How will this change your children? We see this when the grandparents hug and cuddle their grandchildren. They feel more love from them, because the grandparent's love for them is more pure. The grandfather has no blood connection to the grandmother and mother. This is why the elders love to see their grandchildren, and even talking to them on the phone gives them that energy).

(Please don't worry about the snoring in tomorrow's session then you'll enjoy a beautiful session. I set up one of the most beautiful experiences the Man will ever feel. You'll be glad you are alive and part of this cycle of creation in the D of P. (We are not here to make you closer, or further, or find a solution in the D of your life). We are here to bring a balance. We are here for Man to find his Position and Possession, then it's up to you to create it. We are providing the energy that allows the change. We never talk about it because we don't want you to have a preset mind. We like to observe how you change. (?? This is the same process that happens when grandchildren hug their grandparents with love)).

(In another comment a KS said they helped their brother with health problems by focusing on the Soul, and it worked and at the same time the entire family became closer because of it).

K- (This comes as elevation of the Soul and you don't need to do much. In a way, you let the Soul do what the P couldn't do. You become that paracetamol, antibiotic, (psychotherapy, or whatever you call that medicine, but it's on the level of the Energy. It works because the wish is pure and this is the beauty of this understanding. As your wish is pure for a suffering Soul, then the other Souls make an agreement and the P follows it. (It's like an army where the Soul is the General and the P is the foot soldier. (Right now we have the Soul doing the walking, but later you'll understand how it works). You cannot harm with this knowledge, because the energy and the fields create a balance. (You may think what is being done is wrong, but all the Souls are in agreement. The P has to carry out what they decided). The sooner we realize this, the faster we can change a lot of things in our lives. We don't need courts with judge and jury, because the executor is our Soul in balance with the rest. A lot of people don't understand this. Those who do have become magicians).

(It's like the job of a peacemaker, but where the peacemaker is now the whole of the Soul of Creation which you are connected to. (?? All the Souls judge and decide, but they cannot harm, instead they accommodate). That accommodation might bring you joy, but not the way you wanted it. You may become aware of your own shortcomings in the

whole relationship. Not that it's always somebody else's fault. Enlightenment doesn't just come by getting knowledge. Enlightenment comes by knowing oneself. This is the next step in the work of the teachings).

(When I was talking to some military people very recently, I said to them, do you know something? Don't just fall for me because I am working so close with you. Because I have a target. You lot have access to the satellites, and I don't. I need to get into your satellites to change the whole of the human race so that they become peaceful. He said to me, you're very devious. I replied, I can't afford to go to Mr. Musk and say, I want to use your telephone lines to feed the Africans, and everybody else can have it free. I want to make the life of the Man free. You have the tools. But the Man has to accept it, it cannot be enforced. Man will only accept it at the point of contentment. In a way, it's what you call, the salvation of your own Soul).

(What changes around you is that you'll receive energy of a higher order, (which will enlighten you and bring detachment. As all the Souls are dynamic plasmas they will connect to all the others. But don't forget, Man has a very huge weakness. He never wants to say, sorry and that he was wrong. If you observe it, and it is done in the correct way, you've done your job. It's not by shouting it, it's by actually doing it that counts. (?? And hopefully things will happen the way you expect it).

Rick reads some more comments. A KS says, I feel joy and beginning again, to give powerful unconditional love pouring out of me, especially during the Brazil Intentions. Another one says, I am more in peace, and my skin has changed, it's smoother and healthier.

Q: (A KS does a lot of talking, you can read it on your own. We'll summarize the main points. He gives a positive testimonial about receiving the fields in the teaching. Mr. Keshe said, something about aging and becoming more mellow. Also the body gets older and we have to accept it. Changing the P with plastic surgery makes it look younger, but doesn't change the inside. This only comes by elevation of the Soul and by understanding one's self and partially (through) detachment). You can understand the emotions better when you speak to someone who's got cancer or a terminal illness where there is no return. And if you have been through it yourself then you can transfer a different emotion and energy to them, than somebody who doesn't have that experience. It's because you carry that enlightenment of what it brings).

(Mr. Keshe had cancer of the pancreas in his 40s so he knows the emotion of it. When you have experience then you don't just speak words to people, you convey an emotion. He said, it caused him to analyze everything in his life and what he has done. What did he leave for his children, and what could he have done to change it? The doctors told him he had 2 to 3 months to live, maximum. Six years or so later and he is still here. In this way he knows what it means and what that emotion ignites in every dimension. And with that knowledge he became aware of a new level of understanding and a hidden enlightenment that nobody with (degrees and having done a lot of research can ever explain. This knowledge is not written in the research and scientific papers)).

(When you have been through these emotions and know them, then you can transfer them to others. When he works with the KF Wellness systems he feels the emotions. And this is why when he used to make Wellness reactors or systems for people they worked. (?? People changed because it went through his Soul. And why he can pass energy to others structure in critical situations. He doesn't have to be there physically, because he knows the emotion. This is part of the cycle of life. We have to educate people on the emotion side, which goes with the Soul more than the physicality).

Q: (The KS said that when he was ill he learned from KF teachings not to feed it with the emotions).

K- (Mr. Keshe shares some important experiences regarding the present state of humanity. Something has happened very recently. (It didn't happen in the physical Time of the Man, rather it's on the level of the Soul, or Energy and at what I call, the Soul of Creation). The way you have meetings of the Universal Council, the Universal Teachers gather and we have our own Universal Teachers Council. There are very few (?? members). (The words of one of the members touched me and I felt it. That Soul said to me, you took your time with Man, but now you're getting them to where you want them to be. And when you do that, our Souls also get enlightened. But couldn't you do this a bit faster? I said, Man is a slow animal. (He's slower than the slowest creatures we know (in the U)). But at least this time, we are going to do it correctly, so we don't need to come back and correct it again. It has taken time, but being patient is not a virtue, it's a necessity with the human race. (It's not just touching the Souls, it's elevating them without them knowing they've been touched). Man has the habit of resisting change, or accepting (?? new things, because he loves his physical life), or for whatever reason)).

(?? We did it this way and it has taken a long time. When I was coming back to the D of physicality I thought, now something has been achieved. (Because when your peers, or those whom you work with in different dimensions understand and appreciate the work you are doing, then you know you have achieved something. (It's because they are from a higher D and can understand and know the work that's being done, while the others can't appreciate it because it is beyond their dimension)). (This is another confirmation that when we teach the whole U benefits, because the others Souls are benefiting by what we are doing on Earth. And they feel the change). (And as much as we have to prepare Man to go out into Space, we also have to prepare the others outside not to have animosities, it's not really animosities, rather it's the distance they had to create from the Human race, because of its behavior. We have to help them understand that the Humans have been tamed, (and follow the Universal code of conduct). (I think Mr. Keshe means he didn't bring the humans as a herd, but rather through individual enlightenment to this point)).

(These skirmishes we are seeing between the religions, it's just because they know that their time has come. We see it, their end has come. When the Jews purposely bomb a Christian church to smithereens killing those inside, the end has come. It doesn't matter the 'lame' excuses they give. It's the same as what they do with the mosques. The end is not very far. They have become so sure in their big-headedness, that this is what brings

their own downfall. What happened in the past few days with the bombing has brought a lot of changes. It doesn't matter how the world leaders try to play it, the script is already written. Months ago I said, that the American Naval Forces are there to pick up the Israelis trying to escape. The borders are closed and the only people coming out of Israel are Mossad agents and those who are supposed to do more killing. Ordinary people cannot come out).

(This is something which the Israelis don't want you to know. A lot of Jews in Israel are paying the Palestinians to get them out of Israel through Gaza, and the West Bank. The Palestinians have made tunnels and know how to pass in and out of the borders. Many Jews who built good relationships with Palestinians are being helped and not just for the money. They do this despite being killed ruthlessly by the Israelis. It's because these are (not the Zionists), they are the traditional Jews who lived in Palestine together peacefully with the Palestinians for centuries. The beauty of it is the Palestinians could hold them as hostages for ransoms, but they don't. They risk moving them through because of the love they built up for each other over time. And what is even more amazing is that no money is exchanged, they do it out of love. Now in Europe instead of seeing Lebanese and Libyans appearing, we are seeing Jews. This is part of the enlightenment and it shows the true side of (the) work. There is still a light left at the end of the tunnel for humanity).

Q: (If you were to extend the life of the Man, what would the right way and how would it effect the planet?)

K- (We have to educate humanity. It's no use extending life just to create more mayhem. We have to educate the Man, and the STM. We have to bring about a new condition. Extending the life without adding value to it is useless. I am soon to be in my 70s, but I work many times harder than when I was 17, 20, and 25. In those days I used to run around getting things done. Nowadays I hardly run around but I (get more things done. My physical energy is perhaps more than when I was 20 or 25. This happens because the emotion to serve Man and complete the job is so powerful, that even the P changes). This is the same situation with all of us. (It's about reaching that point of satisfaction, happiness, joy, and accomplishment that brings a lot of things, views, and changes. Then you can compare it to when you were physically younger. You don't need to become younger or live longer. But you need to live a purposeful life, and this is what brings the change. It adds value to life. It's not worth living a hundred years if you have to be stuck to a wheelchair and live in an 'Old Folks' Home. The value of (feeling like you are 20 years old) is in being able to serve to bring the change. This needs training, and awareness. (It's about how you feel inside with what you're doing, and the way to do it. It's the satisfaction that increases the life span and the joy of living)).

(?? When I was young I had a huge amount of experience in the business world right across. But in the physical D there is no satisfaction. You can only keep climbing. Now what we do in the world of science & T is beyond (what the Man can understand). Back in the early 1990s Mr. Keshe setup something that was the prelude to Amazon. It was the time when the computers starting expanding and the Internet. He bought a hundred "dot com" computer addresses for people to buy things from. He learned a lot

from this experience and uses it with the KF Store. You have to go through the process of development like how the computers came in step by step to what it is today. As much enlightenment comes to you, also comes to the whole process that Humanity goes through. And it needs time).

(He tells how he was able to know what a President was doing through the Soul. His work doesn't come through making things, it comes from the knowledge, which creates a condition for (it to be made). (We had to learn these things about the Man, to be able to serve him)).

Q: What happened with the nuclear offering you made to the other countries (about Iran)? How is it materializing?

K- (It's working. Different parts of KF work differently. Many KS are working day and night for different arms of our work. When we make such an offer, it brings a change in the dimension of the work). It brings changes in the D of .. Now nuclear material is available to everyone. What's next?

(The Iranian officials don't want him to be part of the negotiations between Iran and the US. He said, it's correct in a way. They know where the talks are going towards and they will not bring what you or we want. He has to abide by the rules of the world leaders and the decision makers. (It will not change things. The Man has to change from within)).

(He talks about a couple of families who want to make a lot of money. They use religion to get to what they want. But they're going to lose everything. The Rothschild's have lost a huge part of their finances in the past few weeks. Soon you'll understand. The 5 big "Grain Families" of the world are having big financial problems. (One of the biggest Grain Families in the US is Cargil). ?? Some countries are refusing to accept American grain and are dumping it in the ocean. There is something to do with Ukraine as a huge supplier of grain. A couple of the families are on the verge of bankruptcy. Everything has gone very bad for the Globalists. They have nothing left but to push for war to try to get back what they lost. But at the moment change has come to them. They seeded it, but they lost control of the seeding. We'll see the change. And nuclear materials and everything else is now on the table. But everybody is waiting to see what happens in the Middle East with Iran and Israel. Then what will be next?)

(The American Administration will be taken to the court and we'll see the outcome. If you know there is a nuclear material at a nuclear site, and you purposely bomb it, then that is illegal and considered as genocide. The world leaders who made such a decision, will have to answer for it in court. It does not matter if they accept the conditions of the court or not. This action is against Human Rights, and the rules setup by the United Nations. It has been agreed that if you know your target is a nuclear site, then you cannot bomb it).

(Offering nuclear material to all countries will advance the technologies for everyone to benefit by. There is huge potential for mixing matter, energy, and radiation, and

especially Cosmic Radiation together. It will make the present computers, communication and transportation systems obsolete within minutes. This is where the next step and the next challenge is. The fear of what the Americans will do has gone out of the equation. (?? The Japanese overnight have stopped car imports to the United States. America doesn't have material to build cars, etc). They will collapse in one way or another. This is when the new technologies will have to emerge. If it carries on this way, I think the US will become a third world nation in the next five years. The Chinese have put many satellites above the present American AWACS defense system and it's obsolete).

(?? We want to come to an agreement with the Chinese to embed their satellites with plasma technology, then we can feed the Man and stop the wars by changing Man's emotion. But this needs understanding of nuclear radiation, plasma technology, and everything else to be able to do it. When you embed it in the satellites, it doesn't damage the satellite itself. There are a lot of new things to be thought out and systems to be developed. Radiation is part of it. Otherwise there will be no evolution, and we'll get stuck with the same CO2's, gold, silver, and always using the same materials. Nuclear, nuclear materials, nuclear radiation, Cosmic radiation are essential for the advancement of science and technology. If we go that way we don't need to feed the Man, we only have to touch the STM, and it will feed the Man itself. This is what we always taught you for the past ten years. We've seen this today on the graphs. You don't need to speak out what you want people to do. You make the wish through the Soul and they do it. The Soul decides the correct way, and that's how it will be).

(Mr. Keshe explains the latest graph from this Live session. It shows how the STP is feeding you. This is how everything has changed. This is a confirmation of the correctness of the T and that we understand how to implement it. The STP has locked itself into the Universal energy to feed itself, and it feeds the Soul and then the physicality). (The KS said he can't understand how the graphs work. Mr. Keshe tries to explain more. It's not a knowledge. If you see it, there is a line of connection here. It always has been there. Since we set up a feeding line, we set up a new structure. We are the only organization in the world, in which you KS pay us, so we can use you to make these tests for humanity)).

(He talks about the new law in England where you cannot speak on the streets with your mobile phone after 10 o'clock or they will put you in prison).

Q: They are adding layers and layers of control.

K- The new government is a Jewish government. They brought very Draconian rules into UK, which is now operational. If you want to spend over 1,000 pounds the Central Bank of England has to be informed.

(Last Saturday, July 19th the UK, US, Australia, and I think 15 other countries have given all the rights to WHO, which Bill Gates pushed through during (the Virus). The

WHO can order closure of the borders. If they create a fake virus, they can close the whole world economy, and it'll be done).

Q: Surely this is going to cause more mayhem.

K- That's the whole plan.

(?? He talks about Vatican and Knights of Malta they have special passports and can travel anywhere unquestioned. They make the rules).

(Mr. Keshe explains about how the Vatican works. When they wanted to break up the Soviet Union they put in a Polish Pope and it worked. Then the German Pope transferred the gold to the German bank. Now the American Pope has been put in to break up America. Trump was put in to create the Tariffs and destroy the economy. Then big states like California will declare themselves an independent country. They tried this with China but failed). (Please read all the details).

More comments about receiving the fields and changes happening to KS was read.

Tomorrow's session will be very intense. You can leave when you want. There will be a very emotional touch that will trigger transmutation.

I would like Knowledge Seekers to know we still need huge financial support for daily running of the Foundation. If you can help us in any shape or form it will be greatly appreciated. We haven't sorted the situation with Markray yet. I'd like to thank all the Knowledge Seekers in the background who are doing a lot of work for KF and wish you all the best.

**End of Quick Index - 600 KSW – July 24, 2025**

## **KEY-PHRASES:**

## **SUMMARY:**

## **ENGLISH TRANSCRIPTION**

(:14)

K- Thank you very much. Good morning, good day to you as usual. We welcome you to the Keshe Foundation Spaceship Institute teachings, the 600th one. And so many before and after it, which will come and it's been there.

It's a position where we have to carry on with what we started with a time, and position of time. And as we enter research development, and other phases of the development of the technology for the human race and beyond, it is time to open doors into the next step.

That when we get there, as usually maybe in 50 sessions, 100 sessions or whatever, we are ready, we have a record of it, we know what is to come.

As usual, today's session has the back of our systems in the unit, and we try to change situations, that we manipulate the strength of your communication or energy or whatever, as we've seen the last time. We become very good at it, we can target it, we can align it. We have taken pictures (graphs) beforehand, before even the session starts. And we've seen how you perform, what elevation you get and what you understand. And what have you discovered in past few couple of weeks that we actually 'wire you up' to the Creator. In a very direct way, we've seen you aligning the Soul, the Soul of Physicality (STP), and the physicality (P) of the Man more or less centralized to one line, which we never had before. Which shows we are connecting you to a lot of things. (:16)

We're getting a lot of feedback, how you change, how things have changed, how, even within hours, within days, situation between you and your family, yourself personally, and everything else has changed, has moved. The position with this teaching and Time is that we create the elevation of the energies of the inner sanctums of the Man. Then it's you who decides how to distribute it. It's you who decides how to manipulate through your, what you call, 'subconscious,' what is actually the work of the Soul. As I said, Man has found many, many names to cover his ignorance, to cover his lack of knowledge, and to cover what he cannot understand, but still tries to explain there is something there.

Enlightenment comes from the dimension of the, what we call, connection between the Soul of the Man (STM), and what we call, true emotion, and what we call, Possession (M field strength of the AA of the entity). When we use the emotion, when we increase the energy in the dimension of the field of the Universe (U), within the Soul, we create a new Time. In a way, from past few minutes you joined in, because the systems are already locked in, you have... your Soul timing has changed, compared before when you come in. Because you are receiving energies, which changes through the emotion, the Magnetic (M) field of the package in motion of your dimension (D). And in that way, we are, in a way, playing with the time, which you physically have. (:18) We change the Time which you have on the Energy side, because we are entering directly as an energy outside, we are that Cosmic Ray (CR) which you receive 80% of, now we are feeding that 80% into.

You receive higher order which you never received before. If let's say the Human race is bracketed at 100, and there is another 10,000 to go, now all your Knowledge Seekers (KS) are receiving in 120, 140, Which means you see an insight, you become elevated to the dimension of your own energy. We made it available, and to make it available we have to be in the bandwidth field strength of you. So, in the past two, three sessions, your time zone, your time in the dimension of the physicality, your time zone in the dimension of the energy, has changed. Inevitably has changed, there is no doubt about it. In a systematic way, as you are receiving higher bandwidth, you become more conscious of your emotions, unknowingly you do things. In a way instead of going through the evolution of the physicality we are putting you through evolution of the Soul, evolution of the energy part of the existence, which we denied. And with this as the Soul is the feeder of physicality, we create a new Times.

Maybe up to last week or two, three weeks ago, before you joined these sessions of past two weeks and today especially, you never enjoyed something before, you never thought of something, doing something before, and now you do it and say, "Oh at your age you're doing this, you're doing that." Because the Time has changed, (:20) you have maybe increased your timeline of life by another 10 years, two years, five days. Because the distribution of the fields, what you could not receive now, is given to your Soul. And through the energy of the, what I call, 'Time of the energy,' it receives by the body of the man. So in a way, we are changing. We are bringing a new evolution in the Energy side. We are feeding what the Soul had access to, but it could never, in a way, convert it to, to the Soul.

You'll see changes in yourself. It's not coincidental. How come it couldn't happen in past 50 years? You've been around for 20 years. You've been around, and suddenly it has started in past two or three weeks, or from today on. Because past two weeks you didn't have the field strength which was given. It's a different field strength today. We change the position, and we see how you move. You change your dimension of the understanding. So we are changing, and even today's session, your timeline. We are not interfering. We're making it available. If you're looking for a new enlightenment in the dimension that you'll change the dimension of physicality, understanding of the life, now it's available. Evolution of the Soul, a new timeline, in a way delaying the position of the separation of the half-life of the man.

And this process can be extended to such a length that you can live eternity. You never die. You cannot die, because in essence you're directly connected to Universal energy, Universal timeline. And this is part of the teaching of today. (:22) You have an Earthly timeline, as we saw, as we talked before. Now you're entering levels of the solar system, the timeline of the galaxy, the timeline of the Universe. And step by step, in the background, we're increasing the strength for you to be able to meet that timeline. Some of you in the past two weeks, maybe in the coming weeks as we extend the process, we have now start creating and making available to the Energy side of the life, might have extended your life by 10, 20, 30 years, maybe by 100 years. You do not know till you get there. Oh, I lived 130, 140 years. Go back to 2025 when I received it. In the coming time, when these dimensions changes we can actually measure it through the length, life cycle, energy cycle of the cell of the body of the man. You will see the reconstruction of the brain, because now what was matter state important, now is in the hand of the energy state. We call it consciousness. We don't become conscious of it. It becomes available to us. We become aware of it.

Now, in the session today, we are playing a very, very beautiful game, where you all know what it is. You know the systems are on. So you have made yourself ready to receive. Many of you have seen the change of you in emotion, interaction with your family, interaction with yourself, interaction with the environment in past two weeks. (:24) We see it, we read it as you tell us. Addictions have gone, attachments have gone, and there is more peace. Because the elevation of the STM, the timeline of that has been changed. We have brought in a line, in the line of the connection to Universal line of

energies, to you, in a very specific way. We launch it, we watch it, we monitor it, and we see how you change. Our team in the background continuously watching, exactly, exactly what happens, exactly how you change. We have monitored it before, we have registered it before, now we, in a way, observe it, in how you, as Knowledge Seekers, the elevation of the Soul, the change of the condition in your Soul, has taken place. And how you, as individuals and a group, sit to see, to understand and to be there. And in a way to understand it and to be part of it.

What will happen if we change one parameter? What happen if we have a look at understanding of the totality of it? What happen if we change the dimension of the field strength? (:26) The elevation of the STM which changes the emotion of the man, which in turn changes the, what we call, the dimension of the Possession is one of the games which Man can play. And when you get to a position through connection to the energy you can fix the time. I'm here now on the moon, so the time is fixed. You hold the Possession to have a certain energy. The Place and the Position (entity) need and is fixed as a moon. Now, there's one thing can change, your ?? Position. Your place is fixed. You're on the moon. We have locked the Time. We have locked the energy of the, what we call, is your Possession. So you still carry the STM. You still have the dimension of intellect memories of the man. But you're on the Moon. You cannot be a man anymore. Because the Position which was figure of the man on the Moon cannot exist. But the energies exist. Time is locked, emotion is locked. You're received directly through your headset or whatever, the energy which fixes the enlightenment and what we call, intellect. (:28) So you manifest yourself as a new creature, which can live in the Possession and the, what we call, the Place.

Man needs to understand this on technology (T). Man needs to progress to understand how to do it. In a dimension of physicality you change your breathing, you change position of your lung, you change your food. Have you ever thought why you take your food and it kills you? Man calls it a poison, but Man has never looked at it as an energy which brings a balance to the STP and the STM ?? . Death is not by, in a way, switching things off. That poison brings a new energy. It brings a new dimension to the STP. It's like the point you wait when you're 80, 90, 100 to reach that point, that what you call, a poison is actually freedom of the STM. It brings the energy so high, that it brings the energy of the STP in a balance, in the condition of the separation with the STM, that they separate. And you call it the cause of death by poisoning.

But in fact, if you look at it scientifically, in the knowledge of the Universe, you have put too much energy in. In that energy, you create a new timeline, and that timeline matches the timeline of the Soul. Voila! Separation, half-life. We do that in nuclear reactors. We target it, we bombard it with new energy and it splits and creates a new half-life. We call it a 'Nuclear Physicist', but it's all the same word, the same cycle. (:30) So, next time you see somebody dying of their poisoning, somebody comes to that position, understand they change the Time of, the energy of the Possession. So, when you change the ?? Possession you change the timeline, you bring in a new game.

Then we understand, even for poisons, we can create a new timeline that it never matches the timeline of half-life of the Man with the Soul. Then you understand why you even create anti-poisons. You drain, you change, you transfer energy back to. Because at the end of it, a poison still is an energy pack, it is nothing else. It's at the dimension which brings the STM to a new timeline. And if you understand this, then you understand why in your transmutation you cannot take that channel ?? poison, which is don't allowing your, in a way, Place, or your Position, to change where the energy sits in the dimension of the Possession, you create the end of the line for the Place. You change and dimension of the Position. Place cannot change, you're on the moon. So you manifest yourself as a new creature, which can stand the Place, which still carries the memories, the emotion of the man as a Possession. (:32) So you manifest yourself. The timeline cannot change because it's the Soul which has brought the physicality to the point. You change to a new creature, which can, has no choice. It hasn't been given a choice but to become the man of the moon, the Mars, or any place in the Universe.

You heard the word of 'reptilians' they come up with, and they try to explain things, mutation of man. Now you understand the physical scientific process of it. In the systems we have developed, we can do that. We cannot create a death, because we pass the energy to the Soul. Soul decides a new point of manifestation. But when we transfer you to the moon the Place is fixed. The Possession is the only thing which is going to go, or the Position. We are fixing the Position. You're going to land as a Man. You (would) die. It's (like) the poison. Energy cannot match. Timeline does not fit. You're holding the timeline in balance with the timeline of the energy. So what's going to happen to you? Voila. A Position (entity) appears. You might manifest yourself as a creature crawling 10 meter under the ground on the Moon, because that is where the balance with the others exist.

We know this, as scientists, we know this for the first time. Many, many research developments tell us there are civilization beneath us, as we've seen the civilization above us by NASA pictures. (:34) These are not beings that were on the Earth and they went under, they carved themselves in. No, they created a new Place. And that Place, at such a gravitational magnetic field, 50 meter, 100 meter, 2 meter, whatever, below the surface, is where they manifested themselves as a Position. And as the amino acid (AA) and the magnetic field of this planet conditions two arms, two legs, two head, parts, and the other way, they look humans. But they never lived on the surface. They don't need to, because the surface of the Earth kills them.

So when Man now is intellectually developing and finding, in a way, other lives underneath them, in the different layers of this planet, or in the span of the Universe, now you understand, it's the timeline which is matched, so the Position has to change. Manifestation of new creation, manifestation of the new understanding of a life in the ?? affair, now you understand why the worms live on the ?? vine, some animals have to be underground, why so animals live in the depth of the ocean, where physically to our present knowledge was not available, was impossible. They match, the what we call, the condition of the timeline, and then they match the condition of the, what we call, the Place and the Position, manifests itself as a creature.

Then, even you understand why dinosaurs cannot exist in the condition of today, because the timeline has moved. We cannot bring the magnetic field, energy balances of the, what we call, maybe 1 million kilometers, (:36) or 10 million kilometers, where the field strengths created the condition of the Position of the dinosaur. Because, the ?? (Position) is the same, the Soul is the same, surface is the same, the place is Earth. So, there is one thing left, the Possession has to change. And why suddenly the dinosaurs, for example, disappeared, a meteorite hit? It would have happened as the Earth comes closer, the timelines fixes. The Position has to change because the Place cannot change. It's centrally dictated when it was created.

The question is, whose Soul, what creature's Soul, made the seed for the structure of the Sun, that it led to the creation of the Solar System? The Sun is done, it hasn't appeared just to be there. We accepted it as we worship the skies and the fire, but now we have the intellect. We have to understand that what we call the Soul (?? Sun), what we call the Creator of our Creation, must have been, has come from another Soul created somewhere in the Universe that He found his Position at the Place where our Solar System (SS) sits today. Did it come from this Galaxy? And are we the manifestation of His Soul? In a way, the Creator of our Soul is the Soul of another Soul, which led to our creation, and became the seed. And this is the job of our Soul when we pass, we become another seed, another star.

There is no hypocrisy about the Creation, unless, because of the lack of our intellect, we decide to accept that position. In a way, I made Man in the image of myself. Are we the image of the Soul which created the Solar System, the Sun, and that dictates the Position. Is this why we have to change the Man? (:38) Because we've seen the mistakes of the Soul of the past, which is not created sufficient enough energy to take from the Universe, that has created the condition that we kill for. Now you understand, all these killings we suffer from came from a Soul which started this Solar System, because it was misguided, it did not provide everything. Why does this repeat again with the Venus, why does it again repeats with the Mars? Because, there is a lack of a structure in the center of the Soul of the stars (?? start) of it. And this is why, the systems we develop is to change that Position. That when your Soul leaves, when the Souls leave this planet, at the point of, you call it, death, such a mistake will not be made in the Universe again.

But the question to ask is, which Universe, where this Soul came from which led to the creation of our Sun, which creates this mayhem, that there's a civilization that, that came from? Or was it the accident of Soul arriving, receiving extra energy, and that's what we became? Or lost some of his energy and that's why we came. Or in the balance with its environment, it created that condition. If you notice, as I said before, especially with the Chinese, the Italians, Brazilians, you went out, and some of you still do, feed the Earth with Gans water. You're changing that condition. You're creating, in a way, spread of the energies, that the community, the environment changes. (:40) That the new, what we call the timeline, is created, that that affects at the level of the energies of the emotion of the Man, behavior of the Man and changing the Man. Those of you who put gallons and gallons of water in the rivers, the seas, the fountains and you spread your cities, and still

some of you do. Carry on, because you are creating a new timeline for humanity. We do that with our teaching, you do that which physically bringing that change in the position and the dimension, which affects, it brings, and changes.

So, in a way, part of the teaching, especially in past two weeks and today, tells you that we are reaching a new timeline. For your energy, for your inner sanctums, for your understanding, and for the distribution of the fields of the Universe. (Just one second please. We are working on 'you lot' in the background and the data comes in). We have to see how things set and I'll explain to you why. We see very much alignment on the dimension of the Soul. We see very much alignment in the dimension of Creation. (:42) And we need to understand how these conditions come from. In a way, while I go quiet, I'm tampering with your energies. We are changing things in the background and as it's Live and we have only one control system, we try to see how you feel, how we can change things, and what we see from the observation of the data which ?? is coming.

What is interesting to us is how we have centralized the position of the STP, which means it changes your emotion. At this moment of time many of you might feel different emotions. It's more in the dimension of the positive life, as we see it on our graphs, and it's more in the dimension of interaction of the Soul and STP. Hunger is getting fed, enlightenment is getting created. We see it as a graph. Later on we show it to you. As I said, we have connected it, we can even go Live to it, but we prefer to analyze the data on site.

So, in understanding the Totality, in understanding the Position and the Possession, then we see we become good in creating a new dimension. (:44) When you bring energies the way we are doing now, in a way we are feeding you. In a way, goes back to the teaching of the past which I always said, when you take an apple it's not the apple that you eat, that apple is the seed in the energy which creates in your body, in your intestine, that allows the stronger field of Universe to feed you, to bring that 80% in. Now with this process, we are doing that, but instead of feeding you with the energy of an apple, we are feeding the Soul. We're making it available, that if it's hungry, will take it, because up to now it didn't have.

In evolution of the science of the Man in a physical dimension, we see every element on this planet, within the structure of the body of the Man, Zinc, Copper, Oxygen, Uranium, Gold. Because as Man takes from the Earth, new elements come in, but it doesn't get rid of it, it finds a new solution how to use it, make it more efficient. Now we do the same thing, but this time we make it available to the Central Energy, what we call the STM, which changes the dimension of intellect, it changes the dimension of the, what we call, enlightenment. Enlightenment is being able to use, which changes the emotion, that emotion is connection between the STM and the STP of the Man, which through it would change the physicality of the Man. (:46)

What is interesting, I hope you have taken some 'selfies' (photographs of yourself) in past few weeks, and take some more selfies in next few weeks, and see what you see changes in the feature of your physicality. Do you look longer (taller)? Do you look much

happier? Has the lines on your forehead, the frowning and the rest is gone? Have some lines on your face have disappeared? Or there are more lines in the face? Then, you understand that, as we change the Time, the cell structure changes, you look younger. Because now you receive an energy which is never been available, to the physical dimension of the Man. Now is available to the STM which transfers it to the physicality of Man. Changing a timeline, you used to look 40, now you look 30. Now you can see timeline change.

This is why they teach you about the Time. That you can assess, you can see, you can manipulate the condition of, in a way, rejuvenation of life through the Soul, through the STP, through understanding the comprehension of the Totality of the work of the Man, and nothing else. Maybe now you understand how we're playing with Time. Why we teach about the Time. You want to look always 18, fresh, and behave like 18 year old, not an 80 year old? How can we increase, elevate, (:48) and change the dimension of the intellect that we change the dimension of the, what we call, enlightenment, that it change, keeps the same timeline, but changes the emotion, that by changing the emotion we change the timeline that there is no change but for what they call Possession, and the Position to change.

Do you understand what it means the 'Fountain of Youth'? The Fountain of Youth comes through this energy, not through just make-ups. It's what you take up from the Soul which counts what you make of as a future. Do you look happier? Has your position and prospect about the future has changed? Have you seen changes in your family condition and your interaction with them. Because, now that you enlightened you still radiate, they receive. Oh, something thing happen, change, their family changes, I feel different about. Because it's contagious, it's connected. Their Soul is connected to your Soul. You get enlightened, you change the emotion, you change their emotion.

In the tomorrow session we'll do something fantastic to all of you. All of you who participate. I bring such a change and I want to see how you lot emotionally change and emotionally feel the change. I touch the emotion of the Soul. And in the next three months sessions we play communication, transmutation, that does not matter where you land, you'll be happy. (:50) This is the cause of the 90% of the killing, because you're not content, you try to find something else. Content-ness, happiness. And tomorrow we play that content-ness game with you. And interesting enough, I want to see how many of you change, in the next 2 or 3 weeks. And then we play other games, that you start learning how to transmute. The game of the transmutation through Space, mass transmutation, has started. But we have to fine-tune it, we have to see how you lot, as what I call, pig .. 'guinea pig,' behave, react, change.

Some of you write to me that, "I have finished with my addiction," .. just after the session of last week. I have stopped things I used to do. I have reached other people. The other people have, behavior has changed towards me. Because, now you are what the Earth was missing to feed you, what did not come from the Sun. Now you're receiving through the teaching in the Energy level, in a way, that we connect you to Universal fields, bypassing the Earth and the Sun, and the shortcoming. Enlightenment.

Enlightenment brings happiness. Always, I always love the Chinese proverb. Suffering makes a man think. Thinking makes a man wise. Wisdom makes a man rich. We are giving that wisdom, that you feel the richness, not in the pocket, but in the essence of the elevation of the STM. It is our job, this is our responsibility to do this, as the Universal Teachers. We have to, and we continue to do so. (:52)

Now you understand how much the little teaching started some 600 lessons before was sent to bring, to mature, to teach, because these teachings are added step by step. Each one of you, each siblings of you, each offspring's of you, present and in the future, your great-grandchildren, and the children which become the Children of Mitra in the Space, will learn the teaching of 600 plus. It's become part of the knowledge of the Soul, the enlightenment through the energy, through knowledge.

Man has to understand where to draw the line and what is the next step. What is in it, for me, is finished. What I can do to give, to be part of, begins. Enlightenment, through the dimension of the Soul, through dimension of understanding, through knowing exactly where and how we are. It will be interesting to see how you Knowledge Seekers feel now. And how you feel at the end of the session. (:54) And what has changed inside you? What timeline we moved? We have, what we do with you in this session, we are moving the timeline. That's all we are doing. Which we fix the timeline of the STM. So the only timeline left to fix, to be, is the timeline of the physicality, which that timeline now is locked to a process we set up in the background, that it brings nothing but change in the Possession and in reflection into Place. And into what you decide to change as a third section of it. The Place, a Possession, and the Position. You cannot change the Place, you're still in the same clothes, in the same room. But part of the energy will change the Possession and partly change the Position.

Do I look younger? Do I look happier? Have I ?? made contentment within me? Am I content? I don't need to get bored. So now you see how we play with your timeline. What we taught you by changing position of the lung, was actually showing in a way of you changing your timeline back. But you don't do, because you get too busy with something else. Now, we ingrain it, we have brought a new energy level which does not exist on this planet. And because of it Man kills, because of it Man suffers, because of it Man's become unified. (:56)

In the coming weeks, in the very, very short few weeks, we'll address the shortcoming of the Man on another level. Which means, every Man born, become what I call a 'Swiss Man.' A child born in Africa, is the worries of the parents, what to feed, where to... Where is the next food coming from? Where is my shelter? The same in different part of the World, in India, in Amazon. A child born in Switzerland, from the beginning the parents refuse, even government paying us money. They work three days a week, they work to enjoy life, they don't work to live, to survive. And in a very short time, we gave that, not a Swiss knife, but a Swiss life to every single child born on this planet. The change of time, we bring a new dimension and we have set to do it. A few tweaks in next few weeks will bring the cooperation and elaboration of change of the time for the whole of humanity. We move to the next step. I am who I am. I'm born to be free. I'm born to

not to worry when the next food comes. In a way, every child born is born with sack of gold on his Soul.

Governments cannot interfere. Governments cannot change. You cannot become, as they say in England now, after 10 o'clock at night you cannot use your mobile phone, otherwise it's a criminal offense. (:58) There'll be no crime because we elevate the Soul of the time of the Man. We brought a new energy into the cycle of the Man which we don't need no government. We need no one but the knowledge of the Universe. We are the Messengers. We are here to save humanity the correct way. Even though we live amongst men, the same as Man do, suffer the same as a Man does, enjoy life as a Man does, because we have to understand the weakness of the Man, the flaws, then we can correct it. How can you do something when you have no understanding of it?

How do you know what hunger is when you're born in Switzerland and the food and the money is on the table from every child born? Africans do. And 15% of the children in America, not 25% ?? according to ?? statistics, go hungry to bed because there is no food. Mr. Trump has wiped out a lot of jobs, and (children) don't have the food to eat. We say in English, "Fur coats and no knickers". Now we provide that 'knickers.' We provide that contentment through the technology, knowledge and indirect through the works with the governments, creating condition that we change the timeline through the knowledge. Our work goes now to enlightening the world leaders in that dimension. It's the responsibility of the Universal Council to take that challenge, and to take it out, and feed the universal, what we call the Soul energies to the world leaders to bring that change, that balance. We don't look at the shortcoming of the war of the Man. It's like the volcanic eruptions, we cannot stop. (1:00) Too much energy, too much testosterone, hits somewhere. The bulls fight it in the field, the Man fight it with weapon. Creating condition of power through the energy increase in the dimension of the STM, brings a new timeline, a new energy, which the body of the Man has to make a material for it. As he cannot make a material, this material does not exist on the Earth, it brings a new energy, new dimension, new Possession and Position as the Place is there, sorry, cannot change it. The Soul which created it, came short fall of what it had, to create a perfect life.

Understanding the totality of the operation of the STM is the responsibility of every Man and it ?? is the Creators given right. It's Man who has to put his hand out, reach it, understand it, grab it, and use it for itself. Because what you miss here, the cycle of the life you create will be missed in there. So you have to live this life in the time of half-life of a man as a mature Soul. With everything within it, what we call self-containment, same contentment.

Now you understand how we are playing with your timeline, Time. Now you understand how your behavior towards your sibling, your brother, your child, your dog, your neighbor, in past two weeks has changed. (1:02) And they have changed towards you. And you have changed to yourself. I love to live because I'm no burden to my own emotion. I enjoy the emotions. We change the timeline. Even as you are listening now, you're going through that process. We are not enforcing it. We are making it available. And your Soul is so hungry that it's eating it, grabbing into it, using the links to be able to

feed your emotion, to change the STP, to change the physicality of the man. And this is the process I said many times in the past, now you may understand. We feed the Man through the STM, that he feeds the physicality. Now you understand it's done through the enlightenment. Enlightenment increases the dimension of fields of the emotion. And the emotion is a connection between the STM and the STP of the man. And the STP is the feeder of the Man.

What you will see, a parallel flat line in the dimension of the physicality, which means the Soul, the STP, the physicality of man work on one line. If you change it to the Energy side, we see the Soul. If you change it to the horizontal side, you change it to dimension of physicality, manifestation of contentment of the man in all three dimensions. Now it's time for that change. Would we receive another field energy that will change us? Will change the condition, the Position, and the Possession? Would we be able to come into agreement with the governments that the satellites do not beam out information from mobile phone, (1:04) but beam out the dimension of the energy fields of the Universe, on the humanity, on the creatures on this planet, does not matter within or outside or above, that they all change. Man shall not kill. Thy shall not do anything which is wrong, because he has a Swiss life, he doesn't need to be a Swiss Knife.

This is our job. This is the eventuality of the work of the Keshe Foundation on the banner of the science. And this is why so many governments attack, so many governments fight, because they know in their Soul, in their subconscious, that we are here and we'll bring that change. You can cry and shout. When we have to give you that medicine, you've seen what you do. You grab the leg, you hold the head, and you force feed the child to take that medicine, because you know it's good for it. You're in that position, you'll feed the STM. We grab you by every part of your energy physical dimension to feed that, what we call, the medicine. End of killing, the love of the man for Creation and created and a new cycle.

This is the job of us as Universal Teachers. Those who became Prophet, the others are making profit by their name. As teachers we all benefit by the knowledge. You receive the knowledge. You are the givers. We don't interfere. We enlighten. Enlightenment brings the change, the emotion, emotion change. (1:06) Dimension of physicality. Your Place is fixed on Earth. So, your only thing left for you, is change your ?? Position. Position, you might look younger, your husband will say, "Oh, you're beginning like when you were 18, you are more active." Tell him, "Listen, understand, you take from me, because I made it free for you too." Step by step, we bring that change in. And we have started the process. We have to bring the knowledge in a way that you understand, and then bring the change. It's time to understand the true life of the Man, that it sits with the STM and not with his dimension of physicality.

We go for a break. And when we come back, we try to answer any questions. And notice, if you notice any changes between now and the second session. And those of you who are with us tomorrow, this session will start around... We moved the session to around about 12 o'clock. That we catch all of you, America, in Europe, and in Asia, around about the same time. So we have to wake up earlier, and we want to know how you feel after

tomorrow's session. What changes you see in yourself, that it brings you to the position of changing the Time, bringing the enlightenment and changing the dimension of physicality. (1:08)

We expect many of you, especially if you receive your Cosmic Ray Balls, to start in the coming sessions seeing the, in a way, reduction in the need for the dimension of physicality, as you can do a lot of things with these Balls. If you have two Balls put them in your hands. If you have four Balls, two on the leg, two on the hand, and then in this half way through the session, move the ones in your hand which you put on your feet, to the two side of your head. And start playing with the dimension of the enlightenment, and see how you change the physicality to the dimension of energy and back. This is where the fun starts. Most of you should have received your, what we call, the Cosmic Ray Balls. Keshe Foundation through honoring those who served the Foundation, received some of these Balls as your surprise packages, which you were not expecting. This is us thanking you for your services to the Foundation. Allows you to enlighten, allows you to bring a new dimension, evolution of the STM. We try to bring balance into energy by the energy of the Soul, and then you have your physicality, you have enough on the table, and your morning lunch and dinner. We go for a break and we come back, and try to answer your questions. Rick, if you can take us for a break please.

**>> BREAK >>** 600 KSW July 24, 2025 (1:14).

K- In a way, we would like to hear from any of you, who had any experience in the last two weeks, and how you felt, if any of you wants to volunteer?

R: And, well we do have a note from Doug in the chat here, who says, "The change in my daughter is very positive, lately. She was very messed up with drugs and she wasn't communicating with us, maybe out of shame. But now we are communicating every week in a happy and positive way. This has occurred over the last month or so. I have been affected in my emotions and since last week I have reviewed my past activities in an honest way and realize what changes need to be made and not repeat the mistakes that I have made." (1:16)

K- Any other?

R: ... Kirsten who says, "Thank you so much, I cannot stop crying, I'm so thankful. Thank you to all of you."

K- It's important for us to know us and not the others. And then, what we release, that allows the others to live a better life through us. In a way we become the Sun. This is what we call many times, many of you, Satellites (Souls). Many of you who became Satellites, volunteered to become. In these sessions you'll feel totally different and you start becoming what you volunteered for with your Soul. And we keep it that way, because our job is to bring the change. And those who wanted to bring that change. The need to work through the Soul is not the same as working with the physicality, it's not the money you put in the bank, you don't do it. Donation or contribution. Making the Soul available to work, in a way, is what you became Satellites of (for). (1:18) We set that up, we're setting it up in a very big way. And this is a work of the, as it is on the logo of the Keshe Foundation. We are here to serve. Many of you looked at it, why don't we do this, why don't we setup that? We are here to serve the STM, not the physicality of the Man. As Man physically serves himself whatever he likes anyway. Maybe by serving the Soul we change the Man. And that's the whole parameters of work.

As usual, we make some announcements in this part of the, what we call, the teaching. Three new sessions has been set up if you want to register. And, that is for August, September and October. These sessions are very much bringing you to enlighten yourself to the next phase and the rest of it. And some of you will feel part of this in tomorrow's session, as I said. First session we actually put you to reach to the point of, you transmuting in the dimension you like.

We're still battling with the work of sorting out the situation, as our financial situation sets, to find a position. And we haven't found it yet that to be balanced and in, what I call it, within the framework of the Keshe Foundation. We received many supports and donations, but the figure is so high that we have to find a solution, put it in a way, that collectively we can bring that change. As long as that pends, we are pending, because it takes time to sort such a thing. Before I used to cash it out a million, two million was nothing, KF. As part of my private assets, but we have brought a lot of limitation through, what we call, misconducts of the others.

We sit here to bring a lot of change, but by yourself, not by us. We are not a cult. (1:20) We are not a religion. We are scientific organization that you, through it, understand the process of Creation. Institutions, organizations, does not really make much difference, because the work of the Keshe Foundation sits somewhere else, and for a different criteria, them ?? the work. And be very much aware, in the next two months Keshe Foundation will make huge announcements. And it will be done in accordance to what we agreed. And we set up for the structure of the Keshe Foundation for Markray, Keshe Coins, and what we call, Cosmic Ray. A new criteria and new balance will come into operation. One of the Knowledge Seekers of the heads of the Keshe Foundation has written this in detail. When I was reading it yesterday it brought back, without talking, how enlightened the people and the management of the Keshe Foundation at that ?? top, are fine ?? tuned without speaking, knowing the purpose of the work of the Keshe

Foundation. One day I release the text of the communication from the heads of the Keshe Foundation who serves the Keshe Foundation through his Soul, does not matter what brings in the dimension of the physicality. Explaining the work, what other Knowledge Seekers without knowing are setting up to bring that change.

Are there any questions? If we can answer.

R: ... There's a couple of other comments here, let me see. (1:22) Movahead comments, "I am more master of my Soul, calmer and more serene." And Dolores in Italian translates to, "Relationships in my family have improved significantly." And that's what was also commented previously by Doug as well, about the family being better, family situation. And Antonella has a comment in our chat here, "In a complicated emotional situation, I felt more detached and objective. The other day I woke up with energy, with energy, without energy, with a slow mind. I listened to the Knowledge Seekers Workshop number 598 for 20 minutes. I had a strange release, a kind of sigh and relaxation to the chest. And I came back lucid and energy as if by magic." We have a message through Rafael from Francielly. "I also cried a lot during the teachings, a very deep joy. Throughout the teaching I didn't feel sleepy, I was very attentive to what was being said." Katja says, "Hello, wow! So deep, happy, strongest emotion ever inside. Thank you so much." (1:24) Another message from Rafael, from Evanice, "Good morning Mr. Keshe. Despite having completely reduced my food intake, I felt nourished and energized with incredible energy, and a very pleasant feeling of harmony and balance."

K- Are there any questions?

R: We have one other testimony from Joy. Joy says, "My husband has been trying for years to get rid of me. Now he is moving himself out of the family home, etc, etc. Much love and appreciation. I am a Satellite and living... loving it."

Q: ... First I want to thank your Soul for helping me fully recover my heart health, both physically and emotionally. As I've explained on previous occasions, I had a serious problem with my cardio-respiratory system in 2023. But after using technology, MaGrav, Vitamin D, and listening to Knowledge Seekers Workshops 598 and 599, where you gifted us with the connection to the enhancement systems, (1:26) I feel fully restored in this and other physical and emotional aspects. Thank you very much Mr. Keshe.

My question is, since the beginning of the health crisis that hit Planet Earth in 2020, I felt that there is something very strange about the digital electronic devices I came into contact with. I felt physically and emotionally, that these devices were generating energy fields, that somehow interacted with my body and emotions. I began to observe what was happening to me and others. Initially, physical symptoms such as headaches, changes in blood pressure, and the appearance of spots and sores on the skin, as described in some scientific articles addressing this subject. During this period, I also noticed psychological changes in myself, and in many people I was in contact with. I tried to report this to friends here in Brazil, my relatives, government officials, health professionals, etc. Unfortunately, practically everyone ignored me, but I felt I was right in what I was

perceiving. Today, with everything I'm learning from your teachings, and seeing how powerful the technology, that can transmit energy packets by way of cell phones, is, I understand how evil minds were able to use it, for evil, and spread disease around the World in just a few hours. From this perspective, how can we shield our cell phones, computers, and other programmable digital devices, so that no government or criminal enterprise, can attempt to dominate or harm us through the malicious use of these technologies?

K- (1:28) The change, in a way, is set to come through sharing the technology and the advancement of it, in a special way. In a way that there's a window of opportunity for the Keshe Foundation to bring, affect, interact, whatever name you want to put on it, with governments with the structures which affect our daily lives to bring that change. What is interesting is this system what you see, now we have physically produced it. And in a way, this is the next step for implanting this technology into satellites, into communication channels. (1:30) Not hiding them, but embedded into systems that is reachable by mass communication. They still have a lengthy process to go to perfect this system. The system is not what it's supposed to be, should be, but it's a compromise, it's a step to the... as it's been the rest of the development of the Keshe Foundation to the final point.

But we are in a position to be able to change the emotion of the man collectively. And we are on the verge of this position. How to make a peaceful man out of the man of violence. How to change the man in a very in different way about the systems that, in a way, feeds the man through the STM. With a way of preparing to change the whole emotion of the man, instead of buckets of Gans's into the rivers and buildings, directly transferring the emotion of peace, the emotion of understanding through satellites, which then feeds the whole of humanity, the animals. Anything which has a Soul will receive it and will change. We are not far from it. We are developing structures through governments to reach this position. (1:32) And the greed of power has allowed us to bring this into the position of power to be able to be done.

In a way, we are bringing the technology to feed the man, to change the STM, the emotion of the man, through the present communication but through plasma. The biggest problem we had was conversion of digital into plasmatic in a very effective way and these headsets are set to bring that position but they are very primitive, they are the first stages of learning, and it brings in a dimension totally different. In today's session we in a partial way have achieved, or we are testing this on you. What is interesting for you to see in a way, I try to explain to you how much we have changed you. At the beginning of the process, how we literally have brought your system in a way, ?? feeding, directly feeding the STM. We bring changes directly to you as individuals. Very much concentrated on the dimension of the, what I call, physicality. And in a way, to bring about a dimension of understanding the STM, the STP of the man, and how Man receives energy, but in the direct line, and ?? a way the Soul of the physicality of the Man, which changes the behavior of the Man. (1:34)

Some of you remember last week's image which we gave you. And some of you remember from the other parts of the teaching how we changed these parameters, which directly touches you physically. In the second part of this session, since we come from the break, we have concentrated to feed your physicality. We have shifted everything from the Soul to the physical dimension. If you remember last week's pictures. The Soul was concentrated. Now we can feed the Soul in a way directly, that feeds the STP. What does this mean? I'm trying to find the pictures for you that you can see. This is what I show you. We created this now. And then I'm going to find a picture of last week. That you can see the dimension of the work, how much we have control over these conditions. And how the technology is developing to reach this point. You have to bear with me. This is a what I call a Live session. It's not something that was set up before. So the data as it comes you become aware of it. And then you see how you're changing this. (1:36) You say your daughter, your wife, your husband, your others have changed or whatever they've done, you have to understand there is a reason. You are that reason. You receive energy, you work with that energy and that brings you to that position. What is interesting for us is, I show you exactly. I'm going to find a picture of last week that you understand the change. It's not easy when you're looking a name, a needle in a haystack. Okay.

If you look at these pictures, then you see where we come in, and how this can be done physically now. And, as you are Souls, the energy we receive we transfer. 'My wish is my command.' And, I would like you to look at these pictures, then you might remember some of it. And you might not remember some of it. Why doesn't he allow me to share what I want to share? So, this might be out of sequence .. but we come to it and we share. You remember this last week? (1:38) This is where we touch your Soul. We concentrate on the work of the Soul. And you remember this dot and this here. And you see more or less nothing here. Just watch. And see what's happened now. This is where you are now. And there is nothing here. Just watch. and see. This is where you are now. And there is nothing here. And you see the position of the STM, and there is a reality of the Man. We have turned it upside down (the STM went to the position of the P). We chose... we're still working. You still see ?? specially here. You see the STP has changed position to this. And you see the STM and the physicality. This is why your physical field changes. That's why we want to know how you feel today. And this process is since the break. This is not before the break, because before the break you have a different configuration.

We set out to feed the physicality of the man. And we use the dimension of the STM to do so. (1:40) And interesting is, this is before the break, in the early sessions. What do we see? Nothing here. Here developing, and you see the Soul. And it's coming from the Universe, directly feeds to the Soul. And then you see the brightness in this area, the physicality. And in time, this, in the sessions like tomorrow, once we feed the Soul, once we go into the process of feeding the Soul, we will change the emotion and we'll see physicality. I expect people participate tomorrow to have an increase in life span, in a long term, by 10 to 20 years. Or, joyfulness of back 20 years from the past. Happiness, the joy, physical interaction of higher ?? feeling, when I was 40, when I was 20. It sets it up that way tomorrow. And, how will change your children? This we see, when the

grandparents hug and cuddle the youngsters. This is why you see grandchildren, when they see their grandfather, they run. They usually miss grandmother, because they get the love of their grandfather. They're attached to it, because of love, love of the grandfather is pure. They have no blood connection to the mother, to the grandmother. And they receive that energy, and they give that energy to the parents, to the grandfathers, to the grandmothers. This is why the elders love to see their grandchildren. (1:42) Even talking to them on the phone gives them that energy.

This is what this is about. How we can transfer higher order energy into the dimension of physicality. That the physicality is active. It changes that dimension. How many of you will not have the pain or suffering tomorrow, next week, whatever, ?? what has been with you for years, because now, through the STP, of being in the physicality, you physically see it. It is not something that is coming from nowhere. You don't see anything, literally, nothing as if you remember the others, we always see, big activity here, energy received from the Universe, what you call the outside, we short-cuttet it. Here, we had been doing the job, what the Universe was supposed to do with you. That's a shortfall that makes Man to kill, makes Man everything else.

And this is what is part of our work. And tomorrow session, if those of you who don't care about who snores or whatever, because some of you just waking up, some of you going to sleep, then you enjoy a beautiful session tomorrow. I set up one of the most beautiful experiences, Man, if you are in that level, will ever feel. And you'll ?? be glad to be alive, to be part of this cycle of creation in the dimension of physicality. In a way, we are set out to understand what it means to be and what it means to ?? arrive at, and be there to affect the future. We are not here set to make you closer, or further or find a solution in the dimension of your life. We are here to bring a balance. (1:44) We are here for Man to find his Position and Possession, and then it's for you how you create it. And this is beautiful what you see here. Because we are providing the energy in the dimension that allows the change. And we never talk about it because with them we preset your mind. And this is what we cannot do. But we like to see how you change. How effectively it will become. And then you understand this is what your grandchildren do to you when you hug them, when you cuddle them, when you see them. And this is what the process sits to be.

R: ... Okay, we have a hand up with Dean here, but before we get to that, let me just relay another comment in our chat here from UC Host 1. "I have a brother with a very delicate health problems, digestive and urinary system. Since the 598th Knowledge Seekers Workshop, I've focused on restoring his health, by connecting with him through my Soul, and the Soul of all those Knowledge Seekers, I'd ask for help to get better. He finally agreed to enter the hospital a week ago, and has been recovering. While the entire family has become closer around this situation."

K- ... This comes as elevation, you don't need to do much. (1:46) And in a way you let the Soul do what the physicality couldn't do by elevating the Soul. And this is the job of the Man. There's no room. In a way, you are a paracetamol, you are an ibuprofen, you are antibiotic, you are psychology, and what you call medicine, but on the level of the

energy. Because the wish is pure. This is the beauty of this understanding. As your wish is pure, by helping your brother or anything else, or getting rid of the husband, because it's a Soul which suffers, then the Souls make an agreement and the physicality just follows. It's an army, which the general is the Soul, and the physicality is the foot soldier. Let the foot do the walking, huh? Let the boot ?? do the walking. But now you ?? do the Soul to do the walking, but you understand how it works. You cannot harm with this knowledge. Because energy balance, field balances, create that balance. Even though you think it's wrong to me what it's done, why? Why should I do and then you do something? Because the Soul of all you agreed, you are a foot soldier, you just carry out what is said. And, the sooner we realize this, this faster, we can change a lot of things in our lives. A lot of things. We don't need to take ourselves to the courts, there are no courts, no building. Absolutely. (1:48) Judge, jury, executor is our Soul in balance with the rest. And this is where a lot of people ?? don't understand. Those who understood have become magicians.

In a way, it's like a job of a peacemaker. Where the peacemaker now is the whole of the Soul of the Creation which you are connected to. They judge, they decide, and they cannot harm. They accommodate. That accommodation might bring you joy, but not the way you wanted it. You may become aware of your own shortcomings in the whole relationship. Not that it's always somebody else's fault. Enlightenment is not just by getting knowledge. Enlightenment is by knowing oneself. And this is the next step of the process of the work of the teaching.

As I was talking to some military people very recently, and I said to them, do you know something? Just don't fall for me being so close to you, and working so close with you. Because I have a target. You lot have access to the satellites, I don't. And I need to get into your satellites to change the whole of the human race, and who lives here to become a peaceful. He said to me, you're very devious, you're a ?? I said, I can't afford, I can't go to Mr. Musk and say, I want to give telephone line to the Africans, and everybody else can have it free. I want to make their life free for the Man. And you have the tools. And Man has to accept it. He cannot enforce it. And only Man only accepts as a point of contentment, a way of, what you call it, salvation of his own Soul. (1:50)

So what changes around you. You receive energy of the higher order, the more enlightenment, detachments in a way. And as all the Souls are dynamic plasmas, connect to the others. And don't forget, Man has a very huge weakness, and that is he never wants to say, sorry, I was wrong. And that's where they do everything else, but saying it, but you watch. If you observe it is the correct way, you've done your job. It's not by shouting it, it's by actually doing it which counts. And if things happen, the way you should do, the way you expect it. So, the way you wish the well for. That's what it counts.

<< Rick tells Mr. Keshe that his volume is too low, and Mr. Keshe fix it. No it's ok I brought it up. Is it better now? >>

R: ... Let me see, I'd like to just read a couple more comments, before we hear from Dean here. Gail says, "I feel joy and beginning again, to give powerful unconditional love

pouring out of me, especially during the Brazil Intentions." (1:52) Stefania mentioned, "I am more in peace, and my skin has changed, is smoother and healthier. I had a contact with a person I care so much, that I didn't hear for a very long time. I've been receiving an answer I asked for. My computer stopped working in both sessions. After the session last week .. I could not keep my eyes open."

Q: ... Good morning, Mr. Keshe. I've been listening intently to all the words that have been spoken. And I too, on a personal level, have been going through many transitions and interactions, Mr. Keshe. And both in the physical form, on a Soul level, I know you touched my Soul a long time ago. And it's the STP that's starting to catch up a little, I suppose. All these things that Rick has spoken about, I seem to be going through this, as I said, physically, with skin conditions and emotional changes. I was doing some gardening recently and my physical body was very tired, very tired. I've been unable to sleep for the last few nights, because of something I've done to my structure. And since you've swapped the system, whether it's my emotions or whatever, but that's eliminated at the moment. It's suddenly, you know, I had a body that was very aching in a certain place, and now that's gone at the moment. And yet that kept me awake for the last two nights minimum. (1:54) So the physical side is definitely changing. You know, it's being more balanced, as you said. And the emotions are, yeah, they, what I'm finding is the emotions are totally different now. There's, I've spoken about this before, there's no big sways, highs and lows. It's more of a balanced emotion. And I don't get, whatever comes, comes to, towards me, it doesn't affect in the same way. It doesn't cause this big emotional sway of welling up of an emotion. It's just not there anymore. It's much more balanced. And it almost feels like the detachment, but it feels strange because, you know, we're used to being emotional beings based on planet Earth. And to suddenly to lose that emotion is an unusual feeling. That's for sure. So where that leads to Mr. Keshe with the situation to come, one thing I would like to say is, when will it be so beautiful for all of humanity to really start to feel this? Because you've spoken about the satellites and being able to beam this across the planet, so the whole planet becomes peaceful and forgets this war situation. And this condition is, yeah, is.. It's a difficult position to go through and it's like growing pains almost, but you have to give to the others, you have to keep giving so that they receive what you're receiving. (1:56) And I just, I wish that the whole of humanity and particularly our leaders really, you know, feel this, really get to feel it. Not just, just not just the talk, to actually feel it and to actually to have the Soul touched so the physicality has to move. Because I know the Knowledge Seekers, the beautiful Knowledge Seekers are very much already in this position. And you've already said this many times, we're all Knowledge Seekers. So, yeah. So that's my small testimonial Mr. Keshe, I don't know if you want to respond to that. Thank you.

K- Oh, it's nice to hear, but you have to understand something else. As we age we mellow too, huh?

Q: Yeah, this is true.

K- So that cause part of it?

Q: I think Mr. Keshe that it's generational. I don't say the word traumas, but it's generational emotions and from the lineage and others that have, you know, being part of a structure where you experience something. And it's that releasing of all that energy that's been stored and in position and you've had to deal with without really realizing it and you have to absorb the energy and you have to gradually give it out. When I first started my journey with the Foundation yourself, in the Foundation, I was on a very high spiritual position, and then that changed and the journey has been a long transitional path. But the understanding is much more profound. The teachings are so extensive. I know a fraction of a fraction of nothing. But they are so extensive that it takes a long time for it to absorb into us. (1:58) You can touch the Soul, but the physical side of us is so set in its position that it takes, it can take a long time to move, that's for sure. But it seems that way.

K- Yes, I understand and it's interesting to observe things about oneself and how things go. How we feel, how we regenerate our life cycle in a way. And our emotion partially is connected to this. No way we can change the physicality back to 18-year-old. But the... but now with the plastic surgery, you can push it back a little bit, but it can't change the attitude, their understanding and their behavior. But when we see a younger body or a more able body, it creates a different emotion in us, that it creates a new dimension of life. We see that on a daily basis. But I don't know if you remember a very old joke. The husband says, I'm fed up with this woman. She's old. She used to be young, and now, he's himself in 70s and 80s. I saw it ?? very recently. Again, I saw it and I just brought back. We can change everything with the surgeries of today, but we cannot change the man inside. And that comes by ?? elevation of the Soul, by understanding one's position and partially detachment. And we get tested by it. (2:00)

We see this on a daily basis. And it's sometime when you speak to people, if you've been through it, you know what you're talking about. You understand the emotion. When you speak to somebody who's got a cancer, or who's got a terminal illness that there is no return, somebody told about them that you have such a condition, to use just a word. But if you've been through it, you know what they've been through it, what they're going through. You can transfer a different emotion and energy to them. That sometimes, even that can change the condition of the cancer with them. Because you experienced it. You carry that enlightenment of what it brings.

I know this very well. When people tell me, or me, or my family, or somebody who's got the cancer, and blah, blah, you hear it is a cancer. But, somebody who's been through it, I know the emotion of it. It's not a word anymore. When you're young in the... your early 40's, and you're told you have a pancreas cancer, and nobody has survived it. You analyze everything about your life, what have I done, what is left for the children, what is... what could I do to change? ?? Oh I have so much, the doctors tell me, you don't have more than two or three months maximum. Two to six years down the line, I'm still here. Yes, now that I know what it means, I know what emotion it brings. And what it ignites in every dimension. And when you have that knowledge, (2:02) then you become aware of a new level of understanding. A hidden enlightenment that nobody with no teaching,

with no research, can ever explain to you. It's not written in the research papers. It is not written in any scientific paper.

But then you can, because you've been there, you transfer that emotion to them. This is why I always said, when I used to handle the Wellness systems, I could feel the emotion. And when I used to make systems, it was so successful, people could change, because it goes in with the Soul of me. This is why sometimes we have critical conditions. Sometimes I feel the situation, how you can pass the energy to your structure, not being there physically, because you know the emotion. This is part of the cycle of life. We have to educate on the emotion side, which goes with the Soul more than the physicality.

Q: Mr. Keshe, what you just said there, so one thing I realized some time ago was I've had conditions in my body, I know that if I'd have fed them emotion they would have grown into all sorts of things, conditions. And I learnt through the Foundation and through your teachings not to feed the emotion into it. So I changed, so the condition became more dormant, it stopped in its tracks, it didn't grow more. (2:04) So I wish that others could understand the emotion of what you speak about. If they can stop feeding the brain with an emotional problematic condition of thinking, worrying, instead of feeling joy and happiness and love for each and every moment, how they can completely change their structure. And that's why these systems and all that you're testing and showing, they're physical and they're so beautiful. But the Soul aspect is so powerful. When you should actually really understand the essence of the Soul, you can you give from your Soul to another Soul and you can really change. And I know I felt this with all the Knowledge Seekers, the Universal Council, and with yourself and many of the beautiful people that are around the Foundation. You sense it, you feel it, and once you have this knowledge, you can... you try to share it with the others, but they've not had the teachings, and so it's like trying to talk a little bit to a brick wall, where, you know, it doesn't understand, because it just hasn't had the in-depth knowledge, and it's getting that knowledge through. And I suppose the only way to do that on one aspect is to share it on a Soul level. I think that's the beauty of it.

K- I'm going to share with you something very... Honestly, it's not just with you alone. Something which has happened very, very recently. And recently you have to understand the time with this position, and the time, you call it, the Time of the Man. This doesn't happen in the level of physicality, it happens in Soul, in the level of energy, in what you call, the Soul of the Creation. (2:06)

The way you have the Universal Council, the way you have Earth Council, the Universal Teachers gather together as Universal Teachers Council. Very few. And this touched me when I felt, it's not the word of the man, you feel. One of the Council members, or Souls, said, you took your time with Man. But now you're getting them where you want it. And with it, our Souls gets enlightened. But couldn't you do it a bit faster? I said, Man is a slow animal. It's worse than the slowest creatures we know. But at least this time, we do it correctly. We don't need to come back and correct it again. It's taking time, being patient is not a virtue, it's a necessity with the human race. And it's not touching the Souls, it's elevating the Souls without the Souls knowing they've been touched. Man has a

habit of resisting change, or accepting the anything for the love of its life, for whatever reason.

And we do it this way. It's taken a long time. I remember waking up in a way, coming back to the dimension of physicality of the man and I thought. Now something has been achieved when your, what you call, peers, (2:08) people who you work with in different dimensions, who understand, appreciate the work, understand the work. Because, I, in a way, as a memory of Man, hear that your work has even benefited the us, the Souls which are connected to us, because you teach right across the Universe. And, in a way we feel a change. Because, as much as we have to prepare Man to go out in the Space, we have to prepare outside to put the animosities, not animosities, the distance they created for the Human race, because of its behavior. That, these creatures have tamed, they brought themselves to follow, not that we brought them as a herd, they have to follow. And this is the beauty of what we see.

These skirmishes we see between religions, it's just because they know the time has come. The end has come, for they're all it and you see it. When the Jews bomb a Christian church, directly, blow it up to smithereens killing some people in it, as they do with the mosques, and then they claim everything else, and then you can see where the end sits, not very far. Because they become so big that their own big-headedness brings their own downfall. What happened in the past few days, it brought a lot of changes. It does not matter what the world leaders play, the script is already written. If you remember, I go back on the teachings a few weeks ago, a few months ago, (2:10) I said that the naval force of the United States are there to capture the Israelis trying to escape. And they closed the borders, they are the only thing that escaped. But the only people coming out of Israel are Mossad agents and those who are supposed to do some more killing. Ordinary people cannot.

And very interesting, a very, very interesting report, which Israelis don't want you to know. A lot of Jews in Israel are paying the Palestinians to get them out of Israel through Gaza, through West Bank. Jews are paying the Palestinians to get them out of Israel, because they closed the door of the gate. Because they have the tunnels, they know how to get out, they know how to come and go. And many people who built a good relationship, not just for the money, they are the people who help the Palestinians, now are literally paying with everything they have for the Palestinians through the tunnels and through their ways to get them out of Gaza to freedom. Many of these people coming out, they're just getting very fast. If you live in Europe, you see a lot of young people has been slipped through these tunnels, through these lines, through Palestinians. Even though the Jews are killing them. These are the ones, they lived together. These are the old Jewish family connected to the Palestinians, are appearing in cities like Vienna. They're appearing in France and they're shipping them out through their channels. The way the Libyans and the rest came, now we see a large number of Jewish people appearing through help of the Palestinians. (2:12)

Those who are real Jews and they really build the thing. And the funniest thing is, they don't become captured. They don't become prisoners. They don't become a commodity.

And the whole of the Palestinian group helps them to escape from the country, which they created so much mayhem for them. This is the beauty of it. In the recent past, I've seen a few. And even they fly out to arrange for these to come out. They are moving their brothers, their sisters, their mothers, through the love and the connection they built with the Palestinians. And strangest thing is none of them become prisoners. They go and capture the Israeli soldiers, but they make tunnels, they make arrangements, no money transferred. Palestinians refuse to accept money to transfer these Jewish people out of Palestine. They pay for it with love and care. And we see it. And in the past few weeks, we've seen more and more Israeli refugees across Europe than anywhere else. Well, we used to see the Palestinians, we used to see the Lebanese and Libyans and the rest of it.

That's part of the enlightenment. This shows the true side of each work. As one of the Jewish ?? relatives saying to me, I'm just waiting for them to move me. And I wrote him, have you been moved yet? He said, I am on the move. No money exchange. And they kill them with bombs. And they give them clear passage through ?? those who serve themselves, help their brothers, they lived for centuries with each other, they know them. (2:14) And, now I said, there is still a light left in the end of the tunnel for humanity.

Q: Mr. Keshe, if you were to extend the life of the Man, what would the position be to be able to use this in the correct way, to be able to make it fulfilling for all the physical beings and the Souls. So not just to keep this cycle going of endless destruction and wars and everything else. To create a balanced population that is feeding each other in beauty and totality so the planet really does change. And for the Souls that are creating this for them to be elevated to the point where they cannot do this anymore or they have to change position. So by extending the life of the Man how would this affect the planet really?

K- We have to educate. It's no use extending life and creating more mayhem. We have to educate the Man, the STM. We have to bring about a new condition. Extending the life without what you call, bringing added value to it is useless. I'm in my more or less very soon in 70s, (2:16) but I work many times harder than when I was 17 or 20 or 25. Those days I used to run around getting things done. Nowadays I hardly run around but I do, I get a lot of things done. But physical energy is maybe more than when I was 20, 25. It's just that emotion to serve Man, emotion to complete the job is so powerful, that even the physicality has to start changing.

And this is the same with all of us. If it comes a point of satisfaction, a point of happiness, a point of joy, a point of accomplishing, will bring a lot of things, a lot of views, a lot of changes. And compare it to when you are physically younger. You don't need to become younger or live longer, But, living a purposeful life, changes that, brings that change. And, it adds to life the value of the life. The value of the life exists, ?? it's not worth living a hundred years and being in a wheelchair and in the old people's home. But the value of life is, being twenty, but being able to serve to bring the change. (2:18) And it needs training, it needs being aware of. And how you do it, and the way you do it, and how you feel inside with what you're doing. And if you get satisfied, then that satisfaction increases the life span. And it increases the joy in the life.

And when you've been right across the world of business, the world of science, the technology, and now what we do beyond the eye of a man. It's just totally different than when I was younger and the things I used to know. You're in the physical dimension, there is no satisfaction. It's just another step, a bigger step. Or when you don't think about it, it's just you set up a structure, which does, doesn't matter what you do, it rains. And you sometimes think, was it worth it? What did I learn from it? When I sit and watch these people like Amazon, we were in position long past Amazon, 30 years ago, when the computer came. Most probably it would have been one of these people in a very different, larger scale. But, do I miss it? No. Because what I do now, that brought me to where I am now, to learn to know how to handle what is there.

I remember in early 70s, I'm sorry, early 90s, (2:20) when the computers came and what you hear about Amazon, I started a company, number of them in UK, on the dot coms, beginning of the dot coms. And it was very simple. 5, 10, 15, 20, 50, and 100 dot coms. If you go on dot com, you'll find it on the Internet. And we started this, what we see with Amazon today. We had a 10,000 square meter warehouse, fully shelved, equipped with everything else. There was no need to look. Somebody sends an order. Those days was very early. These things people used to do within catalogs, if you remember in England, you used to get big books every year. They're like about 1,000, 2,000 pages. You just choose and send the order, and it comes. People were just learning. And I remember walking into one of our bank managers talking to us. And he says, Mehran, I want to ask you something. He said, well, he says, this is not me. I've got it from the management of the bank. We would like to buy one of your dot coms for so many million. Would you sell it? I said, I just started a few months ago. He said, we see what you're taking through it, and I think we think it's the future. Would you sell it for so many million? I said, no, I'm not interested, because I'm learning from it.

And now I look at the Keshe Foundation Stores, says, I used to run this 30 years ago. It's such a success. Now it's in the hand of people doing it, and still we have pitfalls. Do I miss it? No, I'm happy with mistakes made in Keshe Foundation, deliveries and the rest. This is part of the process. But when I look what that brought me to where I am, and what it brought the Keshe Foundation to be, because I know how to handle things, it's worth it. (2:22) You see the trucks of Amazon now. 1990's we used to have post, British post office fed up with us, sending trucks to just load every day. It was very simple. You want to give a gift, five pound. You put a four or five. It was there. We decided, or you decide, that's fine. We mostly bought the goods for about \$0.20, \$0.50 that time. Do I miss? No. But do I enjoy? Yes, I learned a lot from it. I know how to do other things with it. But, would it bring me any joy? No, because the joy of seeing what we're bringing, what is about to come. It's learning that, that you can do what we're about to do. And you can't just jump from one, you're just learning this. As much enlightenment comes to you, as come to the whole process of the Humanity. And needs time, needs time.

I remember in 1990s we used to get calls from the ministers, from the cabinet ministers, can you do such a thing, can you share such a thing? And I was, "Oh yes, I can do this for this government, I can do that for that government." Because, financial power gave us

that power to be able to deal with governments. And that's why today, for me, a Minister, a President, it's the same, because, I know who they are, I know how they come after. Very recent, one of the World Presidents moved somewhere. And I received a request from one of the governments, one of the top leaders. "Can you tell us what's going on?" I said, (2:24) "I want to know who he murdered." Someone's got to do with it, I said, "I want to know who he traveled with. Is he with that guy? And is he with this and this and this?" He says, "Yes, how did you know?" I said, "He's taken a bribe, go for it." And they found him. Because, we've seen the structure, we know the movement of the Man.

He's one of the World leaders, every day you hear in the news about. I received a call from one of the World leaders, "Can you tell us what is this?" And I just asked a few questions. And I told them, "Where they are meeting, what it is, and what is the condition, why they move together, ?? for what ." And it was not 99%, it was 100% correct. It is not we inside, we have the knowledge. And that knowledge brings comfort, because it stopped a lot of things in the background which should have been creating a lot of mayhem for the others. My work doesn't come in making things, comes from the knowledge, which creates a condition for. And we have to learn this from the Man, to be able to serve the Man.

Any other question?

Q: ... Mr. Keshe if I may, can I just ask this one last question, because you mentioned it last week. How was the situation, or has the situation changed, with what you did with the nuclear offering it to the other countries, in a different way. How does that materialize? How does that happen?

K- The way it is... It's working. (2:26) You got to understand, different part of the Keshe Foundation works differently, and many Knowledge Seekers, who are working day and night for different arms of our work. And when we make such offer, it brings a change in the dimension of the work. It brings changes in the dimension of, now nuclear material is available to everyone. What's next?

I have a big discussion with the Iranian officials about this. As you know, there's a meeting going on with the present negotiation between Iran and the US. And, the Iranian government refuses me flatly to be part of the negotiation team. Because, I know the reason, they are correcting in a way. And they say, "You are not there, we don't want you to be in the negotiation, because we know where it's going to go, and will not bring what you want, and will not bring what we want." And what do you do? I have to abide by the rules of the world leaders and the decision makers. But we can barge in and we can put things on the table and show the things and change the whole thing. But it will not change things. Man has to change in the grain of itself.

And at the moment we have, we have a couple of families who want to make a lot of money. And most of these conflicts goes back to the religions, and then they are using the religion to get to what they want, but they're going to lose everything. Rothschild's have lost huge part of their finances in the past few weeks. You'll understand. The people who,

the few families who support the grain, especially we're using in America, (2:28) they're in a big, big problems. The grain families have now run into a big problem. They used to control it through Ukraine. They lost most of it. And they used to work through America. They lost most of it. The 'grain families', the five grain families of the world are in a huge financial problem. With what's special, what happened with three or four countries, just dumping the American grains and corns and everything into the ocean, refusing to accept it, they are a hundred percent perfect and everything else, with the ??, has put a lot of pressure on the grain families. Couple of them are in virtually on the verge of bankruptcy. Even the richest families in the world. Ukraine they lost, and now they lost their mines in Ukraine. Everything has gone very bad for the Globalists. And they have no job except for pushing for the war, trying to get back what .. But at the moment change has come to themselves. They have seeded it, but they lost control of the seeding. We'll see the change. And nuclear materials and everything else is on the table. Anybody wants to take ?? part. At the moment, everybody is waiting to see what happens with situation in the Middle East with Iran and Israel. And then, what will be next?

We are taking ?? and his team again to the, what you call it, to the court. Especially, American Administration will be taken to the court, and we'll see the outcome. If you know there is a nuclear site, if you know there's a nuclear material, it is a genocide to bomb it. And it's illegal. (2:30) You'll see the world leaders who made such a decision, will answer to the court. Does not matter if they accept the condition of the court or not. But if you know it's against the Human Rights, against the United Nation rights. And it's agreed, if you know it is a nuclear site you cannot bomb it, because you know you create a mass genocide. And it has happened (by Trump). And you've seen the European Union has turned back, excuse of, what you call, Gaza, against these operations. And the European governments have started banning a lot of these people into Europe. In Slovenia last week, arrested two of the captains and ministers of Israel in Slovenia for genocide. They were arrested and in the background they were given to be free and they escaped out of the country. They don't find it easy to be outside.

And offering nuclear material is for everyone to benefit by because it has a lot of benefit nuclear material in advancement of the technologies. If you understand the potential of mixing matter, energy and radiation, and especially Cosmic Radiation together, you'll make the present computers, and communication, and transportation system obsolete within minutes. And that's where the next step comes in. That's where the next challenge is. And the fear of what the Americans will do is gone out of the ?? division with the Japanese. Japanese overnight stopped single car going to the United States and they blocked. They didn't do anything. (2:32) They didn't shut them down. They just diverted the cars. And America doesn't have material to build the cars and the ?? trains and you'll see the automotive in America will collapse in one way or another. And then it comes, that the new technologies has to emerge. And maybe if it carries on the same as it is, I think the US will be a third world nation in the next five years.

They have, but they don't have the manufacturing and the processing and the financial backing to set up these manufacturing. And it takes time. And technology has advanced so much that it makes other things obsolete. If you look at the communications system in

China, it's extensive. ... It's an insight into this. Americans came up with the ?? AWACS and they're very happy they're doing it. Chinese have put so many satellites above that made up AWACS is obsolete. If you are not within the banner of space you cover ?? under aircraft, you're going to cover the whole satellite 100 times ?? better than AWACS. And if you can do that, and you can come to ?? (agreement) with the Chinese and embed your plasma technology in, as we showed you today how we can touch the physicality and the ?? same. We can feed the Man while the satellite's running, change the Man, stop the wars. But this needs understanding of the nuclear radiation, plasma technology, and everything else to be able to do it. You embed it in the satellites, but you don't damage the satellite itself, because it's vulnerable to it, or you change everything into the dimension of Cosmic Rays, even as a structure. It's a lot to ?? come.

There's a lot of new things to be thought and systems to be developed. (2:34) And Radiation is part of it. Otherwise you have no ?? evolution, you get stuck with the same CO2's, and the same materials you're used to, and the same gold and silver, ?? and copper, and you're stuck. Nuclear, nuclear materials, nuclear radiation, Cosmic radiation is essential for the advancement of the science and technology in the next ?. Then if you go that way, you don't need to feed the Man, touch the STM, and the Man feeds itself. And this is what, if you ?? were on ?? the teachings for past ten years, we always taught. If you feed the STM, you feed the physicality and we've seen it today and the last ?? graph ?? we've been in this one. You don't need to go and shout to your brother or your wife, husband to do this, do that, with the Wish, with the Soul energy, they do it for instance, like what we had. He moved out, what caused it? The Soul decides, this is what's the correct way, and this is ?? how it's going to be.

Any other question?

Q: ... Amazing answers, thank you very much. And I'd just like to congratulate you and Rick and all the Knowledge Seekers, for 600 Knowledge Seekers Workshops. All that dedication and all that knowledge you've shared. Really, thank you sir, thank you very, very much. Thank you Mr. Keshe.

K- You're welcome. Thank you very much for being there. You supported us very much, solid. We appreciate all your support.

Q: Always will do Mr. Keshe. Thank you Mr. Keshe.

K- Thank you very much. ... (2:36)

Now, I would like to share with you your latest image (graph), and you see how, the STP is feeding your Soul, and how everything has changed. Now we change the system inside. Let me get back into Zoom. And I share with you, this is beautiful, if you... that's what I'm saying, if you understand it your knowledge, it is understand it. And, once one understand the implication of this, it is huge. And now you see how we can feed and you see it in Live. (Sorry about that. Every time I connect to a Zoom you get this). Watch

what's happening now. This is you. Since the change, and what importance since the break (Shows the Live graph of this KSW).

Now you see how beautifully, how beautifully your STP is feeding you. You see before, there is nothing more or less here (above). You see how it's fed. It's amazing. Now we fed the Soul before, in the first session. In the past, the Soul has learned how to do it. Now you see the, what I call, the STP. (2:38) You see, just watch it. It comes and it ?? feeds itself ?? I wonder how you lot who are listening will change. There is nothing. Expand it. You see there is nothing. The line of the feed to the Soul is still there from the past. If you remember the pictures of the past. It's... you see the line is still there. But, the Soul has had that apple, now he knows where to get it from. And, you see it.

This is a confirmation of correctness of the technology, we understand how to implement it. And what will be interesting to see, how this ?? region, in a way, changes tomorrow with you Knowledge Seekers. You clearly see, those of you who are with us, in this teaching, how you're getting fed. If you remember, from even the early session, we had this thing like this here. Now you see, it has changed to this. It's found its home. Which always has been the physicality, STP and the Soul of... We've touched you and we are in you. Scientifically, the correct way. And this line of connection is absolutely vital to come back. There is no feeding, direct in the Soul, or environment of the Soul. (2:40) The STP has locked itself into the, what we call, the Universal energy feeds itself, and it feeds the Soul to the physicality. Now you see a very ?? , this is actually ?? very beautiful when you see it, concentrated, ?? there is no deviation. We set it up to be this way, ?? ?? it's not accidental. We have set ?? loaded, positioned our system to achieve this.

Any other question?

Q: Thank you Mr. Keshe. I have to try and understand what you show sometimes. You speak of it, but the Soul there is feeding, you're saying it's directly connected to the Universal Energies. But it's not showing there physically on the graph. So how would I...

K- It's there. If you see it, you... because you... it's not a knowledge. If you see it, if I open it, you see, there is a line of connection here. Always has been there. Since we set up a feeding line, we set up a new structure. This has always been there. Yeah? (2:42) This line always has been here. This is the, this is a central line. You see it's somewhere here. And then you see the Soul, always ?? if you remember I showed you earlier on, the Soul sits here. And you see all the dots here usually and then last week, if you remember, there's a very bright light. Because last week we set up to feed the Soul. And it's a lot of interaction. This week we made a very small change and we changed the position change. And this is what our target was. And we achieved what we set up. So as I told you we are the only organization in the world which you Knowledge Seekers pay us to use you to test the man.

Any other question?

Q: Again, thank you Mr. Keshe.

K- I hope we can speak to people in England after 10 o'clock, don't put them in prison. Make sure you don't call anybody in England after 10 on the street.

Q: I haven't heard this Mr. Keshe, you... So this is a new law that's coming out, I don't know about it, I haven't heard about this.

K- Yeah, the new law which is coming from January the 1st in UK. After 10 o'clock you cannot speak on the streets with your mobile phone. Or be on the social media, it has a 90 pound fines. (2:44) And you cannot use your mobile phone, a satellite from January of this year, or use it to navigate if you are driving a car. It gives you a 6 points on the driving license and 200 penalties. Because they say a lot of accidents created by people trying to find address on their mobile phone, or some have the mobile unit, you cannot use them, unless it's built in the car. After January of this year you cannot use them. It means only rich people can drive with navigation. We're going back to the, you remember, we had the maps. We're going back to the map time.

Q: Yeah, it's just, the control system sometimes, it just, it's, there's so much control and they keep adding layers and layers and layers to it.

K- The new government is a Jewish government.

Q: It's just crazy.

K- Your prime, the Prime Minister of England is a Jewish background. He's one of those few Jews who become Prime Minister. And you have new regulations from, I think is it from today or whatever, from 1st of August. If you draw three times more than 100 pounds from your account, and you do that three times, they close your account. You can't have a bank account anymore. And from, I think it's 1st of August, September, or maybe 2026, if you buy anything more than 1,000 pounds using your bank account, your card, they have to report to Central, to the bank, the Central Bank of England. You cannot shop anymore without the government knowing. The brought very Draconian rules into UK, which is now operational. (2:46)

I don't know if any of you knows what happened last Saturday, July the 19th. They had a, from July the 19th, United Kingdom, United States, Australia, and I think there's another 10 or 15 countries, have given all the rights of the health, above national health, above the Ministry of Health, to WHO, which Bill Gates pushed through in the Corona. From 19th of July, which passed last week, no government has any say, if the WHO orders closure of the borders they have to close all the borders. They can create a fake virus, and close the whole world economy, it'll be done. They had 10 months to appeal against it. No government appeal against it. They signed themselves into it. So what we call the lockdown now, as can be ordered by WHO, Mr. Bill Gates, with his crony head of WHO has brought this in. And nobody knows. A number of European countries are included in it. If they decide today is a virus somewhere, and nobody sees it, we decide it, we close

your borders, your borders has to close. It's become effective, it's now in part of the rules. The government signed into it, during the Corona.

Q: Mr. Keshe, surely though, that this is going to cause more mayhem, Because when certain...

K- This is the whole plan.

Q: Yeah, of course, we know this, we know this. Yeah.

K- Yeah, the smallest nation in this world, will not be touched and affected, because they built it. (2:48) The smallest nation has very few hundred citizens, and the second smallest nation behind it, which is them again, has that with the right to all the passports. Vatican is the only nation on this planet, or less than a kilometer, square kilometer, with I think about 200 or 300 people carry Vatican passports. And the Knights of Malta carry the Maltese Knights of Malta passports, which are not affected by any of this. They can go anywhere, anytime, for anything. It's a diplomatic passport ?? or Green Card. being ?? cut. And they make ?? this rules ??

Q: On a Soul level Mr. Keshe, so this will, you know that this will create a condition where the Souls will reject this, and then the physicality's will start to, you know, take a position, a different position. There's always a balance. So the more that you force these conditions, the more that you get a balance the other side. You teach this and we've all experienced this. So it doesn't, you know, the more they do it, the more it will turn in a different way. I've noticed this with plasma that if you create a condition and it's not in the right way, it always finds another way, another avenue. It opens itself more and more to allow for other creations to happen, that bypass what you've done. It never is, you know, it won't... Doesn't matter how many times they put these things, these barriers in place. It just, you know, the Soul will find a way.

K- I want to teach you something, and I think it's, what I call, Knowledge Seekers to understand the world of politics. (2:50) We got nothing to do with politics, we are extremely scientific organizations. Let me see, something came in from the research center, they want me to look at the picture.

Okay, I want to teach you something, which you will understand. Sure you will understand very well. But they say history repeats itself. In 1980s, they brought a new Pope, the Polish Pope, you know who I'm talking about. And we had the opening of the Eastern Bloc, if you remember. He was set to bring the change and end of the communism in Europe and the rest of it. Then they elected a German Pope, which the German Pope emptied the Vatican from all his assets into Berlin and the rest of it, and we know what happened to the rest of the whole structure, and how the economies and the world program changed.

Now we have an American pope. Now you see why America is getting destroyed. Internally, what we saw with the 13, what we call, states of Russia, now we see how

Vatican is organizing the collapse of American structure. All these things you see is set up. It's there. It's repetition of the same. You wondered why we have an American pope? (2:52) You see what the other Popes, when they came into power, they've done. They always changed. The German Pope literally destroyed the Vatican from inside by emptying all the gold and the reserves. They brought a lot of provisions now for it not to happen again, but it's too late. So, they are trying to recuperate what the German Pope took to Berlin Central Bank, by creating new wars, new things, and the African, what you call it, bishops, moved independently, that no more gold comes to Europe, unless it's processed, that it's full value paid for, because they are not paying them back. So, you saw the changes uprising in the African nations, now refining gold themselves, not selling there for pennies, but they're selling it at full value, and brings a real prosperity.

This is going to be changed with the American Pope. And you will see this. You start seeing this splitting of, centralization of the American States, dividing gradually, or separate autonomies, like, what you call it, California, Florida and the richest one, they'll move out, in separate ways, if it goes further. And with his tariff business, it's part of their work. The American Pope is sitting there, to make sure, this monopoly of this state is finished, then the Vatican can rule. They started the problem in Israel and everything else. This is all part of the bigger plan, and we've seen it repeating itself. If you look at 1980's, how Mr. John brought all the changes, breakup of the, the ?? (Lec) Walesa guy, the miner who became, now the same thing as in the bigger state, bigger scale by the White House. (2:54) And the American Pope is there to see it going through. We see the repeat of the history, again and again.

And, they were planning in early 2000, end of 2000, last decade, to bring Archbishop for China, to start the same process to split China. But China became warned off, they took steps, we saw the riots in Hong Kong, it was part of the plan, when the new, first time, a Bishop appointed for China. That was part of the bigger plan to break up the Chinese structure, the same as the Communist, so it didn't happen. The Chinese became ?? alerted before they do, they got those who were there. That's why they all moved to Hong Kong. We saw all the riots in Hong Kong. It was all organized by Vatican. And now we see, the split of United States. But how they split it, it's very interesting, how it'll come, or separation of division, because more unemployment, less food, higher rates, it'll bring the internal division of the states wanting to separate to do one themselves. In California, most probably headed, because they have, they need the Mexicans, and the central government doesn't come, they'll announce independence, and become a separate country, which is, become the 8th largest economy in the World. It's just coming up. So, then you can see, what is about to happen.

The Chinese went through it, they survived it, two years, three years they had a harsh... and partially, what helped them, in a way set up, was, by Corona, they had excuse to get people on those off the streets. It was a man-made gift for them, they made it themselves to get rid of what was Vatican setting up for them. A lot of people are not aware of what they say. (2:56) Things came out of China, it was the only way to stop the changes, appointment of a new Archbishop to China, to start this revolution. Now you understand

what is about to come. And there's a fight of the rich, trying to .. hold on to the old status quo, and it's not going to happen.

Any other question? ...

R: ... We got a number of questions here from our chat. They're not questions so much as comments, as you were asking for people's comments. We have one, that's interesting from the Spanish community, from KS, who says they listened to the 598th Knowledge Seekers Workshop, even though they were Spanish and couldn't understand the English, and could only get the translation a few days later in Spanish. And then their experience of it is, they say, "You know, now that I think about it with your explanation, I did experience changes that day, and for several days afterward, my emotion was very collective, of Universal unity, and I imagine transmutation. That video I shared above even appeared, but seems the concepts are a little clearer in my head. (2:58) That is, I understand better what and how to transmute. I even said to myself, I am understanding more, or is it just my nerves? Ha ha. I wish the same for my Knowledge Seeker colleagues. I hug you all."

Meanwhile Wolfgang says, "My body is in a mixed position of wanting food, and also wanting less food. It's kind of a soft fight. Recovering from a vaccination I got over 50 years ago as a child, which got activated by whatever reason, 4 weeks ago. I feel mostly relaxed, getting more and more inner clarity, and so called enlightenment moments. Already I feel a bit tired. I suppose it's also due to the changes. Best thanks. I'm looking forward and very confident to the change, to harmony and peace and transmutation."

And Filipe says, "I felt the addiction thing, medical fields sessions. I either felt bad when I did it, like a stomach, bad stomach, or I didn't feel the effects of that drug, like it had no effect. Thanks Mehran and Keshe Foundation."

Ramira, through Rafael in the Brazilian community. "Good morning, I felt a huge change in energy and disposition. I feel calm inside and talk less during the day, listening more attentively to what others say. (3:00) We are very grateful for your teachings Mr. Keshe, and also to Rafael, who translates this knowledge for us."

UC Host One says, "I sleep less now, when I go to bed I actually talk to my Soul, to transmute, where I can go to help, or let it decide where to go. I still have the same energy during the day. My husband says he's less hungry."

From Nick who says, "I've noticed since last week's teaching, seeing the graph, it came to my thoughts and wishes. When we make a wish from the Soul, it brings on a Soul level, the right Souls of the right strength, closer to you, to manifest this wish. But if you also ground the wish to Mother Earth, after wishing it like a cord, going down to Mother Earth, from the STP, deep into Mother Earth, it's like planting that wish like a seed in the Earth. I will give it much more strength to manifest on the material world also."

From Peter, says, "Good morning Mr. Keshe, I am enlightened through the joy of receiving knowledge. Firstly, I am sorry for asking questions in the past, which could bring fear and emotion that Humanity has already plenty of and is not the way to elevation. I respect and work to the path of elevation for Humanity and will never endanger the Universal Messenger's mission to free Humanity's physical bondage in any shape or form again. I hope you can forgive my folly Mr. Keshe, your sincerely Peter Wythe." (3:02)

K- Shall we call it a day?

R: Okay, we probably... yes. Thank you very much Mr. Keshe.

K- Thank you very much. Tomorrow join us those of you who are in the sessions at 12 o'clock and we run a session of one, what you call, 3-4 hours, or 2-3 hours, depends. You can tomorrow leave any time you like. This will be very intense, and you don't need to stay. If you, within 10 minutes, feel you have achieved what you came in for, or you feel there is a change and you want to go, go, don't stay. And if you go out and you feel you want to come back in again, and if the session is going on, come back in. Tomorrow is very emotional touch, that triggers the transmutation. As I explained today. How you feel it, how you go through it, if you have the... if you received your, what you call, Cosmic Ray Balls, use them, enjoy them, move them around, when you got it in your hand, Put it in your hands and hold your head, hold your leg, change the parameters and see how it feels. And, anything else you have.

We have sent all the Cosmic Ray Balls which has been placed to order, even the... we had the opportunity to literally fulfill the last minute, orders which came from different countries. They are on the way, they should be with you, or you received them. There's nothing outstanding. And register for next three months, because we might close as we bring some other things into it, due to expansion of the technology. (3:04)

What I would like to ask Knowledge Seekers, we still need huge financial support for daily running of the Foundation, as we are contemplating on research and development and other things. If you can help us in any shape or form. We haven't sorted that position with Markray. We're still struggling with it in one way or another to get it sorted. And I hope we can achieve that. And I'd like to thank all the Knowledge Seekers in the background who are doing a lot of work for the Foundation. All the best. And we are there in every shape or form to support. Thank you very much for today. And we say goodbye. And hopefully we meet tomorrow and we meet next week. Thank you very much.
