

603rd Knowledge Seekers Workshop August 14, 2025

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Plasma systems turned on; More about Time; Back to future - only Energy; RNA of STM - trace where Soul came from in U; 80% energy from Space - M fields still connected to origin; Trace evolution back through field strengths of Time of galaxy & U; Tested - sent seeds around world; Reversed genetic modifications in seeds - wheat back grass; Can't stop evolution; Only absorb energies have inside us; Wheat from specific part of U; Develop T - trace back STM through Souls of ancestors; Back to future - see pictures only through Energy; Yearning to go to Space & find origins; Discover structure of plasma by connecting 1 of its fields - need right combination; Get enlightened through specific field; Microchip not from humans - copy of brain - haven't understood energy; Energy has fingerprint & memory of ancestors in Soul; Always connected to Creator; Time travel by Soul; How U got its intelligence; Soul evolved like P - interaction with environment - manifest Man; Other creatures in U have same DNA & plasma energy - look different; Mouse DNA 98% like Man - AA combination of Man; Measure field strength of STM - tell origin; Everything always goes back to Creator; AA - father of all life on planet; Change a position of AA - becomes protein of dog, plant, etc; Explains many graphs - Live; Dots suddenly appear - STM; No dots above STM area; Dots are energy - shows Soul travels Time; Energy source of Soul; P at bottom; Found source of Creation; Don't understand DNA in space-time; Create hypocrisies about matter; Every graph STM - top; STP middle; P bottom; Shows all carry connection to Soul of Creator (STC) within us; No dots above STM means connected to STC - center of head; Evolution of Man - beginning to end; Dots lower part - body cells of body; Dots upper part - billions years of evolution from Creator; Everyone has fingerprint of Soul - access to knowledge; KF Plasma Systems are on - feeding you - monitoring changes; Graphs show connected to Creator - follow back where energy of cells came from; Energy from specific place in U still connected; Where Soul of cell in foot came from; Specific System - feeding line to STM; All connected to Creator - choose fields for enlightenment; Off - no feeding line; Enlighten through feeding line - mature faster; Shows 80% feeding; Travel Time backwards; Research this with governments; Track path to Creator; Left side brain carries emotion; Fields of planet create STP or Spirit - no birth defects; Feed Knowledge & enlightenment - create new Man; Systems in satellites: 50 to 100 years stop killing - research instead; My wish - no annihilation; Discover truth about Creation; Replicate Creator - D of field; Essence of STM - essence of Creation - Energy; Fields of STM interact with Soul of Earth - create Man - STP; Live video of collective energy dots; Dots from bottom to top & repeat - Earth creates P calls to Creator - feed me; Soul of Mitra without P; Energy of Creation led to Time; Enlighten whole humanity; All Creation follows this pattern; Soul of Child of Mitra - feed it; Receive Energy directly from Creator to Soul - Travel Moon or U - don't interact with environment; Space of Time zero; STM feeds P - change; Need world scientists turn from bombs to plasma research; First time seen Creator scientifically. Translation problems in German; ONN electronic like other computers - pacemaker safe; Buy Units for others - split income - think of Ethos; Need more Units; Get rid of currency game - respect; Donate Units to university, research; Playing with Markray shares; 10,000 Units across planet; KS make

it happen; Plasma store; Enlightenment game; KC not on open market - Internal Coin only KS; Don't trust - nothing gets done; Abuse in every dimension; End addictions; Broadcast plasma fields on TV; Satellites; One big chain of killing - change emotion; Scientists have to research plasma - find field strength; Evolution without creating cancers; Each created thing has field strength; ONN security; Straight path to STC; Explain many graphs; 2 Souls in 1 body - Beautiful People; Feed Soul peace and love; Love potion - won't eat animals & plants; Fed from feeling of love; Killing is stealing energy; Coins not separate - one system; ONN reach Moon; Units in oceans; Nothing above Soul on graph; Lines like reading palms - tell emotions; Lovers solid line - detachment; STM spread by reproducing - STC feeds them; By loving create more; God thirsty for love; Travel Space - ancestors & own connections; Add to DNA; Jewish bloodline; Genetic modification of our Soul & genes; 25 years - part of DNA; Universal Council for Unicos; Teachers come - end suffering; Other planets have faults; Change by Man; Bombing Iran - genocide - Pilots to court - family pay; Robots kill; KF come out now; Script already written; Boiling chickpeas - add to taste & emotion - how U works; Earth destroyed before - fields recreate same races; Earth starts life again; Create AA - make organs; Can change Man through AA; AA becomes dog, plant, all life; Earth is God's greenhouse; God creates so much - gets 80% from Unicos - energy bonus; Cell in kidney of Unicos; Show Unicos - M field structure; This time Earth not destroyed; Whole problem - not aware of Soul's purpose; Purpose of 12 Commandments & religions - not to kill; Killing animals & plants keeps STM from elevating; No difference human & apple; Absorb energy from environment - free; Chasing gurus - you are center attract energies; Understand your life experiences; How Children of Mitra created - no egg & sperm; Not teaching religion - process of Creation; Same as Biology teacher; Iranians abused because understand Creation - nuclear; Light coming from Iran; Bring change no matter what; Free plasma - X, Y, Z axis; Measure emotion & sickness through fields; Another Race will join humanity; Energy Pack coming to U; Creating doubts in German community - test; Elevate Soul of Ayatollah Khamenei - sell nuclear materials - everlasting peace; Elevate Souls of leaders who push for peace

ENGLISH TRANSCRIPTION

(:10)

K- Thank you very much. Good morning, good day to you, as usual, whenever, wherever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We try to go back into what we started. And we try to follow the path of what we call, about the Time, how we progress, what we perceive, and how we interact with Time.

One of the main process, one of the main, what we call, objectives of teaching is to bring all the principles of the, what we call, Knowledge of Creation. What I call, the rivers of knowledge in the hand of the Man. We showed how we change matter to energy and energy to everything else. But, do we need to always for, what we call, energy in the matter? Or can we achieve the same by achieving Time? They way we saw we created

Time, can we be stationary, can we be in one place changing the Time? Some people like to call it, 'back to the future,' which kind of memories of the past time can be. (:12) But the pictures of the past time, unless it's in the memory of the, what we call, the Soul cannot be seen. But what can we do with this? Do we create a Time of the past time? Or do we create a Time of the future, to see what is in the future as we discussed before?

And can humanity understand this? Because as we have the genetic physical memory of our ancestors, blue eyes, white skin, dark chocolate skin, dark hair, whatever, long nails, short nails, one leg twisted, one leg straight, because came down the path of the, what we call, DNA generation. What about humanity going through the RNA of the Soul? What does this means? Which means in fact, once we know, now that we understand that the Soul of the Man (STM) is connected to the Soul of the Universe, we use that channel to see where our ancestors from the dimension (D) of the Soul came. Now we can track our records by DNA changes, analysis, and find out which root our physical generation of life took from Africa, or another position to where it is now. How it changed color. We see the evolution of physicality (P). (:14)

But now that we have the knowledge of understanding the process of creation of plasma, creation of Magnetic (M) fields, and understating that we take 80% of our energy from the Space, our physicality in the dimension of today, even in the womb of the mother, has connection to the part of the Universe (U), because it has created the fields which extracted the energy from the Universe to it. It might attract, it must attract, scientifically we understand how, connects to where the original fields which even created our Sun, even created our galaxy come from. So we have access to the Knowledge of the Creation. The only way we can do it, back track it, is to go through the evolution of the Time, field strength of Time of the galaxy, of the Universe.

When we did some tests in 2008-9, if you were Knowledge Seekers at that time, we sent you seeds, if you remember, and with the seeds we sent you, packs of... In those days nobody knew what Gans was, special Gans's. And on the March of the year we asked you to cultivate it across the world. I can't remember, hundreds were sent to different Knowledge Seekers, they grew it in Africa, they grew it in South America, they grew it all over the Europe, in Asia. Knowledge Seekers sent their address, and sent the packages, there were 3 packages. One to soak and do the seed, and then one to water the seed. And, we see how it lasts. (:16) One of the Knowledge Seekers, German, methodically took picture of everything, even the gloves he used and the rest of it, if you remember.

But we asked a scientist from Belgium, agricultural scientist, he's very well known nowadays, he gives a lot of lectures, he's a very close Keshe Foundation Knowledge Seeker for decades. He was provided, he wanted to test the seed in a different way to see what it brings. And the process started in a plastic greenhouse, maybe 2 meter, 3 meter wide. Different time of the soaking of the seed and other processes, which in Gans's, which we provided to him for each one. And we monitored the structure of the changes of the Gans's and the seeds. And a specific seeds combination, they were all the same, all the ones which came around the world came from one batch from the seed center, from

one agricultural seed testing in Belgium. So everybody had exactly the same. They all had the, what you call, the chemicals, yellow, orange stuff on them. And the seed was genetically modified, we knew. Because that was the job, they were trying to see what it was, how things, best genes, best wheat or whatever, was growing.

In this test, in one of the tests, a specific combination. When we grew the wheat, because we could take it back generation by generation, I don't know if you Knowledge Seekers remember because we even showed the pictures of it. (:18) One of the seeds area, usually wheat has one stem and a flower and the seed on the .. what we collect as a wheat to eat. These specific, as we went back in the generation of the seed, created something like ten, fifteen stems. Literally we went back to the time when the wheat was a grass before man interfered with it. And we realized we can genetically modify, we can genetically reverse, we could take energies out of the system that brought it back to its (original) generation. We tested again in China in 2019, 18, 19, regarding genetic modification, that we can stop genetic modification, but evolution we cannot stop.

And now the question is, if we take the STM, if we take the emotion of the Man, if we take the intelligence of the Man, if we take the, what we call, enlightenment of the Man, we have all the dimensions, because the Position, Possession and Place (PPP), we more or less know, can we track Man back? Can we track Man back to where its energy comes from? The interesting thing which I have always observed and if you think of it, even if you listen to the Intro of today, this... the food we eat is the seed, the energy we absorb. (:20) We only can absorb what is within us, and what the combination of material in the galaxy, which has created us can absorb from the Space. We don't absorb everything. The wheat has a connection to the specific part of the Universe, which absorbs the energy to all of us. That's why we can become billions. If it was left for the planet Earth just to feed us, it could not be done. The 80% which comes from outside keeps the Man going, and the planet Earth can support the other 20%.

But, if we track the structure of the STM, which comes from our parents and our ancestors, through their Soul, we should be able to trace back the time and the place, and see the picture of the Universe. 'Back to the future' of the Universe through the Energy channel, not through the matter channel. And, if we can develop such a technology, which we can, one day we'll show you the pictures of it, how we do it. Then we can see where our ancestors from the Energy came, not from the matter. Why we yearn to go to Space? Is that yearning hidden way for the Man to find where he came from, when he got educated with the knowledge of the Universe on the matter state? Or, are we, have we matured enough to reach to that point at this stage of Man's development and knowledge of the Universe? (:22)

In a way our knowledge, our technology (T), our structure of the understanding of the plasma technology, does not matter who does it, does not matter, is it Keshe Foundation, is it CERN, is another organization, not to look to create only energy out of the plasma, but understand the structure of the plasma, that by tapping, by connecting one field of the fields of the plasmas, doesn't matter in your reactors, in our reactors, in CERN's reactors,

where we create a plasma of the right combination, can open the picture of the Universe. We understand how and why.

We know this line exist, because we get enlightened through it. Because we receive knowledge of the Creation and then we add to it, when we have the tools of it and it works. For sure, Microchip is not invention from Man's side, it is not innovation by Man only. Our brain is the best Microchip. But we haven't understood the energy used. And with that, not only we have the memory of us, our ancestors, in the dimension of the Soul, we carry the memory, the fingerprint of the Creation, even the Creator within us. If you remember I always start from the center. Always there's a connection to the Creator.

Can we see the picture? Can we now understand the creation of the time on the physical side and the Energy side within the structure of our system, within the structure of our Soul, (:24) create the Time travel in the dimension of the Soul, and see how even the Universe got its intelligence? This is not a dream. This is something because very soon we open this door of knowledge. And then you'll understand the picture of our ancestors. We look today, if you look at the Darwinism explanation, start with a monkey, ape, or whatever, it ends up to the man. We see the way the structure of our Soul started from. Which led to the physical dimension of the STM, which the interaction of the environment led to the manifestation of the Man.

And then this brings a question, are there other creatures in the Universe which went through the same path? They're like us. They carry part of the DNA, of the energy of the plasma of us. But because of the environment they brought up in they look different. We say 95% or 99%, 97%, a mouse is like a Man. A rat is like a... has a DNA of the, what you call it, of the Man. Amino acid (AA) combination of Man. This animal is 99% like the Man. But would we measure the strength field source, the STM, and say, this creature in this part of the world come from the same source in the part of the evolution. Even though, if you go backward, it goes to the Creator. They're literally, more or less, all the creatures of this planet, come out of the creation of Amino Acid, which is the father of the creation of life. If you change a position becomes protein of the dog, if you change a position becomes a plant. (:26) If you change the position it becomes a fruit, and the rest of it.

What we are destined for because we are becoming very good understanding, the physical dimension of the Man, the DNA of the Man and everything else, it's time now that we know there is a parallel energy to understand our ancestors through the fields of the Universe. The reason I brought this up and we bring it up, for you to understand about the Time travel in the dimension of the field of the Universe, is because of the pictures (graphs) we've shown you before. You look at it as a picture, but I put a question to that picture, "Where did this come from?" If you go back on the pictures we showed you before, we are destined for something we don't know.

<< Mr. Keshe asks us to wait a second. just one second please >>

We were trying to show you something in the background, and just trying to explain to you, because we are monitoring a lot of things in the background as you know, but we have a small hiccup, (:28) I'm trying to get it sorted but it seems that we cannot do it. What I want to do... I show you what I'm talking about because, this is a big question in teaching, in understanding, and if you follow blindly, don't turn up, ask a question. Not just because we show it, not just because it's with us. Because we have to understand the reason. If you go back into the teaching of weeks and weeks ago, where I showed you this is you and the rest of it, I always showed you something very strange with these pictures. And, what is interesting in these pictures, which you... everybody should have asked, but being me asking the stupid questions usually, now what I see it brings me back a very important position, a very important discussion for us to understand. And that is, if you remember in the pictures on the Soul side, which we explained, we see a point on the Soul side which suddenly is all the energies. And we see dots of energies and we see a combination of the dots of energies. The question to ask is, where do these come from? (:30) Why suddenly in one place? Is that the source? Is that where we all come from? Because we tap into it, but we don't see anything beyond it.

What I'm trying to explain, I'm looking for a picture, I know exactly what I'm looking for, because you've seen it as Knowledge Seekers before, and you understand that this picture, this explains a lot of things to us as Knowledge Seekers, because this is where the Time travel of our Soul comes from. This is where we are all connected to, and strange enough is it doesn't matter what I do, doesn't matter what pictures we take, it comes to the same source, it comes to the same point, it comes, all we have this magic point where all the energies appear from. Nothing else, why does it happen only, and only in that point? Why do we see such a position of reference? Is this where all our Souls gets the energy from? And interesting point is, we see the physicality, we understand the physicality. We see our connections, we see our existence, but, what we do not know? And it's the time of the generation of life, is that, why do we see this? Why do we all start from this point? Why? Where is this point that there is nothing beyond it? (:32) The process start somewhere, and it seems through the development of the technology we have found the source of Creation, energy wise.

It is interesting for us as Knowledge Seekers to understand, ?? where is this source? Why is this source in our lives, in our existence? And it is sitting with us? And why matters so much to us that we all start from a point? This is dimension of the STM, it's a Time travel within the structure of the Man. This is what us as humans have access to, now we see. But we cannot understand what is the DNA of the Man in the dimension of the space-time. And what is important to see in this dimension? Because mankind needs to, mankind has to understand this point. Otherwise, we are on one track losing end, and then we have to start hypocrisies of assumptions we have made up to now about the physical matter. (:34) We see this in every single test we do with everyone. When we do even the collective testing an interesting part is this.

What is interesting, this is the Soul (top of graph). This is your dimension of physicality (bottom). This is your Soul of Physicality (STP) (middle elongated). But what is interesting, which is, gives us an insight into what is, is that we, all within us, carry the

Soul of the Creator. I explained to you, this is interesting. You see here, we don't see anymore. Because this is your dimension of physicality. On the boundary of the sides we have the same position. We see dimension. This is the Soul, we see nothing above it. Zero. And it's the same in all the graphs we have, it's the same everywhere we do. Even if we connect, it comes back to. But we don't see anything. And this is the most interesting part. And for this reason it can be said, we can literally say, with certainty, this is the seed of the Soul of our Creator we are connected to. This is the expansion what we get from the Universe. (:36) This is where we have to understand there is nothing above us, there is nothing above our Soul. There is no, no limitation. We don't see not even a single dot. And this is the Soul, and this is where that dot we are connected to our Creator. Can't be anywhere else. And what we see, this is literally, the rest of it, is the evolution of Man in the cycle of its creation from the, what we call, the beginning to the end. Beginning being the Creator, expanding the expansion, and in it with the interaction of the fields of the planetary system create the manifestation, these are all your cells, physical dimension, that create you.

We are connected to the Creator, we are part of it, it sits in the center of. But what comes to our knowledge, what we have to find out is, what is the history of Man from here to here? Would we see in these dots the history of Man 500 billion years ago, 1200 billion years ago, 200 billion years ago, till we get to the Creator? You saw the Time travel, you came up with a condition of Time travel of the Man in the dimension of the evolution, this is the Time travel of the Man through the dimension of Soul of the Energy. (:38) It's a physical, nothing ???. Every one of us has a fingerprint of the Soul. Every one of us has access to this knowledge. Every one of us has been born with a specific fingerprint of us. Not somebody else's. And we are all connected to this. If you look at the evolution of the Man, if you look at the evolution of the science of what we call, physical evolution, we see that, in reality, we have, we can, we should be able, with the knowledge we have today, to discover where our ancestors from the Energy point of view, connect to us.

We are feeding you in the back as you know, usual. We are monitoring you, the systems are connected, those of you who sit in the panelist you can see we have connected. I'm monitoring how you change parameters. Last time we fed you with energies, two weeks ago, orange and honey. Today we are taking a different path. But we see the same. In a way, what we can see, what we have in our hand, (:40) what is in possession of us at this moment of time is that, knowing, having hundreds and hundreds of pictures (graphs), recordings, we have a connection with our Creator. Without fail we are connected, because now we can see it. There is no doubt in the knowledge. Now we have to backtrack this to actually where and how the cells in my body, connecting, interacting with the energy, which comes from the Universe and the planetary, connects me to the Soul of my Creator. The information which comes through the dimension of the fields of the Universe. To way we can find the Time travel was this 400 billion years ago? Was this 300 billion years ago? And knowing that energy comes from anywhere can we see how Universe was shaped, created and connected?

This part we know. I'm sure in research in next few years we tell you this is the Soul of the... your cell in your foot, this is the Soul in your leg, and then, because we can estimate

the STP, telling which Soul interacted with the field of the Earth, that created this and with this. This part (P) is the easy part.

This part (Soul) is what Man needs to understand, (:42) and the beauty of it is, an absolute beauty of it, when you see this, because of all the pictures we've seen, hundreds and hundreds of graphs we monitored, we put you in teams of 20, we put you individually what we see, there is nothing about this line (Soul at top of graph). Not even a single dot. And this is your Soul which is absorbing energies, you see there is a line of feed in all your lines you've seen, we know this comes from our systems, we are feeding you through our systems.

Let me explain to you something, because we are sitting on the edge of science, we are sitting on the parameters that there is no doubt in the knowledge in understanding, and in the whole structure. We have a system. Since we put the system in the laboratory, in testing facilities, I think you should have seen it in the past pictures, we have a line which feeds the Man. And, interesting enough, this line is coming since we added the specific system into the system. I show it to you that you can understand. If we can feed this and what we saw in the next session, or in the next picture which we showed, then you see we are all connected to our Creator. And we can choose the path of the fields, and we can choose the path of enlightenment. (:44) Because it is not man-made, it is us which feeds the Man separately, directly and continuously. And this is the beauty of it, this is what brings the knowledge so close.

(Shows a different graph). You see this line (it bends down to right from top of central line of dots), I'm sure you all can see, you see this line? This is the line of the feed which we bring it, and you've seen it in most of the pictures. This is where we interact with the STM. And this is how you come to your physicality, the STP. And in the systems where we test you with orange or whatever, or you go in the system, I don't look how it is, I look at how you are getting fed by us, this life. So we can interact with you this time. This is, this comes in, since we put a system somewhere in the, what you call it, in the lab. Before it didn't exist. It's a straight dot line. When we have very strong Souls, which they depend on each other, we do not see this (feeding) line. It's very well concentrated the Souls.

What this picture, and it's been a point of research for me for past year, or to especially past year since we start seeing this line. If we can create this line and feed into the cycle of the energy of the STM, so we can enlighten the Man. (:46) So we can mature Man much faster than Man ever thought. Because now we control the process of enlightenment, the process of the fields. And the more stronger it gets, the more Man gets enlightened and it will change the physicality of Man. But we control it, we monitor it, and we understand. Mankind is on the verge of a huge breakthrough in this process.

And if we can extend this to the level of, what we call, understanding of the process of Creation, and increasing this, because, it's very interesting, if you look at this picture doesn't exist in it, it's very clear, you still see the line of creation, that we created, what we can feed you with and what it comes to be as part of. But again, even when we feed

we do not see at all any changes in the dimension of the connection above this line (above the top where the Soul - doesn't go above the Soul). It should have been extended somewhere, it doesn't. I've monitored hundreds of pictures, why? If you go back, months and months ago, we have a scattered energy on this side, but at the end of it that is a limit to it. (:48) It doesn't expand to somewhere else. And when we go directly to expand the Soul it collects itself into one bundle. You don't see any whatsoever dots around here. Which means we can connect to the source of the Creation. We can go back, travel time in the process of time.

And the interesting part for me is what you're going to see now. And this is very interesting, because now we see the same figure, But we don't go beyond it. I'm monitoring your Live pictures at this moment. I show you exactly to see how you lot look as energy to us on the system. We are not talking yesterday or last week, or whatever, we're talking about you as Knowledge Seekers in past five minutes. Have a look how you look and how the energy is, and these kind of pictures, these kind of data opens a massive line of research, understanding. And we are feeding you, so we are controlling this drastically, closely, and you have a look.

This is the feed from the lab (draws line at top right into the Soul), you see exist, there we are. (:50) This is collective Soul of you lot, interaction with the field of the Universe, of the Earth, and you lot, collecting yourself down here (P at the bottom). Two lines feeding yourself. And if you notice again, there is nothing about this side (nothing above the Soul). There is nothing here, there is nothing here. The dimension of physicality, because your aura is scattered everywhere here you're interacting with different fields, you're still here. But when it comes connecting to the STM to the Universe it's nothing there. So it means we are connected. What we see is the end, the process, the exact dimension which we all come from.

So we should be able to track the Time back. Because, out of these fields will not come full strength to us, we get some of it. This line is the 80% which feeds our Soul. Which interaction of it with the physicality create us, to create our manifestation of physicality. The timeline we look for sits in the mystery of time here. This energy we are used to from 2 billion years ago. This energy we are used to a billion years ago. The energy here we are used to, we gathered to use it, 10 billion years ago. (:52) So interaction of this with the physical fields of the Earth gives us the physicality of Man today. So, in a way, this energy in conversion comes from there. There must be another similar creature as us in the dimension of the Universe. In the structure of DNA and if it fits into the same environment and could find a replication of the Earth condition, most probably has our DNA. But can we see the history of the STM? 'Back to the future' not for the physicality, but 'back to the future' for actual dimension of the life of the Man.

In the coming months, as we set up research centers in cooperation with governments and what we set up, I'm sure our scientists will start looking at this. Because I can travel not only to whatever. I can travel directly into the dimension of the Soul of the path of the Creation. On Earth we tracked, we came from East Africa, Central Africa. (Here we can) track which galaxies, which Universe, and which path we took to our Creator. Because

some of these dots carry that fields. We haven't opened this. If you open this, there's thousands and thousands of dots which makes this, this interaction. Why is it this? This is on the left side of the brain. So, it carries the emotion side of the Man and you see it interacting with the planetary Earth, has to create this end. It has to, it has no other choice. And then we see the interaction of the STM with the field of the Earth and the manifestation of physicality. (:54) It feeds physical, should be this.

And if you understand this, if we change the interaction of STM with the interaction of the fields of the planetary system, which creates what we call the Spirit, if we can control this we can control this, there'll be no child born with no defects. Because, we feed the Spirit of the Man, we feed the STM. And then we can feed the knowledge of the Universe, enlightenment to create a new Man. Any creatures on this planet does not kill, does not do anything. And secondly, now we can use the satellites to do it. Satellites does not need to ?? do it. Or look for certain mobile number, it looks for energy of the fields of the STM, which has an Amino Acid of blah, blah, blah to it. Think, we are on the verge of time to understand our path from our Creator to us.

Next 50 years, 100 years, when we stop killing each other we have more energies in our hand to look at the freedom of intelligence and knowledge, we'll find the Time, the Place, the Position, and the emotions of our Creator. It's just Man now has the knowledge, now Man has the time to search. And my wish is that we don't go into the path of the past that we annihilate ourselves. We don't get a chance to reach, to understand the truth about our cycle of life (:56) in the dimension of the Creation, in the dimension of understanding of the totality of the life of the Man. Now the biggest interesting thing is, it makes sense. This is the Creator and this is the Man. I made Man in the image of Myself. (Draws a line from top to bottom). The interaction in the STM with the Earth is the mirror. What you see within the STM you see within the Soul of the Creator. And in that position you can time it in how it came that this field within the interaction of the field of the Earth led to creation of the physical man the way we see.

As we replicate the Creator in the dimension of the fields, and not the physicality, God doesn't have two arms and two legs and ten fingers, but Man has the essence of the Creation, the essence of the Soul, the essence of the Energy as we make the plasma of the STM in the dimension of existence. That is the way we see these dots at the bottom here. These are Soul of every single cell in our body. And this is interesting, if you go back to the beginning of the teachings, what did we say, if you still remember, when the field of the Earth, faces the field of the Sun, you get the daylight. (:58) Now you understand, how the STM when it interacts with the field of the Soul of the planet Earth you see the Man. The STP of the Man.

And now our knowledge is so complete, our knowledge is getting to the point of maturity, that now, if our religious people don't 'jump up and down,' Man will understand the Totality of the process of the Creation. And it's interesting how Man creates that knowledge. How Man interacts with the field of the Universe, that leads to the Creation of the dimension of the physicality. And then, what is interesting is that, how does Man creates himself? How Man gets entangled in this loop of the feedbacks?

What is interesting... Rick, I send you a video, and you can watch how your fields are created, and you can watch for minutes of the interaction and connection of your Souls. This is Live from all of you collectively, in the past few minutes. And, it's interesting that you, us, all of us, can see this picture (graph) of the fields of collectively, you are on the line, collectively are producing this. Rick is on your common line we always communicate with you. If you look at it, it's a minute, and this is you lot, in the past few minutes, this is image of the collective Soul of you, (1:00) and you all come from the Creator. But like the thunder, starts from the Earth, calling to Creator where the lightning is created about. Which means, we call for it, it doesn't call for us. Watch this. Have you received Rick?

R: It's just coming in now, just bear with me a sec here.

K- ?? and enjoy the Creation. Enjoy the life, how we are all connected, and how we all get connected in the dimension of the fields of the Universe. And then we'll discuss in detail exactly how you lot move. What we need to understand about the history of the time of the Man. Have you got it?

R: Okay, I've got it set up here now. And... I'll play it.

K- Let's play the life of the Man in the dimension of Energy. Watch for everything. This is Live, you lot, in the past 5 minutes. About one and a half minutes after the Life of your Soul. Can you play it? Watch. (The dots start appearing to be going upwards). It's going up, like lightning, the charge comes from Earth. "I'm here, feed me." And then you see the line, going down, comes up, and it keeps on doing, repeating the same. "Wherever we call to the Father, feed me." And then, collect, interact with the field of the Earth, come back, make me, and then I come back to you. That is all on two ends. All is coming from the Earth to the Creator. (1:02) Here on the right hand side you see little dots, this is our system feeding. And you see how the picture is made.

And if I take a snapshot of this, thank you very much Rick. If I take a snapshot of this, you see again, we can follow, we can go back on it and literally watch the creation of Time. The creation of understanding the Time. And how we as human race share in our position, share in our dimension, share in our understanding the whole process. If we look at the full dimension of the pictures we have, we receive, we get and we monitor the whole process in understanding it in looking for what we showed, what we have. It's amazing, absolutely amazing in totality of the knowledge, in a way, in the grace of our Creator allowing us to look within it, within the structure of it. (1:04)

This is your Mother, Soul of Mitra, if you create without the physicality. You saw the dots going up, calling to the Creator, "I'm here." This is the line we are feeding, in that direction of the feed, feeds the physicality and back, and repeats itself, until this creates us. We interact and we can go back to the beginning. We live through the structure. And now for the first time you see the position. And the question for all of us is, what energy at this point came from the dimension of creation that led to the Time? What about we

create an energy level which comes in at this level (?? from top - Soul). What about with the knowledge we have now create an energy which is high as this (Soul). Would it enlighten the whole of the humanity? Now this is a picture of you lot, this is what we see collectively all of you online create.

And when you look at it there's no difference in the whole process of the Creation. This is ?? Live on what we call, the central system. You see the line of the feed, you see everything. Where we go, how we call upon the Creator, "I'm here." (1:06) He feeds us, and then in rotation, we feed us back to where we are. The dot did not start from the top. The dot started like Earth as we see from the bottom, calling upon Creator. I have created the Soul of Mitra, I've created the Soul of child of Mitra. Feed it, from your beauty, from yours. And in that process, what we see, is very simple, is absolutely simple. We see, because we created that extra time, feedback. And then the creation to the Man.

This is why we said, the children of Mitra are perfection because they are in the dimension of the Soul, and then they touch the Soul of the Creator and its creation is always absolutely perfect. Because, in that dimension Man never ever touches these fields whatsoever. The connection is, as I call, on the Soul of the Creator, I receive from it. I don't need to interact with the environment of it. In a way, as we always said, if you understood this, we are on the path. To create the time travel of the Soul. In a way, as I said, it went up. "I'm here, hi!" And the Creator responds, "I give back to you." But, in a way, if I do it through me and you, we have no interaction. (1:08) We need no interaction with the Soul of another dimension, be it Earth, be it the Moon, be it field of the Universe. I made Man in the image of Myself, because you created me. And then Man needs to understand the Time travel in between. Something is very nice to understand, which we come to it, in the future teaching. is Time, and the space of Time is zero. Because from the time this field touched us to create us it's more or less micro-second, and you see the same thing. So, we have always connected at any time, it's for us to understand the enlightenment and the knowledge which is created.

I hope I open your eyes, something beautiful today, because, this has been a mystery from the time we created these physical systems. And, the question for me has been from the beginning of building the systems is, why? There is nothing. There is nothing. Why? What's the reason that there is nothing above? So, if there is nothing above it means, it has to be the end. It has to be the ultimate point and it goes back to what we always said. That's the sky. (1:10) This is the end. This is what we see as the Soul of the Creator. And this is us. Earth interaction. These are interaction of our Souls on the way back up with the plasma of the Universe, like the way these lights are created. This is us. This is it. We can't go any further because there is nothing above it. There is nothing below. We don't see the sides. We see the interaction of the fields which feed us through the Soul. This is why I keep on saying, if we feed the STM it feeds the physicality of the Man, so the Man changes. Man does not need to kill.

Would you like to take the screen, please? Now you understand. The dilemma of the Man has just started. It has not finished. And now we need to understand the next step. We need to understand the next position in our knowledge that with it we can travel the Time,

by the Time of the Universe, not the Time of the Man. And how far, how much we extend this knowledge, it depends on the scientists we have, how much governments come together to do the research of understanding the Man, creating a life to feed the Man, than creating bombs and killing each other. I hope I have opened your eyes into a dimension you never thought exists, (1:12) but in so many ways for the first time you've seen your Creator scientifically and not by imagination and 'books of the false information.' We go for a break and we come back and try to answer some of your questions.

>> **BREAK**

>>

603 KSW August 14, 2025 (1:17).

K- Thank you very much. Yes, I would like to go back to clarify a few things about the Units that we launched last week. (1:18) First of all there is a very big concern apparently in German, and German speaking, because most of it comes through our translators who do the translation and create a mayhem as usual when it translates it to other languages and creates in the community. The new system we are launching, is an electronic system through what we call, Cosmic Ray connection. It doesn't affect anyone. You have a pacemaker, you have a half electronic limb, whatever. And it is a system as much as your system in the house, your television, your microwave affects you when you're walking around the house when it's working. So, this will, does not affect anything, it has nothing to do with what you call, to operate, daily operation of people in their houses because of what we do.

There is a lot of questions to be raised. There are a large number of people who like to help to buy Units and give to the others. But at the same time, as I said, this has an income, they would like to hold the income to themselves, but give the others to run it. And, you have to ask yourself a question. If you are there to support, why do you put the burden of the expenses on somebody else's when you collect the funds for it? We calculated this when we launched this and the idea was to put one Coin a year. And, I always thought, we'll come to the point that people who want to buy, donate, but they still won't like having income, but they give it to someone, that someone has paid, they'll accept anything else to go with it. Why not split it half? So, many of you are buying for us to give, the only thing is left for us, because we cannot give the burden to somebody else, is to hold this on the expenses of the Foundation, running in several houses which

we have to run. (1:20) Because, we cannot give, you bought ten Units and say, "Okay, I want one of them, but I give nine Units to others, but I want the income." Think twice, Ethos of the Keshe Foundation. We put it that way. Unless then it comes back, still, Foundation has to put these servers somewhere, and pay for them to be maintained, the electricity and everything else. When you're generous, understand the generosity. So, those of you who are donating unit to us, the income of it, at least split it with others that at least pays for their income, at least it pays for their expenses of electricity, everything else they spend, maintaining these systems, which are on 24 hours a day.

It brings us freedom. It brings us what we see, the limitation. I thank you all for the support you are showing to bring this in. And I'm sure we need a lot more to be sold to be able to be on the safe side that we cannot be hacked and the rest of it. We still need a lot to be bought that it comes in. And sometime in the next few weeks we start posting these out. It's a plug and play. You don't need to do anything with it. You have a wire to connect it to your internet, or you connect to Wi-Fi through the system you have. The system will find itself. You don't need to do anything. Do I need to. These are miniature computers. In a way if you think of it a lot of people you hear, they steal your, what you call it, website .. through your emails. And what you actually do with our system, provide a server storage safe. And then they do everything else within the system. This is on its own. Doesn't touch anything. Doesn't hack anything. Goes through its system on its own. We control it. If it's stolen, if somebody switches it off we see. We block it and everything else. (1:22) There's a lot of parameters and security is going.

We are looking at two things. We put the first week at 30 or 50 for the (ID) Card. Now we put it on this rate. That was a gift for those who come early, like we've done with the 2,000 Units. It goes back to 99 Euro for the Card. This Card is important because all your information, your, what I call, pass to use your Coins, sits on this Card. We have to pay a structure, a company, to take your visual iris, to take your palm to take all your information to load up on the Card, and everything else. The Card is not empty and it costs money nowadays to do it, even if you send it to India. Still the gentleman comes on the phone, says, "Can I help you? Do you need anything?" "Can I have your face?" That guy still has to be paid, it's going to be paid a fair price. And, it goes the same with everything else we do. We have to look at the structure.

These systems, at the moment, we're, what you call it, certain capacity to meet the present demands. In a year, in two years, when the load of information on the system increases, we might ask you to add another capacity, what you call it, the storage (hard drive) to it, which as you plug it in is accommodated for that to go. You got to remember two things, you receive the box with the Unit in it. This Unit, then you receive another box, sometime in next days, weeks later, with a little antenna, we show you where to plug it in. Once you plug this in we create a dimension of another communication line. (1:24) We are in a position, maybe something which has arisen .. very, very past few hours, looking at. We might look at, but we have to actually finish the Coin. That we allow two nations to use the Keshe Coin as a currency exchange between them. Which brings a balanced energy, balanced fields, currency together. If it succeeds it's to do... I have to think of a way to do it correctly between the two nations, that Keshe Coin stays between

the two nation as a stable currency. It does not matter what happens on the other side, or the other side. And this is important because then this currency game goes away and the valuation comes in what I get, in what I give, and how much you respect to give me, without me playing the currency. Keshe Coin as an exchange ?? valid using two nation, we are in it, we can bring it in, we can promote it and run a test with it. If it works then all nations become equal. Dollar is not stronger than pound, and pound not stronger than Yen, and game play, which Man has made for himself for nothing. If you think of exchange rate, it's a big, big facade. And now it has a chance to go.

We are reaching another point, which, we would like, you as Knowledge Seekers (KS) to think. Because, the reason we launched this Unit is to get rid of the Internet facilities and the rest of it which is bugging everybody down with currencies, with passports and everything else. It will replace all that with a Card you carry connected to these systems. (1:26) Nobody come, and nobody can do anything with it, and it's big enough that it goes around. But we have to make it, and to the next step. And this came from the back of the inspiration of what we are doing and you're donating for other Units. Look into your community and see what you can sponsor a university, a teaching institute for research, for children who cannot be taken to school, but through the Coins we can pay for research, we can pay for the education of those who cannot afford it. What this means, as a community you donate, you raise for a hundred Units. We donate these hundred Units to a university. It gives them 2,400 Coins. This gives them 2.4 million money every year to educate, to promote research, and people can have. A gift for life.

And if you can, as communities do this, first of all we spread this across the universities, in one nation, or two nations, and we support to educate. And we can support to educate in the knowledge we want the research to be done to, with. (1:28) This week I had the opportunity to meet with the professor and the lady who set us up to meet this point of discussion, in agriculture, and they can do a research for us. They can get governmental businesses to do for us, PhDs, and to understand our technology, how it affects it, and provide research facilities. But we are lucky. The children in Africa, the children in India, the children in other part of the world are not that lucky to get this. We get it because of institutional structure we have created.

And I would like to ask you, as Knowledge Seekers, you give money out to whatever. Do give Units. This is every.. You don't do anything. You pay once. Foundation supports through its structure, through the Keshe Coins which we have established. 2.4 multiplied by 100, multiplied by a thousand. 2.4 million in the hand of the children. Educated paid prior and they know they have this for time to come. For 10 years, 20 years, as long as the system runs. University pays very little to maintain. We educate children beyond imagination in the knowledge of peace in what we want to do.

We pay only by Coin. You cannot come to us and say, my Coin is 1,000, I hold for two. (1:30) We are making facilities that you can exchange with the other things in the process that you have an income from it and goes. We explain these as the system structure gets set. I explain to you step by step. We brought these Coins in conjunction with the Keshe

Foundation currency of the, what we call, Cosmic Ray (CR), with the structure to back it with the Markray for a thousand dollar per share, that stands on its own.

I've seen a guy, we know who it is, he's playing with shares taking it up, bringing it down, it's been his job. This is how he could get done to everybody in his life, this is part of his life, need that money for the injection of drugs and cocaine. I'll explain to you, give his name out very soon, then you understand why they don't allow the shares to go over 10, 11 cents, and then bring it down to 6 and go up, and they sell 10,000 here, that 1,000 there. Because they stole shares from the Keshe Foundation so they're actually making drug money out of it. But the value of the shares will go to a limit you cannot imagine. We bring it because we set it up. But we let these ?? play their game. Then you understand the whole process is set up through Coins when we give to the government, when we set it with the, what we call, universities, or research, and then when we treat to every man, gradually it takes hold.

This machine is not just what you put in the house, this machine is set to change the ?? of the education, currency, financial world, no passports, One Planet, One Nation, and we have to look after all of it. And we have started, we have set it up, you're supporting us but we need much more. (1:32) We have to have 10,000 of these across this planet to be safe that no hacker, does not matter from which nation, from the biggest organization in the world, to be able to change anything. And we have put insurances, we put policies and other things behind it to support us.

We can give this to nations to do, but you know what the nation, what the governments do. They ?? want , to stop it. We have to carry this one, it's back to the Knowledge Seekers, back to humanity to bring that position. You kept on telling me, "You gave the patent to the governments, they do nothing, you betrayed us." Now this time I give humanity in your hand, you have to grow it, not me. We do our best to do, we bring the knowledge, we bring, we facilitate, this is the responsibility of you Knowledge Seekers to bring it in. We've seen a good response, but, has to be much bigger that we can secure the network, for all of us. No revolution, no natural disaster can stop Man to be one and look after itself as one. And it's not a currency game, it's a Keshe Foundation game, that's why you receive a Card to be able to get into the system to cash it. It is not in the stock market, and what we call, crypto currency. Even governments need a Card to get in, to access the Card, what you call, the Coins. The Cards are, in a way, your license, you have to look after it, you can't lose it.

But understand what we launched. You have to do everything and correct it, find the mistakes. In the first few months we do what needs to be done, And then we ask the Knowledge Seekers to load up, load up all the teachings. (1:34) Load up everything which is there, to the knowledge we have created. Everything which has ever been put in, load up, you can have access to it. And then I explain to you how you can access to it in totally different way, that no government can interact or interfere with you. We need to reach a figure of 10,000. I've spoken with the designer, the structure of this, for it ?? not to be done. I've spoken to people who've been dreaming to set up, but they don't have the

organization to set up. Keshe Foundation has, Knowledge Seekers can, and do it for us, as a humanity to bring the change.

A thousand Units, it's two million dollars. And it's not enough to cover the whole systems not to be hacked. Ten thousand Units is like a mesh across this universe. Nobody can touch it. We are all safe in it and we can see how the next generation, for all of us, can come into operation. Then everything else will come the way it comes, all the stores. What we call, I was talking to a friend of mine, I said, you heard about Alibaba, you heard about others, this is a plasma-baba, where everything produced through the knowledge of the plasma, Cosmic Ray will be on this site, it'll be on this machine, you can buy, you can give, you can play. At the same time those of you who, when the process comes, you can play the games, this is a, what we call, enlightenment games, enlightenment processes. (1:36) That enlightenment game gives you, if you're after making a living, maybe 10 Coins a year you win, gives you 10,000. If you're happy with it, but it takes a lot of effort to win it, but you make a living out of it, no problem, but it teaches you how to become peaceful.

Help us to bring this in, otherwise I have to go to governments, and then they put their fingers in it. Because, the governments who want to say, "This coming", but they have conditions ?? on giving it. And, I would not like to get these hands, because I know how these hands play.

Any questions?

Q: ... Can you explain how one achieves the game of enlightenment? And when will this be possible to train with?

K- The game is done, it's just that we need another few weeks to complete, what needs to be done. The game has been done, it's a very simple game, it's not something you have to spend lifetime. It will be taught and when it comes out, and then we take it step at a time. It's something which is, what you call it, needs time to be completed.

Q: ... Yes, (1:38) I would like to know if these Units are issued to all kinds of people. I thought the Coins were only going to be issued to Knowledge Seekers. How does that go together?

K- The machines are bought by whoever buys to the addresses given to the person given. It'll be the Coins will go on the, on their Card, it's not posted. You carry a Card, and on that Card we add to the Card your Coins. That's how it works. And if you pay again... Pardon me?

Q: Sorry, originally I believe you said the Coins would only go to Knowledge Seekers, which means people who have been vetted...

K- Yes, you have... Let me explain, but thank you very much for bringing this up. We have made it this way, because it's part of this legal structure. If we offer this into the

open market at the moment it needs a lot of licensing, a lot of other things. But Keshe Coin (KC) has been accepted as an internal Coin of an organization. You understand? So, at the moment only Knowledge Seekers (KS) are in this process. And so the fund goes to the Knowledge Seekers. You have to be part of the Keshe Foundation. And ?? you believe or listen or whatever game, .. want to play by anyone, that you are connected to us, and we issue the Cards that you can get into it. We issue the Wallet. And that's why you pay a hundred dollars or a hundred Euro for the Wallet. (1:40) And you got to be, unless you listen to teachings, in the open market nobody is aware of the Keshe Foundation, what you call it, Keshe Coins. So, you are a Knowledge Seeker and that's how the Cards will be issued. You request it, we take all your detail.

Q: But what about a school system?

K- The school system, if we give to a school, we set up their position into their Card. That those Cards which the machines are with the University or whatever, we set up that somebody in the University, the Principal, whatever, allocated by the University will receive the Card and cash, or the University cannot cash in their name.

Q: But do they have to also go through the vetting process to become...

K- There is no vetting, there is no vetting, it's just a standard... The Institutes most probably allocate to a person or a group, and we lock it into that person or a group. It's very simple because the funds are electronically transferred, directly, automatically, internally. It's like a bank interest. It goes on the Wallet of the person.

Q: How do we know they don't have bad intentions? Like a department at a university.

K- Put it this way, it goes with a good hand, it comes out with a good hand. Does not matter who decides what. This is the problem with us human beings, we always look at the negative side. You put it in the good hand, it comes out with a good hand. And this is the part of the process. (1:42) Most probably in the long term the structures will set up by the Keshe Foundation and organizations which look after the site, to monitor how the funds are spent, and who does what. And, this comes back again to control and trust. This is... if you ask me, "How do you know, they are not going to use it for this and that?" Then, it becomes that we don't give to anybody, because they might do, do this and that.

Abuse exists in every dimension, but... if the way we're going, the way I see it, not tomorrow, not next year, maybe in 5 years, 10 years time, when everybody has everything, they receive a thousand Coin just to be there, every trick made will not be there to make money today. Secondly, with a... we'll just say, look at... You've seen many of you, how you lost addiction. Once we process the system and go through the channels which you are setting up go back on what I said, few months ago, few years ago, nobody will be addict. 60% of the crimes around the world today are based on drugs addictions, greed. ..

I'll give you a very good example of it. When you do this, you change that. You change the scene of it. When it just comes through the, nobody knows, through the radios, through the television channels, through the plasma fields which we release, gradually change. (1:44) Satellites gradually change. Because you want the Man not to kill we still have to get the dogs don't kill, the lions don't kill, and the rest of it. The life on this planet is one chain of killing. The birds kills the worm. The fox or another Man eats the bird. Then something else. We die, the worm eat us. Because there is a mis - chain in this thing. The principle is not there. And it only can be done the way we're setting things up. Hopefully. It's not just understanding the technology, understanding psychology behind it, the greed, the way we change emotion.

Are we always successful? No, but we've been successful. It's for us now to create researchers to target, to understand what actually needs to be the way we find today. They have found such and such a chemical which can change cancer. That's still matter state. We need to set up research to find out the energy which changes the emotion that doesn't allow the cancer to be created. Even the evolution goes that there is no cancer in it. It's knowledge we have to learn.

In one of the experiences in the lab, very recently, we noticed, in part, in the lab, there's material. Because the condition led to creation of material. (1:46) And what was interesting was that next door to it, nothing. Millimeter away, there was nothing. And this is the whole process. And secondly, I'll read you something. To be part of the Keshe VPN network you need to have a valid certificate from KF. Without it you cannot connect to the network anymore. We can revoke a KF certificate within 10 minutes and kick the bad guys out. This comes from the programmers. These are the people who developed this. You ask the question, they're online. They read the answer. So don't worry about it. If anybody misuse it, anybody steals it, it can be revoked.

Q: ... Good morning Mr. Keshe. Thanks for the knowledge. I appreciate you a lot. .. you have answered some of my questions, so I don't really want to, and I don't intend to put negative fields towards that. So, I trust the Foundation knows what they are doing. (1:48) Ask some of the questions that I have in terms of distributing these to schools or to other people. I know most people have ??. They have litigation and they can claim all sorts of stuff. So, but like I said, you have the solution for that. So, while I'm here, can I ask the other question I put out there? From the graph, it seems like the only way to connect to the Soul of the Creator is a straight path. And why is that?

K- Because there is a limitation in the fields. I'm going to post you something which is... come from our team, as we are Live they just put it on a few minutes ago. Have a look at this picture. It's very interesting and it might answer your question. And it's very, very, very interesting. It's what you people seen a few minutes ago. And I have to connect to be able to... Just give me a second. I am not in the network. Okay, I'm back in the network.

Look at this picture which is very interesting. And then I'll tell you why it's interesting to answer your question. (1:50) This is the image of you lot. What you saw in dots now fully expanded. You see the Soul, and you see the Soul, and you see diversion of the

Soul. There's a pattern to this. Our team has established the pattern. This is amazing. It's literally Infinity Loop, an end of Infinity Loops. And when you look at it, it goes only between two points. These are the interaction of the sidelines. What we feed, what the Earth plasmatic field creates. You put this interference aside, you see it. And as I said, this is a Live picture. This is a few minutes ago from you lot. There's nothing here. There is nothing here. There is nothing either way. This is our system. This, if you take this out and you see it clearly, you see this dot? This is our system. But what is interesting, (1:52) you see, we are not far from energy of the Creator. And don't need to see much. It's just now we have to put ?? values into this.

I asked the permission and I'm going to show you something, which is something we are going in the process of. But in the future we show it. I asked before if I can use this picture (graph) and I was told yes. But in the future, we'll give you a full documentary on this. I have to find it to explain it. As usual, one of the Knowledge Seekers wrote to me a few months ago. You sound like giving birth. Now I'm just looking for a picture that explains a lot of things. I have to go on the other end to find it and come back. And then I explain to you about the process of life, the process of engagement in life, and the process we work on. Let me find it. (1:54) You'll all be pleasantly surprised in what we are about to show you. Give me time. Don't be in a rush, because what I'm going to show you, you've never seen, and most of you, you've never seen. This... It's a proof of what we taught for years. Now we have it physically in our hand. I'm going through images which needs to be. In the future, we'll release a full scientific paper on this for you lot to understand it, or the world of science to understand it. Just give me a few more seconds. And I'll show you something which will answer a lot of things. We have a more detailed information on it once we publish the papers.

If you remember, I want to show you something first. That we'll all understand, we all understand. (1:56) This is how we see things and it's part of the process which will come in the future. If you remember I said, that this is the way the fields flow. Infinity Loop and sometimes interaction of the fields of the environment. And you see how the loop changes. And how we are part of the same, Yin and Yang. We have a slight deviation in the ?? X because of the Earth, we have a small deviation here, because the Man is the end, and we have, if you look at this process here, it's exactly what was said for a long time. I try to show it to you here, the center, and it goes, this interaction of the field changes it, then you see it comes to the same point (draws a spiral over top of picture). You saw this Live one, but what is interesting to show is the next picture.

I tell you why it's interesting to show. (1:58) This is part of what we'll show in the future. These two points here, will show you very clearly in the future, end up into two points, which in our system feeds in the system. But in the pictures we'll show in the future there is no connection, clearly two (different lines). And interesting, this is, and it comes from what we call, an individual. Through the tests we've done we have a full scientific confirmation of the Beautiful People. Two Souls, two energy packs within one body. There is no, if you look, there is nothing here (on bottom). This ends up with two energy packs directly in the same (on top). This picture exists in our, what we call, in our system.

For the first time, what we said, that we can define the existence of the Beautiful People, in past few weeks we have the full confirmation, scientifically it's correct. (2:00) In our system, we create a feed. Here they both feed the same. And if you go back, I'm sure in the future research is done, you will see the two Souls. And we finish, when we finish with this one, when it is a full scientific papers about it for the confirmation of the Time, the Place and Position and the Possession. And how they physically interact, how they have their own independent energy sources. We see two clear Souls, have no connection with each other, have no connection with (?? energy) supply. And how the two manage to co-exist with each other?

Then you understand, if you see in the ?? feed, we can do to the Soul. We can feed the emotion of peace. We can feed the emotion of love. I was asked by Knowledge Seekers, very recently, can you create a plasma that makes Man to fall in love with itself, and you know, you fall in love with it. (2:02) I said, "You know how dangerous this is?" It's possible. The way we create the fields of emotions, we have shown you, feeling hungry, you lost addictions or whatever, we can create, develop field strength in the Cosmic Ray (CR) that all of you fall in love with each other. You fall in love with a cat, you won't eat the, God knows, another lamb, you will not eat another apple because everything is in love. I can put you in that position when I can feed you. And out of that love is the energy of the Creator. It's not... Scientifically we can show. I can create a field, for example next week, or next session of the Knowledge Seekers on a Friday, that you all fall in love. Nobody can feed you everything, even the chair is something you fall in love, you won't sit on it.

It's a knowledge we are acquiring, a knowledge we have acquired partially, our scientists understand it, our developers understand it, it goes to the next. We have to do it because in Space I have to make it to love with the Creator that you don't eat other things on your way. My biggest fear for Man is, if Man goes to Space and he kills once, then he gets the habit back. And the worst thing is he teaches the others to find a shortcut. (2:04) You call it killing, I call it stealing energy. So, just think and then we go to the next step of development and what we call, progress. These kind of researches we can do in Keshe Foundation and then bring it up. These kind of research we cannot do with the Universities, because they don't have the understanding of, and the guy is just after one paper to be called a doctor or a professor. These kind of development has to be done in-house, grown, tested, and then delivered.

Any other question?

Q: ... What operating system runs the microcomputers? It's a really great idea to run a separate Coin system on a separate network, and also to be able to introduce it on Earth. Thanks a lot Mr. Keshe for everything. Words can't describe your work.

K- It's usual programming. And we will not run the Coin separately. You cannot run a Coin separately, we don't need to. (2:06) Because in the future they bring a lot of... will come a lot of things that the Coin has its own system, within the system of the structure. No way you can run them separately. We don't want to run this separately because it's not

what we came here, we don't want a separation, we want to bring back the needs, the food, the finance, himself, all together in one system. ..

R: Isn't it a separate network though, that you want to link them all together as nodes?

K- No, no, all is, it is all in one system, sits on one system, but it's secured in a different way. It's all in the same network for different pieces. Stores will come here, teachings will come here, everything will go on the same system, on the same Unit working through the same.

Q: ... Are the first 2,000 nodes already reached?

K- If we would have reached you think I would have been here? We have two processes, first of all we have a, we need to get to, what you call it, as many Knowledge Seekers as we can. And at the same time to make sure it spreads around the world. (2:08) We don't want a pile of one person buying and ten in the house, or twenty pieces in the house. Number of Knowledge Seekers have bought and donated in past week. They bought one for themselves, they give, they've donated 10. They bought one for themselves, donated 20. They bought units and are reselling it. They're directly selling it on to the others to use it. We start in touch with them through the knowledge. People are buying it for the whole family. They're buying it for their grandchildren. They're buying it for their sons and daughters to have an income, they buy 5 or 10 and spread it around the house, this is their income.

Q: ... I would like to know how far the system can reach?

K- Mars, Moon, where do you want to go?

R: Well do the nodes have to be spaced a certain way or a certain structure?

K- No, no, it's connected. No, no. These are standard system, the way it's set up.

R: But you do want to spread out as much as possible.

K- Yes.

R: You don't want it all centered in one...

K- In a way, yes. Yes. That if it doesn't fall in the hand of one government, it doesn't fall in the hand of a bunch of people. Yes, it's good to spread it out. We will, most likely, next few months, test them under the oceans. We are looking at a position to test it under the water. We drop it across the oceans, maybe 1,500 of them. That they're safe. No one can ever touch and reach. (2:10) Because it doesn't matter what depth it goes to, the system works where you go in the Universe, the system will work. And theoretically, if you can get one on the back of every satellite which the countries load we make a beautiful network. But that is for us. I have the opportunity to put down about maybe 10, 15, 20

satellites very soon. But we'll leave that in reserve till we speak to the satellite. There is a possibility we could load the records at once. That would be very funny. We have to pay the Space agencies to load them up. Give them Coins.

Any other question?

Q: ... Good afternoon Mr. Keshe. May I ask what VPN technology has been utilized in the Keshe Coin payment network? Thank you, I ask this question because in China certain kinds of VPN network will be blocked by the great firewall.

K- Knowledge Seekers in China are already buying it, so we are safe.

Q: ... My question is related to the teaching today about the graphic. (2:12) If I understood correctly, you showed us the Creator, the planet Earth, and us, that the physicality. And my question is, where there is empty, this is empty space above the Creator, where would be the end? So there are no Souls on this planet that came from other planets, galaxies or different Universes? This is the first question.

K- The whole thing goes back to one point. Doesn't matter which galaxy, ?? where you come. It goes back to that point which is commonly known that they're in all of us. It's very interesting, let me explain to you. I think you're a doctor, am I correct?

Q: Yes.

K- Okay, now I tell you something very interesting. Go back on the pictures. Then it's something I share with you, which is very interesting. If you go back on the pictures of the system, Very interesting. And go back, if you remember, other pictures we've shown over time. This line, sometimes here. This line sometimes is here. This sometimes is here. Let me do it this way, you see. Physicality sometimes here, it's sometimes here. If you go back to the other pictures, if you go on the teachings you have, you can go back to it, you've seen this starting somewhere here, ?? it's up here. (2:14) What is interesting is that these lines, the way you read the palm of your hand, will tell us your characteristics, your emotions. And then we can measure these emotions to how you're connected.

If you look here, there's a fine line, I cannot get it. It's a problem when you have a big finger. If you put this here, just watch here, this fine line. And then, if you look at the others, before we had it here, sometimes in some of the teachings I share pictures with you, you are here, and sometimes you are here, but the Souls, the energy dots always appears on the right side, which is connected to the Universe. So, in the future, I'm sure, if the way we say, I bring bunch of you lovers on the line, and then, most probably, your lines will be solid. Very much solid, top to bottom. No deviation on these lines. Detachment. Because you don't need to, you don't come in touch with anything, directly from the Creator to the STM.

If you look at it, because there is something I'll teach you some time in the future. This is the STM and this is his genitals. Creator and created. (2:16). The process of Creation,

because with this, then the Man will spread, these dots will connect somewhere. Spread the Souls. Then when this goes, the Soul of the Creator follows. I made you to make children that they may love me. This is in the Holy Books. And you see how it goes. With loving you create more. And that's how it sits. Even God is thirsty for love. I take your... ??

Q: Thank you, beautiful. Can I ask only one?

K- Yes.

Q: Related to this, is for example, I can connect with a dot into the Space, from the Earth and the Creator by my emotion, by the emotion of my Soul, that I understood. So, it's like a repetition of the movements of the emotion of the Souls of my ancestors, because if I don't know other places, it's like a repetition, because I don't know how to do, to go another place.

K- I don't understand the question.

Q: No... To travel to Space I have to connect with a desire or a dot in this space. (2:18) So I think is the connection with the emotion of my Soul. So, but this movement, I only will connect with I think that I know already, or is connected with emotion of my ancestors.

K- Both. We've put partially ourselves because we created new emotions, and partially what we received, which comes with them. It's like we add to the pile. Because then our future generation look at the connections with the ancestors, which is you. Where do you think their ancestors come from? You understand? So we add both to it. We add on both sides. And we can change on both sides.

I was talking to someone, very interesting. There is a certain characteristics which belongs to my bloodline, to me. And all my children carry that. And my mother said something very interesting one day to me. She says, do you know something? Moses, they usually, if you hear the Jews, they speak with the tip of the tongue, they say they do that because Moses burnt his tongue with picking up the coal. When the king said, "Look at this, it's stupid, if a child puts a fire in his mouth, what do you expect him to become, a king?" And we know Jews from that tip of the tongue speaking. (2:20) He said, because my mom was a Jewish blood. She said, "Your bloodline will be shown, because they have this with them." And it's so obvious. So, I brought in, and I give, and that carries on with my children. So, what another 200 generations down the line will have the same thing, so they come back to me, because there's no track of it before me. And this is the interesting point, that it's not just us, we talk about our ancestors, but in the very near future, we become those ancestors. So, we added upon our ancestors and then on top of it we give it on to our future generation. So, it's not just what comes, we are the ones who top it up. We are the genetic modification of our Soul and genes. We modify it to the shape and the things we are. And scientists, they say, if we change the states within the

body over 25 years it becomes part of the DNA. Scientific research. So, we are part of the...

Q: But how the Universal Community... I'm sorry, go on.

K- Carry on.

Q: With this ?? empty, how the Universal members of the Universal Council members of the other Universes can convene inside to help in this dimension?

K- They don't speak, it's the emotion we carry from each other. I once said in one of the teachings, (2:22) "The cry of the Soul of the Universe brought the attention to change the Man." Nobody sits there and cries, this is a, what you call, a symbolic. But the suffering what the STM which gone into the Universe, and the mayhem they've created through killing, has brought, to bring the teachers to change the seed, that, what you call it, take the virus out of the greenhouse of the Earth, that element of killing. You have to understand, even 9 billion Souls, 1 billion dies a year, compared to none of the stars creating Universe, is nothing but when you have a little bit of damage and you see it all the time, you try to repair the damage. This is part of the process. And Earth is not the only planet with defaults. There are some other planets with their own faults, and each one gets sorted on their own time through their own teachers. But you have to understand, before you can teach, and we understand, and now it's time to teach to bring that change. But it's got to be done by Man. Does not matter how much you tell me you have to be correct, if it's in my ?? brain to be wrong I'll be wrong, you can't change it, unless I decide to be correct. Now this is what I keep on saying, we have to change the Man, the habit of killing. And then the Man will be good.

There's a discussion which you hear very soon, it's coming, we bring it up in a very specific way. I don't believe in fighting. I believe in defending, because if you don't defend you get ?? with it. (2:24) And I have put a proposal forward, and it's heard by a few world leaders, and in the coming time will become part of... to make example of and start a process of. We know in June, you know, in the last few weeks, a world leader decided to hit a nuclear, I explained this last time, a nuclear power station, nuclear source, they knew it's nuclear, and they know will create mayhem and a lot of death, it's genocide. This world leader always find themselves immunity. But, those pilots, who took the mission, and carry out, we'll bring them to courts. But, I have started a process with the Israeli pilots, they are getting the information inside, that you are responsible for your kill, and your children are responsible for it, and your families are responsible to pay for it. And we gradually bring this up to the... those who make arms to kill.

And Knowledge Seekers said to me, "What about now, robots are coming, robot soldiers, they have no Soul." I said, "Somebody build them." They build themselves, somebody planned it. They're carrying a set, somebody set the program for. (2:26) It's not to frighten, it's to bring consciousness. Why should my child pay for what I've done wrong? And this is the way we go, and we are getting to that point. No pilots will fly to kill other

people. No gunman will shoot another gun. Because no man will design it, because he doesn't want to carry.

We got to realize we need a time to grow. And now, the Keshe Foundation International is in that point, to come out and do what wants to do. Just Keshe Coins is part of it, there are a few other pieces, and some of the defense side, and all that we are working on. Very quietly. Extremely quiet. Because the minute we shout, they find a way. Trying to find another reason to do whatever they want to do. But with diplomacy, working with the governments, working with world leaders, gradually, in the next few months and years, we planned this, that no nation takes. And I said to you over there, that the African nation converted, gone into God knows what. But then now they are thinking of building their own defense, and this is what we're targeting. To bring these nations, forget about doing that, let's move to the next step.

And, this one needs to be done. Consciousness, changing the environmental energy the way we are doing. Bringing Man to the point that he doesn't need to fight to live. Then we'll see the changes. (2:28) We are hitting in different directions through the Keshe Foundation. To change the grain of the killing and destruction, to understanding for the next steps, evolution and development. If you look at it, in every direction possible, we are acting. The knowledge, the Coins, the agriculture, everything through that fields is increasing the STM, is conscious, and is what you call, enlightenment.

Q: ... You said few things in the past, some of it you said in many of the teaching. One is, there is no accident in anybody's life. There is always, there is a reason for it. Okay, that's one thing. (2:30) The second thing is you said this has happened to planet Earth many times. It means we came to this planet, we went through the process, and we destroyed ourselves, and God started it again. Today you talk about where we come from, like our Souls, where it started, what's the DNA. So like I was watching a movie from 1946. 1946, I didn't exist. The question was where was I? Was there in the past the planet Earth happened, this happened again, was I there then and I came back again to do this? And then if there's no accident and they say everything is, your script is already written, you're just playing it. So I'm thinking this is a script that God written and we're playing, we are the actors in it. So what's the point of elevating someone's Soul when the script for that person is already written? I'm going to elevate the Soul if the person like Netanyahu was supposed to kill a lot of people. That's his job. He's acting and it's no accident. There's no accident. So my question is why and if there's no, there's no, this happened before, it means you existed before you came as a teacher and then you were gone and then I came I was here too, and I was gone and I'm repeating the same thing. And if that's the case, why we do what God wants to do all these things over and over again? And then does God has a problem not knowing how to solve the problem, or and does it have the power to figure things out? I mean is it... I mean is the human is so powerful that the God cannot overcome this? This ?? stupid human? (2:32) And then how do you answer this? Because I don't want to repeat the same thing over and over again. .. Hello?

K- Yes, I'm listening.

Q: So what is the reason for all this?

K- We are a process of ... So, you know, like a cow regurgitates its food and then it goes back, and it goes back. We are in another dimension of the same thing but the energy, but again, Universal. What we gain on the way, what we give on the way, and what will lead to be created by us, and what we have created out of. It's one pot. It's not infinity pot. But it's a very big pot. And we like that, I say, chickpeas, which is one second on one side of the pot, it boils and it ends up on the other side and then it boils and it goes on the other point, in this pot. This is how the energies of the Universe are. And how it interacts with other things in that pot. It's not the only chickpeas, there's everything else in there. And how, at a point, it gets pulled out and what it's mixed with it, and what taste it creates, what the emotion we create. And this is how the universe is. This is how the work of the Universe is. (2:34) Some of it repeats itself back in the same place. Some of it, it repeats in conjunction with others. You say we were here before and we come back. How come we get only blacks in Africa, because the system repeats itself, the same genes repeats itself, it has repeated itself to find the solution that it can stand the environment and the brown or the black is the best color to the eye of the Man. But it's the survival of the field which can be contained with that structure. Some of it is from now and some of it comes from the back as whatever in a sperm or an egg or the environment.

For sure. I listen to this a lot of times, but for sure, if something happens and the whole breathing, living, creatures on this planet die, vanish. Within a few months, within a few short time, there'll be another man, there'll be another worm, there'll be another dog, there'll be another cat, there'll be another tree, again. Because the environment of this planet creates this life, creates an Amino Acid (AA), which by its own interaction creates life, and life because of the structure of this planet, means a living things and in the time will create for itself a liver, a kidney, its way to dispose, a way to store, a way to control, we call it the brain, the kidney, the blah, blah, blah, blah. (2:36)

I bring energy in this planet, it will change the Man. Because this planet creates Amino Acid, its balance fields is Amino Acid, what you connect it to becomes a plant, becomes a dog, becomes a Man, becomes a shrub, becomes a fish. The environment decides how you manifest yourself, that's why it's called the Spirit. But in essence, this planet, gravitational magnetic field of it, is Amino Acid combination, which means creation of life. So, what's the purpose of living? This planet creates life, and life in essence, the Universe has ??, okay, they do this, we use it to get the energy, which is needed from its collection, to creation of another position, because it takes too long to do it. Don't you go to the shop and buy a fully grown tree and you bring it to the house and you put it in the house and now you can enjoy the fruit of it. That's what God does. That's what this planet is for. This is why I call it the green house. You don't want to understand. The Creation has found a solution for it to create.

The question, the biggest question is, why does God need so many planets and the stars? Why does He keep on growing? Does He get a bonus from the Unicos to the number of the planetary system and the galaxies He has created inside it? Or does it create a combination of these, a field which attracts more energy from the Creator is a bonus?

(2:38) If you think of it, we, as I explained, we eat the food to put the energy seed in us to absorb energy from outside. Why is God doing this with all of us, with creation of all these galaxies and we studied, this is neutrino, this is the neutron stars and the rest of it, but the guy is busy because he knows he gets 80% from the Unicos, the more he creates energy transformation here. Is there any difference between the force of creation of the Man and this planet, and the work of the Creator of this Universe and other Universes? Are we part of the urinary system of the Unicos, we don't know about it and we call it our Universe? We are part of a cell of a kidney of the system?

There is a way, where I show the picture today you've seen of the fields, I can show you the picture of the Unicos. Are you ready to see it? It takes me couple of weeks to build the system, if that, I can show you the whole Magnetic field structure of our Universe in the position of the Unicos. I have the knowledge.

Q: Mr. Keshe last time we didn't make it, were you here as a teacher?

K- Which last time? Last time we had all this, the last time we had all this, that they are fighting in the name of.

Q: No, no, I mean last time the planet... Last time the planet...

K- No, there is no last time. There is no last time. What's last time?

Q: You said, you said, you said, you said many times this happened to us. So I'm talking about the previous time this happened to us, were you here... (2:40)

K- This happens this cycle of killing and everything else you do, yes. But this time it won't happen, we just... You know, Man has never been aware of the purpose of his Soul. What is the purpose? Now you understand, you're just... we are just that... I said it to one of my children once, if you understand it. It's the nursery which needs to create a perfect flower. And we are in that process of creating perfect flower. And we are gardeners who trim it here and there, and sometimes you create a thorn, we cut it, to get to that perfect soil, flower. It's that beautiful, with the most beautiful colors, with the most beautiful smell, with the most beautiful emotion. That's the STM. And, every now and then, you leave the tree, because you think you sent somebody to trim it, but he was too busy killing and enjoying himself, he forgot to do his job properly. Now we do it properly, because the whole purpose of the 12 Commandments, the whole purpose of all these Commandments, and all these people, whatever you call it, was to show Man, "Don't kill." Why do they say, "Thou shalt not kill"? It's just because, when you kill, you bring disturbances, that's not allow the STM to elevate. It doesn't come, "Thou shalt not kill." Why do you kill an apple? Why do you kill a tree? You haven't stop... It's not just killing somebody in they put you in prison for it. Thy shall not end a cycle of fields, you call it life. (2:42) Irrespective of...

Q: Not even an apple from a tree?

K- No. Who gave you the right?

Q: But what about the apple? What about, Mr. Keshe, what about if the apple is on the floor? Can you pick it up from the floor?

K- Who said you have the right?

Q: I cannot do it because...

K- Just because you... No, no, Azar, Azarjan. I'd love you to understand this. An apple fall off the tree, yeah? You fall on the ground, does every other man has the right to kick you?

Q: No.

K- And do whatever, because you're... So, what's the difference between you and an apple? Who gives you the right? Is it destiny of the life, or the way you chose? You think you're higher than an apple, you fall on the floor. Can I kick you, because you are on the floor. What's the difference? What is the difference Azar? Nothing. Why do we think we are different?

Q: I think probably in a month I'm going to die, because the way you're talking now, I cannot eat anymore.

K- No, it's not eating, it's understanding. Why should you die if you don't teach yourself to get energy from the environment you live in? It's free, that apple when it falls on the ground it gives its energy, it's for you to absorb. But you haven't got the right to destroy it. Why is it, who said to die of hunger, learn to absorb, learn to... You've been all over the world, you've tried every trick in the pocket of the Creator, I know. You went to Tibet and you've gone all the way to Central Africa, to America, just trying to find a way that you do this and that. But have you stood still to think, "I'm entirely the center of the attraction, (2:44) is it me who can attract the energies without me learning to give my energies, that I'm the cup is empty, I can fill it up?" How many places you've been? How many gurus you've seen Azarjan?

Q: You know, you know Mr. Keshe, Mr. Keshe, you know how you play with this, like this bubble, like you know, with the soap bubble, you blow in it, and the bubble comes out, you know the big soap bubble goes in the, you know, in the kids are playing. Sometimes, you know, I...

K- I was playing with one, I was playing with one yesterday, so I know exactly what you're talking about.

Q: Okay, so, so, so, Sometimes I feel like we are all in this bubble, and then I have my finger, at the edge of it, I can make an opening, and I'm... we all fall down. Something, I

don't know, something, something that is just, I don't, I don't know how to pinpoint it, but it's just like...

K- Yeah, but look at it in other ways. Why don't you, all the knowledge you gained, you started from a child. You spent time in prison, you gave life to the most beautiful woman in the world, your daughter, you traveled the span of the India with the gurus, you've been to Tibet, you've been to Brazil with the rest of it, you've done everything possible, yeah?

Q: Yeah.

K- You, you know the torture of not knowing if next second you're not alive or you're dead in the prison, at a young age. You know, tested all sorts to go to the edge of letting everything go. But, have you ever stood still, that I'm the center? And, I need to give, for me to receive. And then, but what I give, I receive to be in this body, in this position, in this time. (2:46) Then you'll find everything done is, it should have been done a long time ago. Why didn't they teach you to do this? Physical body is a manifestation of confirmation of physicality. We live in the dimension of the Soul, I can have any body. We have not found, we have not discovered, we haven't been elevated to understand the power of our Soul, and that's the problem with humanity.

Doesn't mean you have to die, doesn't mean you have to starve. I keep on telling you, learn, you've seen it in the picture, give it from the Soul, let it mix with the field of the Earth, and the physicality creates itself. The Children of Mitra will be created that way, by the interaction of (the fields). You don't need to put in an egg and a sperm. You don't need to get a fish to lay and the other fish to go on top of it, lay something else or spray it with something else and create life in it. Why don't you become through the dimension of the fields, energy, that seed, that it gets energy from the other and gives life to a new dimension for the Soul, for the energy, what we call the Soul.

We are not here to teach you religion. It's not a religion, it's understanding the process of Creation. The minute somebody tells you Keshe Foundation is a religious, he is a guru and the rest of it, tell them you haven't even understood the process of the Creation. Since when we put a teacher of biology in prison, because he... you're talking about something we don't understand. We are no different. (2:48) I'm the biology of the energy, you call me a nuclear physicist, the other guy shows you the physical, the same dimension. What's the difference between the two teachers? The one who says, put a finger around the Keshe Foundation or whatever, because you learn about yourself, now they see they themselves, losing control over you. The abusers always accuse, there is no accusation. You have to understand what you are made of. If we are a religion, so all the biology teachers in the school should be banned, nobody should know about biology.

If you look at the pictures you've seen today, the line in the middle is a conversion of energy to physicality. And then I teach the whole lot, the physical, the teacher teaches the bottom line (P). So, there should be no biology teachers in the schools, because it's criminal for you to understand about your own structure. Because it's physical, you can't

see it. The only one is the energy, you can't see it. Then it's just becomes, what you call, a religion. And then if you know what vitamins, what food you have to get, vitamin B, what food you need to have, vitamin D, and what food you need to get, Calcium. I teach you how to get energies from the Universe that produces that Calcium without you killing when the energy is there.

Did we kill anyone? We produced gold and whatever in Beijing in May? No. We use the fields of the Universe. You have two halves in your brain. I have to react. (2:50) I produce matter on the table. You produce your physicality. Does this create a religion? Or your lack of understanding the process of Creation? Are we back to the time when the guy said, "The Earth is not center of the Universe" and they put him in the church, they hung him. I've been to that place. Since when Knowledge of Creation is a crime?

This is, I was talking to somebody past few days, we were laughing. I said, "You know something, it's the worst thing to be Iranian nowadays. We are the only nation who gets damaged, the bombed, boycotted, for gaining Knowledge of the Creation which is nuclear." Where everybody else can be. But if you're Iranian, it's a crime. The same is a crime for Iranian to teach about knowledge of the fields of the Universe. If I was an American, I would have been Nobel Prize winner, half of America will be bending back and upright. But, then this has a reason.

The light of the Knowledge of Creation will shine upon Iran, and it'll come from Iran, and it has come from Iran. Cut your arms to whatever you like, we'll change, we'll bring the change. So, attach anything you like to it. It's your lack of understanding, not the Knowledge of the Creation, is there. You can't put your head under the pit, under the blanket and say there is no light, it's dark. You've decided, it's your problem. It's nearly two. Is it twelve o'clock? No, it's four minutes. (2:52)

Q: It's three hours Mr. Keshe. It's already three hours.

K- Yeah. No, I have read. I'm losing my sight, I read different.

Q: Yeah, I had another question but I leave it for next time maybe. Because I was teaching, one of your old teaching and I, somebody asked a question and I got stuck and I didn't know what to say.

K- Go on, tell me what was the question.

Q: Okay, so there is a free plasma that we have, and then, we're talking about three axis. X axis, Y axis and Z axis. X axis is the environment, which means that free plasma is in it. And the Y axis is going to the clockwise or anti-clockwise, like plus or minus. And then the, the Z axis is...

K- Is this teaching, if I remember correctly, is it from...

Q: It's the time that you were working in a laboratory with a group of people.

K- Yeah, yeah, yeah, yeah, this thing, this is from Trani Italy.

Q: You know, you know, no, it's, you know, if you, it was in Italy and it was about the pyramid. Do you remember? Do you remember the pyramid?

K- Yeah, this is from Barletta, I remember that, yeah.

Q: Yeah, so, so, when you go to the Z axis, it's about, is it gravitational? It means it's attracting to you or repelling, Magnetical. So, when the Z-axis goes up, you said it gets to North Pole and South Pole. So, how the South Pole and North Pole comes to the Z-axis? Somebody asked a question and I can't answer.

K- If you look at it now, we are further down the line. It's the same as what we showed earlier today. The North Pole is the Soul of the Creator, because it's got a higher energy, the South Pole is the Soul of where ?? you absorb. And, the Z axis is the STP. (2:54) It comes, it has no other point to come, it's balanced between the two. It comes, it's the outcome of the interaction.

In a near future we will measure the emotion, the sickness of the Man, through the fields of the body of the Man. And through it we'll understand more. We have no choice. As we become the Man of Space, as we develop this technology of understanding, the world of the energies, we say, as a human race, as those, plus the help of the others from other parts of the Creation. We'll get access to a knowledge which lead us to understand, in a bigger picture, the whole process of the Creation. Very soon, we'll be joined by a race which brings a knowledge to Man, the Man could not even imagine exists. It will change our dimension of understanding of the Creation. They'll bring new emotions to Man. And they bring to us a dimension of knowledge which we don't even know exists. It's not even in our imagination that such a thing can exist. And this process will be, it will bring with it new dimension, and with it, it comes an elevation of this, what we call, the STM. It's part of what is about to happen, and you know what we say, "Part of it, doesn't take (happen) tomorrow." But it's part of the process it needs, and you know in that process, (2:56) and it's just to do with human race, and with this part of the Universe.

It's like when they say, you see, they tell us there's a meteorite in the Solar System, it's coming toward us. There is an energy pack which has, is on the way towards this Universe, which will change the vibration of it, the conversion of it from the Universal energy to our Universe energy. It will create a ripples of fields, which will enlighten the whole of this Universe. It's another process. It's not just Earth that gets hits by meteorites or by energy packs from outside. We'll receive an energy from the process which is happening in the process of the Creation in the Unicos. And that will bring us another ?? enlightenment, and partially the reason we teach is, knowing that it's on its way. And then it comes together, because that will take you to the, let's say, one step, that will bring the whole of the knowledge, the whole of understanding of the life in this Universe, 2 - 3 steps higher. It's a process, you won't even feel it, it just hits you in the ??. And you understand, ?? understand this, I couldn't ?? understand it yesterday.

Shall we call it a day Rick?

Q: Thank you Mr. Keshe.

K- You're welcome.

R: Yes, sure Mr. Keshe. Anybody who has any questions remaining can please carry them over until next week's program. (2:58) And we can see if we can get them in then. See here, I'll just read one thing in our chat. From ?? Dankin in Kenya, says, "Hello Mr. Keshe and Rick and everyone. I have my four friends who are very happy with this workshop. They are happy for learning more and one of my friends comes from Tanzania. They are listening to you now and are happy to hear how you are teaching people, all around the world." Thank you Mr. Keshe for another Knowledge Seekers Workshop here, number 603. Congratulations. And...

K- We are going from number 9 to number 10. $6 + 3 = 9$, then we'll come 10. You never know what might come.

R: Well we look forward to next week's workshop, which I presume will be at the usual 9 AM, so far as we know, CEST time. But if it's any different, we'll let people know. Thank you very much.

K- Thank you very much and see you next week. Please support us with this, with these Units, because we are there to change, nothing can stop us. And we do everything possible to make sure this time the change comes collectively and not just with a few. And those who in the German community creating mayhem, doubts, they don't usually come from us, they are deliberately there, especially in German group. There are few people who work for, what we call, the other side, we know them. (3:00) And they are continuously in there ?? Not ?? so good, but they are actually there to, disrupt and bring doubts in German community. It's very close to each other and they create, "I'm doing this." You have got to be above this. And, what it is, it is somebody ?? going to change, you're not going to change, no one can stop. As I said to a Knowledge Seeker in past few weeks, this train has left the stations it's on his way. Nothing can stop it anymore, then you understand soon why I... Thank you very much and see you next week and hopefully we go to the next step. You just put something from Universal Council.

R: Yes, I was asked to...

K- Yeah, so the Universal Council invites the Keshe family, to unify in the Soul level, every time and every day, at 9pm Central European Time, to elevate the Soul of His Eminence Ayatollah Khamenei of Iran to accept the sell of nuclear materials to the leading nations, part of technology in access for everlasting peace in the world.

My message for you from understanding the process of the work, no one has done more to bring peace and bring balance, in so many ways, because they see the others , then the

Ayatollah Khamenei of Iran. One day I explain to you how, and the way he has worked. (3:02) In my past teachings I always refer to the position and the way the Ayatollah Khamenei of Iran has helped Iran to get to where it is. Till last month, before the war, many Iranian accused of the regime to steal and do this, and they do things. And when the silence opened, when Iran showed what so much was spent, what people were put in was to protect Iran, Iranian silence, that nothing was wasted. And few stole. Nothing was wasted, and the nation could stand to the way it is. And this all comes with the wisdom of a leadership, not by accident. And we need to elevate the Soul of people like him. And people who push for peace, we have another leader in Africa, we have another leader in Asia. If you put world leaders, present world leaders who are actually more in the direction of changing, bringing a permanent peace, is Ayatollah Khamenei of Iran, Burkina Faso, President Xi of China, and one or two more. And these people give their lives, put their lives on line for many of you who don't understand, and we are blind to it, and as I said, like German groups, there are people who try to blind you with other things, to bring the change. And, these Souls are there to bring the change, and they need a lot of support. Thank you very much. I'll see you next time. (3:04)

603 KSW – August 14, 2025
